Subject: modification of release GenBank MN312240-MN312869
X-Mailer: Smart

Dear Dr. Hu:

As per your request:

=====

As the preprint of manuscript using the sequences MN312240-MN312869 is ready to be published soon, I hereby request that these sequences be released on 1st June 2020.

=====

We have changed the release date for the GenBank records in MN312240-MN312869 to:

01 June 2020.

Your records will not be released to the public database until this date, or until the data or accession numbers are published, whichever comes first. To remove the hold date for the release of your records, please send a request to: gb-admin@ncbi.nlm.nih.gov

If you have additional information about your sequences or if you wish to make further revisions, please inform us. Revisions to your data may pertain to the bibliography, to the biological data (e.g., new features), or to the sequence data. Please send additional revisions to: gb-admin@ncbi.nlm.nih.gov

Since the flatfile record is a display format only and is not an editable format of the data, do not make changes directly to a flatfile. For complete information about different methods to update a sequence record, see: <https://www.ncbi.nlm.nih.gov/Genbank/update.html>

Thank you again for your submissions to GenBank.

Sincerely,

Jason Lowry
