**Subject:** RE: Meeting and Update / BLP 2014

---

I'll be driving 3-5 on Wed EST. Can talk then, also Friday 12-1p or after 5:30. That's all I have this week.

Kevin

Subject: Meeting and Update / BLP 2014

All:

We have made some progress but we still have a ways to go. I would like to set up a team meeting at some point this week. Preferably **Wednesday** (anytime), **Thursday** morning (earlier the better) or anytime **Friday**.

- 1) Participants (faculty, scientists and students)
  - student spots are FULL
  - We are **short ~ 6 scientists**: I have sent out reminders to some of our original invitees. Should we not hear from them, **who else** should we contact? We would like more of your input on this (and some feedback on who we have at the 'table' so far).
- 2) Program/Agenda
  - Jon and I have worked on developing a **new draft agenda**. Please review and we can discuss at the meeting.
- 3) Prospectus
  - Jon has **updated the prospectus**. Please use (refer to/share) this version from here on in in your communications.

**NOTE:** I will be meeting with Jay in St. Louis next week about the BLP program (and work on some ideas, together) plus other organizational bits. I would prefer to go into that meeting with a NEXT DRAFT VERSION of the program/agenda plus an updated invitee list - both that include input from the team this week.

How are your respective schedules this week? Please **let me know** what works for you **ASAP**.

best,  
cami
