Subject: Commentary for Emerging Microbes & Infections

Hi Linda,

Invited by the editor in chief of EMI, Lushan Su from UNC and I have written a commentary on the possible origin of the 2019-nCoV or SARS-CoV-2 in order to dispute some rumors, and we would like to invite you as a coauthor. Attached please find an almost complete draft (references needed) of the commentary, so kindly let me know what you think. Your comments and suggestions are very much appreciated.

Thanks.

Shan-Lu
