ENGLAND

Dear Alan:

I have enclosed four (4) pieces of correspondence from Chevron to the EPA regarding Paraquat. The two dated April 15, 1980 and May 27, 1980 are transmittal letters for various reports.

The letter of May 5, 1980 attempts to get the PP-769 emetic petition moving again.

Lastly there is a copy of the cancellation notice for Ortho Gramoxone Dual from the EPA dated May 23, 1980.

Sincerely yours,

H. G. Franke
