Subject: Collection of Selected Domestic and Imported Foods for Herbicides Analysis

Good morning,

The following samples from this assignment are coming your way today:

[UPS Ground Tracking #1ZA4796Y0399166774](#)

INV947830 – wheat

INV947831 – barley

INV949368 – barley

[UPS Next Day Air Tracking #1ZA4796Y0199482766](#)

*the 525 identifies them as refrigerated only because they decompose quickly as they thaw

INV949369 – sugar beets

INV949370 – sugar beets

INV949371 – sugar beets

INV949372 – sugar beets

INV949373 – sugar beets

Subject: Collection of Selected Domestic and Imported Foods for Herbicides Analysis

DFPG#: 16-08

FACTS Assignment #: 11618100

ORA Concurrence #:FF16020501

Background: Herbicides are widely used in the U.S. and around the world for weed control and as plant growth regulators for agricultural crops, lawns, and gardens. FDA has never monitored glyphosate and the acid herbicides in its regulatory pesticide program. Recently the International Agency for Research on Cancer (IARC) said glyphosate-containing formulations are probably carcinogenic to humans.

Please find attached CFSAN field assignment, " Collection of Selected Domestic and Imported Foods for Herbicides Analysis ". This assignment has been cleared by CFSAN and ORA. Resources for these activities are planned in the FY 16 ORA Field Workplan.

Please carefully follow all guidance provided, to ensure that the proper samples are collected. For additional information, please contact me.

Thank you.
