

VIRGINIA :

IN THE CIRCUIT COURT FOR THE COUNTY OF ORANGE

The Miller Firm, LLC,

Plaintiff and Counterclaim Defendant,

v.

Timothy Litzenburg,

**Defendant, Counterclaim and
Crossclaim Plaintiff, and**

The Roundup Cancer Firm, LLC,

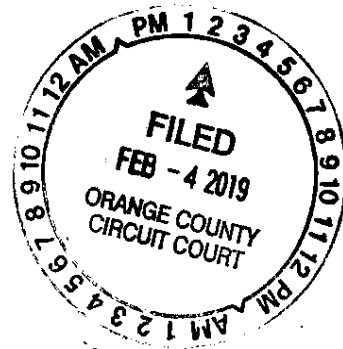

Defendant,

v.

Michael Miller,

Crossclaim Defendant.

Case No. CL 18001118

FIRST AMENDED COMPLAINT

Plaintiff The Miller Firm, LLC, ("TMF" or "Plaintiff") by undersigned counsel, files this First Amended Complaint against Defendants Timothy Litzenburg and The Roundup Cancer Firm, LLC (collectively, "Defendants").

NATURE OF THE ACTION

1. While still employed by TMF, Mr. Litzenburg stole TMF's valuable confidential information, diverted business from TMF, engaged in self-dealing, usurped corporate opportunity, and conspired with others to undermine TMF's reputation and its client relationships. TMF seeks relief from this Court for this malicious attack on its business.

2. This is a civil action seeking damages and permanent injunctive relief for breach of fiduciary duty; tortious interference with contract and business relations; statutory conspiracy, in violation of Va. Code Ann. § 18.2-499; common law conspiracy; misappropriation of trade secrets, in violation of Virginia Code Ann. § 59.1-336 *et seq.*; and computer trespass, in violation of Va. Code Ann. § 18.2-152.1 *et seq.*

THE PARTIES

3. TMF is a Virginia limited liability company with its principal place of business in Orange, Virginia.

4. Mr. Litzenburg is a United States citizen who resides in Richmond, Virginia.

5. Upon information and belief, The Roundup Cancer Firm, LLC is a Virginia limited liability company with its principal place of business in Richmond, Virginia.

JURISDICTION AND VENUE

6. This Court has original subject matter jurisdiction over this action pursuant to Va. Code Ann. § 17.1-513 because TMF seeks damages in excess of \$100.

7. Venue is appropriate in the Town of Orange because TMF has its principal place of business there and a substantial portion of Defendants' misconduct occurred in Orange, Virginia.

ALLEGATIONS COMMON TO ALL CLAIMS FOR RELIEF

A. The Miller Firm

8. TMF is a preeminent personal injury law firm known for obtaining multimillion-dollar jury verdicts and settlements across the country in complex mass tort cases. TMF also has decades of expertise prosecuting claims involving medical malpractice, dangerous drugs and defective medical devices, and products liability.

9. TMF's founder and lead trial attorney, Michael Miller, has over 30 years' experience as a high-stakes plaintiffs' litigator, and has tried dozens of cases around the country to substantial plaintiffs' verdicts. TMF attorneys Nancy Miller and David Dickens, each of whom has been with TMF for over a decade, also have significant trial experience and have litigated cases to high-dollar verdicts for TMF clients.

10. Mr. Miller and TMF also have been appointed as class counsel in various multidistrict litigations ("MDLs") and other large class actions around the country, including the Zyprexa MDL in New York and the Avandia MDL in Pennsylvania.

11. Mr. Miller and TMF are frequently on the forefront of litigation involving novel claims against sophisticated manufacturers of dangerous products. For example, Mr. Miller spearheaded the litigation against Takeda, manufacturer of the antidiabetic medication Actos, by trying the first case in the country and six of the first nine trials. In April 2013, TMF obtained a \$6.5 million dollar verdict against the makers of Actos and, in all, TMF has recovered over \$250 million in settlements for victims of injuries linked to Actos and other anti-diabetic drugs.

B. Litzenburg's Employment With TMF

12. TMF hired Mr. Litzenburg on June 11, 2012. At the time he accepted employment with TMF, Mr. Litzenburg had no experience in mass tort litigation, and had no clients. Mr. Litzenburg was an at-will, salaried employee; he had no equity interest in the firm, and his discretionary bonuses were set by Mr. Miller.

13. At the time he was hired in 2012, Mr. Litzenburg was TMF's most junior attorney. He had to learn plaintiffs' mass tort legal practice from the ground up. His initial responsibilities included overseeing client intake, reviewing documents, and communicating with clients

regarding the status of their cases. In all of these efforts, Mr. Litzenburg acted as an agent of TMF, and was overseen by Mr. Miller or another TMF attorney.

14. TMF worked to develop Mr. Litzenburg's legal skills. Over time, he received additional responsibilities, such as taking or defending depositions and interacting with some TMF clients in a more in-depth manner.

15. Mr. Litzenburg, however, never had primary responsibility for any TMF client. Mr. Litzenburg was not lead counsel in any case, deferred to Mr. Miller or other TMF attorneys on all high-level strategy decisions, and never acted as first chair or second chair attorney at any trial. In fact, at no time during his tenure with TMF did Mr. Litzenburg examine any witnesses at trial or give an opening or closing argument in front of a jury on TMF's behalf.

16. As a TMF attorney, Mr. Litzenburg had access to TMF's highly confidential list of client contact information. This compilation of information is unique and valuable, and is not generally known to or readily ascertainable by others outside of TMF.

17. Mr. Litzenburg also had access to other highly confidential TMF information, such as litigation strategy, expert reports and evaluations, legal analyses of existing and potential claims, and other non-public documents and information regarding TMF's business, clients, and litigation. This information is also unique and valuable, is not generally known to or readily ascertainable by others outside of TMF, and provides TMF a competitive advantage. The disclosure, publication, and/or use of this information to or by lawyers or others outside of TMF would harm TMF and provide an unfair competitive advantage to those receiving and/or using this information.

18. TMF expended significant time and resources to develop its non-public client contact lists, litigation strategies, expert reports, and other confidential information.

19. TMF takes significant steps to protect the value of this information, including using password protection to limit access to sensitive information, storing all electronic documents on a secure server, and prohibiting employees from sending or storing sensitive firm information to personal e-mails or devices.

20. TMF also prohibits employees from putting and/or keeping attorney-client privileged, attorney work product, and/or other TMF confidential information and trade secrets on public platforms such as Google Drive. TMF required that such information be kept on the TMF system, password-protected TMF computers or external media devices, or other similar, non-public locations.

21. TMF provided Mr. Litzenburg with a password-protected TMF computer during his employment. The computer was for use on work benefitting TMF and/or its clients.

22. As an employee and agent of TMF, Mr. Litzenburg owed TMF a fiduciary duty to act solely in TMF's interests in all matters connected with or related to his employment with TMF. This duty included, but was not limited to, maintaining the confidentiality of TMF's trade secrets and confidential information, and not diverting actual or potential TMF clients to other attorneys without TMF's express permission.

C. The Roundup Litigation

23. Mr. Miller and TMF regularly monitor reports from the International Agency for Research on Cancer ("IARC"), a subdivision of the World Health Organization. One such report had played a significant role in TMF's success in the Actos litigation.

24. In 2015, the IARC announced that glyphosate was a probable human carcinogen and had been linked to non-Hodgkin's lymphoma. Glyphosate is the primary active ingredient in Roundup, a well-known weed killer manufactured by the Monsanto Company.

25. Mr. Miller promptly reviewed the IARC announcement regarding glyphosate and directed Mr. Litzenburg, Mrs. Miller, and TMF attorney Jeffrey Travers to conduct research on possible claims involving glyphosate.

26. After further consideration on the issue, Mr. Miller decided that TMF would begin accepting clients with potential claims against Monsanto and pursuing those claims. TMF subsequently launched a widespread advertising campaign, at significant expense, to notify potential victims of their possible claims.

27. The IARC announcement, coupled with TMF's advertising and renowned reputation, soon led to a large number of potential clients seeking information about possible Roundup-related claims. In response, TMF developed, and Mr. and Mrs. Miller approved, a set of basic criteria that TMF used to determine which potential clients it would represent.

28. As a result of TMF's efforts, TMF soon was retained by hundreds of potential plaintiffs who had what TMF considered strong claims, and began filing lawsuits against Monsanto in jurisdictions across the country. To date, TMF has been retained by, and represents, approximately 2,000 individual plaintiffs in litigation against Monsanto concerning Roundup.

29. TMF continues to advertise—and, since 2015, consistently has advertised—to uncover potential Roundup claimants. Throughout this period and continuing through the present, TMF has continued to represent new Roundup plaintiffs.

D. Mr. Litzenberg's Participation in the Roundup Litigation

30. Mr. Litzenburg and Mr. Travers, as well as other TMF attorneys and staff, assisted Mr. and Mrs. Miller in the Roundup litigation. Several team members, including Mr. Litzenburg, reviewed intake forms of potential clients and determined whether the potential clients satisfied

the criteria established by Mr. Miller and TMF. As with all large TMF litigation, Mr. Miller, with the help of Mrs. Miller, supervised the litigation and made the important strategic determinations.

31. Mr. Litzenburg had significant interaction with no more than a handful of TMF's thousands of Roundup clients, and no interaction with the overwhelming majority of those clients.

32. TMF utilizes a "Trial Works" database to document its attorneys' interaction with firm clients. The Trial Works database reflects that Mr. Litzenburg spoke with fewer than 15 of TMF's approximately 2,000 Roundup clients in any manner over the last year of his employment, and did not speak with any of those clients more than once over the course of that year, with the exception of Dewayne Lee Johnson.

33. Mr. Johnson, one of TMF's early Roundup clients, is a California school groundskeeper who suffers from an incurable form of non-Hodgkins lymphoma. In 2015, TMF filed a complaint against Monsanto on Mr. Johnson's behalf in Alameda County, California.

34. Mr. Miller and Mrs. Miller delegated to Mr. Travers the primary responsibilities of assisting them in reviewing documents produced by Monsanto and others, selecting the key documents, and determining key witnesses. Other than actual trial and certain key depositions, these are the most important litigation responsibilities in mass tort cases.

35. Mr. Miller and the other TMF attorneys prefer to focus their attention on litigation rather than dealing with the media. In contrast, Mr. Litzenburg professed to enjoy interacting with the media. Therefore, TMF directed Mr. Litzenburg to handle media appearances concerning the Roundup cases, including Mr. Johnson's case.

36. Mr. Miller determined that Mr. Johnson's case should be the first Roundup case TMF tried; the trial was scheduled to begin on or about June 25, 2018, and final pretrial hearings began on June 18, 2018.

37. Mr. Miller intended to try the case, performing the opening, closing, and examining all witnesses. In general, Mr. Miller believes it most effective to have one attorney perform all work in front of a jury.

38. On May 26, 2018, Mr. Miller suffered serious injuries in an accident, which required hospitalization. As a result of his injuries, Mr. Miller could not try Mr. Johnson's case. Therefore, he chose to enlist the help of another mass tort firm, Baum, Hedlund, Aristei & Goldman, and have TMF attorney David Dickens co-lead the trial. Mr. Miller selected Mr. Dickens because he was a more senior TMF attorney with more mass tort and trial experience than Mr. Litzenburg. In addition, Mr. Miller had become concerned by Mr. Litzenburg's increasingly troubling and erratic behavior.

E. Mr. Litzenburg's Erratic and Troubling Behavior

39. Until approximately sometime in 2015, Mr. Litzenburg had a self-admitted substance abuse problem.

40. Although he claimed to have overcome this problem in 2015, Mr. Litzenburg began to exhibit troubling and erratic behavior beginning in approximately January 2018.

41. Mr. Miller, Mrs. Miller, and other TMF attorneys and staff personally observed numerous instances of this behavior. Mr. Miller and Mrs. Miller also received reports of such behavior from other TMF employees and from others (attorneys at other firms and non-attorneys) involved in the Johnson litigation.

42. Among other things, Mr. Litzenburg stopped regularly showing up for work at the TMF office, sent nonsensical e-mails and texts, missed important meetings, exhibited an inability to focus on tasks, frequently appeared irritable, unmotivated, and high strung, and otherwise did not focus on his work as an attorney.

43. Mr. Litzenburg's troubling behavior escalated as TMF prepared for the Johnson trial. Throughout this busy, important time, Mr. Litzenburg, among other things, missed important meetings and conference calls, left important pre-trial assignments to others, rarely came into the office, produced unintelligible work product, and sent rambling, incoherent notes to other members of the trial team.

44. Consistent with Mr. Litzenburg's increasing absences from the office, he began missing important scheduled meetings with the Johnson trial team. For example, he missed one such meeting on April 9. He did not alert anyone that he would not be there until he e-mailed Mr. Miller, more than 30 minutes after the meeting was scheduled to start, that his "windshield wipers got burnt out". Mr. Litzenburg's failure to show forced Mr. Miller to reschedule the meeting for the next day to accommodate Mr. Litzenburg. Even then, Mr. Litzenburg did not arrive to TMF's office until an hour after the rescheduled meeting began. This prompted Mr. Miller to e-mail Mr. Litzenburg that his lack of basic reliability was "[n]ot cool."

45. Similarly, on April 25, while TMF was engaged in intense trial preparation, Mr. Litzenburg e-mailed Mr. Miller that he was "with shrink at 9. Also divorced-dad-wednesday [sic], as you know so I have to be back by about 530 pm . . . so will work at home unless there is a meeting or something."

46. That same day, when Mr. Miller asked Mr. Litzenburg for the status of draft jury instructions, Mr. Litzenburg stated that Mr. Dickens, who had not been heavily involved in the Johnson case up to that point, would handle it instead of him.

47. On or about May 14, Mr. Litzenburg was again more than an hour late for a scheduled meeting regarding the Johnson trial.

48. By this time, Mr. Miller and other TMF attorneys and staff had become well aware of Mr. Litzenburg's increasing lack of basic reliability. Indeed, on May 18, Mr. Litzenburg's frequent absences prompted paralegal Richard Mayer to remark in an email that that was the third week he was getting "barked [a]t" because Mr. Litzenburg was not in the office.

49. The following Saturday, May 25, at 11:37 p.m., Mr. Litzenburg texted his ex-wife from a beach house where he was staying that, "This cocaine comes with a little psychedelic parts [sic] which I don't mind". Approximately an hour later, at 12:53 a.m., he sent her another text stating that, "The coke I just got has slightly psychedelic effects. No complaints here. I will also probably smoke a bowl with his ashes[.] Man u are missing out we are having a bit [sic] party[.]" He then followed that up with yet another text, this time of a picture of white powder molded into the shape of a heart. *See Exhibit 1.*

50. At 1:23 a.m. on May 26, a mere half hour after the texts to his ex-wife concerning his cocaine and other illicit drug use, Mr. Litzenburg e-mailed Mrs. Miller asking for her support in arguing to Mr. Miller that he should be permitted to examine some witnesses in the upcoming Johnson trial. Much of this rambling email was unintelligible, including sentences like, "We are BFF now and we practice e[sic] all the time. I can get answers our [sic] of him that benefit the litigation. He says thing [sic] that are wrong years and I sit with for hours."

51. This e-mail concerned Mrs. Miller, and she showed it to Mr. Miller while expressing concerns about Mr. Litzenburg.

52. On May 31, upon returning from the beach, Mr. Litzenburg asked another TMF attorney to cover an out of town deposition of a Roundup expert because he was buying two cars and renting a house that week and not because he was working on the upcoming Johnson trial.

53. Later that day, Mr. Litzenburg responded to a question from Mr. Travers regarding deposition designations with an unintelligible 11:54 p.m. e-mail stating, "There should be. Rich I asked her for hearing strange as soon as final, definitely should have by now, can you call veritrxt [sic]. . ." In response to the e-mail, one TMF attorney e-mailed Mr. Mayer, "Well . . . that is coherent."

54. The next day, on June 1, Mr. Mayer worked on deposition designations provided by Mr. Litzenburg that also were unintelligible and unusable. As a result, Mr. Mayer e-mailed Mr. Litzenburg at 10:13 p.m. and told him, "this is the best I could make sense of these; not sure what happened." Rather than help with the situation, Mr. Litzenburg responded at 2:16 a.m. on June 2 by stating "do you want to see the stingray tomorrow?" Upon information and belief, the reference to "stingray" was to his new Corvette Stingray car.

55. Later on June 2, at 10:10 p.m., Mr. Litzenburg sent another disturbing e-mail, this time to what he referred to as "Trial Team One." He stated "The peaks of my life have been spent playing for this team" and then added that "I'll just being [sic] by saying, no i [sic] haven't fallen off the wagon after three years. I could probably use some sleep."

56. Mr. Litzenburg followed up that June 2 e-mail with a June 3 e-mail to Mr. Dickens stating that "i [sic] may actually lost [sic] my mind now. lost [sic] track of the days, good times."

57. The next day, June 4, Mr. Litzenburg had a seizure in Mr. Dickens' office. Mr. Litzenburg later indicated to Mr. Miller that the seizure resulted from his use of high levels of Wellbutrin, and possibly his use of Xanax and Ambien.

58. By this point, Mr. and Mrs. Miller and other TMF attorneys and staff were concerned about Mr. Litzenburg's behavior, his ability to perform at work, and his overall well-being:

59. On June 6, Mrs. Miller e-mailed the TMF attorneys and informed them that, in Mr. Miller's absence, Mr. Dickens would be "the lead of the trial team and all trial decisions that need to be made."

60. Upon learning of that decision, Mr. Litzenburg focused his attention over the next several days on getting Mr. Miller to agree to give him more responsibility at trial. In so doing, he e-mailed Mr. Miller repeatedly to, as he put it in one e-mail, "beg and plead for a little more even in my state." Mr. Litzenburg also repeatedly e-mailed and otherwise contacted Mr. Dickens and even Mr. Wisner, the co-counsel brought in to help try the Johnson case following Mr. Miller's accident.

61. While Mr. Litzenburg was "beg[ging]" for more responsibility, he missed yet another trial team meeting on June 6, this time with a jury consultant. Over an hour after the call was scheduled to begin, Mr. Litzenburg e-mailed the team to ask "did yall [sic] get on this." Despite the importance of the call for the trial and the attendance of the rest of the team, Mr. Litzenburg decided that there was "no need for me to join."

62. In attempt to get Mr. Litzenburg to focus on his work, Mr. Dickens eventually had to e-mail Mr. Litzenburg and tell him, in no uncertain terms, that Mr. and Mrs. Miller:

told me to pass on to everyone at trial that there will be a clear chain of command and I will be the one to make all final decisions regarding planning, strategy, etc. Mike told me 'to tell everyone . . . (n)obody will do anything, say anything, argue anything or address the judge or jury unless they have your final approval. If you tell somebody to do something, and they do not listen, send them home. If someone is not carrying their weight or becomes a distraction, send them home.'

63. After Mr. Miller's decision, Mr. Litzenburg's work product and demeanor continued to deteriorate.

64. On June 11, Mr. Litzenburg did not show up at the TMF office after saying he would be there, so paralegal Mary Anne Sparks texted Mr. Litzenburg to see if he was okay. Five

minutes later, he responded that “I have two dates with the hottest [sic] because of the car” and sent a picture of the car he purchased several days earlier. He never came to the office that day.

65. The next day, on June 12, Mr. Litzenburg missed yet another trial team meeting. The trial team had scheduled a 3:00 p.m. conference call to work on the Johnson trial witness schedule, motions *in limine*, and other important aspects of the trial. Mr. Litzenburg failed to show up for the meeting or participate in the call. Instead, more than an hour and a half after the meeting was scheduled to start, Mr. Litzenburg e-mailed Mr. Dickens to explain that he had just woken up (at 4:30 p.m.) from a previous night out. Specifically, he e-mailed: “Sorry I had a badly needed date night last night and apparently just woke. Miss anything?”

66. On June 14, four days before the first day of Mr. Johnson’s final pretrial hearings, Mr. Litzenburg texted Ms. Sparks again to tell her that “both dates went all the way. That’s three this week. It had been eighteen months before that. I’m telling you it’s the car[.]” See Exhibit 2.

67. By this time, Mr. Miller, Mrs. Miller, and other TMF attorneys and staff had observed Mr. Litzenburg’s increasingly erratic behavior. Many were concerned that he might need expert help. Others were frustrated that Mr. Litzenburg was not assisting with trial preparation.

68. Ultimately, Mr. Litzenburg’s behavior reached the point that Mr. and Mrs. Miller told Mr. Dickens to send Mr. Litzenburg home from California if he became too much of a distraction.

69. On June 17—the day before pretrial hearings began—Mr. Litzenburg again sent Ms. Sparks a concerning and non-work related text, which read:

I had the weirdest dreams last night about travelling from like microscopic level to the outreaches of physical space, first time in a long time I didn’t take any sleeping pills etc etc. Then oddly I got a signal that Emily [her daughter] was upset and I flew by her window to tell her everything was OK. I wonder if she dreamed it too!!

See Exhibit 3.

70. While Mr. Litzenburg spent his time in the lead up to trial focused on his new car and his dates, missing important conference calls and meetings, and otherwise acting erratically, other TMF lawyers and staff including Mr. Dickens, Mr. Travers, and Mr. Mayer did the actual trial preparation and strategy.

71. Multiple members of Mr. Johnson's trial team observed Mr. Litzenburg acting disoriented and frantic at court. When he was permitted to argue a motion before the Court during the final pretrial hearings, his delivery was jumbled and incoherent. Members of the trial team were concerned that Mr. Litzenburg was actively under the influence of drugs in the courtroom and during "working hours." As a result, the trial team informed Mr. Miller about Mr. Litzenburg's conduct and his behavior.

72. On or about June 20, 2018, Mr. Miller called Mr. Litzenburg to inform him of the reports of suspected drug use and concerning behavior. Believing he had no choice, Mr. Miller informed Mr. Litzenburg that, as a result of his behavior, he would not be permitted to sit at the counsel table during Mr. Johnson's trial, participate in any questioning of witnesses, or undertake any other trial activities in the presence of the Court or the jury.

73. In response to the call with Mr. Miller, Mr. Litzenburg drafted and executed an affidavit on or about June 21. In the affidavit, Mr. Litzenburg, among other things, stated that he had: simultaneously been taking high doses of Wellbutrin and Xanax while also regularly using Ambien before his seizure and continued to take those drugs; occasionally used marijuana, though "often . . . in states or districts where that plant is legal;" and smoked marijuana on three nights during the seven-day period from July 14 and July 20 that Mr. Litzenburg called the "trial period." He also stated that he had "undergone a personality change since my father's death, my seizure and my medication adjustment in particular. It is unclear if that will return to baseline once the

medication 'wean' is complete or if those medications themselves were affecting my personality. It has had positive effects on . . . my ability to focus and work ethic – I have been told I am 'moving faster,' be it good or bad."

74. Although he effectively removed Mr. Litzenburg from the trial team, Mr. Miller allowed him stay in California even though he did not have much to do at the trial. Instead, Mr. Litzenburg continued to focus on personal matters.

75. In the middle of trial, for example, Mr. Litzenburg e-mailed Ms. Sparks, not about the trial, but to tell her that he "went on Dead tour with one girl on west coast, then beach with second girl for 4th of July in obx, choosing 2nd girl she is perfect and mom likes her."

76. Similarly, Mr. Litzenburg disappeared to Big Sur for a weekend (July 14 and 15) in the middle of the trial. On July 15, he finally e-mailed Mr. Dickens, "Just emerging from weekend in big sur [sic], there is no signal down there (incidentally no power either the whole weekend). I am now reachable by phone and will be back around lunch."

77. Ultimately, Mr. Dickens, Mr. Wisner, Mr. Travers and other TMF attorneys and staff handled the overwhelming majority of pretrial tasks such as coordinating exhibits, drafting jury instructions, briefing motions *in limine*, and preparing witnesses. They also developed the trial plan and strategy and actually tried the case. In contrast, Mr. Litzenburg had little involvement in the pre-trial preparation or the actual trial.

78. Mr. Dickens and TMF's co-counsel performed all of the courtroom work in front of the jury in Mr. Johnson's trial. On August 10, 2018, the jury returned a \$289 million dollar verdict in Mr. Johnson's favor. TMF is currently representing Mr. Johnson in post-trial matters, including Monsanto's appeal.

79. Mr. Litzenburg's erratic behavior did not stop with the end of the trial. On August 23, for example, he came into TMF's office and met with Ms. Sparks. It was apparent that he had not showered for some number of days. In the midst of talking with Ms. Sparks, he stopped the conversation and asked about a hand towel in her office. He then abruptly ended their conversation, said that he was going to take a shower, and left. He had been at the office for only a matter of minutes before his sudden departure, but never returned that day.

80. Mr. Litzenburg's erratic and troubling behavior continued until his employment with TMF ended.

F. Mr. Litzenburg Surreptitiously Steals TMF's Confidential Information, Usurps TMF's Business Opportunities and Conspires with Others to Injure TMF

81. As other TMF lawyers and staff prepared and conducted Mr. Johnson's trial, Mr. Litzenburg began a coordinated and systematic effort to steal TMF's confidential information and trade secrets and business opportunities to use on his own behalf and that of co-conspirators in ultimately competing against TMF.

82. Upon information and belief, during the course of the Johnson trial, Mr. Litzenburg entered an agreement and/or other arrangement with Dan Kincheloe, who up until that time had been a non-mass torts defense lawyer, to begin competing against TMF for Roundup, Actos, and terrorism cases.

83. Further, upon information and belief, Mr. Litzenburg, Mr. Kincheloe, and other unnamed co-conspirators conspired to misappropriate TMF's confidential information and trade secrets and usurp its business opportunities before his TMF employment ended as part of their effort to compete against TMF.

84. By June 21, the day after Mr. Miller informed him that his trial role would be essentially eliminated, Mr. Litzenburg actively began to surreptitiously steal TMF's confidential information and trade secrets.

85. On June 21—in the midst of the Johnson final pretrial hearings—Mr. Litzenburg texted Ms. Sparks to send him TMF's Roundup client contact information. *See* Exhibit 4. When the spreadsheet did not have client telephone numbers or e-mail addresses, Mr. Litzenburg texted Ms. Sparks to send him an updated list with that information. *Id.* To hide his actions from everyone else at the firm, he instructed Ms. Sparks to “keep between me and you.” *Id.*

86. Mr. Litzenburg had no legitimate need for the Roundup client contact information at that time and no reason to keep his possession of that information secret from other TMF lawyers. Instead, upon information and belief, he wanted to copy and/or save the list so he would have this valuable information for his own personal use when he established a competing law firm.

87. Beyond ordering TMF paralegals to secretly send him TMF's confidential client contact information, he also used his TMF computer and other TMF devices improperly and without authorization to copy and abscond with TMF confidential information and trade secrets.

88. On July 26, for example, Mr. Litzenburg attached a Kingston USB thumb drive bearing Volume Serial Number FCDB11DF to his TMF computer and accessed TMF documents and files on that thumb drive. Specifically, the thumb drive contained TMF confidential information in folders and subfolders entitled “TAL Backup,” “docs,” “Benbrook docs,” and “guard new hot docs,” among others. All of these folders contained sensitive, non-public TMF information concerning the Johnson trial and the Roundup litigation in general. *See* Exhibit 5, Affidavit of Christopher Racich (“Racich Aff.”) ¶¶ 15-17.

89. Mr. Litzenburg had no legitimate reason to put TMF information on a thumb drive, and has not returned that device.

90. Mr. Litzenburg also uploaded confidential TMF information to his personal Google Drive. Neither he nor any other TMF attorney was authorized to put any TMF files, documents, or information on a personal Google Drive.

91. Moreover, TMF had a “war room” set up at co-counsel’s office with everything the trial team would need, so Mr. Litzenburg had no legitimate reason to put TMF information on a personal Google Drive.

92. Nevertheless, Mr. Litzenburg used his TMF computer to access TMF’s secure database and then to access his Google Drive. *Racich Aff.* ¶¶ 11, 15-17. Upon information and belief, Mr. Litzenburg was copying TMF’s confidential information and trade secrets to his Google Drive for his personal use and the use of conspirators in competing against TMF. Indeed, as detailed below, Mr. Litzenburg’s Google Drive contained an astonishing 88 gigabytes of data, including numerous sensitive files containing TMF confidential information and trade secrets, when he accessed it at 10:44 p.m. on September 17, the day before he returned his TMF computer to TMF.

93. In addition to pilfering TMF’s information, Mr. Litzenburg also systematically began usurping TMF marketing opportunities. For example, on July 12, Mrs. Miller forwarded to Mr. Litzenburg a marketing inquiry from MCM Services Group (“MCM”), a marketing company offering to help TMF reach additional potential Roundup clients. *See* Exhibit 6.

94. Mrs. Miller forwarded the inquiry because TMF was interested in a potential relationship with MCM. Otherwise, she would have rejected the inquiry.

95. Mr. Litzenburg subsequently engaged in a series of e-mails with MCM addressing the specifics of the proposed relationship. After exerting that effort and obtaining that information, Mr. Litzenburg then e-mailed MCM, "great, we may be finished with new intakes, with some exceptions, **but I believe I can match you with a good home for these. I will be in touch.**" See Exhibit 6 (emphasis added).

96. Mr. Litzenburg knew his statement was false at the time that he made it. TMF has never stopped accepting new Roundup clients. It continues to work with marketing firms to learn of potential clients that meet its criteria. Indeed, on August 14, Mr. Miller e-mailed Jeff Seldomridge, another TMF attorney, and directed him to share TMF's criteria with a referral firm so that TMF could continue to attract new Roundup clients. Mr. Litzenburg was copied on that e-mail.

97. Instead, Mr. Litzenburg obtained the information from the marketing company and lied about TMF's acceptance of new clients because he wanted to use the marketing lead to benefit himself and other non-TMF lawyers, including Mr. Kincheloe.

98. After the Johnson trial and while still a TMF employee, Mr. Litzenburg personally would engaged MCM to find potential Roundup clients for him, Mr. Kincheloe, and other co-conspirators. On August 14, 2018, Mr. Litzenburg wrote to MCM, "I have a friend interested. You still doing this?"

99. Also while still a TMF employee, Mr. Litzenburg, along with Mr. Kincheloe, paid a web designer to create competing websites that touted Mr. Litzenburg's alleged Roundup trial experience and directed viewers to contact the Roundup Cancer Firm, LLC regarding potential claims. Mr. Litzenburg and Mr. Kincheloe purchased at least seven domain names as part of this

scheme, including litzenburglaw.com, litzenburgcancerlaw.com, timothyitzenburglaw.com, timothyitzenburg.com, roudupcancerlaw.com, roundupjustice.com, and oncologyjustice.com.

100. All of the domains directed users to litzenburgcancerlaw.com. That website made no mention of Mr. Dickens, Mr. Miller, or TMF; rather, it appeared to depict Mr. Litzenburg as a solo practitioner.

101. Mr. Litzenburg and Mr. Kincheloe created this content while Mr. Litzenburg was still employed by TMF, and in violation of his fiduciary and contractual duties. For example, on August 31, 2018, Mr. Litzenburg e-mailed the web designer to let him know that he needed the website up "ASAP." The next morning, Mr. Litzenburg reiterated, "[t]ime is of the essence here, and I csn [sic] you get it up this weekend."

102. Mr. Litzenburg and Mr. Kincheloe worked to establish the competing websites while Mr. Litzenburg still worked for TMF because they wanted to continue to obtain TMF confidential information and trade secrets, and because Mr. Litzenburg could usurp potential TMF clients and direct them to himself, Mr. Kincheloe, and other co-conspirators.

103. Immediately after the Johnson trial, on August 14, Mr. Litzenburg e-mailed TMF attorney Shayne Hodge and told him that Mr. Litzenburg would take over the responsibility for handling contacts from potential clients. Upon information and belief, Mr. Litzenburg did this so he could illegally divert potential Roundup and other TMF clients to himself and his co-conspirators.

104. Upon establishing control of the intake process, Mr. Litzenburg did not engage potential clients who met TMF's intake criteria, contrary to TMF's policy and practice. Instead, he forwarded these client inquiries to his personal e-mail account, something he had never

previously done. He also knowingly lied to these potential clients and told them that TMF was not taking new clients.

105. Mr. Litzenburg knew that many of these potential clients met TMF's criteria for Roundup cases. For example, the potential clients included an individual who had used Roundup as part of a lawn care business for over 20 years; an individual who had used Roundup in connection with a business for approximately 30 years; and an individual who had worked at Monsanto for over 30 years, all of whom had been diagnosed with non-Hodgkins lymphoma. Yet, Mr. Litzenburg did not attempt to engage those individuals as TMF clients. Instead, he falsely told them that TMF was not taking new clients and directed them to himself personally or to his co-conspirators.

106. Mr. Litzenburg had no legitimate business reason not to engage the potential clients who met TMF's criteria or to forward sensitive information about these potential clients to his personal e-mail account or to his co-conspirators. TMF prohibited its employees from using their personal e-mail accounts for TMF business, and also prohibited its attorneys from referring possible Roundup claims to other firms without Mr. or Mrs. Miller's permission. Mr. Litzenburg engaged in these actions to usurp these client opportunities for his own personal benefit and the benefit of his co-conspirators, including Mr. Kincheloe.

107. On August 14 and 15 alone, Mr. Litzenburg forwarded more than a dozen requests for representation to his personal G-mail account and/or to other lawyers, including to Mr. Kincheloe. Many of these potential clients met TMF's criteria for representation and would have been engaged by TMF but for Mr. Litzenburg's improper actions.

108. In early September, while Mr. Litzenburg remained employed with TMF, Mrs. Miller learned from other TMF employees about an Instagram post from Mr. Litzenburg and the

website(s) touting Mr. Litzenburg's competing practice. Mrs. Miller immediately began to investigate, and soon learned that Mr. Litzenburg had been diverting potential Roundup clients away from TMF and forwarding the leads to his personal e-mail.

109. As a result of Mr. Litzenburg's disloyal and erratic conduct, TMF terminated his employment on September 11, 2018. Mr. Litzenburg responded with an e-mail admitting that he personally had paid for the competing websites and had referred Roundup cases to other lawyers. He did not address his forwarding of potential Roundup plaintiffs that met TMF criteria to his personal e-mail address. He also did not disclose Mr. Kincheloe's involvement in these efforts.

110. Mr. Litzenburg was out of town at that time, so TMF could not immediately obtain the return of Mr. Litzenburg's TMF computer. Mr. Miller arranged to meet Mr. Litzenburg to obtain the computer and address other issues on September 18 when Mr. Litzenburg would be back in town.

111. On September 17 at 10:44 p.m.—the evening before he had to return his TMF computer—Mr. Litzenburg used it to access his Google Drive. Racich Aff. ¶¶ 10-12. By this time, the Google Drive contained a staggering 90 gigabytes of data, which equates to approximately 900,000 pages of documents, and another 10 gigabytes of e-mail.

112. Mr. Litzenburg used his TMF computer to run a query for some TMF confidential files residing on his Google Drive. Among other things, that query returned results that appear to include expert reports and invoices; trial and deposition outlines; and client medical records, as well as other confidential TMF strategy documents. These files, many of them "zip" files containing extensive amounts of information, contain confidential TMF information and trade secrets.

113. Upon information and belief, Mr. Litzenburg's Google Drive contained the entirety of TMF's Johnson trial package, its client contact information, all other important Roundup documents and information, and similar information for TMF's Actos litigation and terrorism-related cases. TMF spent significant time and money to create this information. It would be invaluable to any person or group—including Mr. Litzenburg, Mr. Kincheloe, and the other co-conspirators—looking to compete with TMF.

114. As a former employee, Mr. Litzenburg had no lawful right or legitimate reason to possess or access TMF's information and property on September 17. Instead, upon information and belief, he accessed the TMF files to ensure he had everything he and his co-conspirators would need to compete with TMF.

115. On September 18, Mr. Miller, Mrs. Miller, and Mr. Dickens met with Mr. Litzenburg. Mr. Miller confronted Mr. Litzenburg regarding his self-dealing, and informed him that he could not unilaterally contact TMF's existing or prospective Roundup clients because he was not their primary attorney.

116. Mr. Litzenburg falsely stated he did not have any client contact information in his possession, with the exception of approximately seven TMF clients with whom he had worked. Mr. Litzenburg returned his TMF computer to Mr. and Mrs. Miller, but made no mention of the thumb drive containing his "TAL Backup" files.

117. On or about September 24, 2018, less than a week after this meeting, Mr. Litzenburg formed The Roundup Cancer Firm, LLC, a Virginia limited liability company.

118. Approximately one week later, Mr. Litzenburg began sending solicitation letters to hundreds of TMF's current and referred Roundup clients. Mr. Litzenburg could not have obtained

the contact information for these TMF clients unless he used the TMF client contact information he ordered TMF's paralegal secretly send to him during the Johnson trial.

119. In the letters, Mr. Litzenburg proclaimed that "[a]long with several colleagues, I took the first Roundup lymphoma case to trial," despite the fact that he had been forbidden from participating in that trial. Mr. Litzenburg sent these letters on behalf of himself and The Roundup Cancer Firm, LLC.

120. Mr. Litzenburg did not have primary responsibility for any of the TMF clients to whom he sent these letters. Upon information and belief, Mr. Litzenburg had done no work for the vast majority of these TMF clients beyond completing and submitting an intake form.

121. Upon information and belief, Mr. Litzenburg also provided misleading information to a California court about his employment and caseload. After his discharge, Mr. Litzenburg sought to maintain his position on the Executive Committee of a California state court MDL that he received solely as a result of his connection with TMF. In so doing, he represented to the Court in a November 7 pleading that he and Mr. Kincheloe were partners with the law firm of Reid Goodwin, PLLC and that Mr. Litzenburg had more than 200 Roundup cases. Upon information and belief, Mr. Litzenburg and Mr. Kincheloe were not partners with Reid Goodwin at the time Mr. Litzenburg made that representation and did not have 200 Roundup cases.

122. Mr. Litzenburg, Mr. Kincheloe, and Mr. Damon Pendleton formed their own firm, Kincheloe Litzenburg & Pendleton PLLC ("KLP"), in late December, 2018. KLP now is soliciting for plaintiffs with Roundup, Actos, and terrorism claims—the exact same litigation that TMF developed and led.

123. Mr. Kincheloe and Mr. Pendleton have no prior experience with such claims. Upon information and belief, Mr. Litzenburg and KLP have used and continue to use TMF's confidential information and trade secrets to unfairly compete with TMF.

124. As a result of Defendants' actions, TMF has suffered, and will continue to suffer, substantial damage to its business and reputation.

COUNT ONE: BREACH OF FIDUCIARY DUTY

(against Litzenburg)

125. TMF incorporates by reference the allegations contained in Paragraphs 1 through 124 of the Complaint as if fully set forth herein.

126. As an agent of TMF, Mr. Litzenburg owed TMF fiduciary duties, including the duties of loyalty and good faith. By engaging and continuing to engage in the activities described herein, including by promoting his own interests and the interests of the Roundup Cancer Firm, LLC over those of TMF, diverting over a dozen potential TMF clients to himself and his personal acquaintances, misappropriating TMF's confidential client information, and otherwise acting contrary to TMF's best interests, Mr. Litzenburg has intentionally, materially, and directly violated the fiduciary and common law duties he owed to TMF and still owes to TMF.

127. TMF has suffered, and will continue to suffer, harm as a result of Mr. Litzenburg's actions.

COUNT TWO: TORTIOUS INTERFERENCE
WITH EXISTING AND PROSPECTIVE CONTRACTS
AND BUSINESS RELATIONSHIPS

(against all Defendants)

128. TMF incorporates by reference the allegations contained in Paragraphs 1 through 127 of the Complaint as if fully set forth herein.

129. TMF had the expectancy of forming contractual relationships with the prospective clients that reached out to TMF regarding representation. TMF also had the expectancy of maintaining client relationships with its existing clients for whom Mr. Litzenburg was not the primary attorney.

130. Defendants knew of the existence of TMF's prospective and existing contracts with these individuals by virtue of Mr. Litzenburg's employment with TMF.

131. Defendants intentionally interfered with TMF's expectancy of prospective and existing contracts, and have used improper, sometimes illegal, means and methods to interfere with those expectancies.

132. Defendants' improper actions include diverting potential and existing clients who sought TMF's representation to themselves, falsely misrepresenting to those potential clients that TMF could not take their cases, unethically contacting existing TMF clients and prospective clients for whom Mr. Litzenburg lacked primary responsibility in violation of Virginia's legal ethics rules, and by misappropriating and using TMF's confidential and proprietary business information.

133. Defendants' interference was malicious, without privilege or justification, and was intended to harm TMF and its business interests by depriving TMF of valuable business opportunities and client relationships.

134. Absent Defendants' intentional misconduct, TMF could have enlisted and/or retained these individuals as clients. TMF has the knowledge, experience, and resources to prosecute the types of mass tort cases that Defendants diverted to themselves, and in fact it was that knowledge and experience that prompted the potential clients to reach out to TMF in the first place.

135. TMF has suffered, and will continue to suffer, harm as a result of Defendants' actions.

COUNT THREE: STATUTORY BUSINESS CONSPIRACY

(against all Defendants)

136. TMF incorporates by reference the allegations contained in Paragraphs 1 through 135 of the Complaint as if fully set forth herein.

137. Defendants acted in concert with Mr. Kincheloe, Mr. Ianuario, and Ms. and Mr. Pendleton to unlawfully and unethically divert TMF's prospective clients from TMF, to interfere with TMF's lawful business expectancies, and to use TMF's confidential information and trade secrets to steal TMF's business, in violation of Va. Code Ann. § 18.2-499.

138. Defendants engaged in one or more unlawful acts to accomplish the object of their conspiracy, including, but not limited to, breaching their duties to TMF and accessing, copying, and using TMF's confidential information and trade secrets. In doing so, Defendants acted intentionally, purposefully, and without lawful justification.

139. Mr. Litzenburg acted outside the scope of his employment when he conspired to use the information to which he had gained access by virtue of his employment for the benefit of Mr. Kincheloe, Mr. Ianuario, Ms. and Mr. Pendleton, and their law firm(s).

140. This conspiracy has harmed TMF, including, without limitation, by reducing TMF's revenues and by causing TMF to lose potential business.

141. In addition to compensatory damages, TMF is entitled to treble damages, lost profits, punitive damages, attorneys' fees, and other relief pursuant to Va. Code Ann. § 18.2-500.

COUNT FOUR: COMMON LAW CIVIL CONSPIRACY

(against all Defendants)

142. TMF incorporates by reference the allegations contained in Paragraphs 1 through 141 of the Complaint as if fully set forth herein.

143. Defendants acted in concert with Mr. Kincheloe, Mr. Ianuario, and Ms. and Mr. Pendleton to unlawfully and unethically divert TMF's prospective clients from TMF, to interfere with TMF's lawful business expectancies, and to use TMF's confidential information and trade secrets to steal TMF's business.

144. Defendants engaged in one or more unlawful acts to accomplish the object of their conspiracy, including, but not limited to, breaching their duties to TMF and accessing, copying, and using TMF's confidential information and trade secrets. In doing so, Defendants acted intentionally, purposefully, and without lawful justification.

145. Mr. Litzenburg acted outside the scope of his employment when he conspired to use the information to which he had gained access by virtue of his employment for the benefit of Mr. Kincheloe, Mr. Ianuario, Ms. and Mr. Pendleton, and their law firm(s).

146. This conspiracy has harmed TMF, including, without limitation, by reducing TMF's revenues and by causing TMF to lose potential business.

147. In addition to compensatory damages, TMF is entitled to punitive damages because Defendants acted with malice.

COUNT FIVE: MISAPPROPRIATION OF TRADE SECRETS

(against all Defendants)

148. TMF incorporates by reference the allegations contained in Paragraphs 1 through 147 of the Complaint as if fully set forth herein.

149. TMF's compilation of customer information is confidential, proprietary, not generally known to the public, and constitutes trade secrets within the meaning of the Virginia Uniform Trade Secrets Act, Va. Code Ann. § 59.1-336 *et seq.* ("VUTSA").

150. TMF has taken reasonable measures to keep this information secret and confidential, including using password protection to limit access to sensitive information, storing all electronic documents on a secure server, and prohibiting employees from sending or storing sensitive firm information to personal e-mails or devices.

151. This information has independent economic value because it is not generally known to, and is not readily ascertainable by proper means by persons other than TMF who could obtain economic value from its disclosure or use.

152. TMF has compiled its client list over many years and at great expense.

153. Defendants, by engaging in and continuing to engage in the conduct and activities described herein, have violated the VUTSA through their improper acquisition, disclosure and use of TMF's trade secrets, which constitutes actual and threatened misappropriation.

154. Defendants have actually used TMF's trade secrets and other confidential information on behalf of the Roundup Cancer Firm, LLC and Kincheloe Litzenburg Pendleton PLLC.

155. Defendants have benefitted from their misappropriation of TMF's trade secrets.

156. Defendants owed, and continue to owe TMF a duty to maintain the secrecy of its information. Defendants knew or had reason to know, and continue to know or have reason to know, of that duty at the time they disclosed or used TMF's information without TMF's consent.

157. TMF has and will continue to suffer irreparable harm as a result of Defendants' unlawful conduct and the disclosure and misappropriation of TMF's confidential information and trade secrets. Defendants' activities have resulted and will continue to result in a substantial loss of business for TMF, now and in the future.

158. The actions of Defendants were willful, malicious and intended to injure TMF and its business.

159. TMF has no adequate remedy at law because Defendants' actions are affecting its goodwill, reputation and ability to compete in a highly competitive marketplace.

COUNT SIX: VIOLATION OF THE VIRGINIA COMPUTER CRIMES ACT

(against Litzenburg)

160. TMF incorporates by reference the allegations set forth in Paragraphs 1 through 159 of the Complaint as if fully set forth herein.

161. Mr. Litzenburg knew that he did not have authority to copy confidential and sensitive client information and law firm documents to a thumb drive or to his personal Google drive, or to retain such information after his departure from TMF.

162. Thus, while employed by TMF, and even after his termination from TMF, Mr. Litzenburg used his TMF computer to convert for himself TMF's sensitive, confidential and proprietary information in violation of his legal obligations to TMF.

163. Mr. Litzenburg exceeded his authority to use TMF's computer or computer network as described herein, in violation of the Virginia Computer Crimes Act, Va. Code Ann. § 18.2-152.1 *et seq.*

164. In engaging in the actions described above, Mr. Litzenburg knowingly and with malicious intent used his TMF computer to copy for himself and/or delete TMF's confidential firm documents and sensitive client information, in violation of his legal obligations to TMF.

165. As a direct and proximate result of Mr. Litzenburg's unlawful conduct, TMF has suffered, and will continue to suffer, substantial damages and irreparable harm.

PRAYER FOR RELIEF

WHEREFORE, TMF seeks the following relief:

1. An order requiring Defendants to:
 - a. Create a forensic image of their email and electronic data systems and servers under their control, including any backup tapes, shared drives, portable electronic devices or other data storage devices;
 - b. Suspend or interrupt retention policies as they relate to the automatic deletion of emails; and
 - c. Suspend any backup tape recycling policy in order to preserve any previously archived and backed up emails;
2. An order permanently requiring that Defendants:
 - a. Return to TMF all of TMF's trade secrets and other confidential or proprietary information including, but not limited to, any information copied from TMF computers or computer networks and any documents or

other TMF property physically copied or removed from TMF's facilities by Defendants or any other former or current TMF employee;

- b. Refrain from using any TMF trade secrets or confidential information; and
 - c. Refrain from any dealings with TMF clients that Defendants improperly solicited to terminate or alter their relationship with TMF.
3. An order requiring Defendants to pay TMF compensatory, incidental and punitive damages;
 4. An order requiring Defendants to pay TMF the amount by which they were unjustly enriched in misappropriating TMF's trade secrets;
 5. An order requiring Defendants to pay TMF's attorneys' fees;
 6. An order requiring Defendants to pay to TMF the appropriate pre- and/or post-judgment interest on any award;
 7. An order requiring Defendants to pay TMF damages of three times compensatory damages awarded under Va. Code Ann. § 18.2-500;
 8. An order requiring Defendants to pay to TMF its costs for bringing this lawsuit; and
 9. Such other and further relief as this Court may consider just and proper.

Jury trial demanded.

Dated: February 4, 2019

Respectfully submitted,

THE MILLER FIRM, LLC

CONTA

5/25/18 11:37 PM

I'm sitting on porch looking at cape
Cwrmes port

This cocaine comes with a little
psychedelic parts which I don't mind

5/26/18 12:45 PM

I need to hear back that my kids are
okay I'd like to speak to them this
afternoon.

5/26/18 1:27 PM

Yeah doing ge eww at teiaa has a
friends here so great

Mobile

That was the pic, apparently only u got the joke instead of him.

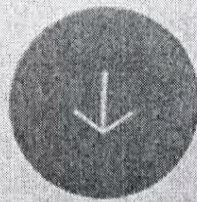

5/26/18 1:51 PM

Worms

12:53 AM

The coke I just got has slightly psychedelic effects. No complaints here.

I will also probably smoke a bowl with his ashes

Oh yeah. I even got my other witnesses back

Thu, Jun 14, 2:28 PM

Safe travels.

I got a package in today for you regarding your dad. It's a birth certificate and two other documents. Do you need them or just put in your desk?

And how was the date?

Just keep them on desk

Both dates went all the way. That's three this week. It had been eighteen months before that. I'm telling you it's the car

I had the weirdest dreams last night about traveling from like microscopic level to the out reaches of physical space, first time in a long time I didn't take any sleeping pills etc etc. Then oddly I got a signal that Emily was upset and I flew by her window to tell her everything was OK. I wonder if she dreamed it too!!

Sun, Jun 17, 4:42 PM

Ha I never responded to your dates!! Glad you had fun!!

Haha. That's funny. How is CA? And Happy Father's Day!!

Thanks! It's nuts but we also realized we are the bosses out here so we are trying all kinds of new ideas

Just sent it.

FYI, there isn't a spot on the ss for phone number. Those are in TW.

Thu, Jun 21, 10:43 AM

Could you run a report with numbers and emails and email that to me? I have some ideas for keeping clients happy/updated (and also not being surprised by their calls on my personal cell) - but please keep between me and you at the moment, I don't want to cause a stir in the office - hopefully going to cut DOWN on calls and make everyone's life better

Thanks I appreciate you

How's the office by the way?

John Wiley & Sons is a leading publisher of books, journals, and reference works.

Exhibit 5

AFFIDAVIT OF J. CHRISTOPHER RACICH

I, J. Christopher Racich, hereby depose and state as follows:

1. I am over the age of twenty-one and am fully competent to testify as to the facts set forth in this affidavit. The facts stated within this affidavit are based upon my own personal knowledge and are true and correct.

2. I am the President of Vestigant LLC ("Vestigant"). Vestigant is a technology and computer forensic consulting firm that assists clients with fact-finding in litigation, regulatory reviews and business decisions. I founded Vestigant in 2009 and since that time, Vestigant has been retained to provide expertise on hundreds of cases involving computer forensic and e-discovery issues.

3. I am a 1993 graduate of Cornell University where I received my Bachelor of Arts degree in Biology. I later attended law school at the Washington College of Law at American University, graduating with a Juris Doctor in 1997. I have been practicing in the field of computer forensics since 1997.

4. I have taken numerous courses and attended multiple seminars in the field of computer forensics over the past eighteen years. I have taught computer forensics courses at the High Tech Crimes Investigation Association (HTCIA). I am also an adjunct Professor of Law at the Washington College of Law at American University where I teach a course concerning electronic discovery.

5. During my career in the computer forensics field, I have provided testimony as an expert in computer forensics in numerous courts, including the United States District Court for the Eastern District of Virginia; the United States District Court for the Southern District of Florida; the United States District Court for the Southern District of Texas; the Superior Court for the

District of Columbia; the Missouri Circuit Court; the Supreme Court of the State of New York, County of New York; the Larimer County District Court in Colorado; and the Pennsylvania Court of Common Pleas. I have also provided expert deposition testimony in the area of computer forensics in connection with numerous civil claims, and also have testified as an expert witness before the National Labor Relations Board. I have been qualified at least 38 times as an expert in computer forensics in a court of law or arbitration proceeding. A true and correct copy of my Curriculum Vitae which further shows my experience in the field of computer forensics is attached hereto as Exhibit 1.

6. On January 8, 2019, I received via FedEx Tracking Number 774143864010 one Lenovo Laptop that has been represented to me as having been used by Timothy Litzenburg while he was employed at The Miller Firm ("Litzenburg Laptop").

7. Upon receipt of the Litzenburg Laptop, I proceeded to create a forensic image of the one terabyte laptop hard drive bearing serial number WL19L0FR. The image completed successfully and all data was captured. All subsequent work was performed on the forensic image of the Litzenburg Laptop.

8. I proceeded to investigate the Litzenburg Laptop and determined the following:

a. The user "Tim Litz" logged into Google Drive account of tlitzenburg@gmail.com on at least four days between July 26, 2018 to the evening of September 17, 2018. There is evidence that files with names that appear to have come from the Litzenburg Laptop existed on Google Drive at least as of September 17, 2018.

b. Records show that as of September 17, 2018, the Google Drive account of tlitzenburg@gmail.com contained approximately 90 GB of data and 10 GB of email. 90 GB of

data equals approximately 900,000 documents. 10 GB of e-mail equals approximately 200,000 emails.

c. Evidence shows that a USB Thumb Drive was first attached to the Litzenburg Laptop on July 26, 2018. A directory was created on that USB Thumb Drive with the name "tal backup" on July 26, 2018 with at least two sub-folders, "docs\Benebrook docs" and "docs\guard new hot docs". These sub-folders have identical names to two folders found in the path "C:\Users\Tim Litz\Documents".

d. Evidence shows that a printer was installed on the Litzenburg Laptop on July 26, 2018.

Google Drive

9. I extracted all available internet history from the Litzenburg Laptop. This included Cached Chrome records in the path C:\Users\Tim Litz\AppData\Local\Google\Chrome\User Data\Default\Cache. The Google Chrome internet browser will cache certain information about the websites that a user browses to using Google Chrome. This includes data regarding the access of Google Drive when using the Google Chrome browser.

10. Review of this Cache data identified information regarding the Google Drive user. One cache entry identified that the user of Google Drive is the user tlitzenburg@gmail.com and identified the amount of used space in both the Google Drive, Gmail and Google Photos. The amount of data used is as follows:

- a. Drive: 88988996563 (bytes) or 90 GB
- b. Photos: 0 Bytes
- c. Gmail: 9939055863 (bytes) or 10 GB

A copy of the Cache entry with this data is attached as Exhibit 2.

11. Review of this Cache data identified that the user Tim Litz accessed the Google Drive web sites on at least July 26, August 17 and September 17, 2018.

12. Based on this Cache data, the Litzenburg Computer was used to access the tlitzenburg@gmail.com Google Drive account at on September 17, 2018, between 10:44 and 10:46 PM and performed an action that accessed or otherwise returned a list of certain files that existed on that Google Drive. Specifically, the Litzenburg Computer accessed more than 200 files that existed on the Google Drive space at that time. A list of those identified files is attached as Exhibit 3.

13. The list of identified files includes compressed files as indicated by the designation “zip.” As a compressed file, these individual file listings could have contained many more individual files within them.

14. Even with a number of the indicated files being compressed “zip” files, the listed files, in my professional experience, the listed files would not take up much more than 1 GB of data at most even assuming a significant number of individual files in each compressed file. Accordingly, a significant amount of data on the Google Drive is not reflected in the list of files.

Thumb Drive

15. On July 26, 2018, a Kingston USB Thumb Drive bearing Volume Serial Number FCDB11DF was attached to the Litzenburg Computer at approximately 1:21 pm. During this time a directory F:\tal backup was created on the USB Thumb Drive. This was established by reviewing the Link Files and Jump List entries on the Litzenburg Computer. Link Files and Jump List entries can identify instances where a user has opened or explored a document or directory on the computer in question. These objects will have information about location of the

object opened, date the opening occurred and other metadata entries about the object that was opened.

16. There were at least two sub-directories copied to the USB Thumb Drive at this time. They were F:\tal backup\docs\benchbrook docs\ and F:\tal backup\docs\guard new hot docs\.

However, because these types of entries only show objects that are opened, it is possible, and in this case likely, that there are far more files and directories copied to the USB Thumb Drive on Junly 26, 2018.

17. There are directories with identical names as these sub-directories on the Litzenburg Computer. A list of the files found in the directories on the Litzenburg Computer in these identically named directories are attached as Exhibit 4.

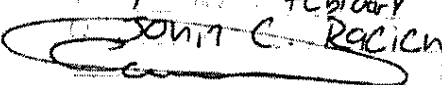

Printer Installation

18. On July 26, at 3:22 pm, the user Tim Litz executed the application C:\Users\TimLitz\Downloads\UFRIL_V30.30_Set-up_x64 (1).exe. This executeable is the driver installation program for a Cannon ImageRunner 2525 printer/scanner. This appears to be the first time this driver set was installed, without which the user cannot use the device.

I declare under penalty of perjury that the foregoing is true and correct.

Curriculum Vitae

J. Christopher Racich, Vestigant, LLC, President

Name: J. Christopher Racich
Telephone: 202 905-2170
Email: racich@vestigant.com

PROFESSIONAL EXPERIENCE

Sept. 2009 – Present: Vestigant, LLC – President

Create and operate computer forensics/E-Discovery Consulting business

Lead, work and testify in all manner of Computer Forensics/E-Discovery cases

Gather and investigation of data for a variety of civil and criminal matters. Matters include fraud, embezzlement, sexual harassment, intellectual property theft violation of non-compete clauses, child pornography, and computer, network, and PBX/voice mail hacking

Aug. 2010 – Present: American University, Washington College of Law – Adjunct Professor

Teaching “Litigation in the Digital Age: E-discovery and Electronically Stored Information Law”

Sept. 2010 – Present: American University Washington College of Law – Adjunct Professor

Dec. 2008 to Sept. 2009: First Advantage – Senior Regional Practice Leader and Counsel

2006 to 2008: First Advantage – Senior VP and Counsel

2004 to 2006: First Advantage CoreFacts – Managing Director and Counsel

2001 to 2004: CoreFacts – Managing Director and Counsel

Head computer forensics practice

Lead numerous large scale electronic discovery consulting projects and act as lead consulting expert

Lead work and testify in all manner of Computer Forensics/E-Discovery cases

1997 to 2001: Kroll Associates – Director, High Tech Investigation, Mid-Atlantic Region

Develop and lead the firm’s Mid-Atlantic high tech investigation practice from Kroll’s Washington, DC office

Manage numerous investigations and computer forensic engagements for the firm

Testify as a computer forensic expert

TESTIMONY

[Roundup Intake.pdf](#)

Tim,

Nice speaking with you this afternoon. Like we discussed the cost of a qualified lead is \$350-\$450 right now. There no additional fees for call center, mailing packets and performing the follow up to get them retained. There is also no back end fee.

Attached is the current intake. Pleas let me know if you have any additional questions.

Thank you,

Andrew Syverson

Hi Tim,

Marcus is out. To your questions yes, we are still doing Roundup and we have a lot more interest after the verdict on Friday. With the verdict getting so much media attention, we are re-working the spot to mention the verdict. The attached storyboard is the new version.

Our Roundup campaigns we handle from beginning to signed retainers. We run the media, handle the calls and intake, mail packets out and perform follow up. We guarantee 50% retention at a minimum, but typically will get 70%-80% retention.

We are running Roundup on a campaign basis, which means we do not guarantee a cost per lead, but can tell you it is between \$350-\$450 right now and we do not charge a back end fee.

Please let me know if your friend is interested in getting something started or if they have any questions.

Thank you,

Andrew Syverson

great, we may be finished with new intakes, with some exceptions, but I believe I can match you with a good home for these. I will be in touch.

Subject: RE: New submission from Contact Us

I have attached our intake for Roundup. Can you review and let me know if it works for you? We would prefer to use this one, or at least something similar. We can customize it somewhat for you.

Also, I did some quick analysis on past conversion rates for our other Roundup leads and the actual rates were between 60-70%.

Thanks,
Marcus

You would be purchasing approx 50 leads at \$325 per = \$16,250. We guarantee a minimum 50% conversion to signed client. Actual conversion rate could, and probably will be, higher. But assuming the 50% conversion, 25 signed cases works out to \$650 per. Again, that could be lower if actual conversion is higher.

And that is correct, we handle getting packets mailed and retainers signed. All we need from you is a cover letter, retainer and HIPAA.

We can also pull medical records but that would be an extra cost. I can get those costs if you need them.

Regards,
Marcus

so, just boiling this down, it is guaranteed \$6340 or less per retained case, basically, and you handle getting retainer signed?

\$325 per lead and we guarantee at least a 50% conversion to retained client. We would handle all of the legal mgmt / paperwork and deliver to you a signed client.

Regards,

Marcus

\$325 per lead, or per retained case?

Hi Timothy - we don't charge any back-end fees. These are all generated from our TV campaigns. We have about 45-50. We can sell them to you at \$325 per.

Let me know if you are interested or if you know of another firm who might be.

Thanks, and nice work on the ruling!

Regards,

Marcus

Hello - I saw the good news on the recent Roundup ruling. If you guys can take on more cases, we have several Roundup leads that came in from a marketing campaign we recently ran. If you are not interested in additional cases, please let me know if there is another firm you think could benefit. I'd like to find a home for them.
