Subject: FW: 2019 N-CoV

Victor

Eddie Holmes and a small group have been looking extensively at the origins and evolution of n-CoV including all theories.

This is the latest summary, written as part of a series of TC discussions we set up and included Tony and Francis as well as a small group from USA UK, Europe and Australia.

Time zones will probably not allow a call between EST, GMT and Australia – but I am happy to talk through over the phone on Saturday evening. Does 7pm UK time suit you?

Best wishes Jeremy
