Subject: U.S. industry meeting on Mexico & glyphosate

Matt and Leslie,

I wanted to let you know that U/S McKinney and Administrator Isley met with U.S. industry representatives today on the glyphosate issue. The group will be meeting with Ambassadors Doud and Mahoney next week. The group is pushing for USG to fold this issue into the USMCA certification process. I noted that the interagency effort on certification was underway, led by USTR. We didn't engage on the substance of this particular request, but I wanted to flag they will be bringing it up over there.

We also discussed various strategies for outreach to the Mexican government. Let's discuss as our plans develop. Rachel will be back in the office on Wednesday, and she has more of the history of USG discussions on this issue than I do.

Let me know if you have questions.

Thanks,

Kevin
