Subject: Simplot Plant Sciences comments on their deregulation of Innate 2.0

Simplot is looking for some comments on their deregulation of Innate 2.0 with blight resistance before January 9, 2015 - if you have not done so already....the antis are trying to get the comment period extended as usual - so more comments makes it less likely this would be done. The direct link to provide comments is here (you may need to paste into your browser) <http://www.regulations.gov/#docketDetail:D=APHIS-2014-0076>

The comment period ends January 9th. If you have further questions or need additional support, contact Erik Gonring - contact details below

On Dec 11, 2014, at 10:19 AM, "Emily Waltz" <emwaltz@gmail.com> wrote:

Kevin,

I'm wrapping up the story. I would like to use your comments about the approval of this potato giving you some hope. I think it's an important one that will resonate with many of our readers who have traits sitting on shelves in their labs. But we need to work on the quote a bit. Below is the paragraph with your comments. These are verbatim from the tape of our conversation. I've added a few words in **[bold brackets]** to help make it clearer in the context of the story. The words in the brackets would replace the preceding word in the sentence. Please let me know if you are okay with the changes, or if you have any suggestions. I have to file the story today.

The newly approved potato is a milestone in the ag biotech industry because it was developed and pushed through the regulatory process by a company outside the small club of multinational traders that have dominated the biotech crop market. "This gives a little hope to a guy like me at a university," says Kevin Folta, chairman of the horticultural sciences department at the University of Florida in Gainesville. "We have solutions for citrus that we can't use because it's so difficult to deregulate **[get them through the approval process]**. So seeing a company that's not the traditional Monsanto, Dow—whatever—**[Dupont or Syngenta]** be able to navigate this **[the regulatory process]** is a ray of sunshine for us."

Dear Dr. Folta,

Emily Waltz here with Nature Biotechnology. I'm working on a news story for our journal about Simplot's non-browning potato that was recently approved by the USDA. Neal Carter (Arctic Apple) and Jon Entine (Genetic Literacy Project) both suggested I speak with you.

I'd like to hear your general thoughts on the potato and it's value for the market, as well as the value of the technology for the ag biotech industry. Do you have 20 minutes or so to speak on the phone today or tomorrow?

Best regards,

Subject: article in the Canola Digest

Hi Kevin

Can you review the article to ensure the facts are correct? And can we include a quote from you as well, on why you give presentation like you do?

Thanks so much.

Deadline is today Wed Jan 14 end of day.

Thanks Kevin, sorry for the short notice.

Magazine background of Canola Digest:

Canola Digest is the official publication of Canada's **canola** growers. It covers a range of topics from agronomics to marketing to the latest developments in the **canola** industry. The magazine is published four times a year and distributed to more than 40,000 readers (farmers) across Canada.

Subject: Bring Your Business Cards!!! We are Having a Mixer with Arizona Agricultural Business Leaders - Optional Day, Tuesday, March 3, 2015

Hello UIC Members, Guests and Speakers of the 2015 UIC Spring Meeting in Yuma, AZ

OVERVIEW

The Spring 2015 Meeting in Yuma, AZ is going to be an outstanding meeting !

The Agricultural Business Leaders of Arizona and the University of Arizona are pulling out all of the stops to make this an experience of a lifetime. We will have leading edge speakers addressing new technologies and their application. We will also tour one of the most unique and productive agricultural regions of the world.

As if the above was not enough, this is an opportunity for all of you, in the **frozen north**, to travel to one of the most popular winter getaways in the United States. You may wish to travel through San Diego, (only a couple of hours from Yuma), the perfect location for a long weekend with your significant other.

DO NOT WAIT TOO LONG !! to register for this meeting and to make your room reservations! The room block closure date is fast approaching and we may be in a sold out position prior to the closure date!

SOCIAL MIXER – AGRI BUSINESS LEADERS

I wanted to give the "heads up" that we will be having a mixer at "The Barn"* following our Optional Day tour of the Yuma valley.

*A local, privately owned museum and collection of unique treasures from around the world.

The idea for this event surfaced at our Spring Meeting in Raleigh, NC and also came forth, "unsolicited", by the agri business leaders in Yuma. We will be treated to the finest barbeque in the west prepared by a competitive barbeque master/ag business owner/ag producer and resident of Yuma.

This event is to provide the backdrop for facilitating relationships and building alliances. Therefore, **don't forget to bring your business cards**. Please note, you will also have the opportunity to interact with a number of these leaders during the Optional Day Tours... you do not want to miss the optional day tour.

ROOM RESERVATIONS

You may call 928-783-1500 to make your guest room reservations. If calling be sure to reference the University and Industry Consortium (UIC).

You may also use the following link... http://hiltongardeninn.hilton.com/en/gi/groups/personalized/Y/YUMRSGI-UIC315-20150302/index.jhtml?WT.mc_id=POG

MEETING REGISTRATION

If you have not already completed a registration form, you will find the member/guest registration form and the speaker registration form attached for your convenience. Simply complete the form and return it to me in MS Word format ASAP to reserve your space.

LATEST DRAFT AGENDA

The latest draft agenda is attached for your review and reference.

If you have any questions, feel free to contact me at your convenience.

Hi Cynthia,

The bio and headshot are attached.

I'm doing literally a talk a week in this area, so I'd like to tailor this to your group's needs. I think what I'd like to do is:

1. How the technology works
2. Risks/benefits
3. Health claims against
4. Technology going forward.

With this plan the best title might be, "GMO Technology- Understanding Evidence of Risks and Benefits"

If this is okay let me know.

Hi Kevin,

This is the email which I referenced in my voice mail.

Registration Form Needed

If you would please complete the registration form and return it so that I can accurately incorporate your information into our meeting materials and plan for your attendance. I am finalizing all documents and headcounts.

Room Reservation

Also, you need to make a hotel reservation immediately... the rooms are almost gone and the hotel may be in a sold out position. If you have already made your reservation, please forward your confirmation number so that I can have your room moved to our block. Our group rate is \$109/night.

You may call 928-783-1500 to make your guest room reservations. If calling be sure to reference the University and Industry Consortium (UIC).

You may also use the following link... http://hiltongardeninn.hilton.com/en/oi/groups/personalized/Y/YUMRSQI:UIC315-20150302/index.jhtml?WT.mc_id=POG

Personal Bio

Finally, I need a 2-4 paragraph bio for inclusion in the meeting program.

Thanks,

Ralph Tisher

Subject: Bring Your Business Cards!!! We are Having a Mixer with Arizona Agricultural Business Leaders - Optional Day, Tuesday, March 3, 2015

Hello UIC Members, Guests and Speakers of the 2015 UIC Spring Meeting in Yuma, AZ

OVERVIEW

The Spring 2015 Meeting in Yuma, AZ is going to be an outstanding meeting !

The Agricultural Business Leaders of Arizona and the University of Arizona are pulling out all of the stops to make this an experience of a lifetime. We will have leading edge speakers addressing new technologies and their application. We will also tour one of the most unique and productive agricultural regions of the world.

As if the above was not enough, this is an opportunity for all of you, in the **frozen north**, to travel to one of the most popular winter getaways in the United States. You may wish to travel through San Diego, (only a couple of hours from Yuma), the perfect location for a long weekend with your significant other.

DO NOT WAIT TOO LONG !! to register for this meeting and to make your room reservations! The room block closure date is fast approaching and we may be in a sold out position prior to the closure date!

SOCIAL MIXER – AGRI BUSINESS LEADERS

I wanted to give the "heads up" that we will be having a mixer at "The Barn"* following our Optional Day tour of the Yuma valley.

*A local, privately owned museum and collection of unique treasures from around the world.

The idea for this event surfaced at our Spring Meeting in Raleigh, NC and also came forth, "unsolicited", by the agri business leaders in Yuma. We will be treated to the finest barbeque in the west prepared by a competitive barbeque master/ag business owner/ag producer and resident of Yuma.

This event is to provide the backdrop for facilitating relationships and building alliances. Therefore, **don't forget to bring your business cards**. Please note, you will also have the opportunity to interact with a number of these leaders during the Optional Day Tours... you do not want to miss the optional day tour.

ROOM RESERVATIONS

You may call 928-783-1500 to make your guest room reservations. If calling be sure to reference the University and Industry Consortium (UIC).

Source: <https://www.industrydocumentslibrary.ucsf.edu/chemical/docs/trbm0226>

You may also use the following link... http://hiltongardeninn.hilton.com/en/gi/groups/personalized/Y/YUMPSGI-UIC315-20150302/index.html?WT.mc_id=POG

MEETING REGISTRATION

If you have not already completed a registration form, you will find the member/guest registration form and the speaker registration form attached for your convenience. Simply complete the form and return it to me in MS Word format ASAP to reserve your space.

LATEST DRAFT AGENDA

The latest draft agenda is attached for your review and reference.

If you have any questions, feel free to contact me at your convenience.

Thanks,

Ralph Tisher

Hi Ralph,

I'll get this taken care of today. I'm sorry it has taken so long—the schedule has been packed full 24/7. I'll jump on it no later than this evening.

Kevin

Importance: High

Hi Kevin,

This is the email which I referenced in my voice mail.

Registration Form Needed

If you would please complete the registration form and return it so that I can accurately incorporate your information into our meeting materials and plan for your attendance. I am finalizing all documents and headcounts.

Room Reservation

Also, you need to make a hotel reservation immediately... the rooms are almost gone and the hotel may be in a sold out position. If you have already made your reservation, please forward your confirmation number so that I can have your room moved to our block. Our group rate is \$109/night.

You may call 928-783-1500 to make your guest room reservations. If calling be sure to reference the University and Industry Consortium (UIC).

You may also use the following link... http://hiltongardeninn.hilton.com/en/gi/groups/personalized/Y/YUMPSGI-UIC315-20150302/index.jhtml?WT.mc_id=POG

Personal Bio

Finally, I need a 2-4 paragraph bio for inclusion in the meeting program.

Thanks,
Ralph Tisher

Hello Kevin, Owen and Vance,

I am forwarding the email below so that you will have the information you need to register for the Yuma meeting and to make your room reservations.

I would encourage you to do both as soon as possible.

Thanks,
Ralph

Subject: Bring Your Business Cards!!! We are Having a Mixer with Arizona Agricultural Business Leaders - Optional Day, Tuesday, March 3, 2015

Hello UIC Members, Guests and Speakers of the 2015 UIC Spring Meeting in Yuma, AZ

OVERVIEW

The Spring 2015 Meeting in Yuma, AZ is going to be an outstanding meeting !

The Agricultural Business Leaders of Arizona and the University of Arizona are pulling out all of the stops to make this an

experience of a lifetime. We will have leading edge speakers addressing new technologies and their application. We will also tour one of the most unique and productive agricultural regions of the world.

As if the above was not enough, this is an opportunity for all of you, in the frozen north, to travel to one of the most popular winter getaways in the United States. You may wish to travel through San Diego, (only a couple of hours from Yuma), the perfect location for a long weekend with your significant other.

DO NOT WAIT TOO LONG !! to register for this meeting and to make your room reservations! The room block closure date is fast approaching and *we may be in a sold out position prior to the closure date!*

SOCIAL MIXER - AGRI BUSINESS LEADERS

I wanted to give the "heads up" that we will be having a mixer at "The Barn"* following our Optional Day tour of the Yuma valley.

**A local, privately owned museum and collection of unique treasures from around the world.*

The idea for this event surfaced at our Spring Meeting in Raleigh, NC and also came forth, "unsolicited", by the agri business leaders in Yuma. We will be treated to the finest barbeque in the west prepared by a competitive barbeque master/ag business owner/ag producer and resident of Yuma.

This event is to provide the backdrop for facilitating relationships and building alliances. Therefore, *don't forget to bring your business cards*. Please note, you will also have the opportunity to interact with a number of these leaders during the Optional Day Tours... you do not want to miss the optional day tour.

ROOM RESERVATIONS

You may call 928-783-1500 to make your guest room reservations. If calling be sure to reference the University and Industry Consortium (UIC).

Hi Kevin,

I already talked to Dr. Darnell and now I'm taking care of everything that needs to be done.

I'm contacting some professors for the talks. I saw you were assigned to give 3 talks in this course last year. Do you will be able to give the same talks next spring?

The talks are: [REDACTED]

I know that you are busy specially during spring but, if you can't give the 3 talks, could you give the GMO talk (I think can handle the other two talks)? If yes, what is/are the best Thursday(s) for you?

Thank you,

[REDACTED]

[REDACTED]

You can teach the class in spring. However, there is a lot to be done, and it needs to be done before you leave.

I spoke with Rebecca Darnell. She was hesitant because she feels it will be hard to be ready for the first class with such limited prep time. However, I told her that you would be very good at this, that you are very organized and that you will make it happen.

You need to meet with her as soon as possible. I'll connect you by email. If you can't do it, let me know asap.

Jon,

Sorry for the delay, I didn't see an invite list and wanted to check from my work computer. I don't think I received it.

I may have some funds to support them. I want to check with Doug Cole at Simplot and see if they have been running with their educational campaigns. I have been out of that loop.

If they show me some evidence of excellence there then I'll push for them to attend and find \$\$ to do it.

Hi Kevin,

We're moving along with the bootcamp. Attached is
our preliminary list of who we think we are inviting. PLEASE WEIGH IN!!

I do
want to clarify about the invites for the student portion of this to [REDACTED] and
[REDACTED]. I don't recall the exact details of our conversation but I think you had
said you could find funds to support either one or both of them?? Could you
clarify. Thanks.
