Aaron,

There are 2 potential issues that come to my mind, but both are based on assumptions and analogies with other criticisms, and are not based on reading industry criticisms about you

- the issue about the "negative" AHS study "outweighing" the positive studies on NHL
- experts reviewing their own work

After the latest invitation to the European Parliament, we have posted additional material on our website (Kate's ppt from Brussels, extended Q&A responding to some criticism (including the AHS issue), see upper right hand corner "Featured News" on IARC's homepage <http://www.iarc.fr/>)

I have also copied Kate, Dana, Nicolas and Veronique, if they are aware of any specific criticism about you.

Please keep us posted,
Kurt

Any idea what criticism he is referring to? Any advice?

Aaron

Dr. Blair, This is Andrew Martin from Bloomberg again. I wonder if you would be willing to talk about the pesticide industry's response to the IARC report on glyphosate, in particular criticism that was specific to you. If so, is there a time and a number I can reach you? Thanks! Andrew

Andrew,

I suggest that you contact IARC directly. You should try:

Kate Guyton - GuytonK@iarc.fr

or

Kurt Straif - straif@iarc.fr

Hi professor, This is Andy Martin at Bloomberg Businessweek. I wondered if you were available for a brief chat about your work for the IARC. If so, can you tell me when and where I can reach you? Thanks, Andy Martin

Andrew Martin
