**Subject:** RE: IFCA Ag Retail Dicamba Survey Report

Bernie,

We are meeting with the IL Fertilizer and Chem. Association next Tuesday in STL to discuss this recently conducted survey of their retail members about their experiences this summer when spraying dicamba formulations in the Xtend Crop System. The purpose of the 28 question survey was to understand from these commercial applicators what went well as well as areas for improvement for next year. They plan to share the results with us and have offered to work together to help message and educate for improvement management.

**Ryan Rubischko**

**Subject:** FW: IFCA Ag Retail Dicamba Survey Report  
**Importance:** High

Received this from Kie today. Doesn't appear to match up very well with our message.

WFU is supportive but views this as an opportunity to help align the industry because we are not saying the same things about what we believed happened with off target.

FYI.

B

**Subject:** FW: IFCA Ag Retail Dicamba Survey Report  
**Importance:** High

The IFCA board officially published their findings into the Illinois related issues of Dicamba over the last 4 months and this was distributed today to all members. The survey and commentary was a direct result of retailers voluntarily

offering their insights and opinions. Many of the participants are Winfield United owners. The IFCA board intends to share this directly with Monsanto and BASF.
