Ariel

I will be calling in from a cellphone. This is not always the best connection and my time is battery limited. It would be helpful if we kept my participation brief. I'll stay as long as needed though.

Regards

Bruce

Ariel – It looks like Bruce could be on the call next Thursday. I will join also, if I can. Have you set up a call in number etc. yet?

Thanks, Val, and hello Bruce and David! This looks good.

I am happy to present it to the group if no one can call in, but I would encourage one of you to try to be on the line for 5 or 10 minutes. I really believe hearing directly from you all will increase likelihood of support among the companies. I've been talking this project up for a while and I can't seem to get them to step up their support to where we need it. Maybe I need to work on my cheerleading skills.

I have this discussion on the agenda around noon Eastern on the 11th. Please let me know whether someone will be able to be on the line.

Thanks!
Ariel

Ariel – Please feel free to distribute both of these to your committee. Please note, though, that what we do over the next year is directly a function of the support we can raise. If we do not succeed in getting all three phases funded we may adapt and rearrange somewhat the order in which we pursue things. And though we are confident that what we have proposed is reasonable and would be very valuable, we remain flexible and interested in suggestions folks might have as to how we might be able to do things better.

I think I will be tied up with family commitments on the 11th, though I will try and call in if possible. If you could send me the call in coordinates as soon as possible, and an indication of the ideal time from your committee's POV, that would be helpful. I will be tracking emails every day, though not in real time.

Let me know if I can do anything else to be helpful.

Thanks!

Val

yikes, i didn't plan to present anything, just be there for questions...

what do you want me to say?

bruce

That's fine. They have the background materials, so if you want to just give a few mins' overview and then ask for questions, I think that's fine.

Val

Sorry, before coffee I missed the 11th and thought it was 11AM today.

I can do it next Thursday at 11AM EDT or noon whenever. What number?

Bruce

Sorry I couldn't be there on short notice. The meeting was taking place by the time I read my e-mail this morning.

Sounds reasonable, Ariel -- Thanks.

I suspect time zone's would make it difficult to impossible for David to make it, but Bruce might be a possibility if I cannot. I'll coordinate with Bruce to see if one or the other of us can confirm. I'm also happy to talk with you about it a bit more if you'd like. I'm in the office today.

Thanks!
