Re: Kennedy v. Monsanto, Meet and Confer on Discovery Issues

Dear Rosemary and Jim,

We had previously requested all studies relating to the carcinogenicity of Roundup®. However, the documents submitted thus far have omitted a number of third-party study reports. The studies listed below were reviewed by Monsanto employee David Saltmiras and summaries were published in Greim 2015. We request that you provide the full study reports. In addition to the chart below, please provide the translated reports for the TAC consortium studies, HR-95053 “Oral Feeding Combined Chronic Toxicity/Carcinogenicity Study in Rats with AK-01 (Glyphosate) Technical; and HR-95056 “Oral Feeding Carcinogenicity Study in Mice with AK-01 (Glyphosate) Technical.” We would ask that you provide these study reports by December 30, 2016.
