Subject: RE: PREDICT-2 behavioral risk surveillance meeting in DC

No problem at all. By mid-May we'll be able to give a full review of work already done and plans moving forward.

Re. dates – we have a meeting at Davis on 16th & 17th of May, and I know that Dennis is trying to set up GVP meetings for the week after, so it would be good to lock in a date fairly soon.

Cheers,

Peter
