McDonald's Corporation, Gift, Detection of E. coli in foods. July 1984-June 1985, \$21,000.

Food and Drug Administration (via Booz, Allen and Hamilton), Contract No. 223-80-2295, Survival of Listeria monocytogenes in nonfat dry milk and cottage cheese. April 1, 1984-October 15, 1984, \$35,411.

Food Research Institute, Purification and characterization of *Escherichia coli* cytotoxin(s). July 1983-June 1984, \$11,300.

McDonald's Corporation, Gift, Control of foodborne pathogens. July 1983-June 1986, \$105,000.

U.S. Department of Agriculture, CSRS, Grant No. 83-CSRS-2-2308, Association of *Campylobacter jejuni* with foods of animal origin. July 1983-September 1986, \$371,735 + \$12,000 + \$12,000 + \$12,000.

McDonald's Corporation, Gift, Detection of *Escherichia coli* in foods. January 1983-December 1983, \$26,000.

U.S. Department of Agriculture, ARS, Agreement No. 53-3244-2-231, A *Clostridium botulinum* challenge study on bacon made by the Wisconsin process. September 1982-September 1984, \$146,563.

U.S. Department of Agriculture, ARS, Contract No. 58-519B-2-1173, Evaluation of safety of soybean foods--tempeh, tofu and miso. August 1982-September 1984, \$34,250.

Food Research Institute, *Salmonella* in poultry. July 1982-June 1984, \$65,500.

Food Research Institute, Pathogenicity of *Campylobacter*. October 1981-June 1984, \$57,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2685, Pathogenicity of *Campylobacter*. October 1981-September 1983, \$29,456.

Department of Defense Contract DAAF 29-81-K-0070, The heat-stable enterotoxin of *Yersinia enterocolitica* in foods. April 1981-April 1984, \$55,154. (Co-PI; PI, S. L. Taylor).

Corn Products/Best Foods, Gift, *Clostridium botulinum* in foods. March 1981-December 1990, \$20,000 + \$14,000 + \$14,000 + \$14,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + 15,000 + \$15,500.

Food Research Institute, Pathogenicity of *Yersinia enterocolitica*. July 1980-June 1984, \$97,000.

Food Research Institute, Recovery of *Campylobacter* from foods. April 1980-June 1982, \$42,000.

SERVICE

University of Wisconsin Service

1. Library Committee of College of Agricultural and Life Sciences, 1981-85.
2. Senator, Faculty Senate District 10, 1982-84. Alternate Senator, Faculty Senate District 10, 1984-86.
3. Department of Food Microbiology and Toxicology Committees:
 - a. Graduate Program Committee
 - b. Department Comprehensive Review Committee
 - c. Animal Room Committee
 - d. Building Remodeling Committee
4. Centralized Electron Microscope Committee, College of Agricultural and Life Sciences, 1983-85.
5. Member of College of Agricultural and Life Sciences Hatch Research Review Panel, 1984 (ad hoc member), 1986-90.
6. Long Range Planning Committee, College of Agriculture and Life Sciences, 1986-87.
 - Basic Sciences Subcommittee
 - Food Quality, Processing and Nutrition Subcommittee
7. "Biotechnology in Agriculture" Report Committee, University of Wisconsin Agricultural Experiment Station, 1986.
8. Animal Health Research Proposal Review Committee, School of Veterinary Medicine, 1987, 1989-90.
9. Review Committee - Food and Agricultural Sciences National Needs Graduate Fellowships Grants Program, College of Agriculture and Life Sciences, 1987, 1990.

10. Research Animal Care Committee, College of Agricultural and Life Sciences, 1988-91.
11. Ad Hoc Reviewer, University of Wisconsin System Consortium for Extension and Research in Agriculture and Natural Resources Program, 1988-90.
12. Member, Search and Screen Committee, Assistant Professor of Food Microbiology position, Department of Food Science, 1990.
13. Member, North Central Region – 121 Technical Committee, Safety of Food and Feeds in Animal Production, 1982-1989; Chairman, 1985.

University of Georgia Service

1. Food Safety and Quality Research Complex Building Committee, University of Georgia Agricultural Experiment Station, 1991-1997.
2. Program Leader and Director, Food Safety and Quality Enhancement Laboratory, University of Georgia Agricultural Experiment Station, 1991-93.
3. Governor's Development Council Initiative for the Food Processing Industry, University Coordinator of Committee on Food Safety, 1993-
4. Executive Council, Laboratory for Sustainable Agroecosystem Studies, University of Georgia Agricultural Experiment Station, 1993-95.
5. Director, Center for Food Safety and Quality Enhancement, University of Georgia, 1993-
6. Chairman, Search and Screen Committee, Poultry Science Department Head, College of Agricultural and Environmental Sciences, 1995.
7. Presenter, Operation Legacy, Georgia Experiment Station, Griffin, GA, September 1995.
8. Reviewer, Department of Foods and Nutrition, College of Family and Consumer Resources, 1995-96.
9. Presenter, Governor's Science and Technology Advisory Council, Industry Interface - Center for Food Safety and Quality Enhancement, July, 1995.
10. Panel Moderator and Presenter, Georgia Agricultural Experiment Stations, Research Advisory Board Meeting, Challenges facing the food processing industry, July, 1995.
11. Member, College of Agricultural and Environmental Sciences (CAES), GSAMS Classroom Task Force, 1995-96.
12. Member, CAES Office of International Agriculture Workshop Steering Committee, 1995-96.

13. Member, CAES Steering Committee and Executive Council of the Center for International Trade and Marketing, 1995-1999.
14. Member, Program Review Team of UGA Department of Foods and Nutrition, 1996.
15. Member, CAES College Technical Advisory Group (C-TAG), 1996.
16. Member, CAES Strategic Planning Group on Values, 1996.
17. Member, CAES Committee on Consolidation of Business Functions, 1996-97.
18. Member, CAES Committee to Recommend a Single College Faculty Governance Structure, 1996-97.
19. Member, UGA Committee on Appointment and Promotion of University Full-Time Research Professionals, 1996, 97.
20. Consultant, Department of Agricultural and Applied Economics Strategic Planning Committee, 1997.
21. Member, Search Committee for CAES Director of Fiscal Affairs, 1997.
22. Member, CAES Program Planning and Review Committee, 1997-98.
23. Member, University's Special Professorship Committee, 1997-2000.
24. Member, Search Committee for CAES Associate Dean of Extension, 1998-1999.
25. Member, College of Veterinary Medicine Food Animal Program Planning Group, 1998.
26. Member, Search Committee for Department Head for Department of Environmental Health Sciences, 1999.
27. Chairman, Committee on Adding Value to Georgia Products, 1999-2000.
28. Member, UGA Biomedical and Health Sciences Working Group, 1999-2000.
29. Member, Administrative Review Committee for Dean of College of Agricultural and Environmental Sciences, 1999-2001.
30. Member, Public Health Program Steering Committee, 2001.
31. Member, University Review Committee on Health & Clinical Sciences (Promotion and Tenure), 2001-2004; Chairman, 2002-2003.
32. Member, 3-yr Promotion/Tenure Review Committee of Ynes Ortega, 2002.

33. Faculty Member, Biomedical and Health Sciences Institute, 2002-
34. Member, College of Agricultural and Environmental Sciences, Agro-Security Task Force, 2001-2002.
35. Member, College of Agricultural and Environmental Sciences, Review Panel of Alumni Foundation Distinguished Professor, 2003.
36. Member, College of Agricultural and Environmental Sciences, Level I Promotion and Tenure Committee, 2004-2007.
37. Member, Promotion/Tenure Review Committee of Mary Alice Smith, 2004.
38. Member, PostTenure Review Committee of Larry Beuchat, 2004.
39. Member, College of Agricultural and Environmental Sciences, Search and Screening Committee, Associate Dean for Research, 2007.
40. Member, UGA Faculty of Infectious Diseases, 2008-
41. Member, Post Tenure Review Committee of Joseph Frank, 2011.
42. Invited Faculty Member, Center for Drug Discovery Faculty, University of Georgia, 2011.
43. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr.' s post-tenure progress toward Full Professor, 2011.
44. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr. Joseph Frank's post-tenure progress, 2011.
45. Member, Post Tenure Review Committee for Ynes Ortega, 2012.

Other Forms of Professional Service

Journal Management Committee, Journal of Food Protection, 1981-1985.

Wisconsin Association of Milk and Food Sanitarians-Wisconsin Environmental Health Association Joint Committee on Education, 1981-85. Vice-Chairman, 1984-85.

Program Committee, Wisconsin Association of Milk and Food Sanitarians Annual Meeting, 1981-82.

Secretary, Food Microbiology Division of the American Society for Microbiology, 1982.

Wisconsin Agricultural Experiment Station Representative to NCR-121, The safety of feed and foods related to animal production, 1983-1988. Secretary, 1983-84; Chairman, 1984-85.

Secretary, Campylobacter Society, 1983-85.

Advisory Committee on Annual Program Content, International Association of Milk, Food and Environmental Sanitarians, 1984-87.

Executive Committee, Food Microbiology Division of the American Society for Microbiology, 1984-85.

Member-At-Large, Executive Committee, Food Microbiology Division of the Institute of Food Technologists, 1984-86.

Invited Participant, Institute of Food Technologists Workshop on Research Needs, Arlington Heights, IL, 1984.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1984-2000

Executive Committee, Conference for Food Protection, 1985-86.

Chairman, Food Microbiology Division's Public Information Committee, Office of Scientific Affairs, Institute of Food Technologists, 1985-

Expert Advisor, 2014. STTR grant for Zansors in the Specific Aims.

02/2015

Committee to Draft Institute of Food Technologists Scientific Status Summary on "Bacteria Associated with Foodborne Diseases," 1985-87.

Technical Advisory Committee, Center for Dairy Research, University of Wisconsin, 1986-91.

Scientific Advisor, American Meat Institute - Meat Safety Committee, 1986-95.

Ad Hoc Reviewer, U.S. Department of Agriculture Small Business Innovative Research Competitive Grants Program, 1986, 88-98, 2000-2003.

External Examiner, Ph.D. Examination of Lai-King Ng, University of Alberta, Department of Microbiology, Edmonton, Alberta, Canada, February 16, 1987.

Ad Hoc Reviewer, U.S. Department of Agriculture Molecular Biology/Gene Structure-Animals Competitive Research Grants Program, 1987, 1988.

Alternate Councilor, Wisconsin Institute of Food Technologists, 1987-90.

Member, World Health Organization Working Group on Thermoresistance of Listeria monocytogenes, 1987-91.

Chairperson, Group E64 Expert Committee on Detection and Enumeration of Listeria monocytogenes in Milk and Milk Products; Gram-positive pathogens, United States Contingent of International Dairy Federation, 1987-94.

Ad Hoc Reviewer, U.S. Department of Agriculture BARD Research Grants Program, 1988.

Member, Annual Meeting Program Committee, Institute of Food Technologists, 1988-1991.

Scientific Advisor, World Health Organization, Scientific Working Group on Epidemiology and Disease Prevention. Trip to Lagos, Nigeria to advise investigators at the University of Lagos, College of Medicine, on research approaches to study the microbiological safety of fermented weaning foods, August 19-27, 1988.

Review Team Member, U.S. Department of Agriculture-Cooperative State Research Service. Comprehensive Department Review of the Department of Food Science and Nutrition, University of Minnesota, St. Paul, October 31-November 4, 1988.

Scientific Advisory Board, International Committee on Food Microbiology and Hygiene of the International Union of Microbiological Societies to plan its 14th International Symposium, 1988-1990.

Reviewer, Wisconsin Department of Development-Small Business Innovation Research Proposal, 1988.

Writing Committee, NASULGC Division of Agriculture-Committee on Biotechnology, Socio-Economic Subcommittee Basebook/Leaflet Series on the Social and Economic Effects of Biotechnology, 1988-1990.

Ad Hoc Reviewer, Freedom Magazine, 1988.

Project Monitor, International Life Sciences Institute-Nutrition Foundation, Listeria and Food Safety Research Projects, 1988-95.

Member, Membership Committee, American Academy of Microbiology, 1989-90.

Ad Hoc Reviewer, Hatch Program, Massachusetts Agricultural Experiment Station, University of Massachusetts-Amherst, 1989.

Executive Board, International Association of Milk, Food and Environmental Sanitarians, Secretary, 1989-90; Vice-President, 1990-91; President-Elect, 1991-92; President, 1992-93; Past-President, 1993-94.

Member, Council for Agricultural Science and Technology Task Force on "Assessment of Risk Associated with Pathogenic Microorganisms in Food," 1989-94.

Ad Hoc Reviewer, Connecticut Sea Grant College Program, University of Connecticut, 1989.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agriculture Research Service, Research proposals. 1989.

Ad Hoc Reviewer, Natural Sciences and Engineering-Research Council of Canada proposals, 1989-95.

State Key Contact, American Society for Microbiology Public and Scientific Affairs Board, 1989-91.

Ad Hoc Reviewer, Washington State Beef Commission Research Grants Program, 1990.

Ad Hoc Reviewer, U. S. Department of the Army Research Grants Program, 1990.

Ad Hoc Reviewer, American Council on Science and Health, booklet series, 1990.

Quality and Safety Scientific Advisory Group, Wisconsin Milk Marketing Board, 1990.

Executive Committee, International Union of Microbiological Societies-International Committee on Food Microbiology and Hygiene, American Society for Microbiology representative, 1990.

Ad Hoc Reviewer, U.S. Food and Drug Administration's Bacteriological Analytical Manual, 7th ed., 1990.

Ad Hoc Reviewer, Rutgers-The State University of New Jersey, Research proposal, 1990.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1985-93.

Scientific Committee, International Conference on Listeria and Food Safety (June 13-14, 1991), Laval, France, 1990-91.

Technical Session chairman, Institute of Food Technologists, 1991 Annual Meeting, Dallas, TX, 1990-91.

Jury Chairperson, International Association of Milk, Food, and Environmental Sanitarians' Educator Award, 1991-92.

Ad Hoc Reviewer, U. S. Department of Agriculture - Cooperative State Research Service, National Research Initiative Competitive Research Grants, 1991-2004.

Program Areas: Ensuring Food Safety: Preharvest Section and Postharvest Section
 Animal Molecular Genetics and Gene Mapping
 Mechanisms of Animal Disease
 Value Added Products
 Water Resources Assessment & Protection
 Ecosystem Science
 Soil & Soil Biology
 Epidemiological Approaches for Food Safety
 Food Characterization/Process/Product Research

External Examiner, Ph.D. Thesis, McGill University, 1991.

ASM Foundation Scientific Lecturer, American Society for Microbiology, 1991-93.

Reviewer, Book Chapter for Proceedings of NIH Campylobacter Symposium, 1991.

Correspondent, Food Safety Notebook, 1990-99.

Ad Hoc Reviewer, Alaska Sea Grant Program, 1991.

Ad Hoc Reviewer, USDA Food News, 1991.

Ad Hoc Reviewer, Cambridge University Press, Microbiology Texts, 1991.

Chair-Elect, Southern Extension and Research Activity - Information Exchange Group on Food Safety, 1991-95.

Ad Hoc Reviewer, Marcel Dekker, Food Microbiology and Food Safety Texts, 1991, 94.

Advisory Committee, Listeria 1992, The Eleventh International Symposium on Problems of Listeriosis, Copenhagen, 1991-92.

Ad Hoc Member and Chairperson, Annual Meeting Program Committee, International Association of Milk, Food and Environmental Sanitarians, 1991-92.

Chairman, Institute of Food Technologists Food Microbiology Division, Office Scientific Affairs Committee, 1991-2007.

Scientific Program Committee, 2nd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing Escherichia coli Infections, Bergamo, Italy, 1992-94.

Ad Hoc Reviewer, U. S. Department of Agriculture - Food Safety and Inspection Service, Proposal to determine microbiological profile of U. S. beef supply, 1992.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service. Comprehensive Department Review of the Department of Food Science, North Carolina State University, Raleigh, April 12-17, 1992.

Ad Hoc Reviewer, National Academy of Sciences Institute of Medicine, Report on Emerging Infections: Microbial Threats to Health, 1992.

Member, Institute of Food Technologists Samuel Cate Prescott Award Jury, 1992-95.

Ad Hoc Reviewer, Encyclopaedia of Food Science, Food Technology and Nutrition, 1992.

Expert Panel Member, Dairy Research Foundation, Assess safety of products from freeze concentration of dairy streams, 1992.

Ad Hoc Reviewer, Medical Research Council of Canada, Research proposal, 1992.

Ad Hoc Reviewer, International Life Sciences Institute North America, Research papers, 1989-96.

Member, International Life Sciences Institute-North America, Publications Committee, 1992-94.

External Assessor, University Pertanian Malaysia, Appointment of faculty to Food Science and Biotechnology Department, 1992-95.

Member, Group E32 Expert Committee on Gram-Negative Bacteria, United States Contingent of International Dairy Federation, 1992-94.

Member, National Academy of Science - Institute of Medicine, Food Forum, 1993-99.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service. Comprehensive Review of the Department of Food Science and the Center for Advanced Food Technology, Rutgers-The State University of New Jersey, New Brunswick, NJ, March 22-26, 1993.

Scientific Program Committee Member, 3rd International Conference of ASEPT, Food Safety '94, 1993-94.

Ad Hoc Reviewer, Pennsylvania State University College of Agricultural Sciences, USDA Special Grant on Milk Safety Proposals, 1993.

Ad Hoc Advisor, Secretary of Agriculture Mike Espy, Escherichia coli O157:H7 Research: Past, Present, and Future, February 1993.

Scientific Advisor, National Live Stock and Meat Board, Food Safety Round Table II, 1993.

Scientific Advisor, Grocery Manufacturers of America, Microbiology Safety and Control Working Group, 1993.

Invited Expert, U. S. Department of Agriculture, Food Safety and Inspection Service, Testify at regional hearing on the safety of the nation's meat and poultry supply, Atlanta, GA, June 11, 1993.

Chair, American Society for Microbiology, Public and Scientific Affairs Board - Ad Hoc Committee on Food Safety, 1993-2009.

External Examiner, The University of the West Indies, Food Microbiology program, 1993-96.

Ad Hoc Reviewer, American Society for Microbiology, Sayers and Whit Book on "Microbial Pathogenesis," 1993.

Chairperson, Scientific Advisory Committee on Food Safety, National Live Stock and Meat Board, 1993.

Member, Publications Committee, International Life Sciences Institute North America, 1992-95.

Response Panel Member, Joint Council on Food and Agricultural Sciences, Meeting on Nutritious and Safe Food, 1993.

Member, Search Committee, U. S. Department of Agriculture Food Safety and Inspection Service, Deputy Administrator "Super Scientist" position, 1993-94.

Reviewer, Beef Industry Council and National Live Stock and Meat Board, Safe Food Backgrounder, 1993.

Ad Hoc Advisor, Advisory Committee on the Microbiological Safety of Food, Working Group on Vero Cytotoxin-Producing Escherichia coli, Department of Health, London, England, 1993-95.

Member, American Society for Microbiology, Committee on Microbiological Literacy, 1993-94.

Invited Respondent, Journal of the American Medical Association, 1993.

Member, International Association of Milk, Food and Environmental Sanitarians, Strategic Long Range Planning Task Force, 1993-95.

Expert Reviewer, Association of Official Analytical Chemists, Test Kit Performance Testing Program, 1993-95.

External Advisor, University of Guadalajara, Ph.D. degree program of Alejandro Castillo Ayala, 1993-96.

Chairperson, National Academy of Sciences - Institute of Medicine Food and Nutrition Board Food Forum, Committee on HACCP, 1993-94.

Member, National Research Council Board on Agriculture, Panel on Animal Health and Veterinary Medicine, 1993-96.

Invited Expert, U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department of Operations and Nutrition, Hearing on Meat and Poultry Inspection, Washington, DC, March 16, 1993.

‘Member, Georgia Beef Board, GA Food Safety Alliance Team, 1993-99.

Ad Hoc Reviewer, Institute for Science in Society, Washington, DC, White Paper on Foodborne Pathogens in Meat and Poultry, 1993-94.

Member, Review Panel, International Life Science Institute-North America, Future Leaders Awards, 1994-2000.

Trustee Members, Executive Committee, International Life Sciences Institute, 2014.

Invited Contributor, Southeastern Agriculture Experiment Stations - CSRS Impact Report, Food Safety Research Contributions, 1994.

Elected Representative, U. S. Department of Agriculture - Food Safety and Inspection Service, HACCP Round Table, Washington, DC, March 30-31, 1994.

Expert, Fletcher, Vautier Moore (Barristers & Solicitors), New Zealand, Listeriosis manslaughter prosecution, 1993-94.

Representative, Georgia Agricultural Experiment Station, Regional Project DC93-02, "Assuring Food Safety Through Control of Foodborne Disease Agents," 1994-97.

Member, U. S. Department of Agriculture - Food Safety and Inspection Service, Technical Analysis Group on Processing, 1994.

Member, Scientific Advisory Committee, International Life Sciences Institute, First Pan American Conference on Food Safety, 1994-95.

Member, Southern Association Agricultural Experiment Stations Directors, Advisory Committee on Food Science and Technology (AC-4), 1994-99.

Member, Joint U. S. Department of Agriculture/University Committee on Food Safety, Enhancing Cooperation in Food Safety Research and Education, 1994.

Member, Scientific Advisory Board, GENE-TRAK Systems, 1994.

Member, American Society for Microbiology Raymond W. Sarber Award Selection Committee, 1994-96.

External Examiner, The University of the West Indies, M.S. Thesis of Roshini Mahaiaj, 1994.

Jury Member, DFISA-American Society of Agricultural Engineering Food Engineering Award, 1994.

Member, European Verotoxin-producing Escherichia coli (VTEC) Club, 1994-2000

Chairman, International Association of Milk, Food and Environmental Sanitarians - Past President's Advisory Committee, 1993-94.

Chairman, International Association of Milk, Food and Environmental Sanitarians - Finance Committee, 1993-94.

Ad Hoc Reviewer, International Life Sciences Institute, Food Safety proposal, 1994.

Ad Hoc Reviewer, American Society for Microbiology, Book proposal, 1994.

Ad Hoc Reviewer, National Science and Technology Council, Subcommittee on Food Safety, Security and Production's Strategic/Implementation Plan, 1994.

Advisor, Ophidian Pharmaceutical, Inc., USDA Small Business Research Program Phase I Grant, "Development of an antidote for E. coli O157:H7 verotoxin" project, 1993-95.

Invited Participant, USDA/University Workshop on Enhancing Cooperation in Food Safety Research and Education, Washington, DC, March 8-9, 1994.

Ad Hoc Advisor, National Live Stock and Meat Board Blue Ribbon Task Force on E. coli O157:H7, 1994.

Member, Georgia Poultry Emergency Committee, 1994-99.

Ad Hoc Reviewer, Board of Regents of the State of Louisiana, Research proposal, 1994-95.

External Examiner, The University of the West Indies, M.S. Thesis of Vidia Doodnath, 1994.

Scientific Advisor, International Meat and Poultry HACCP Alliance, Poultry Enhancement Program-Pilot Study, 1994.

Expert Participant, Research Triangle Institute and U. S. Department of Agriculture, Project on risk analysis, 1993-94.

Invited Participant, USDA-Agricultural Research Service, Conference on Regional Vitiation Development, Atlanta, GA, July 13, 1995.

External Examiner, The University of the West Indies, M.S. Thesis of Lorraine Westcarr, 1995.

Ad Hoc Reviewer, Food and Agriculture Organization of the United Nations, International Consultative Group on Food Irradiation, Technical Monograph, 1995.

Reviewer, University of New South Wales, Department of Food Science and Technology, Sydney, Australia, Food Microbiology Teaching and Research Program, 1995.

Scientific Program Committee, 3rd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing *Escherichia coli* Infections (VTEC '97), 1995-97.

Third Party Expert, Animal Health Institute, Food Safety Network, 1995-2001.

Reviewer, National Research Council, Food Chemicals Codex, 4th edition, 1995.

Resource Person/Interview, Iowa Public Radio, Market-to-Market (Farm News), Food Safety, July, 1995.

Ad Hoc Reviewer, American Society for Microbiology, P. Murray Book on “Pests and Pestilence in the Modern Age of Medicine,” 1995.

Chairman, American Society for Microbiology, Ad-Hoc Committee on Food Safety, 1995-

Member, International Life Sciences Institute-North America, Membership Committee, 1995-96.

Member, International Life Sciences Institute-North America, Technical Committee on Food Microbiology, Organizing Committee on ILSI-USDA-sponsored Conference of Emerging Pathogens, 1995-96.

Invited Participant, The Food Drug Law Institute, Food Update ‘95 (Academic Fellowship), 1995.

Reviewer, Institute of Medicine, Food and Nutrition Board, Food Chemicals Codex, 1995.

Member, The Advancement of Sound Science Coalition, 1995-99.

Invited Participant, Food and Drug Administration, Regulatory Reform Workshop/A New Partnership, 1995.

Member, Food and Drug Administration Advisory Committee Task Group on *Vibrio vulnificus*, 1995.

Reviewer, University of the West Indies, University Project Implementation Unit, Research Proposal on “The Production of Mozzarella Cheese from Buffalo Milk,” 1995.

Member, Rhône-Poulenc, Food Safety Expert Team, 1995.

Invited Participant, U. S. Department of Agriculture-Food Safety and Inspection Service, Microbiological methods development workshop, March, 1995.

Member, Georgia Tech Industrial Advisory Committee, HACCP Working Group, 1995.

Member, International Life Sciences Institute, First Pan American Conference on Food Safety, Scientific Committee, 1994-95.

Member, American Meat Institute’s Science and Education Panel, 1995-96.

Chairman, American Society for Microbiology, Task Force on Food Microbiology Laboratory Accreditation Program, 1996-97.

Chairman, Odwalla Nutrition and Safety Advisory Council, 1996-97.

Member, International Life Sciences Institute-North America, Nominating Committee, 1996-97.

Member, McDonald's Olympic Food Service Team, Atlanta, GA, 1996.

Ad Hoc Reviewer, Van Nostrand Reinhold Publishers, Book Proposal (Food Safety Law), 1996.

External Assessor, Universiti Pertanian Malaysia, evaluate appointments to the post of Associate Professor/Professor in the Faculty of Food Science and Biotechnology, University of Agriculture, Malaysia, 1996-98.

Reviewer, American Society for Microbiology, Book Review, *Escherichia coli* in Domestic Animals and Humans. ASM News 62:153 (1996).

Member of Scientific Advisory Council, The Refrigeration Research and Education Foundation, 1996-2002.

Reviewer, International Fresh-cut Produce Association, Book Review (Food Safety Guidelines for Fresh-cut Produce), 1996.

Consultant, Ophidian Pharmaceuticals, Madison, WI, USDA Small Business Research Program Phase II Grant (Development of an Antidote for *E. coli* O157:H7 Verotoxin), 1995-97.

Reviewer, International Life Sciences Institute, World Health Organization book on "Health Education in Food Safety," 1996-97.

Reviewer, International Consultative Group on Irradiation, Joint Food and Agriculture Organization of the United Nations/International Atomic Energy Agency (WHO), White Paper on "Control of Pathogens in Poultry Meat," 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Lisa Indar, 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Siddiqua N. Mohammed, 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Ellison P. Floyd, 1996-97.

Editorial Board, John Wiley & Sons, Inc., "Encyclopedia of Food Science and Technology" (Second Edition), 1997-2000.

Scientific Advisor, Produce Marketing Association (Nuffer, Smith, Tucker, Inc.; Public Relations) Development of an advisory for consumers to assess the significance of a foodborne outbreak to them, 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, "Coliforms and *E. coli*: Problem or Solution?", 1998.

Member, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, U.S.. Environmental Protection Agency, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Andrew D. Persad, 1997.

Scientific Advisor and Spokesperson, International Fresh-cut Produce Association, Washington, DC, Television Media Video on “Packaged Salad Safety,” 1997.

Consultant, Immunological Associates of Denver, USDA Small Business Research Program Phase I Grant (Development of a Rapid Method to Detect *E. coli* O157:H7), 1997-98.

External Examiner, The University of the West Indies, M.S. Thesis of Gloria R. Boodoosingh, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on *Cyclospora*, Washington, DC, July 23, 1997.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2000.

Member, International Scientific Advisory Board of Food Micro ‘99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, NSF International, Proposed Standard 75 (NSF International Standard for Foods - Non-Potentially Hazardous Foods), 1997.

Reviewer, Western Association of Agricultural Experiment Station Directors, Cooperative Regional Research Project W-122 Proposal (Improve Food Safety through Discovery and Control of Natural and Induced Toxicants and Antitoxicants), 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, “*Escherichia coli*: Mechanisms of virulence,” 1997.

Reviewer, National Academy of Sciences-Institute of Medicine, “Food Chemicals Codex: First Supplement to the Fourth Edition,” 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Darin A. Sukha, 1997.

Reviewer, International Fresh-cut Produce Association, White paper on the microbiology of fresh-cut produce, 1997.

Reviewer, Chapman & Hall, Book Proposal Review, “Food Safety” (Rodricks, Taylor and Hulebak, eds.), 1997.

Member, International Life Sciences Institute-North America, Long-Range Program Committee, 1997-99.

Member, International Life Sciences Institute-North America, Program Oversight Committee, 1997-98.

External Evaluator, University Pertanian Malaysia, Promotion evaluation of Associate Professor Gulam Rusul Bin Rahmat Ali to Professor, 1997.

Reviewer, Ronald McDonald House Charities, Research proposal, 1997.

Scientific Advisor and Intermediary, New York State Department of Agriculture & Markets and Rite Foods, Microbiological criteria for hummus, 1997.

Member, International Fresh-cut Produce Association, Food Safety Task Force, 1997-1999.

Invited Commentor, Food and Drug Administration Docket No. 96N-0449 (Current Science and Technology on Fresh Juices) through the American Society for Microbiology, January 1997.

Reviewer, International Foundation for Science, Stockholm, Sweden, Research grant proposal, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1997 and 1998.

Reviewer, Marcel Dekker, Book proposal (Pharmacology and Physiology of Phycotoxins), 1997.

Member, Scientific Advisory Panel, Environmental Protection Agency, Panel on Microbiology - Efficacy Testing, 1997.

External Examiner, The University of The West Indies, M.S. Thesis of Andrew Dev Persad, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiology Criteria for Foods, Public Meeting on President's Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables, Washington, DC, November 17, 1997.

Reviewer, National Academy of Sciences - Institute of Medicine, First Supplement to the Food Chemicals Codex, 4th edition, 1997.

Book Reviewer, Chapman & Hall, Food Product Development Capstone Course Textbook, 1997.

Reviewer, Arkansas Science & Technology Authority, Research proposals, 1997.

Invited Expert Testimony, U.S. Senate Committee on Agriculture, Hearing on Food Safety (represented American Meat Institute, Grocery Manufacturers of America, National Broiler Council, National Food Processors Association and National Turkey Federation), October 8, 1997.

Scientific Advisor and Spokesperson, The Association for Dressings and Sauces, Atlanta, GA Television News Video on "Mayonnaise Safety", 1997.

International Scientific Advisory Board, Food Micro '99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, University of Georgia College of Veterinary Medicine, research paper, 1997.

Invited Participant, Food and Drug Administration/National Science Foundation/U. S. Department of Agriculture, Workshop in Enhancing Food Safety through the Use of Sensors, Washington, DC, September 24, 1997.

Member, International Life Sciences Institute - North America, Executive Committee, 1998-2000.

- Member, Fellows Committee, International Association of Milk, Food and Environmental Sanitarians, 1998.
- Chairman, Georgia-Pacific Health Smart™ Advisory Board, 1998-2001.
- Reviewer, Canada Foundation for Innovation, Research Infrastructure Projects, 1998.
- Member, Council for Agricultural Science and Technology Committee on Foodborne Pathogens - Update of Recommendations, 1997-98.
- Member, Institute of Food Technologists, Samuel Cate Prescott Award Jury, 1998-2001.
- Reviewer, National Science Foundation, Centers proposals, 1998.
- Advisor, International Sprout Growers Association and Green Giant, Pathogen contamination of sprouts, 1998.
- Scientific Communicator, Institute of Food Technologists, 1998-
- Reviewer, The Wellcome Trust, Research proposal, 1998.
- Panel Member, U.S. Department of Agriculture-Food Safety Inspection Service, Conference on New Technologies to Improve Food Safety, July 28, 1998.
- External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1998.
- Member, Food Safety Award Committee, International Association of Milk, Food and Environmental Sanitarians, 1997.
- Reviewer, Canada Foundation for Innovation, Center proposal, 1998.
- Invited Reviewer, U.S. Department of Agriculture-Agricultural Marketing Service, Quality Through Verification Program, 1998.
- Invited Panelist, U.S. Food and Drug Administration, Public Meeting on Sprouts, September 28-29, 1998.
- Reviewer, Clemson University, South Carolina Agriculture and Forestry Research System, Research proposal, 1998.
- Member, Food and Drug Administration Senior Biomedical Research Service (SBRS) Credentials Committee, 1998.
- External Examiner, The University of The West Indies, M.S. Thesis of Catherine Berkeley, 1998.
- External Examiner, The University of The West Indies, M.S. Thesis of Faith Spencer-Crossman, 1998
- Reviewer, University of Nebraska-Nebraska Research Initiative, Research Grant Proposal, 1998.

Member, International Association for Milk, Food and Environmental Sanitarians, NFPA Food Safety Award Committee, 1998.

Editorial Board, Encyclopedia of Food Science and Technology, 2nd edition, John Wiley Publishers, 1997-2000.

Member (Scientific Expert), Alliance of the California Foodborne Disease Network, Los Angeles, CA, 1997-2000.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2003.

External Examiner, The University of The West Indies, M.S. Thesis of Kartikeya Tripathi, 1998.

Invited Expert and Rappateur, American Society for Microbiology Colloquium on “Food safety: current status and future needs,” Nashville, TN, August 14-16, 1998.

Member, Food Micro ‘99, 17th International Symposium of the IUMS International Committee on Food Microbiology and Hygiene, International Scientific Advisory Board, 1998-99.

Member, Produce Marketing Association, “Stop & Think Questions on Foodborne Illness,” Advisory Committee, 1997-98.

Invited Panelist, U.S. Department of Agriculture-Food Safety and Inspection Service, Conference on Technology to Improve Food Safety, Washington, DC, July 28, 1998.

Invited Panelist and Advisory Committee Member, Food and Drug Administration, Public Meeting on Sprouts, Washington, DC, September 28-29, 1998.

Elected Member, Operations Committee, National Alliance for Food Safety, 1998-2000.

Invited Panel Member, National Aeronautics and Space Administration, Food Technology Commercial Space Center Technical Review, 1998-99.

Invited Reviewer, Georgia Department of Agriculture, Food Safety Evaluation of New Products, 1998.

Invited Reviewer; Ad Hoc Advisory Group, National Institutes of Health, Office of Dietary Supplements, Peer review of public information fact sheets on dietary supplements, 1998.

Member, Georgia Department of Agriculture, Crisis Communication Committee, 1998-2009.

Member, International Life Sciences Institute, Program Planning Committee for the Conference on The National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Applications, 1998.

Member, International Life Sciences Institute-North America, Publication Committee, 1998-2000.

Invited Moderator, U.S. Department of Agriculture Secretary Dan Glickman, Presentation on “Food Safety and Public Health,” University of Georgia, March 13, 1998.

Invited Panel Members, National Academy of Sciences Meeting on Ensuring Safe Food from Production to Consumption, Washington, DC, April 29-30, 1998.

Scientific Advisor, U.S. Environmental Protection Agency, 1998-2005.

Scientific Advisor, Chick-fil-A, Alleged Foodborne Outbreak of *Klebsiella pneumoniae* Infections Associated with Chicken Salad, September, 1997.

Scientific Communicator, Institute of Food Technologists Scientific Communicator Committee, 1998-2008.

Expert, General Mills, Food Safety Video, 1999.

Member, Institute of Food Technologists, Chief Research Officers Task Force, 1999-2007.

Member, American Meat Science Association, “The Role of Microbiological Testing in Beef Food Safety Programs” Task Force, 1998-99.

Reviewer, International Foundation for Science, Stockholm, Sweden, Food Safety Research Grant Proposal, 1999.

Member, American Meat Institute, Blue Ribbon Task Force on *Listeria*, 1999.

Moderator, Georgetown University, Washington, DC, Ceres Forum on Research Priorities and Intervention Strategies for *Listeria*, May 19, 1999.

Reviewer and Contributor, National Cattleman’s Beef Association, Food Safety Information Resource, 1999.

Chairman, Institute of Medicine, Food Forum Symposium, Food Safety Policy, Science and Risk Assessment: Strengthening the Connection, 1999.

Reviewer, Rutgers - The State University of New Jersey, New Jersey Agricultural Experiment Station Research Proposal, 1999.

Member, U. S. Food and Drug Administration Deputy Commissioner, Search Committee, 1999-2000.

Reviewer and Resource Person, American Meat Institute, Issue statement on *Listeria monocytogenes*, 1998-99.

Member, University of Georgia Research Professionals’ Promotion Panel, 1999.

Member, American Association of Cereal Chemists, Annual Meeting on “Functional Foods: Strategies for the Food Industry,” Program Advisory Committee, 1999-2000.

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 2000-2003.

External Examiner, The University of the West Indies, M.S. Thesis of Karen Shaw, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Wayne Benjamin, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Nalini N. Boodram, 1999.

Member, International Association of Milk, Food and Environmental Sanitarians, Fellows Award Selection Committee, 1999.

Member, U. S. Food and Drug Administration and University of Maryland, Joint Institute for Food Safety and Applied Nutrition (JIFSAN), Advisory Council, 1999-2009.

Member, U. S. Food and Drug Administration, Senior Biomedical Research Service (SBRS) Credentials Committee, 1999-2002.

Member, American Meat Institute Foundation, *Listeria* Research Committee, 1999-2009.

Member, Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Program Advisory Committee. 1999.

Member, Canada Foundation for Innovation, Review Committee (proposals submitted by the University of Guelph) 1999.

Reviewer, International Foundation for Science, research proposal, 1999.

Member, International Life Sciences Institute - North America, Presidential Search Committee, 1999.

Member, Odwalla, Nourishment and Safety Advisory Council, 1997-2000.

Member, Georgia Public Health Team, 1999-2009.

Member, Fresh Produce Committee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on Sprouts, Washington, DC, March 29, 1999.

Advisor, Molecular Innovations Inc., Denver, CO, USDA Small Business Research Program Phase II Grant (Rapid Detection of *Escherichia coli* O157:H7), 1999-2001.

Member, U. S. Food and Drug Administration Science Board, Subcommittee to review research program of the Center for Food Safety and Applied Nutrition, 1999.

Member U.S. Defense Science Board Task Force on Defense Against Biological Weapons, 2000.

Member, National Institutes of Health, Center for Scientific Review Special Emphasis Panel, 2000.

Invited Consultant, International Life Sciences Institute-North America Food Microbiology Committee, Panel on *Listeria* in Foods, 2000.

Scientific Advisor and Spokesperson, Gold Kist, Atlanta, GA, Video on “Microbiological Safety of Chicken Nuggets,” 2000.

Scientific Advisor and Spokesperson, American Meat Institute Foundation, Food Safety Advisory Council, 1999-2000.

Invited Reviewer, American Society for Microbiology, U.S. Food and Drug Administration - U.S. Department of Agriculture Food Safety Strategic Plan, 2000.

Member, The Canada Foundation for Innovation, Expert College of Reviewers, New Innovations Committee, 2000-2003.

Member, ECOP/ESCOP Food Safety Subcommittee, 2000.

Elected Member, Institute of Food Technologists Executive Committee (Membership Representative), 2000-2003.

Reviewer, U.S. Food and Drug Administration Risk Assessment of *Vibrio parahaemolyticus* in raw molluscan shellfish, 2000.

Expert, Food and Agriculture Organization of the United Nations and World Health Organization, Risk Assessments of Microbiological Hazards in Foods Expert Panel, 2000-2002.

Reviewer, John Wiley & Sons, Dictionary of Food Science and Technology proposal, 2000.

Member, American Association of Cereal Chemists 2nd Annual Functional Foods Conference, Program Advisory Committee, 2000.

Expert Resource for News Media, International Food Information Council Foundation, Food Insight Media Guide on Food Safety and Nutrition, 2000-2002.

Invited Commenter/Reviewer, Academic Press, Encyclopedia of Food Microbiology, 1999.

Editorial Committee, Charles Valentine Riley Memorial Foundation, Reducing foodborne illness: Advancing adoption of new technologies, 2000.

Member, Biosys, Scientific Advisory Board, 2000-2001.

Reviewer, Food and Drug Administration Center for Veterinary Medicine, Competitive Grants, 2000.

Reviewer, Food and Drug Administration, Risk assessment of the public health impact of foodborne *Listeria monocytogenes*, 2000.

Reviewer, University of Massachusetts, Massachusetts Agricultural Experiment Station, Research Proposal, 2000.

Scientific Advisor, Dyn Corp/U.S. Environmental Protection Agency, Office of Pesticides Program, Antimicrobial Division, 2000-2003.

Excom-Member, Institute of Food Technologists, Publications Committee, 2000-2003.

Member, Experiment Station Committee on Organization and Policy (ESCOP) Task Force on Food Safety, 2000.

Vice-Chair, Experiment Station Committee on Organization and Policy (ESCOP) Committee on Food Safety, 2000-2002.

Member, International Life Sciences Institute-North America, Membership Development Committee, 2000-

Member, International Life Sciences Institute-North America, Program Committee, 2000-2002.

Member, International Life Sciences Institute-North America, Steering Committee for “Science-Based Food Safety Objectives-Beyond HACCP,” 2000-2001.

Scientific Advisor, North American Blueberry Council, Crisis Management Team, 2000-2009.

Panel Member, U.S. Environmental Protection Agency, FIFRA Scientific Advisory Panel, 2000-2003.

Reviewer, Meat & Livestock Australia, Research and Development Project (Final Report) on Shiga toxin-producing *E. coli*, 2000.

Reviewer, International Foundation for Science, Research Grant (Cloning and Sequencing of a Region of *E. coli* O157:H7), 2000.

Reviewer, Maryland Agricultural Experiment Station, Research Proposal, 2000-01.

Reviewer, Natural Sciences and Engineering Research Council (NSERC) of Canada, Strategic Project, 2000.

Member, Institute of Food Technologists, Expert Panel to draft report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century, 2000-02.

Chairman, Council for Agricultural Science and Technology (CAST), Issue Paper on “Intervention Strategies for Safety of Foods of Animal Origin,” 2000-03.

External Assessor, Universiti Putra Malaysia, Evaluate appointments to Associate/Professor in the Faculty of Food Science and Biotechnology, 2000-03.

Invited Testimony, U.S. Senate Agriculture, Nutrition and Forestry Committee, Hearing on Food Safety, represented CAST, September 20, 2000.

Reviewer, U.S.-Israel Binational Agricultural Research and Development Fund (BARD), Research Proposal, 2000-01.

Vice Chairperson, World Health Organization and Food and Agricultural Organization of the United Nations, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, Rome, Italy, April 30-May 4, 2001.

Chairman, World Health Organization and Food and Agriculture Organization of the United Nations, Expert Consultation and Risk Assessment of Microbiological Hazards in Foods, Working Group on *Salmonella* spp. in eggs and broiler chickens, Rome, Italy, April 30-May 4, 2001.

Member, Institute of Food Technologists, Subcommittee to Propose Nominees for Committee on Nominations and Elections, 2001.

Reviewer, National Agency for the Promotion of Science and Technology of Argentina, Review proposal “Predictive models for growth and inactivation of pathogens relevant to minimally processed foods,” 2001.

Member, National Organic Standards Board, Task Force to Review Compost Regulations in USDA’s Organic Rule, 2001-2002.

Chairman, American Academy of Microbiology, Colloquium on “The Role of Antimicrobials in Agriculture: A Critical Scientific Assessment” Working Group, November 2-4, 2001.

Expert, U.S. General Accounting Office, USDA’s HACCP-based Inspection Models Project (HIMP) pilot, 2001.

Chair, American Society for Microbiology, Comments to Food and Drug Administration on Risk Assessment and Action Plan for Foodborne *Listeria monocytogenes* in Ready-to-Eat Foods, 2001.

External Examiner, Ohio State University, Promotion to Professor of Ahmed Yousef, 2001.

External Examiner, Rutgers-The State University of New Jersey, Promotion to Associate Professor and Tenure of Karl Matthews, 2001.

External Examiner, Universiti Putra Malaysia, Promotion to Professor of Son Radu, 2001.

Panel Member, GRAS Review of Pullulan, 2001-2002.

External Assessor, Universiti Putra Malaysia, Appointment to Associate Professor/Professor in the Faculty of Food Science and Biotechnology, 2001-2003.

External Examiner, Universiti Putra Malaysia, Evaluation of Ph.D. Thesis of Sahilah Abdul Mutalib, 2001.

Reviewer, Food and Drug Administration Science Achievement Awards, 2001.

Invited Contributor, University of Sussex and UK Defence Evaluation and Research Agency, Science Foresight Project, 2001.

Invited External Reference, Kansas State University Nominations for Distinguished Graduate Faculty Award for Daniel Fung, 2001.

Invited External Reference, Oklahoma State University, Nomination for the Eminent Faculty Award for Stanley Gilliland, 2001.

Invited External Reference, Colorado State University, Nomination for University Distinguished Professor for John Sofos, 2001.

Reviewer, United States-Israel Binational Agricultural Research and Development Fund (BARD) research proposal (Foodborne pathogens *Salmonella enteritidis* and *Escherichia coli* O157:H7:cross-resistance to antibiotics, sanitizers and food preservatives), 2001.

External Examiner, The University of the West Indies, Evaluation of Ph.D. Thesis of Lisa Indar-Harrinath, 2001-03.

External Examiner, University of Tasmania, Evaluation of Ph.D. Thesis of Janelle Brown, 2001-2002.

Reviewer, Canada Foundation for Innovation, New Opportunities Fund Proposals (Nova Scotia Agricultural College), 2001-2003.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2001-2003.

Invited Reviewer, Beef Cattle Research Council of Canada, Research Proposal, 2001.

Reviewer, Institute of Food Technologists, Expert Paper on “Analysis and Evaluation of Preventive Control Measures for the Control and Reduction/Elimination of Microbial Hazards on Fresh and Fresh-cut Products,” 2001.

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agricultural *E. coli* O157:H7 Farm-to-Table Process Risk Assessment, 2001-2002.

Reviewer, U.S. Environmental Protection Agency, Review of Pathogen Reduction Protocol to Reduce Foodborne Pathogenic Bacteria in Fruit and Vegetable Process Water, 2001.

Expert Panelist, U.S. Environmental Protection Agency Antimicrobials Division, Efficacy Protocol Review Expert Panel, 2001-2005.

Co-chairperson, International Life Sciences Institute, Annual Meeting, Symposium on Bovine Spongiform Encephalopathy, 2001-2002.

Invited Participant, American Meat Institute, Meeting with the Centers for Disease Control and Prevention to address pathogen contamination of meat and poultry, 2001.

Reviewer, Natural Sciences and Engineering Research Council of Canada, Research Proposal on “Microbial Food Safety-Integrated Modelling Techniques for Farm to Fork Risk Assessment,” Strategic Project, 2001.

Reviewer, Biotechnology and Biological Sciences Research Council of the United Kingdom, Research Proposed on “Dose-Dependent Infection Dynamics of *E. coli* O157:H7 in Cattle,” 2001.

Expert Panel Member, Institute of Food Technologists, Expert Report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century,” 2001.

Member, McDonald’s Food Safety Advisory Council, 2001-2009.

Reviewer, Institute of Food Technologists, Book Review, “Microbial Foodborne Diseases: Mechanisms of Pathogenesis and Toxin Synthesis.” *Food Technology* 55:87, 2001.

Reviewer, Institute of Food Technologists, Expert Report on the “Evaluation and Definition of Potentially Hazardous Foods,” 2001-2002.

Member, American Academy for Microbiology, General and Applied Microbiology Recruitment Committee, 2001-2002.

External Examiner, Utah State University, Promotion to Professor of Burt Weimer, 2001.

Member, National Organics Standards Board of USDA/National Organic Program, Compost Task Force, 2001-2002.

Member, American Society for Microbiology, Nominating Committee for President-Elect, 2001-2002.

Reviewer, Resources for the Future (RFF) Press, *Food Safety* book, 2001-2002.

Member, U.S. Food and Drug Administration, Scientific Achievement Awards Evaluation Committee, 2001.

External Examiner, Iowa State University, College of Veterinary Medicine, Promotion to Professor, James Dickson, 2001.

External Advisor, Michigan State University, National Food Safety and Toxicology Center, Strategic Plan for Center, 2001.

Member, Institute of Food Technologists, Committee of IFT Liaisons to the International Life Sciences Institute, 2001-2002.

Founding Member, Food Safety Research Consortium, comprised of Resources for the Future, University of Maryland, University of Georgia, University of California-Davis, Michigan State University, University of Massachusetts, and Iowa State University, 2002-2009.

Member, Institute of Food Technologists, Task Force on Assisting the Continued Integrity of the U.S. Food Supply, 2001-2002.

Steering Committee Member, Third National Sanitation Foundation International Food Safety Conference, 2001-2002.

Invited External Reference, U.S. Food and Drug Administration nomination for appointment to Senior Biomedical Research Program for David Acheson, 2002.

Invited External Reference, International Association for Food Protection and National Food Processors Association nomination for Food Safety Award for Nelson Cox, 2002.

Invited External Reference, International Association for Food Protection nomination for Citation Award for John Cervený, 2002.

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007.

Invited External Reference, Institute of Food Technologists nomination for Fellow for Katherine Swanson, 2002.

Invited Reviewer, National Science Foundation, proposal for Integrated Research and Education in Environmental Systems, 2002.

Member, Milbank Memorial Fund, Consortium on Reducing the Burden of Foodborne Illness, 2002.

Invited Evaluator, Argentina National Agency of Promotion Cientifica and Tecnologia proposals, 2002.

Chairman, International Life Sciences Institute Risk Science Institute, *Listeria monocytogenes* Expert Panel Review, Steering Committee, 2002.

Invited Reviewer, United States Civilian Research and Development Foundation for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2002.

International Editorial Advisory Board, *Encyclopedia of Animal Science*, Marcel Dekker, 2002-2009.

invited Advisor, U.S. Government Accounting Office (GAO), Audits of U.S. government food safety activities, Review of security of food processing from deliberate contamination, 2002.

Member, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections - VTEC 2003, Edinburg, Scotland, 2002-2003.

Member, National Institutes of Health, National Institute of Allergy and Infectious Diseases, Partnerships Biodefense Initiative Review Panel, Small Business: Infectious Diseases and Microbiology, 2002.

Host, USDA Foreign Agricultural Service Cochran Fellow, Virginia Montero Campos (Costa Rica), 2002.

Reviewer, Food and Drug Administration, Center for Veterinary Medicine, Grant application (Resistant *E. coli* in humans and poultry), 2002.

Reviewer, USDA National Organic Standards Board TAP report on magnesium oxide, 2002.

Review Panel, Food and Drug Administration, proposal for renewal of the Joint Institute for Food Safety and Applied Nutrition, 2002.

Advisory Board, Partnership for Food Safety Education, 2002-2005.

Member, International Life Sciences Institute-North America, Nominations Committee, 2002.

Reviewer, Food and Drug Administration Bacteriological Analytical Manual, Chapter 10 on “Detection and Enumeration of *Listeria monocytogenes* in Foods,” 2002.

Reviewer, Versar, Environmental Protection Agency “*E. coli* O157:H7 Criteria Document,” 2002.

Invited Expert, Institute of Food Technologists Task Order #5 Expert Panel, Intentional Contamination of Food, 2002-2003.

Drafting Team, President’s Council of Advisors for Science and Technology (Office of Science and Technology), Research priorities for improved assurance of food and water safety in the U.S., 2002.

GRAS Expert Panel, Mead Johnson, Safety Review: *Lactobacillus rhamnosus* strain GG, 2002-2003.

Host, USDA Foreign Agricultural Service Cochran Fellow, Diana Banati (Central Food Research Institute, Budapest, Hungary), 2002.

Host, USDA Foreign Agricultural Service International Cooperation and Development Program, Yugoslavian Food Safety Officials (Risk Assessment-Based Food Safety Policy making), 2002.

Member, College of Reviewers, Canada Research Chairs Program, National Sciences and Engineering Program, 2002-

Member, International Life Sciences Institute-North America, Annual Meeting Scientific Session Planning Committee, 2002-2003.

Steering Committee Member, Food Safety Research Consortium, 2003-2009.

Review Coordinator, National Academy of Sciences - Institute of Medicine, Report on “Use of Scientific Criteria and Performance Standards for Safe Foods,” 2003.

Member, International Life Sciences Institute-North America, Communications Committee, 2003-2007.

Member, American Meat Institute Foundation, Research Committee, 2001-2009.

Chair Designate, Institute of Food Technologists, Government Relations Committee, 2003-2004.

Invited Expert, Institute of Food Technologists, Task Order No. 7 Expert Panel (Biosecurity), 2003-2004.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2006

Member, Fifth ASEPT International Conference “Analyse de risques et *Listeria monocytogenes*/*Listeria monocytogenes* Risk Analysis,” Scientific Committee, 2003-2004.

Consultant, U.S. Department of Agriculture-Agricultural Marketing Service, Microbiological Data Program, 2003-2005.

Invited Expert, Secretary of Health and Human Services Tommy Thompson, Secretary’s Roundtable on Obesity/Nutrition, July 30, 2003.

Member, Foodborne Pathogens & Disease, Editorial Board, 2003-2009.

Reviewer, U.S. Civilian Research & Development Foundation (CRDF) for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2003.

Reviewer, World Health Organization and Food and Agriculture Organization of the United Nations, Risk Assessments of *Salmonella* in eggs and broiler chickens, 2002.

Jury Member, Food and Drug Administration Scientific Achievement Awards, 2003.

Reviewer, Centers for Disease Control and Prevention, Foodborne Diseases Branch, Computer-based case study on Applied Food Safety Research, 2003.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Milena Corredig), 2003.

Reviewer, U.S. Department of Agriculture - Agricultural Research Service, Research Project Plan (Biology and Control of Human Pathogens on Fresh Produce), 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Robert Buchanan, 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Arthur J. Miller, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Chairman, National Academy of Sciences, U.S.-Iran Workshop on Foodborne Disease Surveillance Systems, 2003-2005.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

External Examiner, Purdue University, Promotion to Professor of Arun Bhunia, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Review Coordinator, National Academy of Sciences - National Research Council, Report on “Workshop on Exploring a Vision: Integrating Knowledge for Food and Health,” 2003-2004.

Invited Reviewer, Danish Research Agency Centres of Excellence Programme, Proposal entitled “Microbial Opportunistic Pathogens - A Severe Problem to Human Health,” 2003.

Invited Reviewer, Danish Research Agency, Centres of Excellence Programme, Proposal entitled “The Center for the Ecology of Pathogenic Traits in the Environment and Humans,” 2003.

Member, American Foods Group, Corporate Food Safety Advisory Committee, 2003-2005.

Jury Panel, Fifth ASEPT International Conference “*Listeria monocytogenes* Risk Analysis,” Scientific Posters, 2004.

GRAS Expert Panel, Mead Johnson, Safety Review: Prebiotic Ingredients for Addition to Infant Formula, 2003-2006.

Invited Expert, U.S. Government Accounting Office, Agriculture and food security issues, 2003.

Member Expert Panel, Cooperating for Food Safety, Best Practices for Control of *E. coli* O157:H7 in Ground Beef, 2004-2009.

Invited Expert, Argentinian public health, federal meat inspection, and beef industry, Testing beef for Enterohemorrhagic *E. coli* O157:H7 and Shiga Toxin-Producing *E. coli*, 2003.

Invited Expert, United Kingdom Chilled Food Association, Priorities for research, 2003.

Invited Expert, Harris Interactive, Optimal daily intake study, 2003.

Invited Reviewer, Canada Research Chairs, Evaluate nomination of Charles Dozois, 2003.

Invited Expert, U.S. Department of Agriculture, Center for Nutrition Policy and Promotion, Dietary Guidelines Advisory Committee, Food Safety Subcommittee, Advice on food safety guidelines for consumers, 2003.

Reviewer, Council for Agricultural Science and Technology (CAST), Report on Food Safety and Fresh Produce, 2003-04.

Jury Member, International Association for Food Protection, International Leadership Award Committee, 2003-06.

Consultant, State of Yucatan in Mexico, Study to establish “tolerable” levels of *Salmonella* in meats (Zaida Mussaret), 2003-04.

Invited Testimonial, *Foodborne Pathogens and Disease* journal, 2003-04.

Co-convenor, American Society for Microbiology Annual Meeting, Roundtable on “Addressing the Issue of Antibiotic Resistant Foodborne Bacteria through the Application of Risk Assessment,” 2004.

Invited External Evaluator, University of Mysore, Ph.D. thesis of B. P. Padmapriya (Molecular methods for the detection of enterotoxigenic staphylococci and application in food quality programs, 2004.

Member, Lallemand-Ivy/Vet Life Pathogen Reduction Advisory Board, 2004.

Reviewer, Canada Foundation for Innovation. New Opportunities Fund proposal (George Van Der Merwe), 2004.

Review Coordinator, National Academy of Sciences- National Research Council, “Identifying and assessing unintended effects of genetically engineered foods on human health,” 2004.

Invited Lectures, NASA and NLM Internet Global Lecture Library (www.pitt.edu/~super1/). Two supercourses on food safety, (1. Contamination of Foods by Pathogens in the Environment and 2. Food Safety challenges from Farm to Table) 2004.

Steering Committee Member, USDA-FDA Global Conference on Good Agricultural Practices, 2004-2005.

Member, State of Georgia Agroterrorism Committee, 2004.

Consultant, General Mills, Risk Assessment of Refrigerated Products, 2004.

Juror, Institute of Food Technologists Congressional Support for Science Award, 2004-2005.

Reviewer, Merial, Evaluation of *E. coli* O157:H7 vaccine, 2004.

Chair, Food Safety Research Consortium - Centers for Disease Control and Prevention, Food Attribution Data Workshop, 2003.

Chair, Institute of Food Technologists, Government Relations Committee, 2004-2005.

Member, National Academy of Sciences - National Research Council, Committee on National Needs for Research in Veterinary Science, 2004-2005.

Member, International Life Sciences Institute-North America, Strategic Planning Committee for Food Safety Program, 2004

Chair, Institute of Food Technologists, Expert Report on “Antimicrobial resistant Microorganisms: Perspectives on Food Safety,” 2004-2005.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2004-2009.

Reviewer, Marcel Dekker, Encyclopedia of Animal Science, 4 manuscripts (1. Pathogens in Animal Products: Sources and Control; 2. Pathogens in Animal Products: Major Biological Hazards; 3. Animal Source of Food: Quality and Safety - Meat and Poultry; 4. Animal Source of Food: Quality and Safety - Milk and Eggs), 2004.

Invited Moderator, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Oral Presentations, 2004.

Jury Member, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Poster Presentations, 2004.

Invited External Reference, Kansas State University, University Distinguished Professor nomination of Daniel Fung, 2003-2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Russell Flowers, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Susan Hefle, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Maribeth Cousin, 2004.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

Member, Warnex, Inc., Scientific Advisory Board, 2004-2006.

Member, Cooperating for Food Safety, Expert Panel, 2003-2008.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Arthur Miller, 2005.

Invited Nominator and External Reference, American Academy of Microbiology, Robert Brackett, 2003.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Richard Whiting, 2005.

Invited Request for Comment, The U.S. Government Accountability Office (GAC), Federal food safety consolidation, 2004.

Invited External Evaluator, University of Minnesota Department of Food Science & Nutrition, tenure and promotion to Associate Professor of Francisco Diez-Gonzalez, 2004.

Invited External Evaluator, Cornell University Department of Food Science, tenure and promotion to Associate Professor of Martin Wiedmann, 2004.

Jury Member, International Association for Food Protection, Fellows Election Panel, 2004-2005.

Member, 6th International Symposium on Shiga toxin producing *Escherichia coli* (VTEC 2006), Melbourne, Australia, Scientific Program Committee, 2004-2006.

Member, Global Good Agricultural Practices Research & Extension Conference, Orlando, FL, Planning Committee, 2004-2005.

Member, Institute of Food Technologists, Task Force on Governance, 2004-2006.

Session Chair, University of Massachusetts, Food Safety Research Consortium, Workshop on Economic Impact of Food Safety Interventions, 2004.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Lactulose as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Galacto-oligosaccharides as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Polydextrose as a prebiotic in infant formula, 2004-2005.

Member, State of Georgia Agro-terrorism Committee of Homeland Security Working Group, Steering Advisory Committee, 2004.

Co-Chair, American Academy of Microbiology, Colloquium on Agriculture and Food Microbiology Research Opportunities, 2004-2005.

Chair, American Society for Microbiology, Office of Public Affairs, White Paper on USDA Microbiology Research Opportunities, 2004-2005.

Advisor, Nippon Suisan Kaisha (Nissui), Biological Control of *Listeria* in food processing facilities, 2004.

Member, State of Georgia Food Security Tabletop Exercise Committee, Steering Advisory Committee, 2004-2005.

Reviewer, Canadian Foundation for Innovation, University of Manitoba Large Animal Biosecurity Laboratory, 2004.

Reviewer, La Agencia Nacional de Promocion Cientifica y Tecnologia, research proposal, 2004.

Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2004.

Reviewer, Washington State University, IMPACT Center, proposal review, 2004.

Reviewer, Blackwell Publishing, IFT Press series, book proposal, 2004.

Author, Emerging Issues in Food Safety, Microbiology of Fresh Produce, book preface, 2005.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Takuji Tanaka), 2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on *Lactobacillus rhamnosus* strain GG as a probiotic in infant formula, 2005-2006.

Invited External Evaluator, University of Maryland, College of Agriculture and Natural Resources, Department of Nutrition and Food Science, appointment as Professor and Dean of Cheng-I Wei, 2005.

Member, Food Safety Research Consortium, Advisory Committee on Conference for Prioritizing Opportunities to Reduce Foodborne Risks, 2005.

Member, Institute of Food Technologists Press Editorial Advisory Board, 2005-2006.

Member, US Congressman Lynn Westmoreland's Agricultural and Natural Resources Advisory Council, 2005-2008.

Member, Global Good Agricultural Practices (GAPs) Research and Extension Conference, Planning Committee, 2004-2005.

Invited External Evaluator, Washington State University Department of Food Science and Human Nutrition, tenure and promotion to Associate Scientists and Extension E3 of Dong-Hyun Kang, 2005.

Member, Commission for a New Georgia, Agribusiness Technical Advisory Group, 2005.

Reviewer, National Research Council, Food Safety and Foodborne Disease Surveillance Systems report, 2005.

Chairman, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, 2005.

Member, International Association for Food Protection, Rapid Response Task Force, 2005-2006.

Invited External Evaluator, North Dakota State University Department of Veterinary and Microbiological Sciences, tenure and promotion to Associate Professor of Catherine Logue, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees Nominating Committee, 2005-2006.

Invited External Evaluator, North Carolina State University Department of Food Science, promotion to Professor of Lee-Ann Jaykus, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of John Luchansky, 2006.

Invited Expert, RTI International, USDA-Food Safety and Inspection Service Expert Panel on Risk Factors for *E. coli* O157:H7 Contamination of Ground Beef, 2005-2006.

Reviewer, Washington State University IMPACT Center, Grant proposal, 2005.

Reviewer, USDA-SBIR Grants in Food Science and Nutrition, 2005-2006.

Invited External Evaluator, Michigan State University, reappointment of Ewen Todd as Director of the National Food Safety and Toxicology Center, 2005.

Invited External Evaluator, Pennsylvania State University Department of Food Science, promotion to Professor of Stephen Knabel, 2005.

Member, Institute of Food Technologists, Nicholas Appert Award Jury, 2005-2008.

Co-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program, Chasing Zeros session, 2006.

Vice-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program Planning Committee, 2005-2007.

Invited Expert, International Food Informational Council, first responders food safety/security training program for National Center for Food Protection and Defense, 2005.

Invited External Reference, Kansas State University, Graduate School, nomination of Daniel Fung for Distinguished Graduate Faculty Award, 2005.

Invited Expert, ABC Good Morning America, Safety of foods in home refrigerators, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Kiyoko Kubuomura, 2005.

Invited Expert, U.S. Department of Agriculture, Biotechnology Research in Agricultural Biosecurity Workshop, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Jenny Scott, 2005.

Invited Reviewer, UK Food Standards Agency, Review of Verotoxin-producing *E. coli* /STEC research, 2005.

External Reference, International Association for Food Protection, Fellow nomination for Robert Brackett, 2005.

Member, International Symposium on Problems on Listeriosis (ISOPOL) XVI, Organizing Committee, 2005-2007.

Nominator, International Association for Food Protection, nomination of Larry Beuchat for FPA Food Safety Award, 2005.

Invited Reviewer, U.S. Department of Agriculture - Agricultural Marketing Service, Qualified through Verification System, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Gale Prince, 2005.

Reviewer, Kansas State University, Targeted Excellence Program, reviewed proposal, 2005.

Reviewer, National Pork Board, research proposals, 2005-2006.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Agriculture and Food Microbiology Committee, study on Microbiology Research Opportunities and Needs within USDA Competitive Grants Program, 2005.

Invited External Reference, International Association for Food Protection, nomination of Catherine Nnoka for the Harold Barnum Industry Award, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees, Development Committee, 2005.

Reviewer, Springer, book proposal on Microbial Ecology of Food Systems, 2005.

Scientific Expert, Food and Drug Administration - Center for Veterinary Medicine, External Review Committee for CVM's National Antimicrobial Resistance Monitoring System (NARMS) research program, 2005-2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Review Coordinator, Institute of Medicine, Daily Mineral Intakes for Military Personnel report, 2005-2006.

Invited Expert, Hong Kong Agri-Food and Veterinary Authority, expert guidance on microbiological specifications for foods, 2005-2007.

Member, International Life Sciences Institute-North America, Board of Trustees Program Committee, 2006-2009.

External Reference, International Association for Food Protection, Food Safety Award, Letter of nomination for U.S. Department of Agriculture-ARS Microbial Food Safety Research Award, 2006.

National Spokesperson, National Chicken Council, Food safety issues associated with avian influenza virus, 2006-2008.

Chairperson, International Life Sciences Institute-North America, 2007 Scientific Program Planning Committee, 2006-2007.

Invited Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2006.

Invited Participant, McDonald's Worldwide Convention, Orlando, FL, 2006.

Chairperson, National Academies, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2005-2006.

Invited Reviewer, National Academies Press, Food Safety and Foodborne Disease Surveillance Systems, 2006.

Chairman, McDonald's Food Safety Advisory Council, 2006-

Member, Earthbound Farm Food Safety Advisory Council, 2006-2009.

Member, 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), International Scientific Program Committee, 2005-2006.

Spokesperson, Best Food Nation, 2006.

Member, National Turkey Federation, Avian Influenza Scientific Advisory Board, 2006-2009.

Expert Resource, International Food Information Council Foundation, Resource for reporters on food safety issues, 2007-2009.

Invited Reviewer, Research Triangle Institute, Review USDA-Food Safety and Inspection Service food safety risk assessment model, 2006.

Review Coordinator, Institute of Medicine, Report by Committee on the Mineral Requirements for Cognitive and Physical Performance of Military Personnel, 2005-2006.

Reviewer, USDA-CSREES National Research Initiative on Nanoscale Science and Engineering for Agriculture and Food Systems, research proposal, 2006.

Spokesperson, National Chicken Council, Radio Tour (14 interviews) on Avian Influenza, 2006.

Nominator, International Association for Food Protection, nomination of Paul Hall for Harold Barnum Industry Award, 2006.

Invited External Reference, International Association for Food Protection, nomination of Ecolab for Black Pearl Award, 2006.

Nominator, Institute of Food Technologists, Fellow nomination of Bruce Cords, 2007

Board Member, Cooperating for Food Safety, 2006-2009.

Member, Canadian Leaders Opportunity Fund College of Reviewers, 2006-2009.

Reviewer, U.S. Department of Homeland Security, reviewed University of Minnesota National Center for Food Protection and Defense, 2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Member, National Institute for Animal Agriculture, Annual Meeting, Symposium Committee, 2006-2007.

Member, U.S. Highbush Blueberry Council, Crisis response team, media contact for foodborne illness, 2006-

Reviewer, Wiley-Interscience, Handbook of Prebiotics and Probiotics, 2nd edition, 2006.

Reviewer, The Georgian National Science Foundation, research proposals, 2006-2007.

Reviewer, National Pork Board, research proposals, 2006.

Member, Scientific Advisory Board, GangaGen, on-farm food safety interventions, 2006-2013.

Reviewer, Agriculture and Agri-Food Canada, research proposal, 2006-2007.

Reviewer, USDA-Small Business Innovation Research program, research proposals, 2006.

Invited Participant, Co-FARM (The Coalition on Funding Agricultural Research Missions), Congressional Visits Day, 2006.

Advisor, Singapore Agri-Food and Veterinary Authority, *Salmonella* in meats, 2006-2007.

Reviewer, Blackwell, The Microbiology Safety of Foods in Healthcare Settings (B. Lund and P. Hunter), 2006.

Advisor, The Coca-Cola Company, microbiological matters associated with beverages, 2005-2010.

Invited Reference, University of Georgia, Dean of College of Public Health, Philip Williams, 2006.

Advisor, RESOLVE, Inc., USDA-FSIS risk-based inspection measurement criteria, 2006.

Invited External Reference, Kansas State University, James Marsden evaluation for Regents Distinguished Professor, 2006.

Member, Robert Wood Johnson Foundation Food Safety II Project Workshop Committee, University of Maryland, 2006-2007.

Invited External Reference, American Meat Science Association International Award nomination for John Sofos, 2006-2007.

Reviewer, Washington State University, International Marketing Program for Agricultural Commodities and Trade (IMPACT), research proposal, 2006.

Convener, American Society for Microbiology Annual Meeting Symposium on Impact of the Food Chain on the Emergence of Antibiotic Resistance in Human, 2007.

Member, Illinois Institute of Technology National Center for Food Safety and Technology-UGA Center for Food Safety Workshop on Role of Testing in the Safety of Fresh Produce, Organizing Committee, 2007.

Moderator, ISOPOL XVI (The International Symposium on Problems of Listeriosis), Opening Session, March 20, 2007.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008.

Representative, American Society for Microbiology, CoFARM (Coalition on Funding Agricultural Research Missions) Congressional Visits, Washington, DC, April 18-19, 2007.

Moderator, Cooperating for Food Safety, Best Practices for Improving Food Safety: A National Symposium, Washington, DC, October 31, 2007.

Moderator, Institute of Medicine Workshop on Nutritional Risk Assessment: Bridging Perspectives, Sharing Methodologies, Identifying Data Challenges, Washington, DC, March 1, 2007.

Chairman, ConAgra Food's Food Safety Advisory Council, 2007-

Invited Participant, SQF Institute (Food Marketing Institute) Leafy Greens Workshop, Chicago, IL, March 28-30, 2007.

Chairperson, American Academy of Microbiology, Colloquium on Global Food Safety, Steering Committee, 2007-2009.

Invited External Reference, Kansas State University, Professional Performance Award for Daniel Fung, 2007.

Reviewer, National Academies National Research Council Proceedings of an Iranian-American Workshop: Food Safety and Foodborne Disease Surveillance Systems, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Jenny Scott, 2007.

Member, Georgia Department of Human Resources, Division of Public Health, Food Service Rules and Regulations Implementation Advisory Workgroup, 2006-2010.

Scientific Advisor, Taco Bell Fresh Produce Food Safety Initiative, 2006-2009.

Scientific Advisor, Sterilex, Owings Mills, MD, 2007.

Invited Non-Government Organization Representative, Codex Alimentarius Commission Ad Hoc Intergovernmental Task Force on Antimicrobial Resistance, IFT Representative, 2007-2008.

Advisory Board Member, University of California-Davis Center for Produce Safety, 2007-2009.

Scientific Advisor, Clinical Advisors, 2007.

Lead Expert, International Food Information Council Media Training on Food Safety, 2007.

Member, Mars Scientific Advisory Council, 2007-2009.

Reviewer, The Wellcome Trust research proposal on *Bdellovibrio* as living antibiotics, 2007.

Invited Testimony, U.S. House Appropriations Committee, Rep. Jack Kingston, Food safety issues associated with food imports, September 2007.

Scientific Advisor, Prepara, Inc. (addresses 21st Century Threats, preparedness and emergency response), Advisory Board, 2007-2008.

Reviewer, National Sciences and Engineering Research Council of Canada (NSERC), Strategic Project Grant (O.D. Baik, University of Saskatchewan), 2007.

Laboratory Analysis, Minnesota Department of Health, food samples associated with *Salmonella* outbreak, 2007.

Consultant, U.S. Government Accounting Office, study for Senators Edward Kennedy and Barbara Boxer of the Senate Committee on Health, Education, Labor, and Pensions on FDA oversight of fresh produce safety, 2007.

Peer Reviewer, Versar, Inc. (environmental consulting firm), FDA Center for Food Safety and Applied Nutrition documents and reports addressing various aspects of food safety, 2007-2008.

Peer Commenter, Booz/Allen/Hamilton, Kraft Foods benchmarking study to better understand how leading companies are addressing food safety and quality programs, 2007.

Nominator, American Society for Microbiology, nomination of Bala Swaminathan for Gen-Probe Joseph Award, 2007.

Invited Testimony, Georgia Senate Oversight Committee, Hearing on Imported Seafood, Safety of imported fish and shellfish, November 16, 2007.

External Evaluator, University of Minnesota, School of Public Health, promotion of Craig Hedberg to Professor, 2007.

Reviewer, Garland Science/Taylor and Francis, Case Studies in Infectious Diseases book chapter, 2007.

External Evaluator, University of Tennessee, Department of Food Science and Technology, promotion of David Golden to Professor, 2007.

Reviewer, Wiley-Blackwell, Essential Food Safety Assurance: Managing HACCP and food safety throughout the global supply chain book proposal, 2007.

Reviewer, International Food Information Council, Question and answer fact sheet on antimicrobial resistance microbes in foods, 2007.

Nominator, American Society for Microbiology, ASM Founders Distinguished Service Award nomination of Ann Vidaver, 2007-2008.

Invited Reviewer, Netherlands Organization for Scientific Research (NWO) - Council for Earth and Life Sciences, research proposal on spread of pathogens in ecosystems, 2007.

Invited Reviewer, Shaheed Beheshti University of Medical Sciences, Tehran, Iran, research paper on diarrheagenic *E. coli*, 2007.

Chairman and Convenor, U.S. Centers for Disease Control - Food Industry Safe Foods Forum, 2007-

Invited External Reference, Oklahoma State University, Regents Distinguished Research Award nomination of Stanley Gilliland, 2007.

Invited External Reference, University of Illinois, Faculty Award for Excellence nomination of Scott Martin, 2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of John Luchansky, 2007.

Invited Reviewer, Oregon Agricultural Experiment Station, Animal Health and Disease research proposals, 2007.

Invited External Evaluator, Washington State University, Department of Veterinary Clinical Sciences, promotion of William Sisco to Professor, 2007.

Invited External Reference, North Carolina State University, Alumni Association Outstanding Research Award nomination of Lee-Ann Jaykus, 2007.

Member, International Life Sciences Institute-North America, 2008 Annual Meeting Scientific Program Planning Committee, 2007.

Invited External Evaluator, Emory University, Rollins School of Public Health, promotion of Christine Moe to Professor, 2007.

Invited Expert, The National Academies National Research Council, 2006 Assessment of Research Doctorate Programs, 2006-2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of Bala Swaminathan, 2007.

Invited Participant, University of Maryland - Food and Drug Administration Joint Institute for Food Science and Applied Nutrition (JIFSAN), Tools for Prioritizing Food Safety Concerns Workshop, Washington, DC, June 4-6, 2007.

Member, Institute of Food Technologists, Government Relations Committee, 2006-2009.

External Reference, University of Georgia Libraries, promotion of Regina Cannon to Librarian IV, 2007.

Laboratory Analysis, Chicago Department of Public Health, food samples associated with *Salmonella* outbreak, 2007.

Reviewer, Canada Research Chairs, nomination of Rafael Garduno, Dalhousie University, 2007.

Reviewer, Canada Research Chairs, nomination of Andreas Schieber, University of Alberta, 2007.

Reviewer, Canada Research Chairs, nomination of Christopher Yost, University of Regina, 2007.

Advisor, Hong Kong Economic and Trade Office, Monica Chen, Director, food safety issues, 2007.

Invited nominator, Oklahoma State University, Gamma Sigma Delta International Distinguished Achievement in Agriculture Award nomination of Stanley Gilliland, 2007.

Expert, Nutri+Food Business Constituents, food safety testing (industry landscape/drivers/constraints), 2007

Member, American Association of Meat Processors, Food Safety and Science Committee, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Mary Ellen Camire, 2007.

Invited Expert, RTI International, Food and Agricultural Policy Research Program, expert elicitation on the probability of illness per serving for meat and poultry products, 2007.

Invited External Evaluator, Clemson University, Department of Food Science and Human Nutrition, promotion of Xiuping Jiang to Associate Professor, 2007.

Member, International Life Sciences Institute-North America, Board of Trustees Communications Committee, 2007.

Chairperson, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2007-2008.

Member, Institute of Medicine-Food and Nutrition Board Committee on Review of Use of Process Indicators in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009.

Member, University of California-Davis Center for Produce Safety, Technical Advisory Committee, 2007-2010.

Member, Institute of Food Technologists, Current and Emerging Science Issues Expert Advisory Panel, 2008-2010.

Member, National Research Council/Institute of Medicine, Standing Committee on Review of USDA-FSIS Public Health Risk-based Inspection Program, 2008-

Member, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, Scientific Program Committee, 2007-2009.

Abstract Reviewer, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, 2008-2009.

Member, Publix Super Markets Food Safety Council, 2008-

Member, American Association of Meat Processors, Food Science and Science Committee, 2008-

Advisor and Spokesperson, Almond Board of California, Issues Management Plan, 2008-2009.

Member, FDA Reagan Udall Foundation Finance Committee, 2008-2011.

Member, National Conference on Food Safety and Public Health Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Steering Committee, 2008-2009.

Reviewer, Danish Ministry of Foreign Affairs, Consultative Research Committee for Development Research, research proposal (Tanzania) 2008.

Reviewer, MacArthur Fellows Program, Catherine Donnelly nominee, 2008.

Reviewer, Springer, New journal (Journal of Food and Environmental Virology) proposal, 2008.

Reviewer, Ontario Food Safety Research Program (Canada), Proposal on Reduction of *E. coli* O157:H7 in ground beef using a combination of bundles, 2008.

Invited Expert, University of Maryland - Food and Drug Administration Joint Institute for Food Safety and Applied Nutrition, Workshop on Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns, 2008.

Reviewer, Canadian Foundation for Innovation, Infrastructure project proposal (Elaine Petrof, Queens University), 2008.

Invited Expert, Centers for Disease Control and Prevention, Briefing and Brainstorming Session on Outbreak of *Salmonella* Poona Infections in the USA and Canada, 2008.

Nominator/Letter of Support, International Association for Food Protection - Grocery Manufacturers Association Food Safety Award for International Commission on Microbiological Specifications for Foods, 2008.

Evaluator, U.S. Department of Agriculture-Agricultural Research Service, Promotion of Dr. Manan Sharma, 2008

Reviewer, Ontario (Canada) Research Fund - Research Excellence Program, Proposal on Novel Strategies for the Control of Foodborne Pathogens in Poultry (University of Ottawa), 2008.

Invited Expert, Food and Drug Administration (Commissioner Andrew von Eschenbach), Listening session on explanations for the current *Salmonella* outbreak associated with tomatoes and peppers, July 14, 2008.

Invited Expert, Animal Agriculture Alliance Third Party Subject Matter Experts on Antimicrobial Resistance, 2008-

Invited Expert, Illinois Department of Public Health, Office of Health Protection (Jayne Nosari), Alleged botulinum toxin food poisoning; interpreting test results (nonspecific deaths of mice), December 3, 2008.

Invited Expert, Institute of Food Technologists, Comments and Recommendations on the Food and Drug Administration's Food Protection Plan, Food Technology 9(08):24, 2008.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2008-2011.

Reviewer, Springer, New journal (International Journal of Ionizing Radiation) proposal, 2008.

Invited Expert, Paragon Development, Voice-of-Market Forum on MicroBeGone (a polymer with antimicrobial properties), 2008.

Reviewer, Garland Science (Taylor and Francis Group), Book on Case Studies in Infectious Diseases, 2008.

Invited Evaluator, University of Maryland, Tenure and rank of full professor of Robert Buchanan, 2008.

Subject Matter Expert and Advisor, Georgia Committee for Agriculture and Food Defense, 2007-

Reviewer, Springer, New journal (Food Security: The Science and Sociology of Food Production and Access to Food) proposal, 2008.

Invited Evaluator, U.S. Department of Agriculture - Food Safety and Inspection Service, Technical leader/microbiologist position for Dr. Shanker Reddy, 2008.

Reviewer, Food and Agriculture Organization (Rome Italy), EU scientific opinion on pathogen reduction treatment use and antimicrobial resistance, 2008.

Referee, Hartmut Hoffman-Berling International Graduate School of Molecular and Cellular Biology, Application of Fereshteh Jafari, 2008.

Nominator (Letter of Support), Institute of Medicine, Cecil Research Award for Ann Yaktine, 2008.

Chairman, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, Planning Committee, 2008.

Reviewer, John Wiley & Sons, Book (Analytical Food Microbiology: A Laboratory Manual, 2nd Edition) proposal, 2008.

Invited Evaluator, Technion - Israel Institute of Technology, Department of Biotechnology and Food Engineering, promotion to Associate Professor and tenure of Dr. Sima Yaron, 2008.

Member, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, Planning Committee, 2008.

Member, Institute of Food Technologists, Awards Committee Jury for Nicholas Appert Award, 2007-2009.

Invited Reference, Texas A&M University, Vice President for Research candidate, Martin Philbert, 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, (Managing Food Safety Practices from Farm to Table), 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, 2008.

Invited Expert, International Food Information Council, Antibiotic resistance, Media Spokesperson and Advisor, 2008-2009.

Convenor, American Society for Microbiology, Symposium on Emerging Issues in Food Safety: Impact of Globalization of the Food Supply, 2008.

Invited Expert, U.S. Federal Government's Interagency Risk Assessment Consortium (IRAC), Workshop on Research Needs Prioritization for Conducting a Quantitative Risk Assessment of *E. Coli* O157:H7 in Leafy Greens, 2008.

Member, Invited Expert, Tapestry Networks, Food Safety Leadership Network, 2008-2009.

Member, Wiley-Blackwell, IFT Press Series, Editorial Advisory Board, 2006-2009.

Member, International Life Sciences Institute-North America, Scientific Session Program Planning Committee, 2008-2009.

Nominator, Institute of Food Technologists, Fellow nomination of Vijay Juneja, 2008.

Member, International Association for Food Protection, Membership Committee, 2007-2009.

Co-Organizer and Co-Chairperson, International Working Group on Reducing *Salmonella* on Raw Poultry, 2008-

Reviewer, University of California-Davis Center for Food Safety, Research proposals, 2008.

Invited Expert, Mars, Workshop on *Salmonella*, 2008.

Advisor, National Restaurant/Retail Produce Food Safety Consortium, Meetings of Leading Purchasers of Minimally Processed Produce, 2007-2009.

Member, State of Georgia Department of Public Health, Food Service Technical Review Committee, 2007-

Co-Organizer, New York Academy of Sciences, Symposium on Foodborne Illnesses and Food Safety, 2007-2008.

Chairman, U.S. National Academies Planning Committee, The 2nd Korean Academy of Science and Technology - U.S. National Academies Bilateral Symposium: The Science of Food Safety Risk Assessment, 2009.

Review Coordinator, The National Academies National Research Council - Division on Earth and Life Sciences, Report on "Review of the Methodology Proposed by the Food Safety and Inspection Service for Follow-up Surveillance of In-Commerce Businesses," 2009.

Invited External Evaluator, Iowa State University Department of Food Science and Human Nutrition, tenure and promotion of Associate Professor of Sam Beattie, 2009.

Expert Advisor, U.S. House Government Oversight and Reform and Domestic Policy Subcommittee, hearing on safety of fresh produce, 2009.

Member, Food and Drug Administration Science Board Subcommittee, Research Planning, Program and Facilities of the Center for Veterinary Medicine, 2009.

Reviewer, Canada-Israel Cooperation in Agricultural Research Program, research proposal, 2009.

Member, ConAgra Foods, From What to How Task Force, 2009-2010.

Nominator, International Association for Food Protection, IAFP-GMA Food Safety Award, Joy Gaze nominee, 2009.

Reviewer, Canada Research Chair, Tier 2 Chair in Infectious Bacterial Diseases, Charles Dozois, 2009.

Invited Nominator, Institute of Food Technologists, Fellow, Rick Holley, 2009.

Co-Chair, International Life Sciences Institute-North America, ILSI-NA Annual Meeting session on "Science Resulting from ILSI-North America Committee Projects" 2009.

Reviewer, University of California-Davis Center for Produce Safety, food safety research proposals, 2009.

Reviewer, Elsevier Science, Encyclopedia for Food Safety book proposal, 2009.

Member, Global Food Safety Initiative, Advisory Council, 2010-

02/2015

Co-Chair, American Academy of Microbiology, Colloquium on “Global Food Safety: Reducing Risk from Farm to Table,” San Francisco, CA, April 24-26, 2009.

Invited Reviewer, Ontario (Canada) Food Safety Research Program research proposal “Toward Better Understanding and Effective Control of *Listeria monocytogenes* on Ontario’s Farm-to-Fork Chain by Indexing the Pathogen,” 2009.

Member, Solae, Scientific Advisory Board, 2010–

Member, American Peanut Council, Manufacturer’s Scientific Advisory Committee, 2009.

Member, XXIV World’s Poultry Congress (Salvador, Bahia, Brazil), Organizing Subcommittee on Food Safety, 2009-2012.

Invited External Evaluator, Emory University, School of Public Health, Department of Epidemiology, promotion to Professor and tenure of Dr. Ruth Berkelman, 2009.

Nominator, Institute of Food Technologists, Fellow nomination of Pina Fratamico, 2009.

Nominator, American Society for Branch Lectureship speaker, nomination of Kathryn Boor, 2009.

Advisor, Universidad del Este, Carolina, Puerto Rico, Development of a Bilingual Minor in Food Safety, 2009.

Reviewer, Elsevier Science, Management in Food Safety book proposal, 2009.

Scientific Advisor, Roka Bioscience, San Diego, CA, 2009–

Nominator, University of Wisconsin-Madison, Department of Nutrition, nutrition internship for Lindsay Smit, 2009.

Member, Malt-O-Meal, Food Safety Review Panel, 2009.

Reviewer, American Meat Institute Foundation, Food safety research proposals, 2009.

Nominator, American Academy of Microbiology, nomination of Lee-Ann Jaykus, 2009.

Reviewer, Georgia National Science Foundation, food safety proposals, 2009.

Member, Food Safety Research Consortium, Assuring Safety of Imported Foods: Public and Private Rules in a Risked-based System Workshop, Organizing Committee, 2009-2010.

Member, USDA-CSREES Workshop on Food Safety and the Public Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Scientific Organizing Committee, 2009.

Nominator, Institute of Food Science & Technology (UK), Fellow nomination of Andrew Bennett, 2009.

Member, Institute of Food Technologists, Current and Emerging Science Issues Advisory Panel, 2009.

Nominator, Massachusetts Institute of Technology, John S. And James L. Knight Foundation Program in Science, Technology and Society for Knight Science Journalism Fellowships, nomination of Garance Burke (Associated Press reporter), 2009.

Reviewer, ASM Press, Pre-harvest Food Safety book proposal, 2009.

Commenter, Institute of Medicine, Food Forum, "Providing Healthy and Safe Foods as We Age" Workshop, 2009.

Nominator, Institute of Food Technologists. Fellow nomination of Stanley Gilliland, 2009.

Member, Kellogg's Food Safety Advisory Council, 2009-2011.

Reviewer, IFT Press/Wiley-Blackwell, "Improving Import Food Safety" book proposal, 2009.

Nominator, MacArthur Fellows Program, nomination of Martin Philbert (University of Michigan), 2009.

Invited Nominator MacArthur Fellows Program, nomination of Craig Hedberg (University of Minnesota), 2009.

Reviewer, Elsevier, book proposal basic food commodities that bridge agriculture, food science, and nutrition, 2009.

Expert Advisor, Argent Diagnostics Bettcher, development and commercialization of Raman spectroscopy technology for detection of foodborne pathogens, 2009.

Co-Chair, American Academy of Microbiology, Colloquium on "Global Food Safety: Reducing Risk from Farm to Table," San Francisco, CA, April 24-26, 2009.

Reference, Oklahoma State University, National Institute for Microbial Forensics Food and Agricultural Biosecurity, letter for Dr. Li Ma for Assistant Professor position, 2009.

Reviewer, Oak Ridge National Laboratories, Oak Ridge, TN, research projects sponsored by Mars, Inc., June 18-19, 2009.

Nominator, American Association for the Advancement of Science Fellow, nomination of Ewen Todd (Michigan State University), 2009.

Nominator, American Academy of Microbiology Fellow, nomination of Colin Hill (University College Cork, Ireland), 2009.

Reviewer, Springer, Food Safety and Risk Analysis book proposal, 2009.

Coordinator, Department of Homeland Security, Site Visit for “The National Center for Food Safety and Defense” proposal between University of Georgia, Emory University, and Georgia Tech, June, 2009.

Reviewer, The National Academies National Research Council, Report on “Toward Sustainable Agricultural Systems in the 21st Century,” 2010.

Reviewer, Qatar National Research Fund (QNRF), “The National Priorities Research Program, 2010.

Member, USDA-ARS and Ohio State University, Scientific Program Committee on Antibiotic Resistance Mitigation, 2010.

Member, International Life Sciences Institute – North America 2010, Scientific Session Program Planning Committee, 2009-2010.

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, for Kathleen Glass, 2010.

Nominator, 2011 National Sanitation Foundation Food Safety Leadership Award, Publix Supermarkets, 2010-2011.

Mentor, Food and Drug Administration – Center for Food Safety and Applied Nutrition, for Sufian Al Khaldi, 2011-2011.

Expert Witness and Consultant, Food and Drug Administration – Office for Regulatory Affairs, Chun's Modified Atmosphere Packaged Shrimp Rolls, 2010-2011.

Member, Animal Health Institute, Scientific Advisory Board, 2010-

Nominator, Institute of Food Technologists, Fellow Nomination of Cherl-Ho Lee, 2010.

Member, U.S. Food and Drug Administration and Department of Health and Human Services Office of the Assistant Secretary of Planning and Evaluation, Expert Panel on Link Between Contamination of Food Products by Various Pathogens and the Rate of Foodborne Illness, 2010.

Commenter, CNN.com, Story on "Soda Fountains Contained Fecal Bacteria," 2010.

Member, Elanco Food Solutions, Scientific Advisory Board, 2010-2012.

External Evaluator, Ohio State University, Department of Food Science and Technology, Promotion to Professor of V. M. (Bala) Balasubramaniam, 2010.

Member, Georgia Food Service Technical Review Committee, 2007-

Expert Advisor, Scientia Advisors, food safety testing and controls, 2010.

Review Coordinator, National Research Council, Division on Earth and Life Sciences, Board on Agriculture and Natural Resources report on "An Evaluation of the Food Safety Requirements of the Federal Purchase Ground Beef Program," 2010.

Convener and Commenter, Institute of Medicine Food Forum, Workshop on "Leveraging Food Technology for Obesity Prevention and Reduction Efforts," November 2-3, 2010.

Expert Advisor, Promar International, Effects of U.S. food safety legislation on Japanese agriculture, 2010.

Nominator, Ohio State University Dale A. Sieberling Professorship in Dairy and Food Engineering, letter of support for V. M. Balasubramaniam, 2010.

Reviewer, The Netherlands Organisation for Scientific Research (NWO), VENI grant on "Influence of the abundance, diversity and community composition of soil fungi on the fate (survival) of *Escherichia coli* O157:H7 in soil," 2010.

External Evaluator, University of Wisconsin, Department of Food Science, Promotion to Full Professor of Barbara Ingham, 2010.

Scientific Advisor, Cargill, Control of *Salmonella* in meat processing facilities, 2010.

Member, Animal Health Institute, Committee on the Evaluation of the National Antimicrobial Resistance Monitoring System (NARMS) Data, 2010.

Nominator, University of Wisconsin, College of Agriculture and Life Sciences 2010 Honorary Recognition Award, letter of support for William Sperber, 2010.

External Evaluator, King Saud University, Evaluate Teaching Curriculum and Academic Plans of the Department of Food Science and Human Nutrition, 2010.

Member, Illinois Institute of Technology, National Center for Food Safety and Technology, Expert Science Review Panel for Sprout Safety Task Force, 2010.

Expert, Eastern Research Group, Expert elicitation to assess, across food groups, the likelihood of contamination from different pathogens during harvest, processing and distribution stages of the farm-to-fork continuum, 2010.

Scientific Advisor, PepsiCo-Frito Lay, microbiological food safety issues, 2008-2011.

Scientific Advisor, Kraft, microbiological food safety issues, 2008-2011.

Expert Witness, Pima County Health Department, Tucson, Arizona, Botulism from baked potato, 2010.

Expert Witness, Canadian Department of Justice, Canadian Food Inspection Agency, Shigellosis from imported baby carrots, 2010-2012.

Reviewer, Ontario Ministry of Agriculture, Food and Rural Affairs, 2009/2010 Food Safety Research Program, research proposals, 2009-2010.

External Evaluator, Oklahoma State University, Department of Animal Science, Promotion to Full Professor of Peter Muriana, 2010.

Invited Advisor/Collaborator, National Meat and Poultry Processing Board – Government of India, 2010-

Advisor, Kellogg's, microbiological food safety issues, 2009-2011.

Advisor, Solae, microbiological food safety issues, 2010-

Reviewer, National Research Council, Board on Agriculture and Natural Resources, report on "Toward Sustainable Agricultural Systems in the 21st Century," 2010.

Scientific Advisor, U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, topics regarding pathogens in produce for the produce safety rule, 2010-2011.

Nominator, American Academy of Microbiology, nomination of Colin Hill (Cork, Ireland), 2010.

Peer Review Panelist, U.S. Department of Agriculture – Agricultural Research Service, ARS Project Plans for National Program 108 Food Safety (animal and plant products), 2010.

Invited Expert, Scientia Advisors interview on microbiology safety testing. 2010.

Scientific Advisor, Centers for Disease Control and Prevention, National Center for Zoonotic, Veterinary and Emerging Diseases, issues related to microbiological food safety, 2010.

External Evaluator, Illinois Institute of Technology, Promotion to Full Professor and Tenure of Robert Brackett, 2010.

External Evaluator, Iowa State University, Department of Veterinary Diagnostic and Production Animal Medicine, Tenure of Scott Hurd, 2010.

Member and Advisor, U.S. Department of Agriculture – Food Safety and Inspection Service, Expert Committee on National Food Safety Education Campaign (in collaboration with the Ad Council), 2010-2011.

Reviewer, Wiley-Blackwell, book on Recent Advances in Food Safety, 2010.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Organizing Committee, 2010-2011.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Technical Committee, 2010-2011.

Moderator, Institute of Medicine, Food Forum, forum on "Development of Dietary Guidance for Non-nutrient Dietary Components," 2010.

Senior Advisor, Leavitt Partners, Washington, DC, 2010-2013.

Reference, Seoul National University, appointment as Associate Professor of Dong-Hyun Kang, letter of recommendation, 2010.

External Evaluator, Cornell University, Department of Food Science, Promotion to Full Professor of Martin Weidmann, 2010.

Scientific Advisor, University of Toronto, School of Public Health, Robert Remis regarding 2008 *E. coli* O157:H7 outbreak in North Bay, Ontario, 2010.

External Evaluator, Kansas State University, College of Veterinary Medicine, Department of Diagnostic Medicine/Pathobiology, Promotion to Full Professor of Doug Powell, 2010.

Member, Institute of Food Technologists, Workshop on Microwave Heating and Safety of Foods, Organizing committee, 2010-2011.

Reference, University of Georgia Research Foundation, Creative Research Award, letter of support for Casimir Akoh, 2010.

Member, International Life Sciences Institute – North America, Membership Development Committee, 2010

Member, 24th World Poultry Congress, Scientific Organizing Committee for Food Safety, 2010-2012.

Member, VoluntaryNet, collaboration between Centers for Disease Control and Prevention, the food industry and the UGA Center for Food Safety on sharing testing data, 2013-

Co-host, Visiting Scholar Professor Li-Min Guo, Urumqi, China, 2012

External Evaluator, Purdue University, Department of Animal Sciences, Promotion to Associate Professor and Tenure of Dr. Paul Ebner, 2011

Co-host, Visiting Scholar, Assistant Lecturer Aymen Mohamed Megahed, Zagazig University, Egypt, 2011

Chair, American Society for Microbiology Founders Distinguished Service Award Committee, 2011.

Organizer, Symposium, "A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh Cut Leafy Greens," IAFP Annual Meeting, Milwaukee, WI, August 3, 2011.

Consultant, The World Bank, Food Pathogens and Food Safety Regulations. 2011.

Evaluator, International Life Sciences Institute Publication Proposal, "Present Knowledge in Food Safety, 2011.

Evaluator, Springer USA Book Proposals and Series, "Retail Food Safety," 2011.

02/2015

Working Group Participant, Western Center for Food Safety, Developing Research Protocols for Manure and Water to Support Variances to Proposed Produce Rule, 2011.

Expert Panel Member, RTI International, Washington, DC. Foodborne Illness Attribution for the Food Safety Modernization Act, 2011.

Organizer and Co-Chairman, CDC-Food Industry Safe Foods Forum, 2007-

Invited Referee, King Saud University, Riyadh, Food Science and Human Nutrition Department, Promotion Evaluation and Scientific Communication, 2011.

Collaborator, Seoul National University Center for Food Safety and Toxicology on developing and implementing joint research projects, joint workshops and international conferences. 2011.

Invited External Reference, Publix Super Markets, Food Safety Training Program Nomination for NSF Food Safety Leadership Award, 2011.

Member, Organizing Committee, Workshop on Novel Sampling and Sensing for Improving Food Safety, Georgia Tech, Atlanta, GA, June 16-17, 2011.

Invited Advisor, American Society for Microbiology, Antibiotic Resistant Organisms Generated and Discharged by Wastewater Treatment – A Public Health Issue, 2011.

Invited Convener, International Life Sciences Institute-NA Annual Meeting Hot Topics/Controversies Session, 2011.

Scientific Advisor and Liaison, International Life Sciences Institute-NA Working Group on Conflict of Interest & Scientific Integrity. 2011-2012.

Member, Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2011.

Invited Expert, FDA/ASPE Food Attribution Expert Elicitation, 2011.

Member, Georgia Foodservice Technical Review Committee, to review proposed procedures and hazard analysis and respond with comments and concerns regarding the plan. 2011.

Invited Reviewer, Abstracts for Workshop on Novel Sampling and Sensors for Improving Food Safety, Georgia Institute of Technology, Atlanta, GA. June 2011.

Reviewer, USDA NARMS Survey for Input on Food Safety, 2011.

Member, Planning Committee, Institute of Medicine Public Meeting on *The Impact of Global Trade on Food Safety: Supply Chain and Policy/Regulatory Approaches to Import Safety*, 2011.

Member, ILSI NA Scientific Program Planning Committee; Attributable Risk Sessions, 2012.

Invited Interview, German *E. coli* outbreak, Associated Press, June 2011.

Invited Mentor, FDA Leadership Organizational Program in the Center for Food Safety and Nutrition, Sufian Al Khaldi, 2011.

Invited Nominator, Cargill, for IAFP Black Pearl Award, letter of support, 2011.

External Evaluator, Dr. Shaohua Zhao, letter of evaluation for appointment in the Senior Biomedical Research Service, U.S. Food and Drug Administration, 2011.

Invited Expert Advisor, Proposal to USDA Foods and Nutrition Service, to establish a Center for School Food Safety Research, University of Georgia, 2011.

Invited Expert, Guidepoint Global Advisors, consultation on *E. coli* outbreak in Germany. 2011

Invited Nominator, CDC, Food Safety Modernization Act to establish a Working Group on food safety and foodborne disease surveillance, 2011.

External Evaluator, IAFP Haverland Citation Award, Invitation to write letter of support for Tino Genigeorgis' nomination, 2011.

Member, Animal Health Institute Scientific Advisory Council, Washington, DC, 2011-

Invited Reviewer, YUM! Brands Standard Operating Procedures regarding pizza toppings and cooking process, 2011.

Invited Evaluator, Council of State Governments, Surveillance and Inspector Training Models, 2011.

Invited Expert, CDC Environmental Health Specialists Network, Atlanta, GA, food cooling practices, 2011.

Invited Liaison, American Society for Microbiology, Meeting with UDA Under Secretary for Research, Education and Economics and Chief Scientist at USDA to discuss research funding issues and specifically those that impact REE and NIFA, 2011.

Expert Advisor, Kellogg's, observation on *Listeria monocytogenes* in dry plants, 2011

Invited Expert, Guidepoint Global Advisors, consultation on trends in microbial testing for food safety, 2011.

External Evaluation, USDA-AMS Microbiological Data Program, letter in support of the program, 2011.

Invited Expert, Starbucks Coffee Company, provide information on the food safety of fresh-pressed juice compared to pasteurized juices, 2011.

Invited Interview, independent health journalist working with Fairwarning, requesting information on seafood safety, focusing on imported seafood, 2011.

Invited Expert, Cargill, clarifying the public health significance of the "coliform" test for flour, 2011.

Invited Expert, Guidepoint Global Advisors, infectious disease experts in Mexico regarding patients with Epstein Barr Virus, 2011.

Invited Expert, Guidepoint Global Advisors, agrobioterrorism, poisoning of crops or water supply bioterrorism: microbial control techniques, 2011.

Invited Expert, WSB-TV, Atlanta, GA, Milkshake microbiological results, 2011.

Invited Nominator, FDA Food Safety Modernization Act (FSMA) Working Group, letter of support for Joan Menke-Schaenzer's nomination, 2011.

Invited Expert, Publix Super Markets Bakery, food safety in pie production, 2011.

Invited Expert, Land O'Frost Co., new line of products and microbiological testing protocols, 2011.

Invited Expert, Baldor Foods, refrigeration temperature for salsa, 2011.

Invited Expert, Unilever, reduced-fat peanut butter, 2011.

Invited Expert, ConAgra Foods, antimicrobials and storage conditions on inoculated pathogenic bacteria in gassed and non-gassed dairy products, 2011.

Invited Expert, "Solae, thermal inactivation of *Salmonella*", 2011.

Invited Expert, NanoICE, regarding research validating efficacy of killing microbes during chilling and preserving raw products, 2011.

Invited Expert, Danisco, food safety of reduced oxygen packaging, 2011.

Expert Advisor, International Food Information Council (IFIC), Washington, DC. *Salmonella* Heidelberg outbreak from ground turkey, 2011.

Expert Advice, Preparis X-Force, Radiation in food in Japan, 2011.

Invited Member, Food Safety Advisory Council, ConAgra Foods, overview of *E. coli* 104:H4 outbreak in Germany, 2011.

External Evaluation, Letter of Support of Bernadette Franco's Application for grant to create new Research, Innovation and Dissemination Centers, Sao Paulo Research Foundation, Sao Paulo, Brazil, 2011.

Invited Expert, Outbreak of *E. coli* O157:H7 in strawberries in Oregon. Questions regarding jam that was already frozen that might have been made from contaminated berries. Bill Keene, Epidemiologist, Oregon Public Health Div., Portland, OR, 2011.

Invited Expert, Administrative Conference of the United States, how existing systems of third-party certification could be tailored to provide confidence appropriate for safety regulators. Met with Professor David Wirth, ACUS consultant, 2011.

Invited Expert, Angela Miles U.S. GAO (Atlanta), Brendon Kretzchmar and Candice, San Francisco, reimbursement of losses of food industry for mistaken food recalls or vehicles of foodborne disease outbreaks, July 2011.

Expert, ConAgra Foods regarding macrowave energy against salmonellae and STEC, 2011.

Expert, CDC, Atlanta, *Campylobacter*-contaminated water systems, 2011.

Invited Member, Kellogg's Food Safety Review Group, for promoting food safety globally, 2011.

Invited Expert, Frito-Lay, Raw Commodity Specs: *Salmonella* in flour, 2011.

Invited Expert, Cargill, High-pressure processing of foods to mitigate contamination by harmful microbes such as *Salmonella*, *E. coli* O157, and *Listeria* without adversely affecting the product's taste and quality, 2011.

Invited Expert, HoneyBaked Ham Co., food safety programs and pathogen monitoring practices, 2011.

Member/Organizer, Lot Definition Working Group, FDA and food industry representatives to determine "Lot" designations for low-moisture foods, 2011.

Invited Expert Media Liaison, International Food Information Council, *Listeria* and GMPs – Putting risk of *Listeria monocytogenes* in perspective and provide information and education, 2011.

Invited Expert Advisor, Glacier Water, San Diego, CA to advise on drinking water dispensers, 2011.

Invited Member, JIFSAN Advisory Council, University of Maryland, College Park, MD, 2011-

External Evaluator, Dr. Sylvain Moineau for Canada Research Chair nomination, 2011.

Invited Expert, Dr. Lay Kheng, Agriculture-Food and Veterinary Authority, Singapore, regarding *Staphylococcus aureus* in foods, 2011.

Invited Symposium Organizer, Special Interest Symposium, American Society for Microbiology General Meeting, Striking the Balance: Food Safety, Food Security and Climate Research Issues in Microbiology, San Francisco, CA, 2012.

Invited Reviewer, Georgia Water Resources Conference manuscript, "A Comparison of *Escherichia coli* Levels in the Chattahoochee River in Helen, Georgia between Drought and Non-Drought Years," 2011.

Invited Reviewer, American Society for Microbiology Press book proposal, "Preharvest Food Safety," 2011.

Invited reviewer, Springer, Book Proposal, "Proteomics," 2011.

Invited Peer-Reviewer, Qatar National Research Fund National Priorities Research Program proposals, 2011.

External Reviewer, UBC Press, Vancouver, BC, Canada, "Food connections: Our global food safety system," 250-page manuscript, 2011.

Invited Assessor, Biotechnology and Biological Sciences Research Council, UK, ISPG proposal, "Gut Health and Food Safety," 2011. Invited Reviewer, Institute of Medicine draft report by Committee on "Nutrition, Trauma, and the Brain," 200-page manuscript, 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis in cantaloupes, 2011.

Chair, Institute of Medicine Food Forum meeting on Informing Health & Food Policy through Systematic, Evidence-Based Reviews, 2011.

Invited Reference, Casimir C Akoh, letter of evaluation for application for position of Chair and Professor, University of Maryland, Nutrition and Food Science, College Park, MD, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Food Safety Culture: Creating a Behavior-Based Food Safety Management System,” 2011.

Invited Evaluator, Dr. Doug Smith, letter of evaluation for Promotion and Tenure to the rank of Associate Professor, North Carolina State University, Raleigh, NC, 2011.

Invited Co-Organizer and Participant, American Academy of Microbiology Minicolloquium “*E. coli* FAQ,” September 1, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Retail Food Safety,” 2011.

Host, Dr. Jordi Serratos, European Food Safety Authority “Liaison Officer” at U.S. Food and Drug Administration, September 29, 2011.

Invited Reviewer, OMICS Publishing Group, Los Angeles, Book Proposal, “Emerging Drugs,” 2011.

Invited Reviewer, Springer, New York, Book Proposal, Leadership of Food Safety in the Food Retail Industry: How to develop and manage a food safety program, 2011.

Invited Reference, Dr. Guodong Zhang, letter of evaluation for Assistant Professor of Animal Science position, Oklahoma State University, 2011.

Invited Expert Testimony, FDA, CDC, USDA-FSIS, USDA-ARS, and Center For Nutrition Policy And Promotion, Reducing Sodium Consumption. November, 2011.

Invited Reviewer, RTI International, Research Triangle Park, NC, Risk assessment of public health impact of intervention strategies aimed at reducing *Escherichia coli* O157:H7 in the U.S. beef slaughter industry, 2011.

Invited Briefing, VoluntaryNet industry briefing for FDA leadership. October 7, 2011.

Invited Responder, Centers for Disease Control and Prevention. *Listeria* soil contamination questions. October 6, 2011.

Invited Expert, Life Technologies, Foster City, CA, STEC Testing. October, 2011..

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, Washing cantaloupes, 2011.

Invited Expert, Nestle, Switzerland, Use of surrogate – *Enterococcus faecium* in food safety validation, 2011.

Invited Expert, Publix Super Markets, cooking roast beef in the deli, 2011.

Invited Steering Committee Member, American Society for Microbiology, Report on *E. coli*: Food, Bad & Deadly FAQ. Michael Ingerson-Mahar and Ann Reid (eds.) 2011. 13 pp.

Invited Expert, Lee Memorial Hospital, Fort Myers, FL, HACCP in Hospitals. 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis outbreak in cantaloupes, 2011.

Invited Collaboration, Georgia Tech Research Institute, Atlanta, GA, Ways to collaborate on food safety issues, 2011.

Invited Expert, Sopragval Co., Chile, *Salmonella* in ground meat. 2011-2012.

Invited Panelist, Cargill, Minneapolis, MN, Panel to review new food safety measures, 2011.

Invited Reviewer, Canadian Research Chairs Program, University of Regina, Canada, Nomination of Dr. Christopher Yost as Tier 2 Chair in Microbes, the environment and food safety, 2011.

Invited Evaluator, , University of Massachusetts, Amherst, Mid-tenure evaluation of Assistant Professor Sam Nugen, 2011.

Invited Expert, Betcher Industries/Gaincos, Atlanta, GA, Food Safety Advisory Council, 2011.

Invited Expert Opinion, Regina Caeli Academy First Lego League, information on contamination of *Listeria* on smoked salmon, 2011.

Invited External Evaluator, Al-Balqa Applied University, Jordan, Referee, Promotion of faculty members in field of nutrition and food processing/food safety and microbiology from Assistant to the Associate Professor, 2011

Invited Expert Advice, CDC Foundation, Product development of peanut paste by Nutriset, 2011.

Invited Expert Advice, U. S. Government Accountability Office on food safety study, 2011.

Invited Member, Cargill, Inc. Food Safety Panel, 2011.

Invited Food Safety Expert Opinion, Publix Super Markets, Lakeland, FL, Cook cycle for Semi Boneless Hams, 2011.

Invited Expert Advice, CDC, Turkish Pine Nut safety, 2011.

Invited Participant, Institute of Medicine Workshop, Washington, DC. Leveraging Food Technology for Obesity Prevention and Reduction Efforts. 2011.

Invited Member, ILSI-NA Scientific Program Planning Committee, 2012.

Invited Reviewer. The Canada Foundation for Innovation, Proposal on effect of high pressure processing on quality, sensory attributes and microbial stability of selected fresh meat products during refrigerated storage, 2011.

Invited Reference, Institute of Food Technologists, Dr. Ewen Todd's nomination as Fellow, 2012.

Invited Expert Review Panel, FDA Sprout Safety Advisory Committee, "Seed disinfection methodologies". 2012.

02/2015

Invited Member, International Association for Food Protection GMA Food Safety Award Jury, 2012.

Invited Reviewer. USDA BARD Proposal, Correlations of pathogen inactivation to changes in compost microbiota, 2012.

Invited Reference, Institute of Food Technologists, Dr. Ahmed Yousef's nomination as Fellow, 2012.

Invited reviewer, springer Science+Business Media, Book Proposal by John Spink, FMFS Book Series, 2012.

Invited Reviewer. USDA BARD Proposal, Renewable, long-term, antimicrobial surface treatments through dopamine-mediated binding of peptidoglycan hydrolases, 2012.

Invited External Evaluator, Universiti Sains, Malaysia, Mossad Attia Abdel-Wahhab, promotion to Professor, 2012.

Invited Letter of Support, University of Sao Paulo, Brazil, , for establishing the Food Research Center (Bernadette D.G.M. Franco) 2012.

Invited Expert Presentation as International Food Information Council Foundation Media Guide Expert, EPA Guidelines on Dioxin. 2012.

Invited Membership, Editorial Advisory Board/Open Access Academic Books – Food Science, Versita Publishing Co., 2012.

Invited Reviewer, Springer Book Proposal, Biochemistry and Molecular Nutrition of Food Allergens,, 2012.

Invited Nominator, ConAgra Foods Food & Beverage Company R&D Team of the Year Award, Food Processing Magazine, 2012.

Invited Consultant, Guidepoint Global, 2012.

Invited Reviewer, Springer, book series proposal on Food Biology, 2012.

Invited Reviewer, Mini Review paper, CAB Reviews, "Bacteriophage based technologies and human health applications," 2012.

Invited Nominator, Dr. Erin Dreyling for National Advisory Committee Microbiological Criteria for Foods (NACMCF), 2012.

Invited Participant, Global Food Safety Partnership, Agriculture and Rural Development, World Bank, 2012.

Invited Advisory Panel Expert/Reviewer. Forum on Next Generation Microbiological Food Requirement for Spaceflight. NASA, Houston, TX, 2012.

Invited Member. International Life Sciences Institute-North America, North America Project Committee on Food Value Decisions, 2012.

Invited Single Author Spotlight Article, ISRN Microbiology. Current research, 2012.

Invited participant, Lawyer2Lawyer Podcast, “Food Safety in America,” May 22, 2012.

Invited reviewer, Centers for Disease Control and Prevention, “Risk Factors Associated Botulism – Republic of Armenia, 2000-2006,” 2012.

Invited Subject Matter Expert, U.S. Department of Homeland Security, grant proposals, 2012.

Invited Expert Consultant, CDC, Vital Signs Focus, “What Can be Done to Reduce *Listeria* and other foodborne illnesses,” 2012.

Invited participant, American Academy of Microbiology, Food Microbiology Task Force, 2012.

Invited External Evaluation, Rutgers University, New Jersey, Donald Schaffner, Dossier for Promotion to Professor II, 2012.

Invited Editorial Board Member, ASM Press, Microbiology Spectrum (Food Microbiology area), ASM Press, on-line publication, 2012.

Invited Expert Opinion, Centers for Disease Control and Prevention, *Clostridium perfringens* questions regarding outbreak investigation. 2012.

Invited Evaluator, University of Missouri, Columbia, MO, Promotion & Tenure Dossier for Promotion to professor, Dr. Azlin Mustapha, 2012.

Invited to write article, “Implementation of food safety measures in the West – Its feasibility in China,” China Daily newspaper, July 2012.

Invited Reviewer, U.S. Food and Drug Administration FDA/CFSAN Quantitative Predictive Risk Assessment Model (QPRAM) for Produce Safety and associated documents. 2012.

Invited Nominator, Nomination of Publix Supermarkets for the 2013 IAFP Black Pearl Award, 2012.

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, “A *Cronobacter* in therapeutic foods for children with acute moderate malnutrition”. 2012.

Invited Reviewer, Oklahoma State University, Food Safety Emphasis curriculum, 2012.

Invited support letter, IUFoST Lifetime Achievement Award, for Cherl Ho Lee’s nomination, 2012.

Invited Expert Advice, Centers for Disease Control and Prevention, Atlanta, GA, “Listeriosis outbreak in soft

Cheeses". August 2012.

Invited Letter of Evaluation. The Ohio State University, Dr. Hua Wang's dossier for promotion to Professor. 2012.

Invited Co-Chair 3rd Asia Pacific International Conference on Food Safety. Taiwan. October 29-November 1, 2013.

Chair, American Academy of Microbiology, Founders Distinguished Service Award Nomination and Selection Committee, 2013.

Invited Editorial Board Member. 2012. Microbiology Spectrum. American Society for Microbiology.

Invited Reviewer, Shota Rustaveli National Science Foundation of Georgia research proposals, 2012.

Invited Member, Journalist Conference, Atlanta, GA, Food Safety Panel, April 21, 2012.

Invited Member, American Society for Microbiology Public and Scientific Affairs Board, 2004=2012.
- Chair, Food Microbiology Committee

Invited Member, Taco Bell Food Safety Advisory Council, 2012-

Invited Member, USDA, ARS, Sprout Safety Review Panel, 2012.

Invited Reviewer/Expert Panel Member, U.S. Food and Drug Administration Center for Veterinary Medicine Office of Minor Use and Minor Special Animal Drug Development grant proposals, 2012.

Invited Participant, Institute of Medicine Annual Meeting of study committees, boards, standing committees, roundtables, forums and planning committees, 2012.

Invited Participant and Workshop Leader, Institute of Medicine. Exploring Health and Environmental Costs of Food, 2012.

Invited Member, , International Association for Food Protection, GMA Food Safety Award Committee, 2012.

Invited Participant, Institute on Science for Global Policy (ISGP) Conference on Emerging and Persistent Infectious Diseases: Focus on the Societal and Economic Context, July 8-11, 2012.

Invited Expert, International Life Sciences Institute-North America Emerging Issues Processing Foods project, 2012.

Invited participant, Food and Agriculture Organization of the United Nations, Food Hygiene Working Group, 2012.

Invited Reviewer, Institute of Medicine, "Exploring the true costs of food report", 2012.

02/2015

Invited Participant, American Academy of Microbiology, Washington, DC, Colloquium, “How Microbes Can Feed the World,” Dec 7-9, 2012.

Invited Evaluator. International Life Sciences Institute-Europe, Scientific Advisory Committee – Review of New Activities, 2012.

Invited Participant, The Pew Charitable Trusts, Washington, DC. Advisory Panel to discuss the methodology to identify the riskiest meat and poultry products. October 2012.

Invited Member. US Representative. Lynn Westmoreland Ag Advisory Council, 2012.

Invited Participant, Institute of Food Technologists Webcast, “Antimicrobial Resistance” Scientific Status Summary, April 2013.

Invited Reviewer/Letter of Evaluation, University of California-Berkeley, School of Public Health, Sangwei Lu, Dossier for Promotion to Full Adjunct Professor, 2013.

Invited comment, Atlanta Journal Constitution article on “Politifact Georgia,” regarding *E. coli* in chickens. March 2013.

Invited editor, International Journal of Food Contamination, Springer, March 2013.

Invited commentary, Food Safety News, Op-ed page, April 2013

Invited review of article, “High risk foods” by David Acheson, Leavitt Partners LLC, April 2013.

Invited contributor to article, Baltimore Sun, “Cookie-dough Eaters tempted by the Flavor – and the Raw Thrill,” April 2013.

Invited commentary, National Cattlemen’s Beef Association, The Doctors TV show on antibiotics in meats, April 2013.

Invited Book Editor, Research Signpost, Scarborough, Ontario, Canada, April 2013.

Invited Evaluator, Alex Malone, Quality Assurance Director of Yum Brands, annual evaluation, April 2013.

Invited Commenter, Institute of Food Technologists, regarding CNN article on Antibiotics in Meat, 2013.

Invited interview, New York Times on EWG report, April 2013.

Invited interview, Food Safety News (www.foodsafetynews.com), “Animal Antibiotics,” April 2013.

Invited expert advice, Kraft Foods, definition of an environmental pathogen, in response to FDA’s proposed definition, 2013.

Cited as one of top 20 Co-authors of articles on BioMed Lib, “Doyle MP, Erickson, MC. Opportunities for mitigating pathogen contamination during on-farm food production. *Int. J. Food Micro.* 152-54-74, 2012.

Invited interview, CNN.com, 2011 NARMS Retail Meat Annual report, April 2013.

Invited participant, Georgia Department of Public Health, Atlanta, GA, Georgia Food Service Rules and Regulations update, April, 2013.

Invited comment, WYAY All News, Atlanta and Atlanta Journal Constitution, Ga Dept of Agric resignations concerning food safety, April 2013.

Invited Book Proposal Review, *Microbiological Safety and Quality of Food* by Xiangyu Deng. Springer, New York, 2013.

Invited interview, Associated Press, USDA/April’ new livestock identification rules. April 2013.

Invited interview, Discover Magazine, role of FDA. April 2013.

Invited letter of support, International Association for Food Protection, Anna Lammerding’s nomination for Honorary Lifetime Membership ,April 2013.

Most Quoted Faculty, UGA Office of Public Affairs, CAES, on foodborne pathogens in leafy green vegetables. April 2013.

Invited comment, Grist, OMB testing requirements in the FSMA, April 2013.

Invited interview, DSM Bio-based Products & Services, Levulinic acid, April 2013.

Invited Reviewer, “Weight Watchers International Auditor’s report on mold contamination in raisins”, May 2013.

Invited interview, Al Jazeera Reporter, article on “China’s Food Imports to the U.S.”, May 2013.

Invited organizer and curator, *Frontiers in Microbiology*, of a *Frontiers Research Topic* homepage to manage contributions and maintain ongoing dialogue with research community, May 2013.

Invited taped interview, American Society for Microbiology, to discuss “Food Microbiology: Fundamentals and *Frontiers*, 4th Edition.” May 21, 2013,

Invited to participate in meeting of Oak Ridge Associated Universities (ORAU), to apply for 2013 Innovation Challenge Award Competition, University of Georgia, Athens, GA,

Invited comment, “Food Insight, Your Nutrition and Food Safety Resource on potential for increased foodborne illnesses”, May 2013.

Invited interview, Drovers Cattle Network, “Jolley: Five minutes with Dr. Michael Doyle and

those Superbugs,” May 2013.

Invited to Engineering-Summits, The Organization of Engineering Executives, May 2013.

Invited comment, Microbe magazine, on “Consumer Reports investigation: Talking turkey”. May 2013.

Invited to serve on interview committee for position of Food Safety Director, Georgia Department of Agriculture, May 2013.

Invited comment, USA Today, FDA will not cut any food safety inspections this year in spite budget cuts, May 2013.

Invited Evaluator, Rutgers University, New Brunswick, NJ, dossier of Dr. Michael L. Chikindas for promotion to Professor, June 2013.

Invited peer-reviewer for proposals and projects, Shota Rustaveli National Science Foundation of Georgia, 2013.

Invited administrative reviewer, Dean Scott Angle’s 7-year review, UGA College of Agricultural and Environmental Sciences, 2013.

Invited Expert Opinion, Sokol and Co., Water in peanut butter processing. 2013.

Invited Evaluator, Seoul National University, for promotion to Professor of Dr. Dong-Hyun Kang. 2013.

Invited Evaluator, USDA-ARS, for Nelson Cox promotion, May 2013.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2013.

Invited Evaluation, TUBITAK Young Scientist Awards, Turkey, nomination of Dr. Ali Aydin. 2013.

Invited letter of support for nomination of Craig Hedberg for the ASPH Award of Excellence, University of Minnesota School of Public Health. 2014.

Invited Reviewer, GMA’s Center for Ingredient Safety and Risk Assessment Proposals for Funding, Grocery Manufacturers of America, 2013.

Invited Letter of Support, Dr. Walid Alali’s nomination for IAFP Dr. Larry Beuchat Young Researcher Award, 2013.

Invited Speaker. Thermo Scientific Food Safety Seminar Day, “Foodborne Pathogens.” May 30, Atlanta, GA, 2013.

Invited contributor, Feedstuffs, “Antimicrobial resistance complex”, March 25, 2013, .

Invited letter of support. Dr. Mansel Griffith’s nomination for the Ontario Agricultural College Alumni Association Research Award, 2013.

Invited Expert Panel Member, WHO International, Panel on Food Safety, 2013. .

Invited External Reviewer, Dossier of Linda Harris for promotion, UC-Davis, 2013.

Invited Theme Leader, IUFoST Congress, Montreal, Canada, Food Safety, 2014.

Invited Editorial Board Member, OA Journal: “*International Journal of Food Contamination*”, Springer, 2013.

Invited Chair, 2013. The Pew Charitable Trusts Collaborative Food Safety Forum, “Role of testing in FDA’s Hazard Analysis and Risk-Based Preventive Controls Rule”, March 22, Washington, DC.

Invited Reviewer, 2013. Grant Review Panel, U.S. Food and Drug Administration Center for Veterinary Medicine OMUMS, Washington, DC.

Invited Reviewer, “The Problem with Purity: Market failures, foodborne contamination, and the US Food Safety Regulatory Regime,” by I.P. Thomas, Univ of Nebraska Press, Lincoln. 2013.

Member, ILSI-NA Scientific Program Planning Committee, 2013.

Invited ‘safe salsa’ recipe. Centers for Disease Control and Prevention, Video for Super Bowl. 2013.

Requested book review, Food Security, Nutrition, and Safety: OMICS Technologies, Strategies, and Applications, Ganesh Kumar Agrawal, Romina Pedreschi, & RandeepRakwal, (eds.), Springer, New York. 2013.

Invited participant, 2013. Crisis Management Manual, Heinz Canada.

Invited Participant, Food Safety Auditing Research, Private-Sector. Albany Law School, Albany, NY. 2013.

Invited Interview, Associated Press, Cyclospora. 2013.

Invited letter of support. Dr. Martin Wiedmann’s nomination for Fellow of American Academy of Microbiology, 2013.

Invited Collaborative Partnership, University of Georgia (UGA) Center for Food Safety- National Center for Food Safety Education and Research (NCFSER), National Taiwan University. 2013.

Invited reviewer, MBIE Science Investment Round. To review research programs, Ministry of Business, Innovation & Employment, New Zealand, 2013-2014.

Elected Member, International Life Sciences Institute (ILSI) Board of Trustees (global organization).
September 2013 – January 2015.

Invited participant. World Health Organization's (WHO) Global Burden of Foodborne Disease Study. 2013.

Invited Reviewer, British Food Journal (UK), "Drug-resistant bacterial pathogens in milk and yogurt samples." March 2013.

Invited to review book proposal. Springer, Restaurant Food Safety, May, 2013.

Invited peer reviewer, Ministry of Business, Innovation and Employment Investment Round Proposal, Wellington, NZ. May, 2013.

Invited expert opinion, Heat Seal Machine Film Specifications. Georgia Dept. Agriculture, Atlanta, GA, 2013.

Invited participant, 2014. International Association for Food Protection Annual Meeting Round Table. Public and Private Food Safety Research Funding: Where Should the Money Go? Indianapolis, IN.

Invited reviewer, Book Proposal on Food Safety in 21st Century (paperback edition), Wiley Publishers, Oxford, UK, 2013.

Invited Virtual Speaker. The American Academy of Microbiology and ASM International Affairs "Virtual Speaker Program". Topical speaker. 2014.

Invited evaluator, Dr. Michael Cooley, USDA Western Regional Research Lab, for in-depth evaluation of contributions and qualifications. 2014.

Invited reference, nomination of Dr. Vijay Juneja, recipient of Service to America Medal. Michigan State University (Dr. Elliot Ryser). 2014.

Invited reviewer, National Academy of Sciences report on USDA's Agriculture and Food Research Initiative program, National Research Council. 2014.

Invited expert advice, DHHS, Communicable Disease Surveillance, "Safe use of manure in organic farming," Humboldt County Health Department, 2014.

Member, Foster Farms Food Safety Advisory Board, 2014-2015.

Invited Member, Evaluation panel to review and interview candidates applying for Produce Safety and Microbiology Research Unit, USDA-ARS, Western Regional Research Center, Albany, CA, 2014.

Nominated Dr. Jennifer Cannon, winner of the 2014 Larry Beuchat Young Researcher Award, International Association for Food Protection.

Invited reviewer, Book proposal. Springer, Taormina Proposal---Shelf Life, 2014.

02/2015

Invited reviewer, Book proposal. Springer, Food Traceability: Food for Thought. 2014.

Invited Member, 2015 Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2014-2015.

Invited Letter of Support, 2014. Nomination of Kathryn Boor for the UC-Davis College of Agricultural and Environmental Sciences Award of Distinction.

Invited Letter of Recommendation, Burroughs Welcome Grant on Innovation in Regulatory Science at the FDA, submitted by Glenn Morris, Mike Batatz and Arie Havelaar. March 2014.

Invited Member, ILSI Science Advisory Committee, 2014-

Requested Expert Advice. 2014. Pathogens in ice product. Daniel Ouzts, Sweet City Ice Co., Georgia March.

Invited Reference. 2015 Dietary Guidelines Advisory Committee on behalf of National Restaurant Association.

Invited Topic Editor. 2014 Frontiers Research Topics--Microbiology.

Invited Cooperator. 2014. King Abdulaziz University, Jeddah, Saudi Arabia.

Invited consulting, 2014. International Innovation – Health and Biology Research Report. Research AMedia Limited.

Invited contributor, 2014. Proteomics of Antimicrobial Resistance. Frontiers in Microbiology. Dep de Biologia & CESAM, Univ deAveiro, Portugal.

Invited Reviewer. 2014. The Research Foundation – Flanders (FWO), European Commission, New Research Proposal on “Impact of *Bacillus cereus* endospore evolution on food stability and safety,” by Abram Aertsen.

Invited Evaluator. 2014. Dr. Fahad M. Aljasass for promotion to Professor at The Scientific Council at King Abdulaziz City for Science and Technology (KACST), Saudi Arabia.

Invited Member/Chair, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2014-2015.

Invited Reviewer. 2014. Science Peer Reviewer Targeted Research. New Zealand Ministry of Business, Innovation & Employment (MBIE) 2014 Science Investment Round.

Invited Evaluator. 2014. Evaluation Panel for Research Leader Vacancy Applications, USDA, ARS, Western Regional Research Center, Albany, CA.

Invited Expert. 2014. Wall Street Journal project on 25 food additives.

02/2015

Invited Collaborator, 2014. UGA-EDEB Data Collaboration, CDC Enteric Diseases Epidemiology Branch, FDA's Egg Rule.

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, "Antimicrobial food equipment coatings: Applications and challenges", by Bastarrachea, Denis-Rohr, & Goddard.

Invited Reviewer. 2014. Research Proposal, Accelerate research proposal entitled "Comparative Study to Determine the Efficacy of Different Sanitizers to Inactivate Human Pathogens on Shredded Lettuce and within Spent Wash Water", Mitacs, Canada.

Invited Reviewer, 2014. Project on food safety, antimicrobial resistance and animal health. Association of Public Safety Communications Officials (APCO) International

Invited Member, 2014. Global Programs Advisory Team, Global Programs, Coll of Agric & Env Sci, Univ of GA, Athens.

Invited Letter of Evaluation, 2014. Dr. Elaine Scallan consideration for promotion to Associate Professor, Colorado School of Pubic Health, University of Colorado, Aurora, CO.

Invited Expert and Speaker, 2014. International Food Information Council (IFIC) Farm Tour, Atlanta, GA. October 17.

Invited Collaborator/Scientific Partner. 2014. Fellowship from Kosciuszko Foundation by Magdalena A. Olszewska, U of Warmia and Mazuty, Poland.

Invited Host, 2014. Visiting Scholar Dafeng Song, Zhejiang Province, China.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2014.

Invited External Assessor, Promotion of Wan Nadiyah Binti Wan Absullah to Associate Professor, University Sains Malaysia Penang, Malaysia. 2014.

Invited Reviewer. 2014. Food Safety Proposals. Mississippi State University

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, 2015, "*Bacillus* and other spore-forming Genera: Variations in Responses and Mechanisms for Survival," by Checinska, Paszczynski, and Burbank.

Member, Protein Toxins project, Extended Team. 2014. ILSI Health and Environmental Sciences Institute (HESI). Washington, DC.

Invited Evaluator. 2014. Dr. Fahad M. Al-Jasass for Promotion, King Abdulaziz City for Science and Technology Scientific Council, Saudi Arabia.

Invited Member, 2014. Academic representative on the CDC, BSC, FSMA Surveillance Working Group,

02/2015

December 1, 2014-Nov 30, 2017, Centers for Disease Control and Prevention, Atlanta.

Invited Reviewer, 2014. “An intervention to reduce antimicrobial resistance in animal production in Vietnam,” grant application to The Wellcome Trust, London.

Invited Reviewer, 2014. Book Proposal, “Studies in Natural Products Chemistry”, Atta-UR-Rahman (ed). Elsevier Science Publishers, Amsterdam.

Invited Reviewer, 2014. Book Proposal “Food Safety for Farmers Markets,” Springer US.

Invited Reviewer, 2014. Preproposal for Genomics British Columbia and Feeding the Future competition, “Genomic Tools for Improved Safety, Authenticity and Security of Agri=food Products,” by David Kitts and Evan Frazier, Canada.

Invited Speaker. 2014. The University of Georgia Obesity Initiative, Food Industry Academia Consortium Conference, Athens, GA.

Invited Reviewer and Evaluator. 2015. 32nd World Veterinary Congress abstracts, Istanbul, Turkey.

Invited Expert Panelist and Evaluator. 2015. Canadian Meat Program of Canadian Food Inspection Agency (CFIA).

Invited Expert Panelist. 2015. U.S. Food and Drug Administration, to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

Invited Reviewer, 2015. Research Grant from International Foundation for Science-Sweden (IFS).

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, nomination of Gudong Zhang, 2015.

Invited Letter of Support, Fort Valley State University (Young Park), proposal to implement a B.S. degree program in Food Science, 2015.

Invited Consultant for Center of Excellence on Food Safety in Indonesia, 2015.

Invited Collaborator for a Fresh Produce Safety Centre (FPSC) project at New South Wales Department of Primary Industries in Sydney, Australia, 2015.

Invited Reviewer, 2015. Publication on Physicians Roundtable on Microbe Magazine. American Society of Microbiology

External Evaluator, 2014. Nanyang, Technological University (NTU), Professor Jørgen Schlundt, to Full Professor in the College of Engineering.

Invited Reviewer, 2014. Proposals entitled “UV Based Intervention Strategies to Improve the Microbiological Safety and Shelf–life of Sliced Mushrooms”. Mitacs Accelerate Program, Canada

- Invited Reviewer, 2015. Manuscript entitled “Shiga Toxin-Producing *Escheria coli* in Food: Incidence, Ecology, and Detection Strategies.” Elsevier Science Publisher.
- Invited Reviewer, 2015. Manuscript entitled “Effect of Adding Glucono & Lactone, Different of Starters, Rennet on the Chemical Composition, Yield and Economic Study of Kareish Cheese.” IJAP-15-035.
- Invited Reviewer, 2015. Manuscript entitled “Impact of infection dose and previous serum antibodies against the locus of enterocyte effacement proteins on *Escherichia coli* O157: H7 shedding in calves following experimental infection,” BioMed Research International.

- Invited Speaker, 2015. Global Microbiology Meeting, The Coca-Cola Company, Atlanta, GA July 22, 2015.
- Invited Reviewer, 2015. International Foundation for Science Research Grant , Khamis Youssef, Egypt.
- Invited Letter of Evaluation, Technion-Israel Institute of Technology, promotion of Assoc. Prof. Sima Yaron to the rank of Full Professor in the Faculty of Biotechnology and Food Engineering. Haifa, Israel May, 2015.
- Invited Reviewer , Annual Review of Food Science and Technology, 2015, Vol.6.
- Invited Reviewer, 2015. Manuscript entitled “Application of Innovative Deep UV- LED Processing to Control Food-borne Pathogens”. Applied and Environmental Microbiology
- External Evaluator, 2015. Technion-IIT, Haifa, Israel. Promotion evaluation for Associate Professor Sima Yaron to Full Professor.
- Invited Reviewer, 2015. Manuscript entitled “Effect of Chicken Litter Freshness on Thermal Resistance of Desciccation-Adapted *Salmonella* spp.)” Applied and Environmental Microbiology
- Invited Reviewer, 2015. Manuscript entitled “Twenty years of *Listeria* in Brazil: Occurrence of *Listeria monocytogenes* Serotypes and other species in food samples between 1990- 2012.” BioMed Research International
- Invited Reviewer, 2015. Manuscript entitled “The pipeline development for biomarker identification in foodborne pathogen detection and surveillance.”
- Invited Speaker, 2015. Crisis communication and issue management for the Extend Leadership Group. Griffin, Georgia May 29, 2015.
- Invited Reviewer, 2015. Manuscript entitled “Flouroquinolone and Macrolide Resistance in *Camplobacter jejuni* Isolated from Broiler Slaughterhouses in Southern Brazil.”

Invited Reviewer, 2015. Georgia Research Alliance, Project entitled “ Micro Gas Chromatography for Agriculture Inspection/Evaluation Purposes.”

Invited Reviewer, 2015. Manuscript entitled “ Incidence and antimicrobial susceptibility pattern of extended-spectrum- β -lactamase-producing *Escherichia coli* isolated from retail imported mackerel fish in Saudi Arabi.”

Invited to co-moderate a workshop, 2015. “The Science of Sodium Reduction in the Food Supply.” Sponsored by ILSI North America Technical Committees on Food Microbiology and Sodium, Washington, DC, September 22, 2015.

Invited Reviewer, 2015. Manuscript entitled “Development of an Improved selective medium for the detection of *Shigella* spp.” Food Science & Technology

Invited Reviewer, 2015. Manuscript entitled, “Antimicrobial and antioxidant activities of spice extracts on raw chicken meat quality.” Food Science and Human Wellness

Invited Reviewer, 2015. Manuscript entitled, “Determination Of Optimum Commercial Fertilizers Rate for Common Bean (*Phaseolus Vulgaris* L.) Production at Areka, South Region of Ethiopia.” Journal of Agriculture and Crops

Invited Reviewer, 2015. Manuscript entitled “Biofilm formation by food isolated *Staphylococcus* spp.” Academic Journal

Invited member of the Evaluation Panel, Center Director position of US National Poultry Research Center (USNPRC), July 20, 2015.

Invited Letter of Recommendation for Publix, SQFI Manufacturer of the Year Award, June 17, 2015.

Invited Reviewer, 2015. Book entitled “**Food Safety in China**” by Joseph Jen, John Wiley & Sons Limited (publishing company)

Nominator, for the Heinz 2015 Awards.

Public Service

1. Requested by State of Illinois and Centers for Disease Control to serve on task force to investigate large outbreak of salmonellosis associated with consumption of pasteurized milk, April 1985.
2. Requested by Health and Welfare Canada and Ontario Central Public Health Laboratory to analyze for *E. coli* O157:H7 food samples associated with outbreak of hemorrhagic colitis and hemolytic uremic syndrome (London, Ontario), Fall 1985.

3. Requested by Centers for Disease Control and State of Washington Health Department to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis (Kennewick, WA), August 1986.
4. Requested by Centers for Disease Control and Minnesota Department of Health to analyze for E. coli O157:H7 raw milk samples associated with cases of hemolytic uremic syndrome in infants, September 1986.
5. Requested by Centers for Disease Control and Wisconsin Division of Health to analyze for Escherichia coli O157:H7 food samples associated with outbreak of thrombotic thrombocytopenic purpura, September 1986.
6. Requested by Universidad Nacional Autonoma de Nicaragua, Department of Microbiology and Parasitology, Managua, Nicaragua, to advise and collaborate in studies on the association of Campylobacter jejuni and Yersinia enterocolitica with diarrhea in children, September 1986-89.
7. Requested by Centers for Disease Control and State of Washington Health Department to analyze food samples associated with outbreak of thrombotic thrombocytopenic purpura and hemorrhagic colitis (Walla Walla, WA) for Escherichia coli O157:H7, November 1986.
8. Requested by U.S. Food and Drug Administration to analyze for E. coli O157:H7 cheese samples associated with outbreaks of hemorrhagic colitis (Walla Walla, WA and Vancouver, BC), December 1986.
9. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 hamburger samples associated with cases of hemolytic uremic syndrome, June 1987.
10. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef and cheese samples associated with outbreaks of hemorrhagic colitis (Utah), July 1987.
11. Requested by St. Luke's Hospital (Infectious Disease Department), New York, NY, to analyze for Listeria monocytogenes feta cheese sample associated with case of perinatal listeriosis, December 1987.
12. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 venison samples associated with a case of hemorrhagic colitis, January 1988.
13. Requested by State of Wisconsin Department of Health and Social Services and Centers for Disease Control to analyze for E. coli O157:H7 and verotoxins, roast beef samples associated with an outbreak of hemorrhagic colitis, June 1988.
14. Requested by State of Utah Department of Health to analyze for E. coli O157:H7 antelope sausage samples associated with a case of hemolytic uremic syndrome, August 1988.

15. Requested by Minnesota Department of Health to analyze for E. coli O157:H7 ground beef samples associated with outbreaks of hemorrhagic colitis and hemolytic uremic syndrome at day-care centers and a Junior high school. September-December 1988.
16. Requested by New York State Department of Health to participate in Northeastern States Salmonella enteritidis Workshop (September 8-9, 1988) and to study food microbiology and virulence aspect of egg-associated isolates of Salmonella enteritidis, September 1988.
17. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef sample associated with a fatal case of hemolytic uremic syndrome in the State of Washington, September 1989.
18. Requested by Centers for Disease Control and Missouri Department of Health to analyze for E. coli O157:H7 water and food samples associated with an outbreak of hemorrhagic colitis in Cabool, MO, January-March 1990.
19. Requested by Wisconsin State Laboratory of Hygiene to analyze for E. coli O157:H7 meat samples associated with a case of hemolytic uremic syndrome in Northern Wisconsin, March 1990.
20. Requested by National Broiler Council to provide comments for a video interview on the microbiological safety of fresh broiler products, October, 1991.
21. Requested by Centers for Disease Control to analyze for E. coli O157:H7 apple cider and environmental samples associated with an outbreak of hemorrhagic colitis in Boston, MA, January-February 1992.
22. Requested by American Meat Institute and National Cattlemen's Association to provide comments for a video interview on the safety of streamline-inspected beef, April 1992.
23. Requested by Commonwealth of Virginia Department of Health to analyze for E. coli O157:H7 meat samples associated with an outbreak of hemorrhagic colitis in Virginia, August 1992.
24. Requested by Continental Grain Company to analyze poultry product for bacterial contaminants, October 1992.
25. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 milk and water samples associated with an outbreak of hemolytic uremic syndrome in Maine, November 1992.
26. Requested by Institute of Food Technologists to comment on a press release distributed by the American Medical Association regarding two articles on foodborne outbreaks published in JAMA, December 1992.
27. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 meat samples associated with Jack in the Box outbreak of hemorrhagic colitis and hemolytic uremic syndrome in Washington State, California, Nevada, and Hawaii, January-April 1993.

28. Requested by Centers for Disease Control and Prevention to analyze mayonnaise samples associated with an outbreak of E. coli O157:H7 in Oregon, September-October, 1993.
29. International Cooperative Agreement, Board of Regents University System of Georgia and National Center for Food Safety Education and Research, Taipei, Taiwan. 2013. (Requested by National Taiwan University)
30. Requested by USDA National Institute for Food and Agriculture (NIFA) and the North American Branch of the International Life Sciences Institute (ILSI) to participate on a committee, the "Food Value Analysis Workshop-Phase II" held in Washington, DC. 2015.
31. Requested by Nelson Cox, USDA, Science Hall of Fame to collaborate on research to test the efficacy of levulinic acid on poultry parts to eliminate or reduce *Salmonella*, May 2015.
32. Requested by Peter Hesketh, Georgia Institute of Technology, to collaborate on the "Advanced Rapid Ultra-low Power Portable MEMS-GC System for Agriculture and Food Processing" for NSF SBIR. May 2015.

**Join us for the World Bank FARMD Webinar Series featuring
Dr. McLean and Dr. Gustafson
from the ILSI Research Foundation**

On Wednesday, May 6th from 9:00 am EST until 10:00 am EST, Dr. Morven McLean, the Executive Director of the [ILSI Research Foundation](#), and Dr. David Gustafson, the Director of the ILSI Research Foundation's Center for Integrated Modeling of Sustainable Agriculture and Nutrition Security ([CIMSANS](#)) will introduce the ILSI Research Foundation and the work it does regarding risk management, agriculture and food security.

They will emphasize the role of food systems, explaining how the nutritional content of food consumed contributes to the 'nutrient' security aspects of sustainable nutrition security. They will further detail the ILSI Research Foundation efforts to better quantify food system contributions to sustainable agriculture and nutrition security.

To find out more about this webinar organized by FARMD, please visit this [page](#). You can register directly for the webinar by clicking [here](#).

We hope you can join us!

Dear Prof. Deng,

Did you have received the letter on May 23? I doubt if there was anything wrong with my expression because I asked for Prof. Mdoyle for an invitation letter instead of Prof. Deng. Maybe I have misunderstood the relationship between Prof. Mdoyle and Dr. Deng. In China here, several researchers work as an academic group and the group leader make decisions for us. Because Dr. Mdoyle said he could co-host me but would be retired within 2 years and then recommended me to Dr. Deng, so i thought you were in the same group as in our university. I have thought I would just work under Dr. Mdoyle and Dr. Deng's guidance and if Prof. Deng approved my application Dr. Mdoyle would send me the invitation. This phenomenon is very common in China. I regard it as a misunderstanding now. If it is true, I feel very sorry for that. I would like to work with you because your projects fit me well. Please could you send me an invitation letter? Thank you very much.

Best regards,

Xing-long

Dear Dr. Deng,

I am happy to hear that. I just come back from the English training courses and feel a little bit tired now. Your message sounds great! I think it will be my greatest honor to learn from you and Prof. Doyle. My current research work here in china is divided to: (1) Molecular response mechanism involved in Escherichia coli O157:H7 to acid stress, with the help of transcriptome, proteomics and gene deletion. Also, why the Cronobacter sakazakii can resist to desiccation in PIF? (2) New detection methods to foodborne pathogens, such as HRM, real-time PCR, quantum dot.etc.

I would like to conduct the research projects you have mentioned. It really impressed me and I know something about that since I have worked with them for many years. I sincerely appreciate the opportunity Prof. Doyle and you give to me. Could I ask for Prof. Doyle to write an invitation letter for me? If any other information were needed, please let me know. Thank you very much.

With my best regards,

Xinglong

Sounds good. Our specialty is genomics and bioinformatics. And we do have an ongoing project to explore sequencing-based, enrichment- independent pathogen detection, which might be a good fit for you.

Best,

Xiangyu

Dear Dr.Deng,

Nice to hear from you. I will write to you about my research work and plan the next time because it is late night now. Tomorrow morning i will get up early to join in the English training program organized by the Chinese Ministry of Education. I am sorry for that. Hope i would have the opportunity to join in Prof. Doyle and your group.
yours sincerely,
Xing-long

Subject: CV Xing-long Xiao from South China University of Technology

Dear Prof. Xiang-yu Deng,

I wish to apply for a visiting scholar position in your group. I completed my Ph.D. degree requirement from South China University of Technology (SCUT) in 2010 and I am currently teaching Food Safety and detection at College of Light Industry and Food Sciences of this University, China. Now I have a funding opportunity for conducting overseas research for 12 months in the scholarship program called "government-sponsored visiting scholar/postdoctoral research", which is launched by China Scholarship Council. By that the fee for my studying and living abroad will be totally supported by China Scholarship Council.

During my Ph.D. study at South China University of Technology and thereafter, I have been doing researches in the fields of food Safety and detection, food microbiology and recently the molecular pathways of pathogen under stress. Some of my past projects include Molecular mechanism and application research on the detection of viable bacteria based on the metabolic activity (National Natural science Foundation of china), Molecular mechanism involved in the resuscitation of Escherichia coli O157:H7 in food from Viable but nonculturable state(Fundamental Research Funds for the Central Universities), Research on application elements for viable pathogens detection based on isothermal helicase-dependent amplification (the Research Foundation for the Doctoral Program of Chinese Higher Education), etc. I know that you have deep interest in the area of food safety and foodborne pathogen. The world-leading research level and the excellent equipped labs of yours in this area really impressed me. It would be a great honour for me if I can have this opportunity to study in your prestigious group as an academic visitor at the University of Georgia. Since the costs of this trip will be sponsored by Chinese Government, I only need an invitation letter from you indicating you are willing to be the advisor and UGA is going to be the host university.

Attached please find my CV with details of my education, research interests, research experience, etc. I welcome any questions from you regarding this application, and I look forward to your response. If any other information were needed, please let me know.

Thank you very much for your time and consideration.

I am looking forward to hearing from you soon.

Best regards,

Dr. Xing-long Xiao

Subject: ILSI North America Technical Committee on Food Microbiology

Hello Mike,

The ILSI North America Technical Committees on Food Microbiology and Sodium are jointly sponsoring a workshop, "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act." We would like to invite you to co-moderate the session with Dr. Christine Taylor, NIH ODS. I've attached a draft agenda. We are still in the process of identifying speakers and would welcome your input. The two dates we have identified are 17 September or 14 October, 2015. I'm hoping one of these dates will work for you.

I did try to call your office earlier today and would be happy to speak with you to answer any questions you may have.

I look forward to hearing from you.

Alison

Presenters!!

We are getting closer to the BIG EVENT!

I wanted to touch basis with you all to make sure we have everything.

Please see overview below

- Hotel rooms have been blocked
- All guest have been registered
- Virtual connections information have been given out

ACTION REQUIRED: PLEASE Provide : DUE DATE* JULY 17th**

- Presentation
- Permission to send presentation to internal guest.

PLEASE CONTACT ME/ INDAUE MELLO IF YOU HAVE ANY QUESTIONS.

Kenesia Cason

Collaboration Just Got Easier!

Open Meetings

- Since Open Meetings provides integrated audio, there's no need to have a separate audio conference bridge.
- It is always best to use a computer or smartphone headset to insure best audio quality.
- Are you a first time host or first time participant?.....Visit OpenMeetings.KO.com for training and FAQs.
- Need help? Call the Global Support Center (IT Helpdesk), then select option 3, then option 1

FIRST TIME USERS PLEASE SEE SIMPLE INSTRUCTIONS BELOW.

BROWSER & LINK INSTRUCTIONS

To join the meeting:

Via Computer Browser:

- 1) Click on the link provided. You will be asked to sign in with your name.
- 2) In the browser window, click the "Join Meeting" button. (If this is your first time using the browser option, you will be directed to download a plugin. Install it using the normal Windows dialogue on screen).
- 3) Once installed, click on the link, then the "Join meeting" button in the browser window.
- 4) choose the option to "send and receive audio and video"
- 5) The browser will auto-detect your camera and microphone.

To test your web camera and microphone, users can visit <https://bluejeans.com/111/>

A couple of tips before your Video Call:

- For best Video quality, we recommend having your computer hardwired to the Ethernet port [recommended if video quality is poor using wireless].
- For best audio quality, we recommend using a pair of headphones with a mic [a smartphone headset will work just fine].

-
- NOTE* During Meeting Please MUTE your Laptop Microphone press your mute button.

Open Meetings brings audio & video conferencing together for you!

Joining from a Video Conference Room?

New Open Meeting Room w/ Table Top touchpad

1. Tap Open Meetings
2. Follow prompts

Standard Video Conference Room w/ Handheld Remote

1. Press address book button 
2. Choose Open Meetings contact (KO partners dial 199.48.152.149)
3. Press green call button
4. Wait for voice prompt
5. Enter Meeting ID 2704425232#
6. Press # again

Joining from a Laptop?

With Laptop Headset

1. Click this link..... <https://ko.bluejeans.com/2704425232>
2. Choose Connection method, then click "Join Meeting"
3. You see "Send Video and Audio?"
4. Choose "Send and Receive"
5. Click "Join"

No Laptop Headset

1. Click this link..... <https://ko.bluejeans.com/2704425232>
2. Choose Connection method, then click "Join Meeting"
3. You see "Send Video and Audio?"
4. Choose "Dial-in with Phone and Send Video"
5. Click "Join"
6. Then "Join by phone" below

Joining from a Telephone (Usage Charges Apply):

Subject: RE: Asking for ideas
Date: Wednesday, Apr 08, 2015 2:54:00 PM

Hi Suzie,

Unfortunately, I am already committed for those dates so am not available. You might consider inviting Don Schaffner at Rutgers (e-mail: schaffner@AESOP.Rutgers.edu); Anna Lammerding (retired but formerly with Public Health Agency of Canada; e-mail: [REDACTED]); Tom Ross at the University of Tasmania (e-mail: Tom.Ross@utas.edu.au); Ewen Todd at Michigan State University (e-mail: todde@msu.edu); Aamir Fazil at Public Health Agency of Canada, Guelph (e-mail: aamir_fazil@phac-aspc.gc.ca); or Rafiq Ahmed at Public Health Agency of Canada, Winnipeg (e-mail: rafiq_ahmed@phac-aspc.gc.ca).

I hope this helps. If not, let me know.

Michael P. Doyle, Ph.D.

Subject: Asking for ideas

Good morning, Mike. I hope you are doing well.

I am writing to ask for suggestions of a food micro risk assessment expert who may be willing to go to Namibia to take part in an ILSI/FAO capacity building activity there in June. This training meeting will take place in Windhoek, Namibia on June 9-12, 2015. Individuals involved in food control work for the neighboring countries (2 per country) will be invited to participate. The microbiological risk assessment course work was prepared by WHO and FAO, but has not been offered in this part of the world.

Prof. Lucia Anelich, copied on this message, is the ILSI person in charge and she is eager to find someone from outside of the region who would be able to help lead the 3.5 day trainings session. There will be plenary sessions as well as discussion of case studies in small working groups.

She would like to have a US or Canadian government person, but such is likely to be difficult to find given the short lead time. ILSI will cover all travel expenses and living expenses while in Namibia. Do you have any suggestions of individuals with microbial risk assessment expertise who might be interested in participating?

Lucia has already contacted Bob Buchanan and he is not available. Any suggestions you have will be greatly appreciated.

Best regards,

Suzie

Dear Mike,

I spoke to our adman and she has not received confirmation that you will be speaking at the Coca-Cola global microbiology meeting on July 21.

Could you please confirm with me the following:

- 1) You will be presenting at the meeting
- 2) If you will join us for dinner
- 3) If you already emailed your CV to us

Below is the agenda for the day. Please let me know if you have any additional questions.

I look forward to seeing you in a few weeks.

Best regards,

Indaue

Subject: Follow up on ILSI PHO Report

I just received a message for Eric Hentges that his Executive Committee met today and agreed to provide the PHO report to Exponent under a confidentiality agreement. The report will be made available after it has been shared with the ILSI PHO Task Force and the FDA. The report is expected to go to FDA on March 4, and Exponent will receive it immediately thereafter. I want to thank you for the support you provided in this situation. Your input helped to facilitate a quick response and a good outcome. Regards, Leon

Subject: Urgent Request related to ILSI Analysis of low dose effects of PHO/TFA on LDL-Cholesterol
Importance: High

The GMA team working the development of the Food Additive Petition needs your help/support in finding a way to gain access to the results of a study ILSI is concluding on the relationship between low level human consumption of PHO/TFA and serum LDL-Cholesterol (LDL-C) so that the results can be used in the development of the Food Additive Petition (FAP) we will submit this coming May.

The background to this situation is as follows: Last summer ILSI commissioned a study to conduct a meta-analysis of the relationship between dietary consumption of PHO and serum LDL Cholesterol (LDL-C). The study is completed and ILSI plan to submit a report of the results to FDA next Monday, March 2. We understand the results of this study challenge FDA and CDC's assertion that the PHO/LDL-C dose response is linear and are supportive of the identification of a safe consumption level. These results will therefore be of great importance in the development of the PHO FAP.

ILSI are not willing to share the study report with us until after the results are published in the peer-reviewed scientific literature unless they receive an approval from ILSI Executive Board to do so. If ILSI do not share the results of this study we will not have the data needed to prepare an FAP supporting FDA approval for low level uses of PHO. We would like to have the results as soon as possible to maximize the time available for development of the FAP.

Here is where we need your help: Under the assumption that you support our need to have access to the full study report for development of the FAP we need you to take the following action: We would appreciate your reaching out to your ILSI Board Member/primary ILSI contact and to Erik Hentges (phone: +1 (202) 659-0074 ex 196; email: ehentges@ilsi.org<<mailto:ehentges@ilsi.org>>) asking that ILSI release the data for use in the development of the industry coalition-led preparation of the PHO FAP. We would like to have the report on the same day it is shared with FDA, March 2, 2015. We need you to reach out to your board member and/or Erik as soon as possible

Finally, if it is necessary, we are willing to make arrangements for the report to be shared with Exponent through an independent 3rd party intermediary so that only Exponent staff have access to the results. We would use the same protocol we followed to collect data for the exposure assessment Exponent is now completing. We can also establish confidentiality agreements if needed.

Thank you for your help with this. Please let us know if you have questions.

Regards,

Leon

Hello Mike,

I wanted to get in touch with you regarding the upcoming 30 April in-person meeting of the ILSI North America Conflict of Interest and Scientific Integrity Working Group. If you are planning to attend the meeting in-person, as a scientific advisor to the Working Group, ILSI North America will cover your travel to the meeting.

Please contact ILSI North America's travel agent Michael Kerr at Michael.Kerr@corporatetraveler.us to book your flight to Washington, DC. Once you have booked your flight, I will make your hotel reservation for you. ILSI North America will cover up to two nights hotel accommodation.

As the meeting is coming up in just a few short weeks, I encourage you to plan your travel as soon as possible if you have not already done so. If you have already booked your travel, ILSI North America will reimburse you for your costs. Please let me know if you have any questions.

Best,
Delia

Subject: ILSI North America Invitation to Present at "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act"

26 June 2015

Michael P. Doyle, Ph.D.
Regents Professor and Director
Center for Food Safety
University of Georgia
1109 Experiment Street
Griffin, GA 30223-1797

Dear Dr. Doyle,

Extensive debate continues on how to lower the sodium intakes of the population. However, the neglected part of the current sodium dialogue is the myriad of functions that sodium has in the food supply. Sodium reduction is not a matter as simple as removing salt from food. Sodium plays a critical role in food safety and preservation by decreasing water activity and reducing growth of

pathogens, food spoilage organisms, and unwanted chemical reactions, among other functions.

Given the need for a coordinated cross-disciplinary dialogue regarding sodium reduction, the ILSI North America Technical Committees on Sodium and Food Microbiology will jointly convene a one-day workshop on Tuesday, 22 September at the Washington Plaza Hotel in Washington, DC to critically examine these functions and the unintended consequences of decreasing sodium on food safety. This workshop will broaden the dialogue and present what we have learned in the last 5 years since the release of the Institute of Medicine's *Strategies to Reduce Sodium Intake in the United States* Report about the functional challenges with sodium reduction. Participants at the workshop will include public health professionals, microbiologists, food scientists, and nutritionists from government, academia, and industry.

We would like to extend an invitation to you to co-moderate the "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act" workshop along with Dr. Christine Taylor, NIH ODS.

To the extent permitted by your institution, ILSI North America will pay roundtrip coach or economy class airline travel expenses, two nights lodging at the Washington Plaza Hotel, meals, and ground transportation associated with attending this workshop. A speaker dinner will be held the night before the workshop, Monday, 21 September.

ILSI North America is a non-profit scientific foundation that advances the understanding and application of science related to the nutritional quality and safety of the food supply. The ILSI North America Technical Committee on Sodium works to compile and disseminate state-of-the-science information on sodium consumption and its health outcomes. The ILSI North America Technical Committee on Food Microbiology is committed to proactively improving the understanding and control of microbial food safety hazards to enable scientifically informed decision-making. This is achieved through the support of sound science, sponsorship of breakthrough research, and fostering collaboration among academia, government, and industry.

We hope that you will be able to attend and co-moderate the workshop. **Please RSVP to Delia Murphy at dmurphy@ilsi.org by Friday, 24 July whether or not you plan to attend.** If you are able to accept, Delia will work with you to make your travel and hotel arrangements.

The workshop is by invitation only. If you have recommendations for individuals to invite to the workshop, please send them to Delia Murphy at dmurphy@ilsi.org.

Thank you in advance for your consideration.

Kind regards,

Subject: ILSI North America Project Committee on Food Value Decisions

TO: ILSI North America Project Committee on Food Value Decisions
RE: Committee Update

Although this committee work has officially ended, it is important for members to be aware of how the Food Value Analysis application continues to generate attention.

Dr. George Davis, Virginia Tech

Last year, ILSI North America granted Dr. Davis access to the Food Value Analysis database, allowing him to further research analyzing the interaction between money price, time price, and nutrition quality. This work titled "Beyond the Sticker Price: Including and Excluding Time in Comparing Food Prices" has been accepted by the American Journal of Clinical Nutrition. The manuscript further highlights that food consumption decisions are based on "full prices", not just money prices. This publication is available with open access, it is attached and can also be downloaded here<<http://www.ilsi.org/NorthAmerica/Pages/ViewItemDetails.aspx?PID=256&ListName=Publications>>.

Scientific Report of the 2015 Dietary Guidelines Advisory Committee

ILSI North America submitted comments to the US Department of Agriculture and the US Department of Health and Human Services on the 2015 Dietary Guidelines Advisory Committee Report. These comments once again highlighted the importance for nutrition recommendations and the policies surrounding recommendations to consider all the challenges that face individuals and families when it comes selecting foods and meeting dietary

recommendations. The comments are attached and are also available on our website<<http://www.ilsil.org/NorthAmerica/Pages/ILSI-North-America-Public-Comments-.aspx>>. Pages 2-4 of the comments are specific to the work of the Food Value Decisions Committee.

USDA NIFA Cooperative Extension group

Following the Food Value Analysis Feasibility Workshop held 4 February 2015, USDA NIFA has led a group of individuals within the Cooperative Extension community to develop materials communicating key messages based on learnings from the Food Value Analysis application and a series of case studies that will be distributed to university programs interested in adopting the tool. The objective is for these case studies to be published prior to the publication of the 2015 Dietary Guidelines for Americans. The group has held one meeting thus far and has developed a logic model outlining how to assist individuals in delivering a nourishing meal to the table within the factors evaluated by the Food Value Analysis application. The group will be holding its second call in the near future and ILSI North America has been invited to participate.

Please let me know if you would like further information.

Re: Draft Plan of Work

Please find attached the draft plan of work for the ILSI North America Scientific Integrity Working Group which reflects the discussion at the 30 April meeting of the Working Group. Also attached is the Compilation of Scientific Integrity Work by Various Organizations and in the Current Literature presented at the meeting and referenced in the plan of work.

Please read the document and provide comments or edits to the draft by COB Friday, 12 June. The revised document will then be re-distributed to the Working Group for final approval.

The draft plan of work will be shared with the ILSI North America Board of Trustees' Executive Committee on a conference call on 2 June. It will be clearly stated that this current version is a draft and has not been finalized by the Working Group.

The meeting minutes from the 30 April meeting are nearing completion and will be distributed to the Working Group as soon as possible.

Please let Alison and I know if you have any questions.

Mike,

We are so pleased that you will be able to serve as a co-moderator for the sodium workshop on 22 September in Washington, DC. A formal invitation will be sent to you this week. We are finalizing

the list of speakers and we would welcome your recommendations for an academic or government speaker to cover several topics which are all highlighted in the attached agenda.

Given the timeframe, there is urgency in this request. If you have any other thoughts on other potential speakers, please chime in.

Thank you,
Alison

Hello Mike,

The ILSI North America Technical Committees on Food Microbiology and Sodium are jointly sponsoring a workshop, "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act." We would like to invite you to co-moderate the session with Dr. Christine Taylor, NIH ODS. I've attached a draft agenda. We are still in the process of identifying speakers and would welcome your input. The two dates we have identified are 17 September or 14 October, 2015. I'm hoping one of these dates will work for you.

I did try to call your office earlier today and would be happy to speak with you to answer any questions you may have.

I look forward to hearing from you.

Hello Mike,

Shortly, I will be sending you a survey monkey for a conference call with the planning committee of the ILSI North America workshop, The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act. Chris Taylor will be invited to the call as well as your co-moderator. She is also the government liaison for the Sodium Committee so she has participated on a previous planning call and I did not want to leave you out!

Please do not feel obligated to join the planning committee call if you are not able to do so. We will hold a call with both you and Chris as well as the rest of the speakers in early September before the workshop so you can wait until then to participate if you would like. On this planning committee call I am surveying for, we will be discussing the speaker list, finalizing the attendee list before invitations are sent, and discussing the science writer and plans for publication. If you cannot attend but would like to share your input, I can also send you the most up to date version of the agenda and the attendee list.

Thanks,
Delia

Subject: ILSI North America Workshop: The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act

Hello Mike,

We are hitting a wall trying to find a speaker for the "Introduction: Salt and Sodium Preservatives for Microbiological Stability" talk for The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act workshop. We originally invited Dr. Jeff Sindelar, University of Wisconsin-Madison, who would like to speak but is only comfortable talking about meat and poultry. We then invited Dr. Bill Sperber, per your recommendation, but he is unable to participate. Dr. Sperber suggested Dr. Guy Johnson, Johnson Nutrition Solutions but Dr. Johnson is a nutritionist and not comfortable addressing this topic. Alison and I have discussed it and we feel that you are the best individual to speak on this topic. We had originally wanted to invite you to give this talk but tapped you to be a co-moderator because of your broad expertise in this field.

You really are the best person to give this talk so would you be willing to still co-moderate and give this presentation? You would also lead the morning discussant panel.

Thanks,

Delia

Dear Professor Doyle,

A room has been reserved for you for one night (April 13th 2015).

The organizer has also asked me to inform you that you will also have a complimentary parking for your vehicle.

Please inform the front desk upon your arrival, and they will valet park your vehicle.

Kind regards.

Good morning Professor Doyle,

The President-Elect SSAOAC has informed me that SSAOAC can have a room reserved for you (for one night, April 13th 2015), if you plan to come the night before. Please let me know, if you would like to have the complimentary accommodation.

On behalf of the Program Committee of Southern Section of AOAC INTERNATIONAL 29th Annual Meeting, I would like to inform you that the Registration for all of the Speakers is complimentary. Please also be reminded that the registration is also free for the Students/Post docs (they need to contact me through e-mail and bring the current official ID to the meeting venue), please let me know if you want some of your student(s) to attend this meeting.

Please register at the following link and choose the “**staff registration**” for the meeting:

<http://www.eventbrite.com/e/southern-section-of-aoac-international-29th-annual-meeting-tickets-12722803247>

I am also enclosing the link for directions of the Meeting Venue: Doubletree Hotel Buckhead located at 3342 Peachtree Road NE, Atlanta, Georgia:

<http://doubletree3.hilton.com/en/hotels/georgia/doubletree-by-hilton-hotel-atlanta-buckhead-ATLBHDT/maps-directions/index.html>

Should you have any more questions or concerns, please let me know.

Best regards.

TO: ILSI Board of Trustees

FROM: Suzie Harris

Greetings to each of you. 2015 is off and running. I hope you are keeping up with all the various ILSI activities through the ILSI website and ILSI News.

It is time to set the date for the Board's mid-year conference call – a two-hour call that will begin at 9:00 a.m. Eastern Daylight Time. Please use the attached calendar to indicate the days in July when you are available to participate. The days marked with "X" are days when there are conflicts for that time slot. The call will not be held on these days.

Once you have marked your availability on the calendar, please return it to me. I will then send out another email confirming the date.

Please let me know if you have any questions.

Industry Consortium Begins Enormous DNA Sequencing Project for Food Safety

By [Lydia Zuraw](#) | February 2, 2015

[<image002.jpg>](#)

Mars Inc. and IBM Research have teamed up for an ambitious food safety whole-genome sequencing project.

The [Consortium for Sequencing the Food Supply Chain](#) will study the the microbial ecology of foods and their processing environments. Having a much deeper understanding of the populations in these ecologies —

bacteria, fungi, viruses, and other microorganisms — and how they interact with each other can then be used to develop new methods for keeping food safe, said Dave Crean, Mars' global head for research and development.

The science itself is similar to what the U.S. Centers for Disease Control and Prevention is using to [improve foodborne illness outbreak investigations](#). The difference is that instead of just sequencing the pathogen isolates from patients and the food that sickened them, Mars and IBM will be sequencing the DNA and RNA for all of the microorganisms on and in foods.

“We’re looking to understand how supply chains and production environments influence the final product from a microbial point of view,” Crean told **Food Safety News**. “Can we see microbial ecologies that give a greater risk of pathogens being present?”

Food companies spend a lot of time on microbial testing to ensure that there aren’t pathogens in their products, but this consortium wants to know if there are protective actions food producers can take in respect to microbiomes that can reduce risk and make production safer — certain cleaning procedures are one theory.

With more than 130 factories worldwide, Mars is also in the position to map the flow of microorganisms into and through the supply chain on a global level, Crean said.

The team will start with basic commodities, such as wheat and soy, and try to see if there is a “stable” microbiology associated with them as raw materials. The researchers will also sequence the genes of the microorganisms as the foods move through a production process to find out how the microbiome is affected by different production processes, if at all.

“Are microbiomes more specific to the raw material, or to the specific factories that they’re passing through, or the geography that they’re coming from?” Crean wondered.

The project is going to produce a lot of data — something Crean said the team recognizes as a “significant challenge.” Stressing that it’s still “very early days,” he noted that Mars and IBM are looking to partner with industry, academics, regulators and some NGOs on the project.

The vast number of microbiomes and rate at which microorganisms can evolve means that sequencing everything is virtually impossible. For now, the consortium is working on an initial timeline of three years, at which point Crean said they should have “some

pretty clear outcomes.”

“We’ll have more of an idea about how to take it forward after that three years,” he added.

Subject: request to participate on an expert panel for FDA

Mike,

I'm hoping you might be able to help us out again with an expert panel for FDA related to FSMA. Under contract with FDA, we're convening an expert panel to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

The specific objectives of the expert panel are as follows:

- Review or estimate baseline contamination rates for selected contaminants (pathogens) by broad product category
- Estimate changes in contamination rates as a result of implementation of the provisions of the Preventive Controls rule

These estimates will be used to conduct an economic analysis of the potential benefits of the Preventive Controls rule for foods under FDA's jurisdiction.

We will conduct the exercise by teleconference and email and therefore travel no travel is required. We will also provide an honorarium for your participation. I've attached a document that provides more information about the project and a form for you to complete regarding your interest and availability. Due to the urgency of the request, we would appreciate if you could return this form by **Monday, March 16** to **Michaela Coglaiti** (mcc@rti.org), or let us know if you are not interested or available.

If you have questions regarding the project, please don't hesitate to contact me.

Sincerely,

Mary K. Muth, PhD

Subject: 32nd World Veterinary Congress - Invitation

Dear Dr. Michael Doyle,

It is our pleasure to inform you that the **32nd World Veterinary Congress** will be organized by the Turkish Veterinary Medical Association (TVHB) between September 13-17, 2015 at the Istanbul Lutfi Kirdar Congress & Exhibition Center, Istanbul, Turkey.

You may find the official invitation letter as attached. It is our great honor to invite you to be a Keynote Speaker and the moderator of the session for the "[Food Hygiene](#)" main topic at WVC 2015. We will be very glad if you kindly accept our invitation and share your expertise with us. We are certain that your contribution is essential for the success of this Congress.

Our official organizing agency, ZED Event Management, will be in touch with you to finalize the arrangements of your trip once you have indicated your acceptance of our invitation. We would appreciate your reply to info@wvcistanbul2015.com by November 15, 2014 at the latest. With your acceptance, we also request a 250 word bio and a professional headshot for inclusion on the Congress website and in printed materials. In addition, we would be delighted if you could soon thereafter inform us about your convenience schedule for the presentation.

Thank you very much for your valuable contribution. We are looking forward to welcoming you to Turkey!

Yours sincerely,

Prof. Dr. Irfan Erol, DVM, Ph.D.

WVC 2015 Chairman

On Feb 4, 2015, at 9:04 AM, Heather Steele <hsteele@ilsil.org> wrote:

To interested ILSI North America members and advisors:

Thank you for your interest in a new ILSI North America initiative on microbiota & health. Many of you participated on a series of emerging issue conference calls last year, or were a member of the former project committee on gut microbes & health. A summary of the most recent conference call in late October is attached. On that call, a decision was made to hold an in-person meeting in Washington DC in early 2015. Please click on the link below to indicate your availability to attend a meeting at the ILSI offices in March or April.

<https://www.surveymonkey.com/s/YY77L7X>

The meeting will be organized as a mini-workshop/seminar in the morning and invitees may include scientists from NIH, USDA, FDA and Health Canada, providing an opportunity to discuss research priorities and opportunities. In the afternoon, ILSI North America members and advisors will continue the meeting to ascertain interest in re-forming the project committee or proceeding as a task force. There are funds, held in reserve, which could help start new activity in this area. Attendees will strive to:

- Prioritize 2 to 3 key research questions of interest
- Agree on end points to achieve
- Identify collaborative partners (including other ILSI branches)
- Define action steps and proposed time lines

Areas of interest discussed on the 2014 conference calls include:

- Nutrient and diet pattern impact on microbiome ecology, functionality and performance, and vice versa?
- Food product, ingredients/biologics supplement impact on microbiome and health?

<!--[if !supportLists]-->- <!--[endif]--
>Methodologies/approaches/technologies challenges and advances.
<!--[if !supportLists]-->- <!--[endif]-->Scientific evidence needed to
support performance claims.

I have included below a brief background on recent ILSI North America activities related to microbiota and health. Please contact me at ILSI North America with any questions. I hope you can attend our spring workshop/meeting.

Heather

Brief background on ILSI North America activities related to Microbiota & Health

ILSI North America previously had a project committee on Gut Microbes and Health. First formed in 2009, the committee's mission was to further explore the relationship between gut microbes and health, and how dietary factors affect the microbiome. The committee disbanded in 2012, after convening a successful consensus-style workshop on defining a healthy GI microbiome in late 2011. A resulting paper was published in *Cell Host & Microbe* in 2012. In addition, a 2012 Annual Meeting scientific session was organized on the "Human Gut Microbiome."

Microbiota and Health was identified as a re-emerging issue for 2014. The issue was discussed at the ILSI North America Assembly of Members/FNSP meeting in January 2014 and many signed up to indicate interest in the topic. Several conference calls were held in 2014 to discuss the scientific issues related to this area, including new research and recent developments in the field, as well as possible next steps.

ILSI North America addressed this issue in several ways. One of our featured speakers at the 2014 ILSI North America Mid-Year FNSP meeting was Gary Wu, PhD, University of Pennsylvania, who spoke on "Diet, Microbiota and Intervention." In addition, an ILSI North America scientific session at last month's 2015 ILSI Annual Meeting focused on the microbiome and was titled "I am the Microbiome: It's the Microbio + Me."

Next steps: re-form as a project committee or move forward as a task force (limited activity and lifespan).

CURRICULUM VITAE**Michael Patrick Doyle****DATE AND PLACE OF BIRTH:** 1949; Madison, Wisconsin**FORMAL EDUCATION**

- 1973 Bachelor of Science, University of Wisconsin-Madison
Major: Bacteriology
Graduated with Honors
- 1975 Master of Science, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
- 1977 Doctor of Philosophy, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
Minor: Bacteriology

PROFESSIONAL EMPLOYMENT

University of Georgia, - Faculty of Center for Drug Discovery, Athens, GA
October 2010 – present

University of Georgia, Faculty of Infectious Diseases, Athens, GA March 2008 - present

University of Georgia, Center for Food Safety, Griffin, GA
January 2001 - Present

Title - Director

Responsibilities: Provide leadership for the research and outreach programs of the Center. Provide oversight of 9 faculty members and ca. 10 postdoctoral scientists, and coordinate microbiological food safety research of participating adjunct faculty members.

Center for Food Safety

- Reorganized in 2001 to focus solely on microbiological food safety issues
 - The purpose of the Center is to assist food processors and producers nationally in enhancing the safety of their products
 - Center is awarded annually \$2.5 to \$3.5 million in extramural funding with a core faculty of 7. Ca. \$9 million in extramurally-funded ongoing research among all Center faculty members
 - Center has 19 core and adjunct faculty members plus 10 postdoctoral scientists
 - Center has 50 industry members contributing ca. \$400,000-\$500,000 annually in unrestricted funds for research activities
 - Center is a nationally and internationally recognized program for its food safety activities

- Has major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences

**University of Georgia, Center for Food Safety and Quality Enhancement, Griffin, GA
March 1993 - December 2000**

Title - Director

Responsibilities: Provided leadership for the research and outreach programs of the Center.
Provided oversight of 11 faculty members.

Center for Food Safety and Quality Enhancement

- Organized and, in 1993, received approval for a Center for Food Safety and Quality Enhancement; served as Center's Director since 1993.
 - The purpose of the Center is to assist food processors nationally in enhancing the safety and quality of their products.
 - Center received annually \$2 million plus in extramural funding with a core faculty of 11
 - Center had 17 core and adjunct faculty members
 - Center had 50 industry members contributing \$250,000 in unrestricted funds annually for research activities
 - Center was a nationally and internationally recognized program for its food safety activities
 - Developed major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences
 - Research projects at the Center led to the development of new multimillion dollar divisions within some state companies
- Organized and received federal funding (\$300,000 annually) for an Alliance for Food Protection
 - Strategic alliance between the University of Georgia (microbiological food safety) and the University of Nebraska (allergen-related food safety) to enhance the safety of processed foods
- Obtained \$7.6 million for 28,000-sq ft. building addition, renovations, and equipment for Center for Food Safety and Quality Enhancement in Griffin
- Obtained \$4.4 million in state funding for building addition for Department of Food Science and Technology in Athens (justified on basis of food safety program)

State of Georgia Food Processing Initiative

- Served as a principal advisor to the Food Processors Advisory Council (Food PAC) of the State of Georgia
 - This Council advises the Governor's Office of Planning and Budget on the award of \$1.5 to \$2 million annually for food processing-related research funding at State universities
- Served as a principal advisor to the Governor's Office of Planning and Budget on economic development and expansion of the \$15-billion/year state food processing industry
 - Assisted in the recruitment of food processing companies to Georgia

University of Georgia, Department of Food Science and Technology, Athens, GA and Griffin, GA

September 1993 - July 1999

Title - Department Head

Responsibilities: Provided leadership for the academic, extension, and research programs of the Department.

Administrative Responsibilities and Accomplishments

- Program responsibilities as Head of Department of Food Science and Technology included:
 1. Oversight of Food Science undergraduate and graduate instruction programs (21 faculty)
 2. Oversight of Environmental Health Science undergraduate and graduate instruction, and research programs (6 faculty) until October 1998
 3. Oversight of Food Process Research and Development Laboratory (17 faculty)
 4. Oversight of Food Science Extension program (1.75 faculty)

Food Science Instruction

- The Food Science graduate program (ca. 70 - 100 students) was the largest (40%) in the College of Agricultural and Environmental Sciences
 - Average GRE scores for Food Science graduate students increased ca. 100 points to ca. 1100 since 1995.
 - UGA Food Science graduate students were in great demand, with most having one or more job offers before graduation.
 - Minority graduate student enrollment increased by 4-fold since 1995.
- Food Science undergraduate program (20 to 40 students) graduates were among the most employable students in the College with two to three job opportunities at graduation.

- Department restructured all courses (both undergraduate and graduate) to transition from quarter to semester system in fall 1998
- Reorganized teaching responsibilities to upgrade and update the department's introductory Food Science course. Enrollment increased by more than 300% (from 18 to >60 students per quarter) within one year.

Environmental Health Science

- Facilitated the development and growth of the Environmental Health Science program culminating in departmental status in October 1998
 - Undergraduate enrollment of 150-220 students
 - Received Board of Regents approval for Masters of Science Graduate program
 - Increased faculty positions from 2 to 5
 - Relocated EHS faculty to a single building; obtained additional space (ca. 8,000 sq. ft.) for research and teaching; renovated 3 laboratories and constructed a new classroom and computer laboratory
 - Received University of Georgia and Board of Regents approval for departmental status

Food Process Research and Development Laboratory

- Facilitated approval in 1995 of the Food Process Research and Development Laboratory
 - The purpose of the Laboratory was to develop and evaluate new processes for food products and assist state food processors in implementing these new processes
 - Integrated Food Science Extension programs with the FPRDL
 - Developed faculty support and involvement in FPRDL; 17 faculty were members of the Laboratory
 - Laboratory received annually ca. \$0.5 to \$1 million plus in extramural funding
 - Obtained \$2 million plus in state funding for renovations to Food Science Building in Athens (justified on basis of food processing program)

Food Science Extension

- Integrated Food Science Extension into the Department of Food Science and Technology
 - Developed a fully integrated Extension program involving the entire research and teaching faculty of the department; formerly only one or two full-time Extension faculty addressed all Extension Activities
 - Food Science Extension programs promote state economic development by assisting state processors in designing new plants, reducing waste, implementing new processes, implementing pollution controls, and improving worker efficiency
 - Increased Extension workshop and short course offerings by more than two-fold (20-30 workshops offered annually)

University of Georgia, Center for Food Safety and Department of Food Science and Technology, Georgia Experiment Station, Griffin, GA

January 1991 - Present

Title - Regents Professor of Food Microbiology (1997-present), and Director of the Center for Food Safety (2001-present); Director of the Center for Food Safety and Quality Enhancement (1993-2000); Professor of Food Microbiology (1991-1997) and Head of Department of Food Science and Technology at Griffin, (1991-1993).

Responsibilities: Conducted basic and applied research on bacterial agents of foodborne disease, provide leadership for the research program of the Center and previously the Department, and managed the administrative functions of the Center and previously the Department.

University of Wisconsin-Madison, Department of Food Microbiology and Toxicology and Department of Food Science, Madison, Wisconsin

January 1980 - March 1991

Title - Wisconsin Distinguished Professor of Food Microbiology and Toxicology, and Professor of Food Science; Associate Professor, July 1, 1984 - June 30, 1988; Assistant Professor, January 1, 1980 - June 30, 1984

Responsibilities: Conducted basic and applied research related to bacterial agents of foodborne disease. Organisms of primary interest included Campylobacter jejuni, Yersinia enterocolitica, Salmonella, enterohemorrhagic Escherichia coli, Listeria monocytogenes, and Clostridium botulinum.

Ralston Purina Company, Checkerboard Square, St. Louis, Missouri

December 1977 - January 1980

Title - Senior Project Leader in Corporate Microbiology

SOCIETY MEMBERSHIPS (Present and Past)

- a. American Academy of Microbiology
- b. American Association for the Advancement of Science
- c. American Society for Microbiology; Southeastern Branch of ASM
- d. Gamma Sigma Delta (Honor Society for Agriculture)
- e. International Association for Food Protection; Georgia Association for Food Protection
- f. National Academy of Medicine (Institute of Medicine of the National Academies)
- g. Institute of Food Technologists; Dixie Section of IFT
- h. Phi Beta Delta (Honor Society for International Scholars)
- i. Phi Kappa Phi
- j. Phi Tau Sigma (Honor Society for Food Scientists)
- k. Sigma Xi

AWARDS/HONORS

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986

3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987
5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food, and Environmental Sanitarians, 1993
10. American Society for Microbiology Food Microbiology Division Lecturer, 1993
11. G. Malcolm Trout Visiting Scholar Lectureship, Michigan State University, 1994
12. James H. Nakano Citation (outstanding scientific paper published in 1993), National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994 and nominated for the Charles C. Shepard Science Award (most outstanding peer reviewed research paper published by CDC/ATSDR scientists), Centers for Disease Control and Prevention, 1994
13. P. R. Edwards Award (for rendering outstanding service in furthering high professional ideals and standards in microbiology, and demonstrating originality and high competence as a practicing microbiologist), Southeastern Branch of the American Society for Microbiology, 1994
14. Nicholas Appert Award, Institute of Food Technologists, 1996, for outstanding contributions to the field of food science (Highest award given by IFT)
15. Health Sciences Communications Association '96 Media Festival, First Place Award, for CNBC's *Today's Health* segment on "Beef Industry's Efforts to Improve Food Safety," through the National Cattlemen's Beef Association, 1996
16. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997
17. Institute of Food Technologists Food Microbiology Division Lecturer, 1997
18. Silver Plow Honor Award for Exceptional Service (Personal and Professional Excellence), U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998. For internationally esteemed leadership in food safety, and pioneering research in detecting and controlling harmful bacteria associated with foods.

19. Inaugural Fellow, International Association for Food Protection (International Association of Milk, Food and Environmental Sanitarians), 1998.
20. York Distinguished Lecture, Auburn University, 1999
21. Fellow, Institute of Food Technologists, 1999
22. National Food Processors Association Food Safety Award, International Association for Food Protection, 1999, for exemplary and outstanding contributions to and leadership in improving the safety of food through research, education, public health, and domestic and international policy.
23. Honorary Member, Association Internationale Nicolas Appert, 1999, for outstanding contributions to food science and technology.
24. Key Resource Award, Links 2 Go, 1999, for UGA Center for Food Safety web page among most popular pages on food safety.
25. Study Web Academic Excellence Award, 2000, for being one of the best educational resources on the Web.
26. Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, 2000.
27. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
28. CDC Partners in Public Health Honor Award for outstanding collaboration and partnership with CDC in enhancing foodborne disease outbreak investigations and helping CDC to develop foodborne disease prevention strategies, U.S. Centers for Disease Control and Prevention, 2001
29. Institute for Scientific Information, Highly Cited Researcher in Agricultural Sciences (from 1981-1999), 2002
30. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
31. Fellow, World Innovation Foundation, 2003
32. Elected Member, National Academy of Medicine (Institute of Medicine, National Academies), 2003
33. National Associate, National Academy of Sciences, 2003
34. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003

35. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
36. Scientific Achievement Award for professional achievements that have had a significant contribution to the scientific knowledge of the meat and poultry industry, American Meat Institution Foundation, 2004
37. U.S. Food and Drug Administration, Commissioner's Special Citation, 2006
38. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
39. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009.
40. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao).
41. Fellow, American Association for the Advancement of Science (AAAS), 2011
42. Service Award, American Society for Microbiology, 2012
43. Christopher Columbus Award for excellence in agriscience, 2013
44. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food safety, 2013
45. Fellow, National Academy of Inventors, 2013
46. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate", by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)
47. John N. Sofos Most-Cited JFP Research Publication Award, 2015, Journal of Food Protection, "Surface and internalized *Escherichia coli* O157:H7 on field-grown spinach and lettuce treated with spray-contaminated irrigation water," by M.C. Erickson, C.C. Webb, J.C. Diaz-Perez, S.C. Phatak, J.J. Silvey, L. Davey, A.S. Payton, J. Liao, L. Ma, and M. P. Doyle. 73:1023-1029
48. John N. Sofos Most-Cited JFP Research Publication Award, 2015, Journal of Food Protection, "Infrequent internalization of *Escherichia coli* O157:H7 into field-grown leafy greens," by M.C. Erickson, C.C. Webb, J. C. Diaz-Perez, S.C. Phatak, J. J. Silvey, L. Davey, A. S. Payton, J. Liao, L. Ma and M. P. Doyle. 73: 500-507
49. Frazier Memorial Award Lecture, Food Research Institute, University of Wisconsin-Madison, 50th Annual Meeting, Keynote Address, 2016

BIOGRAPHICAL LISTINGS

1. Listed in American Men and Women of Science, 1992; 1995; 1998, 2003 (21st ed.) 2007
2. Listed in Who's Who in Science and Engineering, 1st edition, 1992; 2nd edition, 1993; 3rd edition, 1996-97; 4th edition, 1997-98; 5th edition, 1999-2000; 6th edition, 2002-2003; 7th edition, 2003-2004; 8th edition, 2004-2005; 9th edition, 2005-2006; 10th edition, 2006-2007; 11th edition, 2007-2008.
3. Listed in International Directory of Distinguished Leadership, 4th edition, 1992.
4. Listed in Who's Who in the South and Southwest, 24th edition, 1995-96; 25th edition, 1997-98; 26th edition, 1999-2000; 27th edition, 2000-2001; 28th edition, 2002-2003; 29th edition, 2003-2004; 30th edition, 2004-2005; 31st edition, 2005-2006; 32nd edition, 2006-2007; 33rd edition, 2007; 34th edition, 2008; 35th edition, 2009; 36th edition, 2010; 37th edition, 2011; 38th edition, 2012.
5. Listed in Who's Who in America, 49th edition, 1994; 50th edition, 1995; 51st edition, 1996; 52nd edition, 1997; 53rd edition, 1998; 54th edition, 1999; 55th edition, 2001; 56th edition, 2002; 57th edition, 2003; 58th edition, 2004; 59th edition, 2005; 60th edition, 2006; 61st edition, 2007 62nd edition, 2008; 63rd edition, 2009; 64th edition, 2010; 65th edition, 2011; 70th edition, 2016.
6. Listed in Who's Who in Technology, 1995.
7. Listed in Who's Who in Medicine and Healthcare, 1st edition, 1996; 2nd edition, 1999-2000; 3rd edition, 2000-2001; 4th edition, 2002-2003; 5th edition, 2004-2005; 6th edition, 2006-2007, 7th edition, 2009-2010.
8. Listed in Who's Who in the World, 13th edition, 1996; 14th edition, 1997; 15th edition, 1998; 16th edition, 1999; 17th edition, 2000; 20th edition, 2003; 21st edition, 2004; 23rd edition, 2006; 24th edition, 2007; 26th edition, 2009; 27th edition, 2010.
9. Listed in Who's Who in American Education, 6th edition, 2004-2005; 7th edition, 2005-2006.
10. Listed in International Who's Who of Professionals, 2004.
11. Listed in Who's Who in the South and Southeast, 2015. 41st edition.

DISTINGUISHED APPOINTMENTS OR ELECTED POSITIONS

Associate Editor, *Journal of Food Protection*, 1981-86

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention

and Control of *Campylobacter* Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health

Organization, Geneva, Switzerland, 1988
 Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988
 Scientific Advisor, International Life Sciences Institute - North America, Food Microbiology Committee, 1987-1996
 Scientific Advisor, National Dairy Promotion and Research Board, 1989-93
 Scientific Advisor, National Live Stock and Meat Board, 1990-96
 Executive Committee, Conference for Food Protection, 1985-86
 Member, National Advisory Committee on Microbiological Criteria for Foods, 1988-90; 1994-2000
 Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987
 Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-97
 Board of Trustees, International Life Sciences Institute North America, 1992-
 Chairman, Food Microbiology Division of the American Society for Microbiology, 1988-89; Chair-Elect, 1987-88
 Scientific Lecturer, Institute of Food Technologists, 1987-90
 Foundation Scientific Lecturer, American Society for Microbiology; 1991-93; 1999-2001
 President, International Association of Milk, Food and Environmental Sanitarians, 1992-93
 Member, National Academy of Sciences, National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board, Panel on Animal Health, Food Safety and Public Health, 1993-96
 Member, National Academy of Sciences, Institute of Medicine, Food Forum, 1993-2000
 Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, World Logistics Organization, 1997-2002
 Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003
 Chairman, Georgia-Pacific Health Smart Institute Advisory Board, 1998-2001
 Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998
 Member, U. S. Food and Drug Administration Science Board (advise FDA scientific programs), 1999-2004, Chairman 2003-2004
 Member, U.S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002
 Scientific Editor, Aspen Publishers, Series on Food Safety and Food Microbiology, 1999-2001
 Member, U.S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000
 Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001
 Chairman, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture Food Safety and Inspection Service *Escherichia coli* O157:H7 in Ground Beef Draft Risk Assessment, 2001-2002.

Scientific Editor-in-Chief, (formerly Kluwer Academic/Plenum Publishers), Springer, Series on Food Safety and Food Microbiology, 2002-

Member, Partnership for Food Safety Education Advisory Board, 2002-2005

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007

Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008

Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012

Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009

Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Chairman, National Academy of Sciences, Committee on the Joint US-Iran Workshop on Food Safety, 2003-2005

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-2015.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2013

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2015

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009.

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009.
 Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014
 Member, International Life Sciences Institute Board of Trustees, 2014-
 Invited Member, 2014 CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017
 Chair, 2014-15, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC

BIBLIOGRAPHY OF PUBLICATIONS

Papers Published in Refereed Journals/Publications

1. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. I. Effects of moist heat, age of conidia, and sporulation medium. J. Milk Food Technol. 38:678-682.
2. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. II. Effects of pH and buffers, glucose, sucrose, and sodium chloride. J. Milk Food Technol. 38:750-758.
3. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by fragmented and intact mycelia of Aspergillus parasiticus grown 5 to 18 days with and without agitation. J. Food Prot. 41:549-555.
4. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of temperature and concentration of bisulfite. J. Food Prot. 41:774-780.
5. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of citric acid and methanol and possible mechanism of degradation. J. Food Prot. 41:891-896.
6. Doyle, M. P., and E. H. Marth. 1978. Degradation of aflatoxin by lactoperoxidase. Z. Lebensm. Unters.-Forsch. 166:271-273.
7. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin at several initial concentrations is degraded by different amounts of mycelium of Aspergillus parasiticus. Z. Lebensm. Unters.-Forsch. 166:359-362.
8. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by mycelia from toxigenic and nontoxigenic strains of aspergilli grown on different substrates. Mycopathologia 63:145-153.
9. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by heated and unheated mycelia, filtrates of homogenized mycelia and filtrates of broth cultures of Aspergillus parasiticus. Mycopathologia 64:59-62.

10. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded at different temperatures and pH values by mycelia of Aspergillus parasiticus. Eur. J. Appl. Microbiol. Biotechnol. 6:95-100.

Invited Papers Published in Conference Proceedings

1. Doyle, M. P. 1983. Changing patterns in outbreaks of foodborne disease. pp. 1-1 to 1-9. In E. A. Zottola (ed.) Practical food safety assurance. Institute of Food Technologists, Chicago, IL.

2. Doyle, M. P. 1983. New bacterial agents - Nature, importance and regulatory status. Campylobacter jejuni and Escherichia coli. pp. 430-440. In Proceedings of the Toxicology Forum 1983 Annual Summer Meeting. Toxicology Forum, Washington, DC.
3. World Health Organization. 1984. Report of the WHO Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections. WHO, Geneva, Switzerland. 17 p.
4. Doyle, M. P. 1986. Raw facts about Listeria. Cheese Reporter 111(13):1, 10-11.
5. Doyle, M. P. 1987. Meat-associated pathogens of recent concern. pp. 7-8. In Proceedings of the 39th Annual Reciprocal Meat Conference, Champaign, IL.
6. Doyle, M. P. 1987. The emergence of Listeria monocytogenes as a foodborne pathogen of concern. pp. 74-98. In Proceedings of the Finnish Food Research Foundation, Helsinki, Finland.
7. Doyle, M. P. 1987. Low temperature pathogens. pp. 51-55. In Proceedings of the Meat Industry Research Conference. American Meat Institute, Washington, DC.
8. World Health Organization Informal Working Group on Foodborne Listeriosis. 1988. Foodborne listeriosis. WHO, Geneva, Switzerland. 20 p.
9. Freshwater Foundation. 1990. Food safety and toxicology. Health & Environment Digest 4(7):1-4, 6.
10. Doyle, M. P. 1992. The significance of Escherichia coli O157:H7 in foods. Australian Microbiologist. March: 41-42.
11. Doyle, M. P. 1993. Current issues in food safety in the 1990's. In Proceedings of the VIII Reunion Anual de Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico.
12. Doyle, M. P. 1993. Reducing foodborne disease - What are the priorities? Nutrition Reviews 51:346-347.
13. Doyle, M. P. 1994. The emergence of enterohemorrhagic Escherichia coli O157:H7 as the foodborne pathogen of the 1990's. In Proceedings of the X Reunion Anual de Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico.
14. Brackett, R. E. and M. P. Doyle. 1994. The significance of enterohemorrhagic Escherichia coli O157:H7 as a meatborne pathogen. In Proceedings of the Meat Industry Research Conference, American Meat Institute and American Meat Sciences Association, Washington, DC.

15. Clavero, M. R. S., J. D. Monk, L. R. Beuchat, M. P. Doyle, and R. E. Brackett. 1994. Irradiation inactivation of bacterial pathogens in ground beef. In Proceedings of the Meat Industry Research Conference, American Meat Institute and American Meat Sciences Association, Washington, DC.
16. Zhao, T., M. P. Doyle, J. Meng, and S. Zhao. 1994. Detection and control of Escherichia coli O157:H7 in foods. 3rd Int. ASEPT Conference-Food Safety-94, 263-281.
17. Doyle, M. P. 1994. Escherichia coli O157:H7 - A meatborne pathogen of serious consequences. pp. 115-117. In Proceedings of the 46th Annual Reciprocal Meat Conference, American Meat Science Association.
18. Doyle, M. P. 1994. Enterohemorrhagic Escherichia coli O157:H7: Not a typical foodborne pathogen. pp. 46-57. The Toxicology Forum, 1994 Annual Summer Meeting, Aspen, CO.
19. Doyle, M. P. 1995. The impact of modified atmosphere packaging on the growth of refrigerated food pathogens. MAPack '95, The Leading Edge Conference on Modified Atmosphere Packaging, Anaheim, CA.
20. Zhao, T., M. P. Doyle, and G. Wang. 1995. Emerging pathogens and rapid detection methods. pp. 386-403. *In* Proceedings of the Second Asian Conference on Food Safety, International Life Sciences Institute, Bangkok, Thailand.
21. Doyle, M. P. 1997. Significance of the world-wide spread of illness from *Escherichia coli* O157:H7: precautions for the refrigerated chain. pp. 1-5. *In* Proceedings of The International Association of Refrigerated Warehousemen and The Refrigeration Research and Education Foundation Annual Meeting, Barcelona, Spain.
22. Doyle, M. P. 1997. The food safety research agenda Panel response. p. 8. *In* Proceedings of the Beef Safety Symposium, American Meat Science Association, Chicago, IL.
23. Doyle, M. P. 1997. *Escherichia coli* O157:H7 - The nemesis of the cattle industry. pp. 42-45. In Proceedings of the Beef Safety Symposium, American Meat Science Association, Chicago, IL.
24. Zhao, T., M. P. Doyle, B. G. Harmon, C. A. Brown, P.O.E. Mueller, and A. H. Parks. 1998. Reduction of carriage of enterohemorrhagic *Escherichia coli* O157:H7 in cattle by inoculation with probiotic bacteria. pp. 44-50. *In* Proceedings of The Plains Nutrition Council Spring Conference, San Antonio, TX.
25. Buchanan, R. L., and M. P. Doyle. 1998. Foodborne disease significance of *Escherichia coli* O157:H7 and other enterohemorrhagic *E. coli*. pp. 1-9. *In* Proceedings of the Lillian Fountain Smith Conference for Nutrition Educators, Ft. Collins, CO.
26. Doyle, M. P. 1998. Identification and control of foodborne disease pathogens. pp. 551-563. *In* Proceedings of The Toxicology Forum, Washington, DC.

27. Doyle, M. P. 1999. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen in the United States. pp. 1-17. *In* Proceedings of IFIA Japan '99, Tokyo, Japan.
28. Doyle, M. P. 1999. *Listeria monocytogenes* and refrigerated foods. pp. 1-2. *In* Proceedings of the International Association of Refrigerated Warehousemen and The Refrigeration Research and Education Foundation Annual Meeting, Rio Mar Beach, Puerto, Rico.
29. Doyle, M. P. 1999. Why microbiological criteria for enterohemorrhagic *Escherichia coli* and not Shiga-toxin-producing *E. coli* in foods? p. 13. *In* Proceedings of Science-Based Criteria for Harmonizing Food Safety Regulations, Symposium, International Life Sciences Institute, Dearborn, MI.
30. Brown, C. A., B. G. Harmon, S. Tkalcic, M. P. Doyle, and T. Zhao. 1998. Effect of diet and rumen microenvironment on the proliferation and fecal shedding of *E. coli* O157:H7 in calves. p. 25. *In* Proceedings of Trends and Perspectives in Microbial Food Safety Symposium, International Life Sciences Institute, Nashville, TN.
31. Doyle, M. P. 2000. Microbial decontamination treatments for fresh fruits and vegetables. p. 23. *In* Reducing Foodborne Illness: Advancing the Adoption of Technologies. Charles Valentine Riley Memorial Foundation, Silver Spring, MD.
32. Doyle, M. P. 2000. Use of microorganisms in non-traditional methods to increase meat safety. pp. 636-638. *In* Proceedings of the 46th International Congress on Meat Science and Technology, Buenos Aires, Argentina.
33. Doyle, M. P. 2001. Risk assessment of *Listeria monocytogenes* in ready-to-eat foods. pp. 6-7. *In* Proceedings of the World Food Logistics Organization Annual Meeting, Boca Raton, FL.
34. Doyle, M. P. 2001. Defining incidents leading to changes in food safety policy: *Escherichia coli* O17:H7 and *Listeria monocytogenes*. pp. 11-15. *In* Proceedings of the "Food Safety Policy, Science and Risk Assessment. Strengthening the Connection" Workshop, Institute of Medicine, Washington, DC.
35. Jiang, X., J. Morgan, and M. P. Doyle. 2001. Optimization of conditions to kill *Escherichia coli* O157:H7 in manure. P. 47 *In* Proceedings of the Symposium Series on Food Microbiology, International Life Sciences Institute, Minneapolis, MN.
36. Michaels, B., V. Gangar, C.-M. Lin, and M. Doyle. 2003. Use of alcohol instant hand sanitizer in food service as part of a hand hygiene program: efficacy and limitations for use. *In* Proceedings of the ICCAS03 (Fourth International Conference on Culinary Arts and Sciences, Orebro University, Orebro, Sweden.
37. Doyle, M. P. 2004. Bioterrorism preparedness: The imperative for a public-private partnership. pp. 12-13, 15. Proceedings of The Sam Nunn Bank of America Policy Forum, Georgia Institute of Technology, Atlanta, GA.

38. Doyle, M. P. 2008. Microbiological food safety threats: What have we learned and what's in the future. pp. 42-50. Proceedings of the Conference on Future Challenges to Microbial Food Safety, Wolfheze, The Netherlands.
39. Doyle, M.P. 2009. Risk assessment - Perspectives from the United States. pp. 41-62. Proceedings of the 2nd Korean Academy of Science and Technology - United States National Academies Bilateral Symposium: The Science of Food Safety Risk Assessment, Seoul, Korea.
40. Doyle, M. P. 2010. An explosion of global food exports: A challenge for the food safety community. pp. 19-44. Proceedings of the International Symposium on Agri-food safety, Seoul National University, Seoul, Korea.
41. Doyle, Michael P. 2011. Opportunities for mitigating foodborne illnesses caused by emerging and persistent infectious agents. pp. 81-93. Proceedings of Institute on Science for Global Policy (ISGP): Emerging and Persistent Infectious Diseases Conference, Edinburgh, Scotland.
42. Institute of Medicine. 2011. Improving Food Safety Through a One Health Approach, Workshop Summary – invited participant. National Academies of Science.
43. Doyle, Michael P. 2013. Innovative chemical treatments to kill foodborne pathogens and spoilage bacteria. 8th International Conference for Food Safety and Quality: Detection/Control Methods for Food Safety, Las Vegas, NV, Nov. 5-6. Food HACCP.

Patents

1. Doyle, M. P. and N. Padhye. Issued December 1, 1992. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. (USA) Patent No. 5,168,063.
2. Doyle, M. P. and J. L. Schoeni. Issued April 12, 1994. Control of Campylobacter jejuni colonization. (USA) Patent No. 5,302,388.
3. Doyle, M. P. and N. V. Padhye. Issued October 11, 1994. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11 and method for detection. (USA) Patent No. 5,354,661.
4. Doyle, M. P. and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. European Patent Application No. 494,293 (Europe, Italy, Belgium, Great Britain, Switzerland).
5. Doyle, M. P., and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. Germany Patent No. 69128463.6.

6. Doyle, M. P., and N. V. Padhye. Issued September 18, 1998. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Korea Patent No. 165691.
7. Doyle, M. P., and N. V. Padhye. Issued December 13, 1994. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Australia Patent No. 652172.
8. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued October 12, 1999. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (USA) Patent No. 5,965,128.
9. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued July 19, 2001. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Australia) Patent No. 735914.
10. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued January 10, 2002. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (New Zealand) Patent No. 502420.
11. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued November 5, 2003. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (China) Patent No. ZL 98808111.3.
12. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued August 31, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Korea) Patent No. 044-7903.
13. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued June 29, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Mexico) Patent No. 221178.
14. Doyle, M. P., and M. D. Danyluk. Issued April 22, 2008. Probiotic bacteria. (USA). Patent No. 7361497.
15. Doyle, M. P. and T. Zhao. Issued August 18, 2009. Composition and method for inhibition of microorganisms. (USA). Patent No. 7575744. Ser No. 12/541/606.
16. Doyle, M. P., and T. Zhao. Issued 2009. Composition and method for inhibition of microorganisms (Europe). European Patent No. 11570047.
17. Doyle, M. P., G. Zhang, and L. Ma. Issued June 29, 2010. Composition and method for inhibiting *Salmonella* and *Campylobacter* colonization in poultry. (USA). Patent No. 7744868.
18. Doyle, M. P., and T. Zhao. Filed May 21, 2009. Antimicrobial composition and use. (International) (PCT International Serial No. PCT/US2009/044815).
19. Zhao, T., M. Doyle, and R. Walcott. (Filed March 17, 2010). Treatment for Alfalfa Seeds and Sprouts. (U.S. Provisional Application No. 61/314,922).

20. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 23, 2010). Efficacy of a novel antimicrobial solution against phytopathogenic bacteria, and feasibility as a vegetable seed treatment. (U.S. Provisional Application No. 61/316,582).
21. Doyle, M. P., and T. Zhao. (Filed February 23, 2011). Skin Cleanser. Provisional Assignment Serial No. 61/445,686.
22. Doyle, M. P., and T. Zhao. (Filed February 24, 2011). Antimicrobial Composition and Use (U.S. Provisional Patent Application 61/446082.) (Patent App. Ser. No. 12/811,560)
23. Doyle, M.P., and T. Zhao. (Filed September 16, 2011). Chlorine-Free Water Treatment. Patent Application Serial No. 13/234,286.
24. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 9, 2011). Antimicrobial Treatment for Seeds and Sprouts. International Patent Application PCT/US11/277719. WO2U11/115798A2 Published September 22, 2011.
25. Doyle, M. P., and T. Zhao. (Filed December 1, 2011). Compositions for Oral and Nasal Hygiene. Patent Application US No. PCT/US2011/62844.
26. Doyle, Michael P. and Tong Zhao. (Filed February 13, 2012). Control of Enterohemorrhagic E. coli in Farm Animal Drinking Water. US Serial No. 13/371,542.
27. Doyle, Michael and Tong Zhao. (Filed January 17, 2012). Chlorine-Free Liquid Microbicide Treatment. US Serial No. 13/351,477.
28. Doyle, Michael P. and Tong Zhao. (Granted September 28, 2011) (South African Patent No. 2010/04796). Antimicrobial Composition and Use.
29. Cannon, Jennifer L., Michael Patrick Doyle, and Tong Zhao. (Filed January 13, 2012). Ser. No. 13/350,315. Viricidal and Microbicidal Compositions and Uses Thereof. Utility Patent Application.
30. Doyle, Michael P. and Tong Zhao. European Patent Application No. 09763203.8, Antimicrobial Composition and Use, (filed May 21, 2009). UGARF No. 1407.
31. Doyle, Michael P. and Tong Zhao. (Issued May 14, 2013). Composition and method for inhibition of microorganisms. Patent No. 8440448.
32. Doyle, Michael P. and Tong Zhao. Serial No. 13/363,455 Antimicrobial Composition and Use as Food treatment. Supplemental Amendment and Declaration, filed February 1, 2013.
33. Doyle, Michael P. and Tong Zhao. Issued May 13, 2014. Antimicrobial Composition and Use as Food Treatment. (USA). Patent No. 8,722,123.

License Agreements

Doyle, Michael P. and Tong Zhao. 2014. A Monoclonal Antibody That Binds Surface Non-fraction 1 Antigen of *Yersinia pestis*. License Agreement with UGARF and KeraFAST, Inc. May 6.

Books

1. Doyle, M. P. (ed.). 1989. Foodborne bacterial pathogens. Marcel Dekker, New York. 796 p.; 2nd printing, 1990; 3rd printing, 1994.
2. Doyle, M. P., L. R. Beuchat, and T. J. Montville (eds.). 1997. Food Microbiology: Fundamentals and Frontiers. ASM Press, Washington, DC, 768 p.
3. Doyle, M. P., L. R. Beuchat, and T. J. Montville (eds.). 1997. Microbiologia de los Alimentos: Fundamentos y fronteras. Acribia, S.A., Royo, Spain 799 p. (Spanish version).
4. Committee to Ensure Safe Food from Production to Consumption (J. C. Bailar III, C. A. Bisogni, D. L. Call, M. N. Cohen, M. P. Doyle, D. A. Hammock, L. J. King, G. A. Leveille, R. A. Merrill, S. A. Miller, H. W. Moon, M. T. Osterholm, and T. D. Trautman). 1998. Ensuring safe food from production to consumption. National Academy Press, Washington, DC. 194 p.
5. Doyle, M. P., L. R. Beuchat, and T. J. Montville (eds.). 2001. Food Microbiology: Fundamentals and Frontiers, 2nd edition. ASM Press, Washington, DC, 872 p.
6. Committee on the Review of the USDA *E. coli* O157:H7 Farm-to-Table Process Risk Assessment (M. P. Doyle, S. Ferson, D. D. Hancock, M. M. Levine, G. Paoli, B. J. Peterson, J. N. Sofos, and S. S. Sumner). 2002. *Escherichia coli* O157:H7 in ground beef: Review of a draft risk assessment. National Academy Press, Washington, DC. 161 p.
7. Committee on the National Needs for Research in Veterinary Science (J. E. Womack, L. C. Anderson, L. S. Bull, C. C. Capen, N. F. Cheville, P. Daszak, W. J. Dodds, M. P. Doyle, D. R. Franz, J. A. Shadduck, D. H. Shaw, D. E. Swayne, and R. J. Tolwani). 2005. Critical needs for research in veterinary science. National Academy Press, Washington, DC. 195 p.

23. American Meat Institute - Food Processors Institute Workshop on HACCP. 2 lectures.
24. Society for Manufacturing Engineers, Fundamentals of Modified Atmosphere Packaging Short Course. 2 lectures.

UNDERGRADUATE STUDENTS, GRADUATE STUDENTS and POSTDOCTORAL ASSOCIATES, and SCIENTISTS

Undergraduate Students (UW-Madison)

Nancy Bains	1980-1981
Gail Daly	1981
Dave Jackson	1981-1982
Bob Smith	1981-1982
Heidi Hoff	1981-1983
Carol Luker	1981-1983
John Pfister	1982-1983
Susan Herbert	1981-1982
Robert Thiesen	1981-1982
Sue Kovats	1982-1986
Sandra Kalnins	1982
Julia Shimaoka	1983-1986
Lisa Marquardt	1982
Jean Schoeni	1980-1991
Debbie Roman	1980-1983

Mary Hugdahl	1980-1985
Jean Aschenbach	1982
Joanne Gould	1983-1984
Jean Guggisberg	1982-1986
Louise Meske	1983-1987
Johnna Shink	1983-1986
Bridget Crave	1983
Kathy Glass	1983-1991
Tom Knapp	1984-1986
Azadeh Khalili	1984-1985
Sue Gates	1985
Andrew Sharp	1985
David McDonald	1985
Eric Olson	1985-1986
Sue Anderson	1985-1986
Maureen Quinn	1985-1986
Michelle Mitchell	1985-1986
Nadine Gmach	1985-1986
Phil Guillery	1985-1986
Brett Rabata	1985-1987
Lesley May	1985-1987
Lisa Makovec	1985-1987
Mike Ortengren	1985-1987
Sandy Schlosser	1985-1987
Pam Wilger	1985-1987
Jae Ellen Thorstad	1985-1989
Rick Kittell	1985-1991
Roger Fons	1989
Suyun Yang	1986
Joan Harrod	1986-1991
Dianna Mook	1986
Lisa Poulter	1986
Lisa Denzin	1986
Kurt Wolfmeyer	1985-1986
Joseph Fitzgerald	1986-1987
Scott Coleman	1986-1987
Bernard Hibbeln	1986-1988
Kristy Wedige	1986-1988
Aimee Kwiatkowski	1986-1989
Alex Shoemaker	1987
Laurie Hauerwas	1987
Kevin Brinner	1987
Scott Howard	1987
Frannie Roche	1987
Bruce Albrecht	1987
Leigh Zawel	1987
Cheryl Barrett	1987-1989
Jim Pfeifer	1987-1988

Leah Schultz	1987-1988
Julie Voss	1987
Joseph Fitzgerald	1987
Frank Waszinski	1987-1988
Mike Schomburg	1988
Bernard Hibbeln	1988
Jon Isom	1988
Rolf Donhowe	1988
Kathy Niesen	1988
Rhondi Christopherson	1988
Laurie Gehrke	1988-1989
Julie Klacan	1988-1989
Lisa Friess	1988-1989
Chris Fischer	1988-1990
Heidi Trimner	1988-1991
James Kulick	1989
Marilyn Goel	1989
Teresa Dale Pedersen	1989
Aimee Kwiatkowski	1989
Denise Sabel	1989-1990
Gloria Brandes-Kuptz	1989-1990
Christine D. Fischer	1989-1990
Kim Zinski	1989-1991
Cheryl Nortman	1989-1991
Joseph Brunner	1989-1991
Patrick Ford	1989-1991
Roger Fons	1989-1992
Timothy Tibbetts	1989-1991
Jill Dressler	1990-1991
Joy Free	1990
Jason Demeny	1990
Dan Mielke	1990-1991
Tim Harried	1990-1991
Kathy Edge	1990-1991
Linda Moore	1990-1991
Melissa Poulter	1990-1991
Chris Torhorst	1985 – 1989
Alison Scott	1993
Xiujuan Zhou	2015-2016
Magdalena Olszewska	2015

Member, University of Georgia Graduate Faculty, 1991-98; 1998-2005;, 2005-2012; 2012-2019.

Graduate Students

1. Mary B. Hugdahl, M.Sc. (Food Science, UW-Madison) 1986.
2. David J. Thomas, M.Sc. (Food Science, UW-Madison) 1988.

3. Jennifer L. Johnson, Ph.D. (Food Science and Meat and Animal Science, UW-Madison) 1989.
4. Ratih Dewanti, M.Sc. (Food Science, UW-Madison) 1990.
5. Anna M. Lammerding, Ph.D. (Food Science, UW-Madison) 1991.
6. Alan D. Junkins, Ph.D. (Bacteriology, UW-Madison) 1991.
7. Risini D. Weeratna, M.Sc. (Bacteriology, UW-Madison) 1991.
8. Nisha V. (Kulkarin) Padhye, Ph.D. (Food Science, UW-Madison) 1991.
9. Chorng-Meng Chang, Ph.D. (Food Science, UW-Madison) 1993.
10. Guodong Wang, Ph.D. (Food Science, UGA) 1996.
11. Mei Yang, M.Sc. (Food Science, UGA), 2002.
12. Michelle Danyluk, M.Sc. (Food Science, UGA), 2002.
13. Dong Chen, Ph.D. (Food Science, UGA), 2012.

Graduate Student Committees

	<u>Major Advisor</u>	<u>Committee Member</u>
Scott Russell - Ph.D.		X
Jitu Patel - Ph.D.		X
Guodong Wang - Ph.D.	X	
Lakshmi Sathyanarayanan- M.Sc.		X
Manan Sharma - M.Sc.		X
Yang Hong - Ph.D.		X
Mei Yang - M.Sc.	X	
Michelle Danyluk - M.Sc.	X	
Geraldine Miriam Saavedra Ebner - M.Sc.		X

Postdoctoral Associates

1. Ming-Tu Chang, 1981-1984
2. Dana Wiseman, 1983-1985
3. Vikas Padhye, 1984-1989
4. Sulekha Chaudhuri, 1985-1988
5. Mi Sun Kim, 1989-1991
6. Jianghong Meng, 1992-1996
7. C.-A. Hwang, 1992-1993
8. Shaohua Zhao, 1993-1996
9. Ping Zhao, 1993-
10. Kumara S. Venkitanarayanan, 1996-1999
11. Xiuping Jiang, 1996-2001
12. Fone Mao Wu (Collaborative Assignment with the Centers for Disease Control and Prevention), 1998- 2002
13. Mahbubul Islam, 1999-2003
14. Ying Mao, 1999-2001
15. Li Ma, 1999-2009
16. Chia Min Lin, 1999-2004
17. Guodong Zhang, 2000-2008
18. Kazue Takeuchi, 2000-2002
19. Nutan Mytle, 2001-2004

20. Larry Goodridge, 2002
21. Lei Zhang, 2003-2004
22. Zhinong Yan, 2003-2004
23. Cathy Webb, 2007-

Scientists

1. Pavlos Koidis, Aristotelian University of Tessaloniki, Greece, 1982-1983
2. John T. Beery, University of Wisconsin-Madison, 1983-1989
3. Nobumasa Tanaka, University of Wisconsin-Madison, 1983
4. Nancy Higley, 1984
5. Tong Zhao, Beijing Institute of Chest Tumour & Tuberculosis, China, 1987-2009
6. Jaana (Junttila) Husu, National Veterinary Institute, Helsinki, Finland, 1988
7. Gulum Rusul, University of Pertanian Malaysia, Serdang, Malaysia, 1993-94
8. Ricardo Rodriguez, Instituto Nacional de Tecnologia Agropecuaria, Buenos Aires, Argentine, 1998
9. Virginia Montero Campos, Instituto Tecnológico de Costa Rica, 2002
10. Anne-Laure Dinel, Institut des Sciences et techniques des Aliments de Bordeaux, Talence, France, 2003
11. Mohamed Hegazy, Zagazig University, Zagazig, Egypt, 2008-2009

INVITED SEMINARS and RESEARCH PRESENTATIONS

Invited seminar - Department of Food Science, University of Wisconsin-Madison, February 26, 1980.
Production of mushrooms for the fresh market.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 67th Annual Meeting, Spokane, WA, July 30, 1980. Campylobacteriosis and yersiniosis: Food-associated illnesses of recent concern.

Keynote lecture - Wisconsin Laboratory Association, Southern Regional Meeting, Madison, WI, September 4, 1980. Producing mushrooms for the fresh market.

Research paper - Wisconsin Section of the Institute of Food Technologists, Madison, WI, November 14, 1980. Antibotulinal properties of long-chain polyphosphates.

Invited paper - Institute of Food Technologists, 41st Annual Meeting, Atlanta, GA, June 9, 1981. Chemical, physical, and biological degradation of mycotoxins in foods and agricultural commodities.

Invited seminar - Department of Bacteriology, University of Wisconsin-Madison, February 18, 1982.
Serological relatedness of virulent Yersinia enterocolitica.

Invited paper - American Society for Microbiology, 82nd Annual Meeting, Atlanta, GA, March 10, 1982. Effects of environmental factors on the destruction of Campylobacter jejuni in food-related systems.

Invited seminar - Environmental Toxicology 875, University of Wisconsin-Madison, March 31, 1982. Virulence of Yersinia enterocolitica.

Invited paper - Wisconsin Association of Milk and Food Sanitarians Educational Conference, Madison, WI, September 2, 1982. Campylobacter - The "new" foodborne pathogen.

Invited paper - Central States Association of Food and Drug Officials Spring Meeting, Madison, WI, October 8, 1982. Campylobacter - The "new" foodborne pathogen.

Invited paper - United States-Japan Joint Panel on Toxic Microorganisms, University of Wisconsin-Madison, October 20, 1982. Recovery of Campylobacter jejuni from foods by selective enrichment.

Invited seminar - Department of Microbiology, Cornell University, October 28, 1982. Yersinia enterocolitica and Campylobacter jejuni: Two recently recognized food-associated pathogens.

Keynote speaker - Wisconsin Laboratory Association, University of Wisconsin-River Falls, December 8, 1982. Foodborne pathogens of emerging significance - An overview.

Invited seminar - Best Foods Research and Engineering Center, Research Update, Union, NJ, January 13, 1983. Foodborne bacterial pathogens of emerging significance.

Invited seminar - A.B.C. Research Corporation, 9th Annual Technical Seminar, Gainesville, FL, February 22, 1983. Pathogenic Escherichia coli.

Invited paper - Association of Official Analytical Chemists, 1983 Spring Workshop, Indianapolis, IN, April 20, 1983. Recovery of Campylobacter jejuni from foods.

Invited seminar - McDonald's Corporation, Quality Assurance Meat Suppliers Meeting, St. Charles, IL, April 26, 1983. Pathogenic Escherichia coli and their association with foods.

Invited lecture - College Week for Women, University of Wisconsin-Madison, June 2, 1983. Safety of mayonnaise in foods.

Invited paper - Institute of Food Technologists 1983 Short Course on Practical Food Safety Assurance, New Orleans, LA, June 22, 1983. Changing patterns in outbreaks of foodborne disease.

Invited paper - 1983 Summer Toxicology Forum, Aspen, CO, July 1, 1983. New bacterial agents - Nature, importance and regulatory status: Campylobacter jejuni and pathogenic Escherichia coli.

Invited paper - Minnesota Sanitarian's Conference, University of Minnesota, St. Paul, September 15, 1983. Significance of emerging pathogens in foods.

- Invited paper - Association of Official Analytical Chemists, 97th Annual Meeting, Washington, DC, October 4, 1983. Rapid enrichment and serological detection of virulent Yersinia enterocolitica in food.
- Invited paper - 9th Food Microbiology Research Conference, Chicago, IL, November 2, 1983. Recent developments in pathogens of current interest - Campylobacter jejuni.
- Invited paper - Annual Meeting of the Food and Nutrition Liaison Committee of the Nutrition Foundation, Naples, FL, January 19, 1984. Emerging microbiological issues.
- Invited paper and consultant - World Health Organization Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, Moscow, U.S.S.R., February 20-22, 1984. Rapid methods for detection of Campylobacter jejuni in food animals and food of animal origin.
- Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Hemorrhagic Escherichia coli - Studies in foods.
- Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Regulation and expression of surface peptides in Yersinia enterocolitica.
- Invited paper - National Restaurant Association's Quality Assurance Officers Meeting, Washington, DC, May 9, 1984. Newly recognized food-associated bacterial pathogens.
- Invited white papers - National Conference for Food Protection, Washington, DC, May 9-11, 1984. Campylobacter jejuni and pathogenic Escherichia coli.
- Invited paper - Institute of Food Technologists, 44th Annual Meeting, Anaheim, CA, June 11, 1984. Procedures for recovery of campylobacters from foods.
- Invited paper and workshop leader - Association of Official Analytical Chemists Pacific Northwest Regional Section Meeting, Olympia, WA, June 21-22, 1984. Campylobacter, Yersinia, and hemorrhagic Escherichia coli.
- Invited paper - International Association of Milk, Food, and Environmental Sanitarians, 71st Annual Meeting, Edmonton, Alberta, Canada, August 8, 1984. Hemorrhagic Escherichia coli.
- Invited paper - U.S.-China Renewable Resources Conference, Organized by National Academy of Sciences (USA), St. Louis, MO, October 11-13, 1984. Foodborne pathogens of recent concern in the United States.
- Invited paper - Kraft Limited, Cheese Technology Round Table meeting, Montreal, Quebec, Canada, October 18-19, 1984. New developments - Pathogens in raw milk: Listeria and Yersinia.
- Invited paper - Wisconsin Section of the Institute of Food Technologists, Pewaukee, WI, November 30, 1984. Newly recognized bacterial pathogens of significance to the food industry: Hemorrhagic Escherichia coli.
- Invited paper - U.S. Department of Agriculture - Food Safety and Inspection Service, Continuing Education Program, Madison, WI, December 8, 1984. Foodborne pathogens of enteric origin that contaminate carcasses and processed products from fecal contamination.

Invited paper - University of Missouri, Columbia, MO, Microbiological Applications in the Food Industry Conference, February 7, 1985. Foodborne pathogens of recent concern.

Invited white paper - National Live Stock and Meat Board, Chicago, IL, February 15, 1985. Microbiological safety concerns in handling and cooking red meat in the home.

Invited paper - American Society for Microbiology, Workshop on Campylobacters, Las Vegas, NV, March 2-3, 1985. Campylobacters in foods.

Invited paper - American Society for Microbiology, 85th Annual Meeting, Las Vegas, NV, March 5-8, 1985. Foodborne pathogens of recent concern: Colohemorrhagic Escherichia coli.

Invited paper - Association of Official Analytical Chemists, 10th Annual Spring Workshop, Dallas, TX, April 9-11, 1985. Microbiology of emerging foodborne pathogens: Yersinia enterocolitica - virulent or avirulent.

Invited paper - Institute of Food Technologists, Basic Symposium, Atlanta, GA, June 7-8, 1985. Microorganisms and their toxins - Developing methodology: Gram-negative pathogens.

Invited papers - Association of Food and Drug Officials, 1985 Conference and Workshop, Madison, WI, June 19, 1985. An update on foodborne pathogens, and advances in methodology in detection of foodborne pathogens.

Invited paper and session chairman - Third International Workshop on Campylobacter Infections, Ottawa, Ontario, July 7-10, 1985. Chemotactic behavior of Campylobacter jejuni.

Invited paper - National Association of State Meat and Food Inspection Directors and American Association of Food Hygiene Veterinarians, Milwaukee, WI, October 30-31, 1985. Pathogenicity of Campylobacter and colohemorrhagic Escherichia coli.

Invited paper - A.B.C. Research Corporation, 12th Annual Technical Seminar, Gainesville, FL, February 25-26, 1986. Listeria and Campylobacter in foods.

Invited paper - American Society for Microbiology, 86th Annual Meeting, Washington, DC, March 23-28, 1986. Campylobacter in foods - Colonization of animals.

Invited paper - General Foods Corporation, Quality Assurance Supervisors Meeting, Madison, WI, April 23, 1986. Foodborne pathogens of recent concern.

Invited seminar - Department of Food Science and Human Nutrition, Michigan State University, April 25, 1986. Newly recognized Escherichia coli responsible for hemorrhagic colitis.

Invited paper - Michigan Branch of the American Society for Microbiology, Spring Meeting, Livonia, MI, April 26, 1986. Foodborne pathogens of recent concern: Listeria monocytogenes and Escherichia coli O157:H7.

Invited paper - Chicago Section of the Institute of Food Technologists, 1986 Fred W. Tanner Lecture, Chicago, IL, May 12, 1986. Newly recognized harmful bacteria associated with foods.

Invited seminar - Department of Food Science, University of Illinois, May 13, 1986. Foodborne pathogens of emerging significance.

Invited paper - Universal Foods Corporation, Quality Assurance Directors Meeting, Baltimore, MD, May 21-22, 1986. Food-related microbiological problems of current interest.

Invited paper - 39th Reciprocal Meat Conference, University of Illinois, June 9, 1986. Emerging foodborne pathogens.

Invited paper - Canadian Institute of Food Science and Technology Microbiology Symposium, 29th Annual Conference, Calgary, Alberta, June 29-30, 1986. Status of haemorrhagic Escherichia coli and Listeria monocytogenes in foodborne illness.

Invited paper - Beatrice U.S. Food Corporation, Dairy Division Executives and Quality Assurance Directors Meeting, Chicago, IL, July 21, 1986. Recent concerns about Listeria monocytogenes.

Invited paper - American Society of Animal Science, 1986, Annual Meeting, Kansas State University, Manhattan, July 31, 1986. Meat-associated bacterial pathogens of recent concern.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 73rd Annual Meeting, Minneapolis, MN, August 6, 1986. Comparison of methods for detecting Listeria monocytogenes in foods.

Invited paper - Poultry Science Association, 75th Annual Meeting, North Carolina State University, Raleigh, August 7, 1986. Colonization of poultry by Campylobacter jejuni.

Invited paper - 1986 Conference for Food Protection, Microbiology Task Force, Ann Arbor, MI, August 17-20, 1986. Concerns about foodborne viral gastroenteritis and Listeria monocytogenes.

Invited presentation and topic leader - Dairy Research Foundation Research Review and Planning Meeting, Park City, VT, September 30-October 1, 1986. Listeria monocytogenes - Pasteurization.

Invited presentation - Wisconsin Dairy Leaders Program, University of Wisconsin, College of Agricultural and Life Sciences, Madison, WI, October 9, 1986. Listeria concerns and research.

Invited paper - Wisconsin Dairy Technology Society and Chicago Dairy Technology Society, Milwaukee, WI, October 9, 1986. Listeria and pasteurization.

Invited paper - Best Foods, Food and Nutrition Advisory Committee, Union, NJ, October 10, 1986. Food microbiology update.

Invited paper - Land O'Lakes Plant Supervisors' Good Manufacturing Practices Seminars, Minneapolis, MN, October 15 and 29, 1986. Foodborne bacterial pathogens.

Invited paper - Chocolate Manufacturers Association, Pennsylvania State University, State College, PA, October 16, 1986. Overview and update of Listeria monocytogenes.

Invited paper - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Listeria monocytogenes.

Keynote address - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Looking forward: microbiological issues in food safety.

Invited paper - Iowa Section of the Institute of Food Technologists, Cedar Rapids, IA, November 20, 1986. Listeria monocytogenes - A pathogen of recent concern.

Invited white paper - American Meat Institute, Washington, DC, December, 1986. Recent concerns about Listeria monocytogenes in food.

Invited paper - Wisconsin Dairy Products Association, Madison, WI, December 4, 1986. Raw facts about Listeria.

Invited paper - International Life Sciences Institute-Nutrition Foundation, Naples, FL, January 28, 1987. Microbiological issues in food safety: what lies ahead.

Invited paper - Dairy and Food Industry Conference, Ohio State University, Columbus, OH, February 12, 1987. Newer knowledge of Listeria.

Invited paper - University of Alberta, Department of Food Science, Edmonton, Alberta, Canada, February 16, 1987. Listeria monocytogenes- A foodborne pathogen of recent concern.

Invited paper - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, Atlanta, GA, March 1, 1987. Survival of L. monocytogenes in foods and sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - American Society for Microbiology, 87th Annual Meeting, Atlanta, GA, March 1-6, 1987. Current topics on foodborne pathogens: Listeria monocytogenes.

Invited paper - Emerging Pathogen Workshop, Tony's Pizza Service, Salina, KS, March 12, 1987. Emerging pathogens.

Invited paper - GENE TRAK Systems, Framingham, MA, March 17, 1987. The emergence of Listeria monocytogenes as a foodborne pathogen.

Invited paper - Cheese Research and Technology Conference, University of Wisconsin, Madison, WI, March 26, 1987. Survival and detection of Listeria monocytogenes.

Invited white paper - Kraft Incorporated, Glenview, IL, April, 1987. Listeria monocytogenes.

Invited paper - Finnish Food Research Foundation, Seminar on Pathogenic Microorganisms in Foods, Helsinki, Finland, April 24, 1987. Listeria monocytogenes - Epidemiology, prevalence in foods, and control by food processing.

Invited moderator and panelist - Grocery Manufacturers' of America, Panel Discussion on Emerging Microbiological Issues, Washington, DC, May 7, 1987.

Invited lectures - University of Wisconsin - Department of Food Science, Wisconsin Food Microbiological Control School (for Food and Drug Administration Inspectors), Madison, WI, May 12, 1987. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, and Shigella.

Invited paper - Central Atlantic States Association of Food and Drug Officials Annual Conference, Baltimore, MD, May 21, 1987. Listeria - Another viewpoint.

Invited lecture - East Madison Optimist Club, Monona, WI, June 10, 1987. Food poisoning in the United States.

Invited paper - Institute of Food Technologists, 87th Annual Meeting, Las Vegas, NV, June 18, 1987. Survival characteristics of Listeria monocytogenes during processing.

Invited paper - American Dairy Science Association, 82nd Annual Meeting, Columbia, MO, June 22, 1987. Symposium: Problems of pathogenic bacteria in the dairy industry. Detection, isolation, and identification of Listeria monocytogenes, Campylobacter jejuni, and Yersinia enterocolitica.

Invited paper - Association of Official Analytical Chemists, Pacific Northwest Regional Meeting, Olympia, WA, June 26, 1987. Listeria in dairy and other products.

Invited session convener and paper - International Symposium and Workshop on Verocytotoxin-Producing Escherichia coli (VTEC) Infections, Toronto, Ontario, Canada, July 13, 1987. Isolation of Escherichia coli O157:H7 from retail fresh meats and poultry.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 74th Annual Meeting, Anaheim, CA, August 5, 1987. Symposium: Listeria and emerging food pathogens. Update on emerging pathogens in foods.

Invited paper - Meat Industry Research Conference, American Meat Industry, Chicago, IL, October 7, 1987. Low temperature pathogens.

Invited paper - Great Lakes Section of the Institute of Food Technologists Workshop on "Current Challenges in Food Safety," Lansing, MI, October 15, 1987. From Campylobacter to Listeria - The emergence of newly recognized pathogens.

Invited paper - Chapter 15 Food Service Executive Board Meeting, Madison, WI, October 19, 1987. Food poisoning, food sanitation, and proper food handling.

Invited white paper - Kraft Incorporated, Glenview, IL, October, 1987. Campylobacter jejuni.

Invited paper - Food Microbiology Research Conference, Chicago, IL, November 4, 1987. Hemorrhagic Escherichia coli.

Invited paper - Lake Erie Section of the Institute of Food Technologists, Cleveland, OH, November 10, 1987. The emergence of newly recognized foodborne pathogens.

Invited paper - Ohio Dairy Processors meeting, Dairy & Nutrition Council (Mid East), Akron, OH, November 11, 1987. Listeria monocytogenes: A major concern of the dairy industry.

Invited papers - Workshops in Clinical Lab Sciences, St. Luke's Hospital Center, New York, NY, November 20, 1987. (1) An overview of foodborne disease; and (2) Listeria monocytogenes - a foodborne pathogen of recent concern.

Invited papers - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, San Diego, CA, December 4, 1987. (1) Survival and growth of Listeria monocytogenes in foods and (2) Sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Workshop on Listeria Methodologies, Washington, DC, February 5, 1988. Efficacy of enrichment procedures for detecting Listeria monocytogenes in dairy products.

Invited paper - World Health Organization, Working Group Meeting on Foodborne Listeriosis, Geneva, Switzerland, February 15-19, 1988. Thermal inactivation of Listeria monocytogenes in foods.

Invited paper - Ohio Valley Section of the Institute of Food Technologists, Cincinnati, OH, March 10, 1988. From Campylobacter to Listeria - Recent concerns about foodborne pathogens.

Invited lecture - Kroger Company, Cincinnati, OH, March 11, 1988. Update on Listeria monocytogenes and Escherichia coli O157:H7.

Invited lecture - American Frozen Food Institute, March 16, 1988. Is Listeria monocytogenes a concern in frozen foods?

Invited lectures - University of Wisconsin-Department of Food Science, Wisconsin Food Microbiological Control School for Food and Drug Administration Inspectors, Madison, WI, April 20, 1988. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, Shigella.

Invited seminar - University of Arizona-Department of Family and Community Medicine, Graduate Seminar on Nutritional Sciences, April 22, 1988. The emergence of newly recognized foodborne pathogens.

Invited paper - American Society for Microbiology, Workshop on Salmonella spp. and Campylobacter jejuni Associated with Foods, Miami Beach, FL, May 7-8, 1988. Isolation, identification and inactivation of Campylobacter jejuni.

Invited paper - American Society for Microbiology, 88th Annual Meeting, Miami Beach, FL, May 10, 1988. Natural and experimental transmission of Listeria in cattle.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 75th Annual Meeting, Tampa, FL, August 3, 1988. Escherichia coli O157:H7--A problem in dairy products?

Invited lecture - Ohio State University, Department of Food Science, Columbus, OH, August 18, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Agriculture Canada, Animal Diseases Research Institute, Ottawa, Ontario, September 13, 1988. Virulence factors of Escherichia coli O157:H7 and method for its detection in foods.

Invited lecture - Wisconsin Laboratory Association, 12th Annual Educational Conference, September 15, 1988. Listeria update.

Invited lecture - Society for Industrial Microbiology, Comprehensive Conference on Listeria monocytogenes, Sonoma County, California, October 5, 1988. Stability of Listeria monocytogenes to non-thermal processing conditions.

Invited lecture - Sara Lee Corporation Meats Group Scientific Advisory Council, Holland, Michigan, October 11, 1988. Activities of the Food Research Institute.

Invited lecture - Central New York Section of the Institute of Food Technologists, Syracuse, NY, November 8, 1988. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - NutraSweet Company, Mt. Prospect, IL, November 21, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - University of Wisconsin-River Falls, Ninth Annual Food Microbiology Symposium, December 1, 1988. Significance, isolation, and characterization of Escherichia coli O157:H7.

Invited lectures - University of Wisconsin - Department of Food Science, Milk Pasteurization and Process Control School, Madison, WI, January 3, 1989. Microbiology of raw and pasteurized milk.

Invited lecture - Rocky Mountain Section of the Institute of Food Technologists, Denver, CO, February 16, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - Miles, Inc., Elkhart, IN, April 7, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - North Carolina State University - Department of Food Science, Raleigh, NC, May 3, 1989. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Carolina/Virginia Section of the Institute of Food Technologists, Charlotte, NC, May 4, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - GENE-TRAK Workshop, Los Angeles, CA, June 1, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - Institute of Food Technologists, 50th Annual Meeting, Chicago, IL, June 28, 1989. Bacterial foodborne pathogens of recent concern.

Invited lecture - State of Wisconsin, Regional Office - State Agency Training Conference, Madison, WI, July 12, 1989. Microbe menaces in food service.

Invited paper - American Dairy Science Association and American Society of Animal Science, Annual Meeting, Lexington, KY, August 1, 1989. Pathogens and spoilage bacteria of importance in new milk and meat products.

Invited white paper - American Meat Institute, Arlington, VA, September 6, 1989. Microbiological considerations in meat safety.

Invited participant and speaker - U.S. Department of Agriculture-ARS, Workshop on Colonization and Control of Human Enteropathogens in Poultry, Athens, GA, September 25-26, 1989. Colonization of chicks by Campylobacter jejuni.

Invited paper - International Symposium on Colonization Control of Human Enteropathogens in Poultry, Atlanta GA, September 29, 1989. Colonization of chicks by Campylobacter jejuni.

Invited lecture - American Society for Horticultural Science, Second International Symposium on Horticulture and Human Health, Washington, DC, November 3, 1989. Fruit and vegetable safety--Microbiological considerations.

Invited papers - Finnish Veterinary Association, Annual Meeting, Helsinki, Finland, November 17, 1989. Ovarian transmission of Salmonella enteritidis in eggs and foodborne disease consequences; Escherichia coli O157:H7 - a newly recognized cause of hemorrhagic colitis and hemolytic uremic syndrome; Outbreaks of foodborne listeriosis: causes and prevention; Microbiological issues in food safety - present and future.

Invited paper - Sara Lee Meats Group, Product Safety Operations Workshop, Cincinnati, OH, December 12, 1989. Microbiological risks associated with meats.

Invited lecture - Bonneville Section of the Institute of Food Technologists, Salt Lake City, UT, March 6, 1990. The emergence of newly recognized foodborne pathogens.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Washington, DC, March 20, 1990. Virulence of Listeria monocytogenes in a pregnant mouse model.

Invited lecture - Oregon State University - 1990 James M. Craig Memorial Lecture in Applied and Environmental Microbiology, Corvallis, OR, April 3, 1990. Issues in food safety in the 1990's.

Invited lecture - Oregon State University - Department of Microbiology, Corvallis, OR, April 4, 1990. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture and session chairman - International Conference on Issues in Food Safety and Toxicology, Michigan State University, East Lansing, MI, May 29-June 1, 1990. Microbiological issues in food safety: Looking forward.

Invited lecture - Institute of Food Technologists, 51st Annual Meeting, Anaheim, CA, June 19, 1990. Guidelines for inoculated pack studies to control Clostridium botulinum in new generation refrigerated foods.

Invited lecture - University of Guelph and Caravelle Foods, E. coli O157:H7 Round Table, Guelph, Ontario, Canada, June 26, 1990. Detection of Escherichia coli O157:H7 in foods.

Invited keynote lecture - Society for Industrial Microbiology, 1990 Annual Meeting, Orlando, FL, July 30, 1990. Escherichia coli O157:H7--A foodborne pathogen with severe consequences.

Invited lecture - Food Micro 90, 14th International Symposium of the International Committee on Food Microbiology and Hygiene, International Union of Microbiological Sciences, Bolkesjo, Telemark, Norway, August 18, 1990. Escherichia coli O157:H7 and its significance in foods.

Invited lecture - Milk, Microbes & Marth, E. H. Marth Symposium, University of Wisconsin, Madison, WI, September 11, 1990. Virulence of Listeria monocytogenes.

Invited lecture - Dominican Institute of Industrial Technology, and International Commission on Microbiological Specifications for Foods, Playa Dorada, Dominican Republic, October 18, 1990. Foodborne diseases of contemporary importance.

Invited lecture - Food Emporium (Dairy Council of Michigan, Michigan Beef Council, Michigan Apple Growers Commission, and Michigan Department of Agriculture), Livonia, MI, November 1, 1990. Food safety in perspective.

Invited lecture - Conference of Research Workers in Animal Diseases (sponsored by American College of Veterinary Microbiologists and American Association of Veterinary Immunologists), Chicago, IL, November 4, 1990. Listeria monocytogenes and Enterohemorrhagic Escherichia coli: Foodborne pathogens of recent concern.

Invited lecture - Wisconsin Dairy Technology Society, Waukesha, WI, January 8, 1991. Pathogens of recent concern to the dairy industry.

Invited lecture - Midwest Poultry Federation Convention, Minneapolis, MN, February 21, 1991. Update on pathogens of concern in cooked poultry.

Invited chairperson/discussion leader - National Institute of Health Symposium on Campylobacter jejuni, Pacific Grove, CA, March 10-13, 1991. Animal reservoirs and antimicrobial resistance of Campylobacter jejuni.

Invited lecture - Health and Welfare Canada, Workshop on Methods for Isolating Escherichia coli O157:H7 from Foods, Ottawa, Ontario, March 18-19, 1991. ELISA procedure for Escherichia coli O157:H7 detection.

Invited participant - Press conference and book release event, Washington, DC, April 9, 1991. Agricultural biotechnology: Issues and choices.

Invited lecture - Food Microbiology 1991, National Food Processors Association, Arlington, VA, April 16, 1991. Virulence of Listeria monocytogenes in a pregnant animal model.

Invited lecture - American Society for Microbiology, Workshop on Significant Foodborne Pathogens: Approaches for Detection and Control, Dallas, TX, May 5, 1991. Detection and control of pathogenic Escherichia coli in foods.

Invited lecture - Food Research Institute Annual Meeting, University of Wisconsin, Madison, WI, May 22, 1991. Rapid method for detecting E. coli O157:H7 in foods.

Invited lecture - International Conference on Listeria and Food Safety, Laval, France, June 13-14, 1991. Behavior of Listeria monocytogenes in meat products.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Listeria monocytogenes: are they all virulent?

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Escherichia coli: a foodborne pathogen with severe consequences.

Invited lecture - Georgia Poultry Federation, Ponte Vedra Beach, FL, August 1-4, 1991. Microbiological concerns associated with poultry.

Invited lectures - American Meat Institute, Food Processors Institute Workshop on "Developing a HACCP Plan for Meat and Poultry Packing and Processing, Athens, GA, September 16-18, 1991. Food Safety & HACCP, and Microbiological risks associated with meats.

Invited lecture - 8th World Congress on Food Science and Technology, Toronto, Ontario, September 30 - October 4, 1991. The emergence of new agents of foodborne disease in the 1980's.

Invited lecture - Seventh Australian Food Microbiology Conference, Sydney, Australia, October 14-16, 1991. Concerns about pathogens in sous vide foods.

Invited lecture - Asociacion para la Ciencia y la Tecnologia de Alimentos de Puerto Rico, San Juan, Puerto Rico, October 19, 1991. Microbiological issues in food safety.

Invited lecture - Centers for Disease Control Foodborne and Waterborne Disease Prevention Working Group, Atlanta, GA, October 22, 1991. Update on new findings on Escherichia coli O157:H7 and Campylobacter jejuni.

Keynote lecture - Dixie Section, Institute of Food Technologists, Clemson, SC, November 4, 1991. Microbiological issues in food safety in the nineties.

Keynote lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Microbiological issues in food safety in the 1990's.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Reduction of Campylobacter jejuni colonization of chicks by cecal-colonizing bacteria producing anti-Campylobacter metabolites.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 9, 1991. Survival and growth characteristics of Escherichia coli O157:H7 in modified atmosphere-packaged beef and in fermented sausage.

Invited lecture - Food Safety in the 1990's for the McDonald's System Workshop, McDonald's Corporation, Oak Brook, IL, November 25-26, 1991. Bacterial pathogens in foods.

Invited seminar, University of Georgia - Department of Poultry Science, Athens, GA, December 3, 1991. A practical approach to reducing Campylobacter in poultry.

Invited lecture, Oscar Mayer Foods Corporation Research Department, Madison, WI, December 9, 1991. Overview of the Food Safety and Quality Enhancement Laboratory research program.

Invited seminar, University of Georgia - Georgia Experiment Station, Griffin, GA, January 16, 1992. Development of a rapid method for detecting enterohemorrhagic E. coli O157:H7 in foods.

Invited seminar, University of Georgia - Poultry Disease Research Center (College of Veterinary Medicine), Athens, GA, March 2, 1992. A practical approach to reducing Campylobacter in poultry.

Invited lecture, American Society for Microbiology Foundation Lecture - North California Branch of ASM, University of California, Davis Medical Center, Sacramento, CA, April 11, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, University of Hawaii, Department of Microbiology, Honolulu, April 24, 1992. What's the concern about foodborne pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Hawaii Branch of ASM, University of Hawaii, Honolulu, April 25, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, Florida Association of Milk, Food and Environmental Sanitarians, Orlando, FL, May 11, 1992. IAMFES—Leading the way in food safety.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. Water-related illnesses caused by enteric pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. A practical approach to reducing carriage of Campylobacter jejuni by poultry.

Invited lecture, University of Georgia Cooperative Extension Service, Farm City Week, Macon, GA, August 25, 1992. New food processing technologies.

Invited paper, Hungarian Meat Research Institute, Conference on HACCP and Food Microbiology, Budapest, Hungary, October 12, 1992. Food-borne pathogens of contemporary importance, with particular reference to Listeria monocytogenes.

Invited paper - American Meat Institute, Meat and Poultry Industry Briefing on Controlling E. coli O157:H7, Chicago, IL, February 23, 1993. Foodborne outbreaks of E. coli O157:H7.

Invited testimony - U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department Operations and Nutrition (Congressmen Stenholm and Volkmer, Co-Chairmen), Washington, DC, March 16, 1993. Meat and poultry inspection: The scientific basis of the nation's program. (Represented the National Academy of Sciences - Institute of Medicine Food and Nutrition Board). Serial No. 103-5, U. S. Government Printing Office, Washington, DC.

Invited lecture - National Live Stock and Meat Board Food Safety Roundtable II, Oak Brook, IL, March 18, 1993. Intervention technology for E. coli O157:H7.

Invited lecture - University of Georgia, Department of Food Science Student Awards Banquet, Athens, GA, April 7, 1993. What's the concern about food safety?

Invited lecture - U. S. Department of Agriculture, FSIS and ARS, Athens, GA, April 15, 1993. Enterohemorrhagic Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - University of California-Davis, Peter J. Shields Chair Lecture, Davis, CA, April 21, 1993. Escherichia coli O157:H7 - An emerging problem for milk producers.

Invited lecture - Golden State Foods, GSF Management Meeting, Chicago, IL, April 23, 1993. HACCP in the meat industry.

Invited paper - Westreco, Inc., 7th Nestlé R&D Microbiologists Conference, New Milford, CT, April 27, 1993. Food Safety - Intrinsic factors.

Divisional Lecture - American Society for Microbiology, Food Microbiology Division, Atlanta, GA, May 18, 1993. The elusive nature of enterohemorrhagic Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Iowa State University, School of Veterinary Medicine, Department of Microbiology and U.S. Department of Agriculture, National Animal Disease Center, Ames, IA, June 10, 1993. The significance of Escherichia coli O157:H7 as a meatborne pathogen.

Invited lecture - University of Florida, Department of Food Science and Nutrition, Gainesville, FL, June 15, 1993. Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - Southeastern Meat Association, 1993 Annual Convention, Ponte Vedra Beach, FL, June 18, 1993. Escherichia coli O157:H7 update - control procedures.

Invited lecture - American Meat Science Association, 46th Annual Reciprocal Meat Conference, Lincoln, NE, June 23, 1993. The microbiology of E. coli O157:H7 as a foodborne pathogen.

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, St. Joseph's Medical Center, Burbank, CA, June 24, 1993. What's the significance of foodborne pathogens?

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, San Diego, CA, June 25, 1993. From Campylobacter to Salmonella enteritidis: Foodborne pathogens of recent concern.

Invited presentation - Georgia Poultry Processors Association, Atlanta, GA, July 6, 1993. Future issues with the microbiological safety of poultry and the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, E. coli O157:H7 - The organism and its role in foodborne outbreaks.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, Microbiological issues in the dairy industry: Looking ahead.

Invited presentation - Joint Council on Food and Agricultural Sciences, Washington, DC, September 30, 1993. Reducing foodborne disease - What are the priorities?

Invited keynote lecture - Dairy Research Foundation Symposium-Conquering Listeria, Chicago, IL, October 4, 1993, Listeria overview: Is zero tolerance warranted?

Invited lecture - American Meat Institute and American Meat Science Association 1993 Meat Industry Research Conference, Chicago, IL, October 5, 1993. Food safety: Understanding and preventing E. coli O157:H7.

Invited lecture - Nederlandse Vereniging Voor Microbiologie and EFFI, Food Microbiology Highlights from an International Perspective, Wageningen, The Netherlands, October 14, 1993, E. coli O157:H7 - The present situation.

Invited presentation/panelist - Food Preservation 2000, Natick, Massachusetts, October 21, 1993. Safeguarding the food supply: Cost and benefit.

Invited presentation/panelist - The Purchasing Conference for Chain Restaurant Executives, Orlando, FL, November 3, 1993. Protecting your food supply - Purchasing for food safety.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 5, 1993. The emergency of enterohemorrhagic Escherichia coli O157:H7 as the foodborne pathogen of the 1990's.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 6, 1993. Fate of enterohemorrhagic Escherichia coli O157:H7 in apple cider with and without preservatives.

Invited lecture - Ceres Forum - American Association for the Advancement of Science Workshop, Eating and Health: What Do We Know? Georgetown University, Washington, DC, November 13, 1993.

Microbiological contamination: How safe is our food?

Invited lecture - First National Workshop for Food Science Administrators, Washington, DC, November 19, 1993. The role of Food Science in international programs.

Invited lecture/panelist - National Live Stock and Meat Board Blue Ribbon Task Force Meeting, Atlanta, GA, November 29, 1993. Use of Competitive exclusion to reduce colonization of pathogens in livestock.

Invited lecture - Institute of Medicine Food Forum, Washington, DC, December 8, 1993. Difficult issues in implementing HACCP.

Invited lecture - Arby's Beef Summit and Food Safety Conference, Ft. Lauderdale, FL, December 9, 1993. USDA guidelines for zero tolerance on raw material pathogens and meat industries ability to respond.

Invited lecture, University of Georgia, Department of Biological and Agricultural Engineering, Athens, January 19, 1994. Engineering opportunities in food safety and quality enhancement.

Invited testimony, U. S. Senate Committee on Agriculture, Nutrition and Forestry, Subcommittee on Agricultural Research, Conservation, Forestry and General Legislation, Washington, DC, February 10, 1994. Progress of the Federal Meat Inspection Program. (Requested by Senator Tom Daschle).

Invited lecture - G. Malcolm Trout Visiting Scholar Lectureship, Department of Food Science and Human Nutrition, Michigan State University, E. Lansing, MI, February 16, 1994. On the trail of Escherichia coli O157:H7, the foodborne pathogen of the decade.

Invited lecture - HACCP, an Integrated Approach to Assuring the Microbiological Safety of Meat and Poultry, U. S. Department of Agriculture and Ireland Department of Agriculture, Dublin, Ireland, March 23, 1994. Use of vaccines and biological control techniques to control pathogens in animals used for foods.

Invited lecture - Carolina Association of Milk, Food and Environmental Sanitarians, Greenville, SC, April 13, 1994. E. coli O157:H7-Concerns for safe foods.

Invited lecture, University of Georgia, Department of Animal and Dairy Science, Athens, May 17, 1994. E. coli O157:H7-Meatborne pathogen of the 90's.

Invited lecture - Food Safety '94, 3rd International ASEPT Conference, Laval, France, June 2, 1994. Detection and control of E. coli O157:H7 in foods.

Invited lecture - Special Libraries Association's Annual Conference, Atlanta, GA, June 14, 1994. Food safety: Research and prevention.

Invited moderator - VTEC '94, Verocytotoxin-Producing Escherichia coli Infections, Bergamo, Italy, June 28, 1994. Public Health; Epidemiology; Food Safety; Laboratory Diagnosis.

Keynote speaker - 14th International Workshop on Rapid Methods and Automation in Microbiology, Kansas State University, Manhattan, KS, July 8, 1994. Rapid methods for the detection of Escherichia coli O157:H7.

Invited lecture - The Toxicology Forum (1994 Annual Summer Meeting), Aspen, CO, July 11, 1994. Infectious disease: New and forgotten risks--E. coli O157:H7.

Invited lecture - International Life Sciences Institute, Second Asian Conference on Food Safety, Bangkok, Thailand, September 23, 1994. Emerging pathogens and rapid detection methods: E. coli, Listeria, Salmonella and Vibrio cholerae.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 13, 1994. Microbiological issues in food safety.

Invited lecture - Borden, Inc., Science and Technology Group Meeting, Columbus, OH, July 25, 1994. Emerging food safety issues.

Invited lecture - USDA-Animal and Plant Health Inspection Service, Preharvest Food Safety Workshop, Morrow, GA, August 30, 1994. Opportunities for USDA-APHIS and academia collaborative research to enhance preharvest food safety.

Invited lecture - National Association of Fresh Produce Processors, Fresh Cut Produce Packaging Seminar, Griffin, GA, September 13, 1994. Safety issues for fresh-cut produce.

Invited lecture - Griffin Rotary Club, Griffin, GA, October 20, 1994. Microbiological issues in foods safety.

Invited lecture - American Meat Institute Briefing on USDA's Monitoring Program for E. coli O157:H7 in Raw Ground Beef, Chicago, IL, November 2, 1994. Recent developments in microbiological testing procedures for E. coli O157:H7.

Invited lecture - Ministerio de Sanidad Y Consumo and International Commission on Microbiological Specifications for Foods, Universidad de Leon, Leon, Spain, November 11, 1994. Patógenos emergentes--E. coli O157:H7.

Invited lecture - Kraft General Foods-North American Scientific Relations Committee, Columbia, SC, November 30, 1994. Microbiological food safety concerns and research addressing them at the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - American Meat Institute Foundation, Briefing on “*E. coli* O157:H7 in Dry Fermented Sausage,” Chicago, IL, February 23, 1995. Review of recent research on *E. coli* O157:H7 in dry fermented sausage.

Invited lecture - Illinois Institute of Technology, The National Center for Food Safety and Technology, Chicago, IL, March 15, 1995. Acid tolerance of enterohemorrhagic *E. coli* O157:H7.

Invited lecture - Griffin Exchange Club, Griffin, GA, March 28, 1995. The microbiological safety of foods.

Invited lecture - Georgia Dairy Products Association, Annual Meeting, Athens, GA, April 3, 1995. Foodborne pathogens.

Invited lecture - National Food Processors Association, Food Micro '95, Arlington, VA, April 5, 1995. *E. coli* O157 - The organism, the disease and control.

Invited lecture - Georgia Poultry Federation, Poultry Leaders Round Table, Young Harris, GA, April 7, 1995. An update on pathogen reduction efforts for poultry.

Invited lectures - Golden State Foods, HACCP Workshop, City of Industry, CA, April 20, 1995. Foodborne pathogens.

Invited lecture - Philip Morris Microbiology Workshop, Richmond, VA, May 10-11, 1995. *Escherichia coli* O157:H7 - Changing the rule book of food microbiologists.

Invited lecture - Mid-Georgia Cattleman's Association, Gordon College, Barnesville, GA, May 11, 1995. Meat safety: What the future holds.

Invited lecture - Southeastern Poultry & Egg Association, Poultry Processor Workshop, Atlanta, GA, May 18, 1995. Available pathogen intervention methods.

Invited lectures - Golden State Foods, HACCP Workshop, Conyers, GA, May 31, 1995. Foodborne pathogens.

Invited paper - Institute of Food Technologists, 56th Annual Meeting, Anaheim, CA, June 5, 1995. Cooked muscle foods: Determinants of quality and safety.

Invited lecture - County of San Diego, Department of Environmental Health, San Diego, CA, June 8, 1995. Significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited paper and co-convenor - International Food Safety Conference, *Listeria* - The state of the science, Rome, Italy, June 29-30, 1995. Regulatory tolerances for *Listeria monocytogenes* in foods.

Invited co-convenor - International Life Sciences Institute-NA (IAMFES Annual Meeting), Pittsburgh, PA, August 1, 1995, Symposium on Emerging Issues in Microbiological Food Safety.

Invited paper - International Life Sciences Institute North America Technical Committee on Food Microbiology, Symposium on Issues and Answers in Food Microbiology and Safety: Today, Tomorrow and Beyond, IAMFES Annual Meeting, Pittsburgh, PA, August 2, 1995, A reduced time procedure for detecting heat-injured *Listeria monocytogenes* in foods.

Invited respondent, 41st Annual International Congress of Meat Science and Technology, San Antonio, TX, August 21, 1995, Pathogen reduction.

Invited lecture - U. S. Chamber of Commerce, Food and Agriculture Committee, Atlanta, GA, October 11, 1995, New developments in food safety.

Invited lecture - MAPack '95, The Leading Edge Conference on Modified Atmosphere Packaging, Anaheim, CA, October 20, 1995, The impact of modified atmosphere packaging (including vacuum packaging) on the growth of refrigerated food pathogens.

Invited lecture - Gerber Products Company, Fremont, MI, November 3, 1995, Emerging issues in the microbiological safety of foods.

Invited lecture - Kansas State University, Food Safety Forum and Food Science Seminar Series, Manhattan, KS, November 17, 1995, Approaches to controlling *Escherichia coli* O157:H7.

Invited presentation - Marietta Rotary Club, Marietta, GA, March 15, 1996. Food safety in the news.

Invited paper - Alabama Association of Milk, Food and Environmental Sanitarians, Annual Meeting, Birmingham, AL, November 13, 1996. Fecal coliforms in iced tea: What's the problem?

Invited paper - National Food Processors Association, Annual Meeting, San Francisco, CA, October 11, 1996. Enterohemorrhagic *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - Southeastern Food Processors Association, Annual Meeting, Pine Mountain, GA, November 15, 1996. The University of Georgia's Center for Food Safety and Quality Enhancement.

Invited lecture - Society for Manufacturing Engineers, Fundamentals of Modified Atmosphere Packaging Short Course, Atlanta, GA, April 23-24, 1996. Microbiology of prepared foods.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Oakwood, GA, May 8, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Macon, GA, May 9, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited presentation - Georgia Poultry Federation Summer Meeting, Ponte Vedra, FL, August 8-10, 1996. Activities of the UGA Center for Food Safety and Quality Enhancement and Food Process Research and Development Laboratory.

Invited paper and symposium convenor - International Association of Milk, Food and Environmental Sanitarians Annual Meeting, Seattle, WA, June 30 - July 3, 1996. Fecal coliforms in tea: What's the problem? (Symposium - Tempest in a Teapot).

Invited lecture - Georgia Board of Registered Environmental Health Professionals Annual Meeting, Macon, GA, February 23, 1996. Tempest in the tea pot: Fecal coliforms in iced tea.

Invited lectures - The Association for Dressings & Sauces Microbiological Seminar, Chicago, IL, February 11, 1996. New and Emerging Pathogens: *E. coli* O157:H7 and *Campylobacter*.

Invited paper - Michigan State University National Food Safety and Toxicology Center, Food Safety in North America - Regulatory and Scientific Issues, East Lansing, MI, March 17-19, 1996. Rapid testing methods and their role in food safety.

Invited presentation - Georgia Dairy, Food and Beverage Association, Atlanta, GA, October 15, 1996. Media coverage of fecal coliforms in iced tea.

Invited presentation - Atlanta Farmers' Club, Atlanta, GA, September 18, 1996. Georgia's Food Processing Industry.

Invited lecture - Grocery Manufacturers of America, Technical Regulatory Affairs Committee, Long-Range Planning Meeting, Palm Beach Gardens, FL, February 13, 1997. The policy perspectives of food safety issues.

Invited lectures - Chiquita Brands, Cincinnati, OH, February 19-20, 1997, HACCP and food safety.

Invited lecture - Georgia Blueberry Producers, Baxley, GA, March 12, 1997. *E. coli* and its role in foodborne disease.

Invited lectures - Georgia Environmental Health Association, Environmental Health Education Conference, Athens, GA, March 18, 1997. Microbiological reasons for potentially hazardous foods being held at less than or equal to 41°F.

Invited Keynote speaker - Animal Disease Research Workers in Southern States, Southern Conference on Animal Parasites and Southern Conference of Researchers in Aquatic Diseases, Athens, GA, March 25, 1997. *Escherichia coli* O157:H7 and food safety.

Invited seminar - University of Minnesota, Department of Food Science and Nutrition, St. Paul, MN, April 28, 1997. A new age of microbiological food safety issues: Dilemmas facing the food industry.

Invited lecture - The Refrigeration Research and Education Foundation and the International Association of Refrigerated Warehouses, Annual Convention, Barcelona, Spain, May 10-15, 1997. Significance of the world-wide spread of illness from *Escherichia coli* O157:H7: Precautions for the refrigerated chain.

Invited keynote lecture - Second Nestlé Market Microbiologist's Workshop, Lausanne, Switzerland, June 2, 1997. Food microbiology in the year 2000.

Invited lecture - Institute of Food Technologists, Orlando, FL, June 16, 1997. *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - International Life Sciences Institute-North America, Symposium Series on "Science-Based Approaches for Protecting Our Global Food Supply," Orlando, FL, July 9, 1997. The emergence of a microbial foodborne pathogen.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 16, 1997. How the University of Georgia Center for Food Safety and Quality Enhancement is an integral part of the economic development of the State of Georgia.

Invited lecture - Philip Morris Management Group, Quality Core Team Meeting, Milwaukee, WI, July 18, 1997. Emerging food safety issues.

Invited lecture - Hershey Foods, Hershey, PA, July 25, 1997. Research programs of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited paper - The Refrigerated Research and Education Foundation and the International Association of Refrigerated Warehouses, Assembly of Committees, Washington, DC, August 4, 1997. An overview of microbiological food safety issues for the public refrigerated distribution industry.

Invited paper - Poultry Science Association 86th Annual Meeting, PSA '97 Symposium on "Food Safety: A Consumers' Perspective," Athens, GA, August 6, 1997. Food safety in the news: An issue taken out of perspective.

Invited "cutting edge" speaker - American Association of Wildlife Veterinarians, 47th Annual Wildlife Disease Association Conference, St. Petersburg, FL, August 11, 1997. Enterohemorrhagic *Escherichia coli* O157:H7: A growing public health problem.

Invited lectures - Air Liquide, Griffin, GA, August 21, 1997. HACCP and food safety.

Invited interview - National Public Radio, "The Talk of the Nation - Science Friday," New York, August 29, 1997. Food safety.

Invited lecture - Griffin Rotary, Griffin, GA, September 25, 1997. The involvement of the University of Georgia Center for Food Safety and Quality Enhancement in economic development of the State of Georgia.

Invited lecture - Instituto Tecnológico de Monterrey, Campus Queretaro, Mexico, Fourth International Symposium on Food Science and Technology, Queretaro, Mexico, October 17, 1997. Emerging Issues of the microbiological safety of foods.

Invited lecture - Worldwide Food Expo 97, American Meat Institute, Chicago, IL, October 30, 1997. Preharvest Science: Microbial control alternatives.

Invited respondent - Council for Agricultural Science and Technology (CAST), "Food Safety, Sufficiency and Security: Domestic and International Dimensions" Conference, Chicago, IL, November 3, 1997. Food safety: Domestic dimensions.

Invited interview - WRFC Radio (960 AM), "The John Breffle Show," Athens, GA, November 11, 1997. Food Safety and *E. coli* O157:H7.

Invited lecture - American Meat Science Association, Chicago, IL, December 3-4, 1997. *Escherichia coli* O157:H7 - The nemesis of the cattle industry.

Invited interview - Fresh-cut Produce Processors' News Media Briefing, San Francisco, CA, December 16, 1997. Safety of Packaged Salads.

Invited seminar - University of Georgia, Department of Foods and Nutrition, Athens, GA, February 11, 1998. *Escherichia coli* O157:H7 - The emergence of an uncharacteristic foodborne pathogen.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 11, 1997. Food Safety in the news.

Invited respondent - American Meat Science Association, Beef Safety Symposium: Emerging Microbial Pathogens and Issues in Beef, Chicago, IL, December 3, 1997. The food safety research agenda - Panel response.

Invited lecture - Fresh Express Farms · Dole Fresh Vegetables · Ready Pac Produce, Packaged Salad Food Safety Symposium, San Francisco, CA, December 16, 1997. Microorganisms in prepackaged salads.

Invited lecture and scientific advisor - Dreyer's Grand Ice Cream Workshop for Asian Food Journalists, Oakland, CA, January 5, 1998. Foodborne disease significance of *Listeria monocytogenes*.

Invited lecture - International Life Sciences Institute Annual Meeting, St. Petersburg, FL, January 19, 1998. Hot topics in food safety - Microbiological issues providing new challenges for the food industry.

Invited lecture - Toxicology Forum, 23rd Annual Winter Forum, Washington, DC, February 5, 1998. Identification and control of foodborne disease pathogens.

Keynote lecture - University of Nebraska, Governor's Conference on Ensuring Meat Safety, Lincoln, NE, February 9, 1998. Significance of *E. coli* O157:H7 in meat: an overview.

Invited audio conference/lecture - American Society for Microbiology, Washington, DC, February 24, 1998. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited lecture - KFC Poultry Advisory Committee, Griffin, GA, March 30, 1998. Food safety issues of the poultry industry.

Invited lecture - The Plains Nutrition Council Spring Conference, San Antonio, TX, April 16, 1998. Development and use of competitive exclusion products to reduce pathogens in beef.

Invited lecture - Institute of Food Technologists and National Center for Food Safety and Technology, Illinois Institute of Technology, 1998 Symposium on Fresh Fruits and Vegetables: Food Safety Challenges, Chicago, IL, May 14, 1998. Research needs for produce safety.

Invited lecture - Gerber Products Company, Griffin, GA, May 21, 1998. Food safety programs at the Center for Food Safety and Quality Enhancement.

Invited presentation - University of Georgia, HACCP Program for the Southeastern Section of the American Association of Candy Technologists, Griffin, GA, May 22, 1998. Importance of HACCP to the candy industry.

Invited presentation - U. S. Senator Paul Coverdell Third Annual "Georgia Farm Forum," Macon, GA, May 27, 1998. Food Safety issues.

Invited lecture - DISCOVER Conference, Nashville, IN, June 2, 1998. Foodborne pathogens of animal origin: Characteristics and occurrences in food animals.

Invited seminar - University of Georgia, Department of Avian Medicine, Spring 1998 Seminar, Athens, GA, June 8, 1998. Controlling *E. coli* O157:H7 in cattle by competitive exclusion bacteria.

Invited lecture - Lillian Fountain Smith Conference for Nutrition Educators, Department of Food Science and Human Nutrition, Colorado State University, Ft. Collins, CO, June 11, 1998. *E. coli* O157:H7: Harbinger of change for food safety.

Invited participant - Institute of Food Technologists, First Annual Chief Research Officer's Meeting, Atlanta, GA, June 21, 1998. Partnership for growth.

Invited lecture and symposium wrap-up - Institute of Food Technologists Annual Meeting, Hot Topic Symposium: Food Safety Paparazzi - Fact or Fiction?, Atlanta, GA, June 22, 1998. Is media coverage of food safety issues scientifically correct?

Invited Symposium lecture - Institute of Food Technologists Annual Meeting, Symposium on Microbial Contamination in Fresh Produce, Atlanta, GA, June 23, 1998. *Escherichia coli* O157:H7 in apple cider - a case study.

Invited interview - Dick Mendenhall Show (Barbara Dooley interviewer), WGAU Radio - 1340 AM, Athens, GA, July 1, 1998 (1 hour live interview). The significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited lecture - Georgia Environmental Health Association, Annual Meeting, Jekyll Island, GA, July 10, 1998. Microbiological issues providing challenges for the food industry.

Invited lecture - Alpharma, Fort Lee, NJ, July 20, 1998. Controlling *E. coli* O157:H7 on the farm with probiotic bacteria.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 22, 1998. Food Safety in the news; *E. coli* O157:H7.

Invited video presentation - Processed Apples Institute, Atlanta, GA, July 24, 1998. Microbiological safety of pasteurized apple cider.

Invited presentation - General Mills, Inc., Minneapolis, MN, July 27, 1998. Microbiological challenges facing the food processing industry.

Invited presentation - Georgia Poultry Federation, Summer Meeting, Ponte Verde, FL, July 30, 1998. *Campylobacter* to poultry.

Invited lecture - Southern Region Experiment Station Directors Meeting, Athens, GA, August 8, 1998. The Food Safety Connection.

Invited lecture - U.S. Department of Agriculture/ARS and University of Georgia, Emerging Antibiotic Resistance in Foodborne Enteric Pathogens: Epidemiology, Public Health Risks and Control Strategies, Athens, GA, September 2, 1998. *E. coli* O157:H7 bovine ecology and development of competitive exclusion microflora.

Invited video presentation - Georgia Pacific Health Smart Institute, Atlanta, GA, September 3, 1998. Enhanced food safety with paper products.

Invited lecture - The Pillsbury Company, Minneapolis, MN, September 10-11, 1998. Emerging issues in food safety.

Invited presentation and panelist - International Life Sciences Institute-North America, Conference on the National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Application, Washington, DC, October 14-15, 1998. The application and use of food microbiology data for HACCP.

Invited lecture - Georgia Cattleman's Association, Newnan, GA, November 2, 1998. *E. coli* O157 and cattle.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 4, 1998. *E. coli* O157:H7 - a serious foodborne pathogen.

Invited lecture - Food Research Directors' Roundtable, Sparks, MD, November 10, 1998. Food safety activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - U. S. Department of Agriculture - Agricultural Research Service and Cooperative State Research Education and Extension Service, National Conference on Food Safety Research, Washington, DC, November 12-13, 1998. Improved detection methods for foodborne pathogens.

Invited lecture - 5th Congress on Food Microbiology and Hygiene (COMBHAL 98), Sao Paulo, Brazil, November 25, 1998. Foodborne illness significance of *Escherichia coli* O157:H7.

Invited presenter and panelist - International Life Sciences Institute, Annual Meeting, Nassau Bahamas, January 27, 1999. National Academy of Sciences Committee on Food Safety.

Invited symposium lecture - International Life Sciences Institute, Annual Meeting, Symposium on Food Safety: Challenges and Methodologies in the Next Millennium, Nassau, Bahamas, January 27, 1999. Microbiology: Tools for the next generation.

Invited lecture - Pfizer, Food Safety Symposium, Mystic, CT, February 4, 1999. Foodborne bacterial pathogens: Sources and outbreaks.

Invited lecture - The Refrigeration Research and Education Foundation Institute, University of Oklahoma, Norman, OK, February 7, 1999. The benefits of refrigeration.

Invited lecture - Auburn University, Auburn Department of Food and Nutrition, Auburn, AL, February 15, 1999. Microbiological tools for the next generation.

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 15, 1999. Ensuring the Safety of Food: Who's Responsible?

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 16, 1999. *Escherichia coli* O157:H7 Controlling the Nemesis of the Cattle Industry.

Invited lecture - American Meat Science Association, Western States Science Update Conference, Monterey, CA, February 17, 1999. Overview of *E. coli* O157:H7 and its implications to the meat industry.

Invited keynote lecture - Ontario Food Protection Association, Toronto, Ontario, Canada, February 25, 1999. Learning opportunities from outbreaks of foodborne disease.

Invited lecture - Gold Kist, Inc., Atlanta, GA, March 8, 1999. *Listeria* in ready-to-eat peanuts.

Invited lecture - Institute of Food Technologists Video Conference (20 sites nationally and Mexico), April 6, 1999. Emerging issues in food safety.

Invited lecture - National Agri-Marketing Association, 1999 Agri-Marketing Conference and Trade Show, Atlanta, GA, April 7, 1999. Food Safety-Answering consumers concerns.

Invited lecture - Sigma Xi Annual Banquet, University of Georgia, Athens, GA, April 8, 1999. Eating defensively: What you don't know could hurt you.

Invited lecture - International Association of Refrigerated Warehousemen and The Refrigerated Research and Education Foundation, Annual Convention, Rio Mar Beach, Puerto Rico, April 11, 1999. *Listeria monocytogenes* and refrigerated foods.

Invited lecture - Griffin-Spalding Development Authority, International VIP Tour, Griffin, GA, May 13, 1999, Research Activities of the UGA Center for Food Safety and Quality Enhancement.

Invited Moderator/discussant - Georgetown Center for Food and Nutrition Policy, Ceres Food Safety Roundtable, Washington, DC, May 19, 1999. Research priorities and intervention strategies for *Listeria*.

Invited lecture - American Society for Microbiology, 99th Annual Meeting, Chicago, IL, June 1, 1999. Symposium; National Academy of Sciences Report on Ensuring a Safe Food Supply: Implications and Results.

Invited lecture - IFIA (International Food Ingredients and Additives) Japan '99, Tokyo, Japan, June 3, 1999. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen in the United States.

Invited lecture - The Conference Board Contributions Council, Moline, IL, June 7, 1999. Feeding the World: Economics, Food Policies & Food Safety.

Invited lecture - Qualicon, Wilmington, DC, June 18, 1999. Approaches to reducing the transmission of *Escherichia coli* O157:H7.

Invited seminar - Perkin Elmer, Norwalk, CT, July 1, 1999. Professional activities of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited lecture - National Environmental Health Association, 63rd Annual Educational Conference, Nashville, TN, July 6, 1999. Update on *E. coli* O157:H7.

Invited lecture - Institute of Medicine, Food Forum Symposium “Food Safety Policy, Science and Risk Assessment: Strengthening the Connection,” Washington, DC, July 13, 1999. Microbiological case study - *E. coli* O157:H7 and *Listeria monocytogenes*.

Invited lecture - Institute of Food Technologists, 1999 Annual Meeting, Chicago, IL, July 27, 1999. The microbiology of *Listeria monocytogenes* as a food pathogen.

Invited lecture - International Life Sciences Institute Symposium Series on Food Microbiology; International Association of Milk, Food and Environmental Sanitarians, Dearborn, MI, August 2, 1999. Why microbiological criteria for enterohemorrhagic *Escherichia coli* and not Shiga toxin-producing *E. coli* in foods?

Invited lecture - Georgia Delegation of United States Congressional Aides, University of Georgia, Griffin, GA, August 12, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - Georgia Specialty Foods Association, Griffin, GA, August 16, 1999. The microbiological safety of further processed foods.

Invited lecture - United States Congressional Aides of Congressman Mac Collins, University of Georgia, Griffin, GA, August 24, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - National Symposium on the Future of American Agriculture, University of Georgia, Athens, GA, August 26, 1999. Food safety issues associated with food production and consumption in a global market.

Invited lecture - Kraft Foods, Chicago, IL, September 1, 1999. Microbiological food safety issues of recent concern.

Invited lecture - Society for General Microbiology, 144th Annual Meeting, University of Leeds, Leeds, England, September 8, 1999. Significance of understanding pathogenic mechanisms of foodborne pathogens.

Invited lecture/panelist - Food Quality '99, San Francisco, CA, September 13, 1999. Legal aspects of food integrity lawsuits.

Invited lecture - Food Science Australia, International Food Safety Conference, Melbourne, Victoria, Australia, September 29, 1999. Microbiological safety of different food groups.

Invited lecture - 1999 Meat Industry Research Conference, American Meat Institute, Chicago, IL, October 26, 1999. *Listeria* 101: Where it is and where it isn't.

Invited lecture - Region I (Northeast Branch), 34th Annual Meeting of the American Society for Microbiology, ASM Foundation Lecture, Worcester, MA, October 28, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - National Food Processors Association, 92nd Annual Convention, Chicago, IL, October 29, 1999. The science and politics of food safety.

Invited lecture - Illinois Society for Microbiology, American Society for Microbiology Foundation Lecture, Rosemont, IL, November 3, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Alpha Delta Kappa (International Teacher's Sorority), Athens, GA, November 16, 1999. Microbiological food safety: What you don't know could hurt you.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Control of Enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - American Society for Nutritional Sciences and U.S. Department of Agriculture Foodborne Illnesses and Nutrition Workshop, Bethesda, MD, December 3, 1999. Foodborne Illnesses: prevalence, causes and risk factors.

Invited lecture - Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Washington, DC, December 13, 1999. Case study on regulatory approval of antimicrobials for produce.

Invited lecture - 2000 Georgia Fruit and Vegetable Growers Association Winter Conference, Savannah, GA, January 7, 2000. Human pathogens in fresh-cut produce.

Invited presentation - Rotary Club of Griffin-Daybreak, Griffin, GA, February 16, 2000. Microbiological safety of fresh produce.

Invited lecture - Southern California Branch of the ASM, American Society for Microbiology Foundation Lecture, UCLA, Los Angeles, CA, March 11, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Kraft Foods, Senior Management Update, Northfield, IL, April 13, 2000. Microbiological food safety update.

Invited lecture - Kentucky-Tennessee Branch of the ASM, American Society for Microbiology Foundation Lecture, Bowling Green, KY, April 14, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited seminar - University of Georgia, Department of Food Science and Technology, Athens, GA, April 19, 2000. Microbiological safety of different food groups.

Invited lecture - University of Georgia, Department of Horticultural Sciences, Athens, GA, April 19, 2000. Microbiological safety of organic produce.

Invited lecture - Emerging Issues in Food Safety Conference, University College Cork, Ireland, June 21, 2000. Overview of bacterial foodborne disease.

Invited lecture - American Society for Microbiology Annual Meeting, Division Z Symposium, Los Angeles, CA, May 22, 2000. Use of probiotic cultures for pathogen reduction in food animal production.

Invited lecture - American Society for Microbiology Annual Meeting, Public and Scientific Affairs Board Special Interest Seminar, Los Angeles, CA, May 25, 2000. Microbiological safety of organic foods.

Invited lecture - Applied Food Biotechnology, O'Fallon, MO, June 29-30, 2000. Probiotic bacteria to reduce carriage and fecal shedding of human pathogens by animals.

Invited discussant - Chick-fil-A Quality Summit, Peachtree City, GA, July 13, 2000. Food safety in foodservice.

Invited paper - American Society for Microbiology, International Conference on Emerging Infectious Diseases 2000, Atlanta, GA July 19, 2000. Bugs vs. bugs.

Invited keynote lecture - Florida Department of Agriculture & Consumer Services, 3rd Annual Foodborne Pathogen Analysis Conference, St. Petersburg, FL, July 20, 2000. Microbiological safety of different food groups.

Invited lecture - Georgia Congressional Delegation, University of Georgia, Griffin, GA, August 18, 2000. Research activities of the UGA Center for Food Safety.

Invited lecture - 46th International Congress on Meat Science and Technology, Buenos Aires, Argentina, August 31, 2000. Use of microorganisms in non-traditional methods to increase meat safety.

Invited lecture - Association of Food and Drug Officials Fall Conference, Gatlinburg, TN, September 11, 2000. Microbiological food safety issues.

Invited lecture - Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, Philadelphia, PA, September 12, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, September 13, 2000. Irradiated foods, organic foods, and genetically modified foods.

Invited lecture - *Listeria* Issues and Strategies Conference, University of Connecticut, Storrs, CT, September 21, 2000. The microbiology of *Listeria monocytogenes* as a foodborne pathogen.

Invited keynote lecture - Food Safety Brand Symposium, Ecolab, American Chamber of Commerce in Japan and Japanese Chemical News, Tokyo, Japan, October 4, 2000. Microbiological food safety issues.

Invited keynote lecture - International Food and Nutrition Conference - 2000, Tuskegee University, Tuskegee, AL, October 10, 2000. Current microbiological food safety issues.

Invited keynote lecture - Workshop on Epidemiologic Methods and Approaches for Food Safety, U.S. Department of Agriculture - CSREES, Birmingham, AL, October 18, 2000. Reducing foodborne illnesses: Focusing on opportunities that have impact.

Invited keynote lecture - Allegheny Branch of the American Society for Microbiology Annual Meeting, Pennsylvania State University, University Park, PA, October 27, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Spalding County Farm Bureau Annual Meeting, Griffin, GA, October 30, 2000. Consumer concerns about irradiated foods, organic foods and genetically modified foods.

Invited lecture - International Food Safety and Quality Conference, Institute of Food Technologists, Orlando, FL, November 15, 2000. Food safety research opportunities for the third millennium.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 20, 2000, Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 21, 2000, Foodborne pathogens that grow at refrigeration temperature: problems and solutions.

Invited lecture - Ceres Forum on Food Safety Objectives: Public Health, HACCP and Science, Georgetown University, Washington, DC, December 4, 2000. Intervention strategies for food production.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CFSAN, College Park, MD, December 5, 2000. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CVM, College Park, MD, December 5, 2000. Control of enterohemorrhagic *E. coli* in cattle by probiotic cattle.

Invited Web Chat - American Meat Institute, Arlington, VA, December 12, 2000. Microbiological challenges and opportunities.

Invited lecture - Alpharma, Englewood, NJ, December 14, 2000. *E. coli* O157:H7 and public health.

Invited lecture - Georgia Department of Agriculture, Georgia Public Health Team/Food Safety Task Force, Griffin, GA, January 17, 2001. Research activities of the UGA Center for Food Safety.

Invited lecture - Florida Dietetic association and Florida State University Department of Nutrition, Food and Exercise Sciences, Food Safety Symposium, Tallahassee, FL, February 2, 2001. Timely topics on the microbiological safety of foods.

Invited keynote lecture - Auburn University, College of Veterinary Medicine, Phi Zeta Annual Forum, Auburn, AL, February 7, 2001. Food safety intervention strategies for livestock.

Invited seminar - North Carolina State University, Department of Poultry Science Honors Seminar, February 8, 2001. Microbial contamination of organic foods.

Invited lecture - American Association for the Advancement of Science, 2001. Annual Meeting, San Francisco, CA, February 17, 2001. Dislocating foodborne pathogens from their etiologic niche.

Invited keynote lecture - ABC Research, 27th Annual Technical Seminar, Gainesville, FL, February 20, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited Foundation lecture - American Society for Microbiology, Eastern Pennsylvania Branch, Philadelphia, PA, February 26, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Missouri Milk, Food & Environmental Health Association, Annual Education Conference, Columbia, MO, April 4, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Clemson University, Food Safety Symposium, Clemson, SC, April 20, 2001. Controlling *E. coli* O157:H7 on the farm.

Invited keynote lecture - Southeast USA Section of the Association of Official Analytical Chemists International, 15th Annual Meeting, Atlanta, GA, April 24, 2001. Microbiological food safety challenges for the 21st century.

Invited keynote lecture - Georgia State Environmental Health and Food Establishment Inspectors, Annual Educational Meeting, Athens, GA, May 24, 2001. Changing factors affecting the microbiological safety of foods.

Invited lecture - Mionix Corporation, U.S. Department of Agriculture Building, Washington, DC, June 5, 2001. Increased inactivation of *E. coli* O157:H7 in ground beef containing calcium acidified sulfate.

Invited featured lecture - Association of Food and Drug Officials, 105th Annual Educational Meeting, Atlanta, GA, June 19, 2001. Food safety initiatives on the farm.

Invited lecture - International Animal Agriculture and Food Science Conference, Joint Annual Meetings of American Dairy Science Association, American Meat Science Association, American Society of Animal Science and Poultry Science Association, Indianapolis, IN, July 28, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited presentation - DuPont, Strategic Planning, July 31, 2001. Food safety issues, gaps and opportunities.

Invited panel moderator - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee 2001 Annual Meeting, Minneapolis, MN, August 6, 2001. Moving beyond HACCP-Food safety objectives.

Invited lecture - International Association for Food Protection, 2001 Annual Meeting, Minneapolis, MN, August 7, 2001. Microbiological safety issues in organic food production.

Invited lecture - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee, 2001 Annual Meeting, Minneapolis, MN, August 8, 2001. Optimization of conditions to kill *Escherichia coli* O157:H7 in manure.

Invited seminar - Alpharma/International Food Protection, Inc. Research Update, Ft. Lee, NJ, August 14, 2001. Reducing carriage of *Campylobacter jejuni* by poultry.

Invited seminar - U.S. Department of Agriculture-Food Safety and Inspection Service, Washington, DC, August 30, 2001. Keeping foodborne pathogens down on the farm.

Invited seminar - General Mills, Inc. Technical Seminar Series, Minneapolis, MN, September 6, 2001. Emerging issues in the microbiological safety of foods.

Invited presentation - Kroger, *E. coli* Updates, Cincinnati, OH, September 11, 2001. Approaches to reduce *E. coli* O157 in cattle.

Invited keynote lecture - University of Wisconsin-River Falls, 21st Food Microbiology Symposium, River Falls, WI, October 14, 2001. Keeping foodborne pathogens down on the farm.

Invited lecture - The World Food Prize, 15th Anniversary Symposium, Des Moines, IA, October 18, 2001. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited keynote lecture - U.S. Food and Drug Administration Southeast Region, Food Safety Seminar, Mt. Pleasant, SC, October 31, 2001. Controlling *E. coli* O157:H7 from farm to table.

Invited section chairperson and contributor - American Academy of Microbiology, Colloquium on The Role of Antimicrobials in Agriculture: A Critical Assessment, Santa Fe, NM, November 2-4, 2001. Antimicrobial resistance and agriculture.

Invited lecture - University of Massachusetts, Food Science Health Symposium: Towards a National Rational Health Policy, Amherst, MA, November 7, 2001. Case reviews of the food safety "crisis."

Invited participant - Harvard University, Harvard Business School, Seminar on Health, Nutrition and Safety, Boston, MA, November 18-19, 2001. Views on intentional microbiological contamination of food.

Invited lecture - American Meat Institute Foundation, Research Briefing, Dallas, TX, December 4, 2001. Competitive exclusion bacteria for *Listeria monocytogenes* in processing plants.

Invited lecture - McDonald's Corporation, Food Safety Advisory Council Meeting, Springdale, AR, December 12-13, 2001. Food safety priorities for 2002.

Invited lecture - The Coca-Cola Company, Atlanta, GA, December 19, 2001. Safeguards against intentional microbiological contamination of foods.

Invited presentation/interview - British Broadcasting Company (BBC), New York, NY, January 7, 2002. Documentary on *E. coli* O157:H7.

Invited keynote lecture - Southern Conference on Avian Diseases, International Poultry Scientific Forum and Southern Poultry Science Society, Atlanta, GA, January 15, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited introductory comments and moderator - International Life Sciences Institute, Annual Meeting, Cancun, Mexico, January 23, 2002. BSE/TSE: Safety of the Meat Supply.

Invited keynote lecture - Kraft Foods, Research and Technology Council Meeting, Delavan, WI, January 30, 2002. *Listeria* research at University of Georgia Center for Food Safety.

Invited keynote lecture - Institute of Food Technologists, New York Section, Rutgers Night, New Brunswick, NJ, February 19, 2002. Emerging issues in the microbiological safety of foods.

Invited technical tour - Institute of Food Technologists International Food Safety and Quality Conference and Expo, Atlanta, GA, February 22, 2002. Tour of UGA Center for Food Safety.

Invited panel discussant - Institute of Medicine, Food Forum, Symposium on Future Directions in Food Safety Research, Washington, DC, February 27, 2002. Developing a coordinated and sustained research agenda.

Invited lecture - Institute of Food Technologists, St. Louis Section, St. Louis, MO, March 11, 2002. Emerging issues in the microbiological safety of foods.

Invited presentation - Food and Drug Administration, Food Safety Initiative Extramural Research Annual Review, College Park, MD, March 19, 2002. Control of enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited presentation - U. S. Department of Agriculture, National Agricultural Research, Extension, Education, and Economics Advisory Board Meeting, Washington, DC, March 28, 2002. Representing National Academy of Sciences - Biosecurity: Preparedness plans; Research needs in assuring foods are safe from intentional microbiological contamination.

Invited presentation - Congressman Mac Collins Third District Agricultural Advisory Committee Meeting, Griffin, GA, April 19, 2002. Emerging issues in food safety.

Invited keynote presentation - U.S. Environmental Protection Agency, OECD (Organization for Economic Cooperation and Development) Efficacy Workshop on Certain Antimicrobial Biocides, Arlington, VA, April 23, 2002. The role of antimicrobials in controlling foodborne pathogens.

Invited keynote presentation - The Coca-Cola Company, National Food Processors Association Security Subcommittee, Atlanta, GA, April 30, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation and moderator - U.S. Department of Agriculture, Food Safety and Inspection Service, Symposium on Pathogen Reduction: A Scientific Dialogue, Washington, DC, May 6, 2002. Introduction of microbiological hazards, farm to table.

Invited presentation - U.S. Department of Agriculture, IFAFS Animal Manure Management Meeting, Kansas City, MO, May 14, 2002. Safe produce production using manure.

Invited presentation - Oklahoma State University, Food Safety Symposium, Stillwater, OK, May 21, 2002. Foodborne pathogens occurring in livestock.

Invited presentation - University of Georgia, Agro-Security Work Conference, Athens, GA, May 23, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Alpharma, *Campylobacter* Research Update, Griffin, GA, June 11, 2002. Reducing carriage of foodborne bacterial pathogens in poultry by competitive exclusion.

Invited presentation and panelist - Institute of Food Technologists Annual Meeting, Forum on the Epidemiology and Control of Foodborne Pathogens, Anaheim, CA, June 17, 2002. Update on Shiga toxin-producing *E. coli*.

Invited presentation and panelist - Institute of Food Technologists, Annual Meeting, Forum on Emerging microbiological food safety issues: Implications for control in the 21st century, Anaheim, CA, June 18, 2002. Next steps in food safety management.

Invited presentation - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Recent issues regarding the microbiological safety of foods.

Invited discussant - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Panel discussion on food security and bioterrorism.

Invited presentation and consortium participant - Milbank Memorial Fund, Washington, DC, July 16, 2002. Improving the U.S. food safety system.

Invited presentation - 2002 Legislative Aid Tour, Griffin, GA, August 14, 2002. Recent food safety issues.

Invited presentation - Illinois Department of Public Health, Food Safety Symposium, St. Charles, IL, August 28, 2002. *Listeria monocytogenes*: A nemesis of the food processing industry.

Invited presentation - Hanover Foods, Fresh Produce Update, Hanover, PA, September 12, 2002. Controlling microbes in produce.

Invited presentation - Food Industry Microbiology Round Table, Chicago, IL, September 18, 2002. Science-based food safety regulation.

Invited presentation - U.S. Department of Agriculture, National Academy of Sciences Meeting, Washington, DC, October 7, 2002. *Escherichia coli* O157:H7 in ground beef: Review of a draft risk assessment.

Invited presentation, USDA-CSREES Food Safety Center Summit, University of Minnesota, Minneapolis, MN, October 28, 2002. Organization and activities of the University of Georgia Center for Food Safety.

Invited presentation - VII Congress Latinoamericano de Microbiologia e Higiene de Alimentos, Latinnic 2002, Santiago, Chile, November 12, 2002. Present knowledge of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited presentation - USDA-FSIS, *Listeria monocytogenes* update, Washington, DC, November 15, 2002. Cross-contamination of *Listeria monocytogenes* on food processing equipment.

Invited presentation - Harvard Medical International, Biosecurity 2002, Las Vegas, NV, November 18, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Press Association, Seminar on Food Safety Issues, Griffin, GA, November 22, 2002. Major food safety issues in the United States.

Invited presentation - Food and Drug Administration, Grand Round Workshop, Intervention Technologies for Controlling Microbial Pathogens in Foods. Washington, DC, December 3, 2002. Challenges in developing intervention technologies - Past, present and future.

Invited presentation - McDonald's, Food Safety Advisory Council, Chicago, IL, December 4, 2002. Emerging food safety issues.

Invited presentation - Food Safety Research Consortium, Launch of Consortium, Resources for the Future, Washington, DC, February 6, 2003. Need for the Food Safety Research Consortium.

Invited presentation - Griffin Rotary Club, Griffin, GA, February 13, 2003. Food safety issues in the news.

Invited presentation - U.S. Consultative Visit on Food Safety for Egyptian Organization for Standardization and Quality Control (USAID), University of Georgia Center for Food Safety, Griffin, GA, March 12, 2003. Food safety activities of the UGA Center for Food Safety.

Invited presentation - Nestlé Purina Food Safety Symposium, Peachtree City, GA, March 21, 2003. Microbiological concerns and issues at the retail level.

Invited presentation - Independent Retailers Combined Food Sales Clubs, 36th Annual Meeting, Anaheim, CA, March 26, 2003. Microbiological food safety issues at retail.

Invited presentation - University of Nebraska, *Escherichia coli* O157:H7 Governor's Conference, Lincoln, NE, April 7, 2003. Efficacy of *E. coli* isolates in reducing carriage of *E. coli* O157:H7 by cattle.

Invited presentation - Clemson University, Food Safety Symposium, Litchfield Beach, SC, April 10, 2003. A case history of *E. coli* O157:H7 as a foodborne pathogen.

Invited presentation - University of Tennessee, Topics on Microbial Pathogenesis Seminar Series, Knoxville, TN, April 21, 2003. Pathogenesis of *Escherichia coli* O157:H7 and reducing human infections.

Invited presentation - K Mart Food Safety Symposium, Troy, MI, May 2, 2003. Microbiological concerns and issues at retail.

Invited presentation - Institute of Medicine, Food Forum Symposium on Future Applications of Metabolomics, Washington, DC, May 6, 2004. Introduction of metabolomics.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, 2003 Federal/State Meeting, Arlington, VA, May 16, 2003. Testing produce for pathogens.

Invited presentation - American Society for Microbiology, Annual Meeting, “*Salmonella* - Where Does it Come From?” Symposium, Washington, DC, May 19, 2003. *Salmonella* from produce.

Invited keynote presentation - VTEC 2003, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* infections, Edinburgh, Scotland, June 10, 2003. Focusing on cattle to reduce the incidence of *Escherichia coli* O157:H7 infections in human.

Invited presentation - U.S. National Academy of Sciences, U.S.-Iranian Cooperation in Addressing Global Issues, Tourtour, France, June 23, 2003. Microbiological food safety issues in the USA.

Invited presentation - Armed Forces Medical Intelligence Center (AFMIC), Quadrilateral Meeting on Agriculture and Food Security (USA, Australia, Canada, England), Ft. Detrick, MD, June 27, 2003. Assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Poultry Federation, Summer Board Meeting, Ponte Vedra, FL, July 24, 2003. Control of *Listeria monocytogenes* in biofilms in floor drains with competitive exclusion bacteria.

Invited presentation and moderator - International Association for Food Protection Annual Meeting, *Listeria* Symposium, New Orleans, LA, August 11, 2003. Use of food safety objectives and other risk-based approaches to reduce foodborne listeriosis. Achieving continuous improvement in reductions in foodborne listeriosis: a risk-based approach.

Invited presentation - International Association for Food Protection, Annual Meeting, Symposium on Science-based shelf life dating of RTE refrigerated foods, New Orleans, LA, August 13, 2003. Microbiological concerns related to refrigerated ready-to-eat foods.

Invited presentation - Food Safety Research Consortium, Conference on “A Model for Evaluating and Ranking the Public Health Impact of Foodborne Hazards, Washington, DC, September 12, 2003. Perspectives on the issues.

Invited presentation - Nestlé Purina, Food Safety Symposium, Sedona, AZ, September 19, 2003. Microbiological issues at retail food outlets.

Invited keynote presentation - II Congreso Argentino de Microbiología de Alimentos, Argentinian Association of Microbiology Conference, Santa Fe, Argentina, September 25, 2003. Prevalence, testing methodologies, and significance of *Escherichia coli* O157:H7 and non O157:H7 in ground beef.

Invited presentation - McDonald’s Food Safety Advisory Council, Fall Meeting, Conyers, GA, October 23, 2003. Emerging food safety issues that may affect the food service industry.

Invited presentation - Georgia Congressional Staff, 2003 Tour, October 24, 2003. Food safety issues and research.

Invited presentation - Meat Industry Research Conference, Worldwide Food Expo 2003, Chicago, IL, October 27, 2003. Controlling *Escherichia coli* O157:H7 in cattle drinking water.

Invited presentations and program chair - Food Safety Research Consortium, Food Attribution Data Workshop, Atlanta, GA, October 31, 2003. Best approaches for attributing food commodities to human foodborne illnesses.

Invited presentation - Ontario Food Protection Association, Annual Meeting, Toronto, ON, Canada, November 20, 2003. Emerging microbiological food safety issues.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, Winter Federal/State Meeting, McClellan, CA, December 3, 2003. The importance of testing produce for microbial pathogens.

Invited presentation - Cooperating for Food Safety, Workshop on Best Practices for Control of *E. coli* O157:H7 in Ground Beef, Chicago, IL, January 7, 2004. Key technical issues in the design of a certification system.

Invited presentation - Institute of Food Technologists, Chicago Section, Winter Meeting, Chicago, IL, February 9, 2004. *Listeria monocytogenes* in perspective.

Invited presentation - ABC Research Corporation, 30th Annual Technical Seminar, Gainesville, FL, February 18, 2004. Control of *Listeria monocytogenes* in floor drains with competitive exclusion bacteria.

Invited presentation - USDA, Cooperative State Research, Education and Extension Service (CSREES), Workshop on Pathogens in the Environment, Kansas City, MO, February 24, 2004. Contamination of food by pathogens in the environment.

Invited presentations, Co-Farm Meetings with Senate and House Staff on Homeland Security, Washington, DC, March 5, 2004. Agroterrorism: Security through prevention and preparedness.

Invited presentation - Wal-Mart, Food Safety Symposium, Bentonville, AK, March 10, 2004. Microbiological issues at retail food outlets.

Invited presentation - 5th ASEPT International Conference on Food Safety, Analyse des risques et *Listeria monocytogenes*/*Listeria monocytogenes* and Risk Analysis Conference, Laval, France, March 17-18, 2004. A risk-based approach to achieving continuous improvement in reductions in the incidence of foodborne listeriosis.

Invited presentation, 2004 Sam Nunn Policy Forum, Bioterrorism Preparedness: The Imperative for a Public-Private Partnership, Georgia Tech, Atlanta, GA, March 23, 2004. Securing the food chain from biohazards.

Invited Seminar, University of Georgia, Department of Poultry Science, Athens, GA, March 29, 2004. Optimizing defined competitive exclusion bacterial cultures to reduce *Salmonella* carriage by chickens.

Invited presentation/interview, British Broadcasting Company, Atlanta, GA, April 14, 2004.

Microbiological food safety concerns associated with vegetables grown organically and under conventional conditions.

Invited keynote presentation, Cornell University, Cornell Veterinary Medicine Infection and Pathobiology Program's Spring Retreat, Ithaca, NY, April 23, 2004. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, 5th Food and Drug Administration - Center for Food Safety and Applied Nutrition, Food Safety and Food Security Extramural Research Annual Review, College Park, MD, May 6, 2004. Waveguide immunoassay for *Yersinia pestis*.

Invited convener/presentation, American Society for Microbiology 104th General Meeting, New Orleans, LA, May 24, 2004. Addressing the issue of antibiotic resistant foodborne bacteria through the application of risk assessment.

Invited presentation, Southern Association of State Departments of Agriculture (SASDA), Annual Conference, Athens, GA, Jun 14, 2004. Controlling foodborne pathogens with competitive exclusion bacteria.

Invited presentation, USDA-CSREES Workshop on Approaches to Predictive Modeling to Support a Framework to Prioritize Opportunities to Reduce Food Safety Risk, Iowa State University, Ames, IA, June 15, 2004. Issues regarding effective interventions in reducing foodborne illnesses.

Invited presentation, USDA-AMS 2004 Microbiological Data Program (MDP) Federal/State Meeting, Fairfax, VA, June 23, 2004. Importance of pathogen monitoring of produce.

Invited presentation, Food and Drug Administration Center for Veterinary Medicine, Alpharma Sponsor's Meeting, Expedited Review INAD 10-636, Rockville, MD, July 1, 2004. Importance of reducing "super shedders" of *E. coli* O157:H7 by cattle and methods available for detecting and quantifying *E. coli* O157:H7.

Invited presentation, Georgia Poultry Federation, Summer Board Meeting and Industry/Research Leadership Meeting, Ponte Vedra, FL, July 9, 2004. Defined competitive exclusion bacteria to reduce *Salmonella* carriage by poultry.

Invited presentation, The Foundation for American Communications and Institute for Food Technologists Reporting on Food Safety: From Product Development to the Consumer's Table, Las Vegas, NV, July 12, 2004. Specific challenges associated of reporting on food safety.

Invited keynote presentation, World's Poultry Science Association, USA Branch, Annual Meeting, St. Louis, MO, July 27, 2004. Reducing the carriage of foodborne pathogens in poultry and livestock.

Invited presentation, FoodPAC, 2004 Summer Steering Committee Meeting, Reidsville, GA, August 26, 2004. Biocontrol of *Listeria* in floor drains.

Invited presentation, University of Georgia College of Agricultural and Environmental Sciences Advisory Council Meeting, Griffin, GA, August 24, 2004. How the UGA Center for Food Safety serves Georgia, the Nation and the World.

Invited presentation, University of Georgia President Michael Adams' Program Review, Griffin Campus, Griffin, GA, August 25, 2004. Activities and accomplishments of UGA Center for Food Safety.

Invited presentation, Universiti Kebangsaan Malaysia (National University of Malaysia), Departments of Biotechnology, Food Science, Microbiology, Bangi, Selangor, Malaysia, September 3, 2004. Food safety challenges from farm to table and probiotics for Malaysia and beyond; strategies for R&D.

Invited presentation, Nestlé Purina-Coposan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 20, 2004. Microbiological concerns and issues at the retail level.

Invited presentation, Nestlé Purina-Coposan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 21, 2004. Emerging food safety issues.

Invited presentation, United States Office of Personnel Management, 4th Annual Countering Terrorism Symposium, San Diego, CA, September 23, 2004. Approaches to enhance the security of the US food supply.

Invited presentation, Georgia Congressional Staff Tour, Griffin, GA, October 15, 2004, Addressing food safety challenges at the UGA Center for Food Safety.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Chicago, IL, November 3, 2004. Emerging food safety issues that may affect the food service industry.

Invited presentation, U.S.-Japan Natural Resources Panel on Toxic Microorganisms, Annual Meeting, Atlanta, GA, November 11, 2004. Research Activities of the UGA Center for Food Safety.

Invited presentation, Emory University's Southeastern Center for Emerging Biologic Threats, Conference on Food- and Waterborne Infectious Disease Threats, Atlanta, GA, November 16, 2004. Foodborne disease threats of recent concern.

Invited presentation, Copper Development Association, Annual Meeting, Marketing Trends Forum, New York, NY, December 9, 2004. Approaches to continuous reductions in the incidence of salmonellosis, listeriosis, and *Escherichia coli* O157:H7 infections associated with foods.

Invited presentation, International Life Sciences Institute, Annual Meeting, New Orleans, LA, January 17, 2005. Achieving continuous improvement in reductions of listeriosis: identification and education of at-risk subpopulations.

Invited presentation, Food Processing Advisory Council (FoodPAC) Webcast, Atlanta, GA, February 16, 2005. Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant.

Invited presentation, Neogen Scientific Review Council, Biannual Meeting, Lansing, MI, March 9, 2005. The In's and Out's of *Listeria monocytogenes* and *Escherichia coli* O157:H7 in food testing.

Invited presentation, Society for General Microbiology, 156th Annual Meeting, Edinburgh, Scotland, April 7, 2005. Impact of verocytotoxin-producing *Escherichia coli* on the food chain.

Invited presentation, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, Atlanta, GA, April 26, 2005. Continuous improvement in reductions in foodborne listeriosis: Identification of approaches having the greatest impact.

Invited presentation, Food and Drug Administration - Center for Food Safety and Applied Nutrition, 6th Food Safety and Food Defense Extramural Research Grants Annual Meeting, College Park, MD, May 11, 2005. Waveguide immunoassay for *Yersinia pestis*.

Keynote lecture (Pre-dinner presentation), Campden & Chorleywood Food Research Association, Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 9, 2005. What you didn't know about the revelation of *E. coli* O157:H7 as a human and foodborne pathogen.

Keynote lecture, Campden & Chorleywood Food Research Association Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 10, 2005. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, AFB International, Seminar Series, St. Louis, MO, June 16, 2005. Probiotics to control pathogens in humans and animals.

Invited presentation, Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 14, 2005. Competitive exclusion bacteria treatment to control *Listeria* in floor drains of a ready-to-eat poultry processing plant.

Invited presentation, Institute of Food Technologists Annual Meeting, Council of Food Science Administrators, New Orleans, LA, July 18, 2005. Government Relations Committee activities.

Invited presentation, UGA Center for Food Safety, Air Liquide Research Update, Griffin, GA, July 22, 2005. Overview of the Center for Food Safety and competitive exclusion of foodborne pathogens.

Invited presentation, 2005 Joint Annual Meeting of American Society of Animal Science, American Dairy Science Association, Canadian Society of Animal Science, Food Safety Symposium, Cincinnati, OH, July 27, 2005. The future of food safety: An issue of national importance. foodborne illness and antibiotic resistance: Types, sources and extent of the problem.

Invited presentation, University of Georgia College of Agricultural and Environmental sciences Administrative Council Meeting, Griffin, GA, August 8, 2005. UGA Center for Food Safety research program.

Keynote lecture, Food and Drug Administration Center for Food Safety and Applied Nutrition, 2nd Annual Science Day, College Park, MD, August 10, 2005. Good science is the best foundation for effective decision making.

Keynote lecture, UKPOPNET Workshop: Population Dynamics of Human Pathogenic Microorganisms in Soil, University of Aberdeen, Aberdeen, Scotland, September 1, 2005. Contamination of foods by pathogens in the environment.

Invited lecture, Nestlé Purina Pet Care and Copesan Food Safety Symposium, Stone Mountain, GA, September 13, 2005. Microbiological concerns for the food retailer.

Invited lecture, Food Safety Research Consortium, Conference for Risk Ranking Foodborne Hazards, Washington, DC, September 14, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited presentation, Georgia Legislative Delegation, Education Meeting, Griffin, GA, October 12, 2005. UGA Center for Food Safety state, national and international activities.

Invited presentation, McDonald's Food Safety Advisory Council, Annual Meeting, St. Paul, MN, October 17, 2005. Emerging food safety and regulatory challenges related to food service products and operations.

Invited presentation, McDonald's Quality Symposium, Oak Brook, IL, October 24, 2005. How academia can assist the food industry in providing greater public health protection to foods.

Invited presentation, International Commission on Microbiological Specifications for Foods, the International Life Sciences Institute, the International Association for Food Protection and the Institute of Food Technologists, Symposium on Relating Microbiological Testing and Microbiological Criteria to Public Health Goals, Washington, DC, November 1, 2005. Potential advantages and pitfalls in public health-derived microbiological criteria.

Invited commenter, ABC Good Morning America, News Story, New York, NY, November 6, 2005. Shelf life of foods.

Invited lecture, U.S. Poultry and Egg Association, Food Safety Conference on Attribution of Salmonellosis, Atlanta, GA, December 8, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited convener and presentations, Institute of Medicine, Food and Nutrition Board and Food Forum Workshop on Challenges in Managing Food-Derived Risk, Washington, DC, December 13, 2005. Introduction and Workshop Summary - Managing food contaminants at low levels: What tools do we have and common metric to compare risks: Defining the problem.

Invited convenor and presentation, International Life Sciences Institute, Annual Meeting, San Juan, Puerto Rico, January 17, 2006. Introduction - Chasing zeros: Prioritizing responses to unexpected contaminants in foods.

Invited lecture - U.S. Poultry Food Safety Advisory Board, Atlanta, GA, January 25, 2006. Food safety activities of the Food Safety Research Consortium.

Invited lecture - Georgia Association for Food Protection, Griffin, GA, February 9, 2006. Controlling *Listeria* in drains in food processing plants.

Invited presentation - Georgia Food Processing Advisory Council (FoodPAC), Atlanta, GA, February 24, 2006. Chemical intervention treatments to inactivate foodborne pathogens on poultry.

Invited presentation - U.S. Department of Agriculture-Agricultural Marketing Service, Richmond, VA, March 29, 2006. The challenges associated with producing microbiologically safe fruit and vegetables.

Invited presentation - Institute of Food Research (IFR) Seminar Series, Norwich, England, April 6, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited presentation - Gold Kist, Avian Influenza Seminar, Atlanta, GA, April 12, 2006. Food safety concerns regarding avian influenza.

Invited lecture - National Chicken Council/U.S. Poultry and Egg Association Food Media Seminar, Philadelphia, PA, April 24, 2006. Update on Avian influenza.

Invited lecture - Georgia Poultry Processors Association Meeting, Griffin, GA, April 25, 2006. Avian influenza virus and food safety.

Invited lecture - Georgia Department of Human Resources, 1st Annual Georgia Food Safety Task Force Conference, May 5, 2006, Macon, GA. Laboratory role in foodborne outbreaks - Academic food safety laboratory.

Invited keynote lecture - Zaxby's Annual Conference, Las Vegas, NV, May 8, 2006. Avian influenza and food safety.

Invited lecture - University of Minnesota, Forum on Ethical Guidelines for External Support of University Initiatives, St. Paul, MN, May 11, 2006. Novel approaches for external funding of university activities.

Invited lecture - National Restaurant Association, Annual Meeting, Chicago, IL, May 20, 2006. Avian influenza and food safety.

Invited lecture - Montana State University, Center for Biofilm Engineering, Technical Advisory Conference, June 20, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited lecture - Institute of Food Technologists, Food Science Communicators Meeting, Orlando, FL, June 24, 2006. Antimicrobial resistance - Implications for the food system.

Invited lecture - Institute of Food Technologists, Annual Meeting, Orlando, FL, June 26, 2006. Antimicrobial resistance: Implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Antimicrobial resistance and its implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Avian influenza virus and its implications for food safety.

Invited comments - Georgia Poultry Federation Annual Meeting, Ponte Vedra, FL, July 14, 2006. Avian influenza virus and food safety issues associated with the poultry industry.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Pathogenic *E. coli* on fresh produce.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Challenges associated with isolating pathogens from foods.

Invited lecture - 52nd International Congress of Meat Science and Technology, Dublin, Ireland, August 15, 2006. Emerging microbiological food safety issues related to meat.

Invited keynote lecture - Steritech Food Safety Horizons Conference, Charlotte, NC, August 28, 2006. Microbiological food safety issues associated with imported foods.

Invited lecture - Association of Food and Drug Officials of the Southern States, Fall Meeting, Gatlinburg, TN, September 12, 2006. Pandemic flu preparedness.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Avian influenza and food safety.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Microbiological concerns at the deli.

Invited lecture - Illinois Department of Public Health, Peoria, IL, September 20, 2006. Are all critical violations alike?

Invited lecture - National Chicken Council, Washington, DC, October 5, 2006. Avian Influenza: Global and domestic perspectives.

Invited lecture - Autonomous University of Neuvo Leon, Annual International Food Safety Congress, Monterrey, Mexico, October 9, 2006. *E. coli* O157:H7 and fresh produce.

Invited keynote lecture - 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), Melbourne, Australia, October 30, 2006. Transmission of Verotoxin-Producing *E. coli* by food.

Invited presentation - Tanzanian Ministry of Agriculture, Program Overview, Griffin, GA, November 10, 2006. Structure and activities of the UGA Center for Food Safety.

Invited lecture - International Bayer Expert Forum on Animal Health and Food Safety, Hanover, Germany, November 15, 2006. Antimicrobial resistance: Implications for the food system.

Invited lecture - Praxair, Chicago, IL, November 21, 2006. *E. coli* O157:H7 and strategies for intervention in food processing.

Invited special lecture - Institute of Medicine Food and Nutrition Board Fall Meeting, Washington, DC, December 15, 2006. Microbiological food safety issues that may affect dietary changes.

Invited lecture (Guest Speaker) - U.S. Department of Agriculture - National Agriculture Research, Education, Extension and Economics Advisory Board (NAREEEAB) Spring Meeting, Washington, DC, March 8, 2007. USA federal food safety research and education needs.

Invited lecture - Georgia Board of Registered Health Professionals Annual Meeting, Griffin, GA, March 16, 2007. *E. coli* O157 in produce.

Invited lecture - Animal Agriculture Alliance, 6th Annual Meeting, Washington, DC, March 20, 2007. CAFO's: What's the fuss about antibiotics.

Keynote address - National Institute for Animal Agriculture, Symposium on Impacts of Animal Production Safety Practices on the Food Supply, Sacramento, CA, April 5, 2007. Foodborne illnesses and antibiotic resistance associated with zoonotic pathogens.

Invited lecture - Georgia Institute of Technology, School of Electrical and Computer Engineering Seminar, Atlanta, GA, April 17, 2007. U.S. food safety issues and research needs from a food industry perspective.

Keynote address - Southern Section of the Association of Official Analytical Chemists International, 21st Annual Meeting, Atlanta, GA, April 23, 2007. Global microbiological food safety issues before use.

Invited lecture - Northeast Food & Drug Officials Association (NEFD OA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. Food safety concerns of avian flu virus.

Invited lecture - Northeast Food & Drug Officials Association (NEFD OA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. *E. coli* O157 in fresh produce.

Invited lecture - Federation of Animal Science Societies, 2007 FASS Symposium, Washington, DC, May 14, 2007. Institute of Food Technologists review of antibiotic resistance.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 23, 2007. Symposium - Antibiotic resistance: A summary and recommendations from the Institute of Food Technologists Expert Panel.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 24, 2007. Symposium - Implications from the spinach outbreak for industry, research needs.

Invited lecture - Illinois Institute of Technology National Center for Food Safety and Technology-UGA Workshop on the Role of Testing in the Safety of Fresh Produce, Oak Lawn, IL, May 30, 2007. Public health issues associated with fresh produce: Scientific questions.

Invited lecture - Alabama Department of Public Health, 2007 Alabama Agricultural Security Conference, Birmingham, AL, June 12, 2007. Domestic and global microbiological food safety issues before us.

Invited lecture - Society for Applied Microbiology, Summer Conference, Cardiff, Wales, UK, July 3, 2007. The problems with fresh produce - An overview.

Keynote address - International Association for Food Protection - BioMerieux, 6th Annual Scientific Symposium, Orlando, FL, July 10, 2007. Challenges in producing a pathogen-free fresh-cut product.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 10, 2007. Symposium on Microbial Biofilms and Biofilm Control - Biologic control of biofilms.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 11, 2007. Symposium on food Safety Laws: Political Science or Food Science - National Academy of Sciences - Academic Viewpoint.

Invited lecture - Georgia Environmental Health Association, 2007 Conference, Helen, GA, July 13, 2007. Global microbiological food safety issues before us.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Bacteriophage as an antilisterial treatment in ready-to-eat meats - Use of bacteriophage to control foodborne pathogens in foods.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 31, 2007. Symposium on Farm-to-fork agro-management - Issues associated with the microbiological safety of fresh and fresh-cut produce.

Invited lecture Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Control of antibiotic-resistant pathogens in the food supply - IFT Expert Panel report on Antimicrobial Resistance: Implications for the Food System.

Invited lecture - Shanghai Institute for Food and Drug Control, Visit to UGA Center for Food Safety, Griffin, GA, August 21, 2007. Microbiological food safety issues in the United States and globally.

Invited lecture - National Coalition for Food and Agricultural Research, National C-FAR, Seminar Series for Policymakers and Congressional Staff, Washington, DC, September 10, 2007. From wild pigs and spinach to tilapia and Asia: Current food safety microbiological concerns of fresh produce and microbiological issues associated with imported foods.

Keynote address - Canadian Meat Council-American Meat Institute, Symposium on Advances in Antimicrobial Interventions for Quality Control of Meat and Poultry Products, Toronto, Ontario, Canada, September 13, 2007. Advances in antimicrobial interventions - A key to meat quality and safety.

Keynote address - Association of Food and Drug Officials of the Southern States, Fall Conference, Gatlinburg, TN, September 17, 2007. Global microbiological issues before us.

Invited lecture - Nestle Purina Group, Food Safety Symposium, Peachtree City, GA, September 18, 2007. Microbiological concerns and issues at retail food outlets.

Invited lecture - Food Processing.com/CDC Software (Ross Enterprise), Podcast, September 27, 2007. The true business impact of food safety & recalls.

Keynote address - McDonald's, Sanitation & Food Safety Workshop, Oak Brook, IL, October 9, 2007. Food safety issues impacting the industry.

Keynote address - Canadian Federal Food Safety and Nutrition Research Meeting 2007, Winnipeg, Manitoba, Canada, October 19, 2007. From wild pigs and spinach to tilapia and Asia: Current microbiological food safety concerns.

Invited lecture - KonKuk University, College of Veterinary Medicine, Seoul, South Korea, October 25, 2007. Microbiological food safety issues associated with fresh produce and imported foods.

Invited presentation - GangaGen, Scientific Advisory Board Meeting, Bangalore, India, October 29, 2007. Food safety and animal health: *E. coli* O157, *Salmonella*, *Campylobacter* and fowl typhoid.

Keynote address - 2nd International Conference for Food Safety and Quality (HACCP.com), San Francisco, CA, November 6, 2007. Current issues of food safety facing food industries.

Invited lecture - GangaGen Life Sciences, Ottawa, Ontario, Canada, November 9, 2007. Microbiological food safety research needs.

Invited presentation - National Academy-Institute of Medicine, A Forum for Iranian and American Experts - Food Safety and Microbiology: An Exchange of Ideas and Experiences, Washington, DC, November 15, 2007. Future opportunities for collaboration.

Presentation - U.S. Department of State, International Visit Leadership Program, Iranian Food Safety and Microbiology Scientists, Visit to UGA-Center for Food Safety, Griffin, GA, November 26, 2007. Food safety issues in the United States and research addressing food safety at UGA-CFS.

Invited presentation - Kiwanis Club of Griffin, Annual Farm/City Week Luncheon, Griffin, GA November 21, 2007. Food safety issues associated with fresh-cut produce and imported foods.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 12, 2007. Insights on potential regulatory changes and impact to ensure a safe food supply.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 13, 2007. Prevalence of *E. coli* O157:H7 and other STEC globally.

Invited lecture - University of Georgia, College of Public Health and Biomedical and Health Sciences Institute, Community Lecture on Public Health Issues, Athens, GA, January 29, 2008. Is our food safe to eat?

Invited presentation - Shanghai Fisheries University, Shanghai, China, Chinese delegation, (presentation at UGA, Griffin), January 29, 2008. Activities of the UGA Center for Food Safety.

Invited lecture - American Association for the Advancement of Science (AAAS), Annual Meeting, Symposium on How the Bugs Come Back and Bite Us: The Rise of Agricultural Pathogens, Boston, MA, February 17, 2008. The versatile *Salmonella*: contaminating cantaloupes, peanut butter, chocolate, and sprouts.

Invited keynote lecture - 3rd Dubai International Food Safety Conference, Dubai Municipality, Dubai, United Arab Emirates, February 25, 2008. Food safety management: present and future.

Invited presentation - The 2008 Food Safety & Security Summit, Washington, DC, March 19, 2008. Enhanced food safety for fresh-cut produce.

Invited presentation - U.S. Food and Drug Administration, Draft Compliance Policy Grade Sec: 555.320 *Listeria monocytogenes* Public Meeting, College Park, MD, March 28, 2008. Foods that do and do not support growth of *Listeria monocytogenes*.

Invited presentation - International Poultry Council, Spring Meeting, Madrid, Spain, April 4, 2008. A consensus concerning *Salmonella*.

Invited presentation - Taco Bell, 2008 Supplier Summit, Irvine, CA, April 23, 2008. Putting the STEC in meat issue in perspective.

Invited presentation - New York Academy of Sciences, Symposium on "Roots of Foodborne Illnesses: Health Threats from Domestic and Imported Product," New York, NY, April 21, 2008. From wild pigs and spinach to tilapia in Asia: Current microbiological food safety concerns.

Invited presentation - FoodPAC, Steering Committee Meeting, Athens, GA, May 1, 2008. Reduction of *Salmonella* in preharvest poultry

Invited presentation - DRI-The Voice of the Defense Bar, Food Liability: Defending the Industry Seminar, Chicago, IL, May 8, 2008. Is a foreign food product the source or not?

Invited presentation - American Society for Microbiology 108th Annual General Meeting, Emerging Issues in Food Safety: Impact of Globalization of the Food Supply Symposium, Boston, MA, June 2, 2008. Global issues associated with the microbial safety of food.

Invited presentation - European Food Safety Authority, Conference on "Future Challenges to Microbial Food Safety," Wolfheze, The Netherlands, June 9, 2008. Microbiological food safety threats: What have we learned and what's in the future?

Invited presentation - American Society for Microbiology, Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens, Copenhagen, Denmark, June 16, 2008. Food processing interventions to minimize bacterial contamination.

Invited presentation - National Foundation for Infectious Diseases, 2008 Annual Conference on Antimicrobial Resistance, Symposium on Resistance Pathogens in Foods We Eat, Bethesda, MD, June 24, 2008. Interventions to prevent contamination of foods we eat.

Invited presentation - Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 21, 2008. *Salmonella* control in poultry.

Invited presentation, Georgia Environmental Health Association, Annual Educational Conference, Helen, GA, July 11, 2008. Microbiological food safety issues associated with imported foods.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, Special Session, Round Table on Leafy Greens: An Integrated Risk Management Approach, Columbus, OH, August 5, 2008. A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, bioMerieux Scientific Symposium, Columbus, OH, August 5, 2008. Significance of non-O157 Shiga toxin-producing *E. coli* (STEC) as foodborne pathogens.

Invited keynote lecture, International Association for Food Protection, 95th Annual Meeting, John H. Silliker Lecture, Columbus, OH, August 6, 2008, From wild pigs in spinach to tilapia in Asia: The challenges of the food safety community.

Invited presentation, University of Georgia-Centers for Disease Control and Prevention, Research Collaboration Conference, Athens, GA, August 19, 2008. Food safety and food security.

Invited podcast, CDC Software, Atlanta, GA, August 21, 2008. The true business impact of food safety and recalls.

Invited presentation, Mars, Inc., Presidents Group, McLean, VA, September 3, 2008. Food safety risk management.

Invited presentation/panel discussion, Paragon Growth Services, Dallas, TX, September 4, 2008. Forum on the antimicrobial Micro Be Gone.

Invited moderator/presentation. Institute of Medicine Food Forum Workshop. Managing Food Safety Practices from Farm to Table, Washington, DC, September 9, 2008. Future Solutions: Where Do We Go From Here?

Invited presentation, Fresh Express Safety Research Conference, Monterey, CA, September 11, 2008. Subsurface contamination and internalization of *Escherichia coli* O157:H7 in preharvest lettuce.

Invited presentation, International Poultry Council, Fall Meeting, Beijing, China, September 25, 2008. An update on the global *Salmonella* study.

Invited presentation, Georgia Department of Economic Development, UGA Faculty of Infectious Diseases Briefing, Athens, GA, September 30, 2008. UGA Center for Food Safety outreach and research activities.

Invited presentation, McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, October 9, 2008. Overview of food safety issues facing the food service industry.

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Town Hall Meeting, Orlando, FL, October 24, 2008, A candid discussion of foodborne disease investigations: What's ahead for produce safety?

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Ask the Expert, Orlando, FL, October 25, 2008, Food safety education and produce safety issues.

Invited presentation - University of Maryland Joint Institute for Food Safety and Applied Nutrition and International Life Sciences Institute, Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns Workshop, College Park, MD, November 18, 2008. Multi-sector perspectives on dietary exposure assessment tools.

Invited presentation, Sensient Technologies, Milwaukee, WI, December 3, 2008. The safety of food ingredients: Challenges and opportunities.

Invited presentation, Centers for Disease Control and Prevention, Exploring the Isolation of *Clostridium difficile* from Meat Workshop, Atlanta, GA, December 16, 2008, Microbiological issues associated with detection *C. difficile* in meat.

Invited presentation, Mars, Inc., Mars Scientific Advisory Council Annual Meeting, New York, NY, January 6, 9, 2009, Food Safety.

Invited presentation, National Chicken Council, Technical and Regulatory Committee Meeting, Arlington, VA, February 19, 2009. Establishing a World Class Approach to Food Safety.

Keynote presentation. Chicago Section of the Institute of Food Technologists, Des Plaines, IL, March 10, 2009, Global Food Safety from a Microbiologist's Point of View.

Invited presentation, American Peanut Council, Washington, DC, March 12, 2009. Microbiological Safety of Processed Peanut Products.

Invited presentation. 13th International Conference on Emerging Infectious Diseases of the Pacific Rim: Focus on Enteric Diseases, Kolkata (Calcutta), India, April 7, 2009, An Explosion of Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation. 12th World Congress on Public Health, Istanbul, Turkey, April 29, 2009. A Global View of Food Safety.

Invited presentation. Atlanta Association of Healthcare Journalists, Atlanta, GA, May 19, 2009. High Risk Foods of Recent Concern.

Invited presentation. General Mills, Minneapolis, MN, May 28, 2009. The Safety of Food Ingredients: Challenges and Opportunities.

Invited presentation. National Confectioners Association and American Peanut Council Webinar on Nut Handling and Processing for Confectioners and Small Nut Processors, June 2, 2009. The Microbiology of Nuts.

Invited presentation. USA Peanut Congress (American Peanut Council and American Peanut Shellers Association), Amelia Island, FL, June 22, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. U.S. Department of Agriculture, Cooperative State Research Education and Extension Service, Grapevine, TX, July 11, 2009. A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh-cut Leafy Greens.

Invited presentation. Mars Inc., Mars Scientific Advisory Council, Waltham, England, July 28, 2009. Rapid Methods for Detecting *Salmonella* in Foods.

Invited presentation. Institute of Medicine Food Forum, Forum on Reducing Sodium in the Food Supply, Washington, DC, August 5, 2009. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited Keynote presentation. 63rd Annual Meeting of the Southern Legislative Conference, Winston-Salem, NC, August 15, 2009. Food Safety in Transition.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States National Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Opening Address.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Risk Assessment Perspectives from the United States.

Invited presentation. Grocery Manufacturers Association, Executive Conference, Colorado Springs, CO, August 31, 2009. Food Safety in the 21st Century: What Will It Take to Make Real Progress; Food Safety Challenges that May Keep You Awake at Night.

Invited presentation. National Pecan Shellers Association, 2009 Annual Meeting, Chicago, IL, September 11, 2009. Good Manufacturing Practices for Processing Nuts.

Invited Keynote presentation. Association of Food and Drug Officials of the Southern States, Fall Educational Conference 2009, Gatlinburg, TN, September 14, 2009. From Cookie Dough to Fruits and Nuts: The Challenges of Keeping *Salmonella* under Control.

Invited presentation. 2009 Georgia Peanut Tour (Georgia Peanut Commission), Hot Topics on Peanuts Symposium, Douglas, GA, September 15, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. 2009 Agri-Leaders Forum, Griffin, GA, September 16, 2009. Current Food Safety Issues.

Invited presentation, Frito Lay Quality College, Webinar, October 8, 2009. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, The Israeli Presidential Conference 2009. Facing Tomorrow (Futuring Conference), Jerusalem, Israel, October 22, 2009. What Will We Eat Tomorrow? An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oak Brook, IL, October 27, 2009. Key Food Safety Topics for the McDonald's System.

Invited presentation, Institute of Medicine Food Forum, Providing Healthy and Safe Foods as We Age Workshop, Washington, DC, October 29, 2009. Processing and Formulation Advances to Decrease Food Safety Risks.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 3, 2009. The Increasing Challenges to Ensuring Safe Foods Globally.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 4, 2009. Decreasing Food Safety Risks Through Advances in Processing and Formulation.

Invited Keynote presentation, 2009 Food Safety and Public Policy International Conference and 5th International Forum on Food Safety, Shanghai, China, November 9, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited Keynote presentation, 2009 Ohio State University Harris Award Lecture, Columbus, OH, November 5, 2009. From Burgers to Tilapia: The Increasing Challenges to Ensuring Safe Foods.

Invited Keynote presentation, 2009 Mini-Summit: Food Safety and Trade Initiative, Shanghai Ocean University, Shanghai Academy of agricultural Sciences and University of Georgia. Athens, GA, November 23, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Centers for Disease Control and Prevention, Annual Grand Rounds, Atlanta, GA, December 17, 2009. Foodborne Disease: Better Prevention by Improving Surveillance and Investigation - A Perspective on the Food Industry.

Invited plenary presentation, Legislative Agriculture Chairs Summit 2010, Council of State Governments and State Agriculture and Rural Leaders, Orlando, FL, January 17, 2010. The Role of States in Food Safety.

Invited presentation, Atlanta Media Event, University of Georgia, Atlanta, GA, January 21, 2010. Food Safety Updates and Pending Food Safety Policy Changes.

Invited presentation, International Life Sciences Institute Annual Meeting, Rio Grande, Puerto Rico, January 25, 2010. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited presentation, 2010 Georgia Ag Forecast, University of Georgia College of Agricultural and Environmental Sciences, Macon, GA, January 29, 2010. The Changing Face of Food Safety in the United States.

Invited presentation, Assuring Safety of Imported Foods: Public and Private Roles in a Risk-based System Workshop, The Food Safety Research Consortium and the University of Florida Emerging Pathogens Institute, Washington, DC, February 1, 2010. Tools and Approaches to Evaluating Risk and Targeting Resources.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 10, 2010. Need for Effective, Internationally Accepted Food Safety Management Systems.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), Cornell University, Rochester, NY, February 19, 2010. Composting Criteria for Animal Manure.

Invited presentation, Seminar Series, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, February 22, 2010. Research Activities at the University of Georgia Center for Food Safety.

Invited presentation, Seminar, Kagoshima University (Japan), Griffin, GA, March 10, 2010. Food Safety Research Activity of the UGA Center for Food Safety.

Invited presentation/panelist, 2010 Food Safety Education Conference, U.S. Department of Agriculture and National Sanitation Foundation, March 24, 2010. Causes and Casualties: Gathering, Analyzing, and Learning from the Data.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. Composting Criteria for Animal Manure.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. The Importance of Produce Safety Management Practices to Enhancing Public Health.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Maryland, College Park, MD, April 7, 2010. Composting Criteria for Animal Manure.

Invited presentation, Education Day, Griffin Chamber of Commerce Leadership Class, Griffin, GA, April 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Seminar Series, U.S. Department of Agriculture – Agricultural Research Service, Wyndmoor, PA, April 12, 2010. Gaps in Producing Microbiologically Safe Produce.

Invited presentation, Health Journalism 2010, Association of Health Care Journalists, Chicago, IL, April 23, 2010. Why Is It So Difficult to Prevent Foodborne Illnesses?

Invited keynote presentation, 1st Korean International Conference on Food Safety and Quality, Seoul, South Korea, April 28, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Scientific Advisory Council Meeting, Solae, St. Louis, MO, May 5, 2010. Food Safety in the Plant – Best Practices in the Industry.

Invited presentation/moderator, Development of Dietary Guidance for Non-nutrient Dietary Components Meeting, Institute of Medicine Food Forum and International Life Sciences Institute - North America, Washington, DC, June 8, 2010. Discussion of Opportunities for Providing Dietary Guidance for Non-nutrient Dietary Components.

Invited keynote presentation, Frito-Lay Co-manufacturing Quality Summit, Dallas, TX, June 9, 2010. Charting the Course for Ensuring the Manufacture of Safe Food.

Invited presentation, USA Poultry and Egg Export Council Executive Conference and Annual Meeting, Austin, TX, June 18, 2010. International Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Produce Research Symposium, University of California – Davis Center for Produce Safety, Davis, CA, June 24, 2010. Composting Criteria for Animal Manure.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, May 27, 2010. Industry Challenges for Food Safety for Next 5 Years.

Invited keynote presentation, Frito-Lay Quality College, Dallas, TX, July 14, 2010. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, Oscar Mayer Meat Science Summit, Madison, WI, July 22, 2010. "Natural" Approaches to Mitigating Foodborne Pathogen Contamination of Meats.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. Ecology of *Listeria monocytogenes*: Factors that Make This Microbe an Effective Foodborne Pathogen.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. New Technologies to Control *Listeria* Contamination of Foods.

Invited plenary lecture, 22nd International Congress on Microbiology and Food Hygiene (ICMFH), Food Micro 2010 Congress, Copenhagen, Denmark, September 2, 2010. Microbial Behavior in Food Production.

Invited presentation, Food Safety Briefing, U.S. Representative John Barrow (Savannah, GA) and Staff, Athens, GA, September 13, 2010. Food Safety Challenges for the Food Industry: Opportunities for Government Involvement.

Invited presentation, Scientific Food Safety, Webinar, USDA – Food Safety Inspection Service, The Office of Public Health Science and The Office of Outreach, Employee Education and Training, Washington, DC, September 15, 2010. Reducing Pathogen Contamination on the Farm.

Invited keynote presentation, Nation's Restaurant News Food Safety Symposium, Charlotte, NC, September 20, 2010. Food Safety Challenges: Greater Than Ever and Growing.

Invited presentation, 2010 Food Safety Symposium, Nestle Purina PetCare Company, Englewood, CO, September 27, 2010. Food Safety Challenges for the Industry: Greater Than Ever and Growing.

Invited presentation, Plant Foods for Human Health Symposium, Healthy Foods, Healthy Lives Institute, University of Minnesota, St. Paul, MN, September 30, 2010. Plant Food Safety Issues.

Invited presentation, Food Safety Advisory Council Meeting, McDonald's, Oak Brook, IL, October 11, 2010. Emerging Food Safety Challenges and Opportunities.

Invited presentation, Seminar Series, Center for Drug Discovery, University of Georgia, Athens, GA, October 18, 2010. A Unique and Effective Antimicrobial Treatment for Foods with Medical Applications.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, November 10, 2010. Strategies for Promoting Food Safety Globally.

Invited presentation, Seminar Series, Gwinnett County Environmental Health Department, Gwinnett, GA, November 22, 2010. An effective food wash for decontaminating produce and poultry.

Invited presentation/interview, WKEU Radio, Griffin, GA, November 23, 2010 (90 minutes). What's New in Food Safety?

Invited presentation, Seminar Series, U.S. Food and Drug Administration, College Park, MD, December 7, 2010. Opportunities for Raising the Bar for Food Safety.

Invited presentation, Core Seminar Series, Ecolab, St. Paul, MN, December 16, 2010. Food Safety Challenges for the Food Industry: Greater Than Ever and Growing.

Invited presentation, American Farm Bureau Federation Tour, January 7, 2011. Research Activities at the Food Safety Challenges for the Industry: Greater than Ever and Growing.

Invited presentation, Food Processing Media Tour, Georgia Department of Economic Development, Atlanta, GA, March 16, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Drinking Raw Milk.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Eating Fresh Produce.

Invited presentation, Center for Food Safety Annual Meeting, Atlanta, GA, March 1, 2011. Tribute to Bruce Cords.

Invited presentation, General Mills Internal Technical Conference, Minneapolis, MN, March 3, 2011. Microbiological Food Safety Challenges for Produce Developers.

Invited presentation, International Poultry Council Spring Meeting, Rome, Italy, April 7, 2011. International Expert Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Georgia Council for International Visitors, Pakistan Scientists, Griffin, GA, May 6, 2011. Research Activities at the UGA Center for Food Safety.

Invited keynote presentation, Symposium, American Society for Microbiology Annual Meeting, New Orleans, LA, May 23, 2011. The Food Safety Risks Associated with a Global Food Supply.

Invited Media Interview, American Society for Microbiologists Annual Meeting, New Orleans, LA. May 23, 2011. Impact of Globalization on the Food Supply.

Invited Member/presentation, Solae Science Advisory Board, St. Louis, MO, May 24, 2011. Food Safety & Modernization Act & FDA's Reportable Food Registry: Perspective for Food Ingredient Suppliers.

Invited keynote presentation, NSF Workshop, Atlanta, GA, June 16, 2011. Current Issues in Food Safety and the Need for Rapid Pathogen Detection.

Invited keynote speaker, U.S. Food and Drug Administration's 1st Annual Foods Program Science and Research Conference. Washington, DC, June 22, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges

Invited presentation, Radio Interview, WKEU, Griffin, GA, June 23, 2011. Food Safety.

Invited presentation, Girl Scouts of Greater Atlanta Robotics Team Food Safety Tour, Griffin, GA June 23, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, IAFP 2011 Annual Meeting, Milwaukee, WI, August 3, 2011. Microbiological Safety of Spices: A Paradigm Shift.

Invited presentation, ConAgra Foods Food Safety Advisory Council, Chicago, IL, August 10, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited Lecturer, Association of Food and Drug Officials of the Southern States, Fall 2011 Conference, Gatlinburg, TN, September 13, 2011. The Changing Dynamics of the U.S. Food Supply.

Invited Seminar Presentation, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, September 19, 2011. Reducing *Salmonella* contamination with levulinic acid and a surfactant.

Invited Presentation, Nestlé Purina PetCare Food Safety Symposium, Denver, CO, September 27, 2011. Future Trends in Food Safety.

Invited Keynote presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, October 3, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges?

Invited presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, "Afternoon of Science" Workshop. October 3, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oakbrook, IL, October 19-20, 2011. Current Topics in Food Safety.

E. coli FAQ Report Invited contributor. American Society for Microbiology, Washington, DC, 2011.

Invited presentation, Conference on Emerging and Persistent Infectious Disease: Focus on Mitigation,

Institute on Science for Global Policy, Edinburgh, Scotland, October 23-26, 2011. The public health significance of food safety.

Invited presentation, EPS Montreal International Gene Conference, Montreal, Quebec, Canada, November 3-4, 2011. Reducing the Carriage of Food borne Pathogens in Livestock and Poultry.

Invited panelist and presentation, Les Dames d'Escoffier International Conference, Atlanta, GA, November 4, 2011. What Not to Eat Today: Allergens, Pathogens, Toxins! Oh My!

Invited keynote presentation, 6th International Conference for Food Safety and Quality, Chicago, IL, November 8, 2011. The Importance of Detection Methods for Food Safety and Quality.

Invited keynote presentation and Invited Panel Member, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 19, 2011. Public Health and Microbiology Food Safety Challenges for the Food Industry.

Invited presentation, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 20, 2011. Antibiotic Resistance: Implications for the Food System.

Invited Speaker, FDA, CDC, USDA FSIS, USDA ARS, and USDA CNPP Public Meeting, Silver Spring, MD, November 10, 2011. Approaches to Reducing Sodium Consumption.

Invited presentation, Institute of Medicine/Forum on Microbial Threats. Washington, DC, December 13-14, 2011. Plant Food Safety Issues: Linking Production Agriculture with One Health.

Invited presentation, UGA Support Group, Athens, GA, January 12, 2012. UGA Center for Food Safety's Leadership Role in Advancing Food Safety Issues Nationally and Internationally.

Invited presentation, Food Safety Workshop, "Human Pathogens on Plants: Multidisciplinary Strategy for Research," University of Maryland, Hyattsville, MD, February 13-15, 2012.

Invited presentation, Bettcher Industrial/Gainco Industry Council, Atlanta, GA, March 9, 2012. Food Safety: Impact of New Food Safety Regulations including the Food Safety Modernization Act and *Salmonella* Initiative on the Food and Beverage Industry.

Invited Symposium presentation, 63rd North Central Avian Disease Conference, St. Paul, MN, March 12-13, 2012. Controlling Foodborne Bacterial Pathogens in Poultry.

Invited speaker, Massachusetts Institute of Technology Journalists' Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 27-30, 2012. Food Safety – A glimpse at the future.

Invited keynote speaker. Georgia Food Safety Defense Task Force, Decatur, GA, April 5, 2012. "VoluntaryNet: A CDC-Food Industry-UGA Center for Food Safety Food Safety Collaboration.

Invited presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012, "Food additives: Challenges while delivering food safety."

Invited keynote presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012. “A glimpse at the future of food safety.”

Invited presentation, Institute of Medicine, National Academies of Science Workshop on Environmental Externalities and Public Health Effects of Food Products. Washington, DC, April 23-24, 2012. Public health consequences of antimicrobial resistance.

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2012. The ecology of safe food.

Invited Expert. Radio Station WKEU, Griffin, GA, Asian Fish Imports, 2012.

Invited presentation, American Association for Dental Research, 2012, A novel formulation effective in killing oral biofilm bacteria, Tampa, FL.

Invited presentation, 10th Fumigants & Pheromones Conference & Workshop, “Pest Management Around the World.” Indianapolis, IN, May 16-18, 2012. The Changing Dynamics of the US Food Supply and Major Food Safety Implications.

Invited presentation and convener, ASM Annual Meeting Special Interest Symposium. San Francisco, CA, June 17, 2012. Striking the balance in fresh product: Food safety, animal control, water sourcing and environmental impact – research issues in microbiology.

Invited Presentation, ASM General Meeting, San Francisco, CA, June 17, 2012. “Produce Safety – A growing public health concern?”

Invited Keynote Dinner Presentation, Global ATM Summit, The Solae Company, , St. Louis, MO , June 21, 2012. “Food/ingredient safety issues and trends.”

Invited presentation, IFT Annual Meeting, Las Vegas, NV, June 24-28, 2012. Improving the Safety of Fresh Produce: An Integrated Approach.

Invited Reviewer, “Biotechnological approaches for control of *Listeria monocytogenes* in foods,” Current Biotechnology,” June 2012.

Invited video presentation, World Food Prize Borlaug Medallion video. June 2012. UGA Center for Food Safety Research,

Invited Presentation, Georgia Poultry Federation, Ponte Vedra Beach, FL, July 19, 2012. Reducing *Salmonella* contamination of Poultry with levulinic acid and a detergent.

Invited presentation, 2012. World Poultry Congress, Salvador, Bahia, Brazil, August 5-8, 2012. The Next Generation of Microbiological Testing of Foods.

Invited presentation, CAES Advisory Council, Griffin, GA, August 15, 2012, “The changing dynamics of the U.S. food supply and major food safety challenges.”

Invited presentation, CDC PulseNet/OutbreakNet Conference, Atlanta, GA, August 27-30, 2012. An Academic's Perspective on the Food Industry to Ensuring Safe Foods.

Invited presentation, Nestlé Purine PetCare Company, Food Safety Symposium, Englewood, CO, September 24-27, 2012. Future Trends in Food Safety: The Changing Dynamics of the U.S. Food Supply and Major Food Safety Challenges.

Invited presentation, UGA Center for Food Safety, Griffin, GA, September 30, 2012. Visiting scientists from the Dominican Republic, "Research Activities at the UGA Center for Food Safety."

Invited presentation and Chair, McDonald's Food Safety Advisory Council Meeting. Oak Brook, IL, October 16-17, 2012. What does it take to be an industry leader in ensuring the safety of foods?

Invited presentation, SSAFE Board Meeting. Chateau Elan, Winder, GA, October 21, 2013. Global Food Safety: Challenges and Opportunities.

Invited keynote presentation, XXI Latin American Congress of Microbiology Santos, Sao Paulo, Brazil, , October 29-November 1, 2012. "The Safety of Our Foods: A glimpse at the Future of the Microbiological Safety of Foods.

Invited Speaker, The Pew Charitable Trusts, "Foodborne Urinary Tract Infections (FUTIs): Assessing the State of the Science.cathy" Washington, DC, February 11-12, 2013.

Invited participant, Georgia Dept of Agriculture, Atlanta, GA, March 20, 2013. FSMA Proposed Produce Safety Rule.

Invited speaker, Massachusetts Institute of Technology Journalists' Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 26-29, 2013. Food Safety – A glimpse at the future.

Invited presentation, DuPont-Solae SAB Meeting, May 23, 2013. "The effect of globalization and the FDA-FSMA on managing food safety by food ingredient manufacturers."

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2013. The ecology of safe food.

Invited presentation/interview, WKEU Radio, Griffin, GA, Summer Food Safety June 18, 2013 (90 minutes).

Invited Presentation, July 18, 2013. Poultry-related food safety research at the UGA Center for Food Safety. Georgia Poultry Federation, Ponte Vedra Beach, FL

Invited keynote speaker. 7th International Conference for Food Safety and Quality, Chicago, IL, November 13-14, 2012. "The importance of detection methods for food safety and quality."

Invited presentation. 2013. Federation of Animal Science Societies, Washington, DC, June 4, 2013, "IFT Status Summary on "Antibiotic Resistance,"

Invited Speaker. Korean Food Association Annual Meeting, South Korea, Innovations in Food Science for 02/2015

Human Well-Being as a key expert. “A Glimpse at the Future of the Microbiological Safety of Foods,” August 28-30, 2013.

Invited presentation, Osher Lifelong Learning Institute, University of Georgia, Athens, GA, November 22, 2013. “Food Safety: A Glimpse at the Future.”

Invited Presentation, Nestle Purina 2013 Food Safety Symposium, September 26, 2013, “Future Trends in Food Safety,” Englewood, CO.

Invited Presentation, 2nd Annual World Congress of Food Science and Technology, Hangzhou, CHINA. September 22-26, 2013, Innovative Approaches for Reduction of Foodborne Pathogens on Products, (presented by Tong Zhao).

Invited Speaker, 3rd Asia Pacific International Conference on Food Safety, Taipei, Taiwan, October 29 to November 1, 2013.

Invited Speaker, Kiwanis Club of Griffin Farm City Week, November 27, 2013. Protecting the Nation’s Food Supply.

Invited presentation, International Life Sciences Institute (ILSI) Annual Meeting/FNSP Meeting, South Hampton, Bermuda, January 19, 2014. Food Safety Emerging Issues.

Invited presentation, International Life Sciences Institute (ILSI), South Hampton, Bermuda, January 21, 2014. One ILSI: Food and Water Safety.

Invited Speaker. U.S. Food and Drug Law Institute and Emory School of Law, Atlanta, GA. January 29, 2014. CDC/FDA: Cooperation and Coordination: FSMA, Food Outbreaks, Emerging Health Issues.

Invited panelist, WATT Global Media, “Consumer Trust in Poultry.” Bridging the gap between where we are and where we need to be, Atlanta, GA, January 29, 2014.

Invited speaker, Massachusetts Institute of Technology Journalists’ Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 25-28, 2014. Food Safety – A glimpse at the future.

Invited Speaker, American Academy of Microbiology, Days of Microbiology, Belgrade, Serbia. April, 2014. Chemical Treatments to Kill Foodborne Pathogens. (Virtual Presentation).

Invited participant, Webcast, WATT Publishing, “Consumer trust and poultry; Bridging the gap between where we are and need to be.” April 10, 2014.

Invited Keynote Speaker, Pest Invasion. Oakbrook Terrace, IL. “Food Borne Illness Case Studies and Prevention. April 15, 2014.

Invited Co-Chair, International Food Information Council (IFIC), IFIC Physicians Roundtable on Antibiotic resistance, Washington, DC, April 16-17, 2014.

Invited Presentation, International Food Information Council (IFIC), IFIC Physicians Roundtable on
02/2015

Antibiotic Resistance, “Facing the Challenge of Food,” Washington, DC, April 16, 2014.

Invited presentation, Georgia Council for International Visitors, Chinese Scientists, Griffin, GA, April 21, 2014. Research Activities at the UGA Center for Food Safety on food and produce safety.

Invited Presentation, UGA College of Veterinary Medicine. May 14, 2014. The Ecology of Safe Food.

Invited Presentation. DuPont Scientific Advisory Council. Future directions: impact of CDC’s foodborne disease surveillance, FDA/DOJ regulatory activity, and consumer attitudes regarding food ingredients/food additives, St. Louis, MO, May 14, 2014.

Invited Speaker. Athens Businessmen’s Group, Athens, GA. Research at University of Georgia Center for Food Safety, “Food safety: A glimpse at the future.” May 18, 2014.

Invited Participant. Collaborative Food Safety Forum Workshop. Washington, DC, June 28, 2014.

Invited Presenter, Roundtable, Public and Private Food Safety Research Funding: Where should the money go? International Association for Food Protection Annual Meeting, Indianapolis, IN, August 6, 2014.

Invited Keynote Dinner Speaker. National Science Foundation Workshop, Alexandria, VA, “Food Safety Challenges: Research Opportunities for NSF.” October 29, 2014.

Invited Speaker. Assoc. Food & Drug Offic. of Southern States (AFDOSS), Gatlinburg, TN, “Increasing opportunities in food safety: In search of solutions,” September 8, 2014.

Invited Speaker, Nestle Purina Food Safety Symposium, Denver, CO. “New Trends in Food Safety,” Sept. 22-25, 2014.

Invited Seminar Speaker, 2014. FDA Southeast Region Retail Food Safety Seminar in Savannah, GA

Invited Speaker. National Extension and Experiment Station Directors meeting, Jekyll Island, GA, September 29-October 1, 2014.

Invited Expert Speaker. Intl. Food Information Council (IFIC) Foundation 2014 Farm Tour for Registered Dietitians, “State of US Agriculture, Pressures on Farmers, Poultry Safety Issues and Use of Animal Antibiotics on the Farm,” Atlanta, GA, Oct. 17, 2014.

Invited Speaker, 2015 One Health Seminar, Univ of GA, Athens, GA. Safe Foods through “One Health,” January 14, 2015.

Invited Seminar Speaker, Jan. 2015. Safe Foods through One Health, University of Georgia, Athens, GA

Invited Keynote Speaker. 2016. Frazier Lecture, Food Research Institute, University of Wisconsin-Madison, May, 2016.

Invited Keynote Speaker. Southern Section of AOAC International 29th Annual Meeting , Challenges in Food Protection: A Global Opportunity, April 14, 2015.

02/2015

Invited Keynote Speaker, 29th Annual Meeting of the Southern Section of the AOAC International in Atlanta, GA, April 14, 2015. “Challenges in Food Protection: A Global Opportunity”

Invited Lecture , Introductory Microbiology, University of Georgia, Athens, Georgia, September 18, 2015.

Invited Speaker, UGA Arch Alumni Seminar, Facing the Challenges of Safe Food, Athens, GA, May 2, 2015.

Invited Speaker, Georgia Veterinary Scholars Program, “The Ecology of Safe Food”, University of Georgia, Athens, GA, May 15, 2015.

RESEARCH SUPPORT

Starbucks, Gift, Center for Food Safety Research, June 2015-June 2016, \$25,000.00. (PI)

Kroger Co., Gift, Center for Food Safety Research, June 2015-June 2016, \$5000.00. (PI)

Neogen Corporation, Gift, Center for Food Safety Research, May 2015-May 2016, \$5,000. (PI)

Hormel Foods Corporation, Gift, Center for Food Safety Research, May 2015-May 2016. \$25,000.00

ConAgra Foods, Gift, Center for Food Safety Research, May 2015-May 2016. \$25,000.00

The Coca-Cola Company, Gift, Center for Food Safety Research, May 2015-May 2016. (PI)

Foster Farms, Gift, Center for Food Safety Research, May 2015-May 2016, \$25,000.00 (PI)

Ecolab, Gift, Center for Food Safety Research, May 2015-May 2016, \$25,000.00 (PI)

MOM Brands, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000.00 (PI)

Earthbound Farm, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

East Balt Bakeries, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000.00 (PI)

General Mills, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

The Cheesecake Factory, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000 (PI)

Burger King Corp., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Roka Bioscience, Inc., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Wegmans Food Markets, Inc., Center for Food Safety Research, December 2014-December 2015, \$5,000(PI)

Chobani, Gift, Center for Food Safety Research, March 2015-March 2015-March 2016, \$20,000 (PI)

Avendra LLC, Gift, Center for Food Safety Research, February 2015-February 2016, \$2,500 (PI)

Golden State Foods, Gift, Center for Food Safety Research, January 2015-January 2016, \$5,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Solae LLC (DuPont), Gift, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kellogg's, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kraft Foods, Inc., Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Cargill, Inc., Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Fresh Express, Center for Food Safety Research, December 2014-December 2015, \$5000 (PI)

Unilever , Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Loblaw Companies, Ltd., Gift, Center for Food Safety Research, November 2014-November 2015, \$20,000 (PI)

Unilever , Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI)

Jack in the Box, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

Michael Foods, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

BCN Research Laboratories, Center for Food Safety Research, September 2014-September 2015, \$1,000 (PI)

Perdue Farms Inc., Center for Food Safety Research, August 2014-August 2015, \$5,000 (PI)

Mars, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Nestlé, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Danisco, Gift, Center for Food Safety research, December 2009-December 2010, \$20,000 (PI).

Malt-O-Meal, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Kellogg's, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, November 2009 - November 2010, \$5,000 (PI).

Wegman's Food Markets, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Kraft Foods, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

General Mills, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Silliker, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

YUM! Brands, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Perdue Farms, Gift, Center for Food Safety research October 2009 - October 2010, \$5,000 (PI).

Mead Johnson Nutritionals, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Inactivation of *Campylobacter* and *Salmonella* on poultry, August 2009 - July 2010, \$80,750 (PI).

SuperValu, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Chemical treatment to reduce *Escherichia coli* O157:H7, *Listeria monocytogenes* and *Salmonella* contamination on lettuce and tomatoes, July 1, 2009 - June 30, 2010, \$80,750 (Co-PI).

YUM! Brands, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, July 2009 - July 2010, \$20,000 (PI).

Mott's LLP (Dr. Pepper), Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Hormel Foods, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Unilever, Gift, Center for Food Safety research, August 2009 - August 2010, \$20,000 (PI).

Taco Bell, Grant, Fate of *Salmonella* in salsa, \$6,988 (PI).

Campbell's, Gift, Center for food Safety research, June 2009 - June 2010, \$20,000 (PI).

PepsiCo, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety Research, May 2009 - May 2010, \$5,000 (PI).

American Meat Institute Foundation, Grant, March 1, 2009 - February 28, 2011, Reduction of *E. coli* O157:H7 and *Salmonella* in ground beef, \$72,720 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2009- April 2010, \$5,000 (PI).

Publix Super Markets, Gift, Center for Food Safety research, February 2009 - February 2010, \$20,000 (PI).

Burger King, Gift, Center for food Safety research, January 2009 - January 2010, \$5,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, December 2008 - December 2009, \$20,000 (PI).

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Data collection for food safety risk assessment in support of the Expert Panel report on *Salmonella* in raw poultry, January 2009 - October 2010, \$264,000 (PI)

Caudill Seed Company, Grant, Evaluation of chemical solution recently developed for reduction of *Salmonella* and *E. coli* O157:H7 in alfalfa seeds and sprouts, October 2008-September 2009, \$3450 (PI)

Danisco, Gift, Center for Food Safety research, September 2008-September 2009, \$20,000 (PI)

Purfresh, Gift, Center for Food Safety research, September 2008-September 2009, \$1,000 (PI)

McDonald's, Gift, Center for Food Safety research, September 2008 - September 2009, \$20,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2008 -September 2009, \$20,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, September 2008 - September 2009, \$1,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, August 2008 - August 2009, \$5,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2008 - August 2009, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kraft Foods, Gift, Center for Food Safety research, August 2008 - August 2009, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

FoodPAC, Grant, Reduction of *Salmonella* Enteritidis in preharvest poultry, July 2008 - June 2009, \$136,500 (PI)

Leprino Foods, Gift, Center for Food Safety research, July 2008 - July 2009, \$5,000 (PI)

U.S. Poultry & Egg Association, Grant, International working group report on tolerance for *Salmonella* on raw poultry, July 2008 - June 2010, \$200,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Hershey's, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

3M, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Ecolab, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

PepsiCo, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

Zep, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Silliker, Gift, Center for Food Safety research, April 2008 - April 2009, \$1,000 (PI)

Sara Lee, Gift, Center for Food Safety research, February 2008 - February 2009, \$5,000 (PI)

Ross Systems, Gift, Center for Food Safety, March 2008 - March 2009, \$1,000 (PI)

Hanson Technologies, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

SuperValu, Gift, Center for Food Safety research, March 2008 - March 2009, \$5,000 (PI)

Grocery Manufacturers Assn, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Chef Solutions, Gift, Center for Food Safety research, February 2008 - February 2009, \$1,000 (PI)

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Food safety expert to participate in the 2008 Dubai Food Safety Conference, February 2008 - March 2008, \$5,280 (PI)

ConAgra, Grant, Efficacy of gaseous ozone to eliminate musty off odors and reducing microbiological populations in wheat, August 2008 - July 2009, \$52,468

Great Eastern Mussel Farm, Grant, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004 - June 2008, \$16,000 (PI)

Hormel Foods, Gift, Center for Food Safety research, February 2008 - February 2009, \$20,000 (PI)

ConAgra Foods, Grant, *Salmonella* detection, February 2008, \$26,500 (PI)

Publix Super Markets, Gift, Center for Food Safety research, January 2008 - January 2009, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2008 - January 2009, \$5,000 (PI)

Ecolab, Grant, Efficacy of antimicrobial agents to reduce transfer of *Escherichia coli* O157:H7 on lettuce pieces, November 2007 - June 2008, \$37,506, (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2007, \$15,000 (PI)

Gerber Products, Gift, Center for Food Safety research, December 2007-December 2008, \$20,000 (PI)

Kroger, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant (#223042500), Anaerobic vacuum spoilage, August 2007-March 2008, \$20,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Centers for Disease Control and Prevention, Contract, Detecting and controlling foodborne pathogens, July 2007-June 2008, \$99,999 (PI)

ACH Food Companies, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Schreiber, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

American Meat Institute, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

ConAgra Foods, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Danisco, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

The Coca-Cola Company, Gift Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Pilgrim's Pride, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

U.S. Department of Agriculture-CSREES, NIFSI, Grant, A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens, September 2007-September 2011, \$2,500,000 (PI)

Fresh Express, Gift, Center for Food Safety research, July 2007-July 2008, \$1,000 (PI)

Novazone, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Campbell's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,750 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

ConAgra Foods, Grant, Thermal inactivation of *Salmonella* in peanut butter, June 2007-June 2010, \$245,000 (PI)

Cargill, Gift, Center for Food Safety research, June 2007-June 2008, \$20,000 (PI)

Wegmans, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Fresh Express, Grant, Subsurface contamination and internalization of *E. coli* O157:H7 in preharvest lettuce, June 2007-June 2008, \$246,976 (PI)

Ross Systems, Gift, Center for Food Safety research, May 2007-May 2008, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2007-May 2008, \$20,000 (PI)

McDonald's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,000 (PI)

Unilever, Gift, Center for Food Safety research, May 2007-May 2008, \$5,000 (PI)

Grocery Manufacturers of America-FPA, Gift, Center for Food Safety research, April 2007-April 2008, \$1,000 (PI)

The Hershey Company, Gift, Center for Food Safety research, April 2007-April 2008, \$5,000 (PI)

Burger King Brands, Gift, Center for Food Safety research, February 2007-February 2008, \$5,375 (PI)

Quaker (PepsiCo), Gift, Center for Food Safety research, February 2007-February 2008, \$20,000 (PI)

Praxair, Gift, Center for Food Safety research, January 2007-January 2008, \$1,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2006-December 2007, \$10,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant, Anaerobic vacuum spoilage, December 2006-March 2008, \$24,380 (PI)

McDonald's, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

Sara Lee, Gift, Center for Food Safety research, November 2006-November 2007, \$5,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, October 2006-October 2007, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

The Coca-Cola Company, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

Gerber Products, Gift, Center for Food Safety research, August 2006-August 2007, \$20,000 (PI)

Wal-Mart Stores, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2006-August 2007, \$10,000 (PI)

John Morrell & Co., Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, July 2006-August 2007, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000

Great Eastern Mussel Farms/USDA SBIR, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004-December 2006 \$5,995 (PI)

General Mills, Gift, Center for Food Safety research, July 2006-July 2007, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, April 2006-December 2006, \$120,000 (PI)

Campbell's Gift, Center for Food Safety research, June 2006-June 2007, \$20,300 (PI)

Cargill, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$5,000 (PI)

Wegmans Food Markets, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Food Products Association, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

ConAgra, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Hershey, Gift, Center for Food Safety research, March 2006-March 2007, \$5,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2006-January 2007, \$5,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2006 - December 2006, \$20,000 (PI).

Kraft Foods Global, Gift, Center for Food Safety research, December 2005 - December 2006, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, December 2005 - December 2006, \$2,500 (PI).

Yum Brands, Gift, Center for Food Safety research, November 2005 - November 2006, \$5,000 (PI).

Quaker, Gift, Center for Food Safety research, Center for Food Safety research, November 2005 - November 2006, \$20,000 (PI).

USDA-CSREES NRI, Grant, From egg to carcass: Tracking the entry of poultry foodborne pathogens into the food chain, September 2005 - September 2008, \$890,000 (co-PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Sara Lee, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Bristol-Myers Squibb Company, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

AMI Foundation, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

The Coca-Cola Company, gift, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,500 (PI).

Battelle Memorial Institute (Centers for Disease Control and Prevention Defense Information Center), Contract, Confirmation of mass spectrometry-based analytical method to detect and differentiate active *Clostridium botulinum* toxins by mouse bioassay. September 2005 - December 2006, \$68,500 (PI).

General Mills, Gift, Center for Food Safety Research, September 2005 - September 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, August 2005 - August 2006, \$50,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

University of Georgia Research foundation, Indirect Costs, Food safety research, August 2005, \$6,100 (PI).

John Morrell, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

FoodPAC, Grant, Chemical intervention treatments to inactivate foodborne pathogens on poultry, July 2005 - June 2006, \$87,900 (PI).

American Foods Group, Gift, Center for Food Safety research, June 2005 - June 2006, \$1,000 (PI).

Gerber, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Cargill, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

ConAgra, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Purac America, Gift, Center for Food Safety research, March 2005 - April 2006, \$1,000 (PI).

Unilever Best Foods, Gift, Center for Food Safety research, April 2005 - April 2006, \$20,000 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

Chr. Hansen, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wegman's, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wal-Mart, Gift, Center for Food Safety research, March 2005 - March 2006, \$5,000 (PI).

Campbell's, Gift, Center for Food Safety research, February 2005 - February 2006, \$20,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, February 2005 - February 2006, \$5,000 (PI).

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2005 - December 2005, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, January 2005 - January 2006, \$15,000 (PI).

University of Georgia Research Foundation, Intellectual Property Return Probiotic Vaccine for *E. coli* O157:H7 in cattle, December 2004, \$14,601 (PI).

Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, January 2005-May 2007, \$135,001 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, January 2005-January 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, December 2004-December 2005, \$20,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, November 2004-November 2005, \$2,000 (PI).

John Morrell, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, November 2004-November 2005, \$2,500 (PI).

McDonald's, Gift, Center for Food Safety research, November 2004-November 2005, \$5,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, November 2004-November 2005, \$20,000 (PI).

American Meat Institute, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Abbott Laboratories (Ross Labs), Gift, Center for Food Safety research, October 2004-October 2005, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, October 2004-December 2004, \$5,000 (PI).

U.S. Food and Drug Administration, Contract, Use of packaging film oxygen permeability to allow aerobic spoilage organisms to grow and spoil the product before toxin is produced by *Clostridium botulinum* in fresh fish packaged under modified atmospheres, September 2004-March 2006, \$260,900 (PI).

Pilgrim's Pride, Gift, Center for Food Safety research, September 2004-September 2005, \$5,000 (PI).

The Clorox Company, Contract, Inactivation of *Salmonella* and *Campylobacter jejuni* by stabilized bleach, September 2004-March 2005, \$7,240 (PI).

USDA-NRI, Grant, Microbiological safety of composting process as animal manure treatment, September 30, 2004 - September 30 2007, \$600,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, August 2004-August 2005, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research, August 2004-August 2005, \$1,000 (PI).

Kraft, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, July 2004-July 2005, \$1,000 (PI).

Quaker (PepsiCo), Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

FoodPAC, Grant, Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant, July 2004 - June 2005, \$97,181 (PI)

International Food Protection, Grant, *Salmonella* reduction in poultry by competitive exclusion bacteria, July 2004-December 2004, \$75,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, June 30, 2004 - November 30, 2007, \$138,096 (PI)

Sara Lee, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, June 2004-June 2005, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2004-May 2005, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, May 2004 - June 2005, \$5,000 (PI)

Wegmans, Gift, Center for Food Safety research, May 2004 - June 2005, \$1,000 (PI)

General Mills, Gift, Center for Food Safety, research, April 2004 - May 2005, \$20,000 (PI)

Alpharma, Contract, Evaluation of antimicrobial activity of competitive exclusion bacteria, April 2004, \$500 (PI)

ConAgra, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Arrowsight, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Foods Group, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

Cargill, Gift, Center for Food Safety research, March 2004 - April 2005, \$5,000 (PI)

Michael Foods, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Chr Hansen, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

National Food Processors Association, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Hershey Foods, Gift, Center for Food Safety research, March 2004 -April 2005, \$5,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Wal-Mart, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Unilever Bestfoods, Gift, Center for Food Safety research, February 2004 - March 2005, \$20,000 (PI)

Purac America, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, February 2004 - March 2005, \$1,000 (PI)

McDonald's Gift, Center for Food Safety research, January 2004 - February 2005, \$5,000 (PI)

McDonald's, Gift, Center for Food Safety research, December 2003 - December 2004, \$5,000 (PI).

Kraft Foods, Inc., Grant, Cross-contamination of *Listeria monocytogenes* between slicing equipment and cured or non-cured turkey meat. December 2003 - December 2005, \$130,732 (PI).

The Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit growth of *Clostridium botulinum* in a novel live mussel pack. December 2003 - June 2004, \$25,000 (PI).

Abbott Laboratories (Ross Products Division), Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, October 2003- October 2004, \$2,500 (PI).

Mionix Corporation, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

US Foodservice, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

Campbell's, Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

John Morrell & o., Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle, September 2003 - September 2004, \$69,500 (PI).

American Meat Institute, Grant, Recovery, development and validation of appropriate surrogate microorganisms in meat and poultry emulsions for in-plant critical control point validation studies, September 2003 - September 2004, \$59,850 (PI).

American Meat Institute, Grant, The role of aerosols in transmission of microorganisms (including *Listeria*) in ready-to-eat meat/poultry products, September 2003 - September 2004, \$76,500 (PI).

U.S. Food and Drug Administration, Grant, Development of a waveguide immunoassay for *Yersinia pestis*, September 2003 - September 2006, \$600,000 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues. October 2003-September 2004, \$130,749 (PI).

U.S. Department of Agriculture, CSREES (Iowa State University), Food Safety Initiative Grant, Prioritizing opportunities to reduce foodborne disease. September 2003-September 2005, \$54,321 (PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection. July 2003-June 2005, \$139,309 (PI).

Wayne Farms LLC, Gift, Center for Food Safety research. July 2003-July 2004, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

American Meat Institute Foundation, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle. August 2003-August 2004, \$69,500 (PI).

FoodPAC, Grant, Use of antagonistic bacteria to reduce environmental contamination of food processing facilities by *Listeria monocytogenes*. July 2003-June 2004, \$85,920 (PI).

Perdue Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research. June 2003-June 2004, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research. May 2003-May 2004, \$20,000 (PI).

Zep Manufacturing Co., Gift, Center for Food Safety Research. May 2003-May 2004, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research. April 2003-April 2004, \$5,000 (PI).

Schreiber Foods, Gift, Center for Food Safety research. April 2003-April 2004, \$1,000 (PI).

Wegmans Food Markets, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research. February 2003- February 2004, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

DairiConcepts, Gift, Center for Food Safety research. February 2003-February 2004, \$2,000 (PI).

Kroger, Gift, Center for Food Safety research. February 2003-February 2004, \$5,000 (PI).

American Foods Group, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research. January 2003-January 2004, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research. December 2002-December 2003, \$5,000 (PI).

Kraft Foods, Grant, Cross-contamination of *Listeria monocytogenes* between processing equipment and food products, December 2002-December 2005, \$196,022 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues, November 2002-October 2003, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, December 2002-January 2004, \$1,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI).

Nestlé, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI)

Johnson Diversey, Gift, Center for Food Safety research, October 2002-November 2003, \$1,000 (PI).

Mionix, Gift, Center for Food Safety research, October 2002-November 2003, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2002-October 2003, \$1,000 (PI).

ConAgra, Gift, Center for Food Safety research, September 2002-October 2003, \$20,000 (PI).

Campbell's, Gift, Center for Food Safety research, September 2002-October 2003, \$20,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, September 2002-October 2003, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, September 2002-October 2003, \$5,000 (PI).

Acuity Brands, Gift, Center for Food Safety research, September 2002-October 2003, \$1,000 (PI).

John Morrell, Gift, Center for Food Safety research, August 2002-October 2003, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, September 2002-October 2003, \$25,000 (PI).

American Meat Institute Foundation, Gift, Center for Food Safety research, September 2002-October 2003, \$1,000 (PI).

Alpharma, Gift, Center for Food Safety research, October 2002-November 2003, \$1,000 (PI).

Schreiber Foods, Gift, Center for Food Safety research, June 2002-July 2003, \$1,000 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, June 2002-July 2003, \$5,000 (PI).

Eastman Chemical Company, Gift, Center for Food Safety research, June 2002-July 2003, \$1,000 (PI).

U.S. Food Service, Gift, Center for Food Safety research, June 2002-July 2003, \$1,000 (PI).

FoodPAC, Grant, Control of *Listeria monocytogenes* in ready-to-eat foods and in biofilm formation by competitive exclusion bacteria, July 2002-June 2003, \$102,514 (PI).

USDA-CSREES Grant, Alliance for Food Protection, July 2002-June 2004, \$137,026 (PI).

Wayne Farms, Gift, Center for Food Safety research, May 2002-June 2003, \$5,000 (PI).

American Meat Institute, Grant, Methods to Control *E. coli* O157:H7 in Drinking Water for Cattle, April 2002-May 2003, \$68,700 (PI).

Unilever Best Foods, Gift, Center for Food Safety research, April 2002-May 2003, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, April 2002-May 2003, \$5,000 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, April 2002-May 2003, \$5,000 (PI).

Georgia-Pacific, Gift, Center for Food Safety research, March 2002-April 2003, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, March 2002-April 2003, \$5,000 (PI).

McCormick & Company, Gift, Center for Food Safety research, March 2002-April 2003, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2002-April 2003, \$1,000 (PI).

Ecolab, Gift, Center for Food Safety research, March 2002-April 2003, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Gerber, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, February 2002-March 2003, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research, February 2003-March 2003, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Alpharma, Invention Income, Probiotic/vaccine for *E. coli* O157:H7 in cattle, January 2002, \$2491.

American Foods Group, Gift, Center for Food Safety research, December 2001-January 2003, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, December 2001-January 2003, \$20,000 (PI).

McDonald's, Gift, Center for Food Safety research, December 2001-January 2003, \$5,000 (PI).

Tropicana, Gift, Center for Food Safety research, December 2001-January 2003, \$20,000 (PI).

Nestlé, Gift, Center for Food Safety research, November 2001-December 2002, \$5,000 (PI).

Sara Lee, Gift, Center for Food Safety research, October 2001-October 2002, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, September 2001-August 2002, \$20,000 (PI).

Mionix Corp., Grant, Effect of KLS-1/2 treatment and cooking on the inactivation of *E. coli* O157:H7 in ground beef: Determination of D-values for *E. coli* O157:H7 in ground beef, October 2001-October 2002, \$10,000 (PI).

International Food Protection, Grant, Competitive exclusion cultures to reduce carriage of *Campylobacter jejuni* by poultry, September 2001-December 2002, \$263,078 (PI).

Food and Drug Administration, Grant, Determination of biomarkers of increased susceptibility to foodborne listeriosis using a primate model, October 2001-October 2002, \$75,000 (co-PI).

Hershey Foods Corporation, Gift, Center for Food Safety research, September 2001-December 2003, \$5,000 (PI).

Mionix, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety research, August 2001-August 2002, \$2,500 (PI).

Georgia Department of Human Resources, Grant, Research support on food safety issues, September 2001-September 2002, \$120,000 (PI).

Johnson Wax Professional, Gift, Center for Food Safety research, August 2001-August 2002, \$1,000 (PI).

Chick-fil-A, Gift, Sensory quality and safety of fresh-cut produce, July 2001-July 2002, \$2,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Campbell Soup Co., Gift, Center for Food Safety research, July 2001-July 2002, \$20,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Alpharma, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Schwan's, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

FoodPAC, Grant, Reduction of *Campylobacter jejuni* on food products by treatment with GRAS chemicals, July 2001-June 2002, \$130,900 (PI).

FoodPAC, Grant, Intervention strategy to reduce *Campylobacter* carriage in chickens, July 2001-June 2002, \$160,000 (co-PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection, July 2001-June 2003, \$140,003 (PI).

American Meat Institute, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

International Food Protection, License Agreement with UGARF, Probiotic bacteria to reduce carriage of *E. coli* O157:H7 by cattle, June 2001, \$25,000 (Senior Inventor).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, June 2001-June 2002, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, May 2001-May 2002, \$1,000 (PI).

Alpharma, Contract, Evaluation of the efficacy of competitive *E. coli* to reduce the fecal excretion of *E. coli* O157:H7 in beef cattle, May 2001-June 2002, \$17,250 (PI).

Emmpak Foods, Gift, Center for Food Safety research, May 2001-May 2002, \$1,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, May 2001-November 2004, \$20,204 (PI).

Kroger, Gift, Center for Food Safety research, April 2001-April 2002, \$5,000 (PI).

U.S. Food and Drug Administration, Grant, Development of a risk assessment dose-response model for foodborne *Listeria monocytogenes*, April 2001-September 2002, \$151,950 (co-PI).

Golden State Foods, Gift, Center for Food Safety research, April 2001-April 2002, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, March 2001-March 2002, \$15,000 (PI).

Bestfoods, Gift, Center for Food Safety research, March 2001-March 2002, \$20,000 (PI).

Wegmans, Gift, Center for Food Safety research, March 2001-March 2002, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research, March 2001-March 2002, \$5,000 (PI).

ConAgra, Gift, Center for Food Safety research, February 2001-February 2002, \$20,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research, February 2001-February 2002, \$5,000 (PI).

Wayne Farms, Inc., Gift, Center for Food Safety research, February 2001-February 2002, \$5,000 (PI).

General Mills, Gift, Center for Food Safety research, February 2001-February 2002, \$15,000 + 5,000 (PI).

Michael Foods, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research, March 2001-March 2002, \$1,000 (PI).

U.S. Food and Drug Administration, Grant, Inactivation of pathogens on produce by GRAS chemicals, January 2001-July 2001, \$57,807 (PI).

International Food Protection, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

International Food Protection, Grant, Isolation and characterization of potential probiotic bacteria with anti-*Salmonella* Typhimurium DT104 activity, May 2001-May 2002, \$28,084 (PI).

National Food Processors Association, Gift, Center for Food Safety research. January 2001-December 2001, \$2000 (PI).

Ecolab, Gift, Center for Food Safety research, January 2001-December 2001, \$5,000 (PI).

Hershey Foods Corporation, Gift, Center for Food Safety research, January 2001-December 2001, \$5,000 (PI).

Gerber, Gift, Center for Food Safety research, January 2001-December 2001, \$20,000 (PI).

McDonald's, Gift, Food safety research on thermal inactivation of *E. coli* O157:H7, November 2000 - December 2005, \$10,000 (PI).

American Foods Group, Gift, Center for Food Safety research, December 2000-December 2001, \$1,000 (PI).

Nestlé, Gift, Center for Food Safety research, December 2000-December 2001, \$5,000 (PI).

PepsiCo, Gift, Center for Food Safety research, January 2000-January 2001, \$20,000 (PI).

Kraft, Grant, Cross-contamination of *Listeria monocytogenes* between processing equipment and food products, December 2000-December 2005, \$204,815 (PI).

Georgia Department of Public Health, Grant, Research support on food safety issues, December 2000-December 2001, \$80,040 (PI).

American Meat Institute Foundation, Grant, Control of *Listeria monocytogenes* in food processing facilities by competitive exclusion microorganisms, January 2001-July 2002, \$95,045 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, November 2000-November 2001, \$5,000 (PI).

International Food Protection, Grant, Competitive exclusion cultures to reduce carriage of *Campylobacter jejuni* by poultry, November 2000-October 2001, \$223,665 (PI).

Borden, Gift, Center for Food Safety research, August 2000-August 2001, \$1,000 (PI).

USDA, Initiative for Future Agriculture and Food Systems Grants Program, Grant, Safe Produce Production Using Manure, September 2000-August 2003, \$560,000 (PI).

A. C. Humko Corp., Gift, Center for Food Safety research, September 2000-September 2001, \$1,000 (PI).

Morningstar Diagnostics, Gift, Center for Food Safety research on thermal inactivation of *E. coli* O157. September 2000-September 2001, \$3,000 (PI).

U.S. Department of Agriculture, Special Grant, Alliance for Food Protection, August 2000-July 2002, \$140,325 (PI).

Heinz, Gift, Center for Food Safety research on antimicrobial produce treatments, July 2000-July 2001, \$5,500 (PI).

Alpharma, Gift, Center for Food Safety research, July 2000-July 2001, \$1,500 (PI).

Applied Food Biotechnology, Gift, Center for Food Safety research, July 2000-July 2001, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, July 2000-July 2001, \$20,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, June 2000-June 2001, \$20,000 (PI).

Frito-Lay, Gift, Center for Food Safety research, June 2000-June 2001, \$5,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety research, June 2000-June 2001, \$2,500 (PI).

Alpharma, Gift, Center for Food Safety research, June 2000-June 2001; \$1,200 (PI).

Johnson Wax, Gift, Center for Food Safety research, June 2000-June 2001, \$1,000 (PI).

Morningstar Diagnostics, Gift, Food safety research on thermal inactivation of *E. coli* O157:H7 in ground beef, June 2000-June 2001, \$5,000 (PI).

Georgetown University/ABC News 20/20, Grant, Microbiological safety of organic produce, June 2000-November 2000, \$15,620 (PI).

Alpharma, Grant, Effect of probiotics on reducing carriage of *Escherichia coli* O157:H7 by cattle, January 2000-July 2001, \$20,980 (PI).

Nestlé, Gift, Center for Food Safety and Quality Enhancement research, November 1999-November 2000, \$5,000 (PI).

Costco Companies, Gift, Center for Food Safety and Quality Enhancement research, January 2000-January 2001, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety and Quality Enhancement research, February 2000-February 2001, \$5,000 (PI).

American Air Liquide, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$1000 (PI).

Campbell, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$20,000 (PI).

U. S. Department of Agriculture, Special Grant, Alliance for Food Protection, April 1996-March 2000, \$421,371 (PI; Co-PI, S. L. Taylor, University of Nebraska).

Hormel Foods Corporation, Contract, Fate of bacteria in meat. March 1995 - December 1996, \$94,500 (Co-PI; PI, Mark Harrison).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement renovation funds (\$250,000), laboratory equipment (\$275,000), and research projects (\$75,000), July 1, 1995 - June 30, 1996, Total \$600,000 (PI).

Georgia Governor's Development Council on Food Processing, Grant, Center for Food Safety and Quality Enhancement building addition, July 1995 - June 1996, \$7,000,000. (PI).

Schwan's Sales Enterprises, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, April 1995-May 1996, \$5,000 (PI).

U. S. Department of Agriculture-ARS, Grant, Control of Campylobacter in poultry, October 1995-September 1996, \$38,196 (PI; N. J. Stern, Co-PI).

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, February 1995-January 1996, \$20,000 (PI).

Best Foods, Grant, Microbiological risk assessment for high moisture peanut butter residue, July 1, 1995 - June 30, 1996, \$27,181 (Co-PI; PI, Robert Brackett).

Borden, Gift, Center for Food Safety and Quality Enhancement research, March 1995-April 1996, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

The Vons Company, Gift, Center for Food Safety and Quality Enhancement research, October 1995-September 1996, \$20,000 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, May 1995-May 1996, \$5,000 (PI).

Kraft, Gift, Center for Food Safety and Quality Enhancement research, September 1995-October 1996, \$20,000 (PI).

Kraft Foods Company, Grant, Microbiology of Process Cheese, January 1995-July 1997, \$1,006,000. (Co-PI; PI, R. E. Brackett).

Sizzler International, Grant, Escherichia coli O157:H7 in mayonnaise, August 1993-June 1994, \$14,000 (PI).

American Meat Institute Foundation, Grant, Development of species specific probiotic and vaccine candidate for *E. coli* O157:H7 in cattle, July 1994-November 1996, \$1,001,161 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, October 1994-1995, \$15,000 (PI).

USDA National Research Initiative, Competitive Grants Program, Grant, Characterization of unique outer membrane proteins of Escherichia coli O157:H7 and their involvement in cell adherence, October 1994-September 1996, \$174,429 (PI).

Kraft General Foods, Gift, Center for Food Safety and Quality Enhancement research, August 1994-1995, \$20,000 (PI).

The Vons Company, Gift, Fingerprinting enterohemorrhagic *Escherichia coli* O157:H7, October 1994-October 1995, \$20,000 (PI).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement building planning grant (\$250,000) and laboratory equipment (\$250,000) July 1, 1994 - June 30, 1995, Total \$500,000 (PI).

Association for Dressings & Sauces, Grant, Survival of *E. coli* O157:H7 in mayonnaise and reduced calorie mayonnaise, April 1, 1994-March 31, 1995, \$15,755 (Co PI; PI, L. R. Beuchat).

Westreco, Gift, Center for Food Safety and Quality Enhancement research, November, 1994-95, \$5,000 (PI).

Schwan Sales, Gift, Center for Food Safety and Quality Enhancement research, March 1994-95, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, June 1994-95, \$5,000 (PI).

National Live Stock and Meat Board, Grant, Development of a sensitive and specific DNA-based polymerase chain reaction assay for detection of enterohemorrhagic Escherichia coli O157:H7, June 1994-May 1995, \$47,500 (PI).

Pet, Inc., L&F Products, Continental Grain, Rhone-Poulenc, Reckitt & Colman, Ecolab, National Food Processors Association, International Fresh-cut Produce Association, Gerber Products, Gifts, Center for Food Safety and Quality Enhancement research, 1994-1996, \$11,500 (PI).

McDonald's Corporation, Gift, Control of Escherichia coli O157:H7 in foods, October, 1993-January 1995, \$40,000 (PI).

Golden State Foods, Gift, Detection of Escherichia coli O157:H7, June 1993-June 1994, \$10,000 (PI).

Westreco, Inc., Gift, Inhibitors of psychrotrophic Bacillus cereus. April 1993-December 1994, \$25,000 (Co-PI; PI, R. E. Brackett).

American Meat Institute, Grant, Use of irradiation to kill pathogenic bacteria in ground beef. April 1993 - March 1994, \$60,820 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

U. S. Department of Agriculture, Special Grant, Safety and quality enhancement of poultry products. July 1993 - June 1995, \$362,000 (PI; Co-PI, D. L. Fletcher).

U. S. Department of Agriculture, Special Grant (Food Safety and Inspection Service), Gene expression of a low molecular weight protein by Escherichia coli O157:H7, September 1993 - September 1995, \$36,800 (PI).

Amrep, Gift, Antimicrobial activity of barrier cream to E. coli O157:H7. April 1993 - July 1993, \$2,000 (PI).

International Life Sciences Institute - North America, Grant, Use of carrot juice to control Listeria monocytogenes. August 1992 - July 1993, \$28,800 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

Benchmark Enterprises, Gift, Antimicrobial activity of barrier cream to Escherichia coli O157:H7, December 1992 - February 1993, \$1,000 (PI).

U. S. Department of Agriculture, Agricultural Research Service, Cooperative Agreement, Antagonistic flora to Campylobacter spp., April 1993 - September 1994, \$26,000 + \$14,000 + 40,000 (PI).

Kraft General Foods, Gift, Food safety and quality research. November 1992-October 1993, \$20,000.

International Life Sciences Institute-North America, Grant, Development of a Simple, sensitive, quantitative procedure for enumerating Listeria monocytogenes in food. August 1992 - July 1993, \$53,500 (PI; Co-PIs, R. E. Brackett, L. R. Beuchat).

National Live Stock and Meat Board, Grant, Decontamination of Escherichia coli O157:H7 in beef by acid treatments. March 1992 - March 1993, \$29,500 (PI; Co-PI, R. E. Brackett).

Southeastern Poultry & Egg Association, Grant, Feasibility of using antagonistic microorganisms and antimicrobial extracts to inhibit psychrotrophic pathogens in refrigerated, cooked poultry. January 1, 1992-December 31, 1992, \$26,000 (Co-PI; PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Detection and Control of Enterohemorrhagic Escherichia coli O157:H7 in Cattle. March 1992-December 1994, \$114,100 (PI; Co-PI, R. E. Brackett).

Rhone-Poulenc, Grant, Fate of bacterial pathogens in cat litter. January 1992-April 1992, \$3,562 (PI; Co-PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Use of natural secondary barriers to inhibit pathogens in refrigerated, cooked roast beef. March 1992-December 1994, \$101,500 (Co-PI; PI, R. E. Brackett).

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens and rapid procedure for detecting E. coli. September 1990-June 1991, \$60,000.

Dairy Research Foundation, Gift, Microbiological safety of a butter-like product. September 1990, \$1,100.

Promega, Gift, Development of a viable Listeria assay for dairy and food products testing. September 1990-February 1991, \$5,000.

Nabisco Brands, Inc., Gift, Microbiological stability of processed cheese spread. September 1990-December 1991, \$50,000.

Corando, Gift, Detection of Escherichia coli O157:H7 in water. March-April 1990, \$1,000.

Schreiber Foods, Gift, Microbiological stability of process cheese. February 1990-October 1991, \$3,000.

Universal Foods Corporation, Gift, Microbiological stability of process cheese. February 1990-July 1990, \$3,000.

Best Foods, Gift, Fate of Listeria monocytogenes in mayonnaise. May 1990-December 1990, \$15,000.

National Live Stock and Meat Board, Grant, Evaluation of natural antimicrobials and delivery systems for these molecules for safety assurance and shelf life extension of processed, refrigerated meats. April 1990-April 1992, \$134,000 (PI; Co-PI John Luchansky).

Oscar Mayer Foods Corporation, Gift, Microbiological safety of low sodium processed meats. January 1990-July 1991, \$9,500 + \$9,500 + \$9,500 + \$9,500 + \$4,500.

Olympia Cheese Company, Gift, Microbiological stability of cheese stick products. February 1989-March 1990, \$2,500.

Kaukauna Cheese Company, Gift, Evaluation of cheese spread and cheese food stability. March 1989-August 1989, \$7,000.

Stauffer Chemical Company, Gift, Detection of salmonellae in foods by latex agglutination assay. April 1989-August 1989, \$5,000.

American Meat Institute, Gift, Escherichia coli in meat. July 1989-December 1989. \$10,000.

Johnston Company, Gift, Microbiological safety of cheese spreads. August 1989-September 1990. \$4,500.

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens. August 1989-June 1990. \$30,000.

Thomas J. Lipton, Inc., Gift, Microbiological stability of cheese sauce. July 1989-March 1991. \$17,500 + \$2,500 + \$4,000.

Rhone-Poulenc, Gift, Evaluation of the antimicrobial effect of bicarbonate on Listeria monocytogenes. July 1989-September 1989. \$1,500.

Iceland Seafood Corporation, Gift, Microbiological safety of refrigerated fish sandwiches. May 1989-August 1989. \$8,000.

Renaissance Farm, Gift, Microbiological safety of pesto. June 1989-November 1989. \$500.

National Livestock & Meat Board, Contract, Fate and control of Escherichia coli O157:H7 in beef. July 1989-June 1991. \$185,000.

Best Foods, Gift, Fate of Salmonella in mayonnaise. November 1989-July 1990. \$15,000.

State of Wisconsin, Named Professorship, Wisconsin Distinguished Professorship. January 1989-January 1994, \$250,000.

National Dairy Promotion and Research Board, Grant, Behavior of Listeria monocytogenes during manufacture and ripening of cheese. Mar. 1989-Feb. 1991, \$70,000. (Co-PI; PI, E. H. Marth).

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. August 1988-January 1989, \$8,000 + \$1,800.

Kraft, Inc., Gift, Evaluation of media for detection of Listeria monocytogenes in dairy products. September 1988-December 1988, \$1,000.

McDonald's Corporation, Gift, Control of colonization of Salmonella. July 1988-June 1989, \$30,000.

General Foods Corporation, Gift, Microbiological stability of fresh pasta. March 1988-September 1988, \$8,000.

International Life Sciences Institute-Nutrition Foundation, Grant, Virulence of Listeria monocytogenes in a pregnant mouse model. July 1988-June 1990, \$100,000.

Center for Dairy Research, University of Wisconsin-Madison, Grant, Differentiating virulent from avirulent Listeria monocytogenes. July 1988-June 1990, \$49,000.

Wisconsin Milk Marketing Board, Grant, Procedure for detection of Escherichia coli O157:H7 in dairy products. January 1989-July 1990, \$100,000.

Corn Products, Gift, Control of Clostridium botulinum in acidified wet corn gluten feed. January 1988 - July 1988, \$12,000.

Kaukauna Cheese Company, Gift, Effect of acidity and moisture content on cheese sauce stability. November 1987-October 1989, \$3,750 + \$750 + \$2,000.

Schreiber Foods, Inc., Gift, Growth of Staphylococcus aureus in bacon during curing. September 1987-January 1988, \$2,000.

Wisconsin Milk Marketing Board, Grant, Evaluation of enrichment procedures for recovering Listeria monocytogenes from dairy products. August 1987-July 1988, \$25,600.

Nabisco Brands, Inc., Gift, Effect of sodium citrate in cheese spreads on Clostridium botulinum toxin production. August 1987-August 1988, \$18,600.

Kraft, Inc., Gift, Microbiological stability of cheese spreads with condiments. July 1987-July 1988, \$9,000.

McDonald's Corporation, Gift, Heat treatment of ground beef. June 1987-July 1989, \$15,000 + \$10,000.

New England Biolabs Foundation, Gift, Establishment of a laboratory for diagnosis and study of Campylobacter and Yersinia as a cause of diarrhea in children of Nicaragua. May 1987-April 1988, \$10,760.

General Foods Corporation, Gift, Pathogenicity and isolation of Listeria monocytogenes. April 1987-March 1988, \$50,000.

Kraft, Inc., Gift, Microbiological stability of high moisture cheese sauce. February 1987-December 1987, \$17,000 + \$2,000 + \$2,000 + \$2,000 + \$2,000 + \$1,000.

American Meat Institute, Gift, Fate of listeriae in meats. January 1987-January 1988, \$20,000 + \$12,000 + \$27,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. Development of a rapid method to detect E. coli O157:H7 in food. January 1987-December 1987, \$35,000.

McDonald's Corporation, Gift, Control of food-borne pathogens: Reducing the incidence of enteric pathogens in poultry. January 1987-December 1987, \$10,000.

Doskocil Foods Group, Gift, Fate of listeriae in sausage. January 1987-December 1987, \$8,500 + \$1,000 + \$2,000.

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. November 1986-August 1988, \$12,000 + \$10,000 + \$18,000.

Stauffer Chemical Company, Gift, Fate of pathogens during microbial fermentation. November 1986-December 1986, \$2,500.

Oscar Mayer Foods Corporation, Gift, Effect of pH and temperature on foodborne bacteria. September 1986-December 1986, \$6,000

Quaker Oats Company, Gift, Potential of botulinal toxin production in pasta. August 1986-June 1987, \$10,000.

Center for Dairy Research, Gift, Microbiological safety of dairy products. July 1986-June 1990, \$5,000 + \$5,000 + \$5,000 + \$1,000.

Pillsbury Company, Gift, Evaluation of botulinal toxin production in fresh vegetables. July 1986-June 1987, \$8,400 + \$5,500.

General Ecology Inc., Gift, Fate of bacteria in water purification systems. June 1986-December 1987, \$750 + \$3,000.

General Foods Corporation, Gift, Behavior of toxigenic and/or pathogenic bacteria in refrigerated foods. June 1986-December 1986, \$10,000.

ConAgra, Gift, Escherichia coli O157:H7 in poultry products. May 1986-August 1986, \$1,500.

Corn Products, Gift, Fate of microorganisms in wet corn gluten feed. May 1986-September 1986, \$4,500.

Food and Drug Administration, Contract No. 63500400, Milk naturally contaminated with Listeria monocytogenes. May 1986-June 1986, \$6,200.

Sargento Cheese Company, Gift, Microbiological stability of process cheese. April 1986-November 1986, \$3,500.

Lambert's Pasta & Cheese, Gift, Microbiological safety of refrigerated pasta. March 1986-March 1987, \$11,100.

National Cheese Institute, Gift, Fate of *Listeria* during pasteurization. January 1986-December 1986, \$10,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2947, Influence of polyphosphates on microorganisms of significance in processed meats and meat products. December 1985-June 1987, \$19,000 + \$3,000.

American Home Foods, Gift, Growth of *Clostridium botulinum* in acidified foods. September 1985-September 1986, \$18,000.

General Foods Corporation, Gift, Detection of *Listeria monocytogenes* in soft, surface-ripened cheese. September 1985-June 1986, \$2,300.

McDonald's Corporation, Gift, Detection of *E. coli* in foods. July 1985-June 1986, \$33,000.

Oscar Mayer Foods Corporation, Gift, Antibotulinal properties of lactate. July 1985-July 1987, \$6,800 + \$8,100 + \$9,250 + \$5,300 + \$8,300.

McDonald's Corporation, Gift, Colonization of cattle by pathogens. June 1985-May 1986, \$10,250.

Dairy Research Foundation, Grant, Behavior of *Listeria monocytogenes* in milk and milk products. January 1985-December 1987, \$87,934. (Co-principal investigator with E. H. Marth).

McDonald's Corporation, Gift, Control of foodborne pathogens. September 1984-June 1985, \$2,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. July 1984-June 1985, \$21,000.

Food and Drug Administration (via Booz, Allen and Hamilton), Contract No. 223-80-2295, Survival of Listeria monocytogenes in nonfat dry milk and cottage cheese. April 1, 1984-October 15, 1984, \$35,411.

Food Research Institute, Purification and characterization of *Escherichia coli* cytotoxin(s). July 1983-June 1984, \$11,300.

McDonald's Corporation, Gift, Control of foodborne pathogens. July 1983-June 1986, \$105,000.

U.S. Department of Agriculture, CSRS, Grant No. 83-CSRS-2-2308, Association of *Campylobacter jejuni* with foods of animal origin. July 1983-September 1986, \$371,735 + \$12,000 + \$12,000 + \$12,000.

McDonald's Corporation, Gift, Detection of *Escherichia coli* in foods. January 1983-December 1983, \$26,000.

U.S. Department of Agriculture, ARS, Agreement No. 53-3244-2-231, A *Clostridium botulinum* challenge study on bacon made by the Wisconsin process. September 1982-September 1984, \$146,563.

U.S. Department of Agriculture, ARS, Contract No. 58-519B-2-1173, Evaluation of safety of soybean foods--tempeh, tofu and miso. August 1982-September 1984, \$34,250.

Food Research Institute, *Salmonella* in poultry. July 1982-June 1984, \$65,500.

Food Research Institute, Pathogenicity of *Campylobacter*. October 1981-June 1984, \$57,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2685, Pathogenicity of *Campylobacter*. October 1981-September 1983, \$29,456.

Department of Defense Contract DAAF 29-81-K-0070, The heat-stable enterotoxin of *Yersinia enterocolitica* in foods. April 1981-April 1984, \$55,154. (Co-PI; PI, S. L. Taylor).

Corn Products/Best Foods, Gift, *Clostridium botulinum* in foods. March 1981-December 1990, \$20,000 + \$14,000 + \$14,000 + \$14,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + \$15,500.

Food Research Institute, Pathogenicity of *Yersinia enterocolitica*. July 1980-June 1984, \$97,000.

Food Research Institute, Recovery of *Campylobacter* from foods. April 1980-June 1982, \$42,000.

1. Library Committee of College of Agricultural and Life Sciences, 1981-85.
2. Senator, Faculty Senate District 10, 1982-84. Alternate Senator, Faculty Senate District 10, 1984-86.
3. Department of Food Microbiology and Toxicology Committees:
 - a. Graduate Program Committee
 - b. Department Comprehensive Review Committee
 - c. Animal Room Committee
 - d. Building Remodeling Committee
4. Centralized Electron Microscope Committee, College of Agricultural and Life Sciences, 1983-85.
5. Member of College of Agricultural and Life Sciences Hatch Research Review Panel, 1984 (ad hoc member), 1986-90.
6. Long Range Planning Committee, College of Agriculture and Life Sciences, 1986-87.
 - Basic Sciences Subcommittee
 - Food Quality, Processing and Nutrition Subcommittee
7. "Biotechnology in Agriculture" Report Committee, University of Wisconsin Agricultural Experiment Station, 1986.
8. Animal Health Research Proposal Review Committee, School of Veterinary Medicine, 1987, 1989-90.
9. Review Committee - Food and Agricultural Sciences National Needs Graduate Fellowships Grants Program, College of Agriculture and Life Sciences, 1987, 1990.
10. Research Animal Care Committee, College of Agricultural and Life Sciences, 1988-91.
11. Ad Hoc Reviewer, University of Wisconsin System Consortium for Extension and Research in Agriculture and Natural Resources Program, 1988-90.
12. Member, Search and Screen Committee, Assistant Professor of Food Microbiology position, Department of Food Science, 1990.
13. Member, North Central Region – 121 Technical Committee, Safety of Food and Feeds in Animal Production, 1982-1989; Chairman, 1985.

University of Georgia Service

1. Food Safety and Quality Research Complex Building Committee, University of Georgia Agricultural Experiment Station, 1991-1997.

2. Program Leader and Director, Food Safety and Quality Enhancement Laboratory, University of Georgia Agricultural Experiment Station, 1991-93.
3. Governor's Development Council Initiative for the Food Processing Industry, University Coordinator of Committee on Food Safety, 1993-
4. Executive Council, Laboratory for Sustainable Agroecosystem Studies, University of Georgia Agricultural Experiment Station, 1993-95.
5. Director, Center for Food Safety and Quality Enhancement, University of Georgia, 1993-
6. Chairman, Search and Screen Committee, Poultry Science Department Head, College of Agricultural and Environmental Sciences, 1995.
7. Presenter, Operation Legacy, Georgia Experiment Station, Griffin, GA, September 1995.
8. Reviewer, Department of Foods and Nutrition, College of Family and Consumer Resources, 1995-96.
9. Presenter, Governor's Science and Technology Advisory Council, Industry Interface - Center for Food Safety and Quality Enhancement, July, 1995.
10. Panel Moderator and Presenter, Georgia Agricultural Experiment Stations, Research Advisory Board Meeting, Challenges facing the food processing industry, July, 1995.
11. Member, College of Agricultural and Environmental Sciences (CAES), GSAMS Classroom Task Force, 1995-96.
12. Member, CAES Office of International Agriculture Workshop Steering Committee, 1995-96.
13. Member, CAES Steering Committee and Executive Council of the Center for International Trade and Marketing, 1995-1999.
14. Member, Program Review Team of UGA Department of Foods and Nutrition, 1996.
15. Member, CAES College Technical Advisory Group (C-TAG), 1996.
16. Member, CAES Strategic Planning Group on Values, 1996.
17. Member, CAES Committee on Consolidation of Business Functions, 1996-97.
18. Member, CAES Committee to Recommend a Single College Faculty Governance Structure, 1996-97.
19. Member, UGA Committee on Appointment and Promotion of University Full-Time Research Professionals, 1996, 97.

20. Consultant, Department of Agricultural and Applied Economics Strategic Planning Committee, 1997.
21. Member, Search Committee for CAES Director of Fiscal Affairs, 1997.
22. Member, CAES Program Planning and Review Committee, 1997-98.
23. Member, University's Special Professorship Committee, 1997-2000.
24. Member, Search Committee for CAES Associate Dean of Extension, 1998-1999.
25. Member, College of Veterinary Medicine Food Animal Program Planning Group, 1998.
26. Member, Search Committee for Department Head for Department of Environmental Health Sciences, 1999.
27. Chairman, Committee on Adding Value to Georgia Products, 1999-2000.
28. Member, UGA Biomedical and Health Sciences Working Group, 1999-2000.
29. Member, Administrative Review Committee for Dean of College of Agricultural and Environmental Sciences, 1999-2001.
30. Member, Public Health Program Steering Committee, 2001.
31. Member, University Review Committee on Health & Clinical Sciences (Promotion and Tenure), 2001-2004; Chairman, 2002-2003.
32. Member, 3-yr Promotion/Tenure Review Committee of Ynes Ortega, 2002.
33. Faculty Member, Biomedical and Health Sciences Institute, 2002-
34. Member, College of Agricultural and Environmental Sciences, Agro-Security Task Force, 2001-2002.
35. Member, College of Agricultural and Environmental Sciences, Review Panel of Alumni Foundation Distinguished Professor, 2003.
36. Member, College of Agricultural and Environmental Sciences, Level I Promotion and Tenure Committee, 2004-2007.
37. Member, Promotion/Tenure Review Committee of Mary Alice Smith, 2004.
38. Member, PostTenure Review Committee of Larry Beuchat, 2004.
39. Member, College of Agricultural and Environmental Sciences, Search and Screening Committee, Associate Dean for Research, 2007.

40. Member, UGA Faculty of Infectious Diseases, 2008-
41. Member, Post Tenure Review Committee of Joseph Frank, 2011.
42. Invited Faculty Member, Center for Drug Discovery Faculty, University of Georgia, 2011.
43. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr.' s post-tenure progress toward Full Professor, 2011.
44. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr. Joseph Frank's post-tenure progress, 2011.
45. Member, Post Tenure Review Committee for Ynes Ortega, 2012.

Other Forms of Professional Service

Journal Management Committee, Journal of Food Protection, 1981-1985.

Wisconsin Association of Milk and Food Sanitarians-Wisconsin Environmental Health Association Joint Committee on Education, 1981-85. Vice-Chairman, 1984-85.

Program Committee, Wisconsin Association of Milk and Food Sanitarians Annual Meeting, 1981-82.

Secretary, Food Microbiology Division of the American Society for Microbiology, 1982.

Wisconsin Agricultural Experiment Station Representative to NCR-121, The safety of feed and foods related to animal production, 1983-1988. Secretary, 1983-84; Chairman, 1984-85.

Secretary, Campylobacter Society, 1983-85.

Advisory Committee on Annual Program Content, International Association of Milk, Food and Environmental Sanitarians, 1984-87.

Executive Committee, Food Microbiology Division of the American Society for Microbiology, 1984-85.

Member-At-Large, Executive Committee, Food Microbiology Division of the Institute of Food Technologists, 1984-86.

Invited Participant, Institute of Food Technologists Workshop on Research Needs, Arlington Heights, IL, 1984.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1984-2000

Executive Committee, Conference for Food Protection, 1985-86.

Chairman, Food Microbiology Division's Public Information Committee, Office of Scientific Affairs, Institute of Food Technologists, 1985-

Expert Advisor, 2014. STTR grant for Zansors in the Specific Aims.

Committee to Draft Institute of Food Technologists Scientific Status Summary on "Bacteria Associated with Foodborne Diseases," 1985-87.

Technical Advisory Committee, Center for Dairy Research, University of Wisconsin, 1986-91.

Scientific Advisor, American Meat Institute - Meat Safety Committee, 1986-95.

Ad Hoc Reviewer, U.S. Department of Agriculture Small Business Innovative Research Competitive Grants Program, 1986, 88-98, 2000-2003.

External Examiner, Ph.D. Examination of Lai-King Ng, University of Alberta, Department of Microbiology, Edmonton, Alberta, Canada, February 16, 1987.

- Ad Hoc Reviewer, U.S. Department of Agriculture Molecular Biology/Gene Structure-Animals Competitive Research Grants Program, 1987, 1988.
- Alternate Councilor, Wisconsin Institute of Food Technologists, 1987-90.
- Member, World Health Organization Working Group on Thermoresistance of Listeria monocytogenes, 1987-91.
- Chairperson, Group E64 Expert Committee on Detection and Enumeration of Listeria monocytogenes in Milk and Milk Products; Gram-positive pathogens, United States Contingent of International Dairy Federation, 1987-94.
- Ad Hoc Reviewer, U.S. Department of Agriculture BARD Research Grants Program, 1988.
- Member, Annual Meeting Program Committee, Institute of Food Technologists, 1988-1991.
- Scientific Advisor, World Health Organization, Scientific Working Group on Epidemiology and Disease Prevention. Trip to Lagos, Nigeria to advise investigators at the University of Lagos, College of Medicine, on research approaches to study the microbiological safety of fermented weaning foods, August 19-27, 1988.
- Review Team Member, U.S. Department of Agriculture-Cooperative State Research Service. Comprehensive Department Review of the Department of Food Science and Nutrition, University of Minnesota, St. Paul, October 31-November 4, 1988.
- Scientific Advisory Board, International Committee on Food Microbiology and Hygiene of the International Union of Microbiological Societies to plan its 14th International Symposium, 1988-1990.
- Reviewer, Wisconsin Department of Development-Small Business Innovation Research Proposal, 1988.
- Writing Committee, NASULGC Division of Agriculture-Committee on Biotechnology, Socio-Economic Subcommittee Basebook/Leaflet Series on the Social and Economic Effects of Biotechnology, 1988-1990.
- Ad Hoc Reviewer, Freedom Magazine, 1988.
- Project Monitor, International Life Sciences Institute-Nutrition Foundation, Listeria and Food Safety Research Projects, 1988-95.
- Member, Membership Committee, American Academy of Microbiology, 1989-90.
- Ad Hoc Reviewer, Hatch Program, Massachusetts Agricultural Experiment Station, University of Massachusetts-Amherst, 1989.
- Executive Board, International Association of Milk, Food and Environmental Sanitarians, Secretary, 1989-90; Vice-President, 1990-91; President-Elect, 1991-92; President, 1992-93; Past-President, 1993-94.

Member, Council for Agricultural Science and Technology Task Force on "Assessment of Risk Associated with Pathogenic Microorganisms in Food," 1989-94.

Ad Hoc Reviewer, Connecticut Sea Grant College Program, University of Connecticut, 1989.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agriculture Research Service, Research proposals. 1989.

Ad Hoc Reviewer, Natural Sciences and Engineering-Research Council of Canada proposals, 1989-95.

State Key Contact, American Society for Microbiology Public and Scientific Affairs Board, 1989-91.

Ad Hoc Reviewer, Washington State Beef Commission Research Grants Program, 1990.

Ad Hoc Reviewer, U. S. Department of the Army Research Grants Program, 1990.

Ad Hoc Reviewer, American Council on Science and Health, booklet series, 1990.

Quality and Safety Scientific Advisory Group, Wisconsin Milk Marketing Board, 1990.

Executive Committee, International Union of Microbiological Societies-International Committee on Food Microbiology and Hygiene, American Society for Microbiology representative, 1990.

Ad Hoc Reviewer, U.S. Food and Drug Administration's Bacteriological Analytical Manual, 7th ed., 1990.

Ad Hoc Reviewer, Rutgers-The State University of New Jersey, Research proposal, 1990.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1985-93.

Scientific Committee, International Conference on Listeria and Food Safety (June 13-14, 1991), Laval, France, 1990-91.

Technical Session chairman, Institute of Food Technologists, 1991 Annual Meeting, Dallas, TX, 1990-91.

Jury Chairperson, International Association of Milk, Food, and Environmental Sanitarians' Educator Award, 1991-92.

Ad Hoc Reviewer, U. S. Department of Agriculture - Cooperative State Research Service, National Research Initiative Competitive Research Grants, 1991-2004.

Program Areas: Ensuring Food Safety: Preharvest Section and Postharvest Section
 Animal Molecular Genetics and Gene Mapping
 Mechanisms of Animal Disease
 Value Added Products
 Water Resources Assessment & Protection
 Ecosystem Science
 Soil & Soil Biology

External Examiner, Ph.D. Thesis, McGill University, 1991.

ASM Foundation Scientific Lecturer, American Society for Microbiology, 1991-93.

Reviewer, Book Chapter for Proceedings of NIH Campylobacter Symposium, 1991.

Correspondent, Food Safety Notebook, 1990-99.

Ad Hoc Reviewer, Alaska Sea Grant Program, 1991.

Ad Hoc Reviewer, USDA Food News, 1991.

Ad Hoc Reviewer, Cambridge University Press, Microbiology Texts, 1991.

Chair-Elect, Southern Extension and Research Activity - Information Exchange Group on Food Safety, 1991-95.

Ad Hoc Reviewer, Marcel Dekker, Food Microbiology and Food Safety Texts, 1991, 94.

Advisory Committee, Listeria 1992, The Eleventh International Symposium on Problems of Listeriosis, Copenhagen, 1991-92.

Ad Hoc Member and Chairperson, Annual Meeting Program Committee, International Association of Milk, Food and Environmental Sanitarians, 1991-92.

Chairman, Institute of Food Technologists Food Microbiology Division, Office Scientific Affairs Committee, 1991-2007.

Scientific Program Committee, 2nd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing Escherichia coli Infections, Bergamo, Italy, 1992-94.

Ad Hoc Reviewer, U. S. Department of Agriculture - Food Safety and Inspection Service, Proposal to determine microbiological profile of U. S. beef supply, 1992.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Department Review of the Department of Food Science, North Carolina State University, Raleigh, April 12-17, 1992.

Ad Hoc Reviewer, National Academy of Sciences Institute of Medicine, Report on Emerging Infections: Microbial Threats to Health, 1992.

Member, Institute of Food Technologists Samuel Cate Prescott Award Jury, 1992-95.

Ad Hoc Reviewer, Encyclopaedia of Food Science, Food Technology and Nutrition, 1992.

Expert Panel Member, Dairy Research Foundation, Assess safety of products from freeze concentration of dairy streams, 1992.

Ad Hoc Reviewer, Medical Research Council of Canada, Research proposal, 1992.

Ad Hoc Reviewer, International Life Sciences Institute North America, Research papers, 1989-96.

Member, International Life Sciences Institute-North America, Publications Committee, 1992-94.

External Assessor, University Pertanian Malaysia, Appointment of faculty to Food Science and Biotechnology Department, 1992-95.

Member, Group E32 Expert Committee on Gram-Negative Bacteria, United States Contingent of International Dairy Federation, 1992-94.

Member, National Academy of Science - Institute of Medicine, Food Forum, 1993-99.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Review of the Department of Food Science and the Center for Advanced Food Technology, Rutgers-The State University of New Jersey, New Brunswick, NJ, March 22-26, 1993.

Scientific Program Committee Member, 3rd International Conference of ASEPT, Food Safety '94, 1993-94.

Ad Hoc Reviewer, Pennsylvania State University College of Agricultural Sciences, USDA Special Grant on Milk Safety Proposals, 1993.

Ad Hoc Advisor, Secretary of Agriculture Mike Espy, Escherichia coli O157:H7 Research: Past, Present, and Future, February 1993.

Scientific Advisor, National Live Stock and Meat Board, Food Safety Round Table II, 1993.

Scientific Advisor, Grocery Manufacturers of America, Microbiology Safety and Control Working Group, 1993.

Invited Expert, U. S. Department of Agriculture, Food Safety and Inspection Service, Testify at regional hearing on the safety of the nation's meat and poultry supply, Atlanta, GA, June 11, 1993.

Chair, American Society for Microbiology, Public and Scientific Affairs Board - Ad Hoc Committee on Food Safety, 1993-2009.

External Examiner, The University of the West Indies, Food Microbiology program, 1993-96.

Ad Hoc Reviewer, American Society for Microbiology, Sayers and Whit Book on "Microbial Pathogenesis," 1993.

Chairperson, Scientific Advisory Committee on Food Safety, National Live Stock and Meat Board, 1993.

Member, Publications Committee, International Life Sciences Institute North America, 1992-95.

Response Panel Member, Joint Council on Food and Agricultural Sciences, Meeting on Nutritious and Safe Food, 1993.

Member, Search Committee, U. S. Department of Agriculture Food Safety and Inspection Service, Deputy Administrator "Super Scientist" position, 1993-94.

Reviewer, Beef Industry Council and National Live Stock and Meat Board, Safe Food Backgrounder, 1993.

Ad Hoc Advisor, Advisory Committee on the Microbiological Safety of Food, Working Group on Vero Cytotoxin-Producing Escherichia coli, Department of Health, London, England, 1993-95.

Member, American Society for Microbiology, Committee on Microbiological Literacy, 1993-94.

Invited Respondent, Journal of the American Medical Association, 1993.

Member, International Association of Milk, Food and Environmental Sanitarians, Strategic Long Range Planning Task Force, 1993-95.

Expert Reviewer, Association of Official Analytical Chemists, Test Kit Performance Testing Program, 1993-95.

External Advisor, University of Guadalajara, Ph.D. degree program of Alejandro Castillo Ayala, 1993-96.

Chairperson, National Academy of Sciences - Institute of Medicine Food and Nutrition Board Food Forum, Committee on HACCP, 1993-94.

Member, National Research Council Board on Agriculture, Panel on Animal Health and Veterinary Medicine, 1993-96.

Invited Expert, U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department of Operations and Nutrition, Hearing on Meat and Poultry Inspection, Washington, DC, March 16, 1993.
'Member, Georgia Beef Board, GA Food Safety Alliance Team, 1993-99.

Ad Hoc Reviewer, Institute for Science in Society, Washington, DC, White Paper on Foodborne Pathogens in Meat and Poultry, 1993-94.

Member, Review Panel, International Life Science Institute-North America, Future Leaders Awards, 1994-2000.

Trustee Members, Executive Committee, International Life Sciences Institute, 2014.

Invited Contributor, Southeastern Agriculture Experiment Stations - CSRS Impact Report, Food Safety Research Contributions, 1994.

Elected Representative, U. S. Department of Agriculture - Food Safety and Inspection Service, HACCP Round Table, Washington, DC, March 30-31, 1994.

Expert, Fletcher, Vautier Moore (Barristers & Solicitors), New Zealand, Listeriosis manslaughter prosecution, 1993-94.

Representative, Georgia Agricultural Experiment Station, Regional Project DC93-02, "Assuring Food Safety Through Control of Foodborne Disease Agents," 1994-97.

Member, U. S. Department of Agriculture - Food Safety and Inspection Service, Technical Analysis Group on Processing, 1994.

Member, Scientific Advisory Committee, International Life Sciences Institute, First Pan American Conference on Food Safety, 1994-95.

Member, Southern Association Agricultural Experiment Stations Directors, Advisory Committee on Food Science and Technology (AC-4), 1994-99.

Member, Joint U. S. Department of Agriculture/University Committee on Food Safety, Enhancing Cooperation in Food Safety Research and Education, 1994.

Member, Scientific Advisory Board, GENE-TRAK Systems, 1994.

Member, American Society for Microbiology Raymond W. Sarber Award Selection Committee, 1994-96.

External Examiner, The University of the West Indies, M.S. Thesis of Roshini Mahaiaj, 1994.

Jury Member, DFISA-American Society of Agricultural Engineering Food Engineering Award, 1994.

Member, European Verotoxin-producing Escherichia coli (VTEC) Club, 1994-2000

Chairman, International Association of Milk, Food and Environmental Sanitarians - Past President's Advisory Committee, 1993-94.

Chairman, International Association of Milk, Food and Environmental Sanitarians - Finance Committee, 1993-94.

Ad Hoc Reviewer, International Life Sciences Institute, Food Safety proposal, 1994.

Ad Hoc Reviewer, American Society for Microbiology, Book proposal, 1994.

Ad Hoc Reviewer, National Science and Technology Council, Subcommittee on Food Safety, Security and Production's Strategic/Implementation Plan, 1994.

Advisor, Ophidian Pharmaceutical, Inc., USDA Small Business Research Program Phase I Grant, "Development of an antidote for E. coli O157:H7 verotoxin" project, 1993-95.

Invited Participant, USDA/University Workshop on Enhancing Cooperation in Food Safety Research and Education, Washington, DC, March 8-9, 1994.

Ad Hoc Advisor, National Live Stock and Meat Board Blue Ribbon Task Force on E. coli O157:H7, 1994.

Member, Georgia Poultry Emergency Committee, 1994-99.

Ad Hoc Reviewer, Board of Regents of the State of Louisiana, Research proposal, 1994-95.

External Examiner, The University of the West Indies, M.S. Thesis of Vidia Doodnath, 1994.

Scientific Advisor, International Meat and Poultry HACCP Alliance, Poultry Enhancement Program-Pilot Study, 1994.

Expert Participant, Research Triangle Institute and U. S. Department of Agriculture, Project on risk analysis, 1993-94.

Invited Participant, USDA-Agricultural Research Service, Conference on Regional Vitiation Development, Atlanta, GA, July 13, 1995.

External Examiner, The University of the West Indies, M.S. Thesis of Lorraine Westcarr, 1995.

Ad Hoc Reviewer, Food and Agriculture Organization of the United Nations, International Consultative Group on Food Irradiation, Technical Monograph, 1995.

Reviewer, University of New South Wales, Department of Food Science and Technology, Sydney, Australia, Food Microbiology Teaching and Research Program, 1995.

Scientific Program Committee, 3rd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing *Escherichia coli* Infections (VTEC '97), 1995-97.

Third Party Expert, Animal Health Institute, Food Safety Network, 1995-2001.

Reviewer, National Research Council, Food Chemicals Codex, 4th edition, 1995.

Resource Person/Interview, Iowa Public Radio, Market-to-Market (Farm News), Food Safety, July, 1995.

Ad Hoc Reviewer, American Society for Microbiology, P. Murray Book on "Pests and Pestilence in the Modern Age of Medicine," 1995.

Chairman, American Society for Microbiology, Ad-Hoc Committee on Food Safety, 1995-

Member, International Life Sciences Institute-North America, Membership Committee, 1995-96.

Member, International Life Sciences Institute-North America, Technical Committee on Food Microbiology, Organizing Committee on ILSI-USDA-sponsored Conference of Emerging Pathogens, 1995-96.

Invited Participant, The Food Drug Law Institute, Food Update '95 (Academic Fellowship), 1995.

Reviewer, Institute of Medicine, Food and Nutrition Board, Food Chemicals Codex, 1995.

Member, The Advancement of Sound Science Coalition, 1995-99.

Invited Participant, Food and Drug Administration, Regulatory Reform Workshop/A New Partnership, 1995.

Member, Food and Drug Administration Advisory Committee Task Group on *Vibrio vulnificus*, 1995.

Reviewer, University of the West Indies, University Project Implementation Unit, Research Proposal on "The Production of Mozzarella Cheese from Buffalo Milk," 1995.

Member, Rhône-Poulenc, Food Safety Expert Team, 1995.

Invited Participant, U. S. Department of Agriculture-Food Safety and Inspection Service, Microbiological methods development workshop, March, 1995.

Member, Georgia Tech Industrial Advisory Committee, HACCP Working Group, 1995.

Member, International Life Sciences Institute, First Pan American Conference on Food Safety, Scientific Committee, 1994-95.

Member, American Meat Institute's Science and Education Panel, 1995-96.

Chairman, American Society for Microbiology, Task Force on Food Microbiology Laboratory Accreditation Program, 1996-97.

Chairman, Odwalla Nutrition and Safety Advisory Council, 1996-97.

Member, International Life Sciences Institute-North America, Nominating Committee, 1996-97.

Member, McDonald's Olympic Food Service Team, Atlanta, GA, 1996.

Ad Hoc Reviewer, Van Nostrand Reinhold Publishers, Book Proposal (Food Safety Law), 1996.

External Assessor, Universiti Pertanian Malaysia, evaluate appointments to the post of Associate Professor/Professor in the Faculty of Food Science and Biotechnology, University of Agriculture, Malaysia, 1996-98.

Reviewer, American Society for Microbiology, Book Review, *Escherichia coli* in Domestic Animals and Humans. ASM News 62:153 (1996).

Member of Scientific Advisory Council, The Refrigeration Research and Education Foundation, 1996-2002.

- Reviewer, International Fresh-cut Produce Association, Book Review (Food Safety Guidelines for Fresh-cut Produce), 1996.
- Consultant, Ophidian Pharmaceuticals, Madison, WI, USDA Small Business Research Program Phase II Grant (Development of an Antidote for *E. coli* O157:H7 Verotoxin), 1995-97.
- Reviewer, International Life Sciences Institute, World Health Organization book on “Health Education in Food Safety,” 1996-97.
- Reviewer, International Consultative Group on Irradiation, Joint Food and Agriculture Organization of the United Nations/International Atomic Energy Agency (WHO), White Paper on “Control of Pathogens in Poultry Meat,” 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Lisa Indar, 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Siddiqua N. Mohammed, 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Ellison P. Floyd, 1996-97.
- Editorial Board, John Wiley & Sons, Inc., “Encyclopedia of Food Science and Technology” (Second Edition), 1997-2000.
- Scientific Advisor, Produce Marketing Association (Nuffer, Smith, Tucker, Inc.; Public Relations) Development of an advisory for consumers to assess the significance of a foodborne outbreak to them, 1997.
- Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, “Coliforms and *E. coli*: Problem or Solution?”, 1998.
- Member, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, U.S.. Environmental Protection Agency, 1997.
- External Examiner, The University of the West Indies, M.S. Thesis of Andrew D. Persad, 1997.
- Scientific Advisor and Spokesperson, International Fresh-cut Produce Association, Washington, DC, Television Media Video on “Packaged Salad Safety,” 1997.
- Consultant, Immunological Associates of Denver, USDA Small Business Research Program Phase I Grant (Development of a Rapid Method to Detect *E. coli* O157:H7), 1997-98.
- External Examiner, The University of the West Indies, M.S. Thesis of Gloria R. Boodoosingh, 1997.
- Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on *Cyclospora*, Washington, DC, July 23, 1997.
- Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2000.

Member, International Scientific Advisory Board of Food Micro '99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, NSF International, Proposed Standard 75 (NSF International Standard for Foods - Non-Potentially Hazardous Foods), 1997.

Reviewer, Western Association of Agricultural Experiment Station Directors, Cooperative Regional Research Project W-122 Proposal (Improve Food Safety through Discovery and Control of Natural and Induced Toxicants and Antitoxicants), 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, "*Escherichia coli*: Mechanisms of virulence," 1997.

Reviewer, National Academy of Sciences-Institute of Medicine, "Food Chemicals Codex: First Supplement to the Fourth Edition," 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Darin A. Sukha, 1997.

Reviewer, International Fresh-cut Produce Association, White paper on the microbiology of fresh-cut produce, 1997.

Reviewer, Chapman & Hall, Book Proposal Review, "Food Safety" (Rodricks, Taylor and Hulebak, eds.), 1997.

Member, International Life Sciences Institute-North America, Long-Range Program Committee, 1997-99.

Member, International Life Sciences Institute-North America, Program Oversight Committee, 1997-98.

External Evaluator, University Pertanian Malaysia, Promotion evaluation of Associate Professor Gulam Rusul Bin Rahmat Ali to Professor, 1997.

Reviewer, Ronald McDonald House Charities, Research proposal, 1997.

Scientific Advisor and Intermediary, New York State Department of Agriculture & Markets and Rite Foods, Microbiological criteria for hummus, 1997.

Member, International Fresh-cut Produce Association, Food Safety Task Force, 1997-1999.

Invited Commentor, Food and Drug Administration Docket No. 96N-0449 (Current Science and Technology on Fresh Juices) through the American Society for Microbiology, January 1997.

Reviewer, International Foundation for Science, Stockholm, Sweden, Research grant proposal, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1997 and 1998.

Reviewer, Marcel Dekker, Book proposal (Pharmacology and Physiology of Phycotoxins), 1997.

Member, Scientific Advisory Panel, Environmental Protection Agency, Panel on Microbiology - Efficacy Testing, 1997.

External Examiner, The University of The West Indies, M.S. Thesis of Andrew Dev Persad, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiology Criteria for Foods, Public Meeting on President's Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables, Washington, DC, November 17, 1997.

Reviewer, National Academy of Sciences - Institute of Medicine, First Supplement to the Food Chemicals Codex, 4th edition, 1997.

Book Reviewer, Chapman & Hall, Food Product Development Capstone Course Textbook, 1997.

Reviewer, Arkansas Science & Technology Authority, Research proposals, 1997.

Invited Expert Testimony, U.S. Senate Committee on Agriculture, Hearing on Food Safety (represented American Meat Institute, Grocery Manufacturers of America, National Broiler Council, National Food Processors Association and National Turkey Federation), October 8, 1997.

Scientific Advisor and Spokesperson, The Association for Dressings and Sauces, Atlanta, GA Television News Video on "Mayonnaise Safety", 1997.

International Scientific Advisory Board, Food Micro '99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, University of Georgia College of Veterinary Medicine, research paper, 1997.

Invited Participant, Food and Drug Administration/National Science Foundation/U. S. Department of Agriculture, Workshop in Enhancing Food Safety through the Use of Sensors, Washington, DC, September 24, 1997.

Member, International Life Sciences Institute - North America, Executive Committee, 1998-2000.

Member, Fellows Committee, International Association of Milk, Food and Environmental Sanitarians, 1998.

Chairman, Georgia-Pacific Health Smart™ Advisory Board, 1998-2001.

Reviewer, Canada Foundation for Innovation, Research Infrastructure Projects, 1998.

Member, Council for Agricultural Science and Technology Committee on Foodborne Pathogens - Update of Recommendations, 1997-98.

Member, Institute of Food Technologists, Samuel Cate Prescott Award Jury, 1998-2001.

Reviewer, National Science Foundation, Centers proposals, 1998.

Advisor, International Sprout Growers Association and Green Giant, Pathogen contamination of sprouts, 1998.

Scientific Communicator, Institute of Food Technologists, 1998-

Reviewer, The Wellcome Trust, Research proposal, 1998.

Panel Member, U.S. Department of Agriculture-Food Safety Inspection Service, Conference on New Technologies to Improve Food Safety, July 28, 1998.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1998.

Member, Food Safety Award Committee, International Association of Milk, Food and Environmental Sanitarians, 1997.

Reviewer, Canada Foundation for Innovation, Center proposal, 1998.

Invited Reviewer, U.S. Department of Agriculture-Agricultural Marketing Service, Quality Through Verification Program, 1998.

Invited Panelist, U.S. Food and Drug Administration, Public Meeting on Sprouts, September 28-29, 1998.

Reviewer, Clemson University, South Carolina Agriculture and Forestry Research System, Research proposal, 1998.

Member, Food and Drug Administration Senior Biomedical Research Service (SBRS) Credentials Committee, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Catherine Berkeley, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Faith Spencer-Crossman, 1998

Reviewer, University of Nebraska-Nebraska Research Initiative, Research Grant Proposal, 1998.

Member, International Association for Milk, Food and Environmental Sanitarians, NFPA Food Safety Award Committee, 1998.

Editorial Board, Encyclopedia of Food Science and Technology, 2nd edition, John Wiley Publishers, 1997-2000.

Member (Scientific Expert), Alliance of the California Foodborne Disease Network, Los Angeles, CA, 1997-2000.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2003.

External Examiner, The University of The West Indies, M.S. Thesis of Kartikeya Tripathi, 1998.

Invited Expert and Rappateur, American Society for Microbiology Colloquium on “Food safety: current status and future needs,” Nashville, TN, August 14-16, 1998.

Member, Food Micro ‘99, 17th International Symposium of the IUMS International Committee on Food Microbiology and Hygiene, International Scientific Advisory Board, 1998-99.

Member, Produce Marketing Association, “Stop & Think Questions on Foodborne Illness,” Advisory Committee, 1997-98.

Invited Panelist, U.S. Department of Agriculture-Food Safety and Inspection Service, Conference on Technology to Improve Food Safety, Washington, DC, July 28, 1998.

Invited Panelist and Advisory Committee Member, Food and Drug Administration, Public Meeting on Sprouts, Washington, DC, September 28-29, 1998.

Elected Member, Operations Committee, National Alliance for Food Safety, 1998-2000.

Invited Panel Member, National Aeronautics and Space Administration, Food Technology Commercial Space Center Technical Review, 1998-99.

Invited Reviewer, Georgia Department of Agriculture, Food Safety Evaluation of New Products, 1998.

Invited Reviewer; Ad Hoc Advisory Group, National Institutes of Health, Office of Dietary Supplements, Peer review of public information fact sheets on dietary supplements, 1998.

Member, Georgia Department of Agriculture, Crisis Communication Committee, 1998-2009.

Member, International Life Sciences Institute, Program Planning Committee for the Conference on The National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Applications, 1998.

Member, International Life Sciences Institute-North America, Publication Committee, 1998-2000.

Invited Moderator, U.S. Department of Agriculture Secretary Dan Glickman, Presentation on “Food Safety and Public Health,” University of Georgia, March 13, 1998.

Invited Panel Members, National Academy of Sciences Meeting on Ensuring Safe Food from Production to Consumption, Washington, DC, April 29-30, 1998.

Scientific Advisor, U.S. Environmental Protection Agency, 1998-2005.

Scientific Advisor, Chick-fil-A, Alleged Foodborne Outbreak of *Klebsiella pneumoniae* Infections Associated with Chicken Salad, September, 1997.

Scientific Communicator, Institute of Food Technologists Scientific Communicator Committee, 1998-2008.

Expert, General Mills, Food Safety Video, 1999.

Member, Institute of Food Technologists, Chief Research Officers Task Force, 1999-2007.

Member, American Meat Science Association, “The Role of Microbiological Testing in Beef Food Safety Programs” Task Force, 1998-99.

Reviewer, International Foundation for Science, Stockholm, Sweden, Food Safety Research Grant Proposal, 1999.

Member, American Meat Institute, Blue Ribbon Task Force on *Listeria*, 1999.

Moderator, Georgetown University, Washington, DC, Ceres Forum on Research Priorities and Intervention Strategies for *Listeria*, May 19, 1999.

Reviewer and Contributor, National Cattleman’s Beef Association, Food Safety Information Resource, 1999.

Chairman, Institute of Medicine, Food Forum Symposium, Food Safety Policy, Science and Risk Assessment: Strengthening the Connection, 1999.

Reviewer, Rutgers - The State University of New Jersey, New Jersey Agricultural Experiment Station Research Proposal, 1999.

Member, U. S. Food and Drug Administration Deputy Commissioner, Search Committee, 1999-2000.

Reviewer and Resource Person, American Meat Institute, Issue statement on *Listeria monocytogenes*, 1998-99.

Member, University of Georgia Research Professionals’ Promotion Panel, 1999.

Member, American Association of Cereal Chemists, Annual Meeting on “Functional Foods: Strategies for the Food Industry,” Program Advisory Committee, 1999-2000.

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 2000-2003.

External Examiner, The University of the West Indies, M.S. Thesis of Karen Shaw, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Wayne Benjamin, 1999.

External Examine, The University of the West Indies, M.S. Thesis of Nalini N. Boodram, 1999.

Member, International Association of Milk, Food and Environmental Sanitarians, Fellows Award Selection Committee, 1999.

Member, U. S. Food and Drug Administration and University of Maryland, Joint Institute for Food Safety and Applied Nutrition (JIFSAN), Advisory Council, 1999-2009.

Member, U. S. Food and Drug Administration, Senior Biomedical Research Service (SBRS) Credentials Committee, 1999-2002.

Member, American Meat Institute Foundation, *Listeria* Research Committee, 1999-2009.

Member, Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Program Advisory Committee. 1999.

Member, Canada Foundation for Innovation, Review Committee (proposals submitted by the University of Guelph) 1999.

Reviewer, International Foundation for Science, research proposal, 1999.

Member, International Life Sciences Institute - North America, Presidential Search Committee, 1999.

Member, Odwalla, Nourishment and Safety Advisory Council, 1997-2000.

Member, Georgia Public Health Team, 1999-2009.

Member, Fresh Produce Committee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on Sprouts, Washington, DC, March 29, 1999.

Advisor, Molecular Innovations Inc., Denver, CO, USDA Small Business Research Program Phase II Grant (Rapid Detection of *Escherichia coli* O157:H7), 1999-2001.

Member, U. S. Food and Drug Administration Science Board, Subcommittee to review research program of the Center for Food Safety and Applied Nutrition, 1999.

Member U.S. Defense Science Board Task Force on Defense Against Biological Weapons, 2000.

Member, National Institutes of Health, Center for Scientific Review Special Emphasis Panel, 2000.

Invited Consultant, International Life Sciences Institute-North America Food Microbiology Committee, Panel on *Listeria* in Foods, 2000.

Scientific Advisor and Spokesperson, Gold Kist, Atlanta, GA, Video on “Microbiological Safety of Chicken Nuggets,” 2000.

Scientific Advisor and Spokesperson, American Meat Institute Foundation, Food Safety Advisory Council, 1999-2000.

Invited Reviewer, American Society for Microbiology, U.S. Food and Drug Administration - U.S. Department of Agriculture Food Safety Strategic Plan, 2000.

Member, The Canada Foundation for Innovation, Expert College of Reviewers, New Innovations Committee, 2000-2003.

Member, ECOP/ESCOP Food Safety Subcommittee, 2000.

Elected Member, Institute of Food Technologists Executive Committee (Membership Representative), 2000-2003.

Reviewer, U.S. Food and Drug Administration Risk Assessment of *Vibrio parahaemolyticus* in raw molluscan shellfish, 2000.

Expert, Food and Agriculture Organization of the United Nations and World Health Organization, Risk Assessments of Microbiological Hazards in Foods Expert Panel, 2000-2002.

Reviewer, John Wiley & Sons, Dictionary of Food Science and Technology proposal, 2000.

Member, American Association of Cereal Chemists 2nd Annual Functional Foods Conference, Program Advisory Committee, 2000.

Expert Resource for News Media, International Food Information Council Foundation, Food Insight Media Guide on Food Safety and Nutrition, 2000-2002.

Invited Commenter/Reviewer, Academic Press, Encyclopedia of Food Microbiology, 1999.

Editorial Committee, Charles Valentine Riley Memorial Foundation, Reducing foodborne illness: Advancing adoption of new technologies, 2000.

Member, Biosys, Scientific Advisory Board, 2000-2001.

Reviewer, Food and Drug Administration Center for Veterinary Medicine, Competitive Grants, 2000.

Reviewer, Food and Drug Administration, Risk assessment of the public health impact of foodborne *Listeria monocytogenes*, 2000.

Reviewer, University of Massachusetts, Massachusetts Agricultural Experiment Station, Research Proposal, 2000.

Scientific Advisor, Dyn Corp/U.S. Environmental Protection Agency, Office of Pesticides Program, Antimicrobial Division, 2000-2003.

Excom-Member, Institute of Food Technologists, Publications Committee, 2000-2003.

Member, Experiment Station Committee on Organization and Policy (ESCOP) Task Force on Food Safety, 2000.

Vice-Chair, Experiment Station Committee on Organization and Policy (ESCOP) Committee on Food Safety, 2000-2002.

Member, International Life Sciences Institute-North America, Membership Development Committee, 2000-02/2015

Member, International Life Sciences Institute-North America, Program Committee, 2000-2002.

Member, International Life Sciences Institute-North America, Steering Committee for “Science-Based Food Safety Objectives-Beyond HACCP,” 2000-2001.

Scientific Advisor, North American Blueberry Council, Crisis Management Team, 2000-2009.

Panel Member, U.S. Environmental Protection Agency, FIFRA Scientific Advisory Panel, 2000-2003.

Reviewer, Meat & Livestock Australia, Research and Development Project (Final Report) on Shiga toxin-producing *E. coli*, 2000.

Reviewer, International Foundation for Science, Research Grant (Cloning and Sequencing of a Region of *E. coli* O157:H7), 2000.

Reviewer, Maryland Agricultural Experiment Station, Research Proposal, 2000-01.

Reviewer, Natural Sciences and Engineering Research Council (NSERC) of Canada, Strategic Project, 2000.

Member, Institute of Food Technologists, Expert Panel to draft report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century, 2000-02.

Chairman, Council for Agricultural Science and Technology (CAST), Issue Paper on “Intervention Strategies for Safety of Foods of Animal Origin,” 2000-03.

External Assessor, Universiti Putra Malaysia, Evaluate appointments to Associate/Professor in the Faculty of Food Science and Biotechnology, 2000-03.

Invited Testimony, U.S. Senate Agriculture, Nutrition and Forestry Committee, Hearing on Food Safety, represented CAST, September 20, 2000.

Reviewer, U.S.-Israel Binational Agricultural Research and Development Fund (BARD), Research Proposal, 2000-01.

Vice Chairperson, World Health Organization and Food and Agricultural Organization of the United Nations, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, Rome, Italy, April 30-May 4, 2001.

Chairman, World Health Organization and Food and Agriculture Organization of the United Nations, Expert Consultation and Risk Assessment of Microbiological Hazards in Foods, Working Group on *Salmonella* spp. in eggs and broiler chickens, Rome, Italy, April 30-May 4, 2001.

Member, Institute of Food Technologists, Subcommittee to Propose Nominees for Committee on Nominations and Elections, 2001.

Reviewer, National Agency for the Promotion of Science and Technology of Argentina, Review proposal “Predictive models for growth and inactivation of pathogens relevant to minimally processed foods,” 2001.

Member, National Organic Standards Board, Task Force to Review Compost Regulations in USDA’s Organic Rule, 2001-2002.

Chairman, American Academy of Microbiology, Colloquium on “The Role of Antimicrobials in Agriculture: A Critical Scientific Assessment” Working Group, November 2-4, 2001.

Expert, U.S. General Accounting Office, USDA’s HACCP-based Inspection Models Project (HIMP) pilot, 2001.

Chair, American Society for Microbiology, Comments to Food and Drug Administration on Risk Assessment and Action Plan for Foodborne *Listeria monocytogenes* in Ready-to-Eat Foods, 2001.

External Examiner, Ohio State University, Promotion to Professor of Ahmed Yousef, 2001.

External Examiner, Rutgers-The State University of New Jersey, Promotion to Associate Professor and Tenure of Karl Matthews, 2001.

External Examiner, Universiti Putra Malaysia, Promotion to Professor of Son Radu, 2001.

Panel Member, GRAS Review of Pullulan, 2001-2002.

External Assessor, Universiti Putra Malaysia, Appointment to Associate Professor/Professor in the Faculty of Food Science and Biotechnology, 2001-2003.

External Examiner, Universiti Putra Malaysia, Evaluation of Ph.D. Thesis of Sahilah Abdul Mutalib, 2001.

Reviewer, Food and Drug Administration Science Achievement Awards, 2001.

Invited Contributor, University of Sussex and UK Defence Evaluation and Research Agency, Science Foresight Project, 2001.

Invited External Reference, Kansas State University Nominations for Distinguished Graduate Faculty Award for Daniel Fung, 2001.

Invited External Reference, Oklahoma State University, Nomination for the Eminent Faculty Award for Stanley Gilliland, 2001.

Invited External Reference, Colorado State University, Nomination for University Distinguished Professor for John Sofos, 2001.

Reviewer, United States-Israel Binational Agricultural Research and Development Fund (BARD) research proposal (Foodborne pathogens *Salmonella enteritidis* and *Escherichia coli* O157:H7:cross-resistance to antibiotics, sanitizers and food preservatives), 2001.

External Examiner, The University of the West Indies, Evaluation of Ph.D. Thesis of Lisa Indar-Harrinauth, 2001-03.

External Examiner, University of Tasmania, Evaluation of Ph.D. Thesis of Janelle Brown, 2001-2002.

Reviewer, Canada Foundation for Innovation, New Opportunities Fund Proposals (Nova Scotia Agricultural College), 2001-2003.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2001-2003.

Invited Reviewer, Beef Cattle Research Council of Canada, Research Proposal, 2001.

Reviewer, Institute of Food Technologists, Expert Paper on “Analysis and Evaluation of Preventive Control Measures for the Control and Reduction/Elimination of Microbial Hazards on Fresh and Fresh-cut Products,” 2001.

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agricultural *E. coli* O157:H7 Farm-to-Table Process Risk Assessment, 2001-2002.

Reviewer, U.S. Environmental Protection Agency, Review of Pathogen Reduction Protocol to Reduce Foodborne Pathogenic Bacteria in Fruit and Vegetable Process Water, 2001.

Expert Panelist, U.S. Environmental Protection Agency Antimicrobials Division, Efficacy Protocol Review Expert Panel, 2001-2005.

Co-chairperson, International Life Sciences Institute, Annual Meeting, Symposium on Bovine Spongiform Encephalopathy, 2001-2002.

Invited Participant, American Meat Institute, Meeting with the Centers for Disease Control and Prevention to address pathogen contamination of meat and poultry, 2001.

Reviewer, Natural Sciences and Engineering Research Council of Canada, Research Proposal on “Microbial Food Safety-Integrated Modelling Techniques for Farm to Fork Risk Assessment,” Strategic Project, 2001.

Reviewer, Biotechnology and Biological Sciences Research Council of the United Kingdom, Research Proposed on “Dose-Dependent Infection Dynamics of *E. coli* O157:H7 in Cattle,” 2001.

Expert Panel Member, Institute of Food Technologists, Expert Report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century,” 2001.

Member, McDonald’s Food Safety Advisory Council, 2001-2009.

Reviewer, Institute of Food Technologists, Book Review, “Microbial Foodborne Diseases: Mechanisms of Pathogenesis and Toxin Synthesis.” *Food Technology* 55:87, 2001.

Reviewer, Institute of Food Technologists, Expert Report on the “Evaluation and Definition of Potentially Hazardous Foods,” 2001-2002.

Member, American Academy for Microbiology, General and Applied Microbiology Recruitment Committee, 2001-2002.

External Examiner, Utah State University, Promotion to Professor of Burt Weimer, 2001.

Member, National Organics Standards Board of USDA/National Organic Program, Compost Task Force, 2001-2002.

Member, American Society for Microbiology, Nominating Committee for President-Elect, 2001-2002.

Reviewer, Resources for the Future (RFF) Press, *Food Safety* book, 2001-2002.

Member, U.S. Food and Drug Administration, Scientific Achievement Awards Evaluation Committee, 2001.

External Examiner, Iowa State University, College of Veterinary Medicine, Promotion to Professor, James Dickson, 2001.

External Advisor, Michigan State University, National Food Safety and Toxicology Center, Strategic Plan for Center, 2001.

Member, Institute of Food Technologists, Committee of IFT Liaisons to the International Life Sciences Institute, 2001-2002.

Founding Member, Food Safety Research Consortium, comprised of Resources for the Future, University of Maryland, University of Georgia, University of California-Davis, Michigan State University, University of Massachusetts, and Iowa State University, 2002-2009.

Member, Institute of Food Technologists, Task Force on Assisting the Continued Integrity of the U.S. Food Supply, 2001-2002.

Steering Committee Member, Third National Sanitation Foundation International Food Safety Conference, 2001-2002.

Invited External Reference, U.S. Food and Drug Administration nomination for appointment to Senior Biomedical Research Program for David Acheson, 2002.

Invited External Reference, International Association for Food Protection and National Food Processors Association nomination for Food Safety Award for Nelson Cox, 2002.

Invited External Reference, International Association for Food Protection nomination for Citation Award for John Cerveny, 2002.

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007.

Invited External Reference, Institute of Food Technologists nomination for Fellow for Katherine Swanson, 2002.

Invited Reviewer, National Science Foundation, proposal for Integrated Research and Education in Environmental Systems, 2002.

Member, Milbank Memorial Fund, Consortium on Reducing the Burden of Foodborne Illness, 2002.

Invited Evaluator, Argentina National Agency of Promotion Cientifica and Tecnologia proposals, 2002.

Chairman, International Life Sciences Institute Risk Science Institute, *Listeria monocytogenes* Expert Panel Review, Steering Committee, 2002.

Invited Reviewer, United States Civilian Research and Development Foundation for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2002.

International Editorial Advisory Board, *Encyclopedia of Animal Science*, Marcel Dekker, 2002-2009.

invited Advisor, U.S. Government Accounting Office (GAO), Audits of U.S. government food safety activities, Review of security of food processing from deliberate contamination, 2002.

Member, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections - VTEC 2003, Edinburg, Scotland, 2002-2003.

Member, National Institutes of Health, National Institute of Allergy and Infectious Diseases, Partnerships Biodefense Initiative Review Panel, Small Business: Infectious Diseases and Microbiology, 2002.

Host, USDA Foreign Agricultural Service Cochran Fellow, Virginia Montero Campos (Costa Rica), 2002.

Reviewer, Food and Drug Administration, Center for Veterinary Medicine, Grant application (Resistant *E. coli* in humans and poultry), 2002.

Reviewer, USDA National Organic Standards Board TAP report on magnesium oxide, 2002.

Review Panel, Food and Drug Administration, proposal for renewal of the Joint Institute for Food Safety and Applied Nutrition, 2002.

Advisory Board, Partnership for Food Safety Education, 2002-2005.

Member, International Life Sciences Institute-North America, Nominations Committee, 2002.

Reviewer, Food and Drug Administration Bacteriological Analytical Manual, Chapter 10 on "Detection and Enumeration of *Listeria monocytogenes* in Foods," 2002.

Reviewer, Versar, Environmental Protection Agency "*E. coli* O157:H7 Criteria Document," 2002.

Invited Expert, Institute of Food Technologists Task Order #5 Expert Panel, Intentional Contamination of Food, 2002-2003.

Drafting Team, President's Council of Advisors for Science and Technology (Office of Science and Technology), Research priorities for improved assurance of food and water safety in the U.S., 2002.

GRAS Expert Panel, Mead Johnson, Safety Review: *Lactobacillus rhamnosus* strain GG, 2002-2003.

Host, USDA Foreign Agricultural Service Cochran Fellow, Diana Banati (Central Food Research Institute, Budapest, Hungary), 2002.

Host, USDA Foreign Agricultural Service International Cooperation and Development Program, Yugoslavian Food Safety Officials (Risk Assessment-Based Food Safety Policy making), 2002.

Member, College of Reviewers, Canada Research Chairs Program, National Sciences and Engineering Program, 2002-

Member, International Life Sciences Institute-North America, Annual Meeting Scientific Session Planning Committee, 2002-2003.

Steering Committee Member, Food Safety Research Consortium, 2003-2009.

Review Coordinator, National Academy of Sciences - Institute of Medicine, Report on "Use of Scientific Criteria and Performance Standards for Safe Foods," 2003.

Member, International Life Sciences Institute-North America, Communications Committee, 2003-2007.

Member, American Meat Institute Foundation, Research Committee, 2001-2009.

Chair Designate, Institute of Food Technologists, Government Relations Committee, 2003-2004.

Invited Expert, Institute of Food Technologists, Task Order No. 7 Expert Panel (Biosecurity), 2003-2004.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2006

Member, Fifth ASEPT International Conference "Analyse de risques et *Listeria monocytogenes*/*Listeria monocytogenes* Risk Analysis," Scientific Committee, 2003-2004.

Consultant, U.S. Department of Agriculture-Agricultural Marketing Service, Microbiological Data Program, 2003-2005.

Invited Expert, Secretary of Health and Human Services Tommy Thompson, Secretary's Roundtable on Obesity/Nutrition, July 30, 2003.

Member, Foodborne Pathogens & Disease, Editorial Board, 2003-2009.

Reviewer, U.S. Civilian Research & Development Foundation (CRDF) for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2003.

Reviewer, World Health Organization and Food and Agriculture Organization of the United Nations, Risk Assessments of *Salmonella* in eggs and broiler chickens, 2002.

Jury Member, Food and Drug Administration Scientific Achievement Awards, 2003.

Reviewer, Centers for Disease Control and Prevention, Foodborne Diseases Branch, Computer-based case study on Applied Food Safety Research, 2003.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Milena Corredig), 2003.

Reviewer, U.S. Department of Agriculture - Agricultural Research Service, Research Project Plan (Biology and Control of Human Pathogens on Fresh Produce), 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Robert Buchanan, 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Arthur J. Miller, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Chairman, National Academy of Sciences, U.S.-Iran Workshop on Foodborne Disease Surveillance Systems, 2003-2005.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

External Examiner, Purdue University, Promotion to Professor of Arun Bhunia, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Review Coordinator, National Academy of Sciences - National Research Council, Report on "Workshop on Exploring a Vision: Integrating Knowledge for Food and Health," 2003-2004.

Invited Reviewer, Danish Research Agency Centres of Excellence Programme, Proposal entitled "Microbial Opportunistic Pathogens - A Severe Problem to Human Health," 2003.

Invited Reviewer, Danish Research Agency, Centres of Excellence Programme, Proposal entitled "The Center for the Ecology of Pathogenic Traits in the Environment and Humans," 2003.

Member, American Foods Group, Corporate Food Safety Advisory Committee, 2003-2005.

Jury Panel, Fifth ASEPT International Conference "*Listeria monocytogenes* Risk Analysis," Scientific Posters, 2004.

GRAS Expert Panel, Mead Johnson, Safety Review: Prebiotic Ingredients for Addition to Infant Formula, 2003-2006.

Invited Expert, U.S. Government Accounting Office, Agriculture and food security issues, 2003.

Member Expert Panel, Cooperating for Food Safety, Best Practices for Control of *E. coli* O157:H7 in Ground Beef, 2004-2009.

Invited Expert, Argentinian public health, federal meat inspection, and beef industry, Testing beef for Enterohemorrhagic *E. coli* O157:H7 and Shiga Toxin-Producing *E. coli*, 2003.

Invited Expert, United Kingdom Chilled Food Association, Priorities for research, 2003.

Invited Expert, Harris Interactive, Optimal daily intake study, 2003.

Invited Reviewer, Canada Research Chairs, Evaluate nomination of Charles Dozois, 2003.

Invited Expert, U.S. Department of Agriculture, Center for Nutrition Policy and Promotion, Dietary Guidelines Advisory Committee, Food Safety Subcommittee, Advice on food safety guidelines for consumers, 2003.

Reviewer, Council for Agricultural Science and Technology (CAST), Report on Food Safety and Fresh Produce, 2003-04.

Jury Member, International Association for Food Protection, International Leadership Award Committee, 2003-06.

Consultant, State of Yucatan in Mexico, Study to establish “tolerable” levels of *Salmonella* in meats (Zaida Mussaret), 2003-04.

Invited Testimonial, *Foodborne Pathogens and Disease* journal, 2003-04.

Co-convenor, American Society for Microbiology Annual Meeting, Roundtable on “Addressing the Issue of Antibiotic Resistant Foodborne Bacteria through the Application of Risk Assessment,” 2004.

Invited External Evaluator, University of Mysore, Ph.D. thesis of B. P. Padmapriya (Molecular methods for the detection of enterotoxigenic staphylococci and application in food quality programs, 2004.

Member, Lallemand-Ivy/Vet Life Pathogen Reduction Advisory Board, 2004.

Reviewer, Canada Foundation for Innovation. New Opportunities Fund proposal (George Van Der Merwe), 2004.

Review Coordinator, National Academy of Sciences- National Research Council, “Identifying and assessing unintended effects of genetically engineered foods on human health,” 2004.

Invited Lectures, NASA and NLM Internet Global Lecture Library (www.pitt.edu/~super1/), Two supercourses on food safety, (1. Contamination of Foods by Pathogens in the Environment and 2. Food Safety challenges from Farm to Table) 2004.

- Steering Committee Member, USDA-FDA Global Conference on Good Agricultural Practices, 2004-2005.
- Member, State of Georgia Agroterrorism Committee, 2004.
- Consultant, General Mills, Risk Assessment of Refrigerated Products, 2004.
- Juror, Institute of Food Technologists Congressional Support for Science Award, 2004-2005.
- Reviewer, Merial, Evaluation of *E. coli* O157:H7 vaccine, 2004.
- Chair, Food Safety Research Consortium - Centers for Disease Control and Prevention, Food Attribution Data Workshop, 2003.
- Chair, Institute of Food Technologists, Government Relations Committee, 2004-2005.
- Member, National Academy of Sciences - National Research Council, Committee on National Needs for Research in Veterinary Science, 2004-2005.
- Member, International Life Sciences Institute-North America, Strategic Planning Committee for Food Safety Program, 2004
- Chair, Institute of Food Technologists, Expert Report on “Antimicrobial resistant Microorganisms: Perspectives on Food Safety,” 2004-2005.
- Member, American Association of Meat Processors, Food Safety and Science Committee, 2004-2009.
- Reviewer, Marcel Dekker, Encyclopedia of Animal Science, 4 manuscripts (1. Pathogens in Animal Products: Sources and Control; 2. Pathogens in Animal Products: Major Biological Hazards; 3. Animal Source of Food: Quality and Safety - Meat and Poultry; 4. Animal Source of Food: Quality and Safety - Milk and Eggs), 2004.
- Invited Moderator, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Oral Presentations, 2004.
- Jury Member, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Poster Presentations, 2004.
- Invited External Reference, Kansas State University, University Distinguished Professor nomination of Daniel Fung, 2003-2004.
- Invited External Reference, Institute of Food Technologists, Fellow nomination of Russell Flowers, 2004.
- Invited External Reference, Institute of Food Technologists, Fellow nomination of Susan Hefle, 2004.
- Invited External Reference, Institute of Food Technologists, Fellow nomination of Maribeth Cousin, 2004.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

Member, Warnex, Inc., Scientific Advisory Board, 2004-2006.

Member, Cooperating for Food Safety, Expert Panel, 2003-2008.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Arthur Miller, 2005.

Invited Nominator and External Reference, American Academy of Microbiology, Robert Brackett, 2003.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Richard Whiting, 2005.

Invited Request for Comment, The U.S. Government Accountability Office (GAC), Federal food safety consolidation, 2004.

Invited External Evaluator, University of Minnesota Department of Food Science & Nutrition, tenure and promotion to Associate Professor of Francisco Diez-Gonzalez, 2004.

Invited External Evaluator, Cornell University Department of Food Science, tenure and promotion to Associate Professor of Martin Wiedmann, 2004.

Jury Member, International Association for Food Protection, Fellows Election Panel, 2004-2005.

Member, 6th International Symposium on Shiga toxin producing *Escherichia coli* (VTEC 2006), Melbourne, Australia, Scientific Program Committee, 2004-2006.

Member, Global Good Agricultural Practices Research & Extension Conference, Orlando, FL, Planning Committee, 2004-2005.

Member, Institute of Food Technologists, Task Force on Governance, 2004-2006.

Session Chair, University of Massachusetts, Food Safety Research Consortium, Workshop on Economic Impact of Food Safety Interventions, 2004.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Lactulose as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Galacto-oligosaccharides as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Polydextrose as a prebiotic in infant formula, 2004-2005.

Member, State of Georgia Agro-terrorism Committee of Homeland Security Working Group, Steering Advisory Committee, 2004.

Co-Chair, American Academy of Microbiology, Colloquium on Agriculture and Food Microbiology Research Opportunities, 2004-2005.

Chair, American Society for Microbiology, Office of Public Affairs, White Paper on USDA Microbiology Research Opportunities, 2004-2005.

Advisor, Nippon Suisan Kaisha (Nissui), Biological Control of *Listeria* in food processing facilities, 2004.

Member, State of Georgia Food Security Tabletop Exercise Committee, Steering Advisory Committee, 2004-2005.

Reviewer, Canadian Foundation for Innovation, University of Manitoba Large Animal Biosecurity Laboratory, 2004.

Reviewer, La Agencia Nacional de Promocion Cientifica y Tecnologia, research proposal, 2004.

Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2004.

Reviewer, Washington State University, IMPACT Center, proposal review, 2004.

Reviewer, Blackwell Publishing, IFT Press series, book proposal, 2004.

Author, Emerging Issues in Food Safety, Microbiology of Fresh Produce, book preface, 2005.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Takuji Tanaka), 2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on *Lactobacillus rhamnosus* strain GG as a probiotic in infant formula, 2005-2006.

Invited External Evaluator, University of Maryland, College of Agriculture and Natural Resources, Department of Nutrition and Food Science, appointment as Professor and Dean of Cheng-I Wei, 2005.

Member, Food Safety Research Consortium, Advisory Committee on Conference for Prioritizing Opportunities to Reduce Foodborne Risks, 2005.

Member, Institute of Food Technologists Press Editorial Advisory Board, 2005-2006.

Member, US Congressman Lynn Westmoreland's Agricultural and Natural Resources Advisory Council, 2005-2008.

Member, Global Good Agricultural Practices (GAPs) Research and Extension Conference, Planning Committee, 2004-2005.

Invited External Evaluator, Washington State University Department of Food Science and Human Nutrition, tenure and promotion to Associate Scientists and Extension E3 of Dong-Hyun Kang, 2005.

Member, Commission for a New Georgia, Agribusiness Technical Advisory Group, 2005.

Reviewer, National Research Council, Food Safety and Foodborne Disease Surveillance Systems report, 2005.

Chairman, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, 2005.

Member, International Association for Food Protection, Rapid Response Task Force, 2005-2006.

Invited External Evaluator, North Dakota State University Department of Veterinary and Microbiological Sciences, tenure and promotion to Associate Professor of Catherine Logue, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees Nominating Committee, 2005-2006.

Invited External Evaluator, North Carolina State University Department of Food Science, promotion to Professor of Lee-Ann Jaykus, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of John Luchansky, 2006.

Invited Expert, RTI International, USDA-Food Safety and Inspection Service Expert Panel on Risk Factors for *E. coli* O157:H7 Contamination of Ground Beef, 2005-2006.

Reviewer, Washington State University IMPACT Center, Grant proposal, 2005.

Reviewer, USDA-SBIR Grants in Food Science and Nutrition, 2005-2006.

Invited External Evaluator, Michigan State University, reappointment of Ewen Todd as Director of the National Food Safety and Toxicology Center, 2005.

Invited External Evaluator, Pennsylvania State University Department of Food Science, promotion to Professor of Stephen Knabel, 2005.

Member, Institute of Food Technologists, Nicholas Appert Award Jury, 2005-2008.

Co-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program, Chasing Zeros session, 2006.

Vice-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program Planning Committee, 2005-2007.

Invited Expert, International Food Informational Council, first responders food safety/security training program for National Center for Food Protection and Defense, 2005.

Invited External Reference, Kansas State University, Graduate School, nomination of Daniel Fung for Distinguished Graduate Faculty Award, 2005.

Invited Expert, ABC Good Morning America, Safety of foods in home refrigerators, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Kiyoko Kubuomura, 2005.

Invited Expert, U.S. Department of Agriculture, Biotechnology Research in Agricultural Biosecurity Workshop, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Jenny Scott, 2005.

Invited Reviewer, UK Food Standards Agency, Review of Verotoxin-producing *E. coli* /STEC research, 2005.

External Reference, International Association for Food Protection, Fellow nomination for Robert Brackett, 2005.

Member, International Symposium on Problems on Listeriosis (ISOPOL) XVI, Organizing Committee, 2005-2007.

Nominator, International Association for Food Protection, nomination of Larry Beuchat for FPA Food Safety Award, 2005.

Invited Reviewer, U.S. Department of Agriculture - Agricultural Marketing Service, Qualified through Verification System, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Gale Prince, 2005.

Reviewer, Kansas State University, Targeted Excellence Program, reviewed proposal, 2005.

Reviewer, National Pork Board, research proposals, 2005-2006.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Agriculture and Food Microbiology Committee, study on Microbiology Research Opportunities and Needs within USDA Competitive Grants Program, 2005.

Invited External Reference, International Association for Food Protection, nomination of Catherine Nnoka for the Harold Barnum Industry Award, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees, Development Committee, 2005.

Reviewer, Springer, book proposal on Microbial Ecology of Food Systems, 2005.

Scientific Expert, Food and Drug Administration - Center for Veterinary Medicine, External Review Committee for CVM's National Antimicrobial Resistance Monitoring System (NARMS) research program, 2005-2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Review Coordinator, Institute of Medicine, Daily Mineral Intakes for Military Personnel report, 2005-2006.

Invited Expert, Hong Kong Agri-Food and Veterinary Authority, expert guidance on microbiological specifications for foods, 2005-2007.

Member, International Life Sciences Institute-North America, Board of Trustees Program Committee, 2006-2009.

External Reference, International Association for Food Protection, Food Safety Award, Letter of nomination for U.S. Department of Agriculture-ARS Microbial Food Safety Research Award, 2006.

National Spokesperson, National Chicken Council, Food safety issues associated with avian influenza virus, 2006-2008.

Chairperson, International Life Sciences Institute-North America, 2007 Scientific Program Planning Committee, 2006-2007.

Invited Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2006.

Invited Participant, McDonald's Worldwide Convention, Orlando, FL, 2006.

Chairperson, National Academies, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2005-2006.

Invited Reviewer, National Academies Press, Food Safety and Foodborne Disease Surveillance Systems, 2006.

Chairman, McDonald's Food Safety Advisory Council, 2006-

Member, Earthbound Farm Food Safety Advisory Council, 2006-2009.

Member, 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), International Scientific Program Committee, 2005-2006.

Spokesperson, Best Food Nation, 2006.

Member, National Turkey Federation, Avian Influenza Scientific Advisory Board, 2006-2009.

Expert Resource, International Food Information Council Foundation, Resource for reporters on food safety issues, 2007-2009.

Invited Reviewer, Research Triangle Institute, Review USDA-Food Safety and Inspection Service food safety risk assessment model, 2006.

Review Coordinator, Institute of Medicine, Report by Committee on the Mineral Requirements for Cognitive and Physical Performance of Military Personnel, 2005-2006.

Reviewer, USDA-CSREES National Research Initiative on Nanoscale Science and Engineering for Agriculture and Food Systems, research proposal, 2006.

Spokesperson, National Chicken Council, Radio Tour (14 interviews) on Avian Influenza, 2006.

Nominator, International Association for Food Protection, nomination of Paul Hall for Harold Barnum Industry Award, 2006.

Invited External Reference, International Association for Food Protection, nomination of Ecolab for Black Pearl Award, 2006.

Nominator, Institute of Food Technologists, Fellow nomination of Bruce Cords, 2007

Board Member, Cooperating for Food Safety, 2006-2009.

Member, Canadian Leaders Opportunity Fund College of Reviewers, 2006-2009.

Reviewer, U.S. Department of Homeland Security, reviewed University of Minnesota National Center for Food Protection and Defense, 2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Member, National Institute for Animal Agriculture, Annual Meeting, Symposium Committee, 2006-2007.

Member, U.S. Highbush Blueberry Council, Crisis response team, media contact for foodborne illness, 2006-

Reviewer, Wiley-Interscience, Handbook of Prebiotics and Probiotics, 2nd edition, 2006.

Reviewer, The Georgian National Science Foundation, research proposals, 2006-2007.

Reviewer, National Pork Board, research proposals, 2006.

Member, Scientific Advisory Board, GangaGen, on-farm food safety interventions, 2006-2013.

Reviewer, Agriculture and Agri-Food Canada, research proposal, 2006-2007.

Reviewer, USDA-Small Business Innovation Research program, research proposals, 2006.

Invited Participant, Co-FARM (The Coalition on Funding Agricultural Research Missions), Congressional Visits Day, 2006.

Advisor, Singapore Agri-Food and Veterinary Authority, *Salmonella* in meats, 2006-2007.

Reviewer, Blackwell, The Microbiology Safety of Foods in Healthcare Settings (B. Lund and P. Hunter), 2006.

Advisor, The Coca-Cola Company, microbiological matters associated with beverages, 2005-2010.

Invited Reference, University of Georgia, Dean of College of Public Health, Philip Williams, 2006.

Advisor, RESOLVE, Inc., USDA-FSIS risk-based inspection measurement criteria, 2006.

Invited External Reference, Kansas State University, James Marsden evaluation for Regents Distinguished Professor, 2006.

Member, Robert Wood Johnson Foundation Food Safety II Project Workshop Committee, University of Maryland, 2006-2007.

Invited External Reference, American Meat Science Association International Award nomination for John Sofos, 2006-2007.

Reviewer, Washington State University, International Marketing Program for Agricultural Commodities and Trade (IMPACT), research proposal, 2006.

Convener, American Society for Microbiology Annual Meeting Symposium on Impact of the Food Chain on the Emergence of Antibiotic Resistance in Human, 2007.

Member, Illinois Institute of Technology National Center for Food Safety and Technology-UGA Center for Food Safety Workshop on Role of Testing in the Safety of Fresh Produce, Organizing Committee, 2007.

Moderator, ISOPOL XVI (The International Symposium on Problems of Listeriosis), Opening Session, March 20, 2007.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008.

Representative, American Society for Microbiology, CoFARM (Coalition on Funding Agricultural Research Missions) Congressional Visits, Washington, DC, April 18-19, 2007.

Moderator, Cooperating for Food Safety, Best Practices for Improving Food Safety: A National Symposium, Washington, DC, October 31, 2007.

Moderator, Institute of Medicine Workshop on Nutritional Risk Assessment: Bridging Perspectives, Sharing Methodologies, Identifying Data Challenges, Washington, DC, March 1, 2007.

Chairman, ConAgra Food's Food Safety Advisory Council, 2007-

Invited Participant, SQF Institute (Food Marketing Institute) Leafy Greens Workshop, Chicago, IL, March 28-30, 2007.

Chairperson, American Academy of Microbiology, Colloquium on Global Food Safety, Steering Committee, 2007-2009.

Invited External Reference, Kansas State University, Professional Performance Award for Daniel Fung, 2007.

Reviewer, National Academies National Research Council Proceedings of an Iranian-American Workshop: Food Safety and Foodborne Disease Surveillance Systems, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Jenny Scott, 2007.

Member, Georgia Department of Human Resources, Division of Public Health, Food Service Rules and Regulations Implementation Advisory Workgroup, 2006-2010.

Scientific Advisor, Taco Bell Fresh Produce Food Safety Initiative, 2006-2009.

Scientific Advisor, Sterilex, Owings Mills, MD, 2007.

Invited Non-Government Organization Representative, Codex Alimentarius Commission Ad Hoc Intergovernmental Task Force on Antimicrobial Resistance, IFT Representative, 2007-2008.

Advisory Board Member, University of California-Davis Center for Produce Safety, 2007-2009.

Scientific Advisor, Clinical Advisors, 2007.

Lead Expert, International Food Information Council Media Training on Food Safety, 2007.

Member, Mars Scientific Advisory Council, 2007-2009.

Reviewer, The Wellcome Trust research proposal on *Bdellovibrio* as living antibiotics, 2007.

Invited Testimony, U.S. House Appropriations Committee, Rep. Jack Kingston, Food safety issues associated with food imports, September 2007.

Scientific Advisor, Prepara, Inc. (addresses 21st Century Threats, preparedness and emergency response), Advisory Board, 2007-2008.

Reviewer, National Sciences and Engineering Research Council of Canada (NSERC), Strategic Project Grant (O.D. Baik, University of Saskatchewan), 2007.

Laboratory Analysis, Minnesota Department of Health, food samples associated with *Salmonella* outbreak, 2007.

Consultant, U.S. Government Accounting Office, study for Senators Edward Kennedy and Barbara Boxer of the Senate Committee on Health, Education, Labor, and Pensions on FDA oversight of fresh produce safety, 2007.

Peer Reviewer, Versar, Inc. (environmental consulting firm), FDA Center for Food Safety and Applied Nutrition documents and reports addressing various aspects of food safety, 2007-2008.

Peer Commenter, Booz/Allen/Hamilton, Kraft Foods benchmarking study to better understand how leading companies are addressing food safety and quality programs, 2007.

Nominator, American Society for Microbiology, nomination of Bala Swaminathan for Gen-Probe Joseph Award, 2007.

Invited Testimony, Georgia Senate Oversight Committee, Hearing on Imported Seafood, Safety of imported fish and shellfish, November 16, 2007.

External Evaluator, University of Minnesota, School of Public Health, promotion of Craig Hedberg to Professor, 2007.

Reviewer, Garland Science/Taylor and Francis, Case Studies in Infectious Diseases book chapter, 2007.

External Evaluator, University of Tennessee, Department of Food Science and Technology, promotion of David Golden to Professor, 2007.

Reviewer, Wiley-Blackwell, Essential Food Safety Assurance: Managing HACCP and food safety throughout the global supply chain book proposal, 2007.

Reviewer, International Food Information Council, Question and answer fact sheet on antimicrobial resistance microbes in foods, 2007.

Nominator, American Society for Microbiology, ASM Founders Distinguished Service Award nomination of Ann Vidaver, 2007-2008.

Invited Reviewer, Netherlands Organization for Scientific Research (NWO) - Council for Earth and Life Sciences, research proposal on spread of pathogens in ecosystems, 2007.

Invited Reviewer, Shaheed Beheshti University of Medical Sciences, Tehran, Iran, research paper on diarrheagenic *E. coli*, 2007.

Chairman and Convenor, U.S. Centers for Disease Control - Food Industry Safe Foods Forum, 2007-

Invited External Reference, Oklahoma State University, Regents Distinguished Research Award nomination of Stanley Gilliland, 2007.

Invited External Reference, University of Illinois, Faculty Award for Excellence nomination of Scott Martin, 2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of John Luchansky, 2007.

Invited Reviewer, Oregon Agricultural Experiment Station, Animal Health and Disease research proposals, 2007.

Invited External Evaluator, Washington State University, Department of Veterinary Clinical Sciences, promotion of William Sisco to Professor, 2007.

Invited External Reference, North Carolina State University, Alumni Association Outstanding Research Award nomination of Lee-Ann Jaykus, 2007.

Member, International Life Sciences Institute-North America, 2008 Annual Meeting Scientific Program Planning Committee, 2007.

Invited External Evaluator, Emory University, Rollins School of Public Health, promotion of Christine Moe to Professor, 2007.

Invited Expert, The National Academies National Research Council, 2006 Assessment of Research Doctorate Programs, 2006-2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of Bala Swaminathan, 2007.

Invited Participant, University of Maryland - Food and Drug Administration Joint Institute for Food Science and Applied Nutrition (JIFSAN), Tools for Prioritizing Food Safety Concerns Workshop, Washington, DC, June 4-6, 2007.

Member, Institute of Food Technologists, Government Relations Committee, 2006-2009.

External Reference, University of Georgia Libraries, promotion of Regina Cannon to Librarian IV, 2007.

Laboratory Analysis, Chicago Department of Public Health, food samples associated with *Salmonella* outbreak, 2007.

Reviewer, Canada Research Chairs, nomination of Rafael Garduno, Dalhousie University, 2007.

Reviewer, Canada Research Chairs, nomination of Andreas Schieber, University of Alberta, 2007.

Reviewer, Canada Research Chairs, nomination of Christopher Yost, University of Regina, 2007.

Advisor, Hong Kong Economic and Trade Office, Monica Chen, Director, food safety issues, 2007.

Invited nominator, Oklahoma State University, Gamma Sigma Delta International Distinguished Achievement in Agriculture Award nomination of Stanley Gilliland, 2007.

Expert, Nutri+Food Business Constituents, food safety testing (industry landscape/drivers/constraints), 2007

Member, American Association of Meat Processors, Food Safety and Science Committee, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Mary Ellen Camire, 2007.

Invited Expert, RTI International, Food and Agricultural Policy Research Program, expert elicitation on the probability of illness per serving for meat and poultry products, 2007.

Invited External Evaluator, Clemson University, Department of Food Science and Human Nutrition, promotion of Xiuping Jiang to Associate Professor, 2007.

Member, International Life Sciences Institute-North America, Board of Trustees Communications Committee, 2007.

Chairperson, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2007-2008.

Member, Institute of Medicine-Food and Nutrition Board Committee on Review of Use of Process Indicators in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009.

Member, University of California-Davis Center for Produce Safety, Technical Advisory Committee, 2007-2010.

Member, Institute of Food Technologists, Current and Emerging Science Issues Expert Advisory Panel, 2008-2010.

Member, National Research Council/Institute of Medicine, Standing Committee on Review of USDA-FSIS Public Health Risk-based Inspection Program, 2008-

Member, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, Scientific Program Committee, 2007-2009.

Abstract Reviewer, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, 2008-2009.

Member, Publix Super Markets Food Safety Council, 2008-

Member, American Association of Meat Processors, Food Science and Science Committee, 2008-

Advisor and Spokesperson, Almond Board of California, Issues Management Plan, 2008-2009.

Member, FDA Reagan Udall Foundation Finance Committee, 2008-2011.

- Member, National Conference on Food Safety and Public Health Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Steering Committee, 2008-2009.
- Reviewer, Danish Ministry of Foreign Affairs, Consultative Research Committee for Development Research, research proposal (Tanzania) 2008.
- Reviewer, MacArthur Fellows Program, Catherine Donnelly nominee, 2008.
- Reviewer, Springer, New journal (Journal of Food and Environmental Virology) proposal, 2008.
- Reviewer, Ontario Food Safety Research Program (Canada), Proposal on Reduction of *E. coli* O157:H7 in ground beef using a combination of bundles, 2008.
- Invited Expert, University of Maryland - Food and Drug Administration Joint Institute for Food Safety and Applied Nutrition, Workshop on Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns, 2008.
- Reviewer, Canadian Foundation for Innovation, Infrastructure project proposal (Elaine Petrof, Queens University), 2008.
- Invited Expert, Centers for Disease Control and Prevention, Briefing and Brainstorming Session on Outbreak of *Salmonella* Poona Infections in the USA and Canada, 2008.
- Nominator/Letter of Support, International Association for Food Protection - Grocery Manufacturers Association Food Safety Award for International Commission on Microbiological Specifications for Foods, 2008.
- Evaluator, U.S. Department of Agriculture-Agricultural Research Service, Promotion of Dr. Manan Sharma, 2008
- Reviewer, Ontario (Canada) Research Fund - Research Excellence Program, Proposal on Novel Strategies for the Control of Foodborne Pathogens in Poultry (University of Ottawa), 2008.
- Invited Expert, Food and Drug Administration (Commissioner Andrew von Eschenbach), Listening session on explanations for the current *Salmonella* outbreak associated with tomatoes and peppers, July 14, 2008.
- Invited Expert, Animal Agriculture Alliance Third Party Subject Matter Experts on Antimicrobial Resistance, 2008-
- Invited Expert, Illinois Department of Public Health, Office of Health Protection (Jayne Nosari), Alleged botulinum toxin food poisoning; interpreting test results (nonspecific deaths of mice), December 3, 2008.
- Invited Expert, Institute of Food Technologists, Comments and Recommendations on the Food and Drug Administration's Food Protection Plan, Food Technology 9(08):24, 2008.
- Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2008-2011.

Reviewer, Springer, New journal (International Journal of Ionizing Radiation) proposal, 2008.

Invited Expert, Paragon Development, Voice-of-Market Forum on MicroBeGone (a polymer with antimicrobial properties), 2008.

Reviewer, Garland Science (Taylor and Francis Group), Book on Case Studies in Infectious Diseases, 2008.

Invited Evaluator, University of Maryland, Tenure and rank of full professor of Robert Buchanan, 2008.

Subject Matter Expert and Advisor, Georgia Committee for Agriculture and Food Defense, 2007-

Reviewer, Springer, New journal (Food Security: The Science and Sociology of Food Production and Access to Food) proposal, 2008.

Invited Evaluator, U.S. Department of Agriculture - Food Safety and Inspection Service, Technical leader/microbiologist position for Dr. Shanker Reddy, 2008.

Reviewer, Food and Agriculture Organization (Rome Italy), EU scientific opinion on pathogen reduction treatment use and antimicrobial resistance, 2008.

Referee, Hartmut Hoffman-Berling International Graduate School of Molecular and Cellular Biology, Application of Fereshteh Jafari, 2008.

Nominator (Letter of Support), Institute of Medicine, Cecil Research Award for Ann Yaktine, 2008.

Chairman, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, Planning Committee, 2008.

Reviewer, John Wiley & Sons, Book (Analytical Food Microbiology: A Laboratory Manual, 2nd Edition) proposal, 2008.

Invited Evaluator, Technion - Israel Institute of Technology, Department of Biotechnology and Food Engineering, promotion to Associate Professor and tenure of Dr. Sima Yaron, 2008.

Member, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, Planning Committee, 2008.

Member, Institute of Food Technologists, Awards Committee Jury for Nicholas Appert Award, 2007-2009.

Invited Reference, Texas A&M University, Vice President for Research candidate, Martin Philbert, 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, (Managing Food Safety Practices from Farm to Table), 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, 2008.

Invited Expert, International Food Information Council, Antibiotic resistance, Media Spokesperson and Advisor, 2008-2009.

Convenor, American Society for Microbiology, Symposium on Emerging Issues in Food Safety: Impact of Globalization of the Food Supply, 2008.

Invited Expert, U.S. Federal Government's Interagency Risk Assessment Consortium (IRAC), Workshop on Research Needs Prioritization for Conducting a Quantitative Risk Assessment of *E. Coli* O157:H7 in Leafy Greens, 2008.

Member, Invited Expert, Tapestry Networks, Food Safety Leadership Network, 2008-2009.

Member, Wiley-Blackwell, IFT Press Series, Editorial Advisory Board, 2006-2009.

Member, International Life Sciences Institute-North America, Scientific Session Program Planning Committee, 2008-2009.

Nominator, Institute of Food Technologists, Fellow nomination of Vijay Juneja, 2008.

Member, International Association for Food Protection, Membership Committee, 2007-2009.

Co-Organizer and Co-Chairperson, International Working Group on Reducing *Salmonella* on Raw Poultry, 2008-

Reviewer, University of California-Davis Center for Food Safety, Research proposals, 2008.

Invited Expert, Mars, Workshop on *Salmonella*, 2008.

Advisor, National Restaurant/Retail Produce Food Safety Consortium, Meetings of Leading Purchasers of Minimally Processed Produce, 2007-2009.

Member, State of Georgia Department of Public Health, Food Service Technical Review Committee, 2007-

Co-Organizer, New York Academy of Sciences, Symposium on Foodborne Illnesses and Food Safety, 2007-2008.

Chairman, U.S. National Academies Planning Committee, The 2nd Korean Academy of Science and Technology - U.S. National Academies Bilateral Symposium: The Science of Food Safety Risk Assessment, 2009.

Review Coordinator, The National Academies National Research Council - Division on Earth and Life Sciences, Report on "Review of the Methodology Proposed by the Food Safety and Inspection Service for Follow-up Surveillance of In-Commerce Businesses," 2009.

Invited External Evaluator, Iowa State University Department of Food Science and Human Nutrition, tenure and promotion of Associate Professor of Sam Beattie, 2009.

Expert Advisor, U.S. House Government Oversight and Reform and Domestic Policy Subcommittee, hearing on safety of fresh produce, 2009.

Member, Food and Drug Administration Science Board Subcommittee, Research Planning, Program and Facilities of the Center for Veterinary Medicine, 2009.

Reviewer, Canada-Israel Cooperation in Agricultural Research Program, research proposal, 2009.

Member, ConAgra Foods, From What to How Task Force, 2009-2010.

Nominator, International Association for Food Protection, IAFP-GMA Food Safety Award, Joy Gaze nominee, 2009.

Reviewer, Canada Research Chair, Tier 2 Chair in Infectious Bacterial Diseases, Charles Dozois, 2009.

Invited Nominator, Institute of Food Technologists, Fellow, Rick Holley, 2009.

Co-Chair, International Life Sciences Institute-North America, ILSI-NA Annual Meeting session on “Science Resulting from ILSI-North America Committee Projects” 2009.

Reviewer, University of California-Davis Center for Produce Safety, food safety research proposals, 2009.

Reviewer, Elsevier Science, Encyclopedia for Food Safety book proposal, 2009.

Member, Global Food Safety Initiative, Advisory Council, 2010-

Co-Chair, American Academy of Microbiology, Colloquium on “Global Food Safety: Reducing Risk from Farm to Table,” San Francisco, CA, April 24-26, 2009.

Invited Reviewer, Ontario (Canada) Food Safety Research Program research proposal “Toward Better Understanding and Effective Control of *Listeria monocytogenes* on Ontario’s Farm-to-Fork Chain by Indexing the Pathogen,” 2009.

Member, Solae, Scientific Advisory Board, 2010–

Member, American Peanut Council, Manufacturer’s Scientific Advisory Committee, 2009.

Member, XXIV World’s Poultry Congress (Salvador, Bahia, Brazil), Organizing Subcommittee on Food Safety, 2009-2012.

Invited External Evaluator, Emory University, School of Public Health, Department of Epidemiology, promotion to Professor and tenure of Dr. Ruth Berkelman, 2009.

Nominator, Institute of Food Technologists, Fellow nomination of Pina Fratamico, 2009.

Nominator, American Society for Branch Lectureship speaker, nomination of Kathryn Boor, 2009.

Advisor, Universidad del Este, Carolina, Puerto Rico, Development of a Bilingual Minor in Food Safety, 2009.

Reviewer, Elsevier Science, Management in Food Safety book proposal, 2009.

Scientific Advisor, Roka Bioscience, San Diego, CA, 2009-

Nominator, University of Wisconsin-Madison, Department of Nutrition, nutrition internship for Lindsay Smit, 2009.

Member, Malt-O-Meal, Food Safety Review Panel, 2009.

Reviewer, American Meat Institute Foundation, Food safety research proposals, 2009.

Nominator, American Academy of Microbiology, nomination of Lee-Ann Jaykus, 2009.

Reviewer, Georgia National Science Foundation, food safety proposals, 2009.

Member, Food Safety Research Consortium, Assuring Safety of Imported Foods: Public and Private Rules in a Risked-based System Workshop, Organizing Committee, 2009-2010.

Member, USDA-CSREES Workshop on Food Safety and the Public Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Scientific Organizing Committee, 2009.

Nominator, Institute of Food Science & Technology (UK), Fellow nomination of Andrew Bennett, 2009.

Member, Institute of Food Technologists, Current and Emerging Science Issues Advisory Panel, 2009.

Nominator, Massachusetts Institute of Technology, John S. And James L. Knight Foundation Program in Science, Technology and Society for Knight Science Journalism Fellowships, nomination of Garance Burke (Associated Press reporter), 2009.

Reviewer, ASM Press, Pre-harvest Food Safety book proposal, 2009.

Commenter, Institute of Medicine, Food Forum, “Providing Healthy and Safe Foods as We Age” Workshop, 2009.

Nominator, Institute of Food Technologists. Fellow nomination of Stanley Gilliland, 2009.

Member, Kellogg’s Food Safety Advisory Council, 2009-2011.

Reviewer, IFT Press/Wiley-Blackwell, “Improving Import Food Safety” book proposal, 2009.

Nominator, MacArthur Fellows Program, nomination of Martin Philbert (University of Michigan), 2009.

Invited Nominator MacArthur Fellows Program, nomination of Craig Hedberg (University of Minnesota), 2009.

Reviewer, Elsevier, book proposal basic food commodities that bridge agriculture, food science, and nutrition, 2009.

Expert Advisor, Argent Diagnostics Bettcher, development and commercialization of Raman spectroscopy technology for detection of foodborne pathogens, 2009.

Co-Chair, American Academy of Microbiology, Colloquium on "Global Food Safety: Reducing Risk from Farm to Table," San Francisco, CA, April 24-26, 2009.

Reference, Oklahoma State University, National Institute for Microbial Forensics Food and Agricultural Biosecurity, letter for Dr. Li Ma for Assistant Professor position, 2009.

Reviewer, Oak Ridge National Laboratories, Oak Ridge, TN, research projects sponsored by Mars, Inc., June 18-19, 2009.

Nominator, American Association for the Advancement of Science Fellow, nomination of Ewen Todd (Michigan State University), 2009.

Nominator, American Academy of Microbiology Fellow, nomination of Colin Hill (University College Cork, Ireland), 2009.

Reviewer, Springer, Food Safety and Risk Analysis book proposal, 2009.

Coordinator, Department of Homeland Security, Site Visit for "The National Center for Food Safety and Defense" proposal between University of Georgia, Emory University, and Georgia Tech, June, 2009.

Reviewer, The National Academies National Research Council, Report on "Toward Sustainable Agricultural Systems in the 21st Century," 2010.

Reviewer, Qatar National Research Fund (QNRF), "The National Priorities Research Program, 2010.

Member, USDA-ARS and Ohio State University, Scientific Program Committee on Antibiotic Resistance Mitigation, 2010.

Member, International Life Sciences Institute – North America 2010, Scientific Session Program Planning Committee, 2009-2010.

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, for Kathleen Glass, 2010.

Nominator, 2011 National Sanitation Foundation Food Safety Leadership Award, Publix Supermarkets, 2010-2011.

Mentor, Food and Drug Administration – Center for Food Safety and Applied Nutrition, for Sufian Al Khaldi, 2011-2011.

Expert Witness and Consultant, Food and Drug Administration – Office for Regulatory Affairs, Chun's Modified Atmosphere Packaged Shrimp Rolls, 2010-2011.

Member, Animal Health Institute, Scientific Advisory Board, 2010-

Nominator, Institute of Food Technologists, Fellow Nomination of Cherl-Ho Lee, 2010.

Member, U.S. Food and Drug Administration and Department of Health and Human Services Office of the Assistant Secretary of Planning and Evaluation, Expert Panel on Link Between Contamination of Food Products by Various Pathogens and the Rate of Foodborne Illness, 2010.

Commenter, CNN.com, Story on "Soda Fountains Contained Fecal Bacteria," 2010.

Member, Elanco Food Solutions, Scientific Advisory Board, 2010-2012.

External Evaluator, Ohio State University, Department of Food Science and Technology, Promotion to Professor of V. M. (Bala) Balasubramaniam, 2010.

Member, Georgia Food Service Technical Review Committee, 2007-

Expert Advisor, Scientia Advisors, food safety testing and controls, 2010.

Review Coordinator, National Research Council, Division on Earth and Life Sciences, Board on Agriculture and Natural Resources report on "An Evaluation of the Food Safety Requirements of the Federal Purchase Ground Beef Program," 2010.

Convener and Commenter, Institute of Medicine Food Forum, Workshop on "Leveraging Food Technology for Obesity Prevention and Reduction Efforts," November 2-3, 2010.

Expert Advisor, Promar International, Effects of U.S. food safety legislation on Japanese agriculture, 2010.

Nominator, Ohio State University Dale A. Sieberling Professorship in Dairy and Food Engineering, letter of support for V. M. Balasubramaniam, 2010.

Reviewer, The Netherlands Organisation for Scientific Research (NWO), VENI grant on "Influence of the abundance, diversity and community composition of soil fungi on the fate (survival) of *Escherichia coli* O157:H7 in soil," 2010.

External Evaluator, University of Wisconsin, Department of Food Science, Promotion to Full Professor of Barbara Ingham, 2010.

Scientific Advisor, Cargill, Control of *Salmonella* in meat processing facilities, 2010.

Member, Animal Health Institute, Committee on the Evaluation of the National Antimicrobial Resistance Monitoring System (NARMS) Data, 2010.

Nominator, University of Wisconsin, College of Agriculture and Life Sciences 2010 Honorary Recognition Award, letter of support for William Sperber, 2010.

External Evaluator, King Saud University, Evaluate Teaching Curriculum and Academic Plans of the Department of Food Science and Human Nutrition, 2010.

Member, Illinois Institute of Technology, National Center for Food Safety and Technology, Expert Science Review Panel for Sprout Safety Task Force, 2010.

Expert, Eastern Research Group, Expert elicitation to assess, across food groups, the likelihood of contamination from different pathogens during harvest, processing and distribution stages of the farm-to-fork continuum, 2010.

Scientific Advisor, PepsiCo-Frito Lay, microbiological food safety issues, 2008-2011.

Scientific Advisor, Kraft, microbiological food safety issues, 2008-2011.

Expert Witness, Pima County Health Department, Tucson, Arizona, Botulism from baked potato, 2010.

Expert Witness, Canadian Department of Justice, Canadian Food Inspection Agency, Shigellosis from imported baby carrots, 2010-2012.

Reviewer, Ontario Ministry of Agriculture, Food and Rural Affairs, 2009/2010 Food Safety Research Program, research proposals, 2009-2010.

External Evaluator, Oklahoma State University, Department of Animal Science, Promotion to Full Professor of Peter Muriana, 2010.

Invited Advisor/Collaborator, National Meat and Poultry Processing Board – Government of India, 2010-

Advisor, Kellogg's, microbiological food safety issues, 2009-2011.

Advisor, Solae, microbiological food safety issues, 2010-

Reviewer, National Research Council, Board on Agriculture and Natural Resources, report on "Toward Sustainable Agricultural Systems in the 21st Century," 2010.

Scientific Advisor, U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, topics regarding pathogens in produce for the produce safety rule, 2010-2011.

Nominator, American Academy of Microbiology, nomination of Colin Hill (Cork, Ireland), 2010.

Peer Review Panelist, U.S. Department of Agriculture – Agricultural Research Service, ARS Project Plans for National Program 108 Food Safety (animal and plant products), 2010.

Invited Expert, Scientia Advisors interview on microbiology safety testing. 2010.

Scientific Advisor, Centers for Disease Control and Prevention, National Center for Zoonotic, Veterinary and Emerging Diseases, issues related to microbiological food safety, 2010.

External Evaluator, Illinois Institute of Technology, Promotion to Full Professor and Tenure of Robert Brackett, 2010.

External Evaluator, Iowa State University, Department of Veterinary Diagnostic and Production Animal Medicine, Tenure of Scott Hurd, 2010.

Member and Advisor, U.S. Department of Agriculture – Food Safety and Inspection Service, Expert Committee on National Food Safety Education Campaign (in collaboration with the Ad Council), 2010-2011.

Reviewer, Wiley-Blackwell, book on Recent Advances in Food Safety, 2010.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Organizing Committee, 2010-2011.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Technical Committee, 2010-2011.

Moderator, Institute of Medicine, Food Forum, forum on "Development of Dietary Guidance for Non-nutrient Dietary Components," 2010.

Senior Advisor, Leavitt Partners, Washington, DC, 2010-2013.

Reference, Seoul National University, appointment as Associate Professor of Dong-Hyun Kang, letter of recommendation, 2010.

External Evaluator, Cornell University, Department of Food Science, Promotion to Full Professor of Martin Weidmann, 2010.

Scientific Advisor, University of Toronto, School of Public Health, Robert Remis regarding 2008 *E. coli* O157:H7 outbreak in North Bay, Ontario, 2010.

External Evaluator, Kansas State University, College of Veterinary Medicine, Department of Diagnostic Medicine/Pathobiology, Promotion to Full Professor of Doug Powell, 2010.

Member, Institute of Food Technologists, Workshop on Microwave Heating and Safety of Foods, Organizing committee, 2010-2011.

Reference, University of Georgia Research Foundation, Creative Research Award, letter of support for Casimir Akoh, 2010.

Member, International Life Sciences Institute – North America, Membership Development Committee, 2010 02/2015

Member, 24th World Poultry Congress, Scientific Organizing Committee for Food Safety, 2010-2012.

Member, VoluntaryNet, collaboration between Centers for Disease Control and Prevention, the food industry and the UGA Center for Food Safety on sharing testing data, 2013-

Co-host, Visiting Scholar Professor Li-Min Guo, Urumqi, China, 2012

External Evaluator, Purdue University, Department of Animal Sciences, Promotion to Associate Professor and Tenure of Dr. Paul Ebner, 2011

Co-host, Visiting Scholar, Assistant Lecturer Aymen Mohamed Megahed, Zagazig University, Egypt, 2011

Chair, American Society for Microbiology Founders Distinguished Service Award Committee, 2011.

Organizer, Symposium, “A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh Cut Leafy Greens,” IAFP Annual Meeting, Milwaukee, WI, August 3, 2011.

Consultant, The World Bank, Food Pathogens and Food Safety Regulations. 2011.

Evaluator, International Life Sciences Institute Publication Proposal, “Present Knowledge in Food Safety, 2011.

Evaluator, Springer USA Book Proposals and Series, “Retail Food Safety,” 2011.

Working Group Participant, Western Center for Food Safety, Developing Research Protocols for Manure and Water to Support Variances to Proposed Produce Rule, 2011.

Expert Panel Member, RTI International, Washington, DC. Foodborne Illness Attribution for the Food Safety Modernization Act, 2011.

Organizer and Co-Chairman, CDC-Food Industry Safe Foods Forum, 2007-

Invited Referee, King Saud University, Riyadh, Food Science and Human Nutrition Department, Promotion Evaluation and Scientific Communication, 2011.

Collaborator, Seoul National University Center for Food Safety and Toxicology on developing and implementing joint research projects, joint workshops and international conferences. 2011.

Invited External Reference, Publix Super Markets, Food Safety Training Program Nomination for NSF Food Safety Leadership Award, 2011.

Member, Organizing Committee, Workshop on Novel Sampling and Sensing for Improving Food Safety, Georgia Tech, Atlanta, GA, June 16-17, 2011.

Invited Advisor, American Society for Microbiology, Antibiotic Resistant Organisms Generated and Discharged by Wastewater Treatment – A Public Health Issue, 2011.

Invited Convener, International Life Sciences Institute-NA Annual Meeting Hot Topics/Controversies Session, 2011.

02/2015

Scientific Advisor and Liaison, International Life Sciences Institute-NA Working Group on Conflict of Interest & Scientific Integrity. 2011-2012.

Member, Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2011.

Invited Expert, FDA/ASPE Food Attribution Expert Elicitation, 2011.

Member, Georgia Foodservice Technical Review Committee, to review proposed procedures and hazard analysis and respond with comments and concerns regarding the plan. 2011.

Invited Reviewer, Abstracts for Workshop on Novel Sampling and Sensors for Improving Food Safety, Georgia Institute of Technology, Atlanta, GA. June 2011.

Reviewer, USDA NARMS Survey for Input on Food Safety, 2011.

Member, Planning Committee, Institute of Medicine Public Meeting on *The Impact of Global Trade on Food Safety: Supply Chain and Policy/Regulatory Approaches to Import Safety*, 2011.

Member, ILSI NA Scientific Program Planning Committee; Attributable Risk Sessions, 2012.

Invited Interview, German *E. coli* outbreak, Associated Press, June 2011.

Invited Mentor, FDA Leadership Organizational Program in the Center for Food Safety and Nutrition, Sufian Al Khaldi, 2011.

Invited Nominator, Cargill, for IAFP Black Pearl Award, letter of support, 2011.

External Evaluator, Dr. Shaohua Zhao, letter of evaluation for appointment in the Senior Biomedical Research Service, U.S. Food and Drug Administration, 2011.

Invited Expert Advisor, Proposal to USDA Foods and Nutrition Service, to establish a Center for School Food Safety Research, University of Georgia, 2011.

Invited Expert, Guidepoint Global Advisors, consultation on *E. coli* outbreak in Germany. 2011

Invited Nominator, CDC, Food Safety Modernization Act to establish a Working Group on food safety and foodborne disease surveillance, 2011.

External Evaluator, IAFP Haverland Citation Award, Invitation to write letter of support for Tino Genigeorgis' nomination, 2011.

Member, Animal Health Institute Scientific Advisory Council, Washington, DC, 2011-

Invited Reviewer, YUM! Brands Standard Operating Procedures regarding pizza toppings and cooking process, 2011.

Invited Evaluator, Council of State Governments, Surveillance and Inspector Training Models, 2011.

Invited Expert, CDC Environmental Health Specialists Network, Atlanta, GA, food cooling practices, 2011.

Invited Liaison, American Society for Microbiology, Meeting with UDA Under Secretary for Research, Education and Economics and Chief Scientist at USDA to discuss research funding issues and specifically those that impact REE and NIFA, 2011.

Expert Advisor, Kellogg's, observation on *Listeria monocytogenes* in dry plants, 2011

Invited Expert, Guidepoint Global Advisors, consultation on trends in microbial testing for food safety, 2011.

External Evaluation, USDA-AMS Microbiological Data Program, letter in support of the program, 2011.

Invited Expert, Starbucks Coffee Company, provide information on the food safety of fresh-pressed juice compared to pasteurized juices, 2011.

Invited Interview, independent health journalist working with Fairwarning, requesting information on seafood safety, focusing on imported seafood, 2011.

Invited Expert, Cargill, clarifying the public health significance of the "coliform" test for flour, 2011.

Invited Expert, Guidepoint Global Advisors, infectious disease experts in Mexico regarding patients with Epstein Barr Virus, 2011.

Invited Expert, Guidepoint Global Advisors, agrobioterrorism, poisoning of crops or water supply bioterrorism: microbial control techniques, 2011.

Invited Expert, WSB-TV, Atlanta, GA, Milkshake microbiological results, 2011.

Invited Nominator, FDA Food Safety Modernization Act (FSMA) Working Group, letter of support for Joan Menke-Schaenzer's nomination, 2011.

Invited Expert, Publix Super Markets Bakery, food safety in pie production, 2011.

Invited Expert, Land O'Frost Co., new line of products and microbiological testing protocols, 2011.

Invited Expert, Baldor Foods, refrigeration temperature for salsa, 2011.

Invited Expert, Unilever, reduced-fat peanut butter, 2011.

Invited Expert, ConAgra Foods, antimicrobials and storage conditions on inoculated pathogenic bacteria in gassed and non-gassed dairy products, 2011.

Invited Expert, "Solae, thermal inactivation of *Salmonella*", 2011.

Invited Expert, NanoICE, regarding research validating efficacy of killing microbes during chilling and preserving raw products, 2011.

Invited Expert, Danisco, food safety of reduced oxygen packaging, 2011.

Expert Advisor, International Food Information Council (IFIC), Washington, DC. *Salmonella* Heidelberg outbreak from ground turkey, 2011.

Expert Advice, Prepara X-Force, Radiation in food in Japan, 2011.

Invited Member, Food Safety Advisory Council, ConAgra Foods, overview of *E. coli* 104:H4 outbreak in Germany, 2011.

External Evaluation, Letter of Support of Bernadette Franco's Application for grant to create new Research, Innovation and Dissemination Centers, Sao Paulo Research Foundation, Sao Paulo, Brazil, 2011.

Invited Expert, Outbreak of *E. coli* O157:H7 in strawberries in Oregon. Questions regarding jam that was already frozen that might have been made from contaminated berries. Bill Keene, Epidemiologist, Oregon Public Health Div., Portland, OR, 2011.

Invited Expert, Administrative Conference of the United States, how existing systems of third-party certification could be tailored to provide confidence appropriate for safety regulators. Met with Professor David Wirth, ACUS consultant, 2011.

Invited Expert, Angela Miles U.S. GAO (Atlanta), Brendon Kretzchmar and Candice, San Francisco, reimbursement of losses of food industry for mistaken food recalls or vehicles of foodborne disease outbreaks, July 2011.

Expert, ConAgra Foods regarding macrowave energy against salmonellae and STEC, 2011.

Expert, CDC, Atlanta, *Campylobacter*-contaminated water systems, 2011.

Invited Member, Kellogg's Food Safety Review Group, for promoting food safety globally, 2011.

Invited Expert, Frito-Lay, Raw Commodity Specs: *Salmonella* in flour, 2011.

Invited Expert, Cargill, High-pressure processing of foods to mitigate contamination by harmful microbes such as *Salmonella*, *E. coli* O157, and *Listeria* without adversely affecting the product's taste and quality, 2011.

Invited Expert, HoneyBaked Ham Co., food safety programs and pathogen monitoring practices, 2011.

Member/Organizer, Lot Definition Working Group, FDA and food industry representatives to determine "Lot" designations for low-moisture foods, 2011.

Invited Expert Media Liaison, International Food Information Council, *Listeria* and GMPs – Putting risk of *Listeria monocytogenes* in perspective and provide information and education, 2011.

Invited Expert Advisor, Glacier Water, San Diego, CA to advise on drinking water dispensers, 2011.

Invited Member, JIFSAN Advisory Council, University of Maryland, College Park, MD, 2011-

External Evaluator, Dr. Sylvain Moineau for Canada Research Chair nomination, 2011.

Invited Expert, Dr. Lay Kheng, Agriculture-Food and Veterinary Authority, Singapore, regarding *Staphylococcus aureus* in foods, 2011.

Invited Symposium Organizer, Special Interest Symposium, American Society for Microbiology General Meeting, Striking the Balance: Food Safety, Food Security and Climate Research Issues in Microbiology, San Francisco, CA, 2012.

Invited Reviewer, Georgia Water Resources Conference manuscript, “A Comparison of *Escherichia coli* Levels in the Chattahoochee River in Helen, Georgia between Drought and Non-Drought Years,” 2011.

Invited Reviewer, American Society for Microbiology Press book proposal, “Preharvest Food Safety,” 2011.

Invited reviewer, Springer, Book Proposal, “Proteomics,” 2011.

Invited Peer-Reviewer, Qatar National Research Fund National Priorities Research Program proposals, 2011.

External Reviewer, UBC Press, Vancouver, BC, Canada, “Food connections: Our global food safety system,” 250-page manuscript, 2011.

Invited Assessor, Biotechnology and Biological Sciences Research Council, UK, ISPG proposal, “Gut Health and Food Safety,” 2011. Invited Reviewer, Institute of Medicine draft report by Committee on “Nutrition, Trauma, and the Brain,” 200-page manuscript, 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis in cantaloupes, 2011.

Chair, Institute of Medicine Food Forum meeting on Informing Health & Food Policy through Systematic, Evidence-Based Reviews, 2011.

Invited Reference, Casimir C Akoh, letter of evaluation for application for position of Chair and Professor, University of Maryland, Nutrition and Food Science, College Park, MD, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Food Safety Culture: Creating a Behavior-Based Food Safety Management System,” 2011.

Invited Evaluator, Dr. Doug Smith, letter of evaluation for Promotion and Tenure to the rank of Associate Professor, North Carolina State University, Raleigh, NC, 2011.

Invited Co-Organizer and Participant, American Academy of Microbiology Minicolloquium “*E. coli* FAQ,” September 1, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Retail Food Safety,” 2011.

Host, Dr. Jordi Serratos, European Food Safety Authority “Liaison Officer” at U.S. Food and Drug Administration, September 29, 2011.

Invited Reviewer, OMICS Publishing Group, Los Angeles, Book Proposal, “Emerging Drugs,” 2011.

Invited Reviewer, Springer, New York, Book Proposal, Leadership of Food Safety in the Food Retail Industry: How to develop and manage a food safety program, 2011.

Invited Reference, Dr. Guodong Zhang, letter of evaluation for Assistant Professor of Animal Science position, Oklahoma State University, 2011.

Invited Expert Testimony, FDA, CDC, USDA-FSIS, USDA-ARS, and Center For Nutrition Policy And Promotion, Reducing Sodium Consumption. November, 2011.

Invited Reviewer, RTI International, Research Triangle Park, NC, Risk assessment of public health impact of intervention strategies aimed at reducing *Escherichia coli* O157:H7 in the U.S. beef slaughter industry, 2011.

Invited Briefing, VoluntaryNet industry briefing for FDA leadership. October 7, 2011.

Invited Responder, Centers for Disease Control and Prevention. *Listeria* soil contamination questions. October 6, 2011.

Invited Expert, Life Technologies, Foster City, CA, STEC Testing. October, 2011..

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, Washing cantaloupes, 2011.

Invited Expert , Nestle, Switzerland, Use of surrogate – *Enterococcus faecium* in food safety validation, 2011.

Invited Expert, Publix Super Markets, cooking roast beef in the deli, 2011.

Invited Steering Committee Member, American Society for Microbiology, Report on *E. coli*: Food, Bad & Deadly FAQ. Michael Ingerson-Mahar and Ann Reid (eds.) 2011. 13 pp.

Invited Expert, Lee Memorial Hospital, Fort Myers, FL, HACCP in Hospitals. 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis outbreak in cantaloupes, 2011.

Invited Collaboration, Georgia Tech Research Institute, Atlanta, GA, Ways to collaborate on food safety issues, 2011.

Invited Expert, Sopragval Co., Chile, *Salmonella* in ground meat. 2011-2012.

Invited Panelist, Cargill, Minneapolis, MN, Panel to review new food safety measures, 2011.

Invited Reviewer, Canadian Research Chairs Program, University of Regina, Canada, Nomination of Dr. Christopher Yost as Tier 2 Chair in Microbes, the environment and food safety, 2011.

Invited Evaluator, , University of Massachusetts, Amherst, Mid-tenure evaluation of Assistant Professor Sam Nugen, 2011.

Invited Expert, Betcher Industries/Gaincos, Atlanta, GA, Food Safety Advisory Council, 2011.

Invited Expert Opinion, Regina Caeli Academy First Lego League, information on contamination of *Listeria* on smoked salmon, 2011.

Invited External Evaluator, Al-Balqa Applied University, Jordan, Referee, Promotion of faculty members in field of nutrition and food processing/food safety and microbiology from Assistant to the Associate Professor, 2011

Invited Expert Advice, CDC Foundation, Product development of peanut paste by Nutriset, 2011.

Invited Expert Advice, U. S. Government Accountability Office on food safety study, 2011.

Invited Member, Cargill, Inc. Food Safety Panel, 2011.

Invited Food Safety Expert Opinion, Publix Super Markets, Lakeland, FL, Cook cycle for Semi Boneless Hams, 2011.

Invited Expert Advice, CDC, Turkish Pine Nut safety, 2011.

Invited Participant, Institute of Medicine Workshop, Washington, DC. Leveraging Food Technology for Obesity Prevention and Reduction Efforts. 2011.

Invited Member, ILSI-NA Scientific Program Planning Committee, 2012.

Invited Reviewer. The Canada Foundation for Innovation, Proposal on effect of high pressure processing on quality, sensory attributes and microbial stability of selected fresh meat products during refrigerated storage, 2011.

Invited Reference, Institute of Food Technologists, Dr. Ewen Todd's nomination as Fellow, 2012.

Invited Expert Review Panel, FDA Sprout Safety Advisory Committee, "Seed disinfection methodologies". 2012.

Invited Member, International Association for Food Protection GMA Food Safety Award Jury, 2012.

Invited Reviewer. USDA BARD Proposal, Correlations of pathogen inactivation to changes in compost microbiota, 2012.

Invited Reference, Institute of Food Technologists, Dr. Ahmed Yousef's nomination as Fellow, 2012.

Invited reviewer, springer Science+Business Media, Book Proposal by John Spink, FMFS Book Series, 2012.

Invited Reviewer. USDA BARD Proposal, Renewable, long-term, antimicrobial surface treatments through dopamine-mediated binding of peptidoglycan hydrolases, 2012.

Invited External Evaluator, Universiti Sains, Malaysia, Mossad Attia Abdel-Wahhab, promotion to Professor, 2012.

Invited Letter of Support, University of Sao Paulo, Brazil, , for establishing the Food Research Center (Bernadette D.G.M. Franco) 2012.

Invited Expert Presentation as International Food Information Council Foundation Media Guide Expert, EPA Guidelines on Dioxin. 2012.

Invited Membership, Editorial Advisory Board/Open Access Academic Books – Food Science, Versita Publishing Co., 2012.

Invited Reviewer, Springer Book Proposal, Biochemistry and Molecular Nutrition of Food Allergens,, 2012.

Invited Nominator, ConAgra Foods Food & Beverage Company R&D Team of the Year Award, Food Processing Magazine, 2012.

Invited Consultant, Guidepoint Global, 2012.

Invited Reviewer, Springer, book series proposal on Food Biology, 2012.

Invited Reviewer, Mini Review paper, CAB Reviews, “Bacteriophage based technologies and human health applications,” 2012.

Invited Nominator, Dr. Erin Dreyling for National Advisory Committee Microbiological Criteria for Foods (NACMCF), 2012.

Invited Participant, Global Food Safety Partnership, Agriculture and Rural Development, World Bank, 2012.

Invited Advisory Panel Expert/Reviewer. Forum on Next Generation Microbiological Food Requirement for Spaceflight. NASA, Houston, TX, 2012.

Invited Member. International Life Sciences Institute-North America, North America Project Committee on Food Value Decisions, 2012.

Invited Single Author Spotlight Article, ISRN Microbiology. Current research, 2012.

Invited participant, Lawyer2Lawyer Podcast, “Food Safety in America,” May 22, 2012.

Invited reviewer, Centers for Disease Control and Prevention, “Risk Factors Associated Botulism – Republic of Armenia, 2000-2006,” 2012.

Invited Subject Matter Expert, U.S. Department of Homeland Security, grant proposals, 2012.

Invited Expert Consultant, CDC, Vital Signs Focus, “What Can be Done to Reduce *Listeria* and other foodborne illnesses,” 2012.

Invited participant, American Academy of Microbiology, Food Microbiology Task Force, 2012.

Invited External Evaluation, Rutgers University, New Jersey, Donald Schaffner, Dossier for Promotion to Professor II, 2012.

Invited Editorial Board Member, ASM Press, Microbiology Spectrum (Food Microbiology area), ASM Press, on-line publication, 2012.

Invited Expert Opinion, Centers for Disease Control and Prevention, *Clostridium perfringens* questions regarding outbreak investigation. 2012.

Invited Evaluator, University of Missouri, Columbia, MO, Promotion & Tenure Dossier for Promotion to professor, Dr. Azlin Mustapha, 2012.

Invited to write article, “Implementation of food safety measures in the West – Its feasibility in China,” China Daily newspaper, July 2012.

Invited Reviewer, U.S. Food and Drug Administration FDA/CFSAN Quantitative Predictive Risk Assessment Model (QPRAM) for Produce Safety and associated documents. 2012.

Invited Nominator, Nomination of Publix Supermarkets for the 2013 IAFP Black Pearl Award, 2012.

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, “A *Cronobacter* in therapeutic foods for children with acute moderate malnutrition”. 2012.

Invited Reviewer, Oklahoma State University, Food Safety Emphasis curriculum, 2012.

Invited support letter, IUFoST Lifetime Achievement Award, for Cherl Ho Lee’s nomination, 2012.

Invited Expert Advice, Centers for Disease Control and Prevention, Atlanta, GA, “Listeriosis outbreak in soft Cheeses”. August 2012.

Invited Letter of Evaluation. The Ohio State University, Dr. Hua Wang’s dossier for promotion to Professor. 2012.

Invited Co-Chair 3rd Asia Pacific International Conference on Food Safety. Taiwan. October 29-November 1, 2013.

Chair, American Academy of Microbiology, Founders Distinguished Service Award Nomination and Selection Committee, 2013.

Invited Editorial Board Member. 2012. Microbiology Spectrum. American Society for Microbiology.

Invited Reviewer, Shota Rustaveli National Science Foundation of Georgia research proposals, 2012.

Invited Member, Journalist Conference, Atlanta, GA, Food Safety Panel, April 21, 2012.

Invited Member, American Society for Microbiology Public and Scientific Affairs Board, 2004=2012.
- Chair, Food Microbiology Committee

Invited Member, Taco Bell Food Safety Advisory Council, 2012-

Invited Member, USDA, ARS, Sprout Safety Review Panel, 2012.

Invited Reviewer/Expert Panel Member, U.S. Food and Drug Administration Center for Veterinary Medicine Office of Minor Use and Minor Special Animal Drug Development grant

proposals, 2012.

Invited Participant, Institute of Medicine Annual Meeting of study committees, boards, standing committees, roundtables, forums and planning committees, 2012.

Invited Participant and Workshop Leader, Institute of Medicine. Exploring Health and Environmental Costs of Food, 2012.

Invited Member, , International Association for Food Protection, GMA Food Safety Award Committee, 2012.

Invited Participant, Institute on Science for Global Policy (ISGP) Conference on Emerging and Persistent Infectious Diseases: Focus on the Societal and Economic Context, July 8-11, 2012.

Invited Expert, International Life Sciences Institute-North America Emerging Issues Processing Foods project, 2012.

Invited participant, Food and Agriculture Organization of the United Nations, Food Hygiene Working Group, 2012.

Invited Reviewer, Institute of Medicine, “ Exploring the true costs of food report”, 2012.

Invited Participant, American Academy of Microbiology, Washington, DC, Colloquium, “How Microbes Can Feed the World,” Dec 7-9, 2012.

Invited Evaluator. International Life Sciences Institute-Europe, Scientific Advisory Committee – Review of New Activities, 2012.

Invited Participant, The Pew Charitable Trusts, Washington, DC. Advisory Panel to discuss the methodology to identify the riskiest meat and poultry products. October 2012.

Invited Member. US Representative. Lynn Westmoreland Ag Advisory Council, 2012.

Invited Participant, Institute of Food Technologists Webcast, “Antimicrobial Resistance” Scientific Status Summary, April 2013.

Invited Reviewer/Letter of Evaluation, University of California-Berkeley, School of Public Health, Sangwei Lu, Dossier for Promotion to Full Adjunct Professor, 2013.

Invited comment, Atlanta Journal Constitution article on “Politifact Georgia,” regarding *E. coli* in chickens. March 2013.

Invited editor, International Journal of Food Contamination, Springer, March 2013.

Invited commentary, Food Safety News, Op-ed page, April 2013

Invited review of article, “High risk foods” by David Acheson, Leavitt Partners LLC, April 2013.

Invited contributor to article, Baltimore Sun, “Cookie-dough Eaters tempted by the Flavor – and the Raw Thrill,” April 2013.

Invited commentary, National Cattlemen’s Beef Association, The Doctors TV show on antibiotics in meats, April 2013.

Invited Book Editor, Research Signpost, Scarborough, Ontario, Canada, April 2013.

Invited Evaluator, Alex Malone, Quality Assurance Director of Yum Brands, annual evaluation, April 2013.

Invited Commenter, Institute of Food Technologists, regarding CNN article on Antibiotics in Meat, 2013.

Invited interview, New York Times on EWG report, April 2013.

Invited interview, Food Safety News (www.foodsafetynews.com), “Animal Antibiotics,” April 2013.

Invited expert advice, Kraft Foods, definition of an environmental pathogen, in response to FDA’s proposed definition, 2013.

Cited as one of top 20 Co-authors of articles on BioMed Lib, “Doyle MP, Erickson, MC. Opportunities for mitigating pathogen contamination during on-farm food production. Int. J. Food Micro. 152-54-74, 2012.

Invited interview, CNN.com, 2011 NARMS Retail Meat Annual report, April 2013.

Invited participant, Georgia Department of Public Health, Atlanta, GA, Georgia Food Service Rules and Regulations update, April, 2013.

Invited comment, WYAY All News, Atlanta and Atlanta Journal Constitution, Ga Dept of Agric resignations concerning food safety, April 2013.

Invited Book Proposal Review, Microbiological Safety and Quality of Food by Xiangyu Deng. Springer, New York, 2013.

Invited interview, Associated Press, USDA/April’ new livestock identification rules. April 2013.

Invited interview, Discover Magazine, role of FDA. April 2013.

Invited letter of support, International Association for Food Protection, Anna Lammerding’s nomination for Honorary Lifetime Membership ,April 2013.

Most Quoted Faculty, UGA Office of Public Affairs, CAES, on foodborne pathogens in leafy green vegetables. April 2013.

Invited comment, Grist, OMB testing requirements in the FSMA, April 2013.

Invited interview, DSM Bio-based Products & Services, Levulinic acid, April 2013.

Invited Reviewer, “Weight Watchers International Auditor’s report on mold contamination in raisins”, May 2013.

Invited interview, Al Jazeera Reporter, article on “China’s Food Imports to the U.S.”, May 2013.

Invited organizer and curator, Frontiers in Microbiology, of a Frontiers Research Topic homepage to manage contributions and maintain ongoing dialogue with research community, May 2013.

Invited taped interview, American Society for Microbiology, to discuss “Food Microbiology: Fundamentals and Frontiers, 4th Edition.” May 21, 2013,

Invited to participate in meeting of Oak Ridge Associated Universities (ORAU), to apply for 2013 Innovation Challenge Award Competition, University of Georgia, Athens, GA,

Invited comment, “Food Insight, Your Nutrition and Food Safety Resource on potential for increased foodborne illnesses”, May 2013.

Invited interview, Drovers Cattle Network, “Jolley: Five minutes with Dr. Michael Doyle and those Superbugs,” May 2013.

Invited to Engineering-Summits, The Organization of Engineering Executives, May 2013.

Invited comment, Microbe magazine, on “Consumer Reports investigation: Talking turkey”. May 2013.

Invited to serve on interview committee for position of Food Safety Director, Georgia Department of Agriculture, May 2013.

Invited comment, USA Today, FDA will not cut any food safety inspections this year in spite budget cuts, May 2013.

Invited Evaluator, Rutgers University, New Brunswick, NJ, dossier of Dr. Michael L. Chikindas for promotion to Professor, June 2013.

Invited peer-reviewer for proposals and projects, Shota Rustaveli National Science Foundation of Georgia, 2013.

Invited administrative reviewer, Dean Scott Angle’s 7-year review, UGA College of Agricultural and Environmental Sciences, 2013.

Invited Expert Opinion, Sokol and Co., Water in peanut butter processing. 2013.

Invited Evaluator, Seoul National University, for promotion to Professor of Dr. Dong-Hyun Kang.

02/2015

2013.

Invited Evaluator, USDA-ARS, for Nelson Cox promotion, May 2013.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2013.

Invited Evaluation, TUBITAK Young Scientist Awards, Turkey, nomination of Dr. Ali Aydin. 2013.

Invited letter of support for nomination of Craig Hedberg for the ASPH Award of Excellence, University of Minnesota School of Public Health. 2014.

Invited Reviewer, GMA's Center for Ingredient Safety and Risk Assessment Proposals for Funding, Grocery Manufacturers of America, 2013.

Invited Letter of Support, Dr. Walid Alali's nomination for IAFP Dr. Larry Beuchat Young Researcher Award, 2013.

Invited Speaker. Thermo Scientific Food Safety Seminar Day, "Foodborne Pathogens." May 30, Atlanta, GA, 2013.

Invited contributor, Feedstuffs, "Antimicrobial resistance complex", March 25, 2013, .

Invited letter of support. Dr. Mansel Griffith's nomination for the Ontario Agricultural College Alumni Association Research Award, 2013.

Invited Expert Panel Member, WHO International, Panel on Food Safety, 2013. .

Invited External Reviewer, Dossier of Linda Harris for promotion, UC-Davis, 2013.

Invited Theme Leader, IUFoST Congress, Montreal, Canada, Food Safety, 2014.

Invited Editorial Board Member, OA Journal: "*International Journal of Food Contamination*", Springer, 2013.

Invited Chair, 2013. The Pew Charitable Trusts Collaborative Food Safety Forum, "Role of testing in FDA's Hazard Analysis and Risk-Based Preventive Controls Rule", March 22, Washington, DC.

Invited Reviewer, 2013. Grant Review Panel, U.S. Food and Drug Administration Center for Veterinary Medicine OMUMS, Washington, DC.

Invited Reviewer, "The Problem with Purity: Market failures, foodborne contamination, and the US Food Safety Regulatory Regime," by I.P. Thomas, Univ of Nebraska Press, Lincoln. 2013.

Member, ILSI-NA Scientific Program Planning Committee, 2013.

02/2015

Invited 'safe salsa' recipe. Centers for Disease Control and Prevention, Video for Super Bowl. 2013.

Requested book review, Food Security, Nutrition, and Safety: OMICS Technologies, Strategies, and Applications, Ganesh Kumar Agrawal, Romina Pedreschi, & Randeep Rakwal, (eds.), Springer, New York. 2013.

Invited participant, 2013. Crisis Management Manual, Heinz Canada.

Invited Participant, Food Safety Auditing Research, Private-Sector. Albany Law School, Albany, NY. 2013.

Invited Interview, Associated Press, Cyclospora. 2013.

Invited letter of support. Dr. Martin Wiedmann's nomination for Fellow of American Academy of Microbiology, 2013.

Invited Collaborative Partnership, University of Georgia (UGA) Center for Food Safety- National Center for Food Safety Education and Research (NCFSER), National Taiwan University. 2013.

Invited reviewer, MBIE Science Investment Round. To review research programs, Ministry of Business, Innovation & Employment, New Zealand, 2013-2014.

Elected Member, International Life Sciences Institute (ILSI) Board of Trustees (global organization). September 2013 – January 2015.

Invited participant. World Health Organization's (WHO) Global Burden of Foodborne Disease Study. 2013.

Invited Reviewer, British Food Journal (UK), "Drug-resistant bacterial pathogens in milk and yogurt samples." March 2013.

Invited to review book proposal. Springer, Restaurant Food Safety, May, 2013.

Invited peer reviewer, Ministry of Business, Innovation and Employment Investment Round Proposal, Wellington, NZ. May, 2013.

Invited expert opinion, Heat Seal Machine Film Specifications. Georgia Dept. Agriculture, Atlanta, GA, 2013.

Invited participant, 2014. International Association for Food Protection Annual Meeting Round Table. Public and Private Food Safety Research Funding: Where Should the Money Go? Indianapolis, IN.

Invited reviewer, Book Proposal on Food Safety in 21st Century (paperback edition), Wiley Publishers, Oxford, UK, 2013.

Invited Virtual Speaker. The American Academy of Microbiology and ASM International Affairs "Virtual Speaker Program". Topical speaker. 2014.

Invited evaluator, Dr. Michael Cooley, USDA Western Regional Research Lab, for in-depth evaluation of contributions and qualifications. 2014.

Invited reference, nomination of Dr. Vijay Juneja, recipient of Service to America Medal. Michigan State University (Dr. Elliot Ryser). 2014.

Invited reviewer, National Academy of Sciences report on USDA's Agriculture and Food Research Initiative program, National Research Council. 2014.

Invited expert advice, DHHS, Communicable Disease Surveillance, "Safe use of manure in organic farming," Humboldt County Health Department, 2014.

Member, Foster Farms Food Safety Advisory Board, 2014-2015.

Invited Member, Evaluation panel to review and interview candidates applying for Produce Safety and Microbiology Research Unit, USDA-ARS, Western Regional Research Center, Albany, CA, 2014.

Nominated Dr. Jennifer Cannon, winner of the 2014 Larry Beuchat Young Researcher Award, International Association for Food Protection.

Invited reviewer, Book proposal. Springer, Taormina Proposal---Shelf Life, 2014.

Invited reviewer, Book proposal. Springer, Food Traceability: Food for Thought. 2014.

Invited Member, 2015 Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2014-2015.

Invited Letter of Support, 2014. Nomination of Kathryn Boor for the UC-Davis College of Agricultural and Environmental Sciences Award of Distinction.

Invited Letter of Recommendation, Burroughs Welcome Grant on Innovation in Regulatory Science at the FDA, submitted by Glenn Morris, Mike Batatz and Arie Havelaar. March 2014.

Invited Member, ILSI Science Advisory Committee, 2014-

Requested Expert Advice. 2014. Pathogens in ice product. Daniel Ouzts, Sweet City Ice Co., Georgia March.

Invited Reference. 2015 Dietary Guidelines Advisory Committee on behalf of National Restaurant Association.

Invited Topic Editor. 2014 Frontiers Research Topics--Microbiology.

Invited Cooperator. 2014. King Abdulaziz University, Jeddah, Saudi Arabia.

Invited consulting, 2014. International Innovation – Health and Biology Research Report. Research AMedia Limited.

02/2015

Invited contributor, 2014. Proteomics of Antimicrobial Resistance. *Frontiers in Microbiology*. Dep de Biologia & CESAM, Univ deAveiro, Portugal.

Invited Reviewer. 2014. The Research Foundation – Flanders (FWO), European Commission, New Research Proposal on “Impact of *Bacillus cereus* endospore evolution on food stability and safety,” by Abram Aertsen.

Invited Evaluator. 2014. Dr. Fahad M. Aljasass for promotion to Professor at The Scientific Council at King Abdulaziz City for Science and Technology (KACST), Saudi Arabia.

Invited Member/Chair, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2014-2015.

Invited Reviewer. 2014. Science Peer Reviewer Targeted Research. New Zealand Ministry of Business, Innovation & Employment (MBIE) 2014 Science Investment Round.

Invited Evaluator. 2014. Evaluation Panel for Research Leader Vacancy Applications, USDA, ARS, Western Regional Research Center, Albany, CA.

Invited Expert. 2014. Wall Street Journal project on 25 food additives.

Invited Collaborator, 2014. UGA-EDEB Data Collaboration, CDC Enteric Diseases Epidemiology Branch, FDA’s Egg Rule.

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, “Antimicrobial food equipment coatings: Applications and challenges”, by Bastarrachea, Denis-Rohr, & Goddard.

Invited Reviewer. 2014. Research Proposal, Accelerate research proposal entitled “Comparative Study to Determine the Efficacy of Different Sanitizers to Inactivate Human Pathogens on Shredded Lettuce and within Spent Wash Water”, Mitacs, Canada.

Invited Reviewer, 2014. Project on food safety, antimicrobial resistance and animal health. Association of Public Safety Communications Officials (APCO) International

Invited Member, 2014. Global Programs Advisory Team, Global Programs, Coll of Agric & Env Sci, Univ of GA, Athens.

Invited Letter of Evaluation, 2014. Dr. Elaine Scallan consideration for promotion to Associate Professor, Colorado School of Pubic Health, University of Colorado, Aurora, CO.

Invited Expert and Speaker, 2014. International Food Information Council (IFIC) Farm Tour, Atlanta, GA. October 17.

Invited Collaborator/Scientific Partner. 2014. Fellowship from Kosciuszko Foundation by Magdalena A. Olszewska, U of Warmia and Mazuty, Poland.

Invited Host, 2014. Visiting Scholar Dafeng Song, Zhejiang Province, China.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2014.

Invited External Assessor, Promotion of Wan Nadiyah Binti Wan Absullah to Associate Professor, University Sains Malaysia Penang, Malaysia. 2014.

Invited Reviewer. 2014. Food Safety Proposals. Mississippi State University

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, 2015, "*Bacillus* and other spore-forming Genera: Variations in Responses and Mechanisms for Survival," by Checinska, Paszczynski, and Burbank.

Member, Protein Toxins project, Extended Team. 2014. ILSI Health and Environmental Sciences Institute (HESI). Washington, DC.

Invited Evaluator. 2014. Dr. Fahad M. Al-Jasass for Promotion, King Abdulaziz City for Science and Technology Scientific Council, Saudi Arabia.

Invited Member, 2014. Academic representative on the CDC, BSC, FSMA Surveillance Working Group, December 1, 2014-Nov 30, 2017, Centers for Disease Control and Prevention, Atlanta.

Invited Reviewer, 2014. "An intervention to reduce antimicrobial resistance in animal production in Vietnam," grant application to The Wellcome Trust, London.

Invited Reviewer, 2014. Book Proposal, "Studies in Natural Products Chemistry", Atta-UR-Rahman (ed). Elsevier Science Publishers, Amsterdam.

Invited Reviewer, 2014. Book Proposal "Food Safety for Farmers Markets," Springer US.

Invited Reviewer, 2014. Preproposal for Genomics British Columbia and Feeding the Future competition, "Genomic Tools for Improved Safety, Authenticity and Security of Agri=food Products," by David Kitts and Evan Frazier, Canada.

Invited Speaker. 2014. The University of Georgia Obesity Initiative, Food Industry Academia Consortium Conference, Athens, GA.

Invited Reviewer and Evaluator. 2015. 32nd World Veterinary Congress abstracts, Istanbul, Turkey.

Invited Expert Panelist and Evaluator. 2015. Canadian Meat Program of Canadian Food Inspection Agency (CFIA).

Invited Expert Panelist. 2015. U.S. Food and Drug Administration, to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

Invited Reviewer, 2015. Research Grant from International Foundation for Science-Sweden (IFS).

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, nomination of Gudong Zhang, 2015.

Invited Letter of Support, Fort Valley State University (Young Park), proposal to implement a B.S. degree program in Food Science, 2015.

Invited Consultant for Center of Excellence on Food Safety in Indonesia, 2015.

Invited Collaborator for a Fresh Produce Safety Centre (FPSC) project at New South Wales Department of Primary Industries in Sydney, Australia, 2015.

Invited Reviewer, 2015. Publication on Physicians Roundtable on Microbe Magazine. American Society of Microbiology

External Evaluator, 2014. Nanyang, Technological University (NTU), Professor Jrgen Schlundt, to Full Professor in the College of Engineering.

Invited Reviewer, 2014. Proposals entitled "UV Based Intervention Strategies to Improve the Microbiological Safety and Shelf-life of Sliced Mushrooms". Mitacs Accelerate Program, Canada

Invited Reviewer, 2015. Manuscript entitled "Shiga Toxin-Producing *Escheria coli* in Food: Incidence, Ecology, and Detection Strategies." Elsevier Science Publisher.

Invited Reviewer, 2015. Manuscript entitled "Effect of Adding Glucono & Lactone, Different of Starters, Rennet on the Chemical Composition, Yield and Economic Study of Kareish Cheese." IJAP-15-035.

Invited Reviewer, 2015. Manuscript entitled "Impact of infection dose and previous serum antibodies against the locus of enterocyte effacement proteins on *Escherichia coli* O157: H7 shedding in calves following experimental infection," BioMed Research International.

Invited Reviewer, 2015. Manuscript entitled "Effects of 5-hydroxytryptophan and m-hydroxybenzylhydrazine associated to *Lactobacillus* spp. On the immune response of broilers chickens challenged with *Salmonella Enteritidis*." Poultry Science

Invited Speaker, 2015. Global Microbiology Meeting, The Coca-Cola Company, Atlanta, GA July 22, 2015.

Invited Reviewer, 2015. International Foundation for Science Research Grant , Khamis Youssef, Egypt.

Invited Letter of Evaluation, Technion-Israel Institute of Technology, promotion of Assoc. Prof. Sima Yaron to the rank of Full Professor in the Faculty of Biotechnology and Food Engineering. Haifa, Israel May, 2015.

Invited Reviewer , Annual Review of Food Science and Technology, 2015, Vol.6.

Invited Reviewer, 2015. Manuscript entitled “Application of Innovative Deep UV- LED Processing to Control Food-borne Pathogens”. Applied and Environmental Microbiology

External Evaluator, 2015. Technion-IIT, Haifa, Israel. Promotion evaluation for Associate Professor Sima Yaron to Full Professor.

Invited Reviewer, 2015. Manuscript entitled “Effect of Chicken Litter Freshness on Thermal Resistance of Desiccation-Adapted *Salmonella* spp.)” Applied and Environmental Microbiology

Invited Reviewer, 2015. Manuscript entitled “Twenty years of *Listeria* in Brazil: Occurrence of *Listeria monocytogenes* Serotypes and other species in food samples between 1990- 2012.” BioMed Research International

Invited Reviewer, 2015. Manuscript entitled “The pipeline development for biomarker identification in foodborne pathogen detection and surveillance.”

Invited Speaker, 2015. Crisis communication and issue management for the Extend Leadership Group. Griffin, Georgia May 29, 2015.

Invited Reviewer, 2015. Manuscript entitled “Flouroquinolone and Macrolide Resistance in *Camplobacter jejuni* Isolated from Broiler Slaughterhouses in Southern Brazil.”

Invited Reviewer, 2015. Georgia Research Alliance, Project entitled “ Micro Gas Chromatography for Agriculture Inspection/Evaluation Purposes.”

Invited Reviewer, 2015. Manuscript entitled “ Incidence and antimicrobial susceptibility pattern of extended-spectrum- β -lactamase-producing *Escherichia coli* isolated from retail imported mackerel fish in Saudi Arabi.”

Invited to co-moderate a workshop, 2015. “The Science of Sodium Reduction in the Food Supply.” Sponsored by ILSI North America Technical Committees on Food Microbiology and Sodium.

Invited Reviewer, 2015. Manuscript entitled “Development of an Improved selective medium for the detection of *Shigella* spp.” Food Science & Technology

Invited Reviewer, 2015. Manuscript entitled, “Antimicrobial and antioxidant activities of spice extracts on raw chicken meat quality.” Food Science and Human Wellness

Public Service

1. Requested by State of Illinois and Centers for Disease Control to serve on task force to investigate large outbreak of salmonellosis associated with consumption of pasteurized milk, April 1985.

2. Requested by Health and Welfare Canada and Ontario Central Public Health Laboratory to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis and hemolytic uremic syndrome (London, Ontario), Fall 1985.
3. Requested by Centers for Disease Control and State of Washington Health Department to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis (Kennewick, WA), August 1986.
4. Requested by Centers for Disease Control and Minnesota Department of Health to analyze for E. coli O157:H7 raw milk samples associated with cases of hemolytic uremic syndrome in infants, September 1986.
5. Requested by Centers for Disease Control and Wisconsin Division of Health to analyze for Escherichia coli O157:H7 food samples associated with outbreak of thrombotic thrombocytopenic purpura, September 1986.
6. Requested by Universidad Nacional Autonoma de Nicaragua, Department of Microbiology and Parasitology, Managua, Nicaragua, to advise and collaborate in studies on the association of Campylobacter jejuni and Yersinia enterocolitica with diarrhea in children, September 1986-89.
7. Requested by Centers for Disease Control and State of Washington Health Department to analyze food samples associated with outbreak of thrombotic thrombocytopenic purpura and hemorrhagic colitis (Walla Walla, WA) for Escherichia coli O157:H7, November 1986.
8. Requested by U.S. Food and Drug Administration to analyze for E. coli O157:H7 cheese samples associated with outbreaks of hemorrhagic colitis (Walla Walla, WA and Vancouver, BC), December 1986.
9. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 hamburger samples associated with cases of hemolytic uremic syndrome, June 1987.
10. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef and cheese samples associated with outbreaks of hemorrhagic colitis (Utah), July 1987.
11. Requested by St. Luke's Hospital (Infectious Disease Department), New York, NY, to analyze for Listeria monocytogenes feta cheese sample associated with case of perinatal listeriosis, December 1987.
12. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 venison samples associated with a case of hemorrhagic colitis, January 1988.
13. Requested by State of Wisconsin Department of Health and Social Services and Centers for Disease Control to analyze for E. coli O157:H7 and verotoxins, roast beef samples associated with an outbreak of hemorrhagic colitis, June 1988.

14. Requested by State of Utah Department of Health to analyze for E. coli O157:H7 antelope sausage samples associated with a case of hemolytic uremic syndrome, August 1988.
15. Requested by Minnesota Department of Health to analyze for E. coli O157:H7 ground beef samples associated with outbreaks of hemorrhagic colitis and hemolytic uremic syndrome at day-care centers and a Junior high school. September-December 1988.
16. Requested by New York State Department of Health to participate in Northeastern States Salmonella enteritidis Workshop (September 8-9, 1988) and to study food microbiology and virulence aspect of egg-associated isolates of Salmonella enteritidis, September 1988.
17. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef sample associated with a fatal case of hemolytic uremic syndrome in the State of Washington, September 1989.
18. Requested by Centers for Disease Control and Missouri Department of Health to analyze for E. coli O157:H7 water and food samples associated with an outbreak of hemorrhagic colitis in Cabool, MO, January-March 1990.
19. Requested by Wisconsin State Laboratory of Hygiene to analyze for E. coli O157:H7 meat samples associated with a case of hemolytic uremic syndrome in Northern Wisconsin, March 1990.
20. Requested by National Broiler Council to provide comments for a video interview on the microbiological safety of fresh broiler products, October, 1991.
21. Requested by Centers for Disease Control to analyze for E. coli O157:H7 apple cider and environmental samples associated with an outbreak of hemorrhagic colitis in Boston, MA, January-February 1992.
22. Requested by American Meat Institute and National Cattlemen's Association to provide comments for a video interview on the safety of streamline-inspected beef, April 1992.
23. Requested by Commonwealth of Virginia Department of Health to analyze for E. coli O157:H7 meat samples associated with an outbreak of hemorrhagic colitis in Virginia, August 1992.
24. Requested by Continental Grain Company to analyze poultry product for bacterial contaminants, October 1992.
25. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 milk and water samples associated with an outbreak of hemolytic uremic syndrome in Maine, November 1992.
26. Requested by Institute of Food Technologists to comment on a press release distributed by the American Medical Association regarding two articles on foodborne outbreaks published in JAMA, December 1992.

27. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 meat samples associated with Jack in the Box outbreak of hemorrhagic colitis and hemolytic uremic syndrome in Washington State, California, Nevada, and Hawaii, January-April 1993.
28. Requested by Centers for Disease Control and Prevention to analyze mayonnaise samples associated with an outbreak of E. coli O157:H7 in Oregon, September-October, 1993.
29. International Cooperative Agreement, Board of Regents University System of Georgia and National Center for Food Safety Education and Research, Taipei, Taiwan. 2013. (Requested by National Taiwan University)
30. Requested by USDA National Institute for Food and Agriculture (NIFA) and the North American Branch of the International Life Sciences Institute (ILSI) to participate on a committee, the "Food Value Analysis Workshop-Phase II" held in Washington, DC. 2015.
31. Requested by Nelson Cox, USDA, Science Hall of Fame to collaborate on research to test the efficacy of levulinic acid on poultry parts to eliminate or reduce *Salmonella*, May 2015.
32. Requested by Peter Hesketh, Georgia Institute of Technology, to collaborate on the "Advanced Rapid Ultra-low Power Portable MEMS-GC System for Agriculture and Food Processing" for NSF SBIR. May 2015.

Dear Xing-long,

The invitation letter and CVs you requested are attached.

Please keep me informed about your scholarship application. I wish you all the best.

Sincerely,

Michael Doyle

Michael P. Doyle, Ph.D.
Regents Professor and Director
Center for Food Safety
University of Georgia

Hi Xing-long,

Yes, I shall send you a letter.

Michael P. Doyle, Ph.D.
Regents Professor and Director
Center for Food Safety
University of Georgia
1109 Experiment Street
Griffin, GA 30223-1797

Subject: Fw: Re: RE: RE: CV Xing-long Xiao from South China University of Technology

Dear Prof. Deng,

Did you have received the letter on May 23? I doubt if there was anything wrong with my expression because I asked for Prof. Mdoyle for an invitation letter instead of Prof. Deng. Maybe I have misunderstood the relationship between Prof.Mdoyle and Dr. Deng. In China here, several researchers work as an academic group and the group leader make decisions for us. Because Dr. Mdoyle said he could co-host me but would be retired within 2 years and then recommended me to Dr.Deng, so i thought you were in the same group as in our university. I have thought I would just work under Dr. Mdoyle and Dr.Deng's guidance and if Prof. Deng approved my application Dr. Mdoyle would send me the invitation. This phenomenon is very common in China. I regard it as a misunderstanding now. If it is true, I feel very sorry for that. I would like to work with you because your projects fit me well. Please could you send me an invitation letter? Thank you very much.

Best regards,

Xing-long

主题: Re: RE: RE: CV Xing-long Xiao from South China University of Technology

Dear Dr. Deng,

I am happy to hear that. I just come back from the English training courses and feel a little bit tired now. Your message sounds great! I think it will be my greatest honor to learn from you and Prof. Doyle. My current research work here in china is divided to: (1) Molecular response mechanism involved in Escherichia coli O157:H7 to acid stress, with the help of transcriptome, proteomics and gene deletion. Also, why the Cronobacter sakazakii can resist to desiccation in PIF? (2) New detection methods to foodborne pathogens, such as HRM, real-time PCR, quantum dot.etc.

I would like to conduct the research projects you have mentioned. It really impressed me and I know something about that since I have worked with them for many years. I sincerely appreciate the opportunity Prof. Doyle and you give to me. Could I ask for Prof. Doyle to write an invitation letter for me? If any other information were needed, please let me know. Thank you very much.

With my best regards,

Xinglong

Sounds good. Our specialty is genomics and bioinformatics. And we do have an ongoing project to explore sequencing-based, enrichment- independent pathogen detection, which might be a good fit for you.

Best,

Xiangyu

Dear Dr.Deng,

Nice to hear from you. I will write to you about my research work and plan the next time because it is late night now. Tomorrow morning i will get up early to join in the English training program organized by the Chinese Ministry of Education. I am sorry for that. Hope i would have the opportunity to join in Prof. Doyle and your group.
yours sincerely,
Xing-long

Subject: CV Xing-long Xiao from South China University of Technology

Dear Prof. Xiang-yu Deng,

I wish to apply for a visiting scholar position in your group. I completed my Ph.D. degree requirement from South China University of Technology (SCUT) in 2010 and I am currently teaching Food Safety and detection at College of Light Industry and Food Sciences of this University, China. Now I have a funding opportunity for conducting overseas research for 12 months in the scholarship program called "government-sponsored visiting scholar/postdoctoral research", which is launched by China Scholarship Council. By that the fee for my studying and living abroad will be totally supported by China Scholarship Council.

During my Ph.D. study at South China University of Technology and thereafter, I have been doing researches in the fields of food Safety and detection, food microbiology and recently the molecular pathways of pathogen under stress. Some of my past projects include Molecular mechanism and application research on the detection of viable bacteria based on the metabolic activity (National Natural science Foundation of china), Molecular mechanism involved in the resuscitation of Escherichia coli O157:H7 in food from Viable but nonculturable state(Fundamental Research Funds for the Central Universities), Research on application elements for viable pathogens detection based on isothermal helicase-dependent amplification (the Research Foundation for the Doctoral Program of Chinese Higher Education), etc. I know that you have deep interest in the area of food safety and foodborne pathogen. The world-leading research level and the excellent equipped labs of yours in this area really impressed me. It would be a great honour for me if I can have this opportunity to study in your prestigious group as an academic visitor at the University of Georgia. Since the costs of this trip will be sponsored by Chinese Government, I only need an invitation letter from you indicating you are willing to be the advisor and UGA is going to be the host university.

Attached please find my CV with details of my education, research interests, research experience, etc. I welcome any questions from you regarding this application, and I look forward to your response. If any other information were needed, please let me know.

Thank you very much for your time and consideration.

I am looking forward to hearing from you soon.

Best regards,

Dr. Xing-long Xiao

Education

- | | |
|-----------|---|
| 2007-2011 | Ph.D. Microbiology, Illinois Institute of Technology, Chicago, Illinois |
| 2004-2006 | Graduate training in Molecular Biology, University of Vienna, Vienna, Austria |
| 2000-2004 | B.Sc. Biotechnology, Shanghai Jiao Tong University, Shanghai, China |

Professional Experience

- | | |
|--------------|---|
| 2013-present | Assistant Professor of Food Microbiology, Center for Food Safety, College of Agricultural and Environmental Sciences, University of Georgia, Griffin, Georgia |
| 2013-present | Guest Researcher, Enteric Diseases Laboratory Branch, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia |
| 2012-2013 | American Society for Microbiology (ASM) Postdoctoral Research Fellow, Enteric Diseases Laboratory Branch, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Atlanta, Georgia |
| 2011-2012 | Food Safety Scientist, Kraft Foods Technological Center, Kraft Foods Inc., Glenview, Illinois |
| 2007-2011 | Graduate Research Assistant, Institute for Food Safety and Health, Food and Drug Administration/Illinois Institute of Technology, Summit-Argo, Illinois |

Awards

- | | |
|-----------|--|
| 2012-2013 | ASM/CDC Postdoctoral Research Fellowship |
| 2010 | Irwin Fieldhouse Endowed Fellowship |
| 2009-2010 | Graduate Dean Fellowship |

Professional Activities

2014	Grant reviewer: Canada Foundation for Innovation, The United States – Israel Binational Agricultural Research and Development Fund
2010-	Referee for: Applied and Environmental Microbiology; Environmental Science & Technology; Microbiology; Food Microbiology; Journal of Clinical Microbiology; Infection, Genetics and Evolution; International Journal of Food Microbiology; Foodborne Pathogens and Diseases; BMC Genomics
2009	Scientific panel member, Institute of Food Technologists
2011-	Member, International Association of Food Protection (IAFP)
2008-	Member, American Society for Microbiology (ASM)
2008-	Member, Institute of Food Technologists (IFT)

Postdoctoral Fellows, Visiting Scientists and Other Fellows

Qi Zhang	Postdoctoral Fellow	2015-present
Assad Mahdi Assad Assad	Iraq Biosciences Fellow	2015
Husnu Sahan Guran	Visiting Scientist	2014-2015
Yan Zhu	Visiting Scientist	2014-2015
Hongmei Zhang	Visiting Scientist	2014-2015

CURRICULUM VITAE

NAME: Michael Patrick Doyle **TELEPHONE:** 770-228-7284
FAX: 770-229-3216
E-mail:mdoyle@uga.edu

DEGREES:

1973	B.S.	University of Wisconsin-Madison	Bacteriology
1975	M.S.	University of Wisconsin-Madison	Food Microbiology
1977	Ph.D.	University of Wisconsin-Madison	Food Microbiology

PROFESSIONAL EXPERIENCE:

1977-1980	Senior Project Leader, Corporate Research, Ralston Purina Company
1980-1984	Assistant Professor, Department of Food Microbiology and Toxicology (Food Research Institute), University of Wisconsin-Madison
1984-1988	Associate Professor, Department of Food Microbiology and Toxicology, University of Wisconsin-Madison
1988-1991	Professor and Wisconsin Distinguished Professor of Food Microbiology, Department of Food Microbiology and Toxicology, Department of Food Science, University of Wisconsin-Madison
1991-1999	Department Head, Department of Food Science and Technology, University of Georgia, Agricultural Experiment Station, Griffin, GA
1993-1999	Department Head, Department of Food Science and Technology, University of Georgia, Athens, GA
1993-2000	Director, Center for Food Safety and Quality Enhancement, University of Georgia, Griffin, GA
1997-	Regents Professor of Food Microbiology, University of Georgia
2000-	Director, Center for Food Safety, University of Georgia, Griffin, GA

PROFESSIONAL SOCIETIES:

Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, and the National Academy of Inventors and serves as a scientific advisor to the National Academies. Member of the National Academy of Medicine.

AWARDS/SPECIAL RECOGNITION:

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986
3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987
5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food and Environmental Sanitarians, 1993
10. James H. Nakano Citation, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994
11. P. R. Edwards Award, Southeastern Branch of the American Society for Microbiology, 1994

12. Nicholas Appert Award, Institute of Food Technologists (for outstanding contributions to the field of Food Science), 1996
13. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997.
14. Silver Plow Honor Award for Exceptional Service, U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998
15. Inaugural Fellow, International Association of Milk, Food and Environmental Sanitarians, 1998
16. Fellow, Institute of Food Technologists, 1999
17. Food Safety Award, National Food Processors Association AND International Association for Food Protection, 1999
18. Honorary Member, Association Internationale Nicolas Appert, for outstanding contributions to food science and technology, 1999
19. Julius Bauermann Lectureship, Philadelphia Section of Institute of Food Technologists, 2000
20. Centers for Disease Control and Prevention Partners in Public Health Honor Award, 2001
21. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
22. Institute of Scientific Information, Highly Cited Researchers in Agricultural Sciences (Top 100 researchers cited), 2002
23. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
24. Fellow, World Innovation Foundation, 2003
25. Elected Member, Institute of Medicine of the National Academies, 2003
26. National Associate, National Academy of Sciences, 2003
27. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
28. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
29. American Meat Institute Foundation's Scientific Achievement Award, 2004
30. U.S. Food and Drug Administration Commissioner's Special Citation, 2006
31. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
32. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
33. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
34. Fellow, American Association for the Advancement of Science (AAAS), 2011
35. Distinguished Agriscience Scientist Award, Christopher Columbus Fellowship Foundation, 2013
36. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food Safety, 2013
37. Fellow, National Academy of Inventors, 2013
38. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate," by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)

EXAMPLES OF PROFESSIONAL ACTIVITIES:

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of *Campylobacter* Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva, Switzerland, 1988

Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988

Scientific Advisor, International Life Sciences Institute - Nutrition Foundation, Food Microbiology Committee, 1987-1996

Scientific Advisor, National Dairy Promotion and Research Board, 1989-1993

Scientific Advisor, National Live Stock and Meat Board, 1990-1996

Executive Committee, Conference for Food Protection, 1985-1986

IFT Scientific Lecturer, Institute of Food Technologists, 1987, 1990
 ASM Scientific Lecturer, American Society for Microbiology, 1991-1993
 Member, National Advisory Committee on Microbiological Criteria for Food, 1988-1990; 1994-2000
 Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987
 Board of Trustees, International Life Sciences Institute-North America, 1992-present
 Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-1997; 2005-2009
 Executive Board, International Association of Milk, Food and Environmental Sanitarians, 1989-94; President, 1992-93
 Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, 1997-2002
 Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003
 Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998
 Member, U. S. Food and Drug Administration Science Board (advise FDA science programs), 1999-2004; Chairman, 2003-2004
 Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002
 Member, U. S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000
 Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards of Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001
 Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture *E. coli* Farm-to-Table Process Risk Assessment, 2001-2002.
 Scientific Editor, Kluwer Academic/Plenum Publishers, Series on Food Safety and Food Microbiology, 2002-present
 Member, Partnership of Food Safety Education Advisory Board, 2002-2005
 Member, American Academy of Microbiology, Committee on Election to Membership, 2002-2007
 Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008
 Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012
 Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012
 Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009
 Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012
 Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012
 Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004
 Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005
 Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012
 Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007
 Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009
 Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-present
 Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008
 National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007
 Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011
 Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-present
 Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009
Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009
Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009
Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2012
Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2011; Chair, 2012-2014
Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014
Member, International Life Sciences Institute Board of Trustees, 2014-
Member, CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017
Chair, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC, 2014-2015

Doyle has more than 320 refereed journal articles, 17 books, 66 book chapters, 86 invited papers/conference proceedings, 30 patents, and more than 800 invited presentations at national and international professional meetings. He is an active researcher in the area of foodborne bacterial pathogens and works closely with the food industry on issues related to the microbiological safety of foods. His research has focused on the study of microbial pathogenicity, the development of methods for pathogen detection, and the identification of means to control or eliminate pathogens in foods.

The University of Georgia®

College of Agricultural and Environmental Sciences
Center for Food Safety

May 28, 2015

Dr. Xing-long Xiao
Department of Food Science and Engineering
College of Light Industry and Food Sciences
South China University of Technology
Wushan RD., Tianhe District
Guangzhou, P.R. China, 510640

Dear Dr. Xiao,

I am pleased to offer you an appointment as a Visiting Scholar at the Center for Food Safety of the University of Georgia; however, this offer of acceptance is contingent upon your successfully obtaining financial assistance from the China Scholarship Council. The University of Georgia will offer you lab access, office space with a computer, and access to the university Library and databases. To my understanding, the China Scholarship Council will provide you one round-trip international airfare, health insurance and a stipend to pay for your living expenses while in the United States. As a visiting scholar, you will not be required to pay tuition.

You should be eligible to apply for a J-1 visa. Your appointment will be for 12 months, from March 1, 2016 to March 1, 2017, but the exact dates of your arrival and departure will be determined if and when you receive the government scholarship for which you are applying. Your research focus will be developing food safety interventions to reduce pathogen contamination of foods. You will return to China after completion of your visiting scholar program according to the requirements of your contract with China.

I look forward to your coming to the University of Georgia. Please feel free to contact me should you need more information.

Sincerely,

Dr. Michael P. Doyle
Regents Professor and Director

CURRICULUM VITAE**Michael Patrick Doyle****DATE AND PLACE OF BIRTH:** 1949; Madison, Wisconsin**FORMAL EDUCATION**

- 1973 Bachelor of Science, University of Wisconsin-Madison
Major: Bacteriology
Graduated with Honors
- 1975 Master of Science, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
- 1977 Doctor of Philosophy, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
Minor: Bacteriology

PROFESSIONAL EMPLOYMENT

University of Georgia, - Faculty of Center for Drug Discovery, Athens, GA
October 2010 – present

University of Georgia, Faculty of Infectious Diseases, Athens, GA March 2008 - present

University of Georgia, Center for Food Safety, Griffin, GA
January 2001 - Present

Title - Director

Responsibilities: Provide leadership for the research and outreach programs of the Center. Provide oversight of 9 faculty members and ca. 10 postdoctoral scientists, and coordinate microbiological food safety research of participating adjunct faculty members.

Center for Food Safety

- Reorganized in 2001 to focus solely on microbiological food safety issues
 - The purpose of the Center is to assist food processors and producers nationally in enhancing the safety of their products
 - Center is awarded annually \$2.5 to \$3.5 million in extramural funding with a core faculty of 7. Ca. \$9 million in extramurally-funded ongoing research among all Center faculty members
 - Center has 19 core and adjunct faculty members plus 10 postdoctoral scientists
 - Center has 50 industry members contributing ca. \$400,000-\$500,000 annually in unrestricted funds for research activities
 - Center is a nationally and internationally recognized program for its food safety activities

- Has major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences

**University of Georgia, Center for Food Safety and Quality Enhancement, Griffin, GA
March 1993 - December 2000**

Title - Director

Responsibilities: Provided leadership for the research and outreach programs of the Center.
Provided oversight of 11 faculty members.

Center for Food Safety and Quality Enhancement

- Organized and, in 1993, received approval for a Center for Food Safety and Quality Enhancement; served as Center's Director since 1993.
 - The purpose of the Center is to assist food processors nationally in enhancing the safety and quality of their products.
 - Center received annually \$2 million plus in extramural funding with a core faculty of 11
 - Center had 17 core and adjunct faculty members
 - Center had 50 industry members contributing \$250,000 in unrestricted funds annually for research activities
 - Center was a nationally and internationally recognized program for its food safety activities
 - Developed major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences
 - Research projects at the Center led to the development of new multimillion dollar divisions within some state companies
- Organized and received federal funding (\$300,000 annually) for an Alliance for Food Protection
 - Strategic alliance between the University of Georgia (microbiological food safety) and the University of Nebraska (allergen-related food safety) to enhance the safety of processed foods
- Obtained \$7.6 million for 28,000-sq ft. building addition, renovations, and equipment for Center for Food Safety and Quality Enhancement in Griffin
- Obtained \$4.4 million in state funding for building addition for Department of Food Science and Technology in Athens (justified on basis of food safety program)

State of Georgia Food Processing Initiative

- Served as a principal advisor to the Food Processors Advisory Council (Food PAC) of the State of Georgia
 - This Council advises the Governor's Office of Planning and Budget on the award of \$1.5 to \$2 million annually for food processing-related research funding at State universities
- Served as a principal advisor to the Governor's Office of Planning and Budget on economic development and expansion of the \$15-billion/year state food processing industry
 - Assisted in the recruitment of food processing companies to Georgia

University of Georgia, Department of Food Science and Technology, Athens, GA and Griffin, GA

September 1993 - July 1999

Title - Department Head

Responsibilities: Provided leadership for the academic, extension, and research programs of the Department.

Administrative Responsibilities and Accomplishments

- Program responsibilities as Head of Department of Food Science and Technology included:
 1. Oversight of Food Science undergraduate and graduate instruction programs (21 faculty)
 2. Oversight of Environmental Health Science undergraduate and graduate instruction, and research programs (6 faculty) until October 1998
 3. Oversight of Food Process Research and Development Laboratory (17 faculty)
 4. Oversight of Food Science Extension program (1.75 faculty)

Food Science Instruction

- The Food Science graduate program (ca. 70 - 100 students) was the largest (40%) in the College of Agricultural and Environmental Sciences
 - Average GRE scores for Food Science graduate students increased ca. 100 points to ca. 1100 since 1995.
 - UGA Food Science graduate students were in great demand, with most having one or more job offers before graduation.
 - Minority graduate student enrollment increased by 4-fold since 1995.
- Food Science undergraduate program (20 to 40 students) graduates were among the most employable students in the College with two to three job opportunities at graduation.

- Department restructured all courses (both undergraduate and graduate) to transition from quarter to semester system in fall 1998
- Reorganized teaching responsibilities to upgrade and update the department's introductory Food Science course. Enrollment increased by more than 300% (from 18 to >60 students per quarter) within one year.

Environmental Health Science

- Facilitated the development and growth of the Environmental Health Science program culminating in departmental status in October 1998
 - Undergraduate enrollment of 150-220 students
 - Received Board of Regents approval for Masters of Science Graduate program
 - Increased faculty positions from 2 to 5
 - Relocated EHS faculty to a single building; obtained additional space (ca. 8,000 sq. ft.) for research and teaching; renovated 3 laboratories and constructed a new classroom and computer laboratory
 - Received University of Georgia and Board of Regents approval for departmental status

Food Process Research and Development Laboratory

- Facilitated approval in 1995 of the Food Process Research and Development Laboratory
 - The purpose of the Laboratory was to develop and evaluate new processes for food products and assist state food processors in implementing these new processes
 - Integrated Food Science Extension programs with the FPRDL
 - Developed faculty support and involvement in FPRDL; 17 faculty were members of the Laboratory
 - Laboratory received annually ca. \$0.5 to \$1 million plus in extramural funding
 - Obtained \$2 million plus in state funding for renovations to Food Science Building in Athens (justified on basis of food processing program)

Food Science Extension

- Integrated Food Science Extension into the Department of Food Science and Technology
 - Developed a fully integrated Extension program involving the entire research and teaching faculty of the department; formerly only one or two full-time Extension faculty addressed all Extension Activities
 - Food Science Extension programs promote state economic development by assisting state processors in designing new plants, reducing waste, implementing new processes, implementing pollution controls, and improving worker efficiency
 - Increased Extension workshop and short course offerings by more than two-fold (20-30 workshops offered annually)

University of Georgia, Center for Food Safety and Department of Food Science and Technology, Georgia Experiment Station, Griffin, GA

January 1991 - Present

Title - Regents Professor of Food Microbiology (1997-present), and Director of the Center for Food Safety (2001-present); Director of the Center for Food Safety and Quality Enhancement (1993-2000); Professor of Food Microbiology (1991-1997) and Head of Department of Food Science and Technology at Griffin, (1991-1993).

Responsibilities: Conducted basic and applied research on bacterial agents of foodborne disease, provide leadership for the research program of the Center and previously the Department, and managed the administrative functions of the Center and previously the Department.

University of Wisconsin-Madison, Department of Food Microbiology and Toxicology and Department of Food Science, Madison, Wisconsin

January 1980 - March 1991

Title - Wisconsin Distinguished Professor of Food Microbiology and Toxicology, and Professor of Food Science; Associate Professor, July 1, 1984 - June 30, 1988; Assistant Professor, January 1, 1980 - June 30, 1984

Responsibilities: Conducted basic and applied research related to bacterial agents of foodborne disease. Organisms of primary interest included Campylobacter jejuni, Yersinia enterocolitica, Salmonella, enterohemorrhagic Escherichia coli, Listeria monocytogenes, and Clostridium botulinum.

Ralston Purina Company, Checkerboard Square, St. Louis, Missouri

December 1977 - January 1980

Title - Senior Project Leader in Corporate Microbiology

SOCIETY MEMBERSHIPS (Present and Past)

- a. American Academy of Microbiology
- b. American Association for the Advancement of Science
- c. American Society for Microbiology; Southeastern Branch of ASM
- d. Gamma Sigma Delta (Honor Society for Agriculture)
- e. International Association for Food Protection; Georgia Association for Food Protection
- f. Institute of Medicine of the National Academies
- g. Institute of Food Technologists; Dixie Section of IFT
- h. Phi Beta Delta (Honor Society for International Scholars)
- i. Phi Kappa Phi
- j. Phi Tau Sigma (Honor Society for Food Scientists)
- k. Sigma Xi

AWARDS/HONORS

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986

3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987
5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food, and Environmental Sanitarians, 1993
10. American Society for Microbiology Food Microbiology Division Lecturer, 1993
11. G. Malcolm Trout Visiting Scholar Lectureship, Michigan State University, 1994
12. James H. Nakano Citation (outstanding scientific paper published in 1993), National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994 and nominated for the Charles C. Shepard Science Award (most outstanding peer reviewed research paper published by CDC/ATSDR scientists), Centers for Disease Control and Prevention, 1994
13. P. R. Edwards Award (for rendering outstanding service in furthering high professional ideals and standards in microbiology, and demonstrating originality and high competence as a practicing microbiologist), Southeastern Branch of the American Society for Microbiology, 1994
14. Nicholas Appert Award, Institute of Food Technologists, 1996, for outstanding contributions to the field of food science (Highest award given by IFT)
15. Health Sciences Communications Association '96 Media Festival, First Place Award, for CNBC's *Today's Health* segment on "Beef Industry's Efforts to Improve Food Safety," through the National Cattlemen's Beef Association, 1996
16. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997
17. Institute of Food Technologists Food Microbiology Division Lecturer, 1997
18. Silver Plow Honor Award for Exceptional Service (Personal and Professional Excellence), U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998. For internationally esteemed leadership in food safety, and pioneering research in detecting and controlling harmful bacteria associated with foods.

19. Inaugural Fellow, International Association for Food Protection (International Association of Milk, Food and Environmental Sanitarians), 1998.
20. York Distinguished Lecture, Auburn University, 1999
21. Fellow, Institute of Food Technologists, 1999
22. National Food Processors Association Food Safety Award, International Association for Food Protection, 1999, for exemplary and outstanding contributions to and leadership in improving the safety of food through research, education, public health, and domestic and international policy.
23. Honorary Member, Association Internationale Nicolas Appert, 1999, for outstanding contributions to food science and technology.
24. Key Resource Award, Links 2 Go, 1999, for UGA Center for Food Safety web page among most popular pages on food safety.
25. Study Web Academic Excellence Award, 2000, for being one of the best educational resources on the Web.
26. Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, 2000.
27. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
28. CDC Partners in Public Health Honor Award for outstanding collaboration and partnership with CDC in enhancing foodborne disease outbreak investigations and helping CDC to develop foodborne disease prevention strategies, U.S. Centers for Disease Control and Prevention, 2001
29. Institute for Scientific Information, Highly Cited Researcher in Agricultural Sciences (from 1981-1999), 2002
30. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
31. Fellow, World Innovation Foundation, 2003
32. Elected Member, Institute of Medicine, National Academies, 2003
33. National Associate, National Academy of Sciences, 2003
34. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
35. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003

36. Scientific Achievement Award for professional achievements that have had a significant contribution to the scientific knowledge of the meat and poultry industry, American Meat Institution Foundation, 2004
37. U.S. Food and Drug Administration, Commissioner's Special Citation, 2006
38. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
39. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
40. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
41. Fellow, American Association for the Advancement of Science (AAAS), 2011
42. Service Award, American Society for Microbiology, 2012
43. Christopher Columbus Award for excellence in agriscience, 2013
44. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food safety, 2013
45. Fellow, National Academy of Inventors , 2013
46. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate, by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009).
47. Frazier Memorial Award Lecture, Food Research Institute, University of Wisconsin-Madison, 50th Annual Meeting, Keynote Address, 2016.

BIOGRAPHICAL LISTINGS

1. Listed in American Men and Women of Science, 1992; 1995; 1998, 2003 (21st ed.) 2007

DISTINGUISHED APPOINTMENTS OR ELECTED POSITIONS

Associate Editor, *Journal of Food Protection*, 1981-86
 Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of *Campylobacter* Infections, World Health Organization, Moscow, USSR, 1984
 Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva, Switzerland, 1988
 Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988
 Scientific Advisor, International Life Sciences Institute - North America, Food Microbiology Committee, 1987-1996
 Scientific Advisor, National Dairy Promotion and Research Board, 1989-93
 Scientific Advisor, National Live Stock and Meat Board, 1990-96
 Executive Committee, Conference for Food Protection, 1985-86
 Member, National Advisory Committee on Microbiological Criteria for Foods, 1988-90; 1994-2000
 Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987
 Member, National Academy of Sciences, Institute of Medicine Food and Nutrition

Board, 1991-97
 Board of Trustees, International Life Sciences Institute North America, 1992-
 Chairman, Food Microbiology Division of the American Society for Microbiology,
 1988-89; Chair-Elect, 1987-88
 Scientific Lecturer, Institute of Food Technologists, 1987-90
 Foundation Scientific Lecturer, American Society for Microbiology; 1991-93; 1999-2001
 President, International Association of Milk, Food and Environmental Sanitarians,
 1992-93
 Member, National Academy of Sciences, National Research Council Board on Agriculture and
 Institute of Medicine Food and Nutrition Board, Panel on Animal Health, Food Safety and
 Public Health, 1993-96
 Member, National Academy of Sciences, Institute of Medicine, Food Forum, 1993-2000
 Member, The Refrigeration Research and Education Foundation Scientific Advisory Council,
 World Logistics Organization, 1997-2002
 Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide,
 Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003
 Chairman, Georgia-Pacific Health Smart Institute Advisory Board, 1998-2001
 Member, National Academy of Sciences (National Research Council Board on Agriculture and
 Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from
 Production to Consumption, 1998
 Member, U. S. Food and Drug Administration Science Board (advise FDA scientific programs),
 1999-2004, Chairman 2003-2004
 Member, U.S. Food and Drug Administration Veterinary Medicine Advisory
 Committee, 1999-2002
 Scientific Editor, Aspen Publishers, Series on Food Safety and Food Microbiology,
 1999-2001
 Member, U.S. Defense Science Board, Task Force on Defense Against Biological
 Weapons, 2000
 Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological
 Hazards in Foods, World Health Organization and Food and Agricultural
 Organization of the United Nations, Rome, Italy, 2001
 Chairman, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S.
 Department of Agriculture Food Safety and Inspection Service *Escherichia coli* O157:H7 in
 Ground Beef Draft Risk Assessment, 2001-2002.
 Scientific Editor-in-Chief, (formerly Kluwer Academic/Plenum Publishers), Springer, Series on
 Food Safety and Food Microbiology, 2002-
 Member, Partnership for Food Safety Education Advisory Board, 2002-2005
 Member, American Academy of Microbiology, Committee on Election to Fellowship,
 2002-2007
 Member, American Council on Science and Health, Board of Scientific and Policy Advisors,
 2003-2008
 Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012
 Chairman, American Society for Microbiology, Public and Scientific Affairs Board,
 Committee on Agricultural and Food Microbiology, 2003-2012
 Consultant, U.S. Department of Agriculture, Agricultural Marketing Service,
 Microbiological Data Program, 2003-2009
 Member, Expert College of Reviewers, The Canada Foundation for Innovation,
 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Chairman, National Academy of Sciences, Committee on the Joint US-Iran Workshop on Food Safety, 2003-2005

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2013

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2015

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009.

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009.

Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014

Member, International Life Sciences Institute Board of Trustees, 2014-

Invited Member, 2014 CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017

Chair, 2014-15, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC

BIBLIOGRAPHY OF PUBLICATIONS

Papers Published in Refereed Journals/Publications

1. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. I. Effects of moist heat, age of conidia, and sporulation medium. J. Milk Food Technol. 38:678-682.
2. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. II. Effects of pH and buffers, glucose, sucrose, and sodium chloride. J. Milk Food Technol. 38:750-758.
3. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by fragmented and intact mycelia of Aspergillus parasiticus grown 5 to 18 days with and without agitation. J. Food Prot. 41:549-555.
4. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of temperature and concentration of bisulfite. J. Food Prot. 41:774-780.
5. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of citric acid and methanol and possible mechanism of degradation. J. Food Prot. 41:891-896.
6. Doyle, M. P., and E. H. Marth. 1978. Degradation of aflatoxin by lactoperoxidase. Z. Lebensm. Unters.-Forsch. 166:271-273.
7. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin at several initial concentrations is degraded by different amounts of mycelium of Aspergillus parasiticus. Z. Lebensm. Unters.-Forsch. 166:359-362.
8. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by mycelia from toxigenic and nontoxigenic strains of aspergilli grown on different substrates. Mycopathologia 63:145-153.
9. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by heated and unheated mycelia, filtrates of homogenized mycelia and filtrates of broth cultures of Aspergillus parasiticus. Mycopathologia 64:59-62.
10. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded at different temperatures and pH values by mycelia of Aspergillus parasiticus. Eur. J. Appl. Microbiol. Biotechnol. 6:95-100.
11. Marth, E. H., and M. P. Doyle. 1979. Update on molds: degradation of aflatoxin. Food Technol. 33(1):81-87.
12. Doyle, M. P., and E. H. Marth. 1979. Peroxidase activity in mycelia of Aspergillus parasiticus that degrade aflatoxin. Eur. J. Appl. Microbiol. Biotechnol. 7:211-217.
13. Doyle, M. P. 1981. Campylobacter fetus subsp. jejuni: an old pathogen of new concern. J. Food Prot. 44:480-488.
14. Doyle, M. P., and D. J. Roman. 1981. Growth and survival of Campylobacter fetus subsp. jejuni as a function of temperature and pH. J. Food Prot. 44:596-601.

15. Doyle, M. P., M. B. Hugdahl, and S. L. Taylor. 1981. Isolation of virulent Yersinia enterocolitica from porcine tongues. *Appl. Environ. Microbiol.* 42:661-666.
16. Doyle, M. P., N. J. Bains, J. L. Schoeni, and E. M. Foster. 1982. Fate of Salmonella typhimurium and Staphylococcus aureus in meat salads prepared with mayonnaise. *J. Food Prot.* 45:152-156, 168.
17. Doyle, M. P., and D. J. Roman. 1982. Sensitivity of Campylobacter jejuni to sodium chloride. *Appl. Environ. Microbiol.* 43:561-565.
18. Doyle, M. P., and D. J. Roman. 1982. Sensitivity of Campylobacter jejuni to drying. *J. Food Prot.* 45:507-510.
19. Doyle, M. P., and D. J. Roman. 1982. Recovery of Campylobacter jejuni and Campylobacter coli from foods by selective enrichment. *Appl. Environ. Microbiol.* 43:1343-1353.
20. Doyle, M. P., R. S. Applebaum, R. E. Brackett, and E. H. Marth. 1982. Physical, chemical, and biological degradation of mycotoxins in foods and agricultural commodities. *J. Food Prot.* 45:964-971.
21. Doyle, M. P., M. B. Hugdahl, M. Tu Chang, and J. T. Beery. 1982. Serological relatedness of mouse-virulent Yersinia enterocolitica. *Infect. Immun.* 37:1234-1240.
22. Doyle, M. P., and D. J. Roman. 1982. Prevalence and survival of Campylobacter jejuni in unpasteurized milk. *Appl. Environ. Microbiol.* 44:1154-1158.
23. Doyle, M. P., and M. B. Hugdahl. 1983. Improved procedure for recovery of Yersinia enterocolitica from meats. *Appl. Environ. Microbiol.* 45:127-135.
24. Doyle, M. P. 1983. Effect of carbon dioxide on toxin production by Clostridium botulinum. *Eur. J. Appl. Microbiol. Biotechnol.* 17:53-56.
25. Koidis, P., and M. P. Doyle. 1983. Survival of Campylobacter jejuni in presence of bisulfite and different atmospheres. *Eur. J. Clin. Microbiol.* 2:384-388.
26. Koidis, P., and M. P. Doyle. 1983. Survival of Campylobacter jejuni in fresh and heated red meat. *J. Food Prot.* 46:771-774.
27. Chang, M. T., and M. P. Doyle. 1984. Identification of specific outer membrane polypeptides associated with virulent Yersinia enterocolitica. *Infect. Immun.* 43:472-476.
28. Koidis, P., and M. P. Doyle. 1984. Procedure for increased recovery of Campylobacter jejuni from inoculated unpasteurized milk. *Appl. Environ. Microbiol.* 47:455-460.
29. Doyle, M. P. 1984. Association of Campylobacter jejuni with laying hens and eggs. *Appl. Environ. Microbiol.* 47:533-536.

30. Kovats, S. K., M. P. Doyle, and N. Tanaka. 1984. Evaluation of microbiological safety of tofu. *J. Food Prot.* 47:618-622.
31. Chang, M. T., J. Schink, J. Shimaoka, and M. P. Doyle. 1984. Comparison of three tests for virulent Yersinia enterocolitica. *J. Clin. Microbiol.* 20:589-591.
32. Doyle, M. P., and J. L. Schoeni. 1984. Survival and growth characteristics of Escherichia coli associated with hemorrhagic colitis. *Appl. Environ. Microbiol.* 48:855-856.
33. Beery, J. T., M. P. Doyle, and N. A. Higley. 1984. Cytotoxic activity of Escherichia coli O157:H7 culture filtrate on the mouse colon and kidney. *Curr. Microbiol.* 11:335-342.
34. Beery, J. T., M. P. Doyle, and J. L. Schoeni. 1985. Colonization of chicken ceca by Escherichia coli associated with hemorrhagic colitis. *Appl. Environ. Microbiol.* 49:310-315.
35. Tanaka, N., S. K. Kovats, J. A. Guggisberg, L. M. Meske, and M. P. Doyle. 1985. Evaluation of the microbiological safety of tempeh made with unacidified soybeans. *J. Food Prot.* 48:438-441.
36. Tanaka, N., S. K. Kovats, J. A. Guggisberg, L. M. Meske, and M. P. Doyle. 1985. Evaluation of the bacteriological safety of low-salt miso. *J. Food Prot.* 48:435-437.
37. Tanaka, N., L. M. Meske, M. P. Doyle, E. Traisman, D. W. Thayer, and R. W. Johnston. 1985. Plant trials of bacon made with lactic acid bacteria sucrose and lowered sodium nitrite. *J. Food Prot.* 48:679-686.
38. Tanaka, N., N. M. Gordon, R. C. Lindsay, L. M. Meske, M. P. Doyle, and E. Traisman. 1985. Sensory characteristics of reduced nitrite bacon manufactured by Wisconsin process. *J. Food Prot.* 48:687-692.
39. Stern, N. J., M. P. Hernandez, L. Blankenship, K. E. Deibel, S. Doores, M. P. Doyle, H. Ng, M. D. Pierson, J. N. Sofos, W. H. Sveum, and D. C. Westhoff. 1985. Prevalence and distribution of Campylobacter jejuni and Campylobacter coli in retail meats. *J. Food Prot.* 48:595-599.
40. Harris, A. A., R. L. Kaplan, L. J. Goodman, M. Doyle, W. Landau, J. Segreti, K. Mayer, and S. Levin. 1985. Results of a twelve month stool survey for Escherichia coli O157:H7 - Use of a screening method. *J. Infect. Dis.* 152:775-777.
41. Doyle, M. P., L. M. Meske, and E. H. Marth. 1985. Survival of Listeria monocytogenes during the manufacture and storage of nonfat dry milk. *J. Food Prot.* 48:740-742.
42. Ryser, E. T., E. H. Marth, and M. P. Doyle. 1985. Survival of Listeria monocytogenes during manufacture and storage of cottage cheese. *J. Food Prot.* 48:746-750.
43. Doyle, M. P., and J. L. Schoeni. 1986. Selective enrichment procedure for isolation of Listeria monocytogenes from fecal and biologic specimens. *Appl. Environ. Microbiol.* 51:1127-1129.

44. Doyle, M. P., and J. L. Schoeni. 1986. Isolation of Campylobacter jejuni from retail mushrooms. *Appl. Environ. Microbiol.* 51:449-450.
45. Padhye, V. V., F. B. Kittell, and M. P. Doyle. 1986. Purification and physicochemical properties of a unique Vero cell cytotoxin from Escherichia coli O157:H7. *Biochem. Biophys. Res. Commun.* 139:424-430.
46. Doyle, M. P., and J. L. Schoeni. 1987. Comparison of procedures for isolating Listeria monocytogenes in soft, surface-ripened cheese. *J. Food Prot.* 50:4-6.
47. Padhye, V. V., J. T. Beery, F. B. Kittell, and M. P. Doyle. 1987. Colonic hemorrhage produced in mice by a unique Vero cell cytotoxin from an Escherichia coli strain that causes hemorrhagic colitis. *J. Infect. Dis.* 155:1249-1253.
48. Doyle, M. P., K. A. Glass, J. T. Beery, G. A. Garcia, D. J. Pollard, and R. D. Schultz. 1987. Survival of Listeria monocytogenes in milk during high-temperature, short-time pasteurization. *Appl. Environ. Microbiol.* 53:1433-1438.
49. Doyle, M. P., and J. L. Schoeni. 1987. Isolation of Escherichia coli O157:H7 from retail fresh meats and poultry. *Appl. Environ. Microbiol.* 53:2394-2396.
50. Doyle, M. P. 1988. Effect of environmental and processing conditions on Listeria monocytogenes. *Food Technol.* 42(4):169-171.
51. Johnson, J. L., M. P. Doyle, R. G. Cassens, and J. L. Schoeni. 1988. Fate of Listeria monocytogenes in tissues of experimentally infected cattle and in hard salami. *Appl. Environ. Microbiol.* 54:497-501.
52. Johnson, J. L., M. P. Doyle, and R. G. Cassens. 1988. Survival of Listeria monocytogenes in ground beef. *Int. J. Food Microbiol.* 6:243-247.
53. Hugdahl, M. B., J. T. Beery, and M. P. Doyle. 1988. Chemotactic behavior of Campylobacter jejuni. *Infect. Immun.* 56:1560-1566.

Patents

1. Doyle, M. P. and N. Padhye. Issued December 1, 1992. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. (USA) Patent No. 5,168,063.
2. Doyle, M. P. and J. L. Schoeni. Issued April 12, 1994. Control of Campylobacter jejuni colonization. (USA) Patent No. 5,302,388.
3. Doyle, M. P. and N. V. Padhye. Issued October 11, 1994. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11 and method for detection. (USA) Patent No. 5,354,661.
4. Doyle, M. P. and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. European Patent Application No. 494,293 (Europe, Italy, Belgium, Great Britain, Switzerland).
5. Doyle, M. P., and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. Germany Patent No. 69128463.6.

6. Doyle, M. P., and N. V. Padhye. Issued September 18, 1998. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Korea Patent No. 165691.
7. Doyle, M. P., and N. V. Padhye. Issued December 13, 1994. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Australia Patent No. 652172.
8. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued October 12, 1999. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (USA) Patent No. 5,965,128.
9. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued July 19, 2001. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Australia) Patent No. 735914.
10. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued January 10, 2002. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (New Zealand) Patent No. 502420.
11. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued November 5, 2003. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (China) Patent No. ZL 98808111.3.
12. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued August 31, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Korea) Patent No. 044-7903.
13. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued June 29, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Mexico) Patent No. 221178.
14. Doyle, M. P., and M. D. Danyluk. Issued April 22, 2008. Probiotic bacteria. (USA). Patent No. 7361497.
15. Doyle, M. P. and T. Zhao. Issued August 18, 2009. Composition and method for inhibition of microorganisms. (USA). Patent No. 7575744. Ser No. 12/541/606.
16. Doyle, M. P., and T. Zhao. Issued 2009. Composition and method for inhibition of microorganisms (Europe). European Patent No. 11570047.
17. Doyle, M. P., G. Zhang, and L. Ma. Issued June 29, 2010. Composition and method for inhibiting *Salmonella* and *Campylobacter* colonization in poultry. (USA). Patent No. 7744868.
18. Doyle, M. P., and T. Zhao. Filed May 21, 2009. Antimicrobial composition and use. (International) (PCT International Serial No. PCT/US2009/044815).
19. Zhao, T., M. Doyle, and R. Walcott. (Filed March 17, 2010). Treatment for Alfalfa Seeds and Sprouts. (U.S. Provisional Application No. 61/314,922).

20. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 23, 2010). Efficacy of a novel antimicrobial solution against phytopathogenic bacteria, and feasibility as a vegetable seed treatment. (U.S. Provisional Application No. 61/316,582).
21. Doyle, M. P., and T. Zhao. (Filed February 23, 2011). Skin Cleanser. Provisional Assignment Serial No. 61/445,686.
22. Doyle, M. P., and T. Zhao. (Filed February 24, 2011). Antimicrobial Composition and Use (U.S. Provisional Patent Application 61/446082.) (Patent App. Ser. No. 12/811,560)
23. Doyle, M.P., and T. Zhao. (Filed September 16, 2011). Chlorine-Free Water Treatment. Patent Application Serial No. 13/234,286.
24. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 9, 2011). Antimicrobial Treatment for Seeds and Sprouts. International Patent Application PCT/US11/277719.
25. Doyle, M. P., and T. Zhao. (Filed December 1, 2011). Compositions for Oral and Nasal Hygiene. Patent Application No. PCT/US2011/62844.
26. Doyle, Michael P. and Tong Zhao. (Filed February 13, 2012). Control of Enterohemorrhagic E. coli in Farm Animal Drinking Water. Serial No. 13/371,542.
27. Doyle, Michael and Tong Zhao. (Filed January 17, 2012). Chlorine-Free Liquid Microbicide Treatment. Serial No. 13/351,477.
28. Doyle, Michael P. and Tong Zhao. (Granted September 28, 2011) (South African Patent No. 2010/04796). Antimicrobial Composition and Use.
29. Cannon, Jennifer L., Michael Patrick Doyle, and Tong Zhao. (Filed January 13, 2012). Ser. No. 13/350,315. Viricidal and Microbicidal Compositions and Uses Thereof. Utility Patent Application.
30. Doyle, Michael P. and Tong Zhao. European Patent Application No. 09763203.8, Antimicrobial Composition and Use, (filed May 21, 2009). UGARF No. 1407.
31. Doyle, Michael P. and Tong Zhao. (Issued May 14, 2013). Composition and method for inhibition of microorganisms. Patent No. 8440448.
32. Doyle, Michael P. and Tong Zhao. Serial No. 13/363,455 Antimicrobial Composition and Use as Food treatment. Supplemental Amendment and Declaration, filed February 1, 2013.
33. Doyle, Michael P. and Tong Zhao. Issued May 13, 2014. C+Antimicrobial Composition and Use as Food Treatment. (USA). Patent No. 8,722,123.

License Agreements

Doyle, Michael P. and Tong Zhao. 2014. A Monoclonal Antibody That Binds Surface Non-fraction 1 Antigen of *Yersinia pestis*. License Agreement with UGARF and KeraFAST, Inc. May 6.

Chapters in Books

1. Doyle, M. P. 1984. Campylobacter in foods. pp. 163-180. In J. P. Butzler (ed.). Campylobacter infection in man and animals. CRC Press, Inc., Boca Raton, FL.
2. Doyle, M. P., N. J. Stern, R. M. Twedt, G. N. Stelma, and G. K. Morris. 1984. Gram-negative bacteria as potential foodborne disease agents. pp. 117-131. In Second National Conference for Food Protection. Food and Drug Administration, Washington, DC.
3. Doyle, M. 1985. Food poisoning. In McGraw-Hill Encyclopedia of Science and Technology, 6th ed. McGraw-Hill, New York.
4. Doyle, M. P. 1985. Foodborne pathogens of recent concern. Annu. Rev Nutr. 5:25-41.
5. Hugdahl, M. B., and M. P. Doyle. 1985. Chemotactic behavior of Campylobacter jejuni. p. 143. In A. D. Pearson, M. B. Skirrow, H. Lior, and B. Rowe (eds.). Campylobacter III. Public Health Laboratory Service, London.
6. Doyle, M. P. 1986. Detection and quantitation of foodborne pathogens and their toxins: gram-negative bacterial pathogens. pp. 317-344. In M. D. Pierson, and N. J. Stern (eds.). Foodborne microorganisms and their toxins - Developing methodology. Marcel Dekker, New York.
7. Cliver, D. O., and M. P. Doyle. 1987. Concerns about foodborne viral gastroenteritis and Listeria monocytogenes. pp. 157-161. In C. W. Felix (ed.) Food protection technology. Lewis Publishers, Inc., Chelsea, MI.
8. Doyle, M. P., and V. V. Padhye. 1989. Escherichia coli. pp. 235-281. In M. P. Doyle (ed.) Foodborne bacterial pathogens. Marcel Dekker, New York.
9. Lammerding, A. M., and M. P. Doyle. 1990. Stability of Listeria monocytogenes to non-thermal processing conditions. Chapter 28, p. 195-202. In A. J. Miller, J. L. Smith and G. A. Somkuti (eds.) Foodborne listeriosis, Topics in Industrial Microbiology 2. Elsevier Scientific Publishers, Amsterdam.

10. Doyle, M. P. 1990. Campylobacter jejuni. Chapter 14, p. 217-222. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
11. Doyle, M. P. 1990. Shigella. Chapter 12, p. 205-208. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
12. Doyle, M. P., and D. O. Cliver. 1990. Salmonella. Chapter 11, p. 185-204. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
13. Doyle, M. P., and D. O. Cliver. 1990. Yersinia enterocolitica. Chapter 15, p. 223-228. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
14. Doyle, M. P., and D. O. Cliver. 1990. Escherichia coli. Chapter 13, p. 209-215. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
15. Doyle, M. P., and D. O. Cliver. 1990. Vibrio. Chapter 17, p. 241-245. In D. O. Cliver (ed.) Foodborne diseases. Academic Press, New York.
16. Doyle, M. P. 1991. Colonization of chicks by Campylobacter jejuni. p. 121-131. In L. C. Blankenship (ed.) Colonization control of human bacterial enteropathogens in poultry. Academic Press, San Diego.
17. Bille, J., and M. P. Doyle. 1991. Listeria and Erysipelothrix, Chapter 32, p. 287-295. In A. Balows, W. J. Hausler, Jr., K. L. Herrmann, H. D. Isenberg, and H. J. Shadimy (eds.) Manual of clinical microbiology, 5th ed. American Society for Microbiology, Washington, DC.
18. Doyle, M. P., and E. H. Marth. 1991. Food safety issues in biotechnology, Chapter 4, p. 55-65. In B. R. Baumgardt and M. A. Martin (eds.) Agricultural biotechnology--Issues and choices. Purdue University Agricultural Experiment Station, West Lafayette, IN.
19. Luchansky, J. B., and M. P. Doyle. 1991. Behavior and control of Listeria monocytogenes in meats. p. 105-114. In A. Amgar (ed.) Proceedings of the International Conference on Listeria and Food Safety. ASEPT, Laval, France.
20. Doyle, M. P. 1991. Pathogenic Escherichia coli, Yersinia enterocolitica, and Vibrio parahaemolyticus. p. 77-85. In W. M. Waites and J. P. Arbuthnott (eds.) Foodborne illness - A Lancet review. Edward Arnold, London.
21. Doyle, M. 1992. Food poisoning. p. 315. In McGraw-Hill Encyclopedia of Science and Technology, 7th ed. McGraw-Hill, New York.
22. Stern, N. J., C. M. Patton, M. P. Doyle, C. E. Park, and B. A. McCardell. 1992. Campylobacter. Chapter 29. pp. 475-495. In C. Vanderzant and D. F. Splittstoesser (eds.) Compendium of methods for the microbiological examination of foods, 3rd ed. American Public Health Association, Washington, DC.

23. Doyle, M. P., and D. M. Jones. 1992. Foodborne transmission and antibiotic resistance of Campylobacter jejuni. Chapter 5, p. 45-48. In I. Nachamkin, M. J. Blaser, and L. S. Tompkins (eds.) Campylobacter jejuni: Current status and future trends. American Society for Microbiology, Washington, DC.
24. Junkins, A. D. and M. P. Doyle. 1993. Enterobacteriaceae: Escherichia coli - Food poisoning. pp. 1618-1622. In Encyclopedia of Food Science, Food Technology, and Nutrition. Academic Press, London.
25. Doyle, M. P., and N. V. Padhye. 1993. One-day procedure for detecting Escherichia coli O157:H7 in foods. p. 53-65. In E. C. D. Todd and J. M. MacKenzie (eds.) Proceedings of a Workshop on Methods to Isolate E. coli O157:H7 and Other Verotoxigenic Organisms from Foods, Polyscience Publications and Canada Communication Group - Publishing, Supply and Services Canada, Ottawa.
24. Junkins, A. D. and M. P. Doyle. 1993. Enterobacteriaceae: Escherichia coli - Food poisoning. pp. 1618-1622. In Encyclopedia of Food Science, Food Technology, and Nutrition. Academic Press, London.
25. Doyle, M. P., and N. V. Padhye. 1993. One-day procedure for detecting Escherichia coli O157:H7 in foods. p. 53-65. In E. C. D. Todd and J. M. MacKenzie (eds.) Proceedings of a Workshop on Methods to Isolate E. coli O157:H7 and Other Verotoxigenic Organisms from Foods, Polyscience Publications and Canada Communication Group - Publishing, Supply and Services Canada, Ottawa.

Christine D. Fischer	1989-1990
Kim Zinski	1989-1991
Cheryl Nortman	1989-1991
Joseph Brunner	1989-1991
Patrick Ford	1989-1991
Roger Fons	1989-1992
Timothy Tibbetts	1989-1991
Jill Dressler	1990-1991
Joy Free	1990
Jason Demeny	1990
Dan Mielke	1990-1991
Tim Harried	1990-1991
Kathy Edge	1990-1991
Linda Moore	1990-1991
Melissa Poulter	1990-1991
Chris Torhorst	1985 - 1989

Member, University of Georgia Graduate Faculty, 1991-98; 1998-2000, 2005-2012; 2012-2019.

Graduate Students

1. Mary B. Hugdahl, M.Sc. (Food Science, UW-Madison) 1986.
2. David J. Thomas, M.Sc. (Food Science, UW-Madison) 1988.
3. Jennifer L. Johnson, Ph.D. (Food Science and Meat and Animal Science, UW-Madison) 1989.
4. Ratih Dewanti, M.Sc. (Food Science, UW-Madison) 1990.
5. Anna M. Lammerding, Ph.D. (Food Science, UW-Madison) 1991.
6. Alan D. Junkins, Ph.D. (Bacteriology, UW-Madison) 1991.
7. Risini D. Weeratna, M.Sc. (Bacteriology, UW-Madison) 1991.
8. Nisha V. (Kulkarin) Padhye, Ph.D. (Food Science, UW-Madison) 1991.
9. Chorng-Meng Chang, Ph.D. (Food Science, UW-Madison) 1993.
10. Guodong Wang, Ph.D. (Food Science, UGA) 1996.
11. Mei Yang, M.Sc. (Food Science, UGA), 2002.
12. Michelle Danyluk, M.Sc. (Food Science, UGA), 2002.
13. Dong Chen, Ph.D. (Food Science, UGA), 2012.

Graduate Student Committees

	<u>Major Advisor</u>	<u>Committee Member</u>
Scott Russell - Ph.D.		X
Jitu Patel - Ph.D.		X
Guodong Wang - Ph.D.	X	
Lakshmi Sathyanarayanan- M.Sc.		X
Manan Sharma - M.Sc.		X
Yang Hong - Ph.D.		X
Mei Yang - M.Sc.	X	
Michelle Danyluk - M.Sc.	X	
Geraldine Miriam Saavedra Ebner - M.Sc.		X

Postdoctoral Associates

1. Ming-Tu Chang, 1981-1984
2. Dana Wiseman, 1983-1985
3. Vikas Padhye, 1984-1989
4. Sulekha Chaudhuri, 1985-1988
5. Mi Sun Kim, 1989-1991
6. Jianghong Meng, 1992-1996
7. C.-A. Hwang, 1992-1993
8. Shaohua Zhao, 1993-1996
9. Ping Zhao, 1993-
10. Kumara S. Venkitanarayanan, 1996-1999
11. Xiuping Jiang, 1996-2001
12. Fone Mao Wu (Collaborative Assignment with the Centers for Disease Control and Prevention), 1998- 2002
13. Mahbubul Islam, 1999-2003
14. Ying Mao, 1999-2001
15. Li Ma, 1999-2009
16. Chia Min Lin, 1999-2004
17. Guodong Zhang, 2000-2008
18. Kazue Takeuchi, 2000-2002
19. Nutan Mytle, 2001-2004
20. Larry Goodridge, 2002
21. Lei Zhang, 2003-2004
22. Zhinong Yan, 2003-2004
23. Cathy Webb, 2007-

Scientists

1. Pavlos Koidis, Aristotelian University of Tessaloniki, Greece, 1982-1983
2. John T. Beery, University of Wisconsin-Madison, 1983-1989
3. Nobumasa Tanaka, University of Wisconsin-Madison, 1983
4. Nancy Higley, 1984
5. Tong Zhao, Beijing Institute of Chest Tumour & Tuberculosis, China, 1987-2009
6. Jaana (Junttila) Husu, National Veterinary Institute, Helsinki, Finland, 1988

7. Gulum Rusul, University of Pertanian Malaysia, Serdang, Malaysia, 1993-94
8. Ricardo Rodriguez, Instituto Nacional de Tecnologia Agropecuaria, Buenos Aires, Argentine, 1998
9. Virginia Montero Campos, Instituto Tecnológico de Costa Rica, 2002
10. Anne-Laure Dinel, Institut des Sciences et techniques des Aliments de Bordeaux, Talence, France, 2003
11. Mohamed Hegazy, Zagazig University, Zagazig, Egypt, 2008-2009
12. Ali Aydin, Istanbul University, Istanbul, Turkey, 2009-2010
13. Mohamed Tharwat, Zagazig University, Egypt, 2011
14. Cagatay Celik, Ankara, Turkey, 2012-2013.

INVITED SEMINARS and RESEARCH PRESENTATIONS

Invited seminar - Department of Food Science, University of Wisconsin-Madison, February 26, 1980.
Production of mushrooms for the fresh market.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 67th Annual Meeting, Spokane, WA, July 30, 1980. Campylobacteriosis and yersiniosis: Food-associated illnesses of recent concern.

Keynote lecture - Wisconsin Laboratory Association, Southern Regional Meeting, Madison, WI, September 4, 1980. Producing mushrooms for the fresh market.

Research paper - Wisconsin Section of the Institute of Food Technologists, Madison, WI, November 14, 1980. Antibotulinal properties of long-chain polyphosphates.

Invited paper - Institute of Food Technologists, 41st Annual Meeting, Atlanta, GA, June 9, 1981. Chemical, physical, and biological degradation of mycotoxins in foods and agricultural commodities.

Invited seminar - Department of Bacteriology, University of Wisconsin-Madison, February 18, 1982. Serological relatedness of virulent Yersinia enterocolitica.

Invited paper - American Society for Microbiology, 82nd Annual Meeting, Atlanta, GA, March 10, 1982. Effects of environmental factors on the destruction of Campylobacter jejuni in food-related systems.

Invited seminar - Environmental Toxicology 875, University of Wisconsin-Madison, March 31, 1982. Virulence of Yersinia enterocolitica.

Invited paper - Wisconsin Association of Milk and Food Sanitarians Educational Conference, Madison, WI, September 2, 1982. Campylobacter - The "new" foodborne pathogen.

Invited paper - Central States Association of Food and Drug Officials Spring Meeting, Madison, WI, October 8, 1982. Campylobacter - The "new" foodborne pathogen.

Invited paper - United States-Japan Joint Panel on Toxic Microorganisms, University of Wisconsin-Madison, October 20, 1982. Recovery of Campylobacter jejuni from foods by selective enrichment.

Invited seminar - Department of Microbiology, Cornell University, October 28, 1982. Yersinia enterocolitica and Campylobacter jejuni: Two recently recognized food-associated pathogens.

Keynote speaker - Wisconsin Laboratory Association, University of Wisconsin-River Falls, December 8, 1982. Foodborne pathogens of emerging significance - An overview.

Invited seminar - Best Foods Research and Engineering Center, Research Update, Union, NJ, January 13, 1983. Foodborne bacterial pathogens of emerging significance.

Invited seminar - A.B.C. Research Corporation, 9th Annual Technical Seminar, Gainesville, FL, February 22, 1983. Pathogenic Escherichia coli.

Invited paper - Association of Official Analytical Chemists, 1983 Spring Workshop, Indianapolis, IN, April 20, 1983. Recovery of Campylobacter jejuni from foods.

Invited seminar - McDonald's Corporation, Quality Assurance Meat Suppliers Meeting, St. Charles, IL, April 26, 1983. Pathogenic Escherichia coli and their association with foods.

Invited lecture - College Week for Women, University of Wisconsin-Madison, June 2, 1983. Safety of mayonnaise in foods.

Invited paper - Institute of Food Technologists 1983 Short Course on Practical Food Safety Assurance, New Orleans, LA, June 22, 1983. Changing patterns in outbreaks of foodborne disease.

Invited paper - 1983 Summer Toxicology Forum, Aspen, CO, July 1, 1983. New bacterial agents - Nature, importance and regulatory status: Campylobacter jejuni and pathogenic Escherichia coli.

Invited paper - Minnesota Sanitarian's Conference, University of Minnesota, St. Paul, September 15, 1983. Significance of emerging pathogens in foods.

Invited paper - Association of Official Analytical Chemists, 97th Annual Meeting, Washington, DC, October 4, 1983. Rapid enrichment and serological detection of virulent Yersinia enterocolitica in food.

Invited paper - 9th Food Microbiology Research Conference, Chicago, IL, November 2, 1983. Recent developments in pathogens of current interest - Campylobacter jejuni.

Invited paper - Annual Meeting of the Food and Nutrition Liaison Committee of the Nutrition Foundation, Naples, FL, January 19, 1984. Emerging microbiological issues.

Invited paper and consultant - World Health Organization Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, Moscow, U.S.S.R., February 20-22, 1984. Rapid methods for detection of Campylobacter jejuni in food animals and food of animal origin.

Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Hemorrhagic Escherichia coli - Studies in foods.

Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Regulation and expression of surface peptides in Yersinia enterocolitica.

Invited paper - National Restaurant Association's Quality Assurance Officers Meeting, Washington, DC, May 9, 1984. Newly recognized food-associated bacterial pathogens.

Invited white papers - National Conference for Food Protection, Washington, DC, May 9-11, 1984. Campylobacter jejuni and pathogenic Escherichia coli.

Invited paper - Institute of Food Technologists, 44th Annual Meeting, Anaheim, CA, June 11, 1984. Procedures for recovery of campylobacters from foods.

Invited paper and workshop leader - Association of Official Analytical Chemists Pacific Northwest Regional Section Meeting, Olympia, WA, June 21-22, 1984. Campylobacter, Yersinia, and hemorrhagic Escherichia coli.

Invited paper - International Association of Milk, Food, and Environmental Sanitarians, 71st Annual Meeting, Edmonton, Alberta, Canada, August 8, 1984. Hemorrhagic Escherichia coli.

Invited paper - U.S.-China Renewable Resources Conference, Organized by National Academy of Sciences (USA), St. Louis, MO, October 11-13, 1984. Foodborne pathogens of recent concern in the United States.

Invited paper - Kraft Limited, Cheese Technology Round Table meeting, Montreal, Quebec, Canada, October 18-19, 1984. New developments - Pathogens in raw milk: Listeria and Yersinia.

Invited paper - Wisconsin Section of the Institute of Food Technologists, Pewaukee, WI, November 30, 1984. Newly recognized bacterial pathogens of significance to the food industry: Hemorrhagic Escherichia coli.

Invited paper - U.S. Department of Agriculture - Food Safety and Inspection Service, Continuing Education Program, Madison, WI, December 8, 1984. Foodborne pathogens of enteric origin that contaminate carcasses and processed products from fecal contamination.

Invited paper - University of Missouri, Columbia, MO, Microbiological Applications in the Food Industry Conference, February 7, 1985. Foodborne pathogens of recent concern.

Invited white paper - National Live Stock and Meat Board, Chicago, IL, February 15, 1985. Microbiological safety concerns in handling and cooking red meat in the home.

Invited paper - American Society for Microbiology, Workshop on Campylobacters, Las Vegas, NV, March 2-3, 1985. Campylobacters in foods.

Invited paper - American Society for Microbiology, 85th Annual Meeting, Las Vegas, NV, March 5-8, 1985. Foodborne pathogens of recent concern: Colohemorrhagic Escherichia coli.

Invited paper - Association of Official Analytical Chemists, 10th Annual Spring Workshop, Dallas, TX, April 9-11, 1985. Microbiology of emerging foodborne pathogens: Yersinia enterocolitica - virulent or avirulent.

Invited paper - Institute of Food Technologists, Basic Symposium, Atlanta, GA, June 7-8, 1985.
Microorganisms and their toxins - Developing methodology: Gram-negative pathogens.

Invited papers - Association of Food and Drug Officials, 1985 Conference and Workshop, Madison, WI, June 19, 1985. An update on foodborne pathogens, and advances in methodology in detection of foodborne pathogens.

Invited paper and session chairman - Third International Workshop on Campylobacter Infections, Ottawa, Ontario, July 7-10, 1985. Chemotactic behavior of Campylobacter jejuni.

Invited paper - National Association of State Meat and Food Inspection Directors and American Association of Food Hygiene Veterinarians, Milwaukee, WI, October 30-31, 1985. Pathogenicity of Campylobacter and colohemorrhagic Escherichia coli.

Invited paper - A.B.C. Research Corporation, 12th Annual Technical Seminar, Gainesville, FL, February 25-26, 1986. Listeria and Campylobacter in foods.

Invited paper - American Society for Microbiology, 86th Annual Meeting, Washington, DC, March 23-28, 1986. Campylobacter in foods - Colonization of animals.

Invited paper - General Foods Corporation, Quality Assurance Supervisors Meeting, Madison, WI, April 23, 1986. Foodborne pathogens of recent concern.

Invited seminar - Department of Food Science and Human Nutrition, Michigan State University, April 25, 1986. Newly recognized Escherichia coli responsible for hemorrhagic colitis.

Invited paper - Michigan Branch of the American Society for Microbiology, Spring Meeting, Livonia, MI, April 26, 1986. Foodborne pathogens of recent concern: Listeria monocytogenes and Escherichia coli O157:H7.

Invited paper - Chicago Section of the Institute of Food Technologists, 1986 Fred W. Tanner Lecture, Chicago, IL, May 12, 1986. Newly recognized harmful bacteria associated with foods.

Invited seminar - Department of Food Science, University of Illinois, May 13, 1986. Foodborne pathogens of emerging significance.

Invited paper - Universal Foods Corporation, Quality Assurance Directors Meeting, Baltimore, MD, May 21-22, 1986. Food-related microbiological problems of current interest.

Invited paper - 39th Reciprocal Meat Conference, University of Illinois, June 9, 1986. Emerging foodborne pathogens.

Invited paper - Canadian Institute of Food Science and Technology Microbiology Symposium, 29th Annual Conference, Calgary, Alberta, June 29-30, 1986. Status of haemorrhagic Escherichia coli and Listeria monocytogenes in foodborne illness.

Invited paper - Beatrice U.S. Food Corporation, Dairy Division Executives and Quality Assurance Directors Meeting, Chicago, IL, July 21, 1986. Recent concerns about Listeria monocytogenes.

Invited paper - American Society of Animal Science, 1986, Annual Meeting, Kansas State University, Manhattan, July 31, 1986. Meat-associated bacterial pathogens of recent concern.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 73rd Annual Meeting, Minneapolis, MN, August 6, 1986. Comparison of methods for detecting Listeria monocytogenes in foods.

Invited paper - Poultry Science Association, 75th Annual Meeting, North Carolina State University, Raleigh, August 7, 1986. Colonization of poultry by Campylobacter jejuni.

Invited paper - 1986 Conference for Food Protection, Microbiology Task Force, Ann Arbor, MI, August 17-20, 1986. Concerns about foodborne viral gastroenteritis and Listeria monocytogenes.

Invited presentation and topic leader - Dairy Research Foundation Research Review and Planning Meeting, Park City, VT, September 30-October 1, 1986. Listeria monocytogenes - Pasteurization.

Invited presentation - Wisconsin Dairy Leaders Program, University of Wisconsin, College of Agricultural and Life Sciences, Madison, WI, October 9, 1986. Listeria concerns and research.

Invited paper - Wisconsin Dairy Technology Society and Chicago Dairy Technology Society, Milwaukee, WI, October 9, 1986. Listeria and pasteurization.

Invited paper - Best Foods, Food and Nutrition Advisory Committee, Union, NJ, October 10, 1986. Food microbiology update.

Invited paper - Land O'Lakes Plant Supervisors' Good Manufacturing Practices Seminars, Minneapolis, MN, October 15 and 29, 1986. Foodborne bacterial pathogens.

Invited paper - Chocolate Manufacturers Association, Pennsylvania State University, State College, PA, October 16, 1986. Overview and update of Listeria monocytogenes.

Invited paper - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Listeria monocytogenes.

Keynote address - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Looking forward: microbiological issues in food safety.

Invited paper - Iowa Section of the Institute of Food Technologists, Cedar Rapids, IA, November 20, 1986. Listeria monocytogenes - A pathogen of recent concern.

Invited white paper - American Meat Institute, Washington, DC, December, 1986. Recent concerns about Listeria monocytogenes in food.

Invited paper - Wisconsin Dairy Products Association, Madison, WI, December 4, 1986. Raw facts about Listeria.

Invited paper - International Life Sciences Institute-Nutrition Foundation, Naples, FL, January 28, 1987. Microbiological issues in food safety: what lies ahead.

Invited paper - Dairy and Food Industry Conference, Ohio State University, Columbus, OH, February 12, 1987. Newer knowledge of Listeria.

Invited paper - University of Alberta, Department of Food Science, Edmonton, Alberta, Canada, February 16, 1987. Listeria monocytogenes- A foodborne pathogen of recent concern.

Invited paper - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, Atlanta, GA, March 1, 1987. Survival of L. monocytogenes in foods and sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - American Society for Microbiology, 87th Annual Meeting, Atlanta, GA, March 1-6, 1987. Current topics on foodborne pathogens: Listeria monocytogenes.

Invited paper - Emerging Pathogen Workshop, Tony's Pizza Service, Salina, KS, March 12, 1987. Emerging pathogens.

Invited paper - GENE TRAK Systems, Framingham, MA, March 17, 1987. The emergence of Listeria monocytogenes as a foodborne pathogen.

Invited paper - Cheese Research and Technology Conference, University of Wisconsin, Madison, WI, March 26, 1987. Survival and detection of Listeria monocytogenes.

Invited white paper - Kraft Incorporated, Glenview, IL, April, 1987. Listeria monocytogenes.

Invited paper - Finnish Food Research Foundation, Seminar on Pathogenic Microorganisms in Foods, Helsinki, Finland, April 24, 1987. Listeria monocytogenes - Epidemiology, prevalence in foods, and control by food processing.

Invited moderator and panelist - Grocery Manufacturers' of America, Panel Discussion on Emerging Microbiological Issues, Washington, DC, May 7, 1987.

Invited lectures - University of Wisconsin - Department of Food Science, Wisconsin Food Microbiological Control School (for Food and Drug Administration Inspectors), Madison, WI, May 12, 1987. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, and Shigella.

Invited paper - Central Atlantic States Association of Food and Drug Officials Annual Conference, Baltimore, MD, May 21, 1987. Listeria - Another viewpoint.

Invited lecture - East Madison Optimist Club, Monona, WI, June 10, 1987. Food poisoning in the United States.

Invited paper - Institute of Food Technologists, 87th Annual Meeting, Las Vegas, NV, June 18, 1987. Survival characteristics of Listeria monocytogenes during processing.

Invited paper - American Dairy Science Association, 82nd Annual Meeting, Columbia, MO, June 22, 1987. Symposium: Problems of pathogenic bacteria in the dairy industry. Detection, isolation, and identification of Listeria monocytogenes, Campylobacter jejuni, and Yersinia enterocolitica.

Invited paper - Association of Official Analytical Chemists, Pacific Northwest Regional Meeting, Olympia, WA, June 26, 1987. Listeria in dairy and other products.

Invited session convener and paper - International Symposium and Workshop on Verocytotoxin-Producing Escherichia coli (VTEC) Infections, Toronto, Ontario, Canada, July 13, 1987. Isolation of Escherichia coli O157:H7 from retail fresh meats and poultry.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 74th Annual Meeting, Anaheim, CA, August 5, 1987. Symposium: Listeria and emerging food pathogens. Update on emerging pathogens in foods.

Invited paper - Meat Industry Research Conference, American Meat Industry, Chicago, IL, October 7, 1987. Low temperature pathogens.

Invited paper - Great Lakes Section of the Institute of Food Technologists Workshop on "Current Challenges in Food Safety," Lansing, MI, October 15, 1987. From Campylobacter to Listeria - The emergence of newly recognized pathogens.

Invited paper - Chapter 15 Food Service Executive Board Meeting, Madison, WI, October 19, 1987. Food poisoning, food sanitation, and proper food handling.

Invited white paper - Kraft Incorporated, Glenview, IL, October, 1987. Campylobacter jejuni.

Invited paper - Food Microbiology Research Conference, Chicago, IL, November 4, 1987. Hemorrhagic Escherichia coli.

Invited paper - Lake Erie Section of the Institute of Food Technologists, Cleveland, OH, November 10, 1987. The emergence of newly recognized foodborne pathogens.

Invited paper - Ohio Dairy Processors meeting, Dairy & Nutrition Council (Mid East), Akron, OH, November 11, 1987. Listeria monocytogenes: A major concern of the dairy industry.

Invited papers - Workshops in Clinical Lab Sciences, St. Luke's Hospital Center, New York, NY, November 20, 1987. (1) An overview of foodborne disease; and (2) Listeria monocytogenes - a foodborne pathogen of recent concern.

Invited papers - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, San Diego, CA, December 4, 1987. (1) Survival and growth of Listeria monocytogenes in foods and (2) Sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Workshop on Listeria Methodologies, Washington, DC, February 5, 1988. Efficacy of enrichment procedures for detecting Listeria monocytogenes in dairy products.

Invited paper - World Health Organization, Working Group Meeting on Foodborne Listeriosis, Geneva, Switzerland, February 15-19, 1988. Thermal inactivation of Listeria monocytogenes in foods.

Invited paper - Ohio Valley Section of the Institute of Food Technologists, Cincinnati, OH, March 10, 1988. From Campylobacter to Listeria - Recent concerns about foodborne pathogens.

Invited lecture - Kroger Company, Cincinnati, OH, March 11, 1988. Update on Listeria monocytogenes and Escherichia coli O157:H7.

Invited lecture - American Frozen Food Institute, March 16, 1988. Is Listeria monocytogenes a concern in frozen foods?

Invited lectures - University of Wisconsin-Department of Food Science, Wisconsin Food Microbiological Control School for Food and Drug Administration Inspectors, Madison, WI, April 20, 1988. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, Shigella.

Invited seminar - University of Arizona-Department of Family and Community Medicine, Graduate Seminar on Nutritional Sciences, April 22, 1988. The emergence of newly recognized foodborne pathogens.

Invited paper - American Society for Microbiology, Workshop on Salmonella spp. and Campylobacter jejuni Associated with Foods, Miami Beach, FL, May 7-8, 1988. Isolation, identification and inactivation of Campylobacter jejuni.

Invited paper - American Society for Microbiology, 88th Annual Meeting, Miami Beach, FL, May 10, 1988. Natural and experimental transmission of Listeria in cattle.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 75th Annual Meeting, Tampa, FL, August 3, 1988. Escherichia coli O157:H7--A problem in dairy products?

Invited lecture - Ohio State University, Department of Food Science, Columbus, OH, August 18, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Agriculture Canada, Animal Diseases Research Institute, Ottawa, Ontario, September 13, 1988. Virulence factors of Escherichia coli O157:H7 and method for its detection in foods.

Invited lecture - Wisconsin Laboratory Association, 12th Annual Educational Conference, September 15, 1988. Listeria update.

Invited lecture - Society for Industrial Microbiology, Comprehensive Conference on Listeria monocytogenes, Sonoma County, California, October 5, 1988. Stability of Listeria monocytogenes to non-thermal processing conditions.

Invited lecture - Sara Lee Corporation Meats Group Scientific Advisory Council, Holland, Michigan, October 11, 1988. Activities of the Food Research Institute.

Invited lecture - Central New York Section of the Institute of Food Technologists, Syracuse, NY, November 8, 1988. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - NutraSweet Company, Mt. Prospect, IL, November 21, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - University of Wisconsin-River Falls, Ninth Annual Food Microbiology Symposium, December 1, 1988. Significance, isolation, and characterization of Escherichia coli O157:H7.

Invited lectures - University of Wisconsin - Department of Food Science, Milk Pasteurization and Process Control School, Madison, WI, January 3, 1989. Microbiology of raw and pasteurized milk.

Invited lecture - Rocky Mountain Section of the Institute of Food Technologists, Denver, CO, February 16, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - Miles, Inc., Elkhart, IN, April 7, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - North Carolina State University - Department of Food Science, Raleigh, NC, May 3, 1989. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Carolina/Virginia Section of the Institute of Food Technologists, Charlotte, NC, May 4, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - GENE-TRAK Workshop, Los Angeles, CA, June 1, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - Institute of Food Technologists, 50th Annual Meeting, Chicago, IL, June 28, 1989. Bacterial foodborne pathogens of recent concern.

Invited lecture - State of Wisconsin, Regional Office - State Agency Training Conference, Madison, WI, July 12, 1989. Microbe menaces in food service.

Invited paper - American Dairy Science Association and American Society of Animal Science, Annual Meeting, Lexington, KY, August 1, 1989. Pathogens and spoilage bacteria of importance in new milk and meat products.

Invited white paper - American Meat Institute, Arlington, VA, September 6, 1989. Microbiological considerations in meat safety.

Invited participant and speaker - U.S. Department of Agriculture-ARS, Workshop on Colonization and Control of Human Enteropathogens in Poultry, Athens, GA, September 25-26, 1989. Colonization of chicks by Campylobacter jejuni.

Invited paper - International Symposium on Colonization Control of Human Enteropathogens in Poultry, Atlanta GA, September 29, 1989. Colonization of chicks by Campylobacter jejuni.

Invited lecture - American Society for Horticultural Science, Second International Symposium on Horticulture and Human Health, Washington, DC, November 3, 1989. Fruit and vegetable safety--Microbiological considerations.

Invited papers - Finnish Veterinary Association, Annual Meeting, Helsinki, Finland, November 17, 1989. Ovarian transmission of Salmonella enteritidis in eggs and foodborne disease consequences; Escherichia coli O157:H7 - a newly recognized cause of hemorrhagic colitis and hemolytic uremic syndrome; Outbreaks of foodborne listeriosis: causes and prevention; Microbiological issues in food safety - present and future.

Invited paper - Sara Lee Meats Group, Product Safety Operations Workshop, Cincinnati, OH, December 12, 1989. Microbiological risks associated with meats.

Invited lecture - Bonneville Section of the Institute of Food Technologists, Salt Lake City, UT, March 6, 1990. The emergence of newly recognized foodborne pathogens.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Washington, DC, March 20, 1990. Virulence of Listeria monocytogenes in a pregnant mouse model.

Invited lecture - Oregon State University - 1990 James M. Craig Memorial Lecture in Applied and Environmental Microbiology, Corvallis, OR, April 3, 1990. Issues in food safety in the 1990's.

Invited lecture - Oregon State University - Department of Microbiology, Corvallis, OR, April 4, 1990. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture and session chairman - International Conference on Issues in Food Safety and Toxicology, Michigan State University, East Lansing, MI, May 29-June 1, 1990. Microbiological issues in food safety: Looking forward.

Invited lecture - Institute of Food Technologists, 51st Annual Meeting, Anaheim, CA, June 19, 1990. Guidelines for inoculated pack studies to control Clostridium botulinum in new generation refrigerated foods.

Invited lecture - University of Guelph and Caravelle Foods, E. coli O157:H7 Round Table, Guelph, Ontario, Canada, June 26, 1990. Detection of Escherichia coli O157:H7 in foods.

Invited keynote lecture - Society for Industrial Microbiology, 1990 Annual Meeting, Orlando, FL, July 30, 1990. Escherichia coli O157:H7--A foodborne pathogen with severe consequences.

Invited lecture - Food Micro 90, 14th International Symposium of the International Committee on Food Microbiology and Hygiene, International Union of Microbiological Sciences, Bolkesjo, Telemark, Norway, August 18, 1990. Escherichia coli O157:H7 and its significance in foods.

Invited lecture - Milk, Microbes & Marth, E. H. Marth Symposium, University of Wisconsin, Madison, WI, September 11, 1990. Virulence of Listeria monocytogenes.

Invited lecture - Dominican Institute of Industrial Technology, and International Commission on Microbiological Specifications for Foods, Playa Dorada, Dominican Republic, October 18, 1990. Foodborne diseases of contemporary importance.

Invited lecture - Food Emporium (Dairy Council of Michigan, Michigan Beef Council, Michigan Apple Growers Commission, and Michigan Department of Agriculture), Livonia, MI, November 1, 1990. Food safety in perspective.

Invited lecture - Conference of Research Workers in Animal Diseases (sponsored by American College of Veterinary Microbiologists and American Association of Veterinary Immunologists), Chicago, IL, November 4, 1990. Listeria monocytogenes and Enterohemorrhagic Escherichia coli: Foodborne pathogens of recent concern.

Invited lecture - Wisconsin Dairy Technology Society, Waukesha, WI, January 8, 1991. Pathogens of recent concern to the dairy industry.

Invited lecture - Midwest Poultry Federation Convention, Minneapolis, MN, February 21, 1991. Update on pathogens of concern in cooked poultry.

Invited chairperson/discussion leader - National Institute of Health Symposium on Campylobacter jejuni, Pacific Grove, CA, March 10-13, 1991. Animal reservoirs and antimicrobial resistance of Campylobacter jejuni.

Invited lecture - Health and Welfare Canada, Workshop on Methods for Isolating Escherichia coli O157:H7 from Foods, Ottawa, Ontario, March 18-19, 1991. ELISA procedure for Escherichia coli O157:H7 detection.

Invited participant - Press conference and book release event, Washington, DC, April 9, 1991. Agricultural biotechnology: Issues and choices.

Invited lecture - Food Microbiology 1991, National Food Processors Association, Arlington, VA, April 16, 1991. Virulence of Listeria monocytogenes in a pregnant animal model.

Invited lecture - American Society for Microbiology, Workshop on Significant Foodborne Pathogens: Approaches for Detection and Control, Dallas, TX, May 5, 1991. Detection and control of pathogenic Escherichia coli in foods.

Invited lecture - Food Research Institute Annual Meeting, University of Wisconsin, Madison, WI, May 22, 1991. Rapid method for detecting E. coli O157:H7 in foods.

Invited lecture - International Conference on Listeria and Food Safety, Laval, France, June 13-14, 1991. Behavior of Listeria monocytogenes in meat products.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Listeria monocytogenes: are they all virulent?

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Escherichia coli: a foodborne pathogen with severe consequences.

Invited lecture - Georgia Poultry Federation, Ponte Vedra Beach, FL, August 1-4, 1991. Microbiological concerns associated with poultry.

Invited lectures - American Meat Institute, Food Processors Institute Workshop on "Developing a HACCP Plan for Meat and Poultry Packing and Processing, Athens, GA, September 16-18, 1991. Food Safety & HACCP, and Microbiological risks associated with meats.

Invited lecture - 8th World Congress on Food Science and Technology, Toronto, Ontario, September 30 - October 4, 1991. The emergence of new agents of foodborne disease in the 1980's.

Invited lecture - Seventh Australian Food Microbiology Conference, Sydney, Australia, October 14-16, 1991. Concerns about pathogens in sous vide foods.

Invited lecture - Asociacion para la Ciencia y la Tecnologia de Alimentos de Puerto Rico, San Juan, Puerto Rico, October 19, 1991. Microbiological issues in food safety.

Invited lecture - Centers for Disease Control Foodborne and Waterborne Disease Prevention Working Group, Atlanta, GA, October 22, 1991. Update on new findings on Escherichia coli O157:H7 and Campylobacter jejuni.

Keynote lecture - Dixie Section, Institute of Food Technologists, Clemson, SC, November 4, 1991. Microbiological issues in food safety in the nineties.

Keynote lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Microbiological issues in food safety in the 1990's.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Reduction of Campylobacter jejuni colonization of chicks by cecal-colonizing bacteria producing anti-Campylobacter metabolites.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 9, 1991. Survival and growth characteristics of Escherichia coli O157:H7 in modified atmosphere-packaged beef and in fermented sausage.

Invited lecture - Food Safety in the 1990's for the McDonald's System Workshop, McDonald's Corporation, Oak Brook, IL, November 25-26, 1991. Bacterial pathogens in foods.

Invited seminar, University of Georgia - Department of Poultry Science, Athens, GA, December 3, 1991. A practical approach to reducing Campylobacter in poultry.

Invited lecture, Oscar Mayer Foods Corporation Research Department, Madison, WI, December 9, 1991. Overview of the Food Safety and Quality Enhancement Laboratory research program.

Invited seminar, University of Georgia - Georgia Experiment Station, Griffin, GA, January 16, 1992. Development of a rapid method for detecting enterohemorrhagic E. coli O157:H7 in foods.

Invited seminar, University of Georgia - Poultry Disease Research Center (College of Veterinary Medicine), Athens, GA, March 2, 1992. A practical approach to reducing Campylobacter in poultry.

Invited lecture, American Society for Microbiology Foundation Lecture - North California Branch of ASM, University of California, Davis Medical Center, Sacramento, CA, April 11, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, University of Hawaii, Department of Microbiology, Honolulu, April 24, 1992. What's the concern about foodborne pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Hawaii Branch of ASM, University of Hawaii, Honolulu, April 25, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, Florida Association of Milk, Food and Environmental Sanitarians, Orlando, FL, May 11, 1992. IAMFES—Leading the way in food safety.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. Water-related illnesses caused by enteric pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. A practical approach to reducing carriage of Campylobacter jejuni by poultry.

Invited lecture, University of Georgia Cooperative Extension Service, Farm City Week, Macon, GA, August 25, 1992. New food processing technologies.

Invited paper, Hungarian Meat Research Institute, Conference on HACCP and Food Microbiology, Budapest, Hungary, October 12, 1992. Food-borne pathogens of contemporary importance, with particular reference to Listeria monocytogenes.

Invited paper - American Meat Institute, Meat and Poultry Industry Briefing on Controlling E. coli O157:H7, Chicago, IL, February 23, 1993. Foodborne outbreaks of E. coli O157:H7.

Invited testimony - U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department Operations and Nutrition (Congressmen Stenholm and Volkmer, Co-Chairmen), Washington, DC, March 16, 1993. Meat and poultry inspection: The scientific basis of the nation's program. (Represented the National Academy of Sciences - Institute of Medicine Food and Nutrition Board). Serial No. 103-5, U. S. Government Printing Office, Washington, DC.

Invited lecture - National Live Stock and Meat Board Food Safety Roundtable II, Oak Brook, IL, March 18, 1993. Intervention technology for E. coli O157:H7.

Invited lecture - University of Georgia, Department of Food Science Student Awards Banquet, Athens, GA, April 7, 1993. What's the concern about food safety?

Invited lecture - U. S. Department of Agriculture, FSIS and ARS, Athens, GA, April 15, 1993. Enterohemorrhagic Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - University of California-Davis, Peter J. Shields Chair Lecture, Davis, CA, April 21, 1993. Escherichia coli O157:H7 - An emerging problem for milk producers.

Invited lecture - Golden State Foods, GSF Management Meeting, Chicago, IL, April 23, 1993. HACCP in the meat industry.

Invited paper - Westreco, Inc., 7th Nestlé R&D Microbiologists Conference, New Milford, CT, April 27, 1993. Food Safety - Intrinsic factors.

Divisional Lecture - American Society for Microbiology, Food Microbiology Division, Atlanta, GA, May 18, 1993. The elusive nature of enterohemorrhagic Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Iowa State University, School of Veterinary Medicine, Department of Microbiology and U.S. Department of Agriculture, National Animal Disease Center, Ames, IA, June 10, 1993. The significance of Escherichia coli O157:H7 as a meatborne pathogen.

Invited lecture - University of Florida, Department of Food Science and Nutrition, Gainesville, FL, June 15, 1993. Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - Southeastern Meat Association, 1993 Annual Convention, Ponte Vedra Beach, FL, June 18, 1993. Escherichia coli O157:H7 update - control procedures.

Invited lecture - American Meat Science Association, 46th Annual Reciprocal Meat Conference, Lincoln, NE, June 23, 1993. The microbiology of E. coli O157:H7 as a foodborne pathogen.

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, St. Joseph's Medical Center, Burbank, CA, June 24, 1993. What's the significance of foodborne pathogens?

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, San Diego, CA, June 25, 1993. From Campylobacter to Salmonella enteritidis: Foodborne pathogens of recent concern.

Invited presentation - Georgia Poultry Processors Association, Atlanta, GA, July 6, 1993. Future issues with the microbiological safety of poultry and the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, E. coli O157:H7 - The organism and its role in foodborne outbreaks.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, Microbiological issues in the dairy industry: Looking ahead.

Invited presentation - Joint Council on Food and Agricultural Sciences, Washington, DC, September 30, 1993. Reducing foodborne disease - What are the priorities?

Invited keynote lecture - Dairy Research Foundation Symposium-Conquering Listeria, Chicago, IL, October 4, 1993, Listeria overview: Is zero tolerance warranted?

Invited lecture - American Meat Institute and American Meat Science Association 1993 Meat Industry Research Conference, Chicago, IL, October 5, 1993. Food safety: Understanding and preventing E. coli O157:H7.

Invited lecture - Nederlandse Vereniging Voor Microbiologie and EFFI, Food Microbiology Highlights from an International Perspective, Wageningen, The Netherlands, October 14, 1993, E. coli O157:H7 - The present situation.

Invited presentation/panelist - Food Preservation 2000, Natick, Massachusetts, October 21, 1993. Safeguarding the food supply: Cost and benefit.

Invited presentation/panelist - The Purchasing Conference for Chain Restaurant Executives, Orlando, FL, November 3, 1993. Protecting your food supply - Purchasing for food safety.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 5, 1993. The emergency of enterohemorrhagic Escherichia coli O157:H7 as the foodborne pathogen of the 1990's.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 6, 1993. Fate of enterohemorrhagic Escherichia coli O157:H7 in apple cider with and without preservatives.

Invited lecture - Ceres Forum - American Association for the Advancement of Science Workshop, Eating and Health: What Do We Know? Georgetown University, Washington, DC, November 13, 1993. Microbiological contamination: How safe is our food?

Invited lecture - First National Workshop for Food Science Administrators, Washington, DC, November 19, 1993. The role of Food Science in international programs.

Invited lecture/panelist - National Live Stock and Meat Board Blue Ribbon Task Force Meeting, Atlanta, GA, November 29, 1993. Use of Competitive exclusion to reduce colonization of pathogens in livestock.

Invited lecture - Institute of Medicine Food Forum, Washington, DC, December 8, 1993. Difficult issues in implementing HACCP.

Invited lecture - Arby's Beef Summit and Food Safety Conference, Ft. Lauderdale, FL, December 9, 1993. USDA guidelines for zero tolerance on raw material pathogens and meat industries ability to respond.

Invited lecture, University of Georgia, Department of Biological and Agricultural Engineering, Athens, January 19, 1994. Engineering opportunities in food safety and quality enhancement.

Invited testimony, U. S. Senate Committee on Agriculture, Nutrition and Forestry, Subcommittee on Agricultural Research, Conservation, Forestry and General Legislation, Washington, DC, February 10, 1994. Progress of the Federal Meat Inspection Program. (Requested by Senator Tom Daschle).

Invited lecture - G. Malcolm Trout Visiting Scholar Lectureship, Department of Food Science and Human Nutrition, Michigan State University, E. Lansing, MI, February 16, 1994. On the trail of Escherichia coli O157:H7, the foodborne pathogen of the decade.

Invited lecture - HACCP, an Integrated Approach to Assuring the Microbiological Safety of Meat and Poultry, U. S. Department of Agriculture and Ireland Department of Agriculture, Dublin, Ireland, March 23, 1994. Use of vaccines and biological control techniques to control pathogens in animals used for foods.

Invited lecture - Carolina Association of Milk, Food and Environmental Sanitarians, Greenville, SC, April 13, 1994. E. coli O157:H7-Concerns for safe foods.

Invited lecture, University of Georgia, Department of Animal and Dairy Science, Athens, May 17, 1994. E. coli O157:H7-Meatborne pathogen of the 90's.

Invited lecture - Food Safety '94, 3rd International ASEPT Conference, Laval, France, June 2, 1994. Detection and control of E. coli O157:H7 in foods.

Invited lecture - Special Libraries Association's Annual Conference, Atlanta, GA, June 14, 1994. Food safety: Research and prevention.

Invited moderator - VTEC '94, Verocytotoxin-Producing Escherichia coli Infections, Bergamo, Italy, June 28, 1994. Public Health; Epidemiology; Food Safety; Laboratory Diagnosis.

Keynote speaker - 14th International Workshop on Rapid Methods and Automation in Microbiology, Kansas State University, Manhattan, KS, July 8, 1994. Rapid methods for the detection of Escherichia coli O157:H7.

Invited lecture - The Toxicology Forum (1994 Annual Summer Meeting), Aspen, CO, July 11, 1994. Infectious disease: New and forgotten risks--E. coli O157:H7.

Invited lecture - International Life Sciences Institute, Second Asian Conference on Food Safety, Bangkok, Thailand, September 23, 1994. Emerging pathogens and rapid detection methods: E. coli, Listeria, Salmonella and Vibrio cholerae.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 13, 1994. Microbiological issues in food safety.

Invited lecture - Borden, Inc., Science and Technology Group Meeting, Columbus, OH, July 25, 1994. Emerging food safety issues.

Invited lecture - USDA-Animal and Plant Health Inspection Service, Preharvest Food Safety Workshop, Morrow, GA, August 30, 1994. Opportunities for USDA-APHIS and academia collaborative research to enhance preharvest food safety.

Invited lecture - National Association of Fresh Produce Processors, Fresh Cut Produce Packaging Seminar, Griffin, GA, September 13, 1994. Safety issues for fresh-cut produce.

Invited lecture - Griffin Rotary Club, Griffin, GA, October 20, 1994. Microbiological issues in foods safety.

Invited lecture - American Meat Institute Briefing on USDA's Monitoring Program for E. coli O157:H7 in Raw Ground Beef, Chicago, IL, November 2, 1994. Recent developments in microbiological testing procedures for E. coli O157:H7.

Invited lecture - Ministerio de Sanidad Y Consumo and International Commission on Microbiological Specifications for Foods, Universidad de Leon, Leon, Spain, November 11, 1994. Patógenos emergentes--E. coli O157:H7.

Invited lecture - Kraft General Foods-North American Scientific Relations Committee, Columbia, SC, November 30, 1994. Microbiological food safety concerns and research addressing them at the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - American Meat Institute Foundation, Briefing on “*E. coli* O157:H7 in Dry Fermented Sausage,” Chicago, IL, February 23, 1995. Review of recent research on *E. coli* O157:H7 in dry fermented sausage.

Invited lecture - Illinois Institute of Technology, The National Center for Food Safety and Technology, Chicago, IL, March 15, 1995. Acid tolerance of enterohemorrhagic *E. coli* O157:H7.

Invited lecture - Griffin Exchange Club, Griffin, GA, March 28, 1995. The microbiological safety of foods.

Invited lecture - Georgia Dairy Products Association, Annual Meeting, Athens, GA, April 3, 1995. Foodborne pathogens.

Invited lecture - National Food Processors Association, Food Micro '95, Arlington, VA, April 5, 1995. *E. coli* O157 - The organism, the disease and control.

Invited lecture - Georgia Poultry Federation, Poultry Leaders Round Table, Young Harris, GA, April 7, 1995. An update on pathogen reduction efforts for poultry.

Invited lectures - Golden State Foods, HACCP Workshop, City of Industry, CA, April 20, 1995. Foodborne pathogens.

Invited lecture - Philip Morris Microbiology Workshop, Richmond, VA, May 10-11, 1995. *Escherichia coli* O157:H7 - Changing the rule book of food microbiologists.

Invited lecture - Mid-Georgia Cattleman's Association, Gordon College, Barnesville, GA, May 11, 1995. Meat safety: What the future holds.

Invited lecture - Southeastern Poultry & Egg Association, Poultry Processor Workshop, Atlanta, GA, May 18, 1995. Available pathogen intervention methods.

Invited lectures - Golden State Foods, HACCP Workshop, Conyers, GA, May 31, 1995. Foodborne pathogens.

Invited paper - Institute of Food Technologists, 56th Annual Meeting, Anaheim, CA, June 5, 1995. Cooked muscle foods: Determinants of quality and safety.

Invited lecture - County of San Diego, Department of Environmental Health, San Diego, CA, June 8, 1995. Significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited paper and co-convenor - International Food Safety Conference, *Listeria* - The state of the science, Rome, Italy, June 29-30, 1995. Regulatory tolerances for *Listeria monocytogenes* in foods.

Invited co-convenor - International Life Sciences Institute-NA (IAMFES Annual Meeting), Pittsburgh, PA, August 1, 1995, Symposium on Emerging Issues in Microbiological Food Safety.

Invited paper - International Life Sciences Institute North America Technical Committee on Food Microbiology, Symposium on Issues and Answers in Food Microbiology and Safety: Today, Tomorrow and Beyond, IAMFES Annual Meeting, Pittsburgh, PA, August 2, 1995, A reduced time procedure for detecting heat-injured *Listeria monocytogenes* in foods.

Invited respondent, 41st Annual International Congress of Meat Science and Technology, San Antonio, TX, August 21, 1995, Pathogen reduction.

Invited lecture - U. S. Chamber of Commerce, Food and Agriculture Committee, Atlanta, GA, October 11, 1995, New developments in food safety.

Invited lecture - MAPack '95, The Leading Edge Conference on Modified Atmosphere Packaging, Anaheim, CA, October 20, 1995, The impact of modified atmosphere packaging (including vacuum packaging) on the growth of refrigerated food pathogens.

Invited lecture - Gerber Products Company, Fremont, MI, November 3, 1995, Emerging issues in the microbiological safety of foods.

Invited lecture - Kansas State University, Food Safety Forum and Food Science Seminar Series, Manhattan, KS, November 17, 1995, Approaches to controlling *Escherichia coli* O157:H7.

Invited presentation - Marietta Rotary Club, Marietta, GA, March 15, 1996. Food safety in the news.

Invited paper - Alabama Association of Milk, Food and Environmental Sanitarians, Annual Meeting, Birmingham, AL, November 13, 1996. Fecal coliforms in iced tea: What's the problem?

Invited paper - National Food Processors Association, Annual Meeting, San Francisco, CA, October 11, 1996. Enterohemorrhagic *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - Southeastern Food Processors Association, Annual Meeting, Pine Mountain, GA, November 15, 1996. The University of Georgia's Center for Food Safety and Quality Enhancement.

Invited lecture - Society for Manufacturing Engineers, Fundamentals of Modified Atmosphere Packaging Short Course, Atlanta, GA, April 23-24, 1996. Microbiology of prepared foods.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Oakwood, GA, May 8, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Macon, GA, May 9, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited presentation - Georgia Poultry Federation Summer Meeting, Ponte Vedra, FL, August 8-10, 1996. Activities of the UGA Center for Food Safety and Quality Enhancement and Food Process Research and Development Laboratory.

Invited paper and symposium convenor - International Association of Milk, Food and Environmental Sanitarians Annual Meeting, Seattle, WA, June 30 - July 3, 1996. Fecal coliforms in tea: What's the problem? (Symposium - Tempest in a Teapot).

Invited lecture - Georgia Board of Registered Environmental Health Professionals Annual Meeting, Macon, GA, February 23, 1996. Tempest in the tea pot: Fecal coliforms in iced tea.

Invited lectures - The Association for Dressings & Sauces Microbiological Seminar, Chicago, IL, February 11, 1996. New and Emerging Pathogens: *E. coli* O157:H7 and *Campylobacter*.

Invited paper - Michigan State University National Food Safety and Toxicology Center, Food Safety in North America - Regulatory and Scientific Issues, East Lansing, MI, March 17-19, 1996. Rapid testing methods and their role in food safety.

Invited presentation - Georgia Dairy, Food and Beverage Association, Atlanta, GA, October 15, 1996. Media coverage of fecal coliforms in iced tea.

Invited presentation - Atlanta Farmers' Club, Atlanta, GA, September 18, 1996. Georgia's Food Processing Industry.

Invited lecture - Grocery Manufacturers of America, Technical Regulatory Affairs Committee, Long-Range Planning Meeting, Palm Beach Gardens, FL, February 13, 1997. The policy perspectives of food safety issues.

Invited lectures - Chiquita Brands, Cincinnati, OH, February 19-20, 1997, HACCP and food safety.

Invited lecture - Georgia Blueberry Producers, Baxley, GA, March 12, 1997. *E. coli* and its role in foodborne disease.

Invited lectures - Georgia Environmental Health Association, Environmental Health Education Conference, Athens, GA, March 18, 1997. Microbiological reasons for potentially hazardous foods being held at less than or equal to 41°F.

Invited Keynote speaker - Animal Disease Research Workers in Southern States, Southern Conference on Animal Parasites and Southern Conference of Researchers in Aquatic Diseases, Athens, GA, March 25, 1997. *Escherichia coli* O157:H7 and food safety.

Invited seminar - University of Minnesota, Department of Food Science and Nutrition, St. Paul, MN, April 28, 1997. A new age of microbiological food safety issues: Dilemmas facing the food industry.

Invited lecture - The Refrigeration Research and Education Foundation and the International Association of Refrigerated Warehouses, Annual Convention, Barcelona, Spain, May 10-15, 1997. Significance of the world-wide spread of illness from *Escherichia coli* O157:H7: Precautions for the refrigerated chain.

Invited keynote lecture - Second Nestlé Market Microbiologist's Workshop, Lausanne, Switzerland, June 2, 1997. Food microbiology in the year 2000.

Invited lecture - Institute of Food Technologists, Orlando, FL, June 16, 1997. *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - International Life Sciences Institute-North America, Symposium Series on "Science-Based Approaches for Protecting Our Global Food Supply," Orlando, FL, July 9, 1997. The emergence of a microbial foodborne pathogen.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 16, 1997. How the University of Georgia Center for Food Safety and Quality Enhancement is an integral part of the economic development of the State of Georgia.

Invited lecture - Philip Morris Management Group, Quality Core Team Meeting, Milwaukee, WI, July 18, 1997. Emerging food safety issues.

Invited lecture - Hershey Foods, Hershey, PA, July 25, 1997. Research programs of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited paper - The Refrigerated Research and Education Foundation and the International Association of Refrigerated Warehouses, Assembly of Committees, Washington, DC, August 4, 1997. An overview of microbiological food safety issues for the public refrigerated distribution industry.

Invited paper - Poultry Science Association 86th Annual Meeting, PSA '97 Symposium on "Food Safety: A Consumers' Perspective," Athens, GA, August 6, 1997. Food safety in the news: An issue taken out of perspective.

Invited "cutting edge" speaker - American Association of Wildlife Veterinarians, 47th Annual Wildlife Disease Association Conference, St. Petersburg, FL, August 11, 1997. Enterohemorrhagic *Escherichia coli* O157:H7: A growing public health problem.

Invited lectures - Air Liquide, Griffin, GA, August 21, 1997. HACCP and food safety.

Invited interview - National Public Radio, "The Talk of the Nation - Science Friday," New York, August 29, 1997. Food safety.

Invited lecture - Griffin Rotary, Griffin, GA, September 25, 1997. The involvement of the University of Georgia Center for Food Safety and Quality Enhancement in economic development of the State of Georgia.

Invited lecture - Instituto Tecnológico de Monterrey, Campus Queretaro, Mexico, Fourth International Symposium on Food Science and Technology, Queretaro, Mexico, October 17, 1997. Emerging Issues of the microbiological safety of foods.

Invited lecture - Worldwide Food Expo 97, American Meat Institute, Chicago, IL, October 30, 1997. Preharvest Science: Microbial control alternatives.

Invited respondent - Council for Agricultural Science and Technology (CAST), "Food Safety, Sufficiency and Security: Domestic and International Dimensions" Conference, Chicago, IL, November 3, 1997. Food safety: Domestic dimensions.

Invited interview - WRFC Radio (960 AM), "The John Breffle Show," Athens, GA, November 11, 1997. Food Safety and *E. coli* O157:H7.

Invited lecture - American Meat Science Association, Chicago, IL, December 3-4, 1997. *Escherichia coli* O157:H7 - The nemesis of the cattle industry.

Invited interview - Fresh-cut Produce Processors' News Media Briefing, San Francisco, CA, December 16, 1997. Safety of Packaged Salads.

Invited seminar - University of Georgia, Department of Foods and Nutrition, Athens, GA, February 11, 1998. *Escherichia coli* O157:H7 - The emergence of an uncharacteristic foodborne pathogen.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 11, 1997. Food Safety in the news.

Invited respondent - American Meat Science Association, Beef Safety Symposium: Emerging Microbial Pathogens and Issues in Beef, Chicago, IL, December 3, 1997. The food safety research agenda - Panel response.

Invited lecture - Fresh Express Farms · Dole Fresh Vegetables · Ready Pac Produce, Packaged Salad Food Safety Symposium, San Francisco, CA, December 16, 1997. Microorganisms in prepackaged salads.

Invited lecture and scientific advisor - Dreyer's Grand Ice Cream Workshop for Asian Food Journalists, Oakland, CA, January 5, 1998. Foodborne disease significance of *Listeria monocytogenes*.

Invited lecture - International Life Sciences Institute Annual Meeting, St. Petersburg, FL, January 19, 1998. Hot topics in food safety - Microbiological issues providing new challenges for the food industry.

Invited lecture - Toxicology Forum, 23rd Annual Winter Forum, Washington, DC, February 5, 1998. Identification and control of foodborne disease pathogens.

Keynote lecture - University of Nebraska, Governor's Conference on Ensuring Meat Safety, Lincoln, NE, February 9, 1998. Significance of *E. coli* O157:H7 in meat: an overview.

Invited audio conference/lecture - American Society for Microbiology, Washington, DC, February 24, 1998. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited lecture - KFC Poultry Advisory Committee, Griffin, GA, March 30, 1998. Food safety issues of the poultry industry.

Invited lecture - The Plains Nutrition Council Spring Conference, San Antonio, TX, April 16, 1998. Development and use of competitive exclusion products to reduce pathogens in beef.

Invited lecture - Institute of Food Technologists and National Center for Food Safety and Technology, Illinois Institute of Technology, 1998 Symposium on Fresh Fruits and Vegetables: Food Safety Challenges, Chicago, IL, May 14, 1998. Research needs for produce safety.

Invited lecture - Gerber Products Company, Griffin, GA, May 21, 1998. Food safety programs at the Center for Food Safety and Quality Enhancement.

Invited presentation - University of Georgia, HACCP Program for the Southeastern Section of the American Association of Candy Technologists, Griffin, GA, May 22, 1998. Importance of HACCP to the candy industry.

Invited presentation - U. S. Senator Paul Coverdell Third Annual "Georgia Farm Forum," Macon, GA, May 27, 1998. Food Safety issues.

Invited lecture - DISCOVER Conference, Nashville, IN, June 2, 1998. Foodborne pathogens of animal origin: Characteristics and occurrences in food animals.

Invited seminar - University of Georgia, Department of Avian Medicine, Spring 1998 Seminar, Athens, GA, June 8, 1998. Controlling *E. coli* O157:H7 in cattle by competitive exclusion bacteria.

Invited lecture - Lillian Fountain Smith Conference for Nutrition Educators, Department of Food Science and Human Nutrition, Colorado State University, Ft. Collins, CO, June 11, 1998. *E. coli* O157:H7: Harbinger of change for food safety.

Invited participant - Institute of Food Technologists, First Annual Chief Research Officer's Meeting, Atlanta, GA, June 21, 1998. Partnership for growth.

Invited lecture and symposium wrap-up - Institute of Food Technologists Annual Meeting, Hot Topic Symposium: Food Safety Paparazzi - Fact or Fiction?, Atlanta, GA, June 22, 1998. Is media coverage of food safety issues scientifically correct?

Invited Symposium lecture - Institute of Food Technologists Annual Meeting, Symposium on Microbial Contamination in Fresh Produce, Atlanta, GA, June 23, 1998. *Escherichia coli* O157:H7 in apple cider - a case study.

Invited interview - Dick Mendenhall Show (Barbara Dooley interviewer), WGAU Radio - 1340 AM, Athens, GA, July 1, 1998 (1 hour live interview). The significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited lecture - Georgia Environmental Health Association, Annual Meeting, Jekyll Island, GA, July 10, 1998. Microbiological issues providing challenges for the food industry.

Invited lecture - Alpharma, Fort Lee, NJ, July 20, 1998. Controlling *E. coli* O157:H7 on the farm with probiotic bacteria.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 22, 1998. Food Safety in the news; *E. coli* O157:H7.

Invited video presentation - Processed Apples Institute, Atlanta, GA, July 24, 1998. Microbiological safety of pasteurized apple cider.

Invited presentation - General Mills, Inc., Minneapolis, MN, July 27, 1998. Microbiological challenges facing the food processing industry.

Invited presentation - Georgia Poultry Federation, Summer Meeting, Ponte Verde, FL, July 30, 1998. *Campylobacter* to poultry.

Invited lecture - Southern Region Experiment Station Directors Meeting, Athens, GA, August 8, 1998. The Food Safety Connection.

Invited lecture - U.S. Department of Agriculture/ARS and University of Georgia, Emerging Antibiotic Resistance in Foodborne Enteric Pathogens: Epidemiology, Public Health Risks and Control Strategies, Athens, GA, September 2, 1998. *E. coli* O157:H7 bovine ecology and development of competitive exclusion microflora.

Invited video presentation - Georgia Pacific Health Smart Institute, Atlanta, GA, September 3, 1998. Enhanced food safety with paper products.

Invited lecture - The Pillsbury Company, Minneapolis, MN, September 10-11, 1998. Emerging issues in food safety.

Invited presentation and panelist - International Life Sciences Institute-North America, Conference on the National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Application, Washington, DC, October 14-15, 1998. The application and use of food microbiology data for HACCP.

Invited lecture - Georgia Cattleman's Association, Newnan, GA, November 2, 1998. *E. coli* O157 and cattle.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 4, 1998. *E. coli* O157:H7 - a serious foodborne pathogen.

Invited lecture - Food Research Directors' Roundtable, Sparks, MD, November 10, 1998. Food safety activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - U. S. Department of Agriculture - Agricultural Research Service and Cooperative State Research Education and Extension Service, National Conference on Food Safety Research, Washington, DC, November 12-13, 1998. Improved detection methods for foodborne pathogens.

Invited lecture - 5th Congress on Food Microbiology and Hygiene (COMBHAL 98), Sao Paulo, Brazil, November 25, 1998. Foodborne illness significance of *Escherichia coli* O157:H7.

Invited presenter and panelist - International Life Sciences Institute, Annual Meeting, Nassau Bahamas, January 27, 1999. National Academy of Sciences Committee on Food Safety.

Invited symposium lecture - International Life Sciences Institute, Annual Meeting, Symposium on Food Safety: Challenges and Methodologies in the Next Millennium, Nassau, Bahamas, January 27, 1999. Microbiology: Tools for the next generation.

Invited lecture - Pfizer, Food Safety Symposium, Mystic, CT, February 4, 1999. Foodborne bacterial pathogens: Sources and outbreaks.

Invited lecture - The Refrigeration Research and Education Foundation Institute, University of Oklahoma, Norman, OK, February 7, 1999. The benefits of refrigeration.

Invited lecture - Auburn University, Auburn Department of Food and Nutrition, Auburn, AL, February 15, 1999. Microbiological tools for the next generation.

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 15, 1999. Ensuring the Safety of Food: Who's Responsible?

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 16, 1999. *Escherichia coli* O157:H7 Controlling the Nemesis of the Cattle Industry.

Invited lecture - American Meat Science Association, Western States Science Update Conference, Monterey, CA, February 17, 1999. Overview of *E. coli* O157:H7 and its implications to the meat industry.

Invited keynote lecture - Ontario Food Protection Association, Toronto, Ontario, Canada, February 25, 1999. Learning opportunities from outbreaks of foodborne disease.

Invited lecture - Gold Kist, Inc., Atlanta, GA, March 8, 1999. *Listeria* in ready-to-eat peanuts.

Invited lecture - Institute of Food Technologists Video Conference (20 sites nationally and Mexico), April 6, 1999. Emerging issues in food safety.

Invited lecture - National Agri-Marketing Association, 1999 Agri-Marketing Conference and Trade Show, Atlanta, GA, April 7, 1999. Food Safety-Answering consumers concerns.

Invited lecture - Sigma Xi Annual Banquet, University of Georgia, Athens, GA, April 8, 1999. Eating defensively: What you don't know could hurt you.

Invited lecture - International Association of Refrigerated Warehousemen and The Refrigerated Research and Education Foundation, Annual Convention, Rio Mar Beach, Puerto Rico, April 11, 1999. *Listeria monocytogenes* and refrigerated foods.

Invited lecture - Griffin-Spalding Development Authority, International VIP Tour, Griffin, GA, May 13, 1999, Research Activities of the UGA Center for Food Safety and Quality Enhancement.

Invited Moderator/discussant - Georgetown Center for Food and Nutrition Policy, Ceres Food Safety Roundtable, Washington, DC, May 19, 1999. Research priorities and intervention strategies for *Listeria*.

Invited lecture - American Society for Microbiology, 99th Annual Meeting, Chicago, IL, June 1, 1999. Symposium; National Academy of Sciences Report on Ensuring a Safe Food Supply: Implications and Results.

Invited lecture - IFIA (International Food Ingredients and Additives) Japan '99, Tokyo, Japan, June 3, 1999. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen in the United States.

Invited lecture - The Conference Board Contributions Council, Moline, IL, June 7, 1999. Feeding the World: Economics, Food Policies & Food Safety.

Invited lecture - Qualicon, Wilmington, DC, June 18, 1999. Approaches to reducing the transmission of *Escherichia coli* O157:H7.

Invited seminar - Perkin Elmer, Norwalk, CT, July 1, 1999. Professional activities of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited lecture - National Environmental Health Association, 63rd Annual Educational Conference, Nashville, TN, July 6, 1999. Update on *E. coli* O157:H7.

Invited lecture - Institute of Medicine, Food Forum Symposium "Food Safety Policy, Science and Risk Assessment: Strengthening the Connection," Washington, DC, July 13, 1999. Microbiological case study - *E. coli* O157:H7 and *Listeria monocytogenes*.

Invited lecture - Institute of Food Technologists, 1999 Annual Meeting, Chicago, IL, July 27, 1999. The microbiology of *Listeria monocytogenes* as a food pathogen.

Invited lecture - International Life Sciences Institute Symposium Series on Food Microbiology; International Association of Milk, Food and Environmental Sanitarians, Dearborn, MI, August 2, 1999. Why microbiological criteria for enterohemorrhagic *Escherichia coli* and not Shiga toxin-producing *E. coli* in foods?

Invited lecture - Georgia Delegation of United States Congressional Aides, University of Georgia, Griffin, GA, August 12, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - Georgia Specialty Foods Association, Griffin, GA, August 16, 1999. The microbiological safety of further processed foods.

Invited lecture - United States Congressional Aides of Congressman Mac Collins, University of Georgia, Griffin, GA, August 24, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - National Symposium on the Future of American Agriculture, University of Georgia, Athens, GA, August 26, 1999. Food safety issues associated with food production and consumption in a global market.

Invited lecture - Kraft Foods, Chicago, IL, September 1, 1999. Microbiological food safety issues of recent concern.

Invited lecture - Society for General Microbiology, 144th Annual Meeting, University of Leeds, Leeds, England, September 8, 1999. Significance of understanding pathogenic mechanisms of foodborne pathogens.

Invited lecture/panelist - Food Quality '99, San Francisco, CA, September 13, 1999. Legal aspects of food integrity lawsuits.

Invited lecture - Food Science Australia, International Food Safety Conference, Melbourne, Victoria, Australia, September 29, 1999. Microbiological safety of different food groups.

Invited lecture - 1999 Meat Industry Research Conference, American Meat Institute, Chicago, IL, October 26, 1999. Listeria 101: Where it is and where it isn't.

Invited lecture - Region I (Northeast Branch), 34th Annual Meeting of the American Society for Microbiology, ASM Foundation Lecture, Worcester, MA, October 28, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - National Food Processors Association, 92nd Annual Convention, Chicago, IL, October 29, 1999. The science and politics of food safety.

Invited lecture - Illinois Society for Microbiology, American Society for Microbiology Foundation Lecture, Rosemont, IL, November 3, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Alpha Delta Kappa (International Teacher's Sorority), Athens, GA, November 16, 1999. Microbiological food safety: What you don't know could hurt you.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Control of Enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - American Society for Nutritional Sciences and U.S. Department of Agriculture Foodborne Illnesses and Nutrition Workshop, Bethesda, MD, December 3, 1999. Foodborne Illnesses: prevalence, causes and risk factors.

Invited lecture - Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Washington, DC, December 13, 1999. Case study on regulatory approval of antimicrobials for produce.

Invited lecture - 2000 Georgia Fruit and Vegetable Growers Association Winter Conference, Savannah, GA, January 7, 2000. Human pathogens in fresh-cut produce.

Invited presentation - Rotary Club of Griffin-Daybreak, Griffin, GA, February 16, 2000. Microbiological safety of fresh produce.

Invited lecture - Southern California Branch of the ASM, American Society for Microbiology Foundation Lecture, UCLA, Los Angeles, CA, March 11, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Kraft Foods, Senior Management Update, Northfield, IL, April 13, 2000. Microbiological food safety update.

Invited lecture - Kentucky-Tennessee Branch of the ASM, American Society for Microbiology Foundation Lecture, Bowling Green, KY, April 14, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited seminar - University of Georgia, Department of Food Science and Technology, Athens, GA, April 19, 2000. Microbiological safety of different food groups.

Invited lecture - University of Georgia, Department of Horticultural Sciences, Athens, GA, April 19, 2000. Microbiological safety of organic produce.

Invited lecture - Emerging Issues in Food Safety Conference, University College Cork, Ireland, June 21, 2000. Overview of bacterial foodborne disease.

Invited lecture - American Society for Microbiology Annual Meeting, Division Z Symposium, Los Angeles, CA, May 22, 2000. Use of probiotic cultures for pathogen reduction in food animal production.

Invited lecture - American Society for Microbiology Annual Meeting, Public and Scientific Affairs Board Special Interest Seminar, Los Angeles, CA, May 25, 2000. Microbiological safety of organic foods.

Invited lecture - Applied Food Biotechnology, O'Fallon, MO, June 29-30, 2000. Probiotic bacteria to reduce carriage and fecal shedding of human pathogens by animals.

Invited discussant - Chick-fil-A Quality Summit, Peachtree City, GA, July 13, 2000. Food safety in foodservice.

Invited paper - American Society for Microbiology, International Conference on Emerging Infectious Diseases 2000, Atlanta, GA July 19, 2000. Bugs vs. bugs.

Invited keynote lecture - Florida Department of Agriculture & Consumer Services, 3rd Annual Foodborne Pathogen Analysis Conference, St. Petersburg, FL, July 20, 2000. Microbiological safety of different food groups.

Invited lecture - Georgia Congressional Delegation, University of Georgia, Griffin, GA, August 18, 2000. Research activities of the UGA Center for Food Safety.

Invited lecture - 46th International Congress on Meat Science and Technology, Buenos Aires, Argentina, August 31, 2000. Use of microorganisms in non-traditional methods to increase meat safety.

Invited lecture - Association of Food and Drug Officials Fall Conference, Gatlinburg, TN, September 11, 2000. Microbiological food safety issues.

Invited lecture - Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, Philadelphia, PA, September 12, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, September 13, 2000. Irradiated foods, organic foods, and genetically modified foods.

Invited lecture - *Listeria* Issues and Strategies Conference, University of Connecticut, Storrs, CT, September 21, 2000. The microbiology of *Listeria monocytogenes* as a foodborne pathogen.

Invited keynote lecture - Food Safety Brand Symposium, Ecolab, American Chamber of Commerce in Japan and Japanese Chemical News, Tokyo, Japan, October 4, 2000. Microbiological food safety issues.

Invited keynote lecture - International Food and Nutrition Conference - 2000, Tuskegee University, Tuskegee, AL, October 10, 2000. Current microbiological food safety issues.

Invited keynote lecture - Workshop on Epidemiologic Methods and Approaches for Food Safety, U.S. Department of Agriculture - CSREES, Birmingham, AL, October 18, 2000. Reducing foodborne illnesses: Focusing on opportunities that have impact.

Invited keynote lecture - Allegheny Branch of the American Society for Microbiology Annual Meeting, Pennsylvania State University, University Park, PA, October 27, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Spalding County Farm Bureau Annual Meeting, Griffin, GA, October 30, 2000. Consumer concerns about irradiated foods, organic foods and genetically modified foods.

Invited lecture - International Food Safety and Quality Conference, Institute of Food Technologists, Orlando, FL, November 15, 2000. Food safety research opportunities for the third millennium.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 20, 2000, Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 21, 2000, Foodborne pathogens that grow at refrigeration temperature: problems and solutions.

Invited lecture - Ceres Forum on Food Safety Objectives: Public Health, HACCP and Science, Georgetown University, Washington, DC, December 4, 2000. Intervention strategies for food production.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CFSAN, College Park, MD, December 5, 2000. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CVM, College Park, MD, December 5, 2000. Control of enterohemorrhagic *E. coli* in cattle by probiotic cattle.

Invited Web Chat - American Meat Institute, Arlington, VA, December 12, 2000. Microbiological challenges and opportunities.

Invited lecture - Alpharma, Englewood, NJ, December 14, 2000. *E. coli* O157:H7 and public health.

Invited lecture - Georgia Department of Agriculture, Georgia Public Health Team/Food Safety Task Force, Griffin, GA, January 17, 2001. Research activities of the UGA Center for Food Safety.

Invited lecture - Florida Dietetic association and Florida State University Department of Nutrition, Food and Exercise Sciences, Food Safety Symposium, Tallahassee, FL, February 2, 2001. Timely topics on the microbiological safety of foods.

Invited keynote lecture - Auburn University, College of Veterinary Medicine, Phi Zeta Annual Forum, Auburn, AL, February 7, 2001. Food safety intervention strategies for livestock.

Invited seminar - North Carolina State University, Department of Poultry Science Honors Seminar, February 8, 2001. Microbial contamination of organic foods.

Invited lecture - American Association for the Advancement of Science, 2001. Annual Meeting, San Francisco, CA, February 17, 2001. Dislocating foodborne pathogens from their etiologic niche.

Invited keynote lecture - ABC Research, 27th Annual Technical Seminar, Gainesville, FL, February 20, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited Foundation lecture - American Society for Microbiology, Eastern Pennsylvania Branch, Philadelphia, PA, February 26, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Missouri Milk, Food & Environmental Health Association, Annual Education Conference, Columbia, MO, April 4, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Clemson University, Food Safety Symposium, Clemson, SC, April 20, 2001. Controlling *E. coli* O157:H7 on the farm.

Invited keynote lecture - Southeast USA Section of the Association of Official Analytical Chemists International, 15th Annual Meeting, Atlanta, GA, April 24, 2001. Microbiological food safety challenges for the 21st century.

Invited keynote lecture - Georgia State Environmental Health and Food Establishment Inspectors, Annual Educational Meeting, Athens, GA, May 24, 2001. Changing factors affecting the microbiological safety of foods.

Invited lecture - Mionix Corporation, U.S. Department of Agriculture Building, Washington, DC, June 5, 2001. Increased inactivation of *E. coli* O157:H7 in ground beef containing calcium acidified sulfate.

Invited featured lecture - Association of Food and Drug Officials, 105th Annual Educational Meeting, Atlanta, GA, June 19, 2001. Food safety initiatives on the farm.

Invited lecture - International Animal Agriculture and Food Science Conference, Joint Annual Meetings of American Dairy Science Association, American Meat Science Association, American Society of Animal Science and Poultry Science Association, Indianapolis, IN, July 28, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited presentation - DuPont, Strategic Planning, July 31, 2001. Food safety issues, gaps and opportunities.

Invited panel moderator - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee 2001 Annual Meeting, Minneapolis, MN, August 6, 2001. Moving beyond HACCP-Food safety objectives.

Invited lecture - International Association for Food Protection, 2001 Annual Meeting, Minneapolis, MN, August 7, 2001. Microbiological safety issues in organic food production.

Invited lecture - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee, 2001 Annual Meeting, Minneapolis, MN, August 8, 2001. Optimization of conditions to kill *Escherichia coli* O157:H7 in manure.

Invited seminar - Alpharma/International Food Protection, Inc. Research Update, Ft. Lee, NJ, August 14, 2001. Reducing carriage of *Campylobacter jejuni* by poultry.

Invited seminar - U.S. Department of Agriculture-Food Safety and Inspection Service, Washington, DC, August 30, 2001. Keeping foodborne pathogens down on the farm.

Invited seminar - General Mills, Inc. Technical Seminar Series, Minneapolis, MN, September 6, 2001. Emerging issues in the microbiological safety of foods.

Invited presentation - Kroger, *E. coli* Updates, Cincinnati, OH, September 11, 2001. Approaches to reduce *E. coli* O157 in cattle.

Invited keynote lecture - University of Wisconsin-River Falls, 21st Food Microbiology Symposium, River Falls, WI, October 14, 2001. Keeping foodborne pathogens down on the farm.

Invited lecture - The World Food Prize, 15th Anniversary Symposium, Des Moines, IA, October 18, 2001. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited keynote lecture - U.S. Food and Drug Administration Southeast Region, Food Safety Seminar, Mt. Pleasant, SC, October 31, 2001. Controlling *E. coli* O157:H7 from farm to table.

Invited section chairperson and contributor - American Academy of Microbiology, Colloquium on The Role of Antimicrobials in Agriculture: A Critical Assessment, Santa Fe, NM, November 2-4, 2001. Antimicrobial resistance and agriculture.

Invited lecture - University of Massachusetts, Food Science Health Symposium: Towards a National Rational Health Policy, Amherst, MA, November 7, 2001. Case reviews of the food safety "crisis."

Invited participant - Harvard University, Harvard Business School, Seminar on Health, Nutrition and Safety, Boston, MA, November 18-19, 2001. Views on intentional microbiological contamination of food.

Invited lecture - American Meat Institute Foundation, Research Briefing, Dallas, TX, December 4, 2001. Competitive exclusion bacteria for *Listeria monocytogenes* in processing plants.

Invited lecture - McDonald's Corporation, Food Safety Advisory Council Meeting, Springdale, AR, December 12-13, 2001. Food safety priorities for 2002.

Invited lecture - The Coca-Cola Company, Atlanta, GA, December 19, 2001. Safeguards against intentional microbiological contamination of foods.

Invited presentation/interview - British Broadcasting Company (BBC), New York, NY, January 7, 2002. Documentary on *E. coli* O157:H7.

Invited keynote lecture - Southern Conference on Avian Diseases, International Poultry Scientific Forum and Southern Poultry Science Society, Atlanta, GA, January 15, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited introductory comments and moderator - International Life Sciences Institute, Annual Meeting, Cancun, Mexico, January 23, 2002. BSE/TSE: Safety of the Meat Supply.

Invited keynote lecture - Kraft Foods, Research and Technology Council Meeting, Delavan, WI, January 30, 2002. *Listeria* research at University of Georgia Center for Food Safety.

Invited keynote lecture - Institute of Food Technologists, New York Section, Rutgers Night, New Brunswick, NJ, February 19, 2002. Emerging issues in the microbiological safety of foods.

Invited technical tour - Institute of Food Technologists International Food Safety and Quality Conference and Expo, Atlanta, GA, February 22, 2002. Tour of UGA Center for Food Safety.

Invited panel discussant - Institute of Medicine, Food Forum, Symposium on Future Directions in Food Safety Research, Washington, DC, February 27, 2002. Developing a coordinated and sustained research agenda.

Invited lecture - Institute of Food Technologists, St. Louis Section, St. Louis, MO, March 11, 2002. Emerging issues in the microbiological safety of foods.

Invited presentation - Food and Drug Administration, Food Safety Initiative Extramural Research Annual Review, College Park, MD, March 19, 2002. Control of enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited presentation - U. S. Department of Agriculture, National Agricultural Research, Extension, Education, and Economics Advisory Board Meeting, Washington, DC, March 28, 2002. Representing National Academy of Sciences - Biosecurity: Preparedness plans; Research needs in assuring foods are safe from intentional microbiological contamination.

Invited presentation - Congressman Mac Collins Third District Agricultural Advisory Committee Meeting, Griffin, GA, April 19, 2002. Emerging issues in food safety.

Invited keynote presentation - U.S. Environmental Protection Agency, OECD (Organization for Economic Cooperation and Development) Efficacy Workshop on Certain Antimicrobial Biocides, Arlington, VA, April 23, 2002. The role of antimicrobials in controlling foodborne pathogens.

Invited keynote presentation - The Coca-Cola Company, National Food Processors Association Security Subcommittee, Atlanta, GA, April 30, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation and moderator - U.S. Department of Agriculture, Food Safety and Inspection Service, Symposium on Pathogen Reduction: A Scientific Dialogue, Washington, DC, May 6, 2002. Introduction of microbiological hazards, farm to table.

Invited presentation - U.S. Department of Agriculture, IFAFS Animal Manure Management Meeting, Kansas City, MO, May 14, 2002. Safe produce production using manure.

Invited presentation - Oklahoma State University, Food Safety Symposium, Stillwater, OK, May 21, 2002. Foodborne pathogens occurring in livestock.

Invited presentation - University of Georgia, Agro-Security Work Conference, Athens, GA, May 23, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Alpharma, *Campylobacter* Research Update, Griffin, GA, June 11, 2002. Reducing carriage of foodborne bacterial pathogens in poultry by competitive exclusion.

Invited presentation and panelist - Institute of Food Technologists Annual Meeting, Forum on the Epidemiology and Control of Foodborne Pathogens, Anaheim, CA, June 17, 2002. Update on Shiga toxin-producing *E. coli*.

Invited presentation and panelist - Institute of Food Technologists, Annual Meeting, Forum on Emerging microbiological food safety issues: Implications for control in the 21st century, Anaheim, CA, June 18, 2002. Next steps in food safety management.

Invited presentation - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Recent issues regarding the microbiological safety of foods.

Invited discussant - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Panel discussion on food security and bioterrorism.

Invited presentation and consortium participant - Milbank Memorial Fund, Washington, DC, July 16, 2002. Improving the U.S. food safety system.

Invited presentation - 2002 Legislative Aid Tour, Griffin, GA, August 14, 2002. Recent food safety issues.

Invited presentation - Illinois Department of Public Health, Food Safety Symposium, St. Charles, IL, August 28, 2002. *Listeria monocytogenes*: A nemesis of the food processing industry.

Invited presentation - Hanover Foods, Fresh Produce Update, Hanover, PA, September 12, 2002. Controlling microbes in produce.

Invited presentation - Food Industry Microbiology Round Table, Chicago, IL, September 18, 2002. Science-based food safety regulation.

Invited presentation - U.S. Department of Agriculture, National Academy of Sciences Meeting, Washington, DC, October 7, 2002. *Escherichia coli* O157:H7 in ground beef: Review of a draft risk assessment.

Invited presentation, USDA-CSREES Food Safety Center Summit, University of Minnesota, Minneapolis, MN, October 28, 2002. Organization and activities of the University of Georgia Center for Food Safety.

Invited presentation - VII Congress Latinoamericano de Microbiologia e Higiene de Alimentos, Latinic 2002, Santiago, Chile, November 12, 2002. Present knowledge of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited presentation - USDA-FSIS, *Listeria monocytogenes* update, Washington, DC, November 15, 2002. Cross-contamination of *Listeria monocytogenes* on food processing equipment.

Invited presentation - Harvard Medical International, Biosecurity 2002, Las Vegas, NV, November 18, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Press Association, Seminar on Food Safety Issues, Griffin, GA, November 22, 2002. Major food safety issues in the United States.

Invited presentation - Food and Drug Administration, Grand Round Workshop, Intervention Technologies for Controlling Microbial Pathogens in Foods. Washington, DC, December 3, 2002. Challenges in developing intervention technologies - Past, present and future.

Invited presentation - McDonald's, Food Safety Advisory Council, Chicago, IL, December 4, 2002. Emerging food safety issues.

Invited presentation - Food Safety Research Consortium, Launch of Consortium, Resources for the Future, Washington, DC, February 6, 2003. Need for the Food Safety Research Consortium.

Invited presentation - Griffin Rotary Club, Griffin, GA, February 13, 2003. Food safety issues in the news.

Invited presentation - U.S. Consultative Visit on Food Safety for Egyptian Organization for Standardization and Quality Control (USAID), University of Georgia Center for Food Safety, Griffin, GA, March 12, 2003. Food safety activities of the UGA Center for Food Safety.

Invited presentation - Nestlé Purina Food Safety Symposium, Peachtree City, GA, March 21, 2003. Microbiological concerns and issues at the retail level.

Invited presentation - Independent Retailers Combined Food Sales Clubs, 36th Annual Meeting, Anaheim, CA, March 26, 2003. Microbiological food safety issues at retail.

Invited presentation - University of Nebraska, *Escherichia coli* O157:H7 Governor's Conference, Lincoln, NE, April 7, 2003. Efficacy of *E. coli* isolates in reducing carriage of *E. coli* O157:H7 by cattle.

Invited presentation - Clemson University, Food Safety Symposium, Litchfield Beach, SC, April 10, 2003. A case history of *E. coli* O157:H7 as a foodborne pathogen.

Invited presentation - University of Tennessee, Topics on Microbial Pathogenesis Seminar Series, Knoxville, TN, April 21, 2003. Pathogenesis of *Escherichia coli* O157:H7 and reducing human infections.

Invited presentation - K Mart Food Safety Symposium, Troy, MI, May 2, 2003. Microbiological concerns and issues at retail.

Invited presentation - Institute of Medicine, Food Forum Symposium on Future Applications of Metabolomics, Washington, DC, May 6, 2004. Introduction of metabolomics.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, 2003 Federal/State Meeting, Arlington, VA, May 16, 2003. Testing produce for pathogens.

Invited presentation - American Society for Microbiology, Annual Meeting, "Salmonella - Where Does it Come From?" Symposium, Washington, DC, May 19, 2003. *Salmonella* from produce.

Invited keynote presentation - VTEC 2003, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* infections, Edinburgh, Scotland, June 10, 2003. Focusing on cattle to reduce the incidence of *Escherichia coli* O157:H7 infections in human.

Invited presentation - U.S. National Academy of Sciences, U.S.-Iranian Cooperation in Addressing Global Issues, Tourtour, France, June 23, 2003. Microbiological food safety issues in the USA.

Invited presentation - Armed Forces Medical Intelligence Center (AFMIC), Quadrilateral Meeting on Agriculture and Food Security (USA, Australia, Canada, England), Ft. Detrick, MD, June 27, 2003. Assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Poultry Federation, Summer Board Meeting, Ponte Vedra, FL, July 24, 2003. Control of *Listeria monocytogenes* in biofilms in floor drains with competitive exclusion bacteria.

Invited presentation and moderator - International Association for Food Protection Annual Meeting, *Listeria* Symposium, New Orleans, LA, August 11, 2003. Use of food safety objectives and other risk-based approaches to reduce foodborne listeriosis. Achieving continuous improvement in reductions in foodborne listeriosis: a risk-based approach.

Invited presentation - International Association for Food Protection, Annual Meeting, Symposium on Science-based shelf life dating of RTE refrigerated foods, New Orleans, LA, August 13, 2003. Microbiological concerns related to refrigerated ready-to-eat foods.

Invited presentation - Food Safety Research Consortium, Conference on "A Model for Evaluating and Ranking the Public Health Impact of Foodborne Hazards, Washington, DC, September 12, 2003. Perspectives on the issues.

Invited presentation - Nestlé Purina, Food Safety Symposium, Sedona, AZ, September 19, 2003. Microbiological issues at retail food outlets.

Invited keynote presentation - II Congreso Argentino de Microbiología de Alimentos, Argentinian Association of Microbiology Conference, Santa Fe, Argentina, September 25, 2003. Prevalence, testing methodologies, and significance of *Escherichia coli* O157:H7 and non O157:H7 in ground beef.

Invited presentation - McDonald's Food Safety Advisory Council, Fall Meeting, Conyers, GA, October 23, 2003. Emerging food safety issues that may affect the food service industry.

Invited presentation - Georgia Congressional Staff, 2003 Tour, October 24, 2003. Food safety issues and research.

Invited presentation - Meat Industry Research Conference, Worldwide Food Expo 2003, Chicago, IL, October 27, 2003. Controlling *Escherichia coli* O157:H7 in cattle drinking water.

Invited presentations and program chair - Food Safety Research Consortium, Food Attribution Data Workshop, Atlanta, GA, October 31, 2003. Best approaches for attributing food commodities to human foodborne illnesses.

Invited presentation - Ontario Food Protection Association, Annual Meeting, Toronto, ON, Canada, November 20, 2003. Emerging microbiological food safety issues.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, Winter Federal/State Meeting, McClellan, CA, December 3, 2003. The importance of testing produce for microbial pathogens.

Invited presentation - Cooperating for Food Safety, Workshop on Best Practices for Control of *E. coli* O157:H7 in Ground Beef, Chicago, IL, January 7, 2004. Key technical issues in the design of a certification system.

Invited presentation - Institute of Food Technologists, Chicago Section, Winter Meeting, Chicago, IL, February 9, 2004. *Listeria monocytogenes* in perspective.

Invited presentation - ABC Research Corporation, 30th Annual Technical Seminar, Gainesville, FL, February 18, 2004. Control of *Listeria monocytogenes* in floor drains with competitive exclusion bacteria.

Invited presentation - USDA, Cooperative State Research, Education and Extension Service (CSREES), Workshop on Pathogens in the Environment, Kansas City, MO, February 24, 2004. Contamination of food by pathogens in the environment.

Invited presentations, Co-Farm Meetings with Senate and House Staff on Homeland Security, Washington, DC, March 5, 2004. Agroterrorism: Security through prevention and preparedness.

Invited presentation - Wal-Mart, Food Safety Symposium, Bentonville, AK, March 10, 2004. Microbiological issues at retail food outlets.

Invited presentation - 5th ASEPT International Conference on Food Safety, Analyse des risques et *Listeria monocytogenes*/*Listeria monocytogenes* and Risk Analysis Conference, Laval, France, March 17-18, 2004. A risk-based approach to achieving continuous improvement in reductions in the incidence of foodborne listeriosis.

Invited presentation, 2004 Sam Nunn Policy Forum, Bioterrorism Preparedness: The Imperative for a Public-Private Partnership, Georgia Tech, Atlanta, GA, March 23, 2004. Securing the food chain from biohazards.

Invited Seminar, University of Georgia, Department of Poultry Science, Athens, GA, March 29, 2004. Optimizing defined competitive exclusion bacterial cultures to reduce *Salmonella* carriage by chickens.

Invited presentation/interview, British Broadcasting Company, Atlanta, GA, April 14, 2004. Microbiological food safety concerns associated with vegetables grown organically and under conventional conditions.

Invited keynote presentation, Cornell University, Cornell Veterinary Medicine Infection and Pathobiology Program's Spring Retreat, Ithaca, NY, April 23, 2004. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, 5th Food and Drug Administration - Center for Food Safety and Applied Nutrition, Food Safety and Food Security Extramural Research Annual Review, College Park, MD, May 6, 2004. Waveguide immunoassay for *Yersinia pestis*.

Invited convener/presentation, American Society for Microbiology 104th General Meeting, New Orleans, LA, May 24, 2004. Addressing the issue of antibiotic resistant foodborne bacteria through the application of risk assessment.

Invited presentation, Southern Association of State Departments of Agriculture (SASDA), Annual Conference, Athens, GA, Jun 14, 2004. Controlling foodborne pathogens with competitive exclusion bacteria.

Invited presentation, USDA-CSREES Workshop on Approaches to Predictive Modeling to Support a Framework to Prioritize Opportunities to Reduce Food Safety Risk, Iowa State University, Ames, IA, June 15, 2004. Issues regarding effective interventions in reducing foodborne illnesses.

Invited presentation, USDA-AMS 2004 Microbiological Data Program (MDP) Federal/State Meeting, Fairfax, VA, June 23, 2004. Importance of pathogen monitoring of produce.

Invited presentation, Food and Drug Administration Center for Veterinary Medicine, Alpharma Sponsor's Meeting, Expedited Review INAD 10-636, Rockville, MD, July 1, 2004. Importance of reducing "super shedders" of *E. coli* O157:H7 by cattle and methods available for detecting and quantifying *E. coli* O157:H7.

Invited presentation, Georgia Poultry Federation, Summer Board Meeting and Industry/Research Leadership Meeting, Ponte Vedra, FL, July 9, 2004. Defined competitive exclusion bacteria to reduce *Salmonella* carriage by poultry.

Invited presentation, The Foundation for American Communications and Institute for Food Technologists Reporting on Food Safety: From Product Development to the Consumer's Table, Las Vegas, NV, July 12, 2004. Specific challenges associated of reporting on food safety.

Invited keynote presentation, World's Poultry Science Association, USA Branch, Annual Meeting, St. Louis, MO, July 27, 2004. Reducing the carriage of foodborne pathogens in poultry and livestock.

Invited presentation, FoodPAC, 2004 Summer Steering Committee Meeting, Reidsville, GA, August 26, 2004. Biocontrol of *Listeria* in floor drains.

Invited presentation, University of Georgia College of Agricultural and Environmental Sciences Advisory Council Meeting, Griffin, GA, August 24, 2004. How the UGA Center for Food Safety serves Georgia, the Nation and the World.

Invited presentation, University of Georgia President Michael Adams' Program Review, Griffin Campus, Griffin, GA, August 25, 2004. Activities and accomplishments of UGA Center for Food Safety.

Invited presentation, Universiti Kebangsaan Malaysia (National University of Malaysia), Departments of Biotechnology, Food Science, Microbiology, Bangi, Selangor, Malaysia, September 3, 2004. Food safety challenges from farm to table and probiotics for Malaysia and beyond; strategies for R&D.

Invited presentation, Nestlé Purina-Copelan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 20, 2004. Microbiological concerns and issues at the retail level.

Invited presentation, Nestlé Purina-Copelan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 21, 2004. Emerging food safety issues.

Invited presentation, United States Office of Personnel Management, 4th Annual Countering Terrorism Symposium, San Diego, CA, September 23, 2004. Approaches to enhance the security of the US food supply.

Invited presentation, Georgia Congressional Staff Tour, Griffin, GA, October 15, 2004, Addressing food safety challenges at the UGA Center for Food Safety.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Chicago, IL, November 3, 2004. Emerging food safety issues that may affect the food service industry.

Invited presentation, U.S.-Japan Natural Resources Panel on Toxic Microorganisms, Annual Meeting, Atlanta, GA, November 11, 2004. Research Activities of the UGA Center for Food Safety.

Invited presentation, Emory University's Southeastern Center for Emerging Biologic Threats, Conference on Food- and Waterborne Infectious Disease Threats, Atlanta, GA, November 16, 2004. Foodborne disease threats of recent concern.

Invited presentation, Copper Development Association, Annual Meeting, Marketing Trends Forum, New York, NY, December 9, 2004. Approaches to continuous reductions in the incidence of salmonellosis, listeriosis, and *Escherichia coli* O157:H7 infections associated with foods.

Invited presentation, International Life Sciences Institute, Annual Meeting, New Orleans, LA, January 17, 2005. Achieving continuous improvement in reductions of listeriosis: identification and education of at-risk subpopulations.

Invited presentation, Food Processing Advisory Council (FoodPAC) Webcast, Atlanta, GA, February 16, 2005. Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant.

Invited presentation, Neogen Scientific Review Council, Biannual Meeting, Lansing, MI, March 9, 2005. The In's and Out's of *Listeria monocytogenes* and *Escherichia coli* O157:H7 in food testing.

Invited presentation, Society for General Microbiology, 156th Annual Meeting, Edinburgh, Scotland, April 7, 2005. Impact of verocytotoxin-producing *Escherichia coli* on the food chain.

Invited presentation, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, Atlanta, GA, April 26, 2005. Continuous improvement in reductions in foodborne listeriosis: Identification of approaches having the greatest impact.

Invited presentation, Food and Drug Administration - Center for Food Safety and Applied Nutrition, 6th Food Safety and Food Defense Extramural Research Grants Annual Meeting, College Park, MD, May 11, 2005. Waveguide immunoassay for *Yersinia pestis*.

Keynote lecture (Pre-dinner presentation), Campden & Chorleywood Food Research Association, Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 9, 2005. What you didn't know about the revelation of *E. coli* O157:H7 as a human and foodborne pathogen.

Keynote lecture, Campden & Chorleywood Food Research Association Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 10, 2005. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, AFB International, Seminar Series, St. Louis, MO, June 16, 2005. Probiotics to control pathogens in humans and animals.

Invited presentation, Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 14, 2005. Competitive exclusion bacteria treatment to control *Listeria* in floor drains of a ready-to-eat poultry processing plant.

Invited presentation, Institute of Food Technologists Annual Meeting, Council of Food Science Administrators, New Orleans, LA, July 18, 2005. Government Relations Committee activities.

Invited presentation, UGA Center for Food Safety, Air Liquide Research Update, Griffin, GA, July 22, 2005. Overview of the Center for Food Safety and competitive exclusion of foodborne pathogens.

Invited presentation, 2005 Joint Annual Meeting of American Society of Animal Science, American Dairy Science Association, Canadian Society of Animal Science, Food Safety Symposium, Cincinnati, OH, July 27, 2005. The future of food safety: An issue of national importance. foodborne illness and antibiotic resistance: Types, sources and extent of the problem.

Invited presentation, University of Georgia College of Agricultural and Environmental sciences Administrative Council Meeting, Griffin, GA, August 8, 2005. UGA Center for Food Safety research program.

Keynote lecture, Food and Drug Administration Center for Food Safety and Applied Nutrition, 2nd Annual Science Day, College Park, MD, August 10, 2005. Good science is the best foundation for effective decision making.

Keynote lecture, UKPOPNET Workshop: Population Dynamics of Human Pathogenic Microorganisms in Soil, University of Aberdeen, Aberdeen, Scotland, September 1, 2005. Contamination of foods by pathogens in the environment.

Invited lecture, Nestlé Purina Pet Care and Copesan Food Safety Symposium, Stone Mountain, GA, September 13, 2005. Microbiological concerns for the food retailer.

Invited lecture, Food Safety Research Consortium, Conference for Risk Ranking Foodborne Hazards, Washington, DC, September 14, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited presentation, Georgia Legislative Delegation, Education Meeting, Griffin, GA, October 12, 2005. UGA Center for Food Safety state, national and international activities.

Invited presentation, McDonald's Food Safety Advisory Council, Annual Meeting, St. Paul, MN, October 17, 2005. Emerging food safety and regulatory challenges related to food service products and operations.

Invited presentation, McDonald's Quality Symposium, Oak Brook, IL, October 24, 2005. How academia can assist the food industry in providing greater public health protection to foods.

Invited presentation, International Commission on Microbiological Specifications for Foods, the International Life Sciences Institute, the International Association for Food Protection and the Institute of Food Technologists, Symposium on Relating Microbiological Testing and Microbiological Criteria to Public Health Goals, Washington, DC, November 1, 2005. Potential advantages and pitfalls in public health-derived microbiological criteria.

Invited commenter, ABC Good Morning America, News Story, New York, NY, November 6, 2005. Shelf life of foods.

Invited lecture, U.S. Poultry and Egg Association, Food Safety Conference on Attribution of Salmonellosis, Atlanta, GA, December 8, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited convener and presentations, Institute of Medicine, Food and Nutrition Board and Food Forum Workshop on Challenges in Managing Food-Derived Risk, Washington, DC, December 13, 2005. Introduction and Workshop Summary - Managing food contaminants at low levels: What tools do we have and common metric to compare risks: Defining the problem.

Invited convenor and presentation, International Life Sciences Institute, Annual Meeting, San Juan, Puerto Rico, January 17, 2006. Introduction - Chasing zeros: Prioritizing responses to unexpected contaminants in foods.

Invited lecture - U.S. Poultry Food Safety Advisory Board, Atlanta, GA, January 25, 2006. Food safety activities of the Food Safety Research Consortium.

Invited lecture - Georgia Association for Food Protection, Griffin, GA, February 9, 2006. Controlling *Listeria* in drains in food processing plants.

Invited presentation - Georgia Food Processing Advisory Council (FoodPAC), Atlanta, GA, February 24, 2006. Chemical intervention treatments to inactivate foodborne pathogens on poultry.

Invited presentation - U.S. Department of Agriculture-Agricultural Marketing Service, Richmond, VA, March 29, 2006. The challenges associated with producing microbiologically safe fruit and vegetables.

Invited presentation - Institute of Food Research (IFR) Seminar Series, Norwich, England, April 6, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited presentation - Gold Kist, Avian Influenza Seminar, Atlanta, GA, April 12, 2006. Food safety concerns regarding avian influenza.

Invited lecture - National Chicken Council/U.S. Poultry and Egg Association Food Media Seminar, Philadelphia, PA, April 24, 2006. Update on Avian influenza.

Invited lecture - Georgia Poultry Processors Association Meeting, Griffin, GA, April 25, 2006. Avian influenza virus and food safety.

Invited lecture - Georgia Department of Human Resources, 1st Annual Georgia Food Safety Task Force Conference, May 5, 2006, Macon, GA. Laboratory role in foodborne outbreaks - Academic food safety laboratory.

Invited keynote lecture - Zaxby's Annual Conference, Las Vegas, NV, May 8, 2006. Avian influenza and food safety.

Invited lecture - University of Minnesota, Forum on Ethical Guidelines for External Support of University Initiatives, St. Paul, MN, May 11, 2006. Novel approaches for external funding of university activities.

Invited lecture - National Restaurant Association, Annual Meeting, Chicago, IL, May 20, 2006. Avian influenza and food safety.

Invited lecture - Montana State University, Center for Biofilm Engineering, Technical Advisory Conference, June 20, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited lecture - Institute of Food Technologists, Food Science Communicators Meeting, Orlando, FL, June 24, 2006. Antimicrobial resistance - Implications for the food system.

Invited lecture - Institute of Food Technologists, Annual Meeting, Orlando, FL, June 26, 2006. Antimicrobial resistance: Implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Antimicrobial resistance and its implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Avian influenza virus and its implications for food safety.

Invited comments - Georgia Poultry Federation Annual Meeting, Ponte Vedra, FL, July 14, 2006. Avian influenza virus and food safety issues associated with the poultry industry.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Pathogenic *E. coli* on fresh produce.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Challenges associated with isolating pathogens from foods.

Invited lecture - 52nd International Congress of Meat Science and Technology, Dublin, Ireland, August 15, 2006. Emerging microbiological food safety issues related to meat.

Invited keynote lecture - Steritech Food Safety Horizons Conference, Charlotte, NC, August 28, 2006. Microbiological food safety issues associated with imported foods.

Invited lecture - Association of Food and Drug Officials of the Southern States, Fall Meeting, Gatlinburg, TN, September 12, 2006. Pandemic flu preparedness.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Avian influenza and food safety.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Microbiological concerns at the deli.

Invited lecture - Illinois Department of Public Health, Peoria, IL, September 20, 2006. Are all critical violations alike?

Invited lecture - National Chicken Council, Washington, DC, October 5, 2006. Avian Influenza: Global and domestic perspectives.

Invited lecture - Autonomous University of Nuevo Leon, Annual International Food Safety Congress, Monterrey, Mexico, October 9, 2006. *E. coli* O157:H7 and fresh produce.

Invited keynote lecture - 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), Melbourne, Australia, October 30, 2006. Transmission of Verotoxin-Producing *E. coli* by food.

Invited presentation - Tanzanian Ministry of Agriculture, Program Overview, Griffin, GA, November 10, 2006. Structure and activities of the UGA Center for Food Safety.

Invited lecture - International Bayer Expert Forum on Animal Health and Food Safety, Hanover, Germany, November 15, 2006. Antimicrobial resistance: Implications for the food system.

Invited lecture - Praxair, Chicago, IL, November 21, 2006. *E. coli* O157:H7 and strategies for intervention in food processing.

Invited special lecture - Institute of Medicine Food and Nutrition Board Fall Meeting, Washington, DC, December 15, 2006. Microbiological food safety issues that may affect dietary changes.

Invited lecture (Guest Speaker) - U.S. Department of Agriculture - National Agriculture Research, Education, Extension and Economics Advisory Board (NAREEEAB) Spring Meeting, Washington, DC, March 8, 2007. USA federal food safety research and education needs.

Invited lecture - Georgia Board of Registered Health Professionals Annual Meeting, Griffin, GA, March 16, 2007. *E. coli* O157 in produce.

Invited lecture - Animal Agriculture Alliance, 6th Annual Meeting, Washington, DC, March 20, 2007. CAFO's: What's the fuss about antibiotics.

Keynote address - National Institute for Animal Agriculture, Symposium on Impacts of Animal Production Safety Practices on the Food Supply, Sacramento, CA, April 5, 2007. Foodborne illnesses and antibiotic resistance associated with zoonotic pathogens.

Invited lecture - Georgia Institute of Technology, School of Electrical and Computer Engineering Seminar, Atlanta, GA, April 17, 2007. U.S. food safety issues and research needs from a food industry perspective.

Keynote address - Southern Section of the Association of Official Analytical Chemists International, 21st Annual Meeting, Atlanta, GA, April 23, 2007. Global microbiological food safety issues before use.

Invited lecture - Northeast Food & Drug Officials Association (NEFD OA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. Food safety concerns of avian flu virus.

Invited lecture - Northeast Food & Drug Officials Association (NEFD OA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. *E. coli* O157 in fresh produce.

Invited lecture - Federation of Animal Science Societies, 2007 FASS Symposium, Washington, DC, May 14, 2007. Institute of Food Technologists review of antibiotic resistance.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 23, 2007. Symposium - Antibiotic resistance: A summary and recommendations from the Institute of Food Technologists Expert Panel.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 24, 2007. Symposium - Implications from the spinach outbreak for industry, research needs.

Invited lecture - Illinois Institute of Technology National Center for Food Safety and Technology-UGA Workshop on the Role of Testing in the Safety of Fresh Produce, Oak Lawn, IL, May 30, 2007. Public health issues associated with fresh produce: Scientific questions.

Invited lecture - Alabama Department of Public Health, 2007 Alabama Agricultural Security Conference, Birmingham, AL, June 12, 2007. Domestic and global microbiological food safety issues before us.

Invited lecture - Society for Applied Microbiology, Summer Conference, Cardiff, Wales, UK, July 3, 2007. The problems with fresh produce - An overview.

Keynote address - International Association for Food Protection - BioMerieux, 6th Annual Scientific Symposium, Orlando, FL, July 10, 2007. Challenges in producing a pathogen-free fresh-cut product.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 10, 2007. Symposium on Microbial Biofilms and Biofilm Control - Biologic control of biofilms.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 11, 2007. Symposium on food Safety Laws: Political Science or Food Science - National Academy of Sciences - Academic Viewpoint.

Invited lecture - Georgia Environmental Health Association, 2007 Conference, Helen, GA, July 13, 2007. Global microbiological food safety issues before us.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Bacteriophage as an antilisterial treatment in ready-to-eat meats - Use of bacteriophage to control foodborne pathogens in foods.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 31, 2007. Symposium on Farm-to-fork agro-management - Issues associated with the microbiological safety of fresh and fresh-cut produce.

Invited lecture Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Control of antibiotic-resistant pathogens in the food supply - IFT Expert Panel report on Antimicrobial Resistance: Implications for the Food System.

Invited lecture - Shanghai Institute for Food and Drug Control, Visit to UGA Center for Food Safety, Griffin, GA, August 21, 2007. Microbiological food safety issues in the United States and globally.

Invited lecture - National Coalition for Food and Agricultural Research, National C-FAR, Seminar Series for Policymakers and Congressional Staff, Washington, DC, September 10, 2007. From wild pigs and spinach to tilapia and Asia: Current food safety microbiological concerns of fresh produce and microbiological issues associated with imported foods.

Keynote address - Canadian Meat Council-American Meat Institute, Symposium on Advances in Antimicrobial Interventions for Quality Control of Meat and Poultry Products, Toronto, Ontario, Canada, September 13, 2007. Advances in antimicrobial interventions - A key to meat quality and safety.

Keynote address - Association of Food and Drug Officials of the Southern States, Fall Conference, Gatlinburg, TN, September 17, 2007. Global microbiological issues before us.

Invited lecture - Nestle Purina Group, Food Safety Symposium, Peachtree City, GA, September 18, 2007. Microbiological concerns and issues at retail food outlets.

Invited lecture - Food Processing.com/CDC Software (Ross Enterprise), Podcast, September 27, 2007. The true business impact of food safety & recalls.

Keynote address - McDonald's, Sanitation & Food Safety Workshop, Oak Brook, IL, October 9, 2007. Food safety issues impacting the industry.

Keynote address - Canadian Federal Food Safety and Nutrition Research Meeting 2007, Winnipeg, Manitoba, Canada, October 19, 2007. From wild pigs and spinach to tilapia and Asia: Current microbiological food safety concerns.

Invited lecture - KonKuk University, College of Veterinary Medicine, Seoul, South Korea, October 25, 2007. Microbiological food safety issues associated with fresh produce and imported foods.

Invited presentation - GangaGen, Scientific Advisory Board Meeting, Bangalore, India, October 29, 2007. Food safety and animal health: *E. coli* O157, *Salmonella*, *Campylobacter* and fowl typhoid.

Keynote address - 2nd International Conference for Food Safety and Quality (HACCP.com), San Francisco, CA, November 6, 2007. Current issues of food safety facing food industries.

Invited lecture - GangaGen Life Sciences, Ottawa, Ontario, Canada, November 9, 2007. Microbiological food safety research needs.

Invited presentation - National Academy-Institute of Medicine, A Forum for Iranian and American Experts - Food Safety and Microbiology: An Exchange of Ideas and Experiences, Washington, DC, November 15, 2007. Future opportunities for collaboration.

Presentation - U.S. Department of State, International Visit Leadership Program, Iranian Food Safety and Microbiology Scientists, Visit to UGA-Center for Food Safety, Griffin, GA, November 26, 2007. Food safety issues in the United States and research addressing food safety at UGA-CFS.

Invited presentation - Kiwanis Club of Griffin, Annual Farm/City Week Luncheon, Griffin, GA November 21, 2007. Food safety issues associated with fresh-cut produce and imported foods.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 12, 2007. Insights on potential regulatory changes and impact to ensure a safe food supply.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 13, 2007. Prevalence of *E. coli* O157:H7 and other STEC globally.

Invited lecture - University of Georgia, College of Public Health and Biomedical and Health Sciences Institute, Community Lecture on Public Health Issues, Athens, GA, January 29, 2008. Is our food safe to eat?

Invited presentation - Shanghai Fisheries University, Shanghai, China, Chinese delegation, (presentation at UGA, Griffin), January 29, 2008. Activities of the UGA Center for Food Safety.

Invited lecture - American Association for the Advancement of Science (AAAS), Annual Meeting, Symposium on How the Bugs Come Back and Bite Us: The Rise of Agricultural Pathogens, Boston, MA, February 17, 2008. The versatile *Salmonella*: contaminating cantaloupes, peanut butter, chocolate, and sprouts.

Invited keynote lecture - 3rd Dubai International Food Safety Conference, Dubai Municipality, Dubai, United Arab Emirates, February 25, 2008. Food safety management: present and future.

Invited presentation - The 2008 Food Safety & Security Summit, Washington, DC, March 19, 2008. Enhanced food safety for fresh-cut produce.

Invited presentation - U.S. Food and Drug Administration, Draft Compliance Policy Grade Sec: 555.320 *Listeria monocytogenes* Public Meeting, College Park, MD, March 28, 2008. Foods that do and do not support growth of *Listeria monocytogenes*.

Invited presentation - International Poultry Council, Spring Meeting, Madrid, Spain, April 4, 2008. A consensus concerning *Salmonella*.

Invited presentation - Taco Bell, 2008 Supplier Summit, Irvine, CA, April 23, 2008. Putting the STEC in meat issue in perspective.

Invited presentation - New York Academy of Sciences, Symposium on “Roots of Foodborne Illnesses: Health Threats from Domestic and Imported Product,” New York, NY, April 21, 2008. From wild pigs and spinach to tilapia in Asia: Current microbiological food safety concerns.

Invited presentation - FoodPAC, Steering Committee Meeting, Athens, GA, May 1, 2008. Reduction of *Salmonella* in preharvest poultry

Invited presentation - DRI-The Voice of the Defense Bar, Food Liability: Defending the Industry Seminar, Chicago, IL, May 8, 2008. Is a foreign food product the source or not?

Invited presentation - American Society for Microbiology 108th Annual General Meeting, Emerging Issues in Food Safety: Impact of Globalization of the Food Supply Symposium, Boston, MA, June 2, 2008. Global issues associated with the microbial safety of food.

Invited presentation - European Food Safety Authority, Conference on “Future Challenges to Microbial Food Safety,” Wolfheze, The Netherlands, June 9, 2008. Microbiological food safety threats: What have we learned and what’s in the future?

Invited presentation - American Society for Microbiology, Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens, Copenhagen, Denmark, June 16, 2008. Food processing interventions to minimize bacterial contamination.

Invited presentation - National Foundation for Infectious Diseases, 2008 Annual Conference on Antimicrobial Resistance, Symposium on Resistance Pathogens in Foods We Eat, Bethesda, MD, June 24, 2008. Interventions to prevent contamination of foods we eat.

Invited presentation - Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 21, 2008. *Salmonella* control in poultry.

Invited presentation, Georgia Environmental Health Association, Annual Educational Conference, Helen, GA, July 11, 2008. Microbiological food safety issues associated with imported foods.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, Special Session, Round Table on Leafy Greens: An Integrated Risk Management Approach, Columbus, OH, August 5, 2008. A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, bioMerieux Scientific Symposium, Columbus, OH, August 5, 2008. Significance of non-O157 Shiga toxin-producing *E. coli* (STEC) as foodborne pathogens.

Invited keynote lecture, International Association for Food Protection, 95th Annual Meeting, John H. Silliker Lecture, Columbus, OH, August 6, 2008, From wild pigs in spinach to tilapia in Asia: The challenges of the food safety community.

Invited presentation, University of Georgia-Centers for Disease Control and Prevention, Research Collaboration Conference, Athens, GA, August 19, 2008. Food safety and food security.

Invited podcast, CDC Software, Atlanta, GA, August 21, 2008. The true business impact of food safety and recalls.

Invited presentation, Mars, Inc., Presidents Group, McLean, VA, September 3, 2008. Food safety risk management.

Invited presentation/panel discussion, Paragon Growth Services, Dallas, TX, September 4, 2008. Forum on the antimicrobial Micro Be Gone.

Invited moderator/presentation. Institute of Medicine Food Forum Workshop. Managing Food Safety Practices from Farm to Table, Washington, DC, September 9, 2008. Future Solutions: Where Do We Go From Here?

Invited presentation, Fresh Express Safety Research Conference, Monterey, CA, September 11, 2008. Subsurface contamination and internalization of *Escherichia coli* O157:H7 in preharvest lettuce.

Invited presentation, International Poultry Council, Fall Meeting, Beijing, China, September 25, 2008. An update on the global *Salmonella* study.

Invited presentation, Georgia Department of Economic Development, UGA Faculty of Infectious Diseases Briefing, Athens, GA, September 30, 2008. UGA Center for Food Safety outreach and research activities.

Invited presentation, McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, October 9, 2008. Overview of food safety issues facing the food service industry.

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Town Hall Meeting, Orlando, FL, October 24, 2008, A candid discussion of foodborne disease investigations: What's ahead for produce safety?

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Ask the Expert, Orlando, FL, October 25, 2008, Food safety education and produce safety issues.

Invited presentation - University of Maryland Joint Institute for Food Safety and Applied Nutrition and International Life Sciences Institute, Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns Workshop, College Park, MD, November 18, 2008. Multi-sector perspectives on dietary exposure assessment tools.

Invited presentation, Sensient Technologies, Milwaukee, WI, December 3, 2008. The safety of food ingredients: Challenges and opportunities.

Invited presentation, Centers for Disease Control and Prevention, Exploring the Isolation of *Clostridium difficile* from Meat Workshop, Atlanta, GA, December 16, 2008, Microbiological issues associated with detection *C. difficile* in meat.

Invited presentation, Mars, Inc., Mars Scientific Advisory Council Annual Meeting, New York, NY, January 6, 9, 2009, Food Safety.

Invited presentation, National Chicken Council, Technical and Regulatory Committee Meeting, Arlington, VA, February 19, 2009. Establishing a World Class Approach to Food Safety.

Keynote presentation. Chicago Section of the Institute of Food Technologists, Des Plaines, IL, March 10, 2009, Global Food Safety from a Microbiologist's Point of View.

Invited presentation, American Peanut Council, Washington, DC, March 12, 2009. Microbiological Safety of Processed Peanut Products.

Invited presentation. 13th International Conference on Emerging Infectious Diseases of the Pacific Rim: Focus on Enteric Diseases, Kolkata (Calcutta), India, April 7, 2009, An Explosion of Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation. 12th World Congress on Public Health, Istanbul, Turkey, April 29, 2009. A Global View of Food Safety.

Invited presentation. Atlanta Association of Healthcare Journalists, Atlanta, GA, May 19, 2009. High Risk Foods of Recent Concern.

Invited presentation. General Mills, Minneapolis, MN, May 28, 2009. The Safety of Food Ingredients: Challenges and Opportunities.

Invited presentation. National Confectioners Association and American Peanut Council Webinar on Nut Handling and Processing for Confectioners and Small Nut Processors, June 2, 2009. The Microbiology of Nuts.

Invited presentation. USA Peanut Congress (American Peanut Council and American Peanut Shellers Association), Amelia Island, FL, June 22, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. U.S. Department of Agriculture, Cooperative State Research Education and Extension Service, Grapevine, TX, July 11, 2009. A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh-cut Leafy Greens.

Invited presentation. Mars Inc., Mars Scientific Advisory Council, Waltham, England, July 28, 2009. Rapid Methods for Detecting *Salmonella* in Foods.

Invited presentation. Institute of Medicine Food Forum, Forum on Reducing Sodium in the Food Supply, Washington, DC, August 5, 2009. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited Keynote presentation. 63rd Annual Meeting of the Southern Legislative Conference, Winston-Salem, NC, August 15, 2009. Food Safety in Transition.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States National Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Opening Address.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Risk Assessment Perspectives from the United States.

Invited presentation. Grocery Manufacturers Association, Executive Conference, Colorado Springs, CO, August 31, 2009. Food Safety in the 21st Century: What Will It Take to Make Real Progress; Food Safety Challenges that May Keep You Awake at Night.

Invited presentation. National Pecan Shellers Association, 2009 Annual Meeting, Chicago, IL, September 11, 2009. Good Manufacturing Practices for Processing Nuts.

Invited Keynote presentation. Association of Food and Drug Officials of the Southern States, Fall Educational Conference 2009, Gatlinburg, TN, September 14, 2009. From Cookie Dough to Fruits and Nuts: The Challenges of Keeping *Salmonella* under Control.

Invited presentation. 2009 Georgia Peanut Tour (Georgia Peanut Commission), Hot Topics on Peanuts Symposium, Douglas, GA, September 15, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. 2009 Agri-Leaders Forum, Griffin, GA, September 16, 2009. Current Food Safety Issues.

Invited presentation, Frito Lay Quality College, Webinar, October 8, 2009. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, The Israeli Presidential Conference 2009. Facing Tomorrow (Futuring Conference), Jerusalem, Israel, October 22, 2009. What Will We Eat Tomorrow? An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oak Brook, IL, October 27, 2009. Key Food Safety Topics for the McDonald's System.

Invited presentation, Institute of Medicine Food Forum, Providing Healthy and Safe Foods as We Age Workshop, Washington, DC, October 29, 2009. Processing and Formulation Advances to Decrease Food Safety Risks.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 3, 2009. The Increasing Challenges to Ensuring Safe Foods Globally.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 4, 2009. Decreasing Food Safety Risks Through Advances in Processing and Formulation.

Invited Keynote presentation, 2009 Food Safety and Public Policy International Conference and 5th International Forum on Food Safety, Shanghai, China, November 9, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited Keynote presentation, 2009 Ohio State University Harris Award Lecture, Columbus, OH, November 5, 2009. From Burgers to Tilapia: The Increasing Challenges to Ensuring Safe Foods.

Invited Keynote presentation, 2009 Mini-Summit: Food Safety and Trade Initiative, Shanghai Ocean University, Shanghai Academy of agricultural Sciences and University of Georgia. Athens, GA, November 23, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Centers for Disease Control and Prevention, Annual Grand Rounds, Atlanta, GA, December 17, 2009. Foodborne Disease: Better Prevention by Improving Surveillance and Investigation - A Perspective on the Food Industry.

Invited plenary presentation, Legislative Agriculture Chairs Summit 2010, Council of State Governments and State Agriculture and Rural Leaders, Orlando, FL, January 17, 2010. The Role of States in Food Safety.

Invited presentation, Atlanta Media Event, University of Georgia, Atlanta, GA, January 21, 2010. Food Safety Updates and Pending Food Safety Policy Changes.

Invited presentation, International Life Sciences Institute Annual Meeting, Rio Grande, Puerto Rico, January 25, 2010. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited presentation, 2010 Georgia Ag Forecast, University of Georgia College of Agricultural and Environmental Sciences, Macon, GA, January 29, 2010. The Changing Face of Food Safety in the United States.

Invited presentation, Assuring Safety of Imported Foods: Public and Private Roles in a Risk-based System Workshop, The Food Safety Research Consortium and the University of Florida Emerging Pathogens Institute, Washington, DC, February 1, 2010. Tools and Approaches to Evaluating Risk and Targeting Resources.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 10, 2010. Need for Effective, Internationally Accepted Food Safety Management Systems.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), Cornell University, Rochester, NY, February 19, 2010. Composting Criteria for Animal Manure.

Invited presentation, Seminar Series, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, February 22, 2010. Research Activities at the University of Georgia Center for Food Safety.

Invited presentation, Seminar, Kagoshima University (Japan), Griffin, GA, March 10, 2010. Food Safety Research Activity of the UGA Center for Food Safety.

Invited presentation/panelist, 2010 Food Safety Education Conference, U.S. Department of Agriculture and National Sanitation Foundation, March 24, 2010. Causes and Casualties: Gathering, Analyzing, and Learning from the Data.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. Composting Criteria for Animal Manure.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. The Importance of Produce Safety Management Practices to Enhancing Public Health.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Maryland, College Park, MD, April 7, 2010. Composting Criteria for Animal Manure.

Invited presentation, Education Day, Griffin Chamber of Commerce Leadership Class, Griffin, GA, April 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Seminar Series, U.S. Department of Agriculture – Agricultural Research Service, Wyndmoor, PA, April 12, 2010. Gaps in Producing Microbiologically Safe Produce.

Invited presentation, Health Journalism 2010, Association of Health Care Journalists, Chicago, IL, April 23, 2010. Why Is It So Difficult to Prevent Foodborne Illnesses?

Invited keynote presentation, 1st Korean International Conference on Food Safety and Quality, Seoul, South Korea, April 28, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Scientific Advisory Council Meeting, Solae, St. Louis, MO, May 5, 2010. Food Safety in the Plant – Best Practices in the Industry.

Invited presentation/moderator, Development of Dietary Guidance for Non-nutrient Dietary Components Meeting, Institute of Medicine Food Forum and International Life Sciences Institute - North America, Washington, DC, June 8, 2010. Discussion of Opportunities for Providing Dietary Guidance for Non-nutrient Dietary Components.

Invited keynote presentation, Frito-Lay Co-manufacturing Quality Summit, Dallas, TX, June 9, 2010. Charting the Course for Ensuring the Manufacture of Safe Food.

Invited presentation, USA Poultry and Egg Export Council Executive Conference and Annual Meeting, Austin, TX, June 18, 2010. International Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Produce Research Symposium, University of California – Davis Center for Produce Safety, Davis, CA, June 24, 2010. Composting Criteria for Animal Manure.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, May 27, 2010. Industry Challenges for Food Safety for Next 5 Years.

Invited keynote presentation, Frito-Lay Quality College, Dallas, TX, July 14, 2010. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, Oscar Mayer Meat Science Summit, Madison, WI, July 22, 2010. "Natural" Approaches to Mitigating Foodborne Pathogen Contamination of Meats.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. Ecology of *Listeria monocytogenes*: Factors that Make This Microbe an Effective Foodborne Pathogen.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. New Technologies to Control Listeriae Contamination of Foods.

Invited plenary lecture, 22nd International Congress on Microbiology and Food Hygiene (ICMFH), Food Micro 2010 Congress, Copenhagen, Denmark, September 2, 2010. Microbial Behavior in Food Production.

Invited presentation, Food Safety Briefing, U.S. Representative John Barrow (Savannah, GA) and Staff, Athens, GA, September 13, 2010. Food Safety Challenges for the Food Industry: Opportunities for Government Involvement.

Invited presentation, Scientific Food Safety, Webinar, USDA – Food Safety Inspection Service, The Office of Public Health Science and The Office of Outreach, Employee Education and Training, Washington, DC, September 15, 2010. Reducing Pathogen Contamination on the Farm.

Invited keynote presentation, Nation's Restaurant News Food Safety Symposium, Charlotte, NC, September 20, 2010. Food Safety Challenges: Greater Than Ever and Growing.

Invited presentation, 2010 Food Safety Symposium, Nestle Purina PetCare Company, Englewood, CO, September 27, 2010. Food Safety Challenges for the Industry: Greater Than Ever and Growing.

Invited presentation, Plant Foods for Human Health Symposium, Healthy Foods, Healthy Lives Institute, University of Minnesota, St. Paul, MN, September 30, 2010. Plant Food Safety Issues.

Invited presentation, Food Safety Advisory Council Meeting, McDonald's, Oak Brook, IL, October 11, 2010. Emerging Food Safety Challenges and Opportunities.

Invited presentation, Seminar Series, Center for Drug Discovery, University of Georgia, Athens, GA, October 18, 2010. A Unique and Effective Antimicrobial Treatment for Foods with Medical Applications.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, November 10, 2010. Strategies for Promoting Food Safety Globally.

Invited presentation, Seminar Series, Gwinnett County Environmental Health Department, Gwinnett, GA, November 22, 2010. An effective food wash for decontaminating produce and poultry.

Invited presentation/interview, WKEU Radio, Griffin, GA, November 23, 2010 (90 minutes). What's New in Food Safety?

Invited presentation, Seminar Series, U.S. Food and Drug Administration, College Park, MD, December 7, 2010. Opportunities for Raising the Bar for Food Safety.

Invited presentation, Core Seminar Series, Ecolab, St. Paul, MN, December 16, 2010. Food Safety Challenges for the Food Industry: Greater Than Ever and Growing.

Invited presentation, American Farm Bureau Federation Tour, January 7, 2011. Research Activities at the Food Safety Challenges for the Industry: Greater than Ever and Growing.

Invited presentation, Food Processing Media Tour, Georgia Department of Economic Development, Atlanta, GA, March 16, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Drinking Raw Milk.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Eating Fresh Produce.

Invited presentation, Center for Food Safety Annual Meeting, Atlanta, GA, March 1, 2011. Tribute to Bruce Cords.

Invited presentation, General Mills Internal Technical Conference, Minneapolis, MN, March 3, 2011. Microbiological Food Safety Challenges for Produce Developers.

Invited presentation, International Poultry Council Spring Meeting, Rome, Italy, April 7, 2011. International Expert Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Georgia Council for International Visitors, Pakistan Scientists, Griffin, GA, May 6, 2011. Research Activities at the UGA Center for Food Safety.

Invited keynote presentation, Symposium, American Society for Microbiology Annual Meeting, New Orleans, LA, May 23, 2011. The Food Safety Risks Associated with a Global Food Supply.

Invited Media Interview, American Society for Microbiologists Annual Meeting, New Orleans, LA. May 23, 2011. Impact of Globalization on the Food Supply.

Invited Member/presentation, Solae Science Advisory Board, St. Louis, MO, May 24, 2011. Food Safety & Modernization Act & FDA's Reportable Food Registry: Perspective for Food Ingredient Suppliers.

Invited keynote presentation, NSF Workshop, Atlanta, GA, June 16, 2011. Current Issues in Food Safety and
02/2015

the Need for Rapid Pathogen Detection.

Invited keynote speaker, U.S. Food and Drug Administration's 1st Annual Foods Program Science and Research Conference. Washington, DC, June 22, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges

Invited presentation, Radio Interview, WKEU, Griffin, GA, June 23, 2011. Food Safety.

Invited presentation, Girl Scouts of Greater Atlanta Robotics Team Food Safety Tour, Griffin, GA June 23, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, IAFP 2011 Annual Meeting, Milwaukee, WI, August 3, 2011. Microbiological Safety of Spices: A Paradigm Shift.

Invited presentation, ConAgra Foods Food Safety Advisory Council, Chicago, IL, August 10, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited Lecturer, Association of Food and Drug Officials of the Southern States, Fall 2011 Conference, Gatlinburg, TN, September 13, 2011. The Changing Dynamics of the U.S. Food Supply.

Invited Seminar Presentation, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, September 19, 2011. Reducing *Salmonella* contamination with levulinic acid and a surfactant.

Invited Presentation, Nestlé Purina PetCare Food Safety Symposium, Denver, CO, September 27, 2011. Future Trends in Food Safety.

Invited Keynote presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, October 3, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges?

Invited presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, "Afternoon of Science" Workshop. October 3, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oakbrook, IL, October 19-20, 2011. Current Topics in Food Safety.

E. coli FAQ Report Invited contributor. American Society for Microbiology, Washington, DC, 2011.

Invited presentation, Conference on Emerging and Persistent Infectious Disease: Focus on Mitigation, Institute on Science for Global Policy, Edinburgh, Scotland, October 23-26, 2011. The public health significance of food safety.

Invited presentation, EPS Montreal International Gene Conference, Montreal, Quebec, Canada, November 3-4, 2011. Reducing the Carriage of Food borne Pathogens in Livestock and Poultry.

Invited panelist and presentation, Les Dames d'Escoffier International Conference, Atlanta, GA, November 4, 2011. What Not to Eat Today: Allergens, Pathogens, Toxins! Oh My!

Invited keynote presentation, 6th International Conference for Food Safety and Quality, Chicago, IL, November 8, 2011. The Importance of Detection Methods for Food Safety and Quality.

Invited keynote presentation and Invited Panel Member, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 19, 2011. Public Health and Microbiology Food Safety Challenges for the Food Industry.

Invited presentation, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 20, 2011. Antibiotic Resistance: Implications for the Food System.

Invited Speaker, FDA, CDC, USDA FSIS, USDA ARS, and USDA CNPP Public Meeting, Silver Spring, MD, November 10, 2011. Approaches to Reducing Sodium Consumption.

Invited presentation, Institute of Medicine/Forum on Microbial Threats. Washington, DC, December 13-14, 2011. Plant Food Safety Issues: Linking Production Agriculture with One Health.

Invited presentation, UGA Support Group, Athens, GA, January 12, 2012. UGA Center for Food Safety's Leadership Role in Advancing Food Safety Issues Nationally and Internationally.

Invited presentation, Food Safety Workshop, "Human Pathogens on Plants: Multidisciplinary Strategy for Research," University of Maryland, Hyattsville, MD, February 13-15, 2012.

Invited presentation, Bettcher Industrial/Gainco Industry Council, Atlanta, GA, March 9, 2012. Food Safety: Impact of New Food Safety Regulations including the Food Safety Modernization Act and *Salmonella* Initiative on the Food and Beverage Industry.

Invited Symposium presentation, 63rd North Central Avian Disease Conference, St. Paul, MN, March 12-13, 2012. Controlling Foodborne Bacterial Pathogens in Poultry.

Invited speaker, Massachusetts Institute of Technology Journalists' Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 27-30, 2012. Food Safety – A glimpse at the future.

Invited keynote speaker. Georgia Food Safety Defense Task Force, Decatur, GA, April 5, 2012. "VoluntaryNet: A CDC-Food Industry-UGA Center for Food Safety Food Safety Collaboration.

Invited presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012, "Food additives: Challenges while delivering food safety."

Invited keynote presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012. "A glimpse at the future of food safety."

Invited presentation, Institute of Medicine, National Academies of Science Workshop on Environmental Externalities and Public Health Effects of Food Products. Washington, DC, April 23-24, 2012. Public health consequences of antimicrobial resistance.

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2012. The ecology of safe

food.

Invited Expert. Radio Station WKEU, Griffin, GA, Asian Fish Imports, 2012.

Invited presentation, American Association for Dental Research, 2012, A novel formulation effective in killing oral biofilm bacteria, Tampa, FL.

Invited presentation, 10th Fumigants & Pheromones Conference & Workshop, “Pest Management Around the World.” Indianapolis, IN, May 16-18, 2012. The Changing Dynamics of the US Food Supply and Major Food Safety Implications.

Invited presentation and convener, ASM Annual Meeting Special Interest Symposium. San Francisco, CA, June 17, 2012. Striking the balance in fresh product: Food safety, animal control, water sourcing and environmental impact – research issues in microbiology.

Invited Presentation, ASM General Meeting, San Francisco, CA, June 17, 2012. “Produce Safety – A growing public health concern?”

Invited Keynote Dinner Presentation, Global ATM Summit, The Solae Company, , St. Louis, MO , June 21, 2012. “Food/ingredient safety issues and trends.”

Invited presentation, IFT Annual Meeting, Las Vegas, NV, June 24-28, 2012. Improving the Safety of Fresh Produce: An Integrated Approach.

Invited Reviewer, “Biotechnological approaches for control of *Listeria monocytogenes* in foods,” Current Biotechnology,” June 2012.

Invited video presentation, World Food Prize Borlaug Medallion video. June 2012. UGA Center for Food Safety Research,

Invited Presentation, Georgia Poultry Federation, Ponte Vedra Beach, FL, July 19, 2012. Reducing *Salmonella* contamination of Poultry with levulinic acid and a detergent.

Invited presentation, 2012. World Poultry Congress, Salvador, Bahia, Brazil, August 5-8, 2012. The Next Generation of Microbiological Testing of Foods.

Invited presentation, CAES Advisory Council, Griffin, GA, August 15, 2012, “The changing dynamics of the U.S. food supply and major food safety challenges.”

Invited presentation, CDC PulseNet/OutbreakNet Conference, Atlanta, GA, August 27-30, 2012. An Academic’s Perspective on the Food Industry to Ensuring Safe Foods.

Invited presentation, Nestlé Purine PetCare Company, Food Safety Symposium, Englewood, CO, September 24-27, 2012. Future Trends in Food Safety: The Changing Dynamics of the U.S. Food Supply and Major Food Safety Challenges.

Invited presentation, UGA Center for Food Safety, Griffin, GA, September 30, 2012. Visiting scientists from the Dominican Republic, “Research Activities at the UGA Center for Food Safety.”

Invited presentation and Chair, McDonald’s Food Safety Advisory Council Meeting. Oak Brook, IL, October 16-17, 2012. What does it take to be an industry leader in ensuring the safety of foods?

Invited presentation, SSAFE Board Meeting. Chateau Elan, Winder, GA, October 21, 2013. Global Food Safety: Challenges and Opportunities.

Invited keynote presentation, XXI Latin American Congress of Microbiology Santos, Sao Paulo, Brazil, , October 29-November 1, 2012. “The Safety of Our Foods: A glimpse at the Future of the Microbiological Safety of Foods.

Invited Speaker, The Pew Charitable Trusts, “Foodborne Urinary Tract Infections (FUTIs): Assessing the State of the Science>” Washington, DC, February 11-12, 2013.

Invited participant, Georgia Dept of Agriculture, Atlanta, GA, March 20, 2013. FSMA Proposed Produce Safety Rule.

Invited speaker, Massachusetts Institute of Technology Journalists’ Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 26-29, 2013. Food Safety – A glimpse at the future.

Invited presentation, DuPont-Solae SAB Meeting, May 23, 2013. “The effect of globalization and the FDA-FSMA on managing food safety by food ingredient manufacturers.”

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2013. The ecology of safe food.

Invited presentation/interview, WKEU Radio, Griffin, GA, Summer Food Safety June 18, 2013 (90 minutes).

Invited Presentation, July 18, 2013. Poultry-related food safety research at the UGA Center for Food Safety. Georgia Poultry Federation, Ponte Vedra Beach, FL

Invited keynote speaker. 7th International Conference for Food Safety and Quality, Chicago, IL, November 13-14, 2012. “The importance of detection methods for food safety and quality.”

Invited presentation. 2013. Federation of Animal Science Societies, Washington, DC, June 4, 2013, “IFT Status Summary on “Antibiotic Resistance,”

Invited Speaker. Korean Food Association Annual Meeting, South Korea, Innovations in Food Science for Human Well-Being as a key expert. “A Glimpse at the Future of the Microbiological Safety of Foods,” August 28-30, 2013.

Invited presentation, Osher Lifelong Learning Institute, University of Georgia, Athens, GA, November 22, 2013. “Food Safety: A Glimpse at the Future.”

Invited Presentation, Nestle Purina 2013 Food Safety Symposium, September 26, 2013, “Future Trends in

Food Safety,” Englewood, CO.

Invited Presentation, 2nd Annual World Congress of Food Science and Technology, Hangzhou, CHINA. September 22-26, 2013, Innovative Approaches for Reduction of Foodborne Pathogens on Products, (presented by Tong Zhao).

Invited Speaker, 3rd Asia Pacific International Conference on Food Safety, Taipei, Taiwan, October 29 to November 1, 2013.

Invited Speaker, Kiwanis Club of Griffin Farm City Week, November 27, 2013. Protecting the Nation’s Food Supply.

Invited presentation, International Life Sciences Institute (ILSI) Annual Meeting/FNSP Meeting, South Hampson, Bermuda, January 19, 2014. Food Safety Emerging Issues.

Invited presentation, International Life Sciences Institute (ILSI) , South Hampton, Bermuda, January 21, 2014. One ILSI: Food and Water Safety.

Invited Speaker. U.S. Food and Drug Law Institute and Emory School of Law, Atlanta, GA. January 29, 2014. CDC/FDA: Cooperation and Coordination: FSMA, Food Outbreaks, Emerging Health Issues.

Invited panelist, WATT Global Media, “Consumer Trust in Poultry.” Bridging the gap between where we are and where we need to be, Atlanta, GA, January 29, 2014.

Invited speaker, Massachusetts Institute of Technology Journalists’ Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 25-28, 2014. Food Safety – A glimpse at the future.

Invited Speaker, American Academy of Microbiology, Days of Microbiology, Belgrade, Serbia. April, 2014. Chemical Treatments to Kill Foodborne Pathogens. (Virtual Presentation).

Invited participant, Webcast, WATT Publishing, “Consumer trust and poultry; Bridging the gap between where we are and need to be.” April 10, 2014.

Invited Keynote Speaker, Pest Invasion. Oakbrook Terrace, IL. “Food Borne Illness Case Studies and Prevention. April 15, 2014.

Invited Co-Chair, International Food Information Council (IFIC), IFIC Physicians Roundtable on Antibiotic resistance, Washington, DC, April 16-17, 2014.

Invited Presentation, International Food Information Council (IFIC), IFIC Physicians Roundtable on Antibiotic Resistance, “Facing the Challenge of Food,” Washington, DC, April 16, 2014.

Invited presentation, Georgia Council for International Visitors, Chinese Scientists, Griffin, GA, April 21, 2014. Research Activities at the UGA Center for Food Safety on food and produce safety.

Invited Presentation, UGA College of Veterinary Medicine. May 14, 2014. The Ecology of Safe Food.

Invited Presentation. DuPont Scientific Advisory Council. Future directions: impact of CDC's foodborne disease surveillance, FDA/DOJ regulatory activity, and consumer attitudes regarding food ingredients/food additives, St. Louis, MO, May 14, 2014.

Invited Speaker. Athens Businessmen's Group, Athens, GA. Research at University of Georgia Center for Food Safety, "Food safety: A glimpse at the future." May 18, 2014.

Invited Participant. Collaborative Food Safety Forum Workshop. Washington, DC, June 28, 2014.

Invited Presenter, Roundtable, Public and Private Food Safety Research Funding: Where should the money go? International Association for Food Protection Annual Meeting, Indianapolis, IN, August 6, 2014.

Invited Keynote Dinner Speaker. National Science Foundation Workshop, Alexandria, VA, "Food Safety Challenges: Research Opportunities for NSF." October 29, 2014.

Invited Speaker. Assoc. Food & Drug Offic. of Southern States (AFDOSS), Gatlinburg, TN, "Increasing opportunities in food safety: In search of solutions," September 8, 2014.

Invited Speaker, Nestle Purina Food Safety Symposium, Denver, CO. "New Trends in Food Safety," Sept. 22-25, 2014.

Invited Speaker. National Extension and Experiment Station Directors meeting, Jekyll Island, GA, September 29-October 1, 2014.

Invited Expert Speaker. Intl. Food Information Council (IFIC) Foundation 2014 Farm Tour for Registered Dietitians, "State of US Agriculture, Pressures on Farmers, Poultry Safety Issues and Use of Animal Antibiotics on the Farm," Atlanta, GA, Oct. 17, 2014.

Invited Speaker, 2015 One Health Seminar, Univ of GA, Athens, GA. Safe Foods through "One Health," January 14, 2015.

Invited Keynote Speaker. 2014. Frazier Lecture, Food Research Institute, University of Wisconsin-Madison.

Invited Keynote Speaker. 2015. Southern Section of AOAC International 29th Annual Meeting in Atlanta, Georgia.

RESEARCH SUPPORT

General Mills, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

The Cheesecake Factory, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000 (PI)

Burger King Corp., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Roka Bioscience, Inc., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

02/2015

Wegmans Food Markets, Inc., Center for Food Safety Research, December 2014-December 2015, \$5,000(PI)

Chobani, Gift, Center for Food Safety Research, March 2015-March 2015-March 2016, \$20,000 (PI)

Avendra LLC, Gift, Center for Food Safety Research, February 2015-February 2016, \$2,500 (PI)

Golden State Foods, Gift, Center for Food Safety Research, January 2015-January 2016, \$5,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Solae LLC (DuPont), Gift, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kellogg's, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kraft Foods, Inc., Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Cargill, Inc., Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Fresh Express, Center for Food Safety Research, December 2014-December 2015, \$5000 (PI)

Unilever , Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Loblaw Companies, Ltd., Gift, Center for Food Safety Research, November 2014-November 2015, \$20,000 (PI)

Unilever , Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI)

Jack in the Box, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

Michael Foods, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

BCN Research Laboratories, Center for Food Safety Research, September 2014-September 2015, \$1,000 (PI)

Perdue Farms Inc., Center for Food Safety Research, August 2014-August 2015, \$5,000 (PI)

Mars, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Nestlé, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

McDonald's, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Yum! Brands, Inc., Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Starbucks Coffee Company, Center for Food Safety Research, June 2014-June 2015, \$20,000 (PI)

Kroger, Center for Food Safety Research, June 2014-June 2015, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

American Meat Institute, Center for Food Safety Research May 2014-May 2015, \$1,000 (PI)

Earthbound Farm, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

ConAgra Foods, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

MOM Brands, Center for Food Safety Research, May 2014-May 2015, \$5,000 (PI)

American Meat Institute, Center for Food Safety Research, May 2014-May 2015, \$1,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Chobani, LLC, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Ecolab, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

PepsiCo, Inc., Center for Food Safety Research, Tsunami: Biocide efficacy in potato process water study. April 2014. \$6,875 (PI)

Publix Super Markets, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

The Hershey Co., Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Cheesecake Factory, Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Roka Biosciences, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

Costco, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Unilever United States, Inc., Center for Food Safety Research, March 2014-March 2015, \$10,000 (PI)

Chobani, LLC, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Hillshire Brands, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

General Mills, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Burger King Corp., Center for Food Safety Research, February 2014-February 2015, \$5,525 (PI)

Kraft Foods, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Douglas Scientific, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

East Balt US, LLC, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

Georgia Agricultural Commodity Commission for Vegetables (GACCV), “Evaluation of post-harvest treatments of cantaloupes with levulinic acid and sodium dodecyl sulfate sanitizer for protection against contamination of *Salmonella* spp,” Center for Food Safety Research, January 1-December 31, 2014, \$20,000 (PI)

Unilever United States, Inc., Center for Food Safety Research, January 2014-January 2015, 1st \$5,000 or \$20,000 (PI)

Heinz North America, Center for Food Safety Research, January 2014-January 2015, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, December 2013-December 2014, \$20,000 (PI)

Golden State Foods , Center for Food Safety Research, December 2013-December 2014, \$5,000, (PI)

Wegmans Food Markets, Inc. , Center for Food Safety Research, December 2013-December 2014, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, December 07, 2014, Phase 1 of Biocide Project \$2,687.50

PepsiCo, Center for Food Safety Research, December 29, 2014 , Biocide Project \$4,187.50

Kellogg’s, Center for Food Safety Research, December 2013-December 2014, \$2,500 (PI)

Hormel Foods, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

General Mills, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

ConAgra Foods, Center for Food Safety Research, November 2013-November 2014, \$20,000 (PI)

McDonald’s,, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

PepsiCo, Inc., Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

Campbell Soup Co., Center for Food Safety Research, October 2013-October 2014, \$1,000 (PI)

Cargill, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Michael Foods, Center for Food Safety Research, October 2013-October 2014, \$5,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Mead Johnson Nutrition, Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2010 - June 2011, \$5,000 (PI).

Leprino Foods, Gift, Center for Food Safety research, June 2010 - June 2011, \$20,000 (PI).

Campbell's, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Mott's LLP, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Publix Super Markets, Inc., Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$5,000 (PI).

Hormel Foods Corp., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

BCN Research Laboratories, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$1,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, April 2010 - April 2011, \$2,500 (PI).

Ecolab, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

ACH Food Companies, Inc., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

The Cheesecake Factory, Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Grocery Manufacturers Assn., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, February 2010 - February 2011, \$5,000 (PI).

HealthPro Brands, Grant, Chemical treatment for reduction of yeast, mold and *Salmonella* on produce, February 2010 - August 2010, \$23,733 (PI).

McDonald's, Gift, Center for Food Safety research, February 2010 - February 2011, \$1,000 (PI).

Chemstar Corp., Gift, Center for Food Safety research, February 2010 - February 2011, \$20,000 (PI).

Burger King Corp., Gift, Center for Food Safety research, February 2010 - February 2011, 5,000 (PI).

Mars Chocolate NA, Gift, Center for Food Safety research, January 2010 - January 2011, \$20,000 (PI).

Refrigerated Foods Assn., Inc., Gift, Center for Food Safety research, January 2010 - January 2011, \$5,000 (PI).

Cargill, Inc., Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

JLA USA, Gift, Center for Food Safety research, December 2009-December 2010, \$5,000 (PI).

Clorox, Gift, Center for Food Safety research, December 2009-December 2010, \$5,000 (PI).

Danisco, Gift, Center for Food Safety research, December 2009-December 2010, \$20,000 (PI).

Malt-O-Meal, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Kellogg's, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, November 2009 - November 2010, \$5,000 (PI).

Wegman's Food Markets, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Kraft Foods, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

General Mills, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Silliker, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

YUM! Brands, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Perdue Farms, Gift, Center for Food Safety research October 2009 - October 2010, \$5,000 (PI).

Mead Johnson Nutritionals, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Inactivation of *Campylobacter* and *Salmonella* on poultry, August 2009 - July 2010, \$80,750 (PI).

SuperValu, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Chemical treatment to reduce *Escherichia coli* O157:H7, *Listeria monocytogenes* and *Salmonella* contamination on lettuce and tomatoes, July 1, 2009 - June 30, 2010, \$80,750 (Co-PI).

YUM! Brands, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, July 2009 - July 2010, \$20,000 (PI).

Mott's LLP (Dr. Pepper), Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Hormel Foods, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Unilever, Gift, Center for Food Safety research, August 2009 - August 2010, \$20,000 (PI).

Taco Bell, Grant, Fate of *Salmonella* in salsa, \$6,988 (PI).

Campbell's, Gift, Center for food Safety research, June 2009 - June 2010, \$20,000 (PI).

PepsiCo, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety Research, May 2009 - May 2010, \$5,000 (PI).

American Meat Institute Foundation, Grant, March 1, 2009 - February 28, 2011, Reduction of *E. coli* O157:H7 and *Salmonella* in ground beef, \$72,720 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2009- April 2010, \$5,000 (PI).

Publix Super Markets, Gift, Center for Food Safety research, February 2009 - February 2010, \$20,000 (PI).

Burger King, Gift, Center for food Safety research, January 2009 - January 2010, \$5,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, December 2008 - December 2009, \$20,000 (PI).

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Data collection for food safety risk assessment in support of the Expert Panel report on *Salmonella* in raw poultry, January 2009 - October 2010, \$264,000 (PI)

Caudill Seed Company, Grant, Evaluation of chemical solution recently developed for reduction of *Salmonella* and *E. coli* O157:H7 in alfalfa seeds and sprouts, October 2008-September 2009, \$3450 (PI)

Danisco, Gift, Center for Food Safety research, September 2008-September 2009, \$20,000 (PI)

Purfresh, Gift, Center for Food Safety research, September 2008-September 2009, \$1,000 (PI)

McDonald's, Gift, Center for Food Safety research, September 2008 - September 2009, \$20,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2008 -September 2009, \$20,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, September 2008 - September 2009, \$1,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, August 2008 0 August 2009, \$5,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2008 - August 2009, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kraft Foods, Gift, Center for Food Safety research, August 2008 - August 2009, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

FoodPAC, Grant, Reduction of *Salmonella* Enteritidis in preharvest poultry, July 2008 - June 2009, \$136,500 (PI)

Leprino Foods, Gift, Center for Food Safety research, July 2008 - July 2009, \$5,000 (PI)

U.S. Poultry & Egg Association, Grant, International working group report on tolerance for *Salmonella* on raw poultry, July 2008 - June 2010, \$200,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Hershey's, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

3M, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Ecolab, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

PepsiCo, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

Zep, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Silliker, Gift, Center for Food Safety research, April 2008 - April 2009, \$1,000 (PI)

Sara Lee, Gift, Center for Food Safety research, February 2008 - February 2009, \$5,000 (PI)

Ross Systems, Gift, Center for Food Safety, March 2008 - March 2009, \$1,000 (PI)

Hanson Technologies, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

SuperValu, Gift, Center for Food Safety research, March 2008 - March 2009, \$5,000 (PI)

Grocery Manufacturers Assn, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Chef Solutions, Gift, Center for Food Safety research, February 2008 - February 2009, \$1,000 (PI)

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Food safety expert to participate in the 2008 Dubai Food Safety Conference, February 2008 - March 2008, \$5,280 (PI)

ConAgra, Grant, Efficacy of gaseous ozone to eliminate musty off odors and reducing microbiological populations in wheat, August 2008 - July 2009, \$52,468

Great Eastern Mussel Farm, Grant, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004 - June 2008, \$16,000 (PI)

Hormel Foods, Gift, Center for Food Safety research, February 2008 - February 2009, \$20,000 (PI)

ConAgra Foods, Grant, *Salmonella* detection, February 2008, \$26,500 (PI)

Publix Super Markets, Gift, Center for Food Safety research, January 2008 - January 2009, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2008 - January 2009, \$5,000 (PI)

Ecolab, Grant, Efficacy of antimicrobial agents to reduce transfer of *Escherichia coli* O157:H7 on lettuce pieces, November 2007 - June 2008, \$37,506, (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2007, \$15,000 (PI)

Gerber Products, Gift, Center for Food Safety research, December 2007-December 2008, \$20,000 (PI)

Kroger, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant (#223042500), Anaerobic vacuum spoilage, August 2007-March 2008, \$20,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Centers for Disease Control and Prevention, Contract, Detecting and controlling foodborne pathogens, July 2007-June 2008, \$99,999 (PI)

ACH Food Companies, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Schreiber, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

American Meat Institute, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

ConAgra Foods, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Danisco, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

The Coca-Cola Company, Gift Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Pilgrim's Pride, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

U.S. Department of Agriculture-CSREES, NIFSI, Grant, A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens, September 2007-September 2011, \$2,500,000 (PI)

Fresh Express, Gift, Center for Food Safety research, July 2007-July 2008, \$1,000 (PI)

Novazone, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Campbell's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,750 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

ConAgra Foods, Grant, Thermal inactivation of *Salmonella* in peanut butter, June 2007-June 2010, \$245,000 (PI)

Cargill, Gift, Center for Food Safety research, June 2007-June 2008, \$20,000 (PI)

Wegmans, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Fresh Express, Grant, Subsurface contamination and internalization of *E. coli* O157:H7 in preharvest lettuce, June 2007-June 2008, \$246,976 (PI)

Ross Systems, Gift, Center for Food Safety research, May 2007-May 2008, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2007-May 2008, \$20,000 (PI)

McDonald's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,000 (PI)

Unilever, Gift, Center for Food Safety research, May 2007-May 2008, \$5,000 (PI)

Grocery Manufacturers of America-FPA, Gift, Center for Food Safety research, April 2007-April 2008, \$1,000 (PI)

The Hershey Company, Gift, Center for Food Safety research, April 2007-April 2008, \$5,000 (PI)

Burger King Brands, Gift, Center for Food Safety research, February 2007-February 2008, \$5,375 (PI)

Quaker (PepsiCo), Gift, Center for Food Safety research, February 2007-February 2008, \$20,000 (PI)

Praxair, Gift, Center for Food Safety research, January 2007-January 2008, \$1,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2006-December 2007, \$10,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant, Anaerobic vacuum spoilage, December 2006-March 2008, \$24,380 (PI)

McDonald's, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

Sara Lee, Gift, Center for Food Safety research, November 2006-November 2007, \$5,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, October 2006-October 2007, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

The Coca-Cola Company, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

Gerber Products, Gift, Center for Food Safety research, August 2006-August 2007, \$20,000 (PI)

Wal-Mart Stores, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2006-August 2007, \$10,000 (PI)

John Morrell & Co., Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, July 2006-August 2007, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000

Great Eastern Mussel Farms/USDA SBIR, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004-December 2006 \$5,995 (PI)

American Air Liquide, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wegman's, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wal-Mart, Gift, Center for Food Safety research, March 2005 - March 2006, \$5,000 (PI).

Campbell's, Gift, Center for Food Safety research, February 2005 - February 2006, \$20,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, February 2005 - February 2006, \$5,000 (PI).

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2005 - December 2005, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, January 2005 - January 2006, \$15,000 (PI).

University of Georgia Research Foundation, Intellectual Property Return Probiotic Vaccine for *E. coli* O157:H7 in cattle, December 2004, \$14,601 (PI).

Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, January 2005-May 2007, \$135,001 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, January 2005-January 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, December 2004-December 2005, \$20,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, November 2004-November 2005, \$2,000 (PI).

John Morrell, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, November 2004-November 2005, \$2,500 (PI).

McDonald's, Gift, Center for Food Safety research, November 2004-November 2005, \$5,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, November 2004-November 2005, \$20,000 (PI).

American Meat Institute, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Abbott Laboratories (Ross Labs), Gift, Center for Food Safety research, October 2004-October 2005, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, October 2004-December 2004, \$5,000 (PI).

U.S. Food and Drug Administration, Contract, Use of packaging film oxygen permeability to allow aerobic spoilage organisms to grow and spoil the product before toxin is produced by *Clostridium botulinum* in fresh fish packaged under modified atmospheres, September 2004-March 2006, \$260,900 (PI).

Pilgrim's Pride, Gift, Center for Food Safety research, September 2004-September 2005, \$5,000 (PI).

The Clorox Company, Contract, Inactivation of *Salmonella* and *Campylobacter jejuni* by stabilized bleach, September 2004-March 2005, \$7,240 (PI).

USDA-NRI, Grant, Microbiological safety of composting process as animal manure treatment, September 30, 2004 - September 30 2007, \$600,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, August 2004-August 2005, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research, August 2004-August 2005, \$1,000 (PI).

Kraft, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, July 2004-July 2005, \$1,000 (PI).

Quaker (PepsiCo), Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

FoodPAC, Grant, Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant, July 2004 - June 2005, \$97,181 (PI)

International Food Protection, Grant, *Salmonella* reduction in poultry by competitive exclusion bacteria, July 2004-December 2004, \$75,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, June 30, 2004 - November 30, 2007, \$138,096 (PI)

Sara Lee, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, June 2004-June 2005, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2004-May 2005, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, May 2004 - June 2005, \$5,000 (PI)

Wegmans, Gift, Center for Food Safety research, May 2004 - June 2005, \$1,000 (PI)

General Mills, Gift, Center for Food Safety, research, April 2004 - May 2005, \$20,000 (PI)

Alpharma, Contract, Evaluation of antimicrobial activity of competitive exclusion bacteria, April 2004, \$500 (PI)

ConAgra, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Arrowsight, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Foods Group, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

Cargill, Gift, Center for Food Safety research, March 2004 - April 2005, \$5,000 (PI)

Michael Foods, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Chr Hansen, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

National Food Processors Association, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Hershey Foods, Gift, Center for Food Safety research, March 2004 -April 2005, \$5,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Wal-Mart, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Unilever Bestfoods, Gift, Center for Food Safety research, February 2004 - March 2005, \$20,000 (PI)

Purac America, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, February 2004 - March 2005, \$1,000 (PI)

McDonald's Gift, Center for Food Safety research, January 2004 - February 2005, \$5,000 (PI)

McDonald's, Gift, Center for Food Safety research, December 2003 - December 2004, \$5,000 (PI).

Kraft Foods, Inc., Grant, Cross-contamination of *Listeria monocytogenes* between slicing equipment and cured or non-cured turkey meat. December 2003 - December 2005, \$130,732 (PI).

The Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit growth of *Clostridium botulinum* in a novel live mussel pack. December 2003 - June 2004, \$25,000 (PI).

Abbott Laboratories (Ross Products Division), Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, October 2003- October 2004, \$2,500 (PI).

Mionix Corporation, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

US Foodservice, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

Campbell's, Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

John Morrell & o., Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle, September 2003 - September 2004, \$69,500 (PI).

American Meat Institute, Grant, Recovery, development and validation of appropriate surrogate microorganisms in meat and poultry emulsions for in-plant critical control point validation studies, September 2003 - September 2004, \$59,850 (PI).

American Meat Institute, Grant, The role of aerosols in transmission of microorganisms (including *Listeria*) in ready-to-eat meat/poultry products, September 2003 - September 2004, \$76,500 (PI).

U.S. Food and Drug Administration, Grant, Development of a waveguide immunoassay for *Yersinia pestis*, September 2003 - September 2006, \$600,000 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues. October 2003-September 2004, \$130,749 (PI).

U.S. Department of Agriculture, CSREES (Iowa State University), Food Safety Initiative Grant, Prioritizing opportunities to reduce foodborne disease. September 2003-September 2005, \$54,321 (PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection. July 2003-June 2005, \$139,309 (PI).

Wayne Farms LLC, Gift, Center for Food Safety research. July 2003-July 2004, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

American Meat Institute Foundation, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle. August 2003-August 2004, \$69,500 (PI).

FoodPAC, Grant, Use of antagonistic bacteria to reduce environmental contamination of food processing facilities by *Listeria monocytogenes*. July 2003-June 2004, \$85,920 (PI).

Perdue Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research. June 2003-June 2004, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research. May 2003-May 2004, \$20,000 (PI).

Zep Manufacturing Co., Gift, Center for Food Safety Research. May 2003-May 2004, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research. April 2003-April 2004, \$5,000 (PI).

Schreiber Foods, Gift, Center for Food Safety research. April 2003-April 2004, \$1,000 (PI).

Wegmans Food Markets, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research. February 2003- February 2004, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

DairiConcepts, Gift, Center for Food Safety research. February 2003-February 2004, \$2,000 (PI).

Kroger, Gift, Center for Food Safety research. February 2003-February 2004, \$5,000 (PI).

American Foods Group, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research. January 2003-January 2004, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research. December 2002-December 2003, \$5,000 (PI).

Kraft Foods, Grant, Cross-contamination of *Listeria monocytogenes* between processing equipment and food products, December 2002-December 2005, \$196,022 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues, November 2002-October 2003, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, December 2002-January 2004, \$1,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI).

Nestlé, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI)

Johnson Diversey, Gift, Center for Food Safety research, October 2002-November 2003, \$1,000 (PI).

Mionix, Gift, Center for Food Safety research, October 2002-November 2003, \$1,000 (PI).

Bonagra, Grant, Evaluation of a chlorine potentiator on the efficacy of chlorine in killing *E. coli* O157:H7, *Listeria* and *Salmonella* on lettuce and tomatoes, January 1997 - December 1998, \$10,000 (PI).

The Pillsbury Co., Gift, Center for Food Safety and Quality Enhancement research, August 1996 - July 1997, \$5,000 (PI).

Georgia Governor's Development Council Food Processing Initiative (FoodPAC), Grant, Development of methods to reduce/eliminate foodborne pathogens in raw food products, July 1996-June 1997, \$79,800 (PI).

Armour Swift-Eckrich, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$5,000 (PI).

Bonagra, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$1,000 (PI).

U. S. Department of Agriculture, Grant, Carrier state of Shiga-like toxin-producing *E. coli* in cattle, July 1996 - June 1997, \$69,734 (PI's, B. G. Harmon and C. A. Brown; Co-PI, M. P. Doyle).

International Life Sciences Institute, Grant, Effect of diet and rumen microenvironment on the proliferation and fecal shedding of *E. coli* O157:H7 in calves, September 1996 - August 1998, \$66,247 (PI, C. A. Brown; Co-PI, M. P. Doyle and T. Zhao).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$5,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, Jun 1996 - May 1997, \$20,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, December 1995 - November 1996, \$1,000 (PI).

Borden, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$20,000 (PI)

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, June 1996 - May 1997, \$20,000 (PI)

Procter & Gamble, Gift, Center for Food Safety and Quality Enhancement research, June 1996 - May 1997, \$20,000 (PI)

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI)

Continental Grain, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI)

Cargill, Gift, Center for Food Safety and Quality Enhancement research, July 1996 - June 1997, \$5,000 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, November 1995 - October 1996, \$1,000 (PI).

Gold Kist Foundation, Gift, Center for Food Safety and Quality Enhancement research, January 1996 - December 1996, \$1,000 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, January 1996 - December 1996, \$5,000 (PI).

T. J. Lipton Co., Gift, Center for Food Safety and Quality Enhancement research, November 1996 - October 1997, \$1,000 (PI).

Dr. J. G. Woodroof, Gift, Food Science and Technology lecture series support, January 1996 - December 1996, \$1,200 (PI)

U. S. Department of Agriculture, Special Grant, Alliance for Food Protection, April 1996-March 2000, \$421,371 (PI; Co-PI, S. L. Taylor, University of Nebraska).

Hormel Foods Corporation, Contract, Fate of bacteria in meat. March 1995 - December 1996, \$94,500 (Co-PI; PI, Mark Harrison).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement renovation funds (\$250,000), laboratory equipment (\$275,000), and research projects (\$75,000), July 1, 1995 - June 30, 1996, Total \$600,000 (PI).

Georgia Governor's Development Council on Food Processing, Grant, Center for Food Safety and Quality Enhancement building addition, July 1995 - June 1996, \$7,000,000. (PI).

Schwan's Sales Enterprises, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, April 1995-May 1996, \$5,000 (PI).

U. S. Department of Agriculture-ARS, Grant, Control of Campylobacter in poultry, October 1995-September 1996, \$38,196 (PI; N. J. Stern, Co-PI).

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, February 1995-January 1996, \$20,000 (PI).

Best Foods, Grant, Microbiological risk assessment for high moisture peanut butter residue, July 1, 1995 - June 30, 1996, \$27,181 (Co-PI; PI, Robert Brackett).

Borden, Gift, Center for Food Safety and Quality Enhancement research, March 1995-April 1996, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

The Vons Company, Gift, Center for Food Safety and Quality Enhancement research, October 1995-September 1996, \$20,000 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, May 1995-May 1996, \$5,000 (PI).

Kraft, Gift, Center for Food Safety and Quality Enhancement research, September 1995-October 1996, \$20,000 (PI).

Kraft Foods Company, Grant, Microbiology of Process Cheese, January 1995-July 1997, \$1,006,000. (Co-PI; PI, R. E. Brackett).

Sizzler International, Grant, Escherichia coli O157:H7 in mayonnaise, August 1993-June 1994, \$14,000 (PI).

American Meat Institute Foundation, Grant, Development of species specific probiotic and vaccine candidate for *E. coli* O157:H7 in cattle, July 1994-November 1996, \$1,001,161 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, October 1994-1995, \$15,000 (PI).

USDA National Research Initiative, Competitive Grants Program, Grant, Characterization of unique outer membrane proteins of Escherichia coli O157:H7 and their involvement in cell adherence, October 1994-September 1996, \$174,429 (PI).

Kraft General Foods, Gift, Center for Food Safety and Quality Enhancement research, August 1994-1995, \$20,000 (PI).

The Vons Company, Gift, Fingerprinting enterohemorrhagic *Escherichia coli* O157:H7, October 1994-October 1995, \$20,000 (PI).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement building planning grant (\$250,000) and laboratory equipment (\$250,000) July 1, 1994 - June 30, 1995, Total \$500,000 (PI).

Association for Dressings & Sauces, Grant, Survival of *E. coli* O157:H7 in mayonnaise and reduced calorie mayonnaise, April 1, 1994-March 31, 1995, \$15,755 (Co PI; PI, L. R. Beuchat).

Westreco, Gift, Center for Food Safety and Quality Enhancement research, November, 1994-95, \$5,000 (PI).

Schwan Sales, Gift, Center for Food Safety and Quality Enhancement research, March 1994-95, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, June 1994-95, \$5,000 (PI).

National Live Stock and Meat Board, Grant, Development of a sensitive and specific DNA-based polymerase chain reaction assay for detection of enterohemorrhagic Escherichia coli O157:H7, June 1994-May 1995, \$47,500 (PI).

Pet, Inc., L&F Products, Continental Grain, Rhone-Poulenc, Reckitt & Colman, Ecolab, National Food Processors Association, International Fresh-cut Produce Association, Gerber Products, Gifts, Center for Food Safety and Quality Enhancement research, 1994-1996, \$11,500 (PI).

McDonald's Corporation, Gift, Control of Escherichia coli O157:H7 in foods, October, 1993-January 1995, \$40,000 (PI).

Golden State Foods, Gift, Detection of Escherichia coli O157:H7, June 1993-June 1994, \$10,000 (PI).

Westreco, Inc., Gift, Inhibitors of psychrotrophic Bacillus cereus. April 1993-December 1994, \$25,000 (Co-PI; PI, R. E. Brackett).

American Meat Institute, Grant, Use of irradiation to kill pathogenic bacteria in ground beef. April 1993 - March 1994, \$60,820 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

U. S. Department of Agriculture, Special Grant, Safety and quality enhancement of poultry products. July 1993 - June 1995, \$362,000 (PI; Co-PI, D. L. Fletcher).

U. S. Department of Agriculture, Special Grant (Food Safety and Inspection Service), Gene expression of a low molecular weight protein by Escherichia coli O157:H7, September 1993 - September 1995, \$36,800 (PI).

Amrep, Gift, Antimicrobial activity of barrier cream to E. coli O157:H7. April 1993 - July 1993, \$2,000 (PI).

International Life Sciences Institute - North America, Grant, Use of carrot juice to control Listeria monocytogenes. August 1992 - July 1993, \$28,800 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

Benchmark Enterprises, Gift, Antimicrobial activity of barrier cream to Escherichia coli O157:H7, December 1992 - February 1993, \$1,000 (PI).

U. S. Department of Agriculture, Agricultural Research Service, Cooperative Agreement, Antagonistic flora to Campylobacter spp., April 1993 - September 1994, \$26,000 + \$14,000 + 40,000 (PI).

Kraft General Foods, Gift, Food safety and quality research. November 1992-October 1993, \$20,000.

International Life Sciences Institute-North America, Grant, Development of a Simple, sensitive, quantitative procedure for enumerating Listeria monocytogenes in food. August 1992 - July 1993, \$53,500 (PI; Co-PIs, R. E. Brackett, L. R. Beuchat).

National Live Stock and Meat Board, Grant, Decontamination of Escherichia coli O157:H7 in beef by acid treatments. March 1992 - March 1993, \$29,500 (PI; Co-PI, R. E. Brackett).

Southeastern Poultry & Egg Association, Grant, Feasibility of using antagonistic microorganisms and antimicrobial extracts to inhibit psychrotrophic pathogens in refrigerated, cooked poultry. January 1, 1992-December 31, 1992, \$26,000 (Co-PI; PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Detection and Control of Enterohemorrhagic Escherichia coli O157:H7 in Cattle. March 1992-December 1994, \$114,100 (PI; Co-PI, R. E. Brackett).

Rhone-Poulenc, Grant, Fate of bacterial pathogens in cat litter. January 1992-April 1992, \$3,562 (PI; Co-PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Use of natural secondary barriers to inhibit pathogens in refrigerated, cooked roast beef. March 1992-December 1994, \$101,500 (Co-PI; PI, R. E. Brackett).

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens and rapid procedure for detecting E. coli. September 1990-June 1991, \$60,000.

Dairy Research Foundation, Gift, Microbiological safety of a butter-like product. September 1990, \$1,100.

Promega, Gift, Development of a viable Listeria assay for dairy and food products testing. September 1990-February 1991, \$5,000.

Nabisco Brands, Inc., Gift, Microbiological stability of processed cheese spread. September 1990-December 1991, \$50,000.

Corando, Gift, Detection of Escherichia coli O157:H7 in water. March-April 1990, \$1,000.

Schreiber Foods, Gift, Microbiological stability of process cheese. February 1990-October 1991, \$3,000.

Universal Foods Corporation, Gift, Microbiological stability of process cheese. February 1990-July 1990, \$3,000.

Best Foods, Gift, Fate of Listeria monocytogenes in mayonnaise. May 1990-December 1990, \$15,000.

National Live Stock and Meat Board, Grant, Evaluation of natural antimicrobials and delivery systems for these molecules for safety assurance and shelf life extension of processed, refrigerated meats. April 1990-April 1992, \$134,000 (PI; Co-PI John Luchansky).

Oscar Mayer Foods Corporation, Gift, Microbiological safety of low sodium processed meats. January 1990-July 1991, \$9,500 + \$9,500 + \$9,500 + \$9,500 + \$4,500.

Olympia Cheese Company, Gift, Microbiological stability of cheese stick products. February 1989-March 1990, \$2,500.

Kaukauna Cheese Company, Gift, Evaluation of cheese spread and cheese food stability. March 1989-August 1989, \$7,000.

Stauffer Chemical Company, Gift, Detection of salmonellae in foods by latex agglutination assay. April 1989-August 1989, \$5,000.

American Meat Institute, Gift, Escherichia coli in meat. July 1989-December 1989. \$10,000.

Johnston Company, Gift, Microbiological safety of cheese spreads. August 1989-September 1990. \$4,500.

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens. August 1989-June 1990. \$30,000.

Thomas J. Lipton, Inc., Gift, Microbiological stability of cheese sauce. July 1989-March 1991. \$17,500 + \$2,500 + \$4,000.

Rhone-Poulenc, Gift, Evaluation of the antimicrobial effect of bicarbonate on Listeria monocytogenes. July 1989-September 1989. \$1,500.

Iceland Seafood Corporation, Gift, Microbiological safety of refrigerated fish sandwiches. May 1989-August 1989. \$8,000.

Renaissance Farm, Gift, Microbiological safety of pesto. June 1989-November 1989. \$500.

National Livestock & Meat Board, Contract, Fate and control of Escherichia coli O157:H7 in beef. July 1989-June 1991. \$185,000.

Best Foods, Gift, Fate of Salmonella in mayonnaise. November 1989-July 1990. \$15,000.

State of Wisconsin, Named Professorship, Wisconsin Distinguished Professorship. January 1989-January 1994, \$250,000.

National Dairy Promotion and Research Board, Grant, Behavior of Listeria monocytogenes during manufacture and ripening of cheese. Mar. 1989-Feb. 1991, \$70,000. (Co-PI; PI, E. H. Marth).

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. August 1988-January 1989, \$8,000 + \$1,800.

Kraft, Inc., Gift, Evaluation of media for detection of Listeria monocytogenes in dairy products. September 1988-December 1988, \$1,000.

McDonald's Corporation, Gift, Control of colonization of Salmonella. July 1988-June 1989, \$30,000.

General Foods Corporation, Gift, Microbiological stability of fresh pasta. March 1988-September 1988, \$8,000.

International Life Sciences Institute-Nutrition Foundation, Grant, Virulence of Listeria monocytogenes in a pregnant mouse model. July 1988-June 1990, \$100,000.

Center for Dairy Research, University of Wisconsin-Madison, Grant, Differentiating virulent from avirulent Listeria monocytogenes. July 1988-June 1990, \$49,000.

Wisconsin Milk Marketing Board, Grant, Procedure for detection of Escherichia coli O157:H7 in dairy products. January 1989-July 1990, \$100,000.

Corn Products, Gift, Control of Clostridium botulinum in acidified wet corn gluten feed. January 1988 - July 1988, \$12,000.

Kaukauna Cheese Company, Gift, Effect of acidity and moisture content on cheese sauce stability. November 1987-October 1989, \$3,750 + \$750 + \$2,000.

Schreiber Foods, Inc., Gift, Growth of Staphylococcus aureus in bacon during curing. September 1987-January 1988, \$2,000.

Wisconsin Milk Marketing Board, Grant, Evaluation of enrichment procedures for recovering Listeria monocytogenes from dairy products. August 1987-July 1988, \$25,600.

Nabisco Brands, Inc., Gift, Effect of sodium citrate in cheese spreads on Clostridium botulinum toxin production. August 1987-August 1988, \$18,600.

Kraft, Inc., Gift, Microbiological stability of cheese spreads with condiments. July 1987-July 1988, \$9,000.

McDonald's Corporation, Gift, Heat treatment of ground beef. June 1987-July 1989, \$15,000 + \$10,000.

New England Biolabs Foundation, Gift, Establishment of a laboratory for diagnosis and study of Campylobacter and Yersinia as a cause of diarrhea in children of Nicaragua. May 1987-April 1988, \$10,760.

General Foods Corporation, Gift, Pathogenicity and isolation of Listeria monocytogenes. April 1987-March 1988, \$50,000.

Kraft, Inc., Gift, Microbiological stability of high moisture cheese sauce. February 1987-December 1987, \$17,000 + \$2,000 + \$2,000 + \$2,000 + \$2,000 + \$1,000.

American Meat Institute, Gift, Fate of listeriae in meats. January 1987-January 1988, \$20,000 + \$12,000 + \$27,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. Development of a rapid method to detect E. coli O157:H7 in food. January 1987-December 1987, \$35,000.

McDonald's Corporation, Gift, Control of food-borne pathogens: Reducing the incidence of enteric pathogens in poultry. January 1987-December 1987, \$10,000.

Doskocil Foods Group, Gift, Fate of listeriae in sausage. January 1987-December 1987, \$8,500 + \$1,000 + \$2,000.

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. November 1986-August 1988, \$12,000 + \$10,000 + \$18,000.

Stauffer Chemical Company, Gift, Fate of pathogens during microbial fermentation. November 1986-December 1986, \$2,500.

Oscar Mayer Foods Corporation, Gift, Effect of pH and temperature on foodborne bacteria. September 1986-December 1986, \$6,000

Quaker Oats Company, Gift, Potential of botulinal toxin production in pasta. August 1986-June 1987, \$10,000.

Center for Dairy Research, Gift, Microbiological safety of dairy products. July 1986-June 1990, \$5,000 + \$5,000 + \$5,000 + \$1,000.

Pillsbury Company, Gift, Evaluation of botulinal toxin production in fresh vegetables. July 1986-June 1987, \$8,400 + \$5,500.

General Ecology Inc., Gift, Fate of bacteria in water purification systems. June 1986-December 1987, \$750 + \$3,000.

General Foods Corporation, Gift, Behavior of toxigenic and/or pathogenic bacteria in refrigerated foods. June 1986-December 1986, \$10,000.

ConAgra, Gift, Escherichia coli O157:H7 in poultry products. May 1986-August 1986, \$1,500.

Corn Products, Gift, Fate of microorganisms in wet corn gluten feed. May 1986-September 1986, \$4,500.

Food and Drug Administration, Contract No. 63500400, Milk naturally contaminated with Listeria monocytogenes. May 1986-June 1986, \$6,200.

Sargento Cheese Company, Gift, Microbiological stability of process cheese. April 1986-November 1986, \$3,500.

Lambert's Pasta & Cheese, Gift, Microbiological safety of refrigerated pasta. March 1986-March 1987, \$11,100.

National Cheese Institute, Gift, Fate of *Listeria* during pasteurization. January 1986-December 1986, \$10,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2947, Influence of polyphosphates on microorganisms of significance in processed meats and meat products. December 1985-June 1987, \$19,000 + \$3,000.

American Home Foods, Gift, Growth of *Clostridium botulinum* in acidified foods. September 1985-September 1986, \$18,000.

General Foods Corporation, Gift, Detection of *Listeria monocytogenes* in soft, surface-ripened cheese. September 1985-June 1986, \$2,300.

McDonald's Corporation, Gift, Detection of *E. coli* in foods. July 1985-June 1986, \$33,000.

Oscar Mayer Foods Corporation, Gift, Antibotulinal properties of lactate. July 1985-July 1987, \$6,800 + \$8,100 + \$9,250 + \$5,300 + \$8,300.

McDonald's Corporation, Gift, Colonization of cattle by pathogens. June 1985-May 1986, \$10,250.

Dairy Research Foundation, Grant, Behavior of *Listeria monocytogenes* in milk and milk products. January 1985-December 1987, \$87,934. (Co-principal investigator with E. H. Marth).

McDonald's Corporation, Gift, Control of foodborne pathogens. September 1984-June 1985, \$2,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. July 1984-June 1985, \$21,000.

Food and Drug Administration (via Booz, Allen and Hamilton), Contract No. 223-80-2295, Survival of Listeria monocytogenes in nonfat dry milk and cottage cheese. April 1, 1984-October 15, 1984, \$35,411.

Food Research Institute, Purification and characterization of *Escherichia coli* cytotoxin(s). July 1983-June 1984, \$11,300.

McDonald's Corporation, Gift, Control of foodborne pathogens. July 1983-June 1986, \$105,000.

U.S. Department of Agriculture, CSRS, Grant No. 83-CSRS-2-2308, Association of *Campylobacter jejuni* with foods of animal origin. July 1983-September 1986, \$371,735 + \$12,000 + \$12,000 + \$12,000.

McDonald's Corporation, Gift, Detection of *Escherichia coli* in foods. January 1983-December 1983, \$26,000.

U.S. Department of Agriculture, ARS, Agreement No. 53-3244-2-231, A *Clostridium botulinum* challenge study on bacon made by the Wisconsin process. September 1982-September 1984, \$146,563.

U.S. Department of Agriculture, ARS, Contract No. 58-519B-2-1173, Evaluation of safety of soybean foods--tempeh, tofu and miso. August 1982-September 1984, \$34,250.

Food Research Institute, *Salmonella* in poultry. July 1982-June 1984, \$65,500.

Food Research Institute, Pathogenicity of *Campylobacter*. October 1981-June 1984, \$57,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2685, Pathogenicity of *Campylobacter*. October 1981-September 1983, \$29,456.

Department of Defense Contract DAAF 29-81-K-0070, The heat-stable enterotoxin of *Yersinia enterocolitica* in foods. April 1981-April 1984, \$55,154. (Co-PI; PI, S. L. Taylor).

Corn Products/Best Foods, Gift, *Clostridium botulinum* in foods. March 1981-December 1990, \$20,000 + \$14,000 + \$14,000 + \$14,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + \$15,500.

Food Research Institute, Pathogenicity of *Yersinia enterocolitica*. July 1980-June 1984, \$97,000.

Food Research Institute, Recovery of *Campylobacter* from foods. April 1980-June 1982, \$42,000.

SERVICE

University of Wisconsin Service

02/2015

1. Library Committee of College of Agricultural and Life Sciences, 1981-85.
2. Senator, Faculty Senate District 10, 1982-84. Alternate Senator, Faculty Senate District 10, 1984-86.
3. Department of Food Microbiology and Toxicology Committees:
 - a. Graduate Program Committee
 - b. Department Comprehensive Review Committee
 - c. Animal Room Committee
 - d. Building Remodeling Committee
4. Centralized Electron Microscope Committee, College of Agricultural and Life Sciences, 1983-85.
5. Member of College of Agricultural and Life Sciences Hatch Research Review Panel, 1984 (ad hoc member), 1986-90.
6. Long Range Planning Committee, College of Agriculture and Life Sciences, 1986-87.
 - Basic Sciences Subcommittee
 - Food Quality, Processing and Nutrition Subcommittee
7. "Biotechnology in Agriculture" Report Committee, University of Wisconsin Agricultural Experiment Station, 1986.
8. Animal Health Research Proposal Review Committee, School of Veterinary Medicine, 1987, 1989-90.
9. Review Committee - Food and Agricultural Sciences National Needs Graduate Fellowships Grants Program, College of Agriculture and Life Sciences, 1987, 1990.
10. Research Animal Care Committee, College of Agricultural and Life Sciences, 1988-91.
11. Ad Hoc Reviewer, University of Wisconsin System Consortium for Extension and Research in Agriculture and Natural Resources Program, 1988-90.
12. Member, Search and Screen Committee, Assistant Professor of Food Microbiology position, Department of Food Science, 1990.
13. Member, North Central Region – 121 Technical Committee, Safety of Food and Feeds in Animal Production, 1982-1989; Chairman, 1985.

University of Georgia Service

1. Food Safety and Quality Research Complex Building Committee, University of Georgia Agricultural Experiment Station, 1991-1997.

2. Program Leader and Director, Food Safety and Quality Enhancement Laboratory, University of Georgia Agricultural Experiment Station, 1991-93.
3. Governor's Development Council Initiative for the Food Processing Industry, University Coordinator of Committee on Food Safety, 1993-
4. Executive Council, Laboratory for Sustainable Agroecosystem Studies, University of Georgia Agricultural Experiment Station, 1993-95.
5. Director, Center for Food Safety and Quality Enhancement, University of Georgia, 1993-
6. Chairman, Search and Screen Committee, Poultry Science Department Head, College of Agricultural and Environmental Sciences, 1995.
7. Presenter, Operation Legacy, Georgia Experiment Station, Griffin, GA, September 1995.
8. Reviewer, Department of Foods and Nutrition, College of Family and Consumer Resources, 1995-96.
9. Presenter, Governor's Science and Technology Advisory Council, Industry Interface - Center for Food Safety and Quality Enhancement, July, 1995.
10. Panel Moderator and Presenter, Georgia Agricultural Experiment Stations, Research Advisory Board Meeting, Challenges facing the food processing industry, July, 1995.
11. Member, College of Agricultural and Environmental Sciences (CAES), GSAMS Classroom Task Force, 1995-96.
12. Member, CAES Office of International Agriculture Workshop Steering Committee, 1995-96.
13. Member, CAES Steering Committee and Executive Council of the Center for International Trade and Marketing, 1995-1999.
14. Member, Program Review Team of UGA Department of Foods and Nutrition, 1996.
15. Member, CAES College Technical Advisory Group (C-TAG), 1996.
16. Member, CAES Strategic Planning Group on Values, 1996.
17. Member, CAES Committee on Consolidation of Business Functions, 1996-97.
18. Member, CAES Committee to Recommend a Single College Faculty Governance Structure, 1996-97.
19. Member, UGA Committee on Appointment and Promotion of University Full-Time Research Professionals, 1996, 97.

20. Consultant, Department of Agricultural and Applied Economics Strategic Planning Committee, 1997.
21. Member, Search Committee for CAES Director of Fiscal Affairs, 1997.
22. Member, CAES Program Planning and Review Committee, 1997-98.
23. Member, University's Special Professorship Committee, 1997-2000.
24. Member, Search Committee for CAES Associate Dean of Extension, 1998-1999.
25. Member, College of Veterinary Medicine Food Animal Program Planning Group, 1998.
26. Member, Search Committee for Department Head for Department of Environmental Health Sciences, 1999.
27. Chairman, Committee on Adding Value to Georgia Products, 1999-2000.
28. Member, UGA Biomedical and Health Sciences Working Group, 1999-2000.
29. Member, Administrative Review Committee for Dean of College of Agricultural and Environmental Sciences, 1999-2001.
30. Member, Public Health Program Steering Committee, 2001.
31. Member, University Review Committee on Health & Clinical Sciences (Promotion and Tenure), 2001-2004; Chairman, 2002-2003.
32. Member, 3-yr Promotion/Tenure Review Committee of Ynes Ortega, 2002.
33. Faculty Member, Biomedical and Health Sciences Institute, 2002-
34. Member, College of Agricultural and Environmental Sciences, Agro-Security Task Force, 2001-2002.
35. Member, College of Agricultural and Environmental Sciences, Review Panel of Alumni Foundation Distinguished Professor, 2003.
36. Member, College of Agricultural and Environmental Sciences, Level I Promotion and Tenure Committee, 2004-2007.
37. Member, Promotion/Tenure Review Committee of Mary Alice Smith, 2004.
38. Member, PostTenure Review Committee of Larry Beuchat, 2004.
39. Member, College of Agricultural and Environmental Sciences, Search and Screening Committee, Associate Dean for Research, 2007.

40. Member, UGA Faculty of Infectious Diseases, 2008-
41. Member, Post Tenure Review Committee of Joseph Frank, 2011.
42. Invited Faculty Member, Center for Drug Discovery Faculty, University of Georgia, 2011.
43. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr.' s post-tenure progress toward Full Professor, 2011.
44. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr. Joseph Frank's post-tenure progress, 2011.
45. Member, Post Tenure Review Committee for Ynes Ortega, 2012.

Other Forms of Professional Service

Journal Management Committee, Journal of Food Protection, 1981-1985.

Wisconsin Association of Milk and Food Sanitarians-Wisconsin Environmental Health Association Joint Committee on Education, 1981-85. Vice-Chairman, 1984-85.

Program Committee, Wisconsin Association of Milk and Food Sanitarians Annual Meeting, 1981-82.

Secretary, Food Microbiology Division of the American Society for Microbiology, 1982.

Wisconsin Agricultural Experiment Station Representative to NCR-121, The safety of feed and foods related to animal production, 1983-1988. Secretary, 1983-84; Chairman, 1984-85.

Secretary, Campylobacter Society, 1983-85.

Advisory Committee on Annual Program Content, International Association of Milk, Food and Environmental Sanitarians, 1984-87.

Executive Committee, Food Microbiology Division of the American Society for Microbiology, 1984-85.

Member-At-Large, Executive Committee, Food Microbiology Division of the Institute of Food Technologists, 1984-86.

Invited Participant, Institute of Food Technologists Workshop on Research Needs, Arlington Heights, IL, 1984.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1984-2000

Executive Committee, Conference for Food Protection, 1985-86.

02/2015

Chairman, Food Microbiology Division's Public Information Committee, Office of Scientific Affairs, Institute of Food Technologists, 1985-

Expert Advisor, 2014. STTR grant for Zansors in the Specific Aims.

Committee to Draft Institute of Food Technologists Scientific Status Summary on "Bacteria Associated with Foodborne Diseases," 1985-87.

Technical Advisory Committee, Center for Dairy Research, University of Wisconsin, 1986-91.

Scientific Advisor, American Meat Institute - Meat Safety Committee, 1986-95.

Ad Hoc Reviewer, U.S. Department of Agriculture Small Business Innovative Research Competitive Grants Program, 1986, 88-98, 2000-2003.

External Examiner, Ph.D. Examination of Lai-King Ng, University of Alberta, Department of Microbiology, Edmonton, Alberta, Canada, February 16, 1987.

Ad Hoc Reviewer, U.S. Department of Agriculture Molecular Biology/Gene Structure-Animals Competitive Research Grants Program, 1987, 1988.

Alternate Councilor, Wisconsin Institute of Food Technologists, 1987-90.

Member, World Health Organization Working Group on Thermoresistance of Listeria monocytogenes, 1987-91.

Chairperson, Group E64 Expert Committee on Detection and Enumeration of Listeria monocytogenes in Milk and Milk Products; Gram-positive pathogens, United States Contingent of International Dairy Federation, 1987-94.

Ad Hoc Reviewer, U.S. Department of Agriculture BARD Research Grants Program, 1988.

Member, Annual Meeting Program Committee, Institute of Food Technologists, 1988-1991.

Scientific Advisor, World Health Organization, Scientific Working Group on Epidemiology and Disease Prevention. Trip to Lagos, Nigeria to advise investigators at the University of Lagos, College of Medicine, on research approaches to study the microbiological safety of fermented weaning foods, August 19-27, 1988.

Review Team Member, U.S. Department of Agriculture-Cooperative State Research Service. Comprehensive Department Review of the Department of Food Science and Nutrition, University of Minnesota, St. Paul, October 31-November 4, 1988.

Scientific Advisory Board, International Committee on Food Microbiology and Hygiene of the International Union of Microbiological Societies to plan its 14th International Symposium, 1988-1990.

Reviewer, Wisconsin Department of Development-Small Business Innovation Research Proposal, 1988.

Writing Committee, NASULGC Division of Agriculture-Committee on Biotechnology, Socio-Economic Subcommittee Basebook/Leaflet Series on the Social and Economic Effects of Biotechnology, 1988-1990.

Ad Hoc Reviewer, Freedom Magazine, 1988.

Project Monitor, International Life Sciences Institute-Nutrition Foundation, Listeria and Food Safety Research Projects, 1988-95.

Member, Membership Committee, American Academy of Microbiology, 1989-90.

Ad Hoc Reviewer, Hatch Program, Massachusetts Agricultural Experiment Station, University of Massachusetts-Amherst, 1989.

Executive Board, International Association of Milk, Food and Environmental Sanitarians, Secretary, 1989-90; Vice-President, 1990-91; President-Elect, 1991-92; President, 1992-93; Past-President, 1993-94.

Member, Council for Agricultural Science and Technology Task Force on "Assessment of Risk Associated with Pathogenic Microorganisms in Food," 1989-94.

Ad Hoc Reviewer, Connecticut Sea Grant College Program, University of Connecticut, 1989.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agriculture Research Service, Research proposals. 1989.

Ad Hoc Reviewer, Natural Sciences and Engineering-Research Council of Canada proposals, 1989-95.

State Key Contact, American Society for Microbiology Public and Scientific Affairs Board, 1989-91.

Ad Hoc Reviewer, Washington State Beef Commission Research Grants Program, 1990.

Ad Hoc Reviewer, U. S. Department of the Army Research Grants Program, 1990.

Ad Hoc Reviewer, American Council on Science and Health, booklet series, 1990.

Quality and Safety Scientific Advisory Group, Wisconsin Milk Marketing Board, 1990.

Executive Committee, International Union of Microbiological Societies-International Committee on Food Microbiology and Hygiene, American Society for Microbiology representative, 1990.

Ad Hoc Reviewer, U.S. Food and Drug Administration's Bacteriological Analytical Manual, 7th ed., 1990.

Ad Hoc Reviewer, Rutgers-The State University of New Jersey, Research proposal, 1990.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1985-93.

Scientific Committee, International Conference on Listeria and Food Safety (June 13-14, 1991), Laval, France, 1990-91.

Technical Session chairman, Institute of Food Technologists, 1991 Annual Meeting, Dallas, TX, 1990-91.

Jury Chairperson, International Association of Milk, Food, and Environmental Sanitarians' Educator Award, 1991-92.

Ad Hoc Reviewer, U. S. Department of Agriculture - Cooperative State Research Service, National Research Initiative Competitive Research Grants, 1991-2004.

Program Areas: Ensuring Food Safety: Preharvest Section and Postharvest Section
 Animal Molecular Genetics and Gene Mapping
 Mechanisms of Animal Disease
 Value Added Products
 Water Resources Assessment & Protection
 Ecosystem Science
 Soil & Soil Biology
 Epidemiological Approaches for Food Safety
 Food Characterization/Process/Product Research

External Examiner, Ph.D. Thesis, McGill University, 1991.

ASM Foundation Scientific Lecturer, American Society for Microbiology, 1991-93.

Reviewer, Book Chapter for Proceedings of NIH Campylobacter Symposium, 1991.

Correspondent, Food Safety Notebook, 1990-99.

Ad Hoc Reviewer, Alaska Sea Grant Program, 1991.

Ad Hoc Reviewer, USDA Food News, 1991.

Ad Hoc Reviewer, Cambridge University Press, Microbiology Texts, 1991.

Chair-Elect, Southern Extension and Research Activity - Information Exchange Group on Food Safety, 1991-95.

Ad Hoc Reviewer, Marcel Dekker, Food Microbiology and Food Safety Texts, 1991, 94.

Advisory Committee, Listeria 1992, The Eleventh International Symposium on Problems of Listeriosis, Copenhagen, 1991-92.

Ad Hoc Member and Chairperson, Annual Meeting Program Committee, International Association of Milk, Food and Environmental Sanitarians, 1991-92.

Chairman, Institute of Food Technologists Food Microbiology Division, Office Scientific Affairs Committee, 1991-2007.

Scientific Program Committee, 2nd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing Escherichia coli Infections, Bergamo, Italy, 1992-94.

Ad Hoc Reviewer, U. S. Department of Agriculture - Food Safety and Inspection Service, Proposal to determine microbiological profile of U. S. beef supply, 1992.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Department Review of the Department of Food Science, North Carolina State University, Raleigh, April 12-17, 1992.

Ad Hoc Reviewer, National Academy of Sciences Institute of Medicine, Report on Emerging Infections: Microbial Threats to Health, 1992.

Member, Institute of Food Technologists Samuel Cate Prescott Award Jury, 1992-95.

Ad Hoc Reviewer, Encyclopaedia of Food Science, Food Technology and Nutrition, 1992.

Expert Panel Member, Dairy Research Foundation, Assess safety of products from freeze concentration of dairy streams, 1992.

Ad Hoc Reviewer, Medical Research Council of Canada, Research proposal, 1992.

Ad Hoc Reviewer, International Life Sciences Institute North America, Research papers, 1989-96.

Member, International Life Sciences Institute-North America, Publications Committee, 1992-94.

External Assessor, University Pertanian Malaysia, Appointment of faculty to Food Science and Biotechnology Department, 1992-95.

Member, Group E32 Expert Committee on Gram-Negative Bacteria, United States Contingent of International Dairy Federation, 1992-94.

Member, National Academy of Science - Institute of Medicine, Food Forum, 1993-99.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Review of the Department of Food Science and the Center for Advanced Food Technology, Rutgers-The State University of New Jersey, New Brunswick, NJ, March 22-26, 1993.

Scientific Program Committee Member, 3rd International Conference of ASEPT, Food Safety '94, 1993-94.

Ad Hoc Reviewer, Pennsylvania State University College of Agricultural Sciences, USDA Special Grant on Milk Safety Proposals, 1993.

Ad Hoc Advisor, Secretary of Agriculture Mike Espy, Escherichia coli O157:H7 Research: Past, Present, and Future, February 1993.

Scientific Advisor, National Live Stock and Meat Board, Food Safety Round Table II, 1993.

Scientific Advisor, Grocery Manufacturers of America, Microbiology Safety and Control Working Group, 1993.

Invited Expert, U. S. Department of Agriculture, Food Safety and Inspection Service, Testify at regional hearing on the safety of the nation's meat and poultry supply, Atlanta, GA, June 11, 1993.

Chair, American Society for Microbiology, Public and Scientific Affairs Board - Ad Hoc Committee on Food Safety, 1993-2009.

External Examiner, The University of the West Indies, Food Microbiology program, 1993-96.

Ad Hoc Reviewer, American Society for Microbiology, Sayers and Whit Book on "Microbial Pathogenesis," 1993.

Chairperson, Scientific Advisory Committee on Food Safety, National Live Stock and Meat Board, 1993.

Member, Publications Committee, International Life Sciences Institute North America, 1992-95.

Response Panel Member, Joint Council on Food and Agricultural Sciences, Meeting on Nutritious and Safe Food, 1993.

Member, Search Committee, U. S. Department of Agriculture Food Safety and Inspection Service, Deputy Administrator "Super Scientist" position, 1993-94.

Reviewer, Beef Industry Council and National Live Stock and Meat Board, Safe Food Backgrounder, 1993.

Ad Hoc Advisor, Advisory Committee on the Microbiological Safety of Food, Working Group on Vero Cytotoxin-Producing Escherichia coli, Department of Health, London, England, 1993-95.

Member, American Society for Microbiology, Committee on Microbiological Literacy, 1993-94.

Invited Respondent, Journal of the American Medical Association, 1993.

Member, International Association of Milk, Food and Environmental Sanitarians, Strategic Long Range Planning Task Force, 1993-95.

Expert Reviewer, Association of Official Analytical Chemists, Test Kit Performance Testing Program, 1993-95.

External Advisor, University of Guadalajara, Ph.D. degree program of Alejandro Castillo Ayala, 1993-96.

Chairperson, National Academy of Sciences - Institute of Medicine Food and Nutrition Board Food Forum, Committee on HACCP, 1993-94.

Member, National Research Council Board on Agriculture, Panel on Animal Health and Veterinary Medicine, 1993-96.

Invited Expert, U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department of Operations and Nutrition, Hearing on Meat and Poultry Inspection, Washington, DC, March 16, 1993.

‘Member, Georgia Beef Board, GA Food Safety Alliance Team, 1993-99.

Ad Hoc Reviewer, Institute for Science in Society, Washington, DC, White Paper on Foodborne Pathogens in Meat and Poultry, 1993-94.

Member, Review Panel, International Life Science Institute-North America, Future Leaders Awards, 1994-2000.

Trustee Members, Executive Committee, International Life Sciences Institute, 2014.

Invited Contributor, Southeastern Agriculture Experiment Stations - CSRS Impact Report, Food Safety Research Contributions, 1994.

Elected Representative, U. S. Department of Agriculture - Food Safety and Inspection Service, HACCP Round Table, Washington, DC, March 30-31, 1994.

Expert, Fletcher, Vautier Moore (Barristers & Solicitors), New Zealand, Listeriosis manslaughter prosecution, 1993-94.

Representative, Georgia Agricultural Experiment Station, Regional Project DC93-02, "Assuring Food Safety Through Control of Foodborne Disease Agents," 1994-97.

Member, U. S. Department of Agriculture - Food Safety and Inspection Service, Technical Analysis Group on Processing, 1994.

Member, Scientific Advisory Committee, International Life Sciences Institute, First Pan American Conference on Food Safety, 1994-95.

Member, Southern Association Agricultural Experiment Stations Directors, Advisory Committee on Food Science and Technology (AC-4), 1994-99.

Member, Joint U. S. Department of Agriculture/University Committee on Food Safety, Enhancing Cooperation in Food Safety Research and Education, 1994.

Member, Scientific Advisory Board, GENE-TRAK Systems, 1994.

Member, American Society for Microbiology Raymond W. Sarber Award Selection Committee, 1994-96.

External Examiner, The University of the West Indies, M.S. Thesis of Roshini Mahaij, 1994.

Jury Member, DFISA-American Society of Agricultural Engineering Food Engineering Award, 1994.

Member, European Verotoxin-producing Escherichia coli (VTEC) Club, 1994-2000

Chairman, International Association of Milk, Food and Environmental Sanitarians - Past President's Advisory Committee, 1993-94.

Chairman, International Association of Milk, Food and Environmental Sanitarians - Finance Committee, 1993-94.

Ad Hoc Reviewer, International Life Sciences Institute, Food Safety proposal, 1994.

Ad Hoc Reviewer, American Society for Microbiology, Book proposal, 1994.

Ad Hoc Reviewer, National Science and Technology Council, Subcommittee on Food Safety, Security and Production's Strategic/Implementation Plan, 1994.

Advisor, Ophidian Pharmaceutical, Inc., USDA Small Business Research Program Phase I Grant, "Development of an antidote for E. coli O157:H7 verotoxin" project, 1993-95.

Invited Participant, USDA/University Workshop on Enhancing Cooperation in Food Safety Research and Education, Washington, DC, March 8-9, 1994.

Ad Hoc Advisor, National Live Stock and Meat Board Blue Ribbon Task Force on E. coli O157:H7, 1994.

Member, Georgia Poultry Emergency Committee, 1994-99.

Ad Hoc Reviewer, Board of Regents of the State of Louisiana, Research proposal, 1994-95.

External Examiner, The University of the West Indies, M.S. Thesis of Vidia Doodnath, 1994.

Scientific Advisor, International Meat and Poultry HACCP Alliance, Poultry Enhancement Program-Pilot Study, 1994.

Expert Participant, Research Triangle Institute and U. S. Department of Agriculture, Project on risk analysis, 1993-94.

Invited Participant, USDA-Agricultural Research Service, Conference on Regional Vitiation Development, Atlanta, GA, July 13, 1995.

External Examiner, The University of the West Indies, M.S. Thesis of Lorraine Westcarr, 1995.

Ad Hoc Reviewer, Food and Agriculture Organization of the United Nations, International Consultative Group on Food Irradiation, Technical Monograph, 1995.

- Reviewer, University of New South Wales, Department of Food Science and Technology, Sydney, Australia, Food Microbiology Teaching and Research Program, 1995.
- Scientific Program Committee, 3rd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing *Escherichia coli* Infections (VTEC '97), 1995-97.
- Third Party Expert, Animal Health Institute, Food Safety Network, 1995-2001.
- Reviewer, National Research Council, Food Chemicals Codex, 4th edition, 1995.
- Resource Person/Interview, Iowa Public Radio, Market-to-Market (Farm News), Food Safety, July, 1995.
- Ad Hoc Reviewer, American Society for Microbiology, P. Murray Book on "Pests and Pestilence in the Modern Age of Medicine," 1995.
- Chairman, American Society for Microbiology, Ad-Hoc Committee on Food Safety, 1995-
- Member, International Life Sciences Institute-North America, Membership Committee, 1995-96.
- Member, International Life Sciences Institute-North America, Technical Committee on Food Microbiology, Organizing Committee on ILSI-USDA-sponsored Conference of Emerging Pathogens, 1995-96.
- Invited Participant, The Food Drug Law Institute, Food Update '95 (Academic Fellowship), 1995.
- Reviewer, Institute of Medicine, Food and Nutrition Board, Food Chemicals Codex, 1995.
- Member, The Advancement of Sound Science Coalition, 1995-99.
- Invited Participant, Food and Drug Administration, Regulatory Reform Workshop/A New Partnership, 1995.
- Member, Food and Drug Administration Advisory Committee Task Group on *Vibrio vulnificus*, 1995.
- Reviewer, University of the West Indies, University Project Implementation Unit, Research Proposal on "The Production of Mozzarella Cheese from Buffalo Milk," 1995.
- Member, Rhône-Poulenc, Food Safety Expert Team, 1995.
- Invited Participant, U. S. Department of Agriculture-Food Safety and Inspection Service, Microbiological methods development workshop, March, 1995.
- Member, Georgia Tech Industrial Advisory Committee, HACCP Working Group, 1995.
- Member, International Life Sciences Institute, First Pan American Conference on Food Safety, Scientific Committee, 1994-95.
- Member, American Meat Institute's Science and Education Panel, 1995-96.

- Chairman, American Society for Microbiology, Task Force on Food Microbiology Laboratory Accreditation Program, 1996-97.
- Chairman, Odwalla Nutrition and Safety Advisory Council, 1996-97.
- Member, International Life Sciences Institute-North America, Nominating Committee, 1996-97.
- Member, McDonald's Olympic Food Service Team, Atlanta, GA, 1996.
- Ad Hoc Reviewer, Van Nostrand Reinhold Publishers, Book Proposal (Food Safety Law), 1996.
- External Assessor, Universiti Pertanian Malaysia, evaluate appointments to the post of Associate Professor/Professor in the Faculty of Food Science and Biotechnology, University of Agriculture, Malaysia, 1996-98.
- Reviewer, American Society for Microbiology, Book Review, *Escherichia coli* in Domestic Animals and Humans. ASM News 62:153 (1996).
- Member of Scientific Advisory Council, The Refrigeration Research and Education Foundation, 1996-2002.
- Reviewer, International Fresh-cut Produce Association, Book Review (Food Safety Guidelines for Fresh-cut Produce), 1996.
- Consultant, Ophidian Pharmaceuticals, Madison, WI, USDA Small Business Research Program Phase II Grant (Development of an Antidote for *E. coli* O157:H7 Verotoxin), 1995-97.
- Reviewer, International Life Sciences Institute, World Health Organization book on "Health Education in Food Safety," 1996-97.
- Reviewer, International Consultative Group on Irradiation, Joint Food and Agriculture Organization of the United Nations/International Atomic Energy Agency (WHO), White Paper on "Control of Pathogens in Poultry Meat," 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Lisa Indar, 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Siddiqua N. Mohammed, 1996.
- External Examiner, The University of the West Indies, M.S. Thesis of Ellison P. Floyd, 1996-97.
- Editorial Board, John Wiley & Sons, Inc., "Encyclopedia of Food Science and Technology" (Second Edition), 1997-2000.
- Scientific Advisor, Produce Marketing Association (Nuffer, Smith, Tucker, Inc.; Public Relations) Development of an advisory for consumers to assess the significance of a foodborne outbreak to them, 1997.
- Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, "Coliforms and *E. coli*: Problem or Solution?", 1998.

Member, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, U.S.. Environmental Protection Agency, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Andrew D. Persad, 1997.

Scientific Advisor and Spokesperson, International Fresh-cut Produce Association, Washington, DC, Television Media Video on “Packaged Salad Safety,” 1997.

Consultant, Immunological Associates of Denver, USDA Small Business Research Program Phase I Grant (Development of a Rapid Method to Detect *E. coli* O157:H7), 1997-98.

External Examiner, The University of the West Indies, M.S. Thesis of Gloria R. Boodoosingh, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on *Cyclospora*, Washington, DC, July 23, 1997.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2000.

Member, International Scientific Advisory Board of Food Micro ‘99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, NSF International, Proposed Standard 75 (NSF International Standard for Foods - Non-Potentially Hazardous Foods), 1997.

Reviewer, Western Association of Agricultural Experiment Station Directors, Cooperative Regional Research Project W-122 Proposal (Improve Food Safety through Discovery and Control of Natural and Induced Toxicants and Antitoxicants), 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, “*Escherichia coli*: Mechanisms of virulence,” 1997.

Reviewer, National Academy of Sciences-Institute of Medicine, “Food Chemicals Codex: First Supplement to the Fourth Edition,” 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Darin A. Sukha, 1997.

Reviewer, International Fresh-cut Produce Association, White paper on the microbiology of fresh-cut produce, 1997.

Reviewer, Chapman & Hall, Book Proposal Review, “Food Safety” (Rodricks, Taylor and Hulebak, eds.), 1997.

Member, International Life Sciences Institute-North America, Long-Range Program Committee, 1997-99.

Member, International Life Sciences Institute-North America, Program Oversight Committee, 1997-98.

External Evaluator, University Pertanian Malaysia, Promotion evaluation of Associate Professor Gulam Rusul Bin Rahmat Ali to Professor, 1997.

Reviewer, Ronald McDonald House Charities, Research proposal, 1997.

Scientific Advisor and Intermediary, New York State Department of Agriculture & Markets and Rite Foods, Microbiological criteria for hummus, 1997.

Member, International Fresh-cut Produce Association, Food Safety Task Force, 1997-1999.

Invited Commentor, Food and Drug Administration Docket No. 96N-0449 (Current Science and Technology on Fresh Juices) through the American Society for Microbiology, January 1997.

Reviewer, International Foundation for Science, Stockholm, Sweden, Research grant proposal, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1997 and 1998.

Reviewer, Marcel Dekker, Book proposal (Pharmacology and Physiology of Phycotoxins), 1997.

Member, Scientific Advisory Panel, Environmental Protection Agency, Panel on Microbiology - Efficacy Testing, 1997.

External Examiner, The University of The West Indies, M.S. Thesis of Andrew Dev Persad, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiology Criteria for Foods, Public Meeting on President's Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables, Washington, DC, November 17, 1997.

Reviewer, National Academy of Sciences - Institute of Medicine, First Supplement to the Food Chemicals Codex, 4th edition, 1997.

Book Reviewer, Chapman & Hall, Food Product Development Capstone Course Textbook, 1997.

Reviewer, Arkansas Science & Technology Authority, Research proposals, 1997.

Invited Expert Testimony, U.S. Senate Committee on Agriculture, Hearing on Food Safety (represented American Meat Institute, Grocery Manufacturers of America, National Broiler Council, National Food Processors Association and National Turkey Federation), October 8, 1997.

Scientific Advisor and Spokesperson, The Association for Dressings and Sauces, Atlanta, GA Television News Video on "Mayonnaise Safety", 1997.

International Scientific Advisory Board, Food Micro '99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, University of Georgia College of Veterinary Medicine, research paper, 1997.

Invited Participant, Food and Drug Administration/National Science Foundation/U. S. Department of Agriculture, Workshop in Enhancing Food Safety through the Use of Sensors, Washington, DC, September 24, 1997.

Member, International Life Sciences Institute - North America, Executive Committee, 1998-2000.

Member, Fellows Committee, International Association of Milk, Food and Environmental Sanitarians, 1998.

Chairman, Georgia-Pacific Health Smart™ Advisory Board, 1998-2001.

Reviewer, Canada Foundation for Innovation, Research Infrastructure Projects, 1998.

Member, Council for Agricultural Science and Technology Committee on Foodborne Pathogens - Update of Recommendations, 1997-98.

Member, Institute of Food Technologists, Samuel Cate Prescott Award Jury, 1998-2001.

Reviewer, National Science Foundation, Centers proposals, 1998.

Advisor, International Sprout Growers Association and Green Giant, Pathogen contamination of sprouts, 1998.

Scientific Communicator, Institute of Food Technologists, 1998-

Reviewer, The Wellcome Trust, Research proposal, 1998.

Panel Member, U.S. Department of Agriculture-Food Safety Inspection Service, Conference on New Technologies to Improve Food Safety, July 28, 1998.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1998.

Member, Food Safety Award Committee, International Association of Milk, Food and Environmental Sanitarians, 1997.

Reviewer, Canada Foundation for Innovation, Center proposal, 1998.

Invited Reviewer, U.S. Department of Agriculture-Agricultural Marketing Service, Quality Through Verification Program, 1998.

Invited Panelist, U.S. Food and Drug Administration, Public Meeting on Sprouts, September 28-29, 1998.

Reviewer, Clemson University, South Carolina Agriculture and Forestry Research System, Research proposal, 1998.

Member, Food and Drug Administration Senior Biomedical Research Service (SBRS) Credentials Committee, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Catherine Berkeley, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Faith Spencer-Crossman, 1998

Reviewer, University of Nebraska-Nebraska Research Initiative, Research Grant Proposal, 1998.

Member, International Association for Milk, Food and Environmental Sanitarians, NFPA Food Safety Award Committee, 1998.

Editorial Board, Encyclopedia of Food Science and Technology, 2nd edition, John Wiley Publishers, 1997-2000.

Member (Scientific Expert), Alliance of the California Foodborne Disease Network, Los Angeles, CA, 1997-2000.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2003.

External Examiner, The University of The West Indies, M.S. Thesis of Kartikeya Tripathi, 1998.

Invited Expert and Rappateur, American Society for Microbiology Colloquium on “Food safety: current status and future needs,” Nashville, TN, August 14-16, 1998.

Member, Food Micro ‘99, 17th International Symposium of the IUMS International Committee on Food Microbiology and Hygiene, International Scientific Advisory Board, 1998-99.

Member, Produce Marketing Association, “Stop & Think Questions on Foodborne Illness,” Advisory Committee, 1997-98.

Invited Panelist, U.S. Department of Agriculture-Food Safety and Inspection Service, Conference on Technology to Improve Food Safety, Washington, DC, July 28, 1998.

Invited Panelist and Advisory Committee Member, Food and Drug Administration, Public Meeting on Sprouts, Washington, DC, September 28-29, 1998.

Elected Member, Operations Committee, National Alliance for Food Safety, 1998-2000.

Invited Panel Member, National Aeronautics and Space Administration, Food Technology Commercial Space Center Technical Review, 1998-99.

Invited Reviewer, Georgia Department of Agriculture, Food Safety Evaluation of New Products, 1998.

Invited Reviewer; Ad Hoc Advisory Group, National Institutes of Health, Office of Dietary Supplements, Peer review of public information fact sheets on dietary supplements, 1998.

Member, Georgia Department of Agriculture, Crisis Communication Committee, 1998-2009.

Member, International Life Sciences Institute, Program Planning Committee for the Conference on The National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Applications, 1998.

Member, International Life Sciences Institute-North America, Publication Committee, 1998-2000.

Invited Moderator, U.S. Department of Agriculture Secretary Dan Glickman, Presentation on “Food Safety and Public Health,” University of Georgia, March 13, 1998.

Invited Panel Members, National Academy of Sciences Meeting on Ensuring Safe Food from Production to Consumption, Washington, DC, April 29-30, 1998.

Scientific Advisor, U.S. Environmental Protection Agency, 1998-2005.

Scientific Advisor, Chick-fil-A, Alleged Foodborne Outbreak of *Klebsiella pneumoniae* Infections Associated with Chicken Salad, September, 1997.

Scientific Communicator, Institute of Food Technologists Scientific Communicator Committee, 1998-2008.

Expert, General Mills, Food Safety Video, 1999.

Member, Institute of Food Technologists, Chief Research Officers Task Force, 1999-2007.

Member, American Meat Science Association, “The Role of Microbiological Testing in Beef Food Safety Programs” Task Force, 1998-99.

Reviewer, International Foundation for Science, Stockholm, Sweden, Food Safety Research Grant Proposal, 1999.

Member, American Meat Institute, Blue Ribbon Task Force on *Listeria*, 1999.

Moderator, Georgetown University, Washington, DC, Ceres Forum on Research Priorities and Intervention Strategies for *Listeria*, May 19, 1999.

Reviewer and Contributor, National Cattleman’s Beef Association, Food Safety Information Resource, 1999.

Chairman, Institute of Medicine, Food Forum Symposium, Food Safety Policy, Science and Risk Assessment: Strengthening the Connection, 1999.

Reviewer, Rutgers - The State University of New Jersey, New Jersey Agricultural Experiment Station Research Proposal, 1999.

Member, U. S. Food and Drug Administration Deputy Commissioner, Search Committee, 1999-2000.

Reviewer and Resource Person, American Meat Institute, Issue statement on *Listeria monocytogenes*, 1998-99.

Member, University of Georgia Research Professionals' Promotion Panel, 1999.

Member, American Association of Cereal Chemists, Annual Meeting on "Functional Foods: Strategies for the Food Industry," Program Advisory Committee, 1999-2000.

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 2000-2003.

External Examiner, The University of the West Indies, M.S. Thesis of Karen Shaw, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Wayne Benjamin, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Nalini N. Boodram, 1999.

Member, International Association of Milk, Food and Environmental Sanitarians, Fellows Award Selection Committee, 1999.

Member, U. S. Food and Drug Administration and University of Maryland, Joint Institute for Food Safety and Applied Nutrition (JIFSAN), Advisory Council, 1999-2009.

Member, U. S. Food and Drug Administration, Senior Biomedical Research Service (SBRS) Credentials Committee, 1999-2002.

Member, American Meat Institute Foundation, *Listeria* Research Committee, 1999-2009.

Member, Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Program Advisory Committee. 1999.

Member, Canada Foundation for Innovation, Review Committee (proposals submitted by the University of Guelph) 1999.

Reviewer, International Foundation for Science, research proposal, 1999.

Member, International Life Sciences Institute - North America, Presidential Search Committee, 1999.

Member, Odwalla, Nourishment and Safety Advisory Council, 1997-2000.

Member, Georgia Public Health Team, 1999-2009.

Member, Fresh Produce Committee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on Sprouts, Washington, DC, March 29, 1999.

Advisor, Molecular Innovations Inc., Denver, CO, USDA Small Business Research Program Phase II Grant (Rapid Detection of *Escherichia coli* O157:H7), 1999-2001.

Member, U. S. Food and Drug Administration Science Board, Subcommittee to review research program of the Center for Food Safety and Applied Nutrition, 1999.

Member U.S. Defense Science Board Task Force on Defense Against Biological Weapons, 2000.

Member, National Institutes of Health, Center for Scientific Review Special Emphasis Panel, 2000.

Invited Consultant, International Life Sciences Institute-North America Food Microbiology Committee, Panel on *Listeria* in Foods, 2000.

Scientific Advisor and Spokesperson, Gold Kist, Atlanta, GA, Video on “Microbiological Safety of Chicken Nuggets,” 2000.

Scientific Advisor and Spokesperson, American Meat Institute Foundation, Food Safety Advisory Council, 1999-2000.

Invited Reviewer, American Society for Microbiology, U.S. Food and Drug Administration - U.S. Department of Agriculture Food Safety Strategic Plan, 2000.

Member, The Canada Foundation for Innovation, Expert College of Reviewers, New Innovations Committee, 2000-2003.

Member, ECOP/ESCOP Food Safety Subcommittee, 2000.

Elected Member, Institute of Food Technologists Executive Committee (Membership Representative), 2000-2003.

Reviewer, U.S. Food and Drug Administration Risk Assessment of *Vibrio parahaemolyticus* in raw molluscan shellfish, 2000.

Expert, Food and Agriculture Organization of the United Nations and World Health Organization, Risk Assessments of Microbiological Hazards in Foods Expert Panel, 2000-2002.

Reviewer, John Wiley & Sons, Dictionary of Food Science and Technology proposal, 2000.

Member, American Association of Cereal Chemists 2nd Annual Functional Foods Conference, Program Advisory Committee, 2000.

Expert Resource for News Media, International Food Information Council Foundation, Food Insight Media Guide on Food Safety and Nutrition, 2000-2002.

Invited Commenter/Reviewer, Academic Press, Encyclopedia of Food Microbiology, 1999.

Editorial Committee, Charles Valentine Riley Memorial Foundation, Reducing foodborne illness: Advancing adoption of new technologies, 2000.

Member, Biosys, Scientific Advisory Board, 2000-2001.

Reviewer, Food and Drug Administration Center for Veterinary Medicine, Competitive Grants, 2000.

Reviewer, Food and Drug Administration, Risk assessment of the public health impact of foodborne *Listeria monocytogenes*, 2000.

Reviewer, University of Massachusetts, Massachusetts Agricultural Experiment Station, Research Proposal, 2000.

Scientific Advisor, Dyn Corp/U.S. Environmental Protection Agency, Office of Pesticides Program, Antimicrobial Division, 2000-2003.

Excom-Member, Institute of Food Technologists, Publications Committee, 2000-2003.

Member, Experiment Station Committee on Organization and Policy (ESCOP) Task Force on Food Safety, 2000.

Vice-Chair, Experiment Station Committee on Organization and Policy (ESCOP) Committee on Food Safety, 2000-2002.

Member, International Life Sciences Institute-North America, Membership Development Committee, 2000-

Member, International Life Sciences Institute-North America, Program Committee, 2000-2002.

Member, International Life Sciences Institute-North America, Steering Committee for “Science-Based Food Safety Objectives-Beyond HACCP,” 2000-2001.

Scientific Advisor, North American Blueberry Council, Crisis Management Team, 2000-2009.

Panel Member, U.S. Environmental Protection Agency, FIFRA Scientific Advisory Panel, 2000-2003.

Reviewer, Meat & Livestock Australia, Research and Development Project (Final Report) on Shiga toxin-producing *E. coli*, 2000.

Reviewer, International Foundation for Science, Research Grant (Cloning and Sequencing of a Region of *E. coli* O157:H7), 2000.

Reviewer, Maryland Agricultural Experiment Station, Research Proposal, 2000-01.

Reviewer, Natural Sciences and Engineering Research Council (NSERC) of Canada, Strategic Project, 2000.

Member, Institute of Food Technologists, Expert Panel to draft report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century, 2000-02.

Chairman, Council for Agricultural Science and Technology (CAST), Issue Paper on “Intervention Strategies for Safety of Foods of Animal Origin,” 2000-03.

External Assessor, Universiti Putra Malaysia, Evaluate appointments to Associate/Professor in the Faculty of Food Science and Biotechnology, 2000-03.

Invited Testimony, U.S. Senate Agriculture, Nutrition and Forestry Committee, Hearing on Food Safety, represented CAST, September 20, 2000.

Reviewer, U.S.-Israel Binational Agricultural Research and Development Fund (BARD), Research Proposal, 2000-01.

Vice Chairperson, World Health Organization and Food and Agriculture Organization of the United Nations, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, Rome, Italy, April 30-May 4, 2001.

Chairman, World Health Organization and Food and Agriculture Organization of the United Nations, Expert Consultation and Risk Assessment of Microbiological Hazards in Foods, Working Group on *Salmonella* spp. in eggs and broiler chickens, Rome, Italy, April 30-May 4, 2001.

Member, Institute of Food Technologists, Subcommittee to Propose Nominees for Committee on Nominations and Elections, 2001.

Reviewer, National Agency for the Promotion of Science and Technology of Argentina, Review proposal “Predictive models for growth and inactivation of pathogens relevant to minimally processed foods,” 2001.

Member, National Organic Standards Board, Task Force to Review Compost Regulations in USDA’s Organic Rule, 2001-2002.

Chairman, American Academy of Microbiology, Colloquium on “The Role of Antimicrobials in Agriculture: A Critical Scientific Assessment” Working Group, November 2-4, 2001.

Expert, U.S. General Accounting Office, USDA’s HACCP-based Inspection Models Project (HIMP) pilot, 2001.

Chair, American Society for Microbiology, Comments to Food and Drug Administration on Risk Assessment and Action Plan for Foodborne *Listeria monocytogenes* in Ready-to-Eat Foods, 2001.

External Examiner, Ohio State University, Promotion to Professor of Ahmed Yousef, 2001.

External Examiner, Rutgers-The State University of New Jersey, Promotion to Associate Professor and Tenure of Karl Matthews, 2001.

External Examiner, Universiti Putra Malaysia, Promotion to Professor of Son Radu, 2001.

Panel Member, GRAS Review of Pullulan, 2001-2002.

External Assessor, Universiti Putra Malaysia, Appointment to Associate Professor/Professor in the Faculty of Food Science and Biotechnology, 2001-2003.

External Examiner, Universiti Putra Malaysia, Evaluation of Ph.D. Thesis of Sahilah Abdul Mutalib, 2001.

Reviewer, Food and Drug Administration Science Achievement Awards, 2001.

Invited Contributor, University of Sussex and UK Defence Evaluation and Research Agency, Science Foresight Project, 2001.

Invited External Reference, Kansas State University Nominations for Distinguished Graduate Faculty Award for Daniel Fung, 2001.

Invited External Reference, Oklahoma State University, Nomination for the Eminent Faculty Award for Stanley Gilliland, 2001.

Invited External Reference, Colorado State University, Nomination for University Distinguished Professor for John Sofos, 2001.

Reviewer, United States-Israel Binational Agricultural Research and Development Fund (BARD) research proposal (Foodborne pathogens *Salmonella enteritidis* and *Escherichia coli* O157:H7:cross-resistance to antibiotics, sanitizers and food preservatives), 2001.

External Examiner, The University of the West Indies, Evaluation of Ph.D. Thesis of Lisa Indar-Harrinath, 2001-03.

External Examiner, University of Tasmania, Evaluation of Ph.D. Thesis of Janelle Brown, 2001-2002.

Reviewer, Canada Foundation for Innovation, New Opportunities Fund Proposals (Nova Scotia Agricultural College), 2001-2003.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2001-2003.

Invited Reviewer, Beef Cattle Research Council of Canada, Research Proposal, 2001.

Reviewer, Institute of Food Technologists, Expert Paper on “Analysis and Evaluation of Preventive Control Measures for the Control and Reduction/Elimination of Microbial Hazards on Fresh and Fresh-cut Products,” 2001.

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agricultural *E. coli* O157:H7 Farm-to-Table Process Risk Assessment, 2001-2002.

Reviewer, U.S. Environmental Protection Agency, Review of Pathogen Reduction Protocol to Reduce Foodborne Pathogenic Bacteria in Fruit and Vegetable Process Water, 2001.

Expert Panelist, U.S. Environmental Protection Agency Antimicrobials Division, Efficacy Protocol Review Expert Panel, 2001-2005.

Co-chairperson, International Life Sciences Institute, Annual Meeting, Symposium on Bovine Spongiform Encephalopathy, 2001-2002.

Invited Participant, American Meat Institute, Meeting with the Centers for Disease Control and Prevention to address pathogen contamination of meat and poultry, 2001.

Reviewer, Natural Sciences and Engineering Research Council of Canada, Research Proposal on “Microbial Food Safety-Integrated Modelling Techniques for Farm to Fork Risk Assessment,” Strategic Project, 2001.

Reviewer, Biotechnology and Biological Sciences Research Council of the United Kingdom, Research Proposed on “Dose-Dependent Infection Dynamics of *E. coli* O157:H7 in Cattle,” 2001.

Expert Panel Member, Institute of Food Technologists, Expert Report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century,” 2001.

Member, McDonald’s Food Safety Advisory Council, 2001-2009.

Reviewer, Institute of Food Technologists, Book Review, “Microbial Foodborne Diseases: Mechanisms of Pathogenesis and Toxin Synthesis.” *Food Technology* 55:87, 2001.

Reviewer, Institute of Food Technologists, Expert Report on the “Evaluation and Definition of Potentially Hazardous Foods,” 2001-2002.

Member, American Academy for Microbiology, General and Applied Microbiology Recruitment Committee, 2001-2002.

External Examiner, Utah State University, Promotion to Professor of Burt Weimer, 2001.

Member, National Organics Standards Board of USDA/National Organic Program, Compost Task Force, 2001-2002.

Member, American Society for Microbiology, Nominating Committee for President-Elect, 2001-2002.

Reviewer, Resources for the Future (RFF) Press, *Food Safety* book, 2001-2002.

Member, U.S. Food and Drug Administration, Scientific Achievement Awards Evaluation Committee, 2001.

External Examiner, Iowa State University, College of Veterinary Medicine, Promotion to Professor, James Dickson, 2001.

External Advisor, Michigan State University, National Food Safety and Toxicology Center, Strategic Plan for Center, 2001.

Member, Institute of Food Technologists, Committee of IFT Liaisons to the International Life Sciences Institute, 2001-2002.

Founding Member, Food Safety Research Consortium, comprised of Resources for the Future, University of Maryland, University of Georgia, University of California-Davis, Michigan State University, University of Massachusetts, and Iowa State University, 2002-2009.

Member, Institute of Food Technologists, Task Force on Assisting the Continued Integrity of the U.S. Food Supply, 2001-2002.

Steering Committee Member, Third National Sanitation Foundation International Food Safety Conference, 2001-2002.

Invited External Reference, U.S. Food and Drug Administration nomination for appointment to Senior Biomedical Research Program for David Acheson, 2002.

Invited External Reference, International Association for Food Protection and National Food Processors Association nomination for Food Safety Award for Nelson Cox, 2002.

Invited External Reference, International Association for Food Protection nomination for Citation Award for John Cerveny, 2002.

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007.

Invited External Reference, Institute of Food Technologists nomination for Fellow for Katherine Swanson, 2002.

Invited Reviewer, National Science Foundation, proposal for Integrated Research and Education in Environmental Systems, 2002.

Member, Milbank Memorial Fund, Consortium on Reducing the Burden of Foodborne Illness, 2002.

Invited Evaluator, Argentina National Agency of Promotion Cientifica and Tecnologia proposals, 2002.

Chairman, International Life Sciences Institute Risk Science Institute, *Listeria monocytogenes* Expert Panel Review, Steering Committee, 2002.

Invited Reviewer, United States Civilian Research and Development Foundation for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2002.

International Editorial Advisory Board, *Encyclopedia of Animal Science*, Marcel Dekker, 2002-2009.

invited Advisor, U.S. Government Accounting Office (GAO), Audits of U.S. government food safety activities, Review of security of food processing from deliberate contamination, 2002.

Member, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections - VTEC 2003, Edinburg, Scotland, 2002-2003.

Member, National Institutes of Health, National Institute of Allergy and Infectious Diseases, Partnerships Biodefense Initiative Review Panel, Small Business: Infectious Diseases and Microbiology, 2002.

Host, USDA Foreign Agricultural Service Cochran Fellow, Virginia Montero Campos (Costa Rica), 2002.

- Reviewer, Food and Drug Administration, Center for Veterinary Medicine, Grant application (Resistant *E. coli* in humans and poultry), 2002.
- Reviewer, USDA National Organic Standards Board TAP report on magnesium oxide, 2002.
- Review Panel, Food and Drug Administration, proposal for renewal of the Joint Institute for Food Safety and Applied Nutrition, 2002.
- Advisory Board, Partnership for Food Safety Education, 2002-2005.
- Member, International Life Sciences Institute-North America, Nominations Committee, 2002.
- Reviewer, Food and Drug Administration Bacteriological Analytical Manual, Chapter 10 on “Detection and Enumeration of *Listeria monocytogenes* in Foods,” 2002.
- Reviewer, Versar, Environmental Protection Agency “*E. coli* O157:H7 Criteria Document,” 2002.
- Invited Expert, Institute of Food Technologists Task Order #5 Expert Panel, Intentional Contamination of Food, 2002-2003.
- Drafting Team, President’s Council of Advisors for Science and Technology (Office of Science and Technology), Research priorities for improved assurance of food and water safety in the U.S., 2002.
- GRAS Expert Panel, Mead Johnson, Safety Review: *Lactobacillus rhamnosus* strain GG, 2002-2003.
- Host, USDA Foreign Agricultural Service Cochran Fellow, Diana Banati (Central Food Research Institute, Budapest, Hungary), 2002.
- Host, USDA Foreign Agricultural Service International Cooperation and Development Program, Yugoslavian Food Safety Officials (Risk Assessment-Based Food Safety Policy making), 2002.
- Member, College of Reviewers, Canada Research Chairs Program, National Sciences and Engineering Program, 2002-
- Member, International Life Sciences Institute-North America, Annual Meeting Scientific Session Planning Committee, 2002-2003.
- Steering Committee Member, Food Safety Research Consortium, 2003-2009.
- Review Coordinator, National Academy of Sciences - Institute of Medicine, Report on “Use of Scientific Criteria and Performance Standards for Safe Foods,” 2003.
- Member, International Life Sciences Institute-North America, Communications Committee, 2003-2007.
- Member, American Meat Institute Foundation, Research Committee, 2001-2009.
- Chair Designate, Institute of Food Technologists, Government Relations Committee, 2003-2004.

Invited Expert, Institute of Food Technologists, Task Order No. 7 Expert Panel (Biosecurity), 2003-2004.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2006

Member, Fifth ASEPT International Conference “Analyse de risques et *Listeria monocytogenes*/*Listeria monocytogenes* Risk Analysis,” Scientific Committee, 2003-2004.

Consultant, U.S. Department of Agriculture-Agricultural Marketing Service, Microbiological Data Program, 2003-2005.

Invited Expert, Secretary of Health and Human Services Tommy Thompson, Secretary’s Roundtable on Obesity/Nutrition, July 30, 2003.

Member, Foodborne Pathogens & Disease, Editorial Board, 2003-2009.

Reviewer, U.S. Civilian Research & Development Foundation (CRDF) for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2003.

Reviewer, World Health Organization and Food and Agriculture Organization of the United Nations, Risk Assessments of *Salmonella* in eggs and broiler chickens, 2002.

Jury Member, Food and Drug Administration Scientific Achievement Awards, 2003.

Reviewer, Centers for Disease Control and Prevention, Foodborne Diseases Branch, Computer-based case study on Applied Food Safety Research, 2003.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Milena Corredig), 2003.

Reviewer, U.S. Department of Agriculture - Agricultural Research Service, Research Project Plan (Biology and Control of Human Pathogens on Fresh Produce), 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Robert Buchanan, 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Arthur J. Miller, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Chairman, National Academy of Sciences, U.S.-Iran Workshop on Foodborne Disease Surveillance Systems, 2003-2005.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

External Examiner, Purdue University, Promotion to Professor of Arun Bhunia, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Review Coordinator, National Academy of Sciences - National Research Council, Report on “Workshop on Exploring a Vision: Integrating Knowledge for Food and Health,” 2003-2004.

Invited Reviewer, Danish Research Agency Centres of Excellence Programme, Proposal entitled “Microbial Opportunistic Pathogens - A Severe Problem to Human Health,” 2003.

Invited Reviewer, Danish Research Agency, Centres of Excellence Programme, Proposal entitled “The Center for the Ecology of Pathogenic Traits in the Environment and Humans,” 2003.

Member, American Foods Group, Corporate Food Safety Advisory Committee, 2003-2005.

Jury Panel, Fifth ASEPT International Conference “*Listeria monocytogenes* Risk Analysis,” Scientific Posters, 2004.

GRAS Expert Panel, Mead Johnson, Safety Review: Prebiotic Ingredients for Addition to Infant Formula, 2003-2006.

Invited Expert, U.S. Government Accounting Office, Agriculture and food security issues, 2003.

Member Expert Panel, Cooperating for Food Safety, Best Practices for Control of *E. coli* O157:H7 in Ground Beef, 2004-2009.

Invited Expert, Argentinian public health, federal meat inspection, and beef industry, Testing beef for Enterohemorrhagic *E. coli* O157:H7 and Shiga Toxin-Producing *E. coli*, 2003.

Invited Expert, United Kingdom Chilled Food Association, Priorities for research, 2003.

Invited Expert, Harris Interactive, Optimal daily intake study, 2003.

Invited Reviewer, Canada Research Chairs, Evaluate nomination of Charles Dozois, 2003.

Invited Expert, U.S. Department of Agriculture, Center for Nutrition Policy and Promotion, Dietary Guidelines Advisory Committee, Food Safety Subcommittee, Advice on food safety guidelines for consumers, 2003.

Reviewer, Council for Agricultural Science and Technology (CAST), Report on Food Safety and Fresh Produce, 2003-04.

Jury Member, International Association for Food Protection, International Leadership Award Committee, 2003-06.

Consultant, State of Yucatan in Mexico, Study to establish “tolerable” levels of *Salmonella* in meats (Zaida Mussaret), 2003-04.

Invited Testimonial, *Foodborne Pathogens and Disease* journal, 2003-04.

Co-convenor, American Society for Microbiology Annual Meeting, Roundtable on “Addressing the Issue of Antibiotic Resistant Foodborne Bacteria through the Application of Risk Assessment,” 2004.

Invited External Evaluator, University of Mysore, Ph.D. thesis of B. P. Padmapriya (Molecular methods for the detection of enterotoxigenic staphylococci and application in food quality programs, 2004.

Member, Lallemand-Ivy/Vet Life Pathogen Reduction Advisory Board, 2004.

Reviewer, Canada Foundation for Innovation. New Opportunities Fund proposal (George Van Der Merwe), 2004.

Review Coordinator, National Academy of Sciences- National Research Council, “Identifying and assessing unintended effects of genetically engineered foods on human health,” 2004.

Invited Lectures, NASA and NLM Internet Global Lecture Library (www.pitt.edu/~super1/). Two supercourses on food safety, (1. Contamination of Foods by Pathogens in the Environment and 2. Food Safety challenges from Farm to Table) 2004.

Steering Committee Member, USDA-FDA Global Conference on Good Agricultural Practices, 2004-2005.

Member, State of Georgia Agroterrorism Committee, 2004.

Consultant, General Mills, Risk Assessment of Refrigerated Products, 2004.

Juror, Institute of Food Technologists Congressional Support for Science Award, 2004-2005.

Reviewer, Merial, Evaluation of *E. coli* O157:H7 vaccine, 2004.

Chair, Food Safety Research Consortium - Centers for Disease Control and Prevention, Food Attribution Data Workshop, 2003.

Chair, Institute of Food Technologists, Government Relations Committee, 2004-2005.

Member, National Academy of Sciences - National Research Council, Committee on National Needs for Research in Veterinary Science, 2004-2005.

Member, International Life Sciences Institute-North America, Strategic Planning Committee for Food Safety Program, 2004

Chair, Institute of Food Technologists, Expert Report on “Antimicrobial resistant Microorganisms: Perspectives on Food Safety,” 2004-2005.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2004-2009.

Reviewer, Marcel Dekker, Encyclopedia of Animal Science, 4 manuscripts (1. Pathogens in Animal Products: Sources and Control; 2. Pathogens in Animal Products: Major Biological Hazards; 3. Animal Source of Food: Quality and Safety - Meat and Poultry; 4. Animal Source of Food: Quality and Safety - Milk and Eggs), 2004.

Invited Moderator, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Oral Presentations, 2004.

Jury Member, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Poster Presentations, 2004.

Invited External Reference, Kansas State University, University Distinguished Professor nomination of Daniel Fung, 2003-2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Russell Flowers, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Susan Hefle, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Maribeth Cousin, 2004.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

Member, Warnex, Inc., Scientific Advisory Board, 2004-2006.

Member, Cooperating for Food Safety, Expert Panel, 2003-2008.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Arthur Miller, 2005.

Invited Nominator and External Reference, American Academy of Microbiology, Robert Brackett, 2003.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Richard Whiting, 2005.

Invited Request for Comment, The U.S. Government Accountability Office (GAC), Federal food safety consolidation, 2004.

Invited External Evaluator, University of Minnesota Department of Food Science & Nutrition, tenure and promotion to Associate Professor of Francisco Diez-Gonzalez, 2004.

Invited External Evaluator, Cornell University Department of Food Science, tenure and promotion to Associate Professor of Martin Wiedmann, 2004.

Jury Member, International Association for Food Protection, Fellows Election Panel, 2004-2005.

Member, 6th International Symposium on Shiga toxin producing *Escherichia coli* (VTEC 2006), Melbourne, Australia, Scientific Program Committee, 2004-2006.

Member, Global Good Agricultural Practices Research & Extension Conference, Orlando, FL, Planning Committee, 2004-2005.

Member, Institute of Food Technologists, Task Force on Governance, 2004-2006.

Session Chair, University of Massachusetts, Food Safety Research Consortium, Workshop on Economic Impact of Food Safety Interventions, 2004.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Lactulose as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Galacto-oligosaccharides as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Polydextrose as a prebiotic in infant formula, 2004-2005.

Member, State of Georgia Agro-terrorism Committee of Homeland Security Working Group, Steering Advisory Committee, 2004.

Co-Chair, American Academy of Microbiology, Colloquium on Agriculture and Food Microbiology Research Opportunities, 2004-2005.

Chair, American Society for Microbiology, Office of Public Affairs, White Paper on USDA Microbiology Research Opportunities, 2004-2005.

Advisor, Nippon Suisan Kaisha (Nissui), Biological Control of *Listeria* in food processing facilities, 2004.

Member, State of Georgia Food Security Tabletop Exercise Committee, Steering Advisory Committee, 2004-2005.

Reviewer, Canadian Foundation for Innovation, University of Manitoba Large Animal Biosecurity Laboratory, 2004.

Reviewer, La Agencia Nacional de Promocion Cientifica y Tecnologia, research proposal, 2004.

Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2004.

Reviewer, Washington State University, IMPACT Center, proposal review, 2004.

Reviewer, Blackwell Publishing, IFT Press series, book proposal, 2004.

Author, Emerging Issues in Food Safety, Microbiology of Fresh Produce, book preface, 2005.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Takuji Tanaka), 2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on *Lactobacillus rhamnosus* strain GG as a probiotic in infant formula, 2005-2006.

Invited External Evaluator, University of Maryland, College of Agriculture and Natural Resources, Department of Nutrition and Food Science, appointment as Professor and Dean of Cheng-I Wei, 2005.

Member, Food Safety Research Consortium, Advisory Committee on Conference for Prioritizing Opportunities to Reduce Foodborne Risks, 2005.

Member, Institute of Food Technologists Press Editorial Advisory Board, 2005-2006.

Member, US Congressman Lynn Westmoreland's Agricultural and Natural Resources Advisory Council, 2005-2008.

Member, Global Good Agricultural Practices (GAPs) Research and Extension Conference, Planning Committee, 2004-2005.

Invited External Evaluator, Washington State University Department of Food Science and Human Nutrition, tenure and promotion to Associate Scientists and Extension E3 of Dong-Hyun Kang, 2005.

Member, Commission for a New Georgia, Agribusiness Technical Advisory Group, 2005.

Reviewer, National Research Council, Food Safety and Foodborne Disease Surveillance Systems report, 2005.

Chairman, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, 2005.

Member, International Association for Food Protection, Rapid Response Task Force, 2005-2006.

Invited External Evaluator, North Dakota State University Department of Veterinary and Microbiological Sciences, tenure and promotion to Associate Professor of Catherine Logue, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees Nominating Committee, 2005-2006.

Invited External Evaluator, North Carolina State University Department of Food Science, promotion to Professor of Lee-Ann Jaykus, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of John Luchansky, 2006.

Invited Expert, RTI International, USDA-Food Safety and Inspection Service Expert Panel on Risk Factors for *E. coli* O157:H7 Contamination of Ground Beef, 2005-2006.

Reviewer, Washington State University IMPACT Center, Grant proposal, 2005.

Reviewer, USDA-SBIR Grants in Food Science and Nutrition, 2005-2006.

Invited External Evaluator, Michigan State University, reappointment of Ewen Todd as Director of the National Food Safety and Toxicology Center, 2005.

Invited External Evaluator, Pennsylvania State University Department of Food Science, promotion to Professor of Stephen Knabel, 2005.

Member, Institute of Food Technologists, Nicholas Appert Award Jury, 2005-2008.

Co-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program, Chasing Zeros session, 2006.

Vice-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program Planning Committee, 2005-2007.

Invited Expert, International Food Informational Council, first responders food safety/security training program for National Center for Food Protection and Defense, 2005.

Invited External Reference, Kansas State University, Graduate School, nomination of Daniel Fung for Distinguished Graduate Faculty Award, 2005.

Invited Expert, ABC Good Morning America, Safety of foods in home refrigerators, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Kiyoko Kubuomura, 2005.

Invited Expert, U.S. Department of Agriculture, Biotechnology Research in Agricultural Biosecurity Workshop, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Jenny Scott, 2005.

Invited Reviewer, UK Food Standards Agency, Review of Verotoxin-producing *E. coli* /STEC research, 2005.

External Reference, International Association for Food Protection, Fellow nomination for Robert Brackett, 2005.

Member, International Symposium on Problems on Listeriosis (ISOPOL) XVI, Organizing Committee, 2005-2007.

Nominator, International Association for Food Protection, nomination of Larry Beuchat for FPA Food Safety Award, 2005.

Invited Reviewer, U.S. Department of Agriculture - Agricultural Marketing Service, Qualified through Verification System, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Gale Prince, 2005.

Reviewer, Kansas State University, Targeted Excellence Program, reviewed proposal, 2005.

Reviewer, National Pork Board, research proposals, 2005-2006.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Agriculture and Food Microbiology Committee, study on Microbiology Research Opportunities and Needs within USDA Competitive Grants Program, 2005.

Invited External Reference, International Association for Food Protection, nomination of Catherine Nnoka for the Harold Barnum Industry Award, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees, Development Committee, 2005.

Reviewer, Springer, book proposal on Microbial Ecology of Food Systems, 2005.

Scientific Expert, Food and Drug Administration - Center for Veterinary Medicine, External Review Committee for CVM's National Antimicrobial Resistance Monitoring System (NARMS) research program, 2005-2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Review Coordinator, Institute of Medicine, Daily Mineral Intakes for Military Personnel report, 2005-2006.

Invited Expert, Hong Kong Agri-Food and Veterinary Authority, expert guidance on microbiological specifications for foods, 2005-2007.

Member, International Life Sciences Institute-North America, Board of Trustees Program Committee, 2006-2009.

External Reference, International Association for Food Protection, Food Safety Award, Letter of nomination for U.S. Department of Agriculture-ARS Microbial Food Safety Research Award, 2006.

National Spokesperson, National Chicken Council, Food safety issues associated with avian influenza virus, 2006-2008.

Chairperson, International Life Sciences Institute-North America, 2007 Scientific Program Planning Committee, 2006-2007.

Invited Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2006.

Invited Participant, McDonald's Worldwide Convention, Orlando, FL, 2006.

Chairperson, National Academies, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2005-2006.

Invited Reviewer, National Academies Press, Food Safety and Foodborne Disease Surveillance Systems, 2006.

Chairman, McDonald's Food Safety Advisory Council, 2006-

Member, Earthbound Farm Food Safety Advisory Council, 2006-2009.

Member, 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), International Scientific Program Committee, 2005-2006.

Spokesperson, Best Food Nation, 2006.

Member, National Turkey Federation, Avian Influenza Scientific Advisory Board, 2006-2009.

Expert Resource, International Food Information Council Foundation, Resource for reporters on food safety issues, 2007-2009.

Invited Reviewer, Research Triangle Institute, Review USDA-Food Safety and Inspection Service food safety risk assessment model, 2006.

Review Coordinator, Institute of Medicine, Report by Committee on the Mineral Requirements for Cognitive and Physical Performance of Military Personnel, 2005-2006.

Reviewer, USDA-CSREES National Research Initiative on Nanoscale Science and Engineering for Agriculture and Food Systems, research proposal, 2006.

Spokesperson, National Chicken Council, Radio Tour (14 interviews) on Avian Influenza, 2006.

Nominator, International Association for Food Protection, nomination of Paul Hall for Harold Barnum Industry Award, 2006.

Invited External Reference, International Association for Food Protection, nomination of Ecolab for Black Pearl Award, 2006.

Nominator, Institute of Food Technologists, Fellow nomination of Bruce Cords, 2007

Board Member, Cooperating for Food Safety, 2006-2009.

Member, Canadian Leaders Opportunity Fund College of Reviewers, 2006-2009.

Reviewer, U.S. Department of Homeland Security, reviewed University of Minnesota National Center for Food Protection and Defense, 2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Member, National Institute for Animal Agriculture, Annual Meeting, Symposium Committee, 2006-2007.

Member, U.S. Highbush Blueberry Council, Crisis response team, media contact for foodborne illness, 2006-

Reviewer, Wiley-Interscience, Handbook of Prebiotics and Probiotics, 2nd edition, 2006.

Reviewer, The Georgian National Science Foundation, research proposals, 2006-2007.

Reviewer, National Pork Board, research proposals, 2006.

Member, Scientific Advisory Board, GangaGen, on-farm food safety interventions, 2006-2013.

Reviewer, Agriculture and Agri-Food Canada, research proposal, 2006-2007.

Reviewer, USDA-Small Business Innovation Research program, research proposals, 2006.

Invited Participant, Co-FARM (The Coalition on Funding Agricultural Research Missions), Congressional Visits Day, 2006.

Advisor, Singapore Agri-Food and Veterinary Authority, *Salmonella* in meats, 2006-2007.

Reviewer, Blackwell, The Microbiology Safety of Foods in Healthcare Settings (B. Lund and P. Hunter), 2006.

Advisor, The Coca-Cola Company, microbiological matters associated with beverages, 2005-2010.

Invited Reference, University of Georgia, Dean of College of Public Health, Philip Williams, 2006.

Advisor, RESOLVE, Inc., USDA-FSIS risk-based inspection measurement criteria, 2006.

Invited External Reference, Kansas State University, James Marsden evaluation for Regents Distinguished Professor, 2006.

Member, Robert Wood Johnson Foundation Food Safety II Project Workshop Committee, University of Maryland, 2006-2007.

Invited External Reference, American Meat Science Association International Award nomination for John Sofos, 2006-2007.

Reviewer, Washington State University, International Marketing Program for Agricultural Commodities and Trade (IMPACT), research proposal, 2006.

Convener, American Society for Microbiology Annual Meeting Symposium on Impact of the Food Chain on the Emergence of Antibiotic Resistance in Human, 2007.

Member, Illinois Institute of Technology National Center for Food Safety and Technology-UGA Center for Food Safety Workshop on Role of Testing in the Safety of Fresh Produce, Organizing Committee, 2007.

Moderator, ISOPOL XVI (The International Symposium on Problems of Listeriosis), Opening Session, March 20, 2007.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008.

Representative, American Society for Microbiology, CoFARM (Coalition on Funding Agricultural Research Missions) Congressional Visits, Washington, DC, April 18-19, 2007.

Moderator, Cooperating for Food Safety, Best Practices for Improving Food Safety: A National Symposium, Washington, DC, October 31, 2007.

Moderator, Institute of Medicine Workshop on Nutritional Risk Assessment: Bridging Perspectives, Sharing Methodologies, Identifying Data Challenges, Washington, DC, March 1, 2007.

Chairman, ConAgra Food's Food Safety Advisory Council, 2007-

Invited Participant, SQF Institute (Food Marketing Institute) Leafy Greens Workshop, Chicago, IL, March 28-30, 2007.

Chairperson, American Academy of Microbiology, Colloquium on Global Food Safety, Steering Committee, 2007-2009.

Invited External Reference, Kansas State University, Professional Performance Award for Daniel Fung, 2007.

Reviewer, National Academies National Research Council Proceedings of an Iranian-American Workshop: Food Safety and Foodborne Disease Surveillance Systems, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Jenny Scott, 2007.

Member, Georgia Department of Human Resources, Division of Public Health, Food Service Rules and Regulations Implementation Advisory Workgroup, 2006-2010.

Scientific Advisor, Taco Bell Fresh Produce Food Safety Initiative, 2006-2009.

Scientific Advisor, Sterilex, Owings Mills, MD, 2007.

Invited Non-Government Organization Representative, Codex Alimentarius Commission Ad Hoc Intergovernmental Task Force on Antimicrobial Resistance, IFT Representative, 2007-2008.

Advisory Board Member, University of California-Davis Center for Produce Safety, 2007-2009.

Scientific Advisor, Clinical Advisors, 2007.

Lead Expert, International Food Information Council Media Training on Food Safety, 2007.

Member, Mars Scientific Advisory Council, 2007-2009.

Reviewer, The Wellcome Trust research proposal on *Bdellovibrio* as living antibiotics, 2007.

Invited Testimony, U.S. House Appropriations Committee, Rep. Jack Kingston, Food safety issues associated with food imports, September 2007.

Scientific Advisor, Prepara, Inc. (addresses 21st Century Threats, preparedness and emergency response), Advisory Board, 2007-2008.

Reviewer, National Sciences and Engineering Research Council of Canada (NSERC), Strategic Project Grant (O.D. Baik, University of Saskatchewan), 2007.

Laboratory Analysis, Minnesota Department of Health, food samples associated with *Salmonella* outbreak, 2007.

Consultant, U.S. Government Accounting Office, study for Senators Edward Kennedy and Barbara Boxer of the Senate Committee on Health, Education, Labor, and Pensions on FDA oversight of fresh produce safety, 2007.

Peer Reviewer, Versar, Inc. (environmental consulting firm), FDA Center for Food Safety and Applied Nutrition documents and reports addressing various aspects of food safety, 2007-2008.

Peer Commenter, Booz/Allen/Hamilton, Kraft Foods benchmarking study to better understand how leading companies are addressing food safety and quality programs, 2007.

Nominator, American Society for Microbiology, nomination of Bala Swaminathan for Gen-Probe Joseph Award, 2007.

Invited Testimony, Georgia Senate Oversight Committee, Hearing on Imported Seafood, Safety of imported fish and shellfish, November 16, 2007.

External Evaluator, University of Minnesota, School of Public Health, promotion of Craig Hedberg to Professor, 2007.

Reviewer, Garland Science/Taylor and Francis, Case Studies in Infectious Diseases book chapter, 2007.

External Evaluator, University of Tennessee, Department of Food Science and Technology, promotion of David Golden to Professor, 2007.

Reviewer, Wiley-Blackwell, Essential Food Safety Assurance: Managing HACCP and food safety throughout the global supply chain book proposal, 2007.

Reviewer, International Food Information Council, Question and answer fact sheet on antimicrobial resistance microbes in foods, 2007.

Nominator, American Society for Microbiology, ASM Founders Distinguished Service Award nomination of Ann Vidaver, 2007-2008.

Invited Reviewer, Netherlands Organization for Scientific Research (NWO) - Council for Earth and Life Sciences, research proposal on spread of pathogens in ecosystems, 2007.

Invited Reviewer, Shaheed Beheshti University of Medical Sciences, Tehran, Iran, research paper on diarrheagenic *E. coli*, 2007.

Chairman and Convenor, U.S. Centers for Disease Control - Food Industry Safe Foods Forum, 2007-

Invited External Reference, Oklahoma State University, Regents Distinguished Research Award nomination of Stanley Gilliland, 2007.

Invited External Reference, University of Illinois, Faculty Award for Excellence nomination of Scott Martin, 2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of John Luchansky, 2007.

Invited Reviewer, Oregon Agricultural Experiment Station, Animal Health and Disease research proposals, 2007.

Invited External Evaluator, Washington State University, Department of Veterinary Clinical Sciences, promotion of William Sisco to Professor, 2007.

Invited External Reference, North Carolina State University, Alumni Association Outstanding Research Award nomination of Lee-Ann Jaykus, 2007.

Member, International Life Sciences Institute-North America, 2008 Annual Meeting Scientific Program Planning Committee, 2007.

Invited External Evaluator, Emory University, Rollins School of Public Health, promotion of Christine Moe to Professor, 2007.

Invited Expert, The National Academies National Research Council, 2006 Assessment of Research Doctorate Programs, 2006-2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of Bala Swaminathan, 2007.

Invited Participant, University of Maryland - Food and Drug Administration Joint Institute for Food Science and Applied Nutrition (JIFSAN), Tools for Prioritizing Food Safety Concerns Workshop, Washington, DC, June 4-6, 2007.

Member, Institute of Food Technologists, Government Relations Committee, 2006-2009.

External Reference, University of Georgia Libraries, promotion of Regina Cannon to Librarian IV, 2007.

Laboratory Analysis, Chicago Department of Public Health, food samples associated with *Salmonella* outbreak, 2007.

Reviewer, Canada Research Chairs, nomination of Rafael Garduno, Dalhousie University, 2007.

Reviewer, Canada Research Chairs, nomination of Andreas Schieber, University of Alberta, 2007.

Reviewer, Canada Research Chairs, nomination of Christopher Yost, University of Regina, 2007.

Advisor, Hong Kong Economic and Trade Office, Monica Chen, Director, food safety issues, 2007.

Invited nominator, Oklahoma State University, Gamma Sigma Delta International Distinguished Achievement in Agriculture Award nomination of Stanley Gilliland, 2007.

Expert, Nutri+Food Business Constituents, food safety testing (industry landscape/drivers/constraints), 2007

Member, American Association of Meat Processors, Food Safety and Science Committee, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Mary Ellen Camire, 2007.

Invited Expert, RTI International, Food and Agricultural Policy Research Program, expert elicitation on the probability of illness per serving for meat and poultry products, 2007.

Invited External Evaluator, Clemson University, Department of Food Science and Human Nutrition, promotion of Xiuping Jiang to Associate Professor, 2007.

Member, International Life Sciences Institute-North America, Board of Trustees Communications Committee, 2007.

Chairperson, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2007-2008.

Member, Institute of Medicine-Food and Nutrition Board Committee on Review of Use of Process Indicators in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009.

Member, University of California-Davis Center for Produce Safety, Technical Advisory Committee, 2007-2010.

Member, Institute of Food Technologists, Current and Emerging Science Issues Expert Advisory Panel, 2008-2010.

Member, National Research Council/Institute of Medicine, Standing Committee on Review of USDA-FSIS Public Health Risk-based Inspection Program, 2008-

Member, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, Scientific Program Committee, 2007-2009.

Abstract Reviewer, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, 2008-2009.

Member, Publix Super Markets Food Safety Council, 2008-

Member, American Association of Meat Processors, Food Science and Science Committee, 2008-

Advisor and Spokesperson, Almond Board of California, Issues Management Plan, 2008-2009.

Member, FDA Reagan Udall Foundation Finance Committee, 2008-2011.

Member, National Conference on Food Safety and Public Health Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Steering Committee, 2008-2009.

Reviewer, Danish Ministry of Foreign Affairs, Consultative Research Committee for Development Research, research proposal (Tanzania) 2008.

Reviewer, MacArthur Fellows Program, Catherine Donnelly nominee, 2008.

Reviewer, Springer, New journal (Journal of Food and Environmental Virology) proposal, 2008.

Reviewer, Ontario Food Safety Research Program (Canada), Proposal on Reduction of *E. coli* O157:H7 in ground beef using a combination of bundles, 2008.

Invited Expert, University of Maryland - Food and Drug Administration Joint Institute for Food Safety and Applied Nutrition, Workshop on Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns, 2008.

Reviewer, Canadian Foundation for Innovation, Infrastructure project proposal (Elaine Petrof, Queens University), 2008.

Invited Expert, Centers for Disease Control and Prevention, Briefing and Brainstorming Session on Outbreak of *Salmonella* Poona Infections in the USA and Canada, 2008.

Nominator/Letter of Support, International Association for Food Protection - Grocery Manufacturers Association Food Safety Award for International Commission on Microbiological Specifications for Foods, 2008.

Evaluator, U.S. Department of Agriculture-Agricultural Research Service, Promotion of Dr. Manan Sharma, 2008

Reviewer, Ontario (Canada) Research Fund - Research Excellence Program, Proposal on Novel Strategies for the Control of Foodborne Pathogens in Poultry (University of Ottawa), 2008.

Invited Expert, Food and Drug Administration (Commissioner Andrew von Eschenbach), Listening session on explanations for the current *Salmonella* outbreak associated with tomatoes and peppers, July 14, 2008.

Invited Expert, Animal Agriculture Alliance Third Party Subject Matter Experts on Antimicrobial Resistance, 2008-

Invited Expert, Illinois Department of Public Health, Office of Health Protection (Jayne Nosari), Alleged botulinum toxin food poisoning; interpreting test results (nonspecific deaths of mice), December 3, 2008.

Invited Expert, Institute of Food Technologists, Comments and Recommendations on the Food and Drug Administration's Food Protection Plan, Food Technology 9(08):24, 2008.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2008-2011.

Reviewer, Springer, New journal (International Journal of Ionizing Radiation) proposal, 2008.

Invited Expert, Paragon Development, Voice-of-Market Forum on MicroBeGone (a polymer with antimicrobial properties), 2008.

Reviewer, Garland Science (Taylor and Francis Group), Book on Case Studies in Infectious Diseases, 2008.

Invited Evaluator, University of Maryland, Tenure and rank of full professor of Robert Buchanan, 2008.

Subject Matter Expert and Advisor, Georgia Committee for Agriculture and Food Defense, 2007-

Reviewer, Springer, New journal (Food Security: The Science and Sociology of Food Production and Access to Food) proposal, 2008.

Invited Evaluator, U.S. Department of Agriculture - Food Safety and Inspection Service, Technical leader/microbiologist position for Dr. Shanker Reddy, 2008.

Reviewer, Food and Agriculture Organization (Rome Italy), EU scientific opinion on pathogen reduction treatment use and antimicrobial resistance, 2008.

Referee, Hartmut Hoffman-Berling International Graduate School of Molecular and Cellular Biology, Application of Fereshteh Jafari, 2008.

Nominator (Letter of Support), Institute of Medicine, Cecil Research Award for Ann Yaktine, 2008.

Chairman, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, Planning Committee, 2008.

Reviewer, John Wiley & Sons, Book (Analytical Food Microbiology: A Laboratory Manual, 2nd Edition) proposal, 2008.

Invited Evaluator, Technion - Israel Institute of Technology, Department of Biotechnology and Food Engineering, promotion to Associate Professor and tenure of Dr. Sima Yaron, 2008.

Member, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, Planning Committee, 2008.

Member, Institute of Food Technologists, Awards Committee Jury for Nicholas Appert Award, 2007-2009.

Invited Reference, Texas A&M University, Vice President for Research candidate, Martin Philbert, 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, (Managing Food Safety Practices from Farm to Table), 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, 2008.

Invited Expert, International Food Information Council, Antibiotic resistance, Media Spokesperson and Advisor, 2008-2009.

Convenor, American Society for Microbiology, Symposium on Emerging Issues in Food Safety: Impact of Globalization of the Food Supply, 2008.

Invited Expert, U.S. Federal Government's Interagency Risk Assessment Consortium (IRAC), Workshop on Research Needs Prioritization for Conducting a Quantitative Risk Assessment of *E. Coli* O157:H7 in Leafy Greens, 2008.

Member, Invited Expert, Tapestry Networks, Food Safety Leadership Network, 2008-2009.

Member, Wiley-Blackwell, IFT Press Series, Editorial Advisory Board, 2006-2009.

Member, International Life Sciences Institute-North America, Scientific Session Program Planning Committee, 2008-2009.

Nominator, Institute of Food Technologists, Fellow nomination of Vijay Juneja, 2008.

Member, International Association for Food Protection, Membership Committee, 2007-2009.

Co-Organizer and Co-Chairperson, International Working Group on Reducing *Salmonella* on Raw Poultry, 2008-

Reviewer, University of California-Davis Center for Food Safety, Research proposals, 2008.

Invited Expert, Mars, Workshop on *Salmonella*, 2008.

Advisor, National Restaurant/Retail Produce Food Safety Consortium, Meetings of Leading Purchasers of Minimally Processed Produce, 2007-2009.

Member, State of Georgia Department of Public Health, Food Service Technical Review Committee, 2007-

Co-Organizer, New York Academy of Sciences, Symposium on Foodborne Illnesses and Food Safety, 2007-2008.

Chairman, U.S. National Academies Planning Committee, The 2nd Korean Academy of Science and Technology - U.S. National Academies Bilateral Symposium: The Science of Food Safety Risk Assessment, 2009.

Review Coordinator, The National Academies National Research Council - Division on Earth and Life Sciences, Report on "Review of the Methodology Proposed by the Food Safety and Inspection Service for Follow-up Surveillance of In-Commerce Businesses," 2009.

Invited External Evaluator, Iowa State University Department of Food Science and Human Nutrition, tenure and promotion of Associate Professor of Sam Beattie, 2009.

Expert Advisor, U.S. House Government Oversight and Reform and Domestic Policy Subcommittee, hearing on safety of fresh produce, 2009.

Member, Food and Drug Administration Science Board Subcommittee, Research Planning, Program and Facilities of the Center for Veterinary Medicine, 2009.

Reviewer, Canada-Israel Cooperation in Agricultural Research Program, research proposal, 2009.

Member, ConAgra Foods, From What to How Task Force, 2009-2010.

Nominator, International Association for Food Protection, IAFP-GMA Food Safety Award, Joy Gaze nominee, 2009.

Reviewer, Canada Research Chair, Tier 2 Chair in Infectious Bacterial Diseases, Charles Dozois, 2009.

Invited Nominator, Institute of Food Technologists, Fellow, Rick Holley, 2009.

Co-Chair, International Life Sciences Institute-North America, ILSI-NA Annual Meeting session on "Science Resulting from ILSI-North America Committee Projects" 2009.

Reviewer, University of California-Davis Center for Produce Safety, food safety research proposals, 2009.

Reviewer, Elsevier Science, Encyclopedia for Food Safety book proposal, 2009.

Member, Global Food Safety Initiative, Advisory Council, 2010-

02/2015

Co-Chair, American Academy of Microbiology, Colloquium on “Global Food Safety: Reducing Risk from Farm to Table,” San Francisco, CA, April 24-26, 2009.

Invited Reviewer, Ontario (Canada) Food Safety Research Program research proposal “Toward Better Understanding and Effective Control of *Listeria monocytogenes* on Ontario’s Farm-to-Fork Chain by Indexing the Pathogen,” 2009.

Member, Solae, Scientific Advisory Board, 2010–

Member, American Peanut Council, Manufacturer’s Scientific Advisory Committee, 2009.

Member, XXIV World’s Poultry Congress (Salvador, Bahia, Brazil), Organizing Subcommittee on Food Safety, 2009-2012.

Invited External Evaluator, Emory University, School of Public Health, Department of Epidemiology, promotion to Professor and tenure of Dr. Ruth Berkelman, 2009.

Nominator, Institute of Food Technologists, Fellow nomination of Pina Fratamico, 2009.

Nominator, American Society for Branch Lectureship speaker, nomination of Kathryn Boor, 2009.

Advisor, Universidad del Este, Carolina, Puerto Rico, Development of a Bilingual Minor in Food Safety, 2009.

Reviewer, Elsevier Science, Management in Food Safety book proposal, 2009.

Scientific Advisor, Roka Bioscience, San Diego, CA, 2009-

Nominator, University of Wisconsin-Madison, Department of Nutrition, nutrition internship for Lindsay Smit, 2009.

Member, Malt-O-Meal, Food Safety Review Panel, 2009.

Reviewer, American Meat Institute Foundation, Food safety research proposals, 2009.

Nominator, American Academy of Microbiology, nomination of Lee-Ann Jaykus, 2009.

Reviewer, Georgia National Science Foundation, food safety proposals, 2009.

Member, Food Safety Research Consortium, Assuring Safety of Imported Foods: Public and Private Rules in a Risked-based System Workshop, Organizing Committee, 2009-2010.

Member, USDA-CSREES Workshop on Food Safety and the Public Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Scientific Organizing Committee, 2009.

Nominator, Institute of Food Science & Technology (UK), Fellow nomination of Andrew Bennett, 2009.

Member, Institute of Food Technologists, Current and Emerging Science Issues Advisory Panel, 2009.

Nominator, Massachusetts Institute of Technology, John S. And James L. Knight Foundation Program in Science, Technology and Society for Knight Science Journalism Fellowships, nomination of Garance Burke (Associated Press reporter), 2009.

Reviewer, ASM Press, Pre-harvest Food Safety book proposal, 2009.

Commenter, Institute of Medicine, Food Forum, "Providing Healthy and Safe Foods as We Age" Workshop, 2009.

Nominator, Institute of Food Technologists. Fellow nomination of Stanley Gilliland, 2009.

Member, Kellogg's Food Safety Advisory Council, 2009-2011.

Reviewer, IFT Press/Wiley-Blackwell, "Improving Import Food Safety" book proposal, 2009.

Nominator, MacArthur Fellows Program, nomination of Martin Philbert (University of Michigan), 2009.

Invited Nominator MacArthur Fellows Program, nomination of Craig Hedberg (University of Minnesota), 2009.

Reviewer, Elsevier, book proposal basic food commodities that bridge agriculture, food science, and nutrition, 2009.

Expert Advisor, Argent Diagnostics Bettcher, development and commercialization of Raman spectroscopy technology for detection of foodborne pathogens, 2009.

Co-Chair, American Academy of Microbiology, Colloquium on "Global Food Safety: Reducing Risk from Farm to Table," San Francisco, CA, April 24-26, 2009.

Reference, Oklahoma State University, National Institute for Microbial Forensics Food and Agricultural Biosecurity, letter for Dr. Li Ma for Assistant Professor position, 2009.

Reviewer, Oak Ridge National Laboratories, Oak Ridge, TN, research projects sponsored by Mars, Inc., June 18-19, 2009.

Nominator, American Association for the Advancement of Science Fellow, nomination of Ewen Todd (Michigan State University), 2009.

Nominator, American Academy of Microbiology Fellow, nomination of Colin Hill (University College Cork, Ireland), 2009.

Reviewer, Springer, Food Safety and Risk Analysis book proposal, 2009.

Coordinator, Department of Homeland Security, Site Visit for “The National Center for Food Safety and Defense” proposal between University of Georgia, Emory University, and Georgia Tech, June, 2009.

Reviewer, The National Academies National Research Council, Report on “Toward Sustainable Agricultural Systems in the 21st Century,” 2010.

Reviewer, Qatar National Research Fund (QNRF), “The National Priorities Research Program, 2010.

Member, USDA-ARS and Ohio State University, Scientific Program Committee on Antibiotic Resistance Mitigation, 2010.

Member, International Life Sciences Institute – North America 2010, Scientific Session Program Planning Committee, 2009-2010.

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, for Kathleen Glass, 2010.

Nominator, 2011 National Sanitation Foundation Food Safety Leadership Award, Publix Supermarkets, 2010-2011.

Mentor, Food and Drug Administration – Center for Food Safety and Applied Nutrition, for Sufian Al Khaldi, 2011-2011.

Expert Witness and Consultant, Food and Drug Administration – Office for Regulatory Affairs, Chun's Modified Atmosphere Packaged Shrimp Rolls, 2010-2011.

Member, Animal Health Institute, Scientific Advisory Board, 2010-

Nominator, Institute of Food Technologists, Fellow Nomination of Cherl-Ho Lee, 2010.

Member, U.S. Food and Drug Administration and Department of Health and Human Services Office of the Assistant Secretary of Planning and Evaluation, Expert Panel on Link Between Contamination of Food Products by Various Pathogens and the Rate of Foodborne Illness, 2010.

Commenter, CNN.com, Story on "Soda Fountains Contained Fecal Bacteria," 2010.

Member, Elanco Food Solutions, Scientific Advisory Board, 2010-2012.

External Evaluator, Ohio State University, Department of Food Science and Technology, Promotion to Professor of V. M. (Bala) Balasubramaniam, 2010.

Member, Georgia Food Service Technical Review Committee, 2007-

Expert Advisor, Scientia Advisors, food safety testing and controls, 2010.

Review Coordinator, National Research Council, Division on Earth and Life Sciences, Board on Agriculture and Natural Resources report on "An Evaluation of the Food Safety Requirements of the Federal Purchase Ground Beef Program," 2010.

Convener and Commenter, Institute of Medicine Food Forum, Workshop on "Leveraging Food Technology for Obesity Prevention and Reduction Efforts," November 2-3, 2010.

Expert Advisor, Promar International, Effects of U.S. food safety legislation on Japanese agriculture, 2010.

Nominator, Ohio State University Dale A. Sieberling Professorship in Dairy and Food Engineering, letter of support for V. M. Balasubramaniam, 2010.

Reviewer, The Netherlands Organisation for Scientific Research (NWO), VENI grant on "Influence of the abundance, diversity and community composition of soil fungi on the fate (survival) of *Escherichia coli* O157:H7 in soil," 2010.

External Evaluator, University of Wisconsin, Department of Food Science, Promotion to Full Professor of Barbara Ingham, 2010.

Scientific Advisor, Cargill, Control of *Salmonella* in meat processing facilities, 2010.

Member, Animal Health Institute, Committee on the Evaluation of the National Antimicrobial Resistance Monitoring System (NARMS) Data, 2010.

Nominator, University of Wisconsin, College of Agriculture and Life Sciences 2010 Honorary Recognition Award, letter of support for William Sperber, 2010.

External Evaluator, King Saud University, Evaluate Teaching Curriculum and Academic Plans of the Department of Food Science and Human Nutrition, 2010.

Member, Illinois Institute of Technology, National Center for Food Safety and Technology, Expert Science Review Panel for Sprout Safety Task Force, 2010.

Expert, Eastern Research Group, Expert elicitation to assess, across food groups, the likelihood of contamination from different pathogens during harvest, processing and distribution stages of the farm-to-fork continuum, 2010.

Scientific Advisor, PepsiCo-Frito Lay, microbiological food safety issues, 2008-2011.

Scientific Advisor, Kraft, microbiological food safety issues, 2008-2011.

Expert Witness, Pima County Health Department, Tucson, Arizona, Botulism from baked potato, 2010.

Expert Witness, Canadian Department of Justice, Canadian Food Inspection Agency, Shigellosis from imported baby carrots, 2010-2012.

Reviewer, Ontario Ministry of Agriculture, Food and Rural Affairs, 2009/2010 Food Safety Research Program, research proposals, 2009-2010.

External Evaluator, Oklahoma State University, Department of Animal Science, Promotion to Full Professor of Peter Muriana, 2010.

Invited Advisor/Collaborator, National Meat and Poultry Processing Board – Government of India, 2010-

Advisor, Kellogg's, microbiological food safety issues, 2009-2011.

Advisor, Solae, microbiological food safety issues, 2010-

Reviewer, National Research Council, Board on Agriculture and Natural Resources, report on "Toward Sustainable Agricultural Systems in the 21st Century," 2010.

Scientific Advisor, U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, topics regarding pathogens in produce for the produce safety rule, 2010-2011.

Nominator, American Academy of Microbiology, nomination of Colin Hill (Cork, Ireland), 2010.

Peer Review Panelist, U.S. Department of Agriculture – Agricultural Research Service, ARS Project Plans for National Program 108 Food Safety (animal and plant products), 2010.

Invited Expert, Scientia Advisors interview on microbiology safety testing. 2010.

Scientific Advisor, Centers for Disease Control and Prevention, National Center for Zoonotic, Veterinary and Emerging Diseases, issues related to microbiological food safety, 2010.

External Evaluator, Illinois Institute of Technology, Promotion to Full Professor and Tenure of Robert Brackett, 2010.

External Evaluator, Iowa State University, Department of Veterinary Diagnostic and Production Animal Medicine, Tenure of Scott Hurd, 2010.

Member and Advisor, U.S. Department of Agriculture – Food Safety and Inspection Service, Expert Committee on National Food Safety Education Campaign (in collaboration with the Ad Council), 2010-2011.

Reviewer, Wiley-Blackwell, book on Recent Advances in Food Safety, 2010.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Organizing Committee, 2010-2011.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Technical Committee, 2010-2011.

Moderator, Institute of Medicine, Food Forum, forum on "Development of Dietary Guidance for Non-nutrient Dietary Components," 2010.

Senior Advisor, Leavitt Partners, Washington, DC, 2010-2013.

Reference, Seoul National University, appointment as Associate Professor of Dong-Hyun Kang, letter of recommendation, 2010.

External Evaluator, Cornell University, Department of Food Science, Promotion to Full Professor of Martin Weidmann, 2010.

Scientific Advisor, University of Toronto, School of Public Health, Robert Remis regarding 2008 *E. coli* O157:H7 outbreak in North Bay, Ontario, 2010.

External Evaluator, Kansas State University, College of Veterinary Medicine, Department of Diagnostic Medicine/Pathobiology, Promotion to Full Professor of Doug Powell, 2010.

Member, Institute of Food Technologists, Workshop on Microwave Heating and Safety of Foods, Organizing committee, 2010-2011.

Reference, University of Georgia Research Foundation, Creative Research Award, letter of support for Casimir Akoh, 2010.

Member, International Life Sciences Institute – North America, Membership Development Committee, 2010

Member, 24th World Poultry Congress, Scientific Organizing Committee for Food Safety, 2010-2012.

Member, VoluntaryNet, collaboration between Centers for Disease Control and Prevention, the food industry and the UGA Center for Food Safety on sharing testing data, 2013-

Co-host, Visiting Scholar Professor Li-Min Guo, Urumqi, China, 2012

External Evaluator, Purdue University, Department of Animal Sciences, Promotion to Associate Professor and Tenure of Dr. Paul Ebner, 2011

Co-host, Visiting Scholar, Assistant Lecturer Aymen Mohamed Megahed, Zagazig University, Egypt, 2011

Chair, American Society for Microbiology Founders Distinguished Service Award Committee, 2011.

Organizer, Symposium, "A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh Cut Leafy Greens," IAFP Annual Meeting, Milwaukee, WI, August 3, 2011.

Consultant, The World Bank, Food Pathogens and Food Safety Regulations. 2011.

Evaluator, International Life Sciences Institute Publication Proposal, "Present Knowledge in Food Safety, 2011.

Evaluator, Springer USA Book Proposals and Series, "Retail Food Safety," 2011.

02/2015

Working Group Participant, Western Center for Food Safety, Developing Research Protocols for Manure and Water to Support Variances to Proposed Produce Rule, 2011.

Expert Panel Member, RTI International, Washington, DC. Foodborne Illness Attribution for the Food Safety Modernization Act, 2011.

Organizer and Co-Chairman, CDC-Food Industry Safe Foods Forum, 2007-

Invited Referee, King Saud University, Riyadh, Food Science and Human Nutrition Department, Promotion Evaluation and Scientific Communication, 2011.

Collaborator, Seoul National University Center for Food Safety and Toxicology on developing and implementing joint research projects, joint workshops and international conferences. 2011.

Invited External Reference, Publix Super Markets, Food Safety Training Program Nomination for NSF Food Safety Leadership Award, 2011.

Member, Organizing Committee, Workshop on Novel Sampling and Sensing for Improving Food Safety, Georgia Tech, Atlanta, GA, June 16-17, 2011.

Invited Advisor, American Society for Microbiology, Antibiotic Resistant Organisms Generated and Discharged by Wastewater Treatment – A Public Health Issue, 2011.

Invited Convener, International Life Sciences Institute-NA Annual Meeting Hot Topics/Controversies Session, 2011.

Scientific Advisor and Liaison, International Life Sciences Institute-NA Working Group on Conflict of Interest & Scientific Integrity. 2011-2012.

Member, Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2011.

Invited Expert, FDA/ASPE Food Attribution Expert Elicitation, 2011.

Member, Georgia Foodservice Technical Review Committee, to review proposed procedures and hazard analysis and respond with comments and concerns regarding the plan. 2011.

Invited Reviewer, Abstracts for Workshop on Novel Sampling and Sensors for Improving Food Safety, Georgia Institute of Technology, Atlanta, GA. June 2011.

Reviewer, USDA NARMS Survey for Input on Food Safety, 2011.

Member, Planning Committee, Institute of Medicine Public Meeting on *The Impact of Global Trade on Food Safety: Supply Chain and Policy/Regulatory Approaches to Import Safety*, 2011.

Member, ILSI NA Scientific Program Planning Committee; Attributable Risk Sessions, 2012.

Invited Interview, German *E. coli* outbreak, Associated Press, June 2011.

Invited Mentor, FDA Leadership Organizational Program in the Center for Food Safety and Nutrition, Sufian Al Khaldi, 2011.

Invited Nominator, Cargill, for IAFP Black Pearl Award, letter of support, 2011.

External Evaluator, Dr. Shaohua Zhao, letter of evaluation for appointment in the Senior Biomedical Research Service, U.S. Food and Drug Administration, 2011.

Invited Expert Advisor, Proposal to USDA Foods and Nutrition Service, to establish a Center for School Food Safety Research, University of Georgia, 2011.

Invited Expert, Guidepoint Global Advisors, consultation on *E. coli* outbreak in Germany. 2011

Invited Nominator, CDC, Food Safety Modernization Act to establish a Working Group on food safety and foodborne disease surveillance, 2011.

External Evaluator, IAFP Haverland Citation Award, Invitation to write letter of support for Tino Genigeorgis' nomination, 2011.

Member, Animal Health Institute Scientific Advisory Council, Washington, DC, 2011-

Invited Reviewer, YUM! Brands Standard Operating Procedures regarding pizza toppings and cooking process, 2011.

Invited Evaluator, Council of State Governments, Surveillance and Inspector Training Models, 2011.

Invited Expert, CDC Environmental Health Specialists Network, Atlanta, GA, food cooling practices, 2011.

Invited Liaison, American Society for Microbiology, Meeting with UDA Under Secretary for Research, Education and Economics and Chief Scientist at USDA to discuss research funding issues and specifically those that impact REE and NIFA, 2011.

Expert Advisor, Kellogg's, observation on *Listeria monocytogenes* in dry plants, 2011

Invited Expert, Guidepoint Global Advisors, consultation on trends in microbial testing for food safety, 2011.

External Evaluation, USDA-AMS Microbiological Data Program, letter in support of the program, 2011.

Invited Expert, Starbucks Coffee Company, provide information on the food safety of fresh-pressed juice compared to pasteurized juices, 2011.

Invited Interview, independent health journalist working with Fairwarning, requesting information on seafood safety, focusing on imported seafood, 2011.

Invited Expert, Cargill, clarifying the public health significance of the "coliform" test for flour, 2011.

Invited Expert, Guidepoint Global Advisors, infectious disease experts in Mexico regarding patients with Epstein Barr Virus, 2011.

Invited Expert, Guidepoint Global Advisors, agrobioterrorism, poisoning of crops or water supply bioterrorism: microbial control techniques, 2011.

Invited Expert, WSB-TV, Atlanta, GA, Milkshake microbiological results, 2011.

Invited Nominator, FDA Food Safety Modernization Act (FSMA) Working Group, letter of support for Joan Menke-Schaenzer's nomination, 2011.

Invited Expert, Publix Super Markets Bakery, food safety in pie production, 2011.

Invited Expert, Land O'Frost Co., new line of products and microbiological testing protocols, 2011.

Invited Expert, Baldor Foods, refrigeration temperature for salsa, 2011.

Invited Expert, Unilever, reduced-fat peanut butter, 2011.

Invited Expert, ConAgra Foods, antimicrobials and storage conditions on inoculated pathogenic bacteria in gassed and non-gassed dairy products, 2011.

Invited Expert, "Solae, thermal inactivation of *Salmonella*", 2011.

Invited Expert, NanoICE, regarding research validating efficacy of killing microbes during chilling and preserving raw products, 2011.

Invited Expert, Danisco, food safety of reduced oxygen packaging, 2011.

Expert Advisor, International Food Information Council (IFIC), Washington, DC. *Salmonella* Heidelberg outbreak from ground turkey, 2011.

Expert Advice, Prepara X-Force, Radiation in food in Japan, 2011.

Invited Member, Food Safety Advisory Council, ConAgra Foods, overview of *E. coli* 104:H4 outbreak in Germany, 2011.

External Evaluation, Letter of Support of Bernadette Franco's Application for grant to create new Research, Innovation and Dissemination Centers, Sao Paulo Research Foundation, Sao Paulo, Brazil, 2011.

Invited Expert, Outbreak of *E. coli* O157:H7 in strawberries in Oregon. Questions regarding jam that was already frozen that might have been made from contaminated berries. Bill Keene, Epidemiologist, Oregon Public Health Div., Portland, OR, 2011.

Invited Expert, Administrative Conference of the United States, how existing systems of third-party certification could be tailored to provide confidence appropriate for safety regulators. Met with Professor David Wirth, ACUS consultant, 2011.

Invited Expert, Angela Miles U.S. GAO (Atlanta), Brendon Kretzchmar and Candice, San Francisco, reimbursement of losses of food industry for mistaken food recalls or vehicles of foodborne disease outbreaks, July 2011.

Expert, ConAgra Foods regarding microwave energy against salmonellae and STEC, 2011.

Expert, CDC, Atlanta, *Campylobacter*-contaminated water systems, 2011.

Invited Member, Kellogg's Food Safety Review Group, for promoting food safety globally, 2011.

Invited Expert, Frito-Lay, Raw Commodity Specs: *Salmonella* in flour, 2011.

Invited Expert, Cargill, High-pressure processing of foods to mitigate contamination by harmful microbes such as *Salmonella*, *E. coli* O157, and *Listeria* without adversely affecting the product's taste and quality, 2011.

Invited Expert, HoneyBaked Ham Co., food safety programs and pathogen monitoring practices, 2011.

Member/Organizer, Lot Definition Working Group, FDA and food industry representatives to determine "Lot" designations for low-moisture foods, 2011.

Invited Expert Media Liaison, International Food Information Council, *Listeria* and GMPs – Putting risk of *Listeria monocytogenes* in perspective and provide information and education, 2011.

Invited Expert Advisor, Glacier Water, San Diego, CA to advise on drinking water dispensers, 2011.

Invited Member, JIFSAN Advisory Council, University of Maryland, College Park, MD, 2011-

External Evaluator, Dr. Sylvain Moineau for Canada Research Chair nomination, 2011.

Invited Expert, Dr. Lay Kheng, Agriculture-Food and Veterinary Authority, Singapore, regarding *Staphylococcus aureus* in foods, 2011.

Invited Symposium Organizer, Special Interest Symposium, American Society for Microbiology General Meeting, Striking the Balance: Food Safety, Food Security and Climate Research Issues in Microbiology, San Francisco, CA, 2012.

Invited Reviewer, Georgia Water Resources Conference manuscript, "A Comparison of *Escherichia coli* Levels in the Chattahoochee River in Helen, Georgia between Drought and Non-Drought Years," 2011.

Invited Reviewer, American Society for Microbiology Press book proposal, "Preharvest Food Safety," 2011.

Invited reviewer, Springer, Book Proposal, "Proteomics," 2011.

Invited Peer-Reviewer, Qatar National Research Fund National Priorities Research Program proposals, 2011.

External Reviewer, UBC Press, Vancouver, BC, Canada, "Food connections: Our global food safety system," 250-page manuscript, 2011.

Invited Assessor, Biotechnology and Biological Sciences Research Council, UK, ISPG proposal, "Gut Health and Food Safety," 2011. Invited Reviewer, Institute of Medicine draft report by Committee on "Nutrition, Trauma, and the Brain," 200-page manuscript, 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis in cantaloupes, 2011.

Chair, Institute of Medicine Food Forum meeting on Informing Health & Food Policy through Systematic, Evidence-Based Reviews, 2011.

Invited Reference, Casimir C Akoh, letter of evaluation for application for position of Chair and Professor, University of Maryland, Nutrition and Food Science, College Park, MD, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Food Safety Culture: Creating a Behavior-Based Food Safety Management System,” 2011.

Invited Evaluator, Dr. Doug Smith, letter of evaluation for Promotion and Tenure to the rank of Associate Professor, North Carolina State University, Raleigh, NC, 2011.

Invited Co-Organizer and Participant, American Academy of Microbiology Minicolloquium “*E. coli* FAQ,” September 1, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Retail Food Safety,” 2011.

Host, Dr. Jordi Serratos, European Food Safety Authority “Liaison Officer” at U.S. Food and Drug Administration, September 29, 2011.

Invited Reviewer, OMICS Publishing Group, Los Angeles, Book Proposal, “Emerging Drugs,” 2011.

Invited Reviewer, Springer, New York, Book Proposal, Leadership of Food Safety in the Food Retail Industry: How to develop and manage a food safety program, 2011.

Invited Reference, Dr. Guodong Zhang, letter of evaluation for Assistant Professor of Animal Science position, Oklahoma State University, 2011.

Invited Expert Testimony, FDA, CDC, USDA-FSIS, USDA-ARS, and Center For Nutrition Policy And Promotion, Reducing Sodium Consumption. November, 2011.

Invited Reviewer, RTI International, Research Triangle Park, NC, Risk assessment of public health impact of intervention strategies aimed at reducing *Escherichia coli* O157:H7 in the U.S. beef slaughter industry, 2011.

Invited Briefing, VoluntaryNet industry briefing for FDA leadership. October 7, 2011.

Invited Responder, Centers for Disease Control and Prevention. *Listeria* soil contamination questions. October 6, 2011.

Invited Expert, Life Technologies, Foster City, CA, STEC Testing. October, 2011..

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, Washing cantaloupes, 2011.

Invited Expert, Nestle, Switzerland, Use of surrogate – *Enterococcus faecium* in food safety validation, 2011.

Invited Expert, Publix Super Markets, cooking roast beef in the deli, 2011.

Invited Steering Committee Member, American Society for Microbiology, Report on *E. coli*: Food, Bad & Deadly FAQ. Michael Ingerson-Mahar and Ann Reid (eds.) 2011. 13 pp.

Invited Expert, Lee Memorial Hospital, Fort Myers, FL, HACCP in Hospitals. 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis outbreak in cantaloupes, 2011.

Invited Collaboration, Georgia Tech Research Institute, Atlanta, GA, Ways to collaborate on food safety issues, 2011.

Invited Expert, Sopragval Co., Chile, *Salmonella* in ground meat. 2011-2012.

Invited Panelist, Cargill, Minneapolis, MN, Panel to review new food safety measures, 2011.

Invited Reviewer, Canadian Research Chairs Program, University of Regina, Canada, Nomination of Dr. Christopher Yost as Tier 2 Chair in Microbes, the environment and food safety, 2011.

Invited Evaluator, , University of Massachusetts, Amherst, Mid-tenure evaluation of Assistant Professor Sam Nugen, 2011.

Invited Expert, Betcher Industries/Gaincos, Atlanta, GA, Food Safety Advisory Council, 2011.

Invited Expert Opinion, Regina Caeli Academy First Lego League, information on contamination of *Listeria* on smoked salmon, 2011.

Invited External Evaluator, Al-Balqa Applied University, Jordan, Referee, Promotion of faculty members in field of nutrition and food processing/food safety and microbiology from Assistant to the Associate Professor, 2011

Invited Expert Advice, CDC Foundation, Product development of peanut paste by Nutriset, 2011.

Invited Expert Advice, U. S. Government Accountability Office on food safety study, 2011.

Invited Member, Cargill, Inc. Food Safety Panel, 2011.

Invited Food Safety Expert Opinion, Publix Super Markets, Lakeland, FL, Cook cycle for Semi Boneless Hams, 2011.

Invited Expert Advice, CDC, Turkish Pine Nut safety, 2011.

Invited Participant, Institute of Medicine Workshop, Washington, DC. Leveraging Food Technology for Obesity Prevention and Reduction Efforts. 2011.

Invited Member, ILSI-NA Scientific Program Planning Committee, 2012.

Invited Reviewer. The Canada Foundation for Innovation, Proposal on effect of high pressure processing on quality, sensory attributes and microbial stability of selected fresh meat products during refrigerated storage, 2011.

Invited Reference, Institute of Food Technologists, Dr. Ewen Todd's nomination as Fellow, 2012.

Invited Expert Review Panel, FDA Sprout Safety Advisory Committee, "Seed disinfection methodologies". 2012.

Invited Member, International Association for Food Protection GMA Food Safety Award Jury, 2012.

Invited Reviewer. USDA BARD Proposal, Correlations of pathogen inactivation to changes in compost microbiota, 2012.

Invited Reference, Institute of Food Technologists, Dr. Ahmed Yousef's nomination as Fellow, 2012.

Invited reviewer, springer Science+Business Media, Book Proposal by John Spink, FMFS Book Series, 2012.

Invited Reviewer. USDA BARD Proposal, Renewable, long-term, antimicrobial surface treatments through dopamine-mediated binding of peptidoglycan hydrolases, 2012.

Invited External Evaluator, Universiti Sains, Malaysia, Mossad Attia Abdel-Wahhab, promotion to Professor, 2012.

Invited Letter of Support, University of Sao Paulo, Brazil, , for establishing the Food Research Center (Bernadette D.G.M. Franco) 2012.

Invited Expert Presentation as International Food Information Council Foundation Media Guide Expert, EPA Guidelines on Dioxin. 2012.

Invited Membership, Editorial Advisory Board/Open Access Academic Books – Food Science, Versita Publishing Co., 2012.

Invited Reviewer, Springer Book Proposal, Biochemistry and Molecular Nutrition of Food Allergens,, 2012.

Invited Nominator, ConAgra Foods Food & Beverage Company R&D Team of the Year Award, Food Processing Magazine, 2012.

Invited Consultant, Guidepoint Global, 2012.

Invited Reviewer, Springer, book series proposal on Food Biology, 2012.

Invited Reviewer, Mini Review paper, CAB Reviews, "Bacteriophage based technologies and human health applications," 2012.

Invited Nominator, Dr. Erin Dreyling for National Advisory Committee Microbiological Criteria for Foods (NACMCF), 2012.

Invited Participant, Global Food Safety Partnership, Agriculture and Rural Development, World Bank, 2012.

Invited Advisory Panel Expert/Reviewer. Forum on Next Generation Microbiological Food Requirement for Spaceflight. NASA, Houston, TX, 2012.

Invited Member. International Life Sciences Institute-North America, North America Project Committee on Food Value Decisions, 2012.

Invited Single Author Spotlight Article, ISRN Microbiology. Current research, 2012.

Invited participant, Lawyer2Lawyer Podcast, “Food Safety in America,” May 22, 2012.

Invited reviewer, Centers for Disease Control and Prevention, “Risk Factors Associated Botulism – Republic of Armenia, 2000-2006,” 2012.

Invited Subject Matter Expert, U.S. Department of Homeland Security, grant proposals, 2012.

Invited Expert Consultant, CDC, Vital Signs Focus, “What Can be Done to Reduce *Listeria* and other foodborne illnesses,” 2012.

Invited participant, American Academy of Microbiology, Food Microbiology Task Force, 2012.

Invited External Evaluation, Rutgers University, New Jersey, Donald Schaffner, Dossier for Promotion to Professor II, 2012.

Invited Editorial Board Member, ASM Press, Microbiology Spectrum (Food Microbiology area), ASM Press, on-line publication, 2012.

Invited Expert Opinion, Centers for Disease Control and Prevention, *Clostridium perfringens* questions regarding outbreak investigation. 2012.

Invited Evaluator, University of Missouri, Columbia, MO, Promotion & Tenure Dossier for Promotion to professor, Dr. Azlin Mustapha, 2012.

Invited to write article, “Implementation of food safety measures in the West – Its feasibility in China,” China Daily newspaper, July 2012.

Invited Reviewer, U.S. Food and Drug Administration FDA/CFSAN Quantitative Predictive Risk Assessment Model (QPRAM) for Produce Safety and associated documents. 2012.

Invited Nominator, Nomination of Publix Supermarkets for the 2013 IAFP Black Pearl Award, 2012.

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, “A *Cronobacter* in therapeutic foods for children with acute moderate malnutrition”. 2012.

Invited Reviewer, Oklahoma State University, Food Safety Emphasis curriculum, 2012.

Invited support letter, IUFoST Lifetime Achievement Award, for Cherl Ho Lee’s nomination, 2012.

Invited Expert Advice, Centers for Disease Control and Prevention, Atlanta, GA, “Listeriosis outbreak in soft

Cheeses". August 2012.

Invited Letter of Evaluation. The Ohio State University, Dr. Hua Wang's dossier for promotion to Professor. 2012.

Invited Co-Chair 3rd Asia Pacific International Conference on Food Safety. Taiwan. October 29-November 1, 2013.

Chair, American Academy of Microbiology, Founders Distinguished Service Award Nomination and Selection Committee, 2013.

Invited Editorial Board Member. 2012. Microbiology Spectrum. American Society for Microbiology.

Invited Reviewer, Shota Rustaveli National Science Foundation of Georgia research proposals, 2012.

Invited Member, Journalist Conference, Atlanta, GA, Food Safety Panel, April 21, 2012.

Invited Member, American Society for Microbiology Public and Scientific Affairs Board, 2004=2012.
- Chair, Food Microbiology Committee

Invited Member, Taco Bell Food Safety Advisory Council, 2012-

Invited Member, USDA, ARS, Sprout Safety Review Panel, 2012.

Invited Reviewer/Expert Panel Member, U.S. Food and Drug Administration Center for Veterinary Medicine Office of Minor Use and Minor Special Animal Drug Development grant proposals, 2012.

Invited Participant, Institute of Medicine Annual Meeting of study committees, boards, standing committees, roundtables, forums and planning committees, 2012.

Invited Participant and Workshop Leader, Institute of Medicine. Exploring Health and Environmental Costs of Food, 2012.

Invited Member, , International Association for Food Protection, GMA Food Safety Award Committee, 2012.

Invited Participant, Institute on Science for Global Policy (ISGP) Conference on Emerging and Persistent Infectious Diseases: Focus on the Societal and Economic Context, July 8-11, 2012.

Invited Expert, International Life Sciences Institute-North America Emerging Issues Processing Foods project, 2012.

Invited participant, Food and Agriculture Organization of the United Nations, Food Hygiene Working Group, 2012.

Invited Reviewer, Institute of Medicine, "Exploring the true costs of food report", 2012.

02/2015

Invited Participant, American Academy of Microbiology, Washington, DC, Colloquium, “How Microbes Can Feed the World,” Dec 7-9, 2012.

Invited Evaluator. International Life Sciences Institute-Europe, Scientific Advisory Committee – Review of New Activities, 2012.

Invited Participant, The Pew Charitable Trusts, Washington, DC. Advisory Panel to discuss the methodology to identify the riskiest meat and poultry products. October 2012.

Invited Member. US Representative. Lynn Westmoreland Ag Advisory Council, 2012.

Invited Participant, Institute of Food Technologists Webcast, “Antimicrobial Resistance” Scientific Status Summary, April 2013.

Invited Reviewer/Letter of Evaluation, University of California-Berkeley, School of Public Health, Sangwei Lu, Dossier for Promotion to Full Adjunct Professor, 2013.

Invited comment, Atlanta Journal Constitution article on “Politifact Georgia,” regarding *E. coli* in chickens. March 2013.

Invited editor, International Journal of Food Contamination, Springer, March 2013.

Invited commentary, Food Safety News, Op-ed page, April 2013

Invited review of article, “High risk foods” by David Acheson, Leavitt Partners LLC, April 2013.

Invited contributor to article, Baltimore Sun, “Cookie-dough Eaters tempted by the Flavor – and the Raw Thrill,” April 2013.

Invited commentary, National Cattlemen’s Beef Association, The Doctors TV show on antibiotics in meats, April 2013.

Invited Book Editor, Research Signpost, Scarborough, Ontario, Canada, April 2013.

Invited Evaluator, Alex Malone, Quality Assurance Director of Yum Brands, annual evaluation, April 2013.

Invited Commenter, Institute of Food Technologists, regarding CNN article on Antibiotics in Meat, 2013.

Invited interview, New York Times on EWG report, April 2013.

Invited interview, Food Safety News (www.foodsafetynews.com), “Animal Antibiotics,” April 2013.

Invited expert advice, Kraft Foods, definition of an environmental pathogen, in response to FDA’s proposed definition, 2013.

- Cited as one of top 20 Co-authors of articles on BioMed Lib, “Doyle MP, Erickson, MC. Opportunities for mitigating pathogen contamination during on-farm food production. *Int. J. Food Micro.* 152-54-74, 2012.
- Invited interview, CNN.com, 2011 NARMS Retail Meat Annual report, April 2013.
- Invited participant, Georgia Department of Public Health, Atlanta, GA, Georgia Food Service Rules and Regulations update, April, 2013.
- Invited comment, WYAY All News, Atlanta and Atlanta Journal Constitution, Ga Dept of Agric resignations concerning food safety, April 2013.
- Invited Book Proposal Review, *Microbiological Safety and Quality of Food* by Xiangyu Deng. Springer, New York, 2013.
- Invited interview, Associated Press, USDA/April’ new livestock identification rules. April 2013.
- Invited interview, Discover Magazine, role of FDA. April 2013.
- Invited letter of support, International Association for Food Protection, Anna Lammerding’s nomination for Honorary Lifetime Membership ,April 2013.
- Most Quoted Faculty, UGA Office of Public Affairs, CAES, on foodborne pathogens in leafy green vegetables. April 2013.
- Invited comment, Grist, OMB testing requirements in the FSMA, April 2013.
- Invited interview, DSM Bio-based Products & Services, Levulinic acid, April 2013.
- Invited Reviewer, “Weight Watchers International Auditor’s report on mold contamination in raisins”, May 2013.
- Invited interview, Al Jazeera Reporter, article on “China’s Food Imports to the U.S.”, May 2013.
- Invited organizer and curator, *Frontiers in Microbiology*, of a *Frontiers Research Topic* homepage to manage contributions and maintain ongoing dialogue with research community, May 2013.
- Invited taped interview, American Society for Microbiology, to discuss “Food Microbiology: Fundamentals and *Frontiers*, 4th Edition.” May 21, 2013,
- Invited to participate in meeting of Oak Ridge Associated Universities (ORAU), to apply for 2013 Innovation Challenge Award Competition, University of Georgia, Athens, GA,
- Invited comment, “Food Insight, Your Nutrition and Food Safety Resource on potential for increased foodborne illnesses”, May 2013.
- Invited interview, Drovers Cattle Network, “Jolley: Five minutes with Dr. Michael Doyle and those Superbugs,” May 2013.

Invited to Engineering-Summits, The Organization of Engineering Executives, May 2013.

Invited comment, Microbe magazine, on “Consumer Reports investigation: Talking turkey”. May 2013.

Invited to participate in interview process for position of Food Safety Director, Georgia Department of Agriculture, May 2013.

Invited comment, USA Today, FDA will not cut any food safety inspections this year in spite budget cuts, May 2013.

Invited Evaluator, Rutgers University, New Brunswick, NJ, dossier of Dr. Michael L. Chikindas for promotion to Professor, June 2013.

Invited peer-reviewer for proposals and projects, Shota Rustaveli National Science Foundation of Georgia, 2013.

Invited administrative reviewer, Dean Scott Angle’s 7-year review, UGA College of Agricultural and Environmental Sciences, 2013.

Invited Expert Opinion, Sokol and Co., Water in peanut butter processing. 2013.

Invited Evaluator, Seoul National University, for promotion to Professor of Dr. Dong-Hyun Kang. 2013.

Invited Evaluator, USDA-ARS, for Nelson Cox promotion, May 2013.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2013.

Invited Evaluation, TUBITAK Young Scientist Awards, Turkey, nomination of Dr. Ali Aydin. 2013.

Invited letter of support for nomination of Craig Hedberg for the ASPH Award of Excellence, University of Minnesota School of Public Health. 2014.

Invited Reviewer, GMA’s Center for Ingredient Safety and Risk Assessment Proposals for Funding, Grocery Manufacturers of America, 2013.

Invited Letter of Support, Dr. Walid Alali’s nomination for IAFP Dr. Larry Beuchat Young Researcher Award, 2013.

Invited Speaker. Thermo Scientific Food Safety Seminar Day, “Foodborne Pathogens.” May 30, Atlanta, GA, 2013.

Invited contributor, Feedstuffs, “Antimicrobial resistance complex”, March 25, 2013, .

Invited letter of support. Dr. Mansel Griffith's nomination for the Ontario Agricultural College Alumni Association Research Award, 2013.

Invited Expert Panel Member, WHO International, Panel on Food Safety, 2013. .

Invited External Reviewer, Dossier of Linda Harris for promotion, UC-Davis, 2013.

Invited Theme Leader, IUFoST Congress, Montreal, Canada, Food Safety, 2014.

Invited Editorial Board Member, OA Journal: "*International Journal of Food Contamination*", Springer, 2013.

Invited Chair, 2013. The Pew Charitable Trusts Collaborative Food Safety Forum, "Role of testing in FDA's Hazard Analysis and Risk-Based Preventive Controls Rule", March 22, Washington, DC.

Invited Reviewer, 2013. Grant Review Panel, U.S. Food and Drug Administration Center for Veterinary Medicine OMUMS, Washington, DC.

Invited Reviewer, "The Problem with Purity: Market failures, foodborne contamination, and the US Food Safety Regulatory Regime," by I.P. Thomas, Univ of Nebraska Press, Lincoln. 2013.

Member, ILSI-NA Scientific Program Planning Committee, 2013.

Request for 'safe salsa' recipe. Centers for Disease Control and Prevention, Video for Super Bowl. 2013.

Requested book review, Food Security, Nutrition, and Safety: OMICS Technologies, Strategies, and Applications, Ganesh Kumar Agrawal, Romina Pedreschi, & RandeepRakwal, (eds.), Springer, New York. 2013.

Invited participant, 2013. Crisis Management Manual, Heinz Canada.

Invited Participant, Food Safety Auditing Research, Private-Sector. Albany Law School, Albany, NY. 2013.

Invited Interview, Associated Press, Cyclospora. 2013.

Invited letter of support. Dr. Martin Wiedmann's nomination for Fellow of American Academy of Microbiology, 2013.

Invited Collaborative Partnership, University of Georgia (UGA) Center for Food Safety- National Center for Food Safety Education and Research (NCFSER), National Taiwan University. 2013.

Invited reviewer, MBIE Science Investment Round. To review research programs, Ministry of Business, Innovation & Employment, New Zealand, 2013-2014.

Elected Member, International Life Sciences Institute (ILSI) Board of Trustees (global organization).
September 2013 – January 2015.

Invited participant. World Health Organization's (WHO) Global Burden of Foodborne Disease Study. 2013.

Invited Reviewer, British Food Journal (UK), "Drug-resistant bacterial pathogens in milk and yogurt samples." March 2013.

Invited to review book proposal. Springer, Restaurant Food Safety, May, 2013.

Invited peer reviewer, Ministry of Business, Innovation and Employment Investment Round Proposal, Wellington, NZ. May, 2013.

Invited expert opinion, Heat Seal Machine Film Specifications. Georgia Dept. Agriculture, Atlanta, GA, 2013.

Invited participant, 2014. International Association for Food Protection Annual Meeting Round Table. Public and Private Food Safety Research Funding: Where Should the Money Go? Indianapolis, IN.

Invited reviewer, Book Proposal on Food Safety in 21st Century (paperback edition), Wiley Publishers, Oxford, UK, 2013.

Invited Virtual Speaker. The American Academy of Microbiology and ASM International Affairs "Virtual Speaker Program". Topical speaker. 2014.

Invited evaluator, Dr. Michael Cooley, USDA Western Regional Research Lab, for in-depth evaluation of contributions and qualifications. 2014.

Invited reference, nomination of Dr. Vijay Juneja, recipient of Service to America Medal. Michigan State University (Dr. Elliot Ryser). 2014.

Invited reviewer, National Academy of Sciences report on Agriculture and Food Research Initiative program, USDA's National Research Council. 2014.

Invited expert advice, DHHS, Communicable Disease Surveillance, "Safe use of manure in organic farming," Humboldt County Health Department, 2014.

Member, Foster Farms Food Safety Advisory Board, 2014-2015.

Invited Member, Evaluation panel to review and interview candidates applying for Produce Safety and Microbiology Research Unit, USDA-ARS, Western Regional Research Center, Albany, CA, 2014.

Nominated Dr. Jennifer Cannon, winner of the 2014 Larry Beuchat Young Researcher Award, International Association for Food Protection.

Invited reviewer, Book proposal. Springer, Taormina Proposal---Shelf Life, 2014.

Invited reviewer, Book proposal. Springer, Food Traceability: Food for Thought. 2014.

Invited Member, 2015 Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2014-2015.

Invited Letter of Support, 2014. Nomination of Kathryn Boor for the UC-Davis College of Agricultural and Environmental Sciences Award of Distinction.

Invited Letter of Recommendation, Burroughs Welcome Grant on Innovation in Regulatory Science at the FDA, submitted by Glenn Morris, Mike Batatz and Arie Havelaar. March 2014.

Invited Member, ILSI Science Advisory Committee, 2014-

Requested Expert Advice. 2014. Pathogens in ice product. Daniel Ouzts, Sweet City Ice Co., Georgia March.

Invited Reference. 2015 Dietary Guidelines Advisory Committee on behalf of National Restaurant Association.

Invited Topic Editor. 2014 Frontiers Research Topics--Microbiology.

Invited Cooperator. 2014. King Abdulaziz University, Jeddah, Saudi Arabia.

Proposal Review, 2014. Xiangyu Deng, “Physical and molecular mechanisms of *Listeria* attachment and internalization of melons and apples”. Submitted to USDA.

Invited consulting, 2014. International Innovation – Health and Biology Research Report. Research AMedia Limited.

Invited contributor, 2014. Proteomics of Antimicrobial Resistance. Frontiers in Microbiology. Dep de Biologia & CESAM, Univ deAveiro, Portugal.

Invited Reviewer. 2014. The Research Foundation – Flanders (FWO), European Commission, New Research Proposal on “Impact of *Bacillus cereus* endospore evolution on food stability and safety,” by Abram Aertsen.

Invited Evaluator. 2014. Dr. Fahad M. Aljasass for promotion to Professor at The Scientific Council at King Abdulaziz City for Science and Technology (KACST), Saudi Arabia.

Invited Member/Chair, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2014-2015.

Invited Reviewer. 2014. Science Peer Reviewer Targeted Research. New Zealand Ministry of Business, Innovation & Employment (MBIE) 2014 Science Investment Round.

Invited Evaluator. 2014. Evaluation Panel for Research Leader Vacancy Applications, USDA, ARS, Western Regional Research Center, Albany, CA.

Invited Expert. 2014. Wall Street Journal project on 25 food additives.

Invited Collaborator, 2014. UGA-EDEB Data Collaboration, CDC Enteric Diseases Epidemiology Branch, FDA's Egg Rule.

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, "Antimicrobial food equipment coatings: Applications and challenges", by Bastarrachea, Denis-Rohr, & Goddard.

Invited Reviewer. 2014. Research Proposal, Accelerate research proposal entitled "Comparative Study to Determine the Efficacy of Different Sanitizers to Inactivate Human Pathogens on Shredded Lettuce and within Spent Wash Water", Mitacs, Canada.

Invited Reviewer, 2014. Project on food safety, antimicrobial resistance and animal health. Association of Public Safety Communications Officials (APCO) International

Invited Member, 2014. Global Programs Advisory Team, Global Programs, Coll of Agric & Env Sci, Univ of GA, Athens.

Invited Letter of support, 2014. Dr. Elaine Scallan consideration for promotion to Associate Professor, Colorado School of Pubic Health, University of Colorado, Aurora, CO.

Invited Expert, 2014. International Food Information Council (IFIC) Farm Tour, Atlanta, GA. October 17.

Invited Collaborator/Scientific Partner. 2014. Fellowship from Kosciuszko Foundation by Magdalena A. Olszewska, U of Warmia and Mazuty, Poland.

Invited Host, 2014. Visiting Scholar Dafeng Song, Zhejiang Province, China.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2014.

Invited External Assessor, Promotion of Wan Nadiyah Binti Wan Absullah to Associate Professor, University Sains Malaysia Penang, Malaysia. 2014.

Invited Reviewer. 2014. Food Safety Proposals. Mississippi State University, 2014. The University of Georgia Obesity Initiative, Food Industry Academiai Consortium Conference, March 27.

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, 2015, "*Bacillus* and other spore-forming Genera: Variations in Responses and Mechanisms for Survival," by Checinska, Paszczynski, and Burbank.

Member, Protein Toxins project, Extended Team. 2014. ILSI Health and Environmental Sciences Institute (HESI). Washington, DC.

Invited Evaluator. 2014. Dr. Fahad M. Al-Jasass for Promotion, King Abdulaziz City for Science and Technology Scientific Council, Saudi Arabia.

02/2015

Invited Member, 2014. Academic representative on the CDC, BSC, FSMA Surveillance Working Group, December 1, 2014-Nov 30, 2017, Centers for Disease Control and Prevention, Atlanta.

Invited Reviewer, 2014. “An intervention to reduce antimicrobial resistance in animal production in Vietnam,” grant application to The Wellcome Trust, London.

Invited Reviewer, 2014. Studies in Natural Products Chemistry, Atta-UR-Rahman (ed). Elsevier Science Publishers, Amsterdam.

Invited Reviewer, 2014. Book Proposal “Food Safety for Farmers Markets,” Springer US.

Invited Reviewer, 2014. ASABE, “Image Analysis of a Fluorescent Physical Surrogate for Quantifying *Listeria monocytogenes* transfer between Delicatessen Meats and Product Contact Surfaces,” by Amanda N. Benoit, Bradley Marks, Elliot Ryser, Sanghyup Jeong, and Philip G. Crandall.

Invited Reviewer, 2014. Preproposal for Genomics British Columbia and Feeding the Future competition, “Genomic Tools for Improved Safety, Authenticity and Security of Agri=food Products,” by David Kitts and Evan Frazier, Canada.

Invited Reviewer, 2014. Manuscript entitled “Influence of Compost Particle Size on Pathogen Survival under Greenhouse Conditions” Foodborne Pathogens and Disease (FDP).

Invited Reviewer, 2014. Article entitled “Vegetables contamination by fecal germs of poultry manure: case study of gardening sites in southern Benin. Biotechnology Agronomy Society Environment (Base Editorial Board)

Invited Seminar Speaker, 2014. FDA Southeast Region Retail Food Safety Seminar in Savannah, GA

Invited Keynote Lecture, 2014. Frazier Lecturer. Food Research Institute, Madison, WI

Invited Reviewer and Evaluator. 2015. 32nd World Veterinary Congress presentations.

Invited Expert Panelist and Evaluator. 2015. Canadian Meat Program of Canadian Food Inspection Agency (CFIA).

Invited Expert Panelist. 2015. U.S. Food and Drug Administration, to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

Invited Reviewer, 2015. Manuscript, “Antimicrobial activity of leaf and fruit methanol extracts of the Chilean berries *Arrayan* (*Luma apiculata*) ...” Journal of Food Science (JFS).

Invited Reviewer, 2015. Research Grant from International Foundation for Science-Sweden (IFS).

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, nomination of Gudong Zhang, 2015.

- Invited Reviewer, 2015. Manuscript, “Production of Alfalfa Sprouts with Application of Vegetable Regulators”. African Journal of Agriculture Research , (AJAR).
- Invited Reviewer, 2015. Manuscript, “*Salmonella* on Raw Poultry in Retail Markets in Guatemala...”, Walid Alali.
- Invited Letter of Support, Fort Valley State University, Young Park proposal to implement a B.S. degree program in Food Science, 2015.
- Invited Consultant for Center of Excellence on Food Safety in Indonesia, 2015.
- Invited Collaborator for a Fresh Produce Safety Centre (FPSC) at UC Davis in Sydney, Australia, 2015.
- Invited Reviewer, 2015. Article entitled “Thermal inactivation of enzymes and pathogen in biosamples for mass spectromic analysis”. Bionalysis, published by Future Science Group Ltd.
- Invited Reviewer, 2015. Article entitled “*Salmonella enterica* serotype Typhimurium and Eggs: A current scenario in Australia”. Clinical Infectious Diseases
- Invited Reviewer, 2015. Publication on Physicians Roundtable on Antibiotic Resistance. American Society of Microbiology Microbe Magazine
- Invited Reviewer, 2015. Article entitled “ Insights in agricultural practices and management systems linked to microbiological contamination of lettuce in conventional production systems in Southern Brazil”.
- Invited Reviewer, 2014. Manuscript entitled “The green metrics evaluation and synthesis of diesel-blend compounds from biomass derived levulinic acid using immobilized lipase Biomass and Bioenergy”. Scopus and Science Direct.
- Invited Reviewer, 2015. Manuscript entitled “*Ascaris* and *Escherichia coli* Inactivation in an Ecological Sanitation System in Port-au-Prince, Haiti”. PLOS ONE.
- Invited Reviewer, 2014. Manuscript entitled “Prevalence of avian pathogenic *Escherichia coli* (APEC) isolated from broilers in Dakahlia Governorate, Egypt”. Journal of Veterinary Medicine and Research
- External Evaluator, 2014. Danmarks Tekniske Universitet (DTU) Management Engineering, Denmark to Nanyang, Technological University (NTU), Professor Jørgen Schlundt, to Full Professor in the College of Engineering.
- Invited Reviewer, 2014. Manuscript entitled “ Inactivation of *Escherichia coli* 0157:H7, *Salmonella Typhimurium* and *Listeria monocytogenes* in apple juice at different pH levels by gaseous ozone treatment”. Journal of Applied Microbiology (JAM)
- Invited Reviewer, 2014. Manuscript entitled “UV Based Intervention Strategies to Improve the Microbiological Safety and Shelf –life of Sliced Mushrooms”. Mitacs Accelerate Program

Invited Seminar Speaker, Jan. 2015. Safe Foods through One Health, University of Georgia, Athens, GA

Invited Reviewer, 2015. Manuscript entitled “Pneumonia by *Listeria monocytogenes*: a common infection by an uncommon pathogen”, Case Report in Infectious Diseases.

Public Service

1. Requested by State of Illinois and Centers for Disease Control to serve on task force to investigate large outbreak of salmonellosis associated with consumption of pasteurized milk, April 1985.
2. Requested by Health and Welfare Canada and Ontario Central Public Health Laboratory to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis and hemolytic uremic syndrome (London, Ontario), Fall 1985.
3. Requested by Centers for Disease Control and State of Washington Health Department to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis (Kennewick, WA), August 1986.
4. Requested by Centers for Disease Control and Minnesota Department of Health to analyze for E. coli O157:H7 raw milk samples associated with cases of hemolytic uremic syndrome in infants, September 1986.
5. Requested by Centers for Disease Control and Wisconsin Division of Health to analyze for Escherichia coli O157:H7 food samples associated with outbreak of thrombotic thrombocytopenic purpura, September 1986.
6. Requested by Universidad Nacional Autonoma de Nicaragua, Department of Microbiology and Parasitology, Managua, Nicaragua, to advise and collaborate in studies on the association of Campylobacter jejuni and Yersinia enterocolitica with diarrhea in children, September 1986-89.
7. Requested by Centers for Disease Control and State of Washington Health Department to analyze food samples associated with outbreak of thrombotic thrombocytopenic purpura and hemorrhagic colitis (Walla Walla, WA) for Escherichia coli O157:H7, November 1986.
8. Requested by U.S. Food and Drug Administration to analyze for E. coli O157:H7 cheese samples associated with outbreaks of hemorrhagic colitis (Walla Walla, WA and Vancouver, BC), December 1986.

9. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 hamburger samples associated with cases of hemolytic uremic syndrome, June 1987.
10. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef and cheese samples associated with outbreaks of hemorrhagic colitis (Utah), July 1987.
11. Requested by St. Luke's Hospital (Infectious Disease Department), New York, NY, to analyze for Listeria monocytogenes feta cheese sample associated with case of perinatal listeriosis, December 1987.
12. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 venison samples associated with a case of hemorrhagic colitis, January 1988.
13. Requested by State of Wisconsin Department of Health and Social Services and Centers for Disease Control to analyze for E. coli O157:H7 and verotoxins, roast beef samples associated with an outbreak of hemorrhagic colitis, June 1988.
14. Requested by State of Utah Department of Health to analyze for E. coli O157:H7 antelope sausage samples associated with a case of hemolytic uremic syndrome, August 1988.
15. Requested by Minnesota Department of Health to analyze for E. coli O157:H7 ground beef samples associated with outbreaks of hemorrhagic colitis and hemolytic uremic syndrome at day-care centers and a Junior high school. September-December 1988.
16. Requested by New York State Department of Health to participate in Northeastern States Salmonella enteritidis Workshop (September 8-9, 1988) and to study food microbiology and virulence aspect of egg-associated isolates of Salmonella enteritidis, September 1988.
17. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef sample associated with a fatal case of hemolytic uremic syndrome in the State of Washington, September 1989.
18. Requested by Centers for Disease Control and Missouri Department of Health to analyze for E. coli O157:H7 water and food samples associated with an outbreak of hemorrhagic colitis in Cabool, MO, January-March 1990.
19. Requested by Wisconsin State Laboratory of Hygiene to analyze for E. coli O157:H7 meat samples associated with a case of hemolytic uremic syndrome in Northern Wisconsin, March 1990.
20. Requested by National Broiler Council to provide comments for a video interview on the microbiological safety of fresh broiler products, October, 1991.

21. Requested by Centers for Disease Control to analyze for E. coli O157:H7 apple cider and environmental samples associated with an outbreak of hemorrhagic colitis in Boston, MA, January-February 1992.
22. Requested by American Meat Institute and National Cattlemen's Association to provide comments for a video interview on the safety of streamline-inspected beef, April 1992.
23. Requested by Commonwealth of Virginia Department of Health to analyze for E. coli O157:H7 meat samples associated with an outbreak of hemorrhagic colitis in Virginia, August 1992.
24. Requested by Continental Grain Company to analyze poultry product for bacterial contaminants, October 1992.
25. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 milk and water samples associated with an outbreak of hemolytic uremic syndrome in Maine, November 1992.
26. Requested by Institute of Food Technologists to comment on a press release distributed by the American Medical Association regarding two articles on foodborne outbreaks published in JAMA, December 1992.
27. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 meat samples associated with Jack in the Box outbreak of hemorrhagic colitis and hemolytic uremic syndrome in Washington State, California, Nevada, and Hawaii, January-April 1993.
28. Requested by Centers for Disease Control and Prevention to analyze mayonnaise samples associated with an outbreak of E. coli O157:H7 in Oregon, September-October, 1993.
29. International Cooperative Agreement, Board of Regents University System of Georgia and National Center for Food Safety Education and Research, Taipei, Taiwan. 2013. (Requested by National Taiwan University)
30. Requested by USDA National Institute for Food and Agriculture (NIFA) and the North American Branch of the International Life Sciences Institute (ILSI) to participate on a committee, the "Food Value Analysis Workshop-Phase II" held in Washington, DC. 2015.

CURRICULUM VITAE**Michael Patrick Doyle****DATE AND PLACE OF BIRTH:** 1949; Madison, Wisconsin**FORMAL EDUCATION**

- 1973 Bachelor of Science, University of Wisconsin-Madison
Major: Bacteriology
Graduated with Honors
- 1975 Master of Science, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
- 1977 Doctor of Philosophy, University of Wisconsin-Madison
Major: Food Microbiology (Food Science)
Minor: Bacteriology

PROFESSIONAL EMPLOYMENT

University of Georgia, - Faculty of Center for Drug Discovery, Athens, GA
October 2010 – present

University of Georgia, Faculty of Infectious Diseases, Athens, GA March 2008 - present

University of Georgia, Center for Food Safety, Griffin, GA
January 2001 - Present

Title - Director

Responsibilities: Provide leadership for the research and outreach programs of the Center. Provide oversight of 9 faculty members and ca. 10 postdoctoral scientists, and coordinate microbiological food safety research of participating adjunct faculty members.

Center for Food Safety

- Reorganized in 2001 to focus solely on microbiological food safety issues
 - The purpose of the Center is to assist food processors and producers nationally in enhancing the safety of their products
 - Center is awarded annually \$2.5 to \$3.5 million in extramural funding with a core faculty of 7. Ca. \$9 million in extramurally-funded ongoing research among all Center faculty members
 - Center has 19 core and adjunct faculty members plus 10 postdoctoral scientists
 - Center has 50 industry members contributing ca. \$400,000-\$500,000 annually in unrestricted funds for research activities
 - Center is a nationally and internationally recognized program for its food safety activities

- Has major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences

**University of Georgia, Center for Food Safety and Quality Enhancement, Griffin, GA
March 1993 - December 2000**

Title - Director

Responsibilities: Provided leadership for the research and outreach programs of the Center.
Provided oversight of 11 faculty members.

Center for Food Safety and Quality Enhancement

- Organized and, in 1993, received approval for a Center for Food Safety and Quality Enhancement; served as Center's Director since 1993.
 - The purpose of the Center is to assist food processors nationally in enhancing the safety and quality of their products.
 - Center received annually \$2 million plus in extramural funding with a core faculty of 11
 - Center had 17 core and adjunct faculty members
 - Center had 50 industry members contributing \$250,000 in unrestricted funds annually for research activities
 - Center was a nationally and internationally recognized program for its food safety activities
 - Developed major collaborations with the Centers for Disease Control and Prevention, U.S. Department of Agriculture-Agricultural Research Service, U.S. Department of Agriculture-Food Safety and Inspection Service, Emory University, Georgia Institute of Technology, University of Georgia College of Veterinary Medicine and University of Georgia College of Agricultural and Environmental Sciences
 - Research projects at the Center led to the development of new multimillion dollar divisions within some state companies
- Organized and received federal funding (\$300,000 annually) for an Alliance for Food Protection
 - Strategic alliance between the University of Georgia (microbiological food safety) and the University of Nebraska (allergen-related food safety) to enhance the safety of processed foods
- Obtained \$7.6 million for 28,000-sq ft. building addition, renovations, and equipment for Center for Food Safety and Quality Enhancement in Griffin
- Obtained \$4.4 million in state funding for building addition for Department of Food Science and Technology in Athens (justified on basis of food safety program)

State of Georgia Food Processing Initiative

- Served as a principal advisor to the Food Processors Advisory Council (Food PAC) of the State of Georgia
 - This Council advises the Governor's Office of Planning and Budget on the award of \$1.5 to \$2 million annually for food processing-related research funding at State universities
- Served as a principal advisor to the Governor's Office of Planning and Budget on economic development and expansion of the \$15-billion/year state food processing industry
 - Assisted in the recruitment of food processing companies to Georgia

University of Georgia, Department of Food Science and Technology, Athens, GA and Griffin, GA

September 1993 - July 1999

Title - Department Head

Responsibilities: Provided leadership for the academic, extension, and research programs of the Department.

Administrative Responsibilities and Accomplishments

- Program responsibilities as Head of Department of Food Science and Technology included:
 1. Oversight of Food Science undergraduate and graduate instruction programs (21 faculty)
 2. Oversight of Environmental Health Science undergraduate and graduate instruction, and research programs (6 faculty) until October 1998
 3. Oversight of Food Process Research and Development Laboratory (17 faculty)
 4. Oversight of Food Science Extension program (1.75 faculty)

Food Science Instruction

- The Food Science graduate program (ca. 70 - 100 students) was the largest (40%) in the College of Agricultural and Environmental Sciences
 - Average GRE scores for Food Science graduate students increased ca. 100 points to ca. 1100 since 1995.
 - UGA Food Science graduate students were in great demand, with most having one or more job offers before graduation.
 - Minority graduate student enrollment increased by 4-fold since 1995.
- Food Science undergraduate program (20 to 40 students) graduates were among the most employable students in the College with two to three job opportunities at graduation.

- Department restructured all courses (both undergraduate and graduate) to transition from quarter to semester system in fall 1998
- Reorganized teaching responsibilities to upgrade and update the department's introductory Food Science course. Enrollment increased by more than 300% (from 18 to >60 students per quarter) within one year.

Environmental Health Science

- Facilitated the development and growth of the Environmental Health Science program culminating in departmental status in October 1998
 - Undergraduate enrollment of 150-220 students
 - Received Board of Regents approval for Masters of Science Graduate program
 - Increased faculty positions from 2 to 5
 - Relocated EHS faculty to a single building; obtained additional space (ca. 8,000 sq. ft.) for research and teaching; renovated 3 laboratories and constructed a new classroom and computer laboratory
 - Received University of Georgia and Board of Regents approval for departmental status

Food Process Research and Development Laboratory

- Facilitated approval in 1995 of the Food Process Research and Development Laboratory
 - The purpose of the Laboratory was to develop and evaluate new processes for food products and assist state food processors in implementing these new processes
 - Integrated Food Science Extension programs with the FPRDL
 - Developed faculty support and involvement in FPRDL; 17 faculty were members of the Laboratory
 - Laboratory received annually ca. \$0.5 to \$1 million plus in extramural funding
 - Obtained \$2 million plus in state funding for renovations to Food Science Building in Athens (justified on basis of food processing program)

Food Science Extension

- Integrated Food Science Extension into the Department of Food Science and Technology
 - Developed a fully integrated Extension program involving the entire research and teaching faculty of the department; formerly only one or two full-time Extension faculty addressed all Extension Activities
 - Food Science Extension programs promote state economic development by assisting state processors in designing new plants, reducing waste, implementing new processes, implementing pollution controls, and improving worker efficiency
 - Increased Extension workshop and short course offerings by more than two-fold (20-30 workshops offered annually)

University of Georgia, Center for Food Safety and Department of Food Science and Technology, Georgia Experiment Station, Griffin, GA

January 1991 - Present

Title - Regents Professor of Food Microbiology (1997-present), and Director of the Center for Food Safety (2001-present); Director of the Center for Food Safety and Quality Enhancement (1993-2000); Professor of Food Microbiology (1991-1997) and Head of Department of Food Science and Technology at Griffin, (1991-1993).

Responsibilities: Conducted basic and applied research on bacterial agents of foodborne disease, provide leadership for the research program of the Center and previously the Department, and managed the administrative functions of the Center and previously the Department.

University of Wisconsin-Madison, Department of Food Microbiology and Toxicology and Department of Food Science, Madison, Wisconsin

January 1980 - March 1991

Title - Wisconsin Distinguished Professor of Food Microbiology and Toxicology, and Professor of Food Science; Associate Professor, July 1, 1984 - June 30, 1988; Assistant Professor, January 1, 1980 - June 30, 1984

Responsibilities: Conducted basic and applied research related to bacterial agents of foodborne disease. Organisms of primary interest included Campylobacter jejuni, Yersinia enterocolitica, Salmonella, enterohemorrhagic Escherichia coli, Listeria monocytogenes, and Clostridium botulinum.

Ralston Purina Company, Checkerboard Square, St. Louis, Missouri

December 1977 - January 1980

Title - Senior Project Leader in Corporate Microbiology

SOCIETY MEMBERSHIPS (Present and Past)

- a. American Academy of Microbiology
- b. American Association for the Advancement of Science
- c. American Society for Microbiology; Southeastern Branch of ASM
- d. Gamma Sigma Delta (Honor Society for Agriculture)
- e. International Association for Food Protection; Georgia Association for Food Protection
- f. National Academy of Medicine (Institute of Medicine of the National Academies)
- g. Institute of Food Technologists; Dixie Section of IFT
- h. Phi Beta Delta (Honor Society for International Scholars)
- i. Phi Kappa Phi
- j. Phi Tau Sigma (Honor Society for Food Scientists)
- k. Sigma Xi

AWARDS/HONORS

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986

3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987
5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food, and Environmental Sanitarians, 1993
10. American Society for Microbiology Food Microbiology Division Lecturer, 1993
11. G. Malcolm Trout Visiting Scholar Lectureship, Michigan State University, 1994
12. James H. Nakano Citation (outstanding scientific paper published in 1993), National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994 and nominated for the Charles C. Shepard Science Award (most outstanding peer reviewed research paper published by CDC/ATSDR scientists), Centers for Disease Control and Prevention, 1994
13. P. R. Edwards Award (for rendering outstanding service in furthering high professional ideals and standards in microbiology, and demonstrating originality and high competence as a practicing microbiologist), Southeastern Branch of the American Society for Microbiology, 1994
14. Nicholas Appert Award, Institute of Food Technologists, 1996, for outstanding contributions to the field of food science (Highest award given by IFT)
15. Health Sciences Communications Association '96 Media Festival, First Place Award, for CNBC's *Today's Health* segment on "Beef Industry's Efforts to Improve Food Safety," through the National Cattlemen's Beef Association, 1996
16. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997
17. Institute of Food Technologists Food Microbiology Division Lecturer, 1997
18. Silver Plow Honor Award for Exceptional Service (Personal and Professional Excellence), U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998. For internationally esteemed leadership in food safety, and pioneering research in detecting and controlling harmful bacteria associated with foods.

19. Inaugural Fellow, International Association for Food Protection (International Association of Milk, Food and Environmental Sanitarians), 1998.
20. York Distinguished Lecture, Auburn University, 1999
21. Fellow, Institute of Food Technologists, 1999
22. National Food Processors Association Food Safety Award, International Association for Food Protection, 1999, for exemplary and outstanding contributions to and leadership in improving the safety of food through research, education, public health, and domestic and international policy.
23. Honorary Member, Association Internationale Nicolas Appert, 1999, for outstanding contributions to food science and technology.
24. Key Resource Award, Links 2 Go, 1999, for UGA Center for Food Safety web page among most popular pages on food safety.
25. Study Web Academic Excellence Award, 2000, for being one of the best educational resources on the Web.
26. Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, 2000.
27. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
28. CDC Partners in Public Health Honor Award for outstanding collaboration and partnership with CDC in enhancing foodborne disease outbreak investigations and helping CDC to develop foodborne disease prevention strategies, U.S. Centers for Disease Control and Prevention, 2001
29. Institute for Scientific Information, Highly Cited Researcher in Agricultural Sciences (from 1981-1999), 2002
30. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
31. Fellow, World Innovation Foundation, 2003
32. Elected Member, National Academy of Medicine (Institute of Medicine, National Academies), 2003
33. National Associate, National Academy of Sciences, 2003
34. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003

35. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
36. Scientific Achievement Award for professional achievements that have had a significant contribution to the scientific knowledge of the meat and poultry industry, American Meat Institution Foundation, 2004
37. U.S. Food and Drug Administration, Commissioner's Special Citation, 2006
38. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
39. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009.
40. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao).
41. Fellow, American Association for the Advancement of Science (AAAS), 2011
42. Service Award, American Society for Microbiology, 2012
43. Christopher Columbus Award for excellence in agriscience, 2013
44. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food safety, 2013
45. Fellow, National Academy of Inventors, 2013
46. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate", by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)
47. John N. Sofos Most-Cited JFP Research Publication Award, 2015, Journal of Food Protection, "Surface and internalized *Escherichia coli* O157:H7 on field-grown spinach and lettuce treated with spray-contaminated irrigation water," by M.C. Erickson, C.C. Webb, J.C. Diaz-Perez, S.C. Phatak, J.J. Silvey, L. Davey, A.S. Payton, J. Liao, L. Ma, and M. P. Doyle. 73:1023-1029
48. John N. Sofos Most-Cited JFP Research Publication Award, 2015, Journal of Food Protection, "Infrequent internalization of *Escherichia coli* O157:H7 into field-grown leafy greens," by M.C. Erickson, C.C. Webb, J. C. Diaz-Perez, S.C. Phatak, J. J. Silvey, L. Davey, A. S. Payton, J. Liao, L. Ma and M. P. Doyle. 73: 500-507
49. Frazier Memorial Award Lecture, Food Research Institute, University of Wisconsin-Madison, 50th Annual Meeting, Keynote Address, 2016

BIOGRAPHICAL LISTINGS

1. Listed in American Men and Women of Science, 1992; 1995; 1998, 2003 (21st ed.) 2007
2. 9. Listed in Who's Who in American Education, 6th edition, 2004-2005; 7th edition, 2005-2006.
10. Listed in International Who's Who of Professionals, 2004.
11. Listed in Who's Who in the South and Southeast, 2015. 41st edition.

DISTINGUISHED APPOINTMENTS OR ELECTED POSITIONS

Associate Editor, *Journal of Food Protection*, 1981-86

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention

and Control of *Campylobacter* Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health

Organization, Geneva, Switzerland, 1988
 Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988
 Scientific Advisor, International Life Sciences Institute - North America, Food Microbiology Committee, 1987-1996
 Scientific Advisor, National Dairy Promotion and Research Board, 1989-93
 Scientific Advisor, National Live Stock and Meat Board, 1990-96
 Executive Committee, Conference for Food Protection, 1985-86
 Member, National Advisory Committee on Microbiological Criteria for Foods, 1988-90; 1994-2000
 Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987
 Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-97
 Board of Trustees, International Life Sciences Institute North America, 1992-
 Chairman, Food Microbiology Division of the American Society for Microbiology, 1988-89; Chair-Elect, 1987-88
 Scientific Lecturer, Institute of Food Technologists, 1987-90
 Foundation Scientific Lecturer, American Society for Microbiology; 1991-93; 1999-2001
 President, International Association of Milk, Food and Environmental Sanitarians, 1992-93
 Member, National Academy of Sciences, National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board, Panel on Animal Health, Food Safety and Public Health, 1993-96
 Member, National Academy of Sciences, Institute of Medicine, Food Forum, 1993-2000
 Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, World Logistics Organization, 1997-2002
 Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003
 Chairman, Georgia-Pacific Health Smart Institute Advisory Board, 1998-2001
 Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998
 Member, U. S. Food and Drug Administration Science Board (advise FDA scientific programs), 1999-2004, Chairman 2003-2004
 Member, U.S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002
 Scientific Editor, Aspen Publishers, Series on Food Safety and Food Microbiology, 1999-2001
 Member, U.S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000
 Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001
 Chairman, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture Food Safety and Inspection Service *Escherichia coli* O157:H7 in Ground Beef Draft Risk Assessment, 2001-2002.

Scientific Editor-in-Chief, (formerly Kluwer Academic/Plenum Publishers), Springer, Series on Food Safety and Food Microbiology, 2002-

Member, Partnership for Food Safety Education Advisory Board, 2002-2005

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007

Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008

Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012

Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009

Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Chairman, National Academy of Sciences, Committee on the Joint US-Iran Workshop on Food Safety, 2003-2005

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-2015.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2013

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2015

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009.

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009.
 Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014
 Member, International Life Sciences Institute Board of Trustees, 2014-
 Invited Member, 2014 CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017
 Chair, 2014-15, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC

BIBLIOGRAPHY OF PUBLICATIONS

Papers Published in Refereed Journals/Publications

1. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. I. Effects of moist heat, age of conidia, and sporulation medium. J. Milk Food Technol. 38:678-682.
2. Doyle, M. P., and E. H. Marth. 1975. Thermal inactivation of conidia from Aspergillus flavus and Aspergillus parasiticus. II. Effects of pH and buffers, glucose, sucrose, and sodium chloride. J. Milk Food Technol. 38:750-758.
3. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by fragmented and intact mycelia of Aspergillus parasiticus grown 5 to 18 days with and without agitation. J. Food Prot. 41:549-555.
4. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of temperature and concentration of bisulfite. J. Food Prot. 41:774-780.
5. Doyle, M. P., and E. H. Marth. 1978. Bisulfite degrades aflatoxin: Effect of citric acid and methanol and possible mechanism of degradation. J. Food Prot. 41:891-896.
6. Doyle, M. P., and E. H. Marth. 1978. Degradation of aflatoxin by lactoperoxidase. Z. Lebensm. Unters.-Forsch. 166:271-273.
7. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin at several initial concentrations is degraded by different amounts of mycelium of Aspergillus parasiticus. Z. Lebensm. Unters.-Forsch. 166:359-362.
8. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by mycelia from toxigenic and nontoxigenic strains of aspergilli grown on different substrates. Mycopathologia 63:145-153.
9. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded by heated and unheated mycelia, filtrates of homogenized mycelia and filtrates of broth cultures of Aspergillus parasiticus. Mycopathologia 64:59-62.

10. Doyle, M. P., and E. H. Marth. 1978. Aflatoxin is degraded at different temperatures and pH values by mycelia of Aspergillus parasiticus. Eur. J. Appl. Microbiol. Biotechnol. 6:95-100.
11. Marth, E. H., and M. P. Doyle. 1979. Update on molds: degradation of aflatoxin. Food Technol. 33(1):81-87.
12. Doyle, M. P., and E. H. Marth. 1979. Peroxidase activity in mycelia of Aspergillus parasiticus that degrade aflatoxin. Eur. J. Appl. Microbiol. Biotechnol. 7:211-217.
13. Doyle, M. P. 1981. Campylobacter fetus subsp. jejuni: an old pathogen of new concern. J. Food Prot. 44:480-488.
14. Doyle, M. P., and D. J. Roman. 1981. Growth and survival of Campylobacter fetus subsp. jejuni as a function of temperature and pH. J. Food Prot. 44:596-601.
15. Doyle, M. P., M. B. Hugdahl, and S. L. Taylor. 1981. Isolation of virulent Yersinia enterocolitica from porcine tongues. Appl. Environ. Microbiol. 42:661-666.
16. Doyle, M. P., N. J. Bains, J. L. Schoeni, and E. M. Foster. 1982. Fate of Salmonella typhimurium and Staphylococcus aureus in meat salads prepared with mayonnaise. J. Food Prot. 45:152-156, 168.
17. Doyle, M. P., and D. J. Roman. 1982. Sensitivity of Campylobacter jejuni to sodium chloride. Appl. Environ. Microbiol. 43:561-565.
18. Doyle, M. P., and D. J. Roman. 1982. Sensitivity of Campylobacter jejuni to drying. J. Food Prot. 45:507-510.
19. Doyle, M. P., and D. J. Roman. 1982. Recovery of Campylobacter jejuni and Campylobacter coli from foods by selective enrichment. Appl. Environ. Microbiol. 43:1343-1353.
20. Doyle, M. P., R. S. Applebaum, R. E. Brackett, and E. H. Marth. 1982. Physical, chemical, and biological degradation of mycotoxins in foods and agricultural commodities. J. Food Prot. 45:964-971.
21. Doyle, M. P., M. B. Hugdahl, M. Tu Chang, and J. T. Beery. 1982. Serological relatedness of mouse-virulent Yersinia enterocolitica. Infect. Immun. 37:1234-1240.
22. Doyle, M. P., and D. J. Roman. 1982. Prevalence and survival of Campylobacter jejuni in unpasteurized milk. Appl. Environ. Microbiol. 44:1154-1158.

Patents

1. Doyle, M. P. and N. Padhye. Issued December 1, 1992. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11. (USA) Patent No. 5,168,063.
2. Doyle, M. P. and J. L. Schoeni. Issued April 12, 1994. Control of Campylobacter jejuni colonization. (USA) Patent No. 5,302,388.
3. Doyle, M. P. and N. V. Padhye. Issued October 11, 1994. Monoclonal antibody to enterohemorrhagic Escherichia coli O157:H7 and O26:H11 and method for detection. (USA) Patent No. 5,354,661.
4. Doyle, M. P. and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. European Patent Application No. 494,293 (Europe, Italy, Belgium, Great Britain, Switzerland).
5. Doyle, M. P., and N. V. Padhye. Issued December 17, 1997. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Germany Patent No. 69128463.6.
6. Doyle, M. P., and N. V. Padhye. Issued September 18, 1998. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Korea Patent No. 165691.
7. Doyle, M. P., and N. V. Padhye. Issued December 13, 1994. Monoclonal antibody to enterohemorrhagic *Escherichia coli* O157:H7 and O26:H11. Australia Patent No. 652172.
8. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued October 12, 1999. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (USA) Patent No. 5,965,128.

9. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued July 19, 2001. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Australia) Patent No. 735914.
10. Doyle, M. P., T. Zhao, B. G. Harmon and C. A. Brown. Issued January 10, 2002. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (New Zealand) Patent No. 502420.
11. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued November 5, 2003. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (China) Patent No. ZL 98808111.3.
12. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued August 31, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Korea) Patent No. 044-7903.
13. Doyle, M. P., T. Zhao, B. G. Harmon, and C. A. Brown. Issued June 29, 2004. Control of enterohemorrhagic *E. coli* O157:H7 in cattle by probiotic bacteria. (Mexico) Patent No. 221178.
14. Doyle, M. P., and M. D. Danyluk. Issued April 22, 2008. Probiotic bacteria. (USA). Patent No. 7361497.
15. Doyle, M. P. and T. Zhao. Issued August 18, 2009. Composition and method for inhibition of microorganisms. (USA). Patent No. 7575744. Ser No. 12/541/606.
16. Doyle, M. P., and T. Zhao. Issued 2009. Composition and method for inhibition of microorganisms (Europe). European Patent No. 11570047.
17. Doyle, M. P., G. Zhang, and L. Ma. Issued June 29, 2010. Composition and method for inhibiting *Salmonella* and *Campylobacter* colonization in poultry. (USA). Patent No. 7744868.
18. Doyle, M. P., and T. Zhao. Filed May 21, 2009. Antimicrobial composition and use. (International) (PCT International Serial No. PCT/US2009/044815).
19. Zhao, T., M. Doyle, and R. Walcott. (Filed March 17, 2010). Treatment for Alfalfa Seeds and Sprouts. (U.S. Provisional Application No. 61/314,922).
20. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 23, 2010). Efficacy of a novel antimicrobial solution against phytopathogenic bacteria, and feasibility as a vegetable seed treatment. (U.S. Provisional Application No. 61/316,582).
21. Doyle, M. P., and T. Zhao. (Filed February 23, 2011). Skin Cleanser. Provisional Assignment Serial No. 61/445,686.
22. Doyle, M. P., and T. Zhao. (Filed February 24, 2011). Antimicrobial Composition and Use

(U.S. Provisional Patent Application 61/446082.) (Patent App. Ser. No. 12/811,560)

23. Doyle, M.P., and T. Zhao. (Filed September 16, 2011). Chlorine-Free Water Treatment. Patent Application Serial No. 13/234,286.
24. Walcott, R., M. P. Doyle, and T. Zhao. (Filed March 9, 2011). Antimicrobial Treatment for Seeds and Sprouts. International Patent Application PCT/US11/277719. WO2U11/115798A2 Published September 22, 2011.
25. Doyle, M. P., and T. Zhao. (Filed December 1, 2011). Compositions for Oral and Nasal Hygiene. Patent Application US No. PCT/US2011/62844.
26. Doyle, Michael P. and Tong Zhao. (Filed February 13, 2012). Control of Enterohemorrhagic *E. coli* in Farm Animal Drinking Water. US Serial No. 13/371,542.
27. Doyle, Michael and Tong Zhao. (Filed January 17, 2012). Chlorine-Free Liquid Microbicide Treatment. US Serial No. 13/351,477.
28. Doyle, Michael P. and Tong Zhao. (Granted September 28, 2011) (South African Patent No. 2010/04796). Antimicrobial Composition and Use.
29. Cannon, Jennifer L., Michael Patrick Doyle, and Tong Zhao. (Filed January 13, 2012). Ser. No. 13/350,315. Viricidal and Microbicidal Compositions and Uses Thereof. Utility Patent Application.
30. Doyle, Michael P. and Tong Zhao. European Patent Application No. 09763203.8, Antimicrobial Composition and Use, (filed May 21, 2009). UGARF No. 1407.
31. Doyle, Michael P. and Tong Zhao. (Issued May 14, 2013). Composition and method for inhibition of microorganisms. Patent No. 8440448.
32. Doyle, Michael P. and Tong Zhao. Serial No. 13/363,455 Antimicrobial Composition and Use as Food treatment. Supplemental Amendment and Declaration, filed February 1, 2013.
33. Doyle, Michael P. and Tong Zhao. Issued May 13, 2014. Antimicrobial Composition and Use as Food Treatment. (USA). Patent No. 8,722,123.

License Agreements

Doyle, Michael P. and Tong Zhao. 2014. A Monoclonal Antibody That Binds Surface Non-fraction 1 Antigen of *Yersinia pestis*. License Agreement with UGARF and KeraFAST, Inc. May 6.

TEACHING AND LECTURING

1. Food Science 875 - Advanced Microbiology of Foodborne Pathogens. Organized and coordinated for two years; 2-3 lectures per year.
2. Bacteriology/Food Science 350 - Foodborne Disease Hazards. 7-8 lectures per year.
3. Food Science 430 - Food Fermentations. 1 lecture per year.
4. Bacteriology 325 - Food Microbiology. 2-3 lectures per year.

Non-credit courses

5. Food Research Institute Food Safety Short Courses for Advanced Industrial Microbiologists. 5-7 lectures (biannually).
6. University of Wisconsin Food Microbiological Control School for Food & Drug Administration Inspectors. 2-3 lectures.
7. University of Wisconsin College Week for Women Short Course on Food Safety. 2 lectures.
8. International Life Sciences Institute - Nutrition Foundation Workshop on Listeria Methodologies. 2 lectures.
9. Association of Official Analytical Chemists Annual Workshop. 2 lectures.
10. American Society for Microbiology Workshop on Listeria monocytogenes. 5 lectures.
11. Wisconsin Association of Milk and Food Sanitarians Educational Conference. 1 lecture.
12. Association of Official Analytical Chemists Workshop, Pacific Northwest Section. 4 lectures.
13. University of California-Davis Food Microbiology Update. 2 lectures.
14. Association of Food and Drug Officials Conference and Workshop. 2 lectures.
15. U.S. Department of Agriculture - Food Safety & Inspection Service Continuing Education Program. 2 lectures.
16. University of Wisconsin-Madison. Milk Pasteurization and Process Control School. 2 lectures.

17. American Society for Microbiology Workshop on Significant Foodborne Pathogens: Approaches for Detection and Control. 1 lecture.
18. Institute of Food Technologists Short Course on Practical Food Safety Assurance. 1 lecture.
19. American Society for Microbiology Workshop on Campylobacters. 1 lecture.
20. Institute of Food Technologists Basic Symposium on Microorganisms and Their Toxins. 1 lecture.
21. St. Luke's Hospital Center, Workshops in Clinical Lab Sciences. 2 lectures.
22. American Society for Microbiology Workshop on Salmonella and Campylobacter jejuni Associated with Foods. 1 lecture.
23. American Meat Institute - Food Processors Institute Workshop on HACCP. 2 lectures.
24. Society for Manufacturing Engineers, Fundamentals of Modified Atmosphere Packaging Short Course. 2 lectures.

UNDERGRADUATE STUDENTS, GRADUATE STUDENTS and POSTDOCTORAL ASSOCIATES, and SCIENTISTS

Undergraduate Students (UW-Madison)

Nancy Bains	1980-1981
Gail Daly	1981
Dave Jackson	1981-1982
Bob Smith	1981-1982
Heidi Hoff	1981-1983
Carol Luker	1981-1983
John Pfister	1982-1983
Susan Herbert	1981-1982
Robert Thiesen	1981-1982
Sue Kovats	1982-1986
Sandra Kalnins	1982
Julia Shimaoka	1983-1986
Lisa Marquardt	1982
Jean Schoeni	1980-1991
Debbie Roman	1980-1983
Mary Hugdahl	1980-1985
Jean Aschenbach	1982
Joanne Gould	1983-1984
Jean Guggisberg	1982-1986
Louise Meske	1983-1987
Johnna Shink	1983-1986
Bridget Crave	1983

Kathy Glass	1983-1991
Tom Knapp	1984-1986
Azadeh Khalili	1984-1985
Sue Gates	1985
Andrew Sharp	1985
David McDonald	1985
Eric Olson	1985-1986
Sue Anderson	1985-1986
Maureen Quinn	1985-1986
Michelle Mitchell	1985-1986
Nadine Gmach	1985-1986
Phil Guillery	1985-1986
Brett Rabata	1985-1987
Lesley May	1985-1987
Lisa Makovec	1985-1987
Mike Ortengren	1985-1987
Sandy Schlosser	1985-1987
Pam Wilger	1985-1987
Jae Ellen Thorstad	1985-1989
Rick Kittell	1985-1991
Roger Fons	1989
Suyun Yang	1986
Joan Harrod	1986-1991
Dianna Mook	1986
Lisa Poulter	1986
Lisa Denzin	1986
Kurt Wolfmeyer	1985-1986
Joseph Fitzgerald	1986-1987
Scott Coleman	1986-1987
Bernard Hibbeln	1986-1988
Kristy Wedige	1986-1988
Aimee Kwiatkowski	1986-1989
Alex Shoemaker	1987
Laurie Hauerwas	1987
Kevin Brinner	1987
Scott Howard	1987
Frannie Roche	1987
Bruce Albrecht	1987
Leigh Zawel	1987
Cheryl Barrett	1987-1989
Jim Pfeifer	1987-1988
Leah Schultz	1987-1988
Julie Voss	1987
Joseph Fitzgerald	1987
Frank Waszinski	1987-1988
Mike Schomburg	1988
Bernard Hibbeln	1988
Jon Isom	1988

Rolf Donhowe	1988
Kathy Niesen	1988
Rhondi Christopherson	1988
Laurie Gehrke	1988-1989
Julie Klacan	1988-1989
Lisa Friess	1988-1989
Chris Fischer	1988-1990
Heidi Trimner	1988-1991
James Kulick	1989
Marilyn Goel	1989
Teresa Dale Pedersen	1989
Aimee Kwiatkowski	1989
Denise Sabel	1989-1990
Gloria Brandes-Kuptz	1989-1990
Christine D. Fischer	1989-1990
Kim Zinski	1989-1991
Cheryl Nortman	1989-1991
Joseph Brunner	1989-1991
Patrick Ford	1989-1991
Roger Fons	1989-1992
Timothy Tibbetts	1989-1991
Jill Dressler	1990-1991
Joy Free	1990
Jason Demeny	1990
Dan Mielke	1990-1991
Tim Harried	1990-1991
Kathy Edge	1990-1991
Linda Moore	1990-1991
Melissa Poulter	1990-1991
Chris Torhorst	1985 – 1989
Alison Scott	1993
Xiujuan Zhou	2015-2016
Magdalena Olszewska	2015

Member, University of Georgia Graduate Faculty, 1991-98; 1998-2005;, 2005-2012; 2012-2019.

Graduate Students

1. Mary B. Hugdahl, M.Sc. (Food Science, UW-Madison) 1986.
2. David J. Thomas, M.Sc. (Food Science, UW-Madison) 1988.
3. Jennifer L. Johnson, Ph.D. (Food Science and Meat and Animal Science, UW-Madison) 1989.
4. Ratih Dewanti, M.Sc. (Food Science, UW-Madison) 1990.
5. Anna M. Lammerding, Ph.D. (Food Science, UW-Madison) 1991.
6. Alan D. Junkins, Ph.D. (Bacteriology, UW-Madison) 1991.
7. Risini D. Weeratna, M.Sc. (Bacteriology, UW-Madison) 1991.
8. Nisha V. (Kulkarin) Padhye, Ph.D. (Food Science, UW-Madison) 1991.
9. Chorng-Meng Chang, Ph.D.(Food Science, UW-Madison) 1993.

10. Guodong Wang, Ph.D. (Food Science, UGA) 1996.
11. Mei Yang, M.Sc. (Food Science, UGA), 2002.
12. Michelle Danyluk, M.Sc. (Food Science, UGA), 2002.
13. Dong Chen, Ph.D. (Food Science, UGA), 2012.

Graduate Student Committees

	<u>Major Advisor</u>	<u>Committee Member</u>
Scott Russell - Ph.D.		X
Jitu Patel - Ph.D.		X
Guodong Wang - Ph.D.	X	
Lakshmi Sathyanarayanan- M.Sc.		X
Manan Sharma - M.Sc.		X
Yang Hong - Ph.D.		X
Mei Yang - M.Sc.	X	
Michelle Danyluk - M.Sc.	X	
Geraldine Miriam Saavedra Ebner - M.Sc.		X

Postdoctoral Associates

1. Ming-Tu Chang, 1981-1984
2. Dana Wiseman, 1983-1985
3. Vikas Padhye, 1984-1989
4. Sulekha Chaudhuri, 1985-1988
5. Mi Sun Kim, 1989-1991
6. Jianghong Meng, 1992-1996
7. C.-A. Hwang, 1992-1993
8. Shaohua Zhao, 1993-1996
9. Ping Zhao, 1993-
10. Kumara S. Venkitanarayanan, 1996-1999
11. Xiuping Jiang, 1996-2001
12. Fone Mao Wu (Collaborative Assignment with the Centers for Disease Control and Prevention), 1998- 2002
13. Mahbubul Islam, 1999-2003
14. Ying Mao, 1999-2001
15. Li Ma, 1999-2009
16. Chia Min Lin, 1999-2004
17. Guodong Zhang, 2000-2008
18. Kazue Takeuchi, 2000-2002
19. Nutan Mytle, 2001-2004
20. Larry Goodridge, 2002
21. Lei Zhang, 2003-2004
22. Zhinong Yan, 2003-2004
23. Cathy Webb, 2007-

Scientists

1. Pavlos Koidis, Aristotelian University of Tessaloniki, Greece, 1982-1983

2. John T. Beery, University of Wisconsin-Madison, 1983-1989
3. Nobumasa Tanaka, University of Wisconsin-Madison, 1983
4. Nancy Higley, 1984
5. Tong Zhao, Beijing Institute of Chest Tumour & Tuberculosis, China, 1987-2009
6. Jaana (Junttila) Husu, National Veterinary Institute, Helsinki, Finland, 1988
7. Gulum Rusul, University of Pertanian Malaysia, Serdang, Malaysia, 1993-94
8. Ricardo Rodriguez, Instituto Nacional de Tecnologia Agropecuaria, Buenos Aires, Argentine, 1998
9. Virginia Montero Campos, Instituto Tecnológico de Costa Rica, 2002
10. Anne-Laure Dinel, Institut des Sciences et techniques des Aliments de Bordeaux, Talence, France, 2003
11. Mohamed Hegazy, Zagazig University, Zagazig, Egypt, 2008-2009
12. Ali Aydin, Istanbul University, Istanbul, Turkey, 2009-2010
13. Mohamed Tharwat, Zagazig University, Egypt, 2011
14. Cagatay Celik, Ankara, Turkey, 2012-2013.
15. Sahan Guran, Dicle University, Diyarbakir Turkey, 2014- Sept. 2015.
16. Fang Liu, Jiangsu Academy of Agricultural Sciences, Nanjing, Jiangsu Province, China 2015-2016.
17. Lihui Du, Nanjing University of Finance & Economics, Nanjing, China. 2015-2016.

INVITED SEMINARS and RESEARCH PRESENTATIONS

Invited seminar - Department of Food Science, University of Wisconsin-Madison, February 26, 1980.
Production of mushrooms for the fresh market.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 67th Annual Meeting, Spokane, WA, July 30, 1980. Campylobacteriosis and yersiniosis: Food-associated illnesses of recent concern.

Keynote lecture - Wisconsin Laboratory Association, Southern Regional Meeting, Madison, WI, September 4, 1980. Producing mushrooms for the fresh market.

Research paper - Wisconsin Section of the Institute of Food Technologists, Madison, WI, November 14, 1980. Antibotulinal properties of long-chain polyphosphates.

Invited paper - Institute of Food Technologists, 41st Annual Meeting, Atlanta, GA, June 9, 1981. Chemical, physical, and biological degradation of mycotoxins in foods and agricultural commodities.

Invited seminar - Department of Bacteriology, University of Wisconsin-Madison, February 18, 1982.
Serological relatedness of virulent Yersinia enterocolitica.

Invited paper - American Society for Microbiology, 82nd Annual Meeting, Atlanta, GA, March 10, 1982.
Effects of environmental factors on the destruction of Campylobacter jejuni in food-related systems.

Invited seminar - Environmental Toxicology 875, University of Wisconsin-Madison, March 31, 1982.
Virulence of Yersinia enterocolitica.

- Invited paper - Wisconsin Association of Milk and Food Sanitarians Educational Conference, Madison, WI, September 2, 1982. Campylobacter - The "new" foodborne pathogen.
- Invited paper - Central States Association of Food and Drug Officials Spring Meeting, Madison, WI, October 8, 1982. Campylobacter - The "new" foodborne pathogen.
- Invited paper - United States-Japan Joint Panel on Toxic Microorganisms, University of Wisconsin-Madison, October 20, 1982. Recovery of Campylobacter jejuni from foods by selective enrichment.
- Invited seminar - Department of Microbiology, Cornell University, October 28, 1982. Yersinia enterocolitica and Campylobacter jejuni: Two recently recognized food-associated pathogens.
- Keynote speaker - Wisconsin Laboratory Association, University of Wisconsin-River Falls, December 8, 1982. Foodborne pathogens of emerging significance - An overview.
- Invited seminar - Best Foods Research and Engineering Center, Research Update, Union, NJ, January 13, 1983. Foodborne bacterial pathogens of emerging significance.
- Invited seminar - A.B.C. Research Corporation, 9th Annual Technical Seminar, Gainesville, FL, February 22, 1983. Pathogenic Escherichia coli.
- Invited paper - Association of Official Analytical Chemists, 1983 Spring Workshop, Indianapolis, IN, April 20, 1983. Recovery of Campylobacter jejuni from foods.
- Invited seminar - McDonald's Corporation, Quality Assurance Meat Suppliers Meeting, St. Charles, IL, April 26, 1983. Pathogenic Escherichia coli and their association with foods.
- Invited lecture - College Week for Women, University of Wisconsin-Madison, June 2, 1983. Safety of mayonnaise in foods.
- Invited paper - Institute of Food Technologists 1983 Short Course on Practical Food Safety Assurance, New Orleans, LA, June 22, 1983. Changing patterns in outbreaks of foodborne disease.
- Invited paper - 1983 Summer Toxicology Forum, Aspen, CO, July 1, 1983. New bacterial agents - Nature, importance and regulatory status: Campylobacter jejuni and pathogenic Escherichia coli.
- Invited paper - Minnesota Sanitarian's Conference, University of Minnesota, St. Paul, September 15, 1983. Significance of emerging pathogens in foods.
- Invited paper - Association of Official Analytical Chemists, 97th Annual Meeting, Washington, DC, October 4, 1983. Rapid enrichment and serological detection of virulent Yersinia enterocolitica in food.
- Invited paper - 9th Food Microbiology Research Conference, Chicago, IL, November 2, 1983. Recent developments in pathogens of current interest - Campylobacter jejuni.
- Invited paper - Annual Meeting of the Food and Nutrition Liaison Committee of the Nutrition Foundation, Naples, FL, January 19, 1984. Emerging microbiological issues.

Invited paper and consultant - World Health Organization Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, Moscow, U.S.S.R., February 20-22, 1984. Rapid methods for detection of Campylobacter jejuni in food animals and food of animal origin.

Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Hemorrhagic Escherichia coli - Studies in foods.

Invited paper - American Society for Microbiology, 84th Annual Meeting, St. Louis, MO, March 5, 1984. Regulation and expression of surface peptides in Yersinia enterocolitica.

Invited paper - National Restaurant Association's Quality Assurance Officers Meeting, Washington, DC, May 9, 1984. Newly recognized food-associated bacterial pathogens.

Invited white papers - National Conference for Food Protection, Washington, DC, May 9-11, 1984. Campylobacter jejuni and pathogenic Escherichia coli.

Invited paper - Institute of Food Technologists, 44th Annual Meeting, Anaheim, CA, June 11, 1984. Procedures for recovery of campylobacters from foods.

Invited paper and workshop leader - Association of Official Analytical Chemists Pacific Northwest Regional Section Meeting, Olympia, WA, June 21-22, 1984. Campylobacter, Yersinia, and hemorrhagic Escherichia coli.

Invited paper - International Association of Milk, Food, and Environmental Sanitarians, 71st Annual Meeting, Edmonton, Alberta, Canada, August 8, 1984. Hemorrhagic Escherichia coli.

Invited paper - U.S.-China Renewable Resources Conference, Organized by National Academy of Sciences (USA), St. Louis, MO, October 11-13, 1984. Foodborne pathogens of recent concern in the United States.

Invited paper - Kraft Limited, Cheese Technology Round Table meeting, Montreal, Quebec, Canada, October 18-19, 1984. New developments - Pathogens in raw milk: Listeria and Yersinia.

Invited paper - Wisconsin Section of the Institute of Food Technologists, Pewaukee, WI, November 30, 1984. Newly recognized bacterial pathogens of significance to the food industry: Hemorrhagic Escherichia coli.

Invited paper - U.S. Department of Agriculture - Food Safety and Inspection Service, Continuing Education Program, Madison, WI, December 8, 1984. Foodborne pathogens of enteric origin that contaminate carcasses and processed products from fecal contamination.

Invited paper - University of Missouri, Columbia, MO, Microbiological Applications in the Food Industry Conference, February 7, 1985. Foodborne pathogens of recent concern.

Invited white paper - National Live Stock and Meat Board, Chicago, IL, February 15, 1985. Microbiological safety concerns in handling and cooking red meat in the home.

Invited paper - American Society for Microbiology, Workshop on Campylobacters, Las Vegas, NV, March 2-3, 1985. Campylobacters in foods.

Invited paper - American Society for Microbiology, 85th Annual Meeting, Las Vegas, NV, March 5-8, 1985. Foodborne pathogens of recent concern: Colohemorrhagic Escherichia coli.

Invited paper - Association of Official Analytical Chemists, 10th Annual Spring Workshop, Dallas, TX, April 9-11, 1985. Microbiology of emerging foodborne pathogens: Yersinia enterocolitica - virulent or avirulent.

Invited paper - Institute of Food Technologists, Basic Symposium, Atlanta, GA, June 7-8, 1985. Microorganisms and their toxins - Developing methodology: Gram-negative pathogens.

Invited papers - Association of Food and Drug Officials, 1985 Conference and Workshop, Madison, WI, June 19, 1985. An update on foodborne pathogens, and advances in methodology in detection of foodborne pathogens.

Invited paper and session chairman - Third International Workshop on Campylobacter Infections, Ottawa, Ontario, July 7-10, 1985. Chemotactic behavior of Campylobacter jejuni.

Invited paper - National Association of State Meat and Food Inspection Directors and American Association of Food Hygiene Veterinarians, Milwaukee, WI, October 30-31, 1985. Pathogenicity of Campylobacter and colohemorrhagic Escherichia coli.

Invited paper - A.B.C. Research Corporation, 12th Annual Technical Seminar, Gainesville, FL, February 25-26, 1986. Listeria and Campylobacter in foods.

Invited paper - American Society for Microbiology, 86th Annual Meeting, Washington, DC, March 23-28, 1986. Campylobacter in foods - Colonization of animals.

Invited paper - General Foods Corporation, Quality Assurance Supervisors Meeting, Madison, WI, April 23, 1986. Foodborne pathogens of recent concern.

Invited seminar - Department of Food Science and Human Nutrition, Michigan State University, April 25, 1986. Newly recognized Escherichia coli responsible for hemorrhagic colitis.

Invited paper - Michigan Branch of the American Society for Microbiology, Spring Meeting, Livonia, MI, April 26, 1986. Foodborne pathogens of recent concern: Listeria monocytogenes and Escherichia coli O157:H7.

Invited paper - Chicago Section of the Institute of Food Technologists, 1986 Fred W. Tanner Lecture, Chicago, IL, May 12, 1986. Newly recognized harmful bacteria associated with foods.

Invited seminar - Department of Food Science, University of Illinois, May 13, 1986. Foodborne pathogens of emerging significance.

Invited paper - Universal Foods Corporation, Quality Assurance Directors Meeting, Baltimore, MD, May 21-22, 1986. Food-related microbiological problems of current interest.

Invited paper - 39th Reciprocal Meat Conference, University of Illinois, June 9, 1986. Emerging foodborne pathogens.

Invited paper - Canadian Institute of Food Science and Technology Microbiology Symposium, 29th Annual Conference, Calgary, Alberta, June 29-30, 1986. Status of haemorrhagic Escherichia coli and Listeria monocytogenes in foodborne illness.

Invited paper - Beatrice U.S. Food Corporation, Dairy Division Executives and Quality Assurance Directors Meeting, Chicago, IL, July 21, 1986. Recent concerns about Listeria monocytogenes.

Invited paper - American Society of Animal Science, 1986, Annual Meeting, Kansas State University, Manhattan, July 31, 1986. Meat-associated bacterial pathogens of recent concern.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 73rd Annual Meeting, Minneapolis, MN, August 6, 1986. Comparison of methods for detecting Listeria monocytogenes in foods.

Invited paper - Poultry Science Association, 75th Annual Meeting, North Carolina State University, Raleigh, August 7, 1986. Colonization of poultry by Campylobacter jejuni.

Invited paper - 1986 Conference for Food Protection, Microbiology Task Force, Ann Arbor, MI, August 17-20, 1986. Concerns about foodborne viral gastroenteritis and Listeria monocytogenes.

Invited presentation and topic leader - Dairy Research Foundation Research Review and Planning Meeting, Park City, VT, September 30-October 1, 1986. Listeria monocytogenes - Pasteurization.

Invited presentation - Wisconsin Dairy Leaders Program, University of Wisconsin, College of Agricultural and Life Sciences, Madison, WI, October 9, 1986. Listeria concerns and research.

Invited paper - Wisconsin Dairy Technology Society and Chicago Dairy Technology Society, Milwaukee, WI, October 9, 1986. Listeria and pasteurization.

Invited paper - Best Foods, Food and Nutrition Advisory Committee, Union, NJ, October 10, 1986. Food microbiology update.

Invited paper - Land O'Lakes Plant Supervisors' Good Manufacturing Practices Seminars, Minneapolis, MN, October 15 and 29, 1986. Foodborne bacterial pathogens.

Invited paper - Chocolate Manufacturers Association, Pennsylvania State University, State College, PA, October 16, 1986. Overview and update of Listeria monocytogenes.

Invited paper - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Listeria monocytogenes.

Keynote address - University of California-Davis, Food Microbiology Update, Anaheim, CA, November 6, 1986. Looking forward: microbiological issues in food safety.

Invited paper - Iowa Section of the Institute of Food Technologists, Cedar Rapids, IA, November 20, 1986. Listeria monocytogenes - A pathogen of recent concern.

Invited white paper - American Meat Institute, Washington, DC, December, 1986. Recent concerns about Listeria monocytogenes in food.

Invited paper - Wisconsin Dairy Products Association, Madison, WI, December 4, 1986. Raw facts about Listeria.

Invited paper - International Life Sciences Institute-Nutrition Foundation, Naples, FL, January 28, 1987. Microbiological issues in food safety: what lies ahead.

Invited paper - Dairy and Food Industry Conference, Ohio State University, Columbus, OH, February 12, 1987. Newer knowledge of Listeria.

Invited paper - University of Alberta, Department of Food Science, Edmonton, Alberta, Canada, February 16, 1987. Listeria monocytogenes- A foodborne pathogen of recent concern.

Invited paper - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, Atlanta, GA, March 1, 1987. Survival of L. monocytogenes in foods and sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - American Society for Microbiology, 87th Annual Meeting, Atlanta, GA, March 1-6, 1987. Current topics on foodborne pathogens: Listeria monocytogenes.

Invited paper - Emerging Pathogen Workshop, Tony's Pizza Service, Salina, KS, March 12, 1987. Emerging pathogens.

Invited paper - GENE TRAK Systems, Framingham, MA, March 17, 1987. The emergence of Listeria monocytogenes as a foodborne pathogen.

Invited paper - Cheese Research and Technology Conference, University of Wisconsin, Madison, WI, March 26, 1987. Survival and detection of Listeria monocytogenes.

Invited white paper - Kraft Incorporated, Glenview, IL, April, 1987. Listeria monocytogenes.

Invited paper - Finnish Food Research Foundation, Seminar on Pathogenic Microorganisms in Foods, Helsinki, Finland, April 24, 1987. Listeria monocytogenes - Epidemiology, prevalence in foods, and control by food processing.

Invited moderator and panelist - Grocery Manufacturers' of America, Panel Discussion on Emerging Microbiological Issues, Washington, DC, May 7, 1987.

Invited lectures - University of Wisconsin - Department of Food Science, Wisconsin Food Microbiological Control School (for Food and Drug Administration Inspectors), Madison, WI, May 12, 1987. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, and Shigella.

Invited paper - Central Atlantic States Association of Food and Drug Officials Annual Conference, Baltimore, MD, May 21, 1987. Listeria - Another viewpoint.

Invited lecture - East Madison Optimist Club, Monona, WI, June 10, 1987. Food poisoning in the United States.

Invited paper - Institute of Food Technologists, 87th Annual Meeting, Las Vegas, NV, June 18, 1987. Survival characteristics of Listeria monocytogenes during processing.

Invited paper - American Dairy Science Association, 82nd Annual Meeting, Columbia, MO, June 22, 1987. Symposium: Problems of pathogenic bacteria in the dairy industry. Detection, isolation, and identification of Listeria monocytogenes, Campylobacter jejuni, and Yersinia enterocolitica.

Invited paper - Association of Official Analytical Chemists, Pacific Northwest Regional Meeting, Olympia, WA, June 26, 1987. Listeria in dairy and other products.

Invited session convener and paper - International Symposium and Workshop on Verocytotoxin-Producing Escherichia coli (VTEC) Infections, Toronto, Ontario, Canada, July 13, 1987. Isolation of Escherichia coli O157:H7 from retail fresh meats and poultry.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 74th Annual Meeting, Anaheim, CA, August 5, 1987. Symposium: Listeria and emerging food pathogens. Update on emerging pathogens in foods.

Invited paper - Meat Industry Research Conference, American Meat Industry, Chicago, IL, October 7, 1987. Low temperature pathogens.

Invited paper - Great Lakes Section of the Institute of Food Technologists Workshop on "Current Challenges in Food Safety," Lansing, MI, October 15, 1987. From Campylobacter to Listeria - The emergence of newly recognized pathogens.

Invited paper - Chapter 15 Food Service Executive Board Meeting, Madison, WI, October 19, 1987. Food poisoning, food sanitation, and proper food handling.

Invited white paper - Kraft Incorporated, Glenview, IL, October, 1987. Campylobacter jejuni.

Invited paper - Food Microbiology Research Conference, Chicago, IL, November 4, 1987. Hemorrhagic Escherichia coli.

Invited paper - Lake Erie Section of the Institute of Food Technologists, Cleveland, OH, November 10, 1987. The emergence of newly recognized foodborne pathogens.

Invited paper - Ohio Dairy Processors meeting, Dairy & Nutrition Council (Mid East), Akron, OH, November 11, 1987. Listeria monocytogenes: A major concern of the dairy industry.

Invited papers - Workshops in Clinical Lab Sciences, St. Luke's Hospital Center, New York, NY, November 20, 1987. (1) An overview of foodborne disease; and (2) Listeria monocytogenes - a foodborne pathogen of recent concern.

Invited papers - American Society for Microbiology, Workshop on Isolation of Listeria monocytogenes from Foods, San Diego, CA, December 4, 1987. (1) Survival and growth of Listeria monocytogenes in foods and (2) Sampling, sample preparation and enrichment for L. monocytogenes in foods.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Workshop on Listeria Methodologies, Washington, DC, February 5, 1988. Efficacy of enrichment procedures for detecting Listeria monocytogenes in dairy products.

Invited paper - World Health Organization, Working Group Meeting on Foodborne Listeriosis, Geneva, Switzerland, February 15-19, 1988. Thermal inactivation of Listeria monocytogenes in foods.

Invited paper - Ohio Valley Section of the Institute of Food Technologists, Cincinnati, OH, March 10, 1988. From Campylobacter to Listeria - Recent concerns about foodborne pathogens.

Invited lecture - Kroger Company, Cincinnati, OH, March 11, 1988. Update on Listeria monocytogenes and Escherichia coli O157:H7.

Invited lecture - American Frozen Food Institute, March 16, 1988. Is Listeria monocytogenes a concern in frozen foods?

Invited lectures - University of Wisconsin-Department of Food Science, Wisconsin Food Microbiological Control School for Food and Drug Administration Inspectors, Madison, WI, April 20, 1988. Pathogenic Escherichia coli, Yersinia enterocolitica, Campylobacter jejuni, Salmonella, Shigella.

Invited seminar - University of Arizona-Department of Family and Community Medicine, Graduate Seminar on Nutritional Sciences, April 22, 1988. The emergence of newly recognized foodborne pathogens.

Invited paper - American Society for Microbiology, Workshop on Salmonella spp. and Campylobacter jejuni Associated with Foods, Miami Beach, FL, May 7-8, 1988. Isolation, identification and inactivation of Campylobacter jejuni.

Invited paper - American Society for Microbiology, 88th Annual Meeting, Miami Beach, FL, May 10, 1988. Natural and experimental transmission of Listeria in cattle.

Invited paper - International Association of Milk, Food and Environmental Sanitarians, 75th Annual Meeting, Tampa, FL, August 3, 1988. Escherichia coli O157:H7--A problem in dairy products?

Invited lecture - Ohio State University, Department of Food Science, Columbus, OH, August 18, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Agriculture Canada, Animal Diseases Research Institute, Ottawa, Ontario, September 13, 1988. Virulence factors of Escherichia coli O157:H7 and method for its detection in foods.

Invited lecture - Wisconsin Laboratory Association, 12th Annual Educational Conference, September 15, 1988. Listeria update.

Invited lecture - Society for Industrial Microbiology, Comprehensive Conference on Listeria monocytogenes, Sonoma County, California, October 5, 1988. Stability of Listeria monocytogenes to non-thermal processing conditions.

Invited lecture - Sara Lee Corporation Meats Group Scientific Advisory Council, Holland, Michigan, October 11, 1988. Activities of the Food Research Institute.

Invited lecture - Central New York Section of the Institute of Food Technologists, Syracuse, NY, November 8, 1988. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - NutraSweet Company, Mt. Prospect, IL, November 21, 1988. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - University of Wisconsin-River Falls, Ninth Annual Food Microbiology Symposium, December 1, 1988. Significance, isolation, and characterization of Escherichia coli O157:H7.

Invited lectures - University of Wisconsin - Department of Food Science, Milk Pasteurization and Process Control School, Madison, WI, January 3, 1989. Microbiology of raw and pasteurized milk.

Invited lecture - Rocky Mountain Section of the Institute of Food Technologists, Denver, CO, February 16, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - Miles, Inc., Elkhart, IN, April 7, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - North Carolina State University - Department of Food Science, Raleigh, NC, May 3, 1989. The emergence of Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Carolina/Virginia Section of the Institute of Food Technologists, Charlotte, NC, May 4, 1989. From Campylobacter to Listeria--The emergence of newly recognized foodborne pathogens.

Invited lecture - GENE-TRAK Workshop, Los Angeles, CA, June 1, 1989. Recent concerns about the microbiological safety of foods.

Invited lecture - Institute of Food Technologists, 50th Annual Meeting, Chicago, IL, June 28, 1989. Bacterial foodborne pathogens of recent concern.

Invited lecture - State of Wisconsin, Regional Office - State Agency Training Conference, Madison, WI, July 12, 1989. Microbe menaces in food service.

Invited paper - American Dairy Science Association and American Society of Animal Science, Annual Meeting, Lexington, KY, August 1, 1989. Pathogens and spoilage bacteria of importance in new milk and meat products.

Invited white paper - American Meat Institute, Arlington, VA, September 6, 1989. Microbiological considerations in meat safety.

Invited participant and speaker - U.S. Department of Agriculture-ARS, Workshop on Colonization and Control of Human Enteropathogens in Poultry, Athens, GA, September 25-26, 1989. Colonization of chicks by Campylobacter jejuni.

Invited paper - International Symposium on Colonization Control of Human Enteropathogens in Poultry, Atlanta GA, September 29, 1989. Colonization of chicks by Campylobacter jejuni.

Invited lecture - American Society for Horticultural Science, Second International Symposium on Horticulture and Human Health, Washington, DC, November 3, 1989. Fruit and vegetable safety--Microbiological considerations.

Invited papers - Finnish Veterinary Association, Annual Meeting, Helsinki, Finland, November 17, 1989. Ovarian transmission of Salmonella enteritidis in eggs and foodborne disease consequences; Escherichia coli O157:H7 - a newly recognized cause of hemorrhagic colitis and hemolytic uremic syndrome; Outbreaks of foodborne listeriosis: causes and prevention; Microbiological issues in food safety - present and future.

Invited paper - Sara Lee Meats Group, Product Safety Operations Workshop, Cincinnati, OH, December 12, 1989. Microbiological risks associated with meats.

Invited lecture - Bonneville Section of the Institute of Food Technologists, Salt Lake City, UT, March 6, 1990. The emergence of newly recognized foodborne pathogens.

Invited paper - International Life Sciences Institute - Nutrition Foundation, Washington, DC, March 20, 1990. Virulence of Listeria monocytogenes in a pregnant mouse model.

Invited lecture - Oregon State University - 1990 James M. Craig Memorial Lecture in Applied and Environmental Microbiology, Corvallis, OR, April 3, 1990. Issues in food safety in the 1990's.

Invited lecture - Oregon State University - Department of Microbiology, Corvallis, OR, April 4, 1990. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture and session chairman - International Conference on Issues in Food Safety and Toxicology, Michigan State University, East Lansing, MI, May 29-June 1, 1990. Microbiological issues in food safety: Looking forward.

Invited lecture - Institute of Food Technologists, 51st Annual Meeting, Anaheim, CA, June 19, 1990. Guidelines for inoculated pack studies to control Clostridium botulinum in new generation refrigerated foods.

Invited lecture - University of Guelph and Caravelle Foods, E. coli O157:H7 Round Table, Guelph, Ontario, Canada, June 26, 1990. Detection of Escherichia coli O157:H7 in foods.

Invited keynote lecture - Society for Industrial Microbiology, 1990 Annual Meeting, Orlando, FL, July 30, 1990. Escherichia coli O157:H7--A foodborne pathogen with severe consequences.

Invited lecture - Food Micro 90, 14th International Symposium of the International Committee on Food Microbiology and Hygiene, International Union of Microbiological Sciences, Bolkesjo, Telemark, Norway, August 18, 1990. Escherichia coli O157:H7 and its significance in foods.

Invited lecture - Milk, Microbes & Marth, E. H. Marth Symposium, University of Wisconsin, Madison, WI, September 11, 1990. Virulence of Listeria monocytogenes.

Invited lecture - Dominican Institute of Industrial Technology, and International Commission on Microbiological Specifications for Foods, Playa Dorada, Dominican Republic, October 18, 1990. Foodborne diseases of contemporary importance.

Invited lecture - Food Emporium (Dairy Council of Michigan, Michigan Beef Council, Michigan Apple Growers Commission, and Michigan Department of Agriculture), Livonia, MI, November 1, 1990. Food safety in perspective.

Invited lecture - Conference of Research Workers in Animal Diseases (sponsored by American College of Veterinary Microbiologists and American Association of Veterinary Immunologists), Chicago, IL, November 4, 1990. Listeria monocytogenes and Enterohemorrhagic Escherichia coli: Foodborne pathogens of recent concern.

Invited lecture - Wisconsin Dairy Technology Society, Waukesha, WI, January 8, 1991. Pathogens of recent concern to the dairy industry.

Invited lecture - Midwest Poultry Federation Convention, Minneapolis, MN, February 21, 1991. Update on pathogens of concern in cooked poultry.

Invited chairperson/discussion leader - National Institute of Health Symposium on Campylobacter jejuni, Pacific Grove, CA, March 10-13, 1991. Animal reservoirs and antimicrobial resistance of Campylobacter jejuni.

Invited lecture - Health and Welfare Canada, Workshop on Methods for Isolating Escherichia coli O157:H7 from Foods, Ottawa, Ontario, March 18-19, 1991. ELISA procedure for Escherichia coli O157:H7 detection.

Invited participant - Press conference and book release event, Washington, DC, April 9, 1991. Agricultural biotechnology: Issues and choices.

Invited lecture - Food Microbiology 1991, National Food Processors Association, Arlington, VA, April 16, 1991. Virulence of Listeria monocytogenes in a pregnant animal model.

Invited lecture - American Society for Microbiology, Workshop on Significant Foodborne Pathogens: Approaches for Detection and Control, Dallas, TX, May 5, 1991. Detection and control of pathogenic Escherichia coli in foods.

Invited lecture - Food Research Institute Annual Meeting, University of Wisconsin, Madison, WI, May 22, 1991. Rapid method for detecting E. coli O157:H7 in foods.

Invited lecture - International Conference on Listeria and Food Safety, Laval, France, June 13-14, 1991. Behavior of Listeria monocytogenes in meat products.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Listeria monocytogenes: are they all virulent?

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Unraveling the significance of Listeria monocytogenes as a foodborne pathogen.

Invited lecture - Australian Society for Microbiology Annual Meeting, Gold Coast, Queensland, Australia, July 1-5, 1991. Escherichia coli: a foodborne pathogen with severe consequences.

Invited lecture - Georgia Poultry Federation, Ponte Vedra Beach, FL, August 1-4, 1991. Microbiological concerns associated with poultry.

Invited lectures - American Meat Institute, Food Processors Institute Workshop on "Developing a HACCP Plan for Meat and Poultry Packing and Processing, Athens, GA, September 16-18, 1991. Food Safety & HACCP, and Microbiological risks associated with meats.

Invited lecture - 8th World Congress on Food Science and Technology, Toronto, Ontario, September 30 - October 4, 1991. The emergence of new agents of foodborne disease in the 1980's.

Invited lecture - Seventh Australian Food Microbiology Conference, Sydney, Australia, October 14-16, 1991. Concerns about pathogens in sous vide foods.

Invited lecture - Asociacion para la Ciencia y la Tecnologia de Alimentos de Puerto Rico, San Juan, Puerto Rico, October 19, 1991. Microbiological issues in food safety.

Invited lecture - Centers for Disease Control Foodborne and Waterborne Disease Prevention Working Group, Atlanta, GA, October 22, 1991. Update on new findings on Escherichia coli O157:H7 and Campylobacter jejuni.

Keynote lecture - Dixie Section, Institute of Food Technologists, Clemson, SC, November 4, 1991. Microbiological issues in food safety in the nineties.

Keynote lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Microbiological issues in food safety in the 1990's.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 8, 1991. Reduction of Campylobacter jejuni colonization of chicks by cecal-colonizing bacteria producing anti-Campylobacter metabolites.

Invited lecture - VIII Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 9, 1991. Survival and growth characteristics of Escherichia coli O157:H7 in modified atmosphere-packaged beef and in fermented sausage.

Invited lecture - Food Safety in the 1990's for the McDonald's System Workshop, McDonald's Corporation, Oak Brook, IL, November 25-26, 1991. Bacterial pathogens in foods.

Invited seminar, University of Georgia - Department of Poultry Science, Athens, GA, December 3, 1991. A practical approach to reducing Campylobacter in poultry.

Invited lecture, Oscar Mayer Foods Corporation Research Department, Madison, WI, December 9, 1991. Overview of the Food Safety and Quality Enhancement Laboratory research program.

Invited seminar, University of Georgia - Georgia Experiment Station, Griffin, GA, January 16, 1992. Development of a rapid method for detecting enterohemorrhagic E. coli O157:H7 in foods.

Invited seminar, University of Georgia - Poultry Disease Research Center (College of Veterinary Medicine), Athens, GA, March 2, 1992. A practical approach to reducing Campylobacter in poultry.

Invited lecture, American Society for Microbiology Foundation Lecture - North California Branch of ASM, University of California, Davis Medical Center, Sacramento, CA, April 11, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, University of Hawaii, Department of Microbiology, Honolulu, April 24, 1992. What's the concern about foodborne pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Hawaii Branch of ASM, University of Hawaii, Honolulu, April 25, 1992. From Campylobacter to enterohemorrhagic Escherichia coli: a new generation of foodborne pathogens.

Invited lecture, Florida Association of Milk, Food and Environmental Sanitarians, Orlando, FL, May 11, 1992. IAMFES—Leading the way in food safety.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. Water-related illnesses caused by enteric pathogens.

Invited lecture, American Society for Microbiology Foundation Lecture - Puerto Rico Society for Microbiologists, Humacao, Puerto Rico, June 14, 1992. A practical approach to reducing carriage of Campylobacter jejuni by poultry.

Invited lecture, University of Georgia Cooperative Extension Service, Farm City Week, Macon, GA, August 25, 1992. New food processing technologies.

Invited paper, Hungarian Meat Research Institute, Conference on HACCP and Food Microbiology, Budapest, Hungary, October 12, 1992. Food-borne pathogens of contemporary importance, with particular reference to Listeria monocytogenes.

Invited paper - American Meat Institute, Meat and Poultry Industry Briefing on Controlling E. coli O157:H7, Chicago, IL, February 23, 1993. Foodborne outbreaks of E. coli O157:H7.

Invited testimony - U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department Operations and Nutrition (Congressmen Stenholm and Volkmer, Co-Chairmen), Washington, DC, March 16, 1993. Meat and poultry inspection: The scientific basis of the nation's program. (Represented the National Academy of Sciences - Institute of Medicine Food and Nutrition Board). Serial No. 103-5, U. S. Government Printing Office, Washington, DC.

Invited lecture - National Live Stock and Meat Board Food Safety Roundtable II, Oak Brook, IL, March 18, 1993. Intervention technology for E. coli O157:H7.

Invited lecture - University of Georgia, Department of Food Science Student Awards Banquet, Athens, GA, April 7, 1993. What's the concern about food safety?

Invited lecture - U. S. Department of Agriculture, FSIS and ARS, Athens, GA, April 15, 1993. Enterohemorrhagic Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - University of California-Davis, Peter J. Shields Chair Lecture, Davis, CA, April 21, 1993. Escherichia coli O157:H7 - An emerging problem for milk producers.

Invited lecture - Golden State Foods, GSF Management Meeting, Chicago, IL, April 23, 1993. HACCP in the meat industry.

Invited paper - Westreco, Inc., 7th Nestlé R&D Microbiologists Conference, New Milford, CT, April 27, 1993. Food Safety - Intrinsic factors.

Divisional Lecture - American Society for Microbiology, Food Microbiology Division, Atlanta, GA, May 18, 1993. The elusive nature of enterohemorrhagic Escherichia coli O157:H7 as a foodborne pathogen.

Invited lecture - Iowa State University, School of Veterinary Medicine, Department of Microbiology and U.S. Department of Agriculture, National Animal Disease Center, Ames, IA, June 10, 1993. The significance of Escherichia coli O157:H7 as a meatborne pathogen.

Invited lecture - University of Florida, Department of Food Science and Nutrition, Gainesville, FL, June 15, 1993. Escherichia coli O157:H7 - The foodborne pathogen of the 1990's.

Invited lecture - Southeastern Meat Association, 1993 Annual Convention, Ponte Vedra Beach, FL, June 18, 1993. Escherichia coli O157:H7 update - control procedures.

Invited lecture - American Meat Science Association, 46th Annual Reciprocal Meat Conference, Lincoln, NE, June 23, 1993. The microbiology of E. coli O157:H7 as a foodborne pathogen.

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, St. Joseph's Medical Center, Burbank, CA, June 24, 1993. What's the significance of foodborne pathogens?

Invited lecture - American Society for Microbiology Foundation Lecture - Southern California Branch of ASM, San Diego, CA, June 25, 1993. From Campylobacter to Salmonella enteritidis: Foodborne pathogens of recent concern.

Invited presentation - Georgia Poultry Processors Association, Atlanta, GA, July 6, 1993. Future issues with the microbiological safety of poultry and the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, E. coli O157:H7 - The organism and its role in foodborne outbreaks.

Invited lecture - California Dairy Industries Association and California Association of Dairy & Milk Sanitarians, Fall Dairy Industry Conference, Ontario, CA, September 28, 1993, Microbiological issues in the dairy industry: Looking ahead.

Invited presentation - Joint Council on Food and Agricultural Sciences, Washington, DC, September 30, 1993. Reducing foodborne disease - What are the priorities?

Invited keynote lecture - Dairy Research Foundation Symposium-Conquering Listeria, Chicago, IL, October 4, 1993, Listeria overview: Is zero tolerance warranted?

Invited lecture - American Meat Institute and American Meat Science Association 1993 Meat Industry Research Conference, Chicago, IL, October 5, 1993. Food safety: Understanding and preventing E. coli O157:H7.

Invited lecture - Nederlandse Vereniging Voor Microbiologie and EFFI, Food Microbiology Highlights from an International Perspective, Wageningen, The Netherlands, October 14, 1993, E. coli O157:H7 - The present situation.

Invited presentation/panelist - Food Preservation 2000, Natick, Massachusetts, October 21, 1993. Safeguarding the food supply: Cost and benefit.

Invited presentation/panelist - The Purchasing Conference for Chain Restaurant Executives, Orlando, FL, November 3, 1993. Protecting your food supply - Purchasing for food safety.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 5, 1993. The emergency of enterohemorrhagic Escherichia coli O157:H7 as the foodborne pathogen of the 1990's.

Invited lecture - X Reunion Anual Microbiologia e Higiene de los Alimentos, University of Guadalajara, Guadalajara, Mexico, November 6, 1993. Fate of enterohemorrhagic Escherichia coli O157:H7 in apple cider with and without preservatives.

Invited lecture - Ceres Forum - American Association for the Advancement of Science Workshop, Eating and Health: What Do We Know? Georgetown University, Washington, DC, November 13, 1993.

Microbiological contamination: How safe is our food?

Invited lecture - First National Workshop for Food Science Administrators, Washington, DC, November 19, 1993. The role of Food Science in international programs.

Invited lecture/panelist - National Live Stock and Meat Board Blue Ribbon Task Force Meeting, Atlanta, GA, November 29, 1993. Use of Competitive exclusion to reduce colonization of pathogens in livestock.

Invited lecture - Institute of Medicine Food Forum, Washington, DC, December 8, 1993. Difficult issues in implementing HACCP.

Invited lecture - Arby's Beef Summit and Food Safety Conference, Ft. Lauderdale, FL, December 9, 1993. USDA guidelines for zero tolerance on raw material pathogens and meat industries ability to respond.

Invited lecture, University of Georgia, Department of Biological and Agricultural Engineering, Athens, January 19, 1994. Engineering opportunities in food safety and quality enhancement.

Invited testimony, U. S. Senate Committee on Agriculture, Nutrition and Forestry, Subcommittee on Agricultural Research, Conservation, Forestry and General Legislation, Washington, DC, February 10, 1994. Progress of the Federal Meat Inspection Program. (Requested by Senator Tom Daschle).

Invited lecture - G. Malcolm Trout Visiting Scholar Lectureship, Department of Food Science and Human Nutrition, Michigan State University, E. Lansing, MI, February 16, 1994. On the trail of Escherichia coli O157:H7, the foodborne pathogen of the decade.

Invited lecture - HACCP, an Integrated Approach to Assuring the Microbiological Safety of Meat and Poultry, U. S. Department of Agriculture and Ireland Department of Agriculture, Dublin, Ireland, March 23, 1994. Use of vaccines and biological control techniques to control pathogens in animals used for foods.

Invited lecture - Carolina Association of Milk, Food and Environmental Sanitarians, Greenville, SC, April 13, 1994. E. coli O157:H7-Concerns for safe foods.

Invited lecture, University of Georgia, Department of Animal and Dairy Science, Athens, May 17, 1994. E. coli O157:H7-Meatborne pathogen of the 90's.

Invited lecture - Food Safety '94, 3rd International ASEPT Conference, Laval, France, June 2, 1994. Detection and control of E. coli O157:H7 in foods.

Invited lecture - Special Libraries Association's Annual Conference, Atlanta, GA, June 14, 1994. Food safety: Research and prevention.

Invited moderator - VTEC '94, Verocytotoxin-Producing Escherichia coli Infections, Bergamo, Italy, June 28, 1994. Public Health; Epidemiology; Food Safety; Laboratory Diagnosis.

Keynote speaker - 14th International Workshop on Rapid Methods and Automation in Microbiology, Kansas State University, Manhattan, KS, July 8, 1994. Rapid methods for the detection of Escherichia coli O157:H7.

Invited lecture - The Toxicology Forum (1994 Annual Summer Meeting), Aspen, CO, July 11, 1994. Infectious disease: New and forgotten risks--E. coli O157:H7.

Invited lecture - International Life Sciences Institute, Second Asian Conference on Food Safety, Bangkok, Thailand, September 23, 1994. Emerging pathogens and rapid detection methods: E. coli, Listeria, Salmonella and Vibrio cholerae.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 13, 1994. Microbiological issues in food safety.

Invited lecture - Borden, Inc., Science and Technology Group Meeting, Columbus, OH, July 25, 1994. Emerging food safety issues.

Invited lecture - USDA-Animal and Plant Health Inspection Service, Preharvest Food Safety Workshop, Morrow, GA, August 30, 1994. Opportunities for USDA-APHIS and academia collaborative research to enhance preharvest food safety.

Invited lecture - National Association of Fresh Produce Processors, Fresh Cut Produce Packaging Seminar, Griffin, GA, September 13, 1994. Safety issues for fresh-cut produce.

Invited lecture - Griffin Rotary Club, Griffin, GA, October 20, 1994. Microbiological issues in foods safety.

Invited lecture - American Meat Institute Briefing on USDA's Monitoring Program for E. coli O157:H7 in Raw Ground Beef, Chicago, IL, November 2, 1994. Recent developments in microbiological testing procedures for E. coli O157:H7.

Invited lecture - Ministerio de Sanidad Y Consumo and International Commission on Microbiological Specifications for Foods, Universidad de Leon, Leon, Spain, November 11, 1994. Patógenos emergentes--E. coli O157:H7.

Invited lecture - Kraft General Foods-North American Scientific Relations Committee, Columbia, SC, November 30, 1994. Microbiological food safety concerns and research addressing them at the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - American Meat Institute Foundation, Briefing on “*E. coli* O157:H7 in Dry Fermented Sausage,” Chicago, IL, February 23, 1995. Review of recent research on *E. coli* O157:H7 in dry fermented sausage.

Invited lecture - Illinois Institute of Technology, The National Center for Food Safety and Technology, Chicago, IL, March 15, 1995. Acid tolerance of enterohemorrhagic *E. coli* O157:H7.

Invited lecture - Griffin Exchange Club, Griffin, GA, March 28, 1995. The microbiological safety of foods.

Invited lecture - Georgia Dairy Products Association, Annual Meeting, Athens, GA, April 3, 1995. Foodborne pathogens.

Invited lecture - National Food Processors Association, Food Micro '95, Arlington, VA, April 5, 1995. *E. coli* O157 - The organism, the disease and control.

Invited lecture - Georgia Poultry Federation, Poultry Leaders Round Table, Young Harris, GA, April 7, 1995. An update on pathogen reduction efforts for poultry.

Invited lectures - Golden State Foods, HACCP Workshop, City of Industry, CA, April 20, 1995. Foodborne pathogens.

Invited lecture - Philip Morris Microbiology Workshop, Richmond, VA, May 10-11, 1995. *Escherichia coli* O157:H7 - Changing the rule book of food microbiologists.

Invited lecture - Mid-Georgia Cattleman's Association, Gordon College, Barnesville, GA, May 11, 1995. Meat safety: What the future holds.

Invited lecture - Southeastern Poultry & Egg Association, Poultry Processor Workshop, Atlanta, GA, May 18, 1995. Available pathogen intervention methods.

Invited lectures - Golden State Foods, HACCP Workshop, Conyers, GA, May 31, 1995. Foodborne pathogens.

Invited paper - Institute of Food Technologists, 56th Annual Meeting, Anaheim, CA, June 5, 1995. Cooked muscle foods: Determinants of quality and safety.

Invited lecture - County of San Diego, Department of Environmental Health, San Diego, CA, June 8, 1995. Significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited paper and co-convenor - International Food Safety Conference, *Listeria* - The state of the science, Rome, Italy, June 29-30, 1995. Regulatory tolerances for *Listeria monocytogenes* in foods.

Invited co-convenor - International Life Sciences Institute-NA (IAMFES Annual Meeting), Pittsburgh, PA, August 1, 1995, Symposium on Emerging Issues in Microbiological Food Safety.

Invited paper - International Life Sciences Institute North America Technical Committee on Food Microbiology, Symposium on Issues and Answers in Food Microbiology and Safety: Today, Tomorrow and Beyond, IAMFES Annual Meeting, Pittsburgh, PA, August 2, 1995, A reduced time procedure for detecting heat-injured *Listeria monocytogenes* in foods.

Invited respondent, 41st Annual International Congress of Meat Science and Technology, San Antonio, TX, August 21, 1995, Pathogen reduction.

Invited lecture - U. S. Chamber of Commerce, Food and Agriculture Committee, Atlanta, GA, October 11, 1995, New developments in food safety.

Invited lecture - MAPack '95, The Leading Edge Conference on Modified Atmosphere Packaging, Anaheim, CA, October 20, 1995, The impact of modified atmosphere packaging (including vacuum packaging) on the growth of refrigerated food pathogens.

Invited lecture - Gerber Products Company, Fremont, MI, November 3, 1995, Emerging issues in the microbiological safety of foods.

Invited lecture - Kansas State University, Food Safety Forum and Food Science Seminar Series, Manhattan, KS, November 17, 1995, Approaches to controlling *Escherichia coli* O157:H7.

Invited presentation - Marietta Rotary Club, Marietta, GA, March 15, 1996. Food safety in the news.

Invited paper - Alabama Association of Milk, Food and Environmental Sanitarians, Annual Meeting, Birmingham, AL, November 13, 1996. Fecal coliforms in iced tea: What's the problem?

Invited paper - National Food Processors Association, Annual Meeting, San Francisco, CA, October 11, 1996. Enterohemorrhagic *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - Southeastern Food Processors Association, Annual Meeting, Pine Mountain, GA, November 15, 1996. The University of Georgia's Center for Food Safety and Quality Enhancement.

Invited lecture - Society for Manufacturing Engineers, Fundamentals of Modified Atmosphere Packaging Short Course, Atlanta, GA, April 23-24, 1996. Microbiology of prepared foods.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Oakwood, GA, May 8, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited lecture - Georgia Department of Agriculture, DOA-CPD Statewide Training, Macon, GA, May 9, 1996. Diseases associated with foodborne illnesses and fecal coliforms in iced tea.

Invited presentation - Georgia Poultry Federation Summer Meeting, Ponte Vedra, FL, August 8-10, 1996. Activities of the UGA Center for Food Safety and Quality Enhancement and Food Process Research and Development Laboratory.

Invited paper and symposium convenor - International Association of Milk, Food and Environmental Sanitarians Annual Meeting, Seattle, WA, June 30 - July 3, 1996. Fecal coliforms in tea: What's the problem? (Symposium - Tempest in a Teapot).

Invited lecture - Georgia Board of Registered Environmental Health Professionals Annual Meeting, Macon, GA, February 23, 1996. Tempest in the tea pot: Fecal coliforms in iced tea.

Invited lectures - The Association for Dressings & Sauces Microbiological Seminar, Chicago, IL, February 11, 1996. New and Emerging Pathogens: *E. coli* O157:H7 and *Campylobacter*.

Invited paper - Michigan State University National Food Safety and Toxicology Center, Food Safety in North America - Regulatory and Scientific Issues, East Lansing, MI, March 17-19, 1996. Rapid testing methods and their role in food safety.

Invited presentation - Georgia Dairy, Food and Beverage Association, Atlanta, GA, October 15, 1996. Media coverage of fecal coliforms in iced tea.

Invited presentation - Atlanta Farmers' Club, Atlanta, GA, September 18, 1996. Georgia's Food Processing Industry.

Invited lecture - Grocery Manufacturers of America, Technical Regulatory Affairs Committee, Long-Range Planning Meeting, Palm Beach Gardens, FL, February 13, 1997. The policy perspectives of food safety issues.

Invited lectures - Chiquita Brands, Cincinnati, OH, February 19-20, 1997, HACCP and food safety.

Invited lecture - Georgia Blueberry Producers, Baxley, GA, March 12, 1997. *E. coli* and its role in foodborne disease.

Invited lectures - Georgia Environmental Health Association, Environmental Health Education Conference, Athens, GA, March 18, 1997. Microbiological reasons for potentially hazardous foods being held at less than or equal to 41°F.

Invited Keynote speaker - Animal Disease Research Workers in Southern States, Southern Conference on Animal Parasites and Southern Conference of Researchers in Aquatic Diseases, Athens, GA, March 25, 1997. *Escherichia coli* O157:H7 and food safety.

Invited seminar - University of Minnesota, Department of Food Science and Nutrition, St. Paul, MN, April 28, 1997. A new age of microbiological food safety issues: Dilemmas facing the food industry.

Invited lecture - The Refrigeration Research and Education Foundation and the International Association of Refrigerated Warehouses, Annual Convention, Barcelona, Spain, May 10-15, 1997. Significance of the world-wide spread of illness from *Escherichia coli* O157:H7: Precautions for the refrigerated chain.

Invited keynote lecture - Second Nestlé Market Microbiologist's Workshop, Lausanne, Switzerland, June 2, 1997. Food microbiology in the year 2000.

Invited lecture - Institute of Food Technologists, Orlando, FL, June 16, 1997. *Escherichia coli* O157:H7 and cousins: A growing public health problem.

Invited paper - International Life Sciences Institute-North America, Symposium Series on "Science-Based Approaches for Protecting Our Global Food Supply," Orlando, FL, July 9, 1997. The emergence of a microbial foodborne pathogen.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 16, 1997. How the University of Georgia Center for Food Safety and Quality Enhancement is an integral part of the economic development of the State of Georgia.

Invited lecture - Philip Morris Management Group, Quality Core Team Meeting, Milwaukee, WI, July 18, 1997. Emerging food safety issues.

Invited lecture - Hershey Foods, Hershey, PA, July 25, 1997. Research programs of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited paper - The Refrigerated Research and Education Foundation and the International Association of Refrigerated Warehouses, Assembly of Committees, Washington, DC, August 4, 1997. An overview of microbiological food safety issues for the public refrigerated distribution industry.

Invited paper - Poultry Science Association 86th Annual Meeting, PSA '97 Symposium on "Food Safety: A Consumers' Perspective," Athens, GA, August 6, 1997. Food safety in the news: An issue taken out of perspective.

Invited "cutting edge" speaker - American Association of Wildlife Veterinarians, 47th Annual Wildlife Disease Association Conference, St. Petersburg, FL, August 11, 1997. Enterohemorrhagic *Escherichia coli* O157:H7: A growing public health problem.

Invited lectures - Air Liquide, Griffin, GA, August 21, 1997. HACCP and food safety.

Invited interview - National Public Radio, "The Talk of the Nation - Science Friday," New York, August 29, 1997. Food safety.

Invited lecture - Griffin Rotary, Griffin, GA, September 25, 1997. The involvement of the University of Georgia Center for Food Safety and Quality Enhancement in economic development of the State of Georgia.

Invited lecture - Instituto Tecnológico de Monterrey, Campus Queretaro, Mexico, Fourth International Symposium on Food Science and Technology, Queretaro, Mexico, October 17, 1997. Emerging Issues of the microbiological safety of foods.

Invited lecture - Worldwide Food Expo 97, American Meat Institute, Chicago, IL, October 30, 1997. Preharvest Science: Microbial control alternatives.

Invited respondent - Council for Agricultural Science and Technology (CAST), "Food Safety, Sufficiency and Security: Domestic and International Dimensions" Conference, Chicago, IL, November 3, 1997. Food safety: Domestic dimensions.

Invited interview - WRFC Radio (960 AM), "The John Breffle Show," Athens, GA, November 11, 1997. Food Safety and *E. coli* O157:H7.

Invited lecture - American Meat Science Association, Chicago, IL, December 3-4, 1997. *Escherichia coli* O157:H7 - The nemesis of the cattle industry.

Invited interview - Fresh-cut Produce Processors' News Media Briefing, San Francisco, CA, December 16, 1997. Safety of Packaged Salads.

Invited seminar - University of Georgia, Department of Foods and Nutrition, Athens, GA, February 11, 1998. *Escherichia coli* O157:H7 - The emergence of an uncharacteristic foodborne pathogen.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 11, 1997. Food Safety in the news.

Invited respondent - American Meat Science Association, Beef Safety Symposium: Emerging Microbial Pathogens and Issues in Beef, Chicago, IL, December 3, 1997. The food safety research agenda - Panel response.

Invited lecture - Fresh Express Farms · Dole Fresh Vegetables · Ready Pac Produce, Packaged Salad Food Safety Symposium, San Francisco, CA, December 16, 1997. Microorganisms in prepackaged salads.

Invited lecture and scientific advisor - Dreyer's Grand Ice Cream Workshop for Asian Food Journalists, Oakland, CA, January 5, 1998. Foodborne disease significance of *Listeria monocytogenes*.

Invited lecture - International Life Sciences Institute Annual Meeting, St. Petersburg, FL, January 19, 1998. Hot topics in food safety - Microbiological issues providing new challenges for the food industry.

Invited lecture - Toxicology Forum, 23rd Annual Winter Forum, Washington, DC, February 5, 1998. Identification and control of foodborne disease pathogens.

Keynote lecture - University of Nebraska, Governor's Conference on Ensuring Meat Safety, Lincoln, NE, February 9, 1998. Significance of *E. coli* O157:H7 in meat: an overview.

Invited audio conference/lecture - American Society for Microbiology, Washington, DC, February 24, 1998. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited lecture - KFC Poultry Advisory Committee, Griffin, GA, March 30, 1998. Food safety issues of the poultry industry.

Invited lecture - The Plains Nutrition Council Spring Conference, San Antonio, TX, April 16, 1998. Development and use of competitive exclusion products to reduce pathogens in beef.

Invited lecture - Institute of Food Technologists and National Center for Food Safety and Technology, Illinois Institute of Technology, 1998 Symposium on Fresh Fruits and Vegetables: Food Safety Challenges, Chicago, IL, May 14, 1998. Research needs for produce safety.

Invited lecture - Gerber Products Company, Griffin, GA, May 21, 1998. Food safety programs at the Center for Food Safety and Quality Enhancement.

Invited presentation - University of Georgia, HACCP Program for the Southeastern Section of the American Association of Candy Technologists, Griffin, GA, May 22, 1998. Importance of HACCP to the candy industry.

Invited presentation - U. S. Senator Paul Coverdell Third Annual "Georgia Farm Forum," Macon, GA, May 27, 1998. Food Safety issues.

Invited lecture - DISCOVER Conference, Nashville, IN, June 2, 1998. Foodborne pathogens of animal origin: Characteristics and occurrences in food animals.

Invited seminar - University of Georgia, Department of Avian Medicine, Spring 1998 Seminar, Athens, GA, June 8, 1998. Controlling *E. coli* O157:H7 in cattle by competitive exclusion bacteria.

Invited lecture - Lillian Fountain Smith Conference for Nutrition Educators, Department of Food Science and Human Nutrition, Colorado State University, Ft. Collins, CO, June 11, 1998. *E. coli* O157:H7: Harbinger of change for food safety.

Invited participant - Institute of Food Technologists, First Annual Chief Research Officer's Meeting, Atlanta, GA, June 21, 1998. Partnership for growth.

Invited lecture and symposium wrap-up - Institute of Food Technologists Annual Meeting, Hot Topic Symposium: Food Safety Paparazzi - Fact or Fiction?, Atlanta, GA, June 22, 1998. Is media coverage of food safety issues scientifically correct?

Invited Symposium lecture - Institute of Food Technologists Annual Meeting, Symposium on Microbial Contamination in Fresh Produce, Atlanta, GA, June 23, 1998. *Escherichia coli* O157:H7 in apple cider - a case study.

Invited interview - Dick Mendenhall Show (Barbara Dooley interviewer), WGAU Radio - 1340 AM, Athens, GA, July 1, 1998 (1 hour live interview). The significance of *E. coli* O157:H7 as a foodborne pathogen.

Invited lecture - Georgia Environmental Health Association, Annual Meeting, Jekyll Island, GA, July 10, 1998. Microbiological issues providing challenges for the food industry.

Invited lecture - Alpharma, Fort Lee, NJ, July 20, 1998. Controlling *E. coli* O157:H7 on the farm with probiotic bacteria.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, July 22, 1998. Food Safety in the news; *E. coli* O157:H7.

Invited video presentation - Processed Apples Institute, Atlanta, GA, July 24, 1998. Microbiological safety of pasteurized apple cider.

Invited presentation - General Mills, Inc., Minneapolis, MN, July 27, 1998. Microbiological challenges facing the food processing industry.

Invited presentation - Georgia Poultry Federation, Summer Meeting, Ponte Verde, FL, July 30, 1998. *Campylobacter* to poultry.

Invited lecture - Southern Region Experiment Station Directors Meeting, Athens, GA, August 8, 1998. The Food Safety Connection.

Invited lecture - U.S. Department of Agriculture/ARS and University of Georgia, Emerging Antibiotic Resistance in Foodborne Enteric Pathogens: Epidemiology, Public Health Risks and Control Strategies, Athens, GA, September 2, 1998. *E. coli* O157:H7 bovine ecology and development of competitive exclusion microflora.

Invited video presentation - Georgia Pacific Health Smart Institute, Atlanta, GA, September 3, 1998. Enhanced food safety with paper products.

Invited lecture - The Pillsbury Company, Minneapolis, MN, September 10-11, 1998. Emerging issues in food safety.

Invited presentation and panelist - International Life Sciences Institute-North America, Conference on the National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Application, Washington, DC, October 14-15, 1998. The application and use of food microbiology data for HACCP.

Invited lecture - Georgia Cattleman's Association, Newnan, GA, November 2, 1998. *E. coli* O157 and cattle.

Invited lecture - University of Georgia, Biology 107 Honors Students, Athens, GA, November 4, 1998. *E. coli* O157:H7 - a serious foodborne pathogen.

Invited lecture - Food Research Directors' Roundtable, Sparks, MD, November 10, 1998. Food safety activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - U. S. Department of Agriculture - Agricultural Research Service and Cooperative State Research Education and Extension Service, National Conference on Food Safety Research, Washington, DC, November 12-13, 1998. Improved detection methods for foodborne pathogens.

Invited lecture - 5th Congress on Food Microbiology and Hygiene (COMBHAL 98), Sao Paulo, Brazil, November 25, 1998. Foodborne illness significance of *Escherichia coli* O157:H7.

Invited presenter and panelist - International Life Sciences Institute, Annual Meeting, Nassau Bahamas, January 27, 1999. National Academy of Sciences Committee on Food Safety.

Invited symposium lecture - International Life Sciences Institute, Annual Meeting, Symposium on Food Safety: Challenges and Methodologies in the Next Millennium, Nassau, Bahamas, January 27, 1999. Microbiology: Tools for the next generation.

Invited lecture - Pfizer, Food Safety Symposium, Mystic, CT, February 4, 1999. Foodborne bacterial pathogens: Sources and outbreaks.

Invited lecture - The Refrigeration Research and Education Foundation Institute, University of Oklahoma, Norman, OK, February 7, 1999. The benefits of refrigeration.

Invited lecture - Auburn University, Auburn Department of Food and Nutrition, Auburn, AL, February 15, 1999. Microbiological tools for the next generation.

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 15, 1999. Ensuring the Safety of Food: Who's Responsible?

Invited lecture - Auburn University, York Distinguished Lecture, Auburn, AL, February 16, 1999. *Escherichia coli* O157:H7 Controlling the Nemesis of the Cattle Industry.

Invited lecture - American Meat Science Association, Western States Science Update Conference, Monterey, CA, February 17, 1999. Overview of *E. coli* O157:H7 and its implications to the meat industry.

Invited keynote lecture - Ontario Food Protection Association, Toronto, Ontario, Canada, February 25, 1999. Learning opportunities from outbreaks of foodborne disease.

Invited lecture - Gold Kist, Inc., Atlanta, GA, March 8, 1999. *Listeria* in ready-to-eat peanuts.

Invited lecture - Institute of Food Technologists Video Conference (20 sites nationally and Mexico), April 6, 1999. Emerging issues in food safety.

Invited lecture - National Agri-Marketing Association, 1999 Agri-Marketing Conference and Trade Show, Atlanta, GA, April 7, 1999. Food Safety-Answering consumers concerns.

Invited lecture - Sigma Xi Annual Banquet, University of Georgia, Athens, GA, April 8, 1999. Eating defensively: What you don't know could hurt you.

Invited lecture - International Association of Refrigerated Warehousemen and The Refrigerated Research and Education Foundation, Annual Convention, Rio Mar Beach, Puerto Rico, April 11, 1999. *Listeria monocytogenes* and refrigerated foods.

Invited lecture - Griffin-Spalding Development Authority, International VIP Tour, Griffin, GA, May 13, 1999, Research Activities of the UGA Center for Food Safety and Quality Enhancement.

Invited Moderator/discussant - Georgetown Center for Food and Nutrition Policy, Ceres Food Safety Roundtable, Washington, DC, May 19, 1999. Research priorities and intervention strategies for *Listeria*.

Invited lecture - American Society for Microbiology, 99th Annual Meeting, Chicago, IL, June 1, 1999. Symposium; National Academy of Sciences Report on Ensuring a Safe Food Supply: Implications and Results.

Invited lecture - IFIA (International Food Ingredients and Additives) Japan '99, Tokyo, Japan, June 3, 1999. The significance of *Escherichia coli* O157:H7 as a foodborne pathogen in the United States.

Invited lecture - The Conference Board Contributions Council, Moline, IL, June 7, 1999. Feeding the World: Economics, Food Policies & Food Safety.

Invited lecture - Qualicon, Wilmington, DC, June 18, 1999. Approaches to reducing the transmission of *Escherichia coli* O157:H7.

Invited seminar - Perkin Elmer, Norwalk, CT, July 1, 1999. Professional activities of the University of Georgia Center for Food Safety and Quality Enhancement.

Invited lecture - National Environmental Health Association, 63rd Annual Educational Conference, Nashville, TN, July 6, 1999. Update on *E. coli* O157:H7.

Invited lecture - Institute of Medicine, Food Forum Symposium “Food Safety Policy, Science and Risk Assessment: Strengthening the Connection,” Washington, DC, July 13, 1999. Microbiological case study - *E. coli* O157:H7 and *Listeria monocytogenes*.

Invited lecture - Institute of Food Technologists, 1999 Annual Meeting, Chicago, IL, July 27, 1999. The microbiology of *Listeria monocytogenes* as a food pathogen.

Invited lecture - International Life Sciences Institute Symposium Series on Food Microbiology; International Association of Milk, Food and Environmental Sanitarians, Dearborn, MI, August 2, 1999. Why microbiological criteria for enterohemorrhagic *Escherichia coli* and not Shiga toxin-producing *E. coli* in foods?

Invited lecture - Georgia Delegation of United States Congressional Aides, University of Georgia, Griffin, GA, August 12, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - Georgia Specialty Foods Association, Griffin, GA, August 16, 1999. The microbiological safety of further processed foods.

Invited lecture - United States Congressional Aides of Congressman Mac Collins, University of Georgia, Griffin, GA, August 24, 1999. Food safety research activities of the UGA Center for Food Safety and Quality Enhancement.

Invited lecture - National Symposium on the Future of American Agriculture, University of Georgia, Athens, GA, August 26, 1999. Food safety issues associated with food production and consumption in a global market.

Invited lecture - Kraft Foods, Chicago, IL, September 1, 1999. Microbiological food safety issues of recent concern.

Invited lecture - Society for General Microbiology, 144th Annual Meeting, University of Leeds, Leeds, England, September 8, 1999. Significance of understanding pathogenic mechanisms of foodborne pathogens.

Invited lecture/panelist - Food Quality '99, San Francisco, CA, September 13, 1999. Legal aspects of food integrity lawsuits.

Invited lecture - Food Science Australia, International Food Safety Conference, Melbourne, Victoria, Australia, September 29, 1999. Microbiological safety of different food groups.

Invited lecture - 1999 Meat Industry Research Conference, American Meat Institute, Chicago, IL, October 26, 1999. *Listeria* 101: Where it is and where it isn't.

Invited lecture - Region I (Northeast Branch), 34th Annual Meeting of the American Society for Microbiology, ASM Foundation Lecture, Worcester, MA, October 28, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - National Food Processors Association, 92nd Annual Convention, Chicago, IL, October 29, 1999. The science and politics of food safety.

Invited lecture - Illinois Society for Microbiology, American Society for Microbiology Foundation Lecture, Rosemont, IL, November 3, 1999. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Alpha Delta Kappa (International Teacher's Sorority), Athens, GA, November 16, 1999. Microbiological food safety: What you don't know could hurt you.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Control of Enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited lecture - U.S. Food and Drug Administration Food Safety Initiative Extramural Research Annual Review, College Park, MD, December 7, 1999. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - American Society for Nutritional Sciences and U.S. Department of Agriculture Foodborne Illnesses and Nutrition Workshop, Bethesda, MD, December 3, 1999. Foodborne Illnesses: prevalence, causes and risk factors.

Invited lecture - Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Washington, DC, December 13, 1999. Case study on regulatory approval of antimicrobials for produce.

Invited lecture - 2000 Georgia Fruit and Vegetable Growers Association Winter Conference, Savannah, GA, January 7, 2000. Human pathogens in fresh-cut produce.

Invited presentation - Rotary Club of Griffin-Daybreak, Griffin, GA, February 16, 2000. Microbiological safety of fresh produce.

Invited lecture - Southern California Branch of the ASM, American Society for Microbiology Foundation Lecture, UCLA, Los Angeles, CA, March 11, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited lecture - Kraft Foods, Senior Management Update, Northfield, IL, April 13, 2000. Microbiological food safety update.

Invited lecture - Kentucky-Tennessee Branch of the ASM, American Society for Microbiology Foundation Lecture, Bowling Green, KY, April 14, 2000. Tools to enhance the microbiological safety of foods for the next millennium.

Invited seminar - University of Georgia, Department of Food Science and Technology, Athens, GA, April 19, 2000. Microbiological safety of different food groups.

Invited lecture - University of Georgia, Department of Horticultural Sciences, Athens, GA, April 19, 2000. Microbiological safety of organic produce.

Invited lecture - Emerging Issues in Food Safety Conference, University College Cork, Ireland, June 21, 2000. Overview of bacterial foodborne disease.

Invited lecture - American Society for Microbiology Annual Meeting, Division Z Symposium, Los Angeles, CA, May 22, 2000. Use of probiotic cultures for pathogen reduction in food animal production.

Invited lecture - American Society for Microbiology Annual Meeting, Public and Scientific Affairs Board Special Interest Seminar, Los Angeles, CA, May 25, 2000. Microbiological safety of organic foods.

Invited lecture - Applied Food Biotechnology, O'Fallon, MO, June 29-30, 2000. Probiotic bacteria to reduce carriage and fecal shedding of human pathogens by animals.

Invited discussant - Chick-fil-A Quality Summit, Peachtree City, GA, July 13, 2000. Food safety in foodservice.

Invited paper - American Society for Microbiology, International Conference on Emerging Infectious Diseases 2000, Atlanta, GA July 19, 2000. Bugs vs. bugs.

Invited keynote lecture - Florida Department of Agriculture & Consumer Services, 3rd Annual Foodborne Pathogen Analysis Conference, St. Petersburg, FL, July 20, 2000. Microbiological safety of different food groups.

Invited lecture - Georgia Congressional Delegation, University of Georgia, Griffin, GA, August 18, 2000. Research activities of the UGA Center for Food Safety.

Invited lecture - 46th International Congress on Meat Science and Technology, Buenos Aires, Argentina, August 31, 2000. Use of microorganisms in non-traditional methods to increase meat safety.

Invited lecture - Association of Food and Drug Officials Fall Conference, Gatlinburg, TN, September 11, 2000. Microbiological food safety issues.

Invited lecture - Julius Bauermann Lectureship, Philadelphia Section of the Institute of Food Technologists, Philadelphia, PA, September 12, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Griffin Kiwanis Club, Griffin, GA, September 13, 2000. Irradiated foods, organic foods, and genetically modified foods.

Invited lecture - *Listeria* Issues and Strategies Conference, University of Connecticut, Storrs, CT, September 21, 2000. The microbiology of *Listeria monocytogenes* as a foodborne pathogen.

Invited keynote lecture - Food Safety Brand Symposium, Ecolab, American Chamber of Commerce in Japan and Japanese Chemical News, Tokyo, Japan, October 4, 2000. Microbiological food safety issues.

Invited keynote lecture - International Food and Nutrition Conference - 2000, Tuskegee University, Tuskegee, AL, October 10, 2000. Current microbiological food safety issues.

Invited keynote lecture - Workshop on Epidemiologic Methods and Approaches for Food Safety, U.S. Department of Agriculture - CSREES, Birmingham, AL, October 18, 2000. Reducing foodborne illnesses: Focusing on opportunities that have impact.

Invited keynote lecture - Allegheny Branch of the American Society for Microbiology Annual Meeting, Pennsylvania State University, University Park, PA, October 27, 2000. Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - Spalding County Farm Bureau Annual Meeting, Griffin, GA, October 30, 2000. Consumer concerns about irradiated foods, organic foods and genetically modified foods.

Invited lecture - International Food Safety and Quality Conference, Institute of Food Technologists, Orlando, FL, November 15, 2000. Food safety research opportunities for the third millennium.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 20, 2000, Keeping *E. coli* O157:H7 down on the farm.

Invited lecture - VI Congreso Latinoamericano de Microbiología de Alimentos, MICROAL 2000, Buenos Aires, Argentina, November 21, 2000, Foodborne pathogens that grow at refrigeration temperature: problems and solutions.

Invited lecture - Ceres Forum on Food Safety Objectives: Public Health, HACCP and Science, Georgetown University, Washington, DC, December 4, 2000. Intervention strategies for food production.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CFSAN, College Park, MD, December 5, 2000. Inactivation of pathogens on produce by GRAS chemicals.

Invited lecture - 2nd FDA Food Safety Initiative Extramural Research Annual Review, Food and Drug Administration - CVM, College Park, MD, December 5, 2000. Control of enterohemorrhagic *E. coli* in cattle by probiotic cattle.

Invited Web Chat - American Meat Institute, Arlington, VA, December 12, 2000. Microbiological challenges and opportunities.

Invited lecture - Alpharma, Englewood, NJ, December 14, 2000. *E. coli* O157:H7 and public health.

Invited lecture - Georgia Department of Agriculture, Georgia Public Health Team/Food Safety Task Force, Griffin, GA, January 17, 2001. Research activities of the UGA Center for Food Safety.

Invited lecture - Florida Dietetic association and Florida State University Department of Nutrition, Food and Exercise Sciences, Food Safety Symposium, Tallahassee, FL, February 2, 2001. Timely topics on the microbiological safety of foods.

Invited keynote lecture - Auburn University, College of Veterinary Medicine, Phi Zeta Annual Forum, Auburn, AL, February 7, 2001. Food safety intervention strategies for livestock.

Invited seminar - North Carolina State University, Department of Poultry Science Honors Seminar, February 8, 2001. Microbial contamination of organic foods.

Invited lecture - American Association for the Advancement of Science, 2001. Annual Meeting, San Francisco, CA, February 17, 2001. Dislocating foodborne pathogens from their etiologic niche.

Invited keynote lecture - ABC Research, 27th Annual Technical Seminar, Gainesville, FL, February 20, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited Foundation lecture - American Society for Microbiology, Eastern Pennsylvania Branch, Philadelphia, PA, February 26, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Missouri Milk, Food & Environmental Health Association, Annual Education Conference, Columbia, MO, April 4, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited keynote lecture - Clemson University, Food Safety Symposium, Clemson, SC, April 20, 2001. Controlling *E. coli* O157:H7 on the farm.

Invited keynote lecture - Southeast USA Section of the Association of Official Analytical Chemists International, 15th Annual Meeting, Atlanta, GA, April 24, 2001. Microbiological food safety challenges for the 21st century.

Invited keynote lecture - Georgia State Environmental Health and Food Establishment Inspectors, Annual Educational Meeting, Athens, GA, May 24, 2001. Changing factors affecting the microbiological safety of foods.

Invited lecture - Mionix Corporation, U.S. Department of Agriculture Building, Washington, DC, June 5, 2001. Increased inactivation of *E. coli* O157:H7 in ground beef containing calcium acidified sulfate.

Invited featured lecture - Association of Food and Drug Officials, 105th Annual Educational Meeting, Atlanta, GA, June 19, 2001. Food safety initiatives on the farm.

Invited lecture - International Animal Agriculture and Food Science Conference, Joint Annual Meetings of American Dairy Science Association, American Meat Science Association, American Society of Animal Science and Poultry Science Association, Indianapolis, IN, July 28, 2001. Keeping *E. coli* O157:H7 down on the farm.

Invited presentation - DuPont, Strategic Planning, July 31, 2001. Food safety issues, gaps and opportunities.

Invited panel moderator - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee 2001 Annual Meeting, Minneapolis, MN, August 6, 2001. Moving beyond HACCP-Food safety objectives.

Invited lecture - International Association for Food Protection, 2001 Annual Meeting, Minneapolis, MN, August 7, 2001. Microbiological safety issues in organic food production.

Invited lecture - International Association for Food Protection/International Life Sciences Institute-North America Food Microbiology Committee, 2001 Annual Meeting, Minneapolis, MN, August 8, 2001. Optimization of conditions to kill *Escherichia coli* O157:H7 in manure.

Invited seminar - Alpharma/International Food Protection, Inc. Research Update, Ft. Lee, NJ, August 14, 2001. Reducing carriage of *Campylobacter jejuni* by poultry.

Invited seminar - U.S. Department of Agriculture-Food Safety and Inspection Service, Washington, DC, August 30, 2001. Keeping foodborne pathogens down on the farm.

Invited seminar - General Mills, Inc. Technical Seminar Series, Minneapolis, MN, September 6, 2001. Emerging issues in the microbiological safety of foods.

Invited presentation - Kroger, *E. coli* Updates, Cincinnati, OH, September 11, 2001. Approaches to reduce *E. coli* O157 in cattle.

Invited keynote lecture - University of Wisconsin-River Falls, 21st Food Microbiology Symposium, River Falls, WI, October 14, 2001. Keeping foodborne pathogens down on the farm.

Invited lecture - The World Food Prize, 15th Anniversary Symposium, Des Moines, IA, October 18, 2001. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited keynote lecture - U.S. Food and Drug Administration Southeast Region, Food Safety Seminar, Mt. Pleasant, SC, October 31, 2001. Controlling *E. coli* O157:H7 from farm to table.

Invited section chairperson and contributor - American Academy of Microbiology, Colloquium on The Role of Antimicrobials in Agriculture: A Critical Assessment, Santa Fe, NM, November 2-4, 2001. Antimicrobial resistance and agriculture.

Invited lecture - University of Massachusetts, Food Science Health Symposium: Towards a National Rational Health Policy, Amherst, MA, November 7, 2001. Case reviews of the food safety "crisis."

Invited participant - Harvard University, Harvard Business School, Seminar on Health, Nutrition and Safety, Boston, MA, November 18-19, 2001. Views on intentional microbiological contamination of food.

Invited lecture - American Meat Institute Foundation, Research Briefing, Dallas, TX, December 4, 2001. Competitive exclusion bacteria for *Listeria monocytogenes* in processing plants.

Invited lecture - McDonald's Corporation, Food Safety Advisory Council Meeting, Springdale, AR, December 12-13, 2001. Food safety priorities for 2002.

Invited lecture - The Coca-Cola Company, Atlanta, GA, December 19, 2001. Safeguards against intentional microbiological contamination of foods.

Invited presentation/interview - British Broadcasting Company (BBC), New York, NY, January 7, 2002. Documentary on *E. coli* O157:H7.

Invited keynote lecture - Southern Conference on Avian Diseases, International Poultry Scientific Forum and Southern Poultry Science Society, Atlanta, GA, January 15, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited introductory comments and moderator - International Life Sciences Institute, Annual Meeting, Cancun, Mexico, January 23, 2002. BSE/TSE: Safety of the Meat Supply.

Invited keynote lecture - Kraft Foods, Research and Technology Council Meeting, Delavan, WI, January 30, 2002. *Listeria* research at University of Georgia Center for Food Safety.

Invited keynote lecture - Institute of Food Technologists, New York Section, Rutgers Night, New Brunswick, NJ, February 19, 2002. Emerging issues in the microbiological safety of foods.

Invited technical tour - Institute of Food Technologists International Food Safety and Quality Conference and Expo, Atlanta, GA, February 22, 2002. Tour of UGA Center for Food Safety.

Invited panel discussant - Institute of Medicine, Food Forum, Symposium on Future Directions in Food Safety Research, Washington, DC, February 27, 2002. Developing a coordinated and sustained research agenda.

Invited lecture - Institute of Food Technologists, St. Louis Section, St. Louis, MO, March 11, 2002. Emerging issues in the microbiological safety of foods.

Invited presentation - Food and Drug Administration, Food Safety Initiative Extramural Research Annual Review, College Park, MD, March 19, 2002. Control of enterohemorrhagic *E. coli* in cattle by probiotic bacteria.

Invited presentation - U. S. Department of Agriculture, National Agricultural Research, Extension, Education, and Economics Advisory Board Meeting, Washington, DC, March 28, 2002. Representing National Academy of Sciences - Biosecurity: Preparedness plans; Research needs in assuring foods are safe from intentional microbiological contamination.

Invited presentation - Congressman Mac Collins Third District Agricultural Advisory Committee Meeting, Griffin, GA, April 19, 2002. Emerging issues in food safety.

Invited keynote presentation - U.S. Environmental Protection Agency, OECD (Organization for Economic Cooperation and Development) Efficacy Workshop on Certain Antimicrobial Biocides, Arlington, VA, April 23, 2002. The role of antimicrobials in controlling foodborne pathogens.

Invited keynote presentation - The Coca-Cola Company, National Food Processors Association Security Subcommittee, Atlanta, GA, April 30, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation and moderator - U.S. Department of Agriculture, Food Safety and Inspection Service, Symposium on Pathogen Reduction: A Scientific Dialogue, Washington, DC, May 6, 2002. Introduction of microbiological hazards, farm to table.

Invited presentation - U.S. Department of Agriculture, IFAFS Animal Manure Management Meeting, Kansas City, MO, May 14, 2002. Safe produce production using manure.

Invited presentation - Oklahoma State University, Food Safety Symposium, Stillwater, OK, May 21, 2002. Foodborne pathogens occurring in livestock.

Invited presentation - University of Georgia, Agro-Security Work Conference, Athens, GA, May 23, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Alpharma, *Campylobacter* Research Update, Griffin, GA, June 11, 2002. Reducing carriage of foodborne bacterial pathogens in poultry by competitive exclusion.

Invited presentation and panelist - Institute of Food Technologists Annual Meeting, Forum on the Epidemiology and Control of Foodborne Pathogens, Anaheim, CA, June 17, 2002. Update on Shiga toxin-producing *E. coli*.

Invited presentation and panelist - Institute of Food Technologists, Annual Meeting, Forum on Emerging microbiological food safety issues: Implications for control in the 21st century, Anaheim, CA, June 18, 2002. Next steps in food safety management.

Invited presentation - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Recent issues regarding the microbiological safety of foods.

Invited discussant - Georgia Environmental Health Association, Annual Educational Conference, Jekyll Island, GA, July 11, 2002. Panel discussion on food security and bioterrorism.

Invited presentation and consortium participant - Milbank Memorial Fund, Washington, DC, July 16, 2002. Improving the U.S. food safety system.

Invited presentation - 2002 Legislative Aid Tour, Griffin, GA, August 14, 2002. Recent food safety issues.

Invited presentation - Illinois Department of Public Health, Food Safety Symposium, St. Charles, IL, August 28, 2002. *Listeria monocytogenes*: A nemesis of the food processing industry.

Invited presentation - Hanover Foods, Fresh Produce Update, Hanover, PA, September 12, 2002. Controlling microbes in produce.

Invited presentation - Food Industry Microbiology Round Table, Chicago, IL, September 18, 2002. Science-based food safety regulation.

Invited presentation - U.S. Department of Agriculture, National Academy of Sciences Meeting, Washington, DC, October 7, 2002. *Escherichia coli* O157:H7 in ground beef: Review of a draft risk assessment.

Invited presentation, USDA-CSREES Food Safety Center Summit, University of Minnesota, Minneapolis, MN, October 28, 2002. Organization and activities of the University of Georgia Center for Food Safety.

Invited presentation - VII Congress Latinoamericano de Microbiologia e Higiene de Alimentos, Latinnic 2002, Santiago, Chile, November 12, 2002. Present knowledge of *Escherichia coli* O157:H7 as a foodborne pathogen.

Invited presentation - USDA-FSIS, *Listeria monocytogenes* update, Washington, DC, November 15, 2002. Cross-contamination of *Listeria monocytogenes* on food processing equipment.

Invited presentation - Harvard Medical International, Biosecurity 2002, Las Vegas, NV, November 18, 2002. Challenges associated with assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Press Association, Seminar on Food Safety Issues, Griffin, GA, November 22, 2002. Major food safety issues in the United States.

Invited presentation - Food and Drug Administration, Grand Round Workshop, Intervention Technologies for Controlling Microbial Pathogens in Foods. Washington, DC, December 3, 2002. Challenges in developing intervention technologies - Past, present and future.

Invited presentation - McDonald's, Food Safety Advisory Council, Chicago, IL, December 4, 2002. Emerging food safety issues.

Invited presentation - Food Safety Research Consortium, Launch of Consortium, Resources for the Future, Washington, DC, February 6, 2003. Need for the Food Safety Research Consortium.

Invited presentation - Griffin Rotary Club, Griffin, GA, February 13, 2003. Food safety issues in the news.

Invited presentation - U.S. Consultative Visit on Food Safety for Egyptian Organization for Standardization and Quality Control (USAID), University of Georgia Center for Food Safety, Griffin, GA, March 12, 2003. Food safety activities of the UGA Center for Food Safety.

Invited presentation - Nestlé Purina Food Safety Symposium, Peachtree City, GA, March 21, 2003. Microbiological concerns and issues at the retail level.

Invited presentation - Independent Retailers Combined Food Sales Clubs, 36th Annual Meeting, Anaheim, CA, March 26, 2003. Microbiological food safety issues at retail.

Invited presentation - University of Nebraska, *Escherichia coli* O157:H7 Governor's Conference, Lincoln, NE, April 7, 2003. Efficacy of *E. coli* isolates in reducing carriage of *E. coli* O157:H7 by cattle.

Invited presentation - Clemson University, Food Safety Symposium, Litchfield Beach, SC, April 10, 2003. A case history of *E. coli* O157:H7 as a foodborne pathogen.

Invited presentation - University of Tennessee, Topics on Microbial Pathogenesis Seminar Series, Knoxville, TN, April 21, 2003. Pathogenesis of *Escherichia coli* O157:H7 and reducing human infections.

Invited presentation - K Mart Food Safety Symposium, Troy, MI, May 2, 2003. Microbiological concerns and issues at retail.

Invited presentation - Institute of Medicine, Food Forum Symposium on Future Applications of Metabolomics, Washington, DC, May 6, 2004. Introduction of metabolomics.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, 2003 Federal/State Meeting, Arlington, VA, May 16, 2003. Testing produce for pathogens.

Invited presentation - American Society for Microbiology, Annual Meeting, “*Salmonella* - Where Does it Come From?” Symposium, Washington, DC, May 19, 2003. *Salmonella* from produce.

Invited keynote presentation - VTEC 2003, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* infections, Edinburgh, Scotland, June 10, 2003. Focusing on cattle to reduce the incidence of *Escherichia coli* O157:H7 infections in human.

Invited presentation - U.S. National Academy of Sciences, U.S.-Iranian Cooperation in Addressing Global Issues, Tourtour, France, June 23, 2003. Microbiological food safety issues in the USA.

Invited presentation - Armed Forces Medical Intelligence Center (AFMIC), Quadrilateral Meeting on Agriculture and Food Security (USA, Australia, Canada, England), Ft. Detrick, MD, June 27, 2003. Assuring food is safe from intentional microbiological contamination.

Invited presentation - Georgia Poultry Federation, Summer Board Meeting, Ponte Vedra, FL, July 24, 2003. Control of *Listeria monocytogenes* in biofilms in floor drains with competitive exclusion bacteria.

Invited presentation and moderator - International Association for Food Protection Annual Meeting, *Listeria* Symposium, New Orleans, LA, August 11, 2003. Use of food safety objectives and other risk-based approaches to reduce foodborne listeriosis. Achieving continuous improvement in reductions in foodborne listeriosis: a risk-based approach.

Invited presentation - International Association for Food Protection, Annual Meeting, Symposium on Science-based shelf life dating of RTE refrigerated foods, New Orleans, LA, August 13, 2003. Microbiological concerns related to refrigerated ready-to-eat foods.

Invited presentation - Food Safety Research Consortium, Conference on “A Model for Evaluating and Ranking the Public Health Impact of Foodborne Hazards, Washington, DC, September 12, 2003. Perspectives on the issues.

Invited presentation - Nestlé Purina, Food Safety Symposium, Sedona, AZ, September 19, 2003. Microbiological issues at retail food outlets.

Invited keynote presentation - II Congreso Argentino de Microbiología de Alimentos, Argentinian Association of Microbiology Conference, Santa Fe, Argentina, September 25, 2003. Prevalence, testing methodologies, and significance of *Escherichia coli* O157:H7 and non O157:H7 in ground beef.

Invited presentation - McDonald’s Food Safety Advisory Council, Fall Meeting, Conyers, GA, October 23, 2003. Emerging food safety issues that may affect the food service industry.

Invited presentation - Georgia Congressional Staff, 2003 Tour, October 24, 2003. Food safety issues and research.

Invited presentation - Meat Industry Research Conference, Worldwide Food Expo 2003, Chicago, IL, October 27, 2003. Controlling *Escherichia coli* O157:H7 in cattle drinking water.

Invited presentations and program chair - Food Safety Research Consortium, Food Attribution Data Workshop, Atlanta, GA, October 31, 2003. Best approaches for attributing food commodities to human foodborne illnesses.

Invited presentation - Ontario Food Protection Association, Annual Meeting, Toronto, ON, Canada, November 20, 2003. Emerging microbiological food safety issues.

Invited presentation - U.S. Department of Agriculture Microbiological Data Program, Winter Federal/State Meeting, McClellan, CA, December 3, 2003. The importance of testing produce for microbial pathogens.

Invited presentation - Cooperating for Food Safety, Workshop on Best Practices for Control of *E. coli* O157:H7 in Ground Beef, Chicago, IL, January 7, 2004. Key technical issues in the design of a certification system.

Invited presentation - Institute of Food Technologists, Chicago Section, Winter Meeting, Chicago, IL, February 9, 2004. *Listeria monocytogenes* in perspective.

Invited presentation - ABC Research Corporation, 30th Annual Technical Seminar, Gainesville, FL, February 18, 2004. Control of *Listeria monocytogenes* in floor drains with competitive exclusion bacteria.

Invited presentation - USDA, Cooperative State Research, Education and Extension Service (CSREES), Workshop on Pathogens in the Environment, Kansas City, MO, February 24, 2004. Contamination of food by pathogens in the environment.

Invited presentations, Co-Farm Meetings with Senate and House Staff on Homeland Security, Washington, DC, March 5, 2004. Agroterrorism: Security through prevention and preparedness.

Invited presentation - Wal-Mart, Food Safety Symposium, Bentonville, AK, March 10, 2004. Microbiological issues at retail food outlets.

Invited presentation - 5th ASEPT International Conference on Food Safety, Analyse des risques et *Listeria monocytogenes*/*Listeria monocytogenes* and Risk Analysis Conference, Laval, France, March 17-18, 2004. A risk-based approach to achieving continuous improvement in reductions in the incidence of foodborne listeriosis.

Invited presentation, 2004 Sam Nunn Policy Forum, Bioterrorism Preparedness: The Imperative for a Public-Private Partnership, Georgia Tech, Atlanta, GA, March 23, 2004. Securing the food chain from biohazards.

Invited Seminar, University of Georgia, Department of Poultry Science, Athens, GA, March 29, 2004. Optimizing defined competitive exclusion bacterial cultures to reduce *Salmonella* carriage by chickens.

Invited presentation/interview, British Broadcasting Company, Atlanta, GA, April 14, 2004.

Microbiological food safety concerns associated with vegetables grown organically and under conventional conditions.

Invited keynote presentation, Cornell University, Cornell Veterinary Medicine Infection and Pathobiology Program's Spring Retreat, Ithaca, NY, April 23, 2004. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, 5th Food and Drug Administration - Center for Food Safety and Applied Nutrition, Food Safety and Food Security Extramural Research Annual Review, College Park, MD, May 6, 2004. Waveguide immunoassay for *Yersinia pestis*.

Invited convener/presentation, American Society for Microbiology 104th General Meeting, New Orleans, LA, May 24, 2004. Addressing the issue of antibiotic resistant foodborne bacteria through the application of risk assessment.

Invited presentation, Southern Association of State Departments of Agriculture (SASDA), Annual Conference, Athens, GA, Jun 14, 2004. Controlling foodborne pathogens with competitive exclusion bacteria.

Invited presentation, USDA-CSREES Workshop on Approaches to Predictive Modeling to Support a Framework to Prioritize Opportunities to Reduce Food Safety Risk, Iowa State University, Ames, IA, June 15, 2004. Issues regarding effective interventions in reducing foodborne illnesses.

Invited presentation, USDA-AMS 2004 Microbiological Data Program (MDP) Federal/State Meeting, Fairfax, VA, June 23, 2004. Importance of pathogen monitoring of produce.

Invited presentation, Food and Drug Administration Center for Veterinary Medicine, Alpharma Sponsor's Meeting, Expedited Review INAD 10-636, Rockville, MD, July 1, 2004. Importance of reducing "super shedders" of *E. coli* O157:H7 by cattle and methods available for detecting and quantifying *E. coli* O157:H7.

Invited presentation, Georgia Poultry Federation, Summer Board Meeting and Industry/Research Leadership Meeting, Ponte Vedra, FL, July 9, 2004. Defined competitive exclusion bacteria to reduce *Salmonella* carriage by poultry.

Invited presentation, The Foundation for American Communications and Institute for Food Technologists Reporting on Food Safety: From Product Development to the Consumer's Table, Las Vegas, NV, July 12, 2004. Specific challenges associated of reporting on food safety.

Invited keynote presentation, World's Poultry Science Association, USA Branch, Annual Meeting, St. Louis, MO, July 27, 2004. Reducing the carriage of foodborne pathogens in poultry and livestock.

Invited presentation, FoodPAC, 2004 Summer Steering Committee Meeting, Reidsville, GA, August 26, 2004. Biocontrol of *Listeria* in floor drains.

Invited presentation, University of Georgia College of Agricultural and Environmental Sciences Advisory Council Meeting, Griffin, GA, August 24, 2004. How the UGA Center for Food Safety serves Georgia, the Nation and the World.

Invited presentation, University of Georgia President Michael Adams' Program Review, Griffin Campus, Griffin, GA, August 25, 2004. Activities and accomplishments of UGA Center for Food Safety.

Invited presentation, Universiti Kebangsaan Malaysia (National University of Malaysia), Departments of Biotechnology, Food Science, Microbiology, Bangi, Selangor, Malaysia, September 3, 2004. Food safety challenges from farm to table and probiotics for Malaysia and beyond; strategies for R&D.

Invited presentation, Nestlé Purina-Copesan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 20, 2004. Microbiological concerns and issues at the retail level.

Invited presentation, Nestlé Purina-Copesan, Food Safety and Unsalables Management Symposium, Peachtree City, GA, September 21, 2004. Emerging food safety issues.

Invited presentation, United States Office of Personnel Management, 4th Annual Countering Terrorism Symposium, San Diego, CA, September 23, 2004. Approaches to enhance the security of the US food supply.

Invited presentation, Georgia Congressional Staff Tour, Griffin, GA, October 15, 2004, Addressing food safety challenges at the UGA Center for Food Safety.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Chicago, IL, November 3, 2004. Emerging food safety issues that may affect the food service industry.

Invited presentation, U.S.-Japan Natural Resources Panel on Toxic Microorganisms, Annual Meeting, Atlanta, GA, November 11, 2004. Research Activities of the UGA Center for Food Safety.

Invited presentation, Emory University's Southeastern Center for Emerging Biologic Threats, Conference on Food- and Waterborne Infectious Disease Threats, Atlanta, GA, November 16, 2004. Foodborne disease threats of recent concern.

Invited presentation, Copper Development Association, Annual Meeting, Marketing Trends Forum, New York, NY, December 9, 2004. Approaches to continuous reductions in the incidence of salmonellosis, listeriosis, and *Escherichia coli* O157:H7 infections associated with foods.

Invited presentation, International Life Sciences Institute, Annual Meeting, New Orleans, LA, January 17, 2005. Achieving continuous improvement in reductions of listeriosis: identification and education of at-risk subpopulations.

Invited presentation, Food Processing Advisory Council (FoodPAC) Webcast, Atlanta, GA, February 16, 2005. Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant.

Invited presentation, Neogen Scientific Review Council, Biannual Meeting, Lansing, MI, March 9, 2005. The In's and Out's of *Listeria monocytogenes* and *Escherichia coli* O157:H7 in food testing.

Invited presentation, Society for General Microbiology, 156th Annual Meeting, Edinburgh, Scotland, April 7, 2005. Impact of verocytotoxin-producing *Escherichia coli* on the food chain.

Invited presentation, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, Atlanta, GA, April 26, 2005. Continuous improvement in reductions in foodborne listeriosis: Identification of approaches having the greatest impact.

Invited presentation, Food and Drug Administration - Center for Food Safety and Applied Nutrition, 6th Food Safety and Food Defense Extramural Research Grants Annual Meeting, College Park, MD, May 11, 2005. Waveguide immunoassay for *Yersinia pestis*.

Keynote lecture (Pre-dinner presentation), Campden & Chorleywood Food Research Association, Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 9, 2005. What you didn't know about the revelation of *E. coli* O157:H7 as a human and foodborne pathogen.

Keynote lecture, Campden & Chorleywood Food Research Association Food Microbiology International Conference, Chipping Campden, Gloucestershire, England, June 10, 2005. Exploiting competitive exclusion microorganisms to control foodborne pathogens at the source.

Invited presentation, AFB International, Seminar Series, St. Louis, MO, June 16, 2005. Probiotics to control pathogens in humans and animals.

Invited presentation, Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 14, 2005. Competitive exclusion bacteria treatment to control *Listeria* in floor drains of a ready-to-eat poultry processing plant.

Invited presentation, Institute of Food Technologists Annual Meeting, Council of Food Science Administrators, New Orleans, LA, July 18, 2005. Government Relations Committee activities.

Invited presentation, UGA Center for Food Safety, Air Liquide Research Update, Griffin, GA, July 22, 2005. Overview of the Center for Food Safety and competitive exclusion of foodborne pathogens.

Invited presentation, 2005 Joint Annual Meeting of American Society of Animal Science, American Dairy Science Association, Canadian Society of Animal Science, Food Safety Symposium, Cincinnati, OH, July 27, 2005. The future of food safety: An issue of national importance. foodborne illness and antibiotic resistance: Types, sources and extent of the problem.

Invited presentation, University of Georgia College of Agricultural and Environmental sciences Administrative Council Meeting, Griffin, GA, August 8, 2005. UGA Center for Food Safety research program.

Keynote lecture, Food and Drug Administration Center for Food Safety and Applied Nutrition, 2nd Annual Science Day, College Park, MD, August 10, 2005. Good science is the best foundation for effective decision making.

Keynote lecture, UKPOPNET Workshop: Population Dynamics of Human Pathogenic Microorganisms in Soil, University of Aberdeen, Aberdeen, Scotland, September 1, 2005. Contamination of foods by pathogens in the environment.

Invited lecture, Nestlé Purina Pet Care and Copesan Food Safety Symposium, Stone Mountain, GA, September 13, 2005. Microbiological concerns for the food retailer.

Invited lecture, Food Safety Research Consortium, Conference for Risk Ranking Foodborne Hazards, Washington, DC, September 14, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited presentation, Georgia Legislative Delegation, Education Meeting, Griffin, GA, October 12, 2005. UGA Center for Food Safety state, national and international activities.

Invited presentation, McDonald's Food Safety Advisory Council, Annual Meeting, St. Paul, MN, October 17, 2005. Emerging food safety and regulatory challenges related to food service products and operations.

Invited presentation, McDonald's Quality Symposium, Oak Brook, IL, October 24, 2005. How academia can assist the food industry in providing greater public health protection to foods.

Invited presentation, International Commission on Microbiological Specifications for Foods, the International Life Sciences Institute, the International Association for Food Protection and the Institute of Food Technologists, Symposium on Relating Microbiological Testing and Microbiological Criteria to Public Health Goals, Washington, DC, November 1, 2005. Potential advantages and pitfalls in public health-derived microbiological criteria.

Invited commenter, ABC Good Morning America, News Story, New York, NY, November 6, 2005. Shelf life of foods.

Invited lecture, U.S. Poultry and Egg Association, Food Safety Conference on Attribution of Salmonellosis, Atlanta, GA, December 8, 2005. Identifying and evaluating the effectiveness of food safety interventions.

Invited convener and presentations, Institute of Medicine, Food and Nutrition Board and Food Forum Workshop on Challenges in Managing Food-Derived Risk, Washington, DC, December 13, 2005. Introduction and Workshop Summary - Managing food contaminants at low levels: What tools do we have and common metric to compare risks: Defining the problem.

Invited convenor and presentation, International Life Sciences Institute, Annual Meeting, San Juan, Puerto Rico, January 17, 2006. Introduction - Chasing zeros: Prioritizing responses to unexpected contaminants in foods.

Invited lecture - U.S. Poultry Food Safety Advisory Board, Atlanta, GA, January 25, 2006. Food safety activities of the Food Safety Research Consortium.

Invited lecture - Georgia Association for Food Protection, Griffin, GA, February 9, 2006. Controlling *Listeria* in drains in food processing plants.

Invited presentation - Georgia Food Processing Advisory Council (FoodPAC), Atlanta, GA, February 24, 2006. Chemical intervention treatments to inactivate foodborne pathogens on poultry.

Invited presentation - U.S. Department of Agriculture-Agricultural Marketing Service, Richmond, VA, March 29, 2006. The challenges associated with producing microbiologically safe fruit and vegetables.

Invited presentation - Institute of Food Research (IFR) Seminar Series, Norwich, England, April 6, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited presentation - Gold Kist, Avian Influenza Seminar, Atlanta, GA, April 12, 2006. Food safety concerns regarding avian influenza.

Invited lecture - National Chicken Council/U.S. Poultry and Egg Association Food Media Seminar, Philadelphia, PA, April 24, 2006. Update on Avian influenza.

Invited lecture - Georgia Poultry Processors Association Meeting, Griffin, GA, April 25, 2006. Avian influenza virus and food safety.

Invited lecture - Georgia Department of Human Resources, 1st Annual Georgia Food Safety Task Force Conference, May 5, 2006, Macon, GA. Laboratory role in foodborne outbreaks - Academic food safety laboratory.

Invited keynote lecture - Zaxby's Annual Conference, Las Vegas, NV, May 8, 2006. Avian influenza and food safety.

Invited lecture - University of Minnesota, Forum on Ethical Guidelines for External Support of University Initiatives, St. Paul, MN, May 11, 2006. Novel approaches for external funding of university activities.

Invited lecture - National Restaurant Association, Annual Meeting, Chicago, IL, May 20, 2006. Avian influenza and food safety.

Invited lecture - Montana State University, Center for Biofilm Engineering, Technical Advisory Conference, June 20, 2006. Exploiting competitive microorganisms to control foodborne pathogens at the source.

Invited lecture - Institute of Food Technologists, Food Science Communicators Meeting, Orlando, FL, June 24, 2006. Antimicrobial resistance - Implications for the food system.

Invited lecture - Institute of Food Technologists, Annual Meeting, Orlando, FL, June 26, 2006. Antimicrobial resistance: Implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Antimicrobial resistance and its implications for the food system.

Invited guest lecture - Food Marketing Institute, FMI Medical Advisors Annual Meeting, Washington, DC, July 7, 2006. Avian influenza virus and its implications for food safety.

Invited comments - Georgia Poultry Federation Annual Meeting, Ponte Vedra, FL, July 14, 2006. Avian influenza virus and food safety issues associated with the poultry industry.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Pathogenic *E. coli* on fresh produce.

Invited presentation - 8th Annual Foodborne Pathogen Analysis Conference, Orlando, FL, July 17, 2006. Challenges associated with isolating pathogens from foods.

Invited lecture - 52nd International Congress of Meat Science and Technology, Dublin, Ireland, August 15, 2006. Emerging microbiological food safety issues related to meat.

Invited keynote lecture - Steritech Food Safety Horizons Conference, Charlotte, NC, August 28, 2006. Microbiological food safety issues associated with imported foods.

Invited lecture - Association of Food and Drug Officials of the Southern States, Fall Meeting, Gatlinburg, TN, September 12, 2006. Pandemic flu preparedness.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Avian influenza and food safety.

Invited lecture - Nestle Purina Food Safety Symposium, Peachtree City, GA, September 19, 2006. Microbiological concerns at the deli.

Invited lecture - Illinois Department of Public Health, Peoria, IL, September 20, 2006. Are all critical violations alike?

Invited lecture - National Chicken Council, Washington, DC, October 5, 2006. Avian Influenza: Global and domestic perspectives.

Invited lecture - Autonomous University of Neuvo Leon, Annual International Food Safety Congress, Monterrey, Mexico, October 9, 2006. *E. coli* O157:H7 and fresh produce.

Invited keynote lecture - 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), Melbourne, Australia, October 30, 2006. Transmission of Verotoxin-Producing *E. coli* by food.

Invited presentation - Tanzanian Ministry of Agriculture, Program Overview, Griffin, GA, November 10, 2006. Structure and activities of the UGA Center for Food Safety.

Invited lecture - International Bayer Expert Forum on Animal Health and Food Safety, Hanover, Germany, November 15, 2006. Antimicrobial resistance: Implications for the food system.

Invited lecture - Praxair, Chicago, IL, November 21, 2006. *E. coli* O157:H7 and strategies for intervention in food processing.

Invited special lecture - Institute of Medicine Food and Nutrition Board Fall Meeting, Washington, DC, December 15, 2006. Microbiological food safety issues that may affect dietary changes.

Invited lecture (Guest Speaker) - U.S. Department of Agriculture - National Agriculture Research, Education, Extension and Economics Advisory Board (NAREEEAB) Spring Meeting, Washington, DC, March 8, 2007. USA federal food safety research and education needs.

Invited lecture - Georgia Board of Registered Health Professionals Annual Meeting, Griffin, GA, March 16, 2007. *E. coli* O157 in produce.

Invited lecture - Animal Agriculture Alliance, 6th Annual Meeting, Washington, DC, March 20, 2007. CAFO's: What's the fuss about antibiotics.

Keynote address - National Institute for Animal Agriculture, Symposium on Impacts of Animal Production Safety Practices on the Food Supply, Sacramento, CA, April 5, 2007. Foodborne illnesses and antibiotic resistance associated with zoonotic pathogens.

Invited lecture - Georgia Institute of Technology, School of Electrical and Computer Engineering Seminar, Atlanta, GA, April 17, 2007. U.S. food safety issues and research needs from a food industry perspective.

Keynote address - Southern Section of the Association of Official Analytical Chemists International, 21st Annual Meeting, Atlanta, GA, April 23, 2007. Global microbiological food safety issues before use.

Invited lecture - Northeast Food & Drug Officials Association (NEFDOA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. Food safety concerns of avian flu virus.

Invited lecture - Northeast Food & Drug Officials Association (NEFDOA), Annual Educational Conference and Workshop, Warwick, RI, May 10, 2007. *E. coli* O157 in fresh produce.

Invited lecture - Federation of Animal Science Societies, 2007 FASS Symposium, Washington, DC, May 14, 2007. Institute of Food Technologists review of antibiotic resistance.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 23, 2007. Symposium - Antibiotic resistance: A summary and recommendations from the Institute of Food Technologists Expert Panel.

Invited lecture - American Society for Microbiology, 107th General Annual Meeting, Toronto, Ontario, Canada, May 24, 2007. Symposium - Implications from the spinach outbreak for industry, research needs.

Invited lecture - Illinois Institute of Technology National Center for Food Safety and Technology-UGA Workshop on the Role of Testing in the Safety of Fresh Produce, Oak Lawn, IL, May 30, 2007. Public health issues associated with fresh produce: Scientific questions.

Invited lecture - Alabama Department of Public Health, 2007 Alabama Agricultural Security Conference, Birmingham, AL, June 12, 2007. Domestic and global microbiological food safety issues before us.

Invited lecture - Society for Applied Microbiology, Summer Conference, Cardiff, Wales, UK, July 3, 2007. The problems with fresh produce - An overview.

Keynote address - International Association for Food Protection - BioMerieux, 6th Annual Scientific Symposium, Orlando, FL, July 10, 2007. Challenges in producing a pathogen-free fresh-cut product.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 10, 2007. Symposium on Microbial Biofilms and Biofilm Control - Biologic control of biofilms.

Invited lecture - International Association for Food Protection, 94th Annual Meeting, Orlando, FL, July 11, 2007. Symposium on food Safety Laws: Political Science or Food Science - National Academy of Sciences - Academic Viewpoint.

Invited lecture - Georgia Environmental Health Association, 2007 Conference, Helen, GA, July 13, 2007. Global microbiological food safety issues before us.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Bacteriophage as an antilisterial treatment in ready-to-eat meats - Use of bacteriophage to control foodborne pathogens in foods.

Invited lecture - Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 31, 2007. Symposium on Farm-to-fork agro-management - Issues associated with the microbiological safety of fresh and fresh-cut produce.

Invited lecture Institute of Food Technologists, Annual Meeting & Food Expo, Chicago, IL, July 30, 2007. Symposium on Control of antibiotic-resistant pathogens in the food supply - IFT Expert Panel report on Antimicrobial Resistance: Implications for the Food System.

Invited lecture - Shanghai Institute for Food and Drug Control, Visit to UGA Center for Food Safety, Griffin, GA, August 21, 2007. Microbiological food safety issues in the United States and globally.

Invited lecture - National Coalition for Food and Agricultural Research, National C-FAR, Seminar Series for Policymakers and Congressional Staff, Washington, DC, September 10, 2007. From wild pigs and spinach to tilapia and Asia: Current food safety microbiological concerns of fresh produce and microbiological issues associated with imported foods.

Keynote address - Canadian Meat Council-American Meat Institute, Symposium on Advances in Antimicrobial Interventions for Quality Control of Meat and Poultry Products, Toronto, Ontario, Canada, September 13, 2007. Advances in antimicrobial interventions - A key to meat quality and safety.

Keynote address - Association of Food and Drug Officials of the Southern States, Fall Conference, Gatlinburg, TN, September 17, 2007. Global microbiological issues before us.

Invited lecture - Nestle Purina Group, Food Safety Symposium, Peachtree City, GA, September 18, 2007. Microbiological concerns and issues at retail food outlets.

Invited lecture - Food Processing.com/CDC Software (Ross Enterprise), Podcast, September 27, 2007. The true business impact of food safety & recalls.

Keynote address - McDonald's, Sanitation & Food Safety Workshop, Oak Brook, IL, October 9, 2007. Food safety issues impacting the industry.

Keynote address - Canadian Federal Food Safety and Nutrition Research Meeting 2007, Winnipeg, Manitoba, Canada, October 19, 2007. From wild pigs and spinach to tilapia and Asia: Current microbiological food safety concerns.

Invited lecture - KonKuk University, College of Veterinary Medicine, Seoul, South Korea, October 25, 2007. Microbiological food safety issues associated with fresh produce and imported foods.

Invited presentation - GangaGen, Scientific Advisory Board Meeting, Bangalore, India, October 29, 2007. Food safety and animal health: *E. coli* O157, *Salmonella*, *Campylobacter* and fowl typhoid.

Keynote address - 2nd International Conference for Food Safety and Quality (HACCP.com), San Francisco, CA, November 6, 2007. Current issues of food safety facing food industries.

Invited lecture - GangaGen Life Sciences, Ottawa, Ontario, Canada, November 9, 2007. Microbiological food safety research needs.

Invited presentation - National Academy-Institute of Medicine, A Forum for Iranian and American Experts - Food Safety and Microbiology: An Exchange of Ideas and Experiences, Washington, DC, November 15, 2007. Future opportunities for collaboration.

Presentation - U.S. Department of State, International Visit Leadership Program, Iranian Food Safety and Microbiology Scientists, Visit to UGA-Center for Food Safety, Griffin, GA, November 26, 2007. Food safety issues in the United States and research addressing food safety at UGA-CFS.

Invited presentation - Kiwanis Club of Griffin, Annual Farm/City Week Luncheon, Griffin, GA November 21, 2007. Food safety issues associated with fresh-cut produce and imported foods.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 12, 2007. Insights on potential regulatory changes and impact to ensure a safe food supply.

Invited presentation - McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, December 13, 2007. Prevalence of *E. coli* O157:H7 and other STEC globally.

Invited lecture - University of Georgia, College of Public Health and Biomedical and Health Sciences Institute, Community Lecture on Public Health Issues, Athens, GA, January 29, 2008. Is our food safe to eat?

Invited presentation - Shanghai Fisheries University, Shanghai, China, Chinese delegation, (presentation at UGA, Griffin), January 29, 2008. Activities of the UGA Center for Food Safety.

Invited lecture - American Association for the Advancement of Science (AAAS), Annual Meeting, Symposium on How the Bugs Come Back and Bite Us: The Rise of Agricultural Pathogens, Boston, MA, February 17, 2008. The versatile *Salmonella*: contaminating cantaloupes, peanut butter, chocolate, and sprouts.

Invited keynote lecture - 3rd Dubai International Food Safety Conference, Dubai Municipality, Dubai, United Arab Emirates, February 25, 2008. Food safety management: present and future.

Invited presentation - The 2008 Food Safety & Security Summit, Washington, DC, March 19, 2008. Enhanced food safety for fresh-cut produce.

Invited presentation - U.S. Food and Drug Administration, Draft Compliance Policy Grade Sec: 555.320 *Listeria monocytogenes* Public Meeting, College Park, MD, March 28, 2008. Foods that do and do not support growth of *Listeria monocytogenes*.

Invited presentation - International Poultry Council, Spring Meeting, Madrid, Spain, April 4, 2008. A consensus concerning *Salmonella*.

Invited presentation - Taco Bell, 2008 Supplier Summit, Irvine, CA, April 23, 2008. Putting the STEC in meat issue in perspective.

Invited presentation - New York Academy of Sciences, Symposium on "Roots of Foodborne Illnesses: Health Threats from Domestic and Imported Product," New York, NY, April 21, 2008. From wild pigs and spinach to tilapia in Asia: Current microbiological food safety concerns.

Invited presentation - FoodPAC, Steering Committee Meeting, Athens, GA, May 1, 2008. Reduction of *Salmonella* in preharvest poultry

Invited presentation - DRI-The Voice of the Defense Bar, Food Liability: Defending the Industry Seminar, Chicago, IL, May 8, 2008. Is a foreign food product the source or not?

Invited presentation - American Society for Microbiology 108th Annual General Meeting, Emerging Issues in Food Safety: Impact of Globalization of the Food Supply Symposium, Boston, MA, June 2, 2008. Global issues associated with the microbial safety of food.

Invited presentation - European Food Safety Authority, Conference on "Future Challenges to Microbial Food Safety," Wolfheze, The Netherlands, June 9, 2008. Microbiological food safety threats: What have we learned and what's in the future?

Invited presentation - American Society for Microbiology, Conference on Antimicrobial Resistance in Zoonotic Bacteria and Foodborne Pathogens, Copenhagen, Denmark, June 16, 2008. Food processing interventions to minimize bacterial contamination.

Invited presentation - National Foundation for Infectious Diseases, 2008 Annual Conference on Antimicrobial Resistance, Symposium on Resistance Pathogens in Foods We Eat, Bethesda, MD, June 24, 2008. Interventions to prevent contamination of foods we eat.

Invited presentation - Georgia Poultry Federation, Summer Leadership Conference, Ponte Vedra, FL, July 21, 2008. *Salmonella* control in poultry.

Invited presentation, Georgia Environmental Health Association, Annual Educational Conference, Helen, GA, July 11, 2008. Microbiological food safety issues associated with imported foods.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, Special Session, Round Table on Leafy Greens: An Integrated Risk Management Approach, Columbus, OH, August 5, 2008. A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens.

Invited presentation, International Association for Food Protection, 2008 Annual Meeting, bioMerieux Scientific Symposium, Columbus, OH, August 5, 2008. Significance of non-O157 Shiga toxin-producing *E. coli* (STEC) as foodborne pathogens.

Invited keynote lecture, International Association for Food Protection, 95th Annual Meeting, John H. Silliker Lecture, Columbus, OH, August 6, 2008, From wild pigs in spinach to tilapia in Asia: The challenges of the food safety community.

Invited presentation, University of Georgia-Centers for Disease Control and Prevention, Research Collaboration Conference, Athens, GA, August 19, 2008. Food safety and food security.

Invited podcast, CDC Software, Atlanta, GA, August 21, 2008. The true business impact of food safety and recalls.

Invited presentation, Mars, Inc., Presidents Group, McLean, VA, September 3, 2008. Food safety risk management.

Invited presentation/panel discussion, Paragon Growth Services, Dallas, TX, September 4, 2008. Forum on the antimicrobial Micro Be Gone.

Invited moderator/presentation. Institute of Medicine Food Forum Workshop. Managing Food Safety Practices from Farm to Table, Washington, DC, September 9, 2008. Future Solutions: Where Do We Go From Here?

Invited presentation, Fresh Express Safety Research Conference, Monterey, CA, September 11, 2008. Subsurface contamination and internalization of *Escherichia coli* O157:H7 in preharvest lettuce.

Invited presentation, International Poultry Council, Fall Meeting, Beijing, China, September 25, 2008. An update on the global *Salmonella* study.

Invited presentation, Georgia Department of Economic Development, UGA Faculty of Infectious Diseases Briefing, Athens, GA, September 30, 2008. UGA Center for Food Safety outreach and research activities.

Invited presentation, McDonald's, Food Safety Advisory Council Meeting, Oak Brook, IL, October 9, 2008. Overview of food safety issues facing the food service industry.

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Town Hall Meeting, Orlando, FL, October 24, 2008, A candid discussion of foodborne disease investigations: What's ahead for produce safety?

Invited presentation, Produce Marketing Association, Fresh Summit International Convention & Expo, Ask the Expert, Orlando, FL, October 25, 2008, Food safety education and produce safety issues.

Invited presentation - University of Maryland Joint Institute for Food Safety and Applied Nutrition and International Life Sciences Institute, Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns Workshop, College Park, MD, November 18, 2008. Multi-sector perspectives on dietary exposure assessment tools.

Invited presentation, Sensient Technologies, Milwaukee, WI, December 3, 2008. The safety of food ingredients: Challenges and opportunities.

Invited presentation, Centers for Disease Control and Prevention, Exploring the Isolation of *Clostridium difficile* from Meat Workshop, Atlanta, GA, December 16, 2008, Microbiological issues associated with detection *C. difficile* in meat.

Invited presentation, Mars, Inc., Mars Scientific Advisory Council Annual Meeting, New York, NY, January 6, 9, 2009, Food Safety.

Invited presentation, National Chicken Council, Technical and Regulatory Committee Meeting, Arlington, VA, February 19, 2009. Establishing a World Class Approach to Food Safety.

Keynote presentation. Chicago Section of the Institute of Food Technologists, Des Plaines, IL, March 10, 2009, Global Food Safety from a Microbiologist's Point of View.

Invited presentation, American Peanut Council, Washington, DC, March 12, 2009. Microbiological Safety of Processed Peanut Products.

Invited presentation. 13th International Conference on Emerging Infectious Diseases of the Pacific Rim: Focus on Enteric Diseases, Kolkata (Calcutta), India, April 7, 2009, An Explosion of Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation. 12th World Congress on Public Health, Istanbul, Turkey, April 29, 2009. A Global View of Food Safety.

Invited presentation. Atlanta Association of Healthcare Journalists, Atlanta, GA, May 19, 2009. High Risk Foods of Recent Concern.

Invited presentation. General Mills, Minneapolis, MN, May 28, 2009. The Safety of Food Ingredients: Challenges and Opportunities.

Invited presentation. National Confectioners Association and American Peanut Council Webinar on Nut Handling and Processing for Confectioners and Small Nut Processors, June 2, 2009. The Microbiology of Nuts.

Invited presentation. USA Peanut Congress (American Peanut Council and American Peanut Shellers Association), Amelia Island, FL, June 22, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. U.S. Department of Agriculture, Cooperative State Research Education and Extension Service, Grapevine, TX, July 11, 2009. A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh-cut Leafy Greens.

Invited presentation. Mars Inc., Mars Scientific Advisory Council, Waltham, England, July 28, 2009. Rapid Methods for Detecting *Salmonella* in Foods.

Invited presentation. Institute of Medicine Food Forum, Forum on Reducing Sodium in the Food Supply, Washington, DC, August 5, 2009. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited Keynote presentation. 63rd Annual Meeting of the Southern Legislative Conference, Winston-Salem, NC, August 15, 2009. Food Safety in Transition.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States National Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Opening Address.

Invited presentation. The 2nd Korean Academy of Science and Technology-United States Academies Bilateral Symposium, Science of Food Safety Risk Assessment, Seoul, South Korea, August 24, 2009. Risk Assessment Perspectives from the United States.

Invited presentation. Grocery Manufacturers Association, Executive Conference, Colorado Springs, CO, August 31, 2009. Food Safety in the 21st Century: What Will It Take to Make Real Progress; Food Safety Challenges that May Keep You Awake at Night.

Invited presentation. National Pecan Shellers Association, 2009 Annual Meeting, Chicago, IL, September 11, 2009. Good Manufacturing Practices for Processing Nuts.

Invited Keynote presentation. Association of Food and Drug Officials of the Southern States, Fall Educational Conference 2009, Gatlinburg, TN, September 14, 2009. From Cookie Dough to Fruits and Nuts: The Challenges of Keeping *Salmonella* under Control.

Invited presentation. 2009 Georgia Peanut Tour (Georgia Peanut Commission), Hot Topics on Peanuts Symposium, Douglas, GA, September 15, 2009. Preventing *Salmonella* Contamination of Peanut Products.

Invited presentation. 2009 Agri-Leaders Forum, Griffin, GA, September 16, 2009. Current Food Safety Issues.

Invited presentation, Frito Lay Quality College, Webinar, October 8, 2009. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, The Israeli Presidential Conference 2009. Facing Tomorrow (Futuring Conference), Jerusalem, Israel, October 22, 2009. What Will We Eat Tomorrow? An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oak Brook, IL, October 27, 2009. Key Food Safety Topics for the McDonald's System.

Invited presentation, Institute of Medicine Food Forum, Providing Healthy and Safe Foods as We Age Workshop, Washington, DC, October 29, 2009. Processing and Formulation Advances to Decrease Food Safety Risks.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 3, 2009. The Increasing Challenges to Ensuring Safe Foods Globally.

Invited presentation, 4th International Conference for Food Safety and Quality, Redondo Beach, CA, November 4, 2009. Decreasing Food Safety Risks Through Advances in Processing and Formulation.

Invited Keynote presentation, 2009 Food Safety and Public Policy International Conference and 5th International Forum on Food Safety, Shanghai, China, November 9, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited Keynote presentation, 2009 Ohio State University Harris Award Lecture, Columbus, OH, November 5, 2009. From Burgers to Tilapia: The Increasing Challenges to Ensuring Safe Foods.

Invited Keynote presentation, 2009 Mini-Summit: Food Safety and Trade Initiative, Shanghai Ocean University, Shanghai Academy of agricultural Sciences and University of Georgia. Athens, GA, November 23, 2009. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Centers for Disease Control and Prevention, Annual Grand Rounds, Atlanta, GA, December 17, 2009. Foodborne Disease: Better Prevention by Improving Surveillance and Investigation - A Perspective on the Food Industry.

Invited plenary presentation, Legislative Agriculture Chairs Summit 2010, Council of State Governments and State Agriculture and Rural Leaders, Orlando, FL, January 17, 2010. The Role of States in Food Safety.

Invited presentation, Atlanta Media Event, University of Georgia, Atlanta, GA, January 21, 2010. Food Safety Updates and Pending Food Safety Policy Changes.

Invited presentation, International Life Sciences Institute Annual Meeting, Rio Grande, Puerto Rico, January 25, 2010. Food Safety Concerns Associated with Reducing Sodium in Foods.

Invited presentation, 2010 Georgia Ag Forecast, University of Georgia College of Agricultural and Environmental Sciences, Macon, GA, January 29, 2010. The Changing Face of Food Safety in the United States.

Invited presentation, Assuring Safety of Imported Foods: Public and Private Roles in a Risk-based System Workshop, The Food Safety Research Consortium and the University of Florida Emerging Pathogens Institute, Washington, DC, February 1, 2010. Tools and Approaches to Evaluating Risk and Targeting Resources.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited keynote presentation, 5th Saudi Conference for Food and Nutrition, Riyadh, Saudi Arabia, February 10, 2010. Need for Effective, Internationally Accepted Food Safety Management Systems.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), Cornell University, Rochester, NY, February 19, 2010. Composting Criteria for Animal Manure.

Invited presentation, Seminar Series, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, February 22, 2010. Research Activities at the University of Georgia Center for Food Safety.

Invited presentation, Seminar, Kagoshima University (Japan), Griffin, GA, March 10, 2010. Food Safety Research Activity of the UGA Center for Food Safety.

Invited presentation/panelist, 2010 Food Safety Education Conference, U.S. Department of Agriculture and National Sanitation Foundation, March 24, 2010. Causes and Casualties: Gathering, Analyzing, and Learning from the Data.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. Composting Criteria for Animal Manure.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Georgia, Tifton, GA, March 25, 2010. The Importance of Produce Safety Management Practices to Enhancing Public Health.

Invited presentation, Stakeholders' Discussion Series, Produce Safety Project (Pew Charitable Trusts), University of Maryland, College Park, MD, April 7, 2010. Composting Criteria for Animal Manure.

Invited presentation, Education Day, Griffin Chamber of Commerce Leadership Class, Griffin, GA, April 9, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Seminar Series, U.S. Department of Agriculture – Agricultural Research Service, Wyndmoor, PA, April 12, 2010. Gaps in Producing Microbiologically Safe Produce.

Invited presentation, Health Journalism 2010, Association of Health Care Journalists, Chicago, IL, April 23, 2010. Why Is It So Difficult to Prevent Foodborne Illnesses?

Invited keynote presentation, 1st Korean International Conference on Food Safety and Quality, Seoul, South Korea, April 28, 2010. An Explosion of Global Food Exports: A Challenge for the Food Safety Community.

Invited presentation, Scientific Advisory Council Meeting, Solae, St. Louis, MO, May 5, 2010. Food Safety in the Plant – Best Practices in the Industry.

Invited presentation/moderator, Development of Dietary Guidance for Non-nutrient Dietary Components Meeting, Institute of Medicine Food Forum and International Life Sciences Institute - North America, Washington, DC, June 8, 2010. Discussion of Opportunities for Providing Dietary Guidance for Non-nutrient Dietary Components.

Invited keynote presentation, Frito-Lay Co-manufacturing Quality Summit, Dallas, TX, June 9, 2010. Charting the Course for Ensuring the Manufacture of Safe Food.

Invited presentation, USA Poultry and Egg Export Council Executive Conference and Annual Meeting, Austin, TX, June 18, 2010. International Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Produce Research Symposium, University of California – Davis Center for Produce Safety, Davis, CA, June 24, 2010. Composting Criteria for Animal Manure.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, May 27, 2010. Industry Challenges for Food Safety for Next 5 Years.

Invited keynote presentation, Frito-Lay Quality College, Dallas, TX, July 14, 2010. Charting the Course for Ensuring the Manufacture of Safe Foods.

Invited presentation, Oscar Mayer Meat Science Summit, Madison, WI, July 22, 2010. "Natural" Approaches to Mitigating Foodborne Pathogen Contamination of Meats.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. Ecology of *Listeria monocytogenes*: Factors that Make This Microbe an Effective Foodborne Pathogen.

Invited Presentation, Food Safety Symposium, 147th Annual Convention, American Veterinary Medical Association, Atlanta, GA, August 1, 2010. New Technologies to Control *Listeriae* Contamination of Foods.

Invited plenary lecture, 22nd International Congress on Microbiology and Food Hygiene (ICMFH), Food Micro 2010 Congress, Copenhagen, Denmark, September 2, 2010. Microbial Behavior in Food Production.

Invited presentation, Food Safety Briefing, U.S. Representative John Barrow (Savannah, GA) and Staff, Athens, GA, September 13, 2010. Food Safety Challenges for the Food Industry: Opportunities for Government Involvement.

Invited presentation, Scientific Food Safety, Webinar, USDA – Food Safety Inspection Service, The Office of Public Health Science and The Office of Outreach, Employee Education and Training, Washington, DC, September 15, 2010. Reducing Pathogen Contamination on the Farm.

Invited keynote presentation, Nation's Restaurant News Food Safety Symposium, Charlotte, NC, September 20, 2010. Food Safety Challenges: Greater Than Ever and Growing.

Invited presentation, 2010 Food Safety Symposium, Nestle Purina PetCare Company, Englewood, CO, September 27, 2010. Food Safety Challenges for the Industry: Greater Than Ever and Growing.

Invited presentation, Plant Foods for Human Health Symposium, Healthy Foods, Healthy Lives Institute, University of Minnesota, St. Paul, MN, September 30, 2010. Plant Food Safety Issues.

Invited presentation, Food Safety Advisory Council Meeting, McDonald's, Oak Brook, IL, October 11, 2010. Emerging Food Safety Challenges and Opportunities.

Invited presentation, Seminar Series, Center for Drug Discovery, University of Georgia, Athens, GA, October 18, 2010. A Unique and Effective Antimicrobial Treatment for Foods with Medical Applications.

Invited presentation, Food Safety Review Group Meeting, Kellogg's, Battle Creek, MI, November 10, 2010. Strategies for Promoting Food Safety Globally.

Invited presentation, Seminar Series, Gwinnett County Environmental Health Department, Gwinnett, GA, November 22, 2010. An effective food wash for decontaminating produce and poultry.

Invited presentation/interview, WKEU Radio, Griffin, GA, November 23, 2010 (90 minutes). What's New in Food Safety?

Invited presentation, Seminar Series, U.S. Food and Drug Administration, College Park, MD, December 7, 2010. Opportunities for Raising the Bar for Food Safety.

Invited presentation, Core Seminar Series, Ecolab, St. Paul, MN, December 16, 2010. Food Safety Challenges for the Food Industry: Greater Than Ever and Growing.

Invited presentation, American Farm Bureau Federation Tour, January 7, 2011. Research Activities at the Food Safety Challenges for the Industry: Greater than Ever and Growing.

Invited presentation, Food Processing Media Tour, Georgia Department of Economic Development, Atlanta, GA, March 16, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Drinking Raw Milk.

Invited presentation, Georgia Nutrition Council Annual Meeting, Athens, GA. February 24, 2011. Risk of Eating Fresh Produce.

Invited presentation, Center for Food Safety Annual Meeting, Atlanta, GA, March 1, 2011. Tribute to Bruce Cords.

Invited presentation, General Mills Internal Technical Conference, Minneapolis, MN, March 3, 2011. Microbiological Food Safety Challenges for Produce Developers.

Invited presentation, International Poultry Council Spring Meeting, Rome, Italy, April 7, 2011. International Expert Working Group Report on Setting *Salmonella* Criteria for Raw Poultry.

Invited presentation, Georgia Council for International Visitors, Pakistan Scientists, Griffin, GA, May 6, 2011. Research Activities at the UGA Center for Food Safety.

Invited keynote presentation, Symposium, American Society for Microbiology Annual Meeting, New Orleans, LA, May 23, 2011. The Food Safety Risks Associated with a Global Food Supply.

Invited Media Interview, American Society for Microbiologists Annual Meeting, New Orleans, LA. May 23, 2011. Impact of Globalization on the Food Supply.

Invited Member/presentation, Solae Science Advisory Board, St. Louis, MO, May 24, 2011. Food Safety & Modernization Act & FDA's Reportable Food Registry: Perspective for Food Ingredient Suppliers.

Invited keynote presentation, NSF Workshop, Atlanta, GA, June 16, 2011. Current Issues in Food Safety and the Need for Rapid Pathogen Detection.

Invited keynote speaker, U.S. Food and Drug Administration's 1st Annual Foods Program Science and Research Conference. Washington, DC, June 22, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges

Invited presentation, Radio Interview, WKEU, Griffin, GA, June 23, 2011. Food Safety.

Invited presentation, Girl Scouts of Greater Atlanta Robotics Team Food Safety Tour, Griffin, GA June 23, 2011. Research Activities at the UGA Center for Food Safety.

Invited presentation, IAFP 2011 Annual Meeting, Milwaukee, WI, August 3, 2011. Microbiological Safety of Spices: A Paradigm Shift.

Invited presentation, ConAgra Foods Food Safety Advisory Council, Chicago, IL, August 10, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited Lecturer, Association of Food and Drug Officials of the Southern States, Fall 2011 Conference, Gatlinburg, TN, September 13, 2011. The Changing Dynamics of the U.S. Food Supply.

Invited Seminar Presentation, Poultry Diagnostic and Research Center, University of Georgia, Athens, GA, September 19, 2011. Reducing *Salmonella* contamination with levulinic acid and a surfactant.

Invited Presentation, Nestlé Purina PetCare Food Safety Symposium, Denver, CO, September 27, 2011. Future Trends in Food Safety.

Invited Keynote presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, October 3, 2011. The Changing Dynamics of the U.S. Food Supply: Can FDA Science-based Food Safety Rules and Inspection Systems Keep Pace with the Challenges?

Invited presentation, National Restaurant Association QA Study Group Meeting, Atlanta, GA, "Afternoon of Science" Workshop. October 3, 2011. The *E. coli* Outbreak that Rocked Germany (and the EU).

Invited presentation, McDonald's Food Safety Advisory Council Meeting, Oakbrook, IL, October 19-20, 2011. Current Topics in Food Safety.

E. coli FAQ Report Invited contributor. American Society for Microbiology, Washington, DC, 2011.

Invited presentation, Conference on Emerging and Persistent Infectious Disease: Focus on Mitigation,

Institute on Science for Global Policy, Edinburgh, Scotland, October 23-26, 2011. The public health significance of food safety.

Invited presentation, EPS Montreal International Gene Conference, Montreal, Quebec, Canada, November 3-4, 2011. Reducing the Carriage of Food borne Pathogens in Livestock and Poultry.

Invited panelist and presentation, Les Dames d'Escoffier International Conference, Atlanta, GA, November 4, 2011. What Not to Eat Today: Allergens, Pathogens, Toxins! Oh My!

Invited keynote presentation, 6th International Conference for Food Safety and Quality, Chicago, IL, November 8, 2011. The Importance of Detection Methods for Food Safety and Quality.

Invited keynote presentation and Invited Panel Member, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 19, 2011. Public Health and Microbiology Food Safety Challenges for the Food Industry.

Invited presentation, 5th Conference on Scientific Research in Jordan, Amman, Jordan, November 20, 2011. Antibiotic Resistance: Implications for the Food System.

Invited Speaker, FDA, CDC, USDA FSIS, USDA ARS, and USDA CNPP Public Meeting, Silver Spring, MD, November 10, 2011. Approaches to Reducing Sodium Consumption.

Invited presentation, Institute of Medicine/Forum on Microbial Threats. Washington, DC, December 13-14, 2011. Plant Food Safety Issues: Linking Production Agriculture with One Health.

Invited presentation, UGA Support Group, Athens, GA, January 12, 2012. UGA Center for Food Safety's Leadership Role in Advancing Food Safety Issues Nationally and Internationally.

Invited presentation, Food Safety Workshop, "Human Pathogens on Plants: Multidisciplinary Strategy for Research," University of Maryland, Hyattsville, MD, February 13-15, 2012.

Invited presentation, Bettcher Industrial/Gainco Industry Council, Atlanta, GA, March 9, 2012. Food Safety: Impact of New Food Safety Regulations including the Food Safety Modernization Act and *Salmonella* Initiative on the Food and Beverage Industry.

Invited Symposium presentation, 63rd North Central Avian Disease Conference, St. Paul, MN, March 12-13, 2012. Controlling Foodborne Bacterial Pathogens in Poultry.

Invited speaker, Massachusetts Institute of Technology Journalists' Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 27-30, 2012. Food Safety – A glimpse at the future.

Invited keynote speaker. Georgia Food Safety Defense Task Force, Decatur, GA, April 5, 2012. "VoluntaryNet: A CDC-Food Industry-UGA Center for Food Safety Food Safety Collaboration.

Invited presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012, "Food additives: Challenges while delivering food safety."

Invited keynote presentation, International Union of Food Science and Technology, International Forum on Food Safety, Beijing, China, April 16-20, 2012. “A glimpse at the future of food safety.”

Invited presentation, Institute of Medicine, National Academies of Science Workshop on Environmental Externalities and Public Health Effects of Food Products. Washington, DC, April 23-24, 2012. Public health consequences of antimicrobial resistance.

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2012. The ecology of safe food.

Invited Expert. Radio Station WKEU, Griffin, GA, Asian Fish Imports, 2012.

Invited presentation, American Association for Dental Research, 2012, A novel formulation effective in killing oral biofilm bacteria, Tampa, FL.

Invited presentation, 10th Fumigants & Pheromones Conference & Workshop, “Pest Management Around the World.” Indianapolis, IN, May 16-18, 2012. The Changing Dynamics of the US Food Supply and Major Food Safety Implications.

Invited presentation and convener, ASM Annual Meeting Special Interest Symposium. San Francisco, CA, June 17, 2012. Striking the balance in fresh product: Food safety, animal control, water sourcing and environmental impact – research issues in microbiology.

Invited Presentation, ASM General Meeting, San Francisco, CA, June 17, 2012. “Produce Safety – A growing public health concern?”

Invited Keynote Dinner Presentation, Global ATM Summit, The Solae Company, , St. Louis, MO , June 21, 2012. “Food/ingredient safety issues and trends.”

Invited presentation, IFT Annual Meeting, Las Vegas, NV, June 24-28, 2012. Improving the Safety of Fresh Produce: An Integrated Approach.

Invited Reviewer, “Biotechnological approaches for control of *Listeria monocytogenes* in foods,” Current Biotechnology,” June 2012.

Invited video presentation, World Food Prize Borlaug Medallion video. June 2012. UGA Center for Food Safety Research,

Invited Presentation, Georgia Poultry Federation, Ponte Vedra Beach, FL, July 19, 2012. Reducing *Salmonella* contamination of Poultry with levulinic acid and a detergent.

Invited presentation, 2012. World Poultry Congress, Salvador, Bahia, Brazil, August 5-8, 2012. The Next Generation of Microbiological Testing of Foods.

Invited presentation, CAES Advisory Council, Griffin, GA, August 15, 2012, “The changing dynamics of the U.S. food supply and major food safety challenges.”

Invited presentation, CDC PulseNet/OutbreakNet Conference, Atlanta, GA, August 27-30, 2012. An Academic's Perspective on the Food Industry to Ensuring Safe Foods.

Invited presentation, Nestlé Purine PetCare Company, Food Safety Symposium, Englewood, CO, September 24-27, 2012. Future Trends in Food Safety: The Changing Dynamics of the U.S. Food Supply and Major Food Safety Challenges.

Invited presentation, UGA Center for Food Safety, Griffin, GA, September 30, 2012. Visiting scientists from the Dominican Republic, "Research Activities at the UGA Center for Food Safety."

Invited presentation and Chair, McDonald's Food Safety Advisory Council Meeting. Oak Brook, IL, October 16-17, 2012. What does it take to be an industry leader in ensuring the safety of foods?

Invited presentation, SSAFE Board Meeting. Chateau Elan, Winder, GA, October 21, 2013. Global Food Safety: Challenges and Opportunities.

Invited keynote presentation, XXI Latin American Congress of Microbiology Santos, Sao Paulo, Brazil, , October 29-November 1, 2012. "The Safety of Our Foods: A glimpse at the Future of the Microbiological Safety of Foods.

Invited Speaker, The Pew Charitable Trusts, "Foodborne Urinary Tract Infections (FUTIs): Assessing the State of the Science.cathy" Washington, DC, February 11-12, 2013.

Invited participant, Georgia Dept of Agriculture, Atlanta, GA, March 20, 2013. FSMA Proposed Produce Safety Rule.

Invited speaker, Massachusetts Institute of Technology Journalists' Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 26-29, 2013. Food Safety – A glimpse at the future.

Invited presentation, DuPont-Solae SAB Meeting, May 23, 2013. "The effect of globalization and the FDA-FSMA on managing food safety by food ingredient manufacturers."

Invited presentation, Georgia Veterinary Scholars Program, Athens, GA, May 16, 2013. The ecology of safe food.

Invited presentation/interview, WKEU Radio, Griffin, GA, Summer Food Safety June 18, 2013 (90 minutes).

Invited Presentation, July 18, 2013. Poultry-related food safety research at the UGA Center for Food Safety. Georgia Poultry Federation, Ponte Vedra Beach, FL

Invited keynote speaker. 7th International Conference for Food Safety and Quality, Chicago, IL, November 13-14, 2012. "The importance of detection methods for food safety and quality."

Invited presentation. 2013. Federation of Animal Science Societies, Washington, DC, June 4, 2013, "IFT Status Summary on "Antibiotic Resistance,"

Invited Speaker. Korean Food Association Annual Meeting, South Korea, Innovations in Food Science for 02/2015

Human Well-Being as a key expert. “A Glimpse at the Future of the Microbiological Safety of Foods,” August 28-30, 2013.

Invited presentation, Osher Lifelong Learning Institute, University of Georgia, Athens, GA, November 22, 2013. “Food Safety: A Glimpse at the Future.”

Invited Presentation, Nestle Purina 2013 Food Safety Symposium, September 26, 2013, “Future Trends in Food Safety,” Englewood, CO.

Invited Presentation, 2nd Annual World Congress of Food Science and Technology, Hangzhou, CHINA. September 22-26, 2013, Innovative Approaches for Reduction of Foodborne Pathogens on Products, (presented by Tong Zhao).

Invited Speaker, 3rd Asia Pacific International Conference on Food Safety, Taipei, Taiwan, October 29 to November 1, 2013.

Invited Speaker, Kiwanis Club of Griffin Farm City Week, November 27, 2013. Protecting the Nation’s Food Supply.

Invited presentation, International Life Sciences Institute (ILSI) Annual Meeting/FNSP Meeting, South Hampton, Bermuda, January 19, 2014. Food Safety Emerging Issues.

Invited presentation, International Life Sciences Institute (ILSI), South Hampton, Bermuda, January 21, 2014. One ILSI: Food and Water Safety.

Invited Speaker. U.S. Food and Drug Law Institute and Emory School of Law, Atlanta, GA. January 29, 2014. CDC/FDA: Cooperation and Coordination: FSMA, Food Outbreaks, Emerging Health Issues.

Invited panelist, WATT Global Media, “Consumer Trust in Poultry.” Bridging the gap between where we are and where we need to be, Atlanta, GA, January 29, 2014.

Invited speaker, Massachusetts Institute of Technology Journalists’ Workshop on Food – An MIT Boot Camp. Cambridge, MA, March 25-28, 2014. Food Safety – A glimpse at the future.

Invited Speaker, American Academy of Microbiology, Days of Microbiology, Belgrade, Serbia. April, 2014. Chemical Treatments to Kill Foodborne Pathogens. (Virtual Presentation).

Invited participant, Webcast, WATT Publishing, “Consumer trust and poultry; Bridging the gap between where we are and need to be.” April 10, 2014.

Invited Keynote Speaker, Pest Invasion. Oakbrook Terrace, IL. “Food Borne Illness Case Studies and Prevention. April 15, 2014.

Invited Co-Chair, International Food Information Council (IFIC), IFIC Physicians Roundtable on Antibiotic resistance, Washington, DC, April 16-17, 2014.

Invited Presentation, International Food Information Council (IFIC), IFIC Physicians Roundtable on
02/2015

Antibiotic Resistance, “Facing the Challenge of Food,” Washington, DC, April 16, 2014.

Invited presentation, Georgia Council for International Visitors, Chinese Scientists, Griffin, GA, April 21, 2014. Research Activities at the UGA Center for Food Safety on food and produce safety.

Invited Presentation, UGA College of Veterinary Medicine. May 14, 2014. The Ecology of Safe Food.

Invited Presentation. DuPont Scientific Advisory Council. Future directions: impact of CDC’s foodborne disease surveillance, FDA/DOJ regulatory activity, and consumer attitudes regarding food ingredients/food additives, St. Louis, MO, May 14, 2014.

Invited Speaker. Athens Businessmen’s Group, Athens, GA. Research at University of Georgia Center for Food Safety, “Food safety: A glimpse at the future.” May 18, 2014.

Invited Participant. Collaborative Food Safety Forum Workshop. Washington, DC, June 28, 2014.

Invited Presenter, Roundtable, Public and Private Food Safety Research Funding: Where should the money go? International Association for Food Protection Annual Meeting, Indianapolis, IN, August 6, 2014.

Invited Keynote Dinner Speaker. National Science Foundation Workshop, Alexandria, VA, “Food Safety Challenges: Research Opportunities for NSF.” October 29, 2014.

Invited Speaker. Assoc. Food & Drug Offic. of Southern States (AFDOSS), Gatlinburg, TN, “Increasing opportunities in food safety: In search of solutions,” September 8, 2014.

Invited Speaker, Nestle Purina Food Safety Symposium, Denver, CO. “New Trends in Food Safety,” Sept. 22-25, 2014.

Invited Seminar Speaker, 2014. FDA Southeast Region Retail Food Safety Seminar in Savannah, GA

Invited Speaker. National Extension and Experiment Station Directors meeting, Jekyll Island, GA, September 29-October 1, 2014.

Invited Expert Speaker. Intl. Food Information Council (IFIC) Foundation 2014 Farm Tour for Registered Dietitians, “State of US Agriculture, Pressures on Farmers, Poultry Safety Issues and Use of Animal Antibiotics on the Farm,” Atlanta, GA, Oct. 17, 2014.

Invited Speaker, 2015 One Health Seminar, Univ of GA, Athens, GA. Safe Foods through “One Health,” January 14, 2015.

Invited Seminar Speaker, Jan. 2015. Safe Foods through One Health, University of Georgia, Athens, GA

Invited Keynote Speaker. 2016. Frazier Lecture, Food Research Institute, University of Wisconsin-Madison, May, 2016.

Invited Keynote Speaker. Southern Section of AOAC International 29th Annual Meeting , Challenges in Food Protection: A Global Opportunity, April 14, 2015.

02/2015

Invited Keynote Speaker, 29th Annual Meeting of the Southern Section of the AOAC International in Atlanta, GA, April 14, 2015. “Challenges in Food Protection: A Global Opportunity”

Invited Lecture , Introductory Microbiology, University of Georgia, Athens, Georgia, September 18, 2015.

Invited Speaker, UGA Arch Alumni Seminar, “Facing the Challenges of Safe Food”, Athens, GA, May 2, 2015.

Invited Speaker, Georgia Veterinary Scholars Program, “The Ecology of Safe Food”, University of Georgia, Athens, GA, May 15, 2015.

Invited Speaker, Coca-Cola Global Microbiology Meeting, “Microbiology of Beverages”, Atlanta, Georgia, July 21, 2015.

Invited Keynote Speaker, 32nd World Veterinary Congress, “A Global View on Safety of Foods of Animal Origin.” Istanbul, Turkey, September 14. 2015.

Invited Panelist, Project Review Scientific Advisory Group for Bolthouse Farms. Campbell World Headquarters, Camden, New Jersey, 2015.

RESEARCH SUPPORT

Tyson Foods, Inc., Center for Food Safety Research, June 2015-June 2016, \$5,000.00 (PI)

Chick-fil-A, Gift, Center for Food Saety Research, June 2015-June 2016, \$5,000.00 (PI)

Starbucks, Gift, Center for Food Safety Research, June 2015-June 2016, \$25,000.00. (PI)

Heinz, Gift, Center for Food Safety Research, June 2015-June 2016, \$25,000.00. (PI)

Kroger Co., Gift, Center for Food Safety Research, June 2015-June 2016, \$5000.00. (PI)

Neogen Corporation, Gift, Center for Food Safety Research, May 2015-May 2016, \$5,000. (PI)

Hormel Foods Corporation, Gift, Center for Food Safety Research, May 2015-May 2016. \$25,000.00

ConAgra Foods, Gift, Center for Food Safety Resarch, May 2015-May 2016. \$25,000.00

The Coca-Cola Company, Gift, Center for Food Safety Research, May 2015-May 2016. (PI)

Foster Farms, Gift, Center for Food Safety Research, May 2015-May 2016, \$25,000.00 (PI)

Ecolab, Gift, Center for Food Safety Research, May 2015-May 2016, \$25,000.00 (PI)

MOM Brands, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000.00 (PI)

Earthbound Farm, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

02/2015

East Balt Bakeries, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000.00 (PI)

General Mills, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

The Cheesecake Factory, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000 (PI)

Burger King Corp., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Roka Bioscience, Inc., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Wegmans Food Markets, Inc., Center for Food Safety Research, December 2014-December 2015, \$5,000(PI)

Chobani, Gift, Center for Food Safety Research, March 2015-March 2015-March 2016, \$20,000 (PI)

Avendra LLC, Gift, Center for Food Safety Research, February 2015-February 2016, \$2,500 (PI)

Golden State Foods, Gift, Center for Food Safety Research, January 2015-January 2016, \$5,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Solae LLC (DuPont), Gift, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kellogg's, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kraft Foods, Inc., Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Cargill, Inc., Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Fresh Express, Center for Food Safety Research, December 2014-December 2015, \$5000 (PI)

Unilever , Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Loblaw Companies, Ltd., Gift, Center for Food Safety Research, November 2014-November 2015, \$20,000 (PI)

Unilever , Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI)

Jack in the Box, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

Michael Foods, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

BCN Research Laboratories, Center for Food Safety Research, September 2014-September 2015, \$1,000 (PI)

Perdue Farms Inc., Center for Food Safety Research, August 2014-August 2015, \$5,000 (PI)

Mars, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Nestlé, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

McDonald's, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Yum! Brands, Inc., Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Starbucks Coffee Company, Center for Food Safety Research, June 2014-June 2015, \$20,000 (PI)

Kroger, Center for Food Safety Research, June 2014-June 2015, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

American Meat Institute, Center for Food Safety Research May 2014-May 2015, \$1,000 (PI)

Earthbound Farm, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

ConAgra Foods, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

MOM Brands, Center for Food Safety Research, May 2014-May 2015, \$5,000 (PI)

American Meat Institute, Center for Food Safety Research, May 2014-May 2015, \$1,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Chobani, LLC, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Ecolab, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

PepsiCo, Inc., Center for Food Safety Research, Tsunami: Biocide efficacy in potato process water study. April 2014. \$6,875 (PI)

Publix Super Markets, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

The Hershey Co., Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Cheesecake Factory, Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Roka Biosciences, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

Costco, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Unilever United States, Inc., Center for Food Safety Research, March 2014-March 2015, \$10,000 (PI)

Chobani, LLC, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Hillshire Brands, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

General Mills, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Burger King Corp., Center for Food Safety Research, February 2014-February 2015, \$5,525 (PI)

Kraft Foods, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Douglas Scientific, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

East Balt US, LLC, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

Georgia Agricultural Commodity Commission for Vegetables (GACCV), “Evaluation of post-harvest treatments of cantaloupes with levulinic acid and sodium dodecyl sulfate sanitizer for protection against contamination of *Salmonella* spp,” Center for Food Safety Research, January 1-December 31, 2014, \$20,000 (PI)

Unilever United States, Inc., Center for Food Safety Research, January 2014-January 2015, 1st \$5,000 or \$20,000 (PI)

Heinz North America, Center for Food Safety Research, January 2014-January 2015, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, December 2013-December 2014, \$20,000 (PI)

Golden State Foods , Center for Food Safety Research, December 2013-December 2014, \$5,000, (PI)

Wegmans Food Markets, Inc. , Center for Food Safety Research, December 2013-December 2014, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, December 07, 2014, Phase 1 of Biocide Project \$2,687.50

PepsiCo, Center for Food Safety Research, December 29, 2014 , Biocide Project \$4,187.50

Kellogg’s, Center for Food Safety Research, December 2013-December 2014, \$2,500 (PI)

Hormel Foods, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

General Mills, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

ConAgra Foods, Center for Food Safety Research, November 2013-November 2014, \$20,000 (PI)

McDonald’s, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

PepsiCo, Inc., Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

Campbell Soup Co., Center for Food Safety Research, October 2013-October 2014, \$1,000 (PI)

Cargill, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Michael Foods, Center for Food Safety Research, October 2013-October 2014, \$5,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Wegmans Food Markets, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Fresh Express, Inc., Center for Food Safety research, October 2013-October 2014, \$5,000 (PI)

YUM Brands, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Publix Supermarkets, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Publix Super Markets, Inc., VolNet, November, 2014 . \$1,500.00

Earthbound Farm, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Kellogg's, Gift, Center for Food Safety Research, October 2013-October 2014, \$20,000 (PI)

ConAgra Foods, Gift, Center for Food Safety Research, August 2013-August 2014, \$9,892.

Earthbound Farm, Gift, Center for Food Safety Research, August 2013-August 2014, \$9,892

McDonald's, Gift, Center for Food Safety Research, August 2013-August 2014, \$20,000 (PI)

Loblaw Brands Ltd., Gift, Center for Food Safety Research, August 2013-August 2014, \$20,000 (PI)

BCN Laboratories, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$1,000 (PI)

Schreiber Foods, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$5,000 (PI)

Campbell Soup Co., Gift, Center for Food Safety Research, July 2013-July 2014, \$20,000 (PI)

YUM! Brands, Gift, Center for Food Safety Research, July 2013-July 2014, \$20,000 (PI)

Publix Super Markets, Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

YUM! Brands, Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

Cargill, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

ConAgra Foods, Gift, Center for Food Safety Research, June 2013-June 2014, \$9,892 (PI).

Kroger, Gift, Center for Food Safety Research, June 2013-June 2014, \$5,000 (PI).

American Meat Institute, Gift, Center for Food Safety Research, June 2013-June 2014, \$1,000 (PI)

Starbucks Coffee Co., Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

Earthbound Farm, Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety Research, August 2012-August 2013, \$1,000 (PI)

Jack in the Box, Gift, Center for Food Safety Research, August 2012 - August 2013, \$5,000 (PI).

American Meat Institute, Gift, Center for Food Safety Research, Sept 2012-Sept 2013 \$1,000 (PI)

Kroger, Inc., Gift, Center for Food Safety Research, August 2012-August 2013, \$5,000 (PI)

Unilever United States, Inc., Gift, Center for Food Safety Research, July 2012-July 2012, \$20,000 (PI)

McDonald's Corp., Gift, Center for Food Safety Research, July 2012-July 2013, \$20,000 (PI)

Chemstar Corp., Gift, Center for Food Safety Research, June 2012-June 2013, \$20,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, June 2012-June 2013, \$20,000 (PI)

Kellogg's, Gift, Center for Food Safety Research, October 2011 - October 2012, \$20,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety Research, July 2012 - July 2013, \$20,000 (PI).

Chick-fil-A, Inc., Gift, Center for Food Safety Research, May 2012-May 2013, \$5,000

Starbucks Coffee Co., Gift, Center for Food Safety Research, May 2012-May 2013, \$20,000

Schreiber Foods, Gift, Center for Food Safety Research, May 2012-May 2013, \$5,000

The Hershey Co., Gift, Center for Food Safety Research, May 2012-May 2013, \$5,000

Ecolab, Inc., Gift, Center for Food Safety Research, April 2012-April 2013, \$20,000

Hormel Foods, Gift, Center for Food Safety Research, April 2012-April 2013, \$20,000

Earthbound Farm, Gift, Center for Food Safety Research, April 2012-April 2013, \$20,000

The Coca-Cola Company, Gift, Center for Food Safety Research, April 2012-April 2013, \$20,000

Mars, Gift, Center for Food Safety Research, April 2012-April 2013, \$20,000

Roka Bioscience, Inc., Gift, Center for Food Safety Research, April 2012-April 2013, \$5,000

The Cheesecake Factory, Gift, Center for Food Safety Research, April 2012-April 2013, \$5,000

The Clorox Co., Gift, Center for Food Safety Research, April 2012-April 2013, \$5,000

Malt-O-Meal, Gift, Center for Food Safety Research, March 2012-March 2013, \$20,000

Publix Super Markets, Inc, Gift, Center for Food Safety Research, March 2012-March 2013, \$20,000

Mead Johnson Nutrition, Gift, Center for Food Safety Research, March 2012-March 2013, \$20,000

Maxxam Analytics International Corp., Gift, Center for Food Safety Research, February 2012-February 2013, \$5,000

Campbell Soup Co., Gift, Center for Food Safety Research, February 2012-February 2013, \$20,000

Burger King Corp., Gift, Center for Food Safety Research, February 2012-February 2013, \$5,000

Perdue Farms, Inc., Gift, Center for Food Safety Research, February 2012-February 2013, \$1,000

Golden State Foods, Gift, Center for Food Safety Research, February 2012-February 2013, \$5,000

PepsiCo, Gift, Center for Food Safety Research, December 2011 -- December 2012, \$20,000

Wegmans Food Markets, Gift, Center for Food Safety Research, December 2011-- December 2012, \$5,000 (PI)

General Mills, Gift, Center for Food Safety Research, October 2011 – October 2012, \$20,000 (PI)

U.S. Department of Agriculture - Foreign Agricultural Service, Emerging Markets Program, Grant, *Salmonella* concentrations, serotypes and distribution on raw poultry in five emerging market countries, April 2011 - March 2012, \$275,000 (Co-PI).

U.S. Department of Agriculture - AFRI, Grant, "Advanced processing technologies as multiple hurdles to inactivate Shiga toxin-producing *Escherichia coli* (STEC) and viruses during beef processing and on further processed non-intact beef products," January 2011 - December 2016, \$4,998,608 (Co-PI).

American Meat Institute, Gift, Center for Food Safety research, September 2011 – September 2012, \$1,000 (PI)

Sara Lee Foods, Gift, Center for Food Safety research, September 2011 - September 2012, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, September 2011 – September 2012, \$1,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, September 2011 – September 2012, \$2,500 (PI).

Jack in the Box, Gift, Center for Food Safety research, August 2011 - August 2012, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, August 2011 - August 2012, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, July 2011 - July 2012, \$5,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety research, July 2011 - July 2012, \$22,500 (PI).

Kroger, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

General Mills, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

ConAgra Foods, Gift, Center for Food Safety research, July 2011 - July 2012, \$20,000 (PI).

Mott's LLP, Gift, Center for Food Safety research, July 2011 - July 2012, \$100 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

Cargill Incorporated, Gift, Center for Food Safety research, June 2011 - June 2012, \$20,000 (PI).

Maxxam Analytics International Corp., Gift, Center for Food Safety research, June 2011 - June 2012 \$5,000 (PI).

Leprino Foods Company, Gift, Center for Food Safety research, May 2011 - May 2012, \$20,000 (PI).

Land O'Lakes, Inc., Gift, Center for Food Safety research, May 2011 - May 2012, \$5,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, April 2011 - April 2012, \$5,000 (PI).

Unilever United States, Inc., Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Ecolab, Inc., Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Hormel Foods Corporation, Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Chemstar Corporation, Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Roka Bioscience, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

The Hershey Company, Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

The Cheesecake Factory, Gift, Center for Food Safety Research, March 2011 - March 2012, \$5,000 (PI).

BCN Research Laboratories, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$1,000 (PI).

Chick-fil-A, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

Malt-O-Meal Company, Gift, Center for Food Safety research, February 2011 - February 2012, \$20,000 (PI).

Burger King Corp., Gift, Center for Food Safety research, February 2011 - February 2012, \$5,000 (PI).

Georgia Department of Agriculture, 2011 Specialty Crop Block Grant, Grant, Control of Foodborne Pathogens on Fresh Produce (Year 2), July 1, 2011 - June 30, 2012, \$15,000 (Co-PI).

Starbucks Coffee Company, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Cargill, Inc., Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

The Clorox Company, Gift, Center for Food Safety research. December 2010 - December 2011, \$5,000 (PI).

Land O' Frost, Inc., Gift, Center for Food Safety research. December 2010 - December 2011, \$5,000 (PI).

HealthPro Brands Inc. UGARF Research Agreement, Chemical treatment for reduction of yeast, mold and *Salmonella* in produce and fruit. February 17, 2010 - August 31, 2010. \$23,733 (PI).

Danisco, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Kraft Foods Global, Inc., Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Earthbound Farm, Gift, Center for Food Safety research, October 2010 - October 2011, \$20,000 (PI).

Kellogg's, Gift, Center for Food Safety research, October 2010 - October 2011, \$20,000 (PI).

Silliker, Gift, Center for Food Safety research, October 2010 - October 2011, \$5,000 (PI).

Wegmans Food Markets, Inc., Gift, Center for Food Safety research, September 2010 - September 2011, \$5,000. (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2010 - September 2011, \$1,000 (PI).

Fresh Express, Inc., Gift, Center for Food Safety research, September 2010 - September 2011, \$5,000 (PI).

PepsiCo, Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, August 2010 - August 2011, \$5,000 (PI).

Perdue Farms, Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Mead Johnson Nutrition, Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2010 - June 2011, \$5,000 (PI).

Leprino Foods, Gift, Center for Food Safety research, June 2010 - June 2011, \$20,000 (PI).

Campbell's, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Mott's LLP, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Publix Super Markets, Inc., Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$5,000 (PI).

Hormel Foods Corp., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

BCN Research Laboratories, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$1,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, April 2010 - April 2011, \$2,500 (PI).

Ecolab, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

ACH Food Companies, Inc., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

The Cheesecake Factory, Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Grocery Manufacturers Assn., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, February 2010 - February 2011, \$5,000 (PI).

HealthPro Brands, Grant, Chemical treatment for reduction of yeast, mold and *Salmonella* on produce, February 2010 - August 2010, \$23,733 (PI).

Michael Foods, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Fresh Express, Grant, Subsurface contamination and internalization of *E. coli* O157:H7 in preharvest lettuce, June 2007-June 2008, \$246,976 (PI)

Ross Systems, Gift, Center for Food Safety research, May 2007-May 2008, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2007-May 2008, \$20,000 (PI)

McDonald's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,000 (PI)

Unilever, Gift, Center for Food Safety research, May 2007-May 2008, \$5,000 (PI)

Grocery Manufacturers of America-FPA, Gift, Center for Food Safety research, April 2007-April 2008, \$1,000 (PI)

The Hershey Company, Gift, Center for Food Safety research, April 2007-April 2008, \$5,000 (PI)

Burger King Brands, Gift, Center for Food Safety research, February 2007-February 2008, \$5,375 (PI)

Quaker (PepsiCo), Gift, Center for Food Safety research, February 2007-February 2008, \$20,000 (PI)

Praxair, Gift, Center for Food Safety research, January 2007-January 2008, \$1,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2006-December 2007, \$10,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant, Anaerobic vacuum spoilage, December 2006-March 2008, \$24,380 (PI)

McDonald's, Gift, Center for Food Safety research, December 2006-December 2007, \$5,000 (PI)

Sara Lee, Gift, Center for Food Safety research, November 2006-November 2007, \$5,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, October 2006-October 2007, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

The Coca-Cola Company, Gift, Center for Food Safety research, September 2006-September 2007, \$20,000 (PI)

Gerber Products, Gift, Center for Food Safety research, August 2006-August 2007, \$20,000 (PI)

Wal-Mart Stores, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2006-August 2007, \$10,000 (PI)

John Morrell & Co., Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, July 2006-August 2007, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000

Great Eastern Mussel Farms/USDA SBIR, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004-December 2006 \$5,995 (PI)

General Mills, Gift, Center for Food Safety research, July 2006-July 2007, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, April 2006-December 2006, \$120,000 (PI)

Campbell's Gift, Center for Food Safety research, June 2006-June 2007, \$20,300 (PI)

Cargill, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$5,000 (PI)

Wegmans Food Markets, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Food Products Association, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

ConAgra, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Hershey, Gift, Center for Food Safety research, March 2006-March 2007, \$5,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2006-January 2007, \$5,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2006 - December 2006, \$20,000 (PI).

Kraft Foods Global, Gift, Center for Food Safety research, December 2005 - December 2006, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, December 2005 - December 2006, \$2,500 (PI).

Yum Brands, Gift, Center for Food Safety research, November 2005 - November 2006, \$5,000 (PI).

Quaker, Gift, Center for Food Safety research, Center for Food Safety research, November 2005 - November 2006, \$20,000 (PI).

USDA-CSREES NRI, Grant, From egg to carcass: Tracking the entry of poultry foodborne pathogens into the food chain, September 2005 - September 2008, \$890,000 (co-PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Sara Lee, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Bristol-Myers Squibb Company, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

AMI Foundation, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

The Coca-Cola Company, gift, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,500 (PI).

Battelle Memorial Institute (Centers for Disease Control and Prevention Defense Information Center), Contract, Confirmation of mass spectrometry-based analytical method to detect and differentiate active *Clostridium botulinum* toxins by mouse bioassay. September 2005 - December 2006, \$68,500 (PI).

General Mills, Gift, Center for Food Safety Research, September 2005 - September 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, August 2005 - August 2006, \$50,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

University of Georgia Research foundation, Indirect Costs, Food safety research, August 2005, \$6,100 (PI).

John Morrell, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

FoodPAC, Grant, Chemical intervention treatments to inactivate foodborne pathogens on poultry, July 2005 - June 2006, \$87,900 (PI).

American Foods Group, Gift, Center for Food Safety research, June 2005 - June 2006, \$1,000 (PI).

Gerber, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Cargill, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

ConAgra, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Purac America, Gift, Center for Food Safety research, March 2005 - April 2006, \$1,000 (PI).

Unilever Best Foods, Gift, Center for Food Safety research, April 2005 - April 2006, \$20,000 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

Chr. Hansen, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wegman's, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wal-Mart, Gift, Center for Food Safety research, March 2005 - March 2006, \$5,000 (PI).

Campbell's, Gift, Center for Food Safety research, February 2005 - February 2006, \$20,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, February 2005 - February 2006, \$5,000 (PI).

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2005 - December 2005, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, January 2005 - January 2006, \$15,000 (PI).

University of Georgia Research Foundation, Intellectual Property Return Probiotic Vaccine for *E. coli* O157:H7 in cattle, December 2004, \$14,601 (PI).

Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, January 2005-May 2007, \$135,001 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, January 2005-January 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, December 2004-December 2005, \$20,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, November 2004-November 2005, \$2,000 (PI).

John Morrell, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, November 2004-November 2005, \$2,500 (PI).

McDonald's, Gift, Center for Food Safety research, November 2004-November 2005, \$5,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, November 2004-November 2005, \$20,000 (PI).

American Meat Institute, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Abbott Laboratories (Ross Labs), Gift, Center for Food Safety research, October 2004-October 2005, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, October 2004-December 2004, \$5,000 (PI).

U.S. Food and Drug Administration, Contract, Use of packaging film oxygen permeability to allow aerobic spoilage organisms to grow and spoil the product before toxin is produced by *Clostridium botulinum* in fresh fish packaged under modified atmospheres, September 2004-March 2006, \$260,900 (PI).

Pilgrim's Pride, Gift, Center for Food Safety research, September 2004-September 2005, \$5,000 (PI).

The Clorox Company, Contract, Inactivation of *Salmonella* and *Campylobacter jejuni* by stabilized bleach, September 2004-March 2005, \$7,240 (PI).

USDA-NRI, Grant, Microbiological safety of composting process as animal manure treatment, September 30, 2004 - September 30 2007, \$600,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, August 2004-August 2005, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research, August 2004-August 2005, \$1,000 (PI).

Kraft, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, July 2004-July 2005, \$1,000 (PI).

Quaker (PepsiCo), Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

FoodPAC, Grant, Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant, July 2004 - June 2005, \$97,181 (PI)

International Food Protection, Grant, *Salmonella* reduction in poultry by competitive exclusion bacteria, July 2004-December 2004, \$75,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, June 30, 2004 - November 30, 2007, \$138,096 (PI)

Sara Lee, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, June 2004-June 2005, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2004-May 2005, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, May 2004 - June 2005, \$5,000 (PI)

Wegmans, Gift, Center for Food Safety research, May 2004 - June 2005, \$1,000 (PI)

General Mills, Gift, Center for Food Safety, research, April 2004 - May 2005, \$20,000 (PI)

Alpharma, Contract, Evaluation of antimicrobial activity of competitive exclusion bacteria, April 2004, \$500 (PI)

ConAgra, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Arrowsight, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Foods Group, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

Cargill, Gift, Center for Food Safety research, March 2004 - April 2005, \$5,000 (PI)

Michael Foods, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Chr Hansen, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

National Food Processors Association, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Hershey Foods, Gift, Center for Food Safety research, March 2004 - April 2005, \$5,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Wal-Mart, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Unilever Bestfoods, Gift, Center for Food Safety research, February 2004 - March 2005, \$20,000 (PI)

Purac America, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, February 2004 - March 2005, \$1,000 (PI)

McDonald's Gift, Center for Food Safety research, January 2004 - February 2005, \$5,000 (PI)

McDonald's, Gift, Center for Food Safety research, December 2003 - December 2004, \$5,000 (PI).

Kraft Foods, Inc., Grant, Cross-contamination of *Listeria monocytogenes* between slicing equipment and cured or non-cured turkey meat. December 2003 - December 2005, \$130,732 (PI).

The Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit growth of *Clostridium botulinum* in a novel live mussel pack. December 2003 - June 2004, \$25,000 (PI).

Abbott Laboratories (Ross Products Division), Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, October 2003- October 2004, \$2,500 (PI).

Mionix Corporation, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

US Foodservice, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

Campbell's, Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

John Morrell & o., Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle, September 2003 - September 2004, \$69,500 (PI).

American Meat Institute, Grant, Recovery, development and validation of appropriate surrogate microorganisms in meat and poultry emulsions for in-plant critical control point validation studies, September 2003 - September 2004, \$59,850 (PI).

American Meat Institute, Grant, The role of aerosols in transmission of microorganisms (including *Listeria*) in ready-to-eat meat/poultry products, September 2003 - September 2004, \$76,500 (PI).

U.S. Food and Drug Administration, Grant, Development of a waveguide immunoassay for *Yersinia pestis*, September 2003 - September 2006, \$600,000 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues. October 2003-September 2004, \$130,749 (PI).

U.S. Department of Agriculture, CSREES (Iowa State University), Food Safety Initiative Grant, Prioritizing opportunities to reduce foodborne disease. September 2003-September 2005, \$54,321 (PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection. July 2003-June 2005, \$139,309 (PI).

Wayne Farms LLC, Gift, Center for Food Safety research. July 2003-July 2004, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

American Meat Institute Foundation, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle. August 2003-August 2004, \$69,500 (PI).

FoodPAC, Grant, Use of antagonistic bacteria to reduce environmental contamination of food processing facilities by *Listeria monocytogenes*. July 2003-June 2004, \$85,920 (PI).

Perdue Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research. June 2003-June 2004, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research. May 2003-May 2004, \$20,000 (PI).

Zep Manufacturing Co., Gift, Center for Food Safety Research. May 2003-May 2004, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research. April 2003-April 2004, \$5,000 (PI).

Schreiber Foods, Gift, Center for Food Safety research. April 2003-April 2004, \$1,000 (PI).

Wegmans Food Markets, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research. February 2003- February 2004, \$20,000 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, April 2002-May 2003, \$5,000 (PI).

Georgia-Pacific, Gift, Center for Food Safety research, March 2002-April 2003, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, March 2002-April 2003, \$5,000 (PI).

McCormick & Company, Gift, Center for Food Safety research, March 2002-April 2003, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2002-April 2003, \$1,000 (PI).

Ecolab, Gift, Center for Food Safety research, March 2002-April 2003, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Gerber, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, February 2002-March 2003, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research, February 2003-March 2003, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, February 2002-March 2003, \$20,000 (PI).

Alpharma, Invention Income, Probiotic/vaccine for *E. coli* O157:H7 in cattle, January 2002, \$2491.

American Foods Group, Gift, Center for Food Safety research, December 2001-January 2003, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, December 2001-January 2003, \$20,000 (PI).

McDonald's, Gift, Center for Food Safety research, December 2001-January 2003, \$5,000 (PI).

Tropicana, Gift, Center for Food Safety research, December 2001-January 2003, \$20,000 (PI).

Nestlé, Gift, Center for Food Safety research, November 2001-December 2002, \$5,000 (PI).

Sara Lee, Gift, Center for Food Safety research, October 2001-October 2002, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, September 2001-August 2002, \$20,000 (PI).

Mionix Corp., Grant, Effect of KLS-1/2 treatment and cooking on the inactivation of *E. coli* O157:H7 in ground beef: Determination of D-values for *E. coli* O157:H7 in ground beef, October 2001-October 2002, \$10,000 (PI).

International Food Protection, Grant, Competitive exclusion cultures to reduce carriage of *Campylobacter jejuni* by poultry, September 2001-December 2002, \$263,078 (PI).

Food and Drug Administration, Grant, Determination of biomarkers of increased susceptibility to foodborne listeriosis using a primate model, October 2001-October 2002, \$75,000 (co-PI).

Hershey Foods Corporation, Gift, Center for Food Safety research, September 2001-December 2003, \$5,000 (PI).

Mionix, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety research, August 2001-August 2002, \$2,500 (PI).

Georgia Department of Human Resources, Grant, Research support on food safety issues, September 2001-September 2002, \$120,000 (PI).

Johnson Wax Professional, Gift, Center for Food Safety research, August 2001-August 2002, \$1,000 (PI).

Chick-fil-A, Gift, Sensory quality and safety of fresh-cut produce, July 2001-July 2002, \$2,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Campbell Soup Co., Gift, Center for Food Safety research, July 2001-July 2002, \$20,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Alpharma, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Schwan's, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

FoodPAC, Grant, Reduction of *Campylobacter jejuni* on food products by treatment with GRAS chemicals, July 2001-June 2002, \$130,900 (PI).

FoodPAC, Grant, Intervention strategy to reduce *Campylobacter* carriage in chickens, July 2001-June 2002, \$160,000 (co-PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection, July 2001-June 2003, \$140,003 (PI).

American Meat Institute, Gift, Center for Food Safety research, July 2001-July 2002, \$1,000 (PI).

International Food Protection, License Agreement with UGARF, Probiotic bacteria to reduce carriage of *E. coli* O157:H7 by cattle, June 2001, \$25,000 (Senior Inventor).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, June 2001-June 2002, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, May 2001-May 2002, \$1,000 (PI).

Alpharma, Contract, Evaluation of the efficacy of competitive *E. coli* to reduce the fecal excretion of *E. coli* O157:H7 in beef cattle, May 2001-June 2002, \$17,250 (PI).

Emmpak Foods, Gift, Center for Food Safety research, May 2001-May 2002, \$1,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, May 2001-November 2004, \$20,204 (PI).

Kroger, Gift, Center for Food Safety research, April 2001-April 2002, \$5,000 (PI).

U.S. Food and Drug Administration, Grant, Development of a risk assessment dose-response model for foodborne *Listeria monocytogenes*, April 2001-September 2002, \$151,950 (co-PI).

Golden State Foods, Gift, Center for Food Safety research, April 2001-April 2002, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, March 2001-March 2002, \$15,000 (PI).

Bestfoods, Gift, Center for Food Safety research, March 2001-March 2002, \$20,000 (PI).

Wegmans, Gift, Center for Food Safety research, March 2001-March 2002, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research, March 2001-March 2002, \$5,000 (PI).

ConAgra, Gift, Center for Food Safety research, February 2001-February 2002, \$20,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research, February 2001-February 2002, \$5,000 (PI).

Wayne Farms, Inc., Gift, Center for Food Safety research, February 2001-February 2002, \$5,000 (PI).

General Mills, Gift, Center for Food Safety research, February 2001-February 2002, \$15,000 + 5,000 (PI).

Michael Foods, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research, March 2001-March 2002, \$1,000 (PI).

U.S. Food and Drug Administration, Grant, Inactivation of pathogens on produce by GRAS chemicals, January 2001-July 2001, \$57,807 (PI).

International Food Protection, Gift, Center for Food Safety research, February 2001-February 2002, \$1,000 (PI).

International Food Protection, Grant, Isolation and characterization of potential probiotic bacteria with anti-*Salmonella* Typhimurium DT104 activity, May 2001-May 2002, \$28,084 (PI).

National Food Processors Association, Gift, Center for Food Safety research. January 2001-December 2001, \$2000 (PI).

Ecolab, Gift, Center for Food Safety research, January 2001-December 2001, \$5,000 (PI).

Hershey Foods Corporation, Gift, Center for Food Safety research, January 2001-December 2001, \$5,000 (PI).

Gerber, Gift, Center for Food Safety research, January 2001-December 2001, \$20,000 (PI).

McDonald's, Gift, Food safety research on thermal inactivation of *E. coli* O157:H7, November 2000 - December 2005, \$10,000 (PI).

American Foods Group, Gift, Center for Food Safety research, December 2000-December 2001, \$1,000 (PI).

Nestlé, Gift, Center for Food Safety research, December 2000-December 2001, \$5,000 (PI).

PepsiCo, Gift, Center for Food Safety research, January 2000-January 2001, \$20,000 (PI).

Kraft, Grant, Cross-contamination of *Listeria monocytogenes* between processing equipment and food products, December 2000-December 2005, \$204,815 (PI).

Georgia Department of Public Health, Grant, Research support on food safety issues, December 2000-December 2001, \$80,040 (PI).

American Meat Institute Foundation, Grant, Control of *Listeria monocytogenes* in food processing facilities by competitive exclusion microorganisms, January 2001-July 2002, \$95,045 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety research, November 2000-November 2001, \$5,000 (PI).

International Food Protection, Grant, Competitive exclusion cultures to reduce carriage of *Campylobacter jejuni* by poultry, November 2000-October 2001, \$223,665 (PI).

Borden, Gift, Center for Food Safety research, August 2000-August 2001, \$1,000 (PI).

USDA, Initiative for Future Agriculture and Food Systems Grants Program, Grant, Safe Produce Production Using Manure, September 2000-August 2003, \$560,000 (PI).

A. C. Humko Corp., Gift, Center for Food Safety research, September 2000-September 2001, \$1,000 (PI).

Morningstar Diagnostics, Gift, Center for Food Safety research on thermal inactivation of *E. coli* O157. September 2000-September 2001, \$3,000 (PI).

U.S. Department of Agriculture, Special Grant, Alliance for Food Protection, August 2000-July 2002, \$140,325 (PI).

Heinz, Gift, Center for Food Safety research on antimicrobial produce treatments, July 2000-July 2001, \$5,500 (PI).

Alpharma, Gift, Center for Food Safety research, July 2000-July 2001, \$1,500 (PI).

Applied Food Biotechnology, Gift, Center for Food Safety research, July 2000-July 2001, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, July 2000-July 2001, \$20,000 (PI).

Kraft Foods, Gift, Center for Food Safety research, June 2000-June 2001, \$20,000 (PI).

Frito-Lay, Gift, Center for Food Safety research, June 2000-June 2001, \$5,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety research, June 2000-June 2001, \$2,500 (PI).

Alpharma, Gift, Center for Food Safety research, June 2000-June 2001; \$1,200 (PI).

Johnson Wax, Gift, Center for Food Safety research, June 2000-June 2001, \$1,000 (PI).

Morningstar Diagnostics, Gift, Food safety research on thermal inactivation of *E. coli* O157:H7 in ground beef, June 2000-June 2001, \$5,000 (PI).

Georgetown University/ABC News 20/20, Grant, Microbiological safety of organic produce, June 2000-November 2000, \$15,620 (PI).

Alpharma, Grant, Effect of probiotics on reducing carriage of *Escherichia coli* O157:H7 by cattle, January 2000-July 2001, \$20,980 (PI).

Nestlé, Gift, Center for Food Safety and Quality Enhancement research, November 1999-November 2000, \$5,000 (PI).

Costco Companies, Gift, Center for Food Safety and Quality Enhancement research, January 2000-January 2001, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety and Quality Enhancement research, February 2000-February 2001, \$5,000 (PI).

American Air Liquide, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$1000 (PI).

Campbell, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$20,000 (PI).

Golden State Foods, Grant, Determination of D-values for *Escherichia coli* O157:H7 in ground beef, May 2000 - April 2005, \$34,250 (PI).

Hershey Foods, Gift, Center for Food Safety and Quality Enhancement research, December 1999-December 2000, \$5,000 (PI).

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$20,000 (PI).

Wegmans Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, January 2000-January 2001, \$2,000 (PI).

Sara Lee Corporation, Gift, Center for Food Safety and Quality Enhancement research, April 2000-March 2001, \$1,000 (PI).

ConAgra, Gift, Center for Food Safety and Quality Enhancement research, January 2000-January 2001, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$20,000 (PI).

U. S. Department of Agriculture, Grant, Alliance for Food Protection, July 2000-June 2002, \$280,750 total; \$140,325 for UGA (PI); Co-PI, S. L. Taylor, University of Nebraska).

Cargill, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$5,000 (PI).

International Food Protection, Gift, Center for Food Safety and Quality Enhancement research, February 2000-February 2001, \$1,000 (PI).

Gold Kist, Contract, Evaluation of heat treatments to inactivate *Listeria monocytogenes* in poultry products, June 1999-April 2000, \$3,200 (PI).

Continental Grain Company, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$5,000 (PI).

Pillsbury, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$5,000 (PI).

Odwalla, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$1,000 (PI).

SSE Manufacturing, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$5,000 (PI).

American Meat Institute Foundation/Georgetown University, Grant, Effect of chemical preservatives on control of *Listeria monocytogenes* on turkey hot dogs and luncheon meats, December 1999-April 2001, \$89,820 (PI).

Fresh Express, Gift, Center for Food Safety and Quality Enhancement research, April 2000-April 2001, \$1,000 (PI).

Kraft Foods, Grant, Worldwide process cheese study, November 1999-November 2001, \$373,204 (PI).

Hoshizaki America, Grant, Evaluation of electrolyzed oxidizing water and ozonized water for inactivating pathogens, April 2000-April 2001, \$28,770 (Co-PI; PI-Yen-Con Hung).

Qualicon, Gift, Center for Food Safety and Quality Enhancement research, March 2000-March 2001, \$5,000 (PI).

McCormick & Company, Gift, Center for Food Safety and Quality Enhancement research, October 1999-September 2001, \$2,000 (PI).

Gold Kist, Gift, Center for Food Safety and Quality Enhancement research, October 1999-September 2000, \$2,500 (PI).

Procter and Gamble, Gift, Center for Food Safety and Quality Enhancement research, October 1999-September 2000, \$20,000 (PI).

General Mills, Gift, Center for Food Safety and Quality Enhancement research, September 1999-August 2000, \$5,000 (PI).

Heinz, Gift, Center for Food Safety and Quality Enhancement research, September 1999-August 2000, \$5,000 (PI).

Kroger, Gift, Center for Food Safety and Quality Enhancement research, September 1999-August 2000, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, September 1999-September 2000, \$5,000 (PI).

Borden, Gift, Center for Food Safety and Quality Enhancement research, August 1999-July 2000, \$1,000 (PI).

Centers for Disease Control and Prevention, Contribution, Food Safety research, August 1999-August 2000, \$85,000 (PI).

Chiquita Brands International, Gift, Center for Food Safety and Quality Enhancement research, August 1999-July 2000, \$5,000 (PI).

International Life Sciences Institute, Grant, Optimization of environmental conditions to kill *Escherichia coli* O157:H7 in manure, August 1999-July 2000, \$59,385 (PI).

Perkin Elmer, Gift, Preenrichment medium for growth of foodborne pathogens, August 1999, \$10,000 + \$2,000 (PI).

U. S. Department of Agriculture, Cooperative State Research, Education and Extension Service, Special Grant, Alliance for Food Protection, August 1999-July 2001, \$280,680 (\$140,340 for UGA) (PI).

Bestfoods, Gift, Center for Food Safety and Quality Enhancement research, August 1999-July 2000, \$20,000 (PI).

A. C. Humko, Gift, Center for Food Safety and Quality Enhancement research, July 1999-June 2000, \$1,000 (PI).

FoodPAC, Grant, Reduction of *Campylobacter* on poultry, July 1999-June 2000, \$68,793 (PI).

Lipton, Gift, Center for Food Safety and Quality Enhancement research, July 1999-June 2000, \$5,000 (PI).

Perkin Elmer, Gift, Center for Food Safety and Quality Enhancement research, July 1999-June 2000, \$1,000 (PI).

Reckitt & Colman, Gift, Center for Food Safety and Quality Enhancement research, July 1999-June 2000, \$1,000 (PI).

State of Georgia, Grant, Competitive exclusion of *Campylobacter jejuni* in poultry, July 1999-June 2000, \$75,000 (PI).

State of Georgia, Grant, Competitive exclusion of *E. coli* O157:H7 in cattle by probiotic bacteria, July 1999-June 2000, \$100,000 (PI).

State of Georgia, Grant, HACCP training for very small meat and poultry processors, July 1999-June 2000, \$100,000 (Co-PI).

Alpharma, Grant, Initial evaluation of the efficacy of competitive *E. coli* to reduce the carriage and excretion of *E. coli* O157:H7 in beef cattle, May 1999-September 1999, \$20,980 (PI).

Bristol-Myers Squibb Company, Gift, Center for Food Safety and Quality Enhancement research, May 1999-April 2000, \$5,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, May 1999-April 2000, \$20,000 (PI).

Ready Pac, Gift, Center for Food Safety and Quality Enhancement research, May 1999-April 2000, \$1,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety and Quality Enhancement research, May 1999-April 2000, \$20,000 (PI).

Audits International, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$1,000 (PI).

Campbell's, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$20,000 (PI).

ConAgra, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$5,000 (PI).

Fresh Express, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$1,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, April 1999-April 2000, \$5,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$2,500 (PI).

Kraft Foods, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$20,000 (PI).

Odwalla, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$1,000 (PI).

Pizza Hut, Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$5,000 (PI).

Schwan's (SSE Manufacturing), Gift, Center for Food Safety and Quality Enhancement research, April 1999-March 2000, \$5,000 (PI).

State of Georgia, Grant, HACCP training for medium and small meat and poultry processors, April 1999-June 1999, \$75,000 (Co-PI).

American Air Liquide, Gift, Center for Food Safety and Quality Enhancement research, March 1999-March 2000, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety and Quality Enhancement research, March 1999-February 2000, \$1,000 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, March 1999-February 2000, \$20,000 (PI).

Sara Lee Corporation, Gift, Center for Food Safety and Quality Enhancement research, March 1999-February 2000, \$5,000 (PI).

Sun Orchard, Grant, Treatments to inactivate *Escherichia coli* O157:H7 on oranges, March 1999-September 1999, \$2,740 (PI).

Foster Farms, Gift, Center for Food Safety and Quality Enhancement research, January 1999-December 1999, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety and Quality Enhancement research, January 1999-December 1999, \$2,500 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, January 1999-December 1999, \$2,000 (PI).

Wegmans, Gift, Center for Food Safety and Quality Enhancement research, January 1999-January 2000, \$1,000 (PI).

Nestle, Gift, Center for Food Safety and Quality Enhancement research, December 1998-November 1999, \$5,000 (PI).

White Water, Grant, Sensitivity of *Escherichia coli* O157:H7 to chlorine, October 1998-June 1999, \$6,600 (PI).

The Coca-Cola Foundation, Gift, *E. coli* O157:H7 research, July 1998-July 1999, \$20,000 (PI).

Procter & Gamble Company, Gift, Center for Food Safety and Quality Enhancement research, June 1998-June 1999, \$20,000 (PI).

General Mills, Gift, Center for Food Safety and Quality Enhancement research, July 1998-July 1999, \$5,000 (PI).

Centers for Disease Control and Prevention, Contribution, Food Safety research, August 1998-August 1999, \$85,000 (PI).

Food and Drug Administration, Center for Food Safety and Applied Nutrition, Grant, Development of a risk assessment dose-response model for foodborne *Listeria monocytogenes*, September 30, 1998-September 30, 2001, \$983,047 (Co-PI).

FoodPAC (State of Georgia Food Processing Initiative), Grant, Inactivation of foodborne pathogens on fruits and vegetables by GRAS chemicals, July 1, 1998-June 30, 1999, \$39,924 (PI).

FoodPAC (State of Georgia Food Processing Initiative), Grant, Food Science Building Planning Grant, July 1, 1998-June 30, 1999, \$187,000 (PI).

Tony's Pizza, Grant, Assay of burritos for emetic agents, March 1998-August 1998, \$2,600 (PI).

Hershey Foods, Gift, Center for Food Safety and Quality Enhancement research, December 1998-November 1999, \$5,000 (PI).

Sun Orchard, Inc., Grant, Evaluation of the fate and efficiency of inactivation methods for *Escherichia coli* O157:H7 on oranges, October 1998-September 1999, \$6,850 (PI).

Borden, Gift, Center for Food Safety and Quality Enhancement research, June 1998-May 1999, \$1,000 (PI).

Kraft, Gift, Center for Food Safety and Quality Enhancement food safety research, January 1998, \$10,000 (PI).

Food and Drug Administration, Center for Food Safety and Applied Nutrition, Inactivation of pathogens on produce by GRAS chemicals, September 1998-August 2000, \$218,265 (PI).

Food and Drug Administration, Grant, Control enterohemorrhagic *E. coli* in cattle by probiotic bacteria, September 1998-August 2000, \$245,059 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, June 1998-May 1999, \$20,000 (PI).

Kroger, Gift, Center for Food Safety and Quality Enhancement research, July 1998-June 1999, \$5,000 (PI).

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, September 1998-August 1999, \$20,000 (PI).

Reckitt & Colman, Gift, Center for Food Safety and Quality Enhancement research, September 1998-August 1999, \$2,000 (PI).

International Dioxide, Inc., Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$1,000 (PI).

Cargill, Gift, Center for Food Safety and Quality Enhancement research, November 1998-October 1999, \$5,000 (PI).

Continental Grain Company, Gift, Center for Food Safety and Quality Enhancement research, November 1998-October 1999, \$5,000 (PI).

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, November 1998-October 1999, \$20,000 (PI).

McCormick & Company, Gift, Center for Food Safety and Quality Enhancement research, November 1998-October 1999, \$1,000 (PI).

The Pillsbury Company, Gift, Center for Food Safety and Quality Enhancement research, November 1998-October 1999, \$5,000 (PI).

Kraft Foods, Grant, Worldwide process cheese study, November 1997-November 1999, \$580,773 (PI).

The Pillsbury Company, Gift, Center for Food Safety and Quality Enhancement research, September 1997-August 1998, \$5,000 (PI).

U.S. Department of Agriculture Special Grant, Alliance for Food Protection, January 1998-March 2000, \$280,432 total; \$140,216 for UGA (PI; Co-PI, S. L. Taylor, University of Nebraska).

The Coca-Cola Company, Grant, Food product research, \$32,880 (Co-PI).

Eastman Chemical Co., Gift, Center for Food Safety and Quality Enhancement research, June 1998-May 1999, \$1,000 (PI).

University of Georgia, Veterinary Medicine Experiment Station, Grant, Association of *E. coli* O157:H7 with deer and cattle, May 1998-May 1999, \$12,000 (Co-PI, J. Fischer, PI).

Chiquita Brands, International, Gift, Center for Food Safety and Quality Enhancement research, March 1998-February 1999, \$5,000 (PI).

Lipton, Inc., Gift, Center for Food Safety and Quality Enhancement research, March 1998-February 1999, \$5,000 (PI).

Campbell Soup Co., Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$20,000 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$2,000 (PI).

Rhone-Poulenc, Inc., Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$1,000 (PI).

Tony's Pizza Service, Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$5,000 (PI).

Fresh Express Farms, Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$1,000 (PI).

American Air Liquide, Inc., Gift, Center for Food Safety and Quality Enhancement research, February 1998-January 1999, \$1,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$2,000 (PI).

Kraft Foods, Inc., Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$20,000 (PI).

Frito-Lay, Inc., Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$5,000 (PI).

Odwalla, Inc., Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$1,000 (PI).

Mead Johnson, Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$5,000 (PI).

Engelhard Corporation, Gift, Center for Food Safety and Quality Enhancement research, January 1998-December 1998, \$1,000 (PI).

Hoshizaki America, Inc., Grant, Evaluation of electrolyzed oxidizing water for inactivating foodborne pathogens on foods and kitchen cutting boards, January 5, 1998 - January 4, 1999, \$41,100 (Co-PI).

National Cattleman's Beef Association, Grant, Prevalence of *Salmonella typhimurium* DT-104 (R-type ACSSuT) in retail ground beef and identification of specific cell surface markers, September 1997-August 1998, \$46,893 (PI).

Hershey Foods, Gift, Center for Food Safety and Quality Enhancement research, September 1997-August 1998, \$5,000 (PI).

Cargill, Gift, Center for Food Safety and Quality Enhancement research, September 1997-August 1998, \$5,000 (PI).

Ready Pac, Gift, Center for Food Safety and Quality Enhancement research, September 1997-August 1998, \$1,000 (PI).

Hoshizaki, Gift, Equipment for Center for Food Safety and Quality Enhancement research, September 1997, \$3,000 (Co-PI).

Dreyer's Grand Ice Cream, Gift, Center for Food Safety and Quality Enhancement research, December 1997-November 1998, \$1,000 (PI).

McCormick Co., Gift, Center for Food Safety and Quality Enhancement research, December 1997-November 1998, \$1,000 (PI).

MPSC, Gift, Center for Food Safety and Quality Enhancement research, December 1997-November 1998, \$1,000 (PI).

Nestlé, Gift, Center for Food Safety and Quality Enhancement research, December 1997-November 1998, \$5,000 (PI).

Dole, Gift, Center for Food Safety and Quality Enhancement research, October 1997-September 1998, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety and Quality Enhancement research, November 1997-October 1998, \$2,500 (PI).

Armour Swift-Eckrich, Gift, Center for Food Safety and Quality Enhancement research, August 1997-July 1998, \$5,000 (PI).

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, August 1997-July 1998, \$20,000 (PI).

Georgia Governor's Development Council on Food Processing, Grant, Food Science Building renovations (Athens), July 1997-June 1998, \$1,900,000 + \$250,000 (PI).

Keystone Foods, Grant, Characterization of *Escherichia coli* isolates, June 1997-June 1998, \$3,750 (PI).

CPC International, Gift, Center for Food Safety and Quality Enhancement research, June 1997-May 1998, \$20,000 (PI).

Continental Grain Company, Gift, Center for Food Safety and Quality Enhancement research, June 1997-May 1998, \$2,500 (PI).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, , June 1997-May 1998, \$5,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, May 1997-May 1998, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, June 1997-May 1998, \$20,000 (PI).

Eastman Chemical Company, Gift, Center for Food Safety and Quality Enhancement research, June 1997-May 1998. \$1,000 (PI).

Borden, Gift, Center for Food Safety and Quality Enhancement research, May 1997-April 1998, \$1,000 (PI).

Procter & Gamble Company, Gift, Center for Food Safety and Quality Enhancement research, June 1997-May 1998, \$20,000 (PI).

Georgia Beef Board, Grant, Evaluation of lactoferrin for inactivation of *Escherichia coli* O157:H7 in ground beef, July 1997-June 1998, \$8,500 (PI).

Reckitt and Colman, Grant, Microbial cross-contamination during food preparation in the kitchen, June 1997-December 1997, \$4,100 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, May 1997-May 1998, \$5,000 (PI).

Reckitt & Colman, Gift, Center for Food Safety and Quality Enhancement research, April 1997-March 1998, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, February 1997-January 1998, \$2,000 (PI).

International Fresh-cut Produce Association, Gift, Center for Food Safety and Quality Enhancement research, December 1996-November 1997, \$2,000 (PI).

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, December 1996-August 1997, \$10,000 (PI).

Gold Kist Foundation, Gift, Center for Food Safety and Quality Enhancement research, December 1996-December 1997, \$2,500 + \$1,000 (PI).

U. S. Department of Agriculture, Special Grant, Alliance for Food Protection, April 1, 1996 - March 31, 2000, \$562,310 total; \$281,155 for UGA (PI; Co-PI, S. L. Taylor, University of Nebraska).

Mead Johnson Nutritionals, Gift, Center for Food Safety and Quality Enhancement research, January 1997-January 1998, \$1,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, January 1997-December 1997, \$5,000 (PI).

Schwan's Sales Enterprises, Gift, Center for Food Safety and Quality Enhancement research, February 1997-February 1998, \$5,000 (PI).

The Kroger Company, Gift, Center for Food Safety and Quality Enhancement research, March 1997-February 1998, \$1,000 (PI).

Chiquita Brands, Gift, Center for Food Safety and Quality Enhancement research, March 1997-February 1998, \$5,000 (PI).

Vons Companies, Gift, Center for Food Safety and Quality Enhancement research, November 1996 - October 1997, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety and Quality Enhancement research, October 1996 - September 1997, \$1,000 (PI)

McCormick & Co., Inc, Gift, Center for Food Safety and Quality Enhancement research, August 1996 - July 1997, \$1,000 (PI)

Nestlé, Gift, Center for Food Safety and Quality Enhancement research, October 1996 - September 1997, \$10,000 (PI)

Kraft Foods, Inc., Gift, Center for Food Safety and Quality Enhancement research, December 1996 - November 1997, \$20,000 (PI)

Bavaria Corporation, Grant, Effect of herbs and glycerides on *Salmonella*, *Campylobacter*, and *Listeria monocytogenes*, October 1996 - October 1997, \$9,900 (PI).

Reckitt & Colman, Inc., Grant, Microbial cross-contamination during food preparation in the kitchen, June 1996 - February 1997, \$21,783 (PI).

Rhone-Poulenc, Gift, Center for Food Safety and Quality Enhancement research, October 1996 - September 1997, \$1,000 (PI).

Bonagra, Grant, Evaluation of a chlorine potentiator on the efficacy of chlorine in killing *E. coli* O157:H7, *Listeria* and *Salmonella* on lettuce and tomatoes, January 1997 - December 1998, \$10,000 (PI).

The Pillsbury Co., Gift, Center for Food Safety and Quality Enhancement research, August 1996 - July 1997, \$5,000 (PI).

Georgia Governor's Development Council Food Processing Initiative (FoodPAC), Grant, Development of methods to reduce/eliminate foodborne pathogens in raw food products, July 1996-June 1997, \$79,800 (PI).

Armour Swift-Eckrich, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$5,000 (PI).

Bonagra, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$1,000 (PI).

U. S. Department of Agriculture, Grant, Carrier state of Shiga-like toxin-producing *E. coli* in cattle, July 1996 - June 1997, \$69,734 (PI's, B. G. Harmon and C. A. Brown; Co-PI, M. P. Doyle).

International Life Sciences Institute, Grant, Effect of diet and rumen microenvironment on the proliferation and fecal shedding of *E. coli* O157:H7 in calves, September 1996 - August 1998, \$66,247 (PI, C. A. Brown; Co-PI, M. P. Doyle and T. Zhao).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$5,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, Jun 1996 - May 1997, \$20,000 (PI).

Gerber, Gift, Center for Food Safety and Quality Enhancement research, December 1995 - November 1996, \$1,000 (PI).

Borden, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, May 1996 - April 1997, \$20,000 (PI)

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, June 1996 - May 1997, \$20,000 (PI)

Procter & Gamble, Gift, Center for Food Safety and Quality Enhancement research, June 1996 - May 1997, \$20,000 (PI)

Ecolab, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI)

Continental Grain, Gift, Center for Food Safety and Quality Enhancement research, February 1996 - January 1997, \$1,000 (PI)

Cargill, Gift, Center for Food Safety and Quality Enhancement research, July 1996 - June 1997, \$5,000 (PI).

National Food Processors Association, Gift, Center for Food Safety and Quality Enhancement research, November 1995 - October 1996, \$1,000 (PI).

Gold Kist Foundation, Gift, Center for Food Safety and Quality Enhancement research, January 1996 - December 1996, \$1,000 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, January 1996 - December 1996, \$5,000 (PI).

T. J. Lipton Co., Gift, Center for Food Safety and Quality Enhancement research, November 1996 - October 1997, \$1,000 (PI).

Dr. J. G. Woodroof, Gift, Food Science and Technology lecture series support, January 1996 - December 1996, \$1,200 (PI)

U. S. Department of Agriculture, Special Grant, Alliance for Food Protection, April 1996-March 2000, \$421,371 (PI; Co-PI, S. L. Taylor, University of Nebraska).

Hormel Foods Corporation, Contract, Fate of bacteria in meat. March 1995 - December 1996, \$94,500 (Co-PI; PI, Mark Harrison).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement renovation funds (\$250,000), laboratory equipment (\$275,000), and research projects (\$75,000), July 1, 1995 - June 30, 1996, Total \$600,000 (PI).

Georgia Governor's Development Council on Food Processing, Grant, Center for Food Safety and Quality Enhancement building addition, July 1995 - June 1996, \$7,000,000. (PI).

Schwan's Sales Enterprises, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety and Quality Enhancement research, April 1995-May 1996, \$5,000 (PI).

U. S. Department of Agriculture-ARS, Grant, Control of Campylobacter in poultry, October 1995-September 1996, \$38,196 (PI; N. J. Stern, Co-PI).

Best Foods, Gift, Center for Food Safety and Quality Enhancement research, February 1995-January 1996, \$20,000 (PI).

Best Foods, Grant, Microbiological risk assessment for high moisture peanut butter residue, July 1, 1995 - June 30, 1996, \$27,181 (Co-PI; PI, Robert Brackett).

Borden, Gift, Center for Food Safety and Quality Enhancement research, March 1995-April 1996, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, August 1995-July 1996, \$5,000 (PI).

The Vons Company, Gift, Center for Food Safety and Quality Enhancement research, October 1995-September 1996, \$20,000 (PI).

Nabisco, Gift, Center for Food Safety and Quality Enhancement research, May 1995-May 1996, \$5,000 (PI).

Kraft, Gift, Center for Food Safety and Quality Enhancement research, September 1995-October 1996, \$20,000 (PI).

Kraft Foods Company, Grant, Microbiology of Process Cheese, January 1995-July 1997, \$1,006,000. (Co-PI; PI, R. E. Brackett).

Sizzler International, Grant, Escherichia coli O157:H7 in mayonnaise, August 1993-June 1994, \$14,000 (PI).

American Meat Institute Foundation, Grant, Development of species specific probiotic and vaccine candidate for *E. coli* O157:H7 in cattle, July 1994-November 1996, \$1,001,161 (PI).

Golden State Foods, Gift, Center for Food Safety and Quality Enhancement research, October 1994-1995, \$15,000 (PI).

USDA National Research Initiative, Competitive Grants Program, Grant, Characterization of unique outer membrane proteins of Escherichia coli O157:H7 and their involvement in cell adherence, October 1994-September 1996, \$174,429 (PI).

Kraft General Foods, Gift, Center for Food Safety and Quality Enhancement research, August 1994-1995, \$20,000 (PI).

The Vons Company, Gift, Fingerprinting enterohemorrhagic *Escherichia coli* O157:H7, October 1994-October 1995, \$20,000 (PI).

Georgia Governor's Development Council on Food Processing, Grants, Center for Food Safety and Quality Enhancement building planning grant (\$250,000) and laboratory equipment (\$250,000) July 1, 1994 - June 30, 1995, Total \$500,000 (PI).

Association for Dressings & Sauces, Grant, Survival of *E. coli* O157:H7 in mayonnaise and reduced calorie mayonnaise, April 1, 1994-March 31, 1995, \$15,755 (Co PI; PI, L. R. Beuchat).

Westreco, Gift, Center for Food Safety and Quality Enhancement research, November, 1994-95, \$5,000 (PI).

Schwan Sales, Gift, Center for Food Safety and Quality Enhancement research, March 1994-95, \$5,000 (PI).

Frito-Lay, Gift, Center for Food Safety and Quality Enhancement research, June 1994-95, \$5,000 (PI).

National Live Stock and Meat Board, Grant, Development of a sensitive and specific DNA-based polymerase chain reaction assay for detection of enterohemorrhagic Escherichia coli O157:H7, June 1994-May 1995, \$47,500 (PI).

Pet, Inc., L&F Products, Continental Grain, Rhone-Poulenc, Reckitt & Colman, Ecolab, National Food Processors Association, International Fresh-cut Produce Association, Gerber Products, Gifts, Center for Food Safety and Quality Enhancement research, 1994-1996, \$11,500 (PI).

McDonald's Corporation, Gift, Control of Escherichia coli O157:H7 in foods, October, 1993-January 1995, \$40,000 (PI).

Golden State Foods, Gift, Detection of Escherichia coli O157:H7, June 1993-June 1994, \$10,000 (PI).

Westreco, Inc., Gift, Inhibitors of psychrotrophic Bacillus cereus. April 1993-December 1994, \$25,000 (Co-PI; PI, R. E. Brackett).

American Meat Institute, Grant, Use of irradiation to kill pathogenic bacteria in ground beef. April 1993 - March 1994, \$60,820 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

U. S. Department of Agriculture, Special Grant, Safety and quality enhancement of poultry products. July 1993 - June 1995, \$362,000 (PI; Co-PI, D. L. Fletcher).

U. S. Department of Agriculture, Special Grant (Food Safety and Inspection Service), Gene expression of a low molecular weight protein by Escherichia coli O157:H7, September 1993 - September 1995, \$36,800 (PI).

Amrep, Gift, Antimicrobial activity of barrier cream to E. coli O157:H7. April 1993 - July 1993, \$2,000 (PI).

International Life Sciences Institute - North America, Grant, Use of carrot juice to control Listeria monocytogenes. August 1992 - July 1993, \$28,800 (Co-PI; PI, L. R. Beuchat; Co-PI, R. E. Brackett).

Benchmark Enterprises, Gift, Antimicrobial activity of barrier cream to Escherichia coli O157:H7, December 1992 - February 1993, \$1,000 (PI).

U. S. Department of Agriculture, Agricultural Research Service, Cooperative Agreement, Antagonistic flora to Campylobacter spp., April 1993 - September 1994, \$26,000 + \$14,000 + 40,000 (PI).

Kraft General Foods, Gift, Food safety and quality research. November 1992-October 1993, \$20,000.

International Life Sciences Institute-North America, Grant, Development of a Simple, sensitive, quantitative procedure for enumerating Listeria monocytogenes in food. August 1992 - July 1993, \$53,500 (PI; Co-PIs, R. E. Brackett, L. R. Beuchat).

National Live Stock and Meat Board, Grant, Decontamination of Escherichia coli O157:H7 in beef by acid treatments. March 1992 - March 1993, \$29,500 (PI; Co-PI, R. E. Brackett).

Southeastern Poultry & Egg Association, Grant, Feasibility of using antagonistic microorganisms and antimicrobial extracts to inhibit psychrotrophic pathogens in refrigerated, cooked poultry. January 1, 1992-December 31, 1992, \$26,000 (Co-PI; PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Detection and Control of Enterohemorrhagic Escherichia coli O157:H7 in Cattle. March 1992-December 1994, \$114,100 (PI; Co-PI, R. E. Brackett).

Rhone-Poulenc, Grant, Fate of bacterial pathogens in cat litter. January 1992-April 1992, \$3,562 (PI; Co-PI, R. E. Brackett).

National Live Stock and Meat Board, Grant, Use of natural secondary barriers to inhibit pathogens in refrigerated, cooked roast beef. March 1992-December 1994, \$101,500 (Co-PI; PI, R. E. Brackett).

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens and rapid procedure for detecting E. coli. September 1990-June 1991, \$60,000.

Dairy Research Foundation, Gift, Microbiological safety of a butter-like product. September 1990, \$1,100.

Promega, Gift, Development of a viable Listeria assay for dairy and food products testing. September 1990-February 1991, \$5,000.

Nabisco Brands, Inc., Gift, Microbiological stability of processed cheese spread. September 1990-December 1991, \$50,000.

Corando, Gift, Detection of Escherichia coli O157:H7 in water. March-April 1990, \$1,000.

Schreiber Foods, Gift, Microbiological stability of process cheese. February 1990-October 1991, \$3,000.

Universal Foods Corporation, Gift, Microbiological stability of process cheese. February 1990-July 1990, \$3,000.

Best Foods, Gift, Fate of Listeria monocytogenes in mayonnaise. May 1990-December 1990, \$15,000.

National Live Stock and Meat Board, Grant, Evaluation of natural antimicrobials and delivery systems for these molecules for safety assurance and shelf life extension of processed, refrigerated meats. April 1990-April 1992, \$134,000 (PI; Co-PI John Luchansky).

Oscar Mayer Foods Corporation, Gift, Microbiological safety of low sodium processed meats. January 1990-July 1991, \$9,500 + \$9,500 + \$9,500 + \$9,500 + \$4,500.

Olympia Cheese Company, Gift, Microbiological stability of cheese stick products. February 1989-March 1990, \$2,500.

Kaukauna Cheese Company, Gift, Evaluation of cheese spread and cheese food stability. March 1989-August 1989, \$7,000.

Stauffer Chemical Company, Gift, Detection of salmonellae in foods by latex agglutination assay. April 1989-August 1989, \$5,000.

American Meat Institute, Gift, Escherichia coli in meat. July 1989-December 1989. \$10,000.

Johnston Company, Gift, Microbiological safety of cheese spreads. August 1989-September 1990. \$4,500.

McDonald's Corporation, Gift, Colonization of poultry by bacterial pathogens. August 1989-June 1990. \$30,000.

Thomas J. Lipton, Inc., Gift, Microbiological stability of cheese sauce. July 1989-March 1991. \$17,500 + \$2,500 + \$4,000.

Rhone-Poulenc, Gift, Evaluation of the antimicrobial effect of bicarbonate on Listeria monocytogenes. July 1989-September 1989. \$1,500.

Iceland Seafood Corporation, Gift, Microbiological safety of refrigerated fish sandwiches. May 1989-August 1989. \$8,000.

Renaissance Farm, Gift, Microbiological safety of pesto. June 1989-November 1989. \$500.

National Livestock & Meat Board, Contract, Fate and control of Escherichia coli O157:H7 in beef. July 1989-June 1991. \$185,000.

Best Foods, Gift, Fate of Salmonella in mayonnaise. November 1989-July 1990. \$15,000.

State of Wisconsin, Named Professorship, Wisconsin Distinguished Professorship. January 1989-January 1994, \$250,000.

National Dairy Promotion and Research Board, Grant, Behavior of Listeria monocytogenes during manufacture and ripening of cheese. Mar. 1989-Feb. 1991, \$70,000. (Co-PI; PI, E. H. Marth).

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. August 1988-January 1989, \$8,000 + \$1,800.

Kraft, Inc., Gift, Evaluation of media for detection of Listeria monocytogenes in dairy products. September 1988-December 1988, \$1,000.

McDonald's Corporation, Gift, Control of colonization of Salmonella. July 1988-June 1989, \$30,000.

General Foods Corporation, Gift, Microbiological stability of fresh pasta. March 1988-September 1988, \$8,000.

International Life Sciences Institute-Nutrition Foundation, Grant, Virulence of Listeria monocytogenes in a pregnant mouse model. July 1988-June 1990, \$100,000.

Center for Dairy Research, University of Wisconsin-Madison, Grant, Differentiating virulent from avirulent Listeria monocytogenes. July 1988-June 1990, \$49,000.

Wisconsin Milk Marketing Board, Grant, Procedure for detection of Escherichia coli O157:H7 in dairy products. January 1989-July 1990, \$100,000.

Corn Products, Gift, Control of Clostridium botulinum in acidified wet corn gluten feed. January 1988 - July 1988, \$12,000.

Kaukauna Cheese Company, Gift, Effect of acidity and moisture content on cheese sauce stability. November 1987-October 1989, \$3,750 + \$750 + \$2,000.

Schreiber Foods, Inc., Gift, Growth of Staphylococcus aureus in bacon during curing. September 1987-January 1988, \$2,000.

Wisconsin Milk Marketing Board, Grant, Evaluation of enrichment procedures for recovering Listeria monocytogenes from dairy products. August 1987-July 1988, \$25,600.

Nabisco Brands, Inc., Gift, Effect of sodium citrate in cheese spreads on Clostridium botulinum toxin production. August 1987-August 1988, \$18,600.

Kraft, Inc., Gift, Microbiological stability of cheese spreads with condiments. July 1987-July 1988, \$9,000.

McDonald's Corporation, Gift, Heat treatment of ground beef. June 1987-July 1989, \$15,000 + \$10,000.

New England Biolabs Foundation, Gift, Establishment of a laboratory for diagnosis and study of Campylobacter and Yersinia as a cause of diarrhea in children of Nicaragua. May 1987-April 1988, \$10,760.

General Foods Corporation, Gift, Pathogenicity and isolation of Listeria monocytogenes. April 1987-March 1988, \$50,000.

Kraft, Inc., Gift, Microbiological stability of high moisture cheese sauce. February 1987-December 1987, \$17,000 + \$2,000 + \$2,000 + \$2,000 + \$2,000 + \$1,000.

American Meat Institute, Gift, Fate of listeriae in meats. January 1987-January 1988, \$20,000 + \$12,000 + \$27,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. Development of a rapid method to detect E. coli O157:H7 in food. January 1987-December 1987, \$35,000.

McDonald's Corporation, Gift, Control of food-borne pathogens: Reducing the incidence of enteric pathogens in poultry. January 1987-December 1987, \$10,000.

Doskocil Foods Group, Gift, Fate of listeriae in sausage. January 1987-December 1987, \$8,500 + \$1,000 + \$2,000.

Dairy Research, Inc., Gift, Microbiological safety of a novel butter-like product. November 1986-August 1988, \$12,000 + \$10,000 + \$18,000.

Stauffer Chemical Company, Gift, Fate of pathogens during microbial fermentation. November 1986-December 1986, \$2,500.

Oscar Mayer Foods Corporation, Gift, Effect of pH and temperature on foodborne bacteria. September 1986-December 1986, \$6,000

Quaker Oats Company, Gift, Potential of botulinal toxin production in pasta. August 1986-June 1987, \$10,000.

Center for Dairy Research, Gift, Microbiological safety of dairy products. July 1986-June 1990, \$5,000 + \$5,000 + \$5,000 + \$1,000.

Pillsbury Company, Gift, Evaluation of botulinal toxin production in fresh vegetables. July 1986-June 1987, \$8,400 + \$5,500.

General Ecology Inc., Gift, Fate of bacteria in water purification systems. June 1986-December 1987, \$750 + \$3,000.

General Foods Corporation, Gift, Behavior of toxigenic and/or pathogenic bacteria in refrigerated foods. June 1986-December 1986, \$10,000.

ConAgra, Gift, Escherichia coli O157:H7 in poultry products. May 1986-August 1986, \$1,500.

Corn Products, Gift, Fate of microorganisms in wet corn gluten feed. May 1986-September 1986, \$4,500.

Food and Drug Administration, Contract No. 63500400, Milk naturally contaminated with Listeria monocytogenes. May 1986-June 1986, \$6,200.

Sargento Cheese Company, Gift, Microbiological stability of process cheese. April 1986-November 1986, \$3,500.

Lambert's Pasta & Cheese, Gift, Microbiological safety of refrigerated pasta. March 1986-March 1987, \$11,100.

National Cheese Institute, Gift, Fate of *Listeria* during pasteurization. January 1986-December 1986, \$10,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2947, Influence of polyphosphates on microorganisms of significance in processed meats and meat products. December 1985-June 1987, \$19,000 + \$3,000.

American Home Foods, Gift, Growth of *Clostridium botulinum* in acidified foods. September 1985-September 1986, \$18,000.

General Foods Corporation, Gift, Detection of *Listeria monocytogenes* in soft, surface-ripened cheese. September 1985-June 1986, \$2,300.

McDonald's Corporation, Gift, Detection of *E. coli* in foods. July 1985-June 1986, \$33,000.

Oscar Mayer Foods Corporation, Gift, Antibotulinal properties of lactate. July 1985-July 1987, \$6,800 + \$8,100 + \$9,250 + \$5,300 + \$8,300.

McDonald's Corporation, Gift, Colonization of cattle by pathogens. June 1985-May 1986, \$10,250.

Dairy Research Foundation, Grant, Behavior of *Listeria monocytogenes* in milk and milk products. January 1985-December 1987, \$87,934. (Co-principal investigator with E. H. Marth).

McDonald's Corporation, Gift, Control of foodborne pathogens. September 1984-June 1985, \$2,000.

McDonald's Corporation, Gift, Detection of E. coli in foods. July 1984-June 1985, \$21,000.

Food and Drug Administration (via Booz, Allen and Hamilton), Contract No. 223-80-2295, Survival of Listeria monocytogenes in nonfat dry milk and cottage cheese. April 1, 1984-October 15, 1984, \$35,411.

Food Research Institute, Purification and characterization of *Escherichia coli* cytotoxin(s). July 1983-June 1984, \$11,300.

McDonald's Corporation, Gift, Control of foodborne pathogens. July 1983-June 1986, \$105,000.

U.S. Department of Agriculture, CSRS, Grant No. 83-CSRS-2-2308, Association of *Campylobacter jejuni* with foods of animal origin. July 1983-September 1986, \$371,735 + \$12,000 + \$12,000 + \$12,000.

McDonald's Corporation, Gift, Detection of *Escherichia coli* in foods. January 1983-December 1983, \$26,000.

U.S. Department of Agriculture, ARS, Agreement No. 53-3244-2-231, A *Clostridium botulinum* challenge study on bacon made by the Wisconsin process. September 1982-September 1984, \$146,563.

U.S. Department of Agriculture, ARS, Contract No. 58-519B-2-1173, Evaluation of safety of soybean foods--tempeh, tofu and miso. August 1982-September 1984, \$34,250.

Food Research Institute, *Salmonella* in poultry. July 1982-June 1984, \$65,500.

Food Research Institute, Pathogenicity of *Campylobacter*. October 1981-June 1984, \$57,000.

Wisconsin Agricultural Experiment Station, Hatch Project No. 2685, Pathogenicity of *Campylobacter*. October 1981-September 1983, \$29,456.

Department of Defense Contract DAAF 29-81-K-0070, The heat-stable enterotoxin of *Yersinia enterocolitica* in foods. April 1981-April 1984, \$55,154. (Co-PI; PI, S. L. Taylor).

Corn Products/Best Foods, Gift, *Clostridium botulinum* in foods. March 1981-December 1990, \$20,000 + \$14,000 + \$14,000 + \$14,000 + \$15,000 + \$15,000 + \$15,000 + \$15,000 + 15,000 + \$15,500.

Food Research Institute, Pathogenicity of *Yersinia enterocolitica*. July 1980-June 1984, \$97,000.

Food Research Institute, Recovery of *Campylobacter* from foods. April 1980-June 1982, \$42,000.

SERVICE

University of Wisconsin Service

1. Library Committee of College of Agricultural and Life Sciences, 1981-85.
2. Senator, Faculty Senate District 10, 1982-84. Alternate Senator, Faculty Senate District 10, 1984-86.
3. Department of Food Microbiology and Toxicology Committees:
 - a. Graduate Program Committee
 - b. Department Comprehensive Review Committee
 - c. Animal Room Committee
 - d. Building Remodeling Committee
4. Centralized Electron Microscope Committee, College of Agricultural and Life Sciences, 1983-85.
5. Member of College of Agricultural and Life Sciences Hatch Research Review Panel, 1984 (ad hoc member), 1986-90.
6. Long Range Planning Committee, College of Agriculture and Life Sciences, 1986-87.
 - Basic Sciences Subcommittee
 - Food Quality, Processing and Nutrition Subcommittee
7. "Biotechnology in Agriculture" Report Committee, University of Wisconsin Agricultural Experiment Station, 1986.
8. Animal Health Research Proposal Review Committee, School of Veterinary Medicine, 1987, 1989-90.
9. Review Committee - Food and Agricultural Sciences National Needs Graduate Fellowships Grants Program, College of Agriculture and Life Sciences, 1987, 1990.

10. Research Animal Care Committee, College of Agricultural and Life Sciences, 1988-91.
11. Ad Hoc Reviewer, University of Wisconsin System Consortium for Extension and Research in Agriculture and Natural Resources Program, 1988-90.
12. Member, Search and Screen Committee, Assistant Professor of Food Microbiology position, Department of Food Science, 1990.
13. Member, North Central Region – 121 Technical Committee, Safety of Food and Feeds in Animal Production, 1982-1989; Chairman, 1985.

University of Georgia Service

1. Food Safety and Quality Research Complex Building Committee, University of Georgia Agricultural Experiment Station, 1991-1997.
2. Program Leader and Director, Food Safety and Quality Enhancement Laboratory, University of Georgia Agricultural Experiment Station, 1991-93.
3. Governor's Development Council Initiative for the Food Processing Industry, University Coordinator of Committee on Food Safety, 1993-
4. Executive Council, Laboratory for Sustainable Agroecosystem Studies, University of Georgia Agricultural Experiment Station, 1993-95.
5. Director, Center for Food Safety and Quality Enhancement, University of Georgia, 1993-
6. Chairman, Search and Screen Committee, Poultry Science Department Head, College of Agricultural and Environmental Sciences, 1995.
7. Presenter, Operation Legacy, Georgia Experiment Station, Griffin, GA, September 1995.
8. Reviewer, Department of Foods and Nutrition, College of Family and Consumer Resources, 1995-96.
9. Presenter, Governor's Science and Technology Advisory Council, Industry Interface - Center for Food Safety and Quality Enhancement, July, 1995.
10. Panel Moderator and Presenter, Georgia Agricultural Experiment Stations, Research Advisory Board Meeting, Challenges facing the food processing industry, July, 1995.
11. Member, College of Agricultural and Environmental Sciences (CAES), GSAMS Classroom Task Force, 1995-96.
12. Member, CAES Office of International Agriculture Workshop Steering Committee, 1995-96.

13. Member, CAES Steering Committee and Executive Council of the Center for International Trade and Marketing, 1995-1999.
14. Member, Program Review Team of UGA Department of Foods and Nutrition, 1996.
15. Member, CAES College Technical Advisory Group (C-TAG), 1996.
16. Member, CAES Strategic Planning Group on Values, 1996.
17. Member, CAES Committee on Consolidation of Business Functions, 1996-97.
18. Member, CAES Committee to Recommend a Single College Faculty Governance Structure, 1996-97.
19. Member, UGA Committee on Appointment and Promotion of University Full-Time Research Professionals, 1996, 97.
20. Consultant, Department of Agricultural and Applied Economics Strategic Planning Committee, 1997.
21. Member, Search Committee for CAES Director of Fiscal Affairs, 1997.
22. Member, CAES Program Planning and Review Committee, 1997-98.
23. Member, University's Special Professorship Committee, 1997-2000.
24. Member, Search Committee for CAES Associate Dean of Extension, 1998-1999.
25. Member, College of Veterinary Medicine Food Animal Program Planning Group, 1998.
26. Member, Search Committee for Department Head for Department of Environmental Health Sciences, 1999.
27. Chairman, Committee on Adding Value to Georgia Products, 1999-2000.
28. Member, UGA Biomedical and Health Sciences Working Group, 1999-2000.
29. Member, Administrative Review Committee for Dean of College of Agricultural and Environmental Sciences, 1999-2001.
30. Member, Public Health Program Steering Committee, 2001.
31. Member, University Review Committee on Health & Clinical Sciences (Promotion and Tenure), 2001-2004; Chairman, 2002-2003.
32. Member, 3-yr Promotion/Tenure Review Committee of Ynes Ortega, 2002.

33. Faculty Member, Biomedical and Health Sciences Institute, 2002-
34. Member, College of Agricultural and Environmental Sciences, Agro-Security Task Force, 2001-2002.
35. Member, College of Agricultural and Environmental Sciences, Review Panel of Alumni Foundation Distinguished Professor, 2003.
36. Member, College of Agricultural and Environmental Sciences, Level I Promotion and Tenure Committee, 2004-2007.
37. Member, Promotion/Tenure Review Committee of Mary Alice Smith, 2004.
38. Member, PostTenure Review Committee of Larry Beuchat, 2004.
39. Member, College of Agricultural and Environmental Sciences, Search and Screening Committee, Associate Dean for Research, 2007.
40. Member, UGA Faculty of Infectious Diseases, 2008-
41. Member, Post Tenure Review Committee of Joseph Frank, 2011.
42. Invited Faculty Member, Center for Drug Discovery Faculty, University of Georgia, 2011.
43. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr.' s post-tenure progress toward Full Professor, 2011.
44. Member, Post-tenure Evaluation Committee, Department of Food Science and Technology, University of Georgia. Evaluation of Dr. Joseph Frank's post-tenure progress, 2011.
45. Member, Post Tenure Review Committee for Ynes Ortega, 2012.

Other Forms of Professional Service

Journal Management Committee, Journal of Food Protection, 1981-1985.

Wisconsin Association of Milk and Food Sanitarians-Wisconsin Environmental Health Association Joint Committee on Education, 1981-85. Vice-Chairman, 1984-85.

Program Committee, Wisconsin Association of Milk and Food Sanitarians Annual Meeting, 1981-82.

Secretary, Food Microbiology Division of the American Society for Microbiology, 1982.

Wisconsin Agricultural Experiment Station Representative to NCR-121, The safety of feed and foods related to animal production, 1983-1988. Secretary, 1983-84; Chairman, 1984-85.

Secretary, Campylobacter Society, 1983-85.

Advisory Committee on Annual Program Content, International Association of Milk, Food and Environmental Sanitarians, 1984-87.

Executive Committee, Food Microbiology Division of the American Society for Microbiology, 1984-85.

Member-At-Large, Executive Committee, Food Microbiology Division of the Institute of Food Technologists, 1984-86.

Invited Participant, Institute of Food Technologists Workshop on Research Needs, Arlington Heights, IL, 1984.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1984-2000

Executive Committee, Conference for Food Protection, 1985-86.

Chairman, Food Microbiology Division's Public Information Committee, Office of Scientific Affairs, Institute of Food Technologists, 1985-

Expert Advisor, 2014. STTR grant for Zansors in the Specific Aims.

02/2015

Committee to Draft Institute of Food Technologists Scientific Status Summary on "Bacteria Associated with Foodborne Diseases," 1985-87.

Technical Advisory Committee, Center for Dairy Research, University of Wisconsin, 1986-91.

Scientific Advisor, American Meat Institute - Meat Safety Committee, 1986-95.

Ad Hoc Reviewer, U.S. Department of Agriculture Small Business Innovative Research Competitive Grants Program, 1986, 88-98, 2000-2003.

External Examiner, Ph.D. Examination of Lai-King Ng, University of Alberta, Department of Microbiology, Edmonton, Alberta, Canada, February 16, 1987.

Ad Hoc Reviewer, U.S. Department of Agriculture Molecular Biology/Gene Structure-Animals Competitive Research Grants Program, 1987, 1988.

Alternate Councilor, Wisconsin Institute of Food Technologists, 1987-90.

Member, World Health Organization Working Group on Thermoresistance of Listeria monocytogenes, 1987-91.

Chairperson, Group E64 Expert Committee on Detection and Enumeration of Listeria monocytogenes in Milk and Milk Products; Gram-positive pathogens, United States Contingent of International Dairy Federation, 1987-94.

Ad Hoc Reviewer, U.S. Department of Agriculture BARD Research Grants Program, 1988.

Member, Annual Meeting Program Committee, Institute of Food Technologists, 1988-1991.

Scientific Advisor, World Health Organization, Scientific Working Group on Epidemiology and Disease Prevention. Trip to Lagos, Nigeria to advise investigators at the University of Lagos, College of Medicine, on research approaches to study the microbiological safety of fermented weaning foods, August 19-27, 1988.

Review Team Member, U.S. Department of Agriculture-Cooperative State Research Service. Comprehensive Department Review of the Department of Food Science and Nutrition, University of Minnesota, St. Paul, October 31-November 4, 1988.

Scientific Advisory Board, International Committee on Food Microbiology and Hygiene of the International Union of Microbiological Societies to plan its 14th International Symposium, 1988-1990.

Reviewer, Wisconsin Department of Development-Small Business Innovation Research Proposal, 1988.

Writing Committee, NASULGC Division of Agriculture-Committee on Biotechnology, Socio-Economic Subcommittee Basebook/Leaflet Series on the Social and Economic Effects of Biotechnology, 1988-1990.

Ad Hoc Reviewer, Freedom Magazine, 1988.

Project Monitor, International Life Sciences Institute-Nutrition Foundation, Listeria and Food Safety Research Projects, 1988-95.

Member, Membership Committee, American Academy of Microbiology, 1989-90.

Ad Hoc Reviewer, Hatch Program, Massachusetts Agricultural Experiment Station, University of Massachusetts-Amherst, 1989.

Executive Board, International Association of Milk, Food and Environmental Sanitarians, Secretary, 1989-90; Vice-President, 1990-91; President-Elect, 1991-92; President, 1992-93; Past-President, 1993-94.

Member, Council for Agricultural Science and Technology Task Force on "Assessment of Risk Associated with Pathogenic Microorganisms in Food," 1989-94.

Ad Hoc Reviewer, Connecticut Sea Grant College Program, University of Connecticut, 1989.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agriculture Research Service, Research proposals. 1989.

Ad Hoc Reviewer, Natural Sciences and Engineering-Research Council of Canada proposals, 1989-95.

State Key Contact, American Society for Microbiology Public and Scientific Affairs Board, 1989-91.

Ad Hoc Reviewer, Washington State Beef Commission Research Grants Program, 1990.

Ad Hoc Reviewer, U. S. Department of the Army Research Grants Program, 1990.

Ad Hoc Reviewer, American Council on Science and Health, booklet series, 1990.

Quality and Safety Scientific Advisory Group, Wisconsin Milk Marketing Board, 1990.

Executive Committee, International Union of Microbiological Societies-International Committee on Food Microbiology and Hygiene, American Society for Microbiology representative, 1990.

Ad Hoc Reviewer, U.S. Food and Drug Administration's Bacteriological Analytical Manual, 7th ed., 1990.

Ad Hoc Reviewer, Rutgers-The State University of New Jersey, Research proposal, 1990.

Ad Hoc Reviewer, U.S. Department of Agriculture-Agricultural Research Service, Research papers, 1985-93.

Scientific Committee, International Conference on Listeria and Food Safety (June 13-14, 1991), Laval, France, 1990-91.

Technical Session chairman, Institute of Food Technologists, 1991 Annual Meeting, Dallas, TX, 1990-91.

Jury Chairperson, International Association of Milk, Food, and Environmental Sanitarians' Educator Award, 1991-92.

Ad Hoc Reviewer, U. S. Department of Agriculture - Cooperative State Research Service, National Research Initiative Competitive Research Grants, 1991-2004.

Program Areas: Ensuring Food Safety: Preharvest Section and Postharvest Section
 Animal Molecular Genetics and Gene Mapping
 Mechanisms of Animal Disease
 Value Added Products
 Water Resources Assessment & Protection
 Ecosystem Science
 Soil & Soil Biology
 Epidemiological Approaches for Food Safety
 Food Characterization/Process/Product Research

External Examiner, Ph.D. Thesis, McGill University, 1991.

ASM Foundation Scientific Lecturer, American Society for Microbiology, 1991-93.

Reviewer, Book Chapter for Proceedings of NIH Campylobacter Symposium, 1991.

Correspondent, Food Safety Notebook, 1990-99.

Ad Hoc Reviewer, Alaska Sea Grant Program, 1991.

Ad Hoc Reviewer, USDA Food News, 1991.

Ad Hoc Reviewer, Cambridge University Press, Microbiology Texts, 1991.

Chair-Elect, Southern Extension and Research Activity - Information Exchange Group on Food Safety, 1991-95.

Ad Hoc Reviewer, Marcel Dekker, Food Microbiology and Food Safety Texts, 1991, 94.

Advisory Committee, Listeria 1992, The Eleventh International Symposium on Problems of Listeriosis, Copenhagen, 1991-92.

Ad Hoc Member and Chairperson, Annual Meeting Program Committee, International Association of Milk, Food and Environmental Sanitarians, 1991-92.

Chairman, Institute of Food Technologists Food Microbiology Division, Office Scientific Affairs Committee, 1991-2007.

Scientific Program Committee, 2nd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing Escherichia coli Infections, Bergamo, Italy, 1992-94.

Ad Hoc Reviewer, U. S. Department of Agriculture - Food Safety and Inspection Service, Proposal to determine microbiological profile of U. S. beef supply, 1992.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Department Review of the Department of Food Science, North Carolina State University, Raleigh, April 12-17, 1992.

Ad Hoc Reviewer, National Academy of Sciences Institute of Medicine, Report on Emerging Infections: Microbial Threats to Health, 1992.

Member, Institute of Food Technologists Samuel Cate Prescott Award Jury, 1992-95.

Ad Hoc Reviewer, Encyclopaedia of Food Science, Food Technology and Nutrition, 1992.

Expert Panel Member, Dairy Research Foundation, Assess safety of products from freeze concentration of dairy streams, 1992.

Ad Hoc Reviewer, Medical Research Council of Canada, Research proposal, 1992.

Ad Hoc Reviewer, International Life Sciences Institute North America, Research papers, 1989-96.

Member, International Life Sciences Institute-North America, Publications Committee, 1992-94.

External Assessor, University Pertanian Malaysia, Appointment of faculty to Food Science and Biotechnology Department, 1992-95.

Member, Group E32 Expert Committee on Gram-Negative Bacteria, United States Contingent of International Dairy Federation, 1992-94.

Member, National Academy of Science - Institute of Medicine, Food Forum, 1993-99.

Review Team Member, U. S. Department of Agriculture - Cooperative State Research Service.
Comprehensive Review of the Department of Food Science and the Center for Advanced Food Technology, Rutgers-The State University of New Jersey, New Brunswick, NJ, March 22-26, 1993.

Scientific Program Committee Member, 3rd International Conference of ASEPT, Food Safety '94, 1993-94.

Ad Hoc Reviewer, Pennsylvania State University College of Agricultural Sciences, USDA Special Grant on Milk Safety Proposals, 1993.

Ad Hoc Advisor, Secretary of Agriculture Mike Espy, Escherichia coli O157:H7 Research: Past, Present, and Future, February 1993.

Scientific Advisor, National Live Stock and Meat Board, Food Safety Round Table II, 1993.

Scientific Advisor, Grocery Manufacturers of America, Microbiology Safety and Control Working Group, 1993.

Invited Expert, U. S. Department of Agriculture, Food Safety and Inspection Service, Testify at regional hearing on the safety of the nation's meat and poultry supply, Atlanta, GA, June 11, 1993.

Chair, American Society for Microbiology, Public and Scientific Affairs Board - Ad Hoc Committee on Food Safety, 1993-2009.

External Examiner, The University of the West Indies, Food Microbiology program, 1993-96.

Ad Hoc Reviewer, American Society for Microbiology, Sayers and Whit Book on "Microbial Pathogenesis," 1993.

Chairperson, Scientific Advisory Committee on Food Safety, National Live Stock and Meat Board, 1993.

Member, Publications Committee, International Life Sciences Institute North America, 1992-95.

Response Panel Member, Joint Council on Food and Agricultural Sciences, Meeting on Nutritious and Safe Food, 1993.

Member, Search Committee, U. S. Department of Agriculture Food Safety and Inspection Service, Deputy Administrator "Super Scientist" position, 1993-94.

Reviewer, Beef Industry Council and National Live Stock and Meat Board, Safe Food Backgrounder, 1993.

Ad Hoc Advisor, Advisory Committee on the Microbiological Safety of Food, Working Group on Vero Cytotoxin-Producing Escherichia coli, Department of Health, London, England, 1993-95.

Member, American Society for Microbiology, Committee on Microbiological Literacy, 1993-94.

Invited Respondent, Journal of the American Medical Association, 1993.

Member, International Association of Milk, Food and Environmental Sanitarians, Strategic Long Range Planning Task Force, 1993-95.

Expert Reviewer, Association of Official Analytical Chemists, Test Kit Performance Testing Program, 1993-95.

External Advisor, University of Guadalajara, Ph.D. degree program of Alejandro Castillo Ayala, 1993-96.

Chairperson, National Academy of Sciences - Institute of Medicine Food and Nutrition Board Food Forum, Committee on HACCP, 1993-94.

Member, National Research Council Board on Agriculture, Panel on Animal Health and Veterinary Medicine, 1993-96.

Invited Expert, U. S. House of Representatives, Committee on Agriculture, Subcommittee on Department of Operations and Nutrition, Hearing on Meat and Poultry Inspection, Washington, DC, March 16, 1993.

‘Member, Georgia Beef Board, GA Food Safety Alliance Team, 1993-99.

Ad Hoc Reviewer, Institute for Science in Society, Washington, DC, White Paper on Foodborne Pathogens in Meat and Poultry, 1993-94.

Member, Review Panel, International Life Science Institute-North America, Future Leaders Awards, 1994-2000.

Trustee Members, Executive Committee, International Life Sciences Institute, 2014.

Invited Contributor, Southeastern Agriculture Experiment Stations - CSRS Impact Report, Food Safety Research Contributions, 1994.

Elected Representative, U. S. Department of Agriculture - Food Safety and Inspection Service, HACCP Round Table, Washington, DC, March 30-31, 1994.

Expert, Fletcher, Vautier Moore (Barristers & Solicitors), New Zealand, Listeriosis manslaughter prosecution, 1993-94.

Representative, Georgia Agricultural Experiment Station, Regional Project DC93-02, "Assuring Food Safety Through Control of Foodborne Disease Agents," 1994-97.

Member, U. S. Department of Agriculture - Food Safety and Inspection Service, Technical Analysis Group on Processing, 1994.

Member, Scientific Advisory Committee, International Life Sciences Institute, First Pan American Conference on Food Safety, 1994-95.

Member, Southern Association Agricultural Experiment Stations Directors, Advisory Committee on Food Science and Technology (AC-4), 1994-99.

Member, Joint U. S. Department of Agriculture/University Committee on Food Safety, Enhancing Cooperation in Food Safety Research and Education, 1994.

Member, Scientific Advisory Board, GENE-TRAK Systems, 1994.

Member, American Society for Microbiology Raymond W. Sarber Award Selection Committee, 1994-96.

External Examiner, The University of the West Indies, M.S. Thesis of Roshini Mahaiaj, 1994.

Jury Member, DFISA-American Society of Agricultural Engineering Food Engineering Award, 1994.

Member, European Verotoxin-producing Escherichia coli (VTEC) Club, 1994-2000

Chairman, International Association of Milk, Food and Environmental Sanitarians - Past President's Advisory Committee, 1993-94.

Chairman, International Association of Milk, Food and Environmental Sanitarians - Finance Committee, 1993-94.

Ad Hoc Reviewer, International Life Sciences Institute, Food Safety proposal, 1994.

Ad Hoc Reviewer, American Society for Microbiology, Book proposal, 1994.

Ad Hoc Reviewer, National Science and Technology Council, Subcommittee on Food Safety, Security and Production's Strategic/Implementation Plan, 1994.

Advisor, Ophidian Pharmaceutical, Inc., USDA Small Business Research Program Phase I Grant, "Development of an antidote for E. coli O157:H7 verotoxin" project, 1993-95.

Invited Participant, USDA/University Workshop on Enhancing Cooperation in Food Safety Research and Education, Washington, DC, March 8-9, 1994.

Ad Hoc Advisor, National Live Stock and Meat Board Blue Ribbon Task Force on E. coli O157:H7, 1994.

Member, Georgia Poultry Emergency Committee, 1994-99.

Ad Hoc Reviewer, Board of Regents of the State of Louisiana, Research proposal, 1994-95.

External Examiner, The University of the West Indies, M.S. Thesis of Vidia Doodnath, 1994.

Scientific Advisor, International Meat and Poultry HACCP Alliance, Poultry Enhancement Program-Pilot Study, 1994.

Expert Participant, Research Triangle Institute and U. S. Department of Agriculture, Project on risk analysis, 1993-94.

Invited Participant, USDA-Agricultural Research Service, Conference on Regional Vitiation Development, Atlanta, GA, July 13, 1995.

External Examiner, The University of the West Indies, M.S. Thesis of Lorraine Westcarr, 1995.

Ad Hoc Reviewer, Food and Agriculture Organization of the United Nations, International Consultative Group on Food Irradiation, Technical Monograph, 1995.

Reviewer, University of New South Wales, Department of Food Science and Technology, Sydney, Australia, Food Microbiology Teaching and Research Program, 1995.

Scientific Program Committee, 3rd International Symposium and Workshop on Verocytotoxin (Shiga-Like Toxin)-Producing *Escherichia coli* Infections (VTEC '97), 1995-97.

Third Party Expert, Animal Health Institute, Food Safety Network, 1995-2001.

Reviewer, National Research Council, Food Chemicals Codex, 4th edition, 1995.

Resource Person/Interview, Iowa Public Radio, Market-to-Market (Farm News), Food Safety, July, 1995.

Ad Hoc Reviewer, American Society for Microbiology, P. Murray Book on “Pests and Pestilence in the Modern Age of Medicine,” 1995.

Chairman, American Society for Microbiology, Ad-Hoc Committee on Food Safety, 1995-

Member, International Life Sciences Institute-North America, Membership Committee, 1995-96.

Member, International Life Sciences Institute-North America, Technical Committee on Food Microbiology, Organizing Committee on ILSI-USDA-sponsored Conference of Emerging Pathogens, 1995-96.

Invited Participant, The Food Drug Law Institute, Food Update ‘95 (Academic Fellowship), 1995.

Reviewer, Institute of Medicine, Food and Nutrition Board, Food Chemicals Codex, 1995.

Member, The Advancement of Sound Science Coalition, 1995-99.

Invited Participant, Food and Drug Administration, Regulatory Reform Workshop/A New Partnership, 1995.

Member, Food and Drug Administration Advisory Committee Task Group on *Vibrio vulnificus*, 1995.

Reviewer, University of the West Indies, University Project Implementation Unit, Research Proposal on “The Production of Mozzarella Cheese from Buffalo Milk,” 1995.

Member, Rhône-Poulenc, Food Safety Expert Team, 1995.

Invited Participant, U. S. Department of Agriculture-Food Safety and Inspection Service, Microbiological methods development workshop, March, 1995.

Member, Georgia Tech Industrial Advisory Committee, HACCP Working Group, 1995.

Member, International Life Sciences Institute, First Pan American Conference on Food Safety, Scientific Committee, 1994-95.

Member, American Meat Institute’s Science and Education Panel, 1995-96.

Chairman, American Society for Microbiology, Task Force on Food Microbiology Laboratory Accreditation Program, 1996-97.

Chairman, Odwalla Nutrition and Safety Advisory Council, 1996-97.

Member, International Life Sciences Institute-North America, Nominating Committee, 1996-97.

Member, McDonald's Olympic Food Service Team, Atlanta, GA, 1996.

Ad Hoc Reviewer, Van Nostrand Reinhold Publishers, Book Proposal (Food Safety Law), 1996.

External Assessor, Universiti Pertanian Malaysia, evaluate appointments to the post of Associate Professor/Professor in the Faculty of Food Science and Biotechnology, University of Agriculture, Malaysia, 1996-98.

Reviewer, American Society for Microbiology, Book Review, *Escherichia coli* in Domestic Animals and Humans. ASM News 62:153 (1996).

Member of Scientific Advisory Council, The Refrigeration Research and Education Foundation, 1996-2002.

Reviewer, International Fresh-cut Produce Association, Book Review (Food Safety Guidelines for Fresh-cut Produce), 1996.

Consultant, Ophidian Pharmaceuticals, Madison, WI, USDA Small Business Research Program Phase II Grant (Development of an Antidote for *E. coli* O157:H7 Verotoxin), 1995-97.

Reviewer, International Life Sciences Institute, World Health Organization book on "Health Education in Food Safety," 1996-97.

Reviewer, International Consultative Group on Irradiation, Joint Food and Agriculture Organization of the United Nations/International Atomic Energy Agency (WHO), White Paper on "Control of Pathogens in Poultry Meat," 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Lisa Indar, 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Siddiqua N. Mohammed, 1996.

External Examiner, The University of the West Indies, M.S. Thesis of Ellison P. Floyd, 1996-97.

Editorial Board, John Wiley & Sons, Inc., "Encyclopedia of Food Science and Technology" (Second Edition), 1997-2000.

Scientific Advisor, Produce Marketing Association (Nuffer, Smith, Tucker, Inc.; Public Relations) Development of an advisory for consumers to assess the significance of a foodborne outbreak to them, 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, "Coliforms and *E. coli*: Problem or Solution?", 1998.

Member, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, U.S.. Environmental Protection Agency, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Andrew D. Persad, 1997.

Scientific Advisor and Spokesperson, International Fresh-cut Produce Association, Washington, DC, Television Media Video on “Packaged Salad Safety,” 1997.

Consultant, Immunological Associates of Denver, USDA Small Business Research Program Phase I Grant (Development of a Rapid Method to Detect *E. coli* O157:H7), 1997-98.

External Examiner, The University of the West Indies, M.S. Thesis of Gloria R. Boodoosingh, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on *Cyclospora*, Washington, DC, July 23, 1997.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2000.

Member, International Scientific Advisory Board of Food Micro ‘99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, NSF International, Proposed Standard 75 (NSF International Standard for Foods - Non-Potentially Hazardous Foods), 1997.

Reviewer, Western Association of Agricultural Experiment Station Directors, Cooperative Regional Research Project W-122 Proposal (Improve Food Safety through Discovery and Control of Natural and Induced Toxicants and Antitoxicants), 1997.

Reviewer, Trends in Food Science & Technology (Elsevier Trends Division), Book Review, “*Escherichia coli*: Mechanisms of virulence,” 1997.

Reviewer, National Academy of Sciences-Institute of Medicine, “Food Chemicals Codex: First Supplement to the Fourth Edition,” 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Darin A. Sukha, 1997.

Reviewer, International Fresh-cut Produce Association, White paper on the microbiology of fresh-cut produce, 1997.

Reviewer, Chapman & Hall, Book Proposal Review, “Food Safety” (Rodricks, Taylor and Hulebak, eds.), 1997.

Member, International Life Sciences Institute-North America, Long-Range Program Committee, 1997-99.

Member, International Life Sciences Institute-North America, Program Oversight Committee, 1997-98.

External Evaluator, University Pertanian Malaysia, Promotion evaluation of Associate Professor Gulam Rusul Bin Rahmat Ali to Professor, 1997.

Reviewer, Ronald McDonald House Charities, Research proposal, 1997.

Scientific Advisor and Intermediary, New York State Department of Agriculture & Markets and Rite Foods, Microbiological criteria for hummus, 1997.

Member, International Fresh-cut Produce Association, Food Safety Task Force, 1997-1999.

Invited Commentor, Food and Drug Administration Docket No. 96N-0449 (Current Science and Technology on Fresh Juices) through the American Society for Microbiology, January 1997.

Reviewer, International Foundation for Science, Stockholm, Sweden, Research grant proposal, 1997.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1997 and 1998.

Reviewer, Marcel Dekker, Book proposal (Pharmacology and Physiology of Phycotoxins), 1997.

Member, Scientific Advisory Panel, Environmental Protection Agency, Panel on Microbiology - Efficacy Testing, 1997.

External Examiner, The University of The West Indies, M.S. Thesis of Andrew Dev Persad, 1997.

Member, Fresh Produce Subcommittee, National Advisory Committee on Microbiology Criteria for Foods, Public Meeting on President's Initiative to Ensure the Safety of Imported and Domestic Fruits and Vegetables, Washington, DC, November 17, 1997.

Reviewer, National Academy of Sciences - Institute of Medicine, First Supplement to the Food Chemicals Codex, 4th edition, 1997.

Book Reviewer, Chapman & Hall, Food Product Development Capstone Course Textbook, 1997.

Reviewer, Arkansas Science & Technology Authority, Research proposals, 1997.

Invited Expert Testimony, U.S. Senate Committee on Agriculture, Hearing on Food Safety (represented American Meat Institute, Grocery Manufacturers of America, National Broiler Council, National Food Processors Association and National Turkey Federation), October 8, 1997.

Scientific Advisor and Spokesperson, The Association for Dressings and Sauces, Atlanta, GA Television News Video on "Mayonnaise Safety", 1997.

International Scientific Advisory Board, Food Micro '99, 17th International Symposium of the International Committee on Food Microbiology and Hygiene, 1997-99.

Reviewer, University of Georgia College of Veterinary Medicine, research paper, 1997.

Invited Participant, Food and Drug Administration/National Science Foundation/U. S. Department of Agriculture, Workshop in Enhancing Food Safety through the Use of Sensors, Washington, DC, September 24, 1997.

Member, International Life Sciences Institute - North America, Executive Committee, 1998-2000.

Member, Fellows Committee, International Association of Milk, Food and Environmental Sanitarians, 1998.

Chairman, Georgia-Pacific Health Smart™ Advisory Board, 1998-2001.

Reviewer, Canada Foundation for Innovation, Research Infrastructure Projects, 1998.

Member, Council for Agricultural Science and Technology Committee on Foodborne Pathogens - Update of Recommendations, 1997-98.

Member, Institute of Food Technologists, Samuel Cate Prescott Award Jury, 1998-2001.

Reviewer, National Science Foundation, Centers proposals, 1998.

Advisor, International Sprout Growers Association and Green Giant, Pathogen contamination of sprouts, 1998.

Scientific Communicator, Institute of Food Technologists, 1998-

Reviewer, The Wellcome Trust, Research proposal, 1998.

Panel Member, U.S. Department of Agriculture-Food Safety Inspection Service, Conference on New Technologies to Improve Food Safety, July 28, 1998.

External Examiner, The University of the West Indies, M.S. Thesis of Ricardo Ramirez, 1998.

Member, Food Safety Award Committee, International Association of Milk, Food and Environmental Sanitarians, 1997.

Reviewer, Canada Foundation for Innovation, Center proposal, 1998.

Invited Reviewer, U.S. Department of Agriculture-Agricultural Marketing Service, Quality Through Verification Program, 1998.

Invited Panelist, U.S. Food and Drug Administration, Public Meeting on Sprouts, September 28-29, 1998.

Reviewer, Clemson University, South Carolina Agriculture and Forestry Research System, Research proposal, 1998.

Member, Food and Drug Administration Senior Biomedical Research Service (SBRS) Credentials Committee, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Catherine Berkeley, 1998.

External Examiner, The University of The West Indies, M.S. Thesis of Faith Spencer-Crossman, 1998

Reviewer, University of Nebraska-Nebraska Research Initiative, Research Grant Proposal, 1998.

Member, International Association for Milk, Food and Environmental Sanitarians, NFPA Food Safety Award Committee, 1998.

Editorial Board, Encyclopedia of Food Science and Technology, 2nd edition, John Wiley Publishers, 1997-2000.

Member (Scientific Expert), Alliance of the California Foodborne Disease Network, Los Angeles, CA, 1997-2000.

Member, American Society for Microbiology, Committee on Agricultural and Food Microbiology, 1997-2003.

External Examiner, The University of The West Indies, M.S. Thesis of Kartikeya Tripathi, 1998.

Invited Expert and Rappateur, American Society for Microbiology Colloquium on “Food safety: current status and future needs,” Nashville, TN, August 14-16, 1998.

Member, Food Micro ‘99, 17th International Symposium of the IUMS International Committee on Food Microbiology and Hygiene, International Scientific Advisory Board, 1998-99.

Member, Produce Marketing Association, “Stop & Think Questions on Foodborne Illness,” Advisory Committee, 1997-98.

Invited Panelist, U.S. Department of Agriculture-Food Safety and Inspection Service, Conference on Technology to Improve Food Safety, Washington, DC, July 28, 1998.

Invited Panelist and Advisory Committee Member, Food and Drug Administration, Public Meeting on Sprouts, Washington, DC, September 28-29, 1998.

Elected Member, Operations Committee, National Alliance for Food Safety, 1998-2000.

Invited Panel Member, National Aeronautics and Space Administration, Food Technology Commercial Space Center Technical Review, 1998-99.

Invited Reviewer, Georgia Department of Agriculture, Food Safety Evaluation of New Products, 1998.

Invited Reviewer; Ad Hoc Advisory Group, National Institutes of Health, Office of Dietary Supplements, Peer review of public information fact sheets on dietary supplements, 1998.

Member, Georgia Department of Agriculture, Crisis Communication Committee, 1998-2009.

Member, International Life Sciences Institute, Program Planning Committee for the Conference on The National Food Safety Initiative: Implications for Microbial Data Collection, Analysis and Applications, 1998.

Member, International Life Sciences Institute-North America, Publication Committee, 1998-2000.

Invited Moderator, U.S. Department of Agriculture Secretary Dan Glickman, Presentation on “Food Safety and Public Health,” University of Georgia, March 13, 1998.

Invited Panel Members, National Academy of Sciences Meeting on Ensuring Safe Food from Production to Consumption, Washington, DC, April 29-30, 1998.

Scientific Advisor, U.S. Environmental Protection Agency, 1998-2005.

Scientific Advisor, Chick-fil-A, Alleged Foodborne Outbreak of *Klebsiella pneumoniae* Infections Associated with Chicken Salad, September, 1997.

Scientific Communicator, Institute of Food Technologists Scientific Communicator Committee, 1998-2008.

Expert, General Mills, Food Safety Video, 1999.

Member, Institute of Food Technologists, Chief Research Officers Task Force, 1999-2007.

Member, American Meat Science Association, “The Role of Microbiological Testing in Beef Food Safety Programs” Task Force, 1998-99.

Reviewer, International Foundation for Science, Stockholm, Sweden, Food Safety Research Grant Proposal, 1999.

Member, American Meat Institute, Blue Ribbon Task Force on *Listeria*, 1999.

Moderator, Georgetown University, Washington, DC, Ceres Forum on Research Priorities and Intervention Strategies for *Listeria*, May 19, 1999.

Reviewer and Contributor, National Cattleman’s Beef Association, Food Safety Information Resource, 1999.

Chairman, Institute of Medicine, Food Forum Symposium, Food Safety Policy, Science and Risk Assessment: Strengthening the Connection, 1999.

Reviewer, Rutgers - The State University of New Jersey, New Jersey Agricultural Experiment Station Research Proposal, 1999.

Member, U. S. Food and Drug Administration Deputy Commissioner, Search Committee, 1999-2000.

Reviewer and Resource Person, American Meat Institute, Issue statement on *Listeria monocytogenes*, 1998-99.

Member, University of Georgia Research Professionals’ Promotion Panel, 1999.

Member, American Association of Cereal Chemists, Annual Meeting on “Functional Foods: Strategies for the Food Industry,” Program Advisory Committee, 1999-2000.

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 2000-2003.

External Examiner, The University of the West Indies, M.S. Thesis of Karen Shaw, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Wayne Benjamin, 1999.

External Examiner, The University of the West Indies, M.S. Thesis of Nalini N. Boodram, 1999.

Member, International Association of Milk, Food and Environmental Sanitarians, Fellows Award Selection Committee, 1999.

Member, U. S. Food and Drug Administration and University of Maryland, Joint Institute for Food Safety and Applied Nutrition (JIFSAN), Advisory Council, 1999-2009.

Member, U. S. Food and Drug Administration, Senior Biomedical Research Service (SBRS) Credentials Committee, 1999-2002.

Member, American Meat Institute Foundation, *Listeria* Research Committee, 1999-2009.

Member, Charles Valentine Riley Memorial Foundation, Conference on Food Engineering: Development and Adoption of New Technologies with a Focus on Reducing Foodborne Diseases, Program Advisory Committee. 1999.

Member, Canada Foundation for Innovation, Review Committee (proposals submitted by the University of Guelph) 1999.

Reviewer, International Foundation for Science, research proposal, 1999.

Member, International Life Sciences Institute - North America, Presidential Search Committee, 1999.

Member, Odwalla, Nourishment and Safety Advisory Council, 1997-2000.

Member, Georgia Public Health Team, 1999-2009.

Member, Fresh Produce Committee, National Advisory Committee on Microbiological Criteria for Foods, Public Meeting on Sprouts, Washington, DC, March 29, 1999.

Advisor, Molecular Innovations Inc., Denver, CO, USDA Small Business Research Program Phase II Grant (Rapid Detection of *Escherichia coli* O157:H7), 1999-2001.

Member, U. S. Food and Drug Administration Science Board, Subcommittee to review research program of the Center for Food Safety and Applied Nutrition, 1999.

Member U.S. Defense Science Board Task Force on Defense Against Biological Weapons, 2000.

Member, National Institutes of Health, Center for Scientific Review Special Emphasis Panel, 2000.

Invited Consultant, International Life Sciences Institute-North America Food Microbiology Committee, Panel on *Listeria* in Foods, 2000.

Scientific Advisor and Spokesperson, Gold Kist, Atlanta, GA, Video on “Microbiological Safety of Chicken Nuggets,” 2000.

Scientific Advisor and Spokesperson, American Meat Institute Foundation, Food Safety Advisory Council, 1999-2000.

Invited Reviewer, American Society for Microbiology, U.S. Food and Drug Administration - U.S. Department of Agriculture Food Safety Strategic Plan, 2000.

Member, The Canada Foundation for Innovation, Expert College of Reviewers, New Innovations Committee, 2000-2003.

Member, ECOP/ESCOP Food Safety Subcommittee, 2000.

Elected Member, Institute of Food Technologists Executive Committee (Membership Representative), 2000-2003.

Reviewer, U.S. Food and Drug Administration Risk Assessment of *Vibrio parahaemolyticus* in raw molluscan shellfish, 2000.

Expert, Food and Agriculture Organization of the United Nations and World Health Organization, Risk Assessments of Microbiological Hazards in Foods Expert Panel, 2000-2002.

Reviewer, John Wiley & Sons, Dictionary of Food Science and Technology proposal, 2000.

Member, American Association of Cereal Chemists 2nd Annual Functional Foods Conference, Program Advisory Committee, 2000.

Expert Resource for News Media, International Food Information Council Foundation, Food Insight Media Guide on Food Safety and Nutrition, 2000-2002.

Invited Commenter/Reviewer, Academic Press, Encyclopedia of Food Microbiology, 1999.

Editorial Committee, Charles Valentine Riley Memorial Foundation, Reducing foodborne illness: Advancing adoption of new technologies, 2000.

Member, Biosys, Scientific Advisory Board, 2000-2001.

Reviewer, Food and Drug Administration Center for Veterinary Medicine, Competitive Grants, 2000.

Reviewer, Food and Drug Administration, Risk assessment of the public health impact of foodborne *Listeria monocytogenes*, 2000.

Reviewer, University of Massachusetts, Massachusetts Agricultural Experiment Station, Research Proposal, 2000.

Scientific Advisor, Dyn Corp/U.S. Environmental Protection Agency, Office of Pesticides Program, Antimicrobial Division, 2000-2003.

Excom-Member, Institute of Food Technologists, Publications Committee, 2000-2003.

Member, Experiment Station Committee on Organization and Policy (ESCOP) Task Force on Food Safety, 2000.

Vice-Chair, Experiment Station Committee on Organization and Policy (ESCOP) Committee on Food Safety, 2000-2002.

Member, International Life Sciences Institute-North America, Membership Development Committee, 2000-

Member, International Life Sciences Institute-North America, Program Committee, 2000-2002.

Member, International Life Sciences Institute-North America, Steering Committee for “Science-Based Food Safety Objectives-Beyond HACCP,” 2000-2001.

Scientific Advisor, North American Blueberry Council, Crisis Management Team, 2000-2009.

Panel Member, U.S. Environmental Protection Agency, FIFRA Scientific Advisory Panel, 2000-2003.

Reviewer, Meat & Livestock Australia, Research and Development Project (Final Report) on Shiga toxin-producing *E. coli*, 2000.

Reviewer, International Foundation for Science, Research Grant (Cloning and Sequencing of a Region of *E. coli* O157:H7), 2000.

Reviewer, Maryland Agricultural Experiment Station, Research Proposal, 2000-01.

Reviewer, Natural Sciences and Engineering Research Council (NSERC) of Canada, Strategic Project, 2000.

Member, Institute of Food Technologists, Expert Panel to draft report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century, 2000-02.

Chairman, Council for Agricultural Science and Technology (CAST), Issue Paper on “Intervention Strategies for Safety of Foods of Animal Origin,” 2000-03.

External Assessor, Universiti Putra Malaysia, Evaluate appointments to Associate/Professor in the Faculty of Food Science and Biotechnology, 2000-03.

Invited Testimony, U.S. Senate Agriculture, Nutrition and Forestry Committee, Hearing on Food Safety, represented CAST, September 20, 2000.

Reviewer, U.S.-Israel Binational Agricultural Research and Development Fund (BARD), Research Proposal, 2000-01.

Vice Chairperson, World Health Organization and Food and Agricultural Organization of the United Nations, Expert Consultation on Risk Assessment of Microbiological Hazards in Foods, Rome, Italy, April 30-May 4, 2001.

Chairman, World Health Organization and Food and Agriculture Organization of the United Nations, Expert Consultation and Risk Assessment of Microbiological Hazards in Foods, Working Group on *Salmonella* spp. in eggs and broiler chickens, Rome, Italy, April 30-May 4, 2001.

Member, Institute of Food Technologists, Subcommittee to Propose Nominees for Committee on Nominations and Elections, 2001.

Reviewer, National Agency for the Promotion of Science and Technology of Argentina, Review proposal “Predictive models for growth and inactivation of pathogens relevant to minimally processed foods,” 2001.

Member, National Organic Standards Board, Task Force to Review Compost Regulations in USDA’s Organic Rule, 2001-2002.

Chairman, American Academy of Microbiology, Colloquium on “The Role of Antimicrobials in Agriculture: A Critical Scientific Assessment” Working Group, November 2-4, 2001.

Expert, U.S. General Accounting Office, USDA’s HACCP-based Inspection Models Project (HIMP) pilot, 2001.

Chair, American Society for Microbiology, Comments to Food and Drug Administration on Risk Assessment and Action Plan for Foodborne *Listeria monocytogenes* in Ready-to-Eat Foods, 2001.

External Examiner, Ohio State University, Promotion to Professor of Ahmed Yousef, 2001.

External Examiner, Rutgers-The State University of New Jersey, Promotion to Associate Professor and Tenure of Karl Matthews, 2001.

External Examiner, Universiti Putra Malaysia, Promotion to Professor of Son Radu, 2001.

Panel Member, GRAS Review of Pullulan, 2001-2002.

External Assessor, Universiti Putra Malaysia, Appointment to Associate Professor/Professor in the Faculty of Food Science and Biotechnology, 2001-2003.

External Examiner, Universiti Putra Malaysia, Evaluation of Ph.D. Thesis of Sahilah Abdul Mutalib, 2001.

Reviewer, Food and Drug Administration Science Achievement Awards, 2001.

Invited Contributor, University of Sussex and UK Defence Evaluation and Research Agency, Science Foresight Project, 2001.

Invited External Reference, Kansas State University Nominations for Distinguished Graduate Faculty Award for Daniel Fung, 2001.

Invited External Reference, Oklahoma State University, Nomination for the Eminent Faculty Award for Stanley Gilliland, 2001.

Invited External Reference, Colorado State University, Nomination for University Distinguished Professor for John Sofos, 2001.

Reviewer, United States-Israel Binational Agricultural Research and Development Fund (BARD) research proposal (Foodborne pathogens *Salmonella enteritidis* and *Escherichia coli* O157:H7:cross-resistance to antibiotics, sanitizers and food preservatives), 2001.

External Examiner, The University of the West Indies, Evaluation of Ph.D. Thesis of Lisa Indar-Harrinath, 2001-03.

External Examiner, University of Tasmania, Evaluation of Ph.D. Thesis of Janelle Brown, 2001-2002.

Reviewer, Canada Foundation for Innovation, New Opportunities Fund Proposals (Nova Scotia Agricultural College), 2001-2003.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2001-2003.

Invited Reviewer, Beef Cattle Research Council of Canada, Research Proposal, 2001.

Reviewer, Institute of Food Technologists, Expert Paper on “Analysis and Evaluation of Preventive Control Measures for the Control and Reduction/Elimination of Microbial Hazards on Fresh and Fresh-cut Products,” 2001.

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agricultural *E. coli* O157:H7 Farm-to-Table Process Risk Assessment, 2001-2002.

Reviewer, U.S. Environmental Protection Agency, Review of Pathogen Reduction Protocol to Reduce Foodborne Pathogenic Bacteria in Fruit and Vegetable Process Water, 2001.

Expert Panelist, U.S. Environmental Protection Agency Antimicrobials Division, Efficacy Protocol Review Expert Panel, 2001-2005.

Co-chairperson, International Life Sciences Institute, Annual Meeting, Symposium on Bovine Spongiform Encephalopathy, 2001-2002.

Invited Participant, American Meat Institute, Meeting with the Centers for Disease Control and Prevention to address pathogen contamination of meat and poultry, 2001.

Reviewer, Natural Sciences and Engineering Research Council of Canada, Research Proposal on “Microbial Food Safety-Integrated Modelling Techniques for Farm to Fork Risk Assessment,” Strategic Project, 2001.

Reviewer, Biotechnology and Biological Sciences Research Council of the United Kingdom, Research Proposed on “Dose-Dependent Infection Dynamics of *E. coli* O157:H7 in Cattle,” 2001.

Expert Panel Member, Institute of Food Technologists, Expert Report on “The Science of Emerging Foodborne Pathogens and Implications for Control in the 21st Century,” 2001.

Member, McDonald’s Food Safety Advisory Council, 2001-2009.

Reviewer, Institute of Food Technologists, Book Review, “Microbial Foodborne Diseases: Mechanisms of Pathogenesis and Toxin Synthesis.” *Food Technology* 55:87, 2001.

Reviewer, Institute of Food Technologists, Expert Report on the “Evaluation and Definition of Potentially Hazardous Foods,” 2001-2002.

Member, American Academy for Microbiology, General and Applied Microbiology Recruitment Committee, 2001-2002.

External Examiner, Utah State University, Promotion to Professor of Burt Weimer, 2001.

Member, National Organics Standards Board of USDA/National Organic Program, Compost Task Force, 2001-2002.

Member, American Society for Microbiology, Nominating Committee for President-Elect, 2001-2002.

Reviewer, Resources for the Future (RFF) Press, *Food Safety* book, 2001-2002.

Member, U.S. Food and Drug Administration, Scientific Achievement Awards Evaluation Committee, 2001.

External Examiner, Iowa State University, College of Veterinary Medicine, Promotion to Professor, James Dickson, 2001.

External Advisor, Michigan State University, National Food Safety and Toxicology Center, Strategic Plan for Center, 2001.

Member, Institute of Food Technologists, Committee of IFT Liaisons to the International Life Sciences Institute, 2001-2002.

Founding Member, Food Safety Research Consortium, comprised of Resources for the Future, University of Maryland, University of Georgia, University of California-Davis, Michigan State University, University of Massachusetts, and Iowa State University, 2002-2009.

Member, Institute of Food Technologists, Task Force on Assisting the Continued Integrity of the U.S. Food Supply, 2001-2002.

Steering Committee Member, Third National Sanitation Foundation International Food Safety Conference, 2001-2002.

Invited External Reference, U.S. Food and Drug Administration nomination for appointment to Senior Biomedical Research Program for David Acheson, 2002.

Invited External Reference, International Association for Food Protection and National Food Processors Association nomination for Food Safety Award for Nelson Cox, 2002.

Invited External Reference, International Association for Food Protection nomination for Citation Award for John Cervený, 2002.

Member, American Academy of Microbiology, Committee on Election to Fellowship, 2002-2007.

Invited External Reference, Institute of Food Technologists nomination for Fellow for Katherine Swanson, 2002.

Invited Reviewer, National Science Foundation, proposal for Integrated Research and Education in Environmental Systems, 2002.

Member, Milbank Memorial Fund, Consortium on Reducing the Burden of Foodborne Illness, 2002.

Invited Evaluator, Argentina National Agency of Promotion Cientifica and Tecnologia proposals, 2002.

Chairman, International Life Sciences Institute Risk Science Institute, *Listeria monocytogenes* Expert Panel Review, Steering Committee, 2002.

Invited Reviewer, United States Civilian Research and Development Foundation for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2002.

International Editorial Advisory Board, *Encyclopedia of Animal Science*, Marcel Dekker, 2002-2009.

invited Advisor, U.S. Government Accounting Office (GAO), Audits of U.S. government food safety activities, Review of security of food processing from deliberate contamination, 2002.

Member, 5th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections - VTEC 2003, Edinburg, Scotland, 2002-2003.

Member, National Institutes of Health, National Institute of Allergy and Infectious Diseases, Partnerships Biodefense Initiative Review Panel, Small Business: Infectious Diseases and Microbiology, 2002.

Host, USDA Foreign Agricultural Service Cochran Fellow, Virginia Montero Campos (Costa Rica), 2002.

Reviewer, Food and Drug Administration, Center for Veterinary Medicine, Grant application (Resistant *E. coli* in humans and poultry), 2002.

Reviewer, USDA National Organic Standards Board TAP report on magnesium oxide, 2002.

Review Panel, Food and Drug Administration, proposal for renewal of the Joint Institute for Food Safety and Applied Nutrition, 2002.

Advisory Board, Partnership for Food Safety Education, 2002-2005.

Member, International Life Sciences Institute-North America, Nominations Committee, 2002.

Reviewer, Food and Drug Administration Bacteriological Analytical Manual, Chapter 10 on “Detection and Enumeration of *Listeria monocytogenes* in Foods,” 2002.

Reviewer, Versar, Environmental Protection Agency “*E. coli* O157:H7 Criteria Document,” 2002.

Invited Expert, Institute of Food Technologists Task Order #5 Expert Panel, Intentional Contamination of Food, 2002-2003.

Drafting Team, President’s Council of Advisors for Science and Technology (Office of Science and Technology), Research priorities for improved assurance of food and water safety in the U.S., 2002.

GRAS Expert Panel, Mead Johnson, Safety Review: *Lactobacillus rhamnosus* strain GG, 2002-2003.

Host, USDA Foreign Agricultural Service Cochran Fellow, Diana Banati (Central Food Research Institute, Budapest, Hungary), 2002.

Host, USDA Foreign Agricultural Service International Cooperation and Development Program, Yugoslavian Food Safety Officials (Risk Assessment-Based Food Safety Policy making), 2002.

Member, College of Reviewers, Canada Research Chairs Program, National Sciences and Engineering Program, 2002-

Member, International Life Sciences Institute-North America, Annual Meeting Scientific Session Planning Committee, 2002-2003.

Steering Committee Member, Food Safety Research Consortium, 2003-2009.

Review Coordinator, National Academy of Sciences - Institute of Medicine, Report on “Use of Scientific Criteria and Performance Standards for Safe Foods,” 2003.

Member, International Life Sciences Institute-North America, Communications Committee, 2003-2007.

Member, American Meat Institute Foundation, Research Committee, 2001-2009.

Chair Designate, Institute of Food Technologists, Government Relations Committee, 2003-2004.

Invited Expert, Institute of Food Technologists, Task Order No. 7 Expert Panel (Biosecurity), 2003-2004.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2006

Member, Fifth ASEPT International Conference “Analyse de risques et *Listeria monocytogenes*/*Listeria monocytogenes* Risk Analysis,” Scientific Committee, 2003-2004.

Consultant, U.S. Department of Agriculture-Agricultural Marketing Service, Microbiological Data Program, 2003-2005.

Invited Expert, Secretary of Health and Human Services Tommy Thompson, Secretary’s Roundtable on Obesity/Nutrition, July 30, 2003.

Member, Foodborne Pathogens & Disease, Editorial Board, 2003-2009.

Reviewer, U.S. Civilian Research & Development Foundation (CRDF) for the Independent States of the Former Soviet Union, proposal for the Science Centers program of the U.S. Department of State, 2003.

Reviewer, World Health Organization and Food and Agriculture Organization of the United Nations, Risk Assessments of *Salmonella* in eggs and broiler chickens, 2002.

Jury Member, Food and Drug Administration Scientific Achievement Awards, 2003.

Reviewer, Centers for Disease Control and Prevention, Foodborne Diseases Branch, Computer-based case study on Applied Food Safety Research, 2003.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Milena Corredig), 2003.

Reviewer, U.S. Department of Agriculture - Agricultural Research Service, Research Project Plan (Biology and Control of Human Pathogens on Fresh Produce), 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Robert Buchanan, 2003.

Evaluator, Food and Drug Administration, Senior Biomedical Research Service, Recertification of Arthur J. Miller, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Chairman, National Academy of Sciences, U.S.-Iran Workshop on Foodborne Disease Surveillance Systems, 2003-2005.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

External Examiner, Purdue University, Promotion to Professor of Arun Bhunia, 2003.

External Examiner, North Carolina State University, Promotion to Professor of Sophia Kathariou, 2003.

Review Coordinator, National Academy of Sciences - National Research Council, Report on “Workshop on Exploring a Vision: Integrating Knowledge for Food and Health,” 2003-2004.

Invited Reviewer, Danish Research Agency Centres of Excellence Programme, Proposal entitled “Microbial Opportunistic Pathogens - A Severe Problem to Human Health,” 2003.

Invited Reviewer, Danish Research Agency, Centres of Excellence Programme, Proposal entitled “The Center for the Ecology of Pathogenic Traits in the Environment and Humans,” 2003.

Member, American Foods Group, Corporate Food Safety Advisory Committee, 2003-2005.

Jury Panel, Fifth ASEPT International Conference “*Listeria monocytogenes* Risk Analysis,” Scientific Posters, 2004.

GRAS Expert Panel, Mead Johnson, Safety Review: Prebiotic Ingredients for Addition to Infant Formula, 2003-2006.

Invited Expert, U.S. Government Accounting Office, Agriculture and food security issues, 2003.

Member Expert Panel, Cooperating for Food Safety, Best Practices for Control of *E. coli* O157:H7 in Ground Beef, 2004-2009.

Invited Expert, Argentinian public health, federal meat inspection, and beef industry, Testing beef for Enterohemorrhagic *E. coli* O157:H7 and Shiga Toxin-Producing *E. coli*, 2003.

Invited Expert, United Kingdom Chilled Food Association, Priorities for research, 2003.

Invited Expert, Harris Interactive, Optimal daily intake study, 2003.

Invited Reviewer, Canada Research Chairs, Evaluate nomination of Charles Dozois, 2003.

Invited Expert, U.S. Department of Agriculture, Center for Nutrition Policy and Promotion, Dietary Guidelines Advisory Committee, Food Safety Subcommittee, Advice on food safety guidelines for consumers, 2003.

Reviewer, Council for Agricultural Science and Technology (CAST), Report on Food Safety and Fresh Produce, 2003-04.

Jury Member, International Association for Food Protection, International Leadership Award Committee, 2003-06.

Consultant, State of Yucatan in Mexico, Study to establish “tolerable” levels of *Salmonella* in meats (Zaida Mussaret), 2003-04.

Invited Testimonial, *Foodborne Pathogens and Disease* journal, 2003-04.

Co-convenor, American Society for Microbiology Annual Meeting, Roundtable on “Addressing the Issue of Antibiotic Resistant Foodborne Bacteria through the Application of Risk Assessment,” 2004.

Invited External Evaluator, University of Mysore, Ph.D. thesis of B. P. Padmapriya (Molecular methods for the detection of enterotoxigenic staphylococci and application in food quality programs, 2004.

Member, Lallemand-Ivy/Vet Life Pathogen Reduction Advisory Board, 2004.

Reviewer, Canada Foundation for Innovation. New Opportunities Fund proposal (George Van Der Merwe), 2004.

Review Coordinator, National Academy of Sciences- National Research Council, “Identifying and assessing unintended effects of genetically engineered foods on human health,” 2004.

Invited Lectures, NASA and NLM Internet Global Lecture Library (www.pitt.edu/~super1/). Two supercourses on food safety, (1. Contamination of Foods by Pathogens in the Environment and 2. Food Safety challenges from Farm to Table) 2004.

Steering Committee Member, USDA-FDA Global Conference on Good Agricultural Practices, 2004-2005.

Member, State of Georgia Agroterrorism Committee, 2004.

Consultant, General Mills, Risk Assessment of Refrigerated Products, 2004.

Juror, Institute of Food Technologists Congressional Support for Science Award, 2004-2005.

Reviewer, Merial, Evaluation of *E. coli* O157:H7 vaccine, 2004.

Chair, Food Safety Research Consortium - Centers for Disease Control and Prevention, Food Attribution Data Workshop, 2003.

Chair, Institute of Food Technologists, Government Relations Committee, 2004-2005.

Member, National Academy of Sciences - National Research Council, Committee on National Needs for Research in Veterinary Science, 2004-2005.

Member, International Life Sciences Institute-North America, Strategic Planning Committee for Food Safety Program, 2004

Chair, Institute of Food Technologists, Expert Report on “Antimicrobial resistant Microorganisms: Perspectives on Food Safety,” 2004-2005.

Member, American Association of Meat Processors, Food Safety and Science Committee, 2004-2009.

Reviewer, Marcel Dekker, Encyclopedia of Animal Science, 4 manuscripts (1. Pathogens in Animal Products: Sources and Control; 2. Pathogens in Animal Products: Major Biological Hazards; 3. Animal Source of Food: Quality and Safety - Meat and Poultry; 4. Animal Source of Food: Quality and Safety - Milk and Eggs), 2004.

Invited Moderator, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Oral Presentations, 2004.

Jury Member, ASEPT 5th International Conference: *Listeria monocytogenes* and Risk Analysis, Laval, France, Poster Presentations, 2004.

Invited External Reference, Kansas State University, University Distinguished Professor nomination of Daniel Fung, 2003-2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Russell Flowers, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Susan Hefle, 2004.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Maribeth Cousin, 2004.

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004.

Member, Warnex, Inc., Scientific Advisory Board, 2004-2006.

Member, Cooperating for Food Safety, Expert Panel, 2003-2008.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Arthur Miller, 2005.

Invited Nominator and External Reference, American Academy of Microbiology, Robert Brackett, 2003.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Richard Whiting, 2005.

Invited Request for Comment, The U.S. Government Accountability Office (GAC), Federal food safety consolidation, 2004.

Invited External Evaluator, University of Minnesota Department of Food Science & Nutrition, tenure and promotion to Associate Professor of Francisco Diez-Gonzalez, 2004.

Invited External Evaluator, Cornell University Department of Food Science, tenure and promotion to Associate Professor of Martin Wiedmann, 2004.

Jury Member, International Association for Food Protection, Fellows Election Panel, 2004-2005.

Member, 6th International Symposium on Shiga toxin producing *Escherichia coli* (VTEC 2006), Melbourne, Australia, Scientific Program Committee, 2004-2006.

Member, Global Good Agricultural Practices Research & Extension Conference, Orlando, FL, Planning Committee, 2004-2005.

Member, Institute of Food Technologists, Task Force on Governance, 2004-2006.

Session Chair, University of Massachusetts, Food Safety Research Consortium, Workshop on Economic Impact of Food Safety Interventions, 2004.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Lactulose as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Galacto-oligosaccharides as a prebiotic in infant formula, 2004-2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on Polydextrose as a prebiotic in infant formula, 2004-2005.

Member, State of Georgia Agro-terrorism Committee of Homeland Security Working Group, Steering Advisory Committee, 2004.

Co-Chair, American Academy of Microbiology, Colloquium on Agriculture and Food Microbiology Research Opportunities, 2004-2005.

Chair, American Society for Microbiology, Office of Public Affairs, White Paper on USDA Microbiology Research Opportunities, 2004-2005.

Advisor, Nippon Suisan Kaisha (Nissui), Biological Control of *Listeria* in food processing facilities, 2004.

Member, State of Georgia Food Security Tabletop Exercise Committee, Steering Advisory Committee, 2004-2005.

Reviewer, Canadian Foundation for Innovation, University of Manitoba Large Animal Biosecurity Laboratory, 2004.

Reviewer, La Agencia Nacional de Promocion Cientifica y Tecnologia, research proposal, 2004.

Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2004.

Reviewer, Washington State University, IMPACT Center, proposal review, 2004.

Reviewer, Blackwell Publishing, IFT Press series, book proposal, 2004.

Author, Emerging Issues in Food Safety, Microbiology of Fresh Produce, book preface, 2005.

Reviewer, Canada Foundation for Innovation, New Opportunities Funds proposal (Takuji Tanaka), 2005.

Member, Mead Johnson Nutritionals, GRAS Expert Review Panel on *Lactobacillus rhamnosus* strain GG as a probiotic in infant formula, 2005-2006.

Invited External Evaluator, University of Maryland, College of Agriculture and Natural Resources, Department of Nutrition and Food Science, appointment as Professor and Dean of Cheng-I Wei, 2005.

Member, Food Safety Research Consortium, Advisory Committee on Conference for Prioritizing Opportunities to Reduce Foodborne Risks, 2005.

Member, Institute of Food Technologists Press Editorial Advisory Board, 2005-2006.

Member, US Congressman Lynn Westmoreland's Agricultural and Natural Resources Advisory Council, 2005-2008.

Member, Global Good Agricultural Practices (GAPs) Research and Extension Conference, Planning Committee, 2004-2005.

Invited External Evaluator, Washington State University Department of Food Science and Human Nutrition, tenure and promotion to Associate Scientists and Extension E3 of Dong-Hyun Kang, 2005.

Member, Commission for a New Georgia, Agribusiness Technical Advisory Group, 2005.

Reviewer, National Research Council, Food Safety and Foodborne Disease Surveillance Systems report, 2005.

Chairman, Food Safety Research Consortium, Food Safety Interventions and Food Attribution Workshop, 2005.

Member, International Association for Food Protection, Rapid Response Task Force, 2005-2006.

Invited External Evaluator, North Dakota State University Department of Veterinary and Microbiological Sciences, tenure and promotion to Associate Professor of Catherine Logue, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees Nominating Committee, 2005-2006.

Invited External Evaluator, North Carolina State University Department of Food Science, promotion to Professor of Lee-Ann Jaykus, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of John Luchansky, 2006.

Invited Expert, RTI International, USDA-Food Safety and Inspection Service Expert Panel on Risk Factors for *E. coli* O157:H7 Contamination of Ground Beef, 2005-2006.

Reviewer, Washington State University IMPACT Center, Grant proposal, 2005.

Reviewer, USDA-SBIR Grants in Food Science and Nutrition, 2005-2006.

Invited External Evaluator, Michigan State University, reappointment of Ewen Todd as Director of the National Food Safety and Toxicology Center, 2005.

Invited External Evaluator, Pennsylvania State University Department of Food Science, promotion to Professor of Stephen Knabel, 2005.

Member, Institute of Food Technologists, Nicholas Appert Award Jury, 2005-2008.

Co-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program, Chasing Zeros session, 2006.

Vice-Chairman, International Life Sciences Institute-North America, Annual Meeting Scientific Program Planning Committee, 2005-2007.

Invited Expert, International Food Informational Council, first responders food safety/security training program for National Center for Food Protection and Defense, 2005.

Invited External Reference, Kansas State University, Graduate School, nomination of Daniel Fung for Distinguished Graduate Faculty Award, 2005.

Invited Expert, ABC Good Morning America, Safety of foods in home refrigerators, 2005.

Invited External Reference, Institute of Food Technologists, Fellow nomination of Kiyoko Kubuomura, 2005.

Invited Expert, U.S. Department of Agriculture, Biotechnology Research in Agricultural Biosecurity Workshop, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Jenny Scott, 2005.

Invited Reviewer, UK Food Standards Agency, Review of Verotoxin-producing *E. coli* /STEC research, 2005.

External Reference, International Association for Food Protection, Fellow nomination for Robert Brackett, 2005.

Member, International Symposium on Problems on Listeriosis (ISOPOL) XVI, Organizing Committee, 2005-2007.

Nominator, International Association for Food Protection, nomination of Larry Beuchat for FPA Food Safety Award, 2005.

Invited Reviewer, U.S. Department of Agriculture - Agricultural Marketing Service, Qualified through Verification System, 2005.

Invited External Reference, International Association for Food Protection, Fellow nomination of Gale Prince, 2005.

Reviewer, Kansas State University, Targeted Excellence Program, reviewed proposal, 2005.

Reviewer, National Pork Board, research proposals, 2005-2006.

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Agriculture and Food Microbiology Committee, study on Microbiology Research Opportunities and Needs within USDA Competitive Grants Program, 2005.

Invited External Reference, International Association for Food Protection, nomination of Catherine Nnoka for the Harold Barnum Industry Award, 2005.

Member, International Life Sciences Institute-North America, Board of Trustees, Development Committee, 2005.

Reviewer, Springer, book proposal on Microbial Ecology of Food Systems, 2005.

Scientific Expert, Food and Drug Administration - Center for Veterinary Medicine, External Review Committee for CVM's National Antimicrobial Resistance Monitoring System (NARMS) research program, 2005-2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Review Coordinator, Institute of Medicine, Daily Mineral Intakes for Military Personnel report, 2005-2006.

Invited Expert, Hong Kong Agri-Food and Veterinary Authority, expert guidance on microbiological specifications for foods, 2005-2007.

Member, International Life Sciences Institute-North America, Board of Trustees Program Committee, 2006-2009.

External Reference, International Association for Food Protection, Food Safety Award, Letter of nomination for U.S. Department of Agriculture-ARS Microbial Food Safety Research Award, 2006.

National Spokesperson, National Chicken Council, Food safety issues associated with avian influenza virus, 2006-2008.

Chairperson, International Life Sciences Institute-North America, 2007 Scientific Program Planning Committee, 2006-2007.

Invited Reviewer, U.S.-Israel Binational Agricultural Research & Development Funds (BARD), research proposal, 2006.

Invited Participant, McDonald's Worldwide Convention, Orlando, FL, 2006.

Chairperson, National Academies, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2005-2006.

Invited Reviewer, National Academies Press, Food Safety and Foodborne Disease Surveillance Systems, 2006.

Chairman, McDonald's Food Safety Advisory Council, 2006-

Member, Earthbound Farm Food Safety Advisory Council, 2006-2009.

Member, 6th International Symposium on Shiga Toxin (Verocytotoxin) Producing *Escherichia coli* Infections (VTEC 2006), International Scientific Program Committee, 2005-2006.

Spokesperson, Best Food Nation, 2006.

Member, National Turkey Federation, Avian Influenza Scientific Advisory Board, 2006-2009.

Expert Resource, International Food Information Council Foundation, Resource for reporters on food safety issues, 2007-2009.

Invited Reviewer, Research Triangle Institute, Review USDA-Food Safety and Inspection Service food safety risk assessment model, 2006.

Review Coordinator, Institute of Medicine, Report by Committee on the Mineral Requirements for Cognitive and Physical Performance of Military Personnel, 2005-2006.

Reviewer, USDA-CSREES National Research Initiative on Nanoscale Science and Engineering for Agriculture and Food Systems, research proposal, 2006.

Spokesperson, National Chicken Council, Radio Tour (14 interviews) on Avian Influenza, 2006.

Nominator, International Association for Food Protection, nomination of Paul Hall for Harold Barnum Industry Award, 2006.

Invited External Reference, International Association for Food Protection, nomination of Ecolab for Black Pearl Award, 2006.

Nominator, Institute of Food Technologists, Fellow nomination of Bruce Cords, 2007

Board Member, Cooperating for Food Safety, 2006-2009.

Member, Canadian Leaders Opportunity Fund College of Reviewers, 2006-2009.

Reviewer, U.S. Department of Homeland Security, reviewed University of Minnesota National Center for Food Protection and Defense, 2006.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Nominating Committee, 2006-2009.

Member, National Institute for Animal Agriculture, Annual Meeting, Symposium Committee, 2006-2007.

Member, U.S. Highbush Blueberry Council, Crisis response team, media contact for foodborne illness, 2006-

Reviewer, Wiley-Interscience, Handbook of Prebiotics and Probiotics, 2nd edition, 2006.

Reviewer, The Georgian National Science Foundation, research proposals, 2006-2007.

Reviewer, National Pork Board, research proposals, 2006.

Member, Scientific Advisory Board, GangaGen, on-farm food safety interventions, 2006-2013.

Reviewer, Agriculture and Agri-Food Canada, research proposal, 2006-2007.

Reviewer, USDA-Small Business Innovation Research program, research proposals, 2006.

Invited Participant, Co-FARM (The Coalition on Funding Agricultural Research Missions), Congressional Visits Day, 2006.

Advisor, Singapore Agri-Food and Veterinary Authority, *Salmonella* in meats, 2006-2007.

Reviewer, Blackwell, The Microbiology Safety of Foods in Healthcare Settings (B. Lund and P. Hunter), 2006.

Advisor, The Coca-Cola Company, microbiological matters associated with beverages, 2005-2010.

Invited Reference, University of Georgia, Dean of College of Public Health, Philip Williams, 2006.

Advisor, RESOLVE, Inc., USDA-FSIS risk-based inspection measurement criteria, 2006.

Invited External Reference, Kansas State University, James Marsden evaluation for Regents Distinguished Professor, 2006.

Member, Robert Wood Johnson Foundation Food Safety II Project Workshop Committee, University of Maryland, 2006-2007.

Invited External Reference, American Meat Science Association International Award nomination for John Sofos, 2006-2007.

Reviewer, Washington State University, International Marketing Program for Agricultural Commodities and Trade (IMPACT), research proposal, 2006.

Convener, American Society for Microbiology Annual Meeting Symposium on Impact of the Food Chain on the Emergence of Antibiotic Resistance in Human, 2007.

Member, Illinois Institute of Technology National Center for Food Safety and Technology-UGA Center for Food Safety Workshop on Role of Testing in the Safety of Fresh Produce, Organizing Committee, 2007.

Moderator, ISOPOL XVI (The International Symposium on Problems of Listeriosis), Opening Session, March 20, 2007.

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008.

Representative, American Society for Microbiology, CoFARM (Coalition on Funding Agricultural Research Missions) Congressional Visits, Washington, DC, April 18-19, 2007.

Moderator, Cooperating for Food Safety, Best Practices for Improving Food Safety: A National Symposium, Washington, DC, October 31, 2007.

Moderator, Institute of Medicine Workshop on Nutritional Risk Assessment: Bridging Perspectives, Sharing Methodologies, Identifying Data Challenges, Washington, DC, March 1, 2007.

Chairman, ConAgra Food's Food Safety Advisory Council, 2007-

Invited Participant, SQF Institute (Food Marketing Institute) Leafy Greens Workshop, Chicago, IL, March 28-30, 2007.

Chairperson, American Academy of Microbiology, Colloquium on Global Food Safety, Steering Committee, 2007-2009.

Invited External Reference, Kansas State University, Professional Performance Award for Daniel Fung, 2007.

Reviewer, National Academies National Research Council Proceedings of an Iranian-American Workshop: Food Safety and Foodborne Disease Surveillance Systems, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Jenny Scott, 2007.

Member, Georgia Department of Human Resources, Division of Public Health, Food Service Rules and Regulations Implementation Advisory Workgroup, 2006-2010.

Scientific Advisor, Taco Bell Fresh Produce Food Safety Initiative, 2006-2009.

Scientific Advisor, Sterilex, Owings Mills, MD, 2007.

Invited Non-Government Organization Representative, Codex Alimentarius Commission Ad Hoc Intergovernmental Task Force on Antimicrobial Resistance, IFT Representative, 2007-2008.

Advisory Board Member, University of California-Davis Center for Produce Safety, 2007-2009.

Scientific Advisor, Clinical Advisors, 2007.

Lead Expert, International Food Information Council Media Training on Food Safety, 2007.

Member, Mars Scientific Advisory Council, 2007-2009.

Reviewer, The Wellcome Trust research proposal on *Bdellovibrio* as living antibiotics, 2007.

Invited Testimony, U.S. House Appropriations Committee, Rep. Jack Kingston, Food safety issues associated with food imports, September 2007.

Scientific Advisor, Prepara, Inc. (addresses 21st Century Threats, preparedness and emergency response), Advisory Board, 2007-2008.

Reviewer, National Sciences and Engineering Research Council of Canada (NSERC), Strategic Project Grant (O.D. Baik, University of Saskatchewan), 2007.

Laboratory Analysis, Minnesota Department of Health, food samples associated with *Salmonella* outbreak, 2007.

Consultant, U.S. Government Accounting Office, study for Senators Edward Kennedy and Barbara Boxer of the Senate Committee on Health, Education, Labor, and Pensions on FDA oversight of fresh produce safety, 2007.

Peer Reviewer, Versar, Inc. (environmental consulting firm), FDA Center for Food Safety and Applied Nutrition documents and reports addressing various aspects of food safety, 2007-2008.

Peer Commenter, Booz/Allen/Hamilton, Kraft Foods benchmarking study to better understand how leading companies are addressing food safety and quality programs, 2007.

Nominator, American Society for Microbiology, nomination of Bala Swaminathan for Gen-Probe Joseph Award, 2007.

Invited Testimony, Georgia Senate Oversight Committee, Hearing on Imported Seafood, Safety of imported fish and shellfish, November 16, 2007.

External Evaluator, University of Minnesota, School of Public Health, promotion of Craig Hedberg to Professor, 2007.

Reviewer, Garland Science/Taylor and Francis, Case Studies in Infectious Diseases book chapter, 2007.

External Evaluator, University of Tennessee, Department of Food Science and Technology, promotion of David Golden to Professor, 2007.

Reviewer, Wiley-Blackwell, Essential Food Safety Assurance: Managing HACCP and food safety throughout the global supply chain book proposal, 2007.

Reviewer, International Food Information Council, Question and answer fact sheet on antimicrobial resistance microbes in foods, 2007.

Nominator, American Society for Microbiology, ASM Founders Distinguished Service Award nomination of Ann Vidaver, 2007-2008.

Invited Reviewer, Netherlands Organization for Scientific Research (NWO) - Council for Earth and Life Sciences, research proposal on spread of pathogens in ecosystems, 2007.

Invited Reviewer, Shaheed Beheshti University of Medical Sciences, Tehran, Iran, research paper on diarrheagenic *E. coli*, 2007.

Chairman and Convenor, U.S. Centers for Disease Control - Food Industry Safe Foods Forum, 2007-

Invited External Reference, Oklahoma State University, Regents Distinguished Research Award nomination of Stanley Gilliland, 2007.

Invited External Reference, University of Illinois, Faculty Award for Excellence nomination of Scott Martin, 2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of John Luchansky, 2007.

Invited Reviewer, Oregon Agricultural Experiment Station, Animal Health and Disease research proposals, 2007.

Invited External Evaluator, Washington State University, Department of Veterinary Clinical Sciences, promotion of William Sisco to Professor, 2007.

Invited External Reference, North Carolina State University, Alumni Association Outstanding Research Award nomination of Lee-Ann Jaykus, 2007.

Member, International Life Sciences Institute-North America, 2008 Annual Meeting Scientific Program Planning Committee, 2007.

Invited External Evaluator, Emory University, Rollins School of Public Health, promotion of Christine Moe to Professor, 2007.

Invited Expert, The National Academies National Research Council, 2006 Assessment of Research Doctorate Programs, 2006-2007.

Nominator, International Association for Food Protection, IAFP Maurice Weber Laboratorian Award nomination of Bala Swaminathan, 2007.

Invited Participant, University of Maryland - Food and Drug Administration Joint Institute for Food Science and Applied Nutrition (JIFSAN), Tools for Prioritizing Food Safety Concerns Workshop, Washington, DC, June 4-6, 2007.

Member, Institute of Food Technologists, Government Relations Committee, 2006-2009.

External Reference, University of Georgia Libraries, promotion of Regina Cannon to Librarian IV, 2007.

Laboratory Analysis, Chicago Department of Public Health, food samples associated with *Salmonella* outbreak, 2007.

Reviewer, Canada Research Chairs, nomination of Rafael Garduno, Dalhousie University, 2007.

Reviewer, Canada Research Chairs, nomination of Andreas Schieber, University of Alberta, 2007.

Reviewer, Canada Research Chairs, nomination of Christopher Yost, University of Regina, 2007.

Advisor, Hong Kong Economic and Trade Office, Monica Chen, Director, food safety issues, 2007.

Invited nominator, Oklahoma State University, Gamma Sigma Delta International Distinguished Achievement in Agriculture Award nomination of Stanley Gilliland, 2007.

Expert, Nutri+Food Business Constituents, food safety testing (industry landscape/drivers/constraints), 2007

Member, American Association of Meat Processors, Food Safety and Science Committee, 2007-2008.

Nominator, Institute of Food Technologists, Fellow nomination of Mary Ellen Camire, 2007.

Invited Expert, RTI International, Food and Agricultural Policy Research Program, expert elicitation on the probability of illness per serving for meat and poultry products, 2007.

Invited External Evaluator, Clemson University, Department of Food Science and Human Nutrition, promotion of Xiuping Jiang to Associate Professor, 2007.

Member, International Life Sciences Institute-North America, Board of Trustees Communications Committee, 2007.

Chairperson, National Research Council Committee on the U.S.-Iranian Workshop on Food Safety, 2007-2008.

Member, Institute of Medicine-Food and Nutrition Board Committee on Review of Use of Process Indicators in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009.

Member, University of California-Davis Center for Produce Safety, Technical Advisory Committee, 2007-2010.

Member, Institute of Food Technologists, Current and Emerging Science Issues Expert Advisory Panel, 2008-2010.

Member, National Research Council/Institute of Medicine, Standing Committee on Review of USDA-FSIS Public Health Risk-based Inspection Program, 2008-

Member, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, Scientific Program Committee, 2007-2009.

Abstract Reviewer, 7th International Symposium on Shiga Toxin (Verocytotoxin)-Producing *Escherichia coli* Infections, 2008-2009.

Member, Publix Super Markets Food Safety Council, 2008-

Member, American Association of Meat Processors, Food Science and Science Committee, 2008-

Advisor and Spokesperson, Almond Board of California, Issues Management Plan, 2008-2009.

Member, FDA Reagan Udall Foundation Finance Committee, 2008-2011.

Member, National Conference on Food Safety and Public Health Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Steering Committee, 2008-2009.

Reviewer, Danish Ministry of Foreign Affairs, Consultative Research Committee for Development Research, research proposal (Tanzania) 2008.

Reviewer, MacArthur Fellows Program, Catherine Donnelly nominee, 2008.

Reviewer, Springer, New journal (Journal of Food and Environmental Virology) proposal, 2008.

Reviewer, Ontario Food Safety Research Program (Canada), Proposal on Reduction of *E. coli* O157:H7 in ground beef using a combination of bundles, 2008.

Invited Expert, University of Maryland - Food and Drug Administration Joint Institute for Food Safety and Applied Nutrition, Workshop on Dietary Exposure Assessment Tools for Prioritizing Food Safety Concerns, 2008.

Reviewer, Canadian Foundation for Innovation, Infrastructure project proposal (Elaine Petrof, Queens University), 2008.

Invited Expert, Centers for Disease Control and Prevention, Briefing and Brainstorming Session on Outbreak of *Salmonella* Poona Infections in the USA and Canada, 2008.

Nominator/Letter of Support, International Association for Food Protection - Grocery Manufacturers Association Food Safety Award for International Commission on Microbiological Specifications for Foods, 2008.

Evaluator, U.S. Department of Agriculture-Agricultural Research Service, Promotion of Dr. Manan Sharma, 2008

Reviewer, Ontario (Canada) Research Fund - Research Excellence Program, Proposal on Novel Strategies for the Control of Foodborne Pathogens in Poultry (University of Ottawa), 2008.

Invited Expert, Food and Drug Administration (Commissioner Andrew von Eschenbach), Listening session on explanations for the current *Salmonella* outbreak associated with tomatoes and peppers, July 14, 2008.

Invited Expert, Animal Agriculture Alliance Third Party Subject Matter Experts on Antimicrobial Resistance, 2008-

Invited Expert, Illinois Department of Public Health, Office of Health Protection (Jayne Nosari), Alleged botulinum toxin food poisoning; interpreting test results (nonspecific deaths of mice), December 3, 2008.

Invited Expert, Institute of Food Technologists, Comments and Recommendations on the Food and Drug Administration's Food Protection Plan, Food Technology 9(08):24, 2008.

Member, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2008-2011.

Reviewer, Springer, New journal (International Journal of Ionizing Radiation) proposal, 2008.

Invited Expert, Paragon Development, Voice-of-Market Forum on MicroBeGone (a polymer with antimicrobial properties), 2008.

Reviewer, Garland Science (Taylor and Francis Group), Book on Case Studies in Infectious Diseases, 2008.

Invited Evaluator, University of Maryland, Tenure and rank of full professor of Robert Buchanan, 2008.

Subject Matter Expert and Advisor, Georgia Committee for Agriculture and Food Defense, 2007-

Reviewer, Springer, New journal (Food Security: The Science and Sociology of Food Production and Access to Food) proposal, 2008.

Invited Evaluator, U.S. Department of Agriculture - Food Safety and Inspection Service, Technical leader/microbiologist position for Dr. Shanker Reddy, 2008.

Reviewer, Food and Agriculture Organization (Rome Italy), EU scientific opinion on pathogen reduction treatment use and antimicrobial resistance, 2008.

Referee, Hartmut Hoffman-Berling International Graduate School of Molecular and Cellular Biology, Application of Fereshteh Jafari, 2008.

Nominator (Letter of Support), Institute of Medicine, Cecil Research Award for Ann Yaktine, 2008.

Chairman, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, Planning Committee, 2008.

Reviewer, John Wiley & Sons, Book (Analytical Food Microbiology: A Laboratory Manual, 2nd Edition) proposal, 2008.

Invited Evaluator, Technion - Israel Institute of Technology, Department of Biotechnology and Food Engineering, promotion to Associate Professor and tenure of Dr. Sima Yaron, 2008.

Member, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, Planning Committee, 2008.

Member, Institute of Food Technologists, Awards Committee Jury for Nicholas Appert Award, 2007-2009.

Invited Reference, Texas A&M University, Vice President for Research candidate, Martin Philbert, 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Future Trends in Food Safety: Changing Market Forces, Emerging Safety, and Economic Impact, (Managing Food Safety Practices from Farm to Table), 2008.

Moderator, Institute of Medicine Food Forum, Workshop on Nanotechnology in Food Products, 2008.

Invited Expert, International Food Information Council, Antibiotic resistance, Media Spokesperson and Advisor, 2008-2009.

Convenor, American Society for Microbiology, Symposium on Emerging Issues in Food Safety: Impact of Globalization of the Food Supply, 2008.

Invited Expert, U.S. Federal Government's Interagency Risk Assessment Consortium (IRAC), Workshop on Research Needs Prioritization for Conducting a Quantitative Risk Assessment of *E. Coli* O157:H7 in Leafy Greens, 2008.

Member, Invited Expert, Tapestry Networks, Food Safety Leadership Network, 2008-2009.

Member, Wiley-Blackwell, IFT Press Series, Editorial Advisory Board, 2006-2009.

Member, International Life Sciences Institute-North America, Scientific Session Program Planning Committee, 2008-2009.

Nominator, Institute of Food Technologists, Fellow nomination of Vijay Juneja, 2008.

Member, International Association for Food Protection, Membership Committee, 2007-2009.

Co-Organizer and Co-Chairperson, International Working Group on Reducing *Salmonella* on Raw Poultry, 2008-

Reviewer, University of California-Davis Center for Food Safety, Research proposals, 2008.

Invited Expert, Mars, Workshop on *Salmonella*, 2008.

Advisor, National Restaurant/Retail Produce Food Safety Consortium, Meetings of Leading Purchasers of Minimally Processed Produce, 2007-2009.

Member, State of Georgia Department of Public Health, Food Service Technical Review Committee, 2007-

Co-Organizer, New York Academy of Sciences, Symposium on Foodborne Illnesses and Food Safety, 2007-2008.

Chairman, U.S. National Academies Planning Committee, The 2nd Korean Academy of Science and Technology - U.S. National Academies Bilateral Symposium: The Science of Food Safety Risk Assessment, 2009.

Review Coordinator, The National Academies National Research Council - Division on Earth and Life Sciences, Report on “Review of the Methodology Proposed by the Food Safety and Inspection Service for Follow-up Surveillance of In-Commerce Businesses,” 2009.

Invited External Evaluator, Iowa State University Department of Food Science and Human Nutrition, tenure and promotion of Associate Professor of Sam Beattie, 2009.

Expert Advisor, U.S. House Government Oversight and Reform and Domestic Policy Subcommittee, hearing on safety of fresh produce, 2009.

Member, Food and Drug Administration Science Board Subcommittee, Research Planning, Program and Facilities of the Center for Veterinary Medicine, 2009.

Reviewer, Canada-Israel Cooperation in Agricultural Research Program, research proposal, 2009.

Member, ConAgra Foods, From What to How Task Force, 2009-2010.

Nominator, International Association for Food Protection, IAFP-GMA Food Safety Award, Joy Gaze nominee, 2009.

Reviewer, Canada Research Chair, Tier 2 Chair in Infectious Bacterial Diseases, Charles Dozois, 2009.

Invited Nominator, Institute of Food Technologists, Fellow, Rick Holley, 2009.

Co-Chair, International Life Sciences Institute-North America, ILSI-NA Annual Meeting session on “Science Resulting from ILSI-North America Committee Projects” 2009.

Reviewer, University of California-Davis Center for Produce Safety, food safety research proposals, 2009.

Reviewer, Elsevier Science, Encyclopedia for Food Safety book proposal, 2009.

Member, Global Food Safety Initiative, Advisory Council, 2010-

02/2015

Co-Chair, American Academy of Microbiology, Colloquium on “Global Food Safety: Reducing Risk from Farm to Table,” San Francisco, CA, April 24-26, 2009.

Invited Reviewer, Ontario (Canada) Food Safety Research Program research proposal “Toward Better Understanding and Effective Control of *Listeria monocytogenes* on Ontario’s Farm-to-Fork Chain by Indexing the Pathogen,” 2009.

Member, Solae, Scientific Advisory Board, 2010–

Member, American Peanut Council, Manufacturer’s Scientific Advisory Committee, 2009.

Member, XXIV World’s Poultry Congress (Salvador, Bahia, Brazil), Organizing Subcommittee on Food Safety, 2009-2012.

Invited External Evaluator, Emory University, School of Public Health, Department of Epidemiology, promotion to Professor and tenure of Dr. Ruth Berkelman, 2009.

Nominator, Institute of Food Technologists, Fellow nomination of Pina Fratamico, 2009.

Nominator, American Society for Branch Lectureship speaker, nomination of Kathryn Boor, 2009.

Advisor, Universidad del Este, Carolina, Puerto Rico, Development of a Bilingual Minor in Food Safety, 2009.

Reviewer, Elsevier Science, Management in Food Safety book proposal, 2009.

Scientific Advisor, Roka Bioscience, San Diego, CA, 2009-

Nominator, University of Wisconsin-Madison, Department of Nutrition, nutrition internship for Lindsay Smit, 2009.

Member, Malt-O-Meal, Food Safety Review Panel, 2009.

Reviewer, American Meat Institute Foundation, Food safety research proposals, 2009.

Nominator, American Academy of Microbiology, nomination of Lee-Ann Jaykus, 2009.

Reviewer, Georgia National Science Foundation, food safety proposals, 2009.

Member, Food Safety Research Consortium, Assuring Safety of Imported Foods: Public and Private Rules in a Risked-based System Workshop, Organizing Committee, 2009-2010.

Member, USDA-CSREES Workshop on Food Safety and the Public Frontier: Minimizing Antibiotic Resistance Transmission through the Food Chain, Scientific Organizing Committee, 2009.

Nominator, Institute of Food Science & Technology (UK), Fellow nomination of Andrew Bennett, 2009.

Member, Institute of Food Technologists, Current and Emerging Science Issues Advisory Panel, 2009.

Nominator, Massachusetts Institute of Technology, John S. And James L. Knight Foundation Program in Science, Technology and Society for Knight Science Journalism Fellowships, nomination of Garance Burke (Associated Press reporter), 2009.

Reviewer, ASM Press, Pre-harvest Food Safety book proposal, 2009.

Commenter, Institute of Medicine, Food Forum, "Providing Healthy and Safe Foods as We Age" Workshop, 2009.

Nominator, Institute of Food Technologists. Fellow nomination of Stanley Gilliland, 2009.

Member, Kellogg's Food Safety Advisory Council, 2009-2011.

Reviewer, IFT Press/Wiley-Blackwell, "Improving Import Food Safety" book proposal, 2009.

Nominator, MacArthur Fellows Program, nomination of Martin Philbert (University of Michigan), 2009.

Invited Nominator MacArthur Fellows Program, nomination of Craig Hedberg (University of Minnesota), 2009.

Reviewer, Elsevier, book proposal basic food commodities that bridge agriculture, food science, and nutrition, 2009.

Expert Advisor, Argent Diagnostics Bettcher, development and commercialization of Raman spectroscopy technology for detection of foodborne pathogens, 2009.

Co-Chair, American Academy of Microbiology, Colloquium on "Global Food Safety: Reducing Risk from Farm to Table," San Francisco, CA, April 24-26, 2009.

Reference, Oklahoma State University, National Institute for Microbial Forensics Food and Agricultural Biosecurity, letter for Dr. Li Ma for Assistant Professor position, 2009.

Reviewer, Oak Ridge National Laboratories, Oak Ridge, TN, research projects sponsored by Mars, Inc., June 18-19, 2009.

Nominator, American Association for the Advancement of Science Fellow, nomination of Ewen Todd (Michigan State University), 2009.

Nominator, American Academy of Microbiology Fellow, nomination of Colin Hill (University College Cork, Ireland), 2009.

Reviewer, Springer, Food Safety and Risk Analysis book proposal, 2009.

Coordinator, Department of Homeland Security, Site Visit for “The National Center for Food Safety and Defense” proposal between University of Georgia, Emory University, and Georgia Tech, June, 2009.

Reviewer, The National Academies National Research Council, Report on “Toward Sustainable Agricultural Systems in the 21st Century,” 2010.

Reviewer, Qatar National Research Fund (QNRF), “The National Priorities Research Program, 2010.

Member, USDA-ARS and Ohio State University, Scientific Program Committee on Antibiotic Resistance Mitigation, 2010.

Member, International Life Sciences Institute – North America 2010, Scientific Session Program Planning Committee, 2009-2010.

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, for Kathleen Glass, 2010.

Nominator, 2011 National Sanitation Foundation Food Safety Leadership Award, Publix Supermarkets, 2010-2011.

Mentor, Food and Drug Administration – Center for Food Safety and Applied Nutrition, for Sufian Al Khaldi, 2011-2011.

Expert Witness and Consultant, Food and Drug Administration – Office for Regulatory Affairs, Chun's Modified Atmosphere Packaged Shrimp Rolls, 2010-2011.

Member, Animal Health Institute, Scientific Advisory Board, 2010-

Nominator, Institute of Food Technologists, Fellow Nomination of Cherl-Ho Lee, 2010.

Member, U.S. Food and Drug Administration and Department of Health and Human Services Office of the Assistant Secretary of Planning and Evaluation, Expert Panel on Link Between Contamination of Food Products by Various Pathogens and the Rate of Foodborne Illness, 2010.

Commenter, CNN.com, Story on "Soda Fountains Contained Fecal Bacteria," 2010.

Member, Elanco Food Solutions, Scientific Advisory Board, 2010-2012.

External Evaluator, Ohio State University, Department of Food Science and Technology, Promotion to Professor of V. M. (Bala) Balasubramaniam, 2010.

Member, Georgia Food Service Technical Review Committee, 2007-

Expert Advisor, Scientia Advisors, food safety testing and controls, 2010.

Review Coordinator, National Research Council, Division on Earth and Life Sciences, Board on Agriculture and Natural Resources report on "An Evaluation of the Food Safety Requirements of the Federal Purchase Ground Beef Program," 2010.

Convener and Commenter, Institute of Medicine Food Forum, Workshop on "Leveraging Food Technology for Obesity Prevention and Reduction Efforts," November 2-3, 2010.

Expert Advisor, Promar International, Effects of U.S. food safety legislation on Japanese agriculture, 2010.

Nominator, Ohio State University Dale A. Sieberling Professorship in Dairy and Food Engineering, letter of support for V. M. Balasubramaniam, 2010.

Reviewer, The Netherlands Organisation for Scientific Research (NWO), VENI grant on "Influence of the abundance, diversity and community composition of soil fungi on the fate (survival) of *Escherichia coli* O157:H7 in soil," 2010.

External Evaluator, University of Wisconsin, Department of Food Science, Promotion to Full Professor of Barbara Ingham, 2010.

Scientific Advisor, Cargill, Control of *Salmonella* in meat processing facilities, 2010.

Member, Animal Health Institute, Committee on the Evaluation of the National Antimicrobial Resistance Monitoring System (NARMS) Data, 2010.

Nominator, University of Wisconsin, College of Agriculture and Life Sciences 2010 Honorary Recognition Award, letter of support for William Sperber, 2010.

External Evaluator, King Saud University, Evaluate Teaching Curriculum and Academic Plans of the Department of Food Science and Human Nutrition, 2010.

Member, Illinois Institute of Technology, National Center for Food Safety and Technology, Expert Science Review Panel for Sprout Safety Task Force, 2010.

Expert, Eastern Research Group, Expert elicitation to assess, across food groups, the likelihood of contamination from different pathogens during harvest, processing and distribution stages of the farm-to-fork continuum, 2010.

Scientific Advisor, PepsiCo-Frito Lay, microbiological food safety issues, 2008-2011.

Scientific Advisor, Kraft, microbiological food safety issues, 2008-2011.

Expert Witness, Pima County Health Department, Tucson, Arizona, Botulism from baked potato, 2010.

Expert Witness, Canadian Department of Justice, Canadian Food Inspection Agency, Shigellosis from imported baby carrots, 2010-2012.

Reviewer, Ontario Ministry of Agriculture, Food and Rural Affairs, 2009/2010 Food Safety Research Program, research proposals, 2009-2010.

External Evaluator, Oklahoma State University, Department of Animal Science, Promotion to Full Professor of Peter Muriana, 2010.

Invited Advisor/Collaborator, National Meat and Poultry Processing Board – Government of India, 2010-

Advisor, Kellogg's, microbiological food safety issues, 2009-2011.

Advisor, Solae, microbiological food safety issues, 2010-

Reviewer, National Research Council, Board on Agriculture and Natural Resources, report on "Toward Sustainable Agricultural Systems in the 21st Century," 2010.

Scientific Advisor, U.S. Food and Drug Administration, Center for Food Safety and Applied Nutrition, topics regarding pathogens in produce for the produce safety rule, 2010-2011.

Nominator, American Academy of Microbiology, nomination of Colin Hill (Cork, Ireland), 2010.

Peer Review Panelist, U.S. Department of Agriculture – Agricultural Research Service, ARS Project Plans for National Program 108 Food Safety (animal and plant products), 2010.

Invited Expert, Scientia Advisors interview on microbiology safety testing. 2010.

Scientific Advisor, Centers for Disease Control and Prevention, National Center for Zoonotic, Veterinary and Emerging Diseases, issues related to microbiological food safety, 2010.

External Evaluator, Illinois Institute of Technology, Promotion to Full Professor and Tenure of Robert Brackett, 2010.

External Evaluator, Iowa State University, Department of Veterinary Diagnostic and Production Animal Medicine, Tenure of Scott Hurd, 2010.

Member and Advisor, U.S. Department of Agriculture – Food Safety and Inspection Service, Expert Committee on National Food Safety Education Campaign (in collaboration with the Ad Council), 2010-2011.

Reviewer, Wiley-Blackwell, book on Recent Advances in Food Safety, 2010.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Organizing Committee, 2010-2011.

Member, Georgia Tech, Workshop on Novel Sampling and Sensing for Improving Food Safety, Technical Committee, 2010-2011.

Moderator, Institute of Medicine, Food Forum, forum on "Development of Dietary Guidance for Non-nutrient Dietary Components," 2010.

Senior Advisor, Leavitt Partners, Washington, DC, 2010-2013.

Reference, Seoul National University, appointment as Associate Professor of Dong-Hyun Kang, letter of recommendation, 2010.

External Evaluator, Cornell University, Department of Food Science, Promotion to Full Professor of Martin Weidmann, 2010.

Scientific Advisor, University of Toronto, School of Public Health, Robert Remis regarding 2008 *E. coli* O157:H7 outbreak in North Bay, Ontario, 2010.

External Evaluator, Kansas State University, College of Veterinary Medicine, Department of Diagnostic Medicine/Pathobiology, Promotion to Full Professor of Doug Powell, 2010.

Member, Institute of Food Technologists, Workshop on Microwave Heating and Safety of Foods, Organizing committee, 2010-2011.

Reference, University of Georgia Research Foundation, Creative Research Award, letter of support for Casimir Akoh, 2010.

Member, International Life Sciences Institute – North America, Membership Development Committee, 2010

Member, 24th World Poultry Congress, Scientific Organizing Committee for Food Safety, 2010-2012.

Member, VoluntaryNet, collaboration between Centers for Disease Control and Prevention, the food industry and the UGA Center for Food Safety on sharing testing data, 2013-

Co-host, Visiting Scholar Professor Li-Min Guo, Urumqi, China, 2012

External Evaluator, Purdue University, Department of Animal Sciences, Promotion to Associate Professor and Tenure of Dr. Paul Ebner, 2011

Co-host, Visiting Scholar, Assistant Lecturer Aymen Mohamed Megahed, Zagazig University, Egypt, 2011

Chair, American Society for Microbiology Founders Distinguished Service Award Committee, 2011.

Organizer, Symposium, "A Systems Approach to Minimize *Escherichia coli* O157:H7 Food Safety Hazards Associated with Fresh and Fresh Cut Leafy Greens," IAFP Annual Meeting, Milwaukee, WI, August 3, 2011.

Consultant, The World Bank, Food Pathogens and Food Safety Regulations. 2011.

Evaluator, International Life Sciences Institute Publication Proposal, "Present Knowledge in Food Safety, 2011.

Evaluator, Springer USA Book Proposals and Series, "Retail Food Safety," 2011.

02/2015

Working Group Participant, Western Center for Food Safety, Developing Research Protocols for Manure and Water to Support Variances to Proposed Produce Rule, 2011.

Expert Panel Member, RTI International, Washington, DC. Foodborne Illness Attribution for the Food Safety Modernization Act, 2011.

Organizer and Co-Chairman, CDC-Food Industry Safe Foods Forum, 2007-

Invited Referee, King Saud University, Riyadh, Food Science and Human Nutrition Department, Promotion Evaluation and Scientific Communication, 2011.

Collaborator, Seoul National University Center for Food Safety and Toxicology on developing and implementing joint research projects, joint workshops and international conferences. 2011.

Invited External Reference, Publix Super Markets, Food Safety Training Program Nomination for NSF Food Safety Leadership Award, 2011.

Member, Organizing Committee, Workshop on Novel Sampling and Sensing for Improving Food Safety, Georgia Tech, Atlanta, GA, June 16-17, 2011.

Invited Advisor, American Society for Microbiology, Antibiotic Resistant Organisms Generated and Discharged by Wastewater Treatment – A Public Health Issue, 2011.

Invited Convener, International Life Sciences Institute-NA Annual Meeting Hot Topics/Controversies Session, 2011.

Scientific Advisor and Liaison, International Life Sciences Institute-NA Working Group on Conflict of Interest & Scientific Integrity. 2011-2012.

Member, Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2011.

Invited Expert, FDA/ASPE Food Attribution Expert Elicitation, 2011.

Member, Georgia Foodservice Technical Review Committee, to review proposed procedures and hazard analysis and respond with comments and concerns regarding the plan. 2011.

Invited Reviewer, Abstracts for Workshop on Novel Sampling and Sensors for Improving Food Safety, Georgia Institute of Technology, Atlanta, GA. June 2011.

Reviewer, USDA NARMS Survey for Input on Food Safety, 2011.

Member, Planning Committee, Institute of Medicine Public Meeting on *The Impact of Global Trade on Food Safety: Supply Chain and Policy/Regulatory Approaches to Import Safety*, 2011.

Member, ILSI NA Scientific Program Planning Committee; Attributable Risk Sessions, 2012.

Invited Interview, German *E. coli* outbreak, Associated Press, June 2011.

Invited Mentor, FDA Leadership Organizational Program in the Center for Food Safety and Nutrition, Sufian Al Khaldi, 2011.

Invited Nominator, Cargill, for IAFP Black Pearl Award, letter of support, 2011.

External Evaluator, Dr. Shaohua Zhao, letter of evaluation for appointment in the Senior Biomedical Research Service, U.S. Food and Drug Administration, 2011.

Invited Expert Advisor, Proposal to USDA Foods and Nutrition Service, to establish a Center for School Food Safety Research, University of Georgia, 2011.

Invited Expert, Guidepoint Global Advisors, consultation on *E. coli* outbreak in Germany. 2011

Invited Nominator, CDC, Food Safety Modernization Act to establish a Working Group on food safety and foodborne disease surveillance, 2011.

External Evaluator, IAFP Haverland Citation Award, Invitation to write letter of support for Tino Genigeorgis' nomination, 2011.

Member, Animal Health Institute Scientific Advisory Council, Washington, DC, 2011-

Invited Reviewer, YUM! Brands Standard Operating Procedures regarding pizza toppings and cooking process, 2011.

Invited Evaluator, Council of State Governments, Surveillance and Inspector Training Models, 2011.

Invited Expert, CDC Environmental Health Specialists Network, Atlanta, GA, food cooling practices, 2011.

Invited Liaison, American Society for Microbiology, Meeting with UDA Under Secretary for Research, Education and Economics and Chief Scientist at USDA to discuss research funding issues and specifically those that impact REE and NIFA, 2011.

Expert Advisor, Kellogg's, observation on *Listeria monocytogenes* in dry plants, 2011

Invited Expert, Guidepoint Global Advisors, consultation on trends in microbial testing for food safety, 2011.

External Evaluation, USDA-AMS Microbiological Data Program, letter in support of the program, 2011.

Invited Expert, Starbucks Coffee Company, provide information on the food safety of fresh-pressed juice compared to pasteurized juices, 2011.

Invited Interview, independent health journalist working with Fairwarning, requesting information on seafood safety, focusing on imported seafood, 2011.

Invited Expert, Cargill, clarifying the public health significance of the "coliform" test for flour, 2011.

Invited Expert, Guidepoint Global Advisors, infectious disease experts in Mexico regarding patients with Epstein Barr Virus, 2011.

Invited Expert, Guidepoint Global Advisors, agrobioterrorism, poisoning of crops or water supply bioterrorism: microbial control techniques, 2011.

Invited Expert, WSB-TV, Atlanta, GA, Milkshake microbiological results, 2011.

Invited Nominator, FDA Food Safety Modernization Act (FSMA) Working Group, letter of support for Joan Menke-Schaenzer's nomination, 2011.

Invited Expert, Publix Super Markets Bakery, food safety in pie production, 2011.

Invited Expert, Land O'Frost Co., new line of products and microbiological testing protocols, 2011.

Invited Expert, Baldor Foods, refrigeration temperature for salsa, 2011.

Invited Expert, Unilever, reduced-fat peanut butter, 2011.

Invited Expert, ConAgra Foods, antimicrobials and storage conditions on inoculated pathogenic bacteria in gassed and non-gassed dairy products, 2011.

Invited Expert, "Solae, thermal inactivation of *Salmonella*", 2011.

Invited Expert, NanoICE, regarding research validating efficacy of killing microbes during chilling and preserving raw products, 2011.

Invited Expert, Danisco, food safety of reduced oxygen packaging, 2011.

Expert Advisor, International Food Information Council (IFIC), Washington, DC. *Salmonella* Heidelberg outbreak from ground turkey, 2011.

Expert Advice, Prepara X-Force, Radiation in food in Japan, 2011.

Invited Member, Food Safety Advisory Council, ConAgra Foods, overview of *E. coli* 104:H4 outbreak in Germany, 2011.

External Evaluation, Letter of Support of Bernadette Franco's Application for grant to create new Research, Innovation and Dissemination Centers, Sao Paulo Research Foundation, Sao Paulo, Brazil, 2011.

Invited Expert, Outbreak of *E. coli* O157:H7 in strawberries in Oregon. Questions regarding jam that was already frozen that might have been made from contaminated berries. Bill Keene, Epidemiologist, Oregon Public Health Div., Portland, OR, 2011.

Invited Expert, Administrative Conference of the United States, how existing systems of third-party certification could be tailored to provide confidence appropriate for safety regulators. Met with Professor David Wirth, ACUS consultant, 2011.

Invited Expert, Angela Miles U.S. GAO (Atlanta), Brendon Kretzchmar and Candice, San Francisco, reimbursement of losses of food industry for mistaken food recalls or vehicles of foodborne disease outbreaks, July 2011.

Expert, ConAgra Foods regarding microwave energy against salmonellae and STEC, 2011.

Expert, CDC, Atlanta, *Campylobacter*-contaminated water systems, 2011.

Invited Member, Kellogg's Food Safety Review Group, for promoting food safety globally, 2011.

Invited Expert, Frito-Lay, Raw Commodity Specs: *Salmonella* in flour, 2011.

Invited Expert, Cargill, High-pressure processing of foods to mitigate contamination by harmful microbes such as *Salmonella*, *E. coli* O157, and *Listeria* without adversely affecting the product's taste and quality, 2011.

Invited Expert, HoneyBaked Ham Co., food safety programs and pathogen monitoring practices, 2011.

Member/Organizer, Lot Definition Working Group, FDA and food industry representatives to determine "Lot" designations for low-moisture foods, 2011.

Invited Expert Media Liaison, International Food Information Council, *Listeria* and GMPs – Putting risk of *Listeria monocytogenes* in perspective and provide information and education, 2011.

Invited Expert Advisor, Glacier Water, San Diego, CA to advise on drinking water dispensers, 2011.

Invited Member, JIFSAN Advisory Council, University of Maryland, College Park, MD, 2011-

External Evaluator, Dr. Sylvain Moineau for Canada Research Chair nomination, 2011.

Invited Expert, Dr. Lay Kheng, Agriculture-Food and Veterinary Authority, Singapore, regarding *Staphylococcus aureus* in foods, 2011.

Invited Symposium Organizer, Special Interest Symposium, American Society for Microbiology General Meeting, Striking the Balance: Food Safety, Food Security and Climate Research Issues in Microbiology, San Francisco, CA, 2012.

Invited Reviewer, Georgia Water Resources Conference manuscript, "A Comparison of *Escherichia coli* Levels in the Chattahoochee River in Helen, Georgia between Drought and Non-Drought Years," 2011.

Invited Reviewer, American Society for Microbiology Press book proposal, "Preharvest Food Safety," 2011.

Invited reviewer, Springer, Book Proposal, "Proteomics," 2011.

Invited Peer-Reviewer, Qatar National Research Fund National Priorities Research Program proposals, 2011.

External Reviewer, UBC Press, Vancouver, BC, Canada, "Food connections: Our global food safety system," 250-page manuscript, 2011.

Invited Assessor, Biotechnology and Biological Sciences Research Council, UK, ISPG proposal, "Gut Health and Food Safety," 2011. Invited Reviewer, Institute of Medicine draft report by Committee on "Nutrition, Trauma, and the Brain," 200-page manuscript, 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis in cantaloupes, 2011.

Chair, Institute of Medicine Food Forum meeting on Informing Health & Food Policy through Systematic, Evidence-Based Reviews, 2011.

Invited Reference, Casimir C Akoh, letter of evaluation for application for position of Chair and Professor, University of Maryland, Nutrition and Food Science, College Park, MD, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Food Safety Culture: Creating a Behavior-Based Food Safety Management System,” 2011.

Invited Evaluator, Dr. Doug Smith, letter of evaluation for Promotion and Tenure to the rank of Associate Professor, North Carolina State University, Raleigh, NC, 2011.

Invited Co-Organizer and Participant, American Academy of Microbiology Minicolloquium “*E. coli* FAQ,” September 1, 2011.

Invited Reviewer, Springer Publishing, Book Proposal, “Retail Food Safety,” 2011.

Host, Dr. Jordi Serratos, European Food Safety Authority “Liaison Officer” at U.S. Food and Drug Administration, September 29, 2011.

Invited Reviewer, OMICS Publishing Group, Los Angeles, Book Proposal, “Emerging Drugs,” 2011.

Invited Reviewer, Springer, New York, Book Proposal, Leadership of Food Safety in the Food Retail Industry: How to develop and manage a food safety program, 2011.

Invited Reference, Dr. Guodong Zhang, letter of evaluation for Assistant Professor of Animal Science position, Oklahoma State University, 2011.

Invited Expert Testimony, FDA, CDC, USDA-FSIS, USDA-ARS, and Center For Nutrition Policy And Promotion, Reducing Sodium Consumption. November, 2011.

Invited Reviewer, RTI International, Research Triangle Park, NC, Risk assessment of public health impact of intervention strategies aimed at reducing *Escherichia coli* O157:H7 in the U.S. beef slaughter industry, 2011.

Invited Briefing, VoluntaryNet industry briefing for FDA leadership. October 7, 2011.

Invited Responder, Centers for Disease Control and Prevention. *Listeria* soil contamination questions. October 6, 2011.

Invited Expert, Life Technologies, Foster City, CA, STEC Testing. October, 2011..

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, Washing cantaloupes, 2011.

Invited Expert, Nestle, Switzerland, Use of surrogate – *Enterococcus faecium* in food safety validation, 2011.

Invited Expert, Publix Super Markets, cooking roast beef in the deli, 2011.

Invited Steering Committee Member, American Society for Microbiology, Report on *E. coli*: Food, Bad & Deadly FAQ. Michael Ingerson-Mahar and Ann Reid (eds.) 2011. 13 pp.

Invited Expert, Lee Memorial Hospital, Fort Myers, FL, HACCP in Hospitals. 2011.

Invited Expert, Centers for Disease Control and Prevention, Listeriosis outbreak in cantaloupes, 2011.

Invited Collaboration, Georgia Tech Research Institute, Atlanta, GA, Ways to collaborate on food safety issues, 2011.

Invited Expert, Sopragval Co., Chile, *Salmonella* in ground meat. 2011-2012.

Invited Panelist, Cargill, Minneapolis, MN, Panel to review new food safety measures, 2011.

Invited Reviewer, Canadian Research Chairs Program, University of Regina, Canada, Nomination of Dr. Christopher Yost as Tier 2 Chair in Microbes, the environment and food safety, 2011.

Invited Evaluator, , University of Massachusetts, Amherst, Mid-tenure evaluation of Assistant Professor Sam Nugen, 2011.

Invited Expert, Betcher Industries/Gaincos, Atlanta, GA, Food Safety Advisory Council, 2011.

Invited Expert Opinion, Regina Caeli Academy First Lego League, information on contamination of *Listeria* on smoked salmon, 2011.

Invited External Evaluator, Al-Balqa Applied University, Jordan, Referee, Promotion of faculty members in field of nutrition and food processing/food safety and microbiology from Assistant to the Associate Professor, 2011

Invited Expert Advice, CDC Foundation, Product development of peanut paste by Nutriset, 2011.

Invited Expert Advice, U. S. Government Accountability Office on food safety study, 2011.

Invited Member, Cargill, Inc. Food Safety Panel, 2011.

Invited Food Safety Expert Opinion, Publix Super Markets, Lakeland, FL, Cook cycle for Semi Boneless Hams, 2011.

Invited Expert Advice, CDC, Turkish Pine Nut safety, 2011.

Invited Participant, Institute of Medicine Workshop, Washington, DC. Leveraging Food Technology for Obesity Prevention and Reduction Efforts. 2011.

Invited Member, ILSI-NA Scientific Program Planning Committee, 2012.

Invited Reviewer. The Canada Foundation for Innovation, Proposal on effect of high pressure processing on quality, sensory attributes and microbial stability of selected fresh meat products during refrigerated storage, 2011.

Invited Reference, Institute of Food Technologists, Dr. Ewen Todd's nomination as Fellow, 2012.

Invited Expert Review Panel, FDA Sprout Safety Advisory Committee, "Seed disinfection methodologies". 2012.

Invited Member, International Association for Food Protection GMA Food Safety Award Jury, 2012.

Invited Reviewer. USDA BARD Proposal, Correlations of pathogen inactivation to changes in compost microbiota, 2012.

Invited Reference, Institute of Food Technologists, Dr. Ahmed Yousef's nomination as Fellow, 2012.

Invited reviewer, springer Science+Business Media, Book Proposal by John Spink, FMFS Book Series, 2012.

Invited Reviewer. USDA BARD Proposal, Renewable, long-term, antimicrobial surface treatments through dopamine-mediated binding of peptidoglycan hydrolases, 2012.

Invited External Evaluator, Universiti Sains, Malaysia, Mossad Attia Abdel-Wahhab, promotion to Professor, 2012.

Invited Letter of Support, University of Sao Paulo, Brazil, , for establishing the Food Research Center (Bernadette D.G.M. Franco) 2012.

Invited Expert Presentation as International Food Information Council Foundation Media Guide Expert, EPA Guidelines on Dioxin. 2012.

Invited Membership, Editorial Advisory Board/Open Access Academic Books – Food Science, Versita Publishing Co., 2012.

Invited Reviewer, Springer Book Proposal, Biochemistry and Molecular Nutrition of Food Allergens,, 2012.

Invited Nominator, ConAgra Foods Food & Beverage Company R&D Team of the Year Award, Food Processing Magazine, 2012.

Invited Consultant, Guidepoint Global, 2012.

Invited Reviewer, Springer, book series proposal on Food Biology, 2012.

Invited Reviewer, Mini Review paper, CAB Reviews, "Bacteriophage based technologies and human health applications," 2012.

Invited Nominator, Dr. Erin Dreyling for National Advisory Committee Microbiological Criteria for Foods (NACMCF), 2012.

Invited Participant, Global Food Safety Partnership, Agriculture and Rural Development, World Bank, 2012.

Invited Advisory Panel Expert/Reviewer. Forum on Next Generation Microbiological Food Requirement for Spaceflight. NASA, Houston, TX, 2012.

Invited Member. International Life Sciences Institute-North America, North America Project Committee on Food Value Decisions, 2012.

Invited Single Author Spotlight Article, ISRN Microbiology. Current research, 2012.

Invited participant, Lawyer2Lawyer Podcast, “Food Safety in America,” May 22, 2012.

Invited reviewer, Centers for Disease Control and Prevention, “Risk Factors Associated Botulism – Republic of Armenia, 2000-2006,” 2012.

Invited Subject Matter Expert, U.S. Department of Homeland Security, grant proposals, 2012.

Invited Expert Consultant, CDC, Vital Signs Focus, “What Can be Done to Reduce *Listeria* and other foodborne illnesses,” 2012.

Invited participant, American Academy of Microbiology, Food Microbiology Task Force, 2012.

Invited External Evaluation, Rutgers University, New Jersey, Donald Schaffner, Dossier for Promotion to Professor II, 2012.

Invited Editorial Board Member, ASM Press, Microbiology Spectrum (Food Microbiology area), ASM Press, on-line publication, 2012.

Invited Expert Opinion, Centers for Disease Control and Prevention, *Clostridium perfringens* questions regarding outbreak investigation. 2012.

Invited Evaluator, University of Missouri, Columbia, MO, Promotion & Tenure Dossier for Promotion to professor, Dr. Azlin Mustapha, 2012.

Invited to write article, “Implementation of food safety measures in the West – Its feasibility in China,” China Daily newspaper, July 2012.

Invited Reviewer, U.S. Food and Drug Administration FDA/CFSAN Quantitative Predictive Risk Assessment Model (QPRAM) for Produce Safety and associated documents. 2012.

Invited Nominator, Nomination of Publix Supermarkets for the 2013 IAFP Black Pearl Award, 2012.

Invited Expert, Centers for Disease Control and Prevention, Atlanta, GA, “A *Cronobacter* in therapeutic foods for children with acute moderate malnutrition”. 2012.

Invited Reviewer, Oklahoma State University, Food Safety Emphasis curriculum, 2012.

Invited support letter, IUFoST Lifetime Achievement Award, for Cherl Ho Lee’s nomination, 2012.

Invited Expert Advice, Centers for Disease Control and Prevention, Atlanta, GA, “Listeriosis outbreak in soft

Cheeses". August 2012.

Invited Letter of Evaluation. The Ohio State University, Dr. Hua Wang's dossier for promotion to Professor. 2012.

Invited Co-Chair 3rd Asia Pacific International Conference on Food Safety. Taiwan. October 29-November 1, 2013.

Chair, American Academy of Microbiology, Founders Distinguished Service Award Nomination and Selection Committee, 2013.

Invited Editorial Board Member. 2012. Microbiology Spectrum. American Society for Microbiology.

Invited Reviewer, Shota Rustaveli National Science Foundation of Georgia research proposals, 2012.

Invited Member, Journalist Conference, Atlanta, GA, Food Safety Panel, April 21, 2012.

Invited Member, American Society for Microbiology Public and Scientific Affairs Board, 2004=2012.
- Chair, Food Microbiology Committee

Invited Member, Taco Bell Food Safety Advisory Council, 2012-

Invited Member, USDA, ARS, Sprout Safety Review Panel, 2012.

Invited Reviewer/Expert Panel Member, U.S. Food and Drug Administration Center for Veterinary Medicine Office of Minor Use and Minor Special Animal Drug Development grant proposals, 2012.

Invited Participant, Institute of Medicine Annual Meeting of study committees, boards, standing committees, roundtables, forums and planning committees, 2012.

Invited Participant and Workshop Leader, Institute of Medicine. Exploring Health and Environmental Costs of Food, 2012.

Invited Member, , International Association for Food Protection, GMA Food Safety Award Committee, 2012.

Invited Participant, Institute on Science for Global Policy (ISGP) Conference on Emerging and Persistent Infectious Diseases: Focus on the Societal and Economic Context, July 8-11, 2012.

Invited Expert, International Life Sciences Institute-North America Emerging Issues Processing Foods project, 2012.

Invited participant, Food and Agriculture Organization of the United Nations, Food Hygiene Working Group, 2012.

Invited Reviewer, Institute of Medicine, "Exploring the true costs of food report", 2012.

02/2015

Invited Participant, American Academy of Microbiology, Washington, DC, Colloquium, “How Microbes Can Feed the World,” Dec 7-9, 2012.

Invited Evaluator. International Life Sciences Institute-Europe, Scientific Advisory Committee – Review of New Activities, 2012.

Invited Participant, The Pew Charitable Trusts, Washington, DC. Advisory Panel to discuss the methodology to identify the riskiest meat and poultry products. October 2012.

Invited Member. US Representative. Lynn Westmoreland Ag Advisory Council, 2012.

Invited Participant, Institute of Food Technologists Webcast, “Antimicrobial Resistance” Scientific Status Summary, April 2013.

Invited Reviewer/Letter of Evaluation, University of California-Berkeley, School of Public Health, Sangwei Lu, Dossier for Promotion to Full Adjunct Professor, 2013.

Invited comment, Atlanta Journal Constitution article on “Politifact Georgia,” regarding *E. coli* in chickens. March 2013.

Invited editor, International Journal of Food Contamination, Springer, March 2013.

Invited commentary, Food Safety News, Op-ed page, April 2013

Invited review of article, “High risk foods” by David Acheson, Leavitt Partners LLC, April 2013.

Invited contributor to article, Baltimore Sun, “Cookie-dough Eaters tempted by the Flavor – and the Raw Thrill,” April 2013.

Invited commentary, National Cattlemen’s Beef Association, The Doctors TV show on antibiotics in meats, April 2013.

Invited Book Editor, Research Signpost, Scarborough, Ontario, Canada, April 2013.

Invited Evaluator, Alex Malone, Quality Assurance Director of Yum Brands, annual evaluation, April 2013.

Invited Commenter, Institute of Food Technologists, regarding CNN article on Antibiotics in Meat, 2013.

Invited interview, New York Times on EWG report, April 2013.

Invited interview, Food Safety News (www.foodsafetynews.com), “Animal Antibiotics,” April 2013.

Invited expert advice, Kraft Foods, definition of an environmental pathogen, in response to FDA’s proposed definition, 2013.

Cited as one of top 20 Co-authors of articles on BioMed Lib, “Doyle MP, Erickson, MC. Opportunities for mitigating pathogen contamination during on-farm food production. *Int. J. Food Micro.* 152-54-74, 2012.

Invited interview, CNN.com, 2011 NARMS Retail Meat Annual report, April 2013.

Invited participant, Georgia Department of Public Health, Atlanta, GA, Georgia Food Service Rules and Regulations update, April, 2013.

Invited comment, WYAY All News, Atlanta and Atlanta Journal Constitution, Ga Dept of Agric resignations concerning food safety, April 2013.

Invited Book Proposal Review, *Microbiological Safety and Quality of Food* by Xiangyu Deng. Springer, New York, 2013.

Invited interview, Associated Press, USDA/April’ new livestock identification rules. April 2013.

Invited interview, Discover Magazine, role of FDA. April 2013.

Invited letter of support, International Association for Food Protection, Anna Lammerding’s nomination for Honorary Lifetime Membership ,April 2013.

Most Quoted Faculty, UGA Office of Public Affairs, CAES, on foodborne pathogens in leafy green vegetables. April 2013.

Invited comment, Grist, OMB testing requirements in the FSMA, April 2013.

Invited interview, DSM Bio-based Products & Services, Levulinic acid, April 2013.

Invited Reviewer, “Weight Watchers International Auditor’s report on mold contamination in raisins”, May 2013.

Invited interview, Al Jazeera Reporter, article on “China’s Food Imports to the U.S.”, May 2013.

Invited organizer and curator, *Frontiers in Microbiology*, of a *Frontiers Research Topic* homepage to manage contributions and maintain ongoing dialogue with research community, May 2013.

Invited taped interview, American Society for Microbiology, to discuss “Food Microbiology: Fundamentals and *Frontiers*, 4th Edition.” May 21, 2013,

Invited to participate in meeting of Oak Ridge Associated Universities (ORAU), to apply for 2013 Innovation Challenge Award Competition, University of Georgia, Athens, GA,

Invited comment, “Food Insight, Your Nutrition and Food Safety Resource on potential for increased foodborne illnesses”, May 2013.

Invited interview, Drovers Cattle Network, “Jolley: Five minutes with Dr. Michael Doyle and

those Superbugs,” May 2013.

Invited to Engineering-Summits, The Organization of Engineering Executives, May 2013.

Invited comment, Microbe magazine, on “Consumer Reports investigation: Talking turkey”. May 2013.

Invited to serve on interview committee for position of Food Safety Director, Georgia Department of Agriculture, May 2013.

Invited comment, USA Today, FDA will not cut any food safety inspections this year in spite budget cuts, May 2013.

Invited Evaluator, Rutgers University, New Brunswick, NJ, dossier of Dr. Michael L. Chikindas for promotion to Professor, June 2013.

Invited peer-reviewer for proposals and projects, Shota Rustaveli National Science Foundation of Georgia, 2013.

Invited administrative reviewer, Dean Scott Angle’s 7-year review, UGA College of Agricultural and Environmental Sciences, 2013.

Invited Expert Opinion, Sokol and Co., Water in peanut butter processing. 2013.

Invited Evaluator, Seoul National University, for promotion to Professor of Dr. Dong-Hyun Kang. 2013.

Invited Evaluator, USDA-ARS, for Nelson Cox promotion, May 2013.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2013.

Invited Evaluation, TUBITAK Young Scientist Awards, Turkey, nomination of Dr. Ali Aydin. 2013.

Invited letter of support for nomination of Craig Hedberg for the ASPH Award of Excellence, University of Minnesota School of Public Health. 2014.

Invited Reviewer, GMA’s Center for Ingredient Safety and Risk Assessment Proposals for Funding, Grocery Manufacturers of America, 2013.

Invited Letter of Support, Dr. Walid Alali’s nomination for IAFP Dr. Larry Beuchat Young Researcher Award, 2013.

Invited Speaker. Thermo Scientific Food Safety Seminar Day, “Foodborne Pathogens.” May 30, Atlanta, GA, 2013.

Invited contributor, Feedstuffs, “Antimicrobial resistance complex”, March 25, 2013, .

Invited letter of support. Dr. Mansel Griffith’s nomination for the Ontario Agricultural College Alumni Association Research Award, 2013.

Invited Expert Panel Member, WHO International, Panel on Food Safety, 2013. .

Invited External Reviewer, Dossier of Linda Harris for promotion, UC-Davis, 2013.

Invited Theme Leader, IUFoST Congress, Montreal, Canada, Food Safety, 2014.

Invited Editorial Board Member, OA Journal: “*International Journal of Food Contamination*”, Springer, 2013.

Invited Chair, 2013. The Pew Charitable Trusts Collaborative Food Safety Forum, “Role of testing in FDA’s Hazard Analysis and Risk-Based Preventive Controls Rule”, March 22, Washington, DC.

Invited Reviewer, 2013. Grant Review Panel, U.S. Food and Drug Administration Center for Veterinary Medicine OMUMS, Washington, DC.

Invited Reviewer, “The Problem with Purity: Market failures, foodborne contamination, and the US Food Safety Regulatory Regime,” by I.P. Thomas, Univ of Nebraska Press, Lincoln. 2013.

Member, ILSI-NA Scientific Program Planning Committee, 2013.

Invited ‘safe salsa’ recipe. Centers for Disease Control and Prevention, Video for Super Bowl. 2013.

Requested book review, Food Security, Nutrition, and Safety: OMICS Technologies, Strategies, and Applications, Ganesh Kumar Agrawal, Romina Pedreschi, & RandeepRakwal, (eds.), Springer, New York. 2013.

Invited participant, 2013. Crisis Management Manual, Heinz Canada.

Invited Participant, Food Safety Auditing Research, Private-Sector. Albany Law School, Albany, NY. 2013.

Invited Interview, Associated Press, Cyclospora. 2013.

Invited letter of support. Dr. Martin Wiedmann’s nomination for Fellow of American Academy of Microbiology, 2013.

Invited Collaborative Partnership, University of Georgia (UGA) Center for Food Safety- National Center for Food Safety Education and Research (NCFSER), National Taiwan University. 2013.

Invited reviewer, MBIE Science Investment Round. To review research programs, Ministry of Business, Innovation & Employment, New Zealand, 2013-2014.

Elected Member, International Life Sciences Institute (ILSI) Board of Trustees (global organization).
September 2013 – January 2015.

Invited participant. World Health Organization's (WHO) Global Burden of Foodborne Disease Study. 2013.

Invited Reviewer, British Food Journal (UK), "Drug-resistant bacterial pathogens in milk and yogurt samples." March 2013.

Invited to review book proposal. Springer, Restaurant Food Safety, May, 2013.

Invited peer reviewer, Ministry of Business, Innovation and Employment Investment Round Proposal, Wellington, NZ. May, 2013.

Invited expert opinion, Heat Seal Machine Film Specifications. Georgia Dept. Agriculture, Atlanta, GA, 2013.

Invited participant, 2014. International Association for Food Protection Annual Meeting Round Table. Public and Private Food Safety Research Funding: Where Should the Money Go? Indianapolis, IN.

Invited reviewer, Book Proposal on Food Safety in 21st Century (paperback edition), Wiley Publishers, Oxford, UK, 2013.

Invited Virtual Speaker. The American Academy of Microbiology and ASM International Affairs "Virtual Speaker Program". Topical speaker. 2014.

Invited evaluator, Dr. Michael Cooley, USDA Western Regional Research Lab, for in-depth evaluation of contributions and qualifications. 2014.

Invited reference, nomination of Dr. Vijay Juneja, recipient of Service to America Medal. Michigan State University (Dr. Elliot Ryser). 2014.

Invited reviewer, National Academy of Sciences report on USDA's Agriculture and Food Research Initiative program, National Research Council. 2014.

Invited expert advice, DHHS, Communicable Disease Surveillance, "Safe use of manure in organic farming," Humboldt County Health Department, 2014.

Member, Foster Farms Food Safety Advisory Board, 2014-2015.

Invited Member, Evaluation panel to review and interview candidates applying for Produce Safety and Microbiology Research Unit, USDA-ARS, Western Regional Research Center, Albany, CA, 2014.

Nominated Dr. Jennifer Cannon, winner of the 2014 Larry Beuchat Young Researcher Award, International Association for Food Protection.

Invited reviewer, Book proposal. Springer, Taormina Proposal---Shelf Life, 2014.

02/2015

Invited reviewer, Book proposal. Springer, Food Traceability: Food for Thought. 2014.

Invited Member, 2015 Scientific Program Planning Committee, International Life Sciences Institute Annual Meeting, 2014-2015.

Invited Letter of Support, 2014. Nomination of Kathryn Boor for the UC-Davis College of Agricultural and Environmental Sciences Award of Distinction.

Invited Letter of Recommendation, Burroughs Welcome Grant on Innovation in Regulatory Science at the FDA, submitted by Glenn Morris, Mike Batatz and Arie Havelaar. March 2014.

Invited Member, ILSI Science Advisory Committee, 2014-

Requested Expert Advice. 2014. Pathogens in ice product. Daniel Ouzts, Sweet City Ice Co., Georgia March.

Invited Reference. 2015 Dietary Guidelines Advisory Committee on behalf of National Restaurant Association.

Invited Topic Editor. 2014 Frontiers Research Topics--Microbiology.

Invited Cooperator. 2014. King Abdulaziz University, Jeddah, Saudi Arabia.

Invited consulting, 2014. International Innovation – Health and Biology Research Report. Research AMedia Limited.

Invited contributor, 2014. Proteomics of Antimicrobial Resistance. Frontiers in Microbiology. Dep de Biologia & CESAM, Univ deAveiro, Portugal.

Invited Reviewer. 2014. The Research Foundation – Flanders (FWO), European Commission, New Research Proposal on “Impact of *Bacillus cereus* endospore evolution on food stability and safety,” by Abram Aertsen.

Invited Evaluator. 2014. Dr. Fahad M. Aljasass for promotion to Professor at The Scientific Council at King Abdulaziz City for Science and Technology (KACST), Saudi Arabia.

Invited Member/Chair, American Academy of Microbiology, ASM Founders Distinguished Service Award Selection Committee, 2014-2015.

Invited Reviewer. 2014. Science Peer Reviewer Targeted Research. New Zealand Ministry of Business, Innovation & Employment (MBIE) 2014 Science Investment Round.

Invited Evaluator. 2014. Evaluation Panel for Research Leader Vacancy Applications, USDA, ARS, Western Regional Research Center, Albany, CA.

Invited Expert. 2014. Wall Street Journal project on 25 food additives.

02/2015

Invited Collaborator, 2014. UGA-EDEB Data Collaboration, CDC Enteric Diseases Epidemiology Branch, FDA's Egg Rule.

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, "Antimicrobial food equipment coatings: Applications and challenges", by Bastarrachea, Denis-Rohr, & Goddard.

Invited Reviewer. 2014. Research Proposal, Accelerate research proposal entitled "Comparative Study to Determine the Efficacy of Different Sanitizers to Inactivate Human Pathogens on Shredded Lettuce and within Spent Wash Water", Mitacs, Canada.

Invited Reviewer, 2014. Project on food safety, antimicrobial resistance and animal health. Association of Public Safety Communications Officials (APCO) International

Invited Member, 2014. Global Programs Advisory Team, Global Programs, Coll of Agric & Env Sci, Univ of GA, Athens.

Invited Letter of Evaluation, 2014. Dr. Elaine Scallan consideration for promotion to Associate Professor, Colorado School of Pubic Health, University of Colorado, Aurora, CO.

Invited Expert and Speaker, 2014. International Food Information Council (IFIC) Farm Tour, Atlanta, GA. October 17.

Invited Collaborator/Scientific Partner. 2014. Fellowship from Kosciuszko Foundation by Magdalena A. Olszewska, U of Warmia and Mazuty, Poland.

Invited Host, 2014. Visiting Scholar Dafeng Song, Zhejiang Province, China.

Invited Letter of Recommendation, U.S. Food and Drug Administration, for promotion of Dr. Guodong Zhang. 2014.

Invited External Assessor, Promotion of Wan Nadiyah Binti Wan Absullah to Associate Professor, University Sains Malaysia Penang, Malaysia. 2014.

Invited Reviewer. 2014. Food Safety Proposals. Mississippi State University

Invited Reviewer. 2014. Annual Review of Food Science and Technology, Vol. 6, 2015, "*Bacillus* and other spore-forming Genera: Variations in Responses and Mechanisms for Survival," by Checinska, Paszczynski, and Burbank.

Member, Protein Toxins project, Extended Team. 2014. ILSI Health and Environmental Sciences Institute (HESI). Washington, DC.

Invited Evaluator. 2014. Dr. Fahad M. Al-Jasass for Promotion, King Abdulaziz City for Science and Technology Scientific Council, Saudi Arabia.

Invited Member, 2014. Academic representative on the CDC, BSC, FSMA Surveillance Working Group,

December 1, 2014-Nov 30, 2017, Centers for Disease Control and Prevention, Atlanta.

Invited Reviewer, 2014. “An intervention to reduce antimicrobial resistance in animal production in Vietnam,” grant application to The Wellcome Trust, London.

Invited Reviewer, 2014. Book Proposal, “Studies in Natural Products Chemistry”, Atta-UR-Rahman (ed). Elsevier Science Publishers, Amsterdam.

Invited Reviewer, 2014. Book Proposal “Food Safety for Farmers Markets,” Springer US.

Invited Reviewer, 2014. Preproposal for Genomics British Columbia and Feeding the Future competition, “Genomic Tools for Improved Safety, Authenticity and Security of Agri=food Products,” by David Kitts and Evan Frazier, Canada.

Invited Speaker. 2014. The University of Georgia Obesity Initiative, Food Industry Academia Consortium Conference, Athens, GA.

Invited Reviewer and Evaluator. 2015. 32nd World Veterinary Congress abstracts, Istanbul, Turkey.

Invited Expert Panelist and Evaluator. 2015. Canadian Meat Program of Canadian Food Inspection Agency (CFIA).

Invited Expert Panelist. 2015. U.S. Food and Drug Administration, to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

Invited Reviewer, 2015. Research Grant from International Foundation for Science-Sweden (IFS).

Nominator, International Association for Food Protection Maurice Weber Laboratorian Award, nomination of Gudong Zhang, 2015.

Invited Letter of Support, Fort Valley State University (Young Park), proposal to implement a B.S. degree program in Food Science, 2015.

Invited Consultant for Center of Excellence on Food Safety in Indonesia, 2015.

Invited Collaborator for a Fresh Produce Safety Centre (FPSC) project at New South Wales Department of Primary Industries in Sydney, Australia, 2015.

Invited Reviewer, 2015. Publication on Physicians Roundtable on Microbe Magazine. American Society of Microbiology

External Evaluator, 2014. Nanyang, Technological University (NTU), Professor Jørgen Schlundt, to Full Professor in the College of Engineering.

Invited Reviewer, 2014. Proposals entitled “UV Based Intervention Strategies to Improve the Microbiological Safety and Shelf–life of Sliced Mushrooms”. Mitacs Accelerate Program, Canada

- Invited Reviewer, 2015. Manuscript entitled “Shiga Toxin-Producing *Escheria coli* in Food: Incidence, Ecology, and Detection Strategies.” Elsevier Science Publisher.
- Invited Reviewer, 2015. Manuscript entitled “Effect of Adding Glucono & Lactone, Different of Starters, Rennet on the Chemical Composition, Yield and Economic Study of Kareish Cheese.” IJAP-15-035.
- Invited Reviewer, 2015. Manuscript entitled “Impact of infection dose and previous serum antibodies against the locus of enterocyte effacement proteins on *Escherichia coli* O157: H7 shedding in calves following experimental infection,” BioMed Research International.
- Invited Reviewer, 2015. Manuscript entitled “Effects of 5-hydroxytryptophan and m-hydroxybenzylhydrazine associated to *Lactobacillus* spp. On the immune response of broilers chickens challenged with *Salmonella Enteritidis*.” Poultry Science
- Invited Speaker, 2015. Global Microbiology Meeting, The Coca-Cola Company, Atlanta, GA July 22, 2015.
- Invited Reviewer, 2015. International Foundation for Science Research Grant , Khamis Youssef, Egypt.
- Invited Letter of Evaluation, Technion-Israel Institute of Technology, promotion of Assoc. Prof. Sima Yaron to the rank of Full Professor in the Faculty of Biotechnology and Food Engineering. Haifa, Israel May, 2015.
- Invited Reviewer , Annual Review of Food Science and Technology, 2015, Vol.6.
- Invited Reviewer, 2015. Manuscript entitled “Application of Innovative Deep UV- LED Processing to Control Food-borne Pathogens”. Applied and Environmental Microbiology
- External Evaluator, 2015. Technion-IIT, Haifa, Israel. Promotion evaluation for Associate Professor Sima Yaron to Full Professor.
- Invited Reviewer, 2015. Manuscript entitled “Effect of Chicken Litter Freshness on Thermal Resistance of Desiccation-Adapted *Salmonella* spp.)” Applied and Environmental Microbiology
- Invited Reviewer, 2015. Manuscript entitled “Twenty years of *Listeria* in Brazil: Occurrence of *Listeria monocytogenes* Serotypes and other species in food samples between 1990- 2012.” BioMed Research International
- Invited Reviewer, 2015. Manuscript entitled “The pipeline development for biomarker identification in foodborne pathogen detection and surveillance.”
- Invited Speaker, 2015. Crisis communication and issue management for the Extend Leadership Group. Griffin, Georgia May 29, 2015.
- Invited Reviewer, 2015. Manuscript entitled “Fluoroquinolone and Macrolide Resistance in *Camplobacter jejuni* Isolated from Broiler Slaughterhouses in Southern Brazil.”

Invited Reviewer, 2015. Georgia Research Alliance, Project entitled “ Micro Gas Chromatography for Agriculture Inspection/Evaluation Purposes.”

Invited Reviewer, 2015. Manuscript entitled “ Incidence and antimicrobial susceptibility pattern of extended-spectrum- β -lactamase-producing *Escherichia coli* isolated from retail imported mackerel fish in Saudi Arabi.”

Invited to co-moderate a workshop, 2015. “The Science of Sodium Reduction in the Food Supply.” Sponsored by ILSI North America Technical Committees on Food Microbiology and Sodium, Washington, DC, September 22, 2015.

Invited Reviewer, 2015. Manuscript entitled “Development of an Improved selective medium for the detection of *Shigella* spp.” Food Science & Technology

Invited Reviewer, 2015. Manuscript entitled, “Antimicrobial and antioxidant activities of spice extracts on raw chicken meat quality.” Food Science and Human Wellness

Invited Reviewer, 2015. Manuscript entitled, “Determination Of Optimum Commercial Fertilizers Rate for Common Bean (*Phaseolus Vulgaris* L.) Production at Areka, South Region of Ethiopia.” Journal of Agriculture and Crops

Invited Reviewer, 2015. Manuscript entitled “Biofilm formation by food isolated *Staphylococcus* spp.” Academic Journal

Invited member of the Evaluation Panel, Center Director position of US National Poultry Research Center (USNPRC), July 20, 2015.

Invited Letter of Recommendation for Publix, SQFI Manufacturer of the Year Award, June 17, 2015.

Invited Reviewer, 2015. Book entitled “**Food Safety in China**” by Joseph Jen, John Wiley & Sons Limited (publishing company)

Nominator, for the Heinz 2015 Awards.

Public Service

1. Requested by State of Illinois and Centers for Disease Control to serve on task force to investigate large outbreak of salmonellosis associated with consumption of pasteurized milk, April 1985.
2. Requested by Health and Welfare Canada and Ontario Central Public Health Laboratory to analyze for *E. coli* O157:H7 food samples associated with outbreak of hemorrhagic colitis and hemolytic uremic syndrome (London, Ontario), Fall 1985.

3. Requested by Centers for Disease Control and State of Washington Health Department to analyze for E. coli O157:H7 food samples associated with outbreak of hemorrhagic colitis (Kennewick, WA), August 1986.
4. Requested by Centers for Disease Control and Minnesota Department of Health to analyze for E. coli O157:H7 raw milk samples associated with cases of hemolytic uremic syndrome in infants, September 1986.
5. Requested by Centers for Disease Control and Wisconsin Division of Health to analyze for Escherichia coli O157:H7 food samples associated with outbreak of thrombotic thrombocytopenic purpura, September 1986.
6. Requested by Universidad Nacional Autonoma de Nicaragua, Department of Microbiology and Parasitology, Managua, Nicaragua, to advise and collaborate in studies on the association of Campylobacter jejuni and Yersinia enterocolitica with diarrhea in children, September 1986-89.
7. Requested by Centers for Disease Control and State of Washington Health Department to analyze food samples associated with outbreak of thrombotic thrombocytopenic purpura and hemorrhagic colitis (Walla Walla, WA) for Escherichia coli O157:H7, November 1986.
8. Requested by U.S. Food and Drug Administration to analyze for E. coli O157:H7 cheese samples associated with outbreaks of hemorrhagic colitis (Walla Walla, WA and Vancouver, BC), December 1986.
9. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 hamburger samples associated with cases of hemolytic uremic syndrome, June 1987.
10. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef and cheese samples associated with outbreaks of hemorrhagic colitis (Utah), July 1987.
11. Requested by St. Luke's Hospital (Infectious Disease Department), New York, NY, to analyze for Listeria monocytogenes feta cheese sample associated with case of perinatal listeriosis, December 1987.
12. Requested by State of Washington Department of Social and Health Services and Centers for Disease Control to analyze for E. coli O157:H7 venison samples associated with a case of hemorrhagic colitis, January 1988.
13. Requested by State of Wisconsin Department of Health and Social Services and Centers for Disease Control to analyze for E. coli O157:H7 and verotoxins, roast beef samples associated with an outbreak of hemorrhagic colitis, June 1988.
14. Requested by State of Utah Department of Health to analyze for E. coli O157:H7 antelope sausage samples associated with a case of hemolytic uremic syndrome, August 1988.

15. Requested by Minnesota Department of Health to analyze for E. coli O157:H7 ground beef samples associated with outbreaks of hemorrhagic colitis and hemolytic uremic syndrome at day-care centers and a Junior high school. September-December 1988.
16. Requested by New York State Department of Health to participate in Northeastern States Salmonella enteritidis Workshop (September 8-9, 1988) and to study food microbiology and virulence aspect of egg-associated isolates of Salmonella enteritidis, September 1988.
17. Requested by Centers for Disease Control to analyze for E. coli O157:H7 ground beef sample associated with a fatal case of hemolytic uremic syndrome in the State of Washington, September 1989.
18. Requested by Centers for Disease Control and Missouri Department of Health to analyze for E. coli O157:H7 water and food samples associated with an outbreak of hemorrhagic colitis in Cabool, MO, January-March 1990.
19. Requested by Wisconsin State Laboratory of Hygiene to analyze for E. coli O157:H7 meat samples associated with a case of hemolytic uremic syndrome in Northern Wisconsin, March 1990.
20. Requested by National Broiler Council to provide comments for a video interview on the microbiological safety of fresh broiler products, October, 1991.
21. Requested by Centers for Disease Control to analyze for E. coli O157:H7 apple cider and environmental samples associated with an outbreak of hemorrhagic colitis in Boston, MA, January-February 1992.
22. Requested by American Meat Institute and National Cattlemen's Association to provide comments for a video interview on the safety of streamline-inspected beef, April 1992.
23. Requested by Commonwealth of Virginia Department of Health to analyze for E. coli O157:H7 meat samples associated with an outbreak of hemorrhagic colitis in Virginia, August 1992.
24. Requested by Continental Grain Company to analyze poultry product for bacterial contaminants, October 1992.
25. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 milk and water samples associated with an outbreak of hemolytic uremic syndrome in Maine, November 1992.
26. Requested by Institute of Food Technologists to comment on a press release distributed by the American Medical Association regarding two articles on foodborne outbreaks published in JAMA, December 1992.
27. Requested by Centers for Disease Control and Prevention to analyze for E. coli O157:H7 meat samples associated with Jack in the Box outbreak of hemorrhagic colitis and hemolytic uremic syndrome in Washington State, California, Nevada, and Hawaii, January-April 1993.

28. Requested by Centers for Disease Control and Prevention to analyze mayonnaise samples associated with an outbreak of E. coli O157:H7 in Oregon, September-October, 1993.
29. International Cooperative Agreement, Board of Regents University System of Georgia and National Center for Food Safety Education and Research, Taipei, Taiwan. 2013. (Requested by National Taiwan University)
30. Requested by USDA National Institute for Food and Agriculture (NIFA) and the North American Branch of the International Life Sciences Institute (ILSI) to participate on a committee, the "Food Value Analysis Workshop-Phase II" held in Washington, DC. 2015.
31. Requested by Nelson Cox, USDA, Science Hall of Fame to collaborate on research to test the efficacy of levulinic acid on poultry parts to eliminate or reduce *Salmonella*, May 2015.
32. Requested by Peter Hesketh, Georgia Institute of Technology, to collaborate on the "Advanced Rapid Ultra-low Power Portable MEMS-GC System for Agriculture and Food Processing" for NSF SBIR. May 2015.

Subject: Graduate Faculty Reappointment - Doyle

FST Faculty-

Dr. Mike Doyle is up for reappointment to the Graduate Faculty. Attached is his CV. His reappointment will be discussed at the faculty meeting on Friday. If you do not plan on attending the faculty meeting, please return your ballot to me by Friday morning, February 13, 2015. Thanks.

Rakesh Singh-

Ballot

Reappointment to the Graduate Faculty - Dr. Mike Doyle

Yes:

No:

CURRICULUM VITAE

NAME: Michael Patrick Doyle

TELEPHONE: 770-228-7284

FAX: 770-229-3216

E-mail:mdoyle@uga.edu

DEGREES:

1973	B.S.	University of Wisconsin-Madison	Bacteriology
1975	M.S.	University of Wisconsin-Madison	Food Microbiology
1977	Ph.D.	University of Wisconsin-Madison	Food Microbiology

PROFESSIONAL EXPERIENCE:

1977-1980	Senior Project Leader, Corporate Research, Ralston Purina Company
1980-1984	Assistant Professor, Department of Food Microbiology and Toxicology (Food Research Institute), University of Wisconsin-Madison
1984-1988	Associate Professor, Department of Food Microbiology and Toxicology, University of Wisconsin-Madison
1988-1991	Professor and Wisconsin Distinguished Professor of Food Microbiology, Department of Food Microbiology and Toxicology, Department of Food Science, University of Wisconsin-Madison
1991-1999	Department Head, Department of Food Science and Technology, University of Georgia, Agricultural Experiment Station, Griffin, GA
1993-1999	Department Head, Department of Food Science and Technology, University of Georgia, Athens, GA
1993-2000	Director, Center for Food Safety and Quality Enhancement, University Georgia, Griffin, GA
1997-	Regents Professor of Food Microbiology, University of Georgia
2000-	Director, Center for Food Safety, University of Georgia, Griffin, GA

PROFESSIONAL SOCIETIES:

Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, and the National Academy of Inventors and serves as a scientific advisor to the National Academies. Member of the Institute of Medicine of the National Academies.

AWARDS/SPECIAL RECOGNITION:

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986
3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987

5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food and Environmental Sanitarians, 1993
10. James H. Nakano Citation, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994
11. P. R. Edwards Award, Southeastern Branch of the American Society for Microbiology, 1994
12. Nicholas Appert Award, Institute of Food Technologists (for outstanding contributions to the field of Food Science), 1996
13. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997.
14. Silver Plow Honor Award for Exceptional Service, U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998
15. Inaugural Fellow, International Association of Milk, Food and Environmental Sanitarians, 1998
16. Fellow, Institute of Food Technologists, 1999
17. Food Safety Award, National Food Processors Association AND International Association for Food Protection, 1999
18. Honorary Member, Association Internationale Nicolas Appert, for outstanding contributions to food science and technology, 1999
19. Julius Bauermann Lectureship, Philadelphia Section of Institute of Food Technologists, 2000
20. Centers for Disease Control and Prevention Partners in Public Health Honor Award, 2001
21. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
22. Institute of Scientific Information, Highly Cited Researchers in Agricultural Sciences (Top 100 researchers cited), 2002
23. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
24. Fellow, World Innovation Foundation, 2003
25. Elected Member, Institute of Medicine of the National Academies, 2003
26. National Associate, National Academy of Sciences, 2003
27. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
28. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
29. American Meat Institute Foundation's Scientific Achievement Award, 2004
30. U.S. Food and Drug Administration Commissioner's Special Citation, 2006
31. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
32. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
33. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
34. Fellow, American Association for the Advancement of Science (AAAS), 2011
35. Distinguished Agriscience Scientist Award, Christopher Columbus Fellowship Foundation, 2013
36. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food Safety, 2013

37. Fellow, National Academy of Inventors, 2013
38. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate," by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)

EXAMPLES OF PROFESSIONAL ACTIVITIES:

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva, Switzerland, 1988

Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988

Scientific Advisor, International Life Sciences Institute - Nutrition Foundation, Food Microbiology Committee, 1987-1996

Scientific Advisor, National Dairy Promotion and Research Board, 1989-1993

Scientific Advisor, National Live Stock and Meat Board, 1990-1996

Executive Committee, Conference for Food Protection, 1985-1986

IFT Scientific Lecturer, Institute of Food Technologists, 1987, 1990

ASM Scientific Lecturer, American Society for Microbiology, 1991-1993

Member, National Advisory Committee on Microbiological Criteria for Food, 1988-1990; 1994-2000

Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987

Board of Trustees, International Life Sciences Institute-North America, 1992-present

Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-1997; 2005-2009

Executive Board, International Association of Milk, Food and Environmental Sanitarians, 1989-94; President, 1992-93

Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, 1997-2002

Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003

Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998

Member, U. S. Food and Drug Administration Science Board (advise FDA science programs), 1999-2004; Chairman, 2003-2004

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002

Member, U. S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000

Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards of Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture *E. coli* Farm-to-Table Process Risk Assessment, 2001-2002.

Scientific Editor, Kluwer Academic/Plenum Publishers, Series on Food Safety and Food

Microbiology, 2002-present

Member, Partnership of Food Safety Education Advisory Board, 2002-2005

Member, American Academy of Microbiology, Committee on Election to Membership, 2002-2007

Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008

Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012

Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009

Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-present

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-present

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2012

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2011; Chair, 2012-2014

Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014

Member, International Life Sciences Institute Board of Trustees, 2014-

Member, CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017

Chair, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC, 2014-2015

Doyle has more than 315 refereed journal articles, 16 books, 66 book chapters, 86 invited papers/conference proceedings, 30 patents, and more than 800 invited presentations at national and international professional meetings. He is an active researcher in the area of foodborne bacterial pathogens and works closely with the food industry on issues related to the microbiological safety of foods. His research has focused on the study of microbial pathogenicity, the development of methods for pathogen detection, and the identification of means to control or eliminate pathogens in foods.

BIBLIOGRAPHY OF PUBLICATIONS 2004-2014

Papers Published in Refereed Journals/Publications

1. Erickson, M. C., M. Islam, C. Sheppard, J. Liao, and M. P. Doyle. 2004. Reduction of *Escherichia coli* O157:H7 and *Salmonella enterica* serovar Enteritidis in chicken manure by larvae of the black soldier fly. *J. Food Protect.* 67:685-690.
2. Islam, M., J. Morgan, M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Persistence of *Salmonella enterica* serovar Typhimurium on lettuce and parsley and in soils on which they were grown in fields treated with contaminated manure composts or irrigation water. *Foodborne Pathogens and Disease* 1(1):27-35.
3. Doyle, M. P., G. R. Acuff, D. Bernard, B. Cords, J. Cullor, J. Hollingsworth, K. P. Penner, S. Seward, W. A. Sperber, and B. Tompkin. 2004. Intervention strategies for the safety of foods of animal origin. Council for Agricultural Science and Technology (CAST), Ames, IA. Issue Paper No. 25. January. pp. 1-24.
4. Islam, M., J. Morgan, M. P. Doyle, and X. Jiang. 2004. Fate of *Escherichia coli* O157:H7 in manure compost-amended soil and on carrots and onions grown in an environmentally controlled growth chamber. *J. Food Protect.* 67:574-578.
5. Jiang, X., M. Islam, J. Morgan, and M. P. Doyle. 2004. Fate of *Listeria monocytogenes* in bovine manure-amended soil. *J. Food Protect.* 67:1676-1681.
6. Chiou, R. Y.-Y., R. D. Phillips, P. Zhao, M. P. Doyle, and L. R. Beuchat. 2004. Ethanol-mediated variations in cellular fatty acid composition and protein profiles of two genotypically different strains of *Escherichia coli* O157:H7. *Appl. Environ. Microbiol.* 70:2204-2210.
7. Islam, M., J. Morgan, M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Fate of *Salmonella enterica* serovar Typhimurium on carrots and radishes grown in fields treated with contaminated manure composts or irrigation water. *Appl. Environ. Microbiol.* 70:2497-2502.
8. Zhao, T., M. P. Doyle, and P. Zhao. 2004. Control of *Listeria monocytogenes* in a biofilm by competitive exclusion microorganisms. *Appl. Environ. Microbiol.* 70:3996-4003.
9. Zhao, T., M. P. Doyle, M. C. Kemp, R. S. Howell, and P. Zhao. 2004. Influence of freezing and freezing plus acidic calcium sulfate and lactic acid addition on thermal inactivation of *Escherichia coli* O157:H7 in ground beef. *J. Food Protect.* 67:1760-1764.
10. Islam, M., M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Persistence of enterohemorrhagic *Escherichia coli* O157:H7 in soil and on leaf lettuce and parsley grown in fields treated with contaminated manure composts or irrigation water. *J. Food Protect.* 67:1365-1370.

11. Islam, M., M. P. Doyle, S. C. Phatak, P. Millner and X. Jiang. 2005. Survival of *Escherichia coli* O157:H7 in soil and on carrots and onions grown in fields treated with contaminated manure composts or irrigation water. *Food Microbiology* 22:63-70.
12. Busta, F. F., M. P. Doyle, R. S. Flowers, R. G. Labbe, J. Lovett, J. M. Madden, J. C. McEntire, R. L. Newsome, M. D. Pierson, and N. R. Reddy. 2004. Bacteria associated with foodborne diseases. (IFT Scientific Status Summary). Institute of Food Technologists, Chicago, IL. pp. 1-25.
13. Mytle, N., G. L. Anderson, M. P. Doyle, and M. A. Smith. 2005. Antimicrobial activity of clove (*Syzygium aromaticum*) oil in inhibiting *Listeria monocytogenes* on chicken frankfurters. *Food Control* 17:102-107.
14. Doyle, M. P., L.-A. Jaykus, and M. Metz. 2005. Research opportunities in food and agriculture microbiology. American Academy of Microbiology, Washington, DC. p. 1-17.
15. Batz, M. B., M. P. Doyle, J. G. Morris, J. Painter, R. Singh, R. V. Tauxe, M. R. Taylor, and D. M. A. Lo Fo Wong. 2005. Attributing illness to food. *Emerging Infect. Dis.* 11:993-999.
16. Strachan, N. J. C., M. P. Doyle, F. Kasuga, O. Rotariu, and I. D. Ogden. 2005. Dose response modelling of *Escherichia coli* O157 incorporating data from foodborne and environmental outbreaks. *Int. J. Food Microbiol.* 103:35-48.
17. ILSI Research Foundation Risk Science Institute Expert Panel on *Listeria monocytogenes* in foods. 2005. Achieving continuous improvement in reductions in foodborne listeriosis - A risk-based approach. *J. Food Protect.* 68:1932-1994.
18. Mao, Y., M. P. Doyle, and J. Chen. 2006. Role of colanic acid exopolysaccharide in the survival of enterohemorrhagic *Escherichia coli* O157:H7 in simulated gastrointestinal fluids. *Lett. Appl. Microbiol.* 42:642-647.
19. Lin, C.-M., K. Takeuchi, L. Zhang, C. B. Dohm, J. D. Meyer, P. A. Hall, and M. P. Doyle. 2006. Cross-contamination between processing equipment and deli meats by *Listeria monocytogenes*. *J. Food Protect.* 69:71-79.
20. Zhao, T., and M. P. Doyle. 2006. Reduction of *Campylobacter jejuni* on chicken wings by chemical treatments. *J. Food Protect.* 69:762-767.
21. Takeuchi, K., N. Mytle, S. Lambert, M. Coleman, M. P. Doyle, and M. A. Smith. 2006. Comparison of *Listeria monocytogenes* virulence in a mouse model. *J. Food Protect.* 69:842-846.
22. Mytle, N., G. L. Anderson, S. Lambert, M. P. Doyle, and M. A. Smith. 2006. Effect of fat content on colonization of *Listeria monocytogenes* in a mouse model. *J. Food Protect.* 69:660-665.

23. Zhao, T., P. Zhao, J. W. West, J. K. Bernard, H. G. Cross, and M. P. Doyle. 2006. Inactivation of enterohemorrhagic *E. coli* in drinking water for cattle contaminated with rumen content or feces. *Appl. Environ. Microbiol.* 72:3268-3273.
24. Zhao, T., T. C. Podtburg, P. Zhao, B. E. Schmidt, D. A. Baker, B. Cords, and M. P. Doyle. 2006. Control of *Listeria* species by competitive exclusion bacteria in floor drains of a poultry processing plant. *Appl. Environ. Microbiol.* 72:3314-3320.
25. Doyle, M. P. 2006. Dealing with antimicrobial resistance. *Food Technol.* 60(8):22-29.
26. Doyle, M. P., and M. C. Erickson. 2006. Emerging microbiological food safety issues related to meat. *Meat Sci.* 74:98-112.
27. Lin, C.-M., L. Zhang, M.P. Doyle, and B. Swaminathan. 2006. Comparison of media and sampling locations for isolation of *Listeria monocytogenes* in Queso Fresco cheese. *J. Food Protect.* 69:2151-2156.
28. Doyle, M. P., and M. C. Erickson. 2006. Closing the door on the fecal coliform assay. *Microbe* 1:162-163.
29. Mytle, N., G. L. Anderson, S. Lambert, M. P. Doyle, and M. A. Smith. 2006. Effect of fat content on infection by *Listeria monocytogenes* in a mouse model. *J. Food Protect.* 69:660-665.
30. Doyle, M. P., and M. C. Erickson. 2006. Reducing the carriage of foodborne pathogens in livestock and poultry. *Poultry Sci.* 85:960-973.

Subject: ILSI North America Technical Committee on Food Microbiology

Hello Mike,

The ILSI North America Technical Committees on Food Microbiology and Sodium are jointly sponsoring a workshop, "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act." We would like to invite you to co-moderate the session with Dr. Christine Taylor, NIH ODS. I've attached a draft agenda. We are still in the process of identifying speakers and would welcome your input. The two dates we have identified are 17 September or 14 October, 2015. I'm hoping one of these dates will work for you.

I did try to call your office earlier today and would be happy to speak with you to answer any questions you may have.

I look forward to hearing from you.

Alison

*The ILSI North America Technical Committees on Sodium and
Food Microbiology jointly present*

The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act

I. Background and Rationale

Sodium intake levels are currently a topic of debate and concern in the U.S. In 2010, the Dietary Guidelines for Americans recommended two levels of sodium intake for adults. For healthy adults, the recommendation is 2300mg/day and for adults considered to be “at-risk” for hypertension, the recommendation is 1500mg/day¹. Previously, both the American Heart Association (AHA) and the Institute of Medicine (IOM) issued sodium intake recommendations of 1500 mg/day for nearly all adults^{2,4}. While target recommendations are decreasing, adults over the age of 19 are consistently consuming amounts well above those recommended, with men and women consuming 4,380mg/day and 3,103 mg/day respectively (NHANES 2003-2006)³.

Extensive debate continues on how to lower the sodium intakes of the population. Ninety four per cent of sodium intake comes from food², making it easy to hold food manufacturers responsible for the high intakes of sodium and expecting drastic changes in product formulations in order for recommendations to be feasible. However, the neglected part of the current sodium dialogue is the myriad of functions that sodium has in the food supply, sodium reduction is not a matter as simple as removing salt from food. Sodium plays a critical role in food preservation and safety by decreasing water activity and reducing growth of pathogens, food spoilage organisms, and unwanted chemical reactions, among other functions. A critical examination of these functions, and the unintended consequences of decreasing sodium on food safety, is a necessary first step.

In a 2010 report published by the Institute of Medicine (IOM), *Strategies to Reduce Sodium Intake in the United States*⁴, the committee acknowledged the functional need for salt in the food supply for both meeting consumer preference and keeping food safe. Importantly, the report calls for further research to explore where the threshold is in sodium reduction in order to avoid compromising food safety:

Research is needed to better understand the minimal levels of sodium necessary for those products in which salt provides a safety function, including allowing adequate shelf life. As products are reformulated to reduce sodium content it will be essential that manufacturers test the new formulations to ensure that the product remains safe over its intended shelf life, factoring in common mishandling of the product.⁴

Given the need for a coordinated cross-disciplinary dialogue regarding sodium reduction, the ILSI North America Sodium and Food Microbiology Committees aim to jointly convene a workshop that identifies the scientific issues and future research needs for sodium reduction. This workshop will broaden the dialogue and present what we have learned in the last 5 years since the release of the IOM Report about the functional challenges with sodium reduction.

II. Objectives

- a. To merge the dialogues of food safety and technology with public-health influenced sodium reduction initiatives in the food supply by engaging various disciplines to participate in collaborative, solution-oriented, dialogue regarding:
 - i. Progress that has been made to reduce sodium in the food supply.
 - ii. Barriers that still exist to reduce sodium in the foods supply, focusing on food safety, shelf life, flavor and quality (color, texture, and processing).
- b. To engage policy makers and health care professionals in a forum to educate and broaden the scope of conversation regarding sodium reduction initiatives and impacts, ultimately identifying areas where future research is needed.

III. Communication Strategy

- a. **Peer Review Proceedings Manuscript**
Speakers requested to discuss: “while decreasing sodium content in this food category, what, if any, are the limitations, consequences, and considerations of stepwise, quantified percentile reductions (i.e. 5% and 10%; or 25% and 50%).
- b. **Soundbite Videos**
Short communication videos to highlight key points (R DeVirgiliis)
- c. **Non-technical Communications Manuscript**
Food Technology or Nutrition Today

IV. Audience

a. Agency	b. Associations	c. Other
NIH	AND	Academics / Professors
FDA	ASN	Public Health Professionals
USDA	IFT	Food Safety Professionals
CDC	IFIC	Food R&D Scientists
NYC Pub Health	CSPI	Food Research Institute (UW)
Health Canada	AHA	ACHEMS
UK FSA	AMA	Monell Institute
	IOM	
	CFI	

V. Schedule

- a. **September 17**
- b. **October 14**

VI. Workshop Agenda

8:15 am Welcome Alison Kretser

- 2015 IAFP roundtable video: Is Sodium Reduction in Processed Foods a Risk to Food Safety?

8:30a Introductory Remarks from Moderators: Christine Taylor, NIH ODS & (tentative) Michael Doyle, University of Georgia (25 min)

- Frame workshop objective:

Sodium intake is currently ~3400mg/d; dietary guidance suggests reducing to ~2400mg/d or 1,500mg/d for certain populations. Achieving this guidance within the food supply requires approximate intake reductions of 30% or 60% to meet these goals. The objective today will be

to identify the feasibility of product reduction of 10-25% within food categories that most contribute to sodium intake in the U.S. This workshop will explore food safety and food technical considerations that have been left out of the sodium reduction discussion.

- Address safety/technology gap from IOM sodium report
- Highlight current U.S. sodium intakes (NHANES 2012)
- Brief highlights of reduction initiative progress and challenges (ILSI North America will provide this information)
 - CDC Sodium Reduction in Communities Program (SRCP)
 - NYC Public Health National Salt Reduction Initiative Phase II Status
 - Partnership for a Healthy America collaboration with Wal-Mart
 - UK Voluntary
 - Health Canada Voluntary

8:55a FDA CFSAN Office of Food Additive Safety (speaker TBD) (25 min)

- Presentation on FDA current sodium program

9:20a Technological Considerations of Sodium Reduction

Microbiological Roles of Sodium in Food

- 9:20a - Intro: Salt and sodium preservatives for microbiological stability - *Jeff Sindelar, UW Madison*
- 9:30a - Processed (cured and deli) meats *Iksoo Kang, MSU* (30 min)

10:00a *Morning Break (15 min)*

- 10:15a - Cheese and other dairy – *Kathy Glass* (30 min)
- 10:45a - Refrigerated doughs: food spoilage and waste – *academic / gov't official speaker* (30 min)
- 11:15a - Discussant Panel *Moderated by M Doyle* (30 min)

- 11:45p - Industry Case Study: Meat – *Cargill speaker or Peter Taormina, Smithfield* (10 min)
- 11:55p - Industry Case Study: Cheese/Dairy – (10 min)
- 12:05p - Industry Case Study: *Bread or Refrigerated Dough Products* – (10 min)

12:15p *Lunch*

Other Functional Roles of Sodium in Food

- Consumer considerations including clean labeling, market reaction, etc.

- 1:15p - Intro to functional and quality applications of sodium – *academic / gov't official speaker* (15 min)
- 1:30p - Texture/mouthfeel in grain products – *academic / gov't official speaker* (30 min)
- 2:00p - Salt taste and substitutes – *Charles Zucker, Columbia University or Monell Institute* (30 min)
- 2:30p - Regulatory considerations (claims / standards of identity) – *academic / Kantha Shelke, Corvus Blue* (30 min)
- 3:00p - Discussant Panel – *Moderated by Intro Speaker* (30 min)

3:30p *Afternoon Break (20 min)*

- 3:50p - Industry Case Study: *Grain products / bread* – (10 min)
- 4:00p - Industry Case Study: *Frozen (mixed dish) products* – (10 min)
- 4:10p - Industry Case Study: *Soup* – (10 min)
- 4:20p - Industry Case Study: *Regulatory considerations (claims / standards of identity)* – (10 min)

4:30p Closing Remark: Christine Taylor & Michael Doyle (30 min)

- Highlights and identification of future research needs

5:00p Reception

Subject: RE: The Coca-Cola Company Annual Global Microbiology Technical Meeting- PRESENTERS

Presenters!!

We are getting closer to the BIG EVENT!

I wanted to touch basis with you all to make sure we have everything.

Please see overview below

- Hotel rooms have been blocked
- All guest have been registered
- Virtual connections information have been given out

ACTION REQUIRED: PLEASE Provide : DUE DATE* JULY 17th**

- Presentation
- Permission to send presentation to internal guest.

PLEASE CONTACT ME/ INDAUE MELLO IF YOU HAVE ANY QUESTIONS.

Kenesia Cason

The Coca-Cola Company

Presenters!!

Please see links below to connect to the Global Microbiology Technical Meeting.

Have also attached link below if you have not yet registered. Thank you

Please click on link below to submit your Presentation information.

Register NOW

Collaboration Just Got Easier!

Open Meetings

- Since Open Meetings provides integrated audio, there's no need to have a separate audio conference bridge.
- It is always best to use a computer or smartphone headset to insure best audio quality.
- Are you a first time host or first time participant?..... Visit OpenMeetings.KO.com for training and FAQs.
- Need help? Call the Global Support Center (IT Helpdesk), then select option 3, then option 1

FIRST TIME USERS PLEASE SEE SIMPLE INSTRUCTIONS BELOW.

BROWSER & LINK INSTRUCTIONS

To join the meeting:

Via Computer Browser:

- 1) Click on the link provided. You will be asked to sign in with your name.
- 2) In the browser window, click the "Join Meeting" button. (If this is your first time using the browser option, you will be directed to download a plugin. Install it using the normal Windows dialogue on screen).
- 3) Once installed, click on the link, then the "Join meeting" button in the browser window.
- 4) choose the option to "send and receive audio and video"
- 5) The browser will auto-detect your camera and microphone.

To test your web camera and microphone, users can visit <https://bluejeans.com/111/>

A couple of tips before your Video Call:

- For best Video quality, we recommend having your computer hardwired to the Ethernet port [recommended if video quality is poor using wireless].
- For best audio quality, we recommend using a pair of headphones with a mic [a smartphone headset will work just fine].

-
- NOTE* During Meeting Please MUTE your Laptop Microphone press your mute button.

Open Meetings brings audio & video conferencing together for you!

Joining from a Video Conference Room?

New Open Meeting Room w/ Table Top touchpad

1. Tap Open Meetings
2. Follow prompts

Standard Video Conference Room w/ Handheld Remote

1. Press address book button 
2. Choose Open Meetings contact (KO partners dial 199.48.152.149)
3. Press green call button
4. Wait for voice prompt
5. Enter Meeting ID 2704425232#
6. Press # again

Joining from a Laptop?

With Laptop Headset

1. Click this link..... <https://ko.bluejeans.com/2704425232>
2. Choose Connection method, then click "Join Meeting"
3. You see "Send Video and Audio?"
4. Choose "Send and Receive"
5. Click "Join"

No Laptop Headset

1. Click this link..... <https://ko.bluejeans.com/2704425232>
2. Choose Connection method, then click "Join Meeting"
3. You see "Send Video and Audio?"
4. Choose "Dial-in with Phone and Send Video"
5. Click "Join"
6. Then "Join by phone" below

Joining from a Telephone (Usage Charges Apply):

Global Mobile Auto-Dial

Importance: High

The Coca-Cola Company
Annual Microbiology Technical Meeting

Welcome,

Congratulations!

You have been chosen to present at our 1st Coca-Cola Annual Microbiology Technical Meeting!
Please see our tentative Presenters Schedule.

Presenters Schedule

Date: Tuesday July 21, 2015

Location: 1 Coca-Cola Plaza NW Atlanta GA 30301

Time: 8:30am– 4:15pm

Time	Speaker	Name	From
8:30am	1	Mike Doyle	UGA
9:15am	2	Emilia Rico	BCN
10:00am	Break		
10:30am	3	Martin Cole	CSIRO
11:15am	4	Emilio Esteban	US Dept of Agriculture
12:00pm	Lunch		
1:00pm	5	Robert Brackett	IFSH
1:45pm	6	Timothy Freier	Cargill
2:30pm	Break		
3:00pm	7	Greag Holler	Cargill
3:45pm	Wrap Up		
5:30pm– 7:30pm	Dinner The Optimist 914 Howell Mill Rd, Atlanta, GA 30318		

Travel

Please see a list of Hotels near us.

<http://findhotelsnearthaddress.com/coca-cola-headquarters.htm>

Our Address: 1 Coca-Cola Plaza NW Atlanta GA 30313

Hotel	Address	Distance from Coke
Hampton Inn Atlanta-Georgia Tech-Downtown	244 North Ave Nw, Atlanta, GA 30313	.1 miles
Hyatt House Atlanta Downtown	431 Marietta Street Nw, Atlanta, GA 30313	.5 miles

Crowne Plaza Atlanta - Midtown	590 W Peachtree St Nw, Atlanta, GA 30308	.6 miles
Georgia Tech Hotel and Conference Center	800 Spring St Nw, Atlanta, GA 30308	.6 miles

Biography

Michael P. Doyle

Dr. Michael P. Doyle is a Regents Professor and Director, Center for Food Safety, University of Georgia, Griffin. A native of Madison, Wisconsin, he received his B.S., M.S., and Ph.D. degrees from the University of Wisconsin-Madison in bacteriology/food microbiology. From 1977 to 1980 he was senior project leader of corporate microbiology at Ralston Purina Company, and from 1980 to 1991 he advanced from assistant professor to Wisconsin Distinguished Professor of Food Microbiology, Food Research Institute, University of Wisconsin-Madison. He is an active researcher in the area of food safety and security and works closely with the food industry, government agencies, and consumer groups on issues related to the microbiological safety of foods.

He has published more than 500 scientific papers on food microbiology and food safety topics and has given more than 800 invited presentations at national and international scientific meetings. He serves on food safety committees of many scientific organizations and has served as a scientific advisor to many groups, including the World Health Organization, the Institute of Medicine, the National Academy of Science-National Research Council, the International Life Sciences Institute-North America, the Food and Drug Administration, the U.S. Department of Agriculture, the U.S. Department of Defense, and the U.S. Environmental Protection Agency. He has received several awards for his research accomplishments, including the Nicholas Appert Award of the Institute of Food Technologists. He is a Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, the National Academy of Inventors, and is a member of the Institute of Medicine of the National Academies.

Hi Irfan,

Thank you for this invitation. I would be delighted to participate as a Keynote Speaker and Session Moderator at the 32nd World Veterinary Congress in September 2015. It will be a terrific opportunity to reunite with my many colleagues and friends from Turkey. I look forward to visiting with you then.

All the best.

Sincerely,

Mike

Subject: 32nd World Veterinary Congress - Invitation

Dear Dr. Michael Doyle,

It is our pleasure to inform you that the **32nd World Veterinary Congress** will be organized by the Turkish Veterinary Medical Association (TVHB) between September 13-17, 2015 at the Istanbul Lutfi Kirdar Congress & Exhibition Center, Istanbul, Turkey.

You may find the official invitation letter as attached. It is our great honor to invite you to be a Keynote Speaker and the moderator of the session for the "[Food Hygiene](#)" main topic at WVC 2015. We will be very glad if you kindly accept our invitation and share your expertise with us. We are certain that your contribution is essential for the success of this Congress.

Our official organizing agency, ZED Event Management, will be in touch with you to finalize the arrangements of your trip once you have indicated your acceptance of our invitation. We would appreciate your reply to info@wvcistanbul2015.com by November 15, 2014 at the latest. With your acceptance, we also request a 250 word bio and a professional headshot for inclusion on the Congress website and in printed materials. In addition, we would be delighted if you could soon thereafter inform us about your convenience schedule for the presentation.

Thank you very much for your valuable contribution. We are looking forward to welcoming you to Turkey!

Yours sincerely,

Prof. Dr. Irfan Erol, DVM, Ph.D.
WVC 2015 Chairman

Biography

Michael P. Doyle

Dr. Michael P. Doyle is a Regents Professor and Director, Center for Food Safety, University of Georgia, Griffin. A native of Madison, Wisconsin, he received his B.S., M.S., and Ph.D. degrees from the University of Wisconsin-Madison in bacteriology/food microbiology. From 1977 to 1980 he was senior project leader of corporate microbiology at Ralston Purina Company, and from 1980 to 1991 he advanced from assistant professor to Wisconsin Distinguished Professor of Food Microbiology, Food Research Institute, University of Wisconsin-Madison. He is an active researcher in the area of food safety and works closely with the food industry, government agencies, and consumer groups on issues related to the microbiological safety of foods.

He has published more than 500 scientific papers on food microbiology and food safety topics and has given more than 800 invited presentations at national and international scientific meetings. He serves on food safety committees of many scientific organizations and has served as a scientific advisor to many groups, including the World Health Organization, the Institute of Medicine, the National Academy of Science-National Research Council, the International Life Sciences Institute, the Food and Drug Administration, the U.S. Department of Agriculture, the U.S. Department of Defense, and the U.S. Environmental Protection Agency. He is a Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, the National Academy of Inventors, and is a member of the Institute of Medicine of the National Academies.

Hi Suzie,

Unfortunately, I am already committed for those dates so am not available. You might consider inviting Don Schaffner at Rutgers (e-mail: schaffner@AESOP.Rutgers.edu); Anna Lammerding (retired but formerly with Public Health Agency of Canada; e-mail: [REDACTED]); Tom Ross at the University of Tasmania (e-mail: Tom.Ross@utas.edu.au); Ewen Todd at Michigan State University (e-mail: todde@msu.edu); Aamir Fazil at Public Health Agency of Canada, Guelph (e-mail: aamir.fazil@phac-aspc.gc.ca); or Rafiq Ahmed at Public Health Agency of Canada, Winnipeg (e-mail: rafiq_ahmed@phac-aspc.gc.ca).

I hope this helps. If not, let me know.

Michael P. Doyle, Ph.D.

Subject: Asking for ideas

Good morning, Mike. I hope you are doing well.

I am writing to ask for suggestions of a food micro risk assessment expert who may be willing to go to Namibia to take part in an ILSI/FAO capacity building activity there in June. This training meeting will take place in Windhoek, Namibia on June 9-12, 2015. Individuals involved in food control work for the neighboring countries (2 per country) will be invited to participate. The microbiological risk assessment course work was prepared by WHO and FAO, but has not been offered in this part of the world.

Prof. Lucia Anelich, copied on this message, is the ILSI person in charge and she is eager to find someone from outside of the region who would be able to help lead the 3.5 day trainings session. There will be plenary sessions as well as discussion of case studies in small working groups.

She would like to have a US or Canadian government person, but such is likely to be difficult to find given the short lead time. ILSI will cover all travel expenses and living expenses while in Namibia. Do you have any suggestions of individuals with microbial risk assessment expertise who might be interested in participating?

Lucia has already contacted Bob Buchanan and he is not available. Any suggestions you have will be greatly appreciated.

Best regards,

Suzie

Dear Mike,

I spoke to our adman and she has not received confirmation that you will be speaking at the Coca-Cola global microbiology meeting on July 21.

Could you please confirm with me the following:

- 1) You will be presenting at the meeting
- 2) If you will join us for dinner
- 3) If you already emailed your CV to us

Below is the agenda for the day. Please let me know if you have any additional questions.

I look forward to seeing you in a few weeks.

Best regards,

Indaue

CURRICULUM VITAE

NAME: Michael Patrick Doyle **TELEPHONE:** 770-228-7284
FAX: 770-229-3216
E-mail:mdoyle@uga.edu

DEGREES:

1973	B.S.	University of Wisconsin-Madison	Bacteriology
1975	M.S.	University of Wisconsin-Madison	Food Microbiology
1977	Ph.D.	University of Wisconsin-Madison	Food Microbiology

PROFESSIONAL EXPERIENCE:

1977-1980	Senior Project Leader, Corporate Research, Ralston Purina Company
1980-1984	Assistant Professor, Department of Food Microbiology and Toxicology (Food Research Institute), University of Wisconsin-Madison
1984-1988	Associate Professor, Department of Food Microbiology and Toxicology, University of Wisconsin-Madison
1988-1991	Professor and Wisconsin Distinguished Professor of Food Microbiology, Department of Food Microbiology and Toxicology, Department of Food Science, University of Wisconsin-Madison
1991-1999	Department Head, Department of Food Science and Technology, University of Georgia, Agricultural Experiment Station, Griffin, GA
1993-1999	Department Head, Department of Food Science and Technology, University of Georgia, Athens, GA
1993-2000	Director, Center for Food Safety and Quality Enhancement, University Georgia, Griffin, GA
1997-	Regents Professor of Food Microbiology, University of Georgia
2000-	Director, Center for Food Safety, University of Georgia, Griffin, GA

PROFESSIONAL SOCIETIES:

Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, and the National Academy of Inventors and serves as a scientific advisor to the National Academies. Member of the National Academy of Medicine.

AWARDS/SPECIAL RECOGNITION:

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986
3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987
5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food and

- Environmental Sanitarians, 1993
10. James H. Nakano Citation, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994
11. P. R. Edwards Award, Southeastern Branch of the American Society for Microbiology, 1994
12. Nicholas Appert Award, Institute of Food Technologists (for outstanding contributions to the field of Food Science), 1996
13. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997.
14. Silver Plow Honor Award for Exceptional Service, U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998
15. Inaugural Fellow, International Association of Milk, Food and Environmental Sanitarians, 1998
16. Fellow, Institute of Food Technologists, 1999
17. Food Safety Award, National Food Processors Association AND International Association for Food Protection, 1999
18. Honorary Member, Association Internationale Nicolas Appert, for outstanding contributions to food science and technology, 1999
19. Julius Bauermann Lectureship, Philadelphia Section of Institute of Food Technologists, 2000
20. Centers for Disease Control and Prevention Partners in Public Health Honor Award, 2001
21. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
22. Institute of Scientific Information, Highly Cited Researchers in Agricultural Sciences (Top 100 researchers cited), 2002
23. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
24. Fellow, World Innovation Foundation, 2003
25. Elected Member, Institute of Medicine of the National Academies, 2003
26. National Associate, National Academy of Sciences, 2003
27. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
28. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
29. American Meat Institute Foundation's Scientific Achievement Award, 2004
30. U.S. Food and Drug Administration Commissioner's Special Citation, 2006
31. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
32. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
33. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
34. Fellow, American Association for the Advancement of Science (AAAS), 2011
35. Distinguished Agriscience Scientist Award, Christopher Columbus Fellowship Foundation, 2013
36. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food Safety, 2013
37. Fellow, National Academy of Inventors, 2013
38. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate," by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)

EXAMPLES OF PROFESSIONAL ACTIVITIES:

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, World Health Organization, Moscow, USSR, 1984
 Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva,

Switzerland, 1988
 Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988
 Scientific Advisor, International Life Sciences Institute - Nutrition Foundation, Food Microbiology Committee, 1987-1996
 Scientific Advisor, National Dairy Promotion and Research Board, 1989-1993
 Scientific Advisor, National Live Stock and Meat Board, 1990-1996
 Executive Committee, Conference for Food Protection, 1985-1986
 IFT Scientific Lecturer, Institute of Food Technologists, 1987, 1990
 ASM Scientific Lecturer, American Society for Microbiology, 1991-1993
 Member, National Advisory Committee on Microbiological Criteria for Food, 1988-1990; 1994-2000
 Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987
 Board of Trustees, International Life Sciences Institute-North America, 1992-present
 Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-1997; 2005-2009
 Executive Board, International Association of Milk, Food and Environmental Sanitarians, 1989-94; President, 1992-93
 Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, 1997-2002
 Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003
 Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998
 Member, U. S. Food and Drug Administration Science Board (advise FDA science programs), 1999-2004; Chairman, 2003-2004
 Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002
 Member, U. S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000
 Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards of Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001
 Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture *E. coli* Farm-to-Table Process Risk Assessment, 2001-2002.
 Scientific Editor, Kluwer Academic/Plenum Publishers, Series on Food Safety and Food Microbiology, 2002-present
 Member, Partnership of Food Safety Education Advisory Board, 2002-2005
 Member, American Academy of Microbiology, Committee on Election to Membership, 2002-2007
 Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008
 Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012
 Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012
 Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009
 Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012
 Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012
 Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004
 Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005
 Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012
 Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology

Workshop: An Exchange of Ideas and Experiences, 2007
 Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009
 Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-present
 Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008
 National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007
 Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011
 Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-present
 Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011
 Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009
 Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009
 Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009
 Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2012
 Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2011; Chair, 2012-2014
 Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014
 Member, International Life Sciences Institute Board of Trustees, 2014-
 Member, CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017
 Chair, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC, 2014-2015

Doyle has more than 320 refereed journal articles, 17 books, 66 book chapters, 86 invited papers/conference proceedings, 30 patents, and more than 800 invited presentations at national and international professional meetings. He is an active researcher in the area of foodborne bacterial pathogens and works closely with the food industry on issues related to the microbiological safety of foods. His research has focused on the study of microbial pathogenicity, the development of methods for pathogen detection, and the identification of means to control or eliminate pathogens in foods.

Subject: Follow up on ILSI PHO Report

I just received a message for Eric Hentges that his Executive Committee met today and agreed to provide the PHO report to Exponent under a confidentiality agreement. The report will be made available after it has been shared with the ILSI PHO Task Force and the FDA. The report is expected to go to FDA on March 4, and Exponent will receive it immediately thereafter. I want to thank you for the support you provided in this situation. Your input helped to facilitate a quick response and a good outcome. Regards, Leon

Subject: Urgent Request related to ILSI Analysis of low dose effects of PHO/TFA on LDL-Cholesterol
Importance: High

The GMA team working the development of the Food Additive Petition needs your help/support in finding a way to gain access to the results of a study ILSI is concluding on the relationship between low level human consumption of PHO/TFA and serum LDL-Cholesterol (LDL-C) so that the results can be used in the development of the Food Additive Petition (FAP) we will submit this coming May.

The background to this situation is as follows: Last summer ILSI commissioned a study to conduct a meta-analysis of the relationship between dietary consumption of PHO and serum LDL Cholesterol (LDL-C). The study is completed and ILSI plan to submit a report of the results to FDA next Monday, March 2. We understand the results of this study challenge FDA and CDC's assertion that the PHO/LDL-C dose response is linear and are supportive of the identification of a safe consumption level. These results will therefore be of great importance in the development of the PHO FAP.

ILSI are not willing to share the study report with us until after the results are published in the peer-reviewed scientific literature unless they receive an approval from ILSI Executive Board to do so. If ILSI do not share the results of this study we will not have the data needed to prepare an FAP supporting FDA approval for low level uses of PHO. We would like to have the results as soon as possible to maximize the time available for development of the FAP.

Here is where we need your help: Under the assumption that you support our need to have access to the full study report for development of the FAP we need you to take the following action: We would appreciate your reaching out to your ILSI Board Member/primary ILSI contact and to Erik Hentges (phone: +1 (202) 659-0074 ex 196; email: ehentges@ilsi.org<<mailto:ehentges@ilsi.org>>) asking that ILSI release the data for use in the development of the industry coalition-led preparation of the PHO FAP. We would like to have the report on the same day it is shared with FDA, March 2, 2015. We need you to reach out to your board member and/or Erik as soon as possible

Finally, if it is necessary, we are willing to make arrangements for the report to be shared with Exponent through an independent 3rd party intermediary so that only Exponent staff have access to the results. We would use the same protocol we followed to collect data for the exposure assessment Exponent is now completing. We can also establish confidentiality agreements if needed.

Thank you for your help with this. Please let us know if you have questions.

Regards,

Leon

Subject: ILSI North America Conflict of Interest and Scientific Integrity Working Group Meeting 30 April

Hello Mike,

I wanted to get in touch with you regarding the upcoming 30 April in-person meeting of the ILSI North America Conflict of Interest and Scientific Integrity Working Group. If you are planning to attend the meeting in-person, as a scientific advisor to the Working Group, ILSI North America will cover your travel to the meeting.

Please contact ILSI North America's travel agent Michael Kerr at Michael.Kerr@corporatetraveler.us to book your flight to Washington, DC. Once you have booked your flight, I will make your hotel reservation for you. ILSI North America will cover up to two nights hotel accommodation.

As the meeting is coming up in just a few short weeks, I encourage you to plan your travel as soon as possible if you have not already done so. If you have already booked your travel, ILSI North America will reimburse you for your costs. Please let me know if you have any questions.

Best,
Delia

Subject: ILSI North America Invitation to Present at "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act"

26 June 2015

Michael P. Doyle, Ph.D.
Regents Professor and Director
Center for Food Safety
University of Georgia
1109 Experiment Street
Griffin, GA 30223-1797

Dear Dr. Doyle,

Extensive debate continues on how to lower the sodium intakes of the population. However, the neglected part of the current sodium dialogue is the myriad of functions that sodium has in the food supply. Sodium reduction is not a matter as simple as removing salt from food. Sodium plays a critical role in food safety and preservation by decreasing water activity and reducing growth of

pathogens, food spoilage organisms, and unwanted chemical reactions, among other functions.

Given the need for a coordinated cross-disciplinary dialogue regarding sodium reduction, the ILSI North America Technical Committees on Sodium and Food Microbiology will jointly convene a one-day workshop on Tuesday, 22 September at the Washington Plaza Hotel in Washington, DC to critically examine these functions and the unintended consequences of decreasing sodium on food safety. This workshop will broaden the dialogue and present what we have learned in the last 5 years since the release of the Institute of Medicine's *Strategies to Reduce Sodium Intake in the United States* Report about the functional challenges with sodium reduction. Participants at the workshop will include public health professionals, microbiologists, food scientists, and nutritionists from government, academia, and industry.

We would like to extend an invitation to you to co-moderate the "The Science of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act" workshop along with Dr. Christine Taylor, NIH ODS.

To the extent permitted by your institution, ILSI North America will pay roundtrip coach or economy class airline travel expenses, two nights lodging at the Washington Plaza Hotel, meals, and ground transportation associated with attending this workshop. A speaker dinner will be held the night before the workshop, Monday, 21 September.

ILSI North America is a non-profit scientific foundation that advances the understanding and application of science related to the nutritional quality and safety of the food supply. The ILSI North America Technical Committee on Sodium works to compile and disseminate state-of-the-science information on sodium consumption and its health outcomes. The ILSI North America Technical Committee on Food Microbiology is committed to proactively improving the understanding and control of microbial food safety hazards to enable scientifically informed decision-making. This is achieved through the support of sound science, sponsorship of breakthrough research, and fostering collaboration among academia, government, and industry.

We hope that you will be able to attend and co-moderate the workshop. **Please RSVP to Delia Murphy at dmurphy@ilsi.org by Friday, 24 July whether or not you plan to attend.** If you are able to accept, Delia will work with you to make your travel and hotel arrangements.

The workshop is by invitation only. If you have recommendations for individuals to invite to the workshop, please send them to Delia Murphy at dmurphy@ilsi.org.

Thank you in advance for your consideration.

Kind regards,

Subject: ILSI North America Project Committee on Food Value Decisions

TO: ILSI North America Project Committee on Food Value Decisions
RE: Committee Update

Although this committee work has officially ended, it is important for members to be aware of how the Food Value Analysis application continues to generate attention.

Dr. George Davis, Virginia Tech

Last year, ILSI North America granted Dr. Davis access to the Food Value Analysis database, allowing him to further research analyzing the interaction between money price, time price, and nutrition quality. This work titled “Beyond the Sticker Price: Including and Excluding Time in Comparing Food Prices” has been accepted by the American Journal of Clinical Nutrition. The manuscript further highlights that food consumption decisions are based on “full prices”, not just money prices. This publication is available with open access, it is attached and can also be downloaded here<<http://www.ilsi.org/NorthAmerica/Pages/ViewItemDetails.aspx?PID=256&ListName=Publications>>.

Scientific Report of the 2015 Dietary Guidelines Advisory Committee

ILSI North America submitted comments to the US Department of Agriculture and the US Department of Health and Human Services on the 2015 Dietary Guidelines Advisory Committee Report. These comments once again highlighted the importance for nutrition recommendations and the policies surrounding recommendations to consider all the challenges that face individuals and families when it comes selecting foods and meeting dietary

recommendations. The comments are attached and are also available on our website<<http://www.ilsa.org/NorthAmerica/Pages/ILSI-North-America-Public-Comments-.aspx>>. Pages 2-4 of the comments are specific to the work of the Food Value Decisions Committee.

USDA NIFA Cooperative Extension group

Following the Food Value Analysis Feasibility Workshop held 4 February 2015, USDA NIFA has led a group of individuals within the Cooperative Extension community to develop materials communicating key messages based on learnings from the Food Value Analysis application and a series of case studies that will be distributed to university programs interested in adopting the tool. The objective is for these case studies to be published prior to the publication of the 2015 Dietary Guidelines for Americans. The group has held one meeting thus far and has developed a logic model outlining how to assist individuals in delivering a nourishing meal to the table within the factors evaluated by the Food Value Analysis application. The group will be holding its second call in the near future and ILSI North America has been invited to participate.

Please let me know if you would like further information.

Re: Draft Plan of Work

Please find attached the draft plan of work for the ILSI North America Scientific Integrity Working Group which reflects the discussion at the 30 April meeting of the Working Group. Also attached is the Compilation of Scientific Integrity Work by Various Organizations and in the Current Literature presented at the meeting and referenced in the plan of work.

Please read the document and provide comments or edits to the draft by COB Friday, 12 June. The revised document will then be re-distributed to the Working Group for final approval.

The draft plan of work will be shared with the ILSI North America Board of Trustees' Executive Committee on a conference call on 2 June. It will be clearly stated that this current version is a draft and has not been finalized by the Working Group.

The meeting minutes from the 30 April meeting are nearing completion and will be distributed to the Working Group as soon as possible.

Please let Alison and I know if you have any questions.

Mike,

We are so pleased that you will be able to serve as a co-moderator for the sodium workshop on 22 September in Washington, DC. A formal invitation will be sent to you this week. We are finalizing

the list of speakers and we would welcome your recommendations for an academic or government speaker to cover several topics which are all highlighted in the attached agenda.

Given the timeframe, there is urgency in this request. If you have any other thoughts on other potential speakers, please chime in.

Thank you,
Alison

Hello Mike,

Shortly, I will be sending you a survey monkey for a conference call with the planning committee of the ILSI North America workshop, The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act. Chris Taylor will be invited to the call as well as your co-moderator. She is also the government liaison for the Sodium Committee so she has participated on a previous planning call and I did not want to leave you out!

Please do not feel obligated to join the planning committee call if you are not able to do so. We will hold a call with both you and Chris as well as the rest of the speakers in early September before the workshop so you can wait until then to participate if you would like. On this planning committee call I am surveying for, we will be discussing the speaker list, finalizing the attendee list before invitations are sent, and discussing the science writer and plans for publication. If you cannot attend but would like to share your input, I can also send you the most up to date version of the agenda and the attendee list.

Thanks,
Delia

Subject: ILSI North America Workshop: The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act

Hello Mike,

We are hitting a wall trying to find a speaker for the "Introduction: Salt and Sodium Preservatives for Microbiological Stability" talk for The Safety of Sodium Reduction in the Food Supply: A Cross Discipline Balancing Act workshop. We originally invited Dr. Jeff Sindelar, University of Wisconsin-Madison, who would like to speak but is only comfortable talking about meat and poultry. We then invited Dr. Bill Sperber, per your recommendation, but he is unable to participate. Dr. Sperber suggested Dr. Guy Johnson, Johnson Nutrition Solutions but Dr. Johnson is a nutritionist and not comfortable addressing this topic. Alison and I have discussed it and we feel that you are the best individual to speak on this topic. We had originally wanted to invite you to give this talk but tapped you to be a co-moderator because of your broad expertise in this field.

You really are the best person to give this talk so would you be willing to still co-moderate and give this presentation? You would also lead the morning discussant panel.

Thanks,

Delia

Good morning Professor Doyle,

The President-Elect SSAOAC has informed me that SSAOAC can have a room reserved for you (for one night, April 13th 2015), if you plan to come the night before. Please let me know, if you would like to have the complimentary accommodation.

On behalf of the Program Committee of Southern Section of AOAC INTERNATIONAL 29th Annual Meeting, I would like to inform you that the Registration for all of the Speakers is complimentary. Please also be reminded that the registration is also free for the Students/Post docs (they need to contact me through e-mail and bring the current official ID to the meeting venue), please let me know if you want some of your student(s) to attend this meeting.

Please register at the following link and choose the “**staff registration**” for the meeting:

<http://www.eventbrite.com/e/southern-section-of-aoac-international-29th-annual-meeting-tickets-12722803247>

I am also enclosing the link for directions of the Meeting Venue: Doubletree Hotel Buckhead located at 3342 Peachtree Road NE, Atlanta, Georgia:

<http://doubletree3.hilton.com/en/hotels/georgia/doubletree-by-hilton-hotel-atlanta-buckhead-ATLBHDT/maps-directions/index.html>

Should you have any more questions or concerns, please let me know.

Best regards.

Brief Biography

Michael P. Doyle

Dr. Michael P. Doyle is a Regents Professor of Food Microbiology and Director of the Center for Food Safety at the University of Georgia. He is an active researcher in the area of food safety and security and works closely with the food industry, government agencies, and consumer groups on issues related to the microbiological safety of foods. He serves on food safety committees of many scientific organizations and has served as a scientific advisor to many groups, including the World Health Organization, the Institute of Medicine, the National Academy of Science-National Research Council, the International Life Sciences Institute-North America, the Food and Drug Administration, the U.S. Department of Agriculture, the U.S. Department of Defense, and the U.S. Environmental Protection Agency. He is a Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the International Association for Food Protection and the Institute of Food Technologists, and is a member of the National Academies Institute of Medicine.

On Feb 4, 2015, at 9:04 AM, Heather Steele <hsteele@ilsil.org> wrote:

To interested ILSI North America members and advisors:

Thank you for your interest in a new ILSI North America initiative on microbiota & health. Many of you participated on a series of emerging issue conference calls last year, or were a member of the former project committee on gut microbes & health. A summary of the most recent conference call in late October is attached. On that call, a decision was made to hold an in-person meeting in Washington DC in early 2015. Please click on the link below to indicate your availability to attend a meeting at the ILSI offices in March or April.

<https://www.surveymonkey.com/s/YY77L7X>

The meeting will be organized as a mini-workshop/seminar in the morning and invitees may include scientists from NIH, USDA, FDA and Health Canada, providing an opportunity to discuss research priorities and opportunities. In the afternoon, ILSI North America members and advisors will continue the meeting to ascertain interest in re-forming the project committee or proceeding as a task force. There are funds, held in reserve, which could help start new activity in this area. Attendees will strive to:

- <!--[if !supportLists]-->• <!--[endif]-->Prioritize 2 to 3 key research questions of interest
- <!--[if !supportLists]-->• <!--[endif]-->Agree on end points to achieve
- <!--[if !supportLists]-->• <!--[endif]-->Identify collaborative partners (including other ILSI branches)
- <!--[if !supportLists]-->• <!--[endif]-->Define action steps and proposed time lines

Areas of interest discussed on the 2014 conference calls include:

- <!--[if !supportLists]-->- <!--[endif]-->Nutrient and diet pattern impact on microbiome ecology, functionality and performance, and vice versa?
- <!--[if !supportLists]-->- <!--[endif]-->Food product, ingredients/biologics supplement impact on microbiome and health?

<!--[if !supportLists]-->- <!--[endif]--
>Methodologies/approaches/technologies challenges and advances.
<!--[if !supportLists]-->- <!--[endif]-->Scientific evidence needed to
support performance claims.

I have included below a brief background on recent ILSI North America activities related to microbiota and health. Please contact me at ILSI North America with any questions. I hope you can attend our spring workshop/meeting.

Heather

Brief background on ILSI North America activities related to Microbiota & Health

ILSI North America previously had a project committee on Gut Microbes and Health. First formed in 2009, the committee's mission was to further explore the relationship between gut microbes and health, and how dietary factors affect the microbiome. The committee disbanded in 2012, after convening a successful consensus-style workshop on defining a healthy GI microbiome in late 2011. A resulting paper was published in *Cell Host & Microbe* in 2012. In addition, a 2012 Annual Meeting scientific session was organized on the "Human Gut Microbiome."

Microbiota and Health was identified as a re-emerging issue for 2014. The issue was discussed at the ILSI North America Assembly of Members/FNSP meeting in January 2014 and many signed up to indicate interest in the topic. Several conference calls were held in 2014 to discuss the scientific issues related to this area, including new research and recent developments in the field, as well as possible next steps.

ILSI North America addressed this issue in several ways. One of our featured speakers at the 2014 ILSI North America Mid-Year FNSP meeting was Gary Wu, PhD, University of Pennsylvania, who spoke on "Diet, Microbiota and Intervention." In addition, an ILSI North America scientific session at last month's 2015 ILSI Annual Meeting focused on the microbiome and was titled "I am the Microbiome: It's the Microbio + Me."

Next steps: re-form as a project committee or move forward as a task force (limited activity and lifespan).

FROM: Suzie Harris

Greetings to each of you. 2015 is off and running. I hope you are keeping up with all the various ILSI activities through the ILSI website and ILSI News.

It is time to set the date for the Board's mid-year conference call – a two-hour call that will begin at 9:00 a.m. Eastern Daylight Time. Please use the attached calendar to indicate the days in July when you are available to participate. The days marked with "X" are days when there are conflicts for that time slot. The call will not be held on these days.

Once you have marked your availability on the calendar, please return it to me. I will then send out another email confirming the date.

Please let me know if you have any questions.

10. James H. Nakano Citation, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994
11. P. R. Edwards Award, Southeastern Branch of the American Society for Microbiology, 1994
12. Nicholas Appert Award, Institute of Food Technologists (for outstanding contributions to the field of Food Science), 1996
13. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997.
14. Silver Plow Honor Award for Exceptional Service, U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998
15. Inaugural Fellow, International Association of Milk, Food and Environmental Sanitarians, 1998
16. Fellow, Institute of Food Technologists, 1999
17. Food Safety Award, National Food Processors Association AND International Association for Food Protection, 1999
18. Honorary Member, Association Internationale Nicolas Appert, for outstanding contributions to food science and technology, 1999
19. Julius Bauermann Lectureship, Philadelphia Section of Institute of Food Technologists, 2000
20. Centers for Disease Control and Prevention Partners in Public Health Honor Award, 2001
21. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
22. Institute of Scientific Information, Highly Cited Researchers in Agricultural Sciences (Top 100 researchers cited), 2002
23. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
24. Fellow, World Innovation Foundation, 2003
25. Elected Member, Institute of Medicine of the National Academies, 2003
26. National Associate, National Academy of Sciences, 2003
27. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
28. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
29. American Meat Institute Foundation's Scientific Achievement Award, 2004
30. U.S. Food and Drug Administration Commissioner's Special Citation, 2006
31. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
32. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
33. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
34. Fellow, American Association for the Advancement of Science (AAAS), 2011
35. Distinguished Agriscience Scientist Award, Christopher Columbus Fellowship Foundation, 2013
36. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food Safety, 2013

37. Fellow, National Academy of Inventors, 2013
38. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate," by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)

EXAMPLES OF PROFESSIONAL ACTIVITIES:

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva, Switzerland, 1988

Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988

Scientific Advisor, International Life Sciences Institute - Nutrition Foundation, Food Microbiology Committee, 1987-1996

Scientific Advisor, National Dairy Promotion and Research Board, 1989-1993

Scientific Advisor, National Live Stock and Meat Board, 1990-1996

Executive Committee, Conference for Food Protection, 1985-1986

IFT Scientific Lecturer, Institute of Food Technologists, 1987, 1990

ASM Scientific Lecturer, American Society for Microbiology, 1991-1993

Member, National Advisory Committee on Microbiological Criteria for Food, 1988-1990; 1994-2000

Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987

Board of Trustees, International Life Sciences Institute-North America, 1992-present

Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-1997; 2005-2009

Executive Board, International Association of Milk, Food and Environmental Sanitarians, 1989-94; President, 1992-93

Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, 1997-2002

Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003

Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998

Member, U. S. Food and Drug Administration Science Board (advise FDA science programs), 1999-2004; Chairman, 2003-2004

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002

Member, U. S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000

Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards of Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture *E. coli* Farm-to-Table Process Risk Assessment, 2001-2002.

Scientific Editor, Kluwer Academic/Plenum Publishers, Series on Food Safety and Food

Microbiology, 2002-present

Member, Partnership of Food Safety Education Advisory Board, 2002-2005

Member, American Academy of Microbiology, Committee on Election to Membership, 2002-2007

Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008

Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012

Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009

Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-present

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-present

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2012

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2011; Chair, 2012-2014

Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014

Member, International Life Sciences Institute Board of Trustees, 2014-

Member, CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017

Chair, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC, 2014-2015

Doyle has more than 315 refereed journal articles, 16 books, 66 book chapters, 86 invited papers/conference proceedings, 30 patents, and more than 800 invited presentations at national and international professional meetings. He is an active researcher in the area of foodborne bacterial pathogens and works closely with the food industry on issues related to the microbiological safety of foods. His research has focused on the study of microbial pathogenicity, the development of methods for pathogen detection, and the identification of means to control or eliminate pathogens in foods.

RESEARCH SUPPORT
2004 - present

General Mills, Gift, Center for Food Safety Research, April 2015-April 2016, \$25,000.00 (PI)

The Cheesecake Factory, Gift, Center for Food Safety Research, April 2015-April 2016, \$5,000 (PI)

Burger King Corp., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Roka Bioscience, Inc., Gift, Center for Food Safety Research, March 2015-March 2016, 5,000 (PI)

Wegmans Food Markets, Inc., Center for Food Safety Research, December 2014-December 2015, \$5,000(PI)

Chobani, Gift, Center for Food Safety Research, March 2015-March 2015-March 2016, \$20,000 (PI)

Avendra LLC, Gift, Center for Food Safety Research, February 2015-February 2016, \$2,500 (PI)

Golden State Foods, Gift, Center for Food Safety Research, January 2015-January 2016, \$5,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Solae LLC (DuPont), Gift, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kellogg's, Center for Food Safety Research, January 2015-January 2016, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Kraft Foods, Inc., Center for Food Safety Research, January 2015-January 2016, \$25,000 (PI)

Cargill, Inc., Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Fresh Express, Center for Food Safety Research, December 2014-December 2015, \$5000 (PI)

Unilever , Center for Food Safety Research, December 2014-December 2015, \$20,000 (PI)

Loblaw Companies, Ltd., Gift, Center for Food Safety Research, November 2014-November 2015, \$20,000 (PI)

Unilever, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI)

Jack in the Box, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

Michael Foods, Center for Food Safety Research, October 2014-October 2015, \$5,000 (PI).

BCN Research Laboratories, Center for Food Safety Research, September 2014-September 2015, \$1,000 (PI)

Perdue Farms Inc., Center for Food Safety Research, August 2014-August 2015, \$5,000 (PI)

Mars, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Nestlé, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

McDonald's, Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Yum! Brands, Inc., Center for Food Safety Research, August 2014-August 2015, \$20,000 (PI)

Starbuck's Coffee Company, Center for Food Safety Research, June 2014-June 2015, \$20,000 (PI)

Kroger, Center for Food Safety Research, June 2014-June 2015, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

American Meat Institute, Center for Food Safety Research May 2014-May 2015, \$1,000 (PI)

Earthbound Farm, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

ConAgra Foods, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

MOM Brands, Center for Food Safety Research, May 2014-May 2015, \$5,000 (PI)

American Meat Institute, Center for Food Safety Research, May 2014-May 2015, \$1,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Chobani, LLC, Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, May 2014-May 2015, \$20,000 (PI)

Ecolab, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

PepsiCo, Inc., Center for Food Safety Research, Tsunami: Biocide efficacy in potato process water study. April 2014. \$6,875 (PI)

Publix Super Markets, Inc., Center for Food Safety Research, April 2014-April 2015, \$20,000 (PI)

The Hershey Co., Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Cheesecake Factory, Center for Food Safety Research, April 2014-April 2015, \$5,000 (PI)

The Coca-Cola Co., Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Roka Biosciences, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

Costco, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Unilever United States, Inc., Center for Food Safety Research, March 2014-March 2015, \$10,000 (PI)

Chobani, LLC, Center for Food Safety Research, March 2014-March 2015, \$2,500 (PI)

Hillshire Brands, Center for Food Safety Research, March 2014-March 2015, \$5,000 (PI)

General Mills, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Burger King Corp., Center for Food Safety Research, February 2014-February 2015, \$5,525 (PI)

Kraft Foods, Center for Food Safety Research, February 2014-February 2015, \$20,000 (PI)

Douglas Scientific, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

East Balt US, LLC, Center for Food Safety Research, February 2014-February 2015, \$5,000, (PI)

Georgia Agricultural Commodity Commission for Vegetables (GACCV), “Evaluation of post-harvest treatments of cantaloupes with levulinic acid and sodium dodecyl sulfate sanitizer for protection against contamination of *Salmonella* spp,” Center for Food Safety Research, January 1-December 31, 2014, \$20,000 (PI)

Unilever United States, Inc., Center for Food Safety Research, January 2014-January 2015, 1st \$5,000 or \$20,000 (PI)

Heinz North America, Center for Food Safety Research, January 2014-January 2015, \$20,000 (PI)

Dr Pepper Snapple Group, Center for Food Safety Research, December 2013-December 2014, \$20,000 (PI)

Golden State Foods , Center for Food Safety Research, December 2013-December 2014, \$5,000, (PI)

Wegmans Food Markets, Inc. , Center for Food Safety Research, December 2013-December 2014, \$5,000 (PI)

PepsiCo, Center for Food Safety Research, December 07, 2014, Phase 1 of Biocide Project \$2,687.50

PepsiCo, Center for Food Safety Research, December 29, 2014 , Biocide Project \$4,187.50

Kellogg’s, Center for Food Safety Research, December 2013-December 2014, \$2,500 (PI)

Hormel Foods, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

General Mills, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

ConAgra Foods, Center for Food Safety Research, November 2013-November 2014, \$20,000 (PI)

McDonald's, Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

PepsiCo, Inc., Center for Food Safety Research, November 2013-November 2014, \$2,500 (PI)

Campbell Soup Co., Center for Food Safety Research, October 2013-October 2014, \$1,000 (PI)

Cargill, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Michael Foods, Center for Food Safety Research, October 2013-October 2014, \$5,000 (PI)

Mead Johnson Nutrition, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Wegmans Food Markets, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Fresh Express, Inc., Center for Food Safety research, October 2013-October 2014, \$5,000 (PI)

YUM Brands, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Publix Supermarkets, Inc., Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Publix Super Markets, Inc., VolNet, November, 2014 . \$1,500.00

Earthbound Farm, Center for Food Safety Research, October 2013-October 2014, \$2,500 (PI)

Kellogg's, Gift, Center for Food Safety Research, October 2013-October 2014, \$20,000 (PI)

ConAgra Foods, Gift, Center for Food Safety Research, August 2013-August 2014, \$9,892.

Earthbound Farm, Gift, Center for Food Safety Research, August 2013-August 2014, \$9,892

McDonald's, Gift, Center for Food Safety Research, August 2013-August 2014, \$20,000 (PI)

Loblaw Brands Ltd., Gift, Center for Food Safety Research, August 2013-August 2014, \$20,000 (PI)

BCN Laboratories, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$1,000 (PI)

Schreiber Foods, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$5,000 (PI)

Campbell Soup Co., Gift, Center for Food Safety Research, July 2013-July 2014, \$20,000 (PI)

YUM! Brands, Gift, Center for Food Safety Research, July 2013-July 2014, \$20,000 (PI)

Publix Super Markets, Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

YUM! Brands, Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

Cargill, Inc., Gift, Center for Food Safety Research, July 2013-July 2014, \$9,892 (PI).

ConAgra Foods, Gift, Center for Food Safety Research, June 2013-June 2014, \$9,892 (PI).

Kroger, Gift, Center for Food Safety Research, June 2013-June 2014, \$5,000 (PI).

American Meat Institute, Gift, Center for Food Safety Research, June 2013-June 2014, \$1,000 (PI)

Starbucks Coffee Co., Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

Earthbound Farm, Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

Cargill, Inc., Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

Neogen Corp, Gift, Center for Food Safety Research, June 2013-June 2014, \$5,000 (PI)

PepsiCo, Gift, Center for Food Safety Research, June 2013-June 2014, \$20,000 (PI)

The Hershey Co., Gift, Center for Food Safety Research, May 2013-May 2014, \$5,000 (PI)

Mead Johnson Nutritionals, Gift, Center for Food Safety Research, May 2013-May 2014, \$20,000 (PI)

Hormel Foods Corporation, Gift, Center for Food Safety Research, May 2013-May 2014, \$20,000 (PI)

The Coca-Cola Company, Gift, Center for Food Safety Research, April 2013-April 2014, \$20,000 (PI)

Chick-fil-A, Inc., Gift, Center for Food Safety Research, May 2013-May 2014, \$5,000 (PI)

Burger King, Gift, Center for Food Safety Research, April 2013-April 2014, \$5,000 (PI)

Mars, Gift, Center for Food Safety Research, April 2013-April 2014, \$20,000 (PI)

Roka Bioscience, Inc., Gift, Center for Food Safety Research, April 2013-April 2014, \$5,000 (PI)

Burger King Corp., Gift, Center for Food Safety Research, February 2012-February 2013, \$5,000

Perdue Farms, Inc., Gift, Center for Food Safety Research, February 2012-February 2013, \$1,000

Golden State Foods, Gift, Center for Food Safety Research, February 2012-February 2013, \$5,000

PepsiCo, Gift, Center for Food Safety Research, December 2011 -- December 2012, \$20,000

Wegmans Food Markets, Gift, Center for Food Safety Research, December 2011-- December 2012, \$5,000 (PI)

General Mills, Gift, Center for Food Safety Research, October 2011 – October 2012, \$20,000 (PI)

U.S. Department of Agriculture - Foreign Agricultural Service, Emerging Markets Program, Grant, *Salmonella* concentrations, serotypes and distribution on raw poultry in five emerging market countries, April 2011 - March 2012, \$275,000 (Co-PI).

U.S. Department of Agriculture - AFRI, Grant, "Advanced processing technologies as multiple hurdles to inactivate Shiga toxin-producing *Escherichia coli* (STEC) and viruses during beef processing and on further processed non-intact beef products," January 2011 - December 2016, \$4,998,608 (Co-PI).

American Meat Institute, Gift, Center for Food Safety research, September 2011 – September 2012, \$1,000 (PI)

Sara Lee Foods, Gift, Center for Food Safety research, September 2011 - September 2012, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, September 2011 – September 2012, \$1,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, September 2011 – September 2012, \$2,500 (PI).

Jack in the Box, Gift, Center for Food Safety research, August 2011 - August 2012, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, August 2011 - August 2012, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, July 2011 - July 2012, \$5,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety research, July 2011 - July 2012, \$22,500 (PI).

Kroger, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

General Mills, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

ConAgra Foods, Gift, Center for Food Safety research, July 2011 - July 2012, \$20,000 (PI).

Mott's LLP, Gift, Center for Food Safety research, July 2011 - July 2012, \$100 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, July 2011 - July 2012, \$2,500 (PI).

Cargill Incorporated, Gift, Center for Food Safety research, June 2011 - June 2012, \$20,000 (PI).

Maxxam Analytics International Corp., Gift, Center for Food Safety research, June 2011 - June 2012 \$5,000 (PI).

Leprino Foods Company, Gift, Center for Food Safety research, May 2011 - May 2012, \$20,000 (PI).

Land O'Lakes, Inc., Gift, Center for Food Safety research, May 2011 - May 2012, \$5,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, April 2011 - April 2012, \$5,000 (PI).

Unilever United States, Inc., Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Ecolab, Inc., Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Hormel Foods Corporation, Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Chemstar Corporation, Gift, Center for Food Safety research, April 2011 - April 2012, \$20,000 (PI).

Roka Bioscience, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

The Hershey Company, Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

The Cheesecake Factory, Gift, Center for Food Safety Research, March 2011 - March 2012, \$5,000 (PI).

BCN Research Laboratories, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$1,000 (PI).

Chick-fil-A, Inc., Gift, Center for Food Safety research, March 2011 - March 2012, \$5,000 (PI).

Malt-O-Meal Company, Gift, Center for Food Safety research, February 2011 - February 2012, \$20,000 (PI).

Burger King Corp., Gift, Center for Food Safety research, February 2011 - February 2012, \$5,000 (PI).

Georgia Department of Agriculture, 2011 Specialty Crop Block Grant, Grant, Control of Foodborne Pathogens on Fresh Produce (Year 2), July 1, 2011 - June 30, 2012, \$15,000 (Co-PI).

Starbucks Coffee Company, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Cargill, Inc., Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

The Clorox Company, Gift, Center for Food Safety research. December 2010 - December 2011, \$5,000 (PI).

Land O' Frost, Inc., Gift, Center for Food Safety research. December 2010 - December 2011, \$5,000 (PI).

HealthPro Brands Inc. UGARF Research Agreement, Chemical treatment for reduction of yeast, mold and *Salmonella* in produce and fruit. February 17, 2010 - August 31, 2010. \$23,733 (PI).

Danisco, Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Kraft Foods Global, Inc., Gift, Center for Food Safety research, December 2010 - December 2011, \$20,000 (PI).

Earthbound Farm, Gift, Center for Food Safety research, October 2010 - October 2011, \$20,000 (PI).

Kellogg's, Gift, Center for Food Safety research, October 2010 - October 2011, \$20,000 (PI).

Silliker, Gift, Center for Food Safety research, October 2010 - October 2011, \$5,000 (PI).

Wegmans Food Markets, Inc., Gift, Center for Food Safety research, September 2010 - September 2011, \$5,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2010 - September 2011, \$1,000 (PI).

Fresh Express, Inc., Gift, Center for Food Safety research, September 2010 - September 2011, \$5,000 (PI).

PepsiCo, Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, August 2010 - August 2011, \$5,000 (PI).

Perdue Farms, Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Mead Johnson Nutrition, Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Yum! Brands Inc., Gift, Center for Food Safety research, August 2010 - August 2011, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2010 - June 2011, \$5,000 (PI).

Leprino Foods, Gift, Center for Food Safety research, June 2010 - June 2011, \$20,000 (PI).

Campbell's, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Mott's LLP, Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

Publix Super Markets, Inc., Gift, Center for Food Safety research, May 2010 - May 2011, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$5,000 (PI).

Hormel Foods Corp., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

BCN Research Laboratories, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$1,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, April 2010 - April 2011, \$2,500 (PI).

Ecolab, Inc., Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, April 2010 - April 2011, \$20,000 (PI).

ACH Food Companies, Inc., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

The Cheesecake Factory, Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Grocery Manufacturers Assn., Gift, Center for Food Safety research, March 2010 - March 2011, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, February 2010 - February 2011, \$5,000 (PI).

HealthPro Brands, Grant, Chemical treatment for reduction of yeast, mold and *Salmonella* on produce, February 2010 - August 2010, \$23,733 (PI).

McDonald's, Gift, Center for Food Safety research, February 2010 - February 2011, \$1,000 (PI).

Chemstar Corp., Gift, Center for Food Safety research, February 2010 - February 2011, \$20,000 (PI).

Burger King Corp., Gift, Center for Food Safety research, February 2010 - February 2011, 5,000 (PI).

Mars Chocolate NA, Gift, Center for Food Safety research, January 2010 - January 2011, \$20,000 (PI).

Refrigerated Foods Assn., Inc., Gift, Center for Food Safety research, January 2010 - January 2011, \$5,000 (PI).

Cargill, Inc., Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

ConAgra Foods, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

JLA USA, Gift, Center for Food Safety research, December 2009-December 2010, \$5,000 (PI).

Clorox, Gift, Center for Food Safety research, December 2009-December 2010, \$5,000 (PI).

Danisco, Gift, Center for Food Safety research, December 2009-December 2010, \$20,000 (PI).

Malt-O-Meal, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Kellogg's, Gift, Center for Food Safety research, December 2009 - December 2010, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, November 2009 - November 2010, \$5,000 (PI).

Wegman's Food Markets, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Kraft Foods, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

General Mills, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Silliker, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

YUM! Brands, Gift, Center for Food Safety research, September 2009 - September 2010, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Perdue Farms, Gift, Center for Food Safety research October 2009 - October 2010, \$5,000 (PI).

Mead Johnson Nutritionals, Gift, Center for food Safety research, October 2009 - October 2010, \$20,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, October 2009 - October 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Inactivation of *Campylobacter* and *Salmonella* on poultry, August 2009 - July 2010, \$80,750 (PI).

SuperValu, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

Georgia Food Industry Partnership, Grant, Chemical treatment to reduce *Escherichia coli* O157:H7, *Listeria monocytogenes* and *Salmonella* contamination on lettuce and tomatoes, July 1, 2009 - June 30, 2010, \$80,750 (Co-PI).

YUM! Brands, Gift, Center for Food Safety research, August 2009 - August 2010, \$5,000 (PI).

McDonald's, Gift, Center for Food Safety research, July 2009 - July 2010, \$20,000 (PI).

Mott's LLP (Dr. Pepper), Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Sara Lee, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Abbott Laboratories, Gift, Center for Food Safety research, June 2009 - June 2010, \$5,000 (PI).

Hormel Foods, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

Unilever, Gift, Center for Food Safety research, August 2009 - August 2010, \$20,000 (PI).

Taco Bell, Grant, Fate of *Salmonella* in salsa, \$6,988 (PI).

Campbell's, Gift, Center for food Safety research, June 2009 - June 2010, \$20,000 (PI).

PepsiCo, Gift, Center for Food Safety research, June 2009 - June 2010, \$20,000 (PI).

The Hershey Company, Gift, Center for Food Safety Research, May 2009 - May 2010, \$5,000 (PI).

American Meat Institute Foundation, Grant, March 1, 2009 - February 28, 2011, Reduction of *E. coli* O157:H7 and *Salmonella* in ground beef, \$72,720 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2009- April 2010, \$5,000 (PI).

Publix Super Markets, Gift, Center for Food Safety research, February 2009 - February 2010, \$20,000 (PI).

Burger King, Gift, Center for food Safety research, January 2009 - January 2010, \$5,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, December 2008 - December 2009, \$20,000 (PI).

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Data collection for food safety risk assessment in support of the Expert Panel report on *Salmonella* in raw poultry, January 2009 - October 2010, \$264,000 (PI)

Caudill Seed Company, Grant, Evaluation of chemical solution recently developed for reduction of *Salmonella* and *E. coli* O157:H7 in alfalfa seeds and sprouts, October 2008-September 2009, \$3450 (PI)

Danisco, Gift, Center for Food Safety research, September 2008-September 2009, \$20,000 (PI)

Purfresh, Gift, Center for Food Safety research, September 2008-September 2009, \$1,000 (PI)

McDonald's, Gift, Center for Food Safety research, September 2008 - September 2009, \$20,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2008 -September 2009, \$20,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, September 2008 - September 2009, \$1,000 (PI)

Perdue Farms, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, August 2008 0 August 2009, \$5,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kroger, Gift, Center for Food Safety research, August 2008 - August 2009, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

Kraft Foods, Gift, Center for Food Safety research, August 2008 - August 2009, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, August 2008 - August 2009, \$1,000 (PI)

FoodPAC, Grant, Reduction of *Salmonella* Enteritidis in preharvest poultry, July 2008 - June 2009, \$136,500 (PI)

Leprino Foods, Gift, Center for Food Safety research, July 2008 - July 2009, \$5,000 (PI)

U.S. Poultry & Egg Association, Grant, International working group report on tolerance for *Salmonella* on raw poultry, July 2008 - June 2010, \$200,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Hershey's, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

3M, Gift, Center for Food Safety research, May 2008 - May 2009, \$5,000 (PI)

Ecolab, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

PepsiCo, Gift, Center for Food Safety research, April 2008 - April 2009, \$20,000 (PI)

Zep, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Silliker, Gift, Center for Food Safety research, April 2008 - April 2009, \$1,000 (PI)

Sara Lee, Gift, Center for Food Safety research, February 2008 - February 2009, \$5,000 (PI)

Ross Systems, Gift, Center for Food Safety, March 2008 - March 2009, \$1,000 (PI)

Hanson Technologies, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

SuperValu, Gift, Center for Food Safety research, March 2008 - March 2009, \$5,000 (PI)

Grocery Manufacturers Assn, Gift, Center for Food Safety research, March 2008 - March 2009, \$1,000 (PI)

Chef Solutions, Gift, Center for Food Safety research, February 2008 - February 2009, \$1,000 (PI)

U.S. Department of Agriculture - Foreign Agricultural Service, Grant, Food safety expert to participate in the 2008 Dubai Food Safety Conference, February 2008 - March 2008, \$5,280 (PI)

ConAgra, Grant, Efficacy of gaseous ozone to eliminate musty off odors and reducing microbiological populations in wheat, August 2008 - July 2009, \$52,468

Great Eastern Mussel Farm, Grant, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004 - June 2008, \$16,000 (PI)

Hormel Foods, Gift, Center for Food Safety research, February 2008 - February 2009, \$20,000 (PI)

ConAgra Foods, Grant, *Salmonella* detection, February 2008, \$26,500 (PI)

Publix Super Markets, Gift, Center for Food Safety research, January 2008 - January 2009, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2008 - January 2009, \$5,000 (PI)

Ecolab, Grant, Efficacy of antimicrobial agents to reduce transfer of *Escherichia coli* O157:H7 on lettuce pieces, November 2007 - June 2008, \$37,506, (PI)

Kraft Foods Global, Gift, Center for Food Safety research, December 2007, \$15,000 (PI)

Gerber Products, Gift, Center for Food Safety research, December 2007-December 2008, \$20,000 (PI)

Kroger, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

U.S. Department of Health and Human Services, Grant (#223042500), Anaerobic vacuum spoilage, August 2007-March 2008, \$20,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Centers for Disease Control and Prevention, Contract, Detecting and controlling foodborne pathogens, July 2007-June 2008, \$99,999 (PI)

ACH Food Companies, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)
Schreiber, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

American Meat Institute, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, September 2007-September 2008, \$5,000 (PI)

John Morrell, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

ConAgra Foods, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Danisco, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Kraft Foods Global, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

The Coca-Cola Company, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Pilgrim's Pride, Gift, Center for Food Safety research, September 2007-September 2008, \$1,000 (PI)

General Mills, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

U.S. Department of Agriculture-CSREES, NIFSI, Grant, A systems approach to minimize *Escherichia coli* O157:H7 food safety hazards associated with fresh and fresh-cut leafy greens, September 2007-September 2011, \$2,500,000 (PI)

Fresh Express, Gift, Center for Food Safety research, July 2007-July 2008, \$1,000 (PI)

Novazone, Gift, Center for Food Safety research, September 2007-September 2008, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Campbell's, Gift, Center for Food Safety research, July 2007-July 2008, \$20,750 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

ConAgra Foods, Grant, Thermal inactivation of *Salmonella* in peanut butter, June 2007-June 2010, \$245,000 (PI)

Cargill, Gift, Center for Food Safety research, June 2007-June 2008, \$20,000 (PI)

Wegmans, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, June 2007-June 2008, \$1,000 (PI)

Fresh Express, Grant, Subsurface contamination and internalization of *E. coli* O157:H7 in preharvest lettuce, June 2007-June 2008, \$246,976 (PI)

Ross Systems, Gift, Center for Food Safety research, May 2007-May 2008, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2007-May 2008, \$20,000 (PI)

John Morrell & Co., Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

ACH Food Companies, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Chick-fil-A, Gift, Center for Food Safety research, July 2006-August 2007, \$1,000 (PI)

Wayne Farms, Gift, Center for Food Safety research, August 2006-August 2007, \$5,000

Great Eastern Mussel Farms/USDA SBIR, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, August 2004-December 2006 \$5,995 (PI)

General Mills, Gift, Center for Food Safety research, July 2006-July 2007, \$20,000 (PI)

American Meat Institute, Gift, Center for Food Safety research, July 2006-July 2007, \$1,000 (PI)

Ecolab, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, April 2006-December 2006, \$120,000 (PI)

Campbell's Gift, Center for Food Safety research, June 2006-June 2007, \$20,300 (PI)

Cargill, Gift, Center for Food Safety research, May 2006-May 2007, \$20,000 (PI)

Universal Sanitizers & Supplies, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

BCN Research Laboratories, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Michael Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, May 2006-May 2007, \$5,000 (PI)

Wegmans Food Markets, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Food Products Association, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

ConAgra, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, March 2006-March 2007, \$1,000 (PI)

Hershey, Gift, Center for Food Safety research, March 2006-March 2007, \$5,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, March 2006-March 2007, \$20,000 (PI)

Abbott Laboratories, Gift, Center for Food Safety research, January 2006-January 2007, \$5,000 (PI)

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2006 - December 2006, \$20,000 (PI).

Kraft Foods Global, Gift, Center for Food Safety research, December 2005 - December 2006, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, December 2005 - December 2006, \$2,500 (PI).

Yum Brands, Gift, Center for Food Safety research, November 2005 - November 2006, \$5,000 (PI).

Quaker, Gift, Center for Food Safety research, Center for Food Safety research, November 2005 - November 2006, \$20,000 (PI).

USDA-CSREES NRI, Grant, From egg to carcass: Tracking the entry of poultry foodborne pathogens into the food chain, September 2005 - September 2008, \$890,000 (co-PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Sara Lee, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, September 2005 - September 2006, \$5,000 (PI).

Bristol-Myers Squibb Company, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

AMI Foundation, Gift, Center for Food Safety research, September 2005 - September 2006, \$1,000 (PI).

The Coca-Cola Company, gift, Center for Food Safety research, September 2005 - September 2006, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,500 (PI).

Battelle Memorial Institute (Centers for Disease Control and Prevention Defense Information Center), Contract, Confirmation of mass spectrometry-based analytical method to detect and differentiate active *Clostridium botulinum* toxins by mouse bioassay. September 2005 - December 2006, \$68,500 (PI).

General Mills, Gift, Center for Food Safety Research, September 2005 - September 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, August 2005 - August 2006, \$50,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

University of Georgia Research foundation, Indirect Costs, Food safety research, August 2005, \$6,100 (PI).

John Morrell, Gift, Center for Food Safety research, August 2005 - August 2006, \$1,000 (PI).

FoodPAC, Grant, Chemical intervention treatments to inactivate foodborne pathogens on poultry, July 2005 - June 2006, \$87,900 (PI).

American Foods Group, Gift, Center for Food Safety research, June 2005 - June 2006, \$1,000 (PI).

Gerber, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Cargill, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

ConAgra, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2005 - May 2006, \$20,000 (PI).

Schreiber, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Purac America, Gift, Center for Food Safety research, March 2005 - April 2006, \$1,000 (PI).

Unilever Best Foods, Gift, Center for Food Safety research, April 2005 - April 2006, \$20,000 (PI).

Fresh Express, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

Chr. Hansen, Gift, Center for Food Safety research, April 2005 - April 2006, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wegman's, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research, March 2005 - March 2006, \$1,000 (PI).

Wal-Mart, Gift, Center for Food Safety research, March 2005 - March 2006, \$5,000 (PI).

Campbell's, Gift, Center for Food Safety research, February 2005 - February 2006, \$20,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, February 2005 - February 2006, \$5,000 (PI).

Georgia Department of Human Resources (CDC), Grant, Research support on food safety issues, January 2005 - December 2005, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, January 2005 - January 2006, \$15,000 (PI).

University of Georgia Research Foundation, Intellectual Property Return Probiotic Vaccine for *E. coli* O157:H7 in cattle, December 2004, \$14,601 (PI).

Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit the growth of *Clostridium botulinum* in a novel live mussel pack, January 2005-May 2007, \$135,001 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, January 2005-January 2006, \$20,000 (PI).

Procter & Gamble, Gift, Center for Food Safety research, December 2004-December 2005, \$20,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, November 2004-November 2005, \$2,000 (PI).

John Morrell, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Gold Kist, Gift, Center for Food Safety research, November 2004-November 2005, \$2,500 (PI).

McDonald's, Gift, Center for Food Safety research, November 2004-November 2005, \$5,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research, November 2004-November 2005, \$20,000 (PI).

American Meat Institute, Center for Food Safety research, November 2004-November 2005, \$1,000 (PI).

Abbott Laboratories (Ross Labs), Gift, Center for Food Safety research, October 2004-October 2005, \$20,000 (PI).

The Coca-Cola Company, Gift, Center for Food Safety research, October 2004-December 2004, \$5,000 (PI).

U.S. Food and Drug Administration, Contract, Use of packaging film oxygen permeability to allow aerobic spoilage organisms to grow and spoil the product before toxin is produced by *Clostridium botulinum* in fresh fish packaged under modified atmospheres, September 2004-March 2006, \$260,900 (PI).

Pilgrim's Pride, Gift, Center for Food Safety research, September 2004-September 2005, \$5,000 (PI).

The Clorox Company, Contract, Inactivation of *Salmonella* and *Campylobacter jejuni* by stabilized bleach, September 2004-March 2005, \$7,240 (PI).

USDA-NRI, Grant, Microbiological safety of composting process as animal manure treatment, September 30, 2004 - September 30 2007, \$600,000 (PI)

Bristol-Myers Squibb, Gift, Center for Food Safety research, August 2004-August 2005, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research, August 2004-August 2005, \$1,000 (PI).

Kraft, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

Perdue Farms, Gift, Center for Food Safety research, July 2004-July 2005, \$1,000 (PI).

Quaker (PepsiCo), Gift, Center for Food Safety research, July 2004-July 2005, \$20,000 (PI).

FoodPAC, Grant, Competitive exclusion bacteria treatment to control *Listeria monocytogenes* in the environment of a ready-to-eat poultry processing plant, July 2004 - June 2005, \$97,181 (PI)

International Food Protection, Grant, *Salmonella* reduction in poultry by competitive exclusion bacteria, July 2004-December 2004, \$75,000 (PI).

Kraft Foods, Contract, Worldwide process cheese safety, June 30, 2004 - November 30, 2007, \$138,096 (PI)

Sara Lee, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Wayne Farms, Gift, Center for Food Safety research, June 2004-June 2005, \$5,000 (PI).

Cargill, Gift, Center for Food Safety research, June 2004-June 2005, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research, May 2004-May 2005, \$20,000 (PI).

Kroger, Gift, Center for Food Safety research, May 2004 - June 2005, \$5,000 (PI)

Wegmans, Gift, Center for Food Safety research, May 2004 - June 2005, \$1,000 (PI)

General Mills, Gift, Center for Food Safety, research, April 2004 - May 2005, \$20,000 (PI)

Alpharma, Contract, Evaluation of antimicrobial activity of competitive exclusion bacteria, April 2004, \$500 (PI)

ConAgra, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Arrowsight, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Golden State Foods, Gift, Center for Food Safety research, April 2004 - May 2005, \$20,000 (PI)

Fresh Express, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Foods Group, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

American Air Liquide, Gift, Center for Food Safety research, April 2004 - May 2005, \$1,000 (PI)

Cargill, Gift, Center for Food Safety research, March 2004 - April 2005, \$5,000 (PI)

Michael Foods, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Chr Hansen, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

National Food Processors Association, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Hershey Foods, Gift, Center for Food Safety research, March 2004 -April 2005, \$5,000 (PI)

Yum! Brands, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Wal-Mart, Gift, Center for Food Safety research, February 2004 - March 2005, \$5,000 (PI)

Unilever Bestfoods, Gift, Center for Food Safety research, February 2004 - March 2005, \$20,000 (PI)

Purac America, Gift, Center for Food Safety research, March 2004 - April 2005, \$1,000 (PI)

Schreiber Foods, Gift, Center for Food Safety research, February 2004 - March 2005, \$1,000 (PI)

McDonald's Gift, Center for Food Safety research, January 2004 - February 2005, \$5,000 (PI)

McDonald's, Gift, Center for Food Safety research, December 2003 - December 2004, \$5,000 (PI).

Kraft Foods, Inc., Grant, Cross-contamination of *Listeria monocytogenes* between slicing equipment and cured or non-cured turkey meat. December 2003 - December 2005, \$130,732 (PI).

The Great Eastern Mussel Farms, Contract, Use of lactic acid bacteria to inhibit growth of *Clostridium botulinum* in a novel live mussel pack. December 2003 - June 2004, \$25,000 (PI).

Abbott Laboratories (Ross Products Division), Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Gold Kist, Gift, Center for Food Safety research, October 2003- October 2004, \$2,500 (PI).

Mionix Corporation, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

US Foodservice, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

ACH Food Companies, Gift, Center for Food Safety research, October 2003 - October 2004, \$1,000 (PI).

Campbell's, Gift, Center for Food Safety research, October 2003 - October 2004, \$20,000 (PI).

Alpharma, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

Chick-fil-A, Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

John Morrell & o., Gift, Center for Food Safety research, September 2003 - September 2004, \$1,000 (PI).

American Meat Institute, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle, September 2003 - September 2004, \$69,500 (PI).

American Meat Institute, Grant, Recovery, development and validation of appropriate surrogate microorganisms in meat and poultry emulsions for in-plant critical control point validation studies, September 2003 - September 2004, \$59,850 (PI).

American Meat Institute, Grant, The role of aerosols in transmission of microorganisms (including *Listeria*) in ready-to-eat meat/poultry products, September 2003 - September 2004, \$76,500 (PI).

U.S. Food and Drug Administration, Grant, Development of a waveguide immunoassay for *Yersinia pestis*, September 2003 - September 2006, \$600,000 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues. October 2003-September 2004, \$130,749 (PI).

U.S. Department of Agriculture, CSREES (Iowa State University), Food Safety Initiative Grant, Prioritizing opportunities to reduce foodborne disease. September 2003-September 2005, \$54,321 (PI).

U.S. Department of Agriculture, CSREES, Grant, Alliance for Food Protection. July 2003-June 2005, \$139,309 (PI).

Wayne Farms LLC, Gift, Center for Food Safety research. July 2003-July 2004, \$5,000 (PI).

The Great Eastern Mussel Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

American Meat Institute Foundation, Grant, Methods to control *E. coli* O157:H7 in drinking water for cattle. August 2003-August 2004, \$69,500 (PI).

FoodPAC, Grant, Use of antagonistic bacteria to reduce environmental contamination of food processing facilities by *Listeria monocytogenes*. July 2003-June 2004, \$85,920 (PI).

Perdue Farms, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

Kraft Foods, Gift, Center for Food Safety research. June 2003-June 2004, \$20,000 (PI).

Eastman Chemical, Gift, Center for Food Safety research. July 2003-July 2004, \$1,000 (PI).

General Mills, Gift, Center for Food Safety research. May 2003-May 2004, \$20,000 (PI).

Zep Manufacturing Co., Gift, Center for Food Safety Research. May 2003-May 2004, \$1,000 (PI).

Cargill, Gift, Center for Food Safety research. April 2003-April 2004, \$5,000 (PI).

Schreiber Foods, Gift, Center for Food Safety research. April 2003-April 2004, \$1,000 (PI).

Wegmans Food Markets, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Fresh Express, Gift, Center for Food Safety research. March 2003-March 2004, \$1,000 (PI).

Tropicana, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Gerber Products, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

Ecolab, Gift, Center for Food Safety research. February 2003- February 2004, \$20,000 (PI).

Golden State Foods, Gift, Center for Food Safety research. February 2003-February 2004, \$20,000 (PI).

DairiConcepts, Gift, Center for Food Safety research. February 2003-February 2004, \$2,000 (PI).

Kroger, Gift, Center for Food Safety research. February 2003-February 2004, \$5,000 (PI).

American Foods Group, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

National Food Processors Association, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

American Air Liquide, Gift, Center for Food Safety research. February 2003-February 2004, \$1,000 (PI).

Michael Foods, Gift, Center for Food Safety research. January 2003-January 2004, \$1,000 (PI).

McDonald's, Gift, Center for Food Safety research. December 2002-December 2003, \$5,000 (PI).

Kraft Foods, Grant, Cross-contamination of *Listeria monocytogenes* between processing equipment and food products, December 2002-December 2005, \$196,022 (PI).

Georgia Department of Human Resources, Contract, Research support for food safety issues, November 2002-October 2003, \$120,000 (PI).

E&J Gallo Winery, Gift, Center for Food Safety research, December 2002-January 2004, \$1,000 (PI).

Hershey Foods, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI).

Nestlé, Gift, Center for Food Safety research, December 2002-January 2004, \$5,000 (PI)

BIBLIOGRAPHY OF PUBLICATIONS 2004-2014

Papers Published in Refereed Journals/Publications

1. Erickson, M. C., M. Islam, C. Sheppard, J. Liao, and M. P. Doyle. 2004. Reduction of *Escherichia coli* O157:H7 and *Salmonella enterica* serovar Enteritidis in chicken manure by larvae of the black soldier fly. *J. Food Protect.* 67:685-690.
2. Islam, M., J. Morgan, M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Persistence of *Salmonella enterica* serovar Typhimurium on lettuce and parsley and in soils on which they were grown in fields treated with contaminated manure composts or irrigation water. *Foodborne Pathogens and Disease* 1(1):27-35.
3. Doyle, M. P., G. R. Acuff, D. Bernard, B. Cords, J. Cullor, J. Hollingsworth, K. P. Penner, S. Seward, W. A. Sperber, and B. Tompkin. 2004. Intervention strategies for the safety of foods of animal origin. Council for Agricultural Science and Technology (CAST), Ames, IA. Issue Paper No. 25. January. pp. 1-24.
4. Islam, M., J. Morgan, M. P. Doyle, and X. Jiang. 2004. Fate of *Escherichia coli* O157:H7 in manure compost-amended soil and on carrots and onions grown in an environmentally controlled growth chamber. *J. Food Protect.* 67:574-578.
5. Jiang, X., M. Islam, J. Morgan, and M. P. Doyle. 2004. Fate of *Listeria monocytogenes* in bovine manure-amended soil. *J. Food Protect.* 67:1676-1681.
6. Chiou, R. Y.-Y., R. D. Phillips, P. Zhao, M. P. Doyle, and L. R. Beuchat. 2004. Ethanol-mediated variations in cellular fatty acid composition and protein profiles of two genotypically different strains of *Escherichia coli* O157:H7. *Appl. Environ. Microbiol.* 70:2204-2210.
7. Islam, M., J. Morgan, M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Fate of *Salmonella enterica* serovar Typhimurium on carrots and radishes grown in fields treated with contaminated manure composts or irrigation water. *Appl. Environ. Microbiol.* 70:2497-2502.
8. Zhao, T., M. P. Doyle, and P. Zhao. 2004. Control of *Listeria monocytogenes* in a biofilm by competitive exclusion microorganisms. *Appl. Environ. Microbiol.* 70:3996-4003.
9. Zhao, T., M. P. Doyle, M. C. Kemp, R. S. Howell, and P. Zhao. 2004. Influence of freezing and freezing plus acidic calcium sulfate and lactic acid addition on thermal inactivation of *Escherichia coli* O157:H7 in ground beef. *J. Food Protect.* 67:1760-1764.
10. Islam, M., M. P. Doyle, S. C. Phatak, P. Millner, and X. Jiang. 2004. Persistence of enterohemorrhagic *Escherichia coli* O157:H7 in soil and on leaf lettuce and parsley grown in fields treated with contaminated manure composts or irrigation water. *J. Food Protect.* 67:1365-1370.

11. Islam, M., M. P. Doyle, S. C. Phatak, P. Millner and X. Jiang. 2005. Survival of *Escherichia coli* O157:H7 in soil and on carrots and onions grown in fields treated with contaminated manure composts or irrigation water. *Food Microbiology* 22:63-70.
12. Busta, F. F., M. P. Doyle, R. S. Flowers, R. G. Labbe, J. Lovett, J. M. Madden, J. C. McEntire, R. L. Newsome, M. D. Pierson, and N. R. Reddy. 2004. Bacteria associated with foodborne diseases. (IFT Scientific Status Summary). Institute of Food Technologists, Chicago, IL. pp. 1-25.
13. Mytle, N., G. L. Anderson, M. P. Doyle, and M. A. Smith. 2005. Antimicrobial activity of clove (*Syzygium aromaticum*) oil in inhibiting *Listeria monocytogenes* on chicken frankfurters. *Food Control* 17:102-107.

Hi Mary,

I am available to serve on the panel.

Michaela, attached is the information form and an abbreviated CV.

Michael P. Doyle, Ph.D.
Regents Professor and Director
Center for Food Safety
University of Georgia
1109 Experiment Street
Griffin, GA 30223-1797
Tel: 770-228-7284
Fax: 770-229-3216
e-mail: mdoyle@uga.edu

From: Muth, Mary K. [<mailto:muth@rti.org>]
Sent: Wednesday, March 11, 2015 8:53 AM
To: Michael Doyle
Subject: request to participate on an expert panel for FDA

Mike,

I'm hoping you might be able to help us out again with an expert panel for FDA related to FSMA. Under contract with FDA, we're convening an expert panel to obtain data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act.

The specific objectives of the expert panel are as follows:

- Review or estimate baseline contamination rates for selected contaminants (pathogens) by broad product category
- Estimate changes in contamination rates as a result of implementation of the provisions of the Preventive Controls rule

These estimates will be used to conduct an economic analysis of the potential benefits of the Preventive Controls rule for foods under FDA's jurisdiction.

We will conduct the exercise by teleconference and email and therefore travel no travel is required. We will also provide an honorarium for your participation. I've attached a document that provides more information about the project and a form for you to complete regarding your interest and availability. Due to the urgency of the request, we would appreciate if you could return this form by **Monday, March 16** to **Michaela Coglaiti** (mcc@rti.org), or let us know if you are not interested or available.

If you have questions regarding the project, please don't hesitate to contact me.

Sincerely,

Mary K. Muth, PhD

CURRICULUM VITAE

NAME: Michael Patrick Doyle

TELEPHONE: 770-228-7284

FAX: 770-229-3216

E-mail:mdoyle@uga.edu

DEGREES:

1973	B.S.	University of Wisconsin-Madison	Bacteriology
1975	M.S.	University of Wisconsin-Madison	Food Microbiology
1977	Ph.D.	University of Wisconsin-Madison	Food Microbiology

PROFESSIONAL EXPERIENCE:

1977-1980	Senior Project Leader, Corporate Research, Ralston Purina Company
1980-1984	Assistant Professor, Department of Food Microbiology and Toxicology (Food Research Institute), University of Wisconsin-Madison
1984-1988	Associate Professor, Department of Food Microbiology and Toxicology, University of Wisconsin-Madison
1988-1991	Professor and Wisconsin Distinguished Professor of Food Microbiology, Department of Food Microbiology and Toxicology, Department of Food Science, University of Wisconsin-Madison
1991-1999	Department Head, Department of Food Science and Technology, University of Georgia, Agricultural Experiment Station, Griffin, GA
1993-1999	Department Head, Department of Food Science and Technology, University of Georgia, Athens, GA
1993-2000	Director, Center for Food Safety and Quality Enhancement, University Georgia, Griffin, GA
1997-	Regents Professor of Food Microbiology, University of Georgia
2000-	Director, Center for Food Safety, University of Georgia, Griffin, GA

PROFESSIONAL SOCIETIES:

Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the Institute of Food Technologists, the International Association for Food Protection, and the National Academy of Inventors and serves as a scientific advisor to the National Academies. Member of the Institute of Medicine of the National Academies.

AWARDS/SPECIAL RECOGNITION:

1. The Pound Research Award, College of Agricultural and Life Sciences, University of Wisconsin-Madison, 1985
2. The Fred W. Tanner Lectureship, Chicago Section-Institute of Food Technologists, 1986
3. Samuel Cate Prescott Award for Research, Institute of Food Technologists, 1987
4. Fellow, American Academy of Microbiology, 1987

5. Wisconsin Distinguished Professorship (named professorship), University of Wisconsin-Madison, 1989
6. James M. Craig Memorial Lecturer, Oregon State University, 1990
7. American Agricultural Economics Association Award for Professional Excellence, 1992
8. Peter J. Shields Chair Lectureship, University of California, Davis, 1993
9. Norbert F. Sherman Award for Article Excellence, International Association of Milk, Food and Environmental Sanitarians, 1993
10. James H. Nakano Citation, National Center for Infectious Diseases, Centers for Disease Control and Prevention, 1994
11. P. R. Edwards Award, Southeastern Branch of the American Society for Microbiology, 1994
12. Nicholas Appert Award, Institute of Food Technologists (for outstanding contributions to the field of Food Science), 1996
13. Regents Professor of Food Microbiology, University System of Georgia Board of Regents, 1997.
14. Silver Plow Honor Award for Exceptional Service, U. S. Department of Agriculture, Cooperative State Research, Education, and Extension Service, 1998
15. Inaugural Fellow, International Association of Milk, Food and Environmental Sanitarians, 1998
16. Fellow, Institute of Food Technologists, 1999
17. Food Safety Award, National Food Processors Association AND International Association for Food Protection, 1999
18. Honorary Member, Association Internationale Nicolas Appert, for outstanding contributions to food science and technology, 1999
19. Julius Bauermann Lectureship, Philadelphia Section of Institute of Food Technologists, 2000
20. Centers for Disease Control and Prevention Partners in Public Health Honor Award, 2001
21. Phi Zeta Forum Lecture, College of Veterinary Medicine, Auburn University, 2001
22. Institute of Scientific Information, Highly Cited Researchers in Agricultural Sciences (Top 100 researchers cited), 2002
23. Director's Award, Food and Drug Administration Center for Food Safety and Applied Nutrition, IFT Threat Assessment Group, 2003
24. Fellow, World Innovation Foundation, 2003
25. Elected Member, Institute of Medicine of the National Academies, 2003
26. National Associate, National Academy of Sciences, 2003
27. U.S. Food and Drug Administration Advisory Committee Service Award, Science Board, Office of FDA Commissioner, 2003
28. U.S. Food and Drug Administration Advisory Committee Service Award, Veterinary Medicine Advisory Committee, Center for Veterinary Medicine, 2003
29. American Meat Institute Foundation's Scientific Achievement Award, 2004
30. U.S. Food and Drug Administration Commissioner's Special Citation, 2006
31. Silliker Lecture, International Association for Food Protection Annual Meeting, Keynote Address, 2008
32. Ohio State University Harris Award for Excellence in Food Science and Technology, 2009
33. Inventor of the Year Award, University of Georgia, 2010 (co-inventor with Tong Zhao)
34. Fellow, American Association for the Advancement of Science (AAAS), 2011
35. Distinguished Agriscience Scientist Award, Christopher Columbus Fellowship Foundation, 2013
36. Named Top 100 Educators by Irish Voice newspaper, for research devoted to food Safety, 2013

37. Fellow, National Academy of Inventors, 2013
38. Most-cited Publication Award, 2014, Journal of Food Protection, "Inactivation of *Salmonella* and *Escherichia coli* O157:H7 on lettuce and poultry skin by combinations of levulinic acid and sodium dodecyl sulfate," by Tong Zhao, Ping Zhao and Michael P. Doyle 72:928-936 (2009)

EXAMPLES OF PROFESSIONAL ACTIVITIES:

Scientific Advisor, Consultation on Veterinary Public Health Aspects of Prevention and Control of Campylobacter Infections, World Health Organization, Moscow, USSR, 1984

Scientific Advisor, Working Group on Foodborne Listeriosis, World Health Organization, Geneva, Switzerland, 1988

Scientific Advisor, Working Group on Epidemiology and Disease Prevention, World Health Organization, Lagos, Nigeria, 1988

Scientific Advisor, International Life Sciences Institute - Nutrition Foundation, Food Microbiology Committee, 1987-1996

Scientific Advisor, National Dairy Promotion and Research Board, 1989-1993

Scientific Advisor, National Live Stock and Meat Board, 1990-1996

Executive Committee, Conference for Food Protection, 1985-1986

IFT Scientific Lecturer, Institute of Food Technologists, 1987, 1990

ASM Scientific Lecturer, American Society for Microbiology, 1991-1993

Member, National Advisory Committee on Microbiological Criteria for Food, 1988-1990; 1994-2000

Member, International Commission on Microbiological Specifications for Foods, 1989-1999; Advisor, 1987

Board of Trustees, International Life Sciences Institute-North America, 1992-present

Member, National Academy of Sciences, Institute of Medicine Food and Nutrition Board, 1991-1997; 2005-2009

Executive Board, International Association of Milk, Food and Environmental Sanitarians, 1989-94; President, 1992-93

Member, The Refrigeration Research and Education Foundation Scientific Advisory Council, 1997-2002

Member, U.S. Environmental Protection Agency, Science Review Board, Federal Insecticide, Fungicide and Rodenticide Act Scientific Advisory Panel, 1998-2003

Member, National Academy of Sciences (National Research Council Board on Agriculture and Institute of Medicine Food and Nutrition Board) Committee on Ensuring Safe Food from Production to Consumption, 1998

Member, U. S. Food and Drug Administration Science Board (advise FDA science programs), 1999-2004; Chairman, 2003-2004

Member, U. S. Food and Drug Administration Veterinary Medicine Advisory Committee, 1999-2002

Member, U. S. Defense Science Board, Task Force on Defense Against Biological Weapons, 2000

Vice Chairperson, Expert Consultation on Risk Assessment of Microbiological Hazards of Foods, World Health Organization and Food and Agricultural Organization of the United Nations, Rome, Italy, 2001

Chairperson, National Academy of Sciences-Institute of Medicine, Committee to Review the U.S. Department of Agriculture *E. coli* Farm-to-Table Process Risk Assessment, 2001-2002.

Scientific Editor, Kluwer Academic/Plenum Publishers, Series on Food Safety and Food

Microbiology, 2002-present

Member, Partnership of Food Safety Education Advisory Board, 2002-2005

Member, American Academy of Microbiology, Committee on Election to Membership, 2002-2007

Member, American Council on Science and Health, Board of Scientific and Policy Advisors, 2003-2008

Chairman, National Academy of Sciences - Institute of Medicine Food Forum, 2002-2012

Chairman, American Society for Microbiology, Public and Scientific Affairs Board, Committee on Agricultural and Food Microbiology, 2003-2012

Consultant, U.S. Department of Agriculture, Agricultural Marketing Service, Microbiological Data Program, 2003-2009

Member, Expert College of Reviewers, The Canada Foundation for Innovation, 2000-2012

Member, College of Reviewers, Canada Research Chairs Program, National Science and Engineering Research Council of Canada, 2002-2012

Member, U.S. Food and Drug Administration, Review Panel on Public Health Protection of Raw Milk, 2003-2004

Member, National Academy of Sciences (National Research Council) Committee on National Needs for Research in Veterinary Science, 2004-2005

Series Editor, American Society for Microbiology (ASM) Press, *Emerging Issues in Food Safety*, 2004-2012

Chairman, National Academy of Science - Institute of Medicine Food Safety and Microbiology Workshop: An Exchange of Ideas and Experiences, 2007

Vice Chairperson, Institute of Medicine, Food and Nutrition Board, 2006-2009

Scientific Co-Editor-in-Chief, Annual Reviews of Food Science and Technology, Annual Reviews, 2007-present

Chairman, National Academies Institute of Medicine Planning Committee on Foodborne Diseases and Public Health: An Iranian-American Workshop, 2007-2008

National Judge, Siemens National Competition in Math: Science: Technology (High School Students National Finalists), 2007

Member, Reagan-Udall Foundation Board, Food and Drug Administration, 2007-2011

Co-Chairman, Centers for Disease Control and Prevention - Food Industry Safe Foods Forum, 2007-present

Member, National Research Council Standing Committee on the Use of Public Health Data in USDA-FSIS Food Safety Programs, 2008-2011

Member and Acting Chair, Institute of Medicine - Food and Nutrition Board Committee on Review of Use of Process in USDA-FSIS Public Health Risk-based Inspection System, 2008-2009

Member, Government of Canada (appointed by Prime Minister), Independent Investigation (report by Sheila Weatherill) into the 2008 Listeriosis Outbreak, 2009

Distinguished Presenter, The Israeli Presidential Conference 2009 Facing Tomorrow (Futuring Conference), Jerusalem, Israel, invited by Israeli President Shimone Perez, October 22, 2009

Member, Food and Drug Administration Center for Veterinary Medicine, Scientific Advisory Committee, 2009-2012

Member, American Society for Microbiology Founders Distinguished Award Selection Committee, 2008-2011; Chair, 2012-2014

Invited Peer-Reviewer, Shota Rustaveli National Science Foundation, Russia, to review and evaluate submitted proposals, 2011-2014

Member, International Life Sciences Institute Board of Trustees, 2014-

Member, CDC Board of Scientific Counselors, Centers for Disease Control and Prevention, Atlanta, GA, 2014-2017

Chair, American Academy of Microbiology ASM Founders Distinguished Service Award Selection Committee, Washington, DC, 2014-2015

Doyle has more than 315 refereed journal articles, 16 books, 66 book chapters, 86 invited papers/conference proceedings, 30 patents, and more than 800 invited presentations at national and international professional meetings. He is an active researcher in the area of foodborne bacterial pathogens and works closely with the food industry on issues related to the microbiological safety of foods. His research has focused on the study of microbial pathogenicity, the development of methods for pathogen detection, and the identification of means to control or eliminate pathogens in foods.

PROJECT DESCRIPTION & EXPERT INFORMATION FORM
Expert Panel on Effects of the Food Safety Modernization Act on Food Contamination Rates

RTI International is conducting an expert elicitation for the Food and Drug Administration (FDA) to provide data for conducting analyses for the Preventive Controls rule under the Food Safety Modernization Act. The specific objectives of the expert elicitation are as follows:

- Review or estimate baseline contamination rates for selected contaminants (pathogens) by broad product category
- Estimate changes in contamination rates as a result of implementation of the provisions of the Preventive Controls rule

These estimates will be used to conduct an economic analysis of the potential benefits of the rule. We will focus on foods under FDA's jurisdiction that are not already required to have implemented HACCP (e.g., processed ready-to-eat and not ready-to-eat foods) and the following possible contaminants:

- *Campylobacter*
- *Cyclospora cayatenensis*
- *E.coli*, STEC non-0157
- *E.coli*, STEC 0157
- Hepatitis A
- *Listeria monocytogenes*
- *Mycobacterium bovis*
- *Salmonella* spp.
- *Shigella sonnei*

If you are interested in participating in this expert elicitation panel, please complete the expert information form on the following pages and return it to RTI by **Monday, March 13, 2015**. *Please also attach your CV or resume.*

If you are selected to participate, we will need for you to do the following:

- participate in a teleconference meeting on the selected date in March or April
- during the teleconference, participate in open discussions with the other participants on the estimates needed for the study
- based on your experience and knowledge, complete two tables in which you will provide your best estimates regarding baseline and post-implementation contamination rates

We are offering an honorarium of \$750 for participation in the teleconference and completion of the two tables. If you are selected to participate, you will be identified as a participant on the panel, but your specific responses will be combined with those of the other participants in the report to FDA.

Please return the form and your CV to Michaela Cimini Coglaiti (coglaiti@rti.org), 919-990-8498.

PROJECT DESCRIPTION & EXPERT INFORMATION FORM
Expert Panel on Effects of the Food Safety Modernization Act on Food Contamination Rates

Name	Michael Doyle
Preferred Phone	770-228-7284
Preferred Email	mdoyle@uga.edu
Mailing Address	1109 Experiment St, Center for Food Safety, Griffin, GA 30223
Country of Citizenship	USA

1. Areas of Expertise: Contaminants

Please provide an assessment of your expertise for contaminants listed below. It is not necessary to demonstrate expertise for all foods or contaminants.

Contaminants	Level of Experience/Knowledge		
	Minimal / None	Moderate	Extensive
<i>Campylobacter</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Cyclospora cayatenensis</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<i>E.coli</i> , STEC non-0157	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>E.coli</i> , STEC 0157	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Hepatitis A	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<i>Listeria monocytogenes</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Mycobacterium bovis</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<i>Salmonella</i> spp.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Shigella sonnei</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<i>Campylobacter</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

2. Areas of Expertise: Foods

Please list the top three to five foods for which you have the most expertise.

Foods (please list)
Produce
Poultry
Dairy
Beef
Fermented Foods

PROJECT DESCRIPTION & EXPERT INFORMATION FORM
Expert Panel on Effects of the Food Safety Modernization Act on Food Contamination Rates

3. Conflict of Interest Information

Please list current or planned projects and other relationships with the following entities. Activities listed below do not necessarily disqualify you from participation. RTI will evaluate your responses for any conflict of interest. All information you provide RTI will be kept strictly confidential.

List projects and relationships		Grant	Contract	Other
<i>Companies that produce food products</i>				
1	About 50 Food Companies*	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Subject: Reservation Confirmation for the 2015 Mid-year Meeting

Good afternoon Dr. Doyle,

I hope you are doing well. I wanted to send a quick note to confirm your hotel arrangements for the upcoming Mid-year Meetings.

All of the Mid-year meetings will be held at:

The Loews Madison Hotel
1177 Fifteenth Street NW
Washington, DC 20005
202-862-1600

Your hotel reservation is confirmed for the night of 30 June with check out on 1 July. Your reservation number is 13340614.

Please let me know if you have any questions.

Thank you,
Amanda

Hi Mike. It was great seeing you at the ILSI Annual meeting. Thanks for connecting us and CDC as well as the insight on ConAgra. Do you have any time on Monday afternoon after 3 pm for us to have a brief discussion of your understanding of the ConAgra project, pros and cons ? We would like to learn from others so we don't repeat the same mistakes. Thanks.

Best Regards

Steve Rizk

Industry Consortium Begins Enormous DNA Sequencing Project for Food Safety

By [Lydia Zuraw](#) | February 2, 2015

[<image002.jpg>](#)

Mars Inc. and IBM Research have teamed up for an ambitious food safety whole-genome sequencing project.

The [Consortium for Sequencing the Food Supply Chain](#) will study the the microbial ecology of foods and their processing environments. Having a much deeper understanding of the populations in these ecologies —

bacteria, fungi, viruses, and other microorganisms — and how they interact with each other can then be used to develop new methods for keeping food safe, said Dave Crean, Mars' global head for research and development.

The science itself is similar to what the U.S. Centers for Disease Control and Prevention is using to [improve foodborne illness outbreak investigations](#). The difference is that instead of just sequencing the pathogen isolates from patients and the food that sickened them, Mars and IBM will be sequencing the DNA and RNA for all of the microorganisms on and in foods.

“We’re looking to understand how supply chains and production environments influence the final product from a microbial point of view,” Crean told **Food Safety News**. “Can we see microbial ecologies that give a greater risk of pathogens being present?”

Food companies spend a lot of time on microbial testing to ensure that there aren’t pathogens in their products, but this consortium wants to know if there are protective actions food producers can take in respect to microbiomes that can reduce risk and make production safer — certain cleaning procedures are one theory.

With more than 130 factories worldwide, Mars is also in the position to map the flow of microorganisms into and through the supply chain on a global level, Crean said.

The team will start with basic commodities, such as wheat and soy, and try to see if there is a “stable” microbiology associated with them as raw materials. The researchers will also sequence the genes of the microorganisms as the foods move through a production process to find out how the microbiome is affected by different production processes, if at all.

“Are microbiomes more specific to the raw material, or to the specific factories that they’re passing through, or the geography that they’re coming from?” Crean wondered.

The project is going to produce a lot of data — something Crean said the team recognizes as a “significant challenge.” Stressing that it’s still “very early days,” he noted that Mars and IBM are looking to partner with industry, academics, regulators and some NGOs on the project.

The vast number of microbiomes and rate at which microorganisms can evolve means that sequencing everything is virtually impossible. For now, the consortium is working on an initial timeline of three years, at which point Crean said they should have “some

pretty clear outcomes.”

“We’ll have more of an idea about how to take it forward after that three years,” he added.
