Subject: RE: budget resolution

Talk to BZ and Dan last week. Both were very helpful. Thanks again for coordinating. We'd like to stick the amendment in the forthcoming reconciliation bill. It'll likely be only a sentence or two sufficient to apply to IARC, along the lines of "No funding shall be appropriated to a foreign research organization that performs risk/hazard classifications for a disease through the publication of monographs." Open to any thoughts on this. We've got a few weeks before the bill gets to the House.

Hey there – were you able to connect with BZ or Dan on the budget language? Anything I can help assist with?
