**Subject:** Update on IARC's problematic report  
**Date:** Monday, March 21, 2016 2:53:00 PM

---

Hi All,

Thought you would find this blog of interest: <https://risk-monger.blogactiv.eu/2016/03/21/iarcs-unprofessional-and-unethical-behaviour-time-to-retract-their-glyphosate-monograph/>

Given that the IARC report is still not publically available, there is clearly something very wrong within the IARC/WHO relationship about this report. I've filed an access to information request with IARC to get access to the transcripts of the presentation by Portier as there seem to be clear grounds for conflict of interest and a blatant lack of transparency.

Cheers,  
Stuart
