ON THE PULSE OF PUBLIC POLICY

Policy Preview: 2016

The Academy appreciates members' support of the organization's legislative and regulatory issues in 2015. Your involvement will be key in implementing the Academy's priorities in 2016, as well. In January, it is expected that the 2015 *Dietary Guidelines for Americans* will be released and Child Nutrition Re-authorization will begin in the Senate. Review key talking points on the Older Americans Re-authorization Act, Preventing Diabetes in Medicare Act and Treat and Reduce Obesity Act.

Fight to Preserve Prevention Fund Coming in Early 2016

When Congress returns from winter recess, the House will vote on the Reconciliation bill, which would repeal the Prevention and Public Health Fund. Academy members play a critical role in community-based prevention programs that are supported by the Prevention Fund. The Academy strongly opposes this legislation and members are encouraged to tell your members of Congress to keep the Prevention Fund intact.

[Learn More](#)

Support Grows for Providing MNT for Prediabetes

Six new co-sponsors joined the Preventing Diabetes in Medicare Act (H.R. 1686), increasing the number of sponsors to 31: Reps. Vern Buchanan (Fla.), Doris Matsui (Cali.), Grace Napolitano (Calif.), Eleanor Holmes Norton (D.C.), Lamar Smith (Texas) and Richard Nolan (Minn.). When

Congress returns in January, the Academy will renew efforts to pass this important legislation. Materials on the importance of the legislation and an organizational sign-on letter in support of the bill are available.

January 22 Deadline: Nominations for 2016 Public Policy Leadership Award

The Academy seeks nominations for the 2016 Public Policy Leadership Award. Recipients must be members of Congress who demonstrate outstanding service and support for issues of importance to Academy members and the public. Nominations must come from Academy Affiliates. The nomination deadline is January 22.

[Learn More](#)

Opportunities to Offer Input on Proposed Regulations and Government Initiatives

Federal agencies continue to be busy issuing multiple proposed regulations affecting everything from food labeling (such as GMOs and use of the term "natural") to successes in the Indian Health Service and technology initiatives. Members are encouraged to work with your dietetic practice groups to submit input on these initiatives, which are detailed in the Public Policy Weekly News and on the Academy's website.

[Learn More](#)

Comments Due January 26: Policies Proposed to Improve Delivery of Chronic Care

Senators seeking long-term solutions to chronic care management released a bipartisan "Policy Options Document" to generate ideas for policies to improve disease management, streamline care coordination, improve quality and reduce Medicare costs. The document includes the Academy's suggestions to include options for expanding telehealth, eliminate barriers to care coordination, expand access to prediabetes education and expand options for obesity treatment options. Input is welcome from dietetic practice groups and member experts. Comments on the document are due January 26.

CPE CORNER

January 7 Webinar: The ABCs of PQRS

If you are a Medicare provider, a free January 7 webinar can help you gain a clear understanding of how to successfully participate in the PQRS program to maximize reimbursement. The webinar offers 1.5 CPE hours.

[Learn More](#)

January 26 Webinar: 'Changing the Way We Look at Agriculture'

Participants in a January 26 webinar, "Changing the Way We Look at Agriculture," will gain an understanding of the state of U.S. and international farming and learn about innovative strategies to help nutritiously feed the growing world population. This webinar, which offers 1 CPE credit, is made possible through an educational grant from National Dairy Council.

[Learn More](#)

Online Certificate of Training Program: 'Vegetarian Nutrition'

This growing trend offers registered dietitian nutritionists opportunities to be the go-to source for tailoring a healthy vegetarian diet. A new online certificate program prepares RDNs to excel in this specialty.

[Learn More](#)

Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

Learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

Learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

Learn about critical issues such as changing clinical environments, building business relationships and the ever-evolving roles and responsibilities of today's RDN.

[Learn More](#)

Updated Online Certificate of Training Program: 'Chronic Kidney Disease Nutrition Management'

Learn about the most recent population data from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

[Learn More](#)

Certificate of Training: Childhood and Adolescent Weight Management Program

This program takes place March 22 to 24, 2016, in Indianapolis, Ind.

[Learn More](#)

Level 2 Certificate of Training: Adult Weight Management Program

This program takes place April 1 to 3, 2016, in New Brunswick, N.J.

[Learn More](#)

New: Certificate of Training in Adult Weight Management Program

This program takes place May 13 to 15, 2016, in Pittsburgh, Pa. Registration opens December 21.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. They include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention," "Promoting and Supporting Breastfeeding" and "Principles of Productivity in Food and Nutrition Services." These papers and quizzes can also be accessed through the Online Learning Center.

CAREER RESOURCES

eNCPT Student Guide

Now available for educators, the eNCPT Student Companion Guide is a comprehensive student companion to the electronic Nutrition Care Process Terminology that guides, challenges and tests students on each step of the NCP. An Instructor's Solutions Manual is also available to NDEP members.

Updated Terminology and Modules: Subscribe to eNCPT

Purchase the eNCPT, now with updated terminology and modules, to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services' mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC.
[Learn More](#)

Nutrition Focused Physical Exam Pocket Guide

The NFPE Pocket Guide is now available in the eatrightSTORE. The cost is \$10 for members and \$13 for non-members.
[Learn More](#)

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration and it is now available to all educators. Download the preceptor's guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant to the Academy's Foundation from National Dairy Council.
[Learn More](#)

Smart from the Start Awards

Preschool teachers are encouraged to apply for awards (\$20,000 grand prize and \$2,500 for 10 runners-up) to create practical, long-term improvements in nutrition and physical activity at their schools.
[Learn More](#)

RESEARCH BRIEFS

Connect to eNCPT

Members of the Academy's Research, International and Scientific Affairs team recently provided a workshop for the Chinese Medical Nutrition Group on the Nutrition Care Process and its relationship to malnutrition screening and assessment. Make the same connection by subscribing to the eNCPT.

[Learn More](#)

ACADEMY MEMBER UPDATES

Beginning January 1: Call for FNCE 2016 Abstracts

Have you conducted research in nutrition and dietetics? Do you have a unique program or project you would like to feature? Consider presenting at the Academy's 2016 Food & Nutrition Conference & Expo. New research and innovations in a wide variety of topics will be presented during poster sessions.

[Learn More](#)

Nominate a Colleague for an Academy Award

Let the Academy know by January 16, 2016, of your intent to nominate a fellow member for the Academy's National Honors and Awards program. Begin an online nomination and enter your name, the name of your nominee and the award. Recipients will be announced in May and will be recognized at the 2016 Food & Nutrition Conference & Expo.

[Learn More](#)

For Media Spokesperson Program: Academy Seeks Halal Nutrition Specialists

The Academy seeks polished, enthusiastic and articulate registered dietitian nutritionists with expertise in halal nutrition to join the Academy's national Spokesperson program. All Spokesperson applicants must be passionate about spreading science-based and timely nutrition messages to the public through broadcast, print and internet media. The application deadline is February 1, 2016.

[Learn More](#)

March 1 Application Deadline: Diversity Promotion Grant

A \$10,000 Promotion Grant is available to recognized Academy groups in support of diversity recruitment and retention projects. The deadline to apply is March 1, 2016.

[Learn More](#)

PHILANTHROPY, AWARDS AND GRANTS

RDNs in Iowa Help Incorporate Nutrition Education and Activity Into School Day

Teachers in Iowa incorporate more nutrition education and physical activity into the school day through Kids Eat Right's "Healthy Schools. It's a Team Effort" workshops. Workshops are being

held at 20 schools; 10 will receive technical assistance and support from registered dietitian nutritionists to apply for USDA's HealthierUS School Challenge award.

[Learn More](#)

February 1 Deadline: Ruby P. Puckett/Elizabeth Frakes Food Management Continuing Education Award

Two awards - of up to \$2,000 each - assist qualified professionals' attendance at the Academy's Food and Nutrition Conference & Expo or another conference related to food and nutrition management. The application deadline is February 1, 2016.

[Learn More](#)

February 1 Deadline: Marianne Smith Edge Award

This \$1,000 award provides financial support to registered dietitian nutritionists who have been in practice fewer than 10 years to obtain leadership training and development. The application deadline is February 1, 2016.

[Learn More](#)

February 1 Deadline: First International Nutritionist/Dietitian Fellowship for Study in the USA

This \$2,200 award assists foreign nationals who are pursuing postgraduate work in the United States and have a clearly articulated plan to return to their country. The application deadline is February 1, 2016

[Learn More](#)

February 1 Deadline: Wimpfheimer-Guggenheim Fund for International Exchange in Nutrition, Dietetics and Management

This fund provides up to two \$1,100 awards for essays describing new approaches, including the application of technology, to feed the hungry by maximizing underutilized food resources or through a fresh produce program reducing food wastage. The deadline to submit essays is February 1, 2016. Email Amy Donatell for more information.

[Learn More](#)

February 1 Deadline: Apply for Foundation Awards

The Foundation offers continuing education, international and program development awards. The application deadline is February 1, 2016.

[Learn More](#)

Ensure Your Tax-Deductible Donations Are Made for This Year

Your support for the Foundation's Annual Fund enables the Foundation to continue providing scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. "Entering the field of dietetics is financially difficult for many people. I will definitely donate to the Foundation to help other students like me!" - Catalina Esqueda, 2015 Commission on Dietetic Registration Diversity Scholarship recipient.

[Learn More](#)

December 23, 2015

Quick Links: [On the Pulse of Public Policy](#) | [CPE Corner](#) | [Career Resources](#) | [Research Briefs](#)
[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

January 22 Deadline: Nominations for 2016 Public Policy Leadership Award

The Academy seeks nominations for the 2016 Public Policy Leadership Award. Recipients must be members of Congress who demonstrate outstanding service and support for issues of importance to Academy members and the public. Nominations must come from Academy Affiliates. The nomination deadline is January 22.

[Learn More](#)

Comments Due January 26: Policies Proposed to Improve Delivery of Chronic Care

Senators seeking long-term solutions to chronic care management released a bipartisan "Policy Options Document" to generate ideas for policies to improve disease management, streamline care coordination, improve quality and reduce Medicare costs. The document includes the Academy's suggestions to include options for expanding telehealth, eliminate barriers to care coordination, expand access to prediabetes education and expand options for obesity treatment options. The Academy welcomes input from dietetic practice groups and member experts. Comments on the document are due January 26.

[Learn More](#)

Congress Passes Funding Bill, Heads Home for Holidays

The House and Senate approved a funding bill that keeps the federal government open through September 30, 2016. The legislation increases investments in health and nutrition programs and

reflects an increased emphasis on prevention of chronic diseases. The House will return from the winter recess on January 5 and the Senate returns January 11.

[Learn More](#)

Coming in Early 2016: Fight to Preserve Prevention Fund

House Speaker Paul Ryan (Wis.) intends to move a bill to de-fund the Public Health and Prevention Fund when Congress returns from the winter recess. Academy members play a critical role in community-based prevention programs that are supported by the Prevention Fund. The Academy strongly opposes this legislation, and members are encouraged to tell your members of Congress to keep the Prevention Fund intact.

[Learn More](#)

At Healthy People 2020 Webinar: Member Highlights Work in Diabetes

Diabetes self-management education, often provided by registered dietitian nutritionists, empowers individuals to take control of their diabetes care. At a webinar hosted by Healthy People 2020, the Diabetes Advocacy Alliance and the U.S. Department of Agriculture's Office of Disease Prevention and Health Promotion, Academy member Mary Bea Kolbe, MPH, RD, LDN, of the North Carolina Department of Health and Human Services, detailed successes of DSME programs, highlighting their cost-effectiveness and beneficial impact on clinical markers. The Academy is a co-chair of the Diabetes Advocacy Alliance.

[Learn More](#)

National Institutes of Health Releases Five-Year Strategic Plan

The National Institutes of Health released its five-year strategic plan, laying out strategies to advance opportunities in research in health promotion and disease prevention and in treating and curing diseases. The Academy works closely with NIH and its individual institutes and offices, and looks forward to engaging in these opportunities.

[Learn More](#)

Opportunities to Offer Input on Proposed Regulations and Government Initiatives

Federal agencies continue to be busy issuing multiple proposed regulations affecting everything from food labeling (such as GMOs and use of the term "natural") to successes in the Indian Health Service and technology initiatives. Members are encouraged to work with your dietetic practice groups to submit input on these initiatives, which are detailed in the Public Policy Weekly News and on the Academy's website.

[Learn More](#)

Member Appointed to Alabama Health Care Improvement Task Force

Academy member Patricia Z. Marincic, PhD, RD, LD, CLE, associate professor and director of the didactic program in dietetics at Auburn University, has been appointed by Alabama Gov. Robert Bentley to the state's new Health Care Improvement Task Force. Marincic is part of a distinguished group of health professionals, administrators and legislators who will recommend

legislation and policies to improve public health and accessibility to high-quality, affordable care.

Fifty Plus in Nutrition and Dietetics Travel Club: Destination Savannah

Members of the Academy's Fifty Plus in Nutrition and Dietetics member interest group - and their families and friends - will travel to Savannah, Ga., April 21 to 24, 2016. Cooking classes, gourmet meals, networking and exploring the city are on the itinerary. Continuing professional education credits are available

[Learn More](#)

Online Certificate of Training Program: 'Vegetarian Nutrition'

This growing trend offers registered dietitian nutritionists opportunities to be the go-to source for tailoring a healthy vegetarian diet. A new online certificate program prepares RDNs to excel in this specialty.

[Learn More](#)

Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

Learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

Learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

Learn about critical issues such as changing clinical environments, building business relationships and the ever-evolving roles and responsibilities of today's RDN.

[Learn More](#)

Updated Online Certificate of Training Program: 'Chronic Kidney Disease Nutrition Management'

Learn about the most recent population data from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

[Learn More](#)

Certificate of Training: Childhood and Adolescent Weight Management Program

This program takes place March 22 to 24, 2016, in Indianapolis, Ind.

[Learn More](#)

Level 2 Certificate of Training: Adult Weight Management Program

This program takes place April 1 to 3, 2016, in New Brunswick, N.J.

[Learn More](#)

New: Certificate of Training in Adult Weight Management Program

This program takes place May 13 to 15, 2016, in Pittsburgh, Pa. Registration opens December 21.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. They include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention," "Promoting and Supporting Breastfeeding" and "Principles of Productivity in Food and Nutrition Services." These papers and quizzes can also be accessed through the Online Learning Center.

CAREER RESOURCES

Once a Fellow, Always a Fellow

Becoming a Fellow of the Academy of Nutrition and Dietetics is an excellent way to showcase your expertise to employers, colleagues, clients and the public. Apply online and be recognized for your professional accomplishments, valuable service to the public and pursuit of lifelong learning.

[Learn More](#)

Develop Nutrition Education Handouts with DANEH

The Developing and Assessing Nutrition Education Handouts checklist can help you assess existing handouts and create effective new materials in keeping up with what the latest literature says about effective handouts.

[Learn More](#)

eNCPT Student Guide

Now available for educators, the eNCPT Student Companion Guide is a comprehensive student companion to the electronic Nutrition Care Process Terminology that guides, challenges and tests students on each step of the NCP. An Instructor's Solutions Manual is also available to NDEP members.

Updated Terminology and Modules: Subscribe to eNCPT

Purchase the eNCPT, now with updated terminology and modules, to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services' mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC.

[Learn More](#)

Nutrition Focused Physical Exam Pocket Guide

The NFPE Pocket Guide is now available in the eatrightSTORE. The cost is \$10 for members and \$13 for non-members.

[Learn More](#)

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration and it is now available to all educators. Download the preceptor's guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant to the Academy's Foundation from National Dairy Council.

[Learn More](#)

RESEARCH BRIEFS

International Year of Pulses

Pulses are annual leguminous crops yielding between one and 12 grains or seeds of variable size, shape and color within a pod, used for food and feed. The 68th United Nations General Assembly declared 2016 the International Year of Pulses. The U.N.'s Food and Agriculture Organization will facilitate implementation of the year with governments, non-governmental organizations and other stakeholders.

Election Process Webinar

View the recorded "National Campaign and Social Media Guidelines" webinar to learn about the Academy's National Campaign and Social Media Guidelines.

[Learn More](#)

For Media Spokesperson Program: Academy Seeks Higher Education Specialists

The Academy seeks polished, enthusiastic and articulate registered dietitian nutritionists with expertise in a college or university setting to join the Academy's national Spokesperson program. All Spokesperson applicants must be passionate about spreading science-based and timely nutrition messages to the public through broadcast, print and internet media. The application deadline is February 1, 2016.

[Learn More](#)

March 1 Deadline: Diversity Action Award

A \$1,000 Diversity Action Award is available to recognize Academy groups in support of past diversity recruitment and retention projects. The application deadline is March 1, 2016.

[Learn More](#)

PHILANTHROPY, AWARDS AND GRANTS

February 1 Deadline: Ruby P. Puckett/Elizabeth Frakes Food Management Continuing Education Award

Two awards - of up to \$2,000 each - assist qualified professionals' attendance at the Academy's Food and Nutrition Conference & Expo or another conference related to food and nutrition management. The application deadline is February 1, 2016.

[Learn More](#)

February 1 Deadline: Marianne Smith Edge Award

This \$1,000 award provides financial support to registered dietitian nutritionists who have been in practice fewer than ten years to obtain leadership training and development. The application deadline is February 1, 2016.

[Learn More](#)

February 1 Deadline: First International Nutritionist/Dietitian Fellowship for Study in the USA

This \$2,200 award assists foreign nationals who are pursuing postgraduate work in the United States and have a clearly articulated plan to return to their country. The application deadline is February 1, 2016.

[Learn More](#)

February 1 Deadline: Wimpfheimer-Guggenheim Fund for International Exchange in Nutrition, Dietetics and Management

This fund provides up to two \$1,100 awards for essays describing new approaches, including the application of technology, to feed the hungry by maximizing underutilized food resources or through a fresh produce program reducing food wastage. The deadline to submit essays is February 1, 2016. Email Amy Donatell for more information.

[Learn More](#)

February 1 Deadline: Apply for Foundation Awards

The Foundation offers continuing education, international and program development awards. The application deadline is February 1, 2016.

[Learn More](#)

Indianapolis RD Parent Empowerment Program

Registered dietitian nutritionists in Indianapolis, Ind., recently brought RD Parent Empowerment Program workshops to parents in a high-need area and included supplemental recipes and groceries to prepare healthy family dinner meals. Download the four-week RD Parent Empowerment Program, with leader outlines, teaching materials and parent guidebooks in English, Spanish and Chinese. The project is made possible through an educational grant to the Foundation from Elanco.

[Learn More](#)

Ensure Your Tax-Deductible Donations Are Made for This Year

Your support for the Foundation's Annual Fund enables the Foundation to continue providing scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. "Entering the field of dietetics is financially difficult for many people. I will definitely donate to the Foundation to help other students like me!" - Catalina Esqueda, 2015 Commission on Dietetic Registration Diversity Scholarship recipient.

The agenda and corresponding attachments for the January 12-13 Board meeting have begun to be posted on the Board of Directors' communication platform. Paper copies will not be automatically provided; please contact me by Monday if you want to receive a paper packet. All attachments for agenda items will be e-mailed and placed on the communications platform by Tuesday, January 5. Attachments for the Executive Session will not be placed on the communication platform but will be e-mailed to you by Friday, January 8.

Click [here](#) and enter your Academy website username and password to access the agenda and attachments. The committee and task force reports which have been placed on the Board portal can be viewed [here](#). Please reply to all if you have any questions or if a report needs full member discussion at a Board meeting.

The meeting will be held at the Loews Chicago O'Hare Hotel, 5300 North River Road in Rosemont, Illinois. Reservations have been made for arrival on January 12, unless you request otherwise. Your hotel room will be master-billed, but you will be asked to pay for incidentals. The hotel is located two miles from the airport and offers a complimentary airport shuttle to all guests. For domestic flights, pick up is at the Hotel Shuttle Center, Door #2 located by baggage claim; follow the red Shuttle Center signs. Transportation is also available by taxi, just a 10-15 minute ride between the airport and the hotel.

Please contact me if you have any questions.

Best regards,

Joan

MCT Oil

From weight loss to hospital therapies, this synthetic oil is gaining traction as a trendy supplement. But what exactly is it, and how strong is the evidence behind its use?

The Tale of Two Diets

Dietary fat has long been debated for its potential roles in health. Designed to prevent heart disease and seizures, two vastly different diets emerged with opposing approaches that some say work well for weight loss.

Essential Omegas

The latest research on omega-3 fatty acids and potential health benefits of omega-6 fatty acids are hot topics in nutrition. Learn more about this dietary duo.

The Cholesterol Conundrum

Thirty years ago, when dietary and serum cholesterol were first linked with heart disease, cholesterol became the nutrient everybody loved to hate. But serum cholesterol's reputation may be on a road to redemption.

Mediterranean Marvels

Ranging in hue, size and flavor, olives are a palate-pleasing option for snacks and hors doeuvres, martinis and cocktails or recipe additions.

Subject: Campaign Guidelines
Attachment: [National Campaign and Social Media Guidelines.pdf](#)

Attached are the current campaign guidelines approved by the Nominating Committee. Please note that the Board's role is to become informed about the candidates and encourage members to vote. No member of the Board of Directors, while serving on the Board, may support an individual candidate through print, electronic or social media communications (e.g., Internet, Facebook, Twitter or Linked In). The guidelines were sent to all candidates on the 2016 ballot.

Nominating Committee Members Martha Peppones, MS, RDN, CD, CSG and Tracy Wilczek, MS, RDN, LDN, are presenting a webinar to all Academy members on December 21 at 11am-12pm CST to provide details regarding the campaign guidelines. If interested in participating please click [here](#) to register. The webinar will be recorded and uploaded to the elections website for future playback.

Any questions related to the Nominating Committee process can be sent to me at jschwaba@eatright.org.

Thank you!

Subject: School Nutrition Services DPG - Comments on Sponsorship Task Force Recommendations

Dear Dr. Crayton and Members of the Academy Board of Directors,

On behalf of the Executive Committee (EC) of the School Nutrition Services (SNS) DPG, we certainly appreciate the sponsorship deliberations and discussion held during both the Spring 2015 HOD virtual meeting and Fall 2015 HOD meeting in Nashville. In addition, we value the hard work of the Sponsorship Advisory Task Force which was appointed to review this important issue, provide detailed reports, and facilitate discussion at the fall HOD meeting. Many of our members either work closely with industry or are employed in various capacities within industry. Therefore, our EC felt it was important to express our thoughts to the Academy leadership team regarding this important issue.

We look forward to the task force recommendations and the final decision of the Academy Board of Directors. We are certainly willing to assist in any capacity as needed.

Sincerely,

Diane Duncan-Goldsmith

Subject: RE: Finance and Audit Committee meeting on Tuesday, December 22nd at 1 p.m. CST
Attachment: [Narrative for november.xlsx](#)

All,

Again, I want to apologize for not having the correct time on my email reminder yesterday. In any event, as you all know, our Finance and Audit Committee meeting will be on Tuesday, December 22nd at 1:00 p.m. CST. Maria has begun to put the information onto the portal and will let you know when everything is completed. The meeting agenda will focus on the following;

1. October final financials
2. November preliminary financials
3. April FAC meeting
4. Follow-up on the Alcohol spending review.

The reason I would like to add back the April FAC call back to the agenda is I would like the Committee to consider having this meeting via webinar instead of in person in Chicago. As I thought about the meeting, I realize that it can be an inconvenience for everyone to travel. That made me look deeper at what we generally discuss;

1. Insurance review by Rob Wessel (from Louisville)
2. Investment review by Al Bryant (from Chicago)
3. Current financials
4. Budget

All of these items generally have “presentations” and PowerPoint's that we go through. These can easily be done via webinars. We have historically scheduled about 1.5 days of work. There are times we can, and do, get done by the end of the first day. I know I hate to sit through a full day of “webinar presentations”. However, we could break the schedule up over two days (4 hours each morning?). Doing this would;

1. Save time for all of you
2. Save around \$10,000 for the Academy
3. Allow us to invite incoming FAC leaders without impacting budgets
4. Sets an example for all of the other committees within the organization.

So, between now and Tuesday, I would like all of you to consider whether or not this would be an appropriate choice for the FAC Committee. We will discuss it together on Tuesday.

Now, onto the narrative.

I. October Adjustments

We did make a few adjustments in the financials for October.

1. Academy - We did a deep dive into the Hotel rebates from FNCE with the Meeting's team. They indicated that that we will receive a higher rebate/commission on the hotel rooms than we originally booked. Therefore, we booked an additional \$33,600 in revenue for October.
2. CDR – We looked a little closer at the Bank and Trust Fees for CDR and reduced the amount charged to CDR by \$9,442.
3. DPGs/MIGs/ACEND – Since we did open the other two areas and were made aware of an additional grant/sponsorship provided to a DPG for FNCE, we recorded an additional \$9,229 in revenue for the DPG.

Overall, the changes improved the financial results for October.

II. Investments

Investments have been “rocky” to say the least over the past few months. We had the big rebound in October. This was followed by a small \$7,300 gain in November. Not great, but at least an increase. Unfortunately, December has been just as volatile. As of yesterday, the portfolio has lost approximately \$776,000 this month. Today, is selling off. So, it appears that we will have to endure the continual ups and downs for the near future.

III. Academy preliminary November Financials (A3 and A10)

The Academy results for November did not meet budget expectations. In November, the Academy missed the revenue target by \$36,697. On the expense front, the Academy was over budget by \$51,208. If you combine these two numbers, you will see that the Academy missed its operating income target by \$87,905. Investments, even though positive, missed the budget target

by \$97,615 in November. So, after adding everything together, the Academy had a Net Deficit of \$255,867. This underperformed the budget by \$185,520.

Through November, the Operating Revenues are down by \$381,362 while the Operating Expenses are under budget by \$120,193. This results in an Operating Deficit of \$103,962. This is under-performing to budget by \$261,169. Even though this is not great, we are still performing much better than FY15 through November. As you can see, the Academy had an Operational Deficit of \$718,082 through November in FY15. Compared to FY16, the Academy is \$614,120 better than last year.

The revenue in November continued to under-perform in some of the same areas as we have discussed previously; Membership (down \$18.7K), Publications (down \$20.5K) and Sponsorships (down \$27.1K). These are the recurring categories we have seen all year. Publication's is narrowing the gap on the budgets. This month, the major drivers of the under-run are List Rental (down \$6.2K) and Marketing (down \$8.4K). Traditional Publications is still down for the month (down \$6.2K), but, we are seeing some traction with the new releases that began rolling out in October.

On the expense front, the Academy had a quite a few categories that were up and down. The largest of which was travel (up \$29.9K). Some of the travel is due to new initiatives that are funded (Research). However, additional costs for the Board of Directors (up \$11.3K) and FNCE (\$10.1K) are over-runs. We will keep monitoring the travel, but, it could appear that we may have cut back too much when developing the budgets in FY17. The only other area that jumps out is Legal and Audit (up \$5.9K). This is due to higher legal bills. This does fluctuate from month to month and we will see if we can keep these costs down. However, we have an ethics issue that has cost the Academy and CDR a great deal in legal fees. Hopefully, that will not continue.

I am attaching the variance grid for you to review. It should provide to you the detail that you may be looking to review.

IV. Foundation Preliminary November Financials (A2, A8 and A9)

The Foundation had a great month in November thanks to a bequest from Dr. Hertzler's estate (\$262,592) and a donation from Alice Wimpfheimer (\$100,000) some of which was in honor of her friend, Pakita Erdell who passed away recently. Revenue, overall, was \$385,681 over budget. On the expense front, the Foundation was over budget by \$30,858. However, Scholarships and Awards was over budget by \$43,871. The Scholarships and Awards is a timing issue. So, if you

back this out of the equation, the Foundation would have been \$13,013 under budget in expense for November.

Year to date, the Foundation's revenue was \$360,746 over budget while the expenses are \$150,697 under budget. This results in an under-run of their Operating Deficit of \$511,443. So, the Foundation is performing well. The only negative at this time is the Investment income. Investment income is now \$954,000 below budget.

Even with the under-runs in investment income, the Foundation still retains nearly \$23.1 million in reserve (A9).

V. CDR preliminary November Financials (A4 and A11)

CDR , overall, had a good month in November. Even though revenue was under budget by \$9.1K, Operating income was over budget by \$25.4K. Naturally, the over-run is being driven by under-runs in expense (down \$34.6K). The major factor to determine if CDR had a good month is the Operating Income of \$71,056. Anytime you have Operating Income, you had a good month. The only negative is the Investment Income. Investment Income fell short of budget by \$44,361.

On a year to date basis, CDR is performing very well. Even though revenue is short of budget by \$34,932 (primarily due to Weight Management education programs), overall Operating Income is \$813,976 higher than the budget. So, the expense under-runs are winning the day. Even after you factor in the investment income shortfall, CDR is still showing Net Income of \$39,678. This is \$483,622 higher than the budget. CDR is doing very well.

VI. DPGs/MIGS/ACEND Preliminary November Financials (A5 and A12)

The combined DPGs/MIGS/ACEND financial results were below expectations in November. Both revenue (down \$27.3K) and expense (up \$23.9K) missed the budget targets. However, the final results are still an Operating Income of \$96,494. As I mentioned above, it is always good to have a positive result.

On a year to date basis, the combined revenues are under-performing by \$54,561 while the combined expenses are under-budget by \$433,209. So, as has been the case with the DPGs/MIGS in the past, both revenue and expense have been budgeted higher than what is materializing. However, in the end, they will still do much better on the bottom line than originally

anticipate. You will see on page A16, the only DPG/MIG on the “watch list” is Oncology Nutrition (73%) at nearly \$182,000 in reserve. So, the DPGS/MIGs are in good financial shape.

VII. ANDPAC Preliminary November Financials (A7 and A14)

ANDPAC did not perform very well in November. Revenue was under-budget by \$1,723 while expenses were over-budget by \$4,061. Revenue is the biggest concern. ANDPAC's revenue is below budget for the year by \$12,437. Most of this is due to lower revenue than budget from the DPGs/MIGs and Affiliates. The PAC has made up for this shortfall by under-running their expense budget by \$32,832 for the year. So, even though the PAC has an Operating Deficit of \$8.5K, it is still \$20,395 better than the budget. In addition, the PAC now has \$186,459 in reserve (A18). The PAC is in very good financial shape at the end of November.

I hope this helps a little when going through the November package. As I finish this up, I can see that the stock market continues to move lower. Lets hope it will turn around. If you have any questions, or can't make the call on Tuesday, please let me know. You should have received the webinar invitation from the Academy IT department yesterday. Let us know if you have not. Also, Maria will let you know when everything is on the portal for you to review.

Have a great weekend.

Paul

Subject: 2015 Dietary Guidelines
Attachment: [image002.jpg](#)

The federal government plans to release the 2015 *Dietary Guidelines* in January, pushing back what many had expected would be an imminent announcement.

"We are making final preparations, and after consideration, determined that the best time to release the new *Dietary Guidelines* was January, given Americans' focus on healthy eating and exercise around the New Year," Kevin Griffis, a spokesman for the Department of Health and Human Services, said in a statement to POLITICO.

Advocates and industry sources had anticipated the government would release the report to foil a Republican effort to use the appropriations process to address controversial recommendations urging people to eat less red meat and sugar to lower their risk of chronic health problems. But the landscape changed after Congress decided to go with a version of the rider that is less intrusive than originally feared by health advocates.

Top administration officials have also already addressed loud concerns from lawmakers about an advisory panel's recommendation that Americans consider the environmental impact of the food they eat, saying that sustainability and tax policies would not be included in the final document.

The Departments of Agriculture and Health and Human Services, which jointly release the federal nutrition advice, are required to release the guidelines by January 31. The guidelines are updated every five years.

December 17, 2015

Dear Donna,

As the year comes to an end, on behalf of the ANDPAC Board of Directors, I would like to thank you for helping the Academy build strong and meaningful relationships with our members of Congress who impact food, nutrition and health policy.

From ensuring children and our seniors have nutritious meals, to the Dietary Guidelines, to obesity and diabetes prevention and treatment – it's been a busy year for the Academy in educating members of Congress. Because of generous donations like yours, this year ANDPAC has strategically supported over 60 members of Congress.

As you reflect on this past year and plan your gifting budget, please consider continuing your support of ANDPAC in 2016 – an important election year. We pledge to continue to work hard to advance the profession through our relationships in Congress.

Thank you again for your continued support. Have a safe and happy holiday season.

Sincerely,

Denise Andersen, MS, RDN, LD, CLC
2015 Chair, ANDPAC Board of Directors

If dietetics is your profession, policy should be your passion!

The Academy of Nutrition and Dietetics Political Action Committee is a separate segregated fund of the Academy of Nutrition and Dietetics used to support candidates and elected officials. Academy members are not required to contribute to ANDPAC and there is no reprisal for not contributing. Amounts recommended for contribution in Academy publications are merely suggestions and there is no minimum contribution level.

Federal law requires political committees to report to Federal Election Commission the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year. Corporate contributions are prohibited by law. Individuals can not contribute more than \$5000 per calendar year to the same political action committee. There is no penalty for not contributing. Donations to ANDPAC are not tax deductible.

Subject: School Nutrition Services DPG - Comments on Sponsorship Task Force Recommendations

Dear Dr. Crayton and Members of the Academy Board of Directors,

On behalf of the Executive Committee (EC) of the School Nutrition Services (SNS) DPG, we certainly appreciate the sponsorship deliberations and discussion held during both the Spring 2015 HOD virtual meeting and Fall 2015 HOD meeting in Nashville. In addition, we value the hard work of the Sponsorship Advisory Task Force which was appointed to review this important issue, provide detailed reports, and facilitate discussion at the fall HOD meeting. Many of our members either work closely with industry or are employed in various capacities within industry. Therefore, our EC felt it was important to express our thoughts to the Academy leadership team regarding this important issue.

We look forward to the task force recommendations and the final decision of the Academy Board of Directors. We are certainly willing to assist in any capacity as needed.

Sincerely,

Diane Duncan-Goldsmith

Save on ANFP Online Course Food Safety and Technology
UnsubscribeHaving trouble viewing this e-mail? View it in your browser.

Connect with the Academy:

You are receiving this message on behalf of our Marketing Partners at ANFP.

The Association of Nutrition & Foodservice Professionals is offering Academy members a 10% discount on the online course, ***Food Safety and Technology***, during the month of December. One of the most important parts of food service is learning to serve guests safely and effectively. This course provides the standards and common industry practices on how to serve guests safely. Learners will also examine recent developments in technology that help to serve food more safely and effectively.

Upon completion of this course, the following learning objectives should be achieved:

- Be able to identify and recognize the tools used to serve food safely
- Learn the history and reason we use some of the most commonly accepted standards and practices used throughout the industry today.
- Be able to identify comparable practices of keeping food safe that have been developed recently to increase our operational effectiveness.

To purchase this 5-hour SAN CE course, visit [HERE](#) and enter **ANFPANDDEC** to receive the 10% discount, which drops the price from \$50 to \$45.

Diabetes Update

Over the past 15 years advances in diabetes medicines and treatments have sky rocketed. Scientists have identified several new classes of diabetes medications allowing us to more effectively target the pathology associated with diabetes. More recently the U.S. Food and Drug Administration approved a new class of medications called sodium glucose limiting co-transporter 2 inhibitors (SGLT2) that target the kidney as a means of glycemic control. In the last three years, four new medications - including an injectable, where approved for the management of obesity in people with type 2 diabetes. And in 2013 the American Diabetes Association issued an updated position statement with new nutrition recommendations for the management of adults with diabetes. This rapid pace of research into new medications and nutrition intervention strategies for the management of diabetes, can be challenging for nutrition professionals and diabetes educators, who desire to educate their patients on the most accurate, up-to-date, evidence-based information.

ON THE PULSE OF PUBLIC POLICY

Members Advocate for Nutrition Interventions in Cancer Care

Academy members Colleen Spees, PhD, MEd, RDN, FAND, and Kathryn Hamilton, MA, RDN, CSO, CDN, FAND, and Academy staff member Pepin Tuma, JD, represented the Academy at a December 10 policy seminar in Washington, D.C. Speakers promoted the role of nutrition interventions in cancer prevention, care and survivorship, and urged that participants work to gain insurance coverage for nutrition services provided by registered dietitian nutritionists in cancer care. The Academy also introduced a new issue brief on Nutrition Interventions for Cancer Care. [Learn More](#)

December 23 Deadline: Grant Opportunity for Food and Nutrition Services Providers

The Food is Medicine Coalition's Advocacy Capacity Building Project will offer a sixth cycle for new programs in 2016. The Academy is a member of the Coalition and encourages members to apply for this opportunity by December 23. [Learn More](#)

New Congressional Diabetes Caucus Chair

The Academy commends Rep. Ed Whitfield (Ky.) as he steps down after five years co-chairing the Congressional Diabetes Caucus. Rep. Tom Reed (N.Y.) is the new co-chair, joining Rep. Diana DeGette (Colo.) in leading the largest caucus in Congress, aimed at advancing legislation to benefit people with diabetes and those at risk.

Subject: Sad News: Ken Wear

Attachment: [image003.jpg](#)

The Academy received notice of the passing of Ken Wear, former Academy Foundation Chair, who died on Wednesday, December 9, 2015. The visitation and service took place this morning, Friday, December 11, in his hometown of Mobile, Alabama. The complete obituary for Ken may be read [here](#). Ken was a dedicated Academy member and RDN who served on a number of Academy committees including the House of Delegates. He wrote the resolution that created National Nutrition Month. Ken also served two terms as Foundation Chair, one in 1988-89 and the other in 2001-2002. His passion for the Academy, the Foundation and the profession was an inspiration to many. The scholarship fund which was established in his name provides support for a minority nutrition and dietetics student. Since the fund was established in 1995, twenty students have been helped. Ken personally requested that anyone wishing to send a memorial donation, to please direct that gift to the Kenneth W. Wear Minority Scholarship fund of the Academy of Nutrition and Dietetics Foundation (just select annual fund if the Ken Wear fund option does not appear, we will recognize this gift from you is to be directed to the Ken Wear fund). You can use the link provided or send a check to:

Academy of Nutrition and Dietetics Foundation/Ken Wear Fund

120 S. Riverside Plaza, Suite 2000

Chicago, Illinois 60606-6995

We will publish a full page "In Memoriam" in an upcoming issue of the *Journal*. You are welcome to share your sentiments with Jennifer Herendeen, Senior Director of Publications and Resources, at jherendeen@eatright.org for inclusion in the article.

George Bernard Shaw must have had Ken Wear in mind when he wrote, "a gentleman is one who puts more into the world than he takes out." Ken will long be remembered for the many selfless contributions he made to the profession of nutrition and dietetics. He was a gift to all who knew him!

Best regards,
Pat

Now available! 2015 Compensation and Benefits Survey of the Dietetics Profession

The survey has exciting news to report. The median salary for RDNs (now \$63,700) and NDTRs (now \$42,000) grew more than the inflationary rise of 1.7 since the 2013 survey. As in previous editions, the survey found that RDNs and NDTRs who are members of the Academy earn more per year than non-Academy members (\$2,995 and \$3,973 respectively*).

Based on the seventh nationwide survey of dietetics professionals, this comprehensive report details the compensation for dozens of core dietitian and dietetic technician jobs, broken down by region, education, experience, supervisory responsibility and much more. The salary calculation worksheet offers users an estimation of what professionals with similar characteristics and similar situations earn, on average. Free for Academy members.

[image004.jpg](#)

Hi Donna –

The revised campaign guidelines are going through final approval by the Nominating Committee and will be released by next week to the candidates. In the guidelines it states candidates may link their personal campaign website to Academy's election webpage (www.eatright.org/elections) but Academy election webpage (or eblast) cannot link to personal campaign websites.

Hope this helps.

Subject: All Member Blast Campaign Emails

Dear Nancy and Donna,

In order to create a fair, meaningful environment for the Academy's elections, according to the National Campaign and Social Media Guidelines, candidates may not send blast emails to the Academy's entire membership, other than emails that are provided by the Academy. The Academy will publicize the president-elect candidates via three blast emails to voting eligible members. The first eblast is scheduled for Thursday, January 7, the second for Thursday, January 14 and the final on Thursday, January 28. The personal campaign content of three blast emails is of your choice – with a 150 word count. I have attached a mock-up of what the email would look like. The January 14 email will have content of your choice, along with promotion for the Meet the Candidates Forum.

Please save the dates for the Meet the President-elect Candidates Forum which will take place at 1:00pm CST on Wednesday, January 26. Details for the Forum regarding the format and schedule will be sent in late December.

Attached is a basic template which will contain your photo and link to the elections website and candidate biographical information. Please design and draft wording for a brief promotional campaign statement with a maximum of 150 words and provide to me by the following schedule.

Please know the content supplied is subject to approval by Academy staff. The final copy will be sent to you prior to publication for review and approval.

Date of E-blast

Deadline for Copy

Value of Incremental Weight Loss: Congress Hears from Experts

Determining the value and effectiveness of efforts to treat and reduce obesity should focus on more than just reduction in BMI, according to nutrition, medicine, exercise and economics experts at a recent Capitol Hill hearing. Expert speakers included Jeanne Blankenship, MS, RD, the Academy's vice president for policy initiatives and advocacy. Speakers argued that incremental weight loss produces beneficial changes in metabolic values, quality of life and health outcomes that policymakers should include as factors when calculating costs and benefits of initiatives.

Capitol Hill Briefing: Academy Members Discuss Food Insecurity and Health Outcomes

Academy members at Feeding America shared health policy innovations at a roundtable in Washington D.C. Michelle Berger Marshall, MS, RD, LDN, and Kim Prendergast, RD, MPP, focused on the relationship between food insecurity and diet-related diseases and shared Feeding America's preliminary findings from a recent pilot study of the link between diabetes and food insecurity.

This is so exciting! I had already put a "rock the vote" slogan on my web page, but will wait to see if we will be allowed to use some of this on our social media campaigns. Another great example of how amazing our media team is. I am so pumped up about all of this. Thanks for keeping me in

the loop.

I am continuing to pray for you and your daughters over this holiday season, as I know how tough it is on all of you. My hope is that you will take some time off over the holidays to spend with your girls. Your time with them would be the best Christmas present they could receive.

Your support is one of my best Christmas presents this year!

Subject: Vote Slogans

I asked the Academy's Creative Media team to think of something clever as a tag line why people should vote in Academy elections. The online/social media promotions campaign they created for the committee's consideration follows. I personally love their proposed theme, "*Own Tomorrow. Vote Today.*" Please read below.

+++++

Hi Pat,

As promised, the Creative Media team regrouped on this today and below is the online/social media promotions campaign we recommend for your consideration:

Campaign

Academy elections

KPIs

- Increased voting activity in 2016 elections (measurable)
- Positive engagement among members (sentiment is measurable but there's no comparative data; can begin benchmarking in 2016)

Timeline

January 2016 (campaigning), February 2016 (voting)

Audience

Academy members, particularly those who are less-engaged and/or younger members in their first three-four years of membership.

Application

Contemporary umbrella campaign with supporting online creative assets and digital media plus a robust social media program leveraging all engagement communities and influencers.

Rationale

Historically the election promotions have been centered on noble themes of *it's your duty, be a leader, have a voice, do it for the profession*, etc., using language designed to evoke inspiration, organizational patriotism and a sense of honor and responsibility. This is an extremely effective treatment for “your base,” but that audience is already engaged and voting. We want to reach the members who *aren't* as engaged or voting, which means coming at it from a completely different angle. In today's environment, we believe that angle is smart, fresh and leverages social media with creative, viral assets. Language should be more contemporary and aggressive, and artwork more edgy and shareable.

In addition, while we certainly can complement the Second Century campaign in the 2016 elections, we don't recommend trying to link the two initiatives too closely as this dilutes both campaigns and risks causing confusion. It would be more effective to push the “Second Century” theme in the 2017 election, when there is more campaign recognition.

Concept

Main Theme (aka tagline): “Own Tomorrow. Vote Today.”

The cornerstone of the Academy elections campaign, this theme evokes immediacy through use of “today” and “tomorrow” (as opposed to “the future”) and powerful, monosyllabic verbs (aggressive and trendy “own” vs. more passive “shape,” “influence” or “impact”). Like any good campaign, it's multidimensional: “Own” not only means driving success, but also being accountable. Creative for the “Own Tomorrow. Vote Today” would include banners, a meme and an animated .gif.

Supporting Slogans (strictly for static memes and animated .gifs in social media):
“Not voting is SO last century.”

This alludes to the upcoming anniversary and Second Century without confusing campaigns, plus it is funny and shareable.

“It’s easier to see the future when you shape the future.”

This language is a little more traditional for our base, and accompanies an animated .gif of a paper fortune teller—also very shareable and the perfect retro-80s visual for our younger audience.

“It isn’t who has the most fans and followers. It’s who will get ‘er done.”

This is the rawest of the social media support slogans, but it’s actually a campaigning tool to drive users to the candidate info and bios. (See #1 below). As “non-Academy” as the language is, we believe this would be a highly effective theme in social media. It also speaks to the pervasive undercurrent among many members that elections is “basically a popularity contest” and helps redirect attention from the context of social media to focus on the substance of the candidates’ platforms. Which is ironic for a social media asset, but I digress.

Components

- 1) **The Academy elections campaign needs much more robust candidate bios.** They need to be more interesting, relevant and relatable to rank-and-file members, in addition to give some sort of insight into their positions and priorities. Recommendations include adding answers to humanizing questions (“What advice would you give your student self?” “What is your vision for the future of the profession?”), in addition to having the President-elect and Speak of the House candidates complete a “priorities poll” that could be turned into a java quiz that members could take. VERY EFFECTIVE. VERY SHAREABLE. Would also present the candidates as their “authentic selves” (a term that basically translates to, “Here’s me in my living room. See? I’m a real person and X, Y and Z is what I’m about.”)
- 2) **The Academy elections campaign needs a coordinated social media program.** Through the use of memes and animated .gifs along with traditional social media messages, we can develop shareable content that helps spread the word visually and effectively. These will work best through the coordinated messaging with our communities and influencers, including spokespeople, state media reps, affiliates, DPGs/MIGs and leaders.
- 3) **The Academy elections campaign needs to refine the “Affiliate Challenge”:** I wasn’t sure if we’re even still doing this contest, but if so, we recommend changing the name to something more direct and catchy, and more importantly, *updating the data more frequently*. Last year we received updates every two or three days; we need updates every two or three hours in order to build any following around it. Otherwise, it’s actually more of a counterproductive

distraction to the target audience (again, less-engaged nonvoters).

Connect with the Academy:

Tell Congress: Protect the Prevention and Public Health Fund

Your Representative needs to hear from you today!

Send a letter asking Congress to keep the Prevention and Public Health Fund!

The Prevention Fund was authorized in the Affordable Care Act to address a critical gap in our nation's investment in public health. Prevention Fund dollars are being used to:

- Enhance community-based preventive health programs at the local level, including obesity and diabetes prevention through CDC grants
- Expand awareness of clinical preventive services and benefits
- Bolster the public health workforce and infrastructure at the state and local level
- Support science and research in chronic disease prevention.

Academy members across the country play a critical role in community-based prevention programs that often receive support from the Prevention Fund.

The Senate passed a measure last week that, in part, repeals the Prevention Fund. Some changes were made to the House version of the bill (H.R. 3762). It will now go back to the House for another vote. **This is your chance to stand up for prevention programs and funding.**

President Obama has announced that he will veto the bill, if it passes the House.

Heres how you can make a difference:

1. Exercise your voice. Tell Congress to keep the Prevention and Public Health Fund intact. Every contact amplifies our message.

TAKE ACTION TODAY!

2. Make a contribution to ANDPAC. The funds help the Academy support decision makers who understand the critical need for the Prevention Fund.

Thank you in advance for being a leader in the nations efforts toward better health.

Dr. Evelyn F. Crayton, RDN, LDN, FAND
President, 2015-2016

I asked the Academy's Creative Media team to think of something clever as a tag line why people should vote in Academy elections. The online/social media promotions campaign they created for the committee's consideration follows. I personally love their proposed theme, *"Own Tomorrow. Vote Today."* Please read below.

+++++

Hi Pat,

As promised, the Creative Media team regrouped on this today and below is the online/social media promotions campaign we recommend for your consideration:

Campaign

Academy elections

KPIs

- Increased voting activity in 2016 elections (measurable)
- Positive engagement among members (sentiment is measurable but there's no comparative data; can begin benchmarking in 2016)

Timeline

January 2016 (campaigning), February 2016 (voting)

Audience

Academy members, particularly those who are less-engaged and/or younger members in their first three-four years of membership.

Application

Contemporary umbrella campaign with supporting online creative assets and digital media plus a robust social media program leveraging all engagement communities and influencers.

Rationale

Historically the election promotions have been centered on noble themes of *it's your duty, be a leader, have a voice, do it for the profession*, etc., using language designed to evoke inspiration, organizational patriotism and a sense of honor and responsibility. This is an extremely effective treatment for "your base," but that audience is already engaged and voting. We want to reach the members who *aren't* as engaged or voting, which means coming at it from a completely different angle. In today's environment, we believe that angle is smart, fresh and leverages social media with creative, viral assets. Language should be more contemporary and aggressive, and artwork more edgy and shareable.

In addition, while we certainly can complement the Second Century campaign in the 2016 elections, we don't recommend trying to link the two initiatives too closely as this dilutes both campaigns and risks causing confusion. It would be more effective to push the "Second Century" theme in the 2017 election, when there is more campaign recognition.

Concept

Main Theme (aka tagline): *"Own Tomorrow. Vote Today."*

The cornerstone of the Academy elections campaign, this theme evokes immediacy through use of "today" and "tomorrow" (as opposed to "the future") and powerful, monosyllabic verbs (aggressive and trendy "own" vs. more passive "shape," "influence" or "impact"). Like any good campaign, it's multidimensional: "Own" not only means driving success, but also being accountable. Creative for the "Own Tomorrow. Vote Today" would include banners, a meme and an animated .gif.

Supporting Slogans (strictly for static memes and animated .gifs in social media):

"Not voting is SO last century."

This alludes to the upcoming anniversary and Second Century without confusing campaigns, plus it is funny and shareable.

"It's easier to see the future when you shape the future."

This language is a little more traditional for our base, and accompanies an animated .gif of a paper fortune teller—also very shareable and the perfect retro-80s visual for our younger audience.

"It isn't who has the most fans and followers. It's who will get 'er done."

This is the rawest of the social media support slogans, but it's actually a campaigning tool to drive users to the candidate info and bios. (See #1 below). As "non-Academy" as the language is, we believe this would be a highly effective theme in social media. It also speaks to the pervasive undercurrent among many members that elections is "basically a popularity contest" and helps redirect attention from the context of social media to focus on the substance of the candidates' platforms. Which is ironic for a social media asset, but I digress.

Components

- 1) **The Academy elections campaign needs much more robust candidate bios.** They need to be more interesting, relevant and relatable to rank-and-file members, in addition to give some sort of insight into their positions and priorities. Recommendations include adding answers to humanizing questions (“What advice would you give your student self?” “What is your vision for the future of the profession?”), in addition to having the President-elect and Speak of the House candidates complete a “priorities poll” that could be turned into a java quiz that members could take. VERY EFFECTIVE. VERY SHAREABLE. Would also present the candidates as their “authentic selves” (a term that basically translates to, “Here’s me in my living room. See? I’m a real person and X, Y and Z is what I’m about.”)
- 2) **The Academy elections campaign needs a coordinated social media program.** Through the use of memes and animated .gifs along with traditional social media messages, we can develop shareable content that helps spread the word visually and effectively. These will work best through the coordinated messaging with our communities and influencers, including spokespeople, state media reps, affiliates, DPGs/MIGs and leaders.
- 3) **The Academy elections campaign needs to refine the “Affiliate Challenge”:** I wasn’t sure if we’re even still doing this contest, but if so, we recommend changing the name to something more direct and catchy, and more importantly, *updating the data more frequently*. Last year we received updates every two or three days; we need updates every two or three hours in order to build any following around it. Otherwise, it’s actually more of a counterproductive distraction to the target audience (again, less-engaged nonvoters).

50. REMINDER: Candidate Bio Form Updates Due 12/14

Subject: REMINDER: Candidate Bio Form Updates Due 12/14
Attachment:

Dear Donna Martin, EdS, RDN, LD, SNS, FAND:

As a reminder, any updates to the candidate information on your Biographical Information Form is due by **December 14**. The following sections of the Biographical Information Form will be published:

- Photo
- Name and Credentials - Your name will be published as it appears in the salutation of this email (Please note that only educational degrees, CDR credentials, licensure and fellow designations will be listed in publications)
- Employment - Job Title, Employer Name
- Skills and Attributes and Leadership Achievements (Position, Organization and Term)
- Campaign Statements – Campaign statements will be published with the first statement visible during voting

You may use the following unique link to update any information on your Biographical Information Form or upload a new photo. Please carefully check the information since the Academy will not edit your response.

Unique Link: <http://elections.webauthor.com/elections/confirm.cfm?guid=229566A8-ADB9-F5A5-26C1CA16482D5A9A>

Thank you!

The Nominating Committee

The Academy is preparing for the release of the 2015 *Dietary Guidelines for Americans* expected to occur on Thursday, December 10.

An all-member email will be sent from Evelyn immediately following the announcement, informing members that the DGAs have been released. The communication will include links to resources the Academy is making available to members to help them access the DGAs, quickly determine what is new and different from the 2010 *Dietary Guidelines*, and prepare members to apply the DGAs in their practice settings.

The Academy is also developing communications targeting the media and consumers. These coordinated communications will include press releases, website postings, and social media outreach.

Please let me know if you have any questions or comments.

Best regards,

Pat

Hi Donna,

I had the designer try and crop the new photo you provided to 200x200, which is the size of the field for the photo display on the bio form. Unfortunately, he said it's not possible to show more of your body in the 200x200 space and there would need to be more on the left and right than there

currently is. He tried to extend the background but your arm on the right side of the picture gets cropped.

Please let me know if you have another picture of if you'd like to use the current one.

Thanks!

Hi Donna,

I had the designer try and crop the new photo you provided to 200x200, which is the size of the field for the photo display on the bio form. Unfortunately, he said it's not possible to show more of your body in the 200x200 space and there would need to be more on the left and right than there currently is. He tried to extend the background but your arm on the right side of the picture gets cropped.

Please let me know if you have another picture of if you'd like to use the current one.

Thanks!

Joan

Joan, I can't believe you noticed that. I had tried to put in a new picture that was not cropped, but it would not allow me to change it. I am attaching the picture (not cropped) that I would like to use. Can you replace the cropped one with this one for me? I cannot tell you how excited I am to be on the ballot. I tried to call you a couple of times, but you were not in the office and I did not leave a message. Thanks for all your support!!!!!!

Hi Donna,

I was reviewing your bio form and noticed your photo was cropped and I had the graphic designers resize it to fit the frame. Please click on the pdf attached to see if it meets your liking. If you'd like to make changes, your form can be accessed by clicking on the link below.

A communication from Mary Gregoire, PhD, RD, Executive Director of the Accreditation Council for Education in Nutrition and Dietetics follows below.

Best regards,

Joan

Joan Schwaba, MS, RDN, LDN
 Director, Strategic Management
Academy of Nutrition and Dietetics
 120 S. Riverside Plaza, Suite 2000
 Chicago, Illinois 60606-6995
 Phone: 312-899-4798
 Fax number: 312-899-4765
 Email: jschwaba@eatright.org
www.eatright.org

Greetings from ACEND,

The Accreditation Council for Education in Nutrition and Dietetics (ACEND[®]) is writing to keep you informed of our work on the future education model standards. A copy of the **December update** is posted on the ACEND Standards webpage www.eatrightacend.org/ACEND/Standards.

The **December update** includes a brief recap of ACEND related activities at FNCE[®] and addresses questions received at the November 12 Virtual Town Hall Meeting. The virtual town hall meetings are held the second Thursday of each month at 11:30 a.m. Central Time. The next meeting will occur December 10. Information for connecting to the virtual town hall is posted on the ACEND Standards webpage www.eatrightacend.org/ACEND/Standards.

Please share this information with your constituents/colleagues. If you or they have questions, please send them to acend@eatright.org or call 312-899-4872, so we can respond to them. Future editions of the monthly update will include these questions and an ACEND response.

The ACEND board and staff hope you have a happy holiday season!

Thank you so much.

Mary Gregoire, PhD, RD
ACEND, Executive Director

ON THE PULSE OF PUBLIC POLICY

December 10: Policy Seminar on Interventions for Cancer Survivors

The Academy will co-host a policy seminar December 10 in Washington, D.C., on nutrition and physical activity interventions for cancer survivors. Academy members and staff will participate in the seminar, which is co-hosted by the American Cancer Society Cancer Action Network and the International Health, Racquet and Sportsclub Association.

[Learn More](#)

December 10 Webinar: Managing Diabetes

Join Healthy People 2020 and the Diabetes Advocacy Alliance for a December 10 webinar on "Empowering People to Manage Their Diabetes." The Academy is a co-chair of the Alliance. The webinar will focus on diabetes self-management education. Registration is now open.

Congress Returns, Threats to *Dietary Guidelines* Remain

As Congress returns to Washington D.C., it will have limited time to fund the government. The short-term spending bill runs out December 11 and Congress is considering options and priorities for a year-long spending bill. The threat remains to limit the scope and funding of the *Dietary Guidelines for Americans*. Take action now: Tell Congress to support the *Dietary Guidelines* during discussions on the budget. Tweet your support with the hashtag #SupportDGA.

Academy Urges Congress: Keep Prevention and Public Health Fund

The Senate is tentatively scheduled to begin debate on a modified version of the House's Restoring Americans' Healthcare Freedom Reconciliation Act of 2015 (H.R. 3762). The Academy has joined other organizations to urge Congress not to eliminate the Prevention and Public Health Fund, which funds important work done by Academy members.

Subject: Academy Cash Requirements
Attachment: [credit policy 2015.doc](#)

All,

I mentioned on our last call, and in the email I sent to you in November, that I would continue to monitor the cash flows of the Academy. Well, I have looked at the cash at the end of November and I am happy to say that we have approximately \$100,000 more in operating cash at the end of November than we did at the end of November 2014. This is after moving \$750,000 less this year from reserves to operating cash when compared to the same period in 2014. So, in short, we are about \$850,000 better than last year. A nice accomplishment.

Last year, we moved \$1,000,000 from reserves into operating cash during December. As I look at the current cash demands moving forward, I am not comfortable that will have enough money in our operating cash accounts to meet the demands. So, at this stage, I will need to move some additional funds into operations. I have recommended to Pat that we used the line of credit and move \$1,000,000 into our operational cash accounts. The line of credit will cost approximately 2.25% annualized or \$1,875 per month. Pat has agreed to do so.

I am attaching the Credit Policy approved last year for reference. You can review the criteria at your leisure. The short version of the requirements are;

1. Notify the Finance Committee
2. Cannot exceed \$1,000,000
3. Held for no more than 90 days unless approved by the FAC
4. Staff must provide monthly updates on the loan for the FAC

I believe the additional \$1,000,000 should get us through December. I did not want to take \$500,000 now and \$500,000 later. I would prefer to have a little extra now and have a buffer. Also, depending on the spending of all of the Academy organizations (CDR, DPGS, MIGS, ACEND, Academy), I cannot guarantee that we won't need additional funds in January. Please keep in mind that all of the cash in and out from operations are "co-mingled". We have separate cash accounts that roll up under the umbrella of the Academy account. Accounting keeps track of all of the cash within our accounting systems. So, if the DPGS spend more money than they take in, it will reduce our operating cash. I mentioned last month that the DPGS were running a collective \$387,000 operating deficit. Essentially, this is \$387,000 less in cash than we had at the start of the year (there are other variables, but, this will be close) from DPGS. If this continued, then we may eventually need to take money out of reserves to cover the difference.

Also remember that the collective operating losses of all entities were budgeted to be \$3.5M for the Academy organizations and \$0.5M for the Foundation. So, if everyone hit their budgets, we would need \$4M from reserves. We will have taken out of reserve \$1.25M plus the \$1.0M in loans. The combined \$2.25 million is just a little over 56% of the total potential that was originally budgeted.

Finally, I felt the loan was more appropriate at this time because the markets seem to be stabilized for the moment and we historically have seen a "Santa Claus" rally at the end of the year. I believe the \$1,875 it cost us for the loan would be much less than the actual gains we might experience between now and January. All we would need is 0.1875% (.001875) to break even. That is a low threshold to overcome.

I hope this helps. Please feel free to send me an email or give me a call at 800-877-1600, ext. 4730, if you have any questions or concerns.

Paul

A communication from Mary Pat Raimondi follows below.

Best regards,

Joan

Joan Schwaba, MS, RDN, LDN

Director, Strategic Management
Academy of Nutrition and Dietetics

+++++

Hello!

We have a great opportunity to influence nutrition policy at CDC. As you know CDC is a major of nutrition services and interventions which results in millions of dollars for members' employment opportunities. The position of Director of the Division of Nutrition, Physical Activity, and Obesity (DNPAO) in the National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP) is soon to be open. The PIA staff works closely with this group and they are aware that we feel an Academy member would make a very qualified leader. Please share with me any names of candidates for this very important position. Self-nominations are welcome! The announcement is attached and short summary of the position is below.

Many thanks!

Mary Pat

Mary Pat Raimondi, MS RDN
Vice President, Strategic Policy and Partnerships

Academy of Nutrition and Dietetics
1120 Connecticut Avenue NW- Suite 460

Washington, DC 20036

phone: 312.899.1731
fax: 202.775.8284

mraimondi@eatright.org

www.eatright.org

Change happens at the speed of trust

The Centers for Disease Control and Prevention (CDC) is seeking exceptional candidates for the position of Director of the Division of Nutrition, Physical Activity, and Obesity (DNPAO) in the National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP).

NCCDPHP leads national efforts to promote health and well-being through the prevention and control of chronic diseases. The center's strategic priorities are strengthening epidemiology and surveillance, promoting environmental approaches to support healthy behaviors, strengthening health systems to effectively deliver preventive services, and promoting linkages between the community and clinical settings to better manage chronic conditions.

DNPAO provides national and international leadership on chronic disease prevention and control and health promotion in the areas of nutrition, physical activity, and obesity; plans and implements surveillance to track and analyze policy and environmental indicators and behaviors related to nutrition, physical activity, and related risk factors for obesity and other chronic diseases; builds international, national, state, and local expertise and capacity to plan, implement, and evaluate nutrition, physical activity, and obesity prevention programs; conducts epidemiologic and intervention studies related to nutrition, physical activity, and obesity; develops and disseminates new methods, guidelines, and recommendations for effective nutrition, physical activity, and obesity prevention strategies in multiple settings; facilitates the translation and dissemination of practice- and research-tested findings into public health practice for optimal health impact; provides national leadership in health communications to promote nutrition, physical activity, and obesity prevention and control, and integrates health communications with overall program efforts; and collaborates across CDC and with appropriate Federal and state agencies, international/national/community organizations, and others.

ON THE PULSE OF PUBLIC POLICY

World AIDS Day

World AIDS Day, on December 1, is an opportunity for people worldwide to unite in the fight against HIV. The Academy recognizes members who provide nutrition services to people living with HIV/AIDS, and continues to ask Congress to increase funding for domestic HIV/AIDS services in the 2016 budget.

Organizational Sign-On Letter for HR 1686

The Academy finalized an organizational sign-on letter urging members of Congress to co-sponsor and pass the Preventing Diabetes in Medicare Act (H.R. 1686). Twenty organizations signed the letter, representing health professionals and patient advocacy groups. The Academy is sending the letter to members of Congress and to House leadership as part of efforts to show the importance of covering medical nutrition therapy for prediabetes in the Medicare population.

On Capitol Hill: Academy Sponsors Public Health 101 Briefing

The Academy sponsored a Capitol Hill briefing titled "Public Health 101," hosted by the Coalition for Health Funding and the Congressional Public Health Caucus. The briefing highlighted the importance of investing in prevention research and practice, including work done by Academy members. For more information, contact Stefanie Winston Rinehart.

USDA Helps Schools Connect with Local Farmers and Ranchers

The U.S. Department of Agriculture will provide \$4.8 million in grants assisting 74 projects to support the Farm to School Program. These grants help fund schools, state and local agencies,

tribal nations and other programs. The Academy continues to advocate for increased funding and expansion during the Child Nutrition Reauthorization and supports members who work in these programs.

[Learn More](#)

Congressional Hearing on National Commission on Hunger

The House Agriculture Committees November 18 hearing focused on the National Commission on Hunger. Co-chairs focused on issues related to veterans, active-duty military members and their families, people with disabilities, and children, among other vulnerable groups. Academy member Susan Finn, PhD, RD, LD, FAND, is a member of the Commission; many members have presented testimony at regional meetings. A final report is due soon.

[Learn More](#)

What Is at Stake from Threats to *Dietary Guidelines*?

There is an urgent need for Congress to hear members' voices in support of evidence-based *Dietary Guidelines for Americans*. Threats include limiting the DGAs' scope and funding. Congress will decide the future of the *Dietary Guidelines* in the next few weeks. Take action now: Tell your members of Congress what the *Dietary Guidelines* mean to you. Show your support on Twitter using the hashtag #SupportDGA.

ACADEMY MEMBER UPDATES

2016 Slate of Candidates

The Nominating Committee is pleased to announce the slate of candidates for the Academy's 2016 ballot. Voting will take place February 1 through 22. Candidates' biographical information will be posted by late December.

[Learn More](#)

Salaries on the Rise: Compensation and Benefits Survey

The Academy's 2015 Compensation and Benefits Survey of the Dietetics Profession has been

released, showing the median salaries for registered dietitian nutritionists and nutrition and dietetic technicians, registered grew by more than the increase in inflation since the last survey in 2013. The 2015 survey is available for free download by members.

[Learn More](#)

February 1 Application Deadline: Seeking RDNs to Join Landmark Spokesperson Program

Are you active in your local news media? Do you have experience being interviewed on TV or radio? Do you want to show the world that registered dietitian nutritionists are the media's trusted source for accurate, timely and science-based food and nutrition information? The Academy is looking for media-savvy registered dietitian nutritionists to join its amazing team of volunteer national spokespeople. Applications are due February 1, 2016.

[Learn More](#)

PHILANTHROPY, AWARDS AND GRANTS

December 1 Application Deadline: Food Safety Student Challenge Grants

The Academy of Nutrition and Dietetics Foundation/ConAgra Foods Food Safety Student Challenge was developed around the renewed Home Food Safety campaign. Nine scholarships of \$4,500 are available. The application deadline is December 1.

[Learn More](#)

December 1 Application Deadline: CDR Leadership Grant

The purpose of this fund is to provide financial support to RDNs and DTRs to obtain leadership training. The training programs should prepare individuals to move into leadership positions within their organization. Information about the award program application are available on the Foundation's website.

[Learn More](#)

December 1 Application Deadline: CDR Grassroots Marketing Grant

The purpose of this fund is to provide grants to RDNs or DTRs to promote CDR credentials at the local level to prospective employers or third-party-payers. Funds may be used for a virtual event or activity or an in-person program (for example, to attend and exhibit at a professional meeting). Information about the award program and an application are available on the Foundation's website.

[FAC Oct 27 2015 minutes ck.doc](#)

All,

As discussed, here are the updated October 27th FAC minutes. We can approve them on the next call. I have kept the track changes on the document to make it easier for you to find the changes. If you have any additional changes, please let me know.

Have a great Thanksgiving Weekend.

Paul

Thank you for your October contribution!

Having trouble viewing this e-mail? View it in your browser.

Connect with Us:

Dear Donna,

Thank you for your contribution in October of **\$20** to the Academy of Nutrition and Dietetics Political Action Committee (ANDPAC). You have contributed **\$270** to ANDPAC in 2015. As a reminder, ANDPAC contributions are totaled over a calendar year (January 1 December 31). You can now check your donation online. **Simply go to ANDPAC, click on donate, sign in and click on donation summary.**

ANDPAC donor levels in a calendar year:

- Champions** donate \$1000 or more
- Eagles** contribute \$500 to \$999
- Presidents Circle** donors contribute \$250 to \$499
- Capitol Club** donors contribute \$100 to \$249
- Student Stars** are student members who donate \$25 or more

The funds we receive from generous members like you make it possible for the Academy to articulate its legislative objectives on Capitol Hill and to engage in a dialogue with the elected officials who lead our country. Connecting with members of Congress provides us with the opportunity to advocate for food access and safety, nutrition and health services.

As members of the Academy, we have the opportunity to support food, nutrition and health initiatives at federal, state and local levels. Your donation to ANDPAC helps the Academy achieve its vision of optimizing the nations health through food and nutrition.

Thank you again for your support and contribution to ANDPAC!

Sincerely,

Denise Andersen, MS, RDN, LD, CLC
2015 Chair, ANDPAC Board of Directors

PS: To get the latest ANDPAC news, check us out on Twitter and Facebook!

Federal law requires political committees to report to Federal Election Commission the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year. Corporate contributions are prohibited by law. Individuals can not contribute more than \$5000 per calendar year to the same political action committee. **Donations to ANDPAC are not tax deductible.**

Breast-Feeding Is Good for Mothers, Not Just Babies, Studies Suggest

(One study found that breast-feeding may help protect women from a particularly vicious type of breast cancer. The other suggests that breast-feeding may act as a sort of reset button for metabolism after pregnancy, helping women who had gestational diabetes avoid becoming lifelong diabetics)

Attachment: [FNCE 2015 Per Diem adjusted.xls](#)

All,

Eduardo was able to pull information from 452 separate expense reimbursement requests that came through our on-line system. Even though this won't be the entire universe, it should be representative sample of the alcohol purchased and reimbursed by the Academy and related groups. I have eliminated the person's name. However, this includes staff as well as volunteers.

The 452 requests for reimbursement contained the following;

\$51,266.44 in requested reimbursements

\$ 2,381.41 in reimbursement requests for alcohol

This represents 4.6% of the total amount. Maria will put this onto the portal. I am attaching it for your review. We have not completed the work on the meetings that may serve alcohol. We don't have all of the hotel and restaurant bills yet. This part may take a little longer.

If you have any questions, please let me know.

Paul

Subject: RE: Finance and Audit Committee meeting on Tuesday, November 24th, at 1 p.m. CDT

All,

We have another Finance and Audit Committee on Tuesday, November 24th at 1 p.m. CDT. The meeting information will be put onto the portal this afternoon. The meeting agenda will focus on the following;

1. September final financials
2. October preliminary financials
3. 2017 Budget

There may be one other issue that gets added to the agenda. We are still compiling the "alcohol" from FNCE. Eduardo hopes to have it done by Monday. If so, we will add the findings to the agenda and discuss again in December. Hopefully, it will solidify the direction we want to take on this issue.

One other issue has arisen. We have a request to move our April meeting up one day. Currently, it is scheduled for April 27th and April 28th (Wednesday and Thursday) to April 26th and April 27th (Tuesday and Wednesday). It is fine with staff. So, take a look at your calendars and we will discuss the change on Tuesday.

Now, onto the narrative.

I. September Adjustments

-
We did not make any adjustments in September.

II. Investments

As we discussed at our last meeting, October results provided a rebound from the continual declines we have seen this fiscal year. The combined Academy and Foundation portfolios gained nearly \$2,642,000 in October. This brings our year to date losses to approximately \$311,200. It is amazing what one month can do. Even though we are still reflecting losses through October, the amount is small. If we have another month like October, we will be back on track with the budget.

Now that being said, November has been very interesting. Through yesterday, the combined portfolios have lost \$33,000. Not too bad. Today the markets are up. So, we could end the month of November with Investment gains.

III. Cash flow

Since we are at the point in the fiscal year that cash flow becomes a very critical issue, I decided it was important for me to add this to the email string. Not to mention adding it early in the string so it doesn't get lost with my long winded narratives. As you all know, we did move \$500,000 from reserves to operations early in November (November 6th). We continually monitor the situation.

Last year we moved, though November, \$2.0 million from reserves. We also moved another

\$1.0 million in December. This was driven by the operating needs of all entities (CDR, DPGS, MIGS, ACEND and the Academy). This year, the combined entities have budgeted nearly \$3.5 million in operating losses. This does not directly correlate to the cash flow needs. You would have to take the Operating losses or gains and add back into the mix the depreciation and any amortized expenses and subtract out new capital investments. Then of course, to make your heads spin even more, we have to take into account the timing of everything J. Had I known when I was in college that the dependence on “time” would drive decisions, I think would have found another profession. When all is said and done, if the budgets were hit, we would need to move approximately \$3.5 million from reserves this fiscal year. I don’t believe we will need this much, but, only time will tell.

That being said, I will need to take another \$750,000 out of reserve on Monday. Half of this request is due to the DPGS/MIGs increasing their spending. The combined DPGS/MIGS have operating deficits of nearly \$387,000. An additional amount is due to the impact from CDR’s investment in their new CRMS system which to date has accounted for another \$216,000. So, when these types of issues arise, cash goes out the door faster than it comes in.

Keep in mind that when we determine the “value” of the reserves for the each of the entities that invest with the Academy, it is impacted by both the gains and losses of the investments and the operating gains and losses of each entity. So, when the DPGS/MIGs, ACEND or CDR have operating losses, the investment reserve for the Academy goes up. If they have operating gains, the reserves for the Academy could go down. This isn’t a big issue when the DPGS/MIGs, ACEND and CDR are generating positive operating results. In those cases, the Academy reserve percentage is “reduced”. If the cash flow for these groups is positive, then the cash resides in the operational bank account to be used for all purposes. We are able to use the cash and increase the DPGS, ACEND or CDR reserve balances. It is kind of like taking money out of reserves without ever doing so. (I know confusing). If you need a further explanation on the call, I will be happy to do so. When the opposite is true, it artificially increases the reserves of the Academy, but, leaves us with lower operational cash (since it didn’t come in from the DPGS/MIGS, ACEND or CDR). Therefore, we need to move it to operational cash. Essentially, the money is going out and we have to get it from somewhere.

I hope this helps. Overall, we are in a better situation this year than last year. As I mentioned above, through November of last year we removed \$2,000,000. Through this November, we will have removed \$1.25 million. So, we are \$750,000 positive.

When you look at the Academy reserve levels on page A15, it will show that the Academy has 73.2% in reserve. This is after the \$1,250,000 is removed. Even though this was not done until November, I made the adjustment for you in October. If this adjustment was not made, then the

Academy would be at 78.6% of the budget in reserve. I wanted to make sure you could see where we actually stood.

We will keep monitoring this situation. There is never a guarantee of when cash comes into the business. If it becomes a "timing issue" only, we will tap into the line of credit. If it is something that is driven by operations, in any of the areas, I will come back to you with additional requests to move money from reserve.

Let me know if you have any questions or concerns about this issue.

IV. Academy preliminary October Financials (A3 and A10)

The Academy results for October were, overall, good, but still feel short operationally. In October, the Academy missed the revenue target by \$157,946. On the expense front, the Academy was under the budget by \$61,001. If you combine these two numbers, you will see that the Academy missed its operating income target by \$96,944. As I mentioned above, the investment returns were strong in October. The Academy had \$886,923 in gains. This was \$782,756 higher than the budget. It would be disingenuous to not focus on the operational side of the equation, since I did not focus on investments previously.

Through October, the operating revenues are down by \$378,299 while the operating expenses are under budget by \$171,402. This results in our Operating Surplus that is lower than the budget by \$206,897. The Academy will continue to work on reducing this shortfall. I will have you note, that compared to FY15, when the Academy had an Operational Deficit of \$504,662 through October, the Academy is \$629,487 better than last year. This is a good number. Not to mention that the Academy does have an operational surplus.

The revenue in October continued to under-perform in some of the same areas as we have discussed previously; Membership (down \$10.7K) and Publications (down \$64.7K). In addition, Programs and Meetings was down by \$135,856. Even though FNCE registration was higher, it was offset by lower exhibit and workshop revenue. You will see that Sponsorships are higher in October. This is due to higher FNCE sponsors of approximately \$106,000. So, when you add up all of the revenue over-runs and under-runs for FNCE, we nearly made the budget for FNCE.

I am concerned about the shortfall from Publications. Not only did it fall short of budget, but, it is significantly lower than October of last year. Some of this is being caused by delays in rolling out new products. Some of it is also being impacted by FNCE. I am working with the Publication's

team to put together a “roll-out” schedule. I am hoping we can determine the overall impact of the delays and pick up some of the revenue as we move forward.

On the expense front, the Academy performed well in October in most areas but did have a few that were over budget; Travel (up \$7.4K), Advertising (up \$4.7K), Meeting Services (up \$42.0K) and Legal (up \$4.8K). Some of these over-runs may be a timing issue. We will look at each and see if we can determine where this may be the case. The Meeting Services over-runs is due to higher costs in Audio Visual and Food Service for FNCE. That is the bad news. The good news is this is offset by lower costs in Outside services which helps explain the under-run in “Other” of \$40,466. So, the over-run in Meeting Services is nearly offset by the under-run in Other.

I am attaching the variance grid for you to review. It should provide to you the detail that you may be looking to review.

I will not provide to you anything on the other entities today. I know you want and need this information So, I will work on the others over the weekend and get it to you on Monday. Maria will notify you when the information is put onto the portal. Also, as I finish this email the DOW is up 75 points or 0.4%. If this holds, we should turn positive for November.

If you can't make the call, or you have any questions or concerns, please let me know.

Paul

Following are the details to access documents in the Academy portal for the Finance and Audit Committee call on Tuesday, November 24, 2015 at 1 p.m. CDT.

<https://eal.webauthor.com/auth.cfm?logout=1&erase=true&msg=You%20have%20successfully%20signed%20out%2E>

Everything for the month of November is loaded in the portal.

Items in the portal:

- Agenda
- October 27, 2015 minutes
- Paul narrative for October
- FY2017 Budget
- September final financial results
- October preliminary financial results

· September 2015 variance report

By now, you should have received a webinar invitation from “Academy IT Department”. If you don’t have the invitation, please let us know as soon as possible.

We look forward to talking to everyone on Tuesday.

Subject: RE: Finance and Audit Committee meeting on Tuesday, November 24th, at 1 p.m. CDT
Attachment: [Narrative for October electronic.xlsx](#)

All,

We have another Finance and Audit Committee on Tuesday, November 24th at 1 p.m. CDT. The meeting information will be put onto the portal this afternoon. The meeting agenda will focus on the following;

1. September final financials
2. October preliminary financials
3. 2017 Budget

There may be one other issue that gets added to the agenda. We are still compiling the “alcohol” from FNCE. Eduardo hopes to have it done by Monday. If so, we will add the findings to the agenda and discuss again in December. Hopefully, it will solidify the direction we want to take on this issue.

One other issue has arisen. We have a request to move our April meeting up one day. Currently, it is scheduled for April 27th and April 28th (Wednesday and Thursday) to April 26th and April 27th (Tuesday and Wednesday). It is fine with staff. So, take a look at your calendars and we will discuss the change on Tuesday.

Now, onto the narrative.

I. September Adjustments

-

We did not make any adjustments in September.

II. Investments

As we discussed at our last meeting, October results provided a rebound from the continual declines we have seen this fiscal year. The combined Academy and Foundation portfolios gained nearly \$2,642,000 in October. This brings our year to date losses to approximately \$311,200. It is amazing what one month can do. Even though we are still reflecting losses through October, the amount is small. If we have another month like October, we will be back on track with the budget.

Now that being said, November has been very interesting. Through yesterday, the combined portfolios have lost \$33,000. Not too bad. Today the markets are up. So, we could end the month of November with Investment gains.

III. Cash flow

Since we are at the point in the fiscal year that cash flow becomes a very critical issue, I decided it was important for me to add this to the email string. Not to mention adding it early in the string so it doesn't get lost with my long winded narratives. As you all know, we did move \$500,000 from reserves to operations early in November (November 6th). We continually monitor the situation.

Last year we moved, though November, \$2.0 million from reserves. We also moved another \$1.0 million in December. This was driven by the operating needs of all entities (CDR, DPGS, MIGS, ACEND and the Academy). This year, the combined entities have budgeted nearly \$3.5 million in operating losses. This does not directly correlate to the cash flow needs. You would have to take the Operating losses or gains and add back into the mix the depreciation and any amortized expenses and subtract out new capital investments. Then of course, to make your heads spin even more, we have to take into account the timing of everything J. Had I known when I was in college that the dependence on "time" would drive decisions, I think would have found another profession. When all is said and done, if the budgets were hit, we would need to move approximately \$3.5 million from reserves this fiscal year. I don't believe we will need this much, but, only time will tell.

That being said, I will need to take another \$750,000 out of reserve on Monday. Half of this request is due to the DPGS/MIGs increasing their spending. The combined DPGS/MIGS have operating deficits of nearly \$387,000. An additional amount is due to the impact from CDR's investment in their new CRMS system which to date has accounted for another \$216,000. So, when these types of issues arise, cash goes out the door faster than it comes in.

Keep in mind that when we determine the "value" of the reserves for the each of the entities that invest with the Academy, it is impacted by both the gains and losses of the investments and the operating gains and losses of each entity. So, when the DPGS/MIGs, ACEND or CDR have operating losses, the investment reserve for the Academy goes up. If they have operating gains, the reserves for the Academy could go down. This isn't a big issue when the DPGS/MIGs, ACEND and CDR are generating positive operating results. In those cases, the Academy reserve percentage is "reduced". If the cash flow for these groups is positive, then the cash resides in the operational bank account to be used for all purposes. We are able to use the cash and increase the DPGS, ACEND or CDR reserve balances. It is kind of like taking money out of reserves without ever doing so. (I know confusing). If you need a further explanation on the call, I will be happy to do so. When the opposite is true, it artificially increases the reserves of the Academy, but, leaves us with lower operational cash (since it didn't come in from the DPGS/MIGS, ACEND or CDR). Therefore, we need to move it to operational cash. Essentially, the money is going out and we have to get it from somewhere.

I hope this helps. Overall, we are in a better situation this year than last year. As I mentioned above, through November of last year we removed \$2,000,000. Through this November, we will have removed \$1.25 million. So, we are \$750,000 positive.

When you look at the Academy reserve levels on page A15, it will show that the Academy has 73.2% in reserve. This is after the \$1,250,000 is removed. Even though this was not done until November, I made the adjustment for you in October. If this adjustment was not made, then the Academy would be at 78.6% of the budget in reserve. I wanted to make sure you could see where we actually stood.

We will keep monitoring this situation. There is never a guarantee of when cash comes into the business. If it becomes a "timing issue" only, we will tap into the line of credit. If it is something that is driven by operations, in any of the areas, I will come back to you with additional requests to move money from reserve.

Let me know if you have any questions or concerns about this issue.

IV. Academy preliminary October Financials (A3 and A10)

The Academy results for October were, overall, good, but still feel short operationally. In October, the Academy missed the revenue target by \$157,946. On the expense front, the Academy was under the budget by \$61,001. If you combine these two numbers, you will see that the Academy missed its operating income target by \$96,944. As I mentioned above, the investment returns were strong in October. The Academy had \$886,923 in gains. This was \$782,756 higher than the budget. It would be disingenuous to not focus on the operational side of the equation, since I did not focus on investments previously.

Through October, the operating revenues are down by \$378,299 while the operating expenses are under budget by \$171,402. This results in our Operating Surplus that is lower than the budget by \$206,897. The Academy will continue to work on reducing this shortfall. I will have you note, that compared to FY15, when the Academy had an Operational Deficit of \$504,662 through October, the Academy is \$629,487 better than last year. This is a good number. Not to mention that the Academy does have an operational surplus.

The revenue in October continued to under-perform in some of the same areas as we have discussed previously; Membership (down \$10.7K) and Publications (down \$64.7K). In addition, Programs and Meetings was down by \$135,856. Even though FNCE registration was higher, it was offset by lower exhibit and workshop revenue. You will see that Sponsorships are higher in October. This is due to higher FNCE sponsors of approximately \$106,000. So, when you add up

all of the revenue over-runs and under-runs for FNCE, we nearly made the budget for FNCE.

I am concerned about the shortfall from Publications. Not only did it fall short of budget, but, it is significantly lower than October of last year. Some of this is being caused by delays in rolling out new products. Some of it is also being impacted by FNCE. I am working with the Publication's team to put together a "roll-out" schedule. I am hoping we can determine the overall impact of the delays and pick up some of the revenue as we move forward.

On the expense front, the Academy performed well in October in most areas but did have a few that were over budget; Travel (up \$7.4K), Advertising (up \$4.7K), Meeting Services (up \$42.0K) and Legal (up \$4.8K). Some of these over-runs may be a timing issue. We will look at each and see if we can determine where this may be the case. The Meeting Services over-runs is due to higher costs in Audio Visual and Food Service for FNCE. That is the bad news. The good news is this is offset by lower costs in Outside services which helps explain the under-run in "Other" of \$40,466. You are receiving this message on behalf of our Marketing Partners at ANFP.

The Association of Nutrition & Foodservice Professionals is offering Academy members a 10% discount on the online course, ***Analyzing Workflow Development for Foodservice Operations***, during the month of November. Upon completion of this course, learners will be able to describe workflow development both human and material. Learners will also be able to investigate motion economy in their own facility and summarize employee attitudes about change.

Upon completion of this course, the following learning objectives should be achieved:

- Define Workflow Development
- Apply one Motion Economy Principle
- Recognize that attitude affects change

To purchase this 5-hour CE course, visit [HERE](#) and **enter ANFPANDNOV to receive the 10% discount**, which drops the price from \$50 to \$45.

Donna,

I will take that responsibility. I like Nancy. She will be a good President as well. However, I think you will make a great President!!

Paul

To: Paul Mifsud
Subject: Re: Ballot

Paul, Keep in mind if this president thing doesn't work out, (by that I mean I do a bad job) it will be on you. It was your encouragement that got me thinking about running to begin with. Would love 3 more years with you, Christian and Maria. And between me and you, if I was betting woman, I think I have a pretty good shot at it. Better than I would have thought if I was running against Becky or Neva. God keeps opening those doors.

See you in January.

I hope you and your wonderful family have a great Thanksgiving. Felling blessed in Augusta!

Donna,

Sorry I did not get back to you yesterday. I took a week off and am behind on my e-mails. You have earned the spot on the ballot. You will make a great President. I know you will not only have my support, but, also the support of everyone else (staff and leaders) with the exception of Glenna maybe J.

Regarding the face-to-face; I will raise it this on the call. At this point, it may not be a problem at all. The team has plenty of time to adjust their calendars.

Let me know if there is anything I can do for you.

Paul

Subject: Ballot

Paul, Well I assume you have seen the ballot? I am humbled, excited and scared all at the same time. I feel like the nominating must have had a lot of faith in me because of who I am running against. Just promise me you will be there to help me every step of the way! I value and respect your opinion so much!

On another note, is there any way to move the FAC face to face meeting up one day? It is scheduled for Wednesday and Thursday April 27th and 28th. I really need to be in Augusta on Thursday April 28th. Could we do it Tuesday and Wednesday April 26th and 27th? I know I am being a pain, but the golf tournament that I have all those people come to my house for got moved a week later this year. Obviously not the Masters, but a local golf tournament. Thanks for your consideration of this request and your continual support of me!!!

Attachment: [image002.png](#)

As I mentioned in my November 10 email, the Academy's Compensation and Benefits Survey is being released and we are in the process of rolling out the information to members and non-members. In the coming weeks we will promote the results throughout Academy communication channels. We will be highlighting retention and recruitment efforts by featuring Academy Members earn more than non-members; drawing attention to Academy membership value; and sharing the good news that salaries are on the rise. You will see promotions in *Eat Right Weekly*, digital media signage throughout eatrightPRO, and postings on all social pro media channels. The plan is to generate excitement and awareness over the increase in salaries, while also stressing the salary/Academy membership connection. We will also encourage members to visit this page and download the free report. The cost of the report is \$250 for non-members.

We have also prepared information on what the Academy is doing to support members in their goal of achieving recognition, respect and remuneration. Please take a moment to review the Academy Member Compensation Report page on the Academy's website.

Please let me know if you have any questions.

Best regards,

Pat

Attachment: [image001.jpg](#)
[image002.png](#)

Donna,

Wow, you're quick! And a big thank you for agreeing to serve in this role as we all feel you are the perfect person to do so. In terms of next steps, I will forward your name and contact information to Nancy Katz at the Alliance for a Healthier Generation and she will be in further contact with you. As an FYI, Nancy is an RDN from the DC area (former affiliate president) who recently started working at the Alliance. I will also share this information with Diane Enos as she oversees the entire Alliance program for the Academy. Any funding to attend meetings will come out of Diane's budget. And I know she will need reports from you related to this consortium. Finally, I will give staff in our DC office a "heads up" about our participation and your role.

Congratulations on being on the national ballot. As you said, we can cross that bridge when we come to it.

Warm regards,

Marsha

Subject: Re: Representative to Voices for Healthy Kids School Health Policy Consortium

Marsha, This is something I can accept without any reservations. This is my passion and I am very comfortable in this arena. I appreciate the sensitivity to the ballot issue, but we can cross that bridge when we get to it. I know plenty of people who could replace me if needed. Let me know where we need to go from here. I am flying to DC Dec 16 and 17 for a PEW meeting on school nutrition, but that is my only constraint as of right now.

Sent from my iPhone

On Nov 18, 2015, at 6:09 PM, Marsha Schofield <mschofield@eatright.org> wrote:

Good afternoon Donna,

I am reaching out to you this afternoon to see if you would be willing to serve as the Academy's representative to a new consortium being formed around school health and childhood obesity. By way of background, I serve as the Academy's liaison to the Alliance for a Healthier Generation, an organization formed in 2009 by the William Clinton Foundation and the American Heart Association with the goal of eliminating childhood obesity. The Academy has been a strong partner with their health care component, which includes the Healthier Generation Benefit (provides insurance coverage for 4 visits per year with an RDN for children with overweight or obesity).

The Alliance also has other “arms,” one of which focuses on schools. This arm is involved in a new national public policy advocacy initiative funded by the Robert Wood Johnson Foundation (RWJF), called Voices for Healthy Kids. The Academy has been invited to participate in this consortium (see attached document for more information). I discussed the invitation with Pat and we feel the initiative definitely aligns with our mission, vision and strategic plan. We also feel you would be the perfect person to serve as our representative to this consortium based on your expertise in school nutrition, your familiarity with the work of the Academy, as well as your excellent interpersonal skills. We would like to participate in the consortium at both the Steering Committee and Nutrition Workgroup levels. “Involvement” in the Steering Committee entails attending an annual ½ day meeting in DC and participation in monthly conference calls. The Nutrition Workgroup will meet monthly via conference call. The group is hoping to hold the first meeting of the Steering Committee in December, although that may be an aggressive goal considering it is already mid-November. The hope is that this will be a multi-year initiative, although the funding model from the RWJF is a year-to-year one. Pat and I recognize you are on the national ballot and, if you agree to serve as our representative to this consortium, we may need to shift that plan in the future based on the election results.

I hope you will accept this invitation. If you want to discuss it further before giving me an answer, please feel free to give me a call. If you feel you cannot make this commitment, I would appreciate any recommendations for someone else to ask who is good at making interpersonal connections and has the expertise needed (both in terms of school nutrition and the Academy) to make us a valued contributor.

Thank you for considering this request. If possible, I need a response by Friday (I might be able to stretch it to next week). I apologize for the tight timeline but, as you probably already know, the DC world tends to operate this way.

Warm regards,

Marsha

Donna,

Sorry I did not get back to you yesterday. I took a week off and am behind on my e-mails. You have earned the spot on the ballot. You will make a great President. I know you will not only have my support, but, also the support of everyone else (staff and leaders) with the exception of Glenna maybe J.

Regarding the face-to-face; I will raise it this on the call. At this point, it may not be a problem at all. The team has plenty of time to adjust their calendars.

Let me know if there is anything I can do for you.

Paul

To: Paul Mifsud
Subject: Ballot

Paul, Well I assume you have seen the ballot? I am humbled, excited and scared all at the same time. I feel like the nominating must have had a lot of faith in me because of who I am running against. Just promise me you will be there to help me every step of the way! I value and respect your opinion so much!

On another note, is there any way to move the FAC face to face meeting up one day? It is scheduled for Wednesday and Thursday April 27th and 28th. I really need to be in Augusta on Thursday April 28th. Could we do it Tuesday and Wednesday April 26th and 27th? I know I am being a pain, but the golf tournament that I have all those people come to my house for got moved a week later this year. Obviously not the Masters, but a local golf tournament. Thanks for

your consideration of this request and your continual support of me!!!

Attachment: [image001.jpg](#)
[image002.png](#)
[Voices for Healthy Kids Schools Consortium Overview.docx](#)

Good afternoon Donna,

I am reaching out to you this afternoon to see if you would be willing to serve as the Academy's representative to a new consortium being formed around school health and childhood obesity. By way of background, I serve as the Academy's liaison to the Alliance for a Healthier Generation, an organization formed in 2009 by the William Clinton Foundation and the American Heart Association with the goal of eliminating childhood obesity. The Academy has been a strong partner with their health care component, which includes the Healthier Generation Benefit (provides insurance coverage for 4 visits per year with an RDN for children with overweight or obesity).

The Alliance also has other "arms," one of which focuses on schools. This arm is involved in a new national public policy advocacy initiative funded by the Robert Wood Johnson Foundation (RWJF), called Voices for Healthy Kids. The Academy has been invited to participate in this consortium (see attached document for more information). I discussed the invitation with Pat and we feel the initiative definitely aligns with our mission, vision and strategic plan. We also feel you would be the perfect person to serve as our representative to this consortium based on your expertise in school nutrition, your familiarity with the work of the Academy, as well as your excellent interpersonal skills. We would like to participate in the consortium at both the Steering Committee and Nutrition Workgroup levels. "Involvement" in the Steering Committee entails attending an annual ½ day meeting in DC and participation in monthly conference calls. The Nutrition Workgroup will meet monthly via conference call. The group is hoping to hold the first meeting of the Steering Committee in December, although that may be an aggressive goal considering it is already mid-November. The hope is that this will be a multi-year initiative, although the funding model from the RWJF is a year-to-year one. Pat and I recognize you are on the national ballot and, if you agree to serve as our representative to this consortium, we may need to shift that plan in the future based on the election results.

I hope you will accept this invitation. If you want to discuss it further before giving me an answer, please feel free to give me a call. If you feel you cannot make this commitment, I would appreciate any recommendations for someone else to ask who is good at making interpersonal connections and has the expertise needed (both in terms of school nutrition and the Academy) to make us a valued contributor.

Thank you for considering this request. If possible, I need a response by Friday (I might be able to stretch it to next week). I apologize for the tight timeline but, as you probably already know, the DC world tends to operate this way.

Warm regards,

Marsha

ON THE PULSE OF PUBLIC POLICY

Support for *Dietary Guidelines*: Urgent Action Needed

The *Dietary Guidelines for Americans* affect every practice area for Academy members. Congress is currently considering limiting the scope of the *DGA*, based on political pressures rather than science. Congress needs to hear your voice: Take action now to support the *Dietary Guidelines*.
[Learn More](#)

Diabetes Month Advocacy

To help save lives, improve health and save health care costs, the Academy joins advocacy communities across the country during November's American Diabetes Month to raise awareness that diabetes rates continue to rise.
[Learn More](#)

Member Appointed to Florida Diabetes Advisory Council

Florida Governor Rick Scott recently reappointed Academy member Leslene E. Gordon, PhD, RD, LDN, community health director for the Florida Department of Health, to the state's Diabetes Advisory Council, where she will help "guide a statewide comprehensive approach to diabetes prevention, diagnosis, education, care, treatment, impact and costs."
[Learn More](#)

Webinar with Healthy People 2020

The Academy and our partners in the Diabetes Advocacy Alliance are proud to support a webinar on December 10 titled "Empowering People to Manage their Diabetes." The webinar, hosted by the Office of Health Promotion and Disease Prevention's Healthy People 2020 initiative, will focus on diabetes self-management education. Registration is now open.

Chronic Kidney Disease: Academy Encourages Increase in MNT Utilization

The Academy's comments to the Healthy People 2020 initiative encourage the U.S. Department of Health and Human Services to declare it an objective of the program to increase utilization of cost- and clinically effective medical nutrition therapy services for beneficiaries with chronic kidney disease.

[Learn More](#)

Improved Care from Alternative Payment Models: Academy Urges Incentives for RDNs

The Academy provided recommendations to the Centers for Medicare and Medicaid Services to develop provisions related to the needs of non-physician providers such as registered dietitian nutritionists. CMS is preparing to implement a new Merit Based Incentive Payment System and promote Alternative Payment Models as required by the "doc-fix" legislation passed earlier this year.

[Learn More](#)

Nutrition Labeling Education: Academy Partners with Stakeholders

The Academy recently joined industry, public health and government stakeholders for the inaugural meeting of the Nutrition Labeling Education Consortium, which is intended to increase consumer awareness, engagement, understanding and usage of fact-based nutrition labeling to help consumers make informed, healthy choices. The Academy will lead a meeting in the spring and will discuss strategies for creating a repository of research and resources for providers and consumers.

CPE CORNER

November 19 Webinar: Opportunities for RDNs in National School Lunch Program

A November 19 webinar will describe development of the new Professional Standards rule and explain key requirements that must be met by school foodservice personnel.

Member Honored by Oncology Nursing Society

Academy member Barbara Grant, MS, RD, CSO, is the first registered dietitian nutritionist to be named an honorary member of the Oncology Nursing Society. Grant will receive her award during the ONS Annual Congress April 28 to May 1, 2016, in San Antonio, Texas.

[Learn More](#)

February 1 Application Deadline: Seeking RDNs to Join Landmark Spokesperson Program

Are you active in your local news media? Do you have experience being interviewed on TV or radio? Do you want to show the world that registered dietitian nutritionists are the media's trusted source for accurate, timely and science-based food and nutrition information? The Academy is looking for media-savvy registered dietitian nutritionists to join its amazing team of volunteer national spokespeople. Applications are due February 1, 2016.

PHILANTHROPY, AWARDS AND GRANTS

December 1 Application Deadline: Food Safety Student Challenge Grants

The Academy of Nutrition and Dietetics Foundation/ConAgra Foods Food Safety Student Challenge was developed around the renewed Home Food Safety campaign. Nine scholarships of \$4,500 are available. The application deadline is December 1.

[Learn More](#)

December 1 Application Deadline: CDR Leadership Grant

The purpose of this fund is to provide financial support to RDNs and DTRs to obtain leadership training. The training programs should prepare individuals to move into leadership positions within their organization. Information about the award program application are available on the Foundations website.

[Learn More](#)

December 1 Application Deadline: CDR Grassroots Marketing Grant

The purpose of this fund is to provide grants to RDNs or DTRs to promote CDR credentials at the local level to prospective employers or third-party-payers. Funds may be used for a virtual event or activity or an in-person program (for example, to attend and exhibit at a professional meeting). Information about the award program application are available on the Foundation's website.

[Learn More](#)

February 1 Application Deadline: Wimpfheimer-Guggenheim Fund for International Exchange in Nutrition, Dietetics and Management

This fund provides up to two \$1,100 awards for essays describing new approaches, including the application of technology, to feed the hungry by maximizing underutilized food resources or through a fresh produce program reducing food wastage. The deadline to submit essays is February 1, 2016. Email Amy Donatell for more information.

Subject: Academy Honors and Awards Program
Attachment:

This is the time of year when affiliates, DPGs, MIGs, and individual Academy members begin to develop nomination packets for Academy honors and awards. Please encourage your colleagues to submit nominations to recognize individuals who have advanced the profession. To learn more about the awards and honors program, refer to <http://www.eatright.org/nationalawards/>.

Please remember that members of the Board of Directors are not eligible to receive an Academy or Foundation honor or award. Also, no current member of the Academy's Board may provide a letter of support for inclusion in honors and awards nominee packets (see excerpts from Honors and Awards policy below). If you have any questions, please feel free to contact Barbara Visocan at bvisocan@eatright.org.

Board of Directors Eligibility ^{3/4} No member of the Board of Directors may at the time of honors and awards selection and/or presentation be eligible to receive an Academy honor or award. This includes those on the ballot for the following year; if a Board nominee is elected, he/she is not eligible for an award.

Letters of Support No current members involved in the selection process for an honor or award, including the Board of Directors, may provide a letter of support for Academy and joint Academy/Foundation honors and awards nominations. Academy Staff may not write letters of support for National Honors and Awards nominees.

Best regards,

Pat

Will Congress Cut the Dietary Guidelines?

Congress needs to hear your voice in support of the *Dietary Guidelines for Americans*.

The *Dietary Guidelines for Americans*, and the scientific process that is used to create them, provide a crucial basis for federal nutrition policy, identify future research needs and equip health professionals with tools to benefit the public. These *Guidelines* provide the most up-to-date and consistent messages for consumers to make healthy choices for themselves and their families.

Tell Congress to support the *Dietary Guidelines for Americans* and allow them to proceed without undue interference by Congress.

TAKE ACTION TODAY!

Thank you in advance for being a leader in the nations efforts toward better health.

Dr. Evelyn F. Crayton, RDN, LDN, FAND
President, 2015-2016

Subject: January Board Meeting
Attachment:

The 4Ps during their call last Friday discussed the upcoming January 2016 Board meeting. The following agenda items will be included:

- Sponsorship Advisory Task Force report recommendations
- Second Century strategic planning
- Membership retention and recruitment and marketing
- Council on Future Practice Visioning Report

The topics require ample deliberation time and we are asking you to shift the January 13 webinar to a face-to-face meeting. Because you already have January 13 open for the webinar, please plan to arrive on Tuesday, January 12 and we will convene the meeting at 3:00pm that day and will adjourn at 4:00pm on the 13th. Since this meeting is unbudgeted, we will be staying at a hotel close to O'Hare Airport to save on expenses.

Hotel reservations will be made for arrival on January 12, unless requested otherwise. You are approved to make your travel arrangements for the meeting. Please go to

<https://adatvl.axo20.com/> and select your flights, enter 1032430 for the approval code and indicate that the Academy is paying for travel from the drop down menu below the approval code box.

Thanks for your flexibility!

Best regards,

Pat

Do we need new labeling conventions around fully hydrogenated oils?

(Fully hydrogenated oils (FHOs) do not create harmful trans-fats, and could replace partially hydrogenated oils (PHOs) in many applications. However, manufacturers are reluctant to use them because the word hydrogenated has become demonized, argues one expert, who says efforts are underway to find an alternative name for FHOs that will satisfy manufacturers, consumers, and regulators)

117. 2016 Academy Ballot: Candidate

From: nominations@eatright.org
To: DMartin@Burke.k12.ga.us
Sent Date: Nov 13, 2015 18:31:04
Subject: 2016 Academy Ballot: Candidate
Attachment:

Dear Donna Martin, EdS, RDN, LD, SNS, FAND:

Congratulations on being selected as a candidate on the Academy of Nutrition and Dietetics 2016 national ballot! We believe an impressive slate was chosen and appreciate your willingness to contribute your time and talents to the Academy and the profession. The **results of the slate selection must be kept confidential** until the 2016 slate is posted to the Academy's website at www.eatrightPRO.org/elections 3:00 pm central time on Tuesday, November 17. Failure to do so may result in removal from the ballot.

Candidate information from your Nominee Biographical Information Form will be made available to members for voting via the Academy website. The following sections of the Nominee Biographical Information Form will be published:

- Photo
- Name and Credentials - Your name will be published as it appears in the salutation of this email (Please note that only educational degrees, CDR credentials, licensure and fellow designations will be listed in publications)
- Employment - Job Title, Employer Name
- Skills and Attributes and Leadership Achievements (Position, Organization and Term)
- Campaign Statements – Campaign statements will be published with the first statement visible during voting

You may use the following unique link to update any information on your Nominee Biographical Information Form or upload a new photo. Any changes should be made by **December 14**. Please carefully check the information since the Academy will not edit your response.

Unique Link: <http://elections.webauthor.com/elections/confirm.cfm?guid=229566A8-ADB9-F5A5-26C1CA16482D5A9A>

Candidates may begin campaigning January 1, 2016. The candidate National Campaign and Social Media Guidelines are currently being revised for the 2016 election year. You will be sent a copy of the approved guidelines in early December.

The election begins February 1 and ends February 22, 2016. Candidates will be informed of election results on February 24, pending tabulation of electronic and paper ballots. Terms of office begin June 1, 2016.

Once again, congratulations! If you have any questions, please contact the Nominating Committee staff partner, Joan Schwaba at 1-800/877-1600 ext. 4798 or via e-mail at nominations@eatright.org.

Regards,

2015-16 Academy Nominating Committee

Subject: **Closing Membership Gap Meeting**

Hi Everyone,

We on the Membership Development Team are very much looking forward to Tuesday's meeting. To help facilitate, we have attached an overview of the Academy's 2015 nonmember recruitment activities. We revise this report annually and throughout the year. As well, we meet with Marketing periodically to update. We thought this overview would be helpful so everyone can see the

frequency in nonmember communications as well as the additional communications we've put in place this membership year to close the gap. Again, looking forward to Tuesday's discussion on potential new ways to entice nonmembers to join.

Please let us know if there are any questions.

Attachment: [40th Anniversary.jpg](#)

Earlier this week at our all-staff meeting we surprised Pat with a cake to celebrate her 40 years with the Academy! It was 1975 when Pat was hired; the same year the Bill Gates launched Microsoft, the Vietnam war ended, disco music blared on 8 track tapes and the fabulous pet rocks were all the rage. We are so fortunate to have her at the helm and to have enjoyed her 40 years of service. Cheers to the next 40!

BTW, Pat shared with everyone a hilarious story about the time she was sent home from work by her boss for dressing inappropriately. Although her halter top, mini-skirt and white boots were all quite fashionable back in 1975 they didn't make for a very professional image J. Wish I had that picture to share. Enjoy the photos from today. Where were you in 1975?

Connect with the Academy:

What will the profession of nutrition and dietetics look like in 10-15 years? Now is your opportunity to provide input into the forces or change drivers impacting the profession! After extensive review of the literature and an environmental scan based on the 5 priority categories listed below, the Council on Future Practice (Council) has identified 10 change drivers impacting the profession. The 10 change drivers, their trends and implications are detailed in the document Change Drivers and Trends Driving the Profession: A Prelude to the Visioning Report 2017.

All Academy members and credentialed dietetics practitioners are invited to participate in the Council's visioning process survey to provide feedback on the change drivers and trends as identified by the Council. Your input will be used to identify priorities and shape the recommendations that are developed for the Visioning Report 2017. **Complete the survey by December 3 before its too late!**

After completing the survey, if there are additional change drivers and trends that you feel need to be considered by the Council, please send the newly identified change driver, rationale and supporting documentation to your Academy organizational unit point person by **December 10, 2015**. The newly identified change drivers and trends should be related to the Council's identified priority categories for the 2014-2017 visioning process including:

- Translating Evidence-Based Research into Practice and Policy
- Food and Nutrition Systems and Sustainability
- Workforce Projections
- Education/Professional Development
- Economic and Market Forces

Please note that the rationale and supporting documentation must be included for all newly identified change drivers in order to be considered by the Council.

The Council looks forward to your input on the 10 change drivers and trends! For more

information, visit www.eatrightpro.org/visioning. Contact futurepractice@eatright.org with any questions or concerns.

Subject: Re: E-Blast to Academy Members and Credentialed Practitioners Today

Hi Harold:

Thanks - This is always about business not personal and I don't get my feelings hurt too easily. I understand that the Council has worked hard and I do not want to appear unappreciative of their work but one needs to step back and be objective about the finished product. A report is factual, a video is creative and elicits many opinions and emotions. My concern, we have had problems with our messaging in the past. I believe we want to speak to our members in a more sophisticated manner. Thanks for allowing me to voice my opinion. Lucille

Subject: RE: E-Blast to Academy Members and Credentialed Practitioners Today

Hi Lucille

I would like to respond to your email message. While my comments may be seen as defensive, I hope you realize that they are not meant to be. As background, the video was reviewed by the Council on Future Practice (10 members), the Visioning Process Workgroup (7 members) and the HOD Leadership Team (6 members) before it was finalized and no one indicated a dislike for the voice. There were comments about the speed of the presenter and we had planned to re-record to replace the video early next week due to the looming deadline. One individual noted a concern about the Gray Tsunami.

At this point, we will remove the video from the message to members and will revise the video for release next week. It is unfortunate that the work of the Council is being re-directed after the amount of work they have done. I hope you will not be offended by my response as it is not my intention to cause you to be upset further.

Subject: Re: E-Blast to Academy Members and Credentialed Practitioners Today

I finished trying to review this report. We need more time to review it before you send it out to the members. There is no rush to send it out- members are not looking for this report today. The video is terrible! Where should I start-- comments from my office which includes 5 individuals 2 were RDN's 3 admin staff. The voice was annoying high pitched and spoke TOO FAST. The Gray

Tsunami is insulting need to find a more diplomatic way to convey that message. It looks like a bad cartoon and it is patronizing as if our members do not understand diversity and the changing face of the nation.

After a few seconds we wanted to shut it off but did follow to the end. Pull this video it is awful.

Subject: Second Century Meeting Update
Attachment: [E-Team Second Century Meeting Outcomes PDF.pdf](#)

Attached are notes from the e-team's Second Century vision kick-off meeting. The meeting was facilitated by Erin Sexson, Senior Vice President for Global Sustainability with the Innovation Center for U.S. Dairy. Erin has worked with the Innovation Center on similar projects. A special thank you to Jean Ragalie who made it possible for Erin to assist with the Second Century project! Katie Brown, the Foundation's Chief Global Nutrition Strategy Officer, also spearheaded the discussions. In her new capacity, Katie will serve as the staff lead on the Second Century initiative, while continuing to support the Foundation's national nutrition education activities. Please join me in congratulating Katie. We are proud of all that she has accomplished and look forward to her continue contributions in our efforts to raise the visibility, impact and opportunities for our members worldwide.

As you will see, it was an extremely productive meeting and work streams have been assigned with tasks and timelines. We will define the project scope—determine what we mean by the Second Century vision. We established a renewed sense of team and leadership and today I shared an update at the all-staff meeting. We know the excitement and commitment starts with us and will continue to build and spread throughout the organization and membership.

The 100th year anniversary celebrations will receive a great deal of attention, including an official kick-off at FNCE 2016 in Boston. We are just eleven months away so the headquarters team will be working strategically to draft a compelling vision and organizational strategic plan for the Board to review, discuss and refine at the January meeting. Our focus is on a three-five year plan to create a strong foundation for the Second Century vision that will continue to build into the future. We will look at where we are now, where we want to go in the next three-five years and longer, and how we will get there. The plan will include strategic objectives, strategies, short-term goals and priorities, action plans, and key performance measures. It will be a collaborative process that will involve contributions from a cross-section of the Academy so we will develop a comprehensive communications and member engagement plan. For the Foundation, a fundraising campaign is also a major component of the overall process.

Your continued support for this important initiative is appreciated. Please review this information and let me know if you have any questions.

Best regards,

Pat

Subject: Second Century Meeting Update

At the retreat in July, the Board was very enthusiastic about moving forward with developing the second century vision that will transform the next century of nutrition and dietetics practitioners and the Academy as *the* food and nutrition leaders on a global scale.

I am happy to report that yesterday, the e-team participated in a half-day meeting to discuss ways that we will bring our Board and members' vision to life and advance the profession for generations to come. Please see my attached letter to the e-team. The very productive meeting was facilitated by Erin Sexson, a volunteer who has worked with the dairy industry on a similar strategic planning process that resulted in transforming the organization and the industry toward sustainable goals, and by Katie Brown, the Foundation's Chief Global Nutrition Strategy Officer.

You challenged us to think boldly about the second century. We are working on an initial plan and in the next few months, we will:

- Define the project scope—What do we mean by the second century vision? What will success look like when we have achieved a new vision?
- Envision the future we collectively want for this organization—Building on our past, celebrating the present and looking toward future, what can we achieve going forward?
- Identify project needs such as milestones, engagement opportunities and communications—What key material and knowledge would we need to make informed decisions? Where do we need to engage the membership, industry and staff? When should we communicate about our work?
- Identify resources to support the effort—What people and funding resources could support the Foundation's effort?
- Discuss next steps with our internal teams—How can we involve the entire organization?

The e-team has enthusiastically embraced this challenge. I am looking forward to presenting an update at the January Board meeting. This promises to be an amazing project and when we will look back in a few years, we will know that we were part of building upon our great legacy and securing a sustainable future for the Academy and its members.

Best regards,

Pat

E-Blast to Academy Member and Credentialed Dietetics Practitioners- November 12, 2015

What will the profession of nutrition and dietetics look like in 10-15 years? Now is your opportunity to provide input into the forces or change drivers impacting the profession! After extensive review of the literature and an environmental scan based on the 5 priority categories listed below, the Council on Future Practice (Council) has identified 10 change drivers impacting the profession. The 10 change drivers, their trends and implications are detailed in the document “Change Drivers and Trends Driving the Profession: A Prelude to the Visioning Report 2017.”

All Academy members and credentialed dietetics practitioners are invited to participate in the Council's visioning process survey to provide feedback on the change drivers and trends as identified by the Council. Your input will be used to identify priorities and shape the recommendations that are developed for the Visioning Report 2017. **Complete the survey by December 3 before it's too late!**

After completing the survey, if there are additional change drivers and trends that you feel need to be considered by the Council, please send the newly identified change driver, rationale and supporting documentation to your Academy organizational unit point person by **December 10, 2015**. The newly identified change drivers and trends should be related to the Council's identified priority categories for the 2014-2017 visioning process including:

- Translating Evidence-Based Research into Practice and Policy
- Food and Nutrition Systems and Sustainability
- Workforce Projections
- Education/Professional Development
- Economic and Market Forces

Please note that the rationale and supporting documentation must be included for all newly identified change drivers in order to be considered by the Council.

The Council looks forward to your input on the 10 change drivers and trends! For more information, visit www.eatrightpro.org/visioning. Contact futurepractice@eatright.org with any questions or concerns.

ON THE PULSE OF PUBLIC POLICY

Primary Prevention of Childhood Obesity: Academy Works with *Let's Move!*

Academy representatives recently joined the First Lady's *Lets Move!* team and other stakeholders for a roundtable on efforts and future recommendations to address childhood obesity. The Academy shared numerous successes by members, including the Alliance for a Healthier Generation's Healthier Generation Benefit and the Foundation's Kids Eat Right program.

Academy Recommends Standards for Nutrition Data in Health IT

The Academy submitted comments to the Office of the National Coordinator of Health Information Technology's 2016 Interoperability and Standards Advisory, which guides U.S. hospitals and health professionals in implementation of health IT including electronic health records. A question for all members to ask at your practice setting: "What nutrition data do we send outside the organization and what nutrition information do we receive?"

Members' Work Highlighted: Early Care Wellness Programs

The U.S. Department of Health and Human Services and Department of Education's Early Learning Interagency Policy Board held a public listening session November 5 to gather comments on a joint health and wellness promotion policy in early child care settings. Academy member Fern Gale Estrow, MS, RDN, CDN, and Academy staff spoke about the value that registered dietitian nutritionists add to early child care programs.

Congress Recognizes November as American Diabetes Month

U.S. Reps. Tim Ryan (Ohio) and Ed Whitfield (Ky.) introduced a resolution in the House of Representatives to raise awareness about the prevalence of diabetes and to promote the need for additional research and preventive efforts to tackle the diabetes epidemic. Sens. Jeanne Shaheen (N.H.) and Susan Collins (Maine) previously introduced a similar resolution in the Senate. The Academy has highlighted the role of medical nutrition therapy in preventing diabetes and urged Congress to pass the Preventing Diabetes in Medicare Act (H.R. 1686).

[Learn More](#)

November 13: World Diabetes Day Event

As part of American Diabetes Month, former Agriculture Secretary - and 2015 Academy Honorary Member - Dan Glickman will join a panel of community leaders, patients and public health experts November 13 in New York City to discuss social determinants of diabetes and the required response to better prevent and treat diabetes. Academy members may register to attend in person, or watch the live stream of the event starting at 8 a.m. Central Time.

Academy Supports Bipartisan Bill to Improve Nutrition for Young Children

U.S. Reps. Suzanne Bonamici (Ore.) and Elise Stefanik (N.Y.) introduced the bipartisan Early Childhood Nutrition Improvement Act (H.R. 3886) to expand access to nutritious meals for young children. The Academy is driving effective nutrition policy through a number of bills as part of the upcoming Child Nutrition Reauthorization.

Health Affairs: Food and Health Issue

The November issue of *Health Affairs* focuses on the impact of food on health, and features many Academy members' research. Highlights include an in-depth look at interventions that identify and prioritize primary prevention efforts for policy makers aiming to reduce childhood obesity; the

importance of maintaining policies like school meal nutrition standards; and innovative interventions at food banks featuring diabetes-appropriate food for improved glycemic control.

ACADEMY MEMBER UPDATES

On Veterans Day: The Academy's Gratitude

Registered dietitian nutritionists and nutrition and dietetic technicians, registered who serve our country in the military hold a special place in the Academy and in the nutritional health of Americans. The Association was founded during World War I by a visionary group of women in 1917 to consider how the nation's dietitians could help the U.S. government's food conservation program and assist in improving the public's health and nutrition. Dietitians became part of the U.S. Army under a 1947 law, and their service to each of the U.S. Armed Forces continues to this day. With the Academy and the dietetics profession, practice areas of military dietitians have greatly expanded, while their commitment to helping people eat well and live healthy lives has never changed. Especially on Veterans Day, we honor and remember military dietitians. The Academy and all its members are eternally grateful for your service.

Subject: Sad News: Sister Alice Smitherman

Dear Academy Board, Former Academy Presidents and Former Foundation Chairs,

The Academy has been informed of the passing of Sister Alice Smitherman, former Academy President from 1985-1987, who died November 5, 2015. The complete obituary for Sister Alice may be read [here](#).

A vigil service will be Monday, November 9, in the Mount St. Scholastica monastery chapel in Atchison, Kansas and the Mass of Resurrection will be celebrated there on Tuesday, November 10. Flowers have been sent to the monastery and a donation will be made on behalf of the Academy and Foundation Boards to Mount St. Scholastica. We will publish a full page "In Memorandum" in an upcoming issue of the *Journal*. You are welcome to share your sentiments with Jennifer Herendeen, Senior Director of Publications and Resources, at jherendeen@eatright.org for inclusion in the memorial article.

Sincerely,

Joan

All DPG, MIG and Public Policy Panel leaders should attend (*please make sure at least one person from your DPG or affiliate participates*).

Register today! for the November public policy open forum .

Looking for a progressive opportunity to be involved in leading the future of dietetics?

The Academy is seeking a Manager, Consumer Protection and Regulations in our Washington, D.C. office to develop and execute state consumer protection and licensure efforts that support the Academy's national strategy. The position will largely (1) develop and implement strategies and tactics for establishing or maintaining licensure or certification laws and (2) manages issue and opportunities related to federal and state regulations by working with internal and external stakeholders.

Congress Recognizes November as Diabetes Month

Last week, Congressmen Tim Ryan (Ohio) and Ed Whitfield (Ky.) introduced a resolution in the House of Representatives to raise awareness about the prevalence of diabetes and to promote the need for additional research and preventative efforts to fight this debilitating disease. Senators Jeanne Shaheen (N.H.) and Susan Collins (Maine) had previously introduced a similar resolution in the Senate. The Academy issued a press release highlighting the role of medical nutrition therapy in preventing diabetes, and urging Congress to pass the Preventing Diabetes in Medicare Act (H.R. 1686).

Continued Threats to the Dietary Guidelines for Americans

Congress passed the Bipartisan Budget Act last week. The next step is to determine how much money will be allocated to programs; however, lawmakers have also included controversial policy riders, one of which limits the scientific process that creates the Dietary Guidelines for Americans.

Thank you for your leadership and support in the Dietary Guidelines for Americans action alert in June and July 2015. In the coming weeks, Congress may need to again hear what the Dietary Guidelines means to Academy members. Please be prepared to activate your members once we have finalized the details.

Learn more about the DGA policy riders and what they mean for our profession.

Senate and House 2016 Legislative Calendars Released

The calendars reflect the days that the Senate and the House of Representatives will be in

session in Washington, D.C. as well as the days for state work periods.

[Click here to access the House 2016 Legislative Calendar.](#)

[Click here to access the Senate 2016 Legislative Calendar.](#)

Action Alerts Remain Open

Two action alerts remain open for Academy members to use. Policy Leaders do not need to send requests to members this week. The participation reports for action alerts were posted last week.

Academy DPG Experts Needed

The Academy is considering commenting on a number of proposed regulations, regulatory guidance and information/data collections in the next two months. If you are interested in contributing to the Academy's responses to these regulatory initiatives, please work through your Dietetic Practice Groups (DPGs) to submit input on behalf of the DPG. Many of these information collections are seeking strategies and input for improving research and program structure on the listed topics.

To read more about the proposed rules, click on the links below. The dates noted are the deadline for DPGs to submit input to the Academy's Regulatory Affairs department.

Ensuring Safe and Effective Products

Food Contact Substance Notification Program (11/23/2015)

Comment Request; Adverse Event Reporting and Recordkeeping for Dietary Supplements as Required by the Dietary Supplement and Nonprescription Drug Consumer Protection Act (12/04/2015)

Comment Request; Food Additive Petitions and Investigational Food Additive Exemptions (12/04/2015)

Hunger and Public Health Nutrition

USDA Foods in Schools Cost Dynamics (11/23/2015)

Health IT

Common Formats for Reporting on Health Care Quality and Patient Safety (Open, but before Thanksgiving)

Electronic Health Record Incentive Program-Stage 3 and Modifications to Meaningful Use in 2015 Through 2017 (12/01/2015)

Professional

Indian Health Service (IHS) Sharing What Works—Best Practice, Promising Practice, and Local Effort (BPPPLE) Form (12/01/2015)

Reimbursement and Provision of Services

HRSA AIDS Education and Training Centers Evaluation Activities (11/13/2015)

Hospital Wage Index Occupational Mix Survey and Supporting Regulations (11/24/2015)

Notice of Denial of Medical Coverage (or Payment) (12/01/2015)

Research Changes

AHRQ's Evidence-based Practice Center (EPC) Program (11/09/2015)

Changes to Federal for Protection of Human Subjects (11/20/15)

Soliciting Input for the National Center for Advancing Translational Sciences (NCATS) Strategic Planning Process (12/22/2015)

Nominations

Request for Nominations for Members for the Medicare Evidence Development & Coverage Advisory Committee (DUE 12/07/2015)

Advisory Panel Nominations: Science Board Advisory Committee (DUE 12/31/2015)

Subject: Good News! RDN and NDTR salaries more than keep up with inflation.
Attachment: [image004.png](#)
[Academy2015CompensationSurvey_PreliminaryReport pdf \(2\).docx](#)

The seventh administration of the Academy's Compensation and Benefits Survey is nearing completion. A preliminary report is attached. Note that the median salary for RDNs (now \$63,700) and NDTRs (now \$42,000) grew more than the inflationary rise of 1.7% since the 2013 survey. As in previous reports, the survey found RDNs and NDTRs who are members of the Academy earn more per hour than non-Academy members (\$1.44 for RDNs and \$1.91 for NDTRs, equating to \$2995 and \$3,973 annually, respectively). Survey results have consistently shown wide ranges in compensation, most strongly correlated with education, experience, practice area, responsibility level, number supervised, and budget responsibility. We will widely promulgate the differentiation between salaries of members and non-members to both groups.

As we have done previously, a press release announcing results will be distributed and a *Journal* article is being prepared for early 2016. The full, electronic report is a member benefit; non-members may purchase it for \$250.

Best regards,

Pat

Subject: Sad News: Sister Alice Smitherman

Attachment:

Dear Academy Board, Former Academy Presidents and Former Foundation Chairs,

The Academy has been informed of the passing of Sister Alice Smitherman, former Academy President from 1985-1987, who died November 5, 2015. The complete obituary for Sister Alice may be read [here](#).

A vigil service will be Monday, November 9, in the Mount St. Scholastica monastery chapel in Atchison, Kansas and the Mass of Resurrection will be celebrated there on Tuesday, November 10. Flowers have been sent to the monastery and a donation will be made on behalf of the Academy and Foundation Boards to Mount St. Scholastica. We will publish a full page "In Memorandum" in an upcoming issue of the *Journal*. You are welcome to share your sentiments with Jennifer Herendeen, Senior Director of Publications and Resources, at jherendeen@eatright.org for inclusion in the memorial article.

Sincerely,

Joan

Joan Schwaba, MS, RDN, LDN

Director, Strategic Management

Subject: Second Century Meeting Update
Attachment: [E-Team Second Century Kick Off Meeting Letter.pdf](#)

At the retreat in July, the Board was very enthusiastic about moving forward with developing the second century vision that will transform the next century of nutrition and dietetics practitioners and the Academy as *the* food and nutrition leaders on a global scale.

I am happy to report that yesterday, the e-team participated in a half-day meeting to discuss ways that we will bring our Board and members' vision to life and advance the profession for generations to come. Please see my attached letter to the e-team. The very productive meeting was facilitated by Erin Sexson, a volunteer who has worked with the dairy industry on a similar strategic planning process that resulted in transforming the organization and the industry toward sustainable goals, and by Katie Brown, the Foundation's Chief Global Nutrition Strategy Officer.

You challenged us to think boldly about the second century. We are working on an initial plan and in the next few months, we will:

- Define the project scope—What do we mean by the second century vision? What will success look like when we have achieved a new vision?
- Envision the future we collectively want for this organization—Building on our past, celebrating the present and looking toward future, what can we achieve going forward?
- Identify project needs such as milestones, engagement opportunities and communications—What key material and knowledge would we need to make informed decisions? Where do we need to engage the membership, industry and staff? When should we communicate about our work?
- Identify resources to support the effort—What people and funding resources could support the Foundation's effort?
- Discuss next steps with our internal teams—How can we involve the entire organization?

The e-team has enthusiastically embraced this challenge. I am looking forward to presenting an update at the January Board meeting. This promises to be an amazing project and when we will look back in a few years, we will know that we were part of building upon our great legacy and securing a sustainable future for the Academy and its members.

Best regards,

Pat

ON THE PULSE OF PUBLIC POLICY

November is National Diabetes Month

November is National Diabetes Month, making it a great time to reach out to your member of congress to ask them to co-sponsor the Preventing Diabetes in Medicare Act (H.R. 1686). Academy members can also check out the latest research on the effectiveness of medical nutrition therapy to prevent diabetes. If your member of Congress is not signed on to the bill, please take action now.

Federal Budget Update

On Friday, October 30th, Congress passed the Bipartisan Budget Act of 2015, which raises the debt limit and provides two years of relief from additional cuts to discretionary funding, including important nutrition programs. Learn more and stay tuned for an opportunity to reach out to your member of congress.

Institute of Medicine Holds Two-Day Workshop on the Role of Nutrition in Healthy Aging

The Institute of Medicine held a two-day workshop on October 29th and 30th looking at research, policies and best practices around the role of nutrition in healthy aging. The Academy participated as part of the Planning Committee for the workshop. The workshop recording can be found here, and slides will be made available in coming weeks. Learn more about the new Root Cause Coalition announced at the workshop and its multi-sectorial approach to address food insecurity.

Informatics Stories Needed

Tell your story about informatics - large or small - by blogging on the new Nutrition Informatics blog - now hosted on *Food and Nutrition Magazine*. Please send a message to thefeed@eatright.org for more details and guidance on how best to contribute.

Got EHR? Top Question to Ask

If your facility is implementing or has implemented an Electronic Health Record, there are important questions to ask your health information systems team: What nutrition data is being exchanged between our facility and how can it be optimized such that nutrition "data follows the patient?" To better understand the expectations of interoperability, see *A Shared Nationwide Interoperability Roadmap*.

Opportunities to Offer Input: Proposed Regulations and Government Initiatives

Federal agencies are busy issuing multiple proposed regulations and information collections. Members are encouraged to work with your dietetic practice groups to submit input on these initiatives, which are detailed in the Public Policy Weekly News and online under regulatory comments.

Eating Like a Kid on the Hill

On Tuesday, October 27, U.S. Senator Kirsten Gillibrand (NY), Chef Tom Colicchio, *Top Chef* host Padma Lakshmi, the Academy of Nutrition and Dietetics, the American Heart Association, Food Policy Action, the Center for Science in the Public Interest and other members of the National Alliance for Nutrition and Activity, hosted a lunch on Capitol Hill to sample popular school meals meeting national nutrition standards.

CPE CORNER

November 19 Webinar: Professional Standards in National School Lunch Program

As part of the Healthy, Hunger-Free Kids Act, the U.S. Department of Agriculture established minimum hiring and training requirements for school nutrition program employees. A November 19 webinar (noon - 1:30 p.m. CST) will describe development of the new Professional Standards rule and explain key requirements that must be met by school foodservice personnel.

2015 *Journal* Photo Contest Winner Announced

Robin Hawkins, MS, RD, LD, is the winner of the 2015 *Journal of the Academy of Nutrition and Dietetics* photo contest. The 2015 theme was "Bringing the Past to Life" and featured photos relating to food, nutrition and dietetics with a vintage look and feel. Hawkins describes her photo - Let's Picnic - as "A vintage memory brought back to life. My great aunt's elegant china plays

center stage to gorgeous fruits and vegetables. The ripe, delectable tastes of summer, grown by my grandparents, were devoured by hungry cousins between rounds of croquet. Fierce competition continued by Grandpa's lantern light if the sun faded before children's energy. Dessert was the freshest strawberries and cream whipped with love from Grandma's crank beater."

2016 *Journal Eat Right* Calendar On Sale Now

Celebrate the New Year all year long with 12 months of food-related photos taken by your colleagues. The 2016 Eat Right calendar, published by the *Journal of the Academy of Nutrition and Dietetics*, features photos taken by the finalists in the annual *Journal Photo Contest* and includes dozens of important dates for nutrition and dietetics practitioners. Calendars are available for \$9.99 (shipping included) from our Member Service Center: Just call 800/877-1600 ext. 5000 to order for yourself or as a gift - 15% off for purchases of 10 to 100 calendars. This offer ends December 29, 2016. Supplies are limited, so act fast!

The Urban School Food Alliance and the Alliance for a Healthier Generation: Creating an Equitable Food System for All Schools

The Academy along with the American Academy of Pediatrics collaborates with the Alliance for a Healthier Generation, a joint initiative of the American Heart Association and Clinton Foundation in the fight against childhood obesity. The Alliance just announced a partnership with the Urban School Food Alliance, which will provide real solutions to the challenges that smaller school districts face, as well as address environmental sustainability and local procurement. It aims to drive innovative market solutions that are nutritionally wholesome, ecologically sound, economically viable and socially responsible.

Joan Schwaba, MS, RDN, LDN

Director, Strategic Management

Academy of Nutrition and Dietetics

120 S. Riverside Plaza, Suite 2000

Chicago, Illinois 60606-6995

Phone: 312-899-4798

+++++

Greetings from ACEND,

The Accreditation Council for Education in Nutrition and Dietetics (ACEND[®]) is writing to keep you informed of our work on the future education model standards. A copy of the **November update** is posted on the ACEND Standards webpage www.eatrightacend.org/ACEND/Standards.

The **November update** includes a handout that was given at the recent FNCE[®] ACEND Forum as a summary of ACEND's work on the 2017 and the future education model standards. The November update also addresses questions that were received at FNCE or have been submitted to ACEND during the past month.

ACEND continues to explore ways to assure multiple avenues of communication with its stakeholders as it develops standards for the future education model. Starting on Thursday, November 12, 2015 ACEND will begin hosting a monthly virtual town hall at 11:30 am CT on the second Thursday of each month. Information for connecting to the virtual town hall is posted on the ACEND Standards webpage www.eatrightacend.org/ACEND/Standards.

Please share this information with your constituents/colleagues. If you or they have questions, please send them to acend@eatright.org or call 312-899-4872, so we can respond to them. Future editions of the monthly update will include these questions and an ACEND response.

Thank you so much.

Mary Gregoire, PhD, RD

Hi Donna –

We were in the process of cutting a check and sending it to your home. We will void out this check and send a direct deposit payment.

Saturday, we had rain all day but it stopped just in time for the little ghosts and goblins to come out for candy... about 35 came knocking this year! This was more than ever before.

Sorry about Georgia...
Talk to you soon...

Subject: Re: Donna Martin

Hey Christian, Good to hear from you. Both addresses are mine. The Hillsdale one is my home and the other is work. When I had checks sent I wanted them to go to my home, but everything is direct deposited now so you can delete that one.

We are having friends over to watch the GA/FL game. Not too optimistic on GA winning, but we will eat well.

Happy Halloween!

Food & Nutrition Magazine - November/December 2015 | Volume 4, Number 6

Having trouble viewing this e-mail? [View it in your browser.](#)

Your print copy of *Food & Nutrition* is in the mail, but you can access the digital edition now via our @FoodNutriMag app or any common web browser!

The AGE Limit

High-temperature cooking spurs the production of potentially harmful compounds called advanced glycation end products, or AGEs. How much is too much when it comes to health?

Love Lentils

Meaty and quick-cooking, these round legumes deserve a place on the pantry shelf. From green, brown and black to brighter yellow, pink and red, each variety has a distinct shape, flavor and texture.

DIY Kitchen: Stock

Using a sachet of herbs and aromatics, plus leftover chicken and vegetables, make a delicious, fragrant cooking liquid at home. Homemade stock is simple to prepare and can boost flavor in soups, stews and sauces.

Today's Look at Yesterday's Deli

Gone are the days when a supermarket deli counter held only meats and cheeses. Nowadays, the prepared foods department features healthier, tastier and more diverse options than ever before.

Greetings!

The November/December 2015 issue of *F&N* hits the mail today, and attached is a confidential PDF copy for your records. Below is an outline of what's in this issue so you are informed should a member have any questions or feedback. The theme for this issue is **The Soup Issue**.

FEATURES

- **A Bowl for Every Belly:** Treetops are turning gold and red, the sun is setting earlier and there's a crispness to the air. It can only mean one thing: Time to make soup.
- **The AGE Limit:** High-temperature cooking spurs the production of potentially harmful compounds called advanced glycation end products, or AGEs. How much is too much when it comes to health?
- **Love Lentils:** Meaty and quick-cooking, these round and colorful legumes deserve a place on the pantry shelf.
- **DIY Kitchen – Stock:** Leftover chicken and vegetables can be used to make a delicious, fragrant cooking liquid that boosts flavor in soups, stews and sauces.

- **Today's Look at Yesterday's Deli:** Prepared foods at the supermarket are becoming healthier, tastier and more diverse than ever before.

REGULAR CONTENT

- **RESPOND** (Members can send letters to the editor here:
<http://foodandnutritionmag.org/submit-a-letter-to-the-editor>)
- **DISCOVER** (article about the rice cooker + new kitchen tool reviews by the Stone Soup bloggers)
- **RESEARCH** (briefs on the latest studies in nutrition and health)
- **SAVOR** (chard)
- **INSPIRE** (hero profiles): Julie Peacock, RD; YaQutullah Ibraheem Muhammad, MS, RDN, LD
- **CLICK** (app reviews)
- **READ** (new books)
- **UNITE** (global topics): International resources for developing countries in Central America

As always, please let me know if you have any questions about *Food & Nutrition Magazine*.

Trust Your Gut: The Effect of Prebiotics and Probiotics on Gut Microbiome

September 10, 2015

Noon to 1:30 p.m. (Central)

Although probiotics are becoming more popular each year due to increased focus on gut health, surprisingly little is known for sure on how to maintain a healthy gut. A variety of conditions, both related to the digestive system and seemingly unrelated, may be impacted through efforts to influence gut flora. Exercise and body composition effects are also a common target for probiotics. Dietitians are often asked about specific strains of probiotics, however, patients rarely ask about prebiotics despite a possibly larger overall role in maintaining gut health. Hence, it is crucial to understand what is known, what is hypothesized, and what won't be known for a while regarding the role of pre- and probiotics in health.

[2015 BOD Partners Assignment Sign Up Sheet090415.docx](#)
[2015 Honors Breakfast Script.doc](#)

All Board members are requested to be at the Honors Breakfast scheduled for Sunday, October 4 from 7:00 am – 8:30 am in the Broadway Ballroom E of the Omni Nashville Hotel. Thank you to those of you who are participating in our Academy's partner program. Attached is the current 2015 partners list. If you haven't done so already, please initiate contact with your respective partner(s) prior to FNCE, offering congratulations and asking if she/he requires any assistance; the contact information is attached. The date and location of the *Excellence in Practice* award presentations are reflected on the list, should you have time to attend; the moderators present the award.

For those of you partnering with Medallion Award recipients, the medallion award presentations will be held during the Honors Breakfast. Attached is the script to introduce the recipients during this recognition breakfast. The opening and closing remarks are provided by Sonja as current chair of the Honors

Committee.

The introductions follow the script.

- Sonja Connor/Opening Remarks
- Denice Ferko-Adams/Susan Borra
- Michele Lites/Sari Edelstein
- Aida Miles/Jana Kicklighter
- Evelyn Crayton/John Krakowski
- Tamara Randall/Ainsley Malone
- Cathy Christie/Judith Rodriguez
- Sonja Connor/Judith Wylie-Rosett
- Linda Farr/Marty Yadrick
- Sonja Connor/Closing Remarks

Please review your portion of the script. The introductions were drafted by the nominators and have been approved by each recipient. Medallion recipients will be seated with their families and colleagues. As presenters, you will be seated together at one designated table, unless you were asked to be a guest of a Medallion recipient. Please proceed to the podium with your recipient during the applause for the previous recipient. Once the presentation is completed, proceed back to your seat. Each recipient has been asked to present for one (1) minute. If your schedule allows, please remain in the room immediately following the reception as we will be taking photographs.

We will be sending an electronic Board meeting packet to all Board members by September 25. A paper packet, including your FNCE badge and ribbon(s), will be provided on arrival at the hotel. For those of you presenting at the Honors Breakfast, a paper copy of the script will also be included in your on arrival FNCE meeting packet. If you have any questions regarding the Honors Breakfast, please do not hesitate to contact me or Matthew Novotny at mnovotny@eatright.org or 1-800/877-1600, ext. 4827.

Best regards,

[Academy Exp Report General Fiscal 2015 - 2016.pdf](#)

Hi Donna,

We have 88 people registered for the September 10-12 Certificate of Training in Adolescent & Childhood Weight Management program. You can access the faculty PowerPoint files at <https://app.box.com/s/qpeonq0cr67qqknhxwieogw3lebt6q7j>.

I have attached an updated agenda and an expense report form. You can also use the online expense system at <http://www.eatright.org/expense>. You must use your Academy/CDR login information to access the online expense system.

The on-site program will be held in Meeting Room 106A of the Buffalo Niagara Convention Center located at 153 Franklin St., Buffalo, New York. The convention center is adjacent to the Hyatt Regency-Buffalo. There is a walkway that you give you access to the convention center.

A light breakfast of yogurt, oatmeal and fresh fruit along with coffee and tea will be available beginning at 7:30 am. Hot and cold beverages will be available only during scheduled breaks.

Hotel reservations have been made at the Hyatt Regency Hotel, Two Fountain Plaza, Buffalo, New York. There is a walkway that you give you access to the convention center. The hotel check-in time is 3:00 pm and check-out time is 12:00 pm.

Hotel Confirmation Number: 17773107

Arrival Date: September 11, 2015

Departure Date: September 12, 2015

Here are some links to help you to plan your visit to Buffalo.

[Top10TipsforAcademyLeaders.pdf](#)

Dear Board Members:

An important component of the Board Initiatives Communication Plan for members involves social media outreach. Many of you have requested additional education on social media strategy. In October, you will receive the communication plan for pre-action and post-action including an evaluation component to maximize the success for delivering Board decisions. As a part of this plan, we have scheduled a special training during the Board meeting on Wednesday, October 7. **Please take a moment and respond to this brief survey by Thursday, September 17; the password is FNCE2015.** The results will assist in tailoring the training to your needs. The survey is completely anonymous and password protected.

Also, part of the communication plan involves social media engagement for Academy leaders. Attached is the handout for the *Top Ten Tips for Academy Leaders* that we have developed and will share in October with the HOD, Spokespeople, DPG/MIG/Affiliate leaders, Committee Chairs, etc .

Thank you, and please let me know if you have any questions or need additional information.

Best regards,

Patricia M. Babjak

Subject: Re: Academy Strategic Plan

Pat, In looking back at what I printed out, it is the correct one. I think it was my past memorization of the strategic plan that included "the nation" that was stuck in my head. I am sorry to cause any confusion with this issue. Please do not worry that the wrong one is circulating. Evidently, it was just circulating in my head!!!! As usual the Academy is on top of things!

I look forward to your correspondence on tips! Thanks again for your support!

As part of its ongoing efforts to help integrate RDNs into emerging models of health care delivery and payment, the Academy's Nutrition Services Coverage team hosted a "RDNs in Healthcare Transformation Learning Collaborative" on May 18-19, 2015. This event brought together RDNs from across the country who have successfully integrated their services into emerging health care delivery and payment models to share experiences, questions and wisdom about challenges and successes for RDNs in these models. Colleagues who have been leaders in patient-centered medical homes in Canada joined the event to share their experiences. The Nutrition Services Coverage team, working with the Nutrition Services Payment Committee, will leverage learnings from the meeting to develop additional member resources and messaging around this important topic. The full report from the event along with an executive summary is attached. Both reports will be shared with the House of Delegates and the chairs of Academy committees. If you should have any specific questions about the information provided, please contact Marsha Schofield (mschofield@eatright.org) or Michelle Kuppich (mkuppich@eatright.org).

167. Recharge at the ANDPAC Power Breakfast!

From: Academy of Nutrition and Dietetics <andpac@eatright.org>
To: Donna Martin <DMartin@Burke.k12.ga.us>
Sent Date: Sep 02, 2015 08:05:37
Subject: Recharge at the ANDPAC Power Breakfast!
Attachment:

Dear Donna,

Congratulations on being a top ANDPAC donor! We are very excited to announce that we are offering our top donors "VIP treatment" at FNCE[®].

As a President's Circle level donor, we thank you for your generous contribution to ANDPAC! We are offering the following perks especially for you!

VIP Suite:

As an ANDPAC top donor you will receive access to a VIP suite (room 214 at the Music City Center) where you can kick back, relax and enjoy complementary snacks and beverages. The suite will also have computers, printing, internet, TV and couches. Top donors are allowed to bring one friend or colleague with them to the VIP suite.

VIP Suite Operating Hours:

Sunday, 9 a.m. – 3 p.m.

Monday, 9 a.m. – 5 p.m.

Tuesday, 9 a.m. – 1 p.m.

Wine and Cheese Reception:

On Sunday October 5, we will be offering wine and cheese receptions from 3 – 5 p.m. Please join us for an exclusive meet and greet with the ANDPAC Board and Academy President, Dr. Evelyn Crayton, RDN, LDN, FAND, Academy President-Elect Lucille Beseler, MW, RDN, LDN, CDE and Academy Past President, Sonja Connor, MS, RDN, LD, FAND. **Please RSVP if you will be attending the reception on Sunday, October 5.**

ANDPAC Power Breakfast:

The ANDPAC Power Breakfast will be held at the Omni Hotel on **Tuesday, October 6 from 7:30-9:00 a.m.** You will receive a personal email invitation. Rep. Marsha Blackburn from Tennessee is the speaker. To RSVP for this breakfast event, please **click here**.

Please let me know if you need additional information! ANDPAC has done exceptional things this

year; your support truly does make a difference!

See you in Nashville!

Sincerely,

Denise Andersen, MS, RDN, LD, CLC
2015 Chair, ANDPAC Board of Directors

Federal law requires political committees to report to Federal Election Commission the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year. Corporate contributions are prohibited by law. Individuals can not contribute more than \$2000 per calendar year to the same political action committee. **Donations to ANDPAC are not tax deductible.**

Greetings from ACEND,

The Accreditation Council for Education in Nutrition and Dietetics (ACEND) is writing to keep you informed of our work on the future education model standards. A copy of the September update is posted on the ACEND Standards webpage www.eatrightacend.org/ACEND/Standards.

The **September update** provides a summary of the work ACEND has done to further explore the role of the future education model associate's degree prepared nutrition health worker. The *Rationale Document* has been updated with the results of this data collection. The September update also includes questions that have been submitted to ACEND during the past month and responses ACEND gave to those questions.

Please share this information with your constituents/colleagues. If you or they have questions, please send them to acend@eatright.org or call 312-899-4872, so we can respond to them. Future editions of the monthly update will include these questions and an ACEND response.

Thank you so much.

Mary Gregoire, PhD, RD
ACEND, Executive Director

Daily News

From the Academy of Nutrition and Dietetics Knowledge Center

The Daily News is an e-newsletter informing members of current news related to food, nutrition and health from major news outlets.

Please note that some publications may require registration or a subscription to online content. Newly released book, **The First Fifty**, documents six eras in the Academy's history from the early years to the 1960s in black-and-white photographs that wordlessly deliver a profound narrative of the origins of the Academy and the profession it represents. The Growing Allure of Sprouted Grains

Once relegated to the back corner of the community health-food store, sprouted grain products are gaining traction with mainstream consumers. Learn more about these germinated gems.

From Myth to Mystery: Gluten Sensitivity

The medical community's interest in autoimmune celiac disease and wheat allergy is well-established, but are there other health conditions that could improve with a gluten-free diet? Emerging research may help shed light on this complicated question.

Glorious Grains

Coming in all shapes, sizes and shades of gold, whole grains offer an array of nutrients and health benefits. This handy guide explores the nutrient profiles and culinary uses of whole grains.

DIY Kitchen: Pasta

With only a handful of tools and ingredients, learn how to successfully make fresh whole-wheat and semolina pasta at home.

Bulk Bins Become a Destination Department

Cost savings, reduced waste and culinary exploration are some reasons shoppers head to grocery store bulk bins.

Fares of Faith: Celebrating Mid-Autumn Festival

Observed as a harvest festival, this Chinese holiday is a time to honor the Taoist moon goddess Change with all her favorite foods.

Greetings! The September/October 2015 issue of *F&N* hits the mail today, and attached is a PDF copy for your records. Below is an outline of what's in this issue so you are informed should a member have any questions or feedback. The theme for this issue is **The Grains Issue**.

FEATURE ARTICLES

- **The Growing Allure of Sprouted Grains:** Once relegated to the back corner of the community health-food store, sprouted grain products are gaining traction with mainstream consumers. Learn more about these germinated gems.
- **From Myth to Mystery: Gluten Sensitivity:** The medical community's interest in autoimmune celiac disease and wheat allergy is well-established, but are there other health conditions that could improve with a gluten-free diet? Emerging research may help shed light on this complicated question.
- **Recipes: Au Bon Grain:** From pancakes and oatmeal to a side of bread with supper, whole grains are at the heart of these flavorful dishes.

- **Glorious Grains:** Coming in all shapes, sizes and shades of gold, whole grains offer an array of nutrients and health benefits. This handy guide explores the nutrient profiles and culinary uses of whole grains.
- **DIY Kitchen – Pasta:** With only a handful of tools and ingredients, learn how to successfully make fresh whole-wheat and semolina pasta at home.
- **Bulk Bins Become a Destination Department:** Cost savings, reduced waste and culinary exploration are some reasons shoppers head to grocery store bulk bins.
- **Fares of Faith – Celebrating Mid-Autumn Festival:** Observed as a harvest festival, this Chinese holiday is a time to honor the Taoist moon goddess Chang'e with all her favorite foods.

REGULAR CONTENT

- **RESPOND** (New gift is a Mauviel® Copper Cocotte with Lid; members can send letters to the editor here: <http://foodandnutritionmag.org/submit-a-letter-to-the-editor>)
- **DISCOVER** (article about the rice cooker + new kitchen tool reviews by the Stone Soup bloggers)
- **RESEARCH** (briefs on the latest studies in nutrition and health)
- **SAVOR** (chard)
- **INSPIRE** (hero profiles): Angel Planells, MS, RDN, CD; Kristina DeMuth, RD
- **CLICK** (app reviews)
- **READ** (new books)
- **UNITE** (global topics): Ethiopian Teff

NOTEWORTHY:

- **Reminder:** Academy members can earn 2 hours of Continuing Professional Education by reading our features and completing an online quiz. This free CPE opportunity is available for three years from date of publication. For more information, visit www.FoodandNutrition.org/CPE.

Please do not hesitate to contact me with any questions. Have a great weekend!

Academy of Nutrition and Dietetics Email

Having trouble viewing this e-mail? View it in your browser.

Before there was you..

So..5% of todays Academy members are men, but your demographic is not totally new! The Academys first male honorary member was Malcolm T. MacEachern, a prominent Chicago surgeon who advocated successfully for the inclusion of dietetics in hospital administration.

Read moreand see more---of the unique history that brought us here today: *The First Fifty: A Pictorial History of the Academy of Nutrition and Dietetics, 19171967* represents the first time that the Academys founders have been documented in photographs. This book shows you six eras in the Academy's history from the early years to the 1960s in black-and-white and color photographs that wordlessly deliver a profound narrative of the origins of the Academy of Nutrition and Dietetics and the profession it represents.

A great keepsake or gift, and in preparation for our 2017 centennial, this limited run book is now available for purchase in print or download.

Two hours of free CPE for Members included!

Member Cost: \$19.95

Non-member cost: \$29.95

Hot Off the Presses: Evaluating the Evidence behind Today's Nutrition Media Headlines

Date: August 27, 2015

Time: Noon to 1:30 p.m. (Central)

CPE Hours: 1.5

Registered Dietitian Nutritionists are nutrition experts trained in evidence-based practice. Today's food and nutrition environment demands that RDNs also be skilled translators of scientific evidence to the public, a challenging task given the daily barrage of media headlines reporting on the latest research study. Therefore, it's imperative that RDNs continually hone their critical thinking and communication skills. Case studies will be highlighted showing how research has evolved over time and why researchers, practitioners and the general public can come to different conclusions when considering the same body of literature and the resulting confusion this creates. The role of media in widening the gap between scientific evidence and public rhetoric will also be discussed. This webinar will examine the interpretation of research findings, motivate RDNs to think more critically and offer techniques and resources to better understand and address the latest evidence in nutrition science.

Attachment: [2015-16 Program of Work Priorities.xlsx](#)

At the Board retreat you received a draft document of the 2015-16 Program of Work Priorities. Our facilitator, Marla Bobowick, has incorporated your feedback into the attached document. We use the annual priorities to drive agenda development and program review/monitoring. Status reports of activity are incorporated and are provided at each Board meeting. The majority of the metrics are aligned with our Strategic Measures.

Please review the draft document and provide your feedback. We will share the comments; you will be asked to formally approve the document in October.

Best regards,

Pat

Hi Everyone,

Attached is the post-test. I have included the performances from the March 2015 program. Please review and let me know if there are any changes by Wednesday, September 2, 2015.

Thank you.

All,

I seem to be having problems this morning. So, if you receive this twice, I apologize. I had quite a few "bounce backs" from the original. Two things I want to provide to you;

1. Since we are all concerned about the investment markets, I have asked Al Bryant to join us for a few minutes this afternoon to provide his perspective on the markets.

2. I am attaching a link from Northern Trust, our investment trust holding company, that addresses their perspective on the markets. I thought it would be helpful.

a. <https://www.northerntrust.com/insights-research/detail?c=c9aeb5b3036c773e145fe42fbbeeead9>

If you have any questions, please let me know.

Paul

All,

Since I know you are as concerned about the investment markets as I am, I have asked Al Bryant to come to our meeting this afternoon to talk briefly about what is happening. In addition, if you are interested, I think this video from Northern Trust, our investment trust company, does a very good job of providing a brief explanation.

Subject: Finance and Audit Committee meeting on Tuesday, August 25th at 1 p.m. CDT

Following are the details to access document in the Academy portal for the Finance and Audit Committee call on Tuesday, August 25th at 1 p.m. CDT.

<https://eal.webauthor.com/auth.cfm?logout=1&erase=true&msg=You%20have%20successfully%20signed%20out%2E>

Everything with the exception of Christian's write-up for July has been posted. Christian hopes to have this completed later today.

Items in the portal:

- Agenda
- July 28th minutes
- June final financial results
- July preliminary financial results

Currently we do not have any information on Membership and Reimbursement. However, if additional documents are provided, they will be loaded to the portal later today.

Finally, you should have received a webinar invitation from "Academy IT Department". If you don't have the invitation, please let us know as soon as possible.

We look forward to talking to everyone on Tuesday.

Pearlie, Is there anyway to get access to my old powerpoint that I did for our last workshop? Somehow I made some changes in the presentation for another presentation and do not have the correct one anymore. I need to make changes to the last one I did and up load it for Buffalo. I looked on the website, but do not have access to the old powerpoint. I would appreciate any help you can provide. Thanks!

>>>Pearlie Johnson <PJohnson@eatright.org> 8/5/2015 11:08 AM >>>

Attached is your contract for the September 10-12, 2015 Certificate of Training in Childhood and Adolescent Weight Management program. Please sign and return the contract to me by fax (312/899-4772) or e-mail by Friday, August 14, 2015. I have also attached a tentative agenda.

You can make your flight arrangements to Buffalo through the Academy's travel service, American Express Travel. You may contact the Travel Desk at 800/238-9049 or www.eatright.org/traveldesks to book your flight. The hotel is nine (9) miles from the Buffalo-Niagara International Airport.

You will need to create an account to use the Travel Desk. The system will require you to enter a security code and a 7 character GL code to finalize your ticket. The security code is 524392 and the GL Code is 1041790. Please forward me a copy of your itinerary once your flight has been finalized so I can make sure that you have proper hotel accommodations.

Your presentations times are:

School Nutrition

Saturday, September 12, 2015 – 11:15 am – 12:15 pm

Q&A 12:15 pm – 12:30 pm

Programs Location:

The on-site program will be held at the Buffalo Niagara Convention Center located at 153 Franklin St., Buffalo, New York. Hotel reservations have been at the Hyatt Regency Buffalo which is adjacent to the convention center. The address of the hotel is Two Fountain Plaza, Buffalo, New York.

If possible, we are requesting that you send one PowerPoint for the participants to print and one to show on screen. The PowerPoint to print should only include text and not any unnecessary animations /graphics. We have received complaints regarding the fact that the animations/graphics often time cover up text. Here are the instructions to upload your files. However, if the file is not too large, you can email it to me. I will acknowledge receipt of the e-mail.

1. Go to www.cdrnet.org
2. To login choose the “Login” option on the upper right-hand side of the page.
 1. Sign-in using your Academy/CDR username and password.
 2. On the purple banner, hover over the “Portal” option on the right-hand side and choose the “Library” option from the drop-down menu.
 3. Click on the “2015 Childhood Faculty PowerPoint Files and Handouts” link located to the left.
 4. Click on the “Upload Multiple Files” link located in the gray menu bar.
 5. Scroll down to the bottom of the grey area and click on “add files” button (lower left side)

6. Browse for your file.
7. Click open.
8. To add another file choose "Add Files" button again to add another file to the list.
9. When you have all the files that you would like to add, click on the "Start Upload" button (lower left side). When upload had finished press "Continue."
10. Don't pay attention to the list of folder. Just stroll down to the bottom of the page and click on "Complete Upload" bar.
11. When you are done, please logout (upper right hand corner).

I will added faculty presentations to the box.net secured site as they become available for your review in order to eliminate any overlapping. The due date for your PowerPoint presentation and handouts is Monday, August 24, 2015.

Thank you.

Subject: Finance and Audit Committee meeting on Tuesday, August 25th at 1 p.m. CDT

Following are the details to access document in the Academy portal for the Finance and Audit Committee call on Tuesday, August 25th at 1 p.m. CDT.

<https://eal.webauthor.com/auth.cfm?logout=1&erase=true&msg=You%20have%20successfully%20signed%20out%2E>

Everything with the exception of Christian's write-up for July has been posted. Christian hopes to have this completed later today.

Items in the portal:

- Agenda
- July 28th minutes
- June final financial results
- July preliminary financial results

Currently we do not have any information on Membership and Reimbursement. However, if additional documents are provided, they will be loaded to the portal later today.

Finally, you should have received a webinar invitation from "Academy IT Department". If you don't have the invitation, please let us know as soon as possible.

We look forward to talking to everyone on Tuesday.

193. IMPORTANT: You've been Nominated!

From: nominations@eatright.org
To: DMartin@Burke.k12.ga.us
Sent Date: Aug 24, 2015 12:37:41
Subject: IMPORTANT: You've been Nominated!
Attachment:

Dear Donna Martin:

Congratulations! You have been nominated to be considered by the Academy of Nutrition and Dietetics Nominating Committee as a potential candidate for the 2016 Academy ballot.

PLEASE CONFIRM RECEIPT OF THIS EMAIL; confirmation does not indicate your acceptance of the nomination just that you received this email notification. To confirm receipt of this email, please click on the following link:

<http://elections.webauthor.com/elections/confirm.cfm?guid=C5A9D0AD-BBDE-E9DD-1235E744753BE344>

You have been nominated for the position(s) of President-elect. For information on skill sets and qualifications required for all positions visit www.eatrightPRO.org/qualifications. Please check your qualifications against those required of the position for which you were nominated and positions that might be of interest to you.

To be considered for the ballot, please use the unique link below to complete the on-line Nominee Biographical Information Form. President-elect, Treasurer-elect and Speaker-elect nominees must submit forms (electronic) by **noon CENTRAL time on August 31, 2015**. Interviews for these positions will be conducted October 3-4 during FNCE in Nashville, TN. Nominees selected to interview will be notified by September 14, 2015. Biographical information forms for all other positions are due by **noon CENTRAL time on October 10, 2015**. You may complete the on-line Nominee Biographical Information Form in segments and return to your form until the deadline date to make changes.

You will also need to upload your CV and a photo (jpeg format). If selected for the 2016 ballot, the photo will be published in election communications to members. Please note; for best results, please size your photo to 200x200px. If the uploaded photo is larger, it is automatically resized and cropped to fit the dimensions.

Information provided in the form will be used to establish eligibility and in the selection of candidates.

Unique Link for Donna Martin's On-line Nominee Biographical Information Form:

<http://elections.webauthor.com/elections/confirm.cfm?guid=C5A9D0AD-BBDE-E9DD->

1235E744753BE344.

If you do NOT wish to accept this nomination please let us know by October 10, 2015 by sending an email to nominations@eatright.org or click on your unique link to decline the nomination.

Candidates on the ballot who are selected for the position of President-elect and Speaker-elect will have the opportunity to participate in the Meet the Candidates Forum on January 26 or 27 at 1:00 CT. The forum is an interactive webinar which poses questions to the President-elect and Speaker-elect candidates to help members gain insight to their perspectives and views.

If you have any questions regarding the nomination and election process, please contact nominations@eatright.org or 800/877-1600 ext. 4798.

Sincerely,

Academy Nominating Committee

All,

I have added the remaining information for our call at the bottom of yesterday's email. The new information is in Blue. I also hope no-one is watching the market L as it continues to fall. I will talk to Al to get his thoughts. As I mentioned below, I don't believe this is a long term concern. However, it will feel painful in the short term. I decided to not look at the Academy's and Foundation's portfolios today. So, I don't have an update. Again, we have seen this before and moved forward after the "corrections". I would expected that we will do the same this time. Maria has put everything on the portal and the Academy IT team has sent out the webinar invitation. If you have any problems, questions, or concerns, please let us know.

Have a great weekend.

Paul

Subject: RE: Finance and Audit Committee meeting on Tuesday, August 25th, at 1 p.m. CDT

All,

We have a Finance and Audit Committee meeting scheduled for Tuesday, August 25th at 1 p.m. CDT. Please let me know if you cannot attend. You should have received the invitation from the Academy IT department to attend the webinar. Please let me know if you have not received the invitation. As soon as we have all of the documents loaded to the portal, Maria will send to you an email. The call this month will focus on the following;

1. June final financials
2. July preliminary financials
3. Membership update
4. Alcohol expense reimbursement update

Barbara Visocan and Jim Weinland will be joining the call to discuss all of the activities surrounding membership recruitment.

The narrative today will go through the Academy. The remaining information will be provided tomorrow. As I have mentioned previously, these emails are long. Unfortunately, they get even longer when interruptions are sprinkled into the mix. So, I have to break it up into two pieces. The remaining will come out tomorrow.

Now, onto the narrative.

I. June Adjustments

- We did not make any changes to the actual results in June. We did look at the budgets and made a few small changes. However, none of the changes were material. There is one change that I do want to bring to your attention. When we put the June package together, we forgot to update the budgets for the calculations on page A15. A15 reflects the percentage of budgets the Academy, CDR, and DPGs/MIGS have in reserve. You will see that the Academy's percentage has risen quite a bit. The Academy ended June with 76.8% of its FY16 budget in reserve. Originally, this was stated as 68.6%. This is a large difference. I apologized for missing this calculation. The reason this changed was the original calculations were using the FY15 budgets; not the FY16 budgets. As you know, we improved quite a bit for FY16. I wanted to make sure you noticed this change. I know all of you get questions about the Academy's financial health. This is one of the key components of our financial health. Many organizations have less than 50% in reserve. For the Academy to have nearly 77% puts us in a very comfortable position. So, please keep this in mind when you are looking at the financials. There are many variables that determine our financial health. However, if the Academy prudently uses reserves, we will be able to weather any storms that may arise.

II. Investments

August has been another interesting month for investments. It has continued the trend of the market fluctuations. Unfortunately, the combined portfolios for the Academy and the Foundation are down \$313,000 for the month of August through yesterday's close. This only represents about 0.5% so it could rebound very quickly. That being said, the markets are down today. We do still have seven trading days after today to recover the losses for the month. If the current losses for August held, we would be down about \$140,000 for the first quarter. This is a small amount. However... there is always a "however", we will be behind the budget. It appears that the markets are in a very narrow trading range and looking for anything to generate a "break-out" one way or the other. I hope and believe it will eventually be upwards. We are watching the world events; China devaluing the Yuan, the Greek bail-out, Inflation, global economy, oil, interest rate increases, etc.. Right now, the markets are jumping at any news. One of the keys at the moment is the potential for the Federal Reserve to not increase interest rates in September. One would think that this is good news. However, the markets don't like it. We may be in "sideways" market; One that trades in a narrow range without much upside or downside. I think the markets are about flat for the year. So, this seems to be where we are going until something resonates with the investment community. Usually, this is earnings. Unfortunately, earnings are coming in mixed. So until the economy begins to grow more and earnings climb, we may be stuck in neutral for a while.

The one take-away I would like you to have is “We have been here before”. The policy and strategy that is currently in place to manage investments has generated nearly a 9% average annual return over the past 31 years. This is done through proper oversight and a focus on long term results. It isn’t done by focusing on short term fluctuations. So, even though you may feel uncomfortable with the investment results and we can’t predict the future, I hope you feel confident in the track record of the Investment Manager, Al Bryant; the investment firm; Segall, Bryant and Hamill and the policies put into place by you and other leaders of the Academy over the past few years.

III. Academy preliminary July Financials (A3 and A10)

The Academy results for July are improving. However, they are still not where they need to be. In July, the Academy missed the revenue target by \$41,092. Even though this isn’t great news, the under-run is approximately \$15,000 better than in June. In addition, if we factor out the expected short-fall from Sponsorship, the revenue miss drops to \$19,000. The additional detail is below. On the expense front, the Academy was under the budget by \$25,820. If you combine these two numbers, you will see that the Academy missed its operating income target by \$15,272.

Investments for July did close gap for the month. Once you factor in the investment gains of \$293.4K, the Academy had a Net Deficit of \$276,026. This was \$173,958 smaller (better) than the budget.

On a year to date basis, the Academy is \$107,254 below budget on revenue and \$63,735 below budget on expense. Therefore, from an operating perspective, the Academy is under the budget by \$43,519. This number is manageable and could be eliminated over the next few months. Since the investment returns for the year are \$138,702 below budget, the overall final results don’t look great. However, this could be eliminated with a strong month or two of investment results. So, overall, we are getting off to a slow start, but, we are picking up momentum as we head into the first turn of the fiscal year.

The following is a breakdown of the various categories for July:

A. Revenues

a. **Membership Dues** - This area is **under budget** by \$3,417 in July and is **under budget** by \$12,171 for the year. The under-run in July is being driven by lower Fellow program revenue (down \$2.1K) and lower Membership Dues revenue (down \$3.1K). As I mentioned in June,

membership was lower than budgeted. In June, the gap was \$6.0K. So, the gap is closing and Barbara Visocan will be at the FAC meeting to discuss what the Academy is doing to continue the improvement we saw in July.

b. **Programs and Meetings** - This area is **under budget** by \$1,984 in July and is **under budget** by \$15,287 for the year. The under-run July is due to lower Professional Development revenue (down \$1.3K) and refunds for PPW registrations (down \$0.7K).

c. **Publications and Materials** - This area is **under budget** by \$22,803 in July and is **under budget** by \$46,820 for the year. The under-run in July is primarily due to lower List Rental revenue (down \$22.0K). The shortfall to budget has surprised everyone, including our vendor, Infocus. The revenue is actually down dramatically when compared to FY14 as well. It is a concern and is being addressed by Marketing and Infocus. On a positive front, Traditional Publications rebounded in July (up \$1.1K). Traditional Publications sales are also consistent with FY14. So, good news on both comparisons.

d. **Subscriptions** – This area is **over budget** by \$157 in July and is **over budget** by \$9,703 for the year. There isn't any material over-runs on any of the subscriptions. Overall, this is doing better against our budgets and is up approximately 17.6% when compared to the revenue from FY14 through July. So, a very good result that the Academy believes will continue.

e. **Advertising** – This area is **on target** in July and **under budget** by \$7,190 for the year. Nothing was budgeted in July.

f. **All grants** - This area is **over budget** by \$8,474 in July and is **over budget** by \$7,650 for the year. The over-run in July is primarily due to higher Research (up \$11.6K) offset by lower ConAgra revenue recognition (down \$3.1K).

g. **Sponsorships** – This area is **under budget** by \$22,083 in July and is **under budget by** \$44,167 for the year. The under-run in July is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.

h. **Other** – This area was **over budget** by \$565 in July and is **over budget** by \$1,028 for the year. There isn't any material variances in July.

B. Expenses

a. **Personnel** – This area is **under budget** by \$35 in July and is **under budget** by \$238 for the year. The under-run in July is due to lower wages and salaries overall.

- b. **Publications** – This area is **under budget** by \$11,663 in July and is **under budget** by \$26,737 for the year. The under-run in July is primarily due to lower costs for Traditional Publications (down \$7.8K), lower Food and Nutrition costs (down \$3.0K) and lower across all other (down \$0.9K).
- c. **Travel** – This area is **over budget** by \$316 in July and is **under budget** by \$278 for the year. The over-run is primarily due to higher Informatics costs (up \$1.6K) and higher across all other areas (up \$1.0K). This offset by lower costs for Research (down \$2.3K).
- d. **Professional Fees** - This area is **under budget** by \$10,891 in July and is **under budget** by \$3,368 for the year. The under-run in July is being driven primarily by lower costs for the Web (down \$6.1K), Informatics (down \$4.8K), List Rental (down \$2.7K), Traditional Publications (down \$2.7K), Marketing (down \$2.7K), lower Journal (down \$1.6K) and lower across all other (down \$0.8K). This is offset by higher Governance (up \$5.1K), higher Public Policy (up \$3.1K) and higher Research (up \$2.3K).
- e. **Postage and Mailing** - This area is **under budget** by \$11,224 in July and is **under budget** by \$17,099 for the year. The under-run for July is being driven by lower Membership (down \$8.6K) and lower Traditional Publications (down \$4.2K) This is offset by over-runs in administrative categories (up \$1.2K) and across all other projects (up \$0.4K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$503 in July and is **under budget** by \$3,873 for the year. There isn't any material variance in July.
- g. **Rent and utilities** - This area is **over budget** by \$457 in July and is **under budget** by \$6,486 for the year. The over-run in July is primarily due higher utility costs in Chicago.
- h. **Telephone and communications** – This is **over budget** by \$605 in July and is **over budget** by \$1,135 for the year. The over-run in July is primarily due to higher telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **on target** in July and is **under budget** by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since there wasn't a distribution of Food and Nutrition Magazine in July and therefore, no revenues, there would not be any expense.
- j. **Computer Expenses** – This area is **over budget** by \$717 in July and is **under budget** by \$1,928 for the year. The over-run in July is due to higher Web Hosting costs across all programs and services.
- k. **Advertising and Promotion** – This area is **over budget** by \$510 in July and is **under budget** by \$965 for the year. There isn't any material variances in July.
- l. **Insurance** – This area is **under budget** by \$675 in July and is **under budget** by \$1,923 for the year. The under-run in July is due to lower insurance premiums for the overall insurance.

- m. **Depreciation** – This area is **under budget** by \$1,088 in July and is **under budget** by \$2,175 for the year. The under-run in July is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is **under budget** by \$53 in July and is **under budget** by \$2,094 for the year. The under-run in July is due to lower JP Morgan bank fees.
- o. **Other** – This area is **over budget** by \$2,812 in July and **under budget** \$3,035 for the year. The over-run in July is due to higher costs for Governance (up \$6.9K) and all other projects (up \$0.3K) offset by lower costs for Informatics (down \$2.8K) and lower Marketing (down \$1.6K).
- p. **Expense allocation** – This area is **unfavorable to budget** by \$6,600 in July and is **unfavorable to budget** by \$17,697 for the year. The unfavorable result is due to lower costs expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.
- q. **Meeting services** – This area is **under budget** by \$60 in July and is **under budget** by \$4,032 for the year. There isn't any material variances in July.
- r. **Legal and Audit** – This area is **over budget** by \$736 in July and is **over budget** by \$721 for the year. The over-run in July is due to higher legal expenses.
- s. **Printing** – This area is **under budget** by \$2,381 in July and is **under budget** by \$3,620 for the year. The under-run in July is primarily due to lower Governance (down \$1.3K) and lower Brand Promise (down \$3.5K) offset by higher Membership (up \$1.9K) and higher across all other areas (up \$0.5K).

Even though the Academy is still falling short of the budget, the gap is not too large to over-come. FNCE financials will provide a clearer picture. In addition, even though our revenue is not meeting the budget, it is higher when compared to FY14 through July (up \$38.6K or 1.5%). This has been one of our biggest concerns when addressing the financials. In addition, our expenses are only up \$27.0K or 0.7% when compared to FY14. So, there is good news in this update.

IV. **Foundation July Financial results (A2, A8 and A9)**

The Foundation rebounded very nicely in July. Revenue exceeded the budget by \$64,387 while expenses were \$19,459 lower than budget. The revenue over-run is driven by higher Corporate Contributions (up \$44,150) and higher Sponsorships (up \$31,000). Both of these could be a "timing issue" given the level of the revenue budget for FY16. Member contributions are still lower than budget (down \$10,763). However, they are higher than FY15 both in July (up \$5,891) and year to date (up \$34,141). So, still very good news.

On the expense front, there are a few variances that stand out; Travel (down \$2,157), Professional Fees (down \$8,349), Meeting Services (down \$2,383), Printing (down \$2,721) and Scholarships and Awards (down \$3,000). All of the variances are due to timing of the “Future of Foods programs”. Scholarships and Awards is likely to be a timing issue since the Foundation will be providing a great deal more than the \$22,000 provided in July.

This end result was an operating deficit of \$34,182 which was \$83,846 smaller (better) than the budget. Once you factor in the investment gains for July of \$329.5K, the Foundation had net income of \$295,314. This was \$282,184 higher than the budget. A very nice month indeed. On a year to date basis, the Foundation is working well across both revenue and expenses with both performing better than the budget. This resulted in an operating deficit through July of \$97,699 which was \$76,047 lower (better) than the budget. The only blemish for the first two months is the investment returns. Investment returns for the year of \$69,115 are \$193,201 lower than the budgets. Given the markets the past few weeks, it may be a while before these rise up to budget levels.

Overall, a good month and a good start to the year with the exception of Investment returns. The total Foundation Net Assets are holding just short of \$23.6M. Again, another solid number.

V. Commission on Dietetic Registration July Financial Results (A4 and A11)

CDR had a very good month in July. Overall, the results reflected an operating deficit of \$15,533 which was \$59,751 smaller (better) than the budget. Revenue exceeded the budget by \$21,093 driven by Exam Fees (up \$20,322) and Publications (up \$2,274). Expenses were lower than the budget with the primary driver being Personnel expenses (down \$27,313). We believe the Personnel under-run is due to open positions with CDR. We are also looking at the budget to make sure it does reflect the correct personnel.

Year to date, CDR looks very good with an operating surplus of \$31,852 which is \$233,308 higher than the budget. Revenues are slightly higher than the budget (up \$4,036) while expenses are significantly lower (down \$229,308). Much of the lower expenses could be due to timing of various projects. As was the case with the Foundation, the only major negative is the Investment results. Investments for the year returned \$20,199 which was \$73,323 lower than the budget. However, after two months, CDR had net income of \$52,052. Anytime this number is positive it is great

news. What makes this even better is the result is \$159,986 higher than the budget.

So, overall, a great month and great start to the year for CDR.

VI. DPGs/MIGs/ACEND June Financial Results (A5, A12 and A16)

The combined DPGS/MIGS and ACEND had another “mixed” month overall in July. When I say “mixed” month this time, it really refers to how it the results did against budget. Overall the actual results were very good with an operating surplus of \$21,709 and net income of \$129,823. Again, anytime these numbers are positive it is a good month.

Against budget, however, revenues were under budget by \$11,095 and expenses were over budget by \$33,368. This resulted in an operating income shortfall of \$44,463. So, even though it was a positive month, it didn’t meet expectations.

On a year to date basis, the combined entities had an operating deficit of \$74,184. This was \$48,561 lower (better) than the budget. This was driven by expense under-runs. As you will see, year to date, revenue is short of budget by \$39,479. Two areas jump out; Membership (down \$27,006) and Grants and Donations (down \$33,209). The Grants and Donations are in most cases corporate “sponsorships” and could be a timing issue. The shortfall in membership may be a concern. However, the DPGS and MIGs will be recruiting heavily, just as the Academy Membership team is and will be. So, this could change. We will watch this area over the next few months. Since membership revenue is actually higher than FY15 by \$2.5K, it would appear they are growing, just not as much as anticipated. Expenses, year to date, are down across many areas. Many of the under-runs will be savings. We find that the DPGs and MIGs budget expenses higher than necessary. The one over-run that stands out is the Donations to the Foundation. This is over-budget by \$24,400. It looks like this is a budget timing. Even if it isn’t a timing issue, given the level of reserves seen on page A16, it will be fine to provide the Foundation the funding. You will see on page A16 that all of the DPGS and MIGS have sufficient reserve levels.

VII. ANDPAC June Financial Results (A6 and A14)

The PAC had a good month in July. Even though revenues were short of budget by \$2.3K, expenses were significantly below budget (down \$24,000). The revenue shortfall is still being driven by lower member contributions through membership renewal. On the expense front, the PAC did not spend any money in July. Some of our explanations for over-runs previously has been “due to timing”. This month is the same, but, it is favorable and helps the PAC catch-up.

So, on a year to date basis, the PAC is not too far off of its operating income target. Through July, the PAC had an operating deficit of \$6,575. This was \$1,017 larger (worse) than the budget. Not too bad. The shortfall is being driven by lower member contributions (down \$8,352) and lower DPG/MIG contributions (down \$2,000). The lower DPG/MIG contributions may be a timing issue with the budget. Through July, expenses are under budget by \$9,335. This is great news since the PAC hasn't spend very much “overhead” money for travel, advertising and meeting services. They are just a little higher on Candidate contributions. This combination is where members would want the PAC to be. Through July, 81.4% of the PAC's expenses are going to candidates. This is quite a bit higher than the budget and should continue to grow over the next few months. The PAC's reserves have grown to \$188,406. A very healthy indicator for the PAC.

I know the additional information may be small and wherever I can, I will elaborate on Tuesday's call. If you have any questions, please don't hesitate to ask.

Paul

Following are the details to access document in the Academy portal for the Finance and Audit Committee call on Tuesday, August 25th at 1 p.m. CDT.

<https://eal.webauthor.com/auth.cfm?logout=1&erase=true&msg=You%20have%20successfully%20signed%20out%2E>

Everything with the exception of Christian's write-up for July has been posted. Christian hopes to have this completed later today.

Items in the portal:

- Agenda
- July 28th minutes
- June final financial results
- July preliminary financial results

Currently we do not have any information on Membership and Reimbursement. However, if additional documents are provided, they will be loaded to the portal later today.

Finally, you should have received a webinar invitation from "Academy IT Department". If you don't have the invitation, please let us know as soon as possible.

We look forward to talking to everyone on Tuesday.

You are receiving this message on behalf of our Marketing Partners at ANFP.

Association of Nutrition & Foodservice Professionals is offering Academy members a 10% discount on the online course, ***Cracking the 2013 FDA Food Code***, during the month of August. During this course you will review the history of the FDA Food Code and its implementation. You will use flash cards, word searches, video clips, and other interactive media to evaluate the 2013 FDA Food Code organization, interpret each section, and incorporate important information from the 2013 FDA Food Code Annex.

Upon completion of this course, the following learning objectives should be achieved:

- Break down the 2013 Food Code by section
- Identify changes/updates for the 2013 Food Code
- Summarize support material from the 2013 Food Code Annex

Successful completion of this course results in 15 sanitation continuing education credits. To purchase, VISIT [HERE](#) and enter **ANFPANDFDA to receive the 10% discount**.

All,

We have a Finance and Audit Committee meeting scheduled for Tuesday, August 25th at 1 p.m. CDT. Please let me know if you cannot attend. You should have received the invitation from the Academy IT department to attend the webinar. Please let me know if you have not received the invitation. As soon as we have all of the documents loaded to the portal, Maria will send to you an email. The call this month will focus on the following;

1. June final financials
2. July preliminary financials
3. Membership update
4. Alcohol expense reimbursement update

Barbara Visocan and Jim Weinland will be joining the call to discuss all of the activities surrounding membership recruitment.

The narrative today will go through the Academy. The remaining information will be provided tomorrow. As I have mentioned previously, these emails are long. Unfortunately, they get even longer when interruptions are sprinkled into the mix. So, I have to break it up into two pieces. The remaining will come out tomorrow.

Now, onto the narrative.

I. June Adjustments

- We did not make any changes to the actual results in June. We did look at the budgets and made a few small changes. However, none of the changes were material. There is one change that I do want to bring to your attention. When we put the June package together, we forgot to update the budgets for the calculations on page A15. A15 reflects the percentage of budgets the Academy, CDR, and DPGs/MIGS have in reserve. You will see that the Academy's percentage has risen quite a bit. The Academy ended June with 76.8% of its FY16 budget in reserve. Originally, this was stated as 68.6%. This is a large difference. I apologized for missing this calculation. The reasons this changed was the original calculations was using the FY15 budgets; not the FY16 budgets. As you know, we improved quite a bit for FY16. I wanted to make sure you noticed this change. I know all of you get questions about the Academy's financial health. This is one of the key components of our financial health. Many organizations have less than 50% in reserve. For the Academy to have nearly 77% puts us in a very comfortable position. So, please keep this in mind when you are looking at the financials. There are many variables that determine our financial health. However, if the Academy prudently uses reserves, we will be able to weather any storms that may arise.

II. Investments

August has been another interesting month for investments. It has continued the trend of the market fluctuations. Unfortunately, the combined portfolios for the Academy and the Foundation are down \$313,000 for the month of August through yesterday's close. This only represents about 0.5% so it could rebound very quickly. That being said, the markets are down today. We do still have seven trading days after today to recover the losses for the month. If the current losses for August held, we would be down about \$140,000 for the first quarter. This is a small amount.

However... there is always a “however”, we will be behind the budget. It appears that the markets are in a very narrow trading range and looking for anything to generate a “break-out” one way or the other. I hope and believe it will eventually be upwards. We are watching the world events; China devaluing the Yuan, the Greek bail-out, Inflation, global economy, oil, interest rate increases, etc.. Right now, the markets are jumping at any news. One of the keys at the moment is the potential for the Federal Reserve to not increase interest rates in September. One would think that this is good news. However, the markets don’t like it. We may be in “sideways” market; One that trades in a narrow range without much upside or downside. I think the markets are about flat for the year. So, this seems to be where we are going until something resonates with the investment community. Usually, this is earnings. Unfortunately, earnings are coming in mixed. So until the economy begins to grow more and earnings climb, we may be stuck in neutral for a while.

The one take-away I would like you to have is “We have been here before”. The policy and strategy that is currently in place to manage investments has generated nearly a 9% average annual return over the past 31 years. This is done through proper oversight and a focus on long term results. It isn’t done by focusing on short term fluctuations. So, even though you may feel uncomfortable with the investment results and we can’t predict the future, I hope you feel confident in the track record of the Investment Manager, Al Bryant; the investment firm; Segall, Bryant and Hamill and the policies in put into place by you and other leaders of the Academy over the past few years.

III. Academy preliminary July Financials (A3 and A10)

The Academy results for July are improving. However, they are still not where they need to be. In July, the Academy missed the revenue target by \$41,092. Even though this isn’t great news, the under-run is approximately \$15,000 better than in June. In addition, if we factor out the expected short-fall from Sponsorship, the revenue miss drops to \$19,000. The additional detail is below. On the expense front, the Academy was under the budget by \$25,820. If you combine these two numbers, you will see that the Academy missed its operating income target by \$15,272.

Investments for July did close gap for the month. Once you factor in the investment gains of \$293.4K, the Academy had a Net Deficit of \$276,026. This was \$173,958 smaller (better) than the budget.

On a year to date basis, the Academy is \$107,254 below budget on revenue and \$63,735 below budget on expense. Therefore, from an operating perspective, the Academy is under the budget by \$43,519. This number is manageable and could be eliminated over the next few months. Since the investment returns for the year are \$138,702 below budget, the overall final results don’t

look great. However, this could be eliminated with a strong month or two of investment results. So, overall, we are getting off to a slow start, but, we are picking up momentum as we head into the first turn of the fiscal year.

The following is a breakdown of the various categories for July:

A. Revenues

a. **Membership Dues** - This area is **under budget** by \$3,417 in July and is **under budget** by \$12,171 for the year. The under-run in July is being driven by lower Fellow program revenue (down \$2.1K) and lower Membership Dues revenue (down \$3.1K). As I mentioned in June, membership was lower than budgeted. In June, the gap was \$6.0K. So, the gap is closing and Barbara Visocan will be at the FAC meeting to discuss what the Academy is doing to continue the improvement we saw in July.

b. **Programs and Meetings** - This area is **under budget** by \$1,984 in July and is **under budget** by \$15,287 for the year. The under-run July is due to lower Professional Development revenue (down \$1.3K) and refunds for PPW registrations (down \$0.7K).

c. **Publications and Materials** - This area is **under budget** by \$22,803 in July and is **under budget** by \$46,820 for the year. The under-run in July is primarily due to lower List Rental revenue (down \$22.0K). The shortfall to budget has surprised everyone, including our vendor, Infocus. The revenue is actually down dramatically when compared to FY14 as well. It is a concern and is being addressed by Marketing and Infocus. On a positive front, Traditional Publications rebounded in July (up \$1.1K). Traditional Publications sales are also consistent with FY14. So, good news on both comparisons.

d. **Subscriptions** – This area is **over budget** by \$157 in July and is **over budget** by \$9,703 for the year. There isn't any material over-runs on any of the subscriptions. Overall, this is doing better against our budgets and is up approximately 17.6% when compared to the revenue from FY14 through July. So, a very good result that the Academy believes will continue.

e. **Advertising** – This area is **on target** in July and **under budget** by \$7,190 for the year. Nothing was budgeted in July.

f. **All grants** - This area is **over budget** by \$8,474 in July and is **over budget** by \$7,650 for the year. The over-run in July is primarily due to higher Research (up \$11.6K) offset by lower ConAgra revenue recognition (down \$3.1K).

g. **Sponsorships** – This area is **under budget** by \$22,083 in July and is **under budget by** \$44,167 for the year. The under-run in July is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the

Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.

h. **Other** – This area was **over budget** by \$565 in July and is **over budget** by \$1,028 for the year. There isn't any material variances in July.

B. Expenses

a. **Personnel** – This area is **under budget** by \$35 in July and is **under budget** by \$238 for the year. The under-run in July is due to lower wages and salaries overall.

b. **Publications** – This area is **under budget** by \$11,663 in July and is **under budget** by \$26,737 for the year. The under-run in July is primarily due to lower costs for Traditional Publications (down \$7.8K), lower Food and Nutrition costs (down \$3.0K) and lower across all other (down \$0.9K).

c. **Travel** – This area is **over budget** by \$316 in July and is **under budget** by \$278 for the year. The over-run is primarily due to higher Informatics costs (up \$1.6K) and higher across all other areas (up \$1.0K). This offset by lower costs for Research (down \$2.3K).

d. **Professional Fees** - This area is **under budget** by \$10,891 in July and is **under budget** by \$3,368 for the year. The under-run in July is being driven primarily by lower costs for the Web (down \$6.1K), Informatics (down \$4.8K), List Rental (down \$2.7K), Traditional Publications (down \$2.7K), Marketing (down \$2.7K), lower Journal (down \$1.6K) and lower across all other (down \$0.8K). This is offset by higher Governance (up \$5.1K), higher Public Policy (up \$3.1K) and higher Research (up \$2.3K).

e. **Postage and Mailing** - This area is **under budget** by \$11,224 in July and is **under budget** by \$17,099 for the year. The under-run for July is being driven by lower Membership (down \$8.6K) and lower Traditional Publications (down \$4.2K) This is offset by over-runs in administrative categories (up \$1.2K) and across all other projects (up \$0.4K).

f. **Office Supplies and Equipment** – This area is **under budget** by \$503 in July and is **under budget** by \$3,873 for the year. There isn't any material variance in July.

g. **Rent and utilities** - This area is **over budget** by \$457 in July and is **under budget** by \$6,486 for the year. The over-run in July is primarily due higher utility costs in Chicago.

h. **Telephone and communications** – This is **over budget** by \$605 in July and is **over budget** by \$1,135 for the year. The over-run in July is primarily due to higher telecom charges in Chicago and Washington.

- i. **Commissions** – This area is **on target** in July and is **under budget** by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine’s advertising sales. Since there wasn’t a distribution of Food and Nutrition Magazine in July and therefore, no revenues, there would not be any expense.
- j. **Computer Expenses** – This area is **over budget** by \$717 in July and is **under budget** by \$1,928 for the year. The over-run in July is due to higher Web Hosting costs across all programs and services.
- k. **Advertising and Promotion** – This area is **over budget** by \$510 in July and is **under budget** by \$965 for the year. There isn’t any material variances in July.
- l. **Insurance** – This area is **under budget** by \$675 in July and is **under budget** by \$1,923 for the year. The under-run in July is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$1,088 in July and is **under budget** by \$2,175 for the year. The under-run in July is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is **under budget** by \$53 in July and is **under budget** by \$2,094 for the year. The under-run in July is due to lower JP Morgan bank fees.
- o. **Other** – This area is **over budget** by \$2,812 in July and **under budget** \$3,035 for the year. The over-run in July is due to higher costs for Governance (up \$6.9K) and all other projects (up \$0.3K) offset by lower costs for Informatics (down \$2.8K) and lower Marketing (down \$1.6K).
- p. **Expense allocation** – This area is **unfavorable to budget** by \$6,600 in July and is **unfavorable to budget** by \$17,697 for the year. The unfavorable result is due to lower costs expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.
- q. **Meeting services** – This area is **under budget** by \$60 in July and is **under budget** by \$4,032 for the year. There isn’t any material variances in July.
- r. **Legal and Audit** – This area is **over budget** by \$736 in July and is **over budget** by \$721 for the year. The over-run in July is due to higher legal expenses.
- s. **Printing** – This area is **under budget** by \$2,381 in July and is **under budget** by \$3,620 for the year. The under-run in July is primarily due to lower Governance (down \$1.3K) and lower Brand Promise (down \$3.5K) offset by higher Membership (up \$1.9K) and higher across all other areas (up \$0.5K).

Even though the Academy is still falling short of the budget, the gap is not too large to over-come. FNCE financials will provide a clearer picture. In addition, even though our revenue is not meeting the budget, it is higher when compared to FY14 through July (up \$38.6K or 1.5%). This has been one of our biggest concerns when addressing the financials. In addition, our expenses are only up

\$27.0K or 0.7% when compared to FY14. So, there is good news in this update. Now if only we can get the investment markets to cooperate!! J Hopefully tomorrow will be a better day.

Please look for the webinar invitation, the email when everything is uploaded to the portal and my final email tomorrow addressing the financial results for July of the other Academy entities. Have a great night.

Paul

201. Buffalo Program - September 10-12, 2015

From: Pearlie Johnson <PJohnson@eatright.org>

FNCE® is quickly approaching and we wanted to share some information for you before we see you in Nashville!

Enhance your FNCE® Experience

Workshops and Excursions have been planned to make sure FNCE® attendees get the most from their experience.

Learn a new skill by attending one of our workshops:

- Experience and Explore: Enhancing Dietetic Education through Simulation
- Wanted: Integrated Marketing Agency Seeks RDN Communications Consultant
- Brain Data and Dogma: Expanding MNT to Increase Fiscal Reimbursement
- Write Your Way to a Second Income Stream

Three excursions have been thoughtfully planned to not only highlight the uniqueness of Nashville, but also tie in to the food and nutrition industry.

- Health and Wellness Rx: Vanderbilt's Culture of High Performance
- Green Door Gourmet: A Behind the Scenes Tour
- Nashville Brew Bus Tour: An Inside Look at the Craft Beer Craze

Session Spotlight

RDNs in Action: Improving Quality Care using National Quality Strategy

Sunday, October 4 from 10 a.m. to 11:30 a.m.

The National Quality Strategy was established as a result of the Affordable Care Act to identify priorities to improve the delivery of health care services, patient outcomes and population health. This session will highlight 2 examples of quality improvement programs implemented by RDNs

that support the aims and priorities of the National Quality Strategy.

How RDNs Can Partner to Improve Patient Outcomes and Decrease Healthcare Costs

Sunday, October 4 from 3:30 p.m. to 5 p.m.

Building effective team-based patient care has been shown not only to improve patient outcomes and practice efficiency, but also to decrease health care costs. So how can RDNs secure a place on the Team? Don Bradley, MD, MHS-CL and Cecilia Sauter, MA, RD, LD, CDE, FAADE will explain the multi-dimensional role of the RDN in the medical neighborhood and identify business practices and strategies, designed to create alliances with MDs and achieve compensation for RDN services in the medical home. Come to this session to learn what it takes to be a good neighbor to your MD colleagues.

ON THE PULSE OF PUBLIC POLICY

MNT Prediabetes Bill Needs Additional Sponsors

Although the Academy has secured four new cosponsors for the Preventing Diabetes in Medicare Act (H.R. 1686), only 13 members of Congress are currently signed on to this bill. To be included in a critical upcoming hearing, we need more cosponsors. Members of Congress report they are not hearing from Academy members in their districts urging them to back the legislation. We are asking all Academy members to send an email to your member today, as this bill specifically provides medical nutrition therapy for persons with prediabetes.

CBO Report Indicates Sequestration Negatively Impacts Jobs

A recently released Congressional Budget Office report requested by Senator Bernie Sanders (VT) found that eliminating sequestration could result in as many as 1.4 million more jobs. This finding supports the Academy's work to highlight the detrimental impacts of sequestration on the health and well-being of Americans.

Call for Participation: Long-Term Care Health IT

The Interoperability and Standards Committee (ISC) is conducting an environmental scan on the present state of long-term and post-acute care health information technology maturity and use regarding nutrition care in the United States. While ISC has compiled references and recent progress in this area, additional experiences and/or related projects underway is desired. This is a short term project intended to evaluate the interoperability of nutrition data across LTPAC settings

including the following: home care agencies, skilled nursing facilities, assisted living facilities, long-term acute care facilities and in-patient rehabilitation facilities. Please contact Lindsey Hoggie at lhoggie@eatright.org if you would like to participate in this environmental scan.

Academy Members Take Active Role at 2015 HIMSS Conference

As part of the Academy's non-profit partnership with HIMSS, Academy member Catherine Frederico presented at the 2015 HIMSS Conference. The presentation is now available for download at *Riding the Wave of EHRs for Nutrition Practice* and additional insight is available at her blog, *Contemporary Nutrition Practice*.

Apply for the 2016 AcademyHealth Health Policy Fellowship

The NCHS/AcademyHealth Healthy Policy Fellowship program brings experts in health services research-related disciplines to the National Center for Health Statistics to conduct studies to address important issues in health policy. We encourage members to apply; for more information on this fellowship, please visit the AcademyHealth website or email nchs@academyhealth.org.

Marker Bills - What Are They and Why Do They Matter?

Every five years, Congress debates the merits and efficacy of programs, such as WIC, Farm to School, school meals and the Child and Adult Care Food Program, in a process called Child Nutrition Reauthorization. Members of Congress interested in these programs introduce bills that will be considered as part of Child Nutrition Reauthorization. These bills are termed "marker bills." Find out which marker bills the Academy supports.

New Opportunities: Input on Proposed Regulations and Government Initiatives

Federal agencies have been busy issuing multiple proposed regulations affecting reimbursement for registered dietitian nutritionists in various facilities, new reporting and performance measures and RDs' ability to order therapeutic diets in long-term care settings. Members are encouraged to work with your DPGs to submit input on these initiatives, which are detailed in the Public Policy Weekly News and online under Regulatory Comments.

Omaha, Neb. Academy Member Appointed to State Legislature

Nebraska Governor Pete Ricketts announced Tuesday the selection of Academy member Nicole B. Fox, RD, CSO, CNSC, LMNT, to fill Nebraska's 7th District legislative seat vacancy. Fox said of her appointment, "I am honored to receive this appointment from Governor Ricketts. I look forward to taking on the tough issues and working together with my fellow senators and the governor to find innovative ways to expand access to healthcare and increase access to educational opportunities for all Nebraska students." Congratulations Nicole!

September 1 Deadline Approaches: Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 Academy Membership Application. New this year is a membership option for International Students. Email membership@eatright.org with questions.

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration and it is now available to all educators. Download the preceptor's guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant from National Dairy Council.

Application Deadline Extended to December 31: Diversity Mini-Grants

Affiliates have the opportunity to apply for diversity mini-grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year. Diversity Liaisons will be eligible to apply for mini-grants ranging from \$100 to \$1,000. Email affiliate@eatright.org with questions.

During Kids Eat Right Month: Become a Campaign Member

Kids Eat Right Month is the perfect time to become a KER campaign member and use your expertise to promote healthy eating and prevent childhood obesity. Educational materials, handouts, templates and reference lists for use in specific actions are available free of charge.

[Learn More](#)

Declare August as Kids Eat Right Month

Help families in your state, city and community learn the importance of shopping smart, cooking healthy and eating right by requesting a proclamation from your governor or mayor to name August as Kids Eat Right Month. Tools and templates to help you are available on the Kids Eat Right Month website.

Deadline Extended to August 28: Photos of Members in Action

The deadline has been extended to August 28 for members to send photos showing how you make a difference in your workplaces and communities. Join members who have already submitted images: Please email photos - the highest resolution possible - taken in work settings with clients, patients and colleagues. No posed or group pictures, please. Images may be used in

videos at the Food & Nutrition Conference & Expo and in other Academy presentations. Email photos, with identifications of everyone in the pictures, to eatrightweekly@eatright.org.

Member Survey: Proposed Bylaws Amendments

The Academy is proposing amendments to its bylaws to change the composition of the Nominating Committee; change the composition of Commission on Dietetic Registration's board of directors; and change CDR's mission statement to be inclusive of all credentialed practitioners. Review the proposed changes and complete a survey by September 27 to let the Academy know if you support the three proposed changes.

2016 Election: Nominations Due Soon

The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form. The Nominating Committee is pleased to announce the debut of the new Nominations and Elections Toolkit. This toolkit provides information about the nominations and election processes and encourages members to vote. The toolkit is now live on eatrightPRO.org/elections.

Pictorial History of Academy's First 50 Years

The First Fifty: A Pictorial History of the Academy of Nutrition and Dietetics, 1917-1967 documents the Academy's earliest years to the 1960s in black-and-white and color photographs that provide a profound narrative of the origins of the Academy and the nutrition and dietetics profession.

Roadmap to Success: Entry-level Dietetics Practice Audit

Every five years, the Commission on Dietetic Registration conducts a practice audit to influence and direct the examination development process. The audit is a roadmap to influence and direct the examination development process, ensuring entry-level practitioners are well equipped for changing demands of the workplace. Those invited to participate in the survey are strongly encouraged to respond: Your input is vital to the future of the dietetics profession.

PHILANTHROPY, AWARDS AND GRANTS

August Everyday Heroes

Read about the Foundation's Everyday Heroes for August.

August 21 Deadline: Seeking Everyday 'Hunger' Heroes

Are you helping food-insecure families make healthy choices? Send a short email describing your activities, along with your photo, to KidsEatRight@eatright.org by August 21, and you might be featured on the Foundations website during Hunger Action Month in September.

Foundation Gala: Prices Increase on August 21

The Foundation Gala, to be held October 5 at the Food & Nutrition Conference & Expo, is the social event of the conference. The Gala is sponsored by Academy National Sponsor National Dairy Council and ConAgra Foods. Prices for individual tickets and tables will increase on August 21. More information: Email Martha Ontiveros or call 312/899-4773.

High-Five Dollars Drive

The Foundation relies on member donations to continue its work, yet only 5 percent of individual Academy members donate to the Foundation. In celebration of Kids Eat Right Month, the Foundation is kicking off the High Five Dollars Drive. Help turn 5 percent into \$5 from every member during August. More information on Twitter: #KERhigh5 @kidseatright.

September 21 Application Deadline: Research Grant in Oncology Nutrition

The Foundation and the Oncology Nutrition dietetics practice group are offering a one-time \$15,000 grant to nutrition students to support oncology nutrition research. The application deadline is September 21. Questions: Call 800/877-1600, ext. 4767, or email adonatell@eatright.org.

October 3 Nutrition Symposium: Science of Antibiotics

The Foundation's 2015 Nutrition Symposium "A Balanced Approach to Understanding the Science of Antibiotics in Animal Agriculture" will be held October 3 in Nashville, Tenn. The symposium is supported by educational grants from Elanco, National Cattlemen's Beef Association, National Dairy Council and National Pork Producers. Register for Foundation events or email Foundation@eatright.org or call 312/899-4773.

October 4 Nutrition Symposium: Plant-Based Eating

The Foundation's 2015 Nutrition Symposium "From Fringe to Flourish: The Future of Plant-based Eating," will be held October 4 in Nashville, Tenn. The symposium is supported by an educational grant from the California Walnut Commission. Register for Foundation events or email Foundation@eatright.org or call 312/899-4773.

A Message from Our Colleagues

Save on ANFP Online Course: 'Cracking the 2013 FDA Food Code'

The Association of Nutrition & Foodservice Professionals is offering Academy members a 10 percent discount during August on the online course "Cracking the 2013 FDA Food Code." Flash cards, word searches, video clips and other interactive media will help evaluate the code's organization, interpret each section and incorporate important information from the 2013 FDA Food Code Annex. Use the code ANFPANDFDA when registering.

Hi Donna,

The form is complete and in order! It is not yet marked as submitted. When you are ready, you can click "Save information and Submit to Academy." If you need to go back and make any changes before August 31, just let me know.

Thanks!

Joan

206. Upcoming Weight Management Program in Nashville

From: CDR <weightmgmt@eatright.org>
To: DMartin@Burke.k12.ga.us
Sent Date: Aug 19, 2015 16:12:03
Subject: Upcoming Weight Management Program in Nashville
Attachment:

August 19, 2015

Come and join your fellow colleagues on October 1-3, 2015 at the Certificate of Training in Adult Weight Management program pre-FNCE® in Nashville, Tennessee. Don't miss this opportunity to earn a certificate of training in adult weight management, earn 35 CPE hours, network with other dietetic practitioners and enjoy the great city of Nashville. Gather around the microphone where Elvis became a legend. Dig into the roots of American music at the Country Music Hall of Fame. From Symphony Hall to Capitol Hill, Nashville offers a host of one-of-a-kind experiences you'll find genuinely rewarding.

The program will be held at the Music City Center, which is located in downtown Nashville. Please contact the Academy's FNCE® housing partner on-Peak for discounted hotel rooms for the evenings of September 30, and October 1, 2 (rates vary). To make your reservation, please call the on-Peak at 1-800-443-3976 or visit <http://www.eatrightfnce.org/FNCE/content.aspx?id=6442484822> by September 12, 2015.

Click [here](#) to register for the program

Click [here](#) to plan your trip to Nashville.

Click [here](#) to check-out what recent program attendees are saying about the Certificate of Training in Adult Weight Management program.

Hot Off the Presses: Evaluating the Evidence behind Today's Nutrition Media Headlines

Date: August 27, 2015

Time: Noon to 1:30 p.m. (Central)

CPE Hours: 1.5

Registered Dietitian Nutritionists are nutrition experts trained in evidence-based practice. Today's food and nutrition environment demands that RDNs also be skilled translators of scientific evidence to the public, a challenging task given the daily barrage of media headlines reporting on the latest research study. Therefore, it's imperative that RDNs continually hone their critical thinking and communication skills. Case studies will be highlighted showing how research has evolved over time and why researchers, practitioners and the general public can come to different conclusions when considering the same body of literature and the resulting confusion this creates. The role of media in widening the gap between scientific evidence and public rhetoric will also be discussed. This webinar will examine the interpretation of research findings, motivate RDNs to think more critically and offer techniques and resources to better understand and address the latest evidence in nutrition science.

[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

Ramping Up MNT Efforts: Take Action to Include MNT in Diabetes Hearing on Capitol Hill

The Academy is working with partners at the Diabetes Advocacy Alliance to hold a diabetes hearing in the House Energy and Commerce Committee in the fall. To ensure the Preventing Diabetes in Medicare Act (H.R. 1686) and medical nutrition therapy are included in the hearing, take action to increase the number of bipartisan co-sponsors.

Updated Resources Show Effectiveness of MNT

The Academy's Preventing Diabetes in Medicare Act (H.R. 1686) "leave-behind" Issue Brief has been updated to reflect recent research on the effectiveness of medical nutrition therapy. Academy members are encouraged to use this new resource when meeting with members of Congress during the August recess.

Effect of Fresh Fruit and Vegetable Program on Childhood Obesity

In the fall, Congress will determine the fate of child nutrition programs in a process called Child Nutrition Reauthorization. Recent research demonstrates that schools with the Fresh Fruit and Vegetable Program saw an economically meaningful reduction in obesity over time, and show the return on investment and the public health importance of these programs.

[Learn More](#)

Academy Continues to Urge Congress to End Sequestration Cuts

The Academy has again signed on to a letter urging Congress to build on the Bipartisan Budget Act and stop the harmful effects of sequestration.

Academy Supports Increased Funding for Domestic HIV/AIDS Funding

The Academy has signed on to a letter with our partners at the AIDS Budget and Appropriations Coalition asking members of Congress to support domestic HIV/AIDS funding in the appropriations process.

New Opportunities: Input on Proposed Regulations and Government Initiatives

Federal agencies have been busy issuing multiple proposed regulations affecting reimbursement for registered dietitian nutritionists in various facilities, new reporting and performance measures and RDNs' ability to order therapeutic diets in long-term care settings. Members are encouraged to work with your DPGs to submit input on these initiatives, which are detailed in the Public Policy Weekly News and online under Regulatory Comments.

NIH Releases Updated Nutrition Research Reports

The NIH Nutrition Research Report for 2013 and 2014 is now available. The report summarizes National Institutes of Health nutrition research activities, and is an excellent resource for Academy members in keeping up-to-date.

CPE CORNER

August 12 Webinar: 'Nuts and Bolts of Fluid and Electrolytes in Hospitalized Patients'

Hospitalized patients can present with an array of fluid and electrolyte disturbances. An August 12 webinar will give registered dietitian nutritionists skills to accurately assess and treat these abnormalities to achieve and maintain homeostasis.

August 19 Webinar: 'Presenting a Poster at FNCE: Making the Most of Your Session'

Designing a dynamic poster can help clearly and concisely portray your research. An August 19 webinar will offer proven strategies and techniques from an expert researcher and graphic designer on preparing and presenting your poster.

August 19 Webinar: Kids Eat Right Month

Celebrate Kids Eat Right Month by participating August 19 in a live, free 1.0 CPEU webinar. Learn about the many resources available through Kids Eat Right and how you can get involved. Understand how Kids Eat Right toolkits are developed and take a closer look at the toolkits and other free resources.

New Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

The Academy's Center for Lifelong Learning has developed a new online certificate of training

program to help registered dietitian nutritionists learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics Making the Right Choice'

The Academy's Center for Lifelong Learning, planned with the *Journal Stats* Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

Updated Online Certificate of Training Program: Chronic Kidney Disease Nutrition Management

The Academy's Center for Lifelong Learning and the National Kidney Disease Education Program have updated the Chronic Kidney Disease Nutrition Management online certificate of training program to include the most recent population data from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention," "Promoting and Supporting Breastfeeding" and "Principles of Productivity in Food and Nutrition Services."

CAREER RESOURCES

FNCE Features Networking Opportunities

Attending the Food & Nutrition Conference & Expo, October 3 to 6 in Nashville, Tenn., allows you to network with more than 8,000 food and nutrition professionals who share a passion for improving health through nutrition. Learn the latest trends and insights in child health, wellness,

medical nutrition therapy and integrative nutrition that can help you improve your clients' health. *FNCE helped me to see all the good being done by RDNs throughout the country and the world, and now I'm even more excited to get out there and contribute:* Marielle Counts, dietetic intern.

Student Opportunities at the Biggest Nutrition Event of the Year

Students: Give your career a boost by attending the 2015 Food & Nutrition Conference & Expo. Student opportunities include educational sessions, networking events and career and internship information to help you transition into the dietetics profession. Register by August 21 to receive the early-bird discount.

eNCPT Student Companion Guide

Now available in the eatrightSTORE: the eNCPT Student Companion Guide. Developed with input from educators, this valuable resource assists educators in teaching the Nutrition Care Process and accompanying terminology using case studies and worksheets for developing PES statements. An Instructor's Solution Manual is also available to NDEP members. More information: email ncp@eatright.org.

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration and it is now available to all educators. Download the preceptor's guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant from National Dairy Council.

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 Academy Membership Application. New this year is a membership option for International Students. Email membership@eatright.org with questions.

Application Deadline Extended to December 31: Diversity Mini-Grants

Affiliates have the opportunity to apply for diversity mini-grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year. Diversity Liaisons will be eligible to apply for mini-grants ranging from \$100 to \$1000. Email affiliate@eatright.org with questions.

[Learn More](#)

eNCPT: Subscription and Tutorials

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and

comply with the Department of Health and Human Services' mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE within the "Resources" tab.

Nutrition Focused Physical Exam Pocket Guide

The new NFPE Pocket Guide is now available in the eatrightSTORE. The cost is \$10 for members and \$13 for non-members.

RESEARCH BRIEFS

Research: Where Are the Gaps?

Do you want to conduct research, but are not sure which areas need more attention? Learn about research gaps identified by the Evidence Analysis Library.

ACADEMY MEMBER UPDATES

Wanted: Photos of Members in Action

The Academy is seeking photos of members making a difference in your workplaces and communities. Please email images - the highest resolution possible - taken in work settings with clients, patients and colleagues. No posed or group pictures, please. Images may be used in videos at the Food & Nutrition Conference & Expo and in other Academy presentations. Show the world the impact Academy members are making every day. Email photos, with identifications of everyone in the pictures, to eatrightweekly@eatright.org. The deadline is August 14.

Join the Kids Eat Right Month Blog Roll

Bloggers: Add the Kids Eat Right Month badge (large or small) to your blog and email media@eatright.org to request to be added to the Kids Eat Right Month blog roll.

[Learn More](#)

2016 Election: Nominations Due Soon

The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

Entry-level Dietetics Practice Audit

Every five years, the Commission on Dietetic Registration conducts a practice audit to influence and direct the examination development process. In September, CDR will mail communications to 3,000 randomly selected, entry-level registered dietitian nutritionists and 2,000 nutrition and dietetic technicians, registered, asking them to participate in the survey. The end result is a roadmap that aids in updating the RDN and NDTR examinations, ensuring entry-level practitioners are able to succeed in the workplace.

New Video: 'Camp Delicious'

Camp Delicious is a hands-on camp for preteens and teens that blends cultivation in the garden with creation in the kitchen. A new video tells the story of the camp, co-directed by a registered dietitian nutritionist and a chef, with guest chefs, bakers and food critics adding their expertise to enrich the culinary experience.

New Risk Bites Video: 'Toxicology Testing in the 21st Century'

The International Life Sciences North America Technical Committee on Food and Chemical Safety has produced a new video on "Toxicology Testing in the 21st Century" (Tox21) programs. The primary audience for Risk Bites videos is consumers and others who may not have a science background, but are interested in making sense of personal health risks.

PHILANTHROPY, AWARDS AND GRANTS

August 21 Deadline: Seeking Everyday 'Hunger' Heroes

Are you helping food-insecure families make healthy choices? Send a short email describing your activities, along with your photo, to KidsEatRight@eatright.org by August 21, and you might be featured on the Foundation's website during Hunger Action Month in September.

Foundation Gala: Prices Increase on August 21

The Foundation Gala, to be held October 5 at the Food & Nutrition Conference & Expo, is the social event of the conference. The Gala is sponsored by Academy National Sponsor National Dairy Council and ConAgra Foods. Prices for individual tickets and tables will increase on August 21. More information: Email Martha Ontiveros or call 312/899-4773.

High-Five Dollars Drive

The Foundation relies on member donations to continue its work, yet only 5 percent of individual Academy members donate to the Foundation. In celebration of Kids Eat Right Month, the Foundation is kicking off the High Five Dollars Drive. Help turn 5 percent into \$5 from every member during August. More information on Twitter: #KERhigh5 @kidseatright.

October 3 Nutrition Symposium: Science of Antibiotics

The Foundation's 2015 Nutrition Symposium, "A Balanced Approach to Understanding the Science of Antibiotics in Animal Agriculture," will be held October 3 in Nashville, Tenn. This forum will present science supporting different viewpoints about the role of antibiotics and their impact on public health, animal health and the environment. The symposium is supported by educational grants from Elanco, National Cattlemen's Beef Association, National Dairy Council and National Pork Producers. Register for this event when registering for FNCE, email Martha Ontiveros or call 312/899-4773.

Donate to the Foundation's Silent Auction

Thanks to generous supporters, the Foundation's 2014 Silent Auction at the Food & Nutrition Conference & Expo raised more than \$12,000. The Silent Auction is the most-visited area of the conference, offering a unique opportunity to show your colleagues your commitment to reinvesting in the dietetics profession. Donate online to the Silent Auction. Please confirm your intention to donate by August 14 by emailing foundation@eatright.org.

Future of Food Smart Choices Mini-Grant Winners

Congratulations to 25 Kids Eat Right campaign members who were selected to receive a Future of Food 'Smart Choices. For a Healthy Planet.' mini-grant. Each member will receive \$200 to lead two presentations from the new 'Smart Choices. For a Healthy Planet.' toolkit in their communities through October 2. The toolkit and mini-grant opportunity was made possible through an educational grant from Elanco.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Subject: Sponsorship Impact
Attachment: [image003.jpg](#)
[image005.jpg](#)
[Academy Impact Report.pdf](#)
[Academy Foundation Impact.pdf](#)

The Sponsorship Advisory Task Force continues its dialogue on Academy guidelines for working with industry. During the course of the conversations they requested and were provided top-line numbers regarding the impact on membership that could occur as a result of any increase in dues needed to offset a reduction or elimination of sponsorship support. We do not believe a top-line number tells the whole story and so, in addition to the baseline information that was provided, the accounting and membership teams have worked to develop the attached comprehensive projection of a sponsorship reduction/elimination impact. The report includes various sponsorship program adjustment scenarios.

What is not reflected in this report is the impact on innovation. Signature programs such as the National Spokesperson Program, the Evidence Analysis Library, ANDHI, Home Food Safety, the recently developed Nutrition Focused Physical Exam course, etc. would not have been possible without industry support. Additional innovation and philanthropy that has its roots in the Foundation such as Kids Eat Right, the scholarship program (launched with a direct mail campaign to industry funders spearheaded by then President, Colonel Katherine E. Manchester), Champions Grant program (entering its 11th year with over \$6.5 million in support) would never have come to fruition if we had to rely solely on the generosity of our members above and beyond dues payments. The Foundation is taking its own look at industry support for innovation and a draft of its work-in-progress is also shared for your reference. Kathy, please share these with the task force.

I hope you find the information valuable as the important dialogue continues.

Best regards,

Patricia M. Babjak

Paul, It seems like your schedule and my schedule are exactly the same, crazy!!! I cannot tell you how much your encouragement has meant to me and has made me really want to go after running for the position with all my heart and soul. With the support I have from staff and people on the board, I am confident that it is the right thing to do. I totally get that the "right person" does not always get on the ballot and that the "right person" does not always win, but if I don't put my name in the hat, then we won't know if it could have been. I have extremely good vibes about the process and the people on the nominating committee. I think the new board is overall looking very good and I want to continue to move us in the right direction. Knowing Pat and you would be there for me, is at the top of my list, in terms of things I needed to consider. Lucille Beseler said I was her choice to work with, and that also means a lot. I know I will be reaching out to you as this process goes forth, but wanted to say thanks for all you have done to help me grow and have confidence in working towards this "new" goal. Have a great weekend!! I told Kay if I got elected she would have to follow me!!! We could have a formidable force of past Treasurer's as Presidents!!! Margaret would be next! Total job security for you

Donna,

I know we haven't talked lately, so, I want to apologize for that. You are never far from my thoughts. Things have just been crazy around here. So, I thought a quick e-mail would be far better, as long as I keep it short J.

I have been around nearly 15 years and to me, you have the perfect balance of humility, intelligence and leadership that this organization needs!!! So, when you think about whether or not to remove your name from consideration for President-Elect, please stop and think about what this organization might look like without your leadership. It isn't pretty. We have some great leaders. That I cannot deny. However, not having your voice to help us navigate through the next three years would be a travesty. We are at a pivotal point in the future evolution of the Academy and the Profession. You have the "right stuff" to ensure we make the right decisions. You are selfless and don't have a personal agenda. Just these characteristics alone make your peers on the board, and in leadership, better.

Since we both know that the right people don't always get elected we can't say what will happen. However, it is safe to say the right person won't get elected if they are not on the ballot. So, stay strong. We need you!

Have a great night.

Paul

FAC Committee, I am so sorry about the phone issue while we were on the FAC call. The superintendent called me (and he never calls) and I had to answer the call. I did not realize I had put the call on hold and that you heard feedback from my phone. Please accept my sincerest apologies and I have definitely learned my lesson!!!! Excellent meeting though!

Subject: RE: Finance and Audit Committee meeting on Tuesday, July 28th at 1 p.m. CDT

All,

As I mentioned yesterday, we have a Finance and Audit Committee meeting scheduled for Tuesday, July 28th at 1 p.m. CDT. Please let me know if you cannot make it. All of the information was loaded onto the portal yesterday with the exception of Christian's May overview. You should have also received a Webinar invitation from the Academy IT team. Please let me, or Linda Serwat, know if you did not receive the information. The call will be a little light this month and will focus primarily on the May final results and the June Preliminary results. We will call the May Results "final" since we don't expect any changes from the Auditors. However, they won't really be final until the audit is complete.

We have been working diligently at distributing the FY16 budgets by month. Since we have quite a few projects and "business entities" with the Academy and Foundation, we may not have it quite right yet. So, the budget distribution may change a little. We will try to keep this to a minimum. It becomes difficult with the DPGS/MIGS in particular. We are getting better at understanding when there revenues and expenses are budgeted to occur, but, not quite 100 percent yet.

In any event, the following is the high level narrative for our call on Tuesday.

I. May Adjustments

-

We did have a few adjustments to the original May numbers.

- a. Academy - The Academy had an increase in revenue of \$7,341. In addition, expenses went up \$3,811. This resulted Operating income increasing \$3,531.
- b. CDR – CDR revenue increased \$11,800 while expenses decreased \$4,720. This resulted in Operating income increasing by \$16,521.

c. DPG/MIG/ACEND – The combined revenues went down by \$7,326 while the combined expenses went up by \$300. This resulted in Operating income declining by \$7,625.

Since this is a year report, we expected some changes. We believe these will be final changes for the FY15 fiscal year.

II. Investments

I actually hate writing this email J. However, this is only due to the investment fluctuations. When I began this email, July was doing well. Even though it is still performing well, one day does make a difference. Since the Markets dropped yesterday, the numbers have changed!!! Oh well, I guess I either have to type faster or write less J. In any event, July has been a very interesting month for investments. Each day seems to bring another variable to drive the market up, or down, a few hundred points. Well, I am happy to tell you that our portfolios have gained \$581,000 (1.01%) for the month of July. So far, we have weathered the storm. That being said, we still have 6 days of trading left in the month of July (including today). That is the good news. The bad news is we needed this return to recover what was lost in June. In June, the combined portfolios lost \$673,000. So, through yesterday, we are at essentially a break even result for the Fiscal Year. That will leave us well behind the budget.

Even though we are behind the budget, I would not be too concerned. We know the markets fluctuate monthly. However, we “straight-line” the budget. It is too difficult to predict when the investments will go up or down. History will give us some indication, but, as we saw in June, history does not always repeat itself over the short haul. In June of 2014, the portfolios gained nearly \$765,000. This year, we were down \$673,000. We saw quite a few months in the 2015 Fiscal Year with negative returns and our portfolios still gained over \$4.6 million. So, don’t worry about one month. As we go forward, I would expect the markets to continue the gyrations and still result in a strong FY2016 results.

III. Academy preliminary June Financials (A3 and A10)

I wish I could say we are beginning the year on a positive note. Unfortunately, the Academy will miss the revenue target by \$66,162. Even though the expenses are \$37,841 below budget, the overall operating deficit of \$792,822 is \$28,321 higher (worse) than the budget. Once you factor into the equation the investment losses of \$223.8K, the Academy started the year with a Net

deficit of \$1,016,587. This is \$356,254 higher (worse) than the budget.

As I have mentioned previously, we are still working the budget distributions. However, I do think the Academy's distribution of revenue and expenses does reflect what we think should happen.

Unfortunately, the revenue shortfalls are due to clear elements; Membership renewal is below budget, PPW was below budget, Advertising for Food and Nutrition Magazine was below budget and Sponsorship missed the budget due to the elimination of Kraft at the end of FY15. It is too early in the year to jump to any conclusions on revenue. However, some of the shortfalls for June may continue as we go forward into FY16.

On the expense front, the Academy did fairly well. There were three areas over budget; Professional Fees, Telephone and Communication and Expense Allocation. Expense Allocation reflects the gap created from CDR not supporting programs to the level put into the budget. This gap was addressed when the budget was developed. Professional fees are over budget primarily due to the final payments for the OrgCentric Revenue review project that began last year (\$15,000). We expect to find additional expense reductions to cover both of these expense over-runs.

The following is a breakdown of the various categories for June:

A. Revenues

a. **Membership Dues** - This area is **under budget** by \$8,754 in June and is **under budget** by \$8,754 for the year. The under-run in June is being driven by lower Fellow program revenue (down \$2.8K) and lower Membership Dues revenue (down \$6.0K). As I mentioned above, Membership renewal is moving more slowly than anticipated. The Membership team is working on programs to get the Membership renewal back on track. It is too early to determine if this will be a problem for the year. However, it isn't too early to flag this issue and begin to implement programs that are intended to change the curve. That is what the Membership team is doing.

b. **Programs and Meetings** - This area is **under budget** by \$13,303 in June and is **under budget** by \$13,303 for the year. The under-run June is due to lower Professional Development revenue (down \$4.6K) and lower PPW revenue (down \$8.7K). Even though PPW's revenue is lower than budget, it appears that the expenses may nearly offset all of the under-run resulting in PPW getting very close to its operating targets.

c. **Publications and Materials** - This area is **under budget** by \$24,017 in June and is **under budget** by \$24,017 for the year. The under-run in June is primarily due to lower Traditional

Publications (down \$24.8K), offset by higher revenue across all other areas (up \$0.8K).

d. **Subscriptions** – This area is **over budget** by \$9,546 in June and is **over budget** by \$9,546 for the year. The over-run in June is primarily is due to higher NCM and related product sales (up \$8.4K), higher eNCPT (up \$1.3K) and higher EAL (up \$1.0K) offset by lower sales across all other (down \$1.2K).

e. **Advertising** – This area is **under budget** by \$7,190 in June and **under budget** by \$7,190 for the year. The under-run in June is entirely due to lower Advertising revenue for the Food and Nutrition Magazine.

f. **All grants** - This area is **under budget** by \$824 in June and is **under budget** by \$824 for the year. The under-run in May is primarily due to lower Research (down \$4.5K) offset by higher ConAgra (up \$2.8K) and higher Abbott Malnutrition (up \$0.9K).

g. **Sponsorships** – This area is **under budget** by \$22,083 in June and is **under budget by** \$22,083 for the year. The under-run in June is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.

h. **Other** – This area was **over budget** by \$463 in June and is **over budget** by \$463 for the year. There are no material reasons for the under-run in June.

B. Expenses

a. **Personnel** – This area is **under budget** by \$203 in June and is **under budget** by \$203 for the year. The under-run in June is due to lower wages and salaries overall.

b. **Publications** – This area is **under budget** by \$15,073 in June and is **under budget** by \$15,073 for the year. The under-run in June is primarily due to lower costs for Traditional Publications (down \$16.6K), lower Journal costs (down \$1.7K) and lower across all other (down \$0.3K). This is offset by higher Food and Nutrition Magazine costs (up \$2.5K) and higher Research Publications (up \$1.0K).

c. **Travel** – This area is **under budget** by \$595 in June and is **under budget** by \$595 for the year. The under-run in June is primarily due to costs for the Public Policy Workshop (down \$7.8K), lower DPG/MIG administrative costs (down \$1.5K) and lower across all other projects (down \$1.2K). This is offset by higher Governance/Board costs (up \$7.7K) and higher Marketing (up \$2.2K).

- d. **Professional Fees** - This area is over budget by \$7,524 in June and is over budget by \$7,524 for the year. The over-run in June is being driven primarily costs for the OrgCentric review (up \$15.0K), higher Public Policy (up \$5.3K), higher membership (up \$4.8K) and higher across all other projects (up \$1.5K). This is offset by lower Governance (down \$6.2K) and lower Traditional Publications (down \$12.9K).
- e. **Postage and Mailing** - This area is under budget by \$5,875 in June and is under budget by \$5,875 for the year. The under-run for June is being driven by lower Traditional Publications (down \$4.4K) and lower Food and Nutrition Magazine (down \$2.5K). This is offset by over-runs across all other projects (up \$1.0K), none of which are material.
- f. **Office Supplies and Equipment** – This area is under budget by \$3,370 in June and is under budget by \$3,370 for the year. The under-run in June is primarily due to lower Public Policy Workshop costs (down \$3.5) offset by higher across all other areas of the business (up \$0.1K).
- g. **Rent and utilities** - This area is under budget by \$6,943 in June and is under budget by \$6,943 for the year. The under-run in June is primarily due lower utility costs in Chicago.
- h. **Telephone and communications** – This is over budget by \$530 in June and is over budget by \$530 for the year. The over-run in June is primarily due to higher telecom charges in Chicago and Washington.
- i. **Commissions** – This area is under budget by \$5,438 in June and is under budget by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since revenue was lower for Food and Nutrition Magazine in June, expenses for commissions were lower as well.
- j. **Computer Expenses** – This area is under budget by \$2,645 in June and is under budget by \$2,645 for the year. The under-run in June is due to lower IT maintenance expenses.
- k. **Advertising and Promotion** – This area is under budget by \$1,474 in June and is under budget by \$1,474 for the year. The under-run in June is primarily due to lower Brand advertising (down \$7.2K) offset by higher Membership advertising (up \$5.6) and higher across all other (up \$0.1K).
- l. **Insurance** – This area is under budget by \$1,249 in June and is under budget by \$1,249 for the year. The under-run in June is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is under budget by \$1,088 in June and is under budget by \$1,088 for the year. The under-run in June is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is under budget by \$2,041 in June and is under budget by \$2,041 for the year. The under-run in June is due to lower JP Morgan bank fees.

- o. **Other** – This area is under budget by \$5,847 in June and under budget \$5,847 for the year. The under-run in June is due to lower costs for Informatics (down \$2.7K), lower Food and nutrition Magazine (down \$5.2K) and lower Research (down \$4.4K). This is offset by higher Public Policy Workshop costs (up \$4.2K), higher Public Relations (up \$1.7K) and higher across all other projects (up \$0.6K).
- p. **Expense allocation** – This area is unfavorable to budget by \$11,097 in June and is unfavorable to budget by \$11,097 for the year. The unfavorable result is due to lower costs expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.
- q. **Meeting services** – This area is under budget by \$3,897 in June and is under budget by \$3,987 for the year. The under-run in June is primarily due to lower Governance.
- r. **Legal and Audit** – This area is under budget by \$15 in June and is under budget by \$15 for the year. The under-run in June is due to lower legal expenses.
- s. **Printing** – This area is under budget by \$1,240 in June and is under budget by \$1,240 for the year. The under-run in June is due to lower Public Policy Workshop costs (down \$1.9K) and lower across all other projects (down \$0.2K). This is offset by higher Governance costs (up \$0.9K).

It is too early to determine how the year will roll-out. However, the Academy does have some issues on the revenue side that need to be reviewed. The Academy Executive team is working to improve the areas that are deficient. Unfortunately, it may take longer on the Sponsorship side of the equation. There is some good news on Revenue; Subscriptions are up. Subscriptions were a concern in FY15. In FY16, the budget is more closely aligned with the product sales. Hopefully, the positive results will continue throughout the year as well.

As always, FNCE will be a big driver of our success. We are seeing higher registration numbers for Nashville when compared to Atlanta. It is also too early to predict attendance. However we are about 15% higher in registrations today when compared to Atlanta at the same time. If this holds, we will exceed our registration revenue target for FNCE.

IV. Foundation June Financial results (A2, A8 and A9)

The Foundation did not have a great month in June. However, it wasn't too bad either. Revenue was short of the budget by \$6,345 while expenses were \$1,454 higher than budget. The revenue shortfall is primarily due to lower member contributions in June (down \$5,663). However, when compared to last year's June result (\$13,270), member contributions are much higher. So, there is good news even when the revenues fall short of expectations.

The only expense variances that jump out are Travel (up \$1.1K) and Legal (up \$0.7K). Both of these could be timing issue.

The results are exacerbated by the investment losses of \$260,280 in June. As I mentioned above, the markets always fluctuate. Hopefully, the markets will get back on track for higher returns as we go forward.

V. Commission on Dietetic Registration June Financial Results (A4 and A11)

CDR had a “mixed” month in June. Overall, the results were good with Net Deficit of \$45,133. This was \$34,178 lower (better) than the budget. On the operational side, revenue was lower than budget by \$15,953 due to the Weight Management programs. This could be a timing issue. Accounting is working with CDR to make sure the timing of the meetings is accurate.

On the expense front, CDR was \$189,408 below budget. This is a rather large amount and could also be due to budget distributions. You will see that Professional Fees (down \$69.1K), Postage and Mailing (down \$64.2K) and Travel (down \$28.6K) make up most of the variances. Accounting will work with CDR to review these areas and make budget distribution corrections if necessary. So, the June budgets may change before these go final.

VI. DPGs/MIGs/ACEND June Financial Results (A5, A12 and A16)

The combined DPGS/MIGS and ACEND had a “mixed” month overall in June as well. Revenue was under budget by \$28,384. However, expenses were \$121,408 under budget. We are still looking at the numbers across all of the groups. Therefore, these numbers may change. The final result for the combined groups was an Operating Deficit of \$95,893. This was \$93,024 smaller (better) than the budget. Once you factor in the Investment losses of \$96.3K, the combined groups had a Net Deficit of \$192,216. This was \$3,299 larger (worse) than the budget. As we addressed with CDR, the variances could be due to the budget distributions. We go through each DPG and MIG to get this right. However, even when we have agreement, the information doesn't always flow as expected. I would anticipate that Accounting will make some budget distribution changes before these go final.

If you look at page A16, you will see all of the DPGS/MIGS have strong reserves even with the Market reductions. Regardless of the budget distribution changes, the DPGS and MIGS are all in good financial shape.

VII. ANDPAC June Financial Results (A6 and A14)

The PAC did not have a good month in June. In June, revenue was \$8,037 under budget. The under run is across all categories. A bright spot is the total donations received by the PAC for PPW exceeded \$31K. We believe this is a record for PPW!!!

Expenses for the PAC were over budget by \$14,665 primarily due to increased donations to political candidates (up \$16K). This is a timing issue for the PAC.

Keep in mind that the PAC has to file financial reports with the FEC on a calendar year basis. Therefore, June is actually month six of the PAC's year. We convert the information to a fiscal year to be consistent with the rest of the Academy. This sometimes causes confusion. It will also generate more timing issues when we do the conversions. Bottom line for the PAC; donations are down overall for the Calendar Year. June is continuing this trend. The PAC board is evaluating options to increase contributions. When looking at the PAC, one of the key elements is the amount of money it has in reserve. At the end of June, the PAC had \$184,642 in reserve. This is a strong number and indicates the PAC is very healthy financially.

I indicated above that the budgets may change before the June results go final. However, I don't expect that actual results to change very much. Therefore, I think it is safe to say that overall, we are not starting the year great, but, it is too early to be concerned. Hopefully, especially with the Academy, we will see revenue turn around and move higher.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. As soon as Christian is done with his narrative, I will have it posted to the portal and let everyone know it is available.

I hope everyone has a great weekend.

Paul

221. Annual Review - Certificate of Training in Childhood and Adolescent Weight Management Self-Study Module

[Pre-Test - Childhood Program Pre-Test as of Oct 2014 by Reference2 \(00000002\).doc](#)
[LEARNING ACTIVITY 5 Reading and Worksheets.docx](#)

We are currently conducting a review of the Certificate of Training in Childhood and Adolescent Weight Management self-study module. We have given you access to the 2014 online childhood and adolescent weight management self-study module at www.cdrnet.org. Instructions to access the module are included below.

A paper copy of the module is attached. The copies does not include the actual articles. Would you please review the articles included in the module and identify if there are any articles that should be added, subtracted, or replaced. Keep in mind that the intent of the self-study is to provide attendees with the foundation knowledge to allow richer discussions at the onsite workshop (in other words, they should be consistent with the self-study learning objectives identified within the module). The articles should not present the content that will be covered onsite. However, if you have suggested changes to the learning objectives, please do provide those too!

Gail and Dana collaborated together and developed a Learning Activity 5 – Environmental Approaches to Prevention. It is also attached for your review.

A paper copy of the current pre-test is also attached. Please review the test and identify items that should be deleted, edited or added. We have included the source and performance of each item. Those poor performing questions are indicated in red. We anticipate that the items will have a performance of 70%.

Please send your feedback to me by e-mail or fax (312/899-4772) by September 15, 2015. After we receive all the feedback, we will send you a summary of recommendations and, if warranted, schedule a faculty teleconference to finalize the changes. Note that changes in articles will also change the learning activities and pre-test so we will be following up later for your input on those as well. All changes will be implemented as of November 1, 2015.

Instructions to access the online 2014 Childhood and Adolescent Weight Management Self-Study Module

To login choose the "Login" option on the upper right-hand side of the page.

1. Go to www.cdrnet.org
2. To login choose the "Login" option on the upper right-hand side of the page.
1. Sign-in using your Academy/CDR email address and the password for RDs and your email address and the password welcome for everyone else.
2. On the purple banner, hover over the "Portal" option on the right-hand side and choose the "EDU" option from the drop-down menu.
3. Launch the 2014 Childhood Weight Management Self-Study Module.

If you have any questions, feel free to contact me. Have a great summer!

223. FW: September 10-12, 2015 Childhood Weight Management - Program Information

From: Pearlie Johnson <PJohnson@eatright.org>
To: DMartin@Burke.k12.ga.us <DMartin@Burke.k12.ga.us>
Sent Date: Aug 05, 2015 11:08:07
Subject: FW: September 10-12, 2015 Childhood Weight Management - Program Information
Attachment: [Sept 2015 Program Agenda.pdf](#)
[Donna Martin.pdf](#)

Attached is your contract for the September 10-12, 2015 Certificate of Training in Childhood and Adolescent Weight Management program. Please sign and return the contract to me by fax (312/899-4772) or e-mail by Friday, August 14, 2015. I have also attached a tentative agenda.

You can make your flight arrangements to Buffalo through the Academy's travel service, American Express Travel. You may contact the Travel Desk at 800/238-9049 or www.eatright.org/traveldesks to book your flight. The hotel is nine (9) miles from the Buffalo-Niagara International Airport.

You will need to create an account to use the Travel Desk. The system will require you to enter a security code and a 7 character GL code to finalize your ticket. The security code is 524392 and the GL Code is 1041790. Please forward me a copy of your itinerary once your flight has been finalized so I can make sure that you have proper hotel accommodations.

Your presentations times are:

School Nutrition

Saturday, September 12, 2015 – 11:15 am – 12:15 pm

Q&A 12:15 pm – 12:30 pm

Programs Location:

The on-site program will be held at the Buffalo Niagara Convention Center located at 153 Franklin St., Buffalo, New York. Hotel reservations have been at the Hyatt Regency Buffalo which is adjacent to the convention center. The address of the hotel is Two Fountain Plaza, Buffalo, New York.

If possible, we are requesting that you send one PowerPoint for the participants to print and one to show on screen. The PowerPoint to print should only include text and not any unnecessary animations /graphics. We have received complaints regarding the fact that the animations/graphics often time cover up text. Here are the instructions to upload your files. However, if the file is not too large, you can email it to me. I will acknowledge receipt of the e-mail.

1. Go to www.cdrnet.org
2. To login choose the "Login" option on the upper right-hand side of the page.
 1. Sign-in using your Academy/CDR username and password.
 2. On the purple banner, hover over the "Portal" option on the right-hand side and choose the "Library" option from the drop-down menu.
 3. Click on the "2015 Childhood Faculty PowerPoint Files and Handouts" link located to the left.
 4. Click on the "Upload Multiple Files" link located in the gray menu bar.
 5. Scroll down to the bottom of the grey area and click on "add files" button (lower left side)
 6. Browse for your file.
 7. Click open.
 8. To add another file choose "Add Files" button again to add another file to the list.
 9. When you have all the files that you would like to add, click on the "Start Upload" button (lower left side). When upload had finished press "Continue."
 10. Don't pay attention to the list of folder. Just stroll down to the bottom of the page and click on "Complete Upload" bar.
 11. When you are done, please logout (upper right hand corner).

I will added faculty presentations to the box.net secured site as they become available for your review in order to eliminate any overlapping. The due date for your PowerPoint presentation and handouts is Monday, August 24, 2015.

Thank you.

Subject: Buffalo Program - WILL BE OFFERED
Attachment: [Sept 2015 Program Agenda.pdf](#)

Even though we have only 56 registrants for this program as of today and will not make profit from the program, we have determined that it will be more feasible to offer the program instead of cancelling. Attached is a draft agenda. Please review and let me know by end of day tomorrow, Tuesday, August 4, 2015, if you have any concerns or changes. The contracts and authorization to travel will be sent by end of day Wednesday, August 5, 2015.

Thank you.

Subject: Passing of Dr. Maurice Shils
Attachment:

We recently learned of the death of Dr. Maurice Shils, MD, ScD, FACP, a great advocate for the Academy and the profession. Dr. Shils was Professor Emeritus of Medicine, Cornell Medical College and a pioneer in the field of enteral nutrition. He was awarded honorary membership in the Academy in 1981 in acknowledgement of his efforts to “develop and disseminate guidelines to responsible, meaningful nutrition assessment” and his “commitment to expanding the role of the dietitian in providing nutrition care to the patient.”

Dr Shils passed away on June 29. A link to his obituary follows.

I received a funding request in the amount of \$7,670 for a face-to-face meeting of the Sponsorship Advisory Task Force in the Fall; the request is attached. Since it's within my approval authority for unbudgeted items, I approved the request which will ensure the completion of the task force report and recommendations to the Board by December 2015. Please see my communication to Kathy McClusky below. The December 1, 2015 date was established by the Board during the executive session in July.

Best regards,

Subject: RE: Budget Request

Hi Kathleen,

Thank you for the Sponsorship Advisory Task Force budget information. Per motions passed at the July Board meeting, the House Leadership Team (HLT) is addressing the funding request related to the presentation to the House of Delegates. The Finance and Audit Committee and I were charged to review the budget for the face-to-face meeting following FNCE for completion of the task force report to the Board by December 1, 2015. The budget you developed jointly with Paul for the face-to-face meeting is within my approval authority level for unbudgeted items, therefore I am approving up to \$7,670 for the face-to-face meeting. I also mentioned to Harold Holler that you, as chair of the task force, are not funded for travel to the House meeting; this will appear as an item on the next HLT teleconference agenda.

Thank you Kathy, and please let me know if you have any questions or need to speak.

Patricia M. Babjak

[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

FDA Proposes Requiring More Information about Added Sugars on Nutrition Facts Panel

As a result of recommendations in the scientific report of the Dietary Guidelines Advisory Committee, the Food and Drug Administration recently supplemented its earlier proposed changes to the Nutrition Facts panel to require a declaration of a percent daily value for added sugars that Americans should limit their added sugars intake to less than 10 percent of total calories. The Academy's Legislative and Public Policy Committee has convened a Food and Nutrition Labeling Workgroup to provide expertise and input to the FDA.

Fifty Years of Medicare: Promoting the Value of MNT

On July 30, 1965, President Lyndon Johnson signed legislation that created Medicare and Medicaid. Especially on the 50th anniversary of Medicare, the Academy continues to promote the value of medical nutrition therapy, provided by registered dietitian nutritionists, and to increase public awareness and demand for RDNs' services. Watch the Academy's social media platforms, including Twitter and Facebook, for messages commemorating a half-century of RDNs' role in keeping Medicare beneficiaries healthy.

Impact of Medicare and Medicaid: Academy Wants to Hear Your Success Stories

On the 50th anniversary of Medicare and Medicaid, the Academy asks members to submit stories on the impact of these programs on the health of our clients, patients and the profession. These programs are changing and we can make an impact. Please complete an Action Alert to support allowing registered dietitian nutritionists to provide medical nutrition therapy to help people with prediabetes or obesity.

Survey for Members Working with People Living with HIV/AIDS

Academy members who provide food and nutrition services including medical nutrition therapy to people living with HIV/AIDS are encouraged to complete a survey from the Food is Medicine Coalition, of which the Academy is a member. Surveys are due by August 5. Registered dietitian nutritionists are integral components of coordinated health care teams through private insurance and at Ryan White HIV/AIDS Program-funded centers where low-income, uninsured and underinsured people can get proper medical care.

New Opportunities: Input on Proposed Regulations and Government Initiatives

Federal agencies have been busy issuing multiple proposed regulations affecting reimbursement for registered dietitian nutritionists in various facilities, new reporting and performance measures and RDNs' ability to order therapeutic diets in long-term care settings. Members are encouraged to work with your DPGs to submit input on these initiatives, which are detailed in the Public Policy Weekly News and online under Regulatory Comments.

CPE CORNER

August 12 Webinar: 'Nuts and Bolts of Fluid and Electrolytes in Hospitalized Patients'

Hospitalized patients can present with an array of fluid and electrolyte disturbances. An August 12 webinar will give registered dietitian nutritionists skills to accurately assess and treat these abnormalities to achieve and maintain homeostasis.

August 19 Webinar: 'Presenting a Poster at FNCE: Making the Most of Your Session'

Designing a dynamic poster can help clearly and concisely portray your research. An August 19 webinar will offer proven strategies and techniques from an expert researcher and graphic designer on preparing and presenting your poster.

August 27 Webinar: 'Hot Off the Presses: Evaluating the Evidence behind Today's Nutrition Media Headlines'

Today's food and nutrition environment requires registered dietitian nutritionists to be skilled translators of scientific evidence to the public. An August 27 webinar will show how to continually hone your critical thinking and communication skills.

New Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

The Academy's Center for Lifelong Learning has developed a new online certificate of training program to help registered dietitian nutritionists learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Lifelong Learning, planned with the *Journal Stats* Team, has

developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

Updated Online Certificate of Training Program: Chronic Kidney Disease Nutrition Management

The Academy's Center for Lifelong Learning and the National Kidney Disease Education Program have updated the Chronic Kidney Disease Nutrition Management online certificate of training program to include the most recent population data from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

Journal Editor's Podcast on Prediabetes

In a new podcast, Linda Snetselaar, PhD, RDN, LD, FAND, editor-in-chief of the *Journal of the Academy of Nutrition and Dietetics*, interviews Linda Delahanty, MS, RDN, chief dietitian and director of nutrition and behavioral research at the Massachusetts General Hospital Diabetes Center and assistant professor at Harvard Medical School, on working with people with prediabetes in practice and research settings.

Get Your Manuscript Published: New Author Tool from the *Journal*

"Getting Your Manuscript Published" is a new tool for novice and experienced authors alike. Learn about the structure of the *Journal of the Academy of Nutrition and Dietetics*; the submission, review and publication process; and tips for drafting a high-quality research manuscript. Click on the For Authors tab on the *Journal's* website.

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration and it is now available to all educators. Download the preceptor's guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant from National Dairy Council.

New International Student Membership Option

International Student membership is now available is now available for those enrolled in a food, nutrition or dietetics educational program located and accredited outside the United States. For \$100, International Student members have access to the same benefits and services as International members.

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 Academy Membership Application. Email membership@eatright.org with questions.

Become a Student Leader: Now Accepting Student Liaison Applications

Build your leadership skills, boost your career and enhance your resume. Apply to represent your dietetics program by signing up as an Academy Student Liaison for the 2015-2016 membership year.

August 17 Webinar: Calcium Supplementation and Cardiovascular Disease Risk

Recent research linking calcium supplementation to both increased and decreased cardiovascular disease risk has caused uncertainty about the effectiveness of calcium supplements to reduce the risk of fracture. Join the National Osteoporosis Foundation for an August 17 informational webinar examining the evidence on calcium supplementation and its effect on CVD outcomes and mortality.

RESEARCH BRIEFS

Subscribe to eNCPT - Plus Tutorials and CPE

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services' mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE.

eNCPT Student Companion Guide

Coming soon to the Eatright Store: the eNCPT Student Companion Guide. Developed with input from educators, this valuable resource assists educators in teaching the Nutrition Care Process and accompanying terminology using case studies and worksheets for developing PES statements. An Instructor's Solution Manual is also available. More information: ncp@eatright.org.

Research: Where Are the Gaps?

Do you want to conduct research but are not sure which areas need more attention? Learn about research gaps identified by the Evidence Analysis Library.

Guideline Reviewers Needed

The Academy is seeking reviewers for the HIV/AIDS Evidence-based Nutrition Practice Guideline Toolkit. Ideal reviewers will have experience working with the HIV/AIDS population.

Prove It with ANDHII

Do you make a difference in the lives of your patients and clients? Prove it by tracking outcomes. The Academy of Nutrition and Dietetics Health Informatics Infrastructure (ANDHII) is a Nutrition Care Process outcomes management system available free to members.

ACADEMY MEMBER UPDATES

Kids Eat Right Month Begins August 1

The second annual Kids Eat Right Month kicks off on August 1. As the food and nutrition experts, Academy members are encouraged to spread the word to families, friends and clients about this valuable - and fun - initiative. You can get involved to help all children and families shop smart, cook healthy and eat right. Promotional materials for Kids Eat Right Month and the Kids Eat Right program are available for members on the Academy's website.

Call for Nominations: 2016 Election

For the Academy's 2016 national election, the Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form .

Entry-level Dietetics Practice Audit to Roll Out in September

Three thousand randomly selected, entry-level registered dietitian nutritionists and 2,000 nutrition and dietetic technicians, registered will be asked to participate in September in the Commission on Dietetic Registrations practice audit. Participants' input is vital to the future of dietetics practice: The information will be used to update CDR's examinations.

PHILANTHROPY, AWARDS AND GRANTS

Deadline Is Friday: Apply for Future of Food 'Smart Choices. For a Healthy Planet.' Grants
To support the use of the "Smart Choices. For a Healthy Planet." toolkit, 25 mini-grants of \$200 each are available to Academy members. Applications are due July 31 and recipients will be announced August 10. The toolkit and mini-grant opportunity are made possible by an educational grant from Elanco.

August 1 Application Deadline: CDR Leadership Grant

This award provides support to registered dietitian nutritionists and dietetic technicians, registered to obtain leadership training and prepare to move into leadership positions within their organizations. The application deadline is August 1.

August 1 Application Deadline: CDR Grassroots Marketing Grant

This award provides grants to registered dietitian nutritionists and dietetic technicians, registered to promote CDR credentials at the local level to prospective employers or third-party-payers. Funds may be used for a virtual event or activity or a live meeting or program. The application deadline is August 1.

Back-to-School Educational Resources

The Foundation and its partners offer educational resources as children start heading back to school. They include: It's All About You; Kids Eat Right Toolkits; and Energy Balance 101 Pre-K Curriculum, K-2nd Grade Curriculum and 3rd-5th Grade Curriculum.

Nutrition Symposium: Science of Antibiotics

The Foundation's 2015 Nutrition Symposium, "A Balanced Approach to Understanding the Science of Antibiotics in Animal Agriculture," will be held October 3 in Nashville, Tenn. This forum will present science supporting different viewpoints about the role of antibiotics and their impact on public health, animal health and the environment. The symposium is supported by educational grants from Elanco, National Cattlemen's Beef Association, National Dairy Council and National Pork Producers. Register for this event when registering for FNCE, email Martha Ontiveros or call 312/899-4773.

At FNCE: Visit Kids Eat Right and Future of Food Kiosk

Stop by the Kids Eat Right Kiosk at the Food & Nutrition Conference & Expo and visit with registered dietitian nutritionists about the Foundation's Kid Eat Right and Future of Food initiatives. Learn more about how to access free resources and mini-grants to help you get involved in efforts to promote healthy eating for kids and families. To be announced: Special visits with RDN farmer experts.

At FNCE: 'Strategies for Behavior Change Among Low-Income Populations'

This session on October 6 will provide an overview of behavioral economics and examples of how it is being strategically incorporated into nutrition education programs. Feeding America's Healthy

Cities project will be described, showcasing characteristics of effective community partnerships for improved health of children and adults.

Donna,

I know we haven't talked lately, so, I want to apologize for that. You are never far from my thoughts. Things have just been crazy around here. So, I thought a quick e-mail would be far better, as long as I keep it short J.

I have been around nearly 15 years and to me, you have the perfect balance of humility, intelligence and leadership that this organization needs!!! So, when you think about whether or not to remove your name from consideration for President-Elect, please stop and think about what this organization might look like without your leadership. It isn't pretty. We have some great leaders. That I cannot deny. However, not having your voice to help us navigate through the next three years would be a travesty. We are at a pivotal point in the future evolution of the Academy and the Profession. You have the "right stuff" to ensure we make the right decisions. You are selfless and don't have a personal agenda. Just these characteristics alone make your peers on the board, and in leadership, better.

Since we both know that the right people don't always get elected we can't say what will happen. However, it is safe to say the right person won't get elected if they are not on the ballot. So, stay strong. We need you!

Have a great night.

Paul

Subject: RE: Finance and Audit Committee meeting on Tuesday, July 28th at 1 p.m. CDT

All,

As I mentioned yesterday, we have a Finance and Audit Committee meeting scheduled for Tuesday, July 28th at 1 p.m. CDT. Please let me know if you cannot make it. All of the information was loaded onto the portal yesterday with the exception of Christian's May overview. You should have also received a Webinar invitation from the Academy IT team. Please let me, or Linda Serwat, know if you did not receive the information. The call will be a little light this month and will focus primarily on the May final results and the June Preliminary results. We will call the May Results "final" since we don't expect any changes from the Auditors. However, they won't really be final until the audit is complete.

We have been working diligently at distributing the FY16 budgets by month. Since we have quite a few projects and "business entities" with the Academy and Foundation, we may not have it quite right yet. So, the budget distribution may change a little. We will try to keep this to a minimum. It becomes difficult with the DPGS/MIGS in particular. We are getting better at understanding when there revenues and expenses are budgeted to occur, but, not quite 100 percent yet.

In any event, the following is the high level narrative for our call on Tuesday.

I. May Adjustments

-
We did have a few adjustments to the original May numbers.

- a. Academy - The Academy had an increase in revenue of \$7,341. In addition, expenses went up \$3,811. This resulted Operating income increasing \$3,531.
- b. CDR – CDR revenue increased \$11,800 while expenses decreased \$4,720. This resulted in Operating income increasing by \$16,521.
- c. DPG/MIG/ACEND – The combined revenues went down by \$7,326 while the combined expenses went up by \$300. This resulted in Operating income declining by \$7,625.

Since this is a year report, we expected some changes. We believe these will be final changes for the FY15 fiscal year.

II. Investments

I actually hate writing this email J. However, this is only due to the investment fluctuations. When I began this email, July was doing well. Even though it is still performing well, one day does make a difference. Since the Markets dropped yesterday, the numbers have changed!!! Oh well, I guess I either have to type faster or write less J. In any event, July has been a very interesting month for investments. Each day seems to bring another variable to drive the market up, or down, a few hundred points. Well, I am happy to tell you that our portfolios have gained \$581,000 (1.01%) for the month of July. So far, we have weathered the storm. That being said, we still have 6 days of trading left in the month of July (including today). That is the good news. The bad news is we needed this return to recover what was lost in June. In June, the combined portfolios lost \$673,000. So, through yesterday, we are at essentially a break even result for the Fiscal Year. That will leave us well behind the budget.

Even though we are behind the budget, I would not be too concerned. We know the markets fluctuate monthly. However, we “straight-line” the budget. It is too difficult to predict when the investments will go up or down. History will give us some indication, but, as we saw in June, history does not always repeat itself over the short haul. In June of 2014, the portfolios gained nearly \$765,000. This year, we were down \$673,000. We saw quite a few months in the 2015 Fiscal Year with negative returns and our portfolios still gained over \$4.6 million. So, don’t worry about one month. As we go forward, I would expect the markets to continue the gyrations and still result in a strong FY2016 results.

III. Academy preliminary June Financials (A3 and A10)

I wish I could say we are beginning the year on a positive note. Unfortunately, the Academy will miss the revenue target by \$66,162. Even though the expenses are \$37,841 below budget, the overall operating deficit of \$792,822 is \$28,321 higher (worse) than the budget. Once you factor into the equation the investment losses of \$223.8K, the Academy started the year with a Net deficit of \$1,016,587. This is \$356,254 higher (worse) than the budget.

As I have mentioned previously, we are still working the budget distributions. However, I do think the Academy’s distribution of revenue and expenses does reflect what we think should happen. Unfortunately, the revenue shortfalls are due to clear elements; Membership renewal is below budget, PPW was below budget, Advertising for Food and Nutrition Magazine was below budget

and Sponsorship missed the budget due to the elimination of Kraft at the end of FY15. It is too early in the year to jump to any conclusions on revenue. However, some of the shortfalls for June may continue as we go forward into FY16.

On the expense front, the Academy did fairly well. There were three areas over budget; Professional Fees, Telephone and Communication and Expense Allocation. Expense Allocation reflects the gap created from CDR not supporting programs to the level put into the budget. This gap was addressed when the budget was developed. Professional fees are over budget primarily due to the final payments for the OrgCentric Revenue review project that began last year (\$15,000). We expect to find additional expense reductions to cover both of these expense over-runs.

The following is a breakdown of the various categories for June:

A. Revenues

- a. **Membership Dues** - This area is **under budget** by \$8,754 in June and is **under budget** by \$8,754 for the year. The under-run in June is being driven by lower Fellow program revenue (down \$2.8K) and lower Membership Dues revenue (down \$6.0K). As I mentioned above, Membership renewal is moving more slowly than anticipated. The Membership team is working on programs to get the Membership renewal back on track. It is too early to determine if this will be a problem for the year. However, it isn't too early to flag this issue and begin to implement programs that are intended to change the curve. That is what the Membership team is doing.
- b. **Programs and Meetings** - This area is **under budget** by \$13,303 in June and is **under budget** by \$13,303 for the year. The under-run June is due to lower Professional Development revenue (down \$4.6K) and lower PPW revenue (down \$8.7K). Even though PPW's revenue is lower than budget, it appears that the expenses may nearly offset all of the under-run resulting in PPW getting very close to its operating targets.
- c. **Publications and Materials** - This area is **under budget** by \$24,017 in June and is **under budget** by \$24,017 for the year. The under-run in June is primarily due to lower Traditional Publications (down \$24.8K), offset by higher revenue across all other areas (up \$0.8K).
- d. **Subscriptions** – This area is **over budget** by \$9,546 in June and is **over budget** by \$9,546 for the year. The over-run in June is primarily is due to higher NCM and related product sales (up \$8.4K), higher eNCPT (up \$1.3K) and higher EAL (up \$1.0K) offset by lower sales across all other (down \$1.2K).

- e. **Advertising** – This area is under budget by \$7,190 in June and under budget by \$7,190 for the year. The under-run in June is entirely due to lower Advertising revenue for the Food and Nutrition Magazine.
- f. **All grants** - This area is under budget by \$824 in June and is under budget by \$824 for the year. The under-run in May is primarily due to lower Research (down \$4.5K) offset by higher ConAgra (up \$2.8K) and higher Abbott Malnutrition (up \$0.9K).
- g. **Sponsorships** – This area is under budget by \$22,083 in June and is under budget by \$22,083 for the year. The under-run in June is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.
- h. **Other** – This area was over budget by \$463 in June and is over budget by \$463 for the year. There are no material reasons for the under-run in June.

B. Expenses

- a. **Personnel** – This area is under budget by \$203 in June and is under budget by \$203 for the year. The under-run in June is due to lower wages and salaries overall.
- b. **Publications** – This area is under budget by \$15,073 in June and is under budget by \$15,073 for the year. The under-run in June is primarily due to lower costs for Traditional Publications (down \$16.6K), lower Journal costs (down \$1.7K) and lower across all other (down \$0.3K). This is offset by higher Food and Nutrition Magazine costs (up \$2.5K) and higher Research Publications (up \$1.0K).
- c. **Travel** – This area is under budget by \$595 in June and is under budget by \$595 for the year. The under-run in June is primarily due to costs for the Public Policy Workshop (down \$7.8K), lower DPG/MIG administrative costs (down \$1.5K) and lower across all other projects (down \$1.2K). This is offset by higher Governance/Board costs (up \$7.7K) and higher Marketing (up \$2.2K).
- d. **Professional Fees** - This area is over budget by \$7,524 in June and is over budget by \$7,524 for the year. The over-run in June is being driven primarily costs for the OrgCentric review (up \$15.0K), higher Public Policy (up \$5.3K), higher membership (up \$4.8K) and higher across all other projects (up \$1.5K). This is offset by lower Governance (down \$6.2K) and lower Traditional Publications (down \$12.9K).

- e. **Postage and Mailing** - This area is **under budget** by \$5,875 in June and is **under budget** by \$5,875 for the year. The under-run for June is being driven by lower Traditional Publications (down \$4.4K) and lower Food and Nutrition Magazine (down \$2.5K). This is offset by over-runs across all other projects (up \$1.0K), none of which are material.
- f. **Office Supplies and Equipment** – This area is **under budget** by \$3,370 in June and is **under budget** by \$3,370 for the year. The under-run in June is primarily due to lower Public Policy Workshop costs (down \$3.5) offset by higher across all other areas of the business (up \$0.1K).
- g. **Rent and utilities** - This area is **under budget** by \$6,943 in June and is **under budget** by \$6,943 for the year. The under-run in June is primarily due lower utility costs in Chicago.
- h. **Telephone and communications** – This is **over budget** by \$530 in June and is **over budget** by \$530 for the year. The over-run in June is primarily due to higher telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **under budget** by \$5,438 in June and is **under budget** by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since revenue was lower for Food and Nutrition Magazine in June, expenses for commissions were lower as well.
- j. **Computer Expenses** – This area is **under budget** by \$2,645 in June and is **under budget** by \$2,645 for the year. The under-run in June is due to lower IT maintenance expenses.
- k. **Advertising and Promotion** – This area is **under budget** by \$1,474 in June and is **under budget** by \$1,474 for the year. The under-run in June is primarily due to lower Brand advertising (down \$7.2K) offset by higher Membership advertising (up \$5.6) and higher across all other (up \$0.1K).
- l. **Insurance** – This area is **under budget** by \$1,249 in June and is **under budget** by \$1,249 for the year. The under-run in June is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$1,088 in June and is **under budget** by \$1,088 for the year. The under-run in June is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is **under budget** by \$2,041 in June and is **under budget** by \$2,041 for the year. The under-run in June is due to lower JP Morgan bank fees.
- o. **Other** – This area is **under budget** by \$5,847 in June and **under budget** \$5,847 for the year. The under-run in June is due to lower costs for Informatics (down \$2.7K), lower Food and nutrition Magazine (down \$5.2K) and lower Research (down \$4.4K). This is offset by higher Public Policy Workshop costs (up \$4.2K), higher Public Relations (up \$1.7K) and higher across all other projects (up \$0.6K).
- p. **Expense allocation** – This area is **unfavorable to budget** by \$11,097 in June and is **unfavorable to budget** by \$11,097 for the year. The unfavorable result is due to lower costs

expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.

q. **Meeting services** – This area is under budget by \$3,897 in June and is under budget by \$3,987 for the year. The under-run in June is primarily due to lower Governance.

r. **Legal and Audit** – This area is under budget by \$15 in June and is under budget by \$15 for the year. The under-run in June is due to lower legal expenses.

s. **Printing** – This area is under budget by \$1,240 in June and is under budget by \$1,240 for the year. The under-run in June is due to lower Public Policy Workshop costs (down \$1.9K) and lower across all other projects (down \$0.2K). This is offset by higher Governance costs (up \$0.9K).

It is too early to determine how the year will roll-out. However, the Academy does have some issues on the revenue side that need to be reviewed. The Academy Executive team is working to improve the areas that are deficient. Unfortunately, it may take longer on the Sponsorship side of the equation. There is some good news on Revenue; Subscriptions are up. Subscriptions were a concern in FY15. In FY16, the budget is more closely aligned with the product sales. Hopefully, the positive results will continue throughout the year as well.

As always, FNCE will be a big driver of our success. We are seeing higher registration numbers for Nashville when compared to Atlanta. It is also too early to predict attendance. However we are about 15% higher in registrations today when compared to Atlanta at the same time. If this holds, we will exceed our registration revenue target for FNCE.

IV. Foundation June Financial results (A2, A8 and A9)

The Foundation did not have a great month in June. However, it wasn't too bad either. Revenue was short of the budget by \$6,345 while expenses were \$1,454 higher than budget. The revenue shortfall is primarily due to lower member contributions in June (down \$5,663). However, when compared to last year's June result (\$13,270), member contributions are much higher. So, there is good news even when the revenues fall short of expectations.

The only expense variances that jump out are Travel (up \$1.1K) and Legal (up \$0.7K). Both of these could be timing issue.

The results are exacerbated by the investment losses of \$260,280 in June. As I mentioned above, the markets always fluctuate. Hopefully, the markets will get back on track for higher returns as we go forward.

V. Commission on Dietetic Registration June Financial Results (A4 and A11)

CDR had a “mixed” month in June. Overall, the results were good with Net Deficit of \$45,133. This was \$34,178 lower (better) than the budget. On the operational side, revenue was lower than budget by \$15,953 due to the Weight Management programs. This could be a timing issue. Accounting is working with CDR to make sure the timing of the meetings is accurate.

On the expense front, CDR was \$189,408 below budget. This is a rather large amount and could also be due to budget distributions. You will see that Professional Fees (down \$69.1K), Postage and Mailing (down \$64.2K) and Travel (down \$28.6K) make up most of the variances. Accounting will work with CDR to review these areas and make budget distribution corrections if necessary. So, the June budgets may change before these go final.

VI. DPGs/MIGs/ACEND June Financial Results (A5, A12 and A16)

The combined DPGS/MIGS and ACEND had a “mixed” month overall in June as well. Revenue was under budget by \$28,384. However, expenses were \$121,408 under budget. We are still looking at the numbers across all of the groups. Therefore, these numbers may change. The final result for the combined groups was an Operating Deficit of \$95,893. This was \$93,024 smaller (better) than the budget. Once you factor in the Investment losses of \$96.3K, the combined groups had a Net Deficit of \$192,216. This was \$3,299 larger (worse) than the budget. As we addressed with CDR, the variances could be due to the budget distributions. We go through each DPG and MIG to get this right. However, even when we have agreement, the information doesn't always flow as expected. I would anticipate that Accounting will make some budget distribution changes before these go final.

If you look at page A16, you will see all of the DPGS/MIGS have strong reserves even with the Market reductions. Regardless of the budget distribution changes, the DPGS and MIGS are all in good financial shape.

VII. ANDPAC June Financial Results (A6 and A14)

The PAC did not have a good month in June. In June, revenue was \$8,037 under budget. The under run is across all categories. A bright spot is the total donations received by the PAC for PPW exceeded \$31K. We believe this is a record for PPW!!!

Expenses for the PAC were over budget by \$14,665 primarily due to increased donations to political candidates (up \$16K). This is a timing issue for the PAC.

Keep in mind that the PAC has to file financial reports with the FEC on a calendar year basis. Therefore, June is actually month six of the PAC's year. We convert the information to a fiscal year to be consistent with the rest of the Academy. This sometimes causes confusion. It will also generate more timing issues when we do the conversions. Bottom line for the PAC; donations are down overall for the Calendar Year. June is continuing this trend. The PAC board is evaluating options to increase contributions. When looking at the PAC, one of the key elements is the amount of money it has in reserve. At the end of June, the PAC had \$184,642 in reserve. This is a strong number and indicates the PAC is very healthy financially.

I indicated above that the budgets may change before the June results go final. However, I don't expect that actual results to change very much. Therefore, I think it is safe to say that overall, we are not starting the year great, but, it is too early to be concerned. Hopefully, especially with the Academy, we will see revenue turn around and move higher.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. As soon as Christian is done with his narrative, I will have it posted to the portal and let everyone know it is available.

I hope everyone has a great weekend.

Paul

Margaret,

There isn't any need to apologize to me!!! I admire your passion and concern. The uncertainty of this issue does have financial implications. So, it isn't wrong to address it with the FAC. In the long run, the Academy will be better off for having done so!

Have a great day!!

Paul

Subject: apology

Paul, Kay and Donna,

I am sorry to have diverted the discussion yesterday when it clearly was not the FAC agenda. If this made you and other staff uncomfortable, Paul, I sincerely apologize.

I did, however, communicate what my thoughts were on the TF and its responsibility ----and direct report accountability to the BOD. I fear that the impact of this issue on academy funding could be tragically harsh, if we do not bring this back into the BOD and ANDF. An annual TF chewing on this issue will be unhealthy, when our goal was to have a group with a very targeted charge bring *recommendations*.

Subject: RE: Fiscal meeting
Attachment:

All,

A couple of things;

1. DPGs/MIGs - the DPGS/MIGs, overall, are under budget on revenue but way under budget on expense. It appears to be very common for DPGS/MIGs; they overestimate the revenue and expense. They are not making budget for a variety of reasons;
 - a. Budget distributions – Spreading the budget for the DPGs/MIGs is not an exact science. The DPGS and MIGS have it spread for them within the systems. They can then make modifications. Unfortunately, it isn't always done correctly. I look at each line item, but start with the obvious ones. That is one reason we don't get too concerned about the monthly numbers for the DPGS/MIGS. Since we only have June, the year to date information isn't helping.
 - b. One area we can address is Membership. Membership is below their budgets overall as well on the revenue front. It is higher than last year, but, not quite there yet.
 - c. Publications is below budget due in large part to DNS. They have revenue for pubs for \$3,700. They did not have any sales. Again, this could be a budget issue.
 - d. Grants just seem to overall lower
 - e. Expenses are always overstated. I wish had a good answer for why. It is mostly travel, professional fees and meetings.
 - f. We do not impose any sanctions on the DPGs until they have reserve that is below the 50% level. You can see on page A16 no one is current in that position and no one is expected to be in that position in the near future

2. Investments

a. We do have volatility in our portfolio. Not going to lie about that. We are about 65% in equities. Anytime a company has this much you will have some volatility. We have less because of the stocks we purchase. The markets of the last week have taken us from a profit of over \$1M to a loss of about \$50,000.

3. PPW.

a. We chose the numbers for PPW on the revenue front because we felt it could do as well as the previous PPW. Unfortunately, we did not attract as many paying participants as we have in the past.

b. Expenses were actually very affordable for Washington in June. The deal we had with the Marriott was surprisingly good. So, we were comfortable with the overall cost structure. Keep in mind, if you are going to have PPW in Washington in June, the reference point are other hotels in Washington in June.

4. Advertising

a. All of the issues you raise are valid. We have an outside advertising agency that sells the advertisements for Food and Nutrition Magazine. They are pushing hard. Could they do more? We all hope so.

b. We are selling subscriptions to F&N magazine for \$9.99 for the year. It is slow, but, it is in our plans.

c. We are evaluating improving the profitability of F&N magazine. It is a focal point of the OrgCentric report that Pat addressed in executive session with the Board.

5. Membership dues rates are up by 1.7% (\$234 from \$230 for an active). However, the member renewals are down. This is the first time in years that we are behind the previous year's renewals. Membership is working to improve the shortfall. This one could have large implications to the Academy if it does not improve. We did not include much growth in the FY16 budget for Membership. However, we not forecast a reduction.

a. The increase in student membership will go into effect in FY17.

b. I don't believe we have looked at two years in dues payments. However, we do provide benefits for those who automatically renew. It helps reduce our costs.

6. Governance costs are up due to Sponsorship Task Force meeting costs and additional costs for the Board members to attend PPW. The PPW costs are probably and budget distribution issue. We did not have PPW in June in FY15. So, when the budget was "spread", it was missed. This will have to be adjusted. The Sponsorship Task Force was not a budgeted expense.

I think this answers all of your questions. Talk you in a few.

Paul

Subject: Fiscal meeting

Hi!

So instead of asking all my questions on the call I thought I would send it out and perhaps you want to address privately or on the call. I do not want to monopolize the call with my questions but when I read these reports I think of how can we fix some of these issues. The call might not be the right revenue for my comments but I do believe they are warranted.

Thanks . Talk to you soon. Lucille

Fiscal

Questions:

C. DPG/MIGS/ascend

Why are they not meeting budget?

Less members? Overspending?

What sanctions do we impose if they over spend. If not enough members join do we reevaluate the necessity of the DPG or MIG?

Investments: the market does rise and fall. I understand that but do we have too much volatility in our portfolio vs. long term fixed.

programs and meetings: PPW we understand the need to have this meeting and at times projects will lose money but are necessary. At the same time, maybe we need to be more thrifty when planning PPW. The meals (especially the yummy tofu ones!) and the hotel were costly. We and our members need to tighten our belts.

advertising:

What is the plan for the communications or ad department to get more sponsored ads. There are many groups that might be interested- have we approached the big players in the "organic retail market" ---whole foods, trader joes, chipotle, Starbucks, Paneras, Hain Celestials. Are we really pushing hard enough in this are? The Food and Nutrition magazine is great why is it not profitable? Have we considered expanding distribution? supermarkets?

Membership

If membership is up why is income down? Didn't we approve a increase in dues for students- when does that go into effect? Have we considered two year membership renewal? Florida state does that for license. Reduce cost and you get their money for two years?

Travel

Explain why are Governance/Board costs up.

Subject: RE: Finance and Audit Committee meeting on Tuesday, July 28th at 1 p.m. CDT

All,

As I mentioned yesterday, we have a Finance and Audit Committee meeting scheduled for Tuesday, July 28th at 1 p.m. CDT. Please let me know if you cannot make it. All of the information was loaded onto the portal yesterday with the exception of Christian's May overview. You should have also received a Webinar invitation from the Academy IT team. Please let me, or Linda Serwat, know if you did not receive the information. The call will be a little light this month and will focus primarily on the May final results and the June Preliminary results. We will call the May Results "final" since we don't expect any changes from the Auditors. However, they won't really be final until the audit is complete.

We have been working diligently at distributing the FY16 budgets by month. Since we have quite a few projects and "business entities" with the Academy and Foundation, we may not have it quite right yet. So, the budget distribution may change a little. We will try to keep this to a minimum. It becomes difficult with the DPGS/MIGS in particular. We are getting better at understanding when there revenues and expenses are budgeted to occur, but, not quite 100 percent yet.

In any event, the following is the high level narrative for our call on Tuesday.

I. May Adjustments

-
We did have a few adjustments to the original May numbers.

- a. Academy - The Academy had an increase in revenue of \$7,341. In addition, expenses went up \$3,811. This resulted Operating income increasing \$3,531.
- b. CDR – CDR revenue increased \$11,800 while expenses decreased \$4,720. This resulted in Operating income increasing by \$16,521.
- c. DPG/MIG/ACEND – The combined revenues went down by \$7,326 while the combined expenses went up by \$300. This resulted in Operating income declining by \$7,625.

Since this is a year report, we expected some changes. We believe these will be final changes for the FY15 fiscal year.

II. Investments

I actually hate writing this email J. However, this is only due to the investment fluctuations. When I began this email, July was doing well. Even though it is still performing well, one day does make a difference. Since the Markets dropped yesterday, the numbers have changed!!! Oh well, I guess I either have to type faster or write less J. In any event, July has been a very interesting month for investments. Each day seems to bring another variable to drive the market up, or down, a few hundred points. Well, I am happy to tell you that our portfolios have gained \$581,000 (1.01%) for the month of July. So far, we have weathered the storm. That being said, we still have 6 days of trading left in the month of July (including today). That is the good news. The bad news is we needed this return to recover what was lost in June. In June, the combined portfolios lost \$673,000. So, through yesterday, we are at essentially a break even result for the Fiscal Year. That will leave us well behind the budget.

Even though we are behind the budget, I would not be too concerned. We know the markets fluctuate monthly. However, we “straight-line” the budget. It is too difficult to predict when the investments will go up or down. History will give us some indication, but, as we saw in June, history does not always repeat itself over the short haul. In June of 2014, the portfolios gained nearly \$765,000. This year, we were down \$673,000. We saw quite a few months in the 2015 Fiscal Year with negative returns and our portfolios still gained over \$4.6 million. So, don’t worry about one month. As we go forward, I would expect the markets to continue the gyrations and still result in a strong FY2016 results.

III. Academy preliminary June Financials (A3 and A10)

I wish I could say we are beginning the year on a positive note. Unfortunately, the Academy will miss the revenue target by \$66,162. Even though the expenses are \$37,841 below budget, the overall operating deficit of \$792,822 is \$28,321 higher (worse) than the budget. Once you factor into the equation the investment losses of \$223.8K, the Academy started the year with a Net deficit of \$1,016,587. This is \$356,254 higher (worse) than the budget.

As I have mentioned previously, we are still working the budget distributions. However, I do think the Academy’s distribution of revenue and expenses does reflect what we think should happen. Unfortunately, the revenue shortfalls are due to clear elements; Membership renewal is below budget, PPW was below budget, Advertising for Food and Nutrition Magazine was below budget

and Sponsorship missed the budget due to the elimination of Kraft at the end of FY15. It is too early in the year to jump to any conclusions on revenue. However, some of the shortfalls for June may continue as we go forward into FY16.

On the expense front, the Academy did fairly well. There were three areas over budget; Professional Fees, Telephone and Communication and Expense Allocation. Expense Allocation reflects the gap created from CDR not supporting programs to the level put into the budget. This gap was addressed when the budget was developed. Professional fees are over budget primarily due to the final payments for the OrgCentric Revenue review project that began last year (\$15,000). We expect to find additional expense reductions to cover both of these expense over-runs.

The following is a breakdown of the various categories for June:

A. Revenues

- a. **Membership Dues** - This area is **under budget** by \$8,754 in June and is **under budget** by \$8,754 for the year. The under-run in June is being driven by lower Fellow program revenue (down \$2.8K) and lower Membership Dues revenue (down \$6.0K). As I mentioned above, Membership renewal is moving more slowly than anticipated. The Membership team is working on programs to get the Membership renewal back on track. It is too early to determine if this will be a problem for the year. However, it isn't too early to flag this issue and begin to implement programs that are intended to change the curve. That is what the Membership team is doing.
- b. **Programs and Meetings** - This area is **under budget** by \$13,303 in June and is **under budget** by \$13,303 for the year. The under-run June is due to lower Professional Development revenue (down \$4.6K) and lower PPW revenue (down \$8.7K). Even though PPW's revenue is lower than budget, it appears that the expenses may nearly offset all of the under-run resulting in PPW getting very close to its operating targets.
- c. **Publications and Materials** - This area is **under budget** by \$24,017 in June and is **under budget** by \$24,017 for the year. The under-run in June is primarily due to lower Traditional Publications (down \$24.8K), offset by higher revenue across all other areas (up \$0.8K).
- d. **Subscriptions** – This area is **over budget** by \$9,546 in June and is **over budget** by \$9,546 for the year. The over-run in June is primarily is due to higher NCM and related product sales (up \$8.4K), higher eNCPT (up \$1.3K) and higher EAL (up \$1.0K) offset by lower sales across all other (down \$1.2K).

- e. **Advertising** – This area is under budget by \$7,190 in June and under budget by \$7,190 for the year. The under-run in June is entirely due to lower Advertising revenue for the Food and Nutrition Magazine.
- f. **All grants** - This area is under budget by \$824 in June and is under budget by \$824 for the year. The under-run in May is primarily due to lower Research (down \$4.5K) offset by higher ConAgra (up \$2.8K) and higher Abbott Malnutrition (up \$0.9K).
- g. **Sponsorships** – This area is under budget by \$22,083 in June and is under budget by \$22,083 for the year. The under-run in June is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.
- h. **Other** – This area was over budget by \$463 in June and is over budget by \$463 for the year. There are no material reasons for the under-run in June.

B. Expenses

- a. **Personnel** – This area is under budget by \$203 in June and is under budget by \$203 for the year. The under-run in June is due to lower wages and salaries overall.
- b. **Publications** – This area is under budget by \$15,073 in June and is under budget by \$15,073 for the year. The under-run in June is primarily due to lower costs for Traditional Publications (down \$16.6K), lower Journal costs (down \$1.7K) and lower across all other (down \$0.3K). This is offset by higher Food and Nutrition Magazine costs (up \$2.5K) and higher Research Publications (up \$1.0K).
- c. **Travel** – This area is under budget by \$595 in June and is under budget by \$595 for the year. The under-run in June is primarily due to costs for the Public Policy Workshop (down \$7.8K), lower DPG/MIG administrative costs (down \$1.5K) and lower across all other projects (down \$1.2K). This is offset by higher Governance/Board costs (up \$7.7K) and higher Marketing (up \$2.2K).
- d. **Professional Fees** - This area is over budget by \$7,524 in June and is over budget by \$7,524 for the year. The over-run in June is being driven primarily costs for the OrgCentric review (up \$15.0K), higher Public Policy (up \$5.3K), higher membership (up \$4.8K) and higher across all other projects (up \$1.5K). This is offset by lower Governance (down \$6.2K) and lower Traditional Publications (down \$12.9K).

- e. **Postage and Mailing** - This area is **under budget** by \$5,875 in June and is **under budget** by \$5,875 for the year. The under-run for June is being driven by lower Traditional Publications (down \$4.4K) and lower Food and Nutrition Magazine (down \$2.5K). This is offset by over-runs across all other projects (up \$1.0K), none of which are material.
- f. **Office Supplies and Equipment** – This area is **under budget** by \$3,370 in June and is **under budget** by \$3,370 for the year. The under-run in June is primarily due to lower Public Policy Workshop costs (down \$3.5) offset by higher across all other areas of the business (up \$0.1K).
- g. **Rent and utilities** - This area is **under budget** by \$6,943 in June and is **under budget** by \$6,943 for the year. The under-run in June is primarily due lower utility costs in Chicago.
- h. **Telephone and communications** – This is **over budget** by \$530 in June and is **over budget** by \$530 for the year. The over-run in June is primarily due to higher telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **under budget** by \$5,438 in June and is **under budget** by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since revenue was lower for Food and Nutrition Magazine in June, expenses for commissions were lower as well.
- j. **Computer Expenses** – This area is **under budget** by \$2,645 in June and is **under budget** by \$2,645 for the year. The under-run in June is due to lower IT maintenance expenses.
- k. **Advertising and Promotion** – This area is **under budget** by \$1,474 in June and is **under budget** by \$1,474 for the year. The under-run in June is primarily due to lower Brand advertising (down \$7.2K) offset by higher Membership advertising (up \$5.6) and higher across all other (up \$0.1K).
- l. **Insurance** – This area is **under budget** by \$1,249 in June and is **under budget** by \$1,249 for the year. The under-run in June is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$1,088 in June and is **under budget** by \$1,088 for the year. The under-run in June is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is **under budget** by \$2,041 in June and is **under budget** by \$2,041 for the year. The under-run in June is due to lower JP Morgan bank fees.
- o. **Other** – This area is **under budget** by \$5,847 in June and **under budget** \$5,847 for the year. The under-run in June is due to lower costs for Informatics (down \$2.7K), lower Food and nutrition Magazine (down \$5.2K) and lower Research (down \$4.4K). This is offset by higher Public Policy Workshop costs (up \$4.2K), higher Public Relations (up \$1.7K) and higher across all other projects (up \$0.6K).
- p. **Expense allocation** – This area is **unfavorable to budget** by \$11,097 in June and is **unfavorable to budget** by \$11,097 for the year. The unfavorable result is due to lower costs

expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.

q. **Meeting services** – This area is **under budget** by \$3,897 in June and is **under budget** by \$3,987 for the year. The under-run in June is primarily due to lower Governance.

r. **Legal and Audit** – This area is **under budget** by \$15 in June and is **under budget** by \$15 for the year. The under-run in June is due to lower legal expenses.

s. **Printing** – This area is **under budget** by \$1,240 in June and is **under budget** by \$1,240 for the year. The under-run in June is due to lower Public Policy Workshop costs (down \$1.9K) and lower across all other projects (down \$0.2K). This is offset by higher Governance costs (up \$0.9K).

It is too early to determine how the year will roll-out. However, the Academy does have some issues on the revenue side that need to be reviewed. The Academy Executive team is working to improve the areas that are deficient. Unfortunately, it may take longer on the Sponsorship side of the equation. There is some good news on Revenue; Subscriptions are up. Subscriptions were a concern in FY15. In FY16, the budget is more closely aligned with the product sales. Hopefully, the positive results will continue throughout the year as well.

As always, FNCE will be a big driver of our success. We are seeing higher registration numbers for Nashville when compared to Atlanta. It is also too early to predict attendance. However we are about 15% higher in registrations today when compared to Atlanta at the same time. If this holds, we will exceed our registration revenue target for FNCE.

IV. **Foundation June Financial results (A2, A8 and A9)**

The Foundation did not have a great month in June. However, it wasn't too bad either. Revenue was short of the budget by \$6,345 while expenses were \$1,454 higher than budget. The revenue shortfall is primarily due to lower member contributions in June (down \$5,663). However, when compared to last year's June result (\$13,270), member contributions are much higher. So, there is good news even when the revenues fall short of expectations.

The only expense variances that jump out are Travel (up \$1.1K) and Legal (up \$0.7K). Both of these could be timing issue.

The results are exacerbated by the investment losses of \$260,280 in June. As I mentioned above, the markets always fluctuate. Hopefully, the markets will get back on track for higher returns as we go forward.

V. Commission on Dietetic Registration June Financial Results (A4 and A11)

CDR had a “mixed” month in June. Overall, the results were good with Net Deficit of \$45,133. This was \$34,178 lower (better) than the budget. On the operational side, revenue was lower than budget by \$15,953 due to the Weight Management programs. This could be a timing issue. Accounting is working with CDR to make sure the timing of the meetings is accurate.

On the expense front, CDR was \$189,408 below budget. This is a rather large amount and could also be due to budget distributions. You will see that Professional Fees (down \$69.1K), Postage and Mailing (down \$64.2K) and Travel (down \$28.6K) make up most of the variances. Accounting will work with CDR to review these areas and make budget distribution corrections if necessary. So, the June budgets may change before these go final.

VI. DPGs/MIGs/ACEND June Financial Results (A5, A12 and A16)

The combined DPGS/MIGS and ACEND had a “mixed” month overall in June as well. Revenue was under budget by \$28,384. However, expenses were \$121,408 under budget. We are still looking at the numbers across all of the groups. Therefore, these numbers may change. The final result for the combined groups was an Operating Deficit of \$95,893. This was \$93,024 smaller (better) than the budget. Once you factor in the Investment losses of \$96.3K, the combined groups had a Net Deficit of \$192,216. This was \$3,299 larger (worse) than the budget. As we addressed with CDR, the variances could be due to the budget distributions. We go through each DPG and MIG to get this right. However, even when we have agreement, the information doesn't always flow as expected. I would anticipate that Accounting will make some budget distribution changes before these go final.

If you look at page A16, you will see all of the DPGS/MIGS have strong reserves even with the Market reductions. Regardless of the budget distribution changes, the DPGS and MIGS are all in good financial shape.

VII. ANDPAC June Financial Results (A6 and A14)

The PAC did not have a good month in June. In June, revenue was \$8,037 under budget. The under run is across all categories. A bright spot is the total donations received by the PAC for PPW exceeded \$31K. We believe this is a record for PPW!!!

Expenses for the PAC were over budget by \$14,665 primarily due to increased donations to political candidates (up \$16K). This is a timing issue for the PAC.

Keep in mind that the PAC has to file financial reports with the FEC on a calendar year basis. Therefore, June is actually month six of the PAC's year. We convert the information to a fiscal year to be consistent with the rest of the Academy. This sometimes causes confusion. It will also generate more timing issues when we do the conversions. Bottom line for the PAC; donations are down overall for the Calendar Year. June is continuing this trend. The PAC board is evaluating options to increase contributions. When looking at the PAC, one of the key elements is the amount of money it has in reserve. At the end of June, the PAC had \$184,642 in reserve. This is a strong number and indicates the PAC is very healthy financially.

I indicated above that the budgets may change before the June results go final. However, I don't expect that actual results to change very much. Therefore, I think it is safe to say that overall, we are not starting the year great, but, it is too early to be concerned. Hopefully, especially with the Academy, we will see revenue turn around and move higher.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. As soon as Christian is done with his narrative, I will have it posted to the portal and let everyone know it is available.

I hope everyone has a great weekend.

Paul

Subject: RE: Finance and Audit Committee meeting on Tuesday, July 28th at 1 p.m. CDT
Attachment:

All,

As I mentioned yesterday, we have a Finance and Audit Committee meeting scheduled for Tuesday, July 28th at 1 p.m. CDT. Please let me know if you cannot make it. All of the information was loaded onto the portal yesterday with the exception of Christian's May overview. You should have also received a Webinar invitation from the Academy IT team. Please let me, or Linda Serwat, know if you did not receive the information. The call will be a little light this month and will focus primarily on the May final results and the June Preliminary results. We will call the May Results "final" since we don't expect any changes from the Auditors. However, they won't really be final until the audit is complete.

We have been working diligently at distributing the FY16 budgets by month. Since we have quite a few projects and "business entities" with the Academy and Foundation, we may not have it quite right yet. So, the budget distribution may change a little. We will try to keep this to a minimum. It becomes difficult with the DPGS/MIGS in particular. We are getting better at understanding when there revenues and expenses are budgeted to occur, but, not quite 100 percent yet.

In any event, the following is the high level narrative for our call on Tuesday.

I. May Adjustments

-
We did have a few adjustments to the original May numbers.

- a. Academy - The Academy had an increase in revenue of \$7,341. In addition, expenses went up \$3,811. This resulted Operating income increasing \$3,531.
- b. CDR – CDR revenue increased \$11,800 while expenses decreased \$4,720. This resulted in Operating income increasing by \$16,521.
- c. DPG/MIG/ACEND – The combined revenues went down by \$7,326 while the combined expenses went up by \$300. This resulted in Operating income declining by \$7,625.

Since this is a year report, we expected some changes. We believe these will be final changes for the FY15 fiscal year.

II. Investments

I actually hate writing this email J. However, this is only due to the investment fluctuations. When I began this email, July was doing well. Even though it is still performing well, one day does make a difference. Since the Markets dropped yesterday, the numbers have changed!!! Oh well, I guess I either have to type faster or write less J. In any event, July has been a very interesting month for investments. Each day seems to bring another variable to drive the market up, or down, a few hundred points. Well, I am happy to tell you that our portfolios have gained \$581,000 (1.01%) for the month of July. So far, we have weathered the storm. That being said, we still have 6 days of trading left in the month of July (including today). That is the good news. The bad news is we needed this return to recover what was lost in June. In June, the combined portfolios lost \$673,000. So, through yesterday, we are at essentially a break even result for the Fiscal Year. That will leave us well behind the budget.

Even though we are behind the budget, I would not be too concerned. We know the markets fluctuate monthly. However, we “straight-line” the budget. It is too difficult to predict when the investments will go up or down. History will give us some indication, but, as we saw in June, history does not always repeat itself over the short haul. In June of 2014, the portfolios gained nearly \$765,000. This year, we were down \$673,000. We saw quite a few months in the 2015 Fiscal Year with negative returns and our portfolios still gained over \$4.6 million. So, don’t worry

about one month. As we go forward, I would expect the markets to continue the gyrations and still result in a strong FY2016 results.

III. Academy preliminary June Financials (A3 and A10)

I wish I could say we are beginning the year on a positive note. Unfortunately, the Academy will miss the revenue target by \$66,162. Even though the expenses are \$37,841 below budget, the overall operating deficit of \$792,822 is \$28,321 higher (worse) than the budget. Once you factor into the equation the investment losses of \$223.8K, the Academy started the year with a Net deficit of \$1,016,587. This is \$356,254 higher (worse) than the budget.

As I have mentioned previously, we are still working the budget distributions. However, I do think the Academy's distribution of revenue and expenses does reflect what we think should happen.

Unfortunately, the revenue shortfalls are due to clear elements; Membership renewal is below budget, PPW was below budget, Advertising for Food and Nutrition Magazine was below budget and Sponsorship missed the budget due to the elimination of Kraft at the end of FY15. It is too early in the year to jump to any conclusions on revenue. However, some of the shortfalls for June may continue as we go forward into FY16.

On the expense front, the Academy did fairly well. There were three areas over budget; Professional Fees, Telephone and Communication and Expense Allocation. Expense Allocation reflects the gap created from CDR not supporting programs to the level put into the budget. This gap was addressed when the budget was developed. Professional fees are over budget primarily due to the final payments for the OrgCentric Revenue review project that began last year (\$15,000). We expect to find additional expense reductions to cover both of these expense overruns.

The following is a breakdown of the various categories for June:

A. Revenues

a. **Membership Dues** - This area is **under budget** by \$8,754 in June and is **under budget** by \$8,754 for the year. The under-run in June is being driven by lower Fellow program revenue (down \$2.8K) and lower Membership Dues revenue (down \$6.0K). As I mentioned above, Membership renewal is moving more slowly than anticipated. The Membership team is working

on programs to get the Membership renewal back on track. It is too early to determine if this will be a problem for the year. However, it isn't too early to flag this issue and begin to implement programs that are intended to change the curve. That is what the Membership team is doing.

b. **Programs and Meetings** - This area is **under budget** by \$13,303 in June and is **under budget** by \$13,303 for the year. The under-run June is due to lower Professional Development revenue (down \$4.6K) and lower PPW revenue (down \$8.7K). Even though PPW's revenue is lower than budget, it appears that the expenses may nearly offset all of the under-run resulting in PPW getting very close to its operating targets.

c. **Publications and Materials** - This area is **under budget** by \$24,017 in June and is **under budget** by \$24,017 for the year. The under-run in June is primarily due to lower Traditional Publications (down \$24.8K), offset by higher revenue across all other areas (up \$0.8K).

d. **Subscriptions** – This area is **over budget** by \$9,546 in June and is **over budget** by \$9,546 for the year. The over-run in June is primarily is due to higher NCM and related product sales (up \$8.4K), higher eNCPT (up \$1.3K) and higher EAL (up \$1.0K) offset by lower sales across all other (down \$1.2K).

e. **Advertising** – This area is **under budget** by \$7,190 in June and **under budget** by \$7,190 for the year. The under-run in June is entirely due to lower Advertising revenue for the Food and Nutrition Magazine.

f. **All grants** - This area is **under budget** by \$824 in June and is **under budget** by \$824 for the year. The under-run in May is primarily due to lower Research (down \$4.5K) offset by higher ConAgra (up \$2.8K) and higher Abbott Malnutrition (up \$0.9K).

g. **Sponsorships** – This area is **under budget** by \$22,083 in June and is **under budget by** \$22,083 for the year. The under-run in June is due to the cancellation of the Kraft agreement at the end of FY15. The budget could not be adjusted when Kraft was cancelled. Even though the Sponsorship team is looking for additional sponsors to replace the gap generated by Kraft, this gap may continue until after the Sponsorship Taskforce recommendations are provided to the HOD, approved by the Board of Directors and implemented by staff.

h. **Other** – This area was **over budget** by \$463 in June and is **over budget** by \$463 for the year. There are no material reasons for the under-run in June.

B. Expenses

a. **Personnel** – This area is **under budget** by \$203 in June and is **under budget** by \$203 for the year. The under-run in June is due to lower wages and salaries overall.

- b. **Publications** – This area is **under budget** by \$15,073 in June and is **under budget** by \$15,073 for the year. The under-run in June is primarily due to lower costs for Traditional Publications (down \$16.6K), lower Journal costs (down \$1.7K) and lower across all other (down \$0.3K). This is offset by higher Food and Nutrition Magazine costs (up \$2.5K) and higher Research Publications (up \$1.0K).
- c. **Travel** – This area is **under budget** by \$595 in June and is **under budget** by \$595 for the year. The under-run in June is primarily due to costs for the Public Policy Workshop (down \$7.8K), lower DPG/MIG administrative costs (down \$1.5K) and lower across all other projects (down \$1.2K). This is offset by higher Governance/Board costs (up \$7.7K) and higher Marketing (up \$2.2K).
- d. **Professional Fees** - This area is **over budget** by \$7,524 in June and is **over budget** by \$7,524 for the year. The over-run in June is being driven primarily costs for the OrgCentric review (up \$15.0K), higher Public Policy (up \$5.3K), higher membership (up \$4.8K) and higher across all other projects (up \$1.5K). This is offset by lower Governance (down \$6.2K) and lower Traditional Publications (down \$12.9K).
- e. **Postage and Mailing** - This area is **under budget** by \$5,875 in June and is **under budget** by \$5,875 for the year. The under-run for June is being driven by lower Traditional Publications (down \$4.4K) and lower Food and Nutrition Magazine (down \$2.5K). This is offset by over-runs across all other projects (up \$1.0K), none of which are material.
- f. **Office Supplies and Equipment** – This area is **under budget** by \$3,370 in June and is **under budget** by \$3,370 for the year. The under-run in June is primarily due to lower Public Policy Workshop costs (down \$3.5) offset by higher across all other areas of the business (up \$0.1K).
- g. **Rent and utilities** - This area is **under budget** by \$6,943 in June and is **under budget** by \$6,943 for the year. The under-run in June is primarily due lower utility costs in Chicago.
- h. **Telephone and communications** – This is **over budget** by \$530 in June and is **over budget** by \$530 for the year. The over-run in June is primarily due to higher telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **under budget** by \$5,438 in June and is **under budget** by \$5,438 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since revenue was lower for Food and Nutrition Magazine in June, expenses for commissions were lower as well.
- j. **Computer Expenses** – This area is **under budget** by \$2,645 in June and is **under budget** by \$2,645 for the year. The under-run in June is due to lower IT maintenance expenses.

- k. **Advertising and Promotion** – This area is **under budget** by \$1,474 in June and is **under budget** by \$1,474 for the year. The under-run in June is primarily due to lower Brand advertising (down \$7.2K) offset by higher Membership advertising (up \$5.6) and higher across all other (up \$0.1K).
- l. **Insurance** – This area is **under budget** by \$1,249 in June and is **under budget** by \$1,249 for the year. The under-run in June is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$1,088 in June and is **under budget** by \$1,088 for the year. The under-run in June is due to the timing of capital projects.
- n. **Bank and trust fees** – This area is **under budget** by \$2,041 in June and is **under budget** by \$2,041 for the year. The under-run in June is due to lower JP Morgan bank fees.
- o. **Other** – This area is **under budget** by \$5,847 in June and **under budget** \$5,847 for the year. The under-run in June is due to lower costs for Informatics (down \$2.7K), lower Food and nutrition Magazine (down \$5.2K) and lower Research (down \$4.4K). This is offset by higher Public Policy Workshop costs (up \$4.2K), higher Public Relations (up \$1.7K) and higher across all other projects (up \$0.6K).
- p. **Expense allocation** – This area is **unfavorable to budget** by \$11,097 in June and is **unfavorable to budget** by \$11,097 for the year. The unfavorable result is due to lower costs expended for CDR supported projects as well as lower funding provided by CDR for programs that were budgeted. The lower funding will create a gap throughout the year that the Academy will have to close to make the FY16 budget numbers.
- q. **Meeting services** – This area is **under budget** by \$3,897 in June and is **under budget** by \$3,987 for the year. The under-run in June is primarily due to lower Governance.
- r. **Legal and Audit** – This area is **under budget** by \$15 in June and is **under budget** by \$15 for the year. The under-run in June is due to lower legal expenses.
- s. **Printing** – This area is **under budget** by \$1,240 in June and is **under budget** by \$1,240 for the year. The under-run in June is due to lower Public Policy Workshop costs (down \$1.9K) and lower across all other projects (down \$0.2K). This is offset by higher Governance costs (up \$0.9K).

It is too early to determine how the year will roll-out. However, the Academy does have some issues on the revenue side that need to be reviewed. The Academy Executive team is working to improve the areas that are deficient. Unfortunately, it may take longer on the Sponsorship side of the equation. There is some good news on Revenue; Subscriptions are up. Subscriptions were a concern in FY15. In FY16, the budget is more closely aligned with the product sales. Hopefully, the positive results will continue throughout the year as well.

As always, FNCE will be a big driver of our success. We are seeing higher registration numbers for Nashville when compared to Atlanta. It is also too early to predict attendance. However we

are about 15% higher in registrations today when compared to Atlanta at the same time. If this holds, we will exceed our registration revenue target for FNCE.

IV. Foundation June Financial results (A2, A8 and A9)

The Foundation did not have a great month in June. However, it wasn't too bad either. Revenue was short of the budget by \$6,345 while expenses were \$1,454 higher than budget. The revenue shortfall is primarily due to lower member contributions in June (down \$5,663). However, when compared to last year's June result (\$13,270), member contributions are much higher. So, there is good news even when the revenues fall short of expectations.

The only expense variances that jump out are Travel (up \$1.1K) and Legal (up \$0.7K). Both of these could be timing issue.

The results are exacerbated by the investment losses of \$260,280 in June. As I mentioned above, the markets always fluctuate. Hopefully, the markets will get back on track for higher returns as we go forward.

V. Commission on Dietetic Registration June Financial Results (A4 and A11)

CDR had a "mixed" month in June. Overall, the results were good with Net Deficit of \$45,133. This was \$34,178 lower (better) than the budget. On the operational side, revenue was lower than budget by \$15,953 due to the Weight Management programs. This could be a timing issue. Accounting is working with CDR to make sure the timing of the meetings is accurate.

On the expense front, CDR was \$189,408 below budget. This is a rather large amount and could also be due to budget distributions. You will see that Professional Fees (down \$69.1K), Postage and Mailing (down \$64.2K) and Travel (down \$28.6K) make up most of the variances. Accounting will work with CDR to review these areas and make budget distribution corrections if necessary. So, the June budgets may change before these go final.

VI. DPGs/MIGs/ACEND June Financial Results (A5, A12 and A16)

The combined DPGS/MIGS and ACEND had a “mixed” month overall in June as well. Revenue was under budget by \$28,384. However, expenses were \$121,408 under budget. We are still looking at the numbers across all of the groups. Therefore, these numbers may change. The final result for the combined groups was an Operating Deficit of \$95,893. This was \$93,024 smaller (better) than the budget. Once you factor in the Investment losses of \$96.3K, the combined groups had a Net Deficit of \$192,216. This was \$3,299 larger (worse) than the budget. As we addressed with CDR, the variances could be due to the budget distributions. We go through each DPG and MIG to get this right. However, even when we have agreement, the information doesn’t always flow as expected. I would anticipate that Accounting will make some budget distribution changes before these go final.

If you look at page A16, you will see all of the DPGS/MIGS have strong reserves even with the Market reductions. Regardless of the budget distribution changes, the DPGS and MIGS are all in good financial shape.

VII. ANDPAC June Financial Results (A6 and A14)

The PAC did not have a good month in June. In June, revenue was \$8,037 under budget. The under run is across all categories. A bright spot is the total donations received by the PAC for PPW exceeded \$31K. We believe this is a record for PPW!!!

Expenses for the PAC were over budget by \$14,665 primarily due to increased donations to political candidates (up \$16K). This is a timing issue for the PAC.

Keep in mind that the PAC has to file financial reports with the FEC on a calendar year basis. Therefore, June is actually month six of the PAC’s year. We convert the information to a fiscal year to be consistent with the rest of the Academy. This sometimes causes confusion. It will also generate more timing issues when we do the conversions. Bottom line for the PAC; donations are down overall for the Calendar Year. June is continuing this trend. The PAC board is evaluating options to increase contributions. When looking at the PAC, one of the key elements is the amount of money it has in reserve. At the end of June, the PAC had \$184,642 in reserve. This is a strong number and indicates the PAC is very healthy financially.

I indicated above that the budgets may change before the June results go final. However, I don't expect that actual results to change very much. Therefore, I think it is safe to say that overall, we are not starting the year great, but, it is too early to be concerned. Hopefully, especially with the Academy, we will see revenue turn around and move higher.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. As soon as Christian is done with his narrative, I will have it posted to the portal and let everyone know it is available.

I hope everyone has a great weekend.

Paul

240. Upcoming Weight Management Programs

Upcoming Weight Management Programs

Certificate of Training in Adult Weight Management Program

October 1-3, 2015 ~ Nashville, Tennessee

October 22-24, 2015 ~ Virginia Beach, Virginia

November 12-14, 2015 ~ Garden Grove (Anaheim), California

Registration Fee: \$370.00

CPE Hours Awarded: 35

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-adult-program>

Certificate of Training in Childhood and Adolescent Weight Management Program

September 10-12, 2015 ~ Buffalo, New York

Registration Fee: \$370.00

CPE Hours Awarded: 32

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-childhood-adolescent-program>

Level 2 Certificate of Training in Adult Weight Management Program

April 1-3, 2016 ~ New Brunswick, New Jersey (Registration to Open December 2015)

Registration Fee: \$445.00

CPE Hours Awarded: 50

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management/level2>

Steps to earn certificate:

1. Register for a certificate program.
2. Read pre-work materials which include research articles, resources and activities.
3. Pass multiple choice pre-test with a minimum score of 80%. The questions are based on the pre-work readings.
4. Attend a 2 1/2 day on-site workshop where you can learn and network with peers.
5. Pass a take-home multiple choice post-test with a minimum score of 80%. The questions are based on the on-site presentations and pre-work readings.

What previous participants have to say about the programs:

Because I primarily work in the clinical setting, my experience in weight management counseling has been limited. This training provided me with the framework to implement behavioral modification counseling to patients who are interested in weight loss.

D. Ahamirano, RD
Clinical Dietitian, Private Practice
Los Angeles, CA

I feel so motivated to change around my current strategies for goal setting and engaging my patients on their care/goals. I feel as though I will have an easier time monitoring and evaluating their progress.

J. Hicks, MBA, RD, LDN
Registered Dietitian
Skokie, IL

Great program. I gained valuable experience and knowledge that will benefit the patients I serve. C. Schnell, RD Pediatric Dietitian Specialist Orlando, FL Happy and motivated to learn from other health professionals that share the passion in helping our youth to grow healthy, happy and at their maximum potential.

A. Cardenas, MS, RD
Clinical Pediatrics
Los Angeles, CA

If you are unable to attend an on-site program, you may wish to consider one of our self-study modules. The modules are now available in paper and on-line versions.

Attachment:

All,

We have a Finance and Audit Committee call on Tuesday, July 28th at 1 p.m. CDT. I hope everyone can attend. You can find the information for our call on the Academy Portal at the following location;

<https://eal.webauthor.com/auth.cfm?logout=1&erase=true&msg=You%20have%20successfully%20signed%20out%2E>

After you have logged into the portal, in order to find the information for our call, you will need to do the following;

1. Click on "Committee Central" near the top left portion of the screen
2. Click on the Finance and Audit Committee icon on Committee Central

3. Start with Library and scroll through the following;
 - a. Topics
 - b. Finance Root
 - c. Finance and Audit Folders
 - d. 2015-2016
 - e. FAC Conference call July

Everything with the exception of Christian's write-up for May has been posted. Christian hopes to have this completed by tomorrow. In addition, I will have a narrative for June's results tomorrow as well.

Finally, you should have received an webinar invitation from "Academy IT Department". Please check your spam folders. If you don't have the invitation, please let me know as soon as possible.

I look forward to talking to everyone on Tuesday.

Paul Mifsud

246. IMPORTANT: You've been Nominated!

From: nominations@eatright.org
To: DMartin@Burke.k12.ga.us
Sent Date: Jul 22, 2015 18:07:55
Subject: IMPORTANT: You've been Nominated!
Attachment:

Dear Donna Martin:

Congratulations! You have been nominated to be considered by the Academy of Nutrition and Dietetics Nominating Committee as a potential candidate for the 2016 Academy ballot.

PLEASE CONFIRM RECEIPT OF THIS EMAIL; confirmation does not indicate your acceptance of the nomination just that you received this email notification. To confirm receipt of this email, please click on the following link:

<http://elections.webauthor.com/elections/confirm.cfm?guid=229566A8-ADB9-F5A5-26C1CA16482D5A9A>

You have been nominated for the position(s) of President-elect. For information on skill sets and qualifications required for all positions visit www.eatrightPRO.org/qualifications. Please check your qualifications against those required of the position for which you were nominated and positions that might be of interest to you.

To be considered for the ballot, please use the unique link below to complete the on-line Nominee Biographical Information Form. President-elect, Treasurer-elect and Speaker-elect nominees must submit forms (electronic) by **noon CENTRAL time on August 31, 2015**. Interviews for these positions will be conducted October 3-4 during FNCE in Nashville, TN. Nominees selected to interview will be notified by September 14, 2015. Biographical information forms for all other positions are due by **noon CENTRAL time on October 10, 2015**. You may complete the on-line Nominee Biographical Information Form in segments and return to your form until the deadline date to make changes.

You will also need to upload your CV and a photo (jpeg format). If selected for the 2016 ballot, the photo will be published in election communications to members. Please note; for best results, please size your photo to 200x200px. If the uploaded photo is larger, it is automatically resized and cropped to fit the dimensions.

Information provided in the form will be used to establish eligibility and in the selection of candidates.

Unique Link for Donna Martin's On-line Nominee Biographical Information Form:

<http://elections.webauthor.com/elections/confirm.cfm?guid=229566A8-ADB9-F5A5->

26C1CA16482D5A9A .

If you do NOT wish to accept this nomination please let us know by October 10, 2015 by sending an email to nominations@eatright.org or click on your unique link to decline the nomination.

Candidates on the ballot who are selected for the position of President-elect and Speaker-elect will have the opportunity to participate in the Meet the Candidates Forum on January 26 or 27 at 1:00 CT. The forum is an interactive webinar which poses questions to the President-elect and Speaker-elect candidates to help members gain insight to their perspectives and views.

If you have any questions regarding the nomination and election process, please contact nominations@eatright.org or 800/877-1600 ext. 4798.

Sincerely,

Academy Nominating Committee

[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

Victory for RDNs in Long-Term Care Facilities

The Academy scored a significant achievement when the Centers for Medicare and Medicaid Services issued a proposed regulation that will allow registered dietitian nutritionists in long-term care facilities to prescribe patient diets, in accordance with state law. The Academy will carefully review the proposed regulation and will work closely with the Dietitians in Health Care Communities dietetic practice group and other experts to flesh out details and submit input to CMS.

Academy Success: Older American Act Passes Senate, Goes to House

A bipartisan Senate passed the Older Americans Act (S.192), one of the Academy's major legislative priorities that will support social and nutrition services, from home-delivered meals to senior centers, for nearly 12 million seniors. Many Academy members deserve congratulations for reaching out and completing Action Alerts to urge senators to pass this important legislation - but more work remains as the legislation moves to the House of Representatives.

[Learn More](#)

Senate Agriculture and Nutrition Bill: DGA, School Meals Policy Riders Stay

A critical Senate committee has approved the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Bill. It includes "policy riders" that would limit the scientific process and recommendations in the *Dietary Guidelines for Americans* and allow

exemptions to nutrition standards in school meals. The bill also includes funding for the Special Supplemental Nutrition Program for Women, Infants and Children to meet the expected caseload for the coming year and increased funding for implementation of the Food Safety Modernization Act.

August Recess Approaches: Plan to Meet with Members of Congress to Discuss Key Nutrition Issues

The House of Representatives begins its August recess July 31 and the Senate begins its recess August 7. The Academy encourages members to meet with your members of Congress to discuss the importance of passing the Preventing Diabetes in Medicare Act, the Older Americans Act (in the House) and the Treat and Reduce Obesity Act.

New Opportunities to Offer Input on Proposed Regulations and Government Initiatives

Federal agencies have been busy issuing multiple proposed regulations affecting reimbursement for registered dietitian nutritionists in various facilities, new reporting and performance measures and RDNs' ability to order therapeutic diets in long-term care settings. Members are encouraged to work with your DPGs to submit input on these initiatives.

[Learn More](#)

Academy's Invaluable Role in Setting Critical Health Data Standards

Donna Quirk MBA, RDN, LD, chair of the Academy's Interoperability and Standards Committee, attended the recent Health Level 7 Working Group meeting in Paris, where standards for exchanging health data - including nutrition data - were developed, reviewed and revised. The ISC participates weekly in HL7 Working Group calls to ensure nutrition data is included in Health IT standards, which are required as part of U.S. regulations driving electronic health records to ensure that "data follows the patient."

CPE CORNER

July 22 Webinar: 'Worksite Wellness Leader: How RDNs Can Use Their Skills to Climb the Corporate Ladder'

With employees working eight or more hours a day, the worksite influences millions. A July 22 webinar will show how registered dietitian nutritionists have the skills to drive programs and strategies that result in happier, high-performing, safer and healthier employees.

August 12 Webinar: 'Nuts and Bolts of Fluid and Electrolytes in Hospitalized Patients'

Hospitalized patients can present with an array of fluid and electrolyte disturbances. An August 12 webinar will give registered dietitian nutritionists skills to accurately assess and treat these abnormalities to achieve and maintain homeostasis.

August 27 Webinar: 'Hot Off the Presses: Evaluating the Evidence behind Today's Nutrition Media Headlines'

Today's food and nutrition environment requires registered dietitian nutritionists to be skilled translators of scientific evidence to the public. An August 27 webinar will show how to continually hone your critical thinking and communication skills.

New Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

The Academy's Center for Lifelong Learning has developed a new online certificate of training program to help registered dietitian nutritionists learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Lifelong Learning, planned with the *Journal Stats* Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

Updated Online Certificate of Training Program: Chronic Kidney Disease Nutrition Management

The Academy's Center for Lifelong Learning and the National Kidney Disease Education Program have updated the Chronic Kidney Disease Nutrition Management online certificate of training program to include the most recent population data from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

Nutrition Focused Physical Exam Pocket Guide

The new NFPE Pocket Guide is available. The cost is \$10 for members and \$13 for non-members.

CAREER RESOURCES

FNCE Features High-Level Professional Development Sessions

Advanced learning and practical applications are on the menu at the 2015 Food & Nutrition Conference & Expo, October 3 to 6 in Nashville, Tenn. More than 90 percent of FNCE sessions are Level 2 or 3. More than 100 sessions highlight the latest information and trends you can apply every day. An exciting new dedicated track in Sports and Performance Nutrition features 10 sessions ranging from paleo diets to energy metabolism.

Food Insecurity/Food Banking Supervised Practice Concentration

Twenty-three dietetic internship programs pilot-tested a new Food Insecurity/Food Banking Supervised Practice Concentration, and it is now available to all educators. Download the preceptors guide from the Nutrition and Dietetic Educators and Preceptors' portal library. The concentration was made possible by an educational grant from National Dairy Council.

Standards of Practice and Professional Performance for RDNs in Adult Weight Management

The 2015 Standards of Practice and Standards of Professional Performance for Registered Dietitian Nutritionists (Competent, Proficient and Expert) in Adult Weight Management, developed by the Academy's Quality Management Committee and the Adult Weight Management dietetic practice group, is now available. This resource allows RDNs to assess your current skill levels and identify areas for further professional development.

Review and Coordinate: Improving Medicare Post-Acute Care

The Improving Medicare Post-Acute Care Transformation (IMPACT) Act of 2014 amends Title XVIII of the Social Security Act and requires standardization of post-acute care assessment data for quality, payment and discharge planning. Learn more about reviewing and coordinating with your practice setting teams to prepare for future quality implementation.

CMS Offers Year of Leniency for Some ICD-10 Errors

The Centers for Medicare and Medicaid Services will give providers a year to become more comfortable with ICD-10 code set. CMS recently announced it will not deny claims or assess PQRS payment penalties solely on the specificity of the ICD-10 code for one year after the ICD-10 transition date of October 1 if a "valid code from the right family" is used. More information on ICD-10 codes for RDNs and a sample medical nutrition therapy referral form.

Updated Practice Paper: 'Principles of Productivity in Food and Nutrition Services'

As health care continues to change and new models of care are introduced, food and nutrition

services managers need to consider innovative approaches to improve productivity that are consistent with their organizations vision and mission. An updated practice paper titled "Principles of Productivity in Food and Nutrition Services: Applications in the 21st Century Health Care Reform Era" was published in the July *Journal of the Academy of Nutrition and Dietetics* and is available online.

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the Did someone recommend Academy membership to you? section of the 2015-2016 Academy Membership Application. New this year is a membership option for International Students. Email membership@eatright.org with questions.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for diversity mini-grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

Once a Fellow, Always a Fellow

Be recognized for your professional accomplishments, valuable service to the public and pursuit of lifelong learning. Becoming a Fellow of the Academy of Nutrition and Dietetics is an excellent way to showcase your expertise to employers, colleagues, clients and the public.

RESEARCH BRIEFS

eNCPT Tutorials and CPE

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services' mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE within the "Resources" tab.

ACADEMY MEMBER UPDATES

House of Delegates Fall Meeting

The House of Delegates will conduct its fall 2015 meeting October 2 to 3 in Nashville, Tenn. Topics for discussion are "Engaging Members in the Need to Address Malnutrition across Nutrition and Dietetic Practice Settings" and a follow-up discussion on the Academy's corporate sponsorship program. Members can register to audit the meeting. Learn more about auditing procedures.

PHILANTHROPY, AWARDS AND GRANTS

July 31 Mini-Grant Application Deadline: Future of Food 'Smart Choices. For a Healthy Planet.'

To support the use of the "Smart Choices. For a Healthy Planet." toolkit, 25 mini-grants of \$200 each are available to Academy members. Applications are due July 31 and recipients will be announced August 10. The toolkit and mini-grant opportunity are made possible by an educational grant from Elanco.

August 1 Application Deadline: CDR Leadership Grant

This award provides support to registered dietitian nutritionists and dietetic technicians, registered to obtain leadership training and prepare to move into leadership positions within their organizations. The application deadline is August 1.

August 1 Application Deadline: CDR Grassroots Marketing Grant

This award provides grants to registered dietitian nutritionists and dietetic technicians, registered to promote CDR credentials at the local level to prospective employers or third-party-payers. Funds may be used for a virtual event or activity or a live meeting or program. The application deadline is August 1.

Foundation Nutrition Symposium at FNCE

The Foundation's 2015 Nutrition Symposium, "The Science of Sweetness," will be held October 3, prior to the official kickoff of the Food & Nutrition Conference & Expo in Nashville, Tenn. It will feature new research on the application of low-calorie sweeteners to weight management, hunger and satiety and human health. The symposium is sponsored by Academy Premier Sponsor PepsiCo. Register for Foundation events, email foundation@eatright.org or call 312/899-4773.

Why Donate to the Foundation's Silent Auction?

The Silent Auction is the most highly visited area of the Food & Nutrition Conference & Expo, offering a unique opportunity to show your colleagues your commitment to reinvesting in the dietetics profession. Thanks to generous supporters, the 2014 Silent Auction raised more than \$12,000. Confirm your intention to donate by August 14 by emailing foundation@eatright.org.

Foundation's Student Stipends Allow Tomorrow's RDNs to Attend FNCE

The Foundation annually awards stipends to help active Academy student members attend the Food & Nutrition Conference & Expo, thanks to the generosity of dietetic practice groups, affiliates and individual Academy members. If you would like to give aspiring registered dietitian nutritionists the opportunity to attend FNCE, please make a donation when completing the FNCE registration form or email Amy Donatell.

Double or Triple Your Donation to the Foundation

If your employer offers a matching gift program, you may be able to double or even triple your

support for the Academy's Foundation. Some employers provide matching funds to support employees volunteer hours. Check with your human resources department.

We are thrilled to announce that the Centers for Medicare and Medicaid Services (CMS) have issued a proposed regulation that will allow registered dietitian nutritionists in long term care facilities to prescribe patient diets, in accordance with state law. When we first achieved success in allowing hospital RDNs to order therapeutic diets, we assured members we were continuing to work diligently to enable long term care RDNs to order them as well. Members will have significant new opportunities to work autonomously, and the rule recognizes both the variation in oversight in facilities and the fact that RDNs are “are well qualified to assess a resident’s nutritional status and design and implement a nutritional treatment plan in consultation with the resident’s interdisciplinary team.”

This development fulfills a priority of the Board to work “with CMS to assure consistent application and uniformity in interpretation of the regulation concerning nutrition supplements and therapeutic diet orders” by enabling RDNs to independently order therapeutic diets in multiple care settings.

The proposed long term care regulations also include revisions consistent with those made in the Academy’s formal 2012 recommendations to CMS and in multiple meetings held with CMS, staff, and our member leaders. We will be carefully reviewing the proposed rule to fully understand all of the exciting opportunities and implications for RDNs in LTC facilities and will be working closely with the Dietitians in Health Care Communities DPG and other experts to submit comments within the next sixty days.

Recognition goes to Pepin Tuma, Senior Director, Government and Regulatory Affairs and Sharon McCauley, Director, Quality Management for their continued efforts to advance the Academy’s goals in this area.

Please let us know if you have questions!

Jeanne Blankenship, Vice President, Policy Initiatives and Advocacy

Harold Holler, Vice President, Governance and Practice

[7.4 Board Representation at Meetings Policies.pdf](#)

Just a reminder that it was decided that we will no longer be putting committee or representation at meetings reports on Board meeting consent agendas but will be posting them on the Board portal. Since the May Board meeting five representation at meeting reports have been posted. Recommendations have been forwarded to the appropriate organizational units and staff. To view the reports please login to the platform using the link <http://academybod.webauthor.com> and enter your Academy website username and password. Committee and task force reports are located in the black menu bar under the *Library* tab>*Committee, Work Groups and Task Forces*. The representation at meetings reports can be viewed in the black menu bar under the *Forms* tab> click on *Representation at Meetings and Events*>*Data View* tab.

We ask that you share information with us about invitations you have accepted to present at affiliate, DPG, MIG and/or other organization meetings as Board members speaking on Academy activities and Academy-related business. In order to track the presentations, we request you please communicate to us any meetings you attend on behalf of the Academy by submitting the

Board Representation at Meetings form. This electronic form can be completed by accessing the following link http://academybod.webauthor.com/go/form/form.cfm?xm_form_id=192 and is found on the Board Communications Platform in the black menu bar.

Board policies related to Board member representation at meetings are attached. Board members attending affiliate, DPG, MIG and/or other organization meetings should have all expenses reimbursed by the affiliate, DPG, MIG and/or other organization. In accordance with policy, Board members may not accept an honorarium or fee for representing the Academy or for presenting on Academy-related business or initiatives. You may, however, ask that the honorarium be sent in your name to the Foundation or PAC. Board members who present a continuing professional development session are entitled to receive compensation; the amount is of course negotiated between the organization and you.

If you are requested to present on a topic representing your expertise/practice area, you may want to suggest to the meeting organizers that you are also available to provide a separate *Academy Update* presentation. This update covers the Academy's initiatives and accomplishments on behalf of members and will be refreshed after the first of the year. You can access and download the presentation from the Board Communications Platform by clicking [here](#).

Thank you!

Attachment:

Hello, I hope everyone is having a great summer!

We are exploring options for a spring 2016 childhood weight management program. We have located hotel availability in Indianapolis, Indiana for March 17-19, 2016 and March 22-24, 2016. Are you available? We will schedule a program during one of these dates based on faculty availability.

Update on Buffalo program – September 10-12, 2015:

As of today, we have 46 people registered for this program. We have several promotional efforts in place for the next few weeks to boost registration. We will make a decision by the first week of August if we will proceed with the program. Contracts and authorization to travel will be sent at that time.

Thanks.

As Linda reported at the retreat, the Academy is closely involved in the work of the National Commission on Hunger (<https://hungercommission.rti.org/>), which was created by Congressional legislation in 2014. Our Academy colleague, Past President Susan Finn, PhD, RD, FAND, is a member of the Commission, which is "tasked with a mandate to effectively use existing programs and funds to address domestic hunger and food insecurity; and reduce need for government nutrition assistance programs, while protecting the safety net for the most vulnerable members of society." The Commission has been holding public hearings and field visits around the country to hear from experts from government, the nonprofit and for-profit sectors, academia and others closely involved in the fight against hunger in our country. At the June 26 hearing in El Paso, Texas, Board member and Speaker-elect Linda Farr, RDN, LD, FAND, testified on the Academy's behalf. She encouraged the Commission to utilize the Academy and our members as a resource

"as you develop your recommendations to present to Congress and the Secretary of the United States Department of Agriculture. We hope that when you make your recommendations, you will include registered dietitian nutritionists as cost-effective, evidence-based nutrition education providers and you will also include the many free evidence-based tools and resources the Academy has to offer such as GENIE, DANEH and the RD Parent Empowerment Program." Linda's detailed information is posted on the Board's online portal and is attached to this communication. Her testimony is posted to the Commission's website as well.

Best regards,

Pat

Today, after four years of advocacy, the Senate passed S.192, the Older Americans Re-authorization Act of 2015, by a voice vote today which indicates solid support. Senator Susan Collins (Maine), who we recently honored as an Academy Champion at PPW, brought the bill to the Senate Floor and spoke in strong support of passage. Senator Bernie Sanders (Vermont) championed this bill during these four years finding the bipartisan support needed.

This bill calls for the inclusion of our recommendations which are greater use of locally grown fresh foods in nutrition programs, language to more directly use dietitians in senior nutrition programs, and clarifies supplemental foods given with home delivered meals. These improvements, combined with maintaining separate funding for congregate and home-delivered meals and keeping contributions from participants voluntary, will ensure that the largest program in the OAA continues to be effective in its important mission.

Thank you for your support and leadership in encouraging members of the Senate to pass this important legislation! The effort will now move into the House where hopefully action will be taken.

-Mary Pat

Excursions Enhance the FNCE® Experience

The city of Nashville is best known for its music scene. However, its culinary contributions and advanced health care services are top-notch as well. Three excursions have been thoughtfully planned to not only highlight the uniqueness of Nashville, but also tie in to the food and nutrition industry.

- Health and Wellness Rx: Vanderbilt's Culture of High Performance
- Green Door Gourmet: A Behind the Scenes Tour
- Nashville Brew Bus Tour: An Inside Look at the Craft Beer Craze

CPE Spotlight

Taking it to the Max: Increasing RDN value and revenue by practicing at the top of your scope

Monday, October 5 at 1:30 p.m. to 3 p.m.

How can the effective use of the RDN skill set maximize payment potential in a reformed health care system? Dr. Michael Fleming MD, FAAFP and Ingrid Knight, RD, LD explain how practicing at the top of your scope of practice can increase RDN value and expand opportunities for RDN integration into new models of health care delivery and payment. Speakers will address service expansion opportunities, identify reimbursement codes and showcase RDNs successfully practicing at the top of their scope of practice to enhance revenue.

CDR Registration Maintenance Fee for the 2015-2016 year

The 2015/2016 CDR registration maintenance fee notices were mailed in late June. You should already be in receipt of your 2015/2016 registration maintenance fee notice.

For those RDs, RDNs and DTRs who selected the ***paperless*** fee notice option, no fee notice was mailed. By selecting the *paperless* fee notice option, you are encouraged to pay your CDR fee online.

The Academy and CDR will no longer be maintaining social security numbers (last 4 digits) for database security verification. To protect your security, we are transitioning to the use of your Date of Birth (DOB) and Mothers Maiden Name (MMN). If we do not already have this information, when you login, you will be required to add your MMN and DOB. This information will only be requested one time.

Pay online and learn more <http://www.cdrnet.org/dates-regdates>

After paying your CDR fee, dont forget to print your receipt.

Other methods of payment -

MAIL Send your \$60 payment and your 2015-2016 CDR registration maintenance fee notice to: CDR, PO Box 4727, Carol Stream IL 60197-4727, or use the courtesy reply envelope which was enclosed with your fee notice by August 31, 2015.

Please note: If you have selected the *paperless* fee notice option and elect to **mail** your CDR fee payment, a copy of your CDR fee invoice **must** accompany your check and/or credit card information. You can print your CDR invoice by logging into your record online. Click on the link below. You will need your Login and Web password.

https://www.cdrnet.org/auth.cfm?sign_in=true

CALL CDR 800/877-1600, ext. 5500, 8:00 am to 5:00 pm/CT and pay your CDR fee by credit

card -- American Express, Discover, VISA or MasterCard by August 31, 2015.

If your employer is submitting your fee payment, they must include a copy of your 2015-2016 CDR registration maintenance fee notice(s) for **each** RDN, RD, and NDTR, DTR employee. **Failure to include the fee notice/invoice with fee payments will cause processing delays.**

The CDR annual registration maintenance fee is separate and distinct from the annual Academy of Nutrition and Dietetics membership dues.

If you have paid your 2015-2016 CDR registration maintenance fee recently, please disregard this email. Thank you.

You are currently subscribed to receive CDR Renewal Reminders from the Commission on Dietetic Registration.

A communication from Paula K. Leibovitz, Chair of the 2015 CDR Dietetics Practice Audit Task Force, follows below.

Best regards,

Pat

Patricia M. Babjak

Chief Executive Officer

Academy of Nutrition and Dietetics

120 S. Riverside Plaza, Suite 2000

Chicago, Illinois 60606-6995

Phone: 312/899-4856

Email: pbabjak@eatright.org

www.eatright.org

+++++

The 2015 Entry-level Dietetics Practice Audit (DPA) Task Force (TF) is requesting that the Academy Board of Directors, Council on Future Practice, Quality Management Committee, Nutrition and Dietetics Educators of Practitioners (NDEP) Board, and the ACEND Board of Directors review and comment on the draft survey instrument for the 2015 DPA. You will see that the Survey is a combined document, noting "RDN only," or "NDTR only," as appropriate. There will be two Survey Instruments, one for RDNs and one for NDTRs, that will be sent to their respective survey groups.

All comments will be reviewed and considered for inclusion in the instrument by the DPA Task Force prior to finalizing the instruments.

All comments can be directed to Kay Manger-Hague, (khague@eatright.org), and must be received by Friday, August 7, 2015.

Thank you very much for your assistance.

Sincerely,

Paula

Paula K. Leibovitz, MS, RDN, CDE, CD-N

Chair, 2015 CDR Dietetics Practice Audit Task Force

264. Eligibility Requirements for CDR's New Advanced Practice Certification in Clinical Nutrition

Eligibility Requirements for CDR's New Advanced Practice Certification in Clinical Nutrition

This e-mail is intended to clarify the eligibility requirements for the advanced practice credential. The Commission on Dietetic Registration (CDR) is offering an advanced practice certification in clinical nutrition. Certification is granted in recognition of an applicant's documented practice experience and successful completion of an examination designed to assess advanced practice.

Eligibility Requirements (for candidates who have an eligible graduate degree)

- Currently an RDN or RD
- Be an RDN or RD for a minimum of four calendar years
- Have a graduate degree from a US-regionally accredited college or university. The qualifying degrees include all degrees, except those from arts and humanities categories
- Documentation of 8,000 hours of clinical nutrition practice, after attainment of the RDN or RD credential , and not older than the past 15 years. 800 of the required practice hours must be within the past two years (from the application deadline date- August 3, 2013-August 3, 2015)

Alternate Pathway (for candidates who do not have an eligible graduate degree)

- Currently an RDN or RD
- Be an RDN or RD for a minimum of four calendar years
- Documentation of 8,000 hours of clinical nutrition practice, after attainment of the RDN or RD credential , and not older than the past 15 years. 800 of the required practice hours must be within the past two years (from the application deadline date- August 3, 2013-August 3, 2015)
- Completion of two of the three following activities, after attaining the RDN or RD credential:
- Evidence of presenting at a national, state or local professional conference in clinical nutrition (e.g. practice topics/poster/research) within the past five years from the application deadline date.
- Published a clinical nutrition research or non-research article in a peer reviewed professional journal, had a clinical nutrition book or book chapter published (not self-published), edited or reviewed a clinical nutrition peer reviewed professional journal article or book, or had a clinical nutrition abstract published in a peer reviewed journal within the past five years from the application deadline date. Candidates would have to be the first author

- Specialist Certification in a clinical nutrition-related topics. The specialist certifications must include the RDN or RD credential as a prerequisite qualification. Candidates must hold the specialist certification at the time of the examination

Details to note regarding this certification:

1. The first examination window is November 2-20, 2015
2. The eligibility application deadline is 8/3/2015
3. For this certification, the definition of clinical nutrition practice is the provision of direct nutrition care to individuals and/or groups
4. The eligibility application fee is \$100 (non-refundable) and is due by 8/3/2015
5. The examination fee is \$500 and is due by 8/26/2015

Further information, such as the application, content outline, reference list, anticipated test centers, is available on CDRs website at the following link:

<https://www.cdrnet.org/board-certification-in-advanced-practice>

If you meet the eligibility requirements, and would like the opportunity to advance your career and show your expertise, please apply online.

265. ACEND FAQ On Future Education Model

From: ACEND <acend@eatright.org>
To: DMartin@burke.k12.ga.us
Sent Date: Jul 13, 2015 13:13:00
Subject: ACEND FAQ On Future Education Model
Attachment:

ACEND FAQ On Future Education Model

Having trouble viewing this e-mail? [View it in your browser.](#)

Thank you to all of you who have taken time to share your support, questions, and/or concerns related to the future model for education in nutrition and dietetics recommended by the Accreditation Council for Education in Nutrition and Dietetics (ACEND®) in the ***Rationale Document*** in February, 2015. Input about the model was gathered through a variety of sources: responses received in an online stakeholder survey, discussions at area NDEP meetings, phone calls, emails and survey results collected by other educators. ACEND greatly appreciates your input and has developed a ***FAQ*** to help clarify the model and address questions and concerns being raised. We encourage you to visit the ACEND Standards Webpage to view the ***Rationale Document*** and ***FAQ*** and learn about ongoing updates.

In addition, ACEND is launching a more intensive communications plan to increase the frequency and types of communications that are being done. Both the ***Rationale Document*** and ***FAQ*** are considered living documents and periodically will be updated to reflect the progress in the development process. For example, the ***Rationale Document*** was updated in July with a summary of comments received about the model and additional work done by ACEND to better articulate future needs in community practice. Beginning the first of August, the website also will include a monthly update to share progress on ACENDs standards and competency development work.

Thank you again for your valuable input. It is extremely important for ACEND as we work to keep our process as transparent and open as possible. If any individual or group would like to have a conversation with ACEND about the model, please contact us at acend@eatright.org or 312-899-4872.

We ask your help in distributing this information to all of your constituent members and co-workers.

Maxine McElligott, MA, RD, LMNT, CDE
ACEND Chair

Showcase Your Expertise and Continue Advancing Your Career: Earn CDRs New Advanced Practice Credential

Examination Window November 2-20, 2015

Deadline to Submit Eligibility Application is August 3, 2015

The Commission on Dietetic Registration is offering an advanced practice certification in clinical nutrition- Registered Dietitian Nutritionist-Advanced Practitioner, (RDN-AP) or a Registered Dietitian-Advanced Practitioner, (RD-AP).

Answer the questions below to see if this certification is right for you:

1. Do you have at least 8 years of experience as a registered dietitian nutritionist who has applied the Nutrition Care Process accurately and efficiently?
2. Do you apply contemporary evidenced-based interventions in managing patients or groups of patients?
3. Do you possess the leadership skills to lead interdisciplinary teams in developing and evaluating nutrition care protocols?
4. As a clinical nutrition practitioner, do you provide direct nutrition care to individuals and/or groups?

If you answered YES to these questions, then dont miss the opportunity to distinguish yourself.

For eligibility requirements and testing information please visit CDRs website at <https://www.cdrnet.org/board-certification-in-advanced-practice>, or apply online NOW!

Questions? Email advanced@eatright.org

**Certification is granted in recognition of a candidates documented practice experience and successful completion of an examination designed to assess advanced practice.*

Connect with the Academy:

July 8, 2015

Quick Links: [On the Pulse of Public Policy](#) | [CPE Corner](#) | [Career Resources](#) | [Research Briefs](#)
[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

Urgent: Ask Your Member of Congress to Protect Integrity and Science of *Dietary Guidelines*
Academy members are asked to immediately contact your members of Congress and ask them to remove language from appropriations bills that would restrict the implementation of the 2015 *Dietary Guidelines for Americans*. This provision will be debated this week in the Appropriations Committee, so there is still time to ask your member of Congress to vote "yes" on an amendment that protects the integrity and science of the *Dietary Guidelines* process.
[Learn More](#)

Host a Watch Party: White House Conference on Aging

Academy members are encouraged to get involved in the 2015 White House Conference on Aging, on July 13, by hosting a watch party. Register with the Conference. Email Stefanie Winston with questions.

Continuing Impact of PPW: Ask Your Member of Congress to Support Treat and Reduce Obesity Act

Continuing the successes of the four weeks since the Academy's Public Policy Workshop, seven Senate co-sponsors and 82 House co-sponsors have signed onto the Treat and Reduce Obesity Act. The bill would allow RDNs to independently provide and be reimbursed for intensive behavioral therapy for obesity for Medicare beneficiaries. Even if you did not attend PPW, it is important for Academy members to take action: Continue to lobby your senators and

representatives to support this important legislation.

America's Health Rankings Senior Report Webinar

The recently released America's Health Rankings 2015 Senior Report provides information on 35 measures of senior health. Measures of interest for Older Americans Act programs include Home-Delivered Meals, Food Insecurity and Diabetes Management. Academy members are encouraged to take action today to support the Older Americans Act.

CPE CORNER

July 16 Webinar: Interdisciplinary Specialist Certification in Obesity and Weight Management

The Commission on Dietetic Registration offers a July 16 webinar on the background and development of a groundbreaking initiative - the new interdisciplinary Board Certified Specialist in Obesity and Weight Management credential.

July 22 Webinar: 'RDN = Worksite Wellness Leader'

Research has shown wellness initiatives in the workplace can improve health, performance, productivity, safety and more. A July 22 webinar will show registered dietitian nutritionists how to enter the corporate wellness field and gain the skills to become a leader.

New Online Certificate of Training Program: 'Supermarket Business and Industry Skills to Thrive in Retail Dietetics'

Interest in practicing in retail settings is growing among registered dietitian nutritionists. With experts in the field of supermarket business, the Academy's Center for Lifelong Learning has developed a new online certificate of training program to help RDNs learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Lifelong Learning, planned with the *Journal Stats* Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full

range of online modules.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

Invest in Your Career: Attend FNCE

The Academy's Food & Nutrition Conference & Expo is *the* premiere annual meeting for food and nutrition professionals. Experience four days of practical applications, insights into emerging research and trends, exposure to new and innovative products and services and face-to-face networking - all of which are essential to career advancement. Elevate your career October 3 to 6 in Nashville.

New Edition: *MNT Provider*

After 18 years of "doc fixes," President Obama signed into law the Medicare Access and CHIP Reauthorization Act of 2015. How will this affect practice and payment for registered dietitian nutritionist Medicare providers, now and in the future? Read the new issue of *MNT Provider*.

July 16 Webinar: Importance of Proper Refrigeration

The Partnership for Food Safety Education is offering a free July 16 webinar titled "Consumer Refrigeration Practices and Spreading the CHILL Message." Register now, since space is limited. The Academy is a board member of the Partnership.

[Learn More](#)

FAQs: Companion to Pediatric Malnutrition Consensus Statement

The Academy and the American Society for Parenteral and Enteral Nutrition have released a set of frequently asked questions for pediatric malnutrition, in response to queries regarding translating the 2014 Pediatric Malnutrition Consensus Statement to practice. The FAQs will assist registered dietitian nutritionists and other health professionals in implementing the recommendations in practice settings.

eNCPT Tutorials and CPE

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and

comply with the Department of Health and Human Services mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE within the "Resources" tab.

Nutrition Focused Physical Exam Pocket Guide

The new NFPE Pocket Guide is available. The cost is \$10 for members and \$13 for non-members.

New International Student Membership Option

International Student membership is now available for those enrolled in a food, nutrition or dietetics educational program located and accredited outside the United States. For \$100, International Student members have access to the same benefits and services as International members.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for diversity mini-grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

Not receiving the *Journal*? Make Sure Your Contact Information Is Up-to-Date

To update your contact information, log in as a member at eatrightPRO.org and click on the My Profile tab located in the My Academy Toolbar. Once youre up-to-date, youll be able to take full advantage of exclusive benefits included with membership, such as subscriptions to the *Journal of the Academy of Nutrition and Dietetics*, *Food & Nutrition Magazine*, *Daily News* and much more.

RESEARCH BRIEFS

Research: Where Are the Gaps?

Do you want to conduct research but are not sure which areas need more attention? Learn about research gaps identified by the Evidence Analysis Library.

Guideline Reviewers Needed

The Academy is seeking reviewers for the HIV/AIDS Evidence-based Nutrition Practice Guideline Toolkit. Ideal reviewers will have experience working with the HIV/AIDS population.

Prove It with ANDHII

Do you make a difference in the lives of your patients and clients? Prove it by tracking outcomes. The Academy of Nutrition and Dietetics Health Informatics Infrastructure (ANDHII) is a Nutrition Care Process outcomes management system available free to members.

ACADEMY MEMBER UPDATES

In August: Celebrate Kids Eat Right Month

August is the second annual Kids Eat Right Month. Academy members, as the food and nutrition experts, are encouraged to take time this August to spread the word about this valuable initiative and help all children and families shop smart, cook healthy and eat right. Promotional materials for Kids Eat Right Month and the Kids Eat Right program are available for members on the Academy's website.

Call for Nominations: 2016 Election

The call for nominations for the Academy's 2016 national election has begun. The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

Member Testifies Before Hunger Commission

Speaker-elect Linda Farr, RDN, LD, FAND, testified June 26 before the National Commission on Hunger, encouraging the Commission to utilize the Academy and members as resources in developing recommendations for Congress and the U.S. Department of Agriculture. "We hope that you will include registered dietitian nutritionists as cost-effective, evidence-based nutrition education providers and you will also include the many free evidence-based tools and resources the Academy has to offer, such as GENIE, DANEH and the RD Parent Empowerment Program," she said. Past President Susan Finn, PhD, RD, FAND, is a member of the Commission.

Presidential Delegation: Academy Members at Milan Expo 2015

Academy members Marianne Smith Edge, MS, RD, LD, FADA, and Angela Tagtow, MS, RD, LD, were named by President Obama to be part of the presidential delegation to the United States National Day on July 4 at the Milan Expo 2015 in Italy. The delegation was led by Agriculture Secretary Tom Vilsack.

PHILANTHROPY, AWARDS AND GRANTS

July 31 Mini-Grant Application Deadline: Future of Food 'Smart Choices. For a Healthy Planet.'

To support the use of the "Smart Choices. For a Healthy Planet." toolkit, 25 mini-grants of \$200 each are available to Academy members. Recipients must give two presentations from the toolkit (for parents and/or mature teens) between August 10 and October 2. Applications are due July 31 and recipients will be announced August 10.

July Everyday Heroes

Read about the Foundation's Kids Eat Right Everyday Heroes for July.

FNCE Nutrition Symposium: Future of Plant-Based Eating

The Foundation's 2015 Nutrition Symposium, "From Fringe to Flourish: The Future of Plant-based Eating," will be held October 4 at the Music City Center in Nashville, Tenn., during the Food & Nutrition Conference & Expo. The session will provide insights on plant-based eating and provide tools that registered dietitian nutritionists can use to teach clients that plant-based eating is not an all-or-nothing proposition. The registration fee is \$10. Register for Foundation events, email foundation@eatright.org or call 312/899-4773.

Why Donate to the Foundation's Silent Auction?

Thanks to generous supporters, the Foundation's Silent Auction at the 2014 Food & Nutrition Conference & Expo raised more than \$12,000. Research shows the Silent Auction is the most highly visited area of FNCE. The Silent Auction offers a unique opportunity to show your colleagues your commitment to reinvesting in the dietetics profession. Confirm your intention to donate by August 14 by emailing foundation@eatright.org.

Foundations Student Stipends Allow Tomorrow's RDNs to Attend FNCE

The Foundation annually awards stipends to help active Academy student members attend the Food & Nutrition Conference & Expo, thanks to the generosity of dietetic practice groups, affiliates and individual Academy members. If you would like to give aspiring registered dietitian nutritionists the opportunity to attend FNCE, please make a donation when completing the FNCE registration form or email Amy Donatell.

A Message from Our Colleagues

Invitation to Attend ACE 2015

Academy members are invited to attend the Association of Nutrition & Foodservice Professionals' Annual Conference & Expo, August 2 to 5 in Orlando, Fla. Education sessions include management, communication and team-building strategies, survey preparedness, team approaches to pressure ulcer management, sanitation triggers and new trends in foodservice. ACE offers up to 20 hours of continuing education credit, approved by the Commission on Dietetic Registration and the Certifying Board for Dietary Managers.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Subject: ACEND Future Model FAQ
Attachment: [FAQ proposed educ model 7 3 15.pdf](#)

Correspondence from Maxine McElligott, Chair of the Accreditation Council for Education in Nutrition and Dietetics, follows below. The letter and FAQs will be distributed to all Academy members on July 13 and will appear in *Eat Right Weekly*. Some of the issues will be discussed during the ACEND presentation at the Board retreat and subsequently during the ACEND webinar for delegates later this month.

Best regards,

Pat

Patricia M. Babjak

Chief Executive Officer

Academy of Nutrition and Dietetics

120 S. Riverside Plaza, Suite 2000

Chicago, Illinois 60606-6995

Phone: 312/899-4856

+++++

Thank you to all of you who have taken time to share your support, questions, and/or concerns related to the future model for education in nutrition and dietetics recommended by the Accreditation Council for Education in Nutrition and Dietetics (ACEND®) in the *Rationale Document* released in February, 2015. Input about the model was gathered through a variety of sources: responses received in an online stakeholder survey, discussions at area NDEP meetings, phone calls, emails and survey results collected by other educators. ACEND greatly appreciates your input and has developed the attached *FAQ* to help clarify the model and address questions and concerns being raised. We ask your help in distributing this information to all of your constituent members and co-workers.

In addition, ACEND is launching a more intensive communications plan to increase the frequency and types of communications that are being done. We encourage you to visit the ACEND Standards Webpage for ongoing updates. Both the *FAQ* and the *Rationale Document* for the future education model are posted on the website. They are considered “living documents” and periodically will be updated to reflect the progress in the development process. Beginning the first of August, the website also will include a monthly update to share progress on the standards and competency development work.

Thank you again for your valuable input. It is extremely important for ACEND as we work to keep our process as transparent and open as possible. If any individual or group would like to have a conversation with ACEND about the model, please contact us at acend@eatright.org or 312-899-4872.

Maxine McElligott, MA, RD, LMNT, CDE

Subject: Quality Management Committee Final Report on Scope and Standards of Practice

Attachment: [image001.png](#)
[Quality Management Final Report Scope Standards of Practice May 2015.docx](#)

Good afternoon

The Academy's Quality Management Committee established a Scope/Standards Workgroup to assess of the process for development of the Scope of Practice, Standards of Practice and Standards of Professional Performance for the RDN in various focus areas of practice (plus the NDTR) last program year. This assessment was initiated due to the work load impact on member leaders of QMC, DPGs and Academy staff. The outcome of this assessment is the final report which includes a set of recommendations for how to proceed in the future. The Quality Management Committee approved this report on May 13, 2015. At this time, we are providing you with a copy of this report due to the impact on DPGs who wish to update existing SOP/SOPP documents or initiate development of new ones. We will be sharing this report with the House of Delegates later this week along with the DPGs. The Quality Management Committee has been in contact with DPGs since May 2015 to notify them of upcoming changes in the development process.

This final report provides all stakeholders with the direction to be taken in the future. Please note that since we were not able to secure a new Academy staff position to handle this time intensive process (recommendation #1) for this fiscal year, we will be limited in our ability to fully operationalize the report during this program year, which will reduce the number of SOP/SOPPs developed. We felt it was important for you to understand the current situation and the plans for how the Quality Management Committee will proceed in the future.

Please let us know if you have questions or concerns related to this report.

Harold

Subject: Re: DTRebel

Hello,

Thank you for this chance to chat. I will apologize for upsetting so many of you however as we all know nutrition and dietetics has SOOOOOOO much to work on... I know I will continue to upset folks.

Sylvia--I appreciate our phone conversation the other day...thanks for listening and chatting and keeping me calm.

Pat...I am sad for your loss...your husband is greatly missed. Sonja... I think we were talking just about now last summer Thanks for all of your work on behalf of our profession.

Evelyn, Lucille and Aida--I don't think I know you each personally --- please know that I do appreciate your willingness to spend your time on behalf of our profession. I've had some of these same conversations with other HLT and BOD members (Diane and Linda).

Mary Dean discusses the LinkedIn page a bunch of us established last year (I can't find it now....where is it?). We also have a very active listserve where we discuss many topics of concern. Sharon Bode shared that listserve on the NDEP portal a few weeks ago inviting anyone to join our discussions. And, as Mary Dean indicated in her message, all of the discussions on the listserve are also happening **out loud** in public venues: at meetings, via emails and via the NDEP portal.

Discussions on that listserve this year focus on the ACEND education model, CDR Master's requirement for exam eligibility, AND governance model and, of course, communication between all entities of our profession. We don't all agree on the issues/solutions but we keep talking and work diligently to keep all discussions about topics not individuals (ie: no shooting of the messengers). Voices on the listserve are educators, preceptors, practitioners, administrators. Recently I've shared w/ Sylvia, Sonja and Evelyn that I believe the educator group has, by default, become the information conduit between AND groups and practitioners. Much of what I share on

the NDEP portal, on the listserve and in individual dialogues such as letters to Sonja and Evelyn, letters to HOD, phone chat with Sylvia is a direct result of what others are saying to me about their concerns related to the different topics. Sadly there is a real fear of retaliation or personal attack so that many will not speak out.

I have been: chastised for saying things out loud; accused of being an "obstructionist" and not wanting change or forward movement and of thinking only of myself (ie: ISU DPD & DI). However I will continue to voice concerns.

There are a couple of "elephants in the room": 1) I don't recall saying that I "...despise capturing our own.... before leaving the fold...." I do suggest we change terminology. 2) RE: the email between Sylvia and Barbara Grant. I honestly do not know who initially shared it without Sylvia's permission. (Not to point out the obvious but one initial sharer must have been one of the individuals in the address lines.) I wrongly thought that since I'd received it "legitimately" then it was OK to share w/ others thus I have indeed shared it with others by including it in the HOD letters I have emailed and shared w/ others on the NDEP portal and the listserve mentioned earlier--- and others have shared what I shared so that it may seem to be "viral". **I shared it to underscore what I see as a huge problem w/ Academy attitude and governance;** I did not intend to single out a specific individual (Sylvia). If you read just the message it can be interpreted as "do what the BOD wants or else".

Here is my brief synopsis of the main topics discussed on the listserve:

ACEND education model---it doesn't fix the root problems; many have voiced their valid concerns and suggestions for different solutions to ACEND (I have many "great" ideas!). Let me know if you want to hear more.

CDR Master's requirement for eligibility-- that decision has not been substantiated except with statements from CDR board members -- "we decided and that's that" (my interpretation, not a direct quote). Several have requested hard data and rationale, a few have offered other solutions (Deb Canter and I plus others). (Note that Chris Reidy is always professional, thoughtful and kind.) It seems that CDR was required to make this mandate and that "the cart is before the horse". Let me know if you want to discuss this further.

Academy governance model: in a nutshell--- too few people are making decisions that impact such a huge number. Why can't HOD VOTE on topics of significance? Is the number on HOD representative of the number of RDs? and so on. Let me know if you want to discuss further.

Communication....nothing new to say on this topic. I honestly have no idea how to get "us" to trust "you". I will admit frankly that I have some individual bias such that if a message is from select

individuals I will not "believe" until I have more information.

I'll stop---I'm getting tangled up in my thoughts and finding my brain saying things like: what about this? or this? or this? And I know that will not solve anything.

If you'd like to chat in real voice, I'll be in my office this week Mon- Thurs 515 294 7316, central time zone. Or you can call my cell phone this evening (Sunday) 515 460 5357.

Yes---I know that I do not hold an elected nor appointed position however I seem to be one of the "voices".

Sincerely,

Jean

Subject: Re: DTRebel

Dear Sylvia,

It is hard for me to interpret what you intend to accomplish by highlighting the comments that were posted on the public LinkedIn page by myself, Jean, and Deb Canter and sharing it with the "4" Ps. I'll be honest, I would have preferred you call me and talk with me in person about this. However, it did not happen this way and so I now feel I need to respond not only to you, but also everyone on this e-mail message.

Yes, there is a LinkedIn page that was created to share our concerns about the NDA at the time the Academy was pushing for it to be approved as a "credential", then "certification", then "designation"-- it was hard to keep straight because "label" of what the NDA meant kept changing as time went by.

And, if you look in the NDEP portal, these same concerns were shared with the NDEP members by the three of us -- it was never hidden. In addition, the NDEP members at the regional meetings also spoke of these same concerns and shared them with the leadership panel members who were present at these meetings. So yes, we used several public venues to voice our concerns.

I would to clear one assumption that you made about my thoughts on our undergraduates who do not receive DIs: " I apologize if you despise the thought of capturing our own nutrition (DPD and nutrition science) graduates before they leave our fold". I never said that. But the NDA was not the way to capture them. Below, you raise concern about the Family and Consumer Sciences "health and wellness coach" and that is not a credential. Neither was the NDA. It was a designation that required no exam to put the letters behind the individual's name or no continuing education to maintain it.

I agree with you that in order to move forward as a profession we need to find solutions together. At the end of this e-mail you state that we needed to provide the leadership with solutions. At the time the NDA was going down at the NDEP regional meetings. We did offer solutions. We proposed keeping the NDTR for the undergraduates because it was an established credential that required continuing education to maintain it. It wasn't until we had the masses send a letter to the BOD with this same solution, someone finally heard us, and the decision to eliminate the NDA and keep the NDTR was approved. The outcome? 1) All of NDEP (and dietetics professionals) applauded the leadership for listening to the NDEP members proposed solution. and 2) ***Our undergraduates have a recognized credential that they can earn and a credential that requires them to earn continuing education to keep that credential. These are all***

things that will hopefully help to ensure that the public has access to our well-trained, credentialed undergraduates who keep current with nutrition information, as an viable source for nutrition and health advice.

I appreciate the time you are taking to explain the "why" of the decisions that are being made at the higher levels. I really appreciated what you shared with the NDEP council regarding our organizational chart and that HOD has 6 voting members of the BOD. In this regard, I see your experience at all of the levels within the Academy a valuable asset to help NDEP become better aligned and improve communication with the leaders of ACEND, BOD, CFP, and CDR. It is this communication that should continue to better help the NDEP council and members understand how we fit in our new role as a Council.

Sylvia, please know that I'm very very passionate about my students. Ask anyone in my department how much I care about my students. I've put 120% as a DPD director and the changes I have made while at Penn State have increased our acceptance rates into DI programs. In the past 3 years I had 69, 69, and 63 students apply to DI programs. My acceptance rates, respectively were 72%, 64.9%, and 78%. In previous years they were in the high 50s to lower 60s.

It crushes me to see my excellent students work their tails off and not get into a DI program. I cry with them as they come to my office in tears. Trust me, I'm as passionate as you are about making sure they have something they can put behind their name to recognize their training that they received in our program. I think the NDTR was the better solution over the NDA.

I'll be honest, your e-mail made me feel like you were trying to single me out as someone who doesn't care about the students and their future.

I think that we are in agreement. Perhaps we were looking at this from different angles and the messages we sent were misinterpreted.

Thank you for taking time to read my response.

Regards,

Mary Dean

Subject: DTRebel

Hi folks—

By googling the DTRebel list and finding it on Linked In, I found the three of you and saved a few of the messages in the attachment.

Nobody has sent me – I am writing this on my own but including the 4 Ps (Pat and the 3 Presidents) and Aida Miles, HOD Speaker. My goal here is to continue efforts at clear communication and to reduce speculation. When NDEP conducts strategic planning, I want everything out on the table – no hidden agendas by anybody. Without working together, we cannot possibly make progress.

I have always been big on the “Why” behind decisions. As I shared with Jean last week, the Board of Directors receives confidential reports on many topics. These reports are confidential because

they could be used against the profession in many ways. The most serious one for me (as a BOD member at the time) was one conducted by our legal team related to competition to the profession. As you might assume, there are multiple entities working against us – especially related to licensure and any efforts we make to protect the public.

You all realize that many of our own members are anti-credentialing, to the point that some of these individuals fight licensure directly, and indirectly through other groups. Michigan and Washington are examples. For many, the CN and other functional nutritionists want to open their arms to anyone who has an interest in nutrition counseling (for \$\$ of course,.). In NC, our licensure board found a gentleman conducting nutrition counseling for diabetes via the internet. He was advising the Paleo diet alone to manage diabetes. When advised by the licensure board that he needed to remove that part of his website, he opened a lawsuit against us. His claim was related to freedom of speech. While the licensure board won (after many dollars spent and testimony by practitioners like Laura Matarese about the role of education and credentialing), he still claims that he won! The money NCDA had to spend to fight this left us with serious financial challenges that we have not yet resolved.

Now we have Family and Consumer Sciences offering a “credential” related to nutrition and wellness coaching. Their credentialing arm is not recognized by federal standards. But how would any home economics graduate know that? It just means we face more types of competition. I apologize if you despise the thought of capturing our own nutrition (DPD and nutrition science) graduates before they leave our fold. When they are not part of us (Academy members, actively participating in continuing education, etc.), they may not safely counsel the public.

In working with the ICDA, it becomes even more apparent that dietitians/nutritionists are fighting uphill battles around the world. Being such a female-dominated profession, a non-assertive style works against nutrition professionals, especially Asia and Latin America. Often, somebody will ask me to speak and will mention the need for greater assertiveness and self-confidence. Indeed, one of the topics for workshops at the ICD next year in Spain will be related to the achievement of professional AUTONOMY. Fortunately, the good work of the headquarters team in our country has moved qualified providers to be able to write diet orders in our country.

Thus, my plea is this – let us direct our energies to working TOGETHER: NDEP educators/preceptors with the Board of Directors. We do have many groups wanting us to go away – how shall we fight more effectively to protect our RDN, RD, DTR and NDTR credentials and requirements?

Deb, Jean and Mary Dean—it is great to point out flaws, now please help us with solutions. I admire the three of you greatly, and I know our NDEP members have much to offer as well. What is the better way?

I am not the enemy, just one small voice and a previous “BOD messenger” so please don’t shoot! J And yes, this is my work email address...I have nothing to hide from ECU. They have always supported my endeavors on behalf of the profession. If you wish to share this communication, just ask me first and consider the intent – if it is not shared to help make things better, then I would not approve its use.

High regards to all,

Sylvia

CONFIDENTIAL

I am pleased to advise you that we have approval from legal counsel to execute an early termination agreement with Kraft. As you may recall, although we considered the agreement terminated based on Kraft's public statement, we were reluctant to sign a formal agreement until the appropriate language regarding disparagement was achieved. We are comfortable with the final agreement. The Kids Eat Right logo will appear on packages of KRAFT Singles through approximately mid-July. Both parties will refrain from disparagement with respect to the sponsorship relationship. To protect the confidentiality of the agreement we will not be distributing the document electronically. I will be happy to provide a copy at the upcoming BOD retreat if you would care to review. We are moving forward. Thank you for your patience.

Best regards,

Pat

We are looking forward to seeing you at the Board retreat! The agenda is primarily focused on governance and strategic development. The agenda and corresponding materials for the retreat are attached. We hope you enjoyed your pre-reading assignment The Source: Twelve Principles of Governance That Power Exceptional Boards sent to you last week with your handbook flash drive. Thank you all for completing your DiSC assessment– there was 100% participation! Please remember to bring your results with you to the retreat.

Sandra Gill will lead us in discussion on strategic development and Marla Bobowick from BoardSource will be the facilitator on governance. The biographical sketch for each is attached. To foster collaboration and open dialogue with the Academy's major organization units, we welcome their representatives to the retreat: Kevin Sauer, chair of the Commission on Dietetic Registration; Maxine McElligott, chair of the Accreditation Council for Education in Nutrition and Dietetics; Linda Snetselaar, Editor of the *Journal of the Academy of Nutrition and Dietetics*; Sylvia Escott-Stump, chair of the Nutrition and Dietetic Educators and Preceptors Council; and Deanne Brandstetter, chair of the Nominating Committee. Kathy McClusky will provide an update on the Sponsorship Task Force and Susan Finn, Judy Dodd and Debra Semans will share the results of the Second Century Visioning survey.

We received confirmation of a welcome reception for us hosted by New Orleans Convention & Visitors Bureau on Tuesday evening from 6:30pm to 7:30pm in the hotel bar; light refreshments will be served. Other events include a Ghosts and Spirits two hour walking tour around the French Quarter on Wednesday at 8:00pm, after dinner at Tableau restaurant at 5:30pm. If you do not think you will be participating in the walking tour please let me know. On Thursday evening you will have some free time before going to the Louisiana Cooking School at 6:00pm for a class and dinner. The attire for the meeting is casual. The temperature this time of year in New Orleans will be in the low to middle nineties during the day and in the eighties in the evening.

For those of you who wish to travel together to/from the airport, attached is a list of itineraries for the Board retreat participants. Transportation information to/from Louis Armstrong Airport (MSY) follows.

DIRECTIONS TO/FROM LOUIS ARMSTRONG AIRPORT (MSY):

- Hyatt French Quarter is just 16 miles from the Louis Armstrong International Airport (MSY), about 30 minutes by taxi, limousine and shuttle service.
- Airport Shuttle: \$20.00 / \$38.00 (www.airportshuttleneworleans.com)
- Taxi: \$33.00 (flat rate for up to two passengers or \$14.00 per person if traveling with 3 or more)

See you soon and safe travels!

Joan

[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

Public Comments on the Scientific Report of the 2015 Dietary Guidelines Advisory Are Posted

The Academy applauds the process of the U.S. Department of Health and Human Services (HHS) and the U.S. Department of Agriculture (USDA) in developing the 2015 *Dietary Guidelines for Americans* (DGA) and we continue to support their ongoing efforts. Thank you to the five Academy members who served on the 2015 Dietary Guidelines Advisory Committee (DGAC) and also to all members who submitted comments on the DGAC report.

[Learn More](#)

Urgent: Ask Members of Congress to Support the *Dietary Guidelines*

Academy members are asked to immediately contact your members of Congress and ask them to remove language from appropriations bills that would restrict the implementation of the 2015 *Dietary Guidelines for Americans*. The vote has been postponed until after the July 4 recess, so there is still time to ask your member of Congress to vote "yes" on an amendment that protects the integrity and science of the *Dietary Guidelines* process. Email Stefanie Winston with questions.

Supreme Court: Affordable Care Act Subsidies Must Be Available Nationwide

The U.S. Supreme Court has ruled that residents of states with health insurance exchanges established by the federal government will continue to be eligible for tax subsidies to purchase private health insurance policies. The decision is a significant victory that firmly establishes the Affordable Care Act and continues its purpose of expanding health care coverage and lowering

costs.

Continuing Impact of PPW: New Co-sponsors of Treat and Reduce Obesity Act

In three weeks since the Public Policy Workshop in Washington, D.C., 82 House co-sponsors have signed onto the Treat and Reduce Obesity Act, which will allow registered dietitian nutritionists to independently provide and be reimbursed for intensive behavioral therapy for obesity for Medicare beneficiaries. The number of co-sponsors is almost double the figure prior to PPW, showing the importance of Academy members lobbying your representatives. Even if you did not attend PPW, make a difference by taking action today. Ask your member of Congress to support this important legislation.

New Co-sponsors of the Preventing Diabetes in Medicare Act

The Preventing Diabetes in Medicare Act (H.R. 1686) has added five new co-sponsors since the Public Policy Workshop: Alcee Hastings (Fla.), Steve Israel (N.Y.), Stephen Lynch (Mass.), Charles Rangel (N.Y.) and Dutch Ruppersberger (Md.). Thank you to Academy members who have asked their members of Congress to sign onto the bill, which will allow registered dietitian nutritionists to provide medical nutrition therapy to Medicare beneficiaries individuals with prediabetes. If you have not already done so, please take action today.

Academy Stands Up for Prevention Fund

Despite calls to oppose the measure, the House passed H.R. 1190, which raids the Public Health and Prevention Fund and ends the Independent Payment Advisory Board. The Academy was recognized for its efforts in speaking out against this measure, and will continue to do so as the bill moves through the Senate.

Host a Watch Party: White House Conference on Aging

Academy members are encouraged to get involved in the 2015 White House Conference on Aging, on July 13, by hosting a watch party. Register with the Conference. Email Stefanie Winston with questions.

Academy Expert Testifies at Child Nutrition Program Hearing

Academy member Donna Martin, EdS, RDN, LD, SNS, director of the Burke County, Ga., school nutrition program, testified before the House Subcommittee on Early Childhood, Elementary and Secondary Education, discussing the importance of child nutrition programs and the cost of compliance for states and schools.

CPE CORNER

July 22 Webinar: 'RDN = Worksite Wellness Leader'

Research has shown wellness initiatives in the workplace can improve health, performance, productivity, safety and more. A July 22 webinar will show registered dietitian nutritionists how to enter the corporate wellness field and gain the skills to become a leader.

New Online Certificate of Training Program: Supermarket Business and Industry Skills to Thrive in Retail Dietetics

Interest in practicing in retail settings is growing among registered dietitian nutritionists. With experts in the field of supermarket business, the Academy's Center for Lifelong Learning has developed a new online certificate of training program to help RDNs learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Lifelong Learning, planned with the *Journal* Stats Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data, and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

At FNCE Opening Session: An Innovative Solution to the Hunger Problem

Doug Rauch, master innovator and former president of Trader Joe's, will deliver the keynote address at the Opening Session of the Academy's 2015 Food & Nutrition Conference & Expo. His talk, "An Innovative Solution to the Hunger Problem," promises to be an invigorating and inspirational multimedia presentation filled with stories and eye-opening case studies. Learn how

to create a culture of innovation, build a powerful brand in a competitive marketplace and lead with a purpose.

[Learn More](#)

Available Online: New Position Paper on Diabetes Self-Management Education and Support

A new position statement and support paper on "Diabetes Self-Management Education and Support in Type 2 Diabetes" has been developed by the Academy, the American Diabetes Association and the American Association of Diabetes Educators. The joint position paper is available on the *Journal of the Academy of Nutrition and Dietetics'* website and on eatrightPRO.org. The paper is scheduled to be published in the August print issue of the *Journal*.

July 30 Live Webinar: Application of CMS Quality Indicator Process in Foodservice

The Centers for Medicare and Medicaid Services has implemented initiatives to ensure Medicare beneficiaries receive high-quality health care through accountability and public disclosure. A July 30 training session will assist foodservice managers who want to perform higher in quality indicator surveys.

Revised Quality Resources: Updated Case Studies

The Academy's Quality Management team has updated case studies providing resources and options that can be used to evaluate whether registered dietitian nutritionists can safely and effectively provide an expanded practice.

Malnutrition Quality Improvement Initiative

The Academy and Avalere Health support efforts to enhance quality of care delivered to malnourished patients, including a recent multi-stakeholder dialogue on designing and implementing activities to support improved malnutrition care in acute-care settings.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for diversity mini-grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 Academy Membership Application. New this year is a membership option for International Students. Email membership@eatright.org with questions.

Become a Student Leader: Now Accepting Student Liaison Applications

Build your leadership skills, boost your career and enhance your resume. Apply to represent your dietetics program by signing up as an Academy Student Liaison for the 2015-2016 membership year.

Use GENIE to Design Your Nutrition Program

Summer can be a great time to plan programs for the upcoming school year. Use the Guide for Effective Nutrition Interventions and Education (GENIE) online checklist tool, validated by the Foundation, to design the most effective program.

RESEARCH BRIEFS

Research: Where Are the Gaps?

Do you want to conduct research but are not sure which areas need more attention? Learn about research gaps identified by the Evidence Analysis Library.

Guideline Reviewers Needed

The Academy is seeking reviewers for the HIV/AIDS Evidence-based Nutrition Practice Guideline Toolkit. Ideal reviewers will have experience working with the HIV/AIDS population.

Prove It with ANDHII

Do you make a difference in the lives of your patients and clients? Prove it by tracking outcomes. The Academy of Nutrition and Dietetics Health Informatics Infrastructure (ANDHII) is a Nutrition Care Process outcomes management system available free to members.

ACADEMY MEMBER UPDATES

All in the Family: Seeking 'Academy Legacies'

Does your family tree include multiple members of the Academy - siblings, parents, grandparents, aunts, uncles, daughters, sons, grandchildren? If your family contains "Academy legacies," you could be featured in an upcoming "President's Page" article in the *Journal of the Academy of Nutrition and Dietetics*. Please email your contact information (and your family relationships) by July 6 to eatrightweekly@eatright.org.

In August: Celebrate Kids Eat Right Month

This August is the second annual Kids Eat Right Month. Academy members, as the food and nutrition experts, are encouraged to take time this August to spread the word about this valuable initiative and help all children and families shop smart, cook healthy and eat right. A variety of promotional materials for Kids Eat Right Month and the Kids Eat Right program are available for members on the Academy's website. Please help spread the word and encourage all Americans to celebrate Kids Eat Right Month.

[Learn More](#)

Call for Nominations: 2016 Election

It is never too early to start thinking about the future, and the call for nominations for the Academy's 2016 national election has begun. The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

eatrightPRO.org and Mozilla's New Firefox Release

Some users of Mozilla's Firefox web browser may have experienced difficulties logging in to the Academy's member website eatrightPRO.org. This is the result of a newly released version of Firefox that created security vulnerabilities. The current versions of Google Chrome, Internet Explorer and Safari are not experiencing these issues, and members using the newest version of Firefox are encouraged to use one of these alternatives while development of a resolution is underway.

[Learn More](#)

PHILANTHROPY, AWARDS AND GRANTS

Foundation Nutrition Symposium at FNCE

The Foundation's 2015 Nutrition Symposium, "The Science of Sweetness," will be held October 3, prior to the official kickoff of the Food & Nutrition Conference & Expo in Nashville, Tenn. The symposium will feature new research on the application of low-calorie sweeteners to weight management, hunger and satiety and human health. The registration fee is \$10. Register for Foundation events, email foundation@eatright.org or call 312/899-4773.

Why Donate to the Foundation's Silent Auction?

Thanks to generous supporters, the Foundation's Silent Auction at the 2014 Food & Nutrition Conference & Expo raised more than \$12,000. Research shows the Silent Auction is the most highly visited area of FNCE. The Silent Auction offers a unique opportunity to show your colleagues your commitment to reinvesting in the dietetics profession. Confirm your intention to donate by August 14 by emailing foundation@eatright.org.

Foundation's Student Stipends Allow Tomorrow's RDNs to Attend FNCE

The Foundation annually awards stipends to help active Academy student members attend the Food & Nutrition Conference & Expo, thanks to the generosity of dietetic practice groups, affiliates and individual Academy members. If you would like to give aspiring registered dietitian nutritionists the opportunity to attend FNCE, please make a donation when completing the FNCE registration form or email Amy Donatell.

New Infographics: 'U.S. Farming 101' and 'Feeding the World'

The Foundation recently released two infographics with information about current challenges and innovative strategies: "U.S. Farming 101" and "Feeding the World." The infographics were developed through an educational grant from Elanco.

A Message from Our Colleagues

Invitation to Attend ACE 2015

Academy members are invited to attend the Association of Nutrition & Foodservice Professionals' Annual Conference & Expo, August 2 to 5 in Orlando, Fla. Education sessions include management, communication and team-building strategies, survey preparedness, team approaches to pressure ulcer management, sanitation triggers and new trends in foodservice. ACE offers up to 20 hours of continuing education credit, approved by the Commission on Dietetic Registration and the Certifying Board for Dietary Managers.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Hello Donna:

Thank you for your willingness to review the assessment questions for this scenario. I have attached a draft of the Independent Contractor Agreement. Please edit and send it back to me.

I also thought it would be helpful as you looked at the agreement to have the module information and questions (also attached to this e-mail).

Please let me know if you have any questions. Have a great day!

+++++

Dear Board of Directors,

Keeping you in the loop and a heads up....Congress is moving on several fronts.

Last night, the House Rules Committee held a hearing on Labor and Health Funding, and heard about an effort to gut nearly \$9 billion from the Prevention Fund. Energy and Commerce Ranking Member Frank Pallone (a ANDPAC recipient) testified before the Committee and spoke out in strong opposition to using the Prevention Fund as an offset to this legislation, stating that we should not eliminate one of the most effective parts of the Affordable Care Act in order to pay for other priorities.

There is nearly \$12 million funding nutrition interventions. Stef Winston and I sent an email to all members of the House to express our concern of defunding such an important public health program. We have also alerted the Public Health Committee asking for examples of successful interventions. The PPCs, LPPC and ANDPAC also have this information.

We will keep you updated on this and other issues rising up.

At the May Board meeting Christine Reidy, Executive Director of the Commission on Dietetic Registration (CDR), presented a report about the Commission's roll out for the Interdisciplinary Specialist Certification in Obesity and Weight Management. The Commission has begun distributing the draft Interdisciplinary Specialist Certification in Obesity and Weight Management practice analysis survey to the Board, the House of Delegates and all other Academy organizational units for input. Communication from CDR and the Practice Analysis task force follows below; it is identical to the postings to other Academy units.

FROM: Commission on Dietetic Registration

Interdisciplinary Specialist Certification in Obesity and Weight Management

Practice Analysis Task Force

In summer 2013, the Commission on Dietetic Registration accepted a recommendation from the Council on Future Practice to develop a new specialist certification in obesity and weight management. Shortly thereafter, the leadership of the Weight Management (WM) Diabetes Care and Education (DCE) dietetic practice groups (DPGs) and The Obesity Society (TOS) petitioned CDR to consider development of the certification as an interdisciplinary credential. In response to this request, CDR established a task force to evaluate all aspects of offering this interdisciplinary certification. This process included soliciting member input from the WM and DCE DPGs, communications to the House of Delegates, and establishing a mailbox for receipt of leadership and member comments. The Task Force also sought input from existing dietetics-related interdisciplinary credentials (Certified Diabetes Educator, Certified Nutrition Support Clinician) leadership to obtain their perspective. After much deliberation, the Task Force made the recommendation to CDR to proceed with the request. The Commissioners concurred with this recommendation to move forward on the development of the Board Certified Specialist in Obesity and Weight Management as an interdisciplinary credential. To review frequently asked questions regarding this certification, please visit www.cdrnet.org/interdisciplinary.

The first step in the certification development process is a practice analysis of the obesity and weight management specialty area. It is conducted in order to identify key practice roles, tasks, and performance competencies needed for safe practice by each profession. CDR established an Interdisciplinary Specialist Certification in Obesity and Weight Management Practice Analysis Task Force charged to conduct the practice analysis. Content expert representatives were identified by their professional associations from the following health professions: registered dietitian nutritionists, certified nurse practitioners, certified physician assistants, certified clinical exercise physiologists, licensed clinical psychologists, and licensed clinical social workers. The results of the actual practice analysis will determine the eligibility of each profession for the certification and serve as the basis for the examination content outline development.

The Task Force has drafted the practice analysis survey and is soliciting your review and comments. A link to the practice analysis survey is available here:
<http://cdr.csowm.ja.questionpro.com>. Please submit your comments to interdisciplinary@eatright.org on the attached form by **July 17, 2015**. Your comments will assist the Task Force in refining the survey instrument prior to distribution later this summer.

A webinar has been scheduled by the Task Force to answer any questions you may have regarding the Interdisciplinary Specialist Certification in Obesity and Weight Management. It will be held on Thursday, July 16, 2015 at 12:00 PM, Central Time.

If you have any questions, please feel free to contact Jessica Rapey, RD, Senior Manager of Professional Assessment and Task Force Liaison, at 1-800/877-1600, ext. 4816 or interdisciplinary@eatright.org.

The House Leadership Team members have already seen the response to Michelle Harris' email from former President Sylvia Escott-Stump, calling out an ethical issue related to communications. Please see the thread below. Sylvia is asking for input on how to deal with the infringement; I have forwarded the issue to our legal counsel since this is not a unique occurrence, and we can use the response as we continue to educate members on copyright.

NDEP - RE: Dr. M.Harris letter to HOD

[View Post](#)

Message

Dear all--

Clearly I was not asked if my personal message to Barbara Grant in 2012 could be copied and posted. Where is the ethical behavior here?

If you read the communication, you will note that the Board of Directors has the right to establish a new accrediting body if needed. We were hoping not to have that as an outcome. We have NOT successfully addressed the 30,000+ individuals with BS degrees who have not become an RDN or

a DTR. The NDTR is a reasonable option, but not everyone will choose that route.

Returning from a speaking engagement in Mexico, I have learned that "health coaches" are a big concern there. I would rather see the U.S. have "nutrition coaches" within the Academy/CDR ranks where continuing education is expected. It is quite easy to become obsolete within a few years of leaving college. As a professional organization, we must see all of the issues facing us and not concentrate on one or two. Uncredentialed providers are a threat, one way or the other.

Sylvia

Sylvia Escott-Stump

Subject: Letter to House of Delegates Members

Dear Ms. Kiley, Ms. Pyper, and Ms. Lacey:

Attached is a letter that expresses my thoughts on the proposal by the Academy to require a graduate degree for entry into the profession of dietetics and nutrition. I am especially concerned about the effect this move would have on African Americans and others from underrepresented populations. Just as concerning is that the move would build unnecessary barriers to the profession for individuals from disadvantaged backgrounds. There is a move among some of my colleagues in the District of Columbia to hold the Academy accountable for actions it takes that would further reduce the diversity of those practicing in the field of nutrition and dietetics.

We especially question the excessive focus that the Academy has on clinical practice at the expense of community-based practice. I am now paying close attention to the process that the Academy takes for making important decisions. I will also encourage my colleagues and students to take appropriate action to assure that their needs and the needs of their communities are well served by the Academy. We expect transparency throughout the Academy and will communicate regularly with our Delegates

Yours truly,

Michelle Harris

Subject: USDA Sodium Initiative
Attachment: [image003.jpg](#)
[AND \(00000002\).pdf](#)

I am very pleased to tell you that, on behalf of the Academy, I have accepted the invitation from Agriculture Secretary Tom Vilsack for the Academy to join the USDA's new Sodium Awareness Initiative. The goal of this initiative, in the words of Secretary Vilsack, is to "engage schools, as well as parents, teachers and community members, in a collaborative effort to reduce sodium in school meals." Secretary Vilsack points out that children ages 6 to 18 consume approximately 3,300 mg of sodium per day (not including salt that is added at the table). This is far above the recommended level of 2,300 mg in the 2010 Dietary Guidelines for Americans. The 2015 guidelines for sodium are expected to be released later this year.

As part of this important initiative, the Academy will collaborate with the food industry, other health organizations, culinary institutes and other stakeholders to help ensure schools meet USDA's sodium target standards; increase awareness of the need for dietary sodium reduction; expand resources for schools and highlight activities nationwide that are helping schools achieve the new sodium targets.

I hope you agree with me that this represents a valuable opportunity for the Academy and our members to further extend our expertise into areas that improve the health of our country's children and families, working in collaboration with the public and private sectors alike, and in keeping with the Academy's strategic plan.

Best regards,

Pat

[PCP Association Meeting May 2015 Report.pdf](#)
[PCP Association Meeting May 2015 Executive Summary.pdf](#)

The Nutrition Services Coverage team, under the leadership of Marsha Schofield, MS, RD, LD, FAND, rounded out FY2015 with two major events that have important implications for the Academy. Attached are reports from each event.

2015 Blue National Summit

The Academy had a presence once again in the exhibit hall for the 2015 Blue National Summit held in Phoenix, Arizona on April 20-22. Nutrition Services Payment Committee Vice-Chair and Academy President-elect Lucille Beseler and Academy staff represented the Academy at this event both at the exhibit and with attendance at conference sessions. The booth focused on the value RDNs bring to emerging health care delivery and payment models as well as Academy

products that support the work of the Blue plans. The Blue National Summit brings together over 1500 Blue Cross and Blue Shield executives from across the Blue System.

Primary Care Provider Association Meeting

As part of continued efforts promote the value of the RDN in new primary care-centered models of health care delivery and payment, the Academy for a second time convened representatives from national Primary Care Provider (PCP) associations for a one-day meeting in Chicago.

Representatives from seven associations joined in discussions around specific opportunities to partner on initiatives to promote successful collaboration between RDNs and PCPs. The group left the meeting committed to ongoing relationships under the leadership of the Academy.

Our sincere thanks goes out to CDR for funding these events, both of which are designed to increase visibility of credentialed dietetics practitioners and promote the value of the RDN. Thanks also go to Georgia Gofis for her support with preparations for our exhibit at the 2016 Blue National Summit. Both events are part of our strategy to support integration of RDNs and nutrition services into emerging health care delivery and payment systems as well as add value to Academy membership.

For more information about either of these projects, please contact Marsha Schofield at mschofield@eatright.org or 312-899-4787.

Best regards,

Pat

I am sharing Mary Gregoire's response to concerns (see my email of 6/22 below) related to a graduate degree education model and its impact on student diversity. We will have a discussion at the retreat with ACEND's chair, Maxine McElligott, and Mary Gregoire, Executive Director of ACEND, to inform us further.

Best regards,

Pat

On Jun 22, 2015, at 5:34 PM, Mary Gregoire <mgregoire@eatright.org> wrote:

Hi Pat

ACEND is finalizing an FAQ to address the concerns being raised about the recommended model and will review for approval later this week at their board meeting. Below is the item in the FAQ responding to the concerns about diversity and the master's degree. Let me know if you think this helps address the concern. Mary

What impact will the new model have on student diversity in nutrition and dietetics programs?

Ethnic diversity in student enrollment in ACEND accredited programs has increased over the past 10 years. Most notably, the number of Hispanic students has nearly doubled. ACEND talked with other health profession accreditors (Physical Therapy, Pharmacy, Occupational Therapy) who have moved their education requirements to a graduate level and learned that this change did not decrease student diversity in those professions. In pharmacy, for example, under-represented minority students (black, Hispanic, Native American) were 10.6% of the student population in 1988 prior to implementing their practice doctorate degree requirement and 11.4% in 2012 after implementation. Diversity of students currently enrolled in dietetic internships combined with a graduate degree (males = 10%; under-represented minorities = 9%) and in coordinated programs at the graduate level (males = 10%; under-represented minorities = 11%) is similar to the diversity of students in dietetic internship programs that do not offer a graduate degree (males = 8%; under-represented minorities = 9%). The recommended future model of education includes preparation for careers in nutrition and dietetics at associate, bachelor, and graduate degree levels allowing students many options for entry into future nutrition and dietetics careers. ACEND Standards encourage programs to foster diversity in their student selection process. ACEND currently monitors and will continue to monitor student diversity in all accredited programs.

Subject: Letter to House of Delegates Members

Dear Ms. Kiley, Ms. Pyper, and Ms. Lacey:

Attached is a letter that expresses my thoughts on the proposal by the Academy to require a graduate degree for entry into the profession of dietetics and nutrition. I am especially concerned about the effect this move would have on African Americans and others from underrepresented populations. Just as concerning is that the move would build unnecessary barriers to the profession for individuals from disadvantaged backgrounds. There is a move among some of my colleagues in the District of Columbia to hold the Academy accountable for actions it takes that would further reduce the diversity of those practicing in the field of nutrition and dietetics.

We especially question the excessive focus that the Academy has on clinical practice at the expense of community-based practice. I am now paying close attention to the process that the Academy takes for making important decisions. I will also encourage my colleagues and students to take appropriate action to assure that their needs and the needs of their communities are well served by the Academy. We expect transparency throughout the Academy and will communicate regularly with our Delegates

Yours truly,

Michelle Harris

ON THE PULSE OF PUBLIC POLICY

Big Votes Coming in Congress: Support the *Dietary Guidelines*

Academy members are being asked to immediately contact your members of Congress and ask them to remove language from appropriations bills that would restrict the implementation of the 2015 *Dietary Guidelines for Americans*. The House Appropriations Committee will vote June 24 on the Labor-Health and Human Services appropriations bill and will vote on June 25 on the Agriculture appropriations bill, so time is short. Email Stefanie Winston with questions.

Academy Meets with CMS: 'Better Care, Healthier People, Smarter Spending'

The Academy's Policy Initiatives and Advocacy and Nutrition Services Coverage teams met with representatives of the Center for Medicare & Medicaid Innovation to explore the role of nutrition and the value of registered dietitian nutritionists in initiatives that encourage delivery of better care at lower cost.

[Learn More](#)

Preventing and Treating Chronic Disease: Academy Offers Solutions

The Academy has submitted comments to the Senate Finance Committee Chronic Care Reform Working Group detailing the value and significance of including nutrition counseling and medical nutrition therapy in any meaningful reform of chronic disease care. The letter urged the Working Group to include RDNs in care coordination teams, and showed the effectiveness of nutrition services to prevent and treat numerous chronic diseases.

Action Alerts Open for PPW Legislative Issues

Action alerts remain open for each of the three major legislative issues highlighted at the 2015 Public Policy Workshop: the Older Americans Act; the Treat and Reduce Obesity Act and the Preventing Diabetes in Medicare Act. While constituents make the greatest difference in moving legislation, fewer than 3 percent of Academy members have sent letters to members of Congress. Please use Grassroots Manager to send letters to your members of Congress. There is power in numbers - but only if members take action.

Report Confirms Need to Expand Help for Older Americans

U.S. Sen. Bernie Sanders (Vt.) spoke on the Senate floor June 16 to present findings from a new Government Accountability Office report on unmet need for services in the Older Americans Act. The Academy supports the re-authorization of the Older Americans Act, and urges Congress to appropriately fund these vital programs. If you have not yet taken action to support S. 192 to re-authorize the Older Americans Act, now is the time.

USDA Secretary Testifies on Importance of Child Nutrition Programs

The House Education and Workforce Committee recently held a hearing on child nutrition assistance programs, with testimony from Agriculture Secretary Tom Vilsack. He detailed the integrity and successes of the programs, such as 95 percent compliance with new standards, increased fruit and vegetable consumption and increased participation in breakfast and summer food programs. The Academy encourages members to participate in the Child Nutrition Re-authorization Call-in Day.

CPE CORNER

Hands-On Training Workshop: Nutrition Focused Physical Exam

The Academy has developed an interactive, hands-on training workshop to provide registered dietitian nutritionists with the skills and knowledge necessary to perform NFPE skills at their workplace to aid in the nutrition diagnosing of malnutrition. Ten continuing education units are available.

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

At FNCE: Practical Benefits from Outcomes-Based Education

More than 80 percent of the 140-plus educational sessions at the Food & Nutrition Conference & Expo will be Level 2 and Level 3. Practice applications are incorporated into every session to ensure you can implement your new knowledge on the job.

[Learn More](#)

New HomeFoodSafety.org Videos

Help your clients and patients ensure they're staying safe in the kitchen with three new videos from the Home Food Safety program: Home Food Safety Cook-Off, Spicy Sausage and Peppers Pasta and Spicy Mediterranean Tilapia.

Improve Your Nutrition Programs with GENIE

The Guide for Effective Nutrition Interventions and Education (GENIE) is a validated, free online checklist tool to help you design a more effective nutrition education program. GENIE can also

help you develop a strong grant proposal for your next funding opportunity.

New International Student Membership Option

International Student membership is now available for those enrolled in a food, nutrition or dietetics educational program located and accredited outside the United States. For \$100, International Student members have access to the same benefits and services as International members.

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit by September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the Did someone recommend Academy membership to you? section of the 2015-2016 Academy Membership Application. Email membership@eatright.org with questions.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for Diversity Mini-Grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

RESEARCH BRIEFS

eMentoring Program: New Resources and Opportunities

Consider becoming a research mentor or mentee through the Academy's e-mentoring program. The Dietetics Practice Based Research Network has created new resources for mentors and mentees to use as you work together on components of a research project.

Inpatient Facilities: New Data

Learn about new data on registered dietitian nutritionists' activities in inpatient facilities and how to use this information for benchmarking staffing levels.

Research: Where Are the Gaps?

Do you want to conduct research but are not sure which areas need more attention? Learn about research gaps identified by the Evidence Analysis Library.

ACADEMY MEMBER UPDATES

All in the Family: Seeking 'Academy Legacies'

Does your family tree include multiple members of the Academy - siblings, parents, grandparents, aunts, uncles, daughters, sons, grandchildren? If your family contains "Academy legacies," you

could be featured in an upcoming "President's Page" article in the *Journal of the Academy of Nutrition and Dietetics*. Please email your contact information (and your family relationships) by July 6 to eatrightweekly@eatright.org.

In August: Celebrate Kids Eat Right Month

Everyone has a role to play in ensuring a healthy future for our children. As an Academy member, you have the food and nutrition expertise to help children and families shop smart, cook healthy and eat right. That's why the Academy and the Foundation encourage all members to celebrate Kids Eat Right Month in August.

Call for Nominations: 2016 Election

It is never too early to start thinking about the future, and the call for nominations for the Academy's 2016 national election has begun. The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

PHILANTHROPY, AWARDS AND GRANTS

Plan Now for Fall: Foundation Resources

Summer is a great time to plan fall programs. Foundation resources include Kids Eat Right, It's All About You and Energy Balance 101 (Pre-K Curriculum, K-2nd Grade Curriculum and 3rd-5th Grade Curriculum).

Why Donate to the Foundation's Silent Auction?

Thanks to generous supporters, the Foundation's Silent Auction at the 2014 Food & Nutrition Conference & Expo raised more than \$12,000. Research shows the Silent Auction is the most highly visited area of FNCE; the Silent Auction offers a unique opportunity to show your colleagues your commitment to reinvesting in the dietetics profession. Confirm your intention to donate by August 14 by emailing foundation@eatright.org and your name will be included in the FNCE onsite program book.

Foundation's Student Stipends Allow Tomorrow's RDNs to Attend FNCE

The Foundation annually awards stipends to help active Academy student members attend the Food & Nutrition Conference & Expo, thanks to the generosity of dietetic practice groups, affiliates and individual Academy members. If you would like to give aspiring registered dietitian nutritionists the opportunity to attend FNCE, please make a donation when completing the FNCE registration form or email Amy Donatell.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

I am forwarding a communication sent to Evelyn and Lucille regarding the Accreditation Council for Education in Nutrition and Dietetics' (ACEND) proposed model for education and the Commission on Dietetic Registration's (CDR) graduate degree requirements for credentialing. The Chairs of ACEND and CDR will provide an update on member comments, both positive and negative, at the Board retreat.

Last week, the House Leadership Team decided to ask ACEND and CDR to conduct two webinars in July related to the history, the current status and future plans related to education and credentialing requirements. You are encouraged to take part in the webinars. We will inform you of the dates once they are confirmed.

Best regards,

Subject: Letter to House of Delegates Members

Dear Ms. Kiley, Ms. Pyper, and Ms. Lacey:

Attached is a letter that expresses my thoughts on the proposal by the Academy to require a graduate degree for entry into the profession of dietetics and nutrition. I am especially concerned about the effect this move would have on African Americans and others from underrepresented populations. Just as concerning is that the move would build unnecessary barriers to the profession for individuals from disadvantaged backgrounds. There is a move among some of my colleagues in the District of Columbia to hold the Academy accountable for actions it takes that would further reduce the diversity of those practicing in the field of nutrition and dietetics.

We especially question the excessive focus that the Academy has on clinical practice at the expense of community-based practice. I am now paying close attention to the process that the Academy takes for making important decisions. I will also encourage my colleagues and students to take appropriate action to assure that their needs and the needs of their communities are well served by the Academy. We expect transparency throughout the Academy and will communicate regularly with our Delegates

Yours truly,

Michelle Harris

The House of Representatives completed the week with its debate on HR 1190, the bill to defund the Prevention Fund.

Representatives Sander Levin (MI), Jim McDermott (WA), Frank Pallone (NJ), Steny Hoyer (MD) and Paul Sarbanes (MD) all spoke out in support of the Prevention Fund, as did Representative Jared Polis (CO) during the debate on the Rules ate.

Representative Linda Sanchez (CA), a lead sponsor of HR 1190, who announced on the House floor that she would vote against her own bill because of its use of the Prevention Fund as an offset. We encourage you to thank Congresswoman Sanchez, and all of these members, for standing up for public health if they are in your state!

The final vote will likely be held this coming Tuesday evening. We have sent and been recognized for our letter to all members of the House on behalf of the Academy.

Also there is move to **defund the Dietary Guidelines** so they will not be moving forward. We will keep you posted on that.

Finally we are expecting the landmark Supreme Court ACA decision here in the next few days. We are fortunate that Stef Winston and Pepin Tuma, our in-house attorneys here in our office, will digest the impact on our work and nutrition services.

Off to a busy week!

+++++

Dear Board of Directors,

Keeping you in the loop and a heads up....Congress is moving on several fronts.

Last night, the House Rules Committee held a hearing on Labor and Health Funding, and heard about an effort to gut nearly \$9 billion from the Prevention Fund. Energy and Commerce Ranking Member Frank Pallone (a ANDPAC recipient) testified before the Committee and spoke out in strong opposition to using the Prevention Fund as an offset to this legislation, stating that we should not eliminate one of the most effective parts of the Affordable Care Act in order to pay for other priorities.

There is nearly \$12 million funding nutrition interventions. Stef Winston and I sent an email to all members of the House to express our concern of defunding such an important public health program. We have also alerted the Public Health Committee asking for examples of successful interventions. The PPCs, LPPC and ANDPAC also have this information.

We will keep you updated on this and other issues rising up.

Subject: Board Retreat and Orientation
Attachment: [image002.jpg](#)

Preparations have begun for the July 8-10 Board retreat. Sandra Gill will lead us in strategic development and Marla Bobowick from BoardSource was selected by Evelyn, Lucille and Sonja as the facilitator on governance. Per your request at the May Board meeting in response to Marla Bobowick's recommendation, participants are being asked to complete the Everything DiSC profile prior to the retreat to use as a foundation for our discussions of work styles in the boardroom. On Monday, you will be receiving an email from CHP&M Surveys with the subject line: Academy Retreat Prework: DiSC. The profile takes approximately 15-20 minutes to complete and is due no later than July 1.

In anticipation of the governance discussion, we will be sending you a pre-reading assignment The Source: Twelve Principles of Governance That Power Exceptional Boards. Each year we provide Board members with an updated Board Handbook. The handbook is on a flash drive so

you can take it with you for reference whenever needed. The flash drive along with the quick read governance booklet will be mailed to you next week.

I will be discussing the agenda with Evelyn early next week. As I mentioned in an earlier communication, the agenda is primarily focused on governance and strategic planning. The dialogue is generative and strategic, and two executive sessions are being planned to conduct board business. The agenda and supporting materials will be emailed to you by July 1.

If you have not yet done so, please make your travel arrangements to secure optimal pricing. You will need to fly into the Louis Armstrong New Orleans International Airport (MSY) on Tuesday, July 7 and depart on Friday, July 10 after the meeting adjourns at 12:00 pm. To book your travel online, click on the following link: <https://adatvl.axo20.com/> and enter 103-2430 into the Approval Code box in the Reporting Information section.

Best regards,

Subject: RE: Finance and Audit Committee meeting on Tuesday, June 23rd at 1 p.m. CDT
Attachment:

All,

As I mentioned yesterday, we have the first FY16 Finance and Audit Committee meeting scheduled for Tuesday, June 23rd at 1 p.m. CDT. The call will focus on the following;

1. May 26th meeting minutes
2. FAC contact and Bio information
3. 2016 FAC meeting calendar
4. 2016 FAC program of work
5. April Final Financials
6. May preliminary financials

7. Audit update

The webinar invitations have gone out to each of you. So, if you haven't received it, or need to have it re-sent, please let me know. I also mentioned in my email yesterday that I would provide a high level narrative for the monthly financial results. This is the first "view" of the information. You will get another chance next month after Christian provides the additional narrative. My emails are generally broken into the following sections;

- I. Adjustments from the Previous Month
- II. Investment results
- III. Preliminary Academy results
- IV. Preliminary Foundation Results
- V. Preliminary CDR results
- VI. Preliminary DPGS/MIGS/ACEND results
- VII. Preliminary PAC results

The information may fluctuate from month to month. Due to the time constraints, there will be months when we can't provide all of the information. Hopefully, that won't happen too often. Oh, and one last thing; I want to apologize in advance for this email. It will be long. The best thing about this email is it may benefit those who may have insomnia!!! Now onto the narrative.

I. April Adjustments

-

We did have a few adjustments to the original April numbers.

- a. Academy - The Academy had a decrease of \$7,655 for expenses. This was split between Travel (\$6,238) and Meeting Services (\$1,421). This was due to a bill that was originally double booked.

b. DPG/MIG/ACEND – The combined expenses went down \$17,821 due to a hotel bill that was double booked for ACEND. This was also due to the same bill that was double booked for the Academy.

II. Investments

When I began writing this yesterday morning, the news was not as good and it is today. So, I am glad I didn't finish the narrative. First, I want to let you know, even though the markets were very volatile for May and for the year, the combined Academy and Foundation portfolios gained \$573,024 for the month of May and \$4,627,116 for the Fiscal Year. Both of these are well above budget. This is good news, but, it gets even better. When I began writing this yesterday, my narrative was that the portfolios were down for the month. Well, one day does make a difference. As of the close of business yesterday, the combined portfolios are up \$254,056 (0.45%). As I write this today, the markets are down. So, there is no way to tell if we will hold onto the gains. In addition, we have eight days of trading still in June (including today). Therefore, it is too early to project where we might end up for the month. However, it is far better to have gained nearly 0.5% at this point in the month than having lost 0.5%.

As a side note; for those that are new, I want to remind you that the investment portfolios are split between the Foundation and the Academy. We make the split based on the tax classification of the businesses. The Foundation is a 501 c(3) and the Academy is a 501 c(6). Within the Academy portfolio are the investments of the Academy, CDR, ACEND, DPGs, MIGS and some State Affiliates. The Academy, CDR, ACEND, DPGs and MIGs are all a part of the Academy's tax structure. We provide the opportunity for the Affiliates to invest with the Academy due to the low cost (0.50%) to manage and the great returns (approximately 9.0% over the past 30 years). Within the Academy portfolio, accounting keeps records that identify the amount of the investment portfolio that each organization owns. You can see some of this split on page A15 and A16 of the financial package.

III. Academy preliminary May Financials (A3 and A10)

May is always a difficult month for the Academy due to the reconciliation of accounts and the processing of bills. This May was no different. So, I will start off with the positive. Presently, the Academy has finished the year with an Operating Deficit of \$3,102,610. This is a great deal of

money. However, this is \$9,683 smaller (better) than our FY15 budget. When the forecast was done earlier in the year, we had projected that the Academy would perform a little better than budget on the operational bottom line. The second bit of good news is due to the investment income results. After considering investment income, the Academy had a FY15 Net Deficit of \$1,456,683. This was \$304,470 smaller (better) than the budget. Considering that the revenue for the year missed the target by \$1,780,115 it is remarkable that the Academy was able to exceed the budgeted FY15 Operating Deficit.

In May, you will see that the revenue was under budget by \$293,101 primarily due to the same areas we have discussed all year; Sponsorships, Research Grants and eNCPT subscriptions. The explanations for these and the others are below. The expenses for May were \$125,614 under budget. So, the Academy was able to offset some, but, not all, of the revenue shortfall for the month. The result of the revenue and expenses was an Operating Deficit of \$421,678. This was \$167,488 higher (worse) than the budget.

Once you factor in the investment results for May, the Academy had a Net Deficit of \$234,345. This was \$92,750 higher (worse) than the budget. So, investments did help in May.

I will provide a cautionary note; We are still scrubbing accounts. Therefore there could be adjustments still to come. This happens in May due to the volume of activity. We also have to recognize that the numbers won't be final until the Auditors have finished their review.

The following is a breakdown of the various categories for May:

A. Revenues

a. **Membership Dues** - This area is **under budget** by \$28,169 in May and is **under budget** by \$32,373 for the year. The under-run in May is being driven by lower Fellow program revenue (down \$5.6K) and lower Membership Dues revenue (down \$22.6K). The under-run in Membership Dues is due to a reconciliation of the accounts. During the year, we perform projections of the final total annual Memberships Dues revenue. In doing so, additional accruals (recognition of revenue) were done. In the final account analysis, the projections were too high. Therefore, the adjustment was made in May.

b. **Programs and Meetings** - This area is **over budget** by \$8,167 in May and is **under budget** by \$435,429 for the year. The over-run May is due entirely to lower Professional Development revenue.

- c. **Publications and Materials** - This area is **under budget** by \$27,196 in May and is **under budget** by \$155,100 for the year. The under-run in May is primarily due to lower List rental (down \$10.5K), lower Eatright Store (down \$4.4K), lower Traditional Publications (down \$12.2K) and lower across all other (down \$0.1K).
- d. **Subscriptions** – This area is **under budget** by \$45,794 in May and is **under budget** by \$410,500 for the year. The under-run in May is primarily is due to lower eNCPT (down \$41.2K) as sales are slower than budgeted and lower NCM and related products (down \$7.7K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.2K) and higher EAL (up \$1.9K).
- e. **Advertising** – This area is **over budget** by \$2,700 in May and **under budget** by \$18,608 for the year. The over-run in May is entirely due to additional Advertising revenue for the Food and Nutrition Magazine.
- f. **All grants** - This area is **under budget** by \$106,192 in May and is **under budget** by \$618,821 for the year. The under-run in May is primarily due to lower Research (down \$108.1K) and lower Guides for Practice (down \$13.8K). This is offset by higher Abbott Malnutrition (up \$3.0K) and higher ConAgra project (up \$12.7K).
- g. **Sponsorships** – This area is **under budget** by \$95,773 in May and is **under budget by** \$199,062 for the year. The under-run in May is due to lower Sponsorships. As mentioned previously, the timing of contracts being signed has a large impact on the recognition of revenue for Sponsorship. We previously addressed the potential impact the cancellation of the Kraft agreement would have on our Sponsorship revenue. The final reconciliation of the revenue to be recognized for FY15 was performed and the adjustments were made reducing the amount of sponsorship revenue recognized in May.
- h. **Other** – This area was **under budget** by \$845 in May and is **over budget** by \$89,779 for the year. There are no material reasons for the under-run in May.

B. Expenses

- a. **Personnel** – This area is **under budget** by \$114,992 in May and is **under budget** by \$349,915 for the year. The under-run in May is due to the open positions being frozen and the impact from changing our medical plan and the vacation policy change.
- b. **Publications** – This area is **over budget** by \$31,014 in May and is **under budget** by \$66,496 for the year. The over-run in May is primarily due to higher costs for Traditional Publications (up \$13.5K). This is due to the write-off of inventory requiring us to replenish the inventory reserve. In addition, Food and Nutrition Magazine was higher (up \$11.0K), higher Consumer education (up \$2.2K), higher Journal costs (up \$2.9K) and all other (up \$1.4K).
- c. **Travel** – This area is **under budget** by \$29,187 in May and is **under budget** by \$530,684 for the year. The under-run in May is primarily due to lower Research projects (down \$45.7K),

lower Public Policy (down \$7.2K), lower Marketing and PR (down \$16.5K), lower Governance (down \$8.8K). This is offset by higher Nutrition Services (up \$45.7K) and higher across all other areas (up \$3.3K).

d. **Professional Fees** - This area is **under budget** by \$21,093 in May and is **under budget** by \$353,226 for the year. The under-run in May is being driven by lower Research (down \$40.4K), lower Journal (down \$6.2K), lower Informatics (down \$3.5K), lower Membership (down \$4.2K), lower Traditional Publications (down \$2.0K) and lower across all other (\$3.6K). This is offset by higher IT/web (up \$11.4K), higher Governance (up \$5.8K), costs associated with the OrgCentric review (up \$15.3K) and higher Public Policy (up \$6.3K).

e. **Postage and Mailing** - This area is **under budget** by \$9,222 in May and is **under budget** by \$107,151 for the year. The under-run for May is being driven by lower Traditional Publications (down \$15.6K) and down across all other (down \$0.1K). This is offset by higher Food and Nutrition Magazine (up \$3.2K) and higher Membership (up \$3.3K).

f. **Office Supplies and Equipment** – This area is **over budget** by \$2,159 in May and is **under budget** by \$19,811 for the year. The over-run in May is across all areas of the business.

g. **Rent and utilities** - This area is **over budget** by \$12,637 in May and is **under budget** by \$49,253 for the year. The over-run in May is primarily due higher utility costs in Chicago (up \$2.7K) and a budget distribution error for Washington (up \$9.9K). The Washington FY15 budget was spread monthly based upon FY14 expenses. The Academy was provided a credit in May of FY14 reducing expenses. When the budget was distributed, this adjustment was not taken into consideration, resulting in the budget being higher than it should have been through-out the year and lower in May. The impact for each month was small. However, the cumulative impact for May was the \$9.9K reflected here.

h. **Telephone and communications** – This is **under budget** by \$211 in May and is **under budget** by \$3,544 for the year. The under-run in May is primarily due to lower telecom charges in Chicago and Washington.

i. **Commissions** – This area is **over budget** by \$540 in May and is **under budget** by \$2,314 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since there was revenue recognized for Food and Nutrition Magazine, expenses for commissions were recognized as well.

j. **Computer Expenses** – This area is **over budget** by \$23,195 in May and is **under budget** by \$34,829 for the year. The over-run in May is due to accounting performing analysis and determining some expenses were improperly coded to capital for IT and Web. These were corrected resulting in the higher costs in May.

k. **Advertising and Promotion** – This area is **under budget** by \$4,938 in May and is **under budget** by \$58,103 for the year. The under-run in May is primarily due to lower Research (down \$1.0K), lower Traditional Publications (down \$2.4K) and lower across all other (down \$1.5K).

- l. **Insurance** – This area is under budget by \$1,249 in May and is under budget by \$9,450 for the year. The under-run in May is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is over budget by \$633 in May and is under budget by \$5,593 for the year. The over-run in May is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, the timing of capital projects will affect the amount of depreciation recognized.
- n. **Bank and trust fees** – This area is under budget by \$9,198 in May and is under budget by \$725 for the year. The under-run in May is due to lower JP Morgan bank fees.
- o. **Other** – This area is over budget by \$2,578 in May and under budget \$18,098 for the year. The over-run in May is due to lower DPG support for Quality Management (down \$15.0K). This is reflected as a negative expense. So, if this is down, then the expenses overall will be up. In addition, Food and Nutrition Magazine was higher (up \$3.8K), Public Policy was higher (up \$2.3K) and higher across all other (up \$0.6K). This is offset by lower Traditional Publications (down \$11.9K) and lower Research (down \$7.2K).
- p. **Expense allocation** – This area is unfavorable to budget by \$5,517 in May and is unfavorable to budget by \$78,261 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is under budget by \$4,441 in May and is under budget by \$230,616 for the year. The under-run in May is primarily due to lower Governance (down \$18.8K), lower Public Policy (down \$6.3K) and lower Research (down \$2.2K) offset by higher Nutrition Services Coverage (up \$21.3K) and higher across all other areas (up \$1.6K).
- r. **Legal and Audit** – This area is under budget by \$5,628 in May and is under budget by \$31,013 for the year. The under-run in May is due to lower legal expenses.
- s. **Printing** – This area is under budget by \$3,728 in May and is over budget by \$2,771 for the year. The under-run in May is due to lower Nutrition Services (down \$2.6K), lower Research (down \$2.0K) and lower across all other areas (down \$0.1K) offset by higher Membership (up \$1.0K).

So, in short, the Academy did not have a great month of May when compared to the budget. However, on a Year-to-Date basis, the Academy was able to perform better before, and after, investments.

IV. Foundation May Financial results (A2, A8 and A9)

The Foundation did not have a very good month in May. Revenue was short of the budget by \$754,097. In addition, expenses were \$193,800 higher than the budget. The result was an Operating Deficit of \$1,189,094. This was \$947,897 larger (worse) than the budget. The revenue short fall was driven by lower revenue from programs that did not renew (ConAgra.net – down \$175K, NDA – down \$150K, India diabetes program – down \$40K) and programs that did not go forward (Summit - down \$295K). The total of these programs accounts for \$655,000 of the total under-run. As for the expenses, they are over budget primarily due to the payment of the General Mills Grants. The Grants were budgeted at \$500K but, were funded to distribute \$1,000,000. This accounted for \$500,000 of the Scholarships and Awards over-run of \$564,000.

Given these issues, the larger focus should be the Year-to-Date numbers. Year-to-Date, revenue was over budget by \$508,366 even with the shortfall in May. In addition, the expenses were under-budget for the year by \$227,181. Both very good numbers.

The bottom line is the Foundation had an Operating Deficit for the Fiscal Year of \$532,773. This was \$735,547 smaller (better) than the budget. After you factor in the investment results, the Foundation had Net Income for FY15 of \$1,241,074!! This was \$1,016,595 higher (better) than the budget. This is a great result for FY15.

Finally, the Foundation's Net Assets ended the Fiscal Year at \$23,625,900. This is a great finish for the year.

V. Commission on Dietetic Registration May Financial Results (A4 and A11)

CDR had a good month in May. Revenues were slightly lower than budget. However, expenses were \$108,346 lower than the budget. The result was an Operating Deficit of \$49,976. This was \$80,069 lower (better) than the budget. Investment income of \$78,028 made the final result better. CDR had Net Income of \$28,052 which was \$158,097 higher (better) than the budget. Most of the variances are probably due to timing. The one exception may be the Examination fee costs and Examination revenue. We are still waiting to get the final numbers for both of these categories. We generally make an accrual before we close the books. We hoped to get the

information today. However, the information has not been received. So, these numbers will change.

That being said, the Year-to-Date numbers look very good. Year-to-Date, revenue was \$242,430 higher than budget. In addition, expenses were \$779,962 lower than the budget. The net result was an Operating Deficit for the Year of \$274,204. This was \$1,022,392 lower (better) than the budget. Once you factor in the Year-to-Date investment returns, CDR had Net Income of \$327,511 for the Fiscal Year. This is \$1,624,107 higher (better) than the budget. Even if the numbers change due to the Exam fees and revenues, we can expect that CDR will still have a great result for FY15!

VI. DPGs/MIGs/ACEND May Financial Results (A5 and A12)

The combined DPGS/MIGS and ACEND had a “mixed” month overall in May. Revenue was over budget by \$47,003. However, expenses were \$250,239 over budget. We are still looking at the numbers across all of the groups. Therefore, these may change. The final result for the combined groups was an Operating Deficit of \$288,889. This was \$203,235 larger (worse) than the budget. Once you factor in the Investment gains of \$81K, the combined groups had a Net Deficit of \$207,699. This was \$122,045 larger (worse) than the budget.

For those of you who may not know, it can be difficult to distribute the budgets for the DPGS and MIGS accurately throughout the year. Therefore, we generally look at the Year-to-Date numbers for these groups. As you can see, the overall Year-to-Date result is Operating Income of \$33,926. This is nearly \$763K higher (better) than the budget. Anytime you have a positive Operating Income, you are in very good shape. Once you factor into the equation the Investment results, the combined groups had Net Income of \$639,552 in FY15!! This was \$1,368,249 higher (better) than the budget. This is a great outcome. IF you look at page A16, you will see all of the DPGS/MIGS, except for one, have strong reserves. The one group, Dietitians in Business and Communications (DBC), is low, but, does have over \$90K in reserve. So, DBC is still in good financial shape.

VII. ANDPAC May Financial Results (A6 and A14)

The PAC had a good month in May. In May revenue was \$1,376 over budget. This appears to be driven by both the Membership Dues Renewal and PPW contributions. Expenses were under budget by \$15,063 primarily due to lower contributions to candidates and lower Meeting Services expenses. Essentially, the PAC didn't have any expense and due to a returned check from a

candidate, the expenses were actually negative. This doesn't happen very often, but, it can if checks are returned.

On a Year-to-Date basis, the PAC is \$6,294 below budget on revenue and \$11,586 over budget on expense. The under-run on revenue is a focus of the PAC board. The PPW results (in June) will help determine if this should be a major concern. The over-run on expense is a decision by the PAC Board to contribute more money to candidates than was budgeted. This was offset by reducing expenses across all other areas. Overall, the PAC has \$194,981 in reserve. Still very healthy and ready to be used for donations to candidates who support the goals of the profession.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. Maria will send out an email when all of this information gets posted to the portal.

I hope everyone has a great weekend.

Paul

305. RE: Finance and Audit Committee meeting on Tuesday, June 23rd at 1 p.m. CDT

From: Paul Mifsud <PMifsud@eatright.org>
To: Wolf, Kay <wolf.4@osu.edu>, Margaret Garner <MGarner@cchs.ua.edu>, DMartin@Burke.k12.ga.us <DMartin@Burke.k12.ga.us>, Jean Ragalie-Carr <jean.ragalie-carr@rosedmi.com>, lbeseler_fnc@bellsouth.net <lbeseler_fnc@bellsouth.net>, Linda.farr@me.com <Linda.farr@me.com>, Amanda Jones <amanda@justjones.es>, Heather Comstock <Heather.Comstock@bryanhealth.org>, Ksauer@ksu.edu <Ksauer@ksu.edu>

Subject: RE: Finance and Audit Committee meeting on Tuesday, June 23rd at 1 p.m. CDT
Attachment:

All,

We have the first FY16 Finance and Audit Committee meeting scheduled for Tuesday, June 23rd at 1 p.m. CDT. Please let me know if you cannot make the meeting. I want to thank everyone who participated in the orientation sessions. When the financials are posted, I hope you will find the orientation sessions helpful.

The first meeting is both different and difficult for incoming members. You will be asked to approve minutes from the May 26th meeting even though you may not have been an active member of the committee. You will also be asked to accept the final April financial results even though we may not go through them in detail at this meeting. It is just a "quirk" of the transition. The call this month will focus on the following;

1. May 26th meeting minutes
2. FAC contact and Bio information
3. 2016 FAC meeting calendar

4. 2016 FAC program of work
5. April Final Financials
6. May preliminary financials
7. Audit update

You will receive an email today from the Academy Information Technology department for the webinar participation. You will also receive an email tomorrow from Maria when all of the documents are loaded onto the portal. If you have any issues with portal access, please let me, or Maria, know.

As you all know, our pattern is to repeat information a few times before it becomes final. I generally start the process by providing a “high-level narrative” of the financial results. This will be broken into the following sections;

- I. Adjustments from the Previous Month
- II. Investment results
- III. Preliminary Academy results for the current month
- IV. Preliminary Foundation results for the current month
- V. Preliminary CDR results for the current month
- VI. Preliminary DPGS/MIGS/ACEND results for the current month
- VII. Preliminary PAC results for the current month

Keep in mind that the May results will be preliminary until the Auditors review the financials of the business and provide their report to the FAC and Board. I hope nothing will change. However, it is possible. We are in the process of scrubbing the financial data before it is provided to the Auditors. There are times we will find things. There may also be times that the Auditors don't agree with our positions. If so, then they will request changes. In the end, it is a joint effort to make sure the financials are accurate.

I hoped to have the first high-level narrative to you this morning. Unfortunately, we are still making entries for May. So, I may not complete my narrative until tomorrow morning. If I get them done by this afternoon, I will send another email. Please accept my apologies if this is an inconvenience for anyone.

Again, please look for the webinar invitation and let me know if you are not available for the call on Tuesday.

We have just received word from Elsevier that they worked ahead of schedule and that the paper has been removed from the *Journal* website. In order to ensure we are informing members in a timely fashion, we will be sending an all member email later today rather than waiting until tomorrow. If you have any questions, please contact Harold Holler (hholler@eatright.org). If members have any questions, please direct them to ppapers@eatright.org.

Best regards,

Subject: CONFIDENTIAL: Vegetarian Position Paper Removal

Importance: High

Sensitivity: Confidential

CONFIDENTIAL

In May, we brought to your attention that a strategic communication would be sent to all members related to removal of the Academy's recently published position paper on "Vegetarian Diets." The paper is being removed to address issues that were discovered after the paper was published in the May 2015 *Journal of the Academy of Nutrition and Dietetics*. The Academy Positions Committee became aware of some inaccuracies and omissions critical to the paper that need to be addressed. The APC is working to make revisions and publish the paper in the future. In the

interim, the Academy's previous position paper on "Vegetarian Diets," published in 2009, will be made available.

Following the release of the "Vegetarian Diets" position paper, the Academy Positions Committee received correspondence from respected experts in the area of vegetarian nutrition, including Academy members, expressing concern about what they cited as inaccuracies in the paper. Upon receipt of the memoranda, the APC sent the paper out for a secondary external blind, unbiased review. Based on the result of these reviews, as well as the received correspondence from experts in the field, the APC voted to remove the paper from the *Journal* with the goal to revise and publish at a future date. Until then, individuals should refer to the "Vegetarian Diets" position paper published in the July 2009 *Journal* (Volume 109, Issue 7, pages 1266-1282).

The removal process followed Elsevier's stringent review and removal process and timing, details of which include:

- Approximately 4-6 weeks is the usual timeframe from notice being sent to Elsevier to the actual removal. We are at the 4-week marker now, so are within the routine timeframe.
- Elsevier, as the custodian of the scientific record, convenes a panel of 3 experts (legal, ethics, academic) to ensure that the removal is consistent, as it can have profound legal and professional consequences; the review protects authors, Elsevier, and the Academy.
- Once a retraction or removal is launched, numerous sites, such as Retraction Watch, will post and analyze it.
- Unique to this case: Elsevier reviewers noticed that the concerns about the article were not consistent among the authors (one author was not as enthusiastic about the removal as others), so due diligence took time.
- The Elsevier reviewers also needed to determine if we are "retracting" or "removing." Retractions are for plagiarism, image manipulation, duplicate publication, and other things that do not invalidate the article. A "removal" is a more serious step, because removals mean that the content of the article is inaccurate. In case of dosages being wrong (eg, a medical article), it can be life threatening. However, the reviewers determined that our removal was not life-threatening in the present (eg, the dietary inaccuracies in the article are only life-threatening if someone adheres to the recommendations for a long period of time).

The Academy publishes approximately 8-10 evidence-based position and/or practice papers per year. A fast-evolving landscape of research and information dissemination provide opportunities

as well as challenges for authors and reviewers. The APC is using this experience as an opportunity to evaluate and strengthen processes and procedures involved in publishing evidence-based position and practice papers.

This message is being sent to the Board in advance of the paper being removed so that you are aware of the steps being taken. To help avoid confusion among members and the public, please **do not** share this message with anyone outside of the Board. We will be notifying the entire membership and posting messages to various Academy channels as soon as the paper has been officially removed tomorrow (Friday).

Best regards,

Patricia M. Babjak

Reminder: Participate in a survey for a chance to win a \$100 gift card

Having trouble viewing this e-mail? View it in your browser.

Connect with the Academy:

Dear Academy member,

We emailed you two weeks ago inviting you to take part in a survey of Academy members conducted by The Academy, IFICF and ACSM about knowledge, attitudes and practices in providing physical activity information to clients. If you have already taken the survey, no further action is required (because the survey is anonymous we cannot send a targeted reminder). If you have not yet completed the survey, we would appreciate your responses.

This anonymous survey will take 15 minutes to complete and will ask questions about your knowledge, attitudes and practices in providing physical activity information to clients. We are looking for participants (students, interns, practitioners, and educators) in all practice areas; you do NOT need to practice in sports nutrition to participate.

The survey will be open until June 26. This survey can be completed in multiple sittings but you must return using the same computer. <https://www.surveymonkey.com/s/IFICFACSMACademy>

At the conclusion of this survey you will have the opportunity to enter into a drawing for one of four \$100 amazon.com gift cards.

Please direct any questions to rhand@eatright.org.

Thank you for your participation.

Attachment:

Commission on Dietetic Registration Renewal Reminder
Having trouble viewing this e-mail? View it in your browser.

CDR Registration Maintenance Fee for the 2015-2016 year

This email is to let you know that the CDR 2015-2016 registration maintenance fee notices are being mailed and you should look for the CDR fee notice in your mailbox by July 1st.

For those RDs, RDNs and DTRs who selected the ***paperless*** fee notice option, no fee notice was mailed. By selecting the *paperless* fee notice option, you are encouraged to pay your CDR fee online.

The Academy and CDR will no longer be maintaining social security numbers (last 4 digits) for database security verification. To protect your security, we are transitioning to the use of your Date of Birth (DOB) and Mothers Maiden Name (MMN). If we do not already have this information, when you login, you will be required to add your MMN and DOB. This information will only be requested one time.

Pay online and learn more <http://www.cdrnet.org/dates-regdates>

After paying your CDR fee, dont forget to print your receipt.

Other methods of payment -

MAIL Send your \$60 payment and your 2015-2016 CDR registration maintenance fee notice to: CDR, PO Box 4727, Carol Stream IL 60197-4727, or use the courtesy reply envelope which was enclosed with your fee notice by August 31, 2015.

Please note: If you have selected the paperless fee notice option and elect to mail your CDR fee payment. A copy of your CDR fee invoice must accompany your check and/or credit card information. You can print your CDR invoice by logging into your record online. Click on the link below. You will need your Login and Web password.

https://www.cdrnet.org/auth.cfm?sign_in=true

CALL CDR 800/877-1600, ext. 5500, 8:00 am to 5:00 pm/CT and pay your CDR fee by credit

card -- American Express, Discover, VISA or MasterCard by August 31, 2015.

If your employer is submitting your fee payment, they must include a copy of your 2015-2016 CDR registration maintenance fee notice(s) for **each** RDN, RD, and NDTR, DTR employee. Failure to include the fee notice/invoice with fee payments will cause processing delays.

The CDR annual registration maintenance fee is separate and distinct from the annual Academy of Nutrition and Dietetics membership dues.

If you have paid your 2015-2016 CDR registration maintenance fee recently, please disregard this email. Thank you.

You are currently subscribed to receive CDR Renewal Reminders from the Commission on Dietetic Registration.

If you prefer not to receive future renewal emails, simply follow this link to unsubscribe.

Communication from Mary Pat Raimondi on congressional activities follows.

Joan

Joan Schwaba, MS, RDN, LDN

Director, Strategic Management
Academy of Nutrition and Dietetics
 120 S. Riverside Plaza, Suite 2000
 Chicago, Illinois 60606-6995

+++++

Dear Board of Directors,

Keeping you in the loop and a heads up....Congress is moving on several fronts.

Last night, the House Rules Committee held a hearing on Labor and Health Funding, and heard about an effort to gut nearly \$9 billion from the Prevention Fund. Energy and Commerce Ranking Member Frank Pallone (a ANDPAC recipient) testified before the Committee and spoke out in strong opposition to using the Prevention Fund as an offset to this legislation, stating that we should not eliminate one of the most effective parts of the Affordable Care Act in order to pay for other priorities.

There is nearly \$12 million funding nutrition interventions. Stef Winston and I sent an email to all members of the House to express our concern of defunding such an important public health program. We have also alerted the Public Health Committee asking for examples of successful interventions. The PPCs, LPPC and ANDPAC also have this information.

We will keep you updated on this and other issues rising up.

ON THE PULSE OF PUBLIC POLICY

More Public Policy Workshop Successes

In just one week since more than 350 Academy members took to the halls of Congress to advocate on behalf of the Academy's legislative policy priorities, 26 new House members have agreed to co-sponsor the Treat and Reduce Obesity Act. Constituents make the most difference in moving legislation: Please use Grassroots Manager to send letters to members of Congress. There is power in numbers, but only if our members take action.

Academy Member Gives Presentation at Congressional Briefing

Academy member Carol Brunzell, RDN, LD, CDE, the Diabetes Care and Education dietetic practice group's policy and advocacy leader, represented the Academy at a June 8 briefing held by the Congressional Diabetes Caucus. Her presentation showed the need for sponsoring and passing the Preventing Diabetes in Medicare Act (H.R. 1686).

[Learn More](#)

Florida Governor Signs Updated Licensure Law That Enhances RDNs' Practice

Florida Gov. Rick Scott signed HB 941 into law June 10, enabling privileged RDNs in hospitals to order therapeutic diets consistent with federal regulations to save millions of dollars and improve patient care. The bill provides greater flexibility for qualified practitioners to meet the licensure examination requirement who otherwise meet rigorous education and experience standards.

USPSTF Seeks Comments on Use of Nontraditional Risk Factors in CVD Risk Assessment

The U.S. Preventive Services Task Force posted a draft research plan on use of nontraditional risk factors in cardiovascular disease risk assessment. Academy members are asked to work with dietetic practice groups to submit input. The draft research plan is available for review and public comment from June 11 through July 8.

Additional Academy Comments: DPG Experts Needed

The Academy is considering commenting during the next month on a number of proposed regulations, regulatory guidance and information and data collections. If you are interested in contributing to the Academy's responses to these regulatory initiatives, please work with your dietetic practice groups to submit input.

Child Nutrition Reauthorization National Call-in Day

The Academy is participating June 23 in the National Call-in Day for the Child Nutrition Reauthorization Act, a critical piece of legislation needed to continue important federal nutrition programs for hungry children in need.

Comments Submitted for Nutrition Inclusion in Health Information Technology Regulations

The Academy continues to submit comments related to the Health Information Technology for Economic and Clinical Health Act regulations. Since the HITECH Act was passed in 2009, the Academy has supported efforts to promote nutrition inclusion in health IT regulations, standards and terminologies. The HITECH Act is a financial incentive/penalty program for Medicare/Medicaid "Eligible Professionals" and "Eligible Hospitals" who adopt and "meaningfully use" certified electronic health records to improve health care.

Academy Supports Food and Nutrition Services in Ryan White Program

The Academy signed on to a letter sent by the Food is Medicine Coalition to the White House Office of National AIDS Policy, encouraging increased funding for food and nutrition services provided through the Ryan White HIV/AIDS Act in the updated National HIV/AIDS Strategy.

White House Conference on Aging

The countdown is on to the 2015 White House Conference on Aging in Washington, D.C., on July 13.

CPE CORNER

New Online Certificate of Training Program: Supermarket Business and Industry Skills to Thrive in Retail Dietetics

Interest in practicing in retail settings is growing among registered dietitian nutritionists. With experts in the field of supermarket business, the Academy's Center for Professional Development has developed a new online certificate of training program to help RDNs learn business basics,

influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Professional Development, planned with the *Journal* Stats Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data, and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

June 23 Webinar: Connecting Patients to Food Assistance

How can anti-hunger organizations and health professionals coordinate to improve nutrition and health outcomes of low-income children, seniors and families? A June 23 webinar titled "Hunger and Health: Connecting Patients to Food Assistance" will help participants learn why these partnerships are promising and important; how patients systematically can be connected to food assistance; and what has made this referral process work well in different communities.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

What's in Store at FNCE?

Make plans to attend the 2015 Food & Nutrition Conference & Expo, October 3 to 6 in Nashville, Tenn. You can experience dynamic educational opportunities that are not available elsewhere; gain access to new trends, perspectives from expert speakers and applications that you can use in

practice right away; and review products and services from more than 330 exhibitors showcasing the latest in food and nutrition.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for Diversity Mini-Grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

Not receiving the *Journal*? Make Sure Your Contact Information Is Up-to-Date

To update your contact information, log in as a member at eatrightPRO.org and click on the My Profile tab located in the My Academy Toolbar. Once you're up-to-date, you'll be able to take full advantage of exclusive benefits included with membership, such as subscriptions to the *Journal of the Academy of Nutrition and Dietetics*, *Food & Nutrition Magazine®*, Daily News and much more.

Once a Fellow, Always a Fellow

Be recognized for your professional accomplishments, valuable service to the public and pursuit of lifelong learning. Becoming a Fellow of the Academy of Nutrition and Dietetics is an excellent way to showcase your expertise to employers, colleagues, clients and the public. You've earned it; now use the FAND designation to always mark your excellence.

eNCPT Tutorials and CPE

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE within the "Resources" tab.

RESEARCH BRIEFS

HHS Awards Help Primary Care Professionals Advance Heart Health

The U.S. Department of Health and Human Services announced awards of \$112 million to regional cooperatives to work with about 5,000 primary care professionals in 12 states to improve the heart health of nearly 8 million patients. The grants represent one of the largest research investments to date by the Agency for Healthcare Research and Quality.

ACADEMY MEMBER UPDATES

Presidential Profile: *Today's Dietitian*

Dr. Evelyn F. Crayton, RDN, LDN, FAND, the Academy's 2015-2016 president, was the subject of a profile in the June issue of *Today's Dietitian*, discussing her life, career path and goals as new president of the Academy. In the same issue, Dr. Glenna McCollum, MPH, RDN, the Academy's 2013-2014 president, described a typical week in the life of the Academy's president.

New Framework: Public-Private Partnerships for Research

Immediate Past President Sonja Connor, MS, RDN, LD, FAND, represented the Academy June 16 in Washington, D.C., at the unveiling of the "Transparent Actionable Framework for Public-Private Partnerships for Food and Nutrition Research." The Academy helped develop the framework with other major nutrition organizations. An article in the August *Journal of the Academy of Nutrition and Dietetics* will highlight the framework's relevance for registered dietitian nutritionists. The framework will be spotlighted at the Food & Nutrition Conference & Expo's Research Symposium.

Call for Nominations: 2016 Election

It is never too early to start thinking about the future, and the call for nominations for the Academy's 2016 national election has begun. The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

Outcomes from Spring 2015 HOD Meeting

Outcomes from the spring House of Delegates meeting have been posted for members to view. Outcomes include the final HOD motion, fact sheet, meeting minutes and workbook notes. Email hod@eatright.org with questions or concerns.

PHILANTHROPY, AWARDS AND GRANTS

Issues and Solutions: "Feeding the World" Infographic

The "Feeding the World" infographic, produced by the Foundation's Future of Food Initiative, addresses issues and solutions for food and nutrition professionals.

Handouts and Education Curricula for Healthy Food Bank Hub

Registered dietitian nutritionists and dietetic intern volunteers reviewed 100 handouts and 10 nutrition education curricula for possible inclusion in the Healthy Food Bank Hub. The handouts were vetted using the DANEH (Developing and Assessing Nutrition Education Handout) screening tool. Seventy new handouts have been posted to the Hub. Vetting criteria for education curricula were developed based on the Guide for Effective Nutrition Interventions and Education (GENIE). Eight new nutrition education curricula are available.

Foundation's Student Stipends Allow Tomorrow's RDNs to Attend FNCE

The Foundation awards stipends each year to help active Academy student members attend the Food & Nutrition Conference & Expo, thanks to the generosity of dietetic practice groups, affiliates and individual Academy members. If you would like to give aspiring registered dietitian nutritionists the opportunity to attend FNCE, please make a donation when completing the FNCE registration form or email Amy Donatell at adonatell@eatright.org.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Upcoming Weight Management Programs

Certificate of Training in Adult Weight Management Program

October 1-3, 2015 ~ Nashville, Tennessee

October 22-24, 2015 ~ Virginia Beach, Virginia

November 12-14, 2015 ~ Garden Grove (Anaheim), California

Registration Fee: \$370.00

CPE Hours Awarded: 35

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-adult-program>

Certificate of Training in Childhood and Adolescent Weight Management Program

September 10-12, 2015 ~ Buffalo, New York

Registration Fee: \$370.00

CPE Hours Awarded: 32

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-childhood-adolescent-program>

Level 2 Certificate of Training in Adult Weight Management Program

April 1-3, 2016 ~ New Brunswick, New Jersey (Registration to Open December 2015)

Registration Fee: \$445.00

CPE Hours Awarded: 50

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management/level2>

Steps to earn certificate:

1. Register for a certificate program.
2. Read pre-work materials which include research articles, resources and activities.
3. Pass multiple choice pre-test with a minimum score of 80%. The questions are based on the pre-work readings.
4. Attend a 2 1/2 day on-site workshop where you can learn and network with peers.
5. Pass a take-home multiple choice post-test with a minimum score of 80%. The questions are based on the on-site presentations and pre-work readings.

What previous participants have to say about the programs:

Because I primarily work in the clinical setting, my experience in weight management counseling has been limited. This training provided me with the framework to implement behavioral modification counseling to patients who are interested in weight loss.

D. Ahamirano, RD
Clinical Dietitian, Private Practice
Los Angeles, CA

I feel so motivated to change around my current strategies for goal setting and engaging my patients on their care/goals. I feel as though I will have an easier time monitoring and evaluating their progress.

J. Hicks, MBA, RD, LDN
Registered Dietitian
Skokie, IL

Great program. I gained valuable experience and knowledge that will benefit the patients I serve. C. Schnell, RD Pediatric Dietitian Specialist Orlando, FL Happy and motivated to learn from other health professionals that share the passion in helping our youth to grow healthy, happy and at their maximum potential.

A. Cardenas, MS, RD
Clinical Pediatrics
Los Angeles, CA

If you are unable to attend an on-site program, you may wish to consider one of our self-study modules. The modules are now available in paper and on-line versions.

Adult Weight Management Self-Study Module

For Information:

<http://cdrnet.org/weight-management/adult-module>

Childhood and Adolescent Weight Management Self-Study Module

For information:

<http://cdrnet.org/weight-management/childhood-module>

Level 2 Adult Weight Management Self-Study Module

For information:

<http://www.cdrnet.org/weight-management/level-2-module>

Joan, I got the housing and registration taken care of. What I needed to know was if you wanted me to register for the SNS DPG breakfast or you wanted the Academy to register me for the breakfast. Everything else is good with the School Nutrition Association and Patti. Thanks!

Hi Donna,

I sent an email to Patti Montague to follow-up on her communications to us regarding comp registration and housing. She had mentioned she'd have a staff member get in touch with us with the details however I have not heard anything yet.

I'll keep you posted!

Register Now for School Nutrition Services DPG's Networking Breakfast on July 13, 2015 in Salt Lake City!

SNS DPG's annual member networking breakfast, scheduled in conjunction with the School Nutrition Association's Annual National Conference, will take place on Monday, July 13, 2015 in Salt Lake City, Utah. Register now at:

[www.eatright.org/dpgevents](http://click.icptrack.com/icp/relay.php?r=16474545&msgid=732100&act=LR99&c=507087&destination=http%3A%2F%2Fwww.eatright.org%2Fdpgevents)<<http://click.icptrack.com/icp/relay.php?r=16474545&msgid=732100&act=LR99&c=507087&destination=http%3A%2F%2Fwww.eatright.org%2Fdpgevents>>.

You may register for the networking breakfast, even if you are not attending the conference. Pre-registration is required by July 8, 2015.

There will be a 20% cancellation fee for cancellations after July 9, 2015.

Date: Monday, July 13, 2015

Time: 7:30– 9:00 am

Location: Salt Palace Convention Center, Grand Ballroom D

One CPE will be provided for the educational portion of the meeting, Whole Grain Products: Menuing and Getting Kids to Like Them, sponsored by General Mills.

Speakers:

Susan Richardson, RD, LD, MBA

Director, Nutrition Services

White Bear Lake/Roseville Schools, Minnesota

William Lendway, MS, RD, CCC

Graduate Student, Department of Food Science and Nutrition, University of Minnesota

Adjunct Faculty, The Arts Institute International, Minneapolis

Description:

Expert speakers will review whole grains, their health benefits, and current dietary recommendations. They will discuss strategies for increasing whole grains in school meals, including tips for finding whole grain products and introducing them to students. School focus group findings offering operator and kid insights will be shared.

The Board "Partners" Program serves an integral role in recognizing the Academy's 2015 National Honors and Awards recipients. This partner program was developed to ensure each recipient's award experience is a positive and memorable one.

As you may recall, you volunteered after the May Board meeting to partner with one or more of the 2015 Honors and Awards recipients (see attachment). We ask that you initiate contact with your partner to extend your congratulations and offer your assistance throughout the recognition process.

Please be sure to provide your contact information to your partner, offer to personally welcome your partner at FNCE, and offer any assistance as needed.

The day, date, time, and location of your partner's award presentation is listed on the attachment. Unless your partner is a Medallion recipient, you are not required to attend your partner's

ceremony, but are welcome to if your schedule permits. Partners of Medallion recipients will present the awards during the Honors Breakfast on Sunday, October 4 (a script will be provided).

If you have any questions, please contact Matthew Novotny, Honors Committee staff liaison, by phone at 1-800-877-1600 x4827 or by email at mnovotny@eatright.org.

Best regards,

Pat

Connect with the Academy:

Dear Academy Member,

The *Journals* 7th Annual Photo Contest is open and accepting original photographs from Academy members relating to the theme of bringing the past back to life.

We are looking for photos relating to food, nutrition, and dietetics with a vintage look and feel such as photos of arrangements of antique cooking utensils, cookware, and dishes; retro place settings; and food items from the past used in the present. Be creative, let your imagination run wild, and have fun!

Find out how to submit today!

If you win, your photo will be featured on a 2016 *Journal* cover and the 2017 calendar cover. 11 other semifinalists will be featured in the calendar as well. Also, all qualifying submissions will be featured on the *Journals* website.

Deadline for Photo Submission: July 31, 2015

Finalists will be voted on by Academy members at FNCE®, October 3-6, in Nashville, TN.

We hope to see your photos soon.

Any questions? Contact us at journal@eatright.org.

Best regards,

Jason Switt

Subject: Unveiling of Principles for Food & Nutrition Research Public-Private Partnerships
Attachment: [image001.png](#)

A public unveiling of the Principles for Food and Nutrition Research Public-Private Partnerships is planned for June 16. Sonja and Academy staff Rosa Hand and Mary Beth Whalen represented the Academy at a working meeting held in December 2014 to review and revise the 12 previously published principles in order to establish prerequisite, operational and governance principles related to PPPs in nutrition research. The principles have been approved by the Academy of Nutrition and Dietetics, American Society for Nutrition, Institute of Food Technologists, International Association for Food Protection, and International Life Sciences Institute North America, collectively representing approximately 97,000 food and nutrition scientists. Sonja will be attending the public unveiling of *A Transparent, Actionable Framework for Food and Nutrition Research Public-Private Partnerships* next Tuesday in Washington, DC and will be giving remarks on behalf of the Academy, demonstrating our early commitment to this process. Mary Pat Raimondi will also be there. Additionally, the Executive Summary of the PPPs will be published in

the *Journal* in August with a companion piece written by Rosa. A session is planned at FNCE that will highlight the PPP framework and the Scientific Integrity Principles.

Best regards,

Pat

ON THE PULSE OF PUBLIC POLICY

Success at Public Policy Workshop

More than 350 members traveled to Washington, D.C., for the Academy's 2015 Public Policy Workshop. They received advocacy training and then stormed the halls of Congress on behalf of the professions legislative priorities. Members held meetings in more than 500 congressional offices, showing the power of constituents petitioning their government. Look forward to your states policy leaders bringing their skills and energy back home to meet with members of Congress and their staffs in their home districts.

Action Alert Open for 2015 PPW Legislative Issues

The Academy needs you to help move advocacy efforts forward, increase members' reimbursement and improve the public's health. An action alert has opened for each of the three major legislative issues the Academy is highlighting at the 2015 Public Policy Workshop: the Older Americans Act; the Treat and Reduce Obesity Act; and the Preventing Diabetes in Medicare Act. Please use Grassroots Manager to send letters to members of Congress. There is power in numbers - but only if members take action.

Academy Comments: DPG Experts Needed

The Academy is considering commenting during the next month on a number of proposed regulations, regulatory guidance and information and data collections. If you are interested in contributing to the Academy's responses to these regulatory initiatives, please work with your

Dietetic Practice Groups to submit input.

Energy and Commerce Committee Holds Hearing on Menu Labeling Regulation

The Committee on Energy and Commerce Subcommittee on Health held a hearing to examine the Common Sense Nutrition Disclosure Act of 2015 (H.R. 2017) that was introduced to the House April 23 and would roll back some of the progress that has been made on menu labeling.

Joint Statement Outlines Guidance on Diabetes Self-Management Education, Support

A joint position statement released June 5 by the Academy, the American Diabetes Association and the American Association of Diabetes Educators outlines when, how and what type of Diabetes Self-Management Education and Support should be delivered to patients.

CPE CORNER

June 11 Webinar: Dietary Fat, Carbohydrates and Inflammation

Learn about the role of macronutrients in initiation and propagation of inflammation and controlling inflammation with nutrients in a June 11 webinar, "Inflammation: The Roles Played by Dietary Fat and Carbohydrates."

Free Recorded 'Grassroots Marketing of MNT' Webinars

The inclusion and expansion of medical nutrition therapy coverage in private insurance plans is critical to the future of nutrition and dietetics professionals. Two recorded webinars provide information and resources to help you determine MNT benefits offered in in your current health insurance plan and successfully communicate with your self-funded employer about including or expanding MNT benefits.

New Online Certificate of Training Program: Supermarket Business and Industry Skills to Thrive in Retail Dietetics

Interest in practicing in retail settings is growing among registered dietitian nutritionists. With experts in the field of supermarket business, the Academy's Center for Professional Development has developed a new online certificate of training program to help RDNs learn business basics, influence the retail environment, create return on investment, build and nurture community and business relationships and understand the roles and responsibilities of today's retail dietitian.

[Learn More](#)

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Professional Development, planned with the Journal Stats Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data, and how they play a role in determining the appropriate statistical test to choose.

[Learn More](#)

Career Advancement with Online Certificate of Training Programs

To help registered dietitian nutritionists move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

CAREER RESOURCES

Pursue Your Dreams: Attend FNCE

FNCE inspired and motivated me to pursue my dream of being my own boss, allowing me to chart my own future. - Adair Lindsay, MS, RDN, LDN, CLT. Looking to change career paths? Attending the Academy's 2015 Food & Nutrition Conference & Expo allows you to explore topics in 15 specialty tracks, including the Leadership, Professional Skills and Career Development track. FNCE is October 3 to 6 in Nashville, Tenn.

Affiliates: Apply for Diversity Mini-Grants and Support the Profession's Growth

Affiliates have the opportunity to apply for Diversity Mini-Grants to conduct outreach to diverse students and professionals from underrepresented groups within the dietetics profession. To apply, affiliates are asked to create a Diversity Liaison position who will create one diversity outreach event during the program year.

Become a Student Leader: Now Accepting Student Liaison Applications

Build your leadership skills, boost your career and enhance your resume. Apply to represent your dietetics program by signing up as an Academy Student Liaison for the 2015-2016 membership year.

RESEARCH BRIEFS

Guideline Reviewers Needed

The Academy is seeking reviewers for the HIV/AIDS Evidence-based Nutrition Practice Guideline

Toolkit. Ideal reviewers will have experience working with the HIV/AIDS population.

Prove It with ANDHII

Do you make a difference in the lives of your patients and clients? Prove it by tracking outcomes. The Academy of Nutrition and Dietetics Health Informatics Infrastructure (ANDHII) is a Nutrition Care Process outcomes management system available free to members.

ACADEMY MEMBER UPDATES

Call for Nominations: 2016 Election

It is never too early to start thinking about the future, and the call for nominations for the Academy's 2016 national election has begun. The Nominating Committee seeks leaders with the skills and vision to further the nutrition and dietetics profession and the Academy's strategic plan. Nominations for president-elect, speaker-elect and treasurer-elect are due August 24. All other nominations are due October 10. View the available positions and download the nominations form.

Academy Member Featured at Health Is Primary Chicago City Tour

As part of the Health Is Primary campaign sponsored by the Future of Family Medicine, Academy member Mary D'Anza, RD, LDN, served as a panelist at an event in Chicago to discuss how nutrition education in primary care can improve prevention and management of chronic disease. Health Is Primary is a collaboration of leading family medicine organizations. The Academy collaborates with Health Is Primary to incorporate stories of RDNs working in primary care to help deliver on the Triple Aim of better health and quality at a lower cost.

Academy Convenes Second Meeting of Primary Care Provider Associations

As part of continued efforts to promote the value of the registered dietitian nutritionist in new primary care-centered models of health care delivery and payment, the Academy convened representatives from national Primary Care Provider associations for a daylong meeting in Chicago. Representatives from seven associations discussed opportunities to partner on initiatives to promote successful collaboration between RDNs and PCPs. The group left the meeting committed to ongoing relationships under the leadership of the Academy.

RDNs Blazing Trails in Health Care Transformation

Registered dietitian nutritionists working in Patient Centered Medical Homes, Accountable Care Organizations and health transformation initiatives recently participated in a Learning Collaborative sponsored by the Academy. RDNs are filling roles and changing how nutrition services are delivered to meet the needs of populations and health care organizations striving to improve outcomes, decrease per capita costs and focus on prevention. The Academy's Nutrition Services Coverage team is updating and developing resources for members to succeed in a new world of health care.

For Important Information and Updates, Follow the Academy on Twitter

The Academy initiates discussions, shares breaking news and relays important messages via Twitter. Follow the Academy for important information and updates: @eatrightPRO (members), @eatright (public), @kidseatright, @eatrightFNCE, @foodnutrimag (*Food & Nutrition Magazine*) and @eatrightPIA (Policy Initiatives and Advocacy).

Promote Academy Membership and Win

Help the Academy grow and share the value of membership with friends and colleagues by participating in the 2015 Promoter Program. The more new members you recruit between March 1 and September 1, the better your chances of winning a year of free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the Did someone recommend Academy membership to you? section of the 2015-2016 Academy Membership Application. New this year: a membership option for International Students. Email membership@eatright.org with questions.

PHILANTHROPY, AWARDS AND GRANTS

June Everyday Heroes

Read about the Kids Eat Right Everyday Heroes for June.

\$1 Million Champions for Healthy Kids Grants

Fifty nonprofit organizations from 23 states have each been awarded \$20,000 to support grassroots programs promoting healthy eating and active lifestyles targeted to kids and families. Over the past 12 years, the General Mills Foundation has provided \$7.5 million dollars in awards. For the second year in a row, the General Mills Foundation committed to awarding fifty \$20,000 grants.

Join Early Professionals Eat Right Society

The Foundation has created the Early Professionals Eat Right Society to complement the Eat Right Society. This giving club recognizes donors who have been in practice five years or fewer, who make annual gifts of \$50 or more to scholarships, research, Kids Eat Right or the Annual Fund. Recognition includes listing in the annual Foundation donor report, on the Foundation's website, in the *Journal* and a special donor ribbon at the Food & Nutrition Conference & Expo. More information about donating to the Foundation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Are the data underlying the U.S. dietary guidelines flawed?

The main source of dietary information used by the U.S. Government's 2015 Dietary Guidelines Advisory Committee (DGAC) is scientifically flawed because the underlying data are primarily informed by memory-based dietary assessment methods (M-BMs) (eg, interviews and surveys).

Dear Academy member,

The Academy is collaborating with The American College of Sports Medicine (ACSM) and the International Food Information Council Foundation (IFICF) to conduct a survey of Academy members about their knowledge, attitudes, and practices about providing physical activity guidance to clients. In addition the survey asks about your work in collaboration with exercise professionals. Individuals in all practice areas as well as students and retirees are encouraged to take part. This anonymous survey will take 15 minutes to complete.

The survey will be open until June 26 and we would appreciate your responses. This survey can be completed in multiple sittings but you must return using the same computer.
<https://www.surveymonkey.com/s/IFICFACSMACademy>

At the conclusion of this survey you will have the opportunity to enter into a drawing for one of four \$100 amazon.com gift cards.

Please direct any questions to rhand@eatright.org.

Thank you for your participation.

Connect with the Academy:

Tell Congress: Support the Older Americans Act, the Treat and Reduce Obesity Act and Preventing Diabetes in Medicare Act

You are the food and nutrition expert now it is time to tell Congress!

We need your voice to be heard on the Hill! Join the voices of 350 Academy members attending PPW 2015 by sending your Senators and Representative an email urging them to support these crucial bills:

- Older Americans Act:** Benefits the seniors of our community and also saves taxpayer dollars by enabling seniors to stay out of nursing homes, prevent hunger and malnutrition and manage chronic health conditions.
- Treat and Reduce Obesity Act:** Allows registered dietitian nutritionists to independently bill for obesity counseling to Medicare patients.
- Preventing Diabetes in Medicare Act:** Would expand Medicare coverage of medical nutrition therapy to include people with prediabetes, helping to reduce health care costs and improve health outcomes among the Medicare population.

Contact Congress today!

Thank you in advance for being a leader in the nations efforts toward better health.

Dr. Evelyn F. Crayton, RDN, LDN, FAND
President, 2015-2016

Congratulations go to Alison Steiber and her research team for having their abstract *Unpackaging Context Dependence in Systematic Reviews of Complex Interventions: A Methodological Approach for Managing Double-Layered Complexity* selected as a presentation at this year's 23rd Cochrane Colloquium, October 3-7 in Vienna, Austria. Deepa Handu, PhD, RD, LDN, and J. Scott Parrott, PhD, developed new methodology specific for nutrition related systematic reviews and submitted the concept as an abstract which was selected for a presentation at Cochrane – known as the top meeting for systematic reviews in the world. The expenses for the presenters are covered by the organizer. Just another cutting edge product of the Academy's Evidence Analysis Library!

[image002.jpg](#)

Over the past several months, the Executive Team and I have been working to provide the highest quality products and services to members, while securing the financial strength of the organization. During the Fiscal Year 2016 budget process, a realignment of staff was developed and shared with the Board of Directors. The reorganization will be announced to staff today.

Effective Wednesday, July 1, the following realignment of teams will take place:

- Information technology team will move to Finance and Administration
- Meetings team will move to Lifelong Learning and Professional Engagement (previously Professional Development)
- Exhibitor sales team will move to External Affairs

Effective immediately, the following positions are being eliminated:

- Director, Meeting Services, Finance and Administration

- Program Manager, Member Services
- Senior Director, Research Evidence Analysis, Research, International and Scientific Affairs
- Director, Publishing, Member Services

As you know, Harold Holler is retiring in December and we are working closely to ensure a smooth transition. The realignment of the Governance and Practice group will take place and be announced in the fall. Please remember to keep the shifts in his area confidential until it has been officially announced.

Please let me know if you have any questions.

[Academy Comments re DGAC Scientific Report.pdf](#)
[Comment Process Flowchart 2015.pdf](#)
[Board of Directors of the Academy of Nutrition and Dietetics LVH.pdf](#)
[Response to letter re DGAC comments.pdf](#)

At the May Board meeting, you were briefed on the comments submitted by the Academy to HHS and USDA on the Scientific Report of the Dietary Guidelines Advisory Committee. The Scientific Report strongly advocates for a greater emphasis on prevention, with positive changes in individual diet and physical activity behaviors to improve health outcomes. I have included our comments and Regulatory Process Flowchart that was developed and approved by the Legislative and Public Policy Committee. This process, which allows for member oversight and approval of submissions, was used during the preparation of the Academy's comments for the guidelines.

On page seven of our comments, we explicitly highlighted dietitian led intervention:

... participants in nutrition assistance programs should receive “tailored counseling to choose foods with their limited budgets that meet the Dietary Guidelines for Americans.” Registered dietitian nutritionists, as America’s food and nutrition experts, are the ideal professionals

I am also sharing two letters with you, a letter from Linda Van Horn expressing concerns regarding the Academy’s comments on saturated fat and sodium and the draft response sent to the LPPC Chair and Chair-elect for review, refinement and approval. As you may recall, the Board of Directors has delegated the approval of Academy regulatory comments to the LPPC. To clarify, our comments did not make specific recommendation or imply finality of scientific inquiry; instead our comments suggest additional considerations for HHS and USDA as they finalize the *2015 Dietary Guidelines for Americans*.

Please let me know if you have any questions. Thank you!

Best regards,

Patricia M. Babjak

Donna,

That is interesting. I have been working off of a calendar that was changed a long time ago. It is possible that you downloaded the original calendar before it could be changed. For that I apologize. I am attaching the current calendar with the June 23rd date. Since I am afraid that a few of the other dates may have changed, I ask that all of the Committee check the dates to make sure we are all using the same one. If everyone agrees on June 23rd, and the remaining dates, we will post this to the portal.

Again, I am sorry for any inconvenience.

Paul

All,

I hope everyone is having a great day. First off, I would like to welcome all of you, again, to the 2016 Finance and Audit Committee. I also want to thank all of you who attended one of our orientation sessions. I hope you found the orientation helpful.

On the 2016 Finance and Audit Committee calendar, we have a meeting scheduled for 1 p.m. CDT on June 30th. We currently have a scheduling conflict. I would like to change the meeting to June 23rd at 1 p.m. CDT. Please let me know if you have a conflict with this new date by the end of day Friday, June 5th. All of the other dates will remain the same on the calendar. I appreciate your flexibility and your patience.

Paul

Subject: RE: SNS Annual Conference--Academy Representative

Hi Joan

We are pleased to provide a complimentary registration AND and Donna Martin once again. I will ask my staff to make a list of the social events she should attend and get that over to you. Our headquarters hotel is the Grand America. We can help get Donna into that hotel. Will find out how best to coordinate that and let you know.

We do plan on attending FNCE this year in October. Will let you know who that will be once we figure it out.

Will be back in touch.

Patti

SNA Newsletter

Hi Donna,

I have reached out to SNA for registration information and will confirm with you once completed. The Academy will cover the hotel and travel expenses for you to attend. You are authorized to make your travel arrangements, please click on the following link: <https://adatvl.axo20.com/> and enter 103-5220 into the Approval Code box in the Reporting Information section. Attached is the expense report form to submit to me for your reimbursements, or you may submit online if you prefer. Also, we ask that after the event you submit a report electronically using the following link http://academybod.webauthor.com/go/form/form.cfm?xm_form_id=192. Please let me know if you need anything else.

Thank you!

Joan

Joan, I talked to Pat about attending this workshop and she said that she wanted me to go. Can you see about getting my registration from them again? They usually give one complimentary registration to the Academy. I will also need a travel authorization. Hope things are finally calming down. Thanks

Regular Rate Deadline Extended for ANC in Salt Lake City!

You have one more week to take advantage of the regular rate registration to attend the "School Nutrition Event of the Year," SNA's Annual National Conference (ANC) in Salt Lake City, July 12-15, 2015.

Don't miss the Saturday Pre-Con sessions*. In these sessions, SNA's most popular speakers will facilitate a deep dive on the hottest topics in school nutrition like serving local produce, CEP, social media, USDA foods and more! As an added bonus, if you add a Pre-Con to your ANC schedule, you'll earn 4-8 extra CEUs. Browse the Pre-Con sessions [here](#).

ANC will also feature education sessions addressing the nuts and bolts of school nutrition to hot topics from professional standards, CEP, procurement, marketing, breakfast and much more! Did you know that you can earn continuing education towards SNA's professional development programs and USDA Professional Standards at ANC? Attendees will also have access to an electronic tracking form to track all their training in each of the four key areas fundamental to SNA's educational programming and USDA Professional Standards.

Be sure to **register by June 5th** to take advantage of the regular rate for ANC – register at www.schoolnutrition.org/ANC.

**Additional registration fee required*

ON THE PULSE OF PUBLIC POLICY

During PPW: Join in the ANDPAC Activities in Washington, D.C.

Members who live in the Washington, D.C., area can get involved in nutrition advocacy and policy - even if you can't be at the 2015 Public Policy Workshop.

ANDPAC Film Festival

The Academy of Nutrition and Dietetics Political Action Committee Film Festival, held with the Hunger and Environmental Nutrition dietetic practice group, on Saturday, June 6, features the moving documentary, *Food Chains*, which captures the complexities and the human cost in our food supply chain. You can also engage with a panel of Academy leaders who are hunger policy advocates. PPW registration is not required to attend.

ANDPAC Signature Event

Spend a night on the town Monday, June 8, at the ANDPAC Signature Event. Mingle with a member of Congress who supports food and nutrition policy, and network with Academy leaders at this exclusive soirée. PPW registration is not required to attend.

Academy Offers Comments to National Center for Complementary and Integrative Health

The Academy, working with the Dietitians in Integrative and Functional Medicine dietetic practice group, has offered comments to focus research at the National Institutes of Health's National Center for Complementary and Integrative Health on important nutrition-related diet therapies,

laboratory tests and other research that is valuable for the future of the nutrition and dietetics profession. All members are encouraged to work through their DPGs and affiliates to provide input on important government initiatives.

1,000 Days Partnership Hosts 'Investing in Nutrition: A Golden Opportunity'

The 1,000 Days Partnership generates action plans in support of proper nutrition for children and mothers through the first two years of life. The partnership recently welcomed members of Congress, Olympic medalists, diplomats and Melinda Gates of the Bill & Melinda Gates Foundation to speak on maternal and childhood undernutrition. The Academy continues to advocate for numerous pieces of legislation and corresponding regulations that support the critical first thousand days in a child's life.

Pew Charitable Trusts Briefing on Food Safety

Representatives of the food industry, public sector and advocacy groups met recently to discuss implementation of the Food Safety Modernization Act of 2011. FSMA overhauls the Food and Drug Administration's approach to food safety and shifts from a reactionary approach to one of prevention. Each panelist expressed support for FSMA and all addressed the need for adequate funding in 2016 to effectively implement its provisions that prevent adulteration and contamination on farms and processing facilities.

CPE CORNER

May 28 Webinar: Vitamin D Deficiencies

In a May 28 webinar, "Vitamin D: Preventing Deficiency through Innovative Practice," learn new approaches for identifying vitamin D deficiency; differences in requirements across diverse populations; and strategies for treating deficiencies among different populations and health conditions. Learn more about the Academy's Professional Development webinar series.

June 11 Webinar: Dietary Fat, Carbohydrates and Inflammation

Learn about the role of macronutrients in initiation and propagation of inflammation and controlling inflammation with nutrients in a June 11 webinar, "Inflammation: The Roles Played by Dietary Fat and Carbohydrates."

CAREER RESOURCES

Attend FNCE for a Positive Return on Investment

Nothing can provide Academy members with a greater value than the career benefits you'll receive from attending the 2015 Food & Nutrition Conference & Expo, October 3 to 6 in Nashville, Tenn. Learn the latest scientific information on food and nutrition, discover new trends, connect with peers and access top experts. Learn how to apply your updated skills and knowledge to immediately improve your employers workplace practices and performance.

eNCPT Tutorials and CPE

Purchase the eNCPT to access the most current and up-to-date terms for nutrition care and comply with the Department of Health and Human Services mandate that clinical terminologies in EHR systems must be in SNOMED and LOINC. Also, explore free and updated NCP tutorials and accompanying CPE within the "Resources" tab.

RESEARCH BRIEFS

Systematic Review and Meta-Analysis on Lifestyle Weight Loss Interventions for Type 2 Diabetes

This study shows weight loss above 5 percent results in significant positive outcomes including improved HbA1c, lipids and blood pressure. However, frequency of visits and intensity of interventions may not be realistic for many patients. Weight loss below 5 percent did not result in beneficial metabolic outcomes.

Low and Excessive Sodium Intakes Associated with Increased Mortality

Meta-analysis of 25 studies shows daily intakes of sodium between 2,600 and 5,000 mg are associated with lower rates of all-cause mortality compared to intakes below or above that range.

ACADEMY MEMBER UPDATES

June 1: Membership Renewal Deadline

Renew your Academy membership by June 1 and remain a part of the world's largest organization of food and nutrition experts. Renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Academy Announces New International Student Membership Option

International Student membership is now available for those enrolled in a food, nutrition or dietetics educational program located and accredited outside the United States. For \$100, International Student members have access to the same benefits and services as International members.

[Learn More](#)

September 2016: International Congress of Dietetics

Granada, Spain, will host the XVII International Congress of Dietetics from September 7 to 10, 2016. The theme of ICD Granada 2016 is sustainability: protecting the environment, improving quality of life through a sustainable food industry and associating with people who promote food production in nearby geographic areas.

PHILANTHROPY, AWARDS AND GRANTS

2015-2016 Champions for Healthy Kids Grants

Read about projects that have received a total of \$1 million in grants through the Champions for Healthy Kids program for the year beginning June 1.

Join the Kids Eat Right Group on LinkedIn

The Kids Eat Right member-only subgroup of the Academy's LinkedIn Group is a great place for Academy members and Kids Eat Right volunteers to get more involved and discuss topics specifically related to children and the Kids Eat Right program. Request access and start talking with like-minded peers today.

Application Deadline Extended to May 30: Colgate Palmolive Fellowship in Nutrition, Oral Health/Dental Education

This \$15,000 grant supports research in nutrition and oral health or dental education. Non-U.S. residents may apply. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community-residing older adults. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Vegetarian Nutrition DPG Research Grant

This \$5,000 grant is given for innovative research relating to vegetarian nutrition to an individual who has been a member of the Vegetarian Nutrition dietetic practice group for at least two years. The application deadline has been extended to May 30.

All, The following e-mail did not get sent. I apologize. I attempted to send it last Thursday, but, it sat in my outbox. I should have noticed!!! I apologize for any inconvenience this may have caused you. I just assumed it made it to you. So, below this line is the e-mail I crafted last week.

Paul

All,

We have the final Finance and Audit Committee meeting scheduled for Tuesday, May 26th at 1 p.m. CDT. I hope everyone can make the meeting. For many of you, it will be the last opportunity

to “officially” abuse me!!! J so, I know you won’t want to miss it!! On a serious note; On behalf of the Finance and Accounting team here at headquarters, I want to thank all of you for another great year. I am always impressed by the level of knowledge, understanding and passion of the individuals on this Committee. This past year was no different. This Committee makes a difference. Your support, questions and insight make the Academy financially stronger. For those of you who are leaving, as the baton is passed to the FY16 Committee, you can feel comfortable that the next lap will be just as strong as this one. We have a great group of people coming onto the Committee that share your passion for the business and the profession and will carry on the great work you have done.

Now onto the financial results.

I. March Adjustments

-
We did not make any adjustments to the preliminary March results.

II. Investments

The volatility of the investment markets continues. In April, the investments regained their footing and provided the combined Academy and Foundation portfolios gains of nearly \$476,000.

Anytime you can get a positive month from investment returns is a good month! This brought the total returns, through April, to \$4,054,100. This is nicely above our budget. I am also happy to tell you that through the end of business yesterday, the investment portfolios have provided gains of \$1,010,000 for May. We still have six trading days (including today) left in May. We all know that the gains can be lost very quickly. However, I will stay optimistic that we will at least be positive for the month. If that happens, the Academy should have more in reserve than we expected when we did the forecasts for FY15 and the budgets for FY16. A higher starting balance in reserve will make it easier to achieve our budget for FY16. Essentially, if we have a higher reserve, we won’t need the seven percent to achieve our investment return goal for FY16. So, I am hoping we can retain all of the gains!!

III. Academy preliminary April Financials (A10)

Overall, when factoring into the equation investment income, the Academy was just a fraction better than the budget. The Academy's budget had a Net Deficit for the month of \$400,929. We were \$885 smaller than this value. Overall, this is good. If you look at the operational side of the equation; Revenues underperformed and were partially offset by lower expenses. This has been a common refrain for the Academy's financials this year. In April, the Academy had an Operating Deficit of \$556,853. This was \$43,329 higher (worse) than the budget. The explanation of the various categories is below. Even though this is not as good as our budget, it still puts us in a strong position to finish the year achieving our overall Operating Deficit target.

On a year to date basis, the Academy has an Operating Deficit of \$2,688,588 through April. This is \$169,515 smaller (better) than the budget. The investment returns make this picture a little better. Year to date, our investments have provided nearly \$1.5M in income and gains. This is \$220K higher than the budget. So, the bottom line is the Academy currently has a Net Deficit of \$1,229,993. This is \$389,564 smaller (better) than the budget. So, as I mentioned above, the Academy is in a strong position to achieve the overall Operating Deficit budget. Heck, the Academy might even do better!!! I will stay cautiously optimistic. We all know a lot of things happen in May.

The following is a breakdown of the various categories for February:

A. Revenues

- a. **Membership Dues** - This area is **under budget** by \$5,069 in April and is **under budget** by \$4,204 for the year. The under-run in April is being driven by lower Fellow program revenue (down \$6.0K). This is offset by higher Membership Dues revenue (up \$1.0K).
- b. **Programs and Meetings** - This area is **under budget** by \$4,876 in April and is **under budget** by \$443,596 for the year. The under-run April is due entirely to lower Professional Development revenue.
- c. **Publications and Materials** - This area is **under budget** by \$6,995 in April and is **under budget** by \$127,905 for the year. The under-run in April is primarily due to lower List rental (down \$9.7K) and lower Eatright Store (down \$4.5K) offset by higher Traditional Publications (up \$3.3K), and additional FNCE sales (up \$3.9K).
- d. **Subscriptions** – This area is **under budget** by \$51,808 in April and is **under budget** by \$364,706 for the year. The under-run in April is primarily is due to lower eNCPT (down \$42.9K) as sales are slower than budgeted and lower NCM and related products (down \$11.1K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.0K) and higher EAL (up

\$1.2K).

e. **Advertising** – This area is under budget by \$20,023 in April and under budget by \$21,308 for the year. The over-run in April is entirely due to lower Advertising revenue for the Food and Nutrition Magazine.

f. **All grants** - This area is under budget by \$193,037 in April and is under budget by \$512,629 for the year. The under-run in April is primarily due to lower Research (down \$190.5K), Guides for Practice (down \$10.0K) and lower Abbott Malnutrition (down \$18.2K). This is offset by higher recognition for ConAgra project (up \$25.7K).

g. **Sponsorships** – This area is under budget by \$28,905 in April and is under budget by \$103,289 for the year. The under-run in April is due to lower Sponsorships. As mentioned in March, since the Kraft agreement was canceled, money anticipated for the remainder of the year had to be removed. This reflects a portion of the shortfall due to Kraft and will continue in May.

h. **Other** – This area was over budget by \$886 in April and is over budget by \$90,623 for the year. There over-run in April is due to unclaimed property claimed in the state of Illinois (up \$4.8K) and higher research revenue (up \$6.0K). This is offset by lower Member benefit program revenue (down \$5.0K), lower Marketing (down \$3.0K) and lower FNCE rebates (down \$2.0K).

B. Expenses

a. **Personnel** – This area is under budget by \$47,906 in April and is under budget by \$234,923 for the year. The under-run in April is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.

b. **Publications** – This area is under budget by \$6 in April and is under budget by \$97,510 for the year. The under-run in April is primarily due to lower costs for Traditional Publications (down \$3.4K) offset by higher costs for Food and Nutrition Magazine (up \$3.4K).

c. **Travel** – This area is under budget by \$98,962 in April and is under budget by \$495,259 for the year. The under-run in April is primarily due to lower Research projects (down \$15.6K), lower Nutrition Services (down \$47.9K), lower Academy Board (down \$23.8K), lower Corporate Relations (down \$7.2K) and lower across all other programs (down \$4.5). Some of the under-runs could be due to timing.

d. **Professional Fees** - This area is under budget by \$65,480 in April and is under budget by \$332,134 for the year. The under-run in April is being driven by lower Research (down \$37.4K), lower IT/web (down \$6.7K), lower Brand Promise Marketing (down \$26.8K), lower Corporate Relations (down \$11.8K), lower Malnutrition Project (down \$7.0K), lower Member recruitment and retention (down \$7.7K) lower Guides for Practice (down \$3.2K) lower across all other (down \$3.4K). This is offset by higher costs for the crisis management team for the Kraft program (up \$15.1K) and higher costs for Licensure (up \$23.4K).

- e. **Postage and Mailing** - This area is **over budget** by \$2,756 in April and is **under budget** by \$97,929 for the year. The over-run for April is being driven by higher Food and Nutrition Magazine (up \$2.9K) offset by all other projects (down \$0.1K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$4,024 in April and is **under budget** by \$21,970 for the year. The under-run in April is due to lower copy and printing lease costs (down \$2.7K), and lower across all other projects (down \$1.3K).
- g. **Rent and utilities** - This area is **over budget** by \$1,463 in April and is **under budget** by \$61,890 for the year. The over-run in April is due to her utility costs for Chicago (up \$3.0K) offset by lower costs within our new lease in Washington DC (down \$1.5K).
- h. **Telephone and communications** – This is **over budget** by \$636 in April and is **under budget** by \$3,333 for the year. The under-run in April is primarily due to lower telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **under budget** by \$4,005 in April and is **under budget** by \$2,854 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Advertising sales revenue was lower in April. Therefore, the expenses were lower.
- j. **Computer Expenses** – This area is **under budget** by \$6,174 in April and is **under budget** by \$58,033 for the year. The under-run in April is due to lower IT and Web costs for Eatright.org (down \$2.9K) and lower web hosting costs for all other initiatives (down \$3.3K).
- k. **Advertising and Promotion** – This area is **under budget** by \$5,252 in April and is **under budget** by \$53,164 for the year. The under-run in April is primarily due to lower Research (down \$2.4K), lower Traditional Publications (down \$0.4K) and lower across all other (down \$2.5K).
- l. **Insurance** – This area is **under budget** by \$534 in April and is **under budget** by \$8,201 for the year. The under-run in April is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$2,247 in April and is **under budget** by \$6,227 for the year. The under-run in April is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized.
- n. **Bank and trust fees** – This area is **over budget** by \$744 in April and is **over budget** by \$8,473 for the year. The over-run in April is due to lower credit cards fees.

- o. **Other** – This area is **over budget** by \$29,773 in April and **under budget** \$20,676 for the year. The over-run in April is due to lower DPG support for Quality Management (down \$15.0K). This is reflected as a negative expense. So, if this is down, then the expenses overall will be up. In addition, Traditional Publications was higher (up \$11.2K) and all other programs (up \$3.6K). The Traditional Publications over-run is a timing issue.
- p. **Expense allocation** – This area is **unfavorable to budget** by \$1,947 in April and is **unfavorable to budget** by \$72,744 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is **under budget** by \$59,629 in April and is **under budget** by \$224,757 for the year. The under-run in April is primarily due to lower Nutrition Services Coverage (down \$23.9K), lower Academy Board (down \$12.0K), lower ConAgra (down \$21.8K) and lower across all other programs (down \$1.9K). Some of the under-runs could be due to timing.
- r. **Legal and Audit** – This area is **under budget** by \$2,154 in April and is **under budget** by \$25,385 for the year. The under-run in April is due to lower legal expenses. However, the expenses for the Kraft legal support has not yet been included. This may result in over-runs in legal expenses in May.
- s. **Printing** – This area is **under budget** by \$7,444 in April and is **over budget** by \$6,500 for the year. The under-run in April is due to lower Membership (down \$4.1K), lower Public Policy (down \$2.2K), and lower across all other areas (down \$1.1K).

Overall, April is a good month for the Academy thanks to lower expenses and higher investment income. Hopefully, May will reflect strong results and help close the year with ahead of our overall budgets.

IV. **Foundation (A8 and A9)**

The Foundation had a great month in April. Revenue exceeded budget expectations by \$239,993 while expenses were lower than budget by \$23,282. The result was an Operating Income of \$119,190. This was \$263,275 higher (better) than the budget. Once you factor in the investment returns of \$183.9K, the Foundation had Net Income of \$303,073. This was \$322,757 higher (better) than the budget. It was a great month for the Foundation.

The revenue was over budget primarily due to a large bequest given to the Foundation (\$250,000). Expenses had very few variances with the exception of travel (up \$13K primarily due to the timing of expenses for the Elanco project) and Scholarships and Awards (down \$17.8K primarily due to timing).

On a year to date basis, there is only one set of numbers that matter; Net Income. Net Income through April is now at \$2,203,695. This is \$1,862,418 higher (better) than budget. This is being driven by both higher revenue and lower expenses. The Foundation is running on all cylinders.

To top off the good news, on page A9, you will see that the Foundation's Net Assets have now climbed to nearly \$24.6M. Even though this is expected to decline in May due to the distribution of the General Mill Grants, the Foundation is on target to have a record breaking finish.

V. Commission on Dietetic Registration (A11)

CDR did not have a good month in April. Revenues were slightly higher than budget. However, expenses were \$79,588 higher than the budget. The result was an Operating Deficit of \$155,830. This was \$75,424 higher (worse) than budget. Investment income of \$66,241 made the final result better. CDR had a Net Deficit of \$89,589 which was \$9,183 higher (worse) than budget. Most of the variances are probably due to timing. The one exception may be the Examination fee costs. This becomes apparent when you look at the year to date numbers.

Year to date, CDR has an Operating deficit of \$224,228. This is \$942,323 smaller (better) than the budget. Once you factor in the year to date investment returns, CDR has a Net Income of \$299,459. This is \$1,466,010 larger (better) than the budget. So, CDR is performing quite well for the year and should finish FY15 much higher than they originally budgeted.

VI. DPGs/MIGs/ACEND (A12)

The combined DPGS/MIGS and ACEND had a good month overall. Revenue was under budget by \$62,418. However, expenses were \$215,519 under budget. This resulted in the combined groups having an Operating Deficit of \$7,994. This was \$153,100 smaller (better) than the budget. So, a good story. Once you factor in the Investment gains of \$69K, the combined groups had Net Income of \$60,898. This was \$221,992 higher (better) than the budget.

We generally look at the year to date numbers for these groups. As you can see, the overall result is Net Income of \$829,431. This is nearly \$1.5M higher (better) than the budget. I don't think we need to say anymore. Naturally, I will because that is who I am. If you look at page A16, you can see all of the DPGs/MIGs are in very good shape. Only Dietitians in Health Care Communities are identified as a "watch". This is not a concern since they have over \$93K in reserve.

VII. ANDPAC (A14)

The PAC continues to have some difficulties. In April, revenue was \$4,803 under budget. This appears to be driven by the Membership Dues Renewal. Hopefully, it will turn around. Expense were over budget by \$5,559 primarily due to higher contributions to candidates in April than was budgeted.

On a year to date basis, the PAC is \$7,670 below budget on revenue and \$26,649 over budget on expense. The under-run on revenue is a concern and the PAC board is looking at alternatives to raise money. The over-run on expense is a decision by the PAC Board to contribute more money to candidates than was budgeted. Overall, the PAC still has nearly \$167K in reserve. So, it is still in very good financial health.

I hope this helps with our meeting next week. If you have any questions, please let me know. You can send me an e-mail or you can call me at extension 4730 at headquarters. Remember, those of you who will be joining the Committee beginning June 1st are welcome to audit the call on Tuesday. Maria will send out an invitation to everyone by tomorrow. Also, you should all have access to the information once it is on the portal. Again, Maria will let you know when she is done posting the information.

I hope everyone has a great holiday weekend.

Paul

This is the annual weekend for auto racing with millions focused on Indy.

Charlie Kimball, Indy Car driver has had quite the weekend...**finishing third in the Indy 500 this weekend!**

For those not familiar with the story...the history is below. I love his shout out to our RDN changing a life.

Enjoy the rest of the long weekend.

July 2013

I met Charlie Kimball this week at a small dinner event where I learned the difference between an Indy and a NASCAR driver. :-) Charlie is an Indy driver rated in the top ten in the world. He often goes 220 MPH and takes only one second to go the length of a football field. He has a smile that

lights up a room. He also has Type 1 diabetes diagnosed when he was racing in England at the age of 22.

I loved his comments I introduced myself and what I do.

Charlie said

*“ Three people I cannot live without...my mom, my endocrinologist and **my nutritionist, Meg Werner Moreta.**”*

What our member has done for this young man is absolutely amazing! He has never had a hypoglycemic episode during his races watching his blood sugar along with his speed on the dashboard.

Attachment:

Commission on Dietetic Registration Renewal Reminder
Having trouble viewing this e-mail? View it in your browser.

Go Paperless for 2015-2016 Registration Maintenance Fee Notice

CDR would like to invite you to participate in the Commission on Dietetic Registration (CDR) **paperless** registration maintenance fee notification option.

Paperless Registration Maintenance Fee Notice Option

Instead of receiving your CDR registration maintenance fee notice through the mail, you will receive a series of email notifications directing you to pay online beginning June to March 31, 2016, or until your CDR fee is paid.

If you select the paperless fee notice option, it is required that you have and maintain a primary e-mail address on your CDR record at all times. *If your company has a firewall that will block emails from eatright.org, you may wish to change your primary email address to your personal email.*

To learn more and select the paperless Option 1 on or before June 4, 2015, click <http://cdrnet.org/dates-regdates/paperless>. If neither option is selected, your CDR registration maintenance fee notice will continue to be mailed.

2015-2016 CDR Registration Maintenance Fee

At this time, no CDR registration maintenance fee notice/bill is online for the 2015/2016 year. In mid-June, the 2015-2016 CDR fee invoice/notice will be available online and you can pay your fee by logging into your CDR record at <http://cdrnet.org/dates-regdates>. The annual CDR fee is \$60, and the payment due date is August 31, 2015. Once you pay your CDR 2015-2016 registration maintenance fee, be sure to print your CDR receipt.

*Note: Those RDNs, RDs, NDTRs, and DTRs whose 5-year recertification cycle is ending May 31, 2015, **will not** be billed until their Step 4-Professional Development Portfolio (PDP) Activity Log has been approved.*

Please call CDR at 800-877-1600, ext. 5500 (8am to 5pm/CT), if you have any questions. Thank you.

You are currently subscribed to receive CDR Renewal Reminders from the Commission on Dietetic Registration.

If you prefer not to receive future renewal emails, simply follow this link to unsubscribe.

Subject: Board Retreat
Attachment: [image001.png](#)
[Travel Profile Instructions.doc](#)

The Board retreat is scheduled for July 8 – July 10 in New Orleans, Louisiana at the Hyatt French Quarter. For the past several months we have been talking about focusing the retreat on strategic planning and are grateful Sandra Gill has accepted the role of facilitator. Sandra comes well qualified and has already contributed much to the Board's strategic thinking and planning efforts this past year. Her background is in healthcare consulting specializing in strategy, governance and leadership with over 800 engagements throughout the U.S. Her major areas of interest include chaos theory and implications for leadership and management; competency based adult learning and assessment approaches; and healthcare governance and leadership. She knows our challenges, opportunities, strengths and weaknesses, which will jump start deliberations. Her role as a member of the Second Century Vision Blue Ribbon Panel is also a major asset. We welcome new public member Steven Miranda to the Board and look forward to learning from his strategic planning background.

In March, you also agreed to shifting the Board orientation to the retreat and focusing it on governance. We do not yet have a facilitator selected for governance and are proposing Marla Bobowick or Liz Monroe-Cook, both familiar with our knowledge based governance model. In addition, Glenn Tecker from Tecker International, is another well-known consultant in non-profit governance. It is to our benefit to select consultants who are familiar with governance best practices/trends in large membership associations. If you have other suggestions please let me know, and I will share the suggestion(s) with the presidents on their next call scheduled for May 28. You will be receiving a flash drive in June which includes the 2015-16 *Board Handbook*.

Last year's retreat evaluations asked to limit the number of topics for adequate deliberations. We are therefore concentrating on strategic measures, identifying where we need to target our efforts; reviewing the Sponsorship Task Force recommendations; and continuing our discussion on the 100th anniversary plans and reviewing the results of the all-member Second Century Vision survey. As is our practice, representatives of CDR, ACEND, the Nominating Committee and the *Journal* Editor-in-Chief are invited to promote collaboration.

The tentative retreat schedule follows.

- Tuesday, July 7 Arrive in New Orleans

- Wednesday, July 8 8:00 am – 3:00 pm meeting

- 3:00 pm – Networking event and group dinner

- Thursday, July 9 8:00 am – 3:00 pm meeting

- 3:00 pm – Networking event and group dinner

- Friday, July 10 8:00 am – 12:00 pm

You will need to fly into the Louis Armstrong New Orleans International Airport (MSY) on Tuesday, July 7 and depart on Friday, July 10 after 12:00 pm. The airport is located approximately 16 miles (approx. 35 minutes by taxi) from the hotel. The Executive Office staff will make your hotel reservations at the Hyatt French Quarter for arrival on Tuesday, July 7 and departure on Friday, July 10, unless you request otherwise. Your hotel room will be master-billed; you will be asked to pay for incidentals. Please feel free to make your travel arrangements. To book your travel online, click on the following link: <https://adatvl.axo20.com/> and enter 103-2430 into the Approval Code box in the Reporting Information section. First time users will need to select *Create a New Account* to set up a secure password and establish a user record. Instructions are attached. If you have

any questions, please contact me or Joan Schwaba.

Best regards,

Pat

All Academy national honors and awards recipients have now been contacted, so please feel free to offer your congratulations. The list of recipients follows.

Marjorie Hulsizer Copher Award:

Penny E. McConnell, MS, RDN, SNS

Lenna Frances Cooper Memorial Lecture (presented at FNCE 2016):

Kathleen M. Zelman, MPH, RD, LD

Honorary Membership:

Michael O. Fleming, MD, FAAFP

Dan Glickman, JD

Medallion Awards:

Susan T. Borra, RD

Sari F. Edelstein, PhD, RD

Jana R. Kicklighter, PhD, RDN, LD, FAND

John A. Krakowski, MA, RD, CDN, FAND

Ainsley M. Malone, MS, RDN, LD, CNSC, FAND, FASPEN

Judith C. Rodriguez, PhD, RDN, LDN, FADA, FAND

Judith Wylie-Rosett, EdD, RD

Martin M. Yadrick, MBI, MS, RDN, FAND

Trailblazer Award:

Gilbert A. Leveille, PhD

Media Excellence Award:

Meal Makeover Moms - Janice Newell Bissex, MS, RDN & Liz Weiss, MS, RDN

Excellence in Practice Awards:

Clinical Practice

Alyce M. Thomas, RD

Community Dietetics

Alice J. Lenihan, RD, MPH, LDN

Consultation and Business Practice

Mary M. Austin, MA, RDN, CDE, FAADE

Dietetic Research

Carol Shanklin, PhD, RD

Management Practice

Veronica McLymont, PhD, RD, CDN

Attached is the final report on the assessment of ways in which food banks in the Feeding America network are participating in school breakfast promotion activities. Katie Brown presented the findings to Feeding America last week, and they were very pleased with the work we completed. The report and resources will be shared throughout the Feeding America network, and we'll be participating in a webinar about the project in July.

If you need additional information, please, let me know.

ON THE PULSE OF PUBLIC POLICY

PPW Registration Closing Wednesday, May 27

Register by Wednesday, May 27th to secure your spot at the world's largest food and nutrition policy and advocacy summit in Washington, D.C. More than 500 attendees will gain top-notch communication skills, leadership training and connections with top nutrition experts from around the country. Launch your career at PPW.

Attend the ANDPAC Film Festival in D.C.

Watch a moving documentary, *Food Chains*, and join the discussion with the film's director Sanjay Rawal at the ANDAPC Film Festival on Saturday, June 6 at 7:30 p.m. Register for the ANDPAC Film Festival today.

Register for Presentation: A Systematic Review of Consumer Food Safety Campaigns

The Partnership for Food Safety Education, of which the Academy is a partner on the Board of Directors, is hosting a Knowledge Exchange on June 17 at 1:00 p.m. EST. Dr. Patricia Borrusso, ORISE Fellow at FDA's Center for Food Safety and Applied Nutrition, will present the results of a systematic review of consumer food safety campaigns and host a Q&A with those in attendance.

Spread the Word: Fund, Re-authorize and Protect the Older Americans Act with a Week of Action!

May is Older Americans Month and from May 18-22 our colleagues in the aging community are hosting a week of education and advocacy focused on the Older Americans Act. This is a great

way to get ready for PPW, where the Older Americans Act will be one of our legislative priorities.

School Nutrition Directors Receive National Attention

Two Academy members, Dora Rivas, MS, RD, SNS, and Lydia Martin, MS, RD, LD, SNS, recently received national attention for their school nutrition programs.

CPE CORNER

May 28 Webinar: Vitamin D Deficiencies

In a May 28 webinar, "Vitamin D: Preventing Deficiency through Innovative Practice," learn new approaches for identifying vitamin D deficiency; differences in requirements across diverse populations; and strategies for treating deficiencies among different populations and health conditions. Learn more about the Academy's Professional Development webinar series.

June 11 Webinar: Dietary Fat, Carbohydrates and Inflammation

Learn about the role of macronutrients in initiation and propagation of inflammation and controlling inflammation with nutrients in a June 11 webinar, "Inflammation: The Roles Played by Dietary Fat and Carbohydrates."

ACADEMY MEMBER UPDATES

Through May 31: Renew Your Academy Membership

Renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Promote Academy Membership and Win

Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Become a Student Leader: Now Accepting Liaison Applications

Students: Build your leadership skills, boost your career and enhance your resume. Apply to represent your dietetics program by signing up as an Academy Student Liaison for the 2015-2016 membership year, starting June 1.

[Learn More](#)

US Dairy Sustainability Awards

Dairy farms and businesses are changing the equation for sustainable business practices. The Academy is one of the sponsors of the 4th Annual US Dairy Sustainability Awards. The Awards recognize outstanding dairy farms, businesses and partnerships for practices large and small that focus on the environment and promote the health and well-being of consumers, communities, cows, employees, businesses and the planet.

Sent: Monday, May 18, 2015 3:00 PM
To: Beth Labrador
Subject: Gift in honor of Mary Russell

Beth, I just donated \$50 to the foundation on line in honor of Mary Russell. I wanted it to be a thank you for all her help preceding me as Treasurer for the Academy. There was not a box to put that information in, so I wondered if you could add something to the letter or email you all send to her for me? She might be able to figure out that it is a thank you, but I wanted it to be written some how for her when she was notified. Can you help me with that? Hate to bother you, but you were the person who came to mind that might be able to help me with that. That would be a good box to add to the website donation page if you all could. I have seen it on other sites where I donate that I get to write a note. Hope things are well with you!

Academy Honors and Awards

Dear 2015-2016 BOD,

It was great having you at headquarters last week for a very productive meeting. It appears that we lost track of the National Honors and Awards Partner List assignments. Can you please choose your top 5 “partners,” in order of preference, from the list below and email their names to honors@eatright.org by May 26, 2015?

We will assign the partners and send the completed list to you at a later date. Then, you’ll be free to contact them before FNCE.

Marjorie Hulsizer Copher Award:

Penny E. McConnell, MS, RDN, SNS

Lenna Frances Cooper Memorial Lecture:

Amy G. Myrdal Miller, MS, RDN

Honorary Membership:

Michael O. Fleming, MD, FAAFP

Dan Glickman, JD

Medallion Awards:

Susan T. Borra, RD

Sari F. Edelstein, PhD, RD

Jana R. Kicklighter, PhD, RDN, LD, FAND

John A. Krakowski, MA, RDN, CDN, FAND

Ainsley M. Malone, MS, RDN, LD, CNSC, FAND, FASPEN

Judith C. Rodriguez, PhD, RDN, LDN, FADA, FAND

Judith Wylie-Rosett, EdD, RD

Martin M. Yadrick, MBI, MS, RDN, FAND

Attachment: [image002.png](#)
[Creating a Profile in aXiom.pdf](#)

The 2015 Food & Nutrition Conference & Expo™ (FNCE®) will be held October 3-6 in Nashville, Tennessee, preceded by the House Leadership Team (HLT) meeting on October 1 and the House of Delegates meeting October 2-3. The Board meeting will follow FNCE® on Wednesday, October 7 from 7:30am – 1:00pm. The Executive Office staff will make your hotel reservations at the FNCE® headquarters hotel, Omni Hotel Nashville for arrival on Thursday, October 1 and departure on Wednesday, October 7. For members of the HLT, we will make your hotel reservations for arrival on Wednesday, September 30. If your arrival and departure dates are otherwise, please notify me. Your hotel room will be master-billed; you will be asked to pay for incidentals.

Complimentary FNCE® registration opens **Monday, June 1, 2015**. Registration instructions follow.

Completing your registration online – click on this link: www.eatright.org/fnce

- 1) Click on the “For Attendees” tab.
- 2) Select the Registration link.

3) In the New Registration section on the left side, enter the registration code “NASHVIP” under your name and complete the required registration information.

You are now authorized to make your travel arrangements for FNCE®. Although the Academy offers online booking through our travel service, please feel free to make arrangements on your own; should you find lower fares, you will be fully reimbursed for your travel expenses. Booking instructions using the Academy travel service follows. First time users will need to select *Create a New Account* to establish a user record. Detailed instructions are attached.

Booking your travel online - click on this link: <https://adatvl.axo20.com/>

- 1) Log in to your account using the User ID and Password you created when setting up your profile.
- 2) Search for and select your flights (book “non-refundable” fares only)
 - a. You have the option of searching by “Price” or “Schedule”.
 - b. Click on your preferred airline if you only want to view their fares.
- 3) When asked to “Name your trip”, you are required to enter the Meeting Name –**FNCE**
- 4) When you reach the **Purchase Trip** page, enter **1032430** into the **Approval Code** box in the **Reporting Information** section.
- 5) When you reach the Payment Options section, be sure to choose the “**Use a Stored Card**” option to ensure your Academy paid travel is billed correctly.
- 6) If you need assistance, call the support team at 800/238-9049, press “1” when prompted.

Thank you!

Attachment: [2016 foundation budget FINAL with notes.ppt](#)

Donna,

Sorry for being late on this one. I have put some notes on the first 16 pages of the Foundation budget presentation for tomorrow. The detail can be handled as they come along. Again, since my spell check does not work with PowerPoint, please except my apologies for the typos. I will have the IT department fix this after this week. Let me know if you need anything else.

Paul

Hello,

By chance did anyone pick up the Honors and Awards Partner sign-up list that was circulating during the Board meeting? If so, can you email it to Barbara Visocan or me?

Thank you!

Joan

Subject: Remaining Attachments: May Board Meeting Attachments

A revised agenda and the remaining attachments for the March 6-7 Board meeting -- Agenda items 1.1, 1.2, 1.3 and 1.4 – Meeting Minutes, 1.6 – CEO's Report, and 13.0 - FY 16 Budget -- are now available on the Board of Directors' communication platform and are attached to this correspondence. These attachments were able to be included in the paper meeting packet which will be delivered on Thursday, May 7 via UPS (no signature required) to those Board members who requested one. The remaining agenda item 16.0 - Alliance Strategic Plan will be e-mailed and placed on the communications platform by Friday, May 8.

Please click on the following link

<https://academybod.webauthor.com/modules/library/library.cfm?id=12865> and enter your Academy user name and password to access the materials.

For those of you who wish to welcome your incoming Board counterpart, the Hotel Allegro hosts an evening wine hour from 5 to 6 pm in the hotel lobby. If your travel schedule allows, please feel free to take this opportunity to meet and greet the new Board members.

See you soon!

Joan

ON THE PULSE OF PUBLIC POLICY

PPW Registration Discounts End May 15

Encourage your colleagues to register for the Academy's 2015 Public Policy Workshop and save money. Time is running out: Register by Friday, May 15, and you can receive a discount up to \$155 on your registration fee. Housing accommodations at the Marriott Marquis Washington, D.C., can be made online or by phone. More information is available on the Academy's PPW website. Rooms must be reserved by 5 p.m. Eastern Time on May 15. Rooms are based on availability and may sell out prior to the deadline.

Academy Makes Recommendations for *Dietary Guidelines for Americans*

The Academy submitted comments supporting the scientific process used by the Dietary Guidelines Advisory Committee in drafting its recommendations for the 2015 *Dietary Guidelines for Americans*. The Academy's recommendations to the Departments of Agriculture and Health and Human Services include: 1) Supporting the DGAC in its decision to drop dietary cholesterol from the nutrients of concern list and recommending it similarly drop saturated fat from nutrients of concern, given lack of evidence connecting it with cardiovascular disease; 2) Expressing concern over blanket sodium restriction recommendations in light of recent evidence of potential harm to the larger population; 3) Supporting an increased focus on reduction of added sugars as a key public health concern; and 4) Asserting that enhanced nutrition education is critical to any effective implementation. The final 2015 *Dietary Guidelines for Americans* are expected to be released at the end of this year.

Senate Hearing on Child Nutrition Programs

The Senate Agriculture Committee met to discuss reauthorization of child nutrition programs, which include School Meals, WIC, Child and Adult Care Food Program, Farm to School and the Fresh Fruit and Vegetable Program. These programs provide the good nutrition necessary for children to perform to their capacity at school, which promotes healthy and productive adults. The majority of the committees hearing focused on school meals, but the successes of WIC were highlighted by Sandra Hassink, MD, FAAP, President of the American Academy of Pediatrics. Also discussed were nutrition standards for meals required by the Healthy, Hunger-Free Kids Act, specifically tiered requirements for sodium and the requirement concerning whole-grain rich foods. The Academy continues to advocate for access to nutritious foods and nutrition education in all child nutrition programs.

USDA Announces Grants for Farmers to Develop New Value-Added Products

Agriculture Secretary Tom Vilsack announced that USDA is making \$30 million available to farmers, ranchers and food entrepreneurs to develop new product lines. Funding will be made available through the Value-Added Producer Grant program, which received increased funding in the 2014 Farm Bill.

USDA Announces Grants to Enable More Farmers Markets to Serve Low-Income Families

Kevin Concannon, Under Secretary of Agriculture for Food, Nutrition and Consumer Services, announced the availability of up to \$3.3 million in competitive funding to support the ability of farmers markets to accept Supplemental Nutrition Assistance Program (SNAP) benefits provided through the USDA as a form of payment. Farmers Market SNAP Support Grants will range from \$15,000 to \$250,000 and must be designed to increase SNAP client accessibility and participation at farmers markets, and support the establishment, expansion and promotion of SNAP EBT services at farmers markets. Eligible applicants include farmers market organizations and associations; nonprofit entities; state, local and tribal nations; and other organizations engaged in farmers market management. Applications are due June 18 and grant funds will be awarded in September.

Celebrate 50 Years of Older Americans Act

During May, the Administration on Community Living is celebrating Older Americans Month with the theme "Get in the Act." Submit your story on how Older Americans Act programs have affected you, your family or your clients.

CPE CORNER

May 28 Webinar: Vitamin D Deficiencies

Research has shown inadequate vitamin D intake is associated with chronic conditions such as cancer, heart disease, stroke, fracture and autoimmunity. In a May 28 webinar, "Vitamin D: Preventing Deficiency through Innovative Practice," learn new approaches for identifying vitamin D

deficiency; differences in requirements across diverse populations; and strategies for treating deficiencies among different populations and health conditions. Learn more about the Academy's Professional Development webinar series.

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

The Academy's Center for Professional Development, planned with the Journal Stats Team, has developed a one-hour online learning module in which participants learn basic statistical concepts such as types of data and distribution of data, and how they play a role in determining the appropriate statistical test to choose. Practical scenarios are used to illustrate the appropriate use of nonparametric tests versus their parametric counterparts.

Quality Improvement Resources: New Integrated Care Certification Program

A new, voluntary Integrated Care Certification program is available for Joint Commission-accredited hospitals, critical access hospitals and ambulatory health care providers. Certification requirements emphasize building a strong foundation of structures, processes and a culture that leads to successful integration of care and improved patient outcomes. More information: email qualityhospitals@jointcommission.org.

RESEARCH BRIEFS

EAL Seeking Reviewers for HIV/AIDS Guideline

The Academy is seeking reviewers for the HIV/AIDS Evidence-based Nutrition Practice Guideline toolkit. Ideal reviewers will have experience working with the HIV/AIDS population. More information on getting involved with the Evidence Analysis Library.

Evidence Analysis Library Toolkits

The EAL offers sets of hands-on tools for registered dietitian nutritionists that support the application of evidence-based nutrition practice guidelines.

Roundtable on Population Health Improvement

The Institute of Medicine's Roundtable on Population Health Improvement fosters interdisciplinary dialogue about factors and actions needed to improve the nations health.

ACADEMY MEMBER UPDATES

Historic, Growing Membership

For the tenth consecutive year, membership in the Academy has grown to record-high levels. Membership as of April 30 was 75,708. "Our historic and growing membership shows the Academy offers the highest levels of support, benefits and services that nutrition and dietetics practitioners need to prosper in their careers," said Academy President Sonja L. Connor, MS, RDN, LD, FAND.

Through May 31: Renew Your Academy Membership

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the Did someone recommend Academy membership to you? section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Become a Student Leader: Now Accepting Liaison Applications

Students: Build your leadership skills, boost your career and enhance your resume. Apply to represent your dietetics program by signing up as an Academy Student Liaison for the 2015-2016 membership year, starting June 1.

Academy Publications and Resources Team Wins Hermes Award

The Academy's Publications and Resources Team recently won several Hermes Creative Awards, presented by the Association of Marketing and Communication Professionals. The *Journal of the Academy of Nutrition and Dietetics* received two Gold Awards, for the *Journal* Photo Contest Gallery and "What We Ate: Repasts of the Academy's Past" (Centennial Series, February 2015); and Honorable Mention for "The Academy's Military Roots Visualized" (Centennial Series, December 2014). Two Academy publications received Platinum Awards: *Health Professional's Guide to Gastrointestinal Nutrition* and *Real Solutions Weight Loss Workbook* (2nd ed.); and a Gold Award for the *Pocket Guide to the Nutrition Care Process and*

Cancer.

PHILANTHROPY, AWARDS AND GRANTS

Future of Food Smart Choices Mini-Grant Recipients

Congratulations to 25 Kids Eat Right campaign members who were selected to receive a Future of Food "Smart Choices. For a Healthy Planet" mini-grant. Each member will receive \$200 to lead two presentations from the new toolkit in their communities through June 30. The free toolkit is available for adults or mature teens, in English and Spanish. Each presentation includes a 25-minute PowerPoint presentation with leader notes, a suggested five-minute group activity and a participant handout. The toolkit was developed by RDN farmer content experts. The toolkit and mini-grant opportunity was made possible through an educational grant from Elanco. A second round of mini-grants will be available in the fall.

Resources at Food Bank Hub: Education Handouts, Recipes

The "Developing and Assessing Nutrition Education Handouts" checklist, available at the Healthy Food Bank Hub, can help you assess existing handouts or create effective new materials. Also available at the Hub are recipes and resources for eating well on a budget. The Healthy Food Bank Hub was developed through a collaborative effort between Feeding America, National Dairy Council and the Academy's Foundation.

\$1 Million in Champions for Healthy Kids Grants

Champions for Healthy Kids has awarded \$1 million in grants for programs operating from June 1, 2015, to May 31, 2016.

Application Deadline Extended to May 30: Colgate Palmolive Fellowship in Nutrition, Oral Health/Dental Education

This \$15,000 grant supports research in nutrition and oral health or dental education. Non-U.S. residents may apply. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community-residing older adults. Ideally, the award will be used to identify and solve problems pertaining to dietetic practice, program administration, service/care coordination or behavioral practices of older adults. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Vegetarian Nutrition DPG Research Grant

This \$5,000 grant is given for innovative research relating to vegetarian nutrition to an individual who has been a member of the Vegetarian Nutrition dietetic practice group for at least two years. The application deadline has been extended to May 30.

Connect with the Academy:

You are receiving this message on behalf of our Marketing Partners at ANFP.

The Association of Nutrition & Foodservice Professionals is offering Academy of Nutrition and Dietetics members a \$20 discount on the online course, HR Toolkit for Managers, during the month of May. This course offers a practical, hands-on guide to assist food service leaders with day-to-day aspects of human resource management. It explores key ideas related to recruitment and retention, performance management, employee relations, team building and engagement and other related HR competency areas.

Upon completion of this course, the following learning objectives should be achieved:

- Develop a practical, hands-on set of tools for addressing day-to-day leadership HR issues that surface in the workplace.
- Implement key strategies for boosting recruitment, retention, performance management, and team building success.
- Foster staff productivity and success through leadership, motivation, communication and workplace diversity strategies.

Successful completion of this course results in 20 continuing education credits. To purchase, visit [here](#) and enter ANFPANDTK to receive the \$20 discount.

May 12, 2015

Today's Public Policy Weekly News:

1. PPW Registration Discounts – **End Friday, May 15**
2. PPW Hotel Discounted Room Rate – **End Friday, May 15**
3. PPW 2015 Legislative Messages Recordings – **Available for PPW attendees**
4. PPW 2015 Scheduling Meetings with Members of Congress – **Submit Schedule by May 29**
5. Pre-PPW 2015 Training Webinars for **PPCs, PALs and alternate PPC/PAL** – **Register Today**
6. PPW 2015 Registration List for PPCs
7. ANDPAC Film Festival to Screen *Food Chains*
8. Dates to Remember

Important Reminder:

1. The Public Policy Weekly News Update (PPWN) contains important information about PPW 2015.

1. When you register for a WebEx webinar, you will receive a personalized confirmation email. Be sure to save the confirmation email as this is your personal registration link. Use the personal link on the day of the event to log into the webinar. Participants will earn **1 FREE CPEU (\$19 value)**.

PPW Registration Discounts End on Friday, May 15!

Encourage your colleagues to register for the Academy's Public Policy Workshop by this Friday, May 15 to save big. Time is running out for discounted registration for the **Academy's Public Policy Workshop**. Register by **Friday, May 15** and you can save up to \$155 on your registration fee.

PPW Hotel Discounted Room Rate Ends on Friday, May 15!

Housing accommodations at the Marriott Marquis Washington, DC can be made online or by phone. Visit the **Academy's Public Policy Workshop** website for housing information. You must reserve your room **no later than 5 p.m. (Eastern Time) on May 15, 2015**. Sleeping rooms are based on availability and may sellout prior to the deadline.

PPW 2015 Legislative Messages Recordings for PPW Attendees

The three messages for PPW 2015 are:

- Treat and Reduce Obesity Act
- Older Americans Act
- Preventing Diabetes in Medicare Act

A 20 minute webinar on each of the individual legislative issues has been recorded. These three webinar recordings are now available on the **Public Policy Panel COI** in PPW 2015 folder titled PPW messaging recordings and handouts. The recordings are also posted on the **Public Policy Workshop COI** for PPW attendees. **All PPW attendees are encouraged to listen the three recordings prior to Sunday, June 7**. One CPEU will be awarded for individuals who listen to all three recordings.

Once the Issue Briefs, Leave Behind materials and the talking points are finalized the materials will be posted on Public Policy Panel COI in PPW 2015 folder.

PPW 2015 Scheduling Meetings with Members of Congress

Are you having success with scheduling your meetings with your Senators and Representatives for June 9? If you are having difficulty getting appointments or have questions, please let me know.

We are requesting that once the meetings are set and you have identified who will be the lead person for each meeting that you forward a copy of your affiliate June 9 Hill Day schedule to Teresa. **We would like a copy of each affiliates schedule by Friday, May 29.**

Two sample Hill Day meeting schedule forms have been posted on the COIs , one is an Excel file and the other is a Word document. The samples can be found in the Tool Kit subtopic in the PPW2015 topic folder. You may edit, add additional items or change the documents to meet your affiliate needs. If you need assistance, please let me know.

Pre-PPW 2105 Training Webinars

The three training webinars were designed to prepare the **PPCs, PALs and alternate PPC/PAL** for PPW 2015.

If you are a PPC/PAL or alternate PPC/PAL scholarship recipient, the recordings are now available are on the **Public Policy Panel COI** in the PPW folder. Once you have listened to the recording, please send an email to Paulina. The CPEU certificate and an evaluation survey will be returned to you.

The final pre-PPW 2015 training webinar is scheduled for:

Date and Time

Event

Who to attend

Tuesday, May 19, 2015
2 – 3 p.m. (Eastern Time)

Final Preparation for PPW
Register here for the webinar.

PPC/PAL or alternate PPC/PAL are expected to attend or listen to the recording

PPW 2015 Registration List for PPCs

The list of PPW registrants as of Friday, May 8 is posted in the Public Policy Coordinator COI each week. To obtain a copy of the document go to the Library, find the PPW folder and then PPW 2015 subfolder. You can download a copy of the excel file from the subfolder.

If you have questions, please contact me,

ANDPAC Film Festival to Screen *Food Chains*

There is more interest in food these days than ever, yet there is very little interest in the hands that pick it. As nutrition professionals, we recommend a diet rich in fruits and vegetables, but how is

that food getting to our grocery cart? *Food Chains* reveals the complexity and the human cost in our food supply chain.

Join us at the ANDAPC Film Festival on Saturday, June 6 at 7:30 p.m. This event is open to all Academy members, even if you are not attending PPW. Register for the ANDPAC Film Festival today!

Dates to Remember

Tuesday, May 19, 2015, 2 p.m. (Eastern Time)

Final Preparations for PPW

Saturday, June 6, 2015, 9 a.m. – 5 p.m. (Eastern Time)

Public Policy Workshop Boot Camp

Sunday, June 7 – Tuesday, June 9, 2015

Public Policy Workshop (PPW) 2015

Dear 2015-2016 Board Members,

We have scheduled a photographer to take professional headshots on Thursday, May 14, from 7:30 a.m. until 8:30 a.m., at Headquarters. If you do not have a professional headshot or need an updated photo, we encourage you to take advantage of this opportunity.

Your professional headshot is posted with a short bio on the website, highlighted in the Opening Session acknowledgement and used in various Academy-related materials. You will also be able to use it for other professional opportunities.

Please let me know as soon as possible if you are interested. If you decide to sit for a photo, we will provide you with digital proofs to review and you will have the final photo selection.

As always, please don't hesitate to contact me with any questions or if you need additional information. Thank you very much.

Subject: 2016 Finance and Audit Committee

All,

Welcome to the FY16 Finance and Audit Committee. I have had the pleasure of working with many of you in the past. I look forward to doing so in the future. For anyone who does not know

me, we have one rule on this committee; Ask Questions. That's it. Very simple. My job is to provide the answers. If I can't do so immediately, we will find you the answers. I have always felt you can't make decisions on the right financial direction for the business if you can't get your questions answered.

As staff, our intent is to may you feel comfortable with the information we are providing to you each month. So, in order to allow you to can hit the floor running, I would like to have a short; 90 minute or so, orientation. Please check your calendars to let me know if you are available on any one of the following days and times;

1. May 19th , 10:00 – 11:30 CDT
2. May 19th , 1:30 – 3:00 CDT
3. May 21st , 10:00 – 11:30 CDT
4. May 27th , 10:00 – 11:30 CDT
5. May 27th , 1:30 – 3:00 CDT

If you can attend more than one, please rank order the choices for me. If you don't feel it is necessary to attend, please let me know that as well. I recognize some of you may be well versed in what we do.

I will also need each of you to check your calendars. The Finance and Audit Committee usually meets on the last Tuesday of each month at 1:00 p.m. Central Time unless a holiday gets in the way. If this is not good for anyone, please let me know and we will propose a different date or time. I will have a calendar out to you before the end of the fiscal year. If Tuesday works, your first official meeting will be on Tuesday, June 30th at 1:00 p.m. CDT. Please mark this on your calendars. Also, the last meeting of the FY15 Finance and Audit Committee will be held on Tuesday, May 26th at 1:00 p.m. CDT. You are welcome to audit this call. We will provide to you the information that will be discussed. In addition, Maria Juarez will provide to you access to the Finance and Audit Committee portal next week. She will notify you when she has done so.

Finally, I am attaching a Picture and Biography file. I don't have everyone's information. If you could send to me your picture (if it isn't in the file) and a short biography, that would be great. You can either put it into the attached file, or send it to me directly. A complete file will be sent back to you once we have everyone's information.

Thank you for your time. Have a great weekend.

Donna,

I forgot one more initiative that CDR is supporting. In FY16, they are providing \$25K for SOP/SOPP work. Sorry for leaving this off of the list below.

Paul

From: Paul Mifsud
Sent: Tuesday, May 05, 2015 9:40 AM
To: DMartin@Burke.k12.ga.us
Subject: RE: Budget package

Donna,

I made the changes. I am a little confused about number 4 below; The slide has an "all other" category to help in the event new requests come in during the year. The list from CDR is very short;

1. Non-Member rebate = \$1,309,050
2. QM initiatives = \$50,000 (This was \$120,000 in FY15).
3. Evidence Based Practice initiatives = \$50,000 (This was \$93,000 in FY15)
4. ANDHI support =\$100,000 (This was \$250,000 in FY15 and originally \$180,000 for FY16)
5. Overhead such as IT, Accounting, PR, Marketing, etc = \$901,416

6. Rent =\$132,287
7. Insurance = \$131,349
8. Telephone = \$37,500

Rent, Insurance and Telephone are directly paid by CDR. They do not show up as the “negative expense” reflected on the profit and loss statement. The others show up as a negative expense because they are either funding the initiative or it would be difficult to allocate costs from IT, Accounting, Marketing, to CDR. It really makes it easier.

Let me know if you have any other questions.

Paul

Subject: Re: Budget package

Paul, I think we had one of the best FAC F2F meetings we have had in awhile. I think we developed some good support from board members to help us achieve our goals. I also think they are very informed members also.

Thanks for making most of the changes we talked about. I think it will decrease some questions that might have come up if we had not made those changes. Just a few comments.

1. I am not sure why on some of the charts we put \$ signs in front of figures on some items and not on others? Revenue has dollar signs and expenses do not have dollar signs. It is not a big deal, but it just jumped out at me today. Usually, when showing a Profit and Loss, each line does not have a \$. The first and any important ones like Net and Final Surplus/Deficit. That being said, I did find a \$ that was wrong. On the variance of the Operating expenses, there should not have been one.

2., We had decided to use the term incoming chair as some of the chairs of the committees were not elected, instead of chair-elect. Changed it. I also added that it will be done in another manner.

3. All other adjustments (could you put something in the parentheses as part of an explanation?)
That is a lot of money without much info. Done

4. Slide 20 - I am not sure why you put "total additional reductions" on this slide? These are capital expenses and I do not understand why they would be referred to as reductions unless you are talking about them in terms of depreciation or in terms of we are not funding all the items they requested? I am confused by this one; I don't see "total additional reductions" on this page. WE do have a "All Other". Can you clarify this for me?

The last thing I would like to request is a list of what CDR is funding in our budget next year, so I can refer to that as I talk about the budget. ANDHI, non-member rebate, etc. Kathryn also mentioned a couple of projects that they are working on for us that are "unfunded" mandates that I would like to bring up. I know it is going to look like CDR is dropping the ball on helping us, but that is not the case. I don't think most people on the board have a clue as to how much CDR helps us financially. Although, I would love to see them come up with a little more money, I want the BOD to have the total picture.

Sorry to create more work, but it would save us time in the end if we get this info up front. I know you probably know that stuff off the top of your head, but I certainly do not.

Feel free to educate me if I do not understand any of these areas or we do not need to make the changes.

Look forward to hearing back from you

Donna,

I have updated the package for the board. I am still “massaging” the information. Bottom line is the front part will be about 22 pages. They will have the back part for their review. I would not go into the back due to the time it will take. I would recommend that you open it up for questions.

In any event, if you see something that is “not right”; let me know.

Paul

Agreed or just leave that part of the comment off. It just sends up red flags to me and I always feel like people want to know about programs ending, which is not always a bad thing. I am also concerned about the adding of new staff that we need to address that somewhere. I am not opposed to it, but think we need to address it. Especially since the opposite is happening at the Academy level.

Donna,

Got it; You are correct; there are “programs ending”. In essence, it is a poor choice of words. The programs; NEP, Future of Foods, etc are not going away. However, a few individual programs underneath these programs will be; India Project (under other), Dannon Project (under NEP), Harriet Weitzenfeld Fund project (under NEP) and EB4K will be gone. When we get this done for the Board, I think we should change the comment to “projects ending within programs”.

Thoughts?

Donna,

Answers to your questions;

1. I don't see any programs ending. Just lower expectations.
2. In May, we will cut \$1M in checks for the Foundation General Mills Grants. So, yes, this is a big part of the reduction.
3. They are adding two positions; a part time administrative assistant and a Development manager.

I hope this helps.

Paul

Paul, Sounds good, Was out of town today and could not email you back. These are the questions I have about the packet.

1. What programs are ending?
 2. Is the 1.2 million dollar difference in the 24.3M in reserves in March and to finish the year at 23.1M because of the Champions for Healthy Kids Grants being awarded?
 3. Are they adding a position, if so what is the position?
- Talk to you tomorrow.

Donna,

Answers to your questions;

1. I don't see any programs ending. Just lower expectations.
2. In May, we will cut \$1M in checks for the Foundation General Mills Grants. So, yes, this is a big part of the reduction.
3. They are adding two positions; a part time administrative assistant and a Development manager.

I hope this helps.

Paul

Paul, Sounds good, Was out of town today and could not email you back. These are the questions I have about the packet.

1. What programs are ending?
2. Is the 1.2 million dollar difference in the 24.3M in reserves in March and to finish the year at 23.1M because of the Champions for Healthy Kids Grants being awarded?
3. Are they adding a position, if so what is the position?

Talk to you tomorrow.

A revised agenda and the remaining attachments for the March 6-7 Board meeting -- Agenda items 1.1, 1.2, 1.3 and 1.4 – Meeting Minutes, 1.6 – CEO's Report, and 13.0 - FY 16 Budget -- are now available on the Board of Directors' communication platform and are attached to this correspondence. These attachments were able to be included in the paper meeting packet which will be delivered on Thursday, May 7 via UPS (no signature required) to those Board members who requested one. The remaining agenda item 16.0 - Alliance Strategic Plan will be e-mailed and placed on the communications platform by Friday, May 8.

Please click on the following link

<https://academybod.webauthor.com/modules/library/library.cfm?id=12865> and enter your Academy user name and password to access the materials.

For those of you who wish to welcome your incoming Board counterpart, the Hotel Allegro hosts an evening wine hour from 5 to 6 pm in the hotel lobby. If your travel schedule allows, please feel free to take this opportunity to meet and greet the new Board members.

See you soon!

ON THE PULSE OF PUBLIC POLICY

PPW Registration Discounts End May 15

Register for the Academy's 2015 Public Policy Workshop on or before May 15 to take advantage of discounted registration rates. PPW will feature communications experts to provide attendees with new, effective techniques to direct conversations and make sure your message is heard on Capitol Hill and on the job. Sign up today to secure your spot and advance your career and the profession.

PPW's Keynote Speaker: Food Safety Expert Barbara Kowalczyk

The Academy's 2015 Public Policy Workshop will focus on effective communications on Capitol Hill. To kick off this interactive nutrition policy and advocacy conference, Barbara B. Kowalczyk, PhD, will inspire members to advocate and activate through the power of the spoken word. Kowalczyk, a senior food safety and public health scientist at RTI International, is a recognized expert in food safety with broad experience and training in epidemiology, risk science, regulatory decision making and public policy. She is the co-founder of the Center for Foodborne Illness Research & Prevention, a national nonprofit organization dedicated to using science-based advocacy to improve the food safety system, and serves on CFI's Board of Directors. Spurred by her son's death from *E. coli* O157:H7 in 2001, Kowalczyk works to advance a more systems-based approach to food safety that promotes evidence-based decision-making from farm to fork to physician and considers the broader connectedness of human, animal and environmental health.

ANDPAC Film Festival at PPW to Screen *Food Chains*

There is more interest in food than ever, but less interest in the hands that pick it. As nutrition professionals, Academy members recommend a diet rich in fruits and vegetables - but how does that food get to consumers' grocery carts? The film *Food Chains* reveals the complexity and the human cost in our food supply chain. The film will be screened at the Public Policy Workshop's ANDPAC Film Festival on June 6. This event is open to all Academy members, including those who are not attending PPW.

Medicare Diabetes Prevention Act Introduced in Congress

The Medicare Diabetes Prevention Act has been re-introduced in the House as H.R. 2102 and in the Senate as S. 1131. This legislation would provide Medicare coverage of the National Diabetes Prevention Program, which is designed to provide evidence-based community programs to prevent Type 2 diabetes in individuals at highest risk, particularly people with prediabetes.

21st Century Cures Hearing/Legislative Document

The House Energy and Commerce Subcommittee on Health held a hearing April 30 to discuss the **21st Century Cures** discussion draft that was released the previous day. 21st Century Cures is an initiative to "close the gaps between advances in scientific knowledge about cures and the regulatory policies created to save more lives." A recording of the hearing is available, as well as written testimonies of the three witnesses. The subcommittee will continue to receive comments on the discussion draft.

Global Food Security Act of 2015 Unanimously Passes to House Floor

The Global Food Security Act of 2015 (H.R 1567) unanimously passed the House Foreign Affairs Committee, and now goes to the House floor for a vote. The bill highlights the importance of nutrition in advancing food security and authorizes the Feed the Future Initiative through September 2016.

National Quality Forum Renal Standing Committee Hosts In-Person Meeting

The full Renal Standing Committee Meeting to evaluate all submitted National Quality Forum measures has been scheduled for May 6 and May 7 at the NQF offices in Washington, D.C., and is available for streaming.

Academy Leader Speaks at Congressional Briefing on Farm to School

Academy member Donna S. Martin, EdS, RDN, SNS, FAND, school nutrition director for the Burke County (Ga.) Public Schools, spoke recently about her experiences at a briefing hosted by U.S. Reps. Jeff Fortenberry (Neb.) and Marcia Fudge (Ohio). Expansion of the Farm to School Grant program as a growth area of jobs for registered dietitian nutritionists is a recommendation of the Academy's Child Nutrition Reauthorization Work Group. Martin, the Academy's treasurer and a member of the Board of Directors, has been incorporating locally grown food into schools' menus for more than 12 years. This year, BCPS significantly expanded the number of local farmers they

source products from and the amount of local products served in school meals.

Senate Begins Discussion on Child Nutrition Programs

The Senate Agriculture Committee will hold its first hearing of the 114th Congress on May 7, examining the child nutrition programs set for reauthorization this year. The Academy's Child Nutrition Reauthorization Work Group recently released more than 20 recommendations for these child nutrition programs to be discussed.

CAREER RESOURCES

Home Food Safety Program Wins Three PR Daily Video Awards

The Academy's ConAgra Foods' Home Food Safety program recently won three 2014 PR Daily's Video Awards. These awards are the most prestigious in the PR and corporate communications industry. The winning entries include: Best Educational Video (Preparing Foods with Four Easy Steps); Best Safety Video (How to Grill Safely); and Best Animated Video Honorable Mention (Kitchen Safety Motion Graphic).

May 13 Webinar: Integrative Sports Nutrition and Supplements

As the sports nutrition field continues to evolve, new programs and theories arise for achieving optimal performance levels through nutrition and supplementation. Are these programs safe, effective and legal? Lisa Dorfman, MS, RD, CSSD, LMHC, FAND, will share her knowledge as a 30-year sports nutrition leader in a May 13 webinar, "Integrative Sports Nutrition and Supplements: Efficacy, Safety and Practical Guidelines." The webinar will outline practice strategies and appropriate and effective supplement use; and identify certification agencies, their standards and seals of approval. Learn more about the Academy's Professional Development webinar series.

Join *End Hunger in America: Stories from Across Our Nation* Project

Do you witness the impact of hunger in your community? Academy members have been asked to be part of a larger advocacy effort to tell the story of hunger in America. U.S. Rep. Rosa DeLauro (Conn.) has reached out to a diverse group of organizations to use new technology, provided by NPR's StoryCorps, to record stories about the impact of hunger. This new technology will provide a public link to your recorded story and that story will be uploaded and archived into the Library of Congress. Learn how to be a part of this effort in a May 13 webinar hosted by the Academy and the Food Research and Action Center. Listen to stories already collected by Academy member Clancy Harrison, RDN.

May 14: NDEP Webinar Series

The National Diabetes Education Program is hosting a May 14 webinar that will demonstrate how motivational interviewing can be used for effective diabetes management.

Vegetarian Diets: Updated Position Paper Published

The Academy's updated position paper "Vegetarian Diets" has been published in the May *Journal of the Academy of Nutrition and Dietetics*. It is the position of the Academy that vegetarian diets "can provide health benefits in the prevention and treatment of certain health conditions, including atherosclerosis, type 2 diabetes, hypertension and obesity. Well-designed vegetarian diets that may include fortified foods or supplements meet current nutrient recommendations and are appropriate for all stages of the life cycle, including pregnancy, lactation, infancy, childhood and adolescence. Vegetarians must use special care to ensure adequate intake of vitamin B12."

Second Century Survey: Help Plan the Future of the Profession

As the Academy celebrates its first 100 years, it is looking for members' ideas for the next 100. An Academy task force has developed a Second Century Vision statement and needs your input. In the past week, some members received a link to a survey from Debra Semans Marketing Research, seeking your thoughts on the nutrition and dietetics profession's future. If you received the survey, please set aside time for serious thought and consideration - the survey may take up to 20 to 30 minutes to complete, although it does not need to be completed in one sitting.

IOM Global Forum Workshop and Report

The Academy has a successful alliance relationship with the Institute of Medicine's Global Forum on Innovations in Health Professions Education; Kathy Kolasa, PhD, RD, LDN, and Katie Eliot, PhD, RD, LD, FAND, serve as the Academy's Alliance representatives. The Global Forum is an ongoing program that brings together stakeholders from numerous nations and professions to network, discuss and illuminate issues within health professional education. The Global Forum conducted a public workshop April 23-24 to explore recent shifts in the health industry and their implications for professional education and workforce learning. A new IOM report examines the methods needed to measure the impact of interprofessional education on collaborative practice and health and system outcomes.

RESEARCH BRIEFS

Vital Signs: Core Metrics

Thousands of measures are used to assess quality of care and more are under development (including nutrition measures, with the Academy's participation). A new report questions whether these measures could be distilled into just 15 that could be applied consistently.

Healthy Diets for Very Young Children

Have you wondered how to provide guidance on a healthful diet to children under 2? This group has traditionally not been included in the *Dietary Guidelines for Americans*, but that is changing. Learn more in the May *Journal of the Academy of Nutrition and Dietetics*.

Addressing Physical Activity Disparities

As the weather warms up, people are thinking about ways to move their physical activity outdoors or to increase physical activity. Learn from experts at the Institute of Medicine's Roundtable on Obesity Solutions about disparities in physical activity in disadvantaged communities and efforts to improve safe access to physical activity indoors and out.

ACADEMY MEMBER UPDATES

A Decade of Growth: Academy Membership Reaches Record High

For the tenth consecutive year, membership in the Academy has grown to record-high levels.

Membership as of April 30 was 75,708. "Our historic and growing membership shows the Academy offers the highest levels of support, benefits and services that nutrition and dietetics practitioners need to prosper in their careers," said Academy President Sonja L. Connor, MS, RDN, LD, FAND.

Through May 31: Renew Your Academy Membership

Now is the time to renew your Academy membership and remain a part of the worlds largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Message to Members: HOD Dialogue on Academy Sponsorship

In an email message to all Academy members on May 5, President Sonja L. Connor, MS, RDN, LD, FAND, and House Speaker Elise A. Smith, MA, RDN, LD, FAND, reported on the dialogue conducted by the House of Delegates May 2 and 3 on the Academy's Sponsorship Program. As a result of this dialogue, the HOD developed a motion requesting the Academys Sponsorship Advisory Task Force develop a plan providing clear direction to the Academy, the Foundation and all organizational units on how best to engage in sponsorship opportunities. The Sponsorship Advisory Task Force's report will be presented to the House of Delegates before or at the fall HOD meeting and will be shared with all members. The final plan will be reviewed and approved by the House of Delegates prior to being presented to the Board of Directors.

Students: Special Online Discussion with Nutrition Entrepreneurs DPG

The Student Community will hold a special discussion from May 18 to May 22 hosted by the Nutrition Entrepreneurs dietetic practice group. Drop in on the Community at any time during the week to ask questions. NE leaders will provide their unique insight on gaining entrepreneurial skills and experience; how to get the most out of your Academy membership; and more.

Academy Member Elected to Leadership Position on AMA Payment Committee

Jane V. White, PhD, RDN, LDN, FADA, FAND, a member of the Academy's Nutrition Services Payment Committee and a past Academy president and speaker of the House of Delegates, recently was elected to serve as co-chair of the American Medical Association's RVS Update Committee (RUC) Health Care Professional Advisory Committee (HCPAC). This prestigious appointment is a natural progression for White, who served as alternate co-chair for the past four

years. White has represented Academy members on the RUC HCPAC Committee for 11 years and has been instrumental in developing new codes and coding policies for RDNs in outpatient and private practice settings. She networks and interacts with officials from the Centers for Medicare and Medicaid Services and other health care professionals from national associations, and holds a voting seat on the RUC.

Oklahoma's 2015 Public Health Award Recognizes Tulsa CARES with Top Honors

Tulsa CARES received Oklahoma's 2015 Public Health Award for its role as a leading provider of nutrition, case management, housing and mental health services for northeastern Oklahomans living with HIV/AIDS. Academy member Marianne S. Wetherill, PhD, MPH, RDN, received the award with nutrition program director Micah Hartwell.

University Students Teach Kids Nutrition through Gardening

A program at East Carolina University called Seeds to Snacks "helps teach kids about eating and growing healthy foods, especially fruits and vegetables. Lessons on gardening, team building, service learning, career development and STEM are taught by ECU students, volunteers and community members at the Boys & Girls Clubs in Greenville and Winterville." Seeds to Snacks is directed by Academy member Elizabeth Wall-Bassett, PhD, RD, FAND, associate professor of nutrition science.

PHILANTHROPY, AWARDS AND GRANTS

Champions for Healthy Kids Grants

Congratulations to 50 recipients of the 2015-2016 Champions for Healthy Kids grants, provided by the Foundation through an educational grant from the General Mills Foundation. To support grassroots programs promoting healthful eating and active lifestyles targeted to kids and families, nonprofit organizations from 23 states were each awarded \$20,000. Over the past 12 years, the General Mills Foundation has provided \$7.5 million dollars in awards. For the second year in a row, General Mills committed to awarding fifty \$20,000 grants. The \$1 million in grants provide important nutrition and physical activity programming to nonprofit organizations, reaching nearly 60,000 children and youth.

Everyday Heroes

Learn more about the great work of May's Kids Eat Right Everyday Heroes.

Application Deadline Extended to May 30: Colgate Palmolive Fellowship in Nutrition, Oral Health/Dental Education

This \$15,000 grant supports research in nutrition and oral health or dental education. Non-U.S. residents may apply. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community-residing older adults. Ideally, the award will be used to identify and solve problems pertaining to dietetic practice, program administration, service/care coordination or behavioral practices of older adults. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Vegetarian Nutrition DPG Research Grant

This \$5,000 grant is given for innovative research relating to vegetarian nutrition to an individual who has been a member of the Vegetarian Nutrition dietetic practice group for at least two years. The application deadline has been extended to May 30.

Make a Difference in the Profession While Renewing Your Academy Dues

Support the Foundation's Annual Fund through the checkoff box on your Academy dues renewal form or online. Your support will enable the Foundation to continue to provide scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. Please consider a donation to the Academy Foundation of *your* profession by year-end. See the Foundation's impact on the nutrition and dietetics profession. Learn more about the Foundation or make a donation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Thanks!

--Katie

FOR RELEASE MAY 6, 2015

**CHAMPIONS FOR HEALTHY KIDS: \$1 MILLION IN GRANTS AWARDED
BY ACADEMY OF NUTRITION AND DIETETICS FOUNDATION**

CHICAGO – The Academy of Nutrition and Dietetics Foundation has announced the recipients of the 2015 Champions for Healthy Kids grants, provided through an educational grant from the General Mills Foundation.

Supporting grassroots programs that promote healthful eating and active lifestyles targeted to kids and families, 50 nonprofit organizations from 23 states were each awarded \$20,000. The \$1 million in grants will provide important nutrition and physical activity programming, reaching nearly 60,000 youth.

Learn more about the Champions for Healthy Kids recipients and a description of their projects: www.eatrightfoundation.org/foundation/championgrants.

As part of the Academy Foundation's Kids Eat Right program, the Champions for Healthy Kids grants support nonprofit organizations to implement new or expanded programs that encourage good nutrition and physical activity for kids and their families. All programs must utilize the expertise of a registered dietitian nutritionist or dietetic technician, registered who is a member of the Academy of Nutrition and Dietetics.

The 2015 Champions for Healthy Kids grant programs will reach children and families of different ethnic backgrounds, primarily African-American and Hispanic. The largest target population of the grant programs is elementary students, but many programs target preschool-age children or high school students. Programs receiving grants include community sites, school programs and before/after school programs.

Over the past 12 years, the General Mills Foundation has provided \$7.5 million in awards. In 2015, for the second year in a row, the General Mills Foundation committed to awarding 50 grants of \$20,000 each.

"We thank the General Mills Foundation for recognizing the value of locally based programs that draw on the expertise of registered dietitian nutritionists and dietetic technicians, registered in helping children get and stay healthy," said registered dietitian nutritionist and Academy Foundation Chair Terri Raymond.

"Programs funded by Champions grants are an integral part of improving the health of our nation's children," Raymond said.

Kids Eat Right is a two-tiered campaign mobilizing Academy members to participate in community and school childhood obesity prevention efforts and to educate families, communities and policy makers about the importance of nutrition. Kids Eat Right also provides Academy members with resources to become more recognized leaders in childhood obesity prevention and to raise awareness of the need to help children meet their nutrient requirements.

###

The Academy of Nutrition and Dietetics Foundation is a 501(c)3 charity devoted exclusively to nutrition and dietetics. It funds scholarships and awards, public awareness and research projects and Academy strategic initiatives, and is the largest provider of scholarships and awards in the field of dietetics. The Foundation's mission is advancing public health and nutrition utilizing the expertise of registered dietitians. Visit the Academy Foundation at www.eatrightfoundation.org.

The Academy of Nutrition and Dietetics is the world's largest organization of food and nutrition professionals. The Academy is committed to improving the nation's health and advancing the profession of dietetics through research, education and advocacy. 397. Budget package

From: Paul Mifsud <PMifsud@eatright.org>
To: DMartin@Burke.k12.ga.us <DMartin@Burke.k12.ga.us>
Sent Date: May 06, 2015 11:53:30
Subject: Budget package
Attachment: [modified Fy16 budget package for the board 050615.pptx](#)

Donna,

I made a few small changes to the budget package. Also, I will get for you some verbiage around each page. The changes I made are as follows;

1. Page 2 – In the Overview, I added a bullet under FY16 that says “ FY16 budget is expected to have a \$1K surplus after investments”. I think this is important. I am not sure why I didn’t include it previously!!!
2. Page 4 – The final Surplus/Deficit variance in the last column is actually 100.06%. So, I rounded it up to 100.1% instead of 100.0%.
3. Page 8 - I changed the box on the bottom of the page to make it a little clearer. After reading the original, I thought I could do better.
4. Page 9 – In the box, I added “and/or” *after finding new revenue growth*. I though it read better this way.
5. Page 13 – Under Other FNCE adjustments – I added the Opening Night party to the description.
6. Page 16 – In the box I capitalized Programs and Meetings.
7. Page 20 – In the box I added “ Each project will be evaluated further to identify cost savings.
8. Page 21 – I added “change” in the fourth bullet after “organizational.”
9. Page 21 – I added a bullet (5th one) that corresponds to the one I added in item 1 above.
10. Page 21 – In the last bullet; second from last sentence; I changed FY16 budget to FY16 results.

11. Page 28 – I added a ** to FY15 and FY16. I also added a description that says “** Does not include the Fellow program”

12. Page 43 – I changed the last sentence in the box at the bottom to say “These reductions were deemed necessary to achieve the Academy’s goal of a” breakeven budget”.

I know this may seem like a lot, but, they are really cosmetic. Let me know if you have any concerns.

Paul

Hi Sonja,

I spoke with Lyn regarding Pat's salary increase and she stated that based on the results of the compensation study conducted last year by PRM, the Board has done an excellent job of bringing Pat's salary in line with that of her peers. Additionally, PRM's not-for-profit survey indicates the anticipated average salary increase for association top executives is 3.3% for the current calendar year. So assuming Pat meets her performance objectives, you are good with using the projected market increase of 3.3% as a starting point which would allow her base salary to keep pace with expected market changes. However, the actual increase should be commensurate with performance, with a suggested maximum increase of 4.5% for outstanding performance.

Please let me know if you need any additional information.

Thanks,

Carrolyn

Subject: academy business

A little correction related to the section on strengths and areas for improvement!

Hi Compensation Committee – Evelyn, Glenna, Donna, Kay and Mary – and Carrolyn,

Based on your feedback, I have:

- Revised comments for two of the competencies:
 - o Driving for results – added “Plan of work needs to be provided in a more timely manner”
 - o Establishing Strategic Direction – added “Has become more strategic this year with a new COO which allows her more time for strategic visioning, revised the 3rd comment to read “A strategic plan has been in place for the Academy for a while, but I has been one with general objectives, no SMART goals and strategies to connect with the noted objectives; the strategic direction of the organization is not always clear to all stakeholders – steps to accomplish goals and measurement of the outcomes.” I removed the first comment in the earlier version because it was suggested it was not in keeping with the percentage for this competency (demonstrates 83%; needs improvement 17%) – “Exceptional performance in this area across all areas of the business.”
- Taking into account your feedback, I added the Compensation Committee Comments for strengths and areas for improvement (Probably should change the heading to Board of Directors Comments). **Please review them and send me your suggestions for revisions.** Keep in mind

that the areas for improvement should be used to create some of the performance objectives for 2015-16.

Pat will do her self-evaluation when the time is appropriate.

We need to come together sometime during the board meeting next week and decide how to proceed such as when we can have input from Lynn at PRM and when to get feedback from the board. We would then need to have a conference call to decide on base salary recommendations.

I hope you can respond in the next few days. Carrolyn, can you help us out with the PRM piece?

Subject: RE: Budget package

Paul, Thanks for making the changes. The question I have on slide 20 is about how we title the item **total** as "total additional reductions" \$986,500. We say funds are included for Capital Investments and we list them, but the total figure is described as **total additional reductions**. It is not clear to me what the reductions are? Is it because the Academy asked for more money and we reduced what we are giving them? To me it should say total Capital projects. It just did not make sense to me so I thought it might not make sense to someone else. I know I am missing something, but not sure what it was on this page?

The CDR list is very helpful. Thanks!

>>>Paul Mifsud <PMifsud@eatright.org> 5/5/2015 10:39 AM >>>
Donna,

I made the changes. I am a little confused about number 4 below; The slide has an "all other" category to help in the event new requests come in during the year. The list from CDR is very short;

1. Non-Member rebate = \$1,309,050
2. QM initiatives = \$50,000 (This was \$120,000 in FY15).
3. Evidence Based Practice initiatives = \$50,000 (This was \$93,000 in FY15)
4. ANDHI support =\$100,000 (This was \$250,000 in FY15 and originally \$180,000 for FY16)
5. Overhead such as IT, Accounting, PR, Marketing, etc = \$901,416
6. Rent =\$132,287
7. Insurance = \$131,349
8. Telephone = \$37,500

Rent, Insurance and Telephone are directly paid by CDR. They do not show up as the “negative expense” reflected on the profit and loss statement. The others show up as a negative expense because they are either funding the initiative or it would be difficult to allocate costs from IT, Accounting, Marketing, to CDR. It really makes it easier.

Let me know if you have any other questions.

Paul

Subject: Re: Budget package

Paul, I think we had one of the best FAC F2F meetings we have had in awhile. I think we developed some good support from board members to help us achieve our goals. I also think they are very informed members also.

Thanks for making most of the changes we talked about. I think it will decrease some questions that might have come up if we had not made those changes. Just a few comments.

1. I am not sure why on some of the charts we put \$ signs in front of figures on some items and not on others? Revenue has dollar signs and expenses do not have dollar signs. It is not a big deal, but it just jumped out at me today. Usually, when showing a Profit and Loss, each line does not have a \$. The first and any important ones like Net and Final Surplus/Deficit. That being said, I did find a \$ that was wrong. On the variance of the Operating expenses, there should not have been one.

2., We had decided to use the term incoming chair as some of the chairs of the committees were not elected, instead of chair-elect. Changed it. I also added that it will be done in another manner.

3. All other adjustments (could you put something in the parentheses as part of an explanation?) That is a lot of money without much info. Done

4. Slide 20 - I am not sure why you put "total additional reductions" on this slide? These are capital expenses and I do not understand why they would be referred to as reductions unless you are talking about them in terms of depreciation or in terms of we are not funding all the items they requested? I am confused by this one; I don't see "total additional reductions" on this page. WE do have a "All Other". Can you clarify this for me?

The last thing I would like to request is a list of what CDR is funding in our budget next year, so I can refer to that as I talk about the budget. ANDHI, non-member rebate, etc. Kathryn also mentioned a couple of projects that they are working on for us that are "unfunded" mandates that I would like to bring up. I know it is going to look like CDR is dropping the ball on helping us, but that is not the case. I don't think most people on the board have a clue as to how much CDR helps us financially. Although, I would love to see them come up with a little more money, I want the BOD to have the total picture.

Sorry to create more work, but it would save us time in the end if we get this info up front. I know you probably know that stuff off the top of your head, but I certainly do not.

Feel free to educate me if I do not understand any of these areas or we do not need to make the changes.

Look forward to hearing back from you

Donna,

I have updated the package for the board. I am still "massaging" the information. Bottom line is the front part will be about 22 pages. They will have the back part for their review. I would not go into the back due to the time it will take. I would recommend that you open it up for questions.

In any event, if you see something that is "not right"; let me know.

Paul

House of Delegates Sponsorship Update for Academy Members

May 5, 2015

To All Members of the Academy of Nutrition and Dietetics:

The House of Delegates conducted a dialogue on the **Academys Sponsorship Program** on May 2 and 3. As a result of this dialogue, the HOD developed a motion requesting the Academys Sponsorship Advisory Task Force develop a plan providing clear direction to the Academy, the Foundation and all organizational units on how best to engage in sponsorship opportunities.

The Sponsorship Advisory Task Forces report will be presented to the House of Delegates before or at the fall HOD meeting and will be shared with all members. The final plan will be reviewed and approved by the House of Delegates prior to being presented to the Board of Directors.

Key elements identified by the House of Delegates for inclusion in an Academy Sponsorship Plan are:

1. Development of a strategic communications plan that uses diverse strategies for outreach and input. All communications to members need to be clear and concise.
2. The Academy and the Foundation need to be transparent, with details of any agreement with a sponsor or partner fully disclosed. A sponsorship annual report and a web page outlining sponsorship details should be available for members and the public to view.
3. Sponsorship Guidelines should be developed to include the following concepts:
 - Academy or Foundation logos will not appear on food or beverage products
 - Any potential sponsors food or beverage product(s) should meet the *Dietary Guidelines for Americans*

- Opportunities should be provided for engaging smaller companies with sponsorships or partnerships
- Any potential sponsor or partner should support and promote healthy eating, the expertise of registered dietitian nutritionists and dietetic technicians, registered, and the vision, mission and goals of the Academy
- Details of any agreement with a sponsor or partner need to be fully disclosed
- Member and public input is solicited on potential sponsorship opportunities
- Effects of sponsorship, or lack thereof, on Academy and Foundation programming will be evaluated.

All Academy organizational units (including the Foundation, DPGs and MIGs) will abide by the Academy's Sponsorship Guidelines. Affiliates will be encouraged to utilize the Academy's Sponsorship Guidelines. These Guidelines will be evaluated regularly.

4. The Academy will establish a permanent sponsorship committee. Representation on the committee should include a public member and a member who has served on the Academy's Ethics Committee.

The draft HOD motion was released today for discussion by delegates. Revisions to this motion will occur over the next two weeks. Voting on a final motion will occur at the end of May. Results of the vote on this motion will be presented in early June. Members are encouraged to review the spring HOD meeting materials, including the consolidated input from the meeting and the motion, at www.eatrightpro.org/resources/leadership/house-of-delegates/about-hod-meetings.

Special thanks to all delegates who participated in this meeting and provided insightful input on this issue on behalf of members.

Elise A. Smith, MA, RDN, LD, FAND, Speaker, House of Delegates
Sonja L. Connor, MS, RDN, LD, FAND, Academy President

Good grief!!!! I am an idiot!! I did not notice that. I am so sorry. It should say "total capital". Consider it changed.

Paul

From: DMartin@Burke.k12.ga.us
Sent: Tuesday, May 05, 2015 10:06 AM
To: Paul Mifsud
Subject: RE: Budget package

Paul, Thanks for making the changes. The question I have on slide 20 is about how we title the item **total** as "total additional reductions" \$986,500. We say funds are included for Capital Investments and we list them, but the total figure is described as **total additional reductions**. It is not clear to me what the reductions are? Is it because the Academy asked for more money and we reduced what we are giving them? To me it should say total Capital projects. It just did not make sense to me so I thought it might not make sense to someone else. I know I am missing something, but not sure what it was on this page?
The CDR list is very helpful. Thanks!

>>>Paul Mifsud <PMifsud@eatright.org> 5/5/2015 10:39 AM >>>

Donna,

I made the changes. I am a little confused about number 4 below; The slide has an "all other" category to help in the event new requests come in during the year. The list from CDR is very short;

1. Non-Member rebate = \$1,309,050
2. QM initiatives = \$50,000 (This was \$120,000 in FY15).
3. Evidence Based Practice initiatives = \$50,000 (This was \$93,000 in FY15)
4. ANDHI support =\$100,000 (This was \$250,000 in FY15 and originally \$180,000 for FY16)
5. Overhead such as IT, Accounting, PR, Marketing, etc = \$901,416
6. Rent =\$132,287
7. Insurance = \$131,349
8. Telephone = \$37,500

Rent, Insurance and Telephone are directly paid by CDR. They do not show up as the "negative expense" reflected on the profit and loss statement. The others show up as a negative expense because they are either funding the initiative or it would be difficult to allocate costs from IT, Accounting, Marketing, to CDR. It really makes it easier.

Let me know if you have any other questions.

Paul

Subject: Re: Budget package

Paul, I think we had one of the best FAC F2F meetings we have had in awhile. I think we developed some good support from board members to help us achieve our goals. I also think they are very informed members also.

Thanks for making most of the changes we talked about. I think it will decrease some questions that might have come up if we had not made those changes. Just a few comments.

1. I am not sure why on some of the charts we put \$ signs in front of figures on some items and not on others? Revenue has dollar signs and expenses do not have dollar signs. It is not a big deal, but it just jumped out at me today. Usually, when showing a Profit and Loss, each line does not have a \$. The first and any important ones like Net and Final Surplus/Deficit. That being said, I did find a \$ that was wrong. On the variance of the Operating expenses, there should not have been one.

2., We had decided to use the term incoming chair as some of the chairs of the committees were not elected, instead of chair-elect. Changed it. I also added that it will be done in another manner.

3. All other adjustments (could you put something in the parentheses as part of an explanation?) That is a lot of money without much info. Done

4. Slide 20 - I am not sure why you put "total additional reductions" on this slide? These are capital expenses and I do not understand why they would be referred to as reductions unless you are talking about them in terms of depreciation or in terms of we are not funding all the items they requested? I am confused by this one; I don't see "total additional reductions" on this page. WE do have a "All Other". Can you clarify this for me?

The last thing I would like to request is a list of what CDR is funding in our budget next year, so I can refer to that as I talk about the budget. ANDHI, non-member rebate, etc. Kathryn also mentioned a couple of projects that they are working on for us that are "unfunded" mandates that I would like to bring up. I know it is going to look like CDR is dropping the ball on helping us, but that is not the case. I don't think most people on the board have a clue as to how much CDR helps us financially. Although, I would love to see them come up with a little more money, I want the BOD to have the total picture.

Sorry to create more work, but it would save us time in the end if we get this info up front. I know you probably know that stuff off the top of your head, but I certainly do not.

Feel free to educate me if I do not understand any of these areas or we do not need to make the changes.

Look forward to hearing back from you

Donna,

I have updated the package for the board. I am still "massaging" the information. Bottom line is the front part will be about 22 pages. They will have the back part for their review. I would not go into the back due to the time it will take. I would recommend that you open it up for questions.

In any event, if you see something that is "not right"; let me know.

Paul

Subject: May Board Meeting Attachments
Attachment:

The agenda and the corresponding attachments for the May 13-14 Board meeting are now available on the Board of Directors' communication platform. Please click on the following link <https://academybod.webauthor.com/modules/library/library.cfm?id=12865> and enter your Academy user name and password to access the materials. The attachments for agenda items 1.1, 1.2 and 1.3 – Meeting Minutes, 1.5 – CEO's Report, 13.0 - FY 16 Budget and 16.0 - Alliance Strategic Plan will be e-mailed and placed on the communications platform by Wednesday, May 6. These attachments will not be included in the paper meeting packet which will be delivered on Thursday, May 7 via UPS (no signature required) to those Board members who requested one.

As is our procedure, committee, workgroup and task force reports are placed on the Board portal <http://academybod.webauthor.com> in the black menu bar under the *Library* tab>*Committee, Work Groups and Task Forces*. Reports will be uploaded as we receive them instead of waiting for Board meetings. Please reply to all if you have any questions or if a report needs full member discussion at the Board meeting.

We welcome President-elect Lucille Beseler, incoming Director-at-Large Michele Delille Lites, Speaker-elect Linda Farr, incoming Foundation Chair Jean Ragalie-Carr and incoming HOD Director Tamara Randall to the meeting! We have a number of guests who will be joining us: William Murphy, Senior Manager of Outcomes Research, and Robert Voss, Nutrition Care Process Manager, will present the Strategic Measures; Marla Bobowick, Senior Governance Consultant for BoardSource, will lead a discussion on this year's Board self-assessment results; Charlotte Hayes, chair of the Legislative and Public Policy Committee, and Denise Andersen, chair of the Academy's Political Action Committee, will provide committee reports via telephone; Kathy McClusky, chair of the Sponsorship Task Force, will present a task force report; and Mary Gregoire, Executive Director of the Accreditation Council for Education in Nutrition and Dietetics (ACEND) will present an update on the ACEND Education Model.

Reservations have been made at the Hotel Allegro, 171 West Randolph Street, for arrival on May 12, unless you request otherwise. Your hotel room will be master-billed, but you will be asked to pay for incidentals.

The Board celebration dinner for current and incoming Board members and staff attending the meeting is scheduled for Wednesday, May 13 from 6:30pm - 9:00pm at The Kitchen, 316 North Clark Street, phone 312-836-1300, a short walk from the hotel. Please let me know if you will bring a guest. The attire for the meeting, including dinner, is business casual.

I look forward to seeing you!

Best regards,

Joan

[Table Seating - HOD Platform - 042915.pdf](#)

[Attendee cover sheet.docx](#)

Date: April 30, 2015

To: Board of Directors, Academy Committee Representatives, Sponsorship
Advisory Task Force Members, and Students

From: Elise Smith, MA, RDN, LD,
FAND, House of Delegates Speaker, 2014-2015

Subject: Spring 2015 HOD Meeting Materials

The House Leadership Team and I would like to thank you for agreeing to participate in the Spring 2015 HOD Virtual Meeting on May 2 and May 3, 2015. The House of Delegates has recently decided to discuss the "Academy's Sponsorship Program" on both days of the meeting. In preparation for the meeting, the following materials should be reviewed and can be found at <http://www.eatrightpro.org/resources/leadership/house-of-delegates/about-hod-meetings> >Spring 2015 Meeting Materials:

- Agenda
- Ground Rules
- Consolidated Comments from Delegates Posted on the HOD Platform
- Consolidated Emails from Members
- Table Seating Chart (without phone numbers)
- Scientific Integrity Principles
- Sponsorship Task Force Proposed Recommendations
- Academy Sponsorship Webinar
- Academy Sponsorship Fact Sheet

In addition, two attachments are being shared with you via this communication:

- Information for connecting to the webinar and conference call number needed to meet as a large group (Attendee Cover Sheet)
 - Table seating chart with the conference call number needed to meet in your small, virtual tables.
- This information is not being posted to the Academy website as the webinar and teleconference information is limited to those participating in the Spring 2015 HOD Virtual Meeting.

Spring House of Delegates Meeting Logistics:

- The meeting will run from 12:00 pm-4:00 pm CT on both days, for a total of 8 hours of required participation.
- At 11:50 am CT, log in to the webinar at <https://eatright.webex.com/eatright/j.php?MTID=m96db257d696ed5cde3b54d56b64dc111> and call into the large conference call line at 1-866-477-4564; Conference Code- 958-218-2301#.
- When instructed, use your table seating chart to call into your small, virtual table discussions.
- Leave the webinar portion connected during the entire meeting.
- CPEUs will be provided to meeting participants for attending the meeting.

For More Information or Assistance

Contact Elise Smith (easaden@aol.com), or Cecily Byrne (cbyrne@eatright.org | 800/877-1600 ext 4819).

Correction: Experience ANDPAC's Signature Event

Having trouble viewing this e-mail? View it in your browser.

The previous email regarding this event contained an incorrect link for the registration page. Below is the corrected link. We apologize for the confusion.

Please join us for the exclusive ANDPAC Signature Event at the world-class facility, the National Press Club, on Monday, June 8 at 6:30 p.m. .

Mingle with invited guests, Senator Susan Collins (Maine) and Representative Collin Peterson (Minn.).

This event is open to all Academy members and **does not require PPW attendance**. A ticket to the event can be secured with a contribution of **\$125 to ANDPAC!***

Event Details:

When: Monday, June at 6:30 p.m. 8 p.m.

Where: National Press Club, 529 14th St. NW, 13th Floor, Washington, D.C.

Why: To experience one of the most notable ANDPAC social gatherings of the year!

To register follow these instructions:

1. Go to the registration page
2. Click "Register" at the bottom of the page
3. If you are already registered for PPW, click the "Proceed with Registration" button
4. Under "Event Fees" unclick the "Active Member - 2015 PPW" button so you are not charged for PPW registration
5. Under "Sessions" scroll to "ANDPAC Signature Event \$125 Donation" to check the box.
6. Proceed with checkout.

Questions? Email ppw@eatright.org.

Federal law requires political committees to report to Federal Election Commission the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year. Corporate contributions are prohibited by law.

Individuals can not contribute more than \$2000 per calendar year to the same political action committee. **Donations to ANDPAC are not tax deductible.**

Communication from Mary Beth Whalen follows below.

Joan

Joan Schwaba, MS, RDN, LDN

Director, Strategic Management

+++++

The work on the 100th Anniversary, Second Century Vision continues. The process began in 2011 at a meeting of the Academy Past Presidents and Foundation Chairs at FNCE and has included feedback from Academy thought leaders, external key opinion leaders (Blue Ribbon Panel), Academy Executive team and both boards. We appreciate everyone who has contributed to the heavy lifting that has brought us to this place.

As we reported to the Board, we will be collecting membership feedback on the vision concept. The vision will not succeed without member interest and support. To help gauge this interest we worked with a third party market research consultant to develop a survey that will be fielded next week to all Academy members (excluding those members who have opted out of any email and/or survey communications). Our objective is to secure 12,000 responses to provide a robust and powerful report that accurately reflects the member response and understanding of the concept. We also plan to gather input from key groups including specific DPGs, international members, young professionals, the House of Delegates and the Council on Future Practice.

All of the information collected including survey results, an outline of the vision and some trial messages will be shared with both boards and each will have an opportunity to discuss at their respective summer meetings. Concurrently, the Foundation is also conducting a campaign feasibility and giving capacity study over the next few months. A big bold vision will require significant resources to support any recommendations and the campaign study will help us set some realistic goals.

We are eager to see the results of the survey and to share this information with you this summer. This is an important member-engagement step that will help us better define the path forward. If you would like any additional information, please let me know.

Dear Current and Incoming Board Members,

In preparation for the May Board meeting, I want to remind you that members of the Board of Directors have the option to use a web based application to submit their reimbursable expenses online. Expense submission using the paper expense form is still acceptable, although if you wish to submit your Academy expenses electronically, please follow the steps below.

1. Click on the following link, **www.eatright.org/expense** and log in using the same username and password you currently use for the Academy website.
2. Click on "Add New Expense Report" and select your approver (jschwaba@eatright.org)
3. Enter expense report details and attach scanned receipts
4. Click on "Submit for Approval"

Once you hit "Submit for Approval," the executive office staff will receive an email requesting approval of your expense report. Once it is approved you will receive a subsequent email confirmation. Your approved expense report is then electronically forwarded to Accounting for processing. The system will also allow you to track your expense report progress by displaying an approximate deposit/check issue date.

Step-by-step instructions are attached for your assistance.

Please contact me if you have any questions. Thank you!

ON THE PULSE OF PUBLIC POLICY

Attend PPW 2015: World's Largest Food and Nutrition Advocacy Summit

The Academy will host its annual Public Policy Workshop June 7 to 9 in Washington, D.C. Nearly 500 Academy members will attend the world's largest food and nutrition advocacy summit. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. [Review the program of events.](#)

Provide Input on Dietary Guidelines Advisory Committee Scientific Report

The Academy encourages interested members to work with Policy and Advocacy Liaisons in their dietetic practice groups to provide input on questions raised by the Dietary Guidelines Advisory Committee Scientific Report by the end of this week.

Academy Represented at Office of National AIDS Policy Forum

Academy members Marcy Fenton, MS, RD, and Janelle L'Heureux, MS, RD, represented the Academy at an April 22 Regional AIDS Policy Forum in Los Angeles, highlighting the importance of medical nutrition therapy provided by registered dietitian nutritionists in HIV medical care, and urging that it be included in the updated National HIV/AIDS Strategy.

Surgeon General Sworn In

Vivek H. Murthy, MD, MBA, received his commission and was publicly sworn in April 22 as Surgeon General of the United States by Vice President Joe Biden. The new Surgeon General

stressed the need to change health from a focus on treatment to a focus on prevention.

Academy Work Group: Invest in Healthy Food for Children

Child Nutrition Reauthorization is a broad piece of federal legislation that includes school meals, farm to school programs, the Child and Adult Care Food Program, Fresh Fruit and Vegetable Program, Summer Food Service Program and WIC. These programs employ many Academy members who are leaders and positively affect millions of children on a daily basis. The Academy's CNR workgroup is made up of representatives from all programs funded through CNR; it provided recommendations as the foundation of the Academy's advocacy and legislative strategy on Capitol Hill.

FSMA Implementation Meeting

The Food and Drug Administration held public meetings April 23 and 24 to discuss plans for implementing the Food Safety Modernization Act. Recordings and slides from presentations are available. Public comments on the implementation work plans will be accepted until May 26. The Academy provided input on implementation and recommendations to improve FDA's regulations.

Prevention Fund Saved

The U.S. Senate voted down an amendment April 22 to human trafficking legislation that would have repealed the Prevention Fund to pay for an unrelated piece of legislation. Repealing the Fund would have slashed public health efforts in every state.

CPE CORNER

New Online Learning Module: 'Parametric versus Nonparametric Statistics - Making the Right Choice'

This one-hour webinar discusses the differences between parametric and nonparametric statistics and why it is important to know which type of test is appropriate to use, and in what situation.

CAREER RESOURCES

May 13 Webinar: Integrative Sports Nutrition and Supplements

Join the re-launch of the Academy's Professional Development webinar series and earn unlimited group learning opportunities. As the sports nutrition field continues to evolve, new programs and theories arise for achieving optimal performance levels through nutrition and supplementation. Are these programs safe, effective and legal? Lisa Dorfman, MS, RD, CSSD, LMHC, FAND, will share her knowledge as a 30-year sports nutrition leader in a May 13 webinar, "Integrative Sports Nutrition and Supplements: Efficacy, Safety and Practical Guidelines." The webinar will outline practice strategies and appropriate and effective supplement use; and identify certification agencies, their standards and seals of approval.

Nutrition-Focused Physical Exam Hands-On Workshop

Several nutrition-focused physical exam workshops will be offered during the summer. If you are interested in attending a workshop or hosting a site, email nfpe@eatright.org.

Students: Graduating Soon? You May Qualify for the Career Starter Dues Program

The Academy's Career Starter Dues Program offers reduced dues rates for members in their first five years of Active category membership eligibility. These graduated dues are offered in a tiered structure based on your RD/RDN or NDTR/DTR eligibility data on file with the Commission on Dietetic Registration. Dues increase incrementally each year for up to five years to help you get established in the profession. Call the Academy's Member Service Center at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) for more information.

Introductory Pricing Extended: Sports Nutrition Care Manual

Introductory subscription pricing for the Academy's Sports Nutrition Care Manual has been extended until May 15. Members cost for a new subscription is \$75; renewal is \$64.

RESEARCH BRIEFS

New AHRQ Report on Quality of Care and Patient Safety

The overall quality of health care and patient safety are improving, particularly for hospital care and for measures that are being publicly reported by the Centers for Medicare and Medicaid Services, according to the newly released 2014 National Healthcare Quality and Disparities Report from the Agency for Healthcare Research and Quality. To order a print copy, email ahrqpubs@ahrq.hhs.gov or call 800/358-9295.

Physical Activity in Latino Communities

Latino health is "increasingly synonymous with the future of U.S. health, yet the nation's largest and still-growing minority group continues to live in communities with reduced access to health-promoting resources and safe, pedestrian-friendly built environments," according to a new commentary published by the Institute of Medicine.

Role of Probiotics in Pre-Term Infants

A review of recent literature published by the National Center for Biotechnology Information "seeks to summarize recent literature regarding the origins and establishment of the neonatal gut microbiome, beginning *in utero*, and how it is affected by neonatal nutritional status (breast-fed versus formula fed) and gestational age (term versus pre-term)."

ACADEMY MEMBER UPDATES

Food & Nutrition Magazine Receives Coveted ASAE Gold Circle Award

Food & Nutrition Magazine has been named a recipient of a 2015 Gold Circle Award - the American Society of Association Executives' highest honor, recognizing excellence in marketing, membership and communications programs produced by associations and nonprofits. Gold Circle Awards highlight the vital role of association marketing, membership and communications as they connect with members, keep them informed of important issues and raise awareness of programs and initiatives.

Academy to Clinicians: Refer Patients to RDNs

A recent study in the *Annals of Internal Medicine* (subscription or registration required) that evaluated commercial weight-loss programs prompted a letter to the editor from Academy President Sonja L. Connor, encouraging clinicians to refer their patients to registered dietitian nutritionists for individualized weight loss and weight management services.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter

credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Membership Renewal Now Open

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

PHILANTHROPY, AWARDS AND GRANTS

May 1 Application Deadline: Future of Food Mini-Grants

To support the use of the new "Smart Choices. For a Healthy Planet." toolkit, 25 grants of \$200 are available. Recipients agree to give two presentations from the new toolkit (for parents and/or mature teens) between May 11 and June 30. Applications are due May 1 and recipients will be announced May 11. The toolkit was developed by content experts who are registered dietitian nutritionists and farmers. The new toolkit and mini-grant opportunity are made possible through an educational grant from Elanco.

New: 'Feeding the World' Infographic

The Foundation's Future of Food Initiative has released a new infographic titled "Feeding the World," that addresses issues and solutions for food and nutrition professionals.

New Future of Food Toolkit: 'Smart Choices. For a Healthy Planet.'

The Foundations new toolkit is now available. The toolkit - in English and Spanish - includes a presentation for adult and mature teen audiences, with leader notes, a suggested five-minute group activity and a coordinating handout.

Application Deadline Extended to May 30: Colgate Palmolive Fellowship in Nutrition, Oral Health/Dental Education

This \$15,000 grant supports research in nutrition and oral health or dental education. Non-U.S. residents may apply. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community-residing older adults. Ideally, the award will be used to identify and solve problems pertaining to dietetic practice, program administration, service/care coordination or behavioral practices of older adults. The application deadline has been extended to May 30.

Application Deadline Extended to May 30: Vegetarian Nutrition DPG Research Grant

This \$5,000 grant is given for innovative research relating to vegetarian nutrition to an individual who has been a member of the Vegetarian Nutrition dietetic practice group for at least two years. The application deadline has been extended to May 30.

Make a Difference in the Profession While Renewing Your Academy Dues

Support the Foundation's Annual Fund through the checkoff box on your Academy dues renewal form or online. Your support will enable the Foundation to continue to provide scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. Please consider a donation to the Academy Foundation of *your* profession by year-end. See the Foundation's impact on the nutrition and dietetics profession. Learn more about the Foundation or make a donation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Hello Donna:

Thank you for your willingness to review the assessment questions for this scenario. I have attached a draft of the Independent Contractor Agreement. Please edit and send it back to me.

I also thought it would be helpful as you looked at the agreement to have the module information and questions (also attached to this e-mail).

Please let me know if you have any questions. Have a great day!

[MJ2015.pdf](#)

The May/June 2015 issue of *Food & Nutrition* is scheduled to mail this week. Attached is a confidential SNEAK PREVIEW and below is a synopsis. In addition, we are happy to announce that *Food & Nutrition* has been awarded the American Society of Association Executives' highest honor, the 2015 Gold Circle Award! We will be including this wonderful news in *Eat Right Weekly* and promoting via social media, but we wanted you to hear it first!

May/June 2015: The theme for this issue is **The Fruit Issue**.

FEATURE ARTICLES

- **Urban Orchards from the Ground Up** - Communities reap educational, nutritional and mental benefits when inner-city orchards take root.
- **The Facts about Fruit Juice** - Often accused of contributing to obesity and disease progression, can the sugars in 100-percent fruit juice fit into a healthful diet?

- **Microbiome: The Garden Within** - Microorganisms in the human body influence and interact with their hosts — and vice versa — throughout life.
- **Feast on Fruit** - From a morning muffin to delicious dessert, indulge in the sweetness of fresh and dried fruits.
- **Spectacular Stone Fruits** - Whether cooked and added to recipes or eaten *au natural*, juicy stone fruits are the essence of summer flavor.
- **Organic Foods Go Mainstream** - “Big box” stores, supermarkets and warehouse retailers are helping to make organic goods more accessible to consumers.
- **DIY Kitchen: Gelato** - Make rich and creamy gelato at home with only five ingredients (and very cold kitchen tools).
- **Not Just another Food Fight** - Learn about the risk of drug-resistant bacteria, consumers driving a demand for “antibiotic-free” meat and poultry, and the call for reduction and research.

REGULAR CONTENT

- **RESPOND** (New gift is an Zing Anything’s Citrus Zinger Biggie®; members can send letters to the editor here: <http://foodandnutritionmag.org/submit-a-letter-to-the-editor>)
- **DISCOVER** (article about skewers + new kitchen tool reviews by the Stone Soup bloggers)
- **RESEARCH** (briefs on the latest studies in nutrition and health)
- **SAVOR** (horseradish)
- **INSPIRE** (hero profiles): Renee Mitchell Simpson, RDN; Alice Lenihan, MPH, RD, LDN
- **CLICK** (app reviews)
- **READ** (new books)
- **UNITE** (global topics): Edible flowers and fruit blossoms make culinary creations bloom.

NOTEWORTHY:

- This issue also includes a 2-page advertising insert by Haas Avocados (added in bindery; not included in this PDF).

- Reminder: Academy members can earn 2 hours of Continuing Professional Education by reading our features and completing an online quiz. This free CPE opportunity is available for three years from date of publication. For more information, visit www.FoodandNutrition.org/CPE.
- *Food & Nutrition's* subscriptions (for non-member recipients, including those to whom Academy members may have subscribed as a gift) are managed through Stark Services:

Dear Foundation BOD,

Thank you all for your patience. So many people have contacted me directly to inquire about the plans and how they can reach out to Pat and her family with their support. I have passed all of these comments along to her and she is truly touched. I have received more details from her regarding the funeral plans and I'm happy to share this information with you.

According to Lou's wishes, there will be no visitation. A funeral mass will be held on Friday, May 1 at 11:30 AM at St. Mary's Church, 126 Herrick Road in Riverside, Illinois. Many of you have inquired about donations. These can be sent to the Esophageal Cancer Awareness Association, ecaaware.org. There is a donate button on the website or you can mail checks to ECAA, P.O. Box 55071 #15530, Boston, MA. 02205-5071. If you would like to send Pat and her family a personal note of support, her mailing address is 3017 Buckingham Ave., Westchester, IL. 60154.

Pat and Lou enjoyed 42 years of marriage. They proudly raised two wonderful daughters Lauren and Catherine. Many of you have watched these girls grow up. It will be a new normal for Pat and her family. She is fortunate to have such a supportive Academy family as well to help her through these difficult times.

+++++

Thank you all for your patience. So many people have contacted me directly to inquire about the plans and how they can reach out to Pat and her family with their support. I have passed all of these comments along to her and she is truly touched. I have received more details from her regarding the funeral plans and I'm happy to share this information with you.

According to Lou's wishes, there will be no visitation. A funeral mass will be held on Friday, May 1 at 11:30 AM at St. Mary's Church, 126 Herrick Road in Riverside, Illinois. Many of you have inquired about donations. These can be sent to the Esophageal Cancer Awareness Association,

ecaaware.org. There is a donate button on the website or you can mail checks to ECAA, P.O. Box 55071 #15530, Boston, MA. 02205-5071. If you would like to send Pat and her family a personal note of support, her mailing address is 3017 Buckingham Ave., Westchester, IL. 60154.

Pat and Lou enjoyed 42 years of marriage. They proudly raised two wonderful daughters Lauren and Catherine. Many of you have watched these girls grow up. It will be a new normal for Pat and her family. She is fortunate to have such a supportive Academy family as well to help her through these difficult times.

Annual CDR Profile Review

The Commission on Dietetic Registration (CDR) is asking that you take a few minutes to review your **Profile** at www.cdrnet.org to make sure your mailing address, email address* and primary contact telephone number are correct (** If your company has a firewall that will block emails from eatright.org, you may wish to change your primary email address to your personal email*). To access your record, you will need your login and your Web password.

Date of Birth (DOB) and Mothers Maiden Name (MMN) - The Academy and CDR will no longer be maintaining social security numbers (last 4 digits) for database security verification. To protect your security, we are transitioning to the use of your Date of Birth (DOB) and Mothers Maiden Name (MMN). This information will only be requested one time. If we do not already have this information, when you login, you will be prompted to add your DOB and MMN.

Update Contact Information - Once you have logged into your record, you will be on My CDR page, please click on the **Profile** tab which is located on the navigation bar. If you need to make updates, click on the link **Update Contact Information**. Please make any necessary changes as soon as possible to insure the delivery of important future CDR emails and/or mailings.

We are unable to change mailing address and email address based on a verbal request.

Name Changes - If you have a name change, please click on the link below for CDRs Change of Name/Address Policy: <http://cdrnet.org/news/change-of-name-address-policy>

Please call CDR at 800/877-1600, ext 5500 (8am to 5pm Central time), if you have additional questions, or use the CDR LiveChat option on www.cdrnet.org

Thank you for your cooperation.

Share this mailing with your social network:

You have received this email from the Commission on Dietetic Registration.

If you prefer not to receive future emails from CDR, simply follow this link to unsubscribe.

Milton,

Sorry I missed this. I had not planned anything since people were coming in at different times. Send out an email to the group to see who would be available for dinner tonight? You might get some takers.

Paul

Subject: Re: Finance and Audit Committee meeting on Wednesday, April 29th and Thursday, April 30th

Hi Paul and Donna. Is there a gathering Tuesday evening?

On Thu, Apr 23, 2015 at 4:43 PM, Paul Mifsud <PMifsud@eatright.org> wrote:

All,

We have posted all of the information to the Academy portal. We are still “tweaking” the FY16 budget package and it may change. That being said, I would not expect the overall financials to change at this time. The “tweaking” would be more around the narrative and potential typos!! Yes, even with this being reviewed 9 million times, there could be a typo. In any event, there is information in the FY16 budget package, albeit high level, that is very sensitive. It could generate a great deal of concern with the staff. Therefore, I ask that you consider this confidential and not

to be discussed outside of the Finance and Audit Committee. Once it goes to the Board, we can expand that to the Board of Directors as well.

The list of the documents that have been loaded to the portal are as follows;

1. Agenda
2. Minutes for the March meeting.
3. Insurance overview from Rob Wessel
4. Investment overview from Al Bryant.
5. FY15 Audit and tax plan provided by Plante Moran
6. Preliminary March Financials.
7. FY17 Dues increase proposal.
8. FY16 budget package.

You can access the portal at <https://eal.webauthor.com>. If you need any assistance, please let me know. Evelyn, the FY16 budget information did not get into the package sent to your home today. It will go out to you tomorrow.

If there is anything that anyone would like to make sure we discuss, but, is not listed, please let me know.

Paul

Dear Foundation BOD,

We are proud to announce that we have achieved a new membership record! As of today we have **75,614** members, marking our tenth consecutive year of membership growth. Few professional associations can claim such sustained membership success, a testament to our value proposition. We are celebrating completing the fiscal year with this positive momentum!

We did not have a quorum for the Foundation during the joint April 23rd call so need two action items (minute approval) via email.

Our bylaws stipulate that every member (other than Pat because she is ex-officio) need to respond in order for it to be valid.

Attached are the minutes, please approve or oppose, we need 100% participation on emails per our bylaws. I am requesting a **vote by Friday, May 1**. Thanks.

Hi Martha,

Could you send this to the Foundation Board? Thank you!

Terri

Hi all!

It was a good call today but as I mentioned I am a little worried that we may not be hearing from a large segment of our membership who are supportive of sponsorships/partnerships/collaborations with industry. I was checking my emails after the call and received this message from an RDN who I have worked with through the WM DPG...she is a young member and I see her as a rising superstar within the Academy. She just completed her Masters in Nutrition Communications at Boston University. I'm not sure if she has even turned 30 yet and she is completing her year as President of the Virginia Academy of

Nutrition and Dietetics and during the last year became the internship director at UVA. She also just saw Denice at the NDEP meeting!

Terri...I have been having trouble forwarding emails to your BOD so if you could send this to them I would appreciate it!

Diane

All,

I have put onto the portal a memo from Pat to the Finance and Audit Committee. It is under the FY2016 budget overview section. I am attaching it here for your review as well. Please do not forward at this time. We don't have much in the way of additional information regarding Lou's funeral. Early indications are it may not be until Friday. Pat is working on the arrangements. As soon as we have something more tangible, we will let you know.

If you have any additional questions, please let me know.

Paul

April 30th

All,

Hopefully, all of you have looked at the information posted to the portal last week. I know it is a great deal of information. I look forward to your questions and comments. On a sad note; We were informed that Pat's husband, Lou, passed away this morning. I know Pat has been very appreciative of everyone's thoughts, prayers and support throughout this difficult period. We don't have any information at this point. As soon as we do, we will pass it along. Since all of us have known Pat a long time, I know we would want to pay our respects if given the opportunity. So, if the Committee meeting coincides with any arrangements, we could alter our agenda if it is the wish of the Committee. Again, as soon as we have the information, I will pass it along.

Now onto the financial results.

I. February Adjustments

-
We did not make any adjustments to the preliminary February results.

II. Investments

The investment market continues to fluctuate. In February, the combined portfolios lost approximately \$142,700. This brought the total FY15 investment returns to nearly \$3,611,000. This is still very strong and nearly \$1,241,000 above the budget. So far, through April, the combined portfolios have gained \$1,130,000. The markets are up again this morning. So, with the month ending on Thursday, it looks promising that April will be another strong month for the investment returns.

III. Academy preliminary March Financials (A10)

The Academy did not have a good month in March. The explanation is well known at this point; Revenues under performed and were partially offset by lower expenses. The Academy had an Operating Deficit of \$170,272. This was \$182,856 higher (worse) than the budget. Considering the investment losses for the month of \$31.4K, the Academy had a Net deficit of \$201,652. This was \$326,831 higher (worse) than the budget. Not a good month.

On a year to date basis, the Academy has an Operating Deficit of \$2,131,735 through March. This is \$212,844 smaller (better) than the budget. So, even after a bad March, the Academy is still beating the overall Operating Deficit budget. The investments make this picture a little better. Year to date, our investments have provided over \$1.3M in income. This is \$175.8K higher than the budget. So, the bottom line is the Academy currently has a Net Deficit of \$829,950. This is \$388,679 smaller (better) than the budget. I am still optimistic that the Academy will achieve the FY15 operating deficit budget.

The following is a breakdown of the various categories for February:

A. Revenues

a. **Membership Dues** - This area is **over budget** by \$1,046 in March and is **over budget** by \$865 for the year. The over-run in March is being driven by higher Membership Dues revenue (up \$7.8K) offset by lower Fellow program revenue (down \$6.8K).

b. **Programs and Meetings** - This area is **under budget** by \$8,890 in March and is **under budget** by \$438,720 for the year. The under-run March is due entirely to lower Professional Development revenue.

c. **Publications and Materials** - This area is **under budget** by \$33,749 in March and is **under budget** by \$120,910 for the year. The under-run in March is primarily due to lower National Nutrition Month (down \$14.9K), lower Journal (down \$4.3K), lower List Rental (down \$12.8K), and lower Eatright store (down \$4.5K), offset by higher Traditional Publications (up \$2.0K) and higher across all other (up \$0.8K).

d. **Subscriptions** – This area is **under budget** by \$49,582 in March and is **under budget** by \$312,898 for the year. The under-run in March is primarily is due to lower eNCPT (down \$43.5K) as sales are slower than budgeted and lower NCM and related products (down \$8.5K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.0K) and higher EAL (up \$1.5K).

e. **Advertising** – This area is **over budget** by \$7,411 in March and **under budget** by \$1,285 for the year. The over-run in March is entirely due to advertising revenue not recognized for the FNCE program book. Accounting discovered this oversight in March and the revenue was

recorded.

- f. **All grants** - This area is under budget by \$296,836 in March and is under budget by \$319,591 for the year. The under-run in March is primarily due to lower Research (down \$272.5K), Guides for Practice (down \$10.0K), lower Abbott Malnutrition (down \$13.9K) and lower ConAgra (down \$3.2K) and other (down \$2.0K). This is offset by higher recognition of the Carry the Flame project (up \$4.8K).
- g. **Sponsorships** – This area is under budget by \$23,905 in March and is under budget by \$74,384 for the year. The under-run in March is higher than in February. Since the Kraft agreement was canceled, money anticipated for the remainder of the year had to be removed. This reflects a portion of the shortfall due to Kraft and will continue for April and May.
- h. **Other** – This area was under budget by \$10,259 in March and is over budget by \$89,737 for the year. The under-run in March is primarily due to lower rebates from the Member benefit's program (down \$5.2K), lower Journal (down \$8.1K) and lower Brand Promise (down \$3.0K). This is offset by higher Traditional Publications licensing (up \$4.2K) and higher across all other (up \$1.9K).

B. Expenses

- a. **Personnel** – This area is under budget by \$34,364 in March and is under budget by \$187,017 for the year. The under-run in March is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.
- b. **Publications** – This area is under budget by \$848 in March and is under budget by \$97,505 for the year. The under-run in March is not due to any particular program.
- c. **Travel** – This area is under budget by \$88,806 in March and is under budget by \$396,297 for the year. The under-run in March is primarily due to lower Research projects (down \$39.7K), Lower Quality Management (down \$19.3K), lower Nutrition Services (down \$22.8K), lower PR and Marketing (down \$7.2K), lower Affiliate Management (down \$4.1K), lower administration (down \$4.0K), and lower across all other (down \$7.7K). This was offset by higher Public Policy (up \$16.0K).
- d. **Professional Fees** - This area is under budget by \$84,409 in March and is under budget by \$266,654 for the year. The under-run in March is being driven by lower Research (down \$82.6K), lower IT/web (down \$2.3K), lower Guides for Practice (down \$3.0K), lower List Rental (down \$1.3K), lower National Nutrition Month (down \$2.0K), lower Quality Management (down \$1.8K) and lower Membership retention and recruitment (down \$8.1K). This is offset by higher Corporate Relations (up \$6.6K) and higher Brand Promise Marketing (up \$9.8K) and higher across all other (up \$0.3).

- e. **Postage and Mailing** - This area is **under budget** by \$12,236 in March and is **under budget** by \$100,685 for the year. The under-run for March is being driven by lower Traditional Publications (down \$4.7K), lower Membership Recruitment and Retention (down \$6.7K) and lower across all other projects (down \$0.8K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$1,016 in March and is **under budget** by \$17,946 for the year. The under-run in March is due to lower copy supplies (down \$0.7K), and lower across all other projects (down \$0.3K).
- g. **Rent and utilities** - This area is **under budget** by \$1,263 in March and is **under budget** by \$63,353 for the year. The under-run in March is due to lower costs within our new lease in Washington DC (down \$1.7K) offset by higher maintenance costs associated with work done in Chicago (up \$0.4).
- h. **Telephone and communications** – This is **under budget** by \$1,205 in March and is **under budget** by \$3,969 for the year. The under-run in March is primarily due to lower telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **on Target** in March and is **over budget** by \$1,151 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Even though Advertising revenue was higher in March, it was not due to Food and Nutrition Magazine. Therefore, no commissions were incurred.
- j. **Computer Expenses** – This area is **under budget** by \$174 in March and is **under budget** by \$51,859 for the year. There isn't any material variance in March.
- k. **Advertising and Promotion** – This area is **under budget** by \$4,116 in March and is **under budget** by \$47,912 for the year. The under-run in March is primarily due to lower National Nutrition Month (down \$3.7) and lower across all other (down \$0.4K).
- l. **Insurance** – This area is **under budget** by \$534 in March and is **under budget** by \$7,667 for the year. The under-run in March is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$4,233 in March and is **under budget** by \$3,980 for the year. The under-run in March is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized. The new web site was delayed, which will delay the recognition of the depreciation in FY15. This is driving the lower costs in March and should have an impact for the remainder of the fiscal year.

- n. **Bank and trust fees** – This area is **under budget** by \$3,882 in March and is **over budget** by \$7,729 for the year. The under-run in March is due to lower credit cards fees.
- o. **Other** – This area is **under budget** by \$1,329 in March and **under budget** \$50,449 for the year. The under-run in March is not specific to any one project.
- p. **Expense allocation** – This area is **unfavorable to budget** by \$19,142 in March and is **unfavorable to budget** by \$70,797 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is **under budget** by \$4,669 in March and is **under budget** by \$165,128 for the year. The under-run in March is primarily due to lower Affiliate Leader Training (down \$3.4K), lower Corporate Relations (down \$5.6K), lower Research (down \$1.6K), lower Quality Management (down \$2.5K), lower Nutrition Services (down \$4.0K) and lower across all other (down \$0.7K). This is offset by the timing of higher Board expenses (up \$13.1K).
- r. **Legal and Audit** – This area is **under budget** by \$7,427 in March and is **under budget** by \$23,231 for the year. The under-run in March is due to lower legal expenses. However, the expenses for the Kraft legal support has not yet been included. This may result in over-runs in legal expenses in April and May.
- s. **Printing** – This area is **under budget** by \$538 in March and is **over budget** by \$13,943 for the year. The under-run in March is across all areas of the business.

Overall, not a good month for the Academy. I will stop here. Hopefully, this will help provide to you a overall variance for the Academy. If you break it down; Research accounted for \$316,000 of the total revenue under-run; \$122,600 of the total expense under-run and \$193,000 in the operating deficit variance. If this was pulled out of the equation, the Academy would have performed better than the operational for the month of March. I know the Research team is working diligently to increase revenue and reduce expenses to offset the shortfalls.

I see the markets have turned a little. I generally expect this around lunch time. So, it may bounce back. We will keep watching in the hope that it does. If you have any questions, please let me know. We will start the meeting on Wednesday at 8:10. We will provide a hot breakfast for all.

Paul

- e. **Advertising** – This area is **over budget** by \$7,411 in March and **under budget** by \$1,285 for the year. The over-run in March is entirely due to advertising revenue not recognized for the FNCE program book. Accounting discovered this oversight in March and the revenue was recorded.
- f. **All grants** - This area is **under budget** by \$296,836 in March and is **under budget** by \$319,591 for the year. The under-run in March is primarily due to lower Research (down \$272.5K), Guides for Practice (down \$10.0K), lower Abbott Malnutrition (down \$13.9K) and lower ConAgra (down \$3.2K) and other (down \$2.0K). This is offset by higher recognition of the Carry the Flame project (up \$4.8K).
- g. **Sponsorships** – This area is **under budget** by \$23,905 in March and is **under budget by** \$74,384 for the year. The under-run in March is higher than in February. Since the Kraft agreement was canceled, money anticipated for the remainder of the year had to be removed. This reflects a portion of the shortfall due to Kraft and will continue for April and May.
- h. **Other** – This area was **under budget** by \$10,259 in March and is **over budget** by \$89,737 for the year. The under-run in March is primarily due to lower rebates from the Member benefit's program (down \$5.2K), lower Journal (down \$8.1K) and lower Brand Promise (down \$3.0K). This is offset by higher Traditional Publications licensing (up \$4.2K) and higher across all other (up \$1.9K).

B. Expenses

- a. **Personnel** – This area is **under budget** by \$34,364 in March and is **under budget** by \$187,017 for the year. The under-run in March is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.

- b. **Publications** – This area is **under budget** by \$848 in March and is **under budget** by \$97,505 for the year. The under-run in March is not due to any particular program.
- c. **Travel** – This area is **under budget** by \$88,806 in March and is **under budget** by \$396,297 for the year. The under-run in March is primarily due to lower Research projects (down \$39.7K), Lower Quality Management (down \$19.3K), lower Nutrition Services (down \$22.8K), lower PR and Marketing (down \$7.2K), lower Affiliate Management (down \$4.1K), lower administration (down \$4.0K), and lower across all other (down \$7.7K). This was offset by higher Public Policy (up \$16.0K).
- d. **Professional Fees** - This area is **under budget** by \$84,409 in March and is **under budget** by \$266,654 for the year. The under-run in March is being driven by lower Research (down \$82.6K), lower IT/web (down \$2.3K), lower Guides for Practice (down \$3.0K), lower List Rental (down \$1.3K), lower National Nutrition Month (down \$2.0K), lower Quality Management (down \$1.8K) and lower Membership retention and recruitment (down \$8.1K). This is offset by higher Corporate Relations (up \$6.6K) and higher Brand Promise Marketing (up \$9.8K) and higher across all other (up \$0.3).
- e. **Postage and Mailing** - This area is **under budget** by \$12,236 in March and is **under budget** by \$100,685 for the year. The under-run for March is being driven by lower Traditional Publications (down \$4.7K), lower Membership Recruitment and Retention (down \$6.7K) and lower across all other projects (down \$0.8K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$1,016 in March and is **under budget** by \$17,946 for the year. The under-run in March is due to lower copy supplies (down \$0.7K), and lower across all other projects (down \$0.3K).
- g. **Rent and utilities** - This area is **under budget** by \$1,263 in March and is **under budget** by \$63,353 for the year. The under-run in March is due to lower costs within our new lease in Washington DC (down \$1.7K) offset by higher maintenance costs associated with work done in Chicago (up \$0.4).
- h. **Telephone and communications** – This is **under budget** by \$1,205 in March and is **under budget** by \$3,969 for the year. The under-run in March is primarily due to lower telecom charges in Chicago and Washington.
- i. **Commissions** – This area is **on Target** in March and is **over budget** by \$1,151 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Even though Advertising revenue was higher in March, it was not due to Food and Nutrition Magazine. Therefore, no commissions were incurred.
- j. **Computer Expenses** – This area is **under budget** by \$174 in March and is **under budget** by \$51,859 for the year. There isn't any material variance in March.

- k. **Advertising and Promotion** – This area is **under budget** by \$4,116 in March and is **under budget** by \$47,912 for the year. The under-run in March is primarily due to lower National Nutrition Month (down \$3.7) and lower across all other (down \$0.4K).
- l. **Insurance** – This area is **under budget** by \$534 in March and is **under budget** by \$7,667 for the year. The under-run in March is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$4,233 in March and is **under budget** by \$3,980 for the year. The under-run in March is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized. The new web site was delayed, which will delay the recognition of the depreciation in FY15. This is driving the lower costs in March and should have an impact for the remainder of the fiscal year.
- n. **Bank and trust fees** – This area is **under budget** by \$3,882 in March and is **over budget** by \$7,729 for the year. The under-run in March is due to lower credit cards fees.
- o. **Other** – This area is **under budget** by \$1,329 in March and **under budget** \$50,449 for the year. The under-run in March is not specific to any one project.
- p. **Expense allocation** – This area is **unfavorable to budget** by \$19,142 in March and is **unfavorable to budget** by \$70,797 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is **under budget** by \$4,669 in March and is **under budget** by \$165,128 for the year. The under-run in March is primarily due to lower Affiliate Leader Training (down \$3.4K), lower Corporate Relations (down \$5.6K), lower Research (down \$1.6K), lower Quality Management (down \$2.5K), lower Nutrition Services (down \$4.0K) and lower across all other (down \$0.7K). This is offset by the timing of higher Board expenses (up \$13.1K).
- r. **Legal and Audit** – This area is **under budget** by \$7,427 in March and is **under budget** by \$23,231 for the year. The under-run in March is due to lower legal expenses. However, the expenses for the Kraft legal support has not yet been included. This may result in over-runs in legal expenses in April and May.
- s. **Printing** – This area is **under budget** by \$538 in March and is **over budget** by \$13,943 for the year. The under-run in March is across all areas of the business.

Overall, not a good month for the Academy. I will stop here. Hopefully, this will help provide to you a overall variance for the Academy. If you break it down; Research accounted for \$316,000 of the total revenue under-run; \$122,600 of the total expense under-run and \$193,000 in the operating deficit variance. If this was pulled out of the equation, the Academy would have performed better than the operational for the month of March. I know the Research team is working diligently to increase revenue and reduce expenses to offset the shortfalls.

I see the markets have turned a little. I generally expect this around lunch time. So, it may bounce back. We will keep watching in the hope that it does. If you have any questions, please let me know. We will start the meeting on Wednesday at 8:10. We will provide a hot breakfast for all.

Paul

Attachment:

As a follow-up to our conversation at the joint board meeting, we are providing you with one very concise talking point to be used regarding the Monsanto grant as well as any other new Academy sponsorships and/or Foundation grants. This is based on a recommendation from our communications consultant Levick . They are discouraging us from referring to any company by name and encouraging us to respond, if asked, with the following statement.

All new Academy industry sponsorships and Foundation grants are on hold pending the sponsorship discussion taking place at the HOD in May and the follow up recommendations from the Academy Sponsorship Task Force.

This statement supports our promise to the membership to give them a voice before we move forward. We have nothing to hide. We simply have nothing to report at this time. Thank you.

To: Gee, Molly

Subject: Betty F. Gee

Dear Friends,

Thank you for all your support and prayers. My mother, Betty F. Gee, passed away peacefully on Thursday, April 23, 2015 surrounded by her family. Here are the visitation and funeral arrangements:

Visitation will be held on Sunday, May 3, 2015, from 4:00 pm to 7:00 pm at Forest Park Westheimer, 12800 Westheimer Road, Houston, Texas, 77077, 281-497-2330.

Funeral service will be held Monday, May 4, 2015, at 10:00 am at Chinese Baptist Church, 900 Brogden Road, Houston Texas, 77024, 713-461-0963, followed by interment at Forest Park Westheimer.

In lieu of flowers, contributions may be made in Betty's memory to Chinese Baptist Church, 900 Brogden Road, Houston, TX 77024.

Thanks for your continued prayers.

Molly

All,

We have posted all of the information to the Academy portal. We are still “tweaking” the FY16 budget package and it may change. That being said, I would not expect the overall financials to change at this time. The “tweaking” would be more around the narrative and potential typos!! Yes, even with this being reviewed 9 million times, there could be a typo. In any event, there is information in the FY16 budget package, albeit high level, that is very sensitive. It could generate a great deal of concern with the staff. Therefore, I ask that you consider this confidential and not to be discussed outside of the Finance and Audit Committee. Once it goes to the Board, we can expand that to the Board of Directors as well.

The list of the documents that have been loaded to the portal are as follows;

1. Agenda
2. Minutes for the March meeting.
3. Insurance overview from Rob Wessel
4. Investment overview from Al Bryant.
5. FY15 Audit and tax plan provided by Plante Moran

6. Preliminary March Financials.
7. FY17 Dues increase proposal.
8. FY16 budget package.

You can access the portal at <https://eal.webauthor.com>. If you need any assistance, please let me know. Evelyn, the FY16 budget information did not get into the package sent to your home today. It will go out to you tomorrow.

If there is anything that anyone would like to make sure we discuss, but, is not listed, please let me know.

Paul

<http://www.adweek.com/news/advertising-branding/food-babe-debacle-underscores-crisis-credibility-surrounding-what-we-eat-164071>

This is a very well done article summarizing the issues with science and pseudo-science regarding nutrition. It mentions both Kraft and Monsanto and I thought people may want to read it before today's call if they can.

Thanks.

Kathy

[Foundation Board Meeting and Calls Calendar.doc](#)

Good morning. Thank you for participating in yesterday's call. As discussed we have some changes in dates for upcoming Board Meetings. An updated calendar is attached.

A significant amount of time for the in person meeting will be dedicated to a facilitated strategic planning discussion for the Foundation, particularly around the Second Century Concept. Much of the concept survey testing and fundraising capacity research that will take place over the summer will help inform this dialogue. Therefore, we are rescheduling the June Board Meeting to a three hour call on June 18th and scheduling the face to face in September. This will allow us to do this prep work, including surveys and also identify potential Board Members for participation in the face to face meeting.

Please also fill out the following doodle poll <http://doodle.com/svryzw64ge4y4p4p> that was previously sent to let us know your availability for the Foundation Board Call to approve the FY16 Budget. Your response by April 27th is appreciated. Please let me know if there is additional information I can provide. Thank you for your flexibility.

Hello Superstar Reviewers!

Thank you so much for your contributions to this morning's call, resulting in the successful selection of 50 deserving Champions for Healthy Kids grantees! Attached are three documents for your information: project descriptions, grantee list, and grantee demographics.

For those unable to remain on the call for the 50th applicant decision, the group decided to approve the Minnesota Spark! project and place the Wisconsin Growing Green Thumbs project as the #1 alternate. If we happen to need more alternates than one, we will reach out to you at a later date.

All applicants have been notified through our online grants management system and public announcements will begin May 4, where the grantees will be listed in the Kids Eat Right Monday Message and posted to the webpage www.eatrightfoundation.org/foundation/championgrants. We ask that all public promotions begin May 4.

As always, we like to improve each year and welcome your suggestions about the review process and final selection call. I made note of a few comments mentioned on the call (double the scoring system, provide applications we will discuss on the call to reviewers in advance and ask reviewers to be prepared to discuss the applications they reviewed, develop a system to apply weights to identified criteria, and make it extra clear to applicants that weight treatment programs are not eligible.) Please email me with any other suggestions you have.

We can't thank you enough for the time and expertise you have devoted to this project! The hundreds of applicants truly deserve the best system of reviews and I think we can all feel good about the decisions made. And of course, huge thanks to the General Mills Foundation for awarding \$1 million to programs in 23 states, reaching **57,652 children and youth!**

Thank you!

Lisa

Donna,

In case it comes up. The financials for the foundation have softened a little in March. Net income dropped to \$1,900,622 from the \$2,133,764 in February.

Reserves at the end of March are \$24.3 million. Down a little.

Finally, investments have risen \$300,000 in April through yesterday and today the markets are up.

So, with the bequest of \$250,000 the news looks like it will continue to improve over what you see here in February.

Hi Paul,

I've made a reservation under your name at Greek Islands for 12 people @ 6:30 p.m. on Wed. 4/29/15. We all agreed it's our favorite Greek restaurant in Greektown... they also have a 2nd location in Lombard that I frequent a couple of times a year. No special room, no courses, just order off the menu (prices are very reasonable).

Paul, I like all, but we have never done Greek. Mary mentioned that we are kind of in a Greek neighborhood, so that might be fun.

Chiraq always does a great job in this arena, so I will support whatever he decides. I just didn't want to do a fixed 5 course menu that would cost a fortune.

Donna,

I have Chirag looking into it. There are some moderately priced restaurants not far from the hotel. Do you have preference; Italian, Greek, etc. Let me know and we will get the options.

Subject: Re: FW: FAC meeting next week

Paul, I have talked with Mary and we both agree that she does not need to be doing dinner at her house. Although, I know we would have enjoyed it! I really think the best option would be for us to schedule a dinner meal for all of us at some reasonably priced restaurant. We can let the committee know about the option to go to the lakefront events. We can make them feel comfortable in attending that event if that is their choice. Mary has offered to try and come up with some restaurant ideas and get back in touch with you. There are 9 on the committee, and depending on who on the Headquarters team wanted to come, it could be as many as 12. I think with those numbers we could still be accommodated without having to do a fixed expensive menu. I really like the networking time at dinners we all do as a committee, but if people want to do something else then they would be free to do just that. I always worry that someone would be left out, if we just all do our own thing. That is probably a female mentality thing, and I will just go ahead and own up to it! Thanks for starting the conversation

Donna,

Given the demand on Mary, I would recommend you don't go her place. I can only imagine what it would be like for her to work like crazy, pulled in multiple directions and then have people over to her home. Too exhausting. She is kind to offer, but, I would not want to do this to her. It would be your call. If you like, I can reach out to her.

That being said, I can find a restaurant for the FAC or we can leave it open. It will be crazy in Chicago since the NFL draft begins on the 30th. I think the FAC might get a kick out of the activities that are planned over by the lake front. So, my recommendation would be to let people go and have fun; especially if the weather is nice.

Let me know.

Paul

Subject: FAC meeting next week

Hello Donna, Kay and Paul,

Hope you all are well-hard to believe this meeting is right around the corner!

I need to mention a couple of conflicts, only one of which affects (for a short time) my participation in the actual FAC meeting.

On Wed 4/29 from 9-11am, a call is scheduled about a key program that I'm involved with at work. I don't believe that I'll need to be present for the entire call but will need to be on for at least the first hour. I had no control over the timing of the call, which includes about 10 others (many with impossible schedules). So I will step out of the room during this time and return ASAP.

Wed 4/29 from 6-7 pm, I'll also need to be on a call with an Australian group we're working with. For them it'll be 9 am!

I still would be glad to host a casual meal for the FAC at my place, it would just need to start after 7 pm. There are plenty of local places that would be glad to cater in some tasty items.

Sorry to have to make a few waves with this last meeting.

Mary

ON THE PULSE OF PUBLIC POLICY

Attend PPW 2015: World's Largest Food and Nutrition Advocacy Summit

The Academy will host its annual Public Policy Workshop June 7 to 9 in Washington, D.C. Nearly 500 Academy members will attend the world's largest food and nutrition advocacy summit. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. [Review the program of events.](#)

Academy Supports Improved Nutrition Standards for Child Care Facilities

The Academy offered its general support to the U.S. Department of Agriculture's Food and Nutrition Service for proposed revisions to the Child and Adult Care Food Program, which provides funding for low-income and at-risk infants and children and certain disabled adults. The new nutrition standards ensure meals more closely align with National School Lunch Program and WIC standards, balancing consistency with recognition of the need to keep costs low. The Academy made several recommendations for improving the standards and implementing best practices to assist providers and program operators in meeting the new rules.

New Mexico Licensure Renewal Signed Into Law

Gov. Susana Martinez signed into law SB 318, renewing New Mexico's process for licensing dietitians and nutritionists. The bill, sponsored by Sen. Carlos Cisneros, ensures consumers in New Mexico will be protected and keeps high standards for licensure. Congratulations to the New Mexico Academy of Nutrition and Dietetics on their success.

'Doc Fix': Congress Averts 21 Percent Medicare Pay Cut

In a historic act on April 14, Congress passed the Medicare Access and CHIP Reauthorization Act of 2015, eliminating the negative update for the Medicare Physician Fee Schedule of 21 percent that was scheduled to take effect April 1. President Obama signed the legislation into law on April 16, and the Centers for Medicare and Medicaid Services will immediately begin work to implement its provisions. Learn more about the "doc fix." An upcoming issue of the Academy's *MNT Provider* newsletter will contain a complete analysis of this legislation and its impact on registered dietitian nutritionists. Thanks to all Academy members who responded to the Action Alert urging your senators to pass this bill.

New Report Examines Public Health Funding in the States

Trust for America's Health has released its 10th annual report, "Investing in America's Health: A State-by-State Look at Public Health Funding and Key Health Facts." The report examines public health funding and key health facts for each state. Such reports are valuable when speaking with legislators and other policymakers, to provide them with detailed information about their constituencies.

Updated Feeding America Study on Mapping the Meal Gap

What does food insecurity and hunger in your county look like? Feeding America released its annual "Map the Meal Gap" report, containing state, county and congressional district data on overall and child food insecurity rates. The report also includes data on food cost variation by county and congressional district and the percent of food-insecure populations who are likely eligible for federal nutrition programs. Reports like this are helpful when speaking with legislators and policymakers.

Surgeon General Headlines Forum on Strategies to Combat Obesity

The Healthcare Leadership Forum, which partners with the Academy on the Diabetes Advocacy Alliance, hosted a Capitol Hill forum to discuss strategies for curbing obesity and its related health outcomes. U.S. Surgeon General Vivek Murthy, MD, spoke on the importance of "community involvement and teaching sound nutrition and lifestyle choices at an early age."

House Examines Nutrition Assistance Programs

The House of Representatives held simultaneous hearings examining the impact of nutrition assistance programs, which included SNAP, school meals, summer foodservice program and farm to school, among others. The House Education and the Workforce Committee looked at how effectively child nutrition programs are delivering healthy foods to children and the impact on health and educational attainment. The House Agriculture Committee examined the role of the charitable sector - primarily food banks and pantries - and its relationships with SNAP in providing enough nutritious food to hungry Americans. The Academy advocates for policies that promote strong nutrition programs that effectively deliver healthy food to those who are food-insecure and hungry.

Improvements in School Lunches Result in Healthier Options for Millions of Children

A research brief from the Robert Wood Johnson Foundation finds that elementary school lunches have been consistently improving since 2006-2007, with more schools offering healthier items like whole grains, vegetables, and fruits, and fewer offering items like french fries and higher-fat milks or pizza. The brief also shows all elementary schools are giving students more, and a greater variety of, fruits and vegetables. The Academy continues to support our members implementing these changes in schools.

CPE CORNER

Career Advancement with Online Certificate of Training Programs

The career outlook for registered dietitian nutritionists has never been brighter. As *the* health and wellness experts, RDNs possess food and nutrition knowledge that allow you to excel as educators, leaders and marketing professionals. To help RDNs move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

CAREER RESOURCES

April 30 Webinar: Integrative Sports Nutrition and Supplements

Join the re-launch of the Academy's Professional Development webinar series and earn unlimited group learning opportunities. As the sports nutrition field continues to evolve, new programs and

theories arise for achieving optimal performance levels though nutrition and supplementation. Are these programs safe, effective and legal? Lisa Dorfman, MS, RD, CSSD, LMHC, FAND, will share her knowledge as a 30-year sports nutrition leader in an April 30 webinar, "Integrative Sports Nutrition and Supplements: Efficacy, Safety and Practical Guidelines." The webinar will outline practice strategies and appropriate and effective supplement use; and identify certification agencies, their standards and seals of approval.

New Academy Merchandise Now Available

Gifts for your colleagues, friends and family members: The Academy's new line of products includes baby gifts, kitchen gadgets, apparel, lunch containers and more.

RESEARCH BRIEFS

Role of RDN Counseling in Pediatric Weight Management

A randomized controlled trial from the Research in Office Settings Network of the American Academy of Pediatrics found motivational interviewing by providers and registered dietitian nutritionists resulted in significant reductions in BMI percentile of obese children.

Need to Decipher a New Research Article?

The Evidence Analysis Library's Quality Criteria Checklist is available for members to critically appraise research articles by answering a series of relevance and validity questions.

ACADEMY MEMBER UPDATES

EatrightPRO.org and Mozilla's New Firefox Release

Some users of Mozillas Firefox web browser may have experienced recent difficulties logging in to the Academy's member website eatrightPRO.org. This is the result of a newly released version of Firefox that created security vulnerabilities. The current versions of Google Chrome, Internet Explorer and Safari are not experiencing these issues, and members using the newest version of Firefox are encouraged to use one of these alternatives while development of a resolution is underway.

New Video Message from Academy President

April is National Preceptor Month - the annual opportunity to raise awareness of the need for preceptors, and to recognize and thank practitioners who are willing to serve. A new video message from Academy President Sonja L. Connor, MS, RDN, LD, FAND, contains information about becoming a preceptor; the Academy's Council on Future Practice's three-year visioning process; and news about planning for the celebration of the Academy's 100th anniversary in 2017.

Recognize Importance of Preceptors

While showing your appreciation for preceptors, make a difference today for tomorrow's

practitioners: Sign up for the Academy's Find-a-Preceptor database.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Membership Renewal Now Open

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Get Connected with Academy's eMentoring Program

Join the Academy's award-winning eMentoring program to enhance your professional connections, gain and share knowledge and earn free continuing professional education. Free and open to all members, eMentoring matches you with a mentor or mentee who best fits your areas of interest, communication style and availability. As a mentor, use this opportunity to give back to the profession and enrich your network. As a mentee, connect with an experienced professional and take your career to the next level.

PHILANTHROPY, AWARDS AND GRANTS

Important Successes: Learn More About Kids Eat Right and the Foundation

The Foundation's award-winning Kids Eat Right initiative is top of mind for many Academy members. Since its inception in late 2010, Kids Eat Right has mobilized members to participate in community and school childhood obesity prevention efforts, and to educate families, communities and policy makers about the importance of high-quality nutrition. Do you know how much the program has accomplished? Learn more about the many important successes - and ongoing activities - of Kids Eat Right. Now more than ever, the Foundation needs members' continued support to create healthier lifestyles for kids and families. See how your Foundation is making a difference.

Make a Difference in the Profession While Renewing Your Academy Dues

Support the Foundation's Annual Fund through the checkoff box on your Academy dues renewal form or online. Your support will enable the Foundation to continue to provide scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. Please consider a donation to the Academy Foundation of *your* profession by year-end. See the Foundation's impact on the nutrition and dietetics profession. Learn more

about the Foundation or make a donation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Joan,

Can you share this link posted in today's Public Policy News with the BOD about Donna Martin's well deserved recognition during Hill hearings on school meals.

Marcy Kyle

A very important Hill hearing on schools meals was the platform for well-deserved kudos for Academy Board of Directors member Donna Martin on her very successful Farm to School program. Studies have shown the effectiveness of this program introducing school age children to healthy foods to develop lifelong habits. Enjoy the recognition **here**. Forward to 2:14 minutes into the video to hear the start about Donna's program.

Legislative Messages for PPW Webinar

Join the PPW messaging webinar on **Tuesday, April 21 from 2:00 – 3:00 p.m.** (Eastern Time) to hear the Academy Policy Initiatives and Advocacy team share the three key legislative priorities for PPW 2015:

- Treat and Reduce Obesity Act
- Older Americans Act
- Preventing Diabetes in Medicare Act

The PPC/PAL or alternate PPC/PAL registration scholarship recipients are expected to participate in the live event or listen to the recording.

Register for the **Messaging for PPW**.

The Issue Briefs and Leave Behind materials will be posted on the COIs in the PPW 2015 topic

folder next week.

Congress Averts 21% Medicare Pay Cut

In a historic act, in the evening hours of April 14, 2015, Congress passed the Medicare Access and CHIP Reauthorization Act of 2015; the President is expected to sign it shortly. This law eliminates the negative update of 21% scheduled to take effect as of April 1, 2015, for the Medicare Physician Fee Schedule. CMS will immediately begin work to implement these provisions.

What does this mean for RDNs who are Medicare providers?

For the present moment, reimbursement rates for Medicare Part B MNT and DSMT services will continue at the pre-April level. If you have already submitted claims to the Centers for Medicare & Medicaid Services (CMS) for MNT or DSMT services on or after April 1, 2015, you do not have to do anything. CMS has been holding these claims for 10-business days in an effort to minimize financial effects on providers as they were waiting to see if this legislation was passed. While the Medicare Administrative Contractors (MACs) have been instructed to implement the rates in the legislation, a small volume of claims will be processed at the reduced rate based on the negative update amount. The MACs will automatically reprocess claims paid at the reduced rate with the new payment rate. On July 1, payment rates will increase by 0.5%, followed annually by the same percentage increase through 2019.

The rest of the good news...

In addition to reconfiguring Medicare payments for the next decade-plus, the bill includes two years of funding for the Children's Health Insurance Program (CHIP) and an additional \$7.2 billion for community health centers over the next two years.

Stay tuned to the *MNT Provider* newsletter for a more complete analysis of this historic legislation and its impact on RDNs working in a wide variety of practice settings. Thanks to all Academy members who responded to the Action Alert urging your Senators to pass this bill.

The House Takes a Special Interest in Nutrition

The House held simultaneous hearings examining the impact of nutrition assistance programs, which included SNAP, school meals, summer food service program and farm to school, among others. These hearings were really interesting, as experts from food security and hunger, as well as administrators of federal nutrition assistance program testified before two House committees.

The House Education and the Workforce Committee looked at how effectively child nutrition programs are delivering and healthy foods to children and the impact on health and educational attainment. A recap of the hearing can be found **here**.

One building over, the House Agriculture Committee was examining the role of the charitable sector, primarily food banks and pantries, and its intersection with SNAP to provide enough

nutritious food to hungry Americans A recap can be found **here**.

Ending Last Week on a Good Note...a very busy week on Capitol Hill

Congresswoman Michelle Lujan Grisham called to tell us how impressed she is with the Academy's Legislative and Public Policy Committee (LPPC) member Patty Keane's expertise and knowledge on child nutrition and food security. As a research scientist, Patty translates her work into understandable findings to help show nutrition gaps for children. She commended the Academy on giving our members the confidence to provide Congress with the science and evidence to help craft quality legislation.

A very important Hill hearing on schools meals was the platform for well-deserved kudos for Academy Board of Directors member Donna Martin on her very successful Farm to School program. Studies have shown the effectiveness of this program introducing school age children to healthy foods to develop lifelong habits. Enjoy the recognition **here**. Forward to 2:14 minutes into the video to hear the start about Donna's program.

Close the Deal

Meeting with Congress is just one step in a longer process of engagement and relationship building. As you know, more opportunities may come for interaction (and consultation) between constituent groups and Members of Congress. And to be ready, you must have a well thought-out plan to optimize them.

Ask yourself: Is following-up with Members of Congress after a meeting a regular practice amongst your membership? Does your membership consistently provide information on your topic for staffers to refer to? Are you aware of the Congressional calendars, hearing schedules, and committee votes, in order to communicate in a timely manner?

Data obtained by the Congressional Management Foundation (CMF) shows that the answers to these questions for many constituent groups is, "No." But, there's always work to be done after visiting the Hill. CMF says, if you want to successfully engage with Congress, you must CLOSE THE DEAL.

Here's what congressional staffers had to say....

In Fall 2014, CMF used an online survey to ask House and Senate legislative directors (LDs) and legislative aides (LAs) for feedback on: 1) citizen advocate meetings; 2) materials to leave behind; and 3) best practices for meeting follow-up. To give us more insight into relations with constituent groups after meetings, we asked several questions.

One of them was, "*Do constituents (or their organization) generally follow up with you in a helpful and timely manner?*"

The survey results showed that 40% of the staffers answered, "No," and 38.5% answered, "Yes,

timely but not helpful.” These points were further explained in the comment section. Staff shared that some groups don’t contact them back at all, but when constituents do, the office is more likely to answer an ask.

Following up can be the difference between a “yay” or “nay” vote, and can be a quick act to do. Consistently providing information with staff in a timely manner can also make you or your constituents a great resource on the Hill. So, after you depart the steps of the Capitol, remember to follow-up. Remember to CLOSE THE DEAL.

Scheduling Meetings with Members of Congress

We hope you will begin the process of scheduling your meetings with your Senators and Representatives. If you are having difficulty getting appointments or have questions, please let me know.

We are requesting that once you have set the meetings and identified who will be the lead person for each meeting that you forward a copy of your affiliate Hill Day schedule to Teresa. We would like a copy of by Friday May 22, 2015. Watch for more information as we get closer to PPW.

We will posted two sample Hill Day meeting schedule forms on the COIs , one is an Excel file and the other is a Word document. The samples will be available in the PPW2015 folder and the Tool Kit subfolder later this week. Each sample has an example meeting shown. You may edit, add additional items or change the documents to meet your affiliate needs. For example, you may want add a column to identify the name of the staff member(s) you will be meeting with or you may wish to identify legislation that the member of Congress has supported in the past. If you need assistance, please let me know.

Dietary Guidelines Advisory Committee Scientific Report

As you are aware, the Dietary Guidelines Advisory Committee (DGAC) Scientific Report, upon which the 2015 Dietary Guidelines for Americans will be based, was released and is open for comment. The Academy has been working to examine numerous aspects of the report and welcomes input from our members through a process by which DPGs (through their DPG Policy and Advocacy Leader, or PAL) collect and compile responses to send to Regulatory Affairs for drafting. We are also coordinating an effort for Academy members to individually comment on the Scientific Report to USDA.

If your DPG is interested in contributing to the Academy’s formal comments, please contact Pepin Tuma, Director of Regulatory Affairs. Please note that regulatory comments are time sensitive.

Comments are due to Pepin by Wednesday, April 29.

Below are a number of questions from each chapter of the Scientific Report. The page and line numbers correspond to the document here.

When answering the yes/no questions, please offer the rationale/reason for your response. It is also important to provide cited support whenever possible in your answers to enable the Academy to use your responses most effectively.

- Please note that although reviewers had many questions reviewers when reading the report, it is not important that you specifically answer any or all of them. Combined, the questions try to arrive at answers to the following questions:
- Do you support the approach taken by the DGAC, specifically with regard to looking at dietary patterns and food categories actually eaten, rather than focusing on specific nutrients? Why or why not?
- If you could determine the charge and scope of the DGAC (unencumbered by existing limitations), what would be included?
- To what extent is the question of where Americans choose to eat relevant to the Dietary Guidelines
- The DGAC examined food on a broader scale than previous DGACs, going from production to processing to purchase to consumption; is this an appropriate scope for the DGAC?
- Is the research methodology sound? Is their interpretation of the research sound?

Academy Work Group Child Nutrition Reauthorization (CNR) Recommendations

Child Nutrition Reauthorization (CNR) is a broad piece of legislation that includes school meals, farm to school, child and adult care food program, fresh fruit and vegetable program, summer food service program, and WIC. These programs employ many members who are leaders in this area, and impact millions of children on a daily basis.

The Academy's CNR workgroup was comprised of representatives from all of the programs addressed during CNR. Their leadership, and vision for child nutrition programs is extraordinary, and their time and efforts are greatly appreciated. We would like to thank and recognize the members of this work group: Ethan Bergman, PhD, RD, CD, FADA, Marilyn Briggs, PhD, RD, SNS, Meg Bruening, PhD, MPH, RD, Sue Foerster, MPH, RD, Beverly Girard, PhD, MBA, RDN, Stephanie Heim, MPH, RD, Geri Henchy, MPH, RD, Dianne Lollar, MPH, RD, LD, Clare H. Miller, MS, RD, Patty Keane, MPH, RD and Lisa Eaton Wright, MS, RDN, LDN.

On behalf of the CNR work group, Patty Keane and Jennifer Folliard would like to present the Academy's recommendation for Child Nutrition Reauthorization. The documents are attached.

These recommendations are the foundation of the Academy's advocacy and legislative strategy on Capitol Hill, as well within coalitions inside and outside DC.

PPW 2105 Training for PPC and PAL

The recording of the April 7th training webinar is now available. **To listen to the recorded webinar, click here .**

Once you have listened to the recording, please send an email to me at tnece@eatright.org. The certificate and an evaluation survey will be sent to you.

Register for PPW 2015 Today!

The PPW2015 registration and housing information is available. **For more information on registration, hotel and travel simply click, PPW 2015** . This year we will once again be offering a **group registration discount**. Groups must consist of members from one cohesive organization, such as a Public Policy Panel, State Affiliate Board, DPG, Company, Hospital or Community Center. Please note: Students paying a reduced student rate are not eligible for the group discount.

PPW 2015 Boot Camp Training Registration

PPC, PAL, alternate PPC and alternate PAL registration scholarship recipients **will be expected to attend a PPW Boot Camp Training scheduled on Saturday, June 6, 2015 from 9 a.m. - 5 p.m.** These sessions will prepare the PPC to lead the team through the workshop, onto Capitol Hill and in the affiliate.

A separate registration is required for PPW 2015 Boot Camp Training. To register for the PPW Boot Camp Training simply complete the **registration survey**.

Important Note: If the PPW registration scholarship is accepted and the **PPC/PAL doesn't attend the boot camp, he/she will be billed for the registration fee.**

Subject: Talking Points ... Kraft Singles packages in story
Attachment: [image003.jpg](#)

We are aware that packages of Kraft Singles regular and 2% with the Kids Eat Right message are now appearing on retail shelves. Talking points to use as needed follow.

- The Academy and Kraft have mutually agreed to terminate the consumer education initiative. The on package elements of the program are already in motion and cannot be changed.
- Packages of Kraft Singles with the Kids Eat Right messaging are now appearing on retail shelves and will continue through mid-July 2015.
- Through on-package messaging identifying Kraft Singles as a “Proud Supporter of Kids Eat Right,” the goal of the program was to send millions of consumers to the Kids Eat Right website

for trusted, science-based information and recipes developed by registered dietitian nutritionists.

- As we shared previously, we launched this initiative to raise consumer awareness about the importance of having vitamin D and calcium as essential nutrients in children's diets. Consumers will be able to access unbranded, educational resources on calcium and vitamin D at KidsEatRight.org/CheesyFacts through the end of this year.
- We will engage with the Academy House of Delegates and with all Academy members on future initiatives to promote healthful foods and nutrition in the most professional, ethical and transparent manner possible.

Best regards,

Pat

Re: 2015 Corporate Award Committee

One of my responsibilities as Foundation Chair is to appoint a committee to select the 2015 recipient of the prestigious Academy of Nutrition and Dietetics Foundation Corporate Award. The Corporate Award is given to an organization that has demonstrated meaningful support to Foundation programs and projects. The award is presented each year at the Foundation's Gala during the Academy's Food & Nutrition Conference & Expo.

I am requesting your service on this committee. As a committee member, you are responsible for reviewing four prospective organizations and participating in a discussion during a conference call to select a candidate for approval by the Academy Foundation Board of Directors. Prior to the conference call you will receive a copy of the Corporate Award criteria and prospect list.

Please let Amy Donatell know if you are able to serve on the committee and which potential conference call dates will work for you by Thursday, March 19th. Amy can be reached at adonatell@eatright.org. If you have any questions or need additional information, please contact Amy at 800-877-1600 x4767. Thank you for your consideration.

Hi Paul,

I've made a reservation under your name at Greek Islands for 12 people @ 6:30 p.m. on Wed. 4/29/15. We all agreed it's our favorite Greek restaurant in Greektown... they also have a 2nd location in Lombard that I frequent a couple of times a year. No special room, no courses, just order off the menu (prices are very reasonable).

Paul, I like all, but we have never done Greek. Mary mentioned that we are kind of in a Greek neighborhood, so that might be fun.

Chiraq always does a great job in this arena, so I will support whatever he decides. I just didn't want to do a fixed 5 course menu that would cost a fortune.

Donna,

I have Chirag looking into it. There are some moderately priced restaurants not far from the hotel. Do you have preference; Italian, Greek, etc. Let me know and we will get the options.

Subject: Re: FW: FAC meeting next week

Paul, I have talked with Mary and we both agree that she does not need to be doing dinner at her house. Although, I know we would have enjoyed it! I really think the best option would be for us to schedule a dinner meal for all of us at some reasonably priced restaurant. We can let the committee know about the option to go to the lakefront events. We can make them feel comfortable in attending that event if that is their choice. Mary has offered to try and come up with some restaurant ideas and get back in touch with you. There are 9 on the committee, and depending on who on the Headquarters team wanted to come, it could be as many as 12. I

think with those numbers we could still be accommodated without having to do a fixed expensive menu. I really like the networking time at dinners we all do as a committee, but if people want to do something else then they would be free to do just that. I always worry that someone would be left out, if we just all do our own thing. That is probably a female mentality thing, and I will just go ahead and own up to it! Thanks for starting the conversation

Donna,

Given the demand on Mary, I would recommend you don't go her place. I can only imagine what it would be like for her to work like crazy, pulled in multiple directions and then have people over to her home. Too exhausting. She is kind to offer, but, I would not want to do this to her. It would be your call. If you like, I can reach out to her.

That being said, I can find a restaurant for the FAC or we can leave it open. It will be crazy in Chicago since the NFL draft begins on the 30th. I think the FAC might get a kick out of the activities that are planned over by the lake front. So, my recommendation would be to let people go and have fun; especially if the weather is nice.

Let me know.
Paul

Subject: FAC meeting next week

Hello Donna, Kay and Paul,

Hope you all are well-hard to believe this meeting is right around the corner!

I need to mention a couple of conflicts, only one of which affects (for a short time) my participation in the actual FAC meeting.

On Wed 4/29 from 9-11am, a call is scheduled about a key program that I'm involved with at work. I don't believe that I'll need to be present for the entire call but will need to be on for at least the first hour. I had no control over the timing of the call, which includes about 10 others (many with impossible schedules). So I will step out of the room during this time and return ASAP.

Wed 4/29 from 6-7 pm, I'll also need to be on a call with an Australian group we're working with. For them it'll be 9 am!

I still would be glad to host a casual meal for the FAC at my place, it would just need to start after 7 pm. There are plenty of local places that would be glad to cater in some tasty items.

Sorry to have to make a few waves with this last meeting.

Mary

Sounds great. Please invite Christian and Maria to come to eat. Pat would be welcome to come also, but I am sure she would prefer to go home. Obviously we would love for you to come, but understand if you need to go home also. We can adjust the number when we know how many can attend!

Hi Paul,

I've made a reservation under your name at Greek Islands for 12 people @ 6:30 p.m. on Wed. 4/29/15. We all agreed it's our favorite Greek restaurant in Greektown... they also have a 2nd location in Lombard that I frequent a couple of times a year. No special room, no courses, just order off the menu (prices are very reasonable).

Paul, I like all, but we have never done Greek. Mary mentioned that we are kind of in a Greek neighborhood, so that might be fun.

Chirag always does a great job in this arena, so I will support whatever he decides. I just didn't want to do a fixed 5 course menu that would cost a fortune.

Donna,

I have Chirag looking into it. There are some moderately priced restaurants not far from the hotel. Do you have preference; Italian, Greek, etc. Let me know and we will get the options.

Paul, I have talked with Mary and we both agree that she does not need to be doing dinner at her house. Although, I know we would have enjoyed it! I really think the best option would be for us to schedule a dinner meal for all of us at some reasonably priced restaurant. We can let the committee know about the option to go to the lakefront events. We can make them feel comfortable in attending that event if that is their choice. Mary has offered to try and come up with some restaurant ideas and get back in touch with you. There are 9 on the committee, and depending on who on the Headquarters team wanted to come, it could be as many as 12. I think with those numbers we could still be accommodated without having to do a fixed expensive menu. I really like the networking time at dinners we all do as a committee, but if people want to do something else then they would be free to do just that. I always worry that someone would be left out, if we just all do our own thing. That is probably a female mentality thing, and I will just go ahead and own up to it! Hi CHK 2nd round reviewers,

Thank you all so much for completing your reviews and giving such thought and concern over each application! Each application was reviewed by two 2nd round reviewers and scores were averaged. Of the 104 applications assigned to 2nd round reviewers, 35 of them scored in the highest tier and if everyone is in agreement, these 35 will be approved. There were 40 applications that scored in the lowest tier and have been eliminated. That leaves **15 out of the 29 remaining applications to approve** on our webinar **Wed, April 22 8am-11:3am CST** (webinar link is on your Outlook Invite).

The **35 projects** that scored in the **highest tier** included the following:

22 applications with both 2nd round reviewers who "strongly" recommended the application

13 applications scoring 35 or higher with one reviewer who "strongly" recommended the application and the other who "possibly recommended" the application

The **40 applications** that scored in the **lowest tier** included the following:

23 applications with total scores under 30

6 applications with scores under 33 with both reviewers who "possibly" recommended the application

8 with one reviewer who "possibly" recommended the application and the other who "did not" recommended the application

3 applications with both reviewers who "did not" recommend the application

Attached is a zip file of the 35 applications of approved projects and a pdf file that includes the breakdown of the 35 projects, including target audience, ethnicity, setting, state represented, and project descriptions. Please keep this information confidential.

Thank you once again for your time commitment to conducting the reviews and your expertise--I look forward to our webinar on Wednesday!

All,

I hope you are having a great day. I just want to remind you of our meeting next week. The information for our meeting will begin to be loaded onto the portal this afternoon. I won't get into the March financial narrative at this point since there is a lot of information to discuss. I hope to have this later in the week. We will be providing the following information;

1. Agenda
2. Minutes for the March meeting.
3. Insurance overview from Rob Wessel
4. Investment overview from Al Bryant. He has provided both the Foundation's and the Academy's information. For this meeting, I will have him focus on the Academy. However, I will leave both for your review. If you feel otherwise, please let me know.
5. FY15 audit and tax plan from Plante Moran. This may not be available today. We have not yet received the information. We will post it as soon as we receive it.

6. Final February Financials. The final financial statements will be posted today. However, the narrative from Christian may not be available until later in the week.
7. Preliminary March Financials. Financial Statements will be posted today
8. FY17 Dues increase proposal. Yes, it is “that” time again. We are accelerating this decision a little. Barbara Visocan has put together an overview for a potential dues increase in FY17.
9. FY16 budget package. This will come a little later in the week. We are “tweaking” the information. I hope to have this to you no later than Thursday.

If there is anything that anyone would like to make sure we discuss, but, is not listed, please let me know.

Paul

Subject: Kids Eat Right Communication - more transparency

Hi Denice.

Pat shared with me your message and I'm happy to respond. You are correct that our website lists the Academy's top level sponsors, national and premier levels. It also includes background on each company and a statement explaining how/why we work with them including their Corporate Social Responsibility efforts. In addition to posting on the website, which we have done since we have had a website, we run a list of the sponsors in an acknowledgment six times per year through *Eat Right Weekly* and also publish the printed list in our *Journal* (six times per year) as well as *Food and Nutrition* magazine (two to four times a year). All of the Academy and Foundation sponsors are identified in our Academy Annual Report which is also available on our website and promoted each year in *Eat Right Weekly*. The Foundation uses multiple channels and touch points to communicate/announce our sponsorships as well that includes a combination of *Eat Right Weekly*, the Donor Report, Kids Eat Right Monday Message, etc. What we don't do (and should really begin to include to further enhance transparency) is provide a list of all the Dietetic Practice Group sponsors (see attached list). These lists are contained within the individual DPG communications and don't reach the broader membership. We should disclose these comprehensive lists with the same kind of detailed information that we provide regarding our Academy and Foundation sponsors. This will both inform our members and show the benefits of these types of support.

We are exploring creating our own Academy Social Responsibility Report, that can highlight all of these actions and be a readily available resource to members and consumers published electronically for easy updates and access. It can really help tell our story of who we work with, our review processes, the outcomes of these activities and how it moves forward our mission and vision.

Here are some useful links to the information referenced above.

For more information on how Academy sponsors contribute to the Academy's mission, visit www.eatright.org/corporatesponsors.

Meet our sponsors:

<http://www.eatrightpro.org/resources/about-us/advertising-and-sponsorship/meet-our-sponsors>

FNCE Sponsors each year live on the FNCE website:

<http://www.eatrightfnce.org/FNCE/content.aspx?id=6442485238>

Academy Foundation Donor Report:

Click on read the report on the right hand side

<http://www.eatrightfoundation.org/Foundation/>

You asked for a three-year snapshot of KER. I'm sure we can put that together. We do have a three year snapshot of *all* the Foundation activities in an infographic format. This has also been shared with members through Eat Right Weekly, to donors and to KER volunteers through the KER Monday message.

Foundation infographic

<http://www.eatrightfoundation.org/Foundation/content.aspx?id=6442484105>

Thanks for your questions and comments. This is good information that needs to be shared. I'm going to pass it along to the Foundation Board as well. So sorry to be sending this late on a Friday. I hope this information is helpful. If you have any additional questions please let me know.

Subject: Re: Kids Eat Right Communication - more transparency

Hello,

I agree, this is a great summary - more thoughts

Since KER started in 2010 - is there a way to show in a graph format what was done annually?

I am hear members say they want transparency - what other companies are sponsors - website lists top 5 - is there a comprehensive list

Thanks,

Subject: Re: "Serving Students and Families through Child Nutrition Programs" Hearing

Kaite, Thanks so much for reaching out to me. I was off for Master's week so I am sorry it took me awhile to get back to you. I am attaching a document that has "Findings from a Survey on School Nutrition Among Parents in Georgia" that has some great information for background information for Congressman Allen to use at the hearings. The questions I would most like him to ask are:

1. I recently saw a poll (attached) that indicated that 93% of parents in my state think school foodservice SHOULD serve a fruit or vegetable with every meal. Are there strategies we could be using to increase consumption of these fruits and vegetables?

For example in one of my district's (Burke County) they are having a lot of success with their farm to school program. They are serving locally grown collard greens, sweet potatoes, cabbage, broccoli, strawberries, whole grain grits, blueberries, locally milled whole wheat flour and many other local products.

Do you think programs like Farm to School or Smarter Lunchroom funding have been helpful?

2. What are the current recommendations in terms of whether or not we are going to stay with the Target 1 sodium levels or will we continue to decrease the sodium content of meals to levels that the students might find very unacceptable? The current recommendations seem feasible, but the Target 2 levels are going to create a tremendous burden on school districts and

manufacturers. (See attached sodium targets)

Let me know if he has any questions. Hope it goes well. I would love to hear some feedback from you on what his take is on the hearings.

Hi Donna!

Just wanted to let you know that the Education and Workforce Committee is holding its first hearing on child nutrition programs on Wednesday, April 15.

I was just wondering if there was anything in particular you would like Congressman Allen to highlight or ask a question about? Obviously, I can't guarantee he will bring up your question or point because sometimes he gets inspired and asks entirely different questions. J But I still wanted to give you an opportunity to share your experiences or highlight concerns with the committee through Congressman Allen.

All the best,

Katie

Subject: FW: Foundation Finance Committee Call
When: Monday, April 20, 2015 2:00 PM-3:00 PM (UTC-06:00) Central Time (US &Canada).
Where: Dial in number: (866) 477-4564; Conference code: 82-40-97-81-45#

Good morning. There is still some work that needs to be done to the Foundation budget, so we need to reschedule our April 20th call. Unfortunately I am out the week of the 27th (without email or cell service), so we are proposing the call for May 5th and sending it out to the remainder of the Board following the call. Please let me know if you are available on May 5th. Thanks.

ON THE PULSE OF PUBLIC POLICY

Attend PPW 2015: World's Largest Food and Nutrition Advocacy Summit

The Academy will host its annual Public Policy Workshop June 7 to 9 in Washington, D.C. Nearly 500 Academy members will attend the world's largest food and nutrition advocacy summit. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. [Review the program of events.](#)

New Public Health Caucus Created during National Public Health Week

U.S. Rep. Gene Green (Texas) and Rob Wittman (Va.) have launched the new Public Health Caucus as a way for members of Congress to discuss and support federal policies that result in improved health for all citizens.

White House Conference on Aging Releases Healthy Aging Policy Brief

The White House Conference on Aging has released the first in a series of policy briefs, focusing on healthy aging.

USDA Encourages Seniors to Use SNAP for Fruits and Vegetables

The United States Department of Agriculture encourages older adults to enroll in SNAP to learn how to shop at local grocery stores, and to purchase, prepare and store fruits and vegetables.

CPE CORNER

Earn 2 Free CPEUs: eNCPT Tutorials

Free, updated tutorials - and the opportunity to earn 2 CPEUs - are available for Academy members to learn more about the new eNCPT (formerly the IDNT). Click on the "Pricing" tab and the yellow button under "Subscribe Today."

Career Advancement with Online Certificate of Training Programs

The career outlook for registered dietitian nutritionists has never been brighter. As *the* health and wellness experts, RDNs possess food and nutrition knowledge that allow you to excel as educators, leaders and marketing professionals. To help RDNs move up in your careers, the Academy offers Certificate of Training programs addressing critical issues such as changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

CDR Weight Management Programs

The Commission on Dietetic Registration offers a number of weight management programs for Academy members.

[Learn More](#)

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available. These papers and quizzes can be accessed through the Academy's Online Learning Center.

CAREER RESOURCES

Sports Nutrition Care Manual Updated

The annual update to the *Sports Nutrition Care Manual* will be published April 13. New sections include Common Gastrointestinal Issues in Athletes; Eating Disorders; and Athletes with an Impairment, among many others.

April 23-24 Workshop: Envisioning the Future of Health Professional Education

The Institute of Medicine will hold the Global Forum on Innovation in Health Professional Education April 23 and 24 in Washington, D.C. The Academy has a successful alliance relationship with the Forum, which regularly brings together stakeholders from nations and professions to network, discuss and illuminate issues within health professional education. Academy members can attend the free workshop in person or via webcast.

April 30 Webinar: Integrative Sports Nutrition and Supplements

Join the re-launch of the Academys Professional Development webinar series and earn unlimited group learning opportunities. As the sports nutrition field continues to evolve, new programs and theories arise for achieving optimal performance levels through nutrition and supplementation. Are these programs safe, effective and legal? Lisa Dorfman, MS, RD, CSSD, LMHC, FAND, will share her knowledge as a 30-year sports nutrition leader in an April 30 webinar, "Integrative Sports Nutrition and Supplements: Efficacy, Safety and Practical Guidelines." The webinar will outline practice strategies and appropriate and effective supplement use; and identify certification agencies, their standards and seals of approval.

Updated Position Paper: Developmental Disabilities and Special Needs

The Academys updated position paper "Nutrition Services for Individuals with Intellectual and Developmental Disabilities and Special Health Care Needs" was published in the April *Journal of the Academy of Nutrition and Dietetics*. It is the position of the Academy that nutrition services provided by registered dietitian nutritionists and nutrition and dietetics technicians, registered, who work under the registered dietitian nutritionist's supervision, are essential components of comprehensive care for all adults with intellectual and development disabilities and children and youth with special health care needs.

RESEARCH BRIEFS

Adult Weight Management Practice Guidelines on EAL

The Evidence Analysis Library has published an evidence-based practice guideline on the effectiveness of counseling by registered dietitian nutritionists to treat and reduce obesity, including realistic weight goal setting, calorie reduction and multiple behavior therapy strategies.

Nutrition Focused Physical Exam

Attend or host a train-the-trainer workshop on "Diagnosing Malnutrition Using a Nutrition Focused Physical Exam." For more information, email nfpe@eatright.org.

ACADEMY MEMBER UPDATES

April 17 Deadline: Member Comments on New Proposed Position Concept

The Academy Positions Committee values information that Academy members provide on refining proposed position concepts. APC has approved the proposed position concept, "Inter-professional Education in Nutrition as an Essential Component of Medical Education." The deadline to submit comments on the proposed position concept is April 17.

Spring 2015 HOD Virtual Meeting

The House of Delegates will conduct its spring 2015 Meeting on May 2 and 3. The House will discuss the Academys Corporate Sponsorship program on both days. Materials pertaining to the

meeting include a webinar on the program. The meeting's agenda and a fact sheet are available. Consolidated dialogues and outcomes will be posted in mid-May. The topic "Engaging Members in the Need to Address Malnutrition Across Nutrition and Dietetic Practice Settings" will be discussed at the Fall HOD meeting in Nashville, Tenn.

2015 Outstanding Preceptor Award Winners

Congratulations to seven members who were selected by Nutrition and Dietetic Educators and Preceptors and the Foundation as winners of the 2015 Outstanding Preceptor Awards. More than 80 preceptors were nominated for the awards, funded by the Foundation, making the winners the best of the best.

Bylaws Amended

The Academy's Bylaws were amended March 26 by the House of Delegates. The amendments include a revision to the Retired and International member qualifications.

Play Ball: Fueling the Professional Athlete

Just in time for the start of the 2015 Major League Baseball season, the Academy has released a video highlighting the work of Academy member and Toronto Blue Jays team dietitian Leslie Bonci, MPH, RDN, CSSD, LDN, as she helps players achieve and maintain peak performance on and off the diamond. Watch the video and share with your friends and colleagues as baseball season gets into full swing.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Membership Renewal Now Open

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Are You Acquainted with Your Student Community?

If you haven't accessed the Student Community recently, you could be missing out on valuable information. Available only to Student members, the Academys Community is your resource for scholarship opportunities, event bulletins, student discussion sessions and more. Stay connected with the student dietetics world via the Community.

PHILANTHROPY, AWARDS AND GRANTS

Infographic for Food and Nutrition Professionals: 'U.S. Farming 101'

The Foundation's infographic "U.S. Farming 101" helps to increase awareness about who grows our food, how food is grown and how food and nutrition professionals can get involved. The infographic was developed through an educational grant from Elanco.

New Future of Food Toolkit: 'Smart Choices. For a Healthy Planet.'

The Foundation's new toolkit is now available. The toolkit - in English and Spanish - includes a presentation for adult and mature teen audiences, with leader notes, a suggested five-minute group activity and a coordinating handout.

May 1 Application Deadline: Future of Food Mini-Grants

To support the use of the new "Smart Choices. For a Healthy Planet." toolkit, 25 grants of \$200 are available. Recipients agree to give two presentations from the new toolkit (for parents and/or mature teens) between May 11 and June 30. Applications are due May 1 and recipients will be announced May 11. The toolkit was developed by content experts who are registered dietitian nutritionists and farmers. The new toolkit and mini-grant opportunity are made possible through an educational grant from Elanco.

May 1 Application Deadline: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community-residing older adults. Ideally, the award will be used to identify and solve problems pertaining to dietetic practice, program administration, service/care coordination or behavioral practices of older adults.

Make a Difference in the Profession While Renewing Your Academy Dues

Support the Foundation's Annual Fund through the checkoff box on your Academy dues renewal form or online. Your support will enable the Foundation to continue to provide scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. Please consider a donation to the Academy Foundation of *your* profession by year-end. See the Foundation's impact on the nutrition and dietetics profession. Learn more about the Foundation or make a donation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Hi Elise,

We can do produce a video but a webinar would be preferred because it is more cost effective, the presentation is easier to download and view on many different devices, and the slides can accompany the audio. We will certainly do whatever you prefer, so please let us know and we will work with Katie to produce it.

Thank you very much.

Doris

Subject: RE: KER Initiative Post Assessment Survey

I couldn't agree more with the comments from Donna and Diane -- the presentation by Katie Brown at the Nutrition News Forecast this past weekend really helped communicate the true intent and tremendous potential of this missed opportunity. As Evelyn and Lucille can attest, the spokespeople articulated that the presentation and slides should be available for all members.

As we prepare for the HOD discussion, I am sharing with you a perspective from a long-time Academy member and RDN, Barbara Beck, who is making her membership contingent on the Academy continuing its collaborations with industry.

-----Original Message-----

From: Barbara Beck [mailto:beck-barbara@att.net]

Sent: Tuesday, April 14, 2015 1:13 PM

To: Membership Team Mailbox

Subject: Membership question

Can you tell me if the issues of corporate sponsorship will be resolved and communicated to members prior to the June 1 membership renewal deadline? I think that working together with corporate sponsors can do so much to promote good nutrition messages to consumers and benefit the image of the Academy. I would really like to know the direction AND plans to take before renewing my membership. I've been a member for over 35 years and have valued the partnerships we have had with industry.

Hi Evelyn,

Thank you for your email. I agree, Katie Brown's presentation clearly articulates the purpose of the KER initiative and the original plan for communications. Attached is the information she presented to Academy Spokespeople this weekend. It contains a Foundation update and KER/KRAFT education initiative timeline. Since Katie's presentation is an hour long, I have attached the information so that you may review it before the call. Please feel free to forward any questions.

LEVICK provided a risk assessment report during the last conference call and we will have them provide updates on a monthly basis. As mentioned in my March 28 email to the Board, LEVICK's contract required an initial deposit of \$45,000, which they are billing against on an hourly basis. We have not exceeded the amount. We have not been billed by Barnes & Thornburg for any additional legal expense at this time, and as soon as we have that information I will let you know.

Best regards,

Pat

I couldn't agree more with the comments from Donna and Diane -- the presentation by Katie Brown at the Nutrition News Forecast this past weekend really helped communicate the true intent and tremendous potential of this missed opportunity. As Evelyn and Lucille can attest, the spokespeople articulated that the presentation and slides should be available for all members.

As we prepare for the HOD discussion, I am sharing with you a perspective from a long-time Academy member and RDN, Barbara Beck, who is making her membership contingent on the Academy continuing its collaborations with industry.

-----Original Message-----

From: Barbara Beck [mailto:beck-barbara@att.net]

To: Membership Team Mailbox

Subject: Membership question

Can you tell me if the issues of corporate sponsorship will be resolved and communicated to members prior to the June 1 membership renewal deadline? I think that working together with corporate sponsors can do so much to promote good nutrition messages to consumers and benefit the image of the Academy. I would really like to know the direction AND plans to take before renewing my membership. I've been a member for over 35 years and have valued the partnerships we have had with industry.

Thanks.

Barbara Beck

Best regards,

Pat

Pat, This is such an excellent recap of all we did and a great resource for all of us on the board to have. It does make you so sad when you look at what we did and what could have been, that it did not work out. Lessons learned!

Hi Evelyn,

Thank you for your email. I agree, Katie Brown's presentation clearly articulates the purpose of the KER initiative and the original plan for communications. Attached is the information she presented to Academy Spokespeople this weekend. It contains a Foundation update and KER/KRAFT education initiative timeline. Since Katie's presentation is an hour long, I have attached the information so that you may review it before the call. Please feel free to forward any questions.

LEVICK provided a risk assessment report during the last conference call and we will have them provide updates on a monthly basis. As mentioned in my March 28 email to the Board, LEVICK's contract required an initial deposit of \$45,000, which they are billing against on an hourly basis. We have not exceeded the amount. We have not been billed by Barnes & Thornburg for any additional legal expense at this time, and as soon as we have that information I will let you know.

Best regards,

Pat

Subject: Re: KER Initiative Post Assessment Survey

Pat could we hear the report that Katie Brown gave on Saturday at the Spokespersons training me? Will we also get a report of the Risk Assessment Plan from Levick? What about an updated financial report of the cost of their services and that of the additional legal help.

So true! You both responded positively so I am writing to you. Again, it absolutely pains me because this was a great initiative, even if Tracey to this day says it's not cheese--she wrote me that just last week before the all member message went out. Responding to all may make me look

defensive, especially in light of Glenna highlighting Denice's sentence re communications. What is shown in Katie's presentation is that there was a plan and it was culminating in April when the slices were appearing on shelves. And yes, we were aware of the perception of endorsement, but highlighting this is not an endorsement would have been a lightning rod for those who either hate the brand, sponsorships and industry. We also could have turned the tide had we been only responding to members. The initiative was doomed once it went external in such a public and negative way, with some of our own members feeding it. This is now going to be our reality due to social media, especially since members know we can be bullied. Any controversial issue we deliberate in the future will need to be assessed by not only what will our members say but will we stay the course when there is push back and emotion. Katie, by the way, has done a great job presenting to the Affiliates.

Thanks for all of your support!

LEVICK provided a risk assessment report during the last conference call and we will have them provide updates on a monthly basis. As mentioned in my March 28 email to the Board, LEVICK's contract required an initial deposit of \$45,000, which they are billing against on an hourly basis. We have not exceeded the amount. We have not been billed by Barnes & Thornburg for any additional legal expense at this time, and as soon as we have that information I will let you know.

Best regards,

Pat

Subject: Re: KER Initiative Post Assessment Survey

Pat could we hear the report that Katie Brown gave on Saturday at the Spokespersons training me? Will we also get a report of the Risk Assessment Plan from Levick? What about an updated financial report of the cost of their services and that of the additional legal help.

Subject: Re: FW: Post-Test Assistance

Pearlie, I deleted a lot of information off my slides because we were told to make them "less wordy" so some of the answers to these questions were verbally stated in the session, but not specifically on the slides. Some of the answers to these questions came from the pre-reading also. I am attaching a document that addresses where the answers are found. Please feel free to have the participant contact me for more help. I thought they were supposed to synthesize what they learned and put it to use on the post test? I was not aware that the exact wording for the questions were to be in the slides. I will revise my slides for future presentations.

Hi Donna, one of the participants from the March 12-14, 2015 Childhood Program is challenging her post-test score. Can you please verify that you covered the content of following questions in your presentation and if possible identify the slide numbers where the content can be located.

The Healthy Hunger Free Kids Act of 2010 will:

- a) Update the nutrition standards for school meals based on expert recommendations from the Institute of Medicine.
- b) Require more funding for school nutrition to be generated at the school district level
- c) Limit the meals offered in afterschool programs.
- d) Remove the requirement for school wellness policies to be in place at the school level.

Which of the following items are required to be served daily in the National School Lunch program as of Fiscal Year 2014?

- a) Fresh fruit
- b) Fresh vegetable
- c) Whole grain
- d) Fruit juice

Thank you.

April 14, 2015

Come and join your fellow colleagues on June 4-6, 2015 at the Certificate of Training in Adult Weight Management program in New Orleans. Don't miss this opportunity to earn a certificate of training in adult weight management, earn 35 CPE hours, network with other dietetic practitioners and enjoy the great city of New Orleans. New Orleans is one of the world's most fascinating cities. Steeped in a history of influences from Europe, the Caribbean, Africa and beyond, it's home to a truly unique melting pot of culture, food and music. The Big Easy is home to some of the finest jazz and blues in the world. In addition to music, the city has much to offer, including delicious Creole dining, and such attractions as The Aquarium of the Americas, the Superdome, the National World War II Museum, and many more must-see sites.

The program will be held at the Astor Crowne Plaza which is located in the heart of the legendary French Quarter.

Donna,

Thank you for meeting with me this morning to record the Treasurer's report to the HOD. You did great! I am including the link to the video, which will be shared with the HOD on Thursday:
<https://www.youtube.com/watch?v=P5WuO2IqXPE&feature=youtu.be>

As we discussed, I will call attention to the fact that sponsorships only made up 5% of the Academy's budget in FY 15. Our fact sheet indicated that funding from sponsorships does not exceed 10% of the Academy's budget. Let me know if you think anything else needs to be highlighted.

Thanks again, and have a great afternoon.

New piece in the 'French paradox' diet and health puzzle: Cheese metabolism

(Figuring out why the French have low cardiovascular disease rates despite a diet high in saturated fats has spurred research and many theories to account for this phenomenon known as the 'French paradox.' Most explanations focus on wine and lifestyle, but a key role could belong to another French staple: cheese. The evidence, say scientists, is in cheese metabolism)

Subject: RE: 2014 Foundation Tax Returns
Attachment: [image001.png](#)

Constance,

I apologize for not getting back to you on question number 4 sooner. I took a close look at the information. I think that the \$500,000 increase in expenses you are referring to below is actually for the "Other Expense" category of expenses; First page of the 990, line 17. These went down from \$1,919,993 in 2013 to \$1,413,381 in 2014 (\$506,612). The increases and decreases of any expense category really depend on how the money came in and how it goes out. As you can see, the expenses change across the various line items as you gravitate back to page 10 (part IX; Statement of Functional Expenses).

The \$506,613 reduction is made up of a few areas; the largest of which were the EB4K (down \$218K) and MetLife (down \$168K). So, I was partially right. I forgot about the MetLife change. If you stay on page 10, you might notice that there was a large increase on line 1; Grants. This primary driver of this increase is the increase of the General Mills Grants the Foundation was able to secure in FY14 (and in FY15!!).

In any event, I hope this helps. As I read your responses below, I am happy to see that they "make sense" or appear "ok". The Tax returns are an interesting animal. In many cases, they really are not logical. Each year, we develop the data, create the reports and I go through and ask the same questions or map each item on the tax return to a correlating item on the audited financial statement (when applicable). There are many times I am left to shake my head at the inconsistencies required by the IRS!! We keep the tax accountants busy.

If you need anything else, please let me know.

Have a great day.

Paul

Subject: RE: 2014 Foundation Tax Returns

Constance,

I don't have all of the answers in front of me. However, I think the following should be correct. If not, I will let you know tomorrow. I put the answers below in red. As for the percentage of the budget in reserves; the policy for the Academy indicates 50% of budgeted expenses should be in reserve. The Foundation is a little unique in that it has a great deal of money associated with Temporarily and Permanently restricted programs. However, it does have over a year in reserve in the unrestricted assets. Thank you.

Yes the organization's have run deficits. I know Donna may want to provide input. The reserves for the various groups were rising. It was determine by the FAC and Board that the Academy would use reserves to invest in new programs and initiatives as long as there wasn't a risk of the reserves declining to an uncomfortable level. I have attached the financial planning policy that may help. Paul, this document is helpful.

I hope this helps. I know the Tax returns can be a little odd. They are a recount of the audited financial statements with a little more information. Some things may make sense; some don't. Let me know if you need anything else. I can have the tax accountants attend the next foundation board meeting if you like. Paul, this may be useful. I will that up to Terry and Jean. I will also verify tomorrow the answer to question 4 below.

Have a great night.

Paul

Subject: RE: 2014 Foundation Tax Returns

Thank you Susie for sending these forms for the Foundation's tax returns. I do think it would be instructive to review these in further detail at our April 22nd meeting—especially the financial connections between the Academy and Foundation. I have a few questions for Paul for clarification.

1) The request for extension was for Jan 2015. We now are filing on April 15. Why was there a need for 2 extensions? What information was not available that was needed?—Form 8868, p.2

Answer: The tax returns cannot be done until after the audit is completed and accepted by the Board. Since that does not happen until FNCE in October, we automatically file for an extension because the returns have to be filed by October 15th. Naturally, by default, we need the first extension of 90 days just to be able to begin the process. The process requires a great deal of “give and take” between staff and the tax attorneys. In addition, the reviews required along with holiday season and the requirement for the Board to have the documents before filing requires us to file a second extension. This gives us to April 15th to finalize the returns. This is not an issue since the Foundation does not pay any taxes. In the case of the Academy, we would estimate any taxes that may be required and pay those in order to not pay any penalties. The time line for this process also allows us manage the staffing requirements internally. Thank you Paul, this makes sense.

2) On the 990: who is the non-independent voting member?

Answer: Pat is considered a non-voting member of the Foundation board. Thank you.

3) Why is the number of employees 0 for the Foundation, Form 990 p.1 , line 5, while salaries on line 15 are \$737,215?

Answer: This is one of oddities of the IRS. The IRS has ruled that people are considered the staff of the organization that provides the payroll or who provides the W2s. Even though the employees, like Susan Burns, Beth Labrador, Katie Brown, Mary Beth, etc., work for the Foundation, they are not considered employees of the Foundation. This is a change from previous years. The expenses of \$737,215 are the true expenses paid by the Foundation for the work provided by the staff. It is kind of like a “transfer” from one entity to another; The Academy pays the payroll and the Foundation reimburses the Academy for the expense.

4) Why are the expenses ~\$500,000+ less than the previous year?

Answer: I will have to get back to you on this one. However, I think it has to do with EB4K initiative. It may have ended in 2013.

5) What are considered membership dues for the Foundation?—Part VIII, p. 9—approx \$1.2 million. They are reported as revenue.

Answer: Even though this may not sound logical , this really is membership contributions. Given the definitions provided by the IRS, member contributions go onto this line (even though it says membership dues). The Foundation had \$1.2 million in member contributions in 2014. OK. That makes sense.

6) For Schedule A—why does the Academy have contributions of approximately \$2.2 million to the Foundation?

Answer: Again, even though this may not sound logical, this number is for the total contributions provided to the Foundation by the Academy, CDR, DPGS, MIGS for the past five years. The primary contributor is probably CDR with the scholarships that they provide. I believe they are \$1.8 million of the total. The remainder would come from the DPGS (approximately \$300,000) and the Academy (approximately \$100K). Again, I would have to verify the exact amounts, but, I should be close. OK

7) For Schedule B, part 1, with the exception of Martha Snavelly, why do the amounts for total contributions differ from Schedule A?

Answer: Again, the IRS is not logical; Schedule B, part 1 is just for the current fiscal year. So, Martha Snavelly is consistent because it came in the 2014 Fiscal year. The other amounts on Schedule B, part 1 would be one year's worth of contributions of the five years included in Schedule A. OK

I may be reading these incorrectly, but for the consolidated statements, specifically p. 23 and 25, it appears that the Academy, CDR, and the Foundation are running in a deficit position without the addition of return of investments to their budgets. The Academy appears in a deficit even with the returns on Investments. It has been awhile since I have been on the Board, so I may not remember, but is there a certain percentage of returns on investment that are "allowed/safe" to use for operating costs? What is the percentage of operating costs that we should have in reserve? I realize these may have been mentioned at a previous ANDF Board meeting, but somehow I may have missed them. Thank you for attaching the policy.

Thank you for your patience with these questions. I appreciate your consideration.

With kind regards,

Constance

Subject: 2014 Foundation Tax Returns

Good morning. Attached are the 2014 Foundation Tax Returns that were to be included as part of last month's Board call that needed to be rescheduled. There is no action required, but need to be circulated to the Foundation Board prior to the filing date of April 15th. Please let Paul know if you need additional information. Thanks.

A Message from the Academy President to Academy Members

April 9, 2015

Dear Academy Members,

Since our last communication on March 30 regarding the Kids Eat Right pilot initiative with Kraft, we have received a number of follow-up questions about the program and our next steps. In an effort to keep all Academy members apprised of the latest developments, I will be sending out regular e-mails to address the most prevalent questions and keep everyone up to date.

I appreciate the passion and interest of all members who have taken the time to share their thoughts. Following are comments on some of the most common questions.

Why wasn't the termination more immediate?

The process for termination of the contract with Kraft will require some legal discussions between the Academy's attorneys and Kraft's legal department. We are moving forward diligently to finalize the termination of the contract, and we will immediately notify the entire membership when the final legal process is complete.

How is the Academy going to move forward?

Kids Eat Right is one of the Foundation's and Academy's most important and rewarding initiatives. We will continue to work to provide educational resources and positive messaging through Kids Eat Right to empower families to shop, cook and eat healthy.

Both Boards are opening a constructive dialogue with members nationwide, and we plan to have an open discussion about sponsorships at the upcoming House of Delegates meeting in May. If you have not done so already, please share any concerns or suggestions that you have regarding sponsorship with your Affiliate or Dietetic Practice Group delegate. In addition, members of the Academy's leadership will be at many Affiliate meetings over the next few weeks including

Arkansas, California, Ohio, Pennsylvania and Wisconsin.

I encourage all members to continue providing input and feedback that contributes to this dialogue in the days, weeks and months to come.

Sincerely,

Sonja L. Connor, MS, RDN, LD, FAND
Academy President 2014-2015

Based on additional feedback we received that members may not respond positively to one of the questions, we have revised the all-member email. We don't want to over simplify their concerns regarding sponsorship. Question number three has been deleted and following the House dialogue, we will address the bigger issues surrounding sponsorship in a future email communication to members.

The email that will go out tomorrow morning follows. Please let me know if you have any questions. Thank you.

Best regards,

Pat

ON THE PULSE OF PUBLIC POLICY

Attend PPW 2015: Worlds Largest Food and Nutrition Advocacy Summit

The Academy will host its annual Public Policy Workshop June 7 to 9 in Washington, D.C. Nearly 500 Academy members will attend the world's largest food and nutrition advocacy summit. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. [Review the program of events.](#)

Academy Provides Testimony on FY 2016 Appropriations Process

The Academy has submitted written testimony in support of the benefits of medical nutrition therapy provided by registered dietitian nutritionists for people with HIV/AIDS through the Ryan White program.

Office of National HIV/AIDS Policy Hosts Public Regional Forums

Members are encouraged to participate in regional forums that will help craft the updated National HIV/AIDS Strategy. Academy member Marcy Fenton, MS, RD, will attend the April 22 forum in Los Angeles.

Incentives for Healthy Eating: Innovative USDA Grants

Agriculture Secretary Tom Vilsack announced awards totaling \$31 million in more than 30 communities to encourage fruit and vegetable purchases by SNAP recipients. This newly funded project, intended to improve healthy eating, is a result of the passage of the 2014 Farm Bill that

the Academy worked hard to support.

Host a Viewing Session for White House Conference on Aging

Academy members are encouraged to host a viewing session and provide input to the White House Conference on Aging. This feedback will be integral in developing the priority issues for the conference.

CPE CORNER

Earn 2 Free CPEUs: eNCPT Tutorials

Free, updated tutorials - and the opportunity to earn 2 CPEUs - are available for Academy members to learn more about the new eNCPT (formerly the IDNT). Click on the Pricing tab and the yellow button under "Subscribe Today."

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available. These papers and quizzes can be accessed through the Academy's Online Learning Center.

CAREER RESOURCES

2015 Standards of Practice and Professional Performance for RDNs in Adult Weight Management

The Academy's Quality Management Committee and the Adult Weight Management dietetic practice group have developed the current standards for registered dietitian nutritionists in adult weight management. The *2015 Standards of Practice and Standards of Professional Performance*

for Registered Dietitian Nutritionists (Competent, Proficient and Expert) in Adult Weight Management allows RDNs to assess their current skill levels and to identify areas for further professional development in this expanding practice area.

New AHRQ Resources Help Primary Care Practices Engage in Quality Improvement Activities

The Agency for Healthcare Research and Quality has released two new white papers to help primary care practices engage in quality improvement activities in a continuous and effective way. *Engaging Primary Care Practices in Quality Improvement: Strategies for Practice Facilitators* provides a framework to engage primary care practices in QI and practical strategies to help practice facilitators address important challenges. *Using Health Information Technology to Support Quality Improvement in Primary Care* shares lessons from experts in health IT, clinical practice, primary care transformation and human factors engineering, as well as from representatives of primary care organizations that have made exemplary use of health IT for QI. The white papers, associated briefs and related resources are available from AHRQ's PCMH Resource Center. [Learn More](#)

April 16 Online Forum: Quality Measurement 101

What is a quality measure? How do different people - payers, purchasers, providers, patients and researchers - use quality measures? Where does measurement fit into health care quality improvement? The National Quality Forum will offer Quality Measurement 101: The Basics on April 16 to answer these questions and more. During the 60-minute virtual session, NQF staff will explain fundamental concepts and terminology of quality measurement. The Academy is a member of NQF, allowing Academy members to take advantage of this learning opportunity. [Learn More](#)

Sentinel Event Alert Examines Safe Use of Health Information Technology

Safe use of health information technology is the focus of *Sentinel Event Alert* Issue 54, released March 31 by The Joint Commission. The alert examines contributing factors to events that are health IT-related and suggests solutions for health care organizations. The Joint Commission also offers a free continuing education course, Investigating and Preventing Health Information Technology-Related Patient Safety Events, that teaches how to identify, report and address health IT-related safety concerns. [Learn More](#)

RESEARCH BRIEFS

Have You Seen ANDHII lately?

Enhanced reliability and new terms of service that allow for international use are included in the latest update of the Academy of Nutrition and Dietetics Health Informatics Infrastructure. Start tracking your patient and client outcomes and contributing to the advancement of the nutrition and dietetics profession with ANDHII.

In the *Journal*: New Research from the Academy

Learn about barriers encountered by registered dietitian nutritionists to conducting research and efforts by the Dietetics Practice Based Research Network to overcome them. Clinical nutrition managers: Read an article from DPBRN and the Clinical Nutrition Managers dietetic practice group on how to update your staffing levels with the latest information.

ACADEMY MEMBER UPDATES

Play Ball: Fueling the Professional Athlete

Just in time for the start of the 2015 Major League Baseball season, the Academy has released a video highlighting the work of Academy member and Toronto Blue Jays team dietitian Leslie Bonci, MPH, RDN, CSSD, LDN, as she helps players achieve and maintain peak performance on and off the diamond. Watch the video and share with your friends and colleagues as baseball season gets into full swing.

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Membership Renewal Now Open

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you were recently mailed.

Not Receiving the *Journal*? Make Sure Your Contact Information Is Up-to-Date

Take full advantage of the exclusive benefits included with your Academy membership, such as subscriptions to the *Journal*, *Food & Nutrition Magazine*, *Daily News*, *Eat Right Weekly* and much more. To update your contact information, sign in to www.eatrightPRO.org and access the My Profile tab in the My Academy toolbar.

PHILANTHROPY, AWARDS AND GRANTS

April Kids Eat Right Everyday Heroes

New Future of Food Toolkit: 'Smart Choices. For a Healthy Planet.'

The Foundation's new toolkit is now available. The toolkit - in English and Spanish - includes a presentation for adult and mature teen audiences, with leader notes, a suggested five-minute group activity and a coordinating handout.

May 1 Application Deadline: Future of Food Mini-Grants

To support the use of the new "Smart Choices. For a Healthy Planet." toolkit, 25 grants of \$200 are available. Recipients agree to give two presentations from the new toolkit (for parents and/or mature teens) between May 11 and June 30. Applications are due May 1 and recipients will be announced May 11. The toolkit was developed by content experts who are registered dietitian nutritionists and farmers. The new toolkit and mini-grant opportunity are made possible through an educational grant from Elanco.

May 1 Application Deadline: Healthy Aging DPG Community Based Applied Research/Best Practice Award

This \$4,000 award encourages applied research projects that improve the nutritional status, well-being and independence of community residing older adults. Ideally, the award will be used to identify and solve problems pertaining to dietetic practice, program administration, service/care coordination or behavioral practices of older adults.

Make a Difference in the Profession While Renewing Your Academy Dues

Support the Foundations Annual Fund through the checkoff box on your Academy dues renewal form or online. Your support will enable the Foundation to continue to provide scholarships, research grants, continuing education awards and innovative educational programs through the Kids Eat Right initiative. Please consider a donation to the Academy Foundation of *your* profession by year-end. See the Foundation's impact on the nutrition and dietetics profession. Learn more about the Foundation or make a donation.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Eat Right Weekly is a benefit for members of the Academy of Nutrition and Dietetics. If you prefer not to receive *Eat Right Weekly*, simply follow this link to unsubscribe.

Dear Academy Members,

Since our last communication on March 30 regarding the Kids Eat Right pilot initiative with Kraft, we have received a number of follow-up questions about the program and our next steps. In an effort to keep all Academy members apprised of the latest developments, I will be sending out regular e-mails to address the most prevalent questions and keep everyone up to date.

I appreciate the passion and interest of all members who have taken the time to share their thoughts. Following are comments on the most common questions and topics.

Why wasn't the termination more immediate?

The process for termination of the contract with Kraft will require some legal discussions between the Academy's attorneys and Kraft's legal department. We are moving forward diligently to finalize the termination of the contract, and we will immediately notify the entire membership when the final legal process is complete.

Why didn't you know that a Kraft Singles sponsorship would have negative repercussions?

The Academy launched this initiative with the goal of raising consumer awareness about the importance of having vitamin D and calcium as essential nutrients in children's diets and driving consumers, in particular moms, to our Kids Eat Right website for unbranded content. The program aimed to leverage Kraft's extensive national distribution network and gain access – through this product – to millions of consumer homes. Since the contract firmly stipulated this was not an endorsement, we did not foresee the potential for the "proud supporter of Kids Eat Right" messaging to be misconstrued as an "endorsement" of a product. This has been a teachable moment for us.

How is the Academy going to move forward?

Kids Eat Right continues to be one of the Foundation's and Academy's most important and rewarding initiatives. We will focus on all of the extensive resources and positive, unbranded messages this program offers to empower families to shop, cook and eat healthy.

Both Boards are opening a constructive dialogue with members nationwide, and we plan to have an open discussion about industry sponsorships at the upcoming House of Delegates meeting in May. In addition, key members of the Academy's leadership will be at many Affiliate and DPG

meetings over the next few weeks including California, Wisconsin, Arkansas, Pennsylvania, and Ohio.

I encourage all members to continue providing input and feedback that contributes to this dialogue in the days, weeks and months to come.

Sincerely,

Sonja L. Connor, MS, RDN, LD, FAND

Academy President 2014-2015

Attachment: [image001.png](#)
[Financial planning policy.doc](#)

Constance,

I don't have all of the answers in front of me. However, I think the following should be correct. If not, I will let you know tomorrow. I put the answers below in red. As for the percentage of the budget in reserves; the policy for the Academy indicates 50% of budgeted expenses should be in reserve. The Foundation is a little unique in that it has a great deal of money associated with Temporarily and Permanently restricted programs. However, it does have over a year in reserve in the unrestricted assets.

Yes the organization's have run deficits. I know Donna may want to provide input. The reserves for the various groups were rising. It was determine by the FAC and Board that the Academy would use reserves to invest in new programs and initiatives as long as there wasn't a risk of the reserves declining to an uncomfortable level. I have attached the financial planning policy that may help.

I hope this helps. I know the Tax returns can be a little odd. They are a recount of the audited financial statements with a little more information. Some things may make sense; some don't. Let me know if you need anything else. I can have the tax accountants attend the next foundation board meeting if you like. I will also verify tomorrow the answer to question 4 below.

Have a great night.

Paul

Subject: RE: 2014 Foundation Tax Returns

Thank you Susie for sending these forms for the Foundation's tax returns. I do think it would be instructive to review these in further detail at our April 22nd meeting—especially the financial connections between the Academy and Foundation. I have a few questions for Paul for clarification.

1) The request for extension was for Jan 2015. We now are filing on April 15. Why was there a need for 2 extensions? What information was not available that was needed?—Form 8868, p.2

Answer: The tax returns cannot be done until after the audit is completed and accepted by the Board. Since that does not happen until FNCE in October, we automatically file for an extension because the returns have to be filed by October 15th. Naturally, by default, we need the first extension of 90 days just to be able to begin the process. The process requires a great deal of “give and take” between staff and the tax attorneys. In addition, the reviews required along with holiday season and the requirement for the Board to have the documents before filing requires us to file a second extension. This gives us to April 15th to finalize the returns. This is not an issue since the Foundation does not pay any taxes. In the case of the Academy, we would estimate any taxes that may be required and pay those in order to not pay any penalties. The time line for this process also allows us manage the staffing requirements internally.

2) On the 990: who is the non-independent voting member?

Answer: Pat is considered a non-voting member of the Foundation board.

3) Why is the number of employees 0 for the Foundation, Form 990 p.1 , line 5, while salaries on line 15 are \$737,215?

Answer: This is one of oddities of the IRS. The IRS has ruled that people are considered the staff of the organization that provides the payroll or who provides the W2s. Even though the employees, like Susan Burns, Beth Labrador, Katie Brown, Mary Beth, etc., work for the Foundation, they are not considered employees of the Foundation. This is a change from previous years. The expenses of \$737,215 are the true expenses paid by the Foundation for the work provided by the staff. It is kind of like a “transfer” from one entity to another; The Academy pays the payroll and the Foundation reimburses the Academy for the expense.

4) Why are the expenses ~\$500,000+ less than the previous year?

Answer: I will have to get back to you on this one. However, I think it has to do with EB4K initiative. It may have ended in 2013.

5) What are considered membership dues for the Foundation?—Part VIII, p. 9—approx \$1.2 million. They are reported as revenue.

Answer: Even though this may not sound logical , this really is membership contributions. Given the definitions provided by the IRS, member contributions go onto this line (even though it says membership dues). The Foundation had \$1.2 million in member contributions in 2014.

6) For Schedule A—why does the Academy have contributions of approximately \$2.2 million to the Foundation?

Answer: Again, even though this may not sound logical, this number is for the total contributions provided to the Foundation by the Academy, CDR, DPGS, MIGS for the past five years. The primary contributor is probably CDR with the scholarships that they provide. I believe they are \$1.8 million of the total. The remainder would come from the DPGS (approximately \$300,000) and

the Academy (approximately \$100K). Again, I would have to verify the exact amounts, but, I should be close.

7) For Schedule B, part 1, with the exception of Martha Snavelly, why do the amounts for total contributions differ from Schedule A?

Answer: Again, the IRS is not logical; Schedule B, part 1 is just for the current fiscal year. So, Martha Snavelly is consistent because it came in the 2014 Fiscal year. The other amounts on Schedule B, part 1 would be one year's worth of contributions of the five years included in Schedule A.

I may be reading these incorrectly, but for the consolidated statements, specifically p. 23 and 25, it appears that the Academy, CDR, and the Foundation are running in a deficit position without the addition of return of investments to their budgets. The Academy appears in a deficit even with the returns on Investments. It has been awhile since I have been on the Board, so I may not remember, but is there a certain percentage of returns on investment that are "allowed/safe" to use for operating costs? What is the percentage of operating costs that we should have in reserve? I realize these may have been mentioned at a previous ANDF Board meeting, but somehow I may have missed them.

Thank you for your patience with these questions. I appreciate your consideration.

With kind regards,

Constance

Its Your Turn to Lead

Having trouble viewing this e-mail? [View it in your browser.](#)

Connect with Us:

Dear Donna,

Through your ANDPAC donations youve helped us positively influence policy and now it is your turn to take the lead! Attend the Academys Public Policy Workshop (PPW) June 7 9, 2015:

- Unmatched leadership training
- Professional connections with leaders in the field
- Face-to-face dialogue with your members of Congress
- Skills that will launch your career beyond PPW

We are offering other fun ANDPAC activities at PPW!

Attend ANDPACs Signature Event on Monday, June 8: Mingle with nutrition and dietetic leaders and enjoy hors d'oeuvre and spirits while you hear from members of Congress who support our profession through bills like the Older Americans Act and the Treat and Reduce Obesity Act. This event is open to all Academy members who wish to attend and does not require PPW attendance. Individuals donating \$125 or more to the PAC are cordially invited to attend the ANDPAC Signature Event.*

Participate in the ANDPAC Film Festival in Conjunction with HEN DPG: A \$20 donation is requested to attend the ANDPAC Film Festival on Saturday, June 6, 2015 at 7:30 pm.* The event will feature a documentary film about food policy issues. You do not have be registered for PPW to attend this event.

See you at PPW!

Sincerely,

Denise Andersen, MS, RDN, LD, CLC
Chair, Academy of Nutrition and Dietetics Political Action Committee

** Federal law requires political committees to report to Federal Election Commission the name, mailing address, occupation and name of employer for each individual whose contributions aggregate in excess of \$200.00 in a calendar year. Corporate contributions are prohibited by law. Individuals can not contribute more than \$2000 per calendar year to the same political action committee. **Donations to ANDPAC are not tax deductible.***

Upcoming Weight Management Programs

Certificate of Training in Adult Weight Management Program

June 4-6, 2015 ~ New Orleans, Louisiana

Registration Fee: \$370.00

CPE Hours Awarded: 35

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-adult-program>

Certificate of Training in Childhood and Adolescent Weight Management Program

September 10-12, 2015 ~ Buffalo, New York

Registration Fee: \$370.00

CPE Hours Awarded: 32

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management-childhood-adolescent-program>

Level 2 Certificate of Training in Adult Weight Management Program

May 14-16, 2015 ~ Charlotte, North Carolina

Registration Fee: \$445.00

CPE Hours Awarded: 50

For registration information and to view the certificate requirements, timeline, registration deadlines and agenda:

<http://cdrnet.org/weight-management/level2>

Steps to earn certificate:

1. Register for a certificate program.
2. Read pre-work materials which include research articles, resources and activities.
3. Pass multiple choice pre-test with a minimum score of 80%. The questions are based on the pre-work readings.
4. Attend a 2 1/2 day on-site workshop where you can learn and network with peers.
5. Pass a take-home multiple choice post-test with a minimum

score of 80%. The questions are based on the on-site presentations and pre-work readings.

What previous participants have to say about the programs:

Because I primarily work in the clinical setting, my experience in weight management counseling has been limited. This training provided me with the framework to implement behavioral modification counseling to patients who are interested in weight loss.

D. Ahamirano, RD
Clinical Dietitian, Private Practice
Los Angeles, CA

I feel so motivated to change around my current strategies for goal setting and engaging my patients on their care/goals. I feel as though I will have an easier time monitoring and evaluating their progress.

J. Hicks, MBA, RD, LDN
Registered Dietitian
Skokie, IL

Great program. I gained valuable experience and knowledge that will benefit the patients I serve.

C. Schnell, RD
Pediatric Dietitian Specialist
Orlando, FL

Happy and motivated to learn from other health professionals that share the passion in helping our youth to grow healthy, happy and at their maximum potential.

A. Cardenas, MS, RD
Clinical Pediatrics
Los Angeles, CA

If you are unable to attend an on-site program, you may wish to consider one of our self-study modules. The modules are now available in paper and on-line versions.

For Information:
Adult Weight Management Self-Study Module

Good morning,

Attached is the mid-point report from the 14-15 Champions recipients and that final reports will be submitted at the end of June.

In May 2014, 50 non-profit organizations from across the nation were selected to each receive \$20,000 in funding to support nutrition and physical activity programs targeting children and families.

Thanks!

Subject: Re: 2014 Foundation Tax Returns

Evelyn,

Since the payroll is through the Academy, the government now requires us to report the salaries as coming through the Academy for tax return purposes. Even though they are for the Foundation. You will also see Mary Beth's salary is no longer allocated between the two organizations as it has been in the past. Since it was new this year, it was an issue discussed with our external tax accountants. They have assured me this is the appropriate way to represent the salaries when reflecting individual information. However, the salaries and benefits for each of these individuals is included within the expenses for the Foundation (represented in the expense area of the return)

where applicable.

Let me know if you have any other questions.

Paul

I have reviewed the Tax forms. I am wondering about the salaries of Susan Burns, Director of Major Gifts and Katie Brown, National Senior Director, Nutrition. Page 45, Part VII, Section A Compensation says that salaries are paid by AND, since most services performed by these individuals were for ANDF. Compensation reported in Column D as if paid by the organization. Please clarify? Is this an error did I misread the document?

Attachment: [image002.jpg](#)
[Creating a Profile in aXiom.pdf](#)

This is a reminder that the upcoming Board of Directors meeting is scheduled for May 13-14 at Academy headquarters in Chicago, 120 South Riverside Plaza, Suite 2000. In previous years the orientation for incoming Board members preceded the May Board meeting, however orientation for the 2015-16 Board will be focused on governance and will occur during the July 8-10 Board retreat in New Orleans.

Reservations have been made at the Hotel Allegro, 171 W. Randolph Street, for arrival on May 12, unless you request otherwise. Your hotel room will be master-billed, but you will be asked to pay for incidentals. The meeting will convene at 8:00 am on Wednesday, May 13 and will adjourn on Thursday, May 14 at 12:00 pm. We welcome incoming Academy Board members Lucille Beseler, Michele Delille Lites, Linda Farr, Tamara Randall and Jean Ragalie-Carr who will audit the meeting.

You are approved to make your travel arrangements for the May meeting. To book your travel online, click on the following link: <https://adatvl.axo20.com/> and enter 103-2430 into the Approval Code box in the Reporting Information section. First time users will need to select *Create a New Account* to establish a user record. Detailed instructions are attached.

Please contact me at jschwaba@eatright.org if you have any questions.

Thank you!

Susan,

Donna,

I updated the Foundation financial information that was originally to be presented in March. The original included information through January. This has been updated through March. I am not sure what date the new meeting will be, so, Susa will have to add the date on the cover.

Let me know if you have any questions.

529. Foundation update for Board Meeting

From: Paul Mifsud <PMifsud@eatright.org>
To: Susan Burns <Sburns@eatright.org>, DMartin@Burke.k12.ga.us
<DMartin@Burke.k12.ga.us>
Sent Date: Apr 02, 2015 11:25:45
Subject: Foundation update for Board Meeting
Attachment: [April 2015 cover.doc](#)
[foundation board report through february 2015 electronic.xlsx](#)

Susan,

Donna,

I updated the Foundation financial information that was originally to be presented in March. The original included information through January. This has been updated through March. I am not sure what date the new meeting will be, so, Susa will have to add the date on the cover.

Let me know if you have any questions.

Paul

Sent Date: Apr 02, 2015 09:32:51
Subject: RE: HOD Power point with notes
Attachment:

Donna,

Sorry I missed this. This is what I expected. The problem with this is it indicates that Barnes and Thornburg does not have the resources, beyond Paula, to address this issue. If I were Paula, or BT, I would not be too thrilled. That being said, it isn't unprecedented that we use outside legal counsel. Usually, it is due to a conflict at BT or where they may not have the expertise. Basic contract law and negotiations are a different issue. None-the-less, it is the board's purview to do as they have done and Pat has to follow suit.

From: Donna Martin [mailto:dmartin@burke.k12.ga.us]
Sent: Tuesday, March 31, 2015 2:29 PM
To: Paul Mifsud
Subject: RE: HOD Power point with notes

Paul, They were not talking about more help from Barnes and Thornburg. They were talking about going outside of that group to get a second opinion. I love Paula, but I am in the minority on this one. This is what Sonja sent to Pat. Yikes!

The Academy Board met in executive session and discussed ways we could support you and the Academy staff in addressing the current crisis with regard to legal counsel and crisis communication.

Legal Counsel. The Academy Board appreciates the advice and work that our legal counsel is providing. Certainly Paula has guided the Academy through significant growth and change over several years. The current crisis with the Kraft contract and relationship necessitates additional external legal support for Paula to help expedite legal/contract resolution, to provide another set of eyes on the issue, and to potentially provide additional expertise. We would see Paula as lead counsel with external legal support. The Board requests that you as the CEO, identify and retain additional legal support in consultation with the Academy Board Chair.

My hope is that she is ignoring this!!

>>>Paul Mifsud <PMifsud@eatright.org> 3/30/2015 4:32 PM >>>
Donna,

More legal help... from Barnes and Thornburg? I hope so. Here is the link to their website.
<http://www.btlaw.com/> They are pretty big and can provide all of the support necessary to handle this situation. Paula is just the tip of the iceberg. She has a ton of support underneath the surface. If the board is looking to something outside, maybe the link to their website will help. I can't imagine Paula or Barnes and Thornburg would take well to having another law firm look over their shoulders. It is kind of like accounting; One auditor only. If we had another do a review, the first would look at that as a vote of no confidence and quit. That happened to the Academy in 2001.

That is my two cents. Let me know if I can help.

Paul

Subject: RE: HOD Power point with notes

I can believe it, but it is coming from the board making crazy recommendations, such as we need more legal help. They are about to put me over the edge with their pettiness. Especially the one person trying to get rid of people!!!!!! We are as much at fault about this as the Academy is. We are all in this together and no one should be shouldering all the blame. It was a good idea until social media high jacked it!!! Members are being so short sighted. This is going to have huge ramifications on the 100th anniversary program. Sue Finn is very upset about all this. I had a feeling this would effect you all like it is effecting all of us.

Donna,

Hang in there. We need your voice. I am concerned about the drain this is having on Pat, Mary Beth and the rest of the staff. I know it is difficult from a member and leader perspective. Right now, internally, it appears as if there isn't anything else but Kraft. The impact on productivity is huge!!

Subject: Re: HOD PowerPoint with notes

Paul, This looks good. Based on what we are dealing with over the sponsorship issue I think I will take the easy road out and just say that 5% is the % we get from sponsorship. If you want to send Cecily the deck and ask her to get with me on doing the recording I will do it. Thanks for all the work you put into this. As you can imagine I am spending a huge amount of time on the Kraft issue. I was worried about having to write a script for this. Pat has asked about calling me tomorrow to discuss what is going on. "Lots" is going to be my answer, but I want to reassure her also of the support she has from the majority of the board. Very few exceptions and I know you know who they are. All this is not my cup of tea. My southern roots are getting the best of me and wish that some of these people had more southern roots they could (or should) claim.

Academy of Nutrition and Dietetics

+++++

Hello!

I wanted to share good news from our Farm Bill advocacy efforts. This is a very successful pilot that received increased funding in the last Farm Bill. Rather than penalizing persons on SNAP , this program incentivizes persons to purchase more fruits and vegetables. Through advocacy efforts, funding was increased to \$31 million and offers significant job opportunities for our members wanting to work in food security and healthy food systems.

Jenn Folliard represented the Academy a few weeks ago as a grant reviewer to distribute these new monies.

Let me know if you have any questions!

Office of Communications (202)720-4623

USDA Awards \$31 Million in Grants to Help SNAP Participants Afford Healthy Foods

ORLANDO, Fla., April 1, 2015 – Agriculture Secretary Tom Vilsack today announced that USDA has awarded \$31.5 million in funding to local, state, and national organizations to support programs that help participants in the Supplemental Nutrition Assistance Program (SNAP) increase their purchase of fruits and vegetables. Recognizing that all Americans fall well short of the servings of fruits and vegetables recommended by the Dietary Guidelines for Americans, the grants will test incentive strategies to help SNAP participants better afford fruits and vegetables. These grants were made through the Food Insecurity Nutrition Incentive (FINI) program authorized by the 2014 Farm Bill.

The Secretary, who made the announcement at the Freshfields Farm market in Orlando, said, "Encouraging low income families to put more healthy food in their grocery baskets is part of USDA's ongoing commitment to improving the diet and health of all Americans." Vilsack continued, "These creative community partnerships also benefit regional food producers and local economies along with SNAP participants."

FINI is a joint effort between USDA's National Institute of Food and Agriculture (NIFA) and USDA's Food and Nutrition Service, which oversees SNAP and has responsibility for evaluating the effectiveness of the incentive projects. FINI brings together stakeholders from distinct parts of the food system and fosters understanding of how they might improve the nutrition and health status of SNAP households. The awards under FINI represent a variety of projects, including relatively small pilot projects, multi-year community-based projects, and larger-scale multi-year projects.

USDA is funding projects in 26 states for up to 4 years, using funds from FY2014 and FY2015. USDA will issue a separate request for applications in FY16, and in subsequent years. Fiscal year 2014 and 2015 awards are:

Pilot projects (up to \$100,000, not to exceed 1 year):

- Yolo County Department of Employment and Social Services, Woodland, Calif., \$100,000
- Heritage Ranch, Inc., Honaunau, Hawaii, \$100,000
- Backyard Harvest, Inc., Moscow, Idaho, \$10,695
- City of Aurora, Aurora, Ill., \$30,000
- Forsyth Farmers' Market, Inc., Savannah, Ga., \$50,000
- Blue Grass Community Foundation, Lexington, Ky., \$47,250
- Lower Phalen Creek Project, Saint Paul, Minn., \$45,230
- Vermont Farm-to-School, Inc., Newport, V.T., \$93,750
- New Mexico Farmers Marketing Association, Santa Fe, N.M., \$99,999
- Santa Fe Community Foundation, Santa Fe, N.M., \$100,000
- Guilford County Department of Health and Human Services, Greensboro, N.C., \$99,987
- Chester County Food Bank, Exton, Pa., \$76,543

- Nurture Nature Center, Easton, Pa., \$56,918
- Rodale Institute, Kutztown, Pa., \$46,442
- Rhode Island Public Health Institute, Providence, R.I., \$100,000
- San Antonio Food Bank, San Antonio, Texas, \$100,000

Multi-year community-based projects (up to \$500,000, not to exceed 4 years):

- Mandela Marketplace, Inc., Oakland, Calif., \$422,500
- Market Umbrella, New Orleans, La., \$378,326
- Maine Farmland Trust, Belfast, Maine, \$249,816
- Farmers Market Fund, Portland, Ore., \$499,172
- The Food Trust, Philadelphia, Pa., \$500,000
- Utahns Against Hunger, Salt Lake City, Utah, \$247,038
- Opportunity Council, Bellingham, Wash., \$301,658

Multi-year large-scale projects (\$500,000 or greater, not to exceed 4 years):

- Ecology Center, Berkeley, Calif., \$3,704,287
- Wholesome Wave Foundation Charitable Ventures, Inc., Bridgeport, Conn., \$3,775,700
- AARP Foundation, Washington, D.C., \$3,306,224
- Florida Certified Organic Growers and Consumers, Gainesville, Fla., \$1,937,179
- Massachusetts Department of Transitional Assistance, Boston, Mass., \$3,401,384
- Fair Food Network, Ann Arbor, Mich., \$5,171,779
- International Rescue Committee, Inc., New York, N.Y., \$564,231
- Washington State Department of Health, Tumwater, Wash., \$5,859,307

Descriptions of the funded projects are available on the NIFA website.

Wednesday's announcement featured Marty Mesh, Executive Director of Florida Certified Organic Growers and Consumers (FOG). With FINI funding, FOG will expand its Fresh Access Bucks program, which allows SNAP participants to double their food dollars for fresh, Florida-grown fruits and vegetables at farmers markets around the state.

An evaluation of the funded projects will help policymakers determine how best to provide incentives to SNAP participants to increase healthy purchases. Priority was given to projects that develop innovative or improved benefit redemption systems that can be replicated, use direct-to-consumer marketing, show previous success implementing nutrition incentive programs that connect low-income consumers with agricultural producers, provide locally- or regionally-produced fruits and vegetables, and are located in underserved communities.

All FINI projects must (1) have the support of a state SNAP agency; (2) increase the purchase of fruits and vegetables by SNAP participants by providing incentives at the point of purchase; (3) operate through authorized SNAP retailers; (4) agree to participate in the comprehensive FINI program evaluation; (5) ensure that the same terms and conditions apply to purchases made by both SNAP participants and non-participants; and (6) include effective and efficient technologies

for benefit redemption systems that may be replicated in other states and communities.

The FINI program is authorized and funded by the 2014 Farm Bill. The Farm Bill builds on historic economic gains in rural America over the past six years, while achieving meaningful reform and billions of dollars in savings for taxpayers. Since enactment, USDA has made significant progress to implement each provision of this critical legislation, including providing disaster relief to farmers and ranchers; strengthening risk management tools; expanding access to rural credit; funding critical research; establishing innovative public-private conservation partnerships; developing new markets for rural-made products; and investing in infrastructure, housing and community facilities to help improve quality of life in rural America. For more information, visit www.usda.gov/farmbill.

SNAP — the nation's first line of defense against hunger — helps put food on the table for millions of families experiencing hardship. The program has never been more critical to the fight against hunger. Over 60 percent of SNAP participants are children, elderly, or individuals with disabilities, and 42 percent of participants live in households in which at least one adult is working but still cannot afford to put sufficient food on the table. SNAP benefits provided help to millions who lost their jobs during the Great Recession. For many, SNAP benefits provide temporary assistance, with the average new applicant remaining on the program 12 months.

Through federal funding and leadership for research, education and extension programs, NIFA focuses on investing in science and solving critical issues impacting people's daily lives and the nation's future. More information can be found on the NIFA website.

http://www.mckinsey.com/insights/strategy/the_social_side_of_strategy

I look forward to our call tomorrow.

Link above makes me want to nap, but it's more truthful than I like to accept--

(McKinsey Insights) proclaims strategic leadership is rapidly evolving from exceptional expertise and foresight to "social architecture", and "hives" of digital interactions across many media platforms, inside and outside organizational boundaries where expectations constantly change..." Brownian motion leadership" as my physician colleagues often called it.

Hi Donna,

I hope this email finds you well. I know it's been a trying couple of weeks. I talked with Paul, and he has provided me with your Treasurer's presentation to record prior to the Spring HOD meeting. My plan is to distribute the presentation to the HOD on either April 16 or April 23.

Are you available April 9 or the week after (not April 17) to record this session with me? Let me know your availability at your convenience. If needed, we can also record the session on April 20-22. Once we confirm a date and time, I will send you the webinar link and conference call information that you will need to record the session.

Thanks in advance!

Cecily

Hi Donna,

We conducted an item analysis of the post-test and the question below did not perform well among the participants. We look for the questions to perform at 70%. Can you confirm that the content was presented during your presentation.

67%

The Healthy Hunger Free Kids Act of 2010 will:

- a) Update the nutrition standards for school meals based on expert recommendations from the Institute of Medicine.
- b) Require more funding for school nutrition to be generated at the school district level
- c) Limit the meals offered in afterschool programs.
- d) Remove the requirement for school wellness policies to be in place at the school level.

Thank you.

Hi Donna,

I hope this email finds you well. I know it's been a trying couple of weeks. I talked with Paul, and he has provided me with your Treasurer's presentation to record prior to the Spring HOD meeting. My plan is to distribute the presentation to the HOD on either April 16 or April 23.

Are you available April 9 or the week after (not April 17) to record this session with me? Let me know your availability at your convenience. If needed, we can also record the session on April 20-22. Once we confirm a date and time, I will send you the webinar link and conference call information that you will need to record the session.

Thanks in advance!

Dietitians Group Negotiating to End Labeling Deal With Kraft Singles

By **STEPHANIE STROMMARCH** 30, 2015

The Academy of Nutrition and Dietetics said it was working with the Kraft Foods Group to end part of a deal that allowed the food company to use one of the academy's logos on packages of Kraft Singles.

After the deal was announced by Kraft this month, the organization faced a mutiny among some of the 75,000 registered dietitians and other food professionals who are its members.

"The academy and Kraft are in discussions to terminate the contract for our pilot program," the organization said in its email. "This will take a short period of time to complete."

But the organization said the program was already so advanced that it could not be changed immediately. Kraft Singles with the new logo will begin appearing on retail shelves on Wednesday.

"We are working with Kraft to limit the time it remains on shelves," the academy said in its email.

Ryan O'Malley, a spokesman for the academy, did not comment further.

As part of the original deal, Kraft agreed to pay for scholarships, research and public awareness campaigns in exchange for the right to use the academy's Kids Eat Right label and website address on packages of Kraft Singles.

After The New York Times published an article about the deal, some of the nutrition organization's members expressed outrage that it would lend its imprimatur to a highly processed food.

Kraft Singles packaging describes the product as a "pasteurized prepared cheese product" made with milk, Cheddar cheese, whey, milk protein concentrate, milk fat and sodium citrate.

Kraft intended for the label to be the starting point for a broader campaign to educate parents about the importance of calcium and vitamin D in children's diets. Some 80 percent of girls and 75 percent of boys ages 4 to 18 do not get enough calcium, while almost half of all children do not consume enough vitamin D.

"Although we stand by our decision to work together to shine a light on this issue and not to serve as a product endorsement, we believe misperceptions are overshadowing the campaign," Jody Moore, a Kraft corporate spokeswoman, said in a statement. "As such, both organizations have agreed it is best not to proceed as originally planned."

Andy Bellatti, a founder of Dietitians for Professional Integrity, a group started by dietitians who questioned the academy's strong ties to the food industry, said he was pleased that it was working to change its deal with Kraft.

"Hopefully, this is the beginning of much-needed and much-overdue dialogue on the academy's corporate sponsorships," Mr. Bellatti said. "Dietitians need to continue advocating for an organization that represents us with integrity and that we can be proud of, rather than continually have to apologize for."

[image011.jpg](#)
[image012.png](#)
[image002.jpg](#)
[image004.jpg](#)

Below is a sentiment report that reflects the overall tone among social media users this afternoon/evening. We are reading just about every post in real time. Even before we released the message, we were contacted by members who somehow heard the Academy was making a major

announcement. As I mentioned, our members did share it with the media. We received calls from the *New York Times* and the *Associated Press* and in keeping with LEVICK and legal advice, we responded that we do not have public comment at this time. However, they all have Sonja's message and other materials that our members have shared.

We will continue to keep you posted and will have an update for you tomorrow.

Pat

SENTIMENT

The initial response from Academy members has been largely positive. There were a handful of negative responses but the top influencers in this conversation quickly moderated the criticism. The bar graph below displays the trend in sentiment over the past week. As you can see, negative mentions have declined significantly and the positive mentions have increased.

TOP INFLUENCERS

The users listed below have been the most vocal on social platforms. Each user has taken an aggressive stance against the seal and has advocated for its removal. Their responses to today's statement have been (for the most part) supportive.

TOP HASHTAG

#RepealtheSeal is the most influential connection to users speaking out against AND's contract with Kraft. Currently, Regan Jones RD, Rachel Begun RD, and Kate Geagan are among those being credited with the Academy's decision to terminate the contract with Kraft.

Important Update on Kids Eat Right Initiative

Having trouble viewing this e-mail? [View it in your browser.](#)

Connect with the Academy:

A message from the Academy President to Academy Members

Dear Academy Members,

I want to update all of you on a few immediate actions we are taking on the Kids Eat Right pilot initiative with Kraft. As our Academy members, you deserve the most immediate as well as accurate information that we are able to provide.

The Academy and Kraft are in discussions to terminate the contract for our pilot program. This will take a short period of time to complete. We will continue to keep you posted as we move to finalize the termination.

Elements of the program are already in motion and cannot be changed. On April 1, Kraft Singles will begin appearing on retail shelves with the Kids Eat Right logo on the packaging. We are working with Kraft to limit the time it remains on the shelves.

The Academy deeply regrets the circumstances that have led to the pending termination of this initiative. As we have shared previously, we launched this initiative to raise consumer awareness about the importance of having vitamin D and calcium as essential nutrients in childrens diets.

This pilot initiative was never intended to be an official Academy endorsement of a particular product, which is strictly prohibited by our policy and is expressly included in all contracts.

The Board and Academy leadership are taking immediate steps to avoid a similar situation in the future. We will engage with the Academy House of Delegates and with all Academy members on future initiatives to promote healthful foods and nutrition in the most professional, ethical and transparent manner possible.

Thank you for your continued support of the Academy and your patience as we resolve this

situation.

Sonja L. Connor, MS, RDN, LD, FAND
Academy President, 2014-2015

Sonja's message has now been released to the HOD and spokespeople and will be posted to DPG, MIG and Affiliate list serves at 4:00 p.m. It will be distributed to members at 4:05 p.m. this afternoon. Staff received the communication at 3:30 p.m. It is important to note that this is an internal Academy communication to members. We are unable to distribute a joint public statement with Kraft since we are still in negotiations related to the contract.

Best regards,

Patricia M. Babjak

Donna,

More legal help... from Barnes and Thornburg? I hope so. Here is the link to their website. <http://www.btlaw.com/> They are pretty big and can provide all of the support necessary to handle this situation. Paula is just the tip of the iceberg. She has a ton of support underneath the surface. If the board is looking to something outside, maybe the link to their website will help. I can't imagine Paula or Barnes and Thornburg would take well to having another law firm look over their shoulders. It is kind of like accounting; One auditor only. If we had another do a review, the first would look at that as a vote of no confidence and quit. That happened to the Academy in 2001.

That is my two cents. Let me know if I can help.

Paul

Subject: RE: HOD Power point with notes

I can believe it, but it is coming from the board making crazy recommendations, such as we need more legal help. They are about to put me over the edge with their pettiness. Especially the one person trying to get rid of people!!!!!! We are as much at fault about this as the Academy is. We are all in this together and no one should be shouldering all the blame. It was a good idea until social media high jacked it!!! Members are being so short sighted. This is going to have huge ramifications on the 100th anniversary program. Sue Finn is very upset about all this. I had a feeling this would effect you all like it is effecting all of us.

Paul, This looks good. Based on what we are dealing with over the sponsorship issue I think I will take the easy road out and just say that 5% is the % we get from sponsorship. If you want to send Cecily the deck and ask her to get with me on doing the recording I will do it. Thanks for all the work you put into this. As you can imagine I am spending a huge amount of time on the Kraft

issue. I was worried about having to write a script for this. Pat has asked about calling me tomorrow to discuss what is going on. "Lots" is going to be my answer, but I want to reassure her also of the support she has from the majority of the board. Very few exceptions and I know you know who they are. All this is not my cup of tea. My southern roots are getting the best of me and wish that some of these people had more southern roots they could (or should) claim.

The all-member message was prepared by LEVICK, vetted by legal and approved by Sonja. I have attached confidential talking points for your use, based on the LEVICK message. This document is not for distribution however feel free to forward Sonja's message (after it goes out to the general membership later this afternoon) to anyone who might have missed it.

Per LEVICK's Chair of Corporate and Reputation Practice John Lovallo, their rationale for the content of the message follows:

We believe a complete and comprehensive statement, with this level of detail and context, is needed to minimize further internal and public fallout. We adapted this language from the materials.

Importantly, we do not infer we are placing any "blame" for the pending termination of this initiative on Kraft. If anything, this implies that the Academy is taking responsibility for the program not working as intended. It also makes clear the pending termination is not immediate, but needs to be unwound over a period of time.

We do not believe continued “apologies” to the membership are appropriate. The Academy initiative with Kraft was undertaken with good intentions, but unfortunately it did not work. It is imperative the Academy leadership and Board demonstrate you are taking responsible, affirmative action to preserve your credibility.

Because we know this e-mail will be shared in a public forum almost as soon as it arrives in member’s inboxes, we recommend re-packaging this as a “media statement” press release to be distributed over one of the newswires, and concurrently calling selected news outlets/reporters to share this development.

The goal is to pre-empt sustained criticism of the Academy from internal sources, and contain the public story to a one day news event before the April 1 appearance of the packaging. It may also provide cover for your internal supporters to come forward within the Academy community and affirm that the Academy has “done the right thing” in working to terminate the agreement.

Based on your briefing and the materials you shared, you and your team have prepared a lot of good messaging to frame your side of the story in the most favorable way possible. This statement expresses that decision without prejudice to Kraft and stops short of a full “mea culpa.”

The facts are on your side: the program was designed to do good things (raise consumer awareness) and the use of the initiative as an official endorsement was prohibited in the contract. The best approach is to take the right action, maybe take a few more punches from those factions within the community who do not like working with industry, and contain the public media story to a one day event.

Best,

John Lovallo

ALL-MEMBER MESSAGE PREPARED BY LEVICK AND APPROVED BY LEGAL COUNSEL

A message from the Academy President to Academy Members ...

Dear Academy Members,

I want to update all of you on a few immediate actions we are taking on the Kids Eat Right pilot initiative with Kraft. As our Academy members, you deserve the most immediate as well as accurate information that we are able to provide.

The Academy and Kraft are in discussions to terminate the contract for our pilot program. This will take a short period of time to complete. We will continue to keep you posted as we move to finalize the termination.

Elements of the program are already in motion and cannot be changed. On April 1, Kraft Singles will begin appearing on retail shelves with the Kids Eat Right logo on the packaging. We are working with Kraft to limit the timing it remains on the shelves.

The Academy deeply regrets the circumstances that have led to the pending termination of this initiative. As we have shared previously, we launched this initiative to raise consumer awareness about the importance of having vitamin D and calcium as essential nutrients in children's diets.

This pilot initiative was never intended to be an official Academy endorsement of a particular product, which is strictly prohibited by our policy and is expressly included in all contracts.

The Board and Academy leadership are taking immediate steps to avoid a similar situation in the future. We will engage with the Academy House of Delegates and with all Academy members on future initiatives to promote healthful foods and nutrition in the most professional, ethical and transparent manner possible.

Thank you for your continued support of the Academy and your patience as we resolve this situation.

Sonja L. Connor, MS, RDN, LD, FAND

Just a reminder, Sonja's message will be distributed in the following order later this afternoon:

- o HOD, Spokespeople
- o All-member email
- o Posted on DPG, MIG and Affiliate list serves

Please let me know if you have any questions. Thank you.

Donna,

Hang in there. We need your voice. I am concerned about the drain this is having on Pat, Mary Beth and the rest of the staff. I know it is difficult from a member and leader perspective. Right now, internally, it appears as if there isn't anything else but Kraft. The impact on productivity is huge!!

I will get the recording set up for you.

Paul

Paul, This looks good. Based on what we are dealing with over the sponsorship issue I think I will take the easy road out and just say that 5% is the % we get from sponsorship. If you want to send Cecily the deck and ask her to get with me on doing the recording I will do it. Thanks for all the work you put into this. As you can imagine I am spending a huge amount of time on the Kraft issue. I was worried about having to write a script for this. Pat has asked about calling me tomorrow to discuss what is going on. "Lots" is going to be my answer, but I want to reassure her also of the support she has from the majority of the board. Very few exceptions and I know you know who they are. All this is not my cup of tea. My southern roots are getting the best of me and wish that some of these people had more southern roots they could (or should) claim.

Subject: Confidential message to members from Sonja and talking points - Do not distribute
Attachment: [image001.jpg](#)
[image002.jpg](#)
[image003.png](#)
[Board Talking Points Kraft.pdf](#)

The all-member message was prepared by LEVICK, vetted by legal and approved by Sonja. I have attached confidential talking points for your use, based on the LEVICK message. This document is not for distribution however feel free to forward Sonja's message (after it goes out to the general membership later this afternoon) to anyone who might have missed it.

Per LEVICK's Chair of Corporate and Reputation Practice John Lovallo, their rationale for the content of the message follows:

We believe a complete and comprehensive statement, with this level of detail and context, is needed to minimize further internal and public fallout. We adapted this language from the materials.

Importantly, we do not infer we are placing any “blame” for the pending termination of this initiative on Kraft. If anything, this implies that the Academy is taking responsibility for the program not working as intended. It also makes clear the pending termination is not immediate, but needs to be unwound over a period of time.

We do not believe continued “apologies” to the membership are appropriate. The Academy initiative with Kraft was undertaken with good intentions, but unfortunately it did not work. It is imperative the Academy leadership and Board demonstrate you are taking responsible, affirmative action to preserve your credibility.

Because we know this e-mail will be shared in a public forum almost as soon as it arrives in member’s inboxes, we recommend re-packaging this as a “media statement” press release to be distributed over one of the newswires, and concurrently calling selected news outlets/reporters to share this development.

The goal is to pre-empt sustained criticism of the Academy from internal sources, and contain the public story to a one day news event before the April 1 appearance of the packaging. It may also provide cover for your internal supporters to come forward within the Academy community and affirm that the Academy has “done the right thing” in working to terminate the agreement.

Based on your briefing and the materials you shared, you and your team have prepared a lot of good messaging to frame your side of the story in the most favorable way possible. This statement expresses that decision without prejudice to Kraft and stops short of a full “mea culpa.”

The facts are on your side: the program was designed to do good things (raise consumer awareness) and the use of the initiative as an official endorsement was prohibited in the contract. The best approach is to take the right action, maybe take a few more punches from those factions within the community who do not like working with industry, and contain the public media story to a one day event.

Best,

John Lovallo

Chair, Corporate &Reputation Practice, Chair, Financial Practice

ALL-MEMBER MESSAGE PREPARED BY LEVICK AND APPROVED BY LEGAL COUNSEL

A message from the Academy President to Academy Members ...

Dear Academy Members,

I want to update all of you on a few immediate actions we are taking on the Kids Eat Right pilot initiative with Kraft. As our Academy members, you deserve the most immediate as well as accurate information that we are able to provide.

The Academy and Kraft are in discussions to terminate the contract for our pilot program. This will take a short period of time to complete. We will continue to keep you posted as we move to finalize the termination.

Elements of the program are already in motion and cannot be changed. On April 1, Kraft Singles will begin appearing on retail shelves with the Kids Eat Right logo on the packaging. We are working with Kraft to limit the timing it remains on the shelves.

The Academy deeply regrets the circumstances that have led to the pending termination of this initiative. As we have shared previously, we launched this initiative to raise consumer awareness about the importance of having vitamin D and calcium as essential nutrients in children's diets.

This pilot initiative was never intended to be an official Academy endorsement of a particular product, which is strictly prohibited by our policy and is expressly included in all contracts.

The Board and Academy leadership are taking immediate steps to avoid a similar situation in the future. We will engage with the Academy House of Delegates and with all Academy members on future initiatives to promote healthful foods and nutrition in the most professional, ethical and transparent manner possible.

Thank you for your continued support of the Academy and your patience as we resolve this situation.

Sonja L. Connor, MS, RDN, LD, FAND

Just a reminder, Sonja's message will be distributed in the following order later this afternoon:

- o HOD, Spokespeople
- o All-member email
- o Posted on DPG, MIG and Affiliate list serves

Please let me know if you have any questions. Thank you.

Attachment: [image003.jpg](#)

The Academy Board has given staff the go ahead to obtain additional support in regards to crisis communications and legal counsel during this time. We are working with LEVICK, a firm with expertise in crisis communications, advocacy, reputation, and litigation communications. The firm will provide us with strategic counsel, reputation management, strategy development, impact assessment and post-crisis evaluation and recovery. They have been onboard since 9 a.m. Saturday and they are working closely with legal to develop a tactical crisis response plan, which we hope to have on Monday. LEVICK is currently finalizing a communication to members that will go out on Monday from Sonja. We have been reminded by LEVICK that members may share Sonja's communication with the media and may also post it to their social outlets

The final version of Sonja's message will be emailed to both Boards with talking points on Monday morning. It will then be distributed in the following order Monday afternoon:

- o HOD, Spokespeople
- o All-member email
- o Posted on DPG, MIG and Affiliate list serves

Thank you for your support. Please let me know if you have any questions.

Best regards,

Pat

I sincerely appreciate the support of the Boards and I am moving promptly on all of your directives.

We have hired a crisis communication firm. We interviewed three agencies and decided to go with LEVICK, who came highly recommend by Dr. Vincent Covello, who many will remember from the Board retreat when he presented on change and risk communications. LEVICK has expertise in crisis communications, advocacy, reputation, and litigation communications. Their standard arrangement to execute the contract required an initial deposit of \$45,000, which they will bill against on an hourly basis.

LEVICK will provide us with strategic counsel, reputation management, strategy development, impact assessment and post-crisis evaluation and recovery. They have been onboard since 9 a.m. this morning and are working closely with legal to develop a tactical crisis response plan, which we hope to have on Monday. We have shared your input into Sonja's statement and LEVICK is currently finalizing the communication. We have been reminded by LEVICK that members may share Sonja's communication with the media and may also post it to their social outlets.

LEVICK is proposing we send the message out on Monday. The final version of Sonja's message will be emailed to both Boards with talking points on Monday morning. It will then be distributed in the following order Monday afternoon:

- o HOD, Spokespeople
- o All-member email
- o Posted on DPG, MIG and Affiliate list serves

We have crafted a message based on your conversation today to go from Sonja to the membership. The confidential draft we forwarded to Paula for review follows.

DRAFT

Thank you being a part of the professional dialogue and for expressing your concerns. Please know that the Board truly is listening and values your input. The issues are complicated and we are working on all of our options. We know that you want more information and I will continue to provide regular updates.

It's important for me to share that while we are still in discussions, we just learned from Kraft that the product with the "Proud supporter of Kids Eat Right" logo is scheduled to appear on shelves as early as April 1 and run through mid-July.

This program was developed to drive millions of consumers to the Kids Eat Right website. The Board is passionate about the profession and the organization and we are committed to sharing additional information with you soon. I want to reassure you that we are acting on your concerns.

Please let me know if you have any questions. Thank you.

[October Board Materials.pdf](#)

To answer Glenna's question about the contract. Attached is the information you received prior to your vote in October. The contracts for National Sponsorship are all signed by the Academy. National level sponsorship is a requirement for the Academy to engage in an education campaign. The Kids Eat Right program is identified within the terms of the contract.

Best regards,

[March 19 Joint Academy-Foundation Board Teleconference Minutes \(5\).pdf](#)
[Agenda 3-27-15.pdf](#)

Yesterday you should have received an agenda and a cover email providing a status update with immediate, short- and long- term recommendations for your consideration. In addition to the notes from the March 19 joint meeting you received via email that afternoon, I am including draft minutes for review and approval on the call today. Attached is the amended agenda. We are working with legal counsel to finalize a joint statement with Kraft and will update the FAQ and message to members once it has been approved by both parties. **Members will be the first to be informed.**

Best regards,
Patricia M. Babjak

Subject: Re: Kraft support of Foundation

Beth I am not the best on computer so I am resending this E-mail. Thanks for checking on our friend Ken Wear as I had just talked with his wife and he is progressing in Rehab, but she said he is not out of the woods.

As a staunch Foundation supporter, I also want to comment on the ridiculous attitudes of a few of our members about the Kraft support of the "Kids Eat Right" campaign. This childish action by a few is something foreign to me in our great Profession. As a 62year member of our prestigious Academy, holding many offices in the Academy and its Foundation, I have personally witnessed Corporate financial support of our great scholarship programs, important research projects, public information programs and promoting the RDN! This is ridiculous as RDN's are employed by industry and corporations as they realize the RDN's expertise and leadership, should we criticize this also!

The endorsement and support of our "Kids Eat Right" campaign has helped to make it successful. The acknowledgement of this campaign on a slice of cheese does not say eat this cheese only! The fact is the cheese does some nutritional value, but not that this is the best or only source!

The person who stated we are a laughingstock to the public has become one herself!

Please know I support the decision to have a Corporation like Kraft support our programs which helps RDN's to educate the Public learn the benefits of good nutrition for health! I would really like to see how much financial support was given by these complainers have given to educating the Public on the benefits of good nutritional practices!

Beth please see that Mary Beth and Pat get this E-mail.

[image004.jpg](#)
[Agenda 3-27-15.pdf](#)

This is confidential information.

Sonja and Terri have approved the attached agenda for tomorrow's WebEx/conference call of the joint Boards. We received notice last night that Kraft is willing to enter into an early termination agreement. Although Kraft has already began production and the product will be on shelves from April to mid-July we continue to move towards a termination of the agreement. We are working closely with Paula Goedert regarding mutually acceptable terms. Paula will also participate on the call tomorrow and provide a legal perspective.

During the call, I will provide a situation update, including information on membership numbers, emails to President and CEO mailboxes, social media climate, press coverage, the change.org petition and more. As you know, when we talked last week, it pained me to make the recommendation to end the program because, as we all agreed, this would have been a great education initiative, driving millions of consumers to the Kids Eat Right website for valuable resources developed by registered dietitian nutritionists.

Some short- and long-term recommendations for your deliberations follow.

IMMEDIATE

- Secure approval of terms proposed for Kraft/KER early termination agreement.
- Secure approval from Kraft regarding agreed upon language to explain early termination.
- Develop talking points for leaders (Academy BOD, Foundation BOD, HOD, DPGs, MIGs and Affiliates) regarding modifications to pilot program using agreed upon language approved by legal. This will include language indicating the duration of the KER supporter language on product and emphasize the opportunity to collect quantitative assessment data of the pilot's program impact.
- Provide Academy BOD, Foundation BOD, HOD, DPGs, MIGs, Spokespeople, National Committee Chairs and Affiliates with talking points that are provided in advance of all-member communication regarding modifications made to the pilot program using agreed upon language approved by legal.
- Inform change.org organizers of modifications made to the pilot program using agreed upon language approved by legal.
- Develop all-member communication from President Connor regarding modifications made to the pilot program using agreed upon language approved by legal. **Internal communication to members shall precede any external communications.**
- Inform current and pending industry sponsors of modifications made to the pilot program using agreed upon language approved by legal.

SHORT TERM

- Continue to work with outside counsel (legal and risk management) to develop ongoing comprehensive communications strategy that builds beyond talking points and identifies opportunities to effectively deliver messages (Affiliate, ACEND, CDR, HOD, Foundation donors, past spokespeople, students, industry leaders, sponsors, etc.).
- Advance education efforts to inform members regarding the role of the Foundation and their call to support.
- Enhance the Kids Eat Right media communication plan and build on the visibility of KER and continue to promote Foundation's efforts through KER to help families Shop Smart, Cook Healthy and Eat Right.
- Continue aggressive membership recruitment and retention efforts, including outreach to dropped members.

LONG TERM

- Request Sponsorship Task Force to review House of Delegates input. Assessment of feedback completes the primary STF charge.
- Assess feedback and recommendations from the House of Delegates and Sponsorship Task Force.
- Consider evolving Sponsorship Task Force concept to standing Sponsorship Advisory Panel or Standing Committee, with dual appointment of participants from both Boards; charge-to-be determined after further assessment of HOD feedback.

- Convene think tank of RDN business leaders and communicators to inform discussion regarding sponsorship guidelines and opportunities to work with industry.
- Explore the opportunity for Academy to serve as a convener of a summit. Invite other national health associations/organizations to discuss the impact and potential of consumer education initiatives funded by industry and the power of social media to appropriately and ethically engage industry support.
- Implement ***internal Academy member-only*** quick survey mechanism for members to provide instant feedback and vet future innovative concepts.
- Consider repositioning KER and future initiatives as social impact projects. Engage local communities as ways to fund initiatives as an alternative to industry support.

Thank you and please let me know if you have any questions or need additional information.

Best regards,

Patricia M. Babjak

Subject: On Behalf of Sonja Connor: CEO Evaluation Survey

Importance: High

Sensitivity: Confidential

TO: Academy Board of Directors

FROM: Sonja Connor

One of our Board responsibilities is to annually evaluate the CEO's performance. As you know, we have a new CEO performance evaluation form this year. It is time for us Board members to complete section II of the evaluation - Competency Evaluation. It is available on survey monkey. Prior to doing the evaluation, take a look at Board agendas, general communications to the Board, CEO summary reports in Board meeting packets, executive session discussions with Pat as well as minutes from our Board meetings.

Please complete the questionnaire by Friday, March 20. The Compensation Committee will summarize the responses, provide you with a summary report and recommendation regarding the CEO base salary for 2015-16 that will be discussed and voted on during the Executive Session of the May Board meeting.

Thank you for participating!

TO BEGIN THE SURVEY click or copy this link into your browser:

<https://www.surveymonkey.com/s/C9PW9QS>

The survey does not need to be completed in one sitting. If you wish to exit the survey and return to complete it later, please feel free to do so. Prior to the deadline, you will be able to log back in and resume the survey from where you left off by using the link above, which is unique to you.

If you have any questions about the evaluation, please contact me or Carolyn Patterson at cpatterson@eatright.org.

Thank you!

Sonja

ON THE PULSE OF PUBLIC POLICY

Registration Is Open for 2015 Public Policy Workshop

The Academy will host the world's largest food and nutrition advocacy summit - the annual Public Policy Workshop - June 7 to 9 in Washington, D.C. Nearly 500 members will attend and registration is now open. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. Don't miss out on early-bird registration discounts and group rates.

Attention Medicare Providers: Information Regarding the 2015 Medicare Physician Fee Schedule

The negative update of 21 percent under current law for the Medicare Physician Fee Schedule is scheduled to take effect on April 1. Claims for services rendered on or before March 31 are unaffected by the payment cut and will be processed and paid under normal procedures and time frames. The Centers for Medicare and Medicaid Services, as well as the Academy, urges Congress to take action to ensure these cuts do not take effect. However, until that happens, CMS must take steps to implement the negative update. Under current law, electronic claims are not paid sooner than 14 calendar days (29 days for paper claims) after the date of receipt. CMS will notify providers on or before April 11 with more information about the status of Congressional action to avert the negative update and next steps. The Academy will continue to provide members with updates on this important matter as it pertains to RDN Medicare providers.

[Learn More](#)

Older Americans Act Re-authorization Awaits Older Americans Month

Re-authorization of the Older Americans Act has been delayed in the Senate, likely until May, which is Older Americans Month. The Older Americans Re-authorization Act of 2015 (S. 192) passed the Senate HELP committee on January 28 and would fund programs for older Americans for three years. The bill language builds on S. 1562, sponsored by Senator Sanders in the 113th Congress, which the Academy supported. The bill updates the language of the Older Americans Act to reflect the "utilization" of dietitians in nutrition programs and also encourages the use of locally grown fresh foods in nutrition programs. The Academy continues to support the Older Americans Act and encourages members to reach out to their legislators to support this important piece of legislation. Updated resources are available on the Academy's website.

USDA Awards Grants to Support Schools Serving Healthy Meals and Snacks

The U.S. Department of Agriculture will award more than \$30 million in grants to help schools prepare healthy meals for children. Twenty-five million dollars in grants will help schools purchase needed equipment to make preparing and serving healthier meals easier and more efficient and up to \$5.5 million in competitive grants will provide additional training for school foodservice professionals. The competitive grants focus on implementation of Smarter Lunchrooms an innovative strategy using behavioral economics to encourage healthy eating in the cafeteria as well as the healthier meal standards, HealthierUS School Challenge, USDA Foods, nutrition education and wellness activities in schools and child care institutions. These funds may be also used to assist the state agency in providing training and technical assistance to school staff in creating Smarter Lunchrooms.

CPE CORNER

Practice Papers Offer Free CPE Opportunities

Read Academy Practice Papers and complete a quiz to earn 1 free CPE credit. Practice Papers that offer CPE opportunities include "The Role of Nutrition in Health Promotion and Chronic Disease Prevention" and "Promoting and Supporting Breastfeeding." Position Papers on the same topics are also available.

Take the Next Career Step: Online Certificate of Training Programs

The career outlook for registered dietitian nutritionists has never been brighter. As the health and wellness experts, RDNs possess food and nutrition knowledge that allows you to excel as

educators, leaders and marketing professionals. To help RDNs take the next steps in your careers, the Academy offers Certificate of Training programs that address critical issues, including changing clinical environments, building business relationships and ever-evolving roles and responsibilities of today's RDN. Browse the full range of online modules.

CAREER RESOURCES

Patience, Persistence and Progress

For many professionals who work with people with intellectual or developmental disabilities, intense observation, creative therapies and occasional guesswork are all in a day's work. Career opportunities for RDNs working with people who have disabilities are expanding, especially as approaches to therapy shift toward promoting personal wellness and capability.

[Learn More](#)

April 3 Application Deadline: Informatics Education Program Grants

The sixth Academy/AMIA 10x10 Informatics Education Program will begin April 15. The Foundation offers \$1,000 grants to nine members to take the 12-module online course. Complete a grant application by April 3 deadline and register soon.

April 7: World Health Day

In commemoration of World Health Day on April 7, the Partnership for Food Safety Education is collecting stories as part of a social media campaign. The theme for World Health Day 2015 is food safety; stories will demonstrate the impact of health and food safety educators on the health of families around the world. The Academy is a board member of the Partnership for Food Safety Education and members are encouraged to submit stories, photos or answers by March 27. Email submissions to ashley@fightbac.org.

New Issue: *MNT Provider*

Find out how the Academy has been working to expand Medicare coverage of medical nutrition therapy; get information about free tools to assist RDNs when approaching your employer about expanding coverage for nutrition services; and learn about new resources to help you understand the ICD-10 code system in the new issue of *MNT Provider*.

New Diabetes Prevention Initiative

The American Medical Association and Centers for Disease Control and Prevention recently announced the launch of a new initiative and website called Prevent Diabetes STAT: Screen, Test,

Act-Today. The goal is to raise awareness about prediabetes and the CDC's evidence-based diabetes prevention program. The first phase of the initiative focuses on providing physicians and care teams with easy-to-use tools and resources so that they can identify individuals with prediabetes and refer them to diabetes prevention programs. AMA and CDC have co-developed a toolkit to assist in this effort, which is available online. The Academy works with the AMA and CDC on the Diabetes Advocacy Alliance, of which the Academy is a co-chair.

RESEARCH BRIEFS

Academy's Evidence-based Nutrition Practice Guidelines in AHRQ National Guideline Clearinghouse

The mission of the National Guideline Clearinghouse is to provide physicians and other health professionals, providers, plans, integrated delivery systems, purchasers and others with an accessible mechanism for obtaining objective, detailed information on clinical practice guidelines and to further their dissemination, implementation and use. Four of the Academy's evidence-based nutrition practice guidelines are included in AHRQ's National Guideline Clearinghouse: Adult Weight Management; Energy Expenditure: Measuring Resting Metabolic Rate in the Critically Ill; Oncology; and Prevention of Type 2 Diabetes.

The SHARE Approach

This five-step process for shared decision making includes exploring and comparing the benefits, harms and risks of each option, through meaningful dialogue about what matters most to the patient. Webinars, tools and workshops are available.

ACADEMY MEMBER UPDATES

Renew Your Academy Membership

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you will receive this month.

April 6 Application Deadline: National Nutrition Month Student Awards

The 2015 National Nutrition Month Student Award program recognizes local student dietetics associations and clubs that support the mission and vision of the Academy by organizing events during March. Once you've hosted an event, apply for the NNM Student Award program and you'll be eligible to win an award. The deadline to apply is April 6. Email students@eatright.org with questions.

[Learn More](#)

Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of

membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the "Did someone recommend Academy membership to you?" section of the 2015-2016 membership application. Email membership@eatright.org with questions.

Administration on Community Living Celebrates National Nutrition Month

The Administration on Community Living announced its celebration of National Nutrition Month, highlighting the importance of proper nutrition in promoting wellness. In its announcement, ACL shared the story of a 94-year old participant in the congregate dining program. This year marks the 50th anniversary of the Older Americans Act, which is awaiting reauthorization in Congress and funds numerous effective programs conducted by and employing registered dietitian nutritionists and dietetic technicians, registered. ACL provides funds for more than 273 million home-delivered meals, 170 million congregate meals and nutrition education to nearly 2.5 million people.

PHILANTHROPY, AWARDS AND GRANTS

April 1 Application Deadline: Julie O'Sullivan Maillet Research Grant

This \$1,000 grant is given for a research project that demonstrates the value of nutrition and dietetics professionals to the health of the public or demonstrates their evolving role in the profession.

Application Deadline Extended to April 1: Pittsburgh Dietetic Association Leadership Development Award

This award was established to recognize emerging leaders among current graduates of supervised practice programs and encourage their participation in Academy activities. The award will cover expenses up to \$1,000 for one qualified applicant to attend the Food & Nutrition Conference & Expo. Applicants must be a resident of Pennsylvania or a student or graduate of a Pennsylvania program.

Application Deadline Extended to April 1: Barbara Ann F. Hughes NEP DPG Continuing Education Award

This \$1,000 award provides educational stipends for nutrition professionals on the subjects of policy initiatives, advocacy and private practice. Preference is given to members of Nutrition Education for the Public dietetic practice group.

Application Deadline Extended to April 1: Food and Culinary Professionals DPG Communication and Education Fund

The Food and Culinary Professionals dietetic practice group created this fund to support lectureships and to provide awards that support individuals with an interest in the mission of FCP in their participation in culinary learning educational experiences.

New Future of Food Toolkit: 'Smart Choices. For a Healthy Planet.'

The Foundation's new toolkit is now available. The toolkit - in English and Spanish - includes a presentation for adult and mature teen audiences, with leader notes, a suggested five-minute group activity and a coordinating handout.

May 1 Application Deadline: Future of Food Mini-Grants

To support the use of the new Smart Choices. For a Healthy Planet. toolkit, 25 grants of \$200 are available. Recipients agree to give two presentations from the new toolkit (for parents and/or mature teens) between May 11 and June 30. Applications are due May 1 and recipients will be announced May 11. The toolkit was developed by content experts who are registered dietitian nutritionists and farmers. The new toolkit and mini-grant opportunity is made possible through an educational grant from Elanco.

New Handouts Posted to Healthy Food Bank Hub

Thanks to the work of 12 volunteers who reviewed 100 handouts using the Developing and Assessing Nutrition Education Handout (DANEH) screening tool, 70 new handouts have been posted to the Healthy Food Bank Hub for free downloading. Volunteer reviewers include Karaliese Brown, MAEd, RDN; Beth Davis, intern; Hayley Field, intern; Amanda Hege, RD, LD; Carla Honselman, PhD, RDN, LDN; Janet Leader, MPH, RD; Maya Maroto, EdD, MPH, RDN; Leisa Norman, RD; Kendra Oo, student; Siddhi Shroff, intern; and Sarah Smith, RDN.

Planning Summer Programs? Try These Resources

The Foundation and its partners offer members resources to use in summer programs for children. They include: Its All About You; Kids Eat Right Toolkits; and Energy Balance 101 - Pre-K Curriculum, K-2nd Grade Curriculum and 3rd-5th Grade Curriculum.

For National Nutrition Month: Make a Tribute Gift to Foundation

Honor a mentor or remember a colleague during National Nutrition Month while making a gift to the Foundation's Annual Fund. This is a great way to recognize special people who make a difference in your life while making an important investment in the future of the nutrition and dietetics profession. Your friend, colleague or loved ones family will be notified of your thoughtfulness through a personalized acknowledgement card. To donate to the Tribute Gift Program, contact Martha Ontiveros at 312/899-4773 or montiveros@eatright.org. See the Foundations impact on the profession.

Send questions, comments or potential news items.

The submission deadline is 2 p.m. Central Time on the Thursday prior to publication.

Note: Links may become inactive over time.

Eat Right Weekly is emailed each Wednesday to all Academy members.

Re: 2015 Corporate Award Committee

One of my responsibilities as Foundation Chair is to appoint a committee to select the 2015 recipient of the prestigious Academy of Nutrition and Dietetics Foundation Corporate Award. The Corporate Award is given to an organization that has demonstrated meaningful support to Foundation programs and projects. The award is presented each year at the Foundation's Gala during the Academy's Food & Nutrition Conference & Expo.

I am requesting your service on this committee. As a committee member, you are responsible for reviewing four prospective organizations and participating in a discussion during a conference call to select a candidate for approval by the Academy Foundation Board of Directors. Prior to the conference call you will receive a copy of the Corporate Award criteria and prospect list.

Please let Amy Donatell know if you are able to serve on the committee and which potential conference call dates will work for you by Thursday, March 19th. Amy can be reached at adonatell@eatright.org. If you have any questions or need additional information, please contact Amy at 800-877-1600 x4767. Thank you for your consideration.

Dear Academy members,

I want you to know that the Academy and the Foundation Boards and staff are continuing to hear and understand your concerns regarding the Kids Eat Right initiative. Our dialogue about this complicated issue is ongoing. The Boards are meeting again this week. In addition, we are addressing the sponsorship issue with discussion at the House of Delegates at its upcoming meeting in May. The Academy Board will consider their recommendations at the May Board meeting.

Sincerely,

Sonja L. Connor, MS, RDN, LD, FAND

Academy of Nutrition and Dietetics Email

This message has been approved by Sonja, Terri and legal counsel. It is being sent to all members via a blast email today and will be shared with all organizational units, task forces and committees. The message will be posted to the eatrightPRO website and shared on social media channels.

Yesterday a merger was announced between Kraft and another entity that may add another dimension to our discussions.

Best regards,

Patricia M. Babjak

Chief Executive Officer

Connect with the Academy:

Dear Academy members,

I want you to know that the Academy and the Foundation Boards and staff are continuing to hear and understand your concerns regarding the Kids Eat Right initiative. Our dialogue about this complicated issue is ongoing. The Boards are meeting again this week. In addition, we are addressing the sponsorship issue with discussion at the House of Delegates at its upcoming meeting in May. The Academy Board will consider their recommendations at the May Board meeting.

Sincerely,

Sonja L. Connor, MS, RDN, LD, FAND
2014-2015 President, Academy of Nutrition & Dietetics

Mary Beth and I recommended to Sonja and Terri that we schedule a conference call with both Boards to provide a status report on our ongoing dialogue with Kraft, GMMB and legal counsel.

With Sonja's and Terri's approval, we are hoping to schedule an hour the call for Friday, March 27, and Darchele Erskine will be distributing a Doodle Poll to assist in its coordination. On Thursday, March 26, you will receive a timeline of events, short- and long-term recommendations and a communication plan addressing the evolving situation, all of which are reviewed by GMMB and legal counsel. We are also inviting a representative of GMMB and our legal counsel to participate on the call.

After adjournment, the Academy Board will hold an executive session for approximately 30 minutes.

Best regards,

Patricia M. Babjak

CMS extends reach of National Nutrition Month® message

As I shared with you on March 5, this is the 7th consecutive year we have collaborated with the Centers for Medicare & Medicaid Services to share a message to providers promoting the Medicare MNT benefit during National Nutrition Month®. Building on this long-standing collaboration with CMS on messaging to health care providers during National Nutrition Month®, this year we were able to get the word out beyond the provider community. CMS also shared the National Nutrition Month® message with 1600 external organizations that reach a broad segment of the population, including care-givers, patient advocate groups, communities of faith, and health care provider organizations. CMS has already committed to collaborate with us on this multi-prong communications approach next year.

Thank you,

Marsha

Today, Katie Brown, EdD, RDN, LD, national education director of Kids Eat Right, conducted an interview with the *Wall Street Journal*. Katie did a good job highlighting Kids Eat Right, our initiatives and the program. The story is as balanced a piece as we have seen. It's online and will be printed in tomorrow's edition. The WSJ did cover our talking point ... "The Academy is working to change any perceptions of endorsements." Please see the entire story below.

‘Eat Right’ Meltdown for Kraft Singles

Company, Public Health Group Hold Talks on ‘Kids Eat Right’ Logo

The Academy of Nutrition and Dietetics, one of the world's largest groups of health professionals, is locked in talks with Kraft Foods Group Inc. to determine how to proceed with a controversial campaign to put the academy's "Kids Eat Right" logo on packages of Kraft Singles.

"The academy is working toward changing any perceptions of endorsement," academy spokesman Ryan O'Malley said. Talks between the parties have been going on for several days.

A partnership between the academy and Kraft, made public earlier this month, opened a rift within the academy, and some members have called on its leaders to disclose financial ties with Kraft. More broadly, it has prompted questions about the group's credibility as a go-to source for nutritional guidance.

Advertisement

The controversy stepped into the limelight last week, when comedian Jon Stewart joked on the Daily Show that "the Academy of Nutrition and Dietetics is an academy in the same way this is cheese," pointing to a package of Kraft Singles.

Described as a "pasteurized prepared cheese product," Kraft Singles are made mostly with milk, cheddar cheese, whey, milk protein concentrate, milk fat and sodium citrate, an emulsifier, according to the ingredients.

Advertisement

The incident highlights the risk public health and nutrition groups take when they partner with food companies, often in relationships that involve donations and sponsorships, said Marion Nestle, a

professor of nutrition and food studies at New York University and an author of several books on the food industry.

The academy “has become a laughingstock,” Ms. Nestle said. “Its viewpoints are so tainted, they’re so deeply influenced by their sponsors that it’s hard to take them seriously.”

With more than 75,000 members, mostly registered dietitians and other nutrition professionals, the Academy of Nutrition and Dietetics often plays a role in shaping national food policy. It lobbies Congress and weighs in on the development of regulations.

The partnership between the academy and Kraft put the food giant on track to become the first company to carry the academy’s “Kids Eat Right” logo on one of its products. Packages of Kraft Singles were also going to include a Web address for the campaign.

The goal, according to the academy, was to spread the word that children need more calcium and vitamin D in their diets. “We saw this opportunity to help parents bridge that dairy gap,” said Katie Brown, national education director for the Academy of Nutrition and Dietetics Foundation, the academy’s philanthropic arm.

As part of the arrangement, Kraft agreed to provide money for a grant to be used at the academy’s discretion for scholarships, research or public education initiatives. Ms. Brown declined to disclose the sum provided by Kraft.

While the academy said it never intended for the partnership to serve as an endorsement of Kraft Singles, critics said consumers would assume the academy had given the product its seal of approval.

“The ‘Kids Eat Right’ logo appearing on any food product is an implied endorsement, despite the academy’s insistence that it is not an endorsement,” said Rachel Begun, a registered dietitian from Boulder, Colo., and member of the academy. “This announcement struck a nerve with members.”

Ms. Begun and other academy members have asked the academy to cut campaign ties with Kraft and to disclose the terms of the agreement. The New York state affiliate of the academy, with more than 5,000 members, sent a letter to the group’s leaders, saying it, too, was concerned

about the partnership with Kraft.

Kraft spokeswoman Jody Moore said the company “has never used the word ‘endorsement’ to describe this collaboration. We have been clear Kraft Singles is a proud supporter of Kids Eat Right and this collaboration with the Academy of Nutrition and Dietetics is to raise awareness of the importance of dairy, vitamin D and calcium in kids’ diets.”

According to its 2014 annual report, the academy counts several food and beverage companies among its corporate sponsors, including PepsiCo Inc., General Mills Inc., Kellogg Co. and Unilever PLC. Several additional companies served as sponsors of its conference in 2013, including Campbell Soup Co., ConAgra Foods Inc. and Del Monte Corp.

Each of the companies, excluding Campbell Soup and Del Monte, contributed \$10,000 or more during the group’s 2014 fiscal year, which ended May 31, according to the annual report. Kraft wasn’t among the companies that donated that sum of money.

The academy’s website said corporate relationships allow it to develop and distribute messages to a broader audience. Acknowledging that it needs to avoid the perception of a conflict of interest, the academy states on the website that it “will authorize no commercial use of the name and logo that would diminish that value or damage that reputation.”

The academy isn’t the only public health group to come under fire for its relationship with food companies. The American Diabetes Association, which has also been criticized for accepting money from food companies, said it developed a set of guidelines that said food and beverage products that are identified as a “proud sponsor” of the ADA should be healthy and nutrient-dense.

Each year the Board uses a self-assessment tool developed by BoardSource to evaluate and improve its effectiveness as a governing board. The assessment is utilized by the Board to evaluate our strengths and challenges and by the Executive Team to strengthen operational processes. The tool is also helpful in familiarizing Board members about expected responsibilities, in planning meeting agendas, and identifying topics for the Board orientation and retreat meetings.

Tomorrow you will receive the online questionnaire **directly from BoardSource** from their e-mail address, assessments@boardsource.org. Your individual responses are tabulated by BoardSource and are kept confidential; only aggregate results are provided. Marla Bobowick, senior governance consultant with BoardSource, will again attend our Board meeting in May to facilitate the discussion about the results.

Please let me know if you have any questions. Thank you for your input!

Subject: RE: Finance and Audit Committee meeting on Tuesday, March 24th at 1 p.m. CDT
Attachment:

All,

A few years ago, we did look at this from an Academy perspective. At that time, it was roughly \$50 per member. Please don't use that number (it is an old number). The key is how would it be distributed across all of the member categories. We would not increase the students by \$50 when they are currently paying \$50. We did not look at that impact to the Foundation, DPGS or MIGS.

That being said, the decline in sponsorships over the past few years would reduce that impact significantly. Developing the impact from sponsorship really is quite simple. What gets complicated is where the line is drawn. Do we stop taking Corporate money entirely? If so, does that mean we don't have an exhibit hall at FNCE? What about advertisements within the Journal and Food and Nutrition Magazine? Do we eliminate that as well? How about funding for Research? We currently have the Home Food Safety website, funded by ConAgra. Should we eliminate this money as well? As you can see, this becomes an issue that becomes quite complicated.

To make the situation even more difficult is the control over the DPGS/MIGs as well as the Affiliates. We think we control the DPGS/MIGS. I will tell you this is not the case. We work with them, but, they can be very passionate about what they want. I have heard many times that "we will just go ahead and do it" from the leaders of various DPGs on a myriad of issues. In addition, we don't have any control over the Affiliates. If we shut down Corporate Sponsorships but they do not, we will still be implicated. We all may remember that the California Academy of Nutrition and Dietetics had McDonald's as one of their Corporate Sponsors at their annual meeting. Now, the great thing is California will not have McDonalds this year because of the uproar from members. So, the process works.

I don't believe eliminating Sponsorship or Corporate money is the answer. Most, if not all, Non-profits take Corporate money. The issue might be the companies that are attracted to the

program. I think, given the push back from the Kraft situation, we may see companies begin to drift away at a faster pace.

As Donna pointed out in her e-mail, the decline in Sponsorship has contributed to the Academy's deficits. Also, we have to recognize that increasing the Membership Dues might have the opposite effect we would like; higher Membership Dues could result in members choosing to not renew. Which could result in lower Membership Dues overall. It becomes a "death spiral".

Even if members would support a Dues increase of \$50 (lets hold this for argument's sake), the likelihood that they will pay the additional amount is questionable. It is one thing to say and another thing to do. We already hear that our Membership Dues are too high. In addition, if DPGS/MIGs can't get Corporate money, they would have to increase their Dues. So, it could be very damaging to some of the DPGS/MIGS as well. Again, a downward spiral.

I think their needs to be a balanced response to the Academy's needs that takes into consideration all revenue sources as well as the programs and services funded by these sources. Our revenue, in FY15, is projected to decline when compared to FY14. We can't continue to fund programs at the level our members have become accustomed if we don't have new, growing, revenue streams. So, we have to be diligent to stay fiscally responsible and fund initiatives that generate a return, either directly or indirectly. Sometimes this might mean we can't support programs our members think are critical. This can include investments. They are there to be used. However, we can't continue large deficits and expect the Academy to be sound financially.

Bottom line is the request sounds simple and from a mathematical perspective and it really is. Unfortunately, once you scratch this surface, it is easy to see that the Corporate Sponsorship issue becomes quite complicated quickly.

Sorry for the long email. I will look at the "high-level" impact of eliminating Sponsorship for the Committee. From there, your guidance will necessary on how far we would like to take this issue.

Paul

From: Aida Miles [mailto:miles081@umn.edu]

Sent: Saturday, March 21, 2015 10:54 AM

To: Paul Mifsud; Wolf, Kay; peark02@outlook.com; DMartin@Burke.k12.ga.us

Subject: Re: Finance and Audit Committee meeting on Tuesday, March 24th at 1 p.m. CDT

Paul, Kay, Mary and Donna,

I didn't want to send this to everyone on FAC, but I am wondering if the following question from a member in MN could be answered/ calculated in some way..... This is what the member asked- can it be done?

1. *If the faction that wants zero - zippo - nadda corporate sponsorship has it their way then what will each of us need to pay in extra annual dues to cover the costs of what corporate money pays for? I suspect this impacts DPG dues also as they use corporate money. What services / benefits will go away? In other words what does an organization look like when it has no sponsorship. Someone needs to run the numbers and this is important for people to see and understand as they make their decisions to stay with AND or jump ship (**which many are threatening to do**).*
2. *If the foundation gets significant funding from sponsorship – same thing what does it look like without that money coming in.*

Thanks for all you do!

Aida

Academy of Nutrition & Dietetics - Speaker Elect, House of Delegates - Member, Board of Directors - Advisor, Pediatric Nutrition Practice Group

On Thu, Mar 19, 2015 at 1:00 PM, Paul Mifsud <PMifsud@eatright.org> wrote:

All,

I hope everyone is enjoying the warmth that is beginning to inch its way into our lives. When I was a kid, we had a newscaster that always talked about the “greening of America”. He used to show a line where the plants and trees would begin to spring to life. I patiently waited for the line to get closer to my home in Detroit!! I don’t know why I always enjoyed that reference. Maybe it was the anticipation of Spring and the warm weather!!! Since we just passed St. Patrick’s Day, I thought that would be a nice anecdote. We haven’t yet experience any “greening” in Chicago (except the river of course), but I hope wherever you are that you are beginning to see the signs of spring.

As all of you know, we have a Finance and Audit Committee meeting on Tuesday, March 24th at 1 p.m. CDT. The focus of our call will be on the following;

1. January final financial results
2. February preliminary results
3. Budget update
4. Cash

I. January Adjustments

We did not make any adjustments to the preliminary January results.

II. Investments

The ride our investments has taken continues. As I mentioned last month, the market was growing quite well when we met in February. I am happy to say that our combined portfolios gained nearly \$2,259,000!! We recouped the losses from January and added to our upward

climb. Year to date, the combined portfolios have gained over \$3,353,000. This is \$1,620,300 more than our budget. So, needless to say, with these kind of results, February should be a very good month for everyone.

March has not been too bad for our portfolios. Through yesterday, March 18th, the combined portfolios have gained an additional \$287,000. This is roughly 0.50%. Even though the markets are mixed (Dow down, NASDAQ up, etc) today, we are at least facing the last week or so of investing in March on a firm foundation of gains. The markets liked what the Federal Reserve Chairwoman said yesterday. So, hopefully, the impact of the impending interest rate hikes would not have a major impact on the markets.

III. Academy preliminary February Financials (A10)

The results for the Academy will continue the pattern we have seen throughout the year; Revenues under performed and were partially offset by lower expenses. The Academy had an Operating Deficit of \$363,431. This was \$15,365 higher (worse) than the budget. This isn't too bad considering the revenue missed expectations by \$111,284. I will provide some details below. The great news is, due to the investment returns of over \$729K, the Academy had Net Income of \$365,920 for the month of February. This was \$601,501 higher (better) than the budget. So, a very good overall month!!

On a year to date basis, the Academy has an Operating Deficit of \$1,961,463 through February. This is \$395,699 smaller (better) than the budget. This variance went down \$15K since January. However, it is great news to have the Operating results be this much better than the budget with all of the revenue shortfalls we have experienced. The investments make this picture a little better. Year to date, our investments have provided over \$1.33M in income. This is \$319,810 higher than the budget. So, the bottom line is the Academy currently has a Net Deficit of \$628,298. This is \$715,510 smaller (better) than the budget. We may not have reached this point in an optimal manner, but, to have our Net Deficit be less than 50% of our budget, through three quarters of the fiscal year, is very good news.

The following is a breakdown of the various categories for February:

A. Revenues

- a. **Membership Dues** - This area is **under budget** by \$5,740 in February and is **under budget** by \$181 for the year. The under-run in February is being driven by lower Fellow program revenue (down \$7.8K) offset by higher Membership Dues revenue (up \$2.1K).
- b. **Programs and Meetings** - This area is **under budget** by \$9,729 in February and is **under budget** by \$429,830 for the year. The under-run February is due entirely to lower Professional Development revenue.
- c. **Publications and Materials** - This area is **under budget** by \$26,614 in February and is **under budget** by \$87,160 for the year. The under-run in February is primarily due to lower Traditional Publications (down \$9.7K), lower Eatright store (down \$4.5K), lower PR sales (Down \$6.2K) and lower List Rental (down \$6.2K).
- d. **Subscriptions** – This area is **under budget** by \$43,971 in February and is **under budget** by \$263,317 for the year. The under-run in February is primarily is due to lower eNCPT (down \$44.3K) as sales are slower than budgeted and lower NCM and related products (down \$2.4K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.2K) and higher EAL (up \$1.5K).
- e. **Advertising** – This area is **over budget** by \$1,699 in February and **under budget** by \$8,692 for the year. The over-run in February is entirely due to higher advertising sales for Food and Nutrition Magazine.
- f. **All grants** - This area is **under budget** by \$20,201 in February and is **under budget** by \$22,756 for the year. The under-run in February is primarily due to lower Guides for Practice (down \$10K), lower grants for Research (down \$9.4K) and lower ConAgra (down \$1.6K). This is offset by higher recognition of the Abbott Malnutrition project (up \$0.8K).
- g. **Sponsorships** – This area is **under budget** by \$2,140 in February and is **under budget** by \$50,749 for the year. This is not as low in February as we originally thought. We re-evaluate this each month. Since we have received unbudgeted agreements for the Nutrition News Forecast, we are adjusting our expected under-run for the year.
- h. **Other** – This area was **under budget** by \$4,590 in February and is **over budget** by \$99,996 for the year. The under-run in February is primarily due to lower rebates from the Member benefit's program.

B. Expenses

- a. **Personnel** – This area is **under budget** by \$24,584 in February and is **under budget** by \$152,653 for the year. The under-run in February is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.

- b. **Publications** – This area is **under budget** by \$701 in February and is **under budget** by \$96,657 for the year. The under-run in February is primarily due to lower Traditional Publications (down \$3.0K), and lower Eatright Store (Down \$1.7K). This is offset by higher Journal (up \$2.2K), higher Food and Nutrition Magazine (up \$1.3K) and higher across all other projects (up \$0.5K).
- c. **Travel** – This area is **under budget** by \$51,050 in February and is **under budget** by \$307,491 for the year. The under-run in February is primarily due to lower Research projects (down \$61.8K) which included lower Abbott Malnutrition project expenses (down \$53.4K), lower Informatics (down \$3.8K), lower Public Policy (down \$3.2K) and lower across all other projects (down \$0.3K). This is offset by higher Marketing (up \$2.8K), higher Governance (up \$5.4K) and higher FNCE expense reimbursements (up \$9.8K).
- d. **Professional Fees** - This area is **under budget** by \$29,960 in February and is **under budget** by \$182,245 for the year. The under-run in February is being driven by lower Research (down \$10.5K), lower IT/web (down \$5.3K), lower Journal (down \$6.0K), lower Corporate Relations (down \$13.3K), lower Public Relations (down \$6.2K) and lower Carry the Flame (down \$2.3K). This is offset by higher FNCE (up \$10.3K), higher Public Policy (up \$2.2K) and higher across all other (up \$1.1K). The FNCE over-run is due to the accounting reclassification addressed above.
- e. **Postage and Mailing** - This area is **under budget** by \$2,352 in February and is **under budget** by \$88,448 for the year. The under-run for February is being driven by lower Traditional Publications (down \$8.4K) and lower across all other projects (down \$0.6K). This is offset by higher Member Services (down \$1.9K) and higher Food and Nutrition Magazine (up \$4.7K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$3,460 in February and is **under budget** by \$16,930 for the year. The under-run in February is due to lower copy supplies (down \$1.6K), lower Public Policy (down \$0.7K) and lower across all other projects (down \$1.2K).
- g. **Rent and utilities** - This area is **over budget** by \$13 in February and is **under budget** by \$62,089 for the year. The over-run in February is due to higher maintenance costs associated with work done in Chicago (up \$1.7K) offset by lower costs within our new lease in Washington DC (down \$1.7K).
- h. **Telephone and communications** – This is **over budget** by \$1,039 in February and is **under budget** by \$2,764 for the year. The over-run in February is primarily due to the accounting reclassification for FNCE related costs.
- i. **Commissions** – This area is **over budget** by \$340 in February and is **over budget** by \$1,151 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since Advertising revenue was higher in February, the commission expense was higher in February

- j. **Computer Expenses** – This area is **under budget** by \$5,061 in February and is **under budget** by \$51,685 for the year. The under-run in February is due to lower web hosting costs. This could be an issue with a missing bill and will be re-evaluated before going final.
- k. **Advertising and Promotion** – This area is **over budget** by \$1,989 in February and is **under budget** by \$43,796 for the year. The over-run in February is primarily due to NCM marketing materials.
- l. **Insurance** – This area is **under budget** by \$534 in February and is **under budget** by \$7,133 for the year. The under-run in February is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$2,372 in February and is **over budget** by \$253 for the year. The under-run in February is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized. The new web site was delayed, which will delay the recognition of the depreciation in FY15. This is driving the lower costs in February and should have an impact for the remainder of the fiscal year.
- n. **Bank and trust fees** – This area is **over budget** by \$1,716 in February and is **over budget** by \$11,611 for the year. The over-run in February is due to higher credit cards fees.
- o. **Other** – This area is **over budget** by \$30,092 in February and **under budget** \$49,120 for the year. The majority of the over-run in February is due to two items; the expectation that the DPGs would provide funding that did not materialize for Quality Management (down \$13.8K) and FNCE accounting reclassifications (up \$16.0K). There are additional minor changes in other areas, but, it amounts to approximately \$0.3K. The FNCE reclassifications are shifts between categories as the accounting team “cleans” up the books at the quarter close.
- p. **Expense allocation** – This area is **unfavorable to budget** by \$6,979 in February and is **unfavorable to budget** by \$51,655 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is **under budget** by \$20,469 in February and is **under budget** by \$160,459 for the year. The under-run in February is primarily due to accounting reclassification's of FNCE related costs (down \$29.3K), lower Professional Development (down \$1.0K) and lower across all other projects (down \$1.0K). This is offset by higher Quality Management (up \$10.8K).

- r. **Legal and Audit** – This area is **under budget** by \$230 in February and is **under budget** by \$15,804 for the year. The under-run in February is due to lower legal expenses.
- s. **Printing** – This area is **over budget** by \$2,688 in February and is **over budget** by \$14,482 for the year. The over-run in February is due higher Office Services costs (up \$1.7K) and higher across all other areas of the business (up \$1.0K).

Overall, a good month for the Academy. We are still experiencing the under-runs in revenue. These will continue. However, the staff is dedicated to reducing expenses wherever possible. We are now rounding the final corner and heading towards home. It is good to do so with both an Operating deficit and Net Deficit smaller than the budget.

I will once again stop here and provide the remaining information tomorrow. Maria will have been out of the office this week. So, either Christian or I will get everything posted to the portal (I hope!). In addition, you should receive a webinar invitation this afternoon. If you have any questions, please let me know and look for my e-mail tomorrow to address the rest of the story.

Paul

Donna,

Today might be tough. I am participating in the LPPC/ANDPAC meeting. Well, I called in, so, participating may be too strong. I will admit that I am not "thrilled" with the Deck. I keep thinking it is missing something. I don't know what it is. So, if you want to add something, let me know.

Wednesday afternoon would be better. Just pick a time.

Paul

Paul, I can talk to you anytime this afternoon after 1 pm EST and I have all day on Wednesday from 8-4:30 pm EST. Let me know what works for you? I have looked at the deck and the only immediate change I have is to delete the Dr. in front of Kay Wolf's name to keep it consistent with the other Dr.'s on the committee.

Hello!

Attached are the final recommendations developed by our extraordinarily well-versed member experts for the Child Nutrition Reauthorization Act. As you know we are still implementing the 2010 Healthy Hunger Free Kids Act and already gearing up for the next reauthorization which has made this project even more challenging.

Child Nutrition is a broad piece of legislation that includes school meals, farm to school, WIC and several other programs. These programs employ many members who are leaders in this area. Our workgroup had representatives in all the programs covered which led to a final quality product of recommendations. We will use both the executive summary and expanded document in developing our messages.

I would also like to give kudos to the workgroup and the time and efforts that they provided.

- Ethan Bergman, PhD, RD, CD, FADA
- Marilyn Briggs, PhD, RD, SNS
- Meg Bruening, PhD, MPH, RD
- Sue Foerster, MPH, RD
- Beverly Girard, PhD, MBA, RDN
- Stephanie Heim, MPH, RD
- Geri Henchy, MPH, RD
- Dianne Lollar, MPH, RD, LD
- Clare H. Miller, MS, RD
- Patty Keane, MPH, RD, Chair
- Lisa Eaton Wright, MS, RDN, LDN, LPPC, Chair

Also Jenn Folliard was terrific as the staff liaison with this group keeping them on track and focused.

As always your questions are welcome!

Many thanks,

Mary Pat

Donna thank you for the support. Your question regarding the number of actual members who have signed that petition is a good one. We are going to have our research guru (Will) run the same check did he did on the last petition against us. I will let you know how that plays out. Keep the faith as we work to pull this one out of the ashes!

Each year the Board uses a self-assessment tool developed by BoardSource to evaluate and improve its effectiveness as a governing board. The assessment is utilized by the Board to evaluate our strengths and challenges and by the Executive Team to strengthen operational processes. The tool is also helpful in familiarizing Board members about expected responsibilities, in planning meeting agendas, and identifying topics for the Board orientation and retreat meetings.

Tomorrow you will receive the online questionnaire **directly from BoardSource** from their e-mail address, assessments@boardsource.org. Your individual responses are tabulated by BoardSource and are kept confidential; only aggregate results are provided. Marla Bobowick, senior governance consultant with BoardSource, will again attend our Board meeting in May to facilitate the discussion about the results.

Please let me know if you have any questions. Thank you for your input!

We are working with our legal counsel Paula Goedert to help us leverage our position with our negotiations. See my message to Paula and the email from Kathy Warwick below.

Hi Paula,

The *New York Times* reporter is standing by her statement that Kraft said it was “an endorsement.” Kraft told us that they were requesting a retraction. Although we have asked, we have not received anything in writing to the *New York Times* to verify they requested a retraction of the endorsement quote. This is clearly referenced in the contract Attachment 3, page 13 paragraph 4, “All messaging will be developed and approved within the Academy’s guidelines for

non-endorsement, accuracy and completeness of messaging and scientific integrity. All materials within the campaign will hold final review and approval by the Academy.” The subsequent media articles, quoted the *Times* article, and all have repeated “it’s an endorsement or seal of approval.” All of this misrepresentation of the Academy and our non-endorsement policy is damaging our reputation.

Per our strategic risk management team, “It’s clear that the Foundation went through a very deliberate and thoughtful vetting and risk assessment process before moving forward with the partnership.” There was full support from both Boards, including the executive team, for this program. As mentioned, both Boards met and decided to stop the use of on-package logo.

We have told you the negative feedback. You also need to know that there are some members who support this campaign and its goal to reach approximately 80 percent of all households in the United States, with the potential to send more than 20 million consumers to the Kids Eat Right website (www.KidsEatRight.org), for trusted, science-based information and recipes developed by registered dietitian nutritionists. See email below.

Also as mentioned, we were in contact with the *Wall Street Journal* and told them that they would get an exclusive on any breaking news. We talked with them this afternoon to let them know there was no breaking news and we did not provide any additional information. The reporter, on her own, said if this goes on for days and it appears that the Academy wants to terminate the contract and Kraft refuses to let them, we should discuss what that story looks like. We had told the reporter that we were examining all options for how to move forward. She has decided to hold her story.

Best regards,

Patricia M. Babjak

Subject: Corporate partnerships

Dear Sonja, Evelyn, Elise, Terri, Pat, Mary Beth, and Susan,

I want to express my gratitude and support for all of you as the leaders of AND.

The recent ridiculous furor over the corporate partnership with Kraft and the Kid's Eat Right initiative has upset me.

As a proud Registered Dietitian Nutritionist who has actually worked with clients and families for over 30 years, I am appalled at the reaction of some of our members. Let me say that I am confident this group is a small, vocal minority.

Any RD who is actually teaching and promoting science-based nutrition should not be offended by the corporate support of

Kraft for Kid's Eat Right. Our nation's children (and adults for that matter) are not getting enough of the nutrients of concern and many are supplied by dairy foods. Why would anyone object to a slice of cheese as part of a healthy lifestyle??

I am not sure when the word "processed" became blasphemous, but all dairy foods are processed. Milk is processed into yogurt, ice cream, cheese, sour cream, etc. and all of those foods can be part of a nutritious diet. If you can get a small child

to drink unflavored low-fat milk, good for you! But there is something wrong with an RD who cannot see that cheese can

be part of a healthy diet. I would hate to think about my own son's overall health if I had forbidden chocolate milk and cheese

when he was young.

As an RD who has served as a consultant to the Dairy Council, Coca-Cola, and the Corn Refiners, I have seen the sincere efforts of the food industry to support physical activity and provide science-based nutrition information to the public. Corporations seek the

input of RD's and listen to the demands of the public in order to innovate and create new products. Without these partnerships, our voices and our expertise would not be a part of the process. I am afraid the militant majority will give all RD's a bad name. The patients that I work with do not need to view me as the "food police" and they do not need to be chided for allowing their child to eat a slice

of cheese. We have members who cannot see the forest for the trees. Why promote only fresh, organic fruits and vegetables when

there are many other more affordable nutritious choices for families? All foods can fit... PERIOD.

I hope that AND will seek the opinions of the vast majority of RD's and consider that most of us realize that real people in the real

world, especially those with limited income, must have choices. I hope we can continue our corporate partnerships and that food and beverage companies continue to see the value in having the input from our organization.

Thank you for the work you do,

Kathy Warwick, RD,CDE

Donna,

Here is the first cut of the HOD spring presentation. I tried to keep it short. I will continue to refine it over the next few days. Let me know when you and I can talk about this presentation.

Paul

[Academy Kraft Communication Rollout March 20 2014 draft 5.pdf](#)
[KER KRAFT cancel release 14.pdf](#)

To all Academy and Foundation Board members:

GMMB has reviewed our communication plan, press release, and updated FAQ. They had minor edits to our documents. Please see their email below and the attached **CONFIDENTIAL** documents. Please know that any breach and discussion of the content in these documents will have major financial and legal repercussions for the Academy and Foundation. All is contingent upon continuing discussions with Kraft and legal.

Today, we posted this message to the HOD, DPG, MIGs, and social PRO channels:

The Academy and Foundation Boards of Directors sincerely appreciate the candor, integrity and concern for consumers' health, as shown by members who both oppose and support the proposed program. All comments and concerns are being taken into account.

We are still waiting to hear back from Kraft and their legal counsel and will continue to send you updates. We are in contact with our attorney Paula Goedert.

Thank you very much.

Patricia M. Babjak

[Diabetes Caucus FY 2016 Funding Letter \(2\).docx](#)

Good news...your efforts are paying off! Thank you so much for your attention to this request. Congresswoman DeGette just let us know she now has 80 members signed on and is able to extend the deadline to Saturday March 21.

Those of you that have already gotten a chance to do this have made a huge impact. Diane Heller's email reached the Chairman of the House Budget Committee, very timely as he is drafting the federal budget.

If you had not had a chance, please take a minute to do this. This establishes you as that important nutrition resource in their district.

Many thanks again!

Mary Pat

+++++

As you know in the BOD Plan of Work one of the STRATEGIC PRIORITIES is to “*Develop key relationships with own Congressional representatives in the role of an Academy leader.*”

This action supports our members working in these agencies so they have adequate funding to do their jobs. We are fortunate that our member Ann Albright leads the diabetes efforts in CDC. That is a huge job and she appreciates our support. Her agency now funds \$146 million in community based diabetes programs, many which are led by our members. On the NIH side, I know we are losing some of our nutrition funding so this is also crucial to get support.

Here is a great opportunity to execute this priority to be recognized by your member of Congress as a nutrition leader in their district. The Congressional Diabetes Caucus leadership is seeking support for a “Dear Colleague” letter, from members of their Congressional Diabetes Caucus to support funding in diabetes research and prevention programs at NIH and CDC. The deadline for members of Congress to sign-on is **Friday, March 20th**. Can you send the following email to your member of this important caucus? The list of the caucus member is attached with the staff contact information. The letter is also included.

Suggested language for the request:

Dear (STAFF NAME),

As an elected member of the Academy of Nutrition and Dietetics Board of Directors, I am proud that you as my Congressman/Congresswoman XXX is a member of the Congressional Diabetes Caucus. I appreciate his/her being a champion of diabetes research and prevention. These efforts help prevent this disease which research has indicated the stress on families and individuals with diabetes. With nearly 30 million people diagnosed with diabetes, and an additional 86 million with prediabetes, it is important to invest in finding the evidence-based practices, such as medical nutrition therapy, which can prevent this costly disease.

It is important that the caucus has a strong showing on this to other members of Congress during this budget time. Would you ask that XXX signs on and shows his/her support for fully funding diabetes research and prevention in the Fiscal Year 2016 budget?

Thank you for your consideration, and please let me know if you have any questions. And please feel free to contact on any nutrition questions you might have regarding nutrition services and programs for your constituents. I would be glad to be a resource for you.

Sincerely,

ACADEMY BOD MEMBER NAME

Attached for your information is a status update communication sent to all staff today. We have just received feedback from GMMB related to other communication pieces, and I will be forwarding that information to you shortly. We are very frustrated with Kraft for not responding regarding the contract.

We are fortunate that the *Wall Street Journal* writer convinced her editors to hold off on running the piece. We are offering her the exclusive.

Best regards,

To: All Academy Staff

Subject: Academy/Kraft Education Initiative Status Update

As you know, the Academy announced in early March a pilot educational initiative with Kraft to help improve eating patterns for America's families. The language on the package identified Kraft Singles as a *Proud Supporter of Kids Eat Right* (similar to such initiatives as Heart Truth Campaign and NHLBI, and Lids for Lives and breast cancer). The goal of the program was to reach approximately 80 percent of all U.S. households, with the potential to send more than 20 million consumers to the Kids Eat Right website for credible information and recipes developed by registered dietitian nutritionists.

Contrary to what has been reported in the media and on social media posts, this initiative was not an endorsement or nutritional seal of approval by the Academy, its Foundation or Kids Eat Right of this or any product. By policy, the Academy does not endorse any products, brands or services.

The Academy and Foundation Boards of Directors hear and understand member and public concerns regarding the Kids Eat Right initiative. A dialogue is underway. The Boards sincerely appreciate the candor, integrity and concern for consumers' health, as shown by members who both oppose and support the proposed program. All comments and concerns are being taken into account.

Please forward member comments to ceo@eatright.org. If you have any questions, please do not hesitate to contact your Vice President.

Thank you very much.

All,

The documents for our FAC conference call scheduled **March 24, 2015** are loaded into the portal with the exception of Christian's January narrative. We will have that loaded this afternoon.

Folder name "**March 2015 FAC meeting**"

Please login on the portal using the link <https://eal.webauthor.com> and enter your e-mail address and password.

If you have any questions or problems login in, please call Linda Serwat at extension 4731

Call in number 866-477-4564

Conference Code 9431787218

Since Maria has been out ill, this is the first time I have loaded this up to the portal. Hopefully, you will be able to find everything. If not, please let me know.

Paul

To all Academy and Foundation Board members:

Thank you very much for a productive and aspirational call earlier today. For those who were not able to participate or those who had to leave early, here a summary follows.

We were joined by Academy members and registered dietitian nutritionists Rachel Begun and Kate Geagan, who are leading a change.org petition to repeal the Kraft/KER education initiative. They provided their perspective.

Rachel did not declare a conflict of interest. Kate indicated that she works with various brands. Although Regan was not on the call, the group disclosed her potential conflicts with Cabot

Cheese. They spoke about the Kraft program, and asked the Board respectfully to repeal the seal because it implied an endorsement of a brand. They offered to work with the Board and continue the dialogue.

They asked that the Board convey the message to members: "We hear you. We are having a dialogue about our options."

Next, the Board reviewed options for discussion. David Mitchell, a principal at GMMB, a crisis management firm, assisted in formulating our options, which were emailed to you yesterday.

After reviewing the negative comments, we can divide input that has been received into three categories.

1. Offering our logo on a product is seen as an endorsement of Kraft Singles (although I need to reiterate that the Academy has placed our logo on products in the past, including on Hunts, Barilla and Gerber products, with no negative reactions from members or the public.)
2. A seal of approval of Kraft Singles implies to consumers that it is a healthy food.
3. Many of our members perceive Kraft Singles to be an unhealthy food product that the Academy should not associate itself with.

The Board received two options for consideration, with advantages and disadvantages outlined. With careful and thorough consideration based on the discourse, civil and otherwise, and a communication with David Mitchell, I recommended that we not move with the collaboration with Kraft Singles. David also recommended we step back from this partnership.

One reason for doing so: This was a pilot program for the Foundation, and pilots are done to test and learn whether something will work. In this instance, the planned approach created confusion among members and consumers, which the Academy clearly does not want.

We have alerted our attorney to this issue. She advised us to reach out to Kraft to reach a mutual and amicable agreement about how to move forward with cancelling the contract. Mary Beth Whalen did so, and Kraft indicated that they realize that neither Kraft nor the Academy can move forward as planned. We are awaiting more information from Kraft regarding how far forward the packaging process has gone and how we can discontinue the initiative.

The Board deliberated and voted to approve Option 2: Discontinue our pilot program, stop the use of the on-package logo, and work with Kraft to cancel the contract. The Board also decided that we would send a message to members via social media this afternoon. Here are the messages that will be posted to the eatrightPRO social media channels at 3:15 p.m.:

FACEBOOK: The Academy and Foundation Boards hear and understand member and public concerns regarding the Kids Eat Right initiative. A dialogue is underway. Your patience is appreciated!

TWITTER: #eatrightPRO Boards hear and understand you regarding Kids Eat Right initiative. A dialogue is underway.

It is critical that this information remain confidential, as we are working with GMMB to develop a risk management communication plan that will include timeline, key messages and FAQ for members, as well as social media outreach to members. We will also develop a media statement that will be released exclusively to the *Wall Street Journal*, after alerting members. We remain in close contact with legal counsel and Kraft and more updates will be provided as information becomes available.

Please do not hesitate to contact me with any questions or if you need additional information.

Sincerely,

Patricia M. Babjak

Attachment:

All,

I hope everyone is enjoying the warmth that is beginning to inch its way into our lives. When I was a kid, we had a newscaster that always talked about the “greening of America”. He used to show a line where the plants and trees would begin to spring to life. I patiently waited for the line to get closer to my home in Detroit!! I don’t know why I always enjoyed that reference. Maybe it was the anticipation of Spring and the warm weather!!! Since we just passed St. Patrick’s Day, I thought that would be a nice anecdote. We haven’t yet experience any “greening” in Chicago (except the river of course), but I hope wherever you are that you are beginning to see the signs of spring.

As all of you know, we have a Finance and Audit Committee meeting on Tuesday, March 24th at 1 p.m. CDT. The focus of our call will be on the following;

1. January final financial results
2. February preliminary results
3. Budget update
4. Cash

I. January Adjustments

-
We did not make any adjustments to the preliminary January results.

II. Investments

The ride our investments has taken continues. As I mentioned last month, the market was growing quite well when we met in February. I am happy to say that our combined portfolios gained nearly \$2,259,000!! We recouped the losses from January and added to our upward climb. Year to date, the combined portfolios have gained over \$3,353,000. This is \$1,620,300 more than our budget. So, needless to say, with these kind of results, February should be a very good month for everyone.

March has not been too bad for our portfolios. Through yesterday, March 18th, the combined portfolios have gained an additional \$287,000. This is roughly 0.50%. Even though the markets are mixed (Dow down, NASDAQ up, etc) today, we are at least facing the last week or so of investing in March on a firm foundation of gains. The markets liked what the Federal Reserve Chairwoman said yesterday. So, hopefully, the impact of the impending interest rate hikes would not have a major impact on the markets.

III. Academy preliminary February Financials (A10)

The results for the Academy will continue the pattern we have seen throughout the year; Revenues under performed and were partially offset by lower expenses. The Academy had an

Operating Deficit of \$363,431. This was \$15,365 higher (worse) than the budget. This isn't too bad considering the revenue missed expectations by \$111,284. I will provide some details below. The great news is, due to the investment returns of over \$729K, the Academy had Net Income of \$365,920 for the month of February. This was \$601,501 higher (better) than the budget. So, a very good overall month!!

On a year to date basis, the Academy has an Operating Deficit of \$1,961,463 through February. This is \$395,699 smaller (better) than the budget. This variance went down \$15K since January. However, it is great news to have the Operating results be this much better than the budget with all of the revenue shortfalls we have experienced. The investments make this picture a little better. Year to date, our investments have provided over \$1.33M in income. This is \$319,810 higher than the budget. So, the bottom line is the Academy currently has a Net Deficit of \$628,298. This is \$715,510 smaller (better) than the budget. We may not have reached this point in an optimal manner, but, to have our Net Deficit be less than 50% of our budget, through three quarters of the fiscal year, is very good news.

The following is a breakdown of the various categories for February:

A. Revenues

- a. **Membership Dues** - This area is **under budget** by \$5,740 in February and is **under budget** by \$181 for the year. The under-run in February is being driven by lower Fellow program revenue (down \$7.8K) offset by higher Membership Dues revenue (up \$2.1K).
- b. **Programs and Meetings** - This area is **under budget** by \$9,729 in February and is **under budget** by \$429,830 for the year. The under-run February is due entirely to lower Professional Development revenue.
- c. **Publications and Materials** - This area is **under budget** by \$26,614 in February and is **under budget** by \$87,160 for the year. The under-run in February is primarily due to lower Traditional Publications (down \$9.7K), lower Eatright store (down \$4.5K), lower PR sales (Down \$6.2K) and lower List Rental (down \$6.2K).
- d. **Subscriptions** – This area is **under budget** by \$43,971 in February and is **under budget** by \$263,317 for the year. The under-run in February is primarily is due to lower eNCPT (down \$44.3K) as sales are slower than budgeted and lower NCM and related products (down \$2.4K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.2K) and higher EAL (up \$1.5K).

- e. **Advertising** – This area is over budget by \$1,699 in February and under budget by \$8,692 for the year. The over-run in February is entirely due to higher advertising sales for Food and Nutrition Magazine.
- f. **All grants** - This area is under budget by \$20,201 in February and is under budget by \$22,756 for the year. The under-run in February is primarily due to lower Guides for Practice (down \$10K), lower grants for Research (down \$9.4K) and lower ConAgra (down \$1.6K). This is offset by higher recognition of the Abbott Malnutrition project (up \$0.8K).
- g. **Sponsorships** – This area is under budget by \$2,140 in February and is under budget by \$50,749 for the year. This is not as low in February as we originally thought. We re-evaluate this each month. Since we have received unbudgeted agreements for the Nutrition News Forecast, we are adjusting our expected under-run for the year.
- h. **Other** – This area was under budget by \$4,590 in February and is over budget by \$99,996 for the year. The under-run in February is primarily due to lower rebates from the Member benefit's program.

B. Expenses

- a. **Personnel** – This area is under budget by \$24,584 in February and is under budget by \$152,653 for the year. The under-run in February is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.
- b. **Publications** – This area is under budget by \$701 in February and is under budget by \$96,657 for the year. The under-run in February is primarily due to lower Traditional Publications (down \$3.0K), and lower Eatright Store (Down \$1.7K). This is offset by higher Journal (up \$2.2K), higher Food and Nutrition Magazine (up \$1.3K) and higher across all other projects (up \$0.5K).
- c. **Travel** – This area is under budget by \$51,050 in February and is under budget by \$307,491 for the year. The under-run in February is primarily due to lower Research projects (down \$61.8K) which included lower Abbott Malnutrition project expenses (down \$53.4K), lower Informatics (down \$3.8K), lower Public Policy (down \$3.2K) and lower across all other projects (down \$0.3K). This is offset by higher Marketing (up \$2.8K), higher Governance (up \$5.4K) and higher FNCE expense reimbursements (up \$9.8K).
- d. **Professional Fees** - This area is under budget by \$29,960 in February and is under budget by \$182,245 for the year. The under-run in February is being driven by lower Research (down \$10.5K), lower IT/web (down \$5.3K), lower Journal (down \$6.0K), lower Corporate Relations (down \$13.3K), lower Public Relations (down \$6.2K) and lower Carry the Flame (down \$2.3K). This is offset by higher FNCE (up \$10.3K), higher Public Policy (up \$2.2K) and higher across all other (up \$1.1K). The FNCE over-run is due to the accounting reclassification addressed above.

- e. **Postage and Mailing** - This area is **under budget** by \$2,352 in February and is **under budget** by \$88,448 for the year. The under-run for February is being driven by lower Traditional Publications (down \$8.4K) and lower across all other projects (down \$0.6K). This is offset by higher Member Services (down \$1.9K) and higher Food and Nutrition Magazine (up \$4.7K).
- f. **Office Supplies and Equipment** – This area is **under budget** by \$3,460 in February and is **under budget** by \$16,930 for the year. The under-run in February is due to lower copy supplies (down \$1.6K), lower Public Policy (down \$0.7K) and lower across all other projects (down \$1.2K).
- g. **Rent and utilities** - This area is **over budget** by \$13 in February and is **under budget** by \$62,089 for the year. The over-run in February is due to higher maintenance costs associated with work done in Chicago (up \$1.7K) offset by lower costs within our new lease in Washington DC (down \$1.7K).
- h. **Telephone and communications** – This is **over budget** by \$1,039 in February and is **under budget** by \$2,764 for the year. The over-run in February is primarily due to the accounting reclassification for FNCE related costs.
- i. **Commissions** – This area is **over budget** by \$340 in February and is **over budget** by \$1,151 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. Since Advertising revenue was higher in February, the commission expense was higher in February
- j. **Computer Expenses** – This area is **under budget** by \$5,061 in February and is **under budget** by \$51,685 for the year. The under-run in February is due to lower web hosting costs. This could be an issue with a missing bill and will be re-evaluated before going final.
- k. **Advertising and Promotion** – This area is **over budget** by \$1,989 in February and is **under budget** by \$43,796 for the year. The over-run in February is primarily due to NCM marketing materials.
- l. **Insurance** – This area is **under budget** by \$534 in February and is **under budget** by \$7,133 for the year. The under-run in February is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** by \$2,372 in February and is **over budget** by \$253 for the year. The under-run in February is due to the continued evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized. The new web site was delayed, which will delay the recognition of the depreciation in FY15. This is driving the lower costs in February and should have an impact for the remainder of the fiscal year.

- n. **Bank and trust fees** – This area is **over budget** by \$1,716 in February and is **over budget** by \$11,611 for the year. The over-run in February is due to higher credit cards fees.
- o. **Other** – This area is **over budget** by \$30,092 in February and **under budget** \$49,120 for the year. The majority of the over-run in February is due to two items; the expectation that the DPGs would provide funding that did not materialize for Quality Management (down \$13.8K) and FNCE accounting reclassifications (up \$16.0K). There are additional minor changes in other areas, but, it amounts to approximately \$0.3K. The FNCE reclassifications are shifts between categories as the accounting team “cleans” up the books at the quarter close.
- p. **Expense allocation** – This area is **unfavorable to budget** by \$6,979 in February and is **unfavorable to budget** by \$51,655 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.
- q. **Meeting services** – This area is **under budget** by \$20,469 in February and is **under budget** by \$160,459 for the year. The under-run in February is primarily due to accounting reclassification's of FNCE related costs (down \$29.3K), lower Professional Development (down \$1.0K) and lower across all other projects (down \$1.0K). This is offset by higher Quality Management (up \$10.8K).
- r. **Legal and Audit** – This area is **under budget** by \$230 in February and is **under budget** by \$15,804 for the year. The under-run in February is due to lower legal expenses.
- s. **Printing** – This area is **over budget** by \$2,688 in February and is **over budget** by \$14,482 for the year. The over-run in February is due higher Office Services costs (up \$1.7K) and higher across all other areas of the business (up \$1.0K).

Overall, a good month for the Academy. We are still experiencing the under-runs in revenue. These will continue. However, the staff is dedicated to reducing expenses wherever possible. We are now rounding the final corner and heading towards home. It is good to do so with both an Operating deficit and Net Deficit smaller than the budget.

I will once again stop here and provide the remaining information tomorrow. Maria will have been out of the office this week. So, either Christian or I will get everything posted to the portal (I hope!). In addition, you should receive a webinar invitation this afternoon. If you have any questions, please let me know and look for my e-mail tomorrow to address the rest of the story.

Paul

Attached is the agenda for tomorrow's joint conference call. I asked the members who organized the #RepealtheSeal petition to share their perspective. The plan is to hear them, but not engage in dialogue. Attached is an FAQ document as well as options to consider as we deliberate the next steps.

Mary Beth, Doris and I spoke with David Mitchell a principal from GMMB, a strategic communications and risk management firm. He is unable to join us on the call, however, his counsel is reflected in the options presented.

If you are calling in and not using WebEx, please email mwhalen@eatright.org to indicate you have a question or comment.

Sincerely,

Patricia M. Babjak

Subject: On Behalf of Sonja Connor: CEO Evaluation Survey

Importance: High

Sensitivity: Confidential

TO: Academy Board of Directors

FROM: Sonja Connor

One of our Board responsibilities is to annually evaluate the CEO's performance. As you know, we have a new CEO performance evaluation form this year. It is time for us Board members to complete section II of the evaluation - Competency Evaluation. It is available on survey monkey. Prior to doing the evaluation, take a look at Board agendas, general communications to the Board, CEO summary reports in Board meeting packets, executive session discussions with Pat as well as minutes from our Board meetings.

Please complete the questionnaire by Friday, March 20. The Compensation Committee will summarize the responses, provide you with a summary report and recommendation regarding the CEO base salary for 2015-16 that will be discussed and voted on during the Executive Session of the May Board meeting.

Thank you for participating!

TO BEGIN THE SURVEY click or copy this link into your browser:

<https://www.surveymonkey.com/s/C9PW9QS>

The survey does not need to be completed in one sitting. If you wish to exit the survey and return to complete it later, please feel free to do so. Prior to the deadline, you will be able to log back in and resume the survey from where you left off by using the link above, which is unique to you.

If you have any questions about the evaluation, please contact me or Carolyn Patterson at cpatterson@eatright.org.

Thank you!

Sonja

March 18, 2015

Quick Links: [On the Pulse of Public Policy](#) | [CPE Corner](#) | [Career Resources](#) | [Research Briefs](#)
[Academy Member Updates](#) | [Philanthropy, Awards and Grants](#)

ON THE PULSE OF PUBLIC POLICY

Registration Is Open for 2015 Public Policy Workshop

The Academy will host the world's largest food and nutrition advocacy summit - the annual Public Policy Workshop - June 7 to 9 in Washington, D.C. Nearly 500 members will attend and registration is now open. PPW offers top nutrition leadership and communications training, professional connections with nutrition experts and face-to-face conversations with members of Congress. Dont miss out on early-bird registration discounts and group rates.

Academy Member to Receive Award for Grassroots Excellence

Barbara Hoffstein, RD, LD, an Academy member from Maryland, has been named the winner of the 2015 Award for Grassroots Excellence, the Academy's top award for nutrition advocacy. Hoffstein's work in public policy and her leadership in the Maryland Academy of Nutrition and Dietetics affiliate were cited in her nomination by her affiliate. Hoffstein has educated and involved members from across Maryland to be active and visible participants in statewide initiatives to improve health. She is a fixture at the Maryland Statehouse, testifying for continued dietetic licensure and increasing the strength of the state's licensing board; and has worked to meet Maryland's public policy goals by developing a working relationship with legislators and the state insurance commission. Hoffstein will be recognized for her achievements during the Public Policy Workshop in June.

ANDPAC Announces Public Policy Leadership Award Recipients

U.S. Senator Susan Collins (Maine) and U.S. Representative Collin Peterson (Minn.) will receive the Academy's 2015 Public Policy Leadership Award at the Public Policy Workshop. These members of Congress were nominated by their respective Academy affiliates for their leadership and support for nutrition and health issues of importance to the Academy. They are outstanding leaders who have worked with the Academy to reach mutual goals.

Academy Leader Testifies at House Appropriations Committee

Academy member Angela Tagtow, MS, RD, executive director of the U.S. Department of Agriculture's Center for Nutrition Policy and Promotion, testified recently before the House of Representatives' Appropriations Committee on the process that resulted in the Dietary Guidelines for Americans Advisory Committee's scientific report. One of CNPP's main functions is writing the *Dietary Guidelines for Americans*. Tagtow highlighted the reports findings and dietary patterns of Americans over time. The hearing focused on the budget for CNPP and USDA's Food and Nutrition Service, which included a discussion of school meals, WIC and SNAP.

Older Americans Act Re-authorization Awaits Older Americans Month

Re-authorization of the Older Americans Act has been delayed in the Senate, likely until May, which is Older Americans Month. The Older Americans Re-authorization Act of 2015 (S. 192) passed the Senate HELP committee on January 28 and would fund programs for older Americans for three years. The bill language builds on S. 1562, sponsored by Sen. Bernie Sanders (Vt.) in the 113th Congress, which the Academy supported. The bill updates the language of the Older Americans Act to reflect the "utilization" of dietitians in nutrition programs and also encourages the use of locally grown fresh foods in nutrition programs. The Academy continues to support the Older Americans Act and encourages members to reach out to their legislators to support this important piece of legislation. Updated resources are available on the Academy's website.

New Diabetes Prevention Initiative

The American Medical Association and Centers for Disease Control and Prevention recently announced the launch of a new initiative and website called "Prevent Diabetes STAT: Screen, Test, Act-Today." The goal is to raise awareness about prediabetes and the CDC's evidence-based diabetes prevention program. The first phase of the initiative focuses on providing physicians and care teams with easy-to-use tools and resources so that they can identify individuals with prediabetes and refer them to diabetes prevention programs. AMA and CDC have co-developed a toolkit to assist in this effort, which is available online. The Academy works with the AMA and CDC on the Diabetes Advocacy Alliance, of which the Academy is a co-chair.

USDA Awards Grants to Support Schools Serving Healthy Meals and Snacks

The U.S. Department of Agriculture will award more than \$30 million in grants to help schools prepare healthy meals for children. Twenty-five million dollars in grants will help schools purchase needed equipment to make preparing and serving healthier meals easier and more efficient and up to \$5.5 million in competitive grants will provide additional training for school foodservice

professionals. The competitive grants focus on implementation of Smarter Lunchrooms an innovative strategy using behavioral economics to encourage healthy eating in the cafeteria as well as the healthier meal standards, HealthierUS School Challenge, USDA Foods, nutrition education and wellness activities in schools and child care institutions. These funds may be also used to assist the state agency in providing training and technical assistance to school staff in creating Smarter Lunchrooms.

CPE CORNER

'Promoting and Supporting Breastfeeding': Updated Position Paper, New Practice Paper

The Academy's updated position paper "Promoting and Supporting Breastfeeding" has been published in the March *Journal of the Academy of Nutrition and Dietetics*. In addition, the abstract for a new practice paper with the same title is publicly available and the entire practice paper is on the Academy's member website. The practice paper offers 1 free CPE opportunity for Academy members. It is the position of the Academy of Nutrition and Dietetics that exclusive breastfeeding provides optimal nutrition and health protection for the first 6 months of life, and that breastfeeding with complementary foods from 6 months until at least 12 months of age is the ideal feeding pattern for infants. Breastfeeding is an important public health strategy for improving infant and child morbidity and mortality, improving maternal morbidity, and helping to control health care costs.

New Studies Highlight Food Insecurity among Older Adults

Two new studies released by the AARP Foundation highlight the magnitude of food insecurity in the U.S., as well as barriers and challenges to healthy eating faced by the low-income, 50 and older population. The two studies, "Food Insecurity among Older Adults," and "Findings on Nutrition Knowledge and Food Insecurity among Older Adults," find that food insecurity is most

widespread among lowest-income groups, with the South having the highest rates of food insecurity by region. The AARP Foundation and the Academy are both National Strategic Partners of the U.S. Department of Agriculture's Center for Nutrition Policy and Promotion.

Study Says Students Eat More Fruit, Throw Away Less Food with New Healthier School Lunches

New data from the Rudd Center for Food Policy & Obesity, published in *Childhood Obesity* provides good news about school lunches. The study, "New School Meal Regulations Increase Fruit Consumption and Do Not Increase Total Plate Waste," found that more students are choosing fruit since the updated standards went into effect. The percentage of students choosing fruit for lunch increased from 54 percent in 2012 to 66 percent in 2014. The study also found the amount of fruit students consume has remained stable over the three-year period. Students ate 74 percent of the fruit they selected for lunch. And fewer students chose a vegetable (68 percent in 2012 compared with 52 percent in 2014), but the percentage of vegetables they consumed increased by nearly 20 percent, which effectively decreased the amount of vegetables thrown away. Students consumed more of their lunch entrées (up from 71 percent of their entrée in 2012 to 84 percent in 2014), also decreasing food waste.

ACADEMY MEMBER UPDATES

Follow National Nutrition Month on Facebook

Get the latest news and updates, plus share what you're doing in celebration of National Nutrition Month on Facebook. The Academy will highlight resources and tools to help you plan an event, request a proclamation, share healthy eating messaging and more. If you prefer Twitter, check out @eatright and search the official #NNM hashtag.

Administration on Community Living Celebrates National Nutrition Month

The Administration on Community Living announced its celebration of National Nutrition Month, highlighting the importance of proper nutrition in promoting wellness. In its announcement, ACL shared the story of a 94-year-old participant in the congregate dining program. This year marks the 50th anniversary of the Older Americans Act, which is awaiting reauthorization in Congress and funds numerous effective programs conducted by and employing registered dietitian nutritionists and dietetic technicians, registered. ACL provides funds for more than 273 million home-delivered meals, 170 million congregate meals and nutrition education to nearly 2.5 million people.

Article Features Malnutrition Alliance and Academy

The Alliance to Advance Patient Nutrition was cited in a March 11 *Huffington Post* article on the growing problem of malnutrition in older Americans. The Alliance's interdisciplinary model was cited as important to address malnutrition in hospitals. The article highlighted the dire impact of malnutrition, with one in three older adults being malnourished upon hospital admission. Solutions to the malnutrition crisis include actions at the hospital-provider level, at the consumer level, and at all levels of government. The Academy co-hosted a webinar in January for the 2015 White House

Conference on Aging with the National Association of Nutrition and Aging Service Programs and Abbott Nutrition, and continues to collaborate on addressing this important issue.

Renew Your Academy Membership

Now is the time to renew your Academy membership and remain a part of the world's largest organization of food and nutrition experts. Renewing your 2015-2016 membership is easy: You can renew online, by phone at 800/877-1600, ext. 5000 (Monday through Friday, 8 a.m. to 5 p.m. Central Time) or by mail with the application materials you will receive this month.

April 6 Application Deadline: National Nutrition Month Student Awards

The 2015 National Nutrition Month Student Award program recognizes local student dietetics associations and clubs that support the mission and vision of the Academy by organizing events during March. Once you've hosted an event, apply for the NNM Student Award program and you'll be eligible to win an award. The deadline to apply is April 6. Email students@eatright.org with questions.

[Learn More](#)

April 7: World Health Day

In commemoration of World Health Day on April 7, the Partnership for Food Safety Education is collecting stories as part of a social media campaign. The theme for World Health Day 2015 is food safety; stories will demonstrate the impact of health and food safety educators on the health of families around the world. The Academy is a board member of the Partnership for Food Safety Education and members are encouraged to submit stories, photos or answers by March 27. Email submissions to ashley@fightbac.org.

April 8 Deadline: Comments on Report of Dietary Guidelines Advisory Committee

The scientific report of the 2015 Dietary Guidelines Advisory Committee has been issued, and public comments are being accepted through April 8. Make your voice heard in the development of the next *Dietary Guidelines for Americans*.

Students: Promote Academy Membership and Win

Help the Academy grow by participating in the 2015 Promoter Program: Share the value of membership with friends and colleagues. The more new members you recruit by September 1, the better your chances are of winning a free Academy membership for 2016-2017. To get Promoter credit, make sure your recruit enters your name in the Did someone recommend Academy membership to you? section of the 2015-2016 membership application. Email membership@eatright.org with questions.

PHILANTHROPY, AWARDS AND GRANTS

For National Nutrition Month: Make a Tribute Gift to Foundation

Honor a mentor or remember a colleague during National Nutrition Month while making a gift to the Foundations Annual Fund. This is a great way to recognize special people who make a

difference in your life while making an important investment in the future of the nutrition and dietetics profession. Your friend, colleague or loved ones family will be notified of your thoughtfulness through a personalized acknowledgement card. To donate to the Tribute Gift Program, contact Martha Ontiveros at 312/899-4773 or montiveros@eatright.org. See the Foundation's impact on the profession.

[Learn More](#)

March 19 Application Deadline: Foundation Scholarships

The Foundation is committed to providing scholarships to dietetics students at all levels of study. Scholarships are funded by individual donors, state and regional affiliates, dietetic practice groups and Academy partners including Colgate-Palmolive Company, Commission on Dietetic Registration, ConAgra Foods, ILSI North America, New Jersey Dietetic Association and Mead Johnson Nutrition. The application has been upgraded and is now an online process. Learn more and view a list of 2014 Scholarship recipients. Email Beth Labrador with questions.

April 1 Application Deadline: Jean Hankin Nutritional Epidemiology Research Grant

This \$10,000 grant provides support to a doctoral student working on a dissertation in the area of nutritional epidemiology.

[Learn More](#)

Application Deadline Extended to April 1: Pittsburgh Dietetic Association Leadership Development Award

This award was established to recognize emerging leaders among current graduates of supervised practice programs and encourage their participation in Academy activities. The award will cover expenses up to \$1,000 for one qualified applicant to attend the Food & Nutrition Conference & Expo. Applicants must be a resident of Pennsylvania or a student or graduate of a Pennsylvania program.

[Learn More](#)

Application Deadline Extended to April 1: Barbara Ann F. Hughes NEP DPG Continuing Education Award

This \$1,000 award provides educational stipends for nutrition professionals on the subjects of policy initiatives, advocacy and private practice. Preference is given to members of Nutrition Education for the Public dietetic practice group.

[Learn More](#)

Application Deadline Extended to April 1: Food and Culinary Professionals DPG Communication and Education Fund

The Food and Culinary Professionals dietetic practice group created this fund to support lectureships and to provide awards that support individuals with an interest in the mission of FCP in their participation in culinary learning educational experiences.

To: Paul Mifsud

Subject: Re: Update on the financial package

Paul, I have just taken a quick look through the deck. So far we need to correct a typo on Slide 6 "exceed" not "exeed".

I also think we need to restate Slide 7 where we talk about continued growth in eNCPT sales sets a strong foundation for FY16 revenue. We just said that it was falling short for revenue, so I assume that we have seen a strong increase in sales recently, that will make us more optimistic for the future. If that is correct, we probably need to word it a little differently so we don't confuse people. I hope this gets the boards attention!

So far, these are the only questions or concerns that I have.
I hope this gets the boards attention!

As you know in the BOD Plan of Work one of the STRATEGIC PRIORITIES is to “*Develop key relationships with own Congressional representatives in the role of an Academy leader.*”

Here is a great opportunity to execute this priority to be recognized by your member of Congress as a nutrition leader in their district. The Congressional Diabetes Caucus leadership is seeking support for a “Dear Colleague” letter, from members of their Congressional Diabetes Caucus to support funding in diabetes research and prevention programs at NIH and CDC. The deadline for members of Congress to sign-on is **Friday, March 20th**. Can you send the following email to your member of this important caucus? The list of the caucus member is attached with the staff contact information. The letter is also included.

Suggested language for the request:

Dear (STAFF NAME),

As an elected member of the Academy of Nutrition and Dietetics Board of Directors, I am proud that you as my Congressman/Congresswoman XXX is a member of the Congressional Diabetes Caucus. I appreciate his/her being a champion of diabetes research and prevention. These efforts help prevent this disease which research has indicated the stress on families and individuals with diabetes. With nearly 30 million people diagnosed with diabetes, and an additional 86 million with prediabetes, it is important to invest in finding the evidence-based practices, such as medical nutrition therapy, which can prevent this costly disease.

It is important that the caucus has a strong showing on this to other members of Congress during this budget time. Would you ask that XXX signs on and shows his/her support for fully funding diabetes research and prevention in the Fiscal Year 2016 budget?

Thank you for your consideration, and please let me know if you have any questions. And please feel free to contact on any nutrition questions you might have regarding nutrition services and programs for your constituents. I would be glad to be a resource for you.

Sincerely,

ACADEMY BOD MEMBER NAME

Connect with the Academy:

Message from Academy CEO on Kids Eat Right Collaboration

March 17, 2015

To all members of the Academy of Nutrition and Dietetics:

Let me begin by apologizing for the concerns caused by the education initiative with Kraft. The Academy and the Foundation are listening. As a member-driven organization, the Academy's staff and leadership hear your concerns and welcome your input.

Unfortunately, recent news articles misstated a collaboration as a Kids Eat Right "endorsement" of Kraft Singles, and that it represents a "seal of approval" from Kids Eat Right, the Foundation, or the Academy. It is not an endorsement. It is not a seal of approval. We understand this distinction is of little consequence to many Academy members who are concerned with the perception. We are working on a solution.

In addition, we are working to establish a joint, member-driven Member Advisory Panel. This Panel will work closely with both Boards to:

- Establish dialogue with members
- Gather input and give feedback on member issues
- Make specific recommendations

Recognizing sponsorship as a significant issue of concern among members, the House of Delegates leadership team, who also serve on the Board of Directors, scheduled a dialogue on sponsorship for the upcoming virtual House of Delegates meeting, May 3. We encourage all members to reach out to your delegates and share your thoughts on the benefits of, concerns about and suggestions for the sponsorship program. The Academy and Foundation Boards are looking forward to your input.

Thank you very much!

Sincerely,

Patricia M. Babjak
Chief Executive Officer
Academy of Nutrition and Dietetics

Attachment: [image003.jpg](#)

Each year the Board uses a self-assessment tool developed by BoardSource to evaluate and improve its effectiveness as a governing board. The assessment is utilized by the Board to evaluate our strengths and challenges and by the Executive Team to strengthen operational processes. The tool is also helpful in familiarizing Board members about expected responsibilities, in planning meeting agendas, and identifying topics for the Board orientation and retreat meetings.

Tomorrow you will receive the online questionnaire **directly from BoardSource** from their e-mail address, assessments@boardsource.org. Your individual responses are tabulated by BoardSource and are kept confidential; only aggregate results are provided. Marla Bobowick, senior governance consultant with BoardSource, will again attend our Board meeting in May to facilitate the discussion about the results.

Please let me know if you have any questions. Thank you for your input!

>>>Tom Ryan <Tryan@eatright.org> 3/17/2015 3:18 PM >>>

Hi, Donna: We are updating the biographical paragraphs of 2015-2016 Board members for publication in the June *Journal*. Below is the text we prepared for you based on last year's paragraph. Could you please review this and let us know if it is OK, or if any edits are needed, which we are glad to make. If possible, could you get back to us by Monday, March 23?

Thank you very much! Please let us know if you have questions or need any more information.

Tom

Donna S. Martin, EdS, RDN, LD, SNS, FAND, Augusta, GA, Past Treasurer

Martin is director of the Burke County (GA) school nutrition program, which has 4,500 students in five schools, serving breakfast, lunch, after-school snacks, and supper. Four of the schools have been acknowledged as HealthierUS School Challenge Gold winners. Martin has received honors and awards including Recognized Young Dietitian of the Year and the Outstanding Dietitian of the Year from the Georgia Dietetic Association, **the Excellence in Practice Award from the School Nutrition Services Dietetic Practice Group**, and the Academy Foundation's 2007 Judy Ford Stokes Award for Innovation in Administrative Dietetics. An active member of the Academy's School Nutrition Services DPG, Martin was the group's electronic communications chair and newsletter editor. She represented the Georgia Dietetic Association in the Academy's House of Delegates, is a member of the School Nutrition Association Foundation's board of directors, and served on the Georgia Department of Education's Task Force on Nutrition Standards for School Nutrition Programs. She served as the Academy's treasurer-elect in 2012-2013 **and the Academy's Treasurer in 2013-2015**. Martin is a graduate of the University of Georgia, and earned a master's degree from the University of Alabama–Birmingham and an education specialist degree from Augusta State University.

[Message to members.pdf](#)

Thank you very much for your feedback on the draft letter. Based on the recommendation of a crisis and risk consultant, and feedback from Sonja and Terri, attached is a shorter letter, which will come from me to all members today. Again, I reiterate, the goal is assuring our members that

we are not only listening, but responding with actionable solutions.

As a result of the discussion with the risk consultant, we are proposing to engage members through a webinar, at Nutrition News Forecast, Spring House of Delegates and affiliate meetings. Our goal is to let members and external groups know that we hear them and we want to engage in a civil discourse.

The House Leadership Team proactively scheduled the sponsorship discussion at the May House of Delegates virtual meeting and we are encouraging all members to reach out to delegates to obtain perspectives. The Board appointed sponsorship taskforce, which included a variety of perspectives regarding sponsorship, is presenting its recommendations to delegates for input and feedback.

Confidential: We propose establishing a new member advisory panel comprised of the three principal members who started the change.org petition: Rachel Begun, Kate Geagan, and Regan Jones, all members and RDNs. These three individuals are thoughtful and respected members of the Academy who are known to think critically. The result of using this panel is putting power back into member hands to help restore trust as we drive for transparency and civil discourse. We had a very positive conversation with them and hope to have an answer from them tomorrow; for that reason the member communication does not identify the group by name.

We have also reached out to Kraft for a retraction, to legal counsel for our options, and to a strategic communications crisis management firm. We will discuss all of these items during our conference call on Thursday.

Sincerely,

Patricia M. Babjak

Attached is a draft message we are sending to our members reflecting the issues raised in emails and social media related to the Kraft education initiative as soon as we receive approval from Terri. We will be posting it to the eatrightPRO landing page, all listservs, including those of committees and task forces. A link to this communication will also appear in this week's *Eat Right Weekly*.

Best regards,

Pat

I have heard back from everyone on the review committee and Friday works for everyone.

Please let me know if you are available on **Friday, March 27th** at 2 pm (central time) for the Corporate Award Review Committee conference call.

I will send out the materials on the companies that will be discussed in the call later this week.

Thank you,

Amy Donatell

From: Terri Raymond, MA, RDN, CD, FAND

Re: 2015 Corporate Award Committee

One of my responsibilities as Foundation Chair is to appoint a committee to select the 2015 recipient of the prestigious Academy of Nutrition and Dietetics Foundation Corporate Award. The Corporate Award is given to an organization that has demonstrated meaningful support to Foundation programs and projects. The award is presented each year at the Foundation's Gala during the Academy's Food & Nutrition Conference & Expo.

I am requesting your service on this committee. As a committee member, you are responsible for reviewing four prospective organizations and participating in a discussion during a conference call to select a candidate for approval by the Academy Foundation Board of Directors. Prior to the conference call you will receive a copy of the Corporate Award criteria and prospect list.

Please let Amy Donatell know if you are able to serve on the committee and which potential conference call dates will work for you by Thursday, March 19th. Amy can be reached at adonatell@eatright.org. If you have any questions or need additional information, please contact Amy at 800-877-1600 x4767. Thank you for your consideration.

Conference Call Availability – all times are Central Standard Time. Please indicate when you are available:

[Kraft NYT BOD talking points 3-15 3.docx](#)

Attached is a comprehensive list of talking points for you to use in responding to inquiries. These will be disseminated to staff directors to share with their member leader groups after Kraft reviews them, as per our agreement. A template response is also attached for your use.

Sonja's March all member video which included information about the collaboration with Kraft received over 3,367 unique plays.

On the flip side, one agency and two current sponsors have reached out to us to inquire about the criteria for use of the logo on-package. The agency contact represents several product lines that she felt would be very interested.

Sincerely,

Patricia M. Babjak

Dear Donna,

Take your career by the reins in 2015: Join me at the Academys Public Policy Workshop, June 7 - 9 in Washington, D.C.

PPW is the worlds largest food and nutrition policy and advocacy summit, where Academy members and nutrition professionals have the opportunity to advocate for the health of the nation. This year, PPW will feature:

- Unmatched leadership training
- Professional connections with leaders in the field
- Face-to-face dialogue with your members of Congress
- Skills that will launch your career beyond PPW.

Join 500 of your fellow RDNs and DTRs: Stand up for important health issues affecting the nation and our profession.

Discounts are available for students and groups consisting of three or more people.

Register for PPW 2015 Today!

See you at PPW 2015!

Subject: New York Times Article - March 12, 2015
Attachment: [image005.jpg](#)
[image006.jpg](#)

To the Academy and the Academy Foundation Boards of Directors:

You have probably read or heard about an article that was published Thursday, March 12, on the *New York Times* 'Well' blog, concerning the Kids Eat Right/Kraft Singles "Cheesyfacts" collaboration. The article, written by a reporter who has criticized the Academy in the past about

issues of corporate sponsorship, contains numerous factual errors. We are working with Kraft and its public relations agency Ketchum to identify the source of these errors and, more importantly, to obtain a correction or retraction of the story by the *Times*.

The article incorrectly states that Kraft has become the first company to “earn a nutrition seal” from the Academy. It also quotes two Academy members – who have also been critical of our corporate sponsorship program – as calling the collaboration an endorsement by the Academy of Kraft and its products. The article states: “*Kraft itself told The Times it was the first time the academy was endorsing a product.*”

The article did accurately quote Mary Beth Whalen as saying the program does not constitute an endorsement:

But the academy emphatically denied that the label was an endorsement. “The Kids Eat Right logo on Kraft Singles packaging identifies the brand as a proud supporter of Kids Eat Right,” Mary Beth Whalen, the academy foundation’s executive director, said in an email statement. “It also serves to drive broader visibility to KidsEatRight.org, a trusted educational resource for consumers.”

We are in communication with Kraft and Ketchum to determine how information that contradicts every key point, message and Q&A that we have developed for this program made its way into the article. We have informed Kraft and Ketchum in the strongest terms that their top priority must be to obtain a correction or retraction of the article from the *Times*.

The Academy and Kraft are developing a press release and other communications that will reinforce and clarify the Academy’s non-endorsement policy. This release will be distributed to the news media and posted on the Academy’s website and social media outlets.

We are also contacting media outlets who are following up on this story to tell them the *Times* story is not accurate, that there is no endorsement, and to give them the facts about the collaboration.

Please remember and refer to the key talking points that you approved as part of the Kraft project:

- The Academy does not endorse any products, brands or services.
- All of the content on KidsEatRight.org/CheesyFacts will be authored by registered dietitian nutritionists and the bylines will reflect that.

· The Academy maintains the same level of review of this content as all other Kids Eat Right website pages. The recipes will also be clearly identified as sponsored recipes. It will be clearly stated that the Academy does not endorse products or services; and at the bottom of the recipe a statement and link to eatrightPRO to learn more about the collaboration is included.

It is important to note that the actual language on the package merely identifies Kraft Singles as a Proud Supporter of Kids Eat Right (similar to the Heart Truth Campaign and NHLBI, Lids for Lives and Breast Cancer, etc.).

We will keep you posted on developments as they occur. Thank you very much.

Sincerely,

Patricia M. Babjak

Subject: 2015 Academy Spokespeople
Attachment: [image001.jpg](#)

Our Spokesperson appointments ensure that, as always, the Academy will be represented in the news media by RDNs who know and understand the media and are experts at conveying the Academy's healthful-eating messages in ways consumers can understand and use in their own lives. We look forward to another fantastic year of telling the Academy's great story to the world. Special thank you to Sonja, Evelyn and Glenna for reviewing all of the applications and selecting the final members who will serve as official Academy media Spokespeople.

Five registered dietitian nutritionists will serve three-year terms as Academy of Nutrition and Dietetics media Spokespeople from June 1, 2015, through May 31, 2018. We ask that you keep the names of the Academy's new Spokespeople confidential until they are officially announced in May.

Please join the Academy's Strategic Communications Team in congratulating these Spokespeople who are returning to the program:

- **Kristi King**, MPH, RDN, LD, CNSC, Houston, Texas

- **Angela Lemond**, RDN, CSP, LD, Dallas, Texas
- **Jennifer McDaniel**, MS, RDN, CSSD, LD, St. Louis, Mo.

Please welcome the Spokespeople who are joining the program this year:

- **Nancy Farrell**, MS, RDN, Fredricksburg, Va. (public policy and advocacy specialist). Nancy is a private-practice RDN providing individual assessment and counseling services as well as workplace-based group nutrition seminars and workshops. She is the state policy representative for the Virginia Academy of Nutrition and Dietetics and an adjunct professor at Germanna Community College and the University of Mary Washington. She will serve as ANDPAC's vice-chair in 2015-2016.
- **Kristen Gradney**, RD, LDN, Baton Rouge, La. Kristen is the manager of nutrition services at Woman's Center for Wellness and a former clinical nutrition manager at Our Lady of the Lake Regional Medical Center. She is the state policy representative for the Louisiana Dietetic Association. Kristen specializes in meal planning, healthy shopping, family nutrition and disease management.

Finally, please join us in thanking Marisa Moore, MBA, RDN, LD, who will complete her nine-year service as a Spokesperson at the end of May. Marisa has made invaluable contributions to the Spokesperson program and the Academy, both of which are stronger than ever, due in large part to her service. We know Marisa will remain a valued member, colleague and friend.

Please do not hesitate to contact me with any questions. Thank you very much!

Best regards,

Doris Acosta

Re: 2015 Corporate Award Committee

One of my responsibilities as Foundation Chair is to appoint a committee to select the 2015 recipient of the prestigious Academy of Nutrition and Dietetics Foundation Corporate Award. The Corporate Award is given to an organization that has demonstrated meaningful support to Foundation programs and projects. The award is presented each year at the Foundation's Gala during the Academy's Food & Nutrition Conference & Expo.

I am requesting your service on this committee. As a committee member, you are responsible for reviewing four prospective organizations and participating in a discussion during a conference call to select a candidate for approval by the Academy Foundation Board of Directors. Prior to the conference call you will receive a copy of the Corporate Award criteria and prospect list.

Please let Amy Donatell know if you are able to serve on the committee and which potential conference call dates will work for you by Thursday, March 19th. Amy can be reached at adonatell@eatright.org. If you have any questions or need additional information, please contact Amy at 800-877-1600 x4767. Thank you for your consideration.

Conference Call Availability – all times are Central Standard Time. Please indicate when you are available:

Wednesday, March 25

____ 10 am ____ 1 pm

____ 11 am ____ 2 pm

____ 12 pm ____ 3 pm

Friday, March 27

Date: February 20, 2015

To: Board of Directors, Academy of Nutrition and Dietetics

From: Elise Smith, MA, RDN, LD,
FAND, House of Delegates Speaker, 2014-2015

Subject: Spring 2015 HOD Meeting Invitation and Agenda

Invitation to Participate in the Spring HOD Meeting

§ The House Leadership Team and I would like to extend an invitation to you as an Academy of Nutrition and Dietetics Board of Director member to participate in the Spring 2015 HOD Virtual Meeting on May 2 and May 3, 2015. The mega issue for the Spring 2015 HOD Meeting is “Engaging Members in the Need to Address Malnutrition across Nutrition and Dietetic Practice Settings.”

§ In addition, a current membership issue discussion on the Academy’s Corporate Sponsorship Program will be conducted on the second day of the meeting.

§ Participation in House of Delegates meetings provides an excellent opportunity for leadership development, and your presence at the meeting helps to enrich our mega issue discussion.

§ The **agenda, backgrounder, executive summary, and fact sheet for the meeting** are located on the House of Delegates website –

<http://www.eatrightpro.org/resources/leadership/house-of-delegates/about-hod-meetings> >Spring 2015 Meeting Materials.

Overview of the Spring House of Delegates Meeting

§ Meeting location: The Spring 2015 HOD Meeting will be conducted virtually using WebEx for the webinar portion and two conference call numbers for the audio portion, one for meeting as a large group and one for meeting in your small, virtual tables.

§ Dialogue topic:

- **Saturday, May 2: *Engaging Members in the Need to Address Malnutrition across Nutrition and Dietetic Practice Settings***

- **Sunday, May 3: *Current Membership Issue Discussion- Academy’s Corporate Sponsorship Program***

§ The meeting will run from 12:00 pm-4:00 pm CT on both days, for a total of 8 hours of required participation.

§ In order to participate in the Spring 2015 HOD Meeting, Board of Directors are expected to read the backgrounder and attend both days of the meeting.

§ CPEUs will be provided to meeting participants for attending the meeting.

§ A final copy of the agenda will be distributed electronically to all meeting attendees in advance of the meeting.

§ Please confirm your ability to participate in the Spring 2015 HOD Meeting as a Board of Director member by contacting the HOD Governance Team at hod@eatright.org by March 13, 2015.

For More Information or Assistance

Contact Elise Smith (easaden@aol.com), or Cecily Byrne (cbyrne@eatright.org | 800/877-1600 ext 4819).

ON THE PULSE OF PUBLIC POLICY

PPW 2015 Discounts Available for Early Birds, Students and Groups

Attend the Academy's 2015 Public Policy Workshop, the world's largest food and nutrition policy and advocacy summit. Join 500 of your fellow registered dietitian nutritionists and dietetic technicians, registered to stand up for important health issues affecting the nation and the profession. This year, PPW will focus on effective communications training that will help you on the job and on Capitol Hill. Discounts are available for students and groups consisting of three or more people. Register now, because space is limited.

[Learn More](#)

Academy Supports Research Efforts of Office of Dietary Supplements

The Academy offered support to the National Institutes of Health's Office of Dietary Supplements for its work implementing the goals of ODS's Strategic Plan. Continued research and training by ODS to expand the scientific knowledge base, combined with the expertise of dietetics practitioners, is necessary to help educate consumers on safe and appropriate selection and use of dietary supplements. ODS conducts and facilitates significant research on the safety and efficacy of herbal and botanical dietary supplements, and provides training for numerous researchers, including many Academy members.

National Diabetes Clinical Care Commission Act Re-Introduced in Congress

The National Diabetes Clinical Care Commission Act has been re-introduced in the Senate and

the House. Sens. Jeanne Shaheen (N.H.) and Susan Collins (Maine) introduced S. 586 and Reps. Pete Olson (Texas) and David Loebsack (Iowa) introduced H.R. 1192, an identical bill, in the House. This bipartisan legislation, supported by leadership in the Diabetes Caucus, has 53 co-sponsors in the House and 15 co-sponsors in the Senate. The Academy supports the National Diabetes Clinical Care Commission Act and its goal to improve care for people with diabetes and pre-diabetes. Academy members understand prevention is key to improving health outcomes, highlighting the importance of increasing patient access to medical nutrition therapy provided by registered dietitian nutritionists. The Commission will facilitate collaboration among registered dietitian nutritionists and other experts across federal agencies to ensure patients have access to effective, coordinated care for better health.

Senators Introduce Bill to Improve School Kitchen Equipment

Senators Heidi Heitkamp (N.D.) and Susan Collins (Maine) have introduced the School Food Modernization Act, which would provide schools with resources to serve healthy school meals by authorizing grants and U.S. Department of Agriculture-backed loans for school kitchen equipment and infrastructure needs, and by providing additional support for training and technical assistance. Academy member Karen Ehrens, RD, LD, past chair of the Legislative and Public Policy Committee, has been a strong advocate in North Dakota, and works closely with Sen. Heitkamp on this and other important nutrition issues.

Legislators Introduce Bill to Expand the Reach of Farm to School Grants

Senators Patrick Leahy (Vt.) and Thad Cochran (Miss.) and Representatives Marcia Fudge (Ohio) and Jeff Fortenberry (Neb.) have introduced the Farm to School Act of 2015. The bill will expand the reach of the Farm to School program into tribal areas and all child nutrition programs. Academy members continue to be leaders and champions of Farm to School programs throughout the country.

Updated Online Certificate of Training Program: Chronic Kidney Disease Nutrition Management

Registered dietitian nutritionists play a pivotal role in the management of chronic kidney disease by enhancing self-management in patients and educating other health professionals. To prepare members in this area, the Academy's Center for Professional Development and the National Kidney Disease Education Program have updated the Chronic Kidney Disease Nutrition Management online certificate of training program. It includes the most recent population data

from USRDS and NHANES and recently revised recommendations for sodium intake and blood pressure control.

RESEARCH BRIEFS

Study Shows Positive Effect of Lifestyle Interventions on Gestational Diabetes

The Endocrine Society's *Journal of Clinical Endocrinology & Metabolism* has published results of the study on the Diabetes Prevention Program Outcomes Study and its effect in delaying diabetes among women with and without gestational diabetes. The study found women who had been diagnosed with gestational diabetes and underwent intensive lifestyle intervention had a 35 percent reduction in their risk of developing Type 2 diabetes. The Endocrine Society works with the Academy in the Diabetes Advocacy Alliance, of which the Academy is a co-chair.

More Than a Meal Pilot Research Study Published

Meals on Wheels America released the results of a randomized control trial that investigated the impact of home-delivered meals on older adults beyond the nutritional components. The study found those who receive or request Meals on Wheels services are significantly more vulnerable than average older Americans. Also, individuals receiving daily delivered meals experience the greatest improvements in health and quality of life. The Academy continues to support the re-authorization of the Older Americans Act nutrition programs, which provides funding for these effective and critically important home-delivered meals and other senior nutrition programs.

Disorders of Lipid Metabolism Toolkit (2nd ed.)

Implement the DLM evidence-based nutrition practice guidelines into your daily practice with the assistance of this new toolkit.

ACADEMY MEMBER UPDATES

Accomplishments and Initiatives Highlighted in Presidents Video Message to Members

From National Nutrition Month to the Academy's new and redesigned websites to an exciting collaboration that will extend the reach and influence of the Kids Eat Right initiative, Academy President Sonja L. Connor, MS, RDN, LD, FAND, reports on recent accomplishments and initiatives in a new video message to Academy members.

[Learn More](#)

RDN Day and Contest Winner Highlighted in Times Square

In celebration of National Nutrition Month and Registered Dietitian Nutritionist Day, Academy members were asked to share their most meaningful advice in providing health and nutrition services as an RDN: "What's the best way to 'Bite into a Healthy Lifestyle'?" Of more than 270 thoughtful and inspirational testimonials from members that confirm and support the value of RDNs' services, the winner of the third annual Registered Dietitian Nutritionist Day contest is Adam Burda, MS, RDN, LD, from West Virginia University. Read his winning submission and see his photo that will appear on an electronic banner above New York City's Times Square on March 11 - Registered Dietitian Nutritionist Day. Thanks and congratulations to Adam Burda and to all registered dietitian nutritionists for everything you do to help improve the health of Americans through food and nutrition.

Follow National Nutrition Month on Facebook

Get the latest news and updates, plus share what you're doing in celebration of National Nutrition Month on Facebook. The Academy will highlight resources and tools to help you plan an event, request a proclamation, share healthy eating messaging and more. If you prefer Twitter, check out @eatright and search the official #NNM hashtag.

CMS Promotes MNT Benefit during National Nutrition Month

For the seventh consecutive year, the Centers for Medicare and Medicaid Services, in collaboration with the Academy, shared a message to providers during National Nutrition Month to promote the Medicare medical nutrition therapy benefit. The message encourages physicians to help Medicare patients live healthier lives in 2015 by encouraging the use of Medicare-covered nutrition-related services, including MNT.

[Learn More](#)

April 6 Application Deadline: National Nutrition Month Student Awards

The 2015 National Nutrition Month Student Award Program recognizes local student dietetics associations and clubs that support the mission and vision of the Academy by organizing events during March. Once you've hosted an event, apply for the NNM Student Award Program and you'll be eligible to win an award. The deadline to apply is April 6. Email students@eatright.org with questions.

Congratulations to our 2015 RDN Day Contest winner, Adam Burda of West Virginia University. When asked what's the best way to 'Bite into a Healthy Lifestyle,' Adam responded: The best way to bite into a healthier lifestyle is through balance. Whether it's balancing your caloric intake, balancing your physical activity, balancing your stress level or balancing your personal life, proper health requires a continual, multifactorial approach. Starting your day out with a balanced, nutrient dense meal, is the best way to ensure you are taking a balanced bite out of the day ahead of you.

[Learn more about Adams story here.](#)

Hi Donna:

Bertha pulled the information together. Here is the details for the releases. This may be more than you would want to report out but now you have the background.

Thanks,

CK

Subject: RE: Question for Foundation Conference Call

Christian, I agree that he needs a vacation and I am glad he is getting one. If you can access the information easily then that is fine, if not, that explanation would suffice. Thanks for your quick response.

Hi Donna –

I know Paul and his wife are having a good time because I am not getting too many emails or text messages from him. He really deserves a good vacation.

Regarding the transfer of money, as we recognize expenses every month, we move money from temp restricted to unrestricted to cover the costs. We will look up the details on the \$1,255,206 and send you a breakdown.

Thanks,

CK

Subject: Question for Foundation Conference Call

Christian, I know you are busy with Paul being gone, but can you answer one question for me please? I am working on my presentation for the Foundation Conference call next week. Do you know where the funds came from that we moved from temporarily restricted funds (\$1,255,206) to unrestricted funds? I wanted to be sure I could answer that for the board. I know we are allowed to do it, but I thought they might want to know what fund they came from. Hope things are not too hectic with him being gone, and I hope they are having a blast. Thanks!

Subject: Happy RDN Day!
Attachment:

To members of the Board of Directors:

Happy Registered Dietitian Nutritionist Day 2015! Today marks the tenth annual day when we acknowledge and celebrate the dedication of RDNs to improving the health of their patients and clients.

All RDNs are receiving a video greeting <http://www.eatrightpro.org/resource/media/multimedia-news-center/videos/registered-dietitian-nutritionist-day> today from the Academy, thanking them for all they do to optimize health and nutrition.

As always, the Academy celebrates RDNs far and wide, today and throughout National Nutrition Month. As mentioned during the Board meeting, in New York City's Times Square, an electronic banner spotlights RDN Day, National Nutrition Month, the Academy and the winner of our third annual RDN Day Contest, Academy member Adam Burda, MS, RDN, LD, from West Virginia University. You can read his winning submission and see his photo

<http://www.nationalnutritionmonth.org/NNM/content.aspx?id=6442483365> on an electronic banner above Times Square. Adam has a great story. He is the director of the Graduate Dietetic Internship Program & Teaching and an assistant professor at West Virginia University and he owns his own nutrition consulting business. But even more impressive is his personal story of

overcoming a life-threatening accident in 2009 and losing 100 pounds through, appropriately for the 2015 NNM theme, developing a new lifestyle for himself. When asked about this weight loss and how his mentors others, Burda says, "I tell them I'm not going to put them on a diet; I'm going to put them on a lifestyle change. Because in order for [patients] to maintain this weight loss, they can't just change their eating. They have to change what they're doing daily," as far as physical activity, the individuals they're surrounding themselves with, dietary habits, etc.

Please join me in offering thanks and congratulations to Adam Burda and to all registered dietitian nutritionists on this special day.

Thank you for all you do for the Academy and the profession!

Best regards!

Doris Acosta

Start the Spring with Continuing Education

Do you need continuing education hours to fulfill your CPEU requirements? CDR has the perfect CPEU opportunity for you! CDRs Online Assess and Learn Series offers you the opportunity to earn continuing professional education units from your computer at an affordable price. Each module in the Assess and Learn series has been CDR-approved and each has been developed to assess and provide instant feedback on your current knowledge and skill level on a specific nutritional topic. CDRs Assess and Learn modules are a one-stop shop for CPEUs!

CDRs Online Assess and Learn series assesses the knowledge and skills you currently have in a particular dietetics related area within the context of a case scenario. Feedback on your performance is provided to assist you in determining your current and future learning needs. Currently there are four online Assess and Learn modules available:

- * Celiac Disease
- * Gerontological Nutrition
- * Sports Dietetics: Nutrition for Athletic Performance
- * Managing Type 2 Diabetes Using the Nutrition Care Process

Each module has been approved by CDR for 5 CPEUs and costs \$45.99. For information, please visit CDRs website:

<http://cdrnet.org/products/assess-learn-online-continuing-education-modules>

If you have questions, please feel free to send an e-mail: cdrcampus@eatright.org

Do not miss this wonderful opportunity to both broaden your dietetics knowledge base and have feedback on your progress!

Subject: On Behalf of Sonja Connor: CEO Evaluation Survey
Attachment:

TO: Academy Board of Directors

FROM: Sonja Connor

One of our Board responsibilities is to annually evaluate the CEO's performance. As you know, we have a new CEO performance evaluation form this year. It is time for us Board members to complete section II of the evaluation - Competency Evaluation. It is available on survey monkey. Prior to doing the evaluation, take a look at Board agendas, general communications to the Board, CEO summary reports in Board meeting packets, executive session discussions with Pat as well as minutes from our Board meetings.

Please complete the questionnaire by Friday, March 20. The Compensation Committee will summarize the responses, provide you with a summary report and recommendation regarding the CEO base salary for 2015-16 that will be discussed and voted on during the Executive Session of the May Board meeting.

Thank you for participating!

TO BEGIN THE SURVEY click or copy this link into your browser:

<https://www.surveymonkey.com/s/C9PW9QS>

The survey does not need to be completed in one sitting. If you wish to exit the survey and return to complete it later, please feel free to do so. Prior to the deadline, you will be able to log back in and resume the survey from where you left off by using the link above, which is unique to you.

If you have any questions about the evaluation, please contact me or Carolyn Patterson at cpatterson@eatright.org.

Thank you!

Sonja

Have you ever had one of those days? My apologies for both forgetting to include the attached in the original email to you regarding the Kraft project update and then mistakenly sending you the wrong attachments. These indeed are the right attachments and they are simply a collection of all the materials you previously reviewed before making your decision to approve the Kraft project. I hope that I have not completely confused anyone besides me. Thanks for your patience.

To all Academy members:

We are having a remarkable year at the Academy of Nutrition and Dietetics, and it's my pleasure to report to you just a few of the top accomplishments and initiatives that are underway throughout our organization. From National Nutrition Month, to our new and redesigned websites to an exciting new collaboration that will extend the reach and influence of our Kids Eat Right initiative, this video contains some great news that I know you will want to hear. Please let me know your thoughts at president@eatright.org.

[Click Here](#) to view the video message.

Thank you very much!

Sonja L. Connor, MS, RDN, LD, FAND
President, 2014-2015

ON THE PULSE OF PUBLIC POLICY

Make Your Voice Heard: Register for PPW, the Largest Food and Nutrition Policy and Advocacy Summit

Advance your career by attending the Academy's 2015 Public Policy Workshop, the world's largest food and nutrition policy and advocacy summit. Join 500 of your fellow registered dietitian nutritionists and dietetic technicians, registered to stand up for important health issues affecting the nation and the profession. This year, PPW will focus on effective communications training that will help you on the job and on Capitol Hill. Discounts are available for students and groups consisting of three or more people.

Academy Urges Clarification in Insurance Summary of Benefits and Coverage

The Academy this week urged federal agencies to improve consumers' ability to compare insurance plans by clarifying the extent of a plans coverage for preventive and wellness services, such as medical nutrition therapy to increase reimbursement for providing effective care.

Dietary Guidelines Advisory Committee Explains Recent Scientific Report

Six members of the Dietary Guidelines Advisory Committee appeared last week at a town hall meeting to review and support recommendations from the committee's scientific report issued February 19. The DGAC included four Academy members and adopted the Academy's evidence based approach for conducting meta-analysis of available science. Committee Chair Barbara

Millen, DrPH, RDN, FADA, reviewed the scientific process used by the committee and explained that the conclusion statements were direct answers to the research questions for each topic. Millen also stressed the recommendations are advisory and actionable. Chairs of each subcommittee presented research questions, conclusion statements and recommendations for topic areas and for the cross-cutting topics of interest (including saturated fat, sodium and added sugars). Public comments for the DGAC's report are due April 8. Members are encouraged to work with their dietetic practice groups to offer input for the Academy's formal comments.

Members in Discussion: Driving Optimal Outcomes in Diabetes

The Diabetes Advocacy Alliance held a science and policy roundtable to discuss diabetes quality measurement. Academy members who participated included Alison Evert, MS, RD, CDE; Marion Franz, MS, CDE; Sharon McCauley, MBA, MS, RDN, LDN, FADA, FAND, the Academy's director of quality management; and Mary Pat Raimondi, MS, RD, vice president for strategic policy and partnerships and co-chair of the DAA. Speakers from the National Quality Forum, Center for Clinical Standards and Quality, American Diabetes Association and Humana Insurance presented the current state of diabetes quality measurement, ways to improve and update current guidelines and quality metrics for the care of individuals with diabetes.

Fifth Anniversary of *Let's Move!*

At the Partnership for a Healthier America's summit, First Lady Michelle Obama gave the keynote address in honor of the fifth year of the *Let's Move!* initiative. She announced the theme of the year: "Celebrate, Challenge, Champion," citing significant progress in the first five years and challenging summit attendees to continue to champion healthy food and physical activity in coming years. The First Lady also stressed the importance of keeping strong nutrition standards in school meal programs that the Academy fought for and continues to support during renewal of the Child Nutrition Reauthorization Act in 2015. Members tweeting about the initiatives are encouraged to use the hashtag #givefive.

New Campaign to Promote Fruits and Vegetables

A new advertising campaign promoted by First Lady Michelle Obama and the Partnership for a Healthier America aims to use celebrities to promote healthy, enjoyable eating of fruits and vegetables. The campaign will use multimedia campaigns and promotional materials that are available on the website.

Webcast Available for First Regional Aging Forum

The first White House Conference on Aging Regional Forum kicked off the series of 2015 White House Conference on Aging events. These regional forums, co-sponsored by AARP, are being planned with the Leadership Council of Aging Organizations, a coalition of more than 70 of the nation's leading organizations serving older Americans. More than 200 older adults, caregivers, advocates, community leaders and experts in the field of aging attended the Tampa forum. A recording is available for viewing.

New USDA Effort to Fight Child Hunger

Agriculture Secretary Tom Vilsack announced a new program March 2 to address child poverty in rural areas. More than \$27 million in grants will fund innovative projects designed to help end childhood hunger. The announcement was part of efforts by the U.S. Department of Agriculture during National Nutrition Month "to focus on poverty and food insecurity among children, especially in rural areas. These projects will be tested in Kentucky, Nevada and Virginia, as well as the Chickasaw and Navajo tribal nations."

'Energy Balance 101'

Free downloadable curricula are available from Together Counts, a nationwide program that inspires active and healthy living. Available PDFs include Pre-K, K-2nd Grade and 3rd-5th Grade.

Member to Serve on Renal Standing Committee

Academy member and past-president Jessie Pavlinac, MS, RD, CSR, LD, will serve as a member of the National Quality Forum's Renal Standing Committee for Renal Measure Endorsement Maintenance Project. The project's goal is to identify and endorse performance measures for accountability and quality improvement that specifically address conditions, treatments, interventions or procedures relating to renal conditions.

PHILANTHROPY, AWARDS AND GRANTS

Application Deadline March 19: Foundation Scholarships

The Foundation is committed to providing scholarships to dietetics students at all levels of study.

Scholarships are funded by individual donors, state and regional affiliates, dietetic practice groups and Academy partners including Colgate-Palmolive Company, Commission on Dietetic Registration, ConAgra Foods, ILSI North America, New Jersey Dietetic Association and Mead Johnson Nutrition. The application has been upgraded and is now an online process. View a list of 2014 Scholarship recipients. Email Beth Labrador with questions.

[Learn More](#)

Application Deadline Extended to April 1: Pittsburgh Dietetic Association Leadership Development Award

This award was established to recognize emerging leaders among current graduates of supervised practice programs and encourage their participation in Academy activities. The award will cover expenses up to \$1,000 for one qualified applicant to attend the Food & Nutrition Conference & Expo. Applicants must be a resident of Pennsylvania or a student or graduate of a Pennsylvania program.

[Learn More](#)

Application Deadline Extended to April 1: Barbara Ann F. Hughes NEP DPG Continuing Education Award

This \$1,000 award provides educational stipends for nutrition professionals on the subjects of policy initiatives, advocacy and private practice. Preference is given to members of Nutrition Education for the Public dietetic practice group.

[Learn More](#)

Application Deadline Extended to April 1: Food and Culinary Professionals DPG Communication and Education Fund

The Food and Culinary Professionals dietetic practice group created this fund to support lectureships and to provide awards that support individuals with an interest in the mission of FCP in their participation in culinary learning educational experiences.

New Future of Food Toolkit: 'Smart Choices. For a Healthy Planet'

The Foundation's new toolkit is now available. The toolkit - in English and Spanish - includes a presentation for adult and mature teen audiences, with leader notes, a suggested five-minute group activity and a coordinating handout.

[Learn More](#)

Future of Food Mini-Grants

To support the use of the new "Smart Choices. For a Healthy Planet." toolkit, 25 grants of \$200 are available. Recipients agree to give two presentations from the new toolkit (for parents and/or mature teens) between May 11 and June 30. Applications are due May 1 and recipients will be announced May 11. The toolkit was developed by content experts who are registered dietitian nutritionists and farmers. The new toolkit and mini-grant opportunity is made possible through an educational grant from Elanco.

To: Donna Wickstrom
Subject: Re: FW: Updating of the School Nutrition position papers

Donna, Thanks so much for contacting me about this important project. As of right now I cannot commit to working as an author on this project because of my other volunteer jobs. As Treasurer for the Academy and Foundation I am spending all the spare time I can to keep up with my obligations there. I am also on the School Nutrition Association Foundation Board, which is not quite as time consuming, but I also have commitments with it. I would suggest three people for you to consider (any would be great):

1. Dayle Hayes, eatwellatschool@gmail.com (she would be my first choice)

2. Dr. Linette Dodson,
Linette.Dodson@carrolltoncityschools.net

3. Dr. Alice Jo Rainville,
alicejo.rainville@emich.edu

I will also have to admit, that my strength is not in the writing arena. I can proof and speak, but am not great at writing. Let me know if none of these pan out and I can send you more names. Hope you find someone.

Hi Donna.....hope this email finds you doing well.

I am reaching out to you regarding the updating of the Academy *Local Support for Integrity in Schools* position paper & the *Comprehensive School Nutrition Services* position paper. In the updating of these papers, they will be updated together as an integrated and coordinated process. The *Local Support for Integrity in Schools* position paper is going to be a joint paper with SNA and SNEB.....so there would be a total of 3 authors. The position paper will be shorter and more succinct (2,000-3,000 words). The *Comprehensive School Nutrition Services* will be updated as a practice paper, it will be solely an Academy paper and it will be the longer paper. We would like 2 Academy co-authors for the practice paper. Ideally, we would like the Academy author for the position paper to be the lead author and also be 1 of the 2 authors for the practice paper.

The individual we had invited to serve as the Academy author for these papers declined our invitation due to workload and prior commitments. Thus, we are in search for someone to take the lead role as the Academy author, working with the other authors on the joint position paper.....and then also working with a co-author on the practice paper. We are looking for someone that might be able to work in that capacity.....or perhaps even just as an author for one of the papers.

What are your thoughts??any interest? Or, can you suggest anyone for me to reach out to? If you might be interested, kindly complete the attached application and return to me **along with a copy of your CV** as soon as you are able.

Thanks so much in advance for your help.

Subject: Exciting new collaboration that will extend the reach and influence of our Kids Eat Right initiative!

Importance: High

We are preparing to announce the Kids Eat Right/Kraft Singles sponsored public education campaign. To refresh your memory, the elements of this campaign include the use of the Kids Eat Right logo on Kraft Singles and Kraft 2% Singles with the clarifying language ***Proud Supporter of Kids Eat Right, the Academy of Nutrition and Dietetics Foundation*** and an accompanying URL: (www.kidseatright.org/cheesyfacts) that will drive traffic to the Kraft-sponsored page of the Kids Eat Right website. It is expected to appear in grocery stores nationwide in early April.

Why Are Doing This?

The Foundation is taking part in this new collaboration so we can help improve eating patterns for America's families. We know that many people's diets are falling short in dairy, vitamin D and calcium. Eighty (80) percent of girls and 75 percent of boys age 4 to 18 have inadequate intakes of calcium, and nearly half of all kids' diets are deficient in vitamin D. RDNs can make a difference for these children and families. This collaboration will direct millions of consumers to our Kids Eat Right website to help them find solutions and raise awareness of the RDN.

A Year of Preparation

Our conversations with Kraft began well over a year ago. There has been a tremendous amount of scrutiny and preparation involved in this project. To revisit any of this discussion or to simply serve as an easy reference, attached to this message you will find copies of all the multiple board communications that were provided and reviewed prior to approval of this program. It represents the board's due diligence and should still be considered and treated as confidential.

About the Website

When visitors land on Easy Cheesy Nutrition for Kids, they will find facts about the important role of dairy, including cheese, in kids' diets that has been reviewed and approved by the Academy's Knowledge Center. The information will be accompanied by budget-friendly recipes co-developed by RDNs and Kraft. Recipes that include the Kraft Singles brand in the ingredient list will be clearly identified as ***sponsored content***. To complement all of this wonderful education about the importance of vitamin D and calcium in kids' diets we will also be enhancing our non-sponsored section of the Kids Eat Right website with an equivalent number of recipes and articles promoting other non-dairy sources of these key missing nutrients. This demonstrates our continued commitment to a balanced plate.

No Endorsement

This program specifically does not constitute an endorsement by the Academy or the Foundation of any brand, product or service.

Educational Materials for Members

As requested by the Board, in addition to the consumer content, we are developing educational materials for our members that includes information regarding how cheese is made at Kraft (specifically the Singles brand with the addition of vitamin D) and how we can work together to enhance the nutrient quality of kids' diets. The plan is to be able to provide this in April and to feature both Sandy Morreale, MBA, RDN, FAND, associate director nutrition communications and research; and Katie Brown, EdD, RDN, LD, national education director for the Academy's Foundation.

Our work has just begun with Kraft and much time has been spent in a thorough review of editorial content, including establishing guidelines for recipe development. A pre-launch survey will be fielded to a select cohort of 10,000 members to capture baseline data regarding members' awareness of Kids Eat Right, missing nutrients in kids' diets, the nutritional value of dairy, including cheese, and how members feel about Kraft Singles and Kraft 2% Singles as a source of these missing nutrients. This will help us continue to evaluate the success of the program and opportunities to enhance it.

Strategic Outreach

The Academy and the Foundation have also started to look at program implementation and ways to develop community outreach through Kraft strategic business relationships with key retail providers. Our wealth of experiences with EB4K (Energy Balance for Kids, the Foundation's school-based nutrition and physical activity RDN intervention program), RDN Parent Empowerment (RDN training of key community/school influencers), the development of GENIE (Guide to Evaluating Nutrition Information and Education) and our Feeding America partnership will all contribute to creating valuable and effective on-the-ground nutrition education. This will be an opportunity for us to engage the growing interest of our members to become a part of Kids Eat Right at the grassroots level.

Telling Members About the Program

The next video message from President Sonja Connor will be released to the Academy's membership on March 5 via a blast email message. The video will also go live March 5 on eatrightPRO and will be promoted via the Academy's social media PRO channels. It includes

valuable information for members, including an announcement of this campaign. This announcement and the release of the Kraft Singles and Kraft 2% Singles may stimulate some interest and conversation from our members.

The Strategic Communications team has prepared key messages to support this dialogue and a more detailed Q&A will be forwarded once the program launches in April .

- A new Academy Foundation and Kraft Singles initiative has been formed to greatly increase the public's awareness of our Kids Eat Right website and consumers' access to our resources for healthy eating.
- As part of this new initiative, Kids Eat Right website will be featured on packages of Kraft Singles, both 2 percent and regular, reaching millions of consumers nationwide. The on the package promotion will state: **Proud Supporter of Kids Eat Right -- Academy of Nutrition and Dietetics Foundation.**
- For recipes and tips, visit www.kidseatright.org/cheesyfacts. A statement on the package will say that Kraft Foods supports the Academy of Nutrition and Dietetics Foundation and Kids Eat Right. There is also a message encouraging people to visit www.kidseatright.org/cheesyfacts for more information.

If you have any questions, please don't hesitate to contact me. As we come closer to the launch, we appreciate your continued support of Kids Eat Right and opportunities like this to support funding.

[Att 7.0 Sponsorship Task Force.pdf](#)
[Att 9.1 Strategic Priorities and Measures.pdf](#)
[Att 10.1-10.2 Public Policy Leadership and Grassroots Advocacy Awards.pdf](#)
[Att 2.0 Regular AgendaREV030315.pdf](#)

A revised agenda and the remaining attachments for the March 6-7 Board meeting -- Agenda items 1.7 2013 (FY14) Tax Returns, 6.1 Financial Update, 7.0 Sponsorship Task Force, 9.1 Strategic Priorities and Measures, and 10.1-10.2 Public Policy Leadership Award and Grassroots Advocacy Award -- are now available on the Board of Directors' communication platform and are attached to this correspondence. This includes a report submitted by Donna Martin with an update of the Academy financials.

Please note that Kathy McClusky, as chair of the Sponsorship Task Force, has also submitted a task force report. The Board is receiving the report **for information and discussion purposes only**. No modifications will be made based on the discussion since the report will be forwarded to the House of Delegates for feedback.

657. Foundation Board call

From: Paul Mifsud <PMifsud@eatright.org>
To: DMartin@Burke.k12.ga.us <DMartin@Burke.k12.ga.us>
Sent Date: Mar 03, 2015 15:54:23
Subject: Foundation Board call
Attachment: [march 2015 cover.doc](#)
[foundation board report through January 2015 final electronic.xlsx](#)

Donna,

Since I am off next week, I am sending this information to you early. We will only have one thing to present to the Foundation Board. However, I asked Susan to put onto the consent agenda the following;

1. 2013 (2014 Fiscal Year) Foundation tax returns
2. Investment Overview

Al, gave me information about the Foundation as well as the Academy. So, even though he won't present, we should pass this along. The tax returns need to be sent to the foundation Board before they can be filed. I should have the Foundation's tax returns done by Friday.

The final document, the Financial update, is very light. Here is the preliminary information for you. I will get you more detail on the financials later.

Paul

Donna,

Attached is a script for the December pledge follow up board calls, a call list and background information.

The Foundation hosted an in-house telemarketing campaign in December 2014. The individuals who were called in December were past donors of the Foundation and have not donated this year (June 1, 2014 – present). There are still a few pledges that we made during the telemarketing campaign that have not been fulfilled and we need your help to follow up with these donors. Attached is the list of unfulfilled pledges and a script. All of these pledges did not provide a specific pledge amount over the phone during the telemarketing campaign. If you have any questions, please contact Amy Donatell at 312-899-4767 or at adoantell@eatright.org

Hi Donna. Happy Friday! It was great to catch up yesterday! I did check with Amy and Martha regarding Shirley's gift. We did have in our system that it was a tribute gift. The thank you note to Shirley and the honoree were mailed last week. They should receive them shortly. I also asked that if we could flag tribute gifts on the BOD call list, so that you are aware when you make the phone call and have the conversation with the donor.

Subject: Donor Thank you Call

Hi Donna. How are you? Are you doing ok in the miserable weather you are having in the South? It is no better up here. I am beginning to wonder if there is anywhere in this country that one could live and not deal with horrible winters!

I was wondering if you would be willing to make a donor thank you call? Last month we sent out emails like the example below to individuals who gave during the month of January last year but have not made a gift yet this year. (his will be a new appeal we send out every month via email). A

few people responded with a donation as a result of the email sent in January. One of those people was Shirley Harper. Shirley made a \$100 donation to the annual fund. Last year she gave \$25. When we looked at her giving history she had been giving at higher levels back in the 1990s like: \$400, \$300, \$250, and then more recently her donations have been more like \$30, \$25, \$20...so it is exciting that she responded to our email and upgraded her gift. It seems like this might be a good opportunity to get her excited about the Foundation again. I know you love making these calls...so I thought you might be the perfect person to do this. Her number is 270/726-8770. She lives in Kentucky. Let me know if there is any additional background information that would be helpful.

Also, I did pass your recommendations along about the monthly thank you call list. You should see those changes implemented on the next list you receive.

Dear XXX,

Last year, at this time you made a **gift of \$X** to the Academy Foundation. We hope that you will consider renewing or increasing your support of the Foundation by making a gift to the Annual Fund. Thanks to support from Academy members like you, **over the past three years, the Foundation has:**

Every dollar makes a difference. Thank you for your consideration of investing in the future of our profession. Academy National Sponsor, **Abbott Nutrition will match up to \$20,000 of member contributions in January and February.**

Make a gift today! Care, give, make a difference.

Sincerely,

Beth Labrador

Donna,

Since we have not really done a transition such as this one; Mary's really doesn't count. We are in new territory. The FY16 budgets (both Academy and Foundation) should be presented by the Treasurer. Unfortunately, that is you J. You can have her assist of course. The New Board orientation can be done by Kay.

Also, I will get this to you soon, but, you have a Spring HOD meeting to record. So, another deck!

I think moving the agenda around should be fine for the Foundation call. I am putting together something very simple again. We don't have much time. I also will add to their consent agenda the Foundation tax returns and a report from Al Bryant on their investment returns through January.

The budget process is not pretty. As we discussed yesterday, it will take tough decisions to turn the ship. The E-team "get it". However, whether or not we get to where we need to be is still up in the air.

P

Subject: Conflict with March 19th Academy Foundation Board Call - DRAFT Agenda

Paul, I have a conflict that has come up with the Foundation Board Call on March 19. I am scheduled to receive an award that day at the Georgia Academy of Nutrition and Dietetics Annual

Meeting. The luncheon where they will be giving the award starts at 11:45 am EST. I would be glad to do the report from the hotel where the meeting and luncheon are being held, but I would need to be moved up on the agenda to the first report, in order to be able to give the report and then get to the luncheon. Do you think they could make that change? This is getting to be a bad trend for me I know, but I did not even know I was receiving the award until I got back from DC. The good news for you is that my term of you having to deal with my scheduling conflicts is about to be over. I only have a few more months of being Treasurer, and I assume after our F2F meeting in April that poor Kay will then be in the "hot seat". Am I correct that she will do new board orientation in May? Will she be presenting the new budget to the board for approval at the May board meeting? Will she present the budget to the Foundation on the Budget Conference call in May for their approval? If so, I wanted to give her a heads up. I obviously, can do any of these, but thought it was probably going to be her responsibility and wanted to let he know how we handled these things. Just let me know what you think about the Foundation Board call agenda being changed and also who will be handling some of the future treasurer responsibilities.

I don't envy you going through the budget process right now with staff. I see rough waters ahead unless we make some changes. I love the cost savings ideas you have already implemented, but I am afraid we have a long way to go until we can turn this around.

Donna,

Make the change on slide 6. Can't believe I missed that one. I reworded slide 7. I know we don't want it to "wordy". Take a look at this one. It is a little more. Hopefully it gets to what you were thinking.

P

To: Paul Mifsud
Subject: Re: Update on the financial package

Paul, I have just taken a quick look through the deck. So far we need to correct a typo on Slide 6 "exceed" not "exeed".

I also think we need to restate Slide 7 where we talk about continued growth in eNCPT sales sets a strong foundation for FY16 revenue. We just said that it was falling short for revenue, so I assume that we have seen a strong increase in sales recently, that will make us more optimistic for the future. If that is correct, we probably need to word it a little differently so we don't confuse people. I hope this gets the boards attention!

So far, these are the only questions or concerns that I have.
I hope this gets the boards attention!

Subject: March Board Meeting Attachments
Attachment:

The agenda and the corresponding attachments for the March 6-7 Board meeting are now available on the Board of Directors' communication platform. Please click on the following link <http://academybod.webauthor.com/modules/library/library.cfm?id=12694> and enter your Academy user name and password to access the materials. Some decisions are still awaiting committee approval, therefore the attachments for agenda items 9.1 – Strategic Priorities and Measures, 10.1 - Public Policy Leadership Award and 10.2 - Public Policy Grassroots Advocacy Award will be e-mailed and placed on the communications platform by Monday, March 2. The attachment for 1.7 - 2013 (FY14) Tax Returns will be posted as soon as Plante Moran has completed them. We will let you know when it is posted. These attachments will not be included in the paper meeting packet which will be delivered on Thursday, February 26 via UPS (no signature required) to those Board members who requested one.

As is our procedure, committee, workgroup and task force reports are placed on the Board portal <http://academybod.webauthor.com> in the black menu bar under the *Library* tab>*Committee, Work Groups and Task Forces*. Reports will be uploaded as we receive them instead of waiting for

Board meetings. Please reply to all if you have any questions or if a report needs full member discussion at the Board meeting.

We have a number of guests who will be joining us: Al Bryant, Managing Director of Segall, Bryant and Hamill, will provide an update on our investments; Kathy McClusky, chair of the Sponsorship Task Force, will present the recommendations of the task force; and Rayane AbuSabha, chair of the Nutrition and Dietetic Educators and Preceptors, will provide the council's report via telephone.

The meeting and lodging will be located at the Wyndham Grand Chicago Riverfront, 71 East Wacker Drive. Hotel reservations have been made for your arrival on Thursday, March 5 and departure on Saturday, March 7, unless you notified us otherwise. Your hotel room will be master-billed, but you will be asked to pay for incidentals.

The Board dinner is scheduled for Friday, March 6 from 6:00pm - 9:00pm at Petterino's Restaurant, 150 North Dearborn, Chicago, IL 60601 (312) 422-0150, a short walk from the hotel. Please let me know if you will bring a guest. The attire for the meeting, including dinner, is business casual.

I look forward to seeing you!

Best regards,

Joan

Attachment: [March 2015 Board meeting 022315.pptx](#)

Donna,

Here is the first cut of the Financial overview for the Board meeting. I did not provide a forecast beyond the end of the year. It is too early for the three year forecast. I reference it in the document, but, do not provide any financial information. I would recommend that we let Al Bryant talk about the investments first and then, time permitting, you can go through the deck where appropriate. We could hit the highlights. Let me know your thoughts.

Paul

Donna,

Pat and I discussed. I am not happy that it is even reference at this stage. Without the budget, it is ridiculous to address. Pat concurred. So, as a compromise, I will reference it within the Deck and say it is too early for a 3 year plan and provide talking points. I should have something by Monday for you.

Paul

Paul, I knew to be expecting stuff for the board, but was afraid to ask you about it until after we got through the FAC call. It also looks like I will be talking about the three year Finance plan at the board meeting. We can talk more after next weeks FAC call. I get the spent part!

Donna,

Not a problem. I am also putting together some info for the board on the finances through January. So, look for that in the next couple of days. As for the cold, I am spent. Too cold for me!!

Paul, I will be in Washington, DC next Monday and Tuesday, I have a flight out at 4 pm EST on Tuesday. I plan to try and conduct the FAC meeting from the airport (I hope in a nice quiet place) before I need to catch my flight. I am copying Mary on this email in case she needs to fill in for me. I am in Washington to lobby congress with the PEW Institute, so I did not have any control over the dates and time. Mary, please let me know if you can pitch hit for me if needed? I would complain about the cold down here (19 degrees), but I know that it would just be falling on deaf ears. Talk to you on Tuesday!

All,

I hope everyone is doing well and keeping warm. It is that time again. We have a Finance and Audit Committee meeting on Tuesday, February 24th at 1 p.m. CDT. Our call will focus on the following;

1. December final financial results
2. January preliminary results
3. Budget update
4. Cash

I. December Adjustments

-
We did not make any adjustments to the preliminary December results.

II. Investments

Anyone tired of this ride??? It kind of reminds me of when I took my young children to Six Flags and all they wanted to do is ride every roller coaster. Since they were young, I didn't have a choice but to ride along side them. Halfway through the day, I had enough!!! This market kind of feels like that. Just like I didn't have a choice but to push through with my kids, we have to push through this market. Of course with my kids, what really put me over the top was the Demon Drop. That is the ride that slowly takes you to the top of a tall tower and then, with a few sudden jerks (No, I am not referring to any of my partners on the ride), you are suddenly dropped at an accelerating pace before being stopped....just before you hit the ground. I am sweating still thinking about it. L Well, I think with this investment market, we are in a good position to avoid anything like that ride!!!

That being said, the month of January was not very good for our investment portfolios. Our combined investment portfolios lost \$964,000. Year to date returns now are just shy of \$1.495M for the combined portfolios.

The bad news for January has turned into great news for February. Through Wednesday, February 18th, the combine portfolios were up by \$1,936,000 or 3.51%! So, we have gained back the losses from January and added another \$972,000. As we expect with this market, today the DOW is down; NASDAQ is up; etc. I generally start this e-mail in the morning with the expectation it would be changed by the end of the day. Today is no different. I would expect, even with the variances in the markets, our portfolios will be a little higher after today. I would not have thought that this morning when the markets opened. So, it is nearly impossible to determine where we will end the month. Regardless of what happens for the rest of the month, I am glad we can face it with a gain so far over 3.5%.

III. Academy preliminary January Financials (A10)

We continue the pattern in January that we have seen throughout the fiscal year. Revenue is short of budget while expenses are under-running the budget. The result for January was an operating deficit of \$292,315. This was \$10,384 smaller or better than our budget. Great news in total. However, it is all driven by expense under-runs.

The Academy needs to keep this correlation wherever possible. As we look forward at the revenue, there is some good news, but also some concerns. The good news; Membership revenue continues to perform well. Just yesterday, Mary Beth indicated that we signed a few sponsorships for Nutrition News Forecast that were not budgeted. Diane Enos indicated that she thinks we have an strong opportunity to increase revenue for professional development in the spring due to the new website. So, some pretty exciting news. However, on the other side, we do have revenue concerns about eNCPT and some Research Grants. On the Research Grant side there will be expense savings if the grants are not achieved.

We are continuing to refine our forecasts for the year, so I won't try yet to project where we will end up. I do believe we will end the fiscal year near our operating deficit target. Depending on the revenue, I hope we can do better.

On a year to date basis, the Academy has an operating deficit of \$1,597,922 through January. This is \$411,064 smaller (better) than the budget. That is fantastic news. This will give the Academy a buffer against the revenue “headwinds” that may materialize over the next few months. I won’t address the investments. It isn’t great. Since we see good news for February, I would rather focus on the operating results.

The following is a breakdown of the various categories for January:

A. Revenues

- a. **Membership Dues** - This area is over budget by \$5,153 in January and is over budget by \$5,558 for the year. The over-run in January is being driven by higher Membership Dues (up \$13.5K) offset by lower Fellow program revenue (down \$7.8K) .
- b. **Programs and Meetings** - This area is under budget by \$10,272 in January and is under budget by \$420,101 for the year. The under-run January is due to lower professional development revenue (down \$8.4K) and continue processing of FNCE refunds (down \$1.9K).
- c. **Publications and Materials** - This area is under budget by \$12,277 in January and is under budget by \$60,546 for the year. The under-run in January is primarily due to lower Traditional Publications (down \$25.0K), lower Eatright store (down \$4.5K) and lower across all other areas (down \$0.6K) offset by higher List Rental sales (up \$17.8K).
- d. **Subscriptions** – This area is under budget by \$44,076 in January and is under budget by \$219,346 for the year. The under-run in January is primarily is due to lower eNCPT (down \$43.5K) as sales are slower than budgeted and lower NCM and related products (down \$2.0K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.4K). The eNCPT sales may not be good when compared to the budget. However, the revenue is steadily increasing. In January this is up to \$12,400. This will increase to over \$14,000 in February. The sales now will also help FY16. So, eNCPT is building momentum for the future. We just need it to continue to grow.
- e. **Advertising** – This area is on-target in January and under budget by \$10,395 for the year. Nothing was budgeted and nothing was received.
- f. **All grants** - This area is over budget by \$4,455 in January and is under budget by \$2,555 for the year. The over-run in January is primarily due to higher Grants for Research (up \$23.1K) and higher Carry the Flame recognition (up \$4.8K). This is offset by lower Guides for Practice project (down \$10.0K), lower by higher ConAgra (up \$2.8K), lower recognition of the Abbott Malnutrition grant (down \$10.0K) and lower across all other (down \$0.6K).
- g. **Sponsorships** – This area is under budget by \$12,140 in January and is under budget by \$48,340 for the year. I have mentioned previously that we would re-evaluate the Sponsorship

revenues in January and project to the end of the year based on our current data. In doing so, we are projecting lower revenues for the year. So, I decided to reduce the amount we are recording by \$12,140 per month. If things pick up, then this might be reversed. This adjustment is based upon information provided by the Sponsorship team. I mentioned above the revenue for the Nutrition News Forecast later this year. That is great news that should offset the shortfall we are currently seeing. This will be recognized in April.

h. **Other** – This area was under budget by \$5,389 in January and is over budget by \$104,586 for the year. The under-run in January is primarily due to lower licensure revenue (down \$6.7K) offset by higher across all other areas (up \$1.3K).

B. Expenses

a. **Personnel** – This area is under budget by \$45,618 in January and is under budget by \$128,069 for the year. The under-run in January is due to the open positions being frozen and the impact from changing our medical plan. This should continue as we move forward.

b. **Publications** – This area is under budget by \$16,895 in January and is under budget by \$95,956 for the year. The under-run in January is primarily due to lower Traditional Publication's costs (down \$7.0K), lower Quality Management costs (down \$5.8K) and lower Member retention (down \$4.9K) offset by higher across all other projects (up \$0.8K).

c. **Travel** – This area is under budget by \$38,571 in January and is under budget by \$256,441 for the year. The under-run for January is due to lower Research (down \$26.5K), lower Governance (down \$15.3K), lower Public Policy (down \$3.0K), lower Marketing (down \$2.6K), lower Administration (down \$1.0K) and lower across all other areas (down \$1.8K), offset by higher FNCE expense (up \$11.6K).

d. **Professional Fees** - This area is over budget by \$41,480 in January and is under budget by \$152,285 for the year. The over-run in January is being driven by higher Research (up \$16.6K), higher Brand Promise (up \$8.7K), higher Revenue analysis (up \$17.4), higher Corporate Relations (up \$7.6K), higher Public Policy (up \$3.7K), higher List Rental (up \$5.1K) and higher across all other (up \$0.3K), offset by lower Governance (down \$5.2K), lower Member Services (down \$6.2K), lower Malnutrition project (down \$4.6K) and lower IT/Web (down \$1.9K). The Revenue analysis is the work we discussed previously to evaluate new revenue opportunities for the Academy. This was not budgeted. However, the Academy moved forward because it was believed we could find costs savings in other areas to offset the overall amount.

e. **Postage and Mailing** - This area is under budget by \$27,131 for January and is under budget by \$86,096 for the year. The under-run for January is being driven by lower Member Services (down \$19.7K), lower Traditional Publications (down \$7.1K) and lower across all other (down \$0.3K).

- f. **Office Supplies and Equipment** – This area is **over budget** by \$1,140 in January and is **under budget** by \$13,469 for the year. The under-run in January is across all areas of the business. No material variances can be identified.
- g. **Rent and utilities** - This area is **under budget** by \$978 in January and is **under budget** by \$62,102 for the year. The under-run in January is due to lower utility costs associated with our new lease in Washington DC (down \$1.7K) offset by higher utility costs in Chicago (up \$0.7K).
- h. **Telephone and communications** – This is **under budget** by \$2,064 in January and is **under budget** by \$3,804 for the year. The under-run in January is due to lower normal telecommunication's costs.
- i. **Commissions** – This area is **on target** in January and is **over budget** by \$811 for the year. Commissions are associated with Food and Nutrition Magazine's advertising sales. There wasn't an issue in January and therefore, no costs.
- j. **Computer Expenses** – This area is **under budget** by \$9,164 in January and is **under budget** by \$46,624 for the year. The under-run in January is due to lower web hosting (down \$1.2K) and lower across all other IT related expense (down \$8.0K).
- k. **Advertising and Promotion** – This area is **under budget** by \$29,763 in January and is **under budget** by \$45,785 for the year. The under-run in January is primarily due to a disconnect between the budget and actual costs. Printing expenses for the Academy catalog were budgeted under this area. It should have been budgeted under Printing. This shift and under-runs from the catalog account for \$28.3K of the total under-run.
- l. **Insurance** – This area is **under budget** by \$534 in January and is **under budget** by \$6,599 for the year. The under-run in January is due to lower insurance premiums for the overall insurance.
- m. **Depreciation** – This area is **under budget** in January by \$2,372 and is **over budget** by \$2,626 for the year. The under-run in January is due to an evaluation of the total capital costs and the timing of depreciation. Since we expense the budget for the first half of the year and adjust in the second, any delays in capital projects will affect the amount of depreciation recognized. The new web site was delayed, which will delay the recognition of the depreciation in FY15. This is driving the lower costs in January and should have an impact for the remainder of the fiscal year.
- n. **Bank and trust fees** – This area is **under budget** by \$580 in January and is **over budget** by \$9,895 for the year. The under-run in January is due to lower credit cards fees.
- o. **Other** – This area is **over budget** by \$33,778 in January and **under budget** \$79,212 for the year. The majority of the over-run in January is due to the expectation that the DPGs would

provide funding that did not materialize (down \$21.5K). When the DPGS fund a program with the Academy, it is recorded as a negative, or reduction, in expense. Since it did not happen, we would be \$21.5K over budget in this line item. Conversely, we might be under budget in other areas such as professional fees. In addition to this, there were additional over-runs from Traditional Publications (up \$6.9K), Governance (up \$2.9K) and higher across all other areas (up \$2.5K).

p. **Expense allocation** – This area is **unfavorable to budget** by \$19,192 in January and is **unfavorable to budget** by \$44,676 for the year. The unfavorable result is due to lower costs expended for CDR supported projects. These will result in lower expenses in the “normal” expense categories, but are then offset under the expense allocation category.

q. **Meeting services** – This area is **under budget** by \$22,571 in January and is **under budget** by \$139,989 for the year. The under-run in January is primarily due to the lower Marketing and PR (down \$12.6K), lower Research (down \$2.7K), lower Governance (down \$4.2K) and lower Public Policy (down \$3.1K).

r. **Legal and Audit** – This area is **under budget** by \$6,076 in January and is **under budget** by \$15,574 for the year. The under-run in January is due to lower legal expenses.

s. **Printing** – This area is **over budget** by \$21,847 in January and is **over budget** by \$11,794 for the year. The over-run in January is due to the budget error addressed in Advertising and Promotion for the Academy Catalog (up \$19.8K) and higher across all other areas (up \$2.0K).

Another month down and another improvement on the operating results when compared to the budget. As I mentioned above, we have a good “buffer” going into the final third of the fiscal year. I hope we will be able to hold this gain. I won’t bank on it since we expect shortfalls in the revenue to continue. However, we are in a very good position at the moment.

I will once again stop here and provide the remaining information tomorrow. Maria will be posting the information to the portal. She will inform you when it is available. In addition, you should receive a webinar invitation this afternoon. If you have any questions, please let me know and look for my e-mail tomorrow to address the rest of the story.

Paul

Thank you Susie for sending the draft agenda. Could the following updates be provided: the on-pack labeling program with Kraft and the Monsanto donation? I realize we just approved the latter.

Thank you for your consideration.

All the best,

Constance

Donna,

Pat and I discussed. I am not happy that it is even reference at this stage. Without the budget, it is ridiculous to address. Pat concurred. So, as a compromise, I will reference it within the Deck and say it is too early for a 3 year plan and provide talking points. I should have something by Monday for you.

Paul

Paul, I knew to be expecting stuff for the board, but was afraid to ask you about it until after we got through the FAC call. It also looks like I will be talking about the three year Finance plan at the board meeting. We can talk more after next weeks FAC call. I get the spent part!

Donna,

Not a problem. I am also putting together some info for the board on the finances through January. So, look for that in the next couple of days. As for the cold, I am spent. Too cold for me!!

Paul

Paul, I will be in Washington, DC next Monday and Tuesday, I have a flight out at 4 pm EST on Tuesday. I plan to try and conduct the FAC meeting from the airport (I hope in a nice quiet place) before I need to catch my flight. I am copying Mary on this email in case she needs to fill in for me. I am in Washington to lobby congress with the PEW Institute, so I did not have any control over the dates and time. Mary, please let me know if you can pitch hit for me if needed? I would complain about the cold down here (19 degrees), but I know that it would just be falling on deaf ears. Talk to you on Tuesday!

All,

I hope everyone is doing well and keeping warm. It is that time again. We have a Finance and Audit Committee meeting on Tuesday, February 24th at 1 p.m. CDT. Our call will focus on the following;

1. December final financial results
2. January preliminary results
3. Budget update
4. Cash

I. December Adjustments

-
We did not make any adjustments to the preliminary December results.

II. Investments

Anyone tired of this ride??? It kind of reminds me of when I took my young children to Six Flags and all they wanted to do is ride every roller coaster. Since they were young, I didn't have a choice but to ride along side them. Halfway through the day, I had enough!!! This market kind of feels like that. Just like I didn't have a choice but to push through with my kids, we have to push through this market. Of course with my kids, what really put me over the top was the Demon Drop. That is the ride that slowly takes you to the top of a tall tower and then, with a few sudden jerks (No, I am not referring to any of my partners on the ride), you are suddenly dropped at an accelerating pace before being stopped....just before you hit the ground. I am sweating still thinking about it. L Well, I think with this investment market, we are in a good position to avoid anything like that ride!!!

That being said, the month of January was not very good for our investment portfolios. Our combined investment portfolios lost \$964,000. Year to date returns now are just shy of \$1.495M for the combined portfolios.

The bad news for January has turned into great news for February. Through Wednesday, February 18th, the combine portfolios were up by \$1,936,000 or 3.51%! So, we have gained back the losses from January and added another \$972,000. As we expect with this market, today the DOW is down; NASDAQ is up; etc. I generally start this e-mail in the morning with the expectation it would be changed by the end of the day. Today is no different. I would expect, even with the variances in the markets, our portfolios will be a little higher after today. I would not have thought that this morning when the markets opened. So, it is nearly impossible to determine where we will end the month. Regardless of what happens for the rest of the month, I am glad we can face it with a gain so far over 3.5%.

III. Academy preliminary January Financials (A10)

We continue the pattern in January that we have seen throughout the fiscal year. Revenue is short of budget while expenses are under-running the budget. The result for January was an operating deficit of \$292,315. This was \$10,384 smaller or better than our budget. Great news in total. However, it is all driven by expense under-runs.

The Academy needs to keep this correlation wherever possible. As we look forward at the revenue, there is some good news, but also some concerns. The good news; Membership revenue continues to perform well. Just yesterday, Mary Beth indicated that we signed a few sponsorships for Nutrition News Forecast that were not budgeted. Diane Enos indicated that she thinks we have an strong opportunity to increase revenue for professional development in the spring due to the new website. So, some pretty exciting news. However, on the other side, we do have revenue concerns about eNCPT and some Research Grants. On the Research Grant side there will be expense savings if the grants are not achieved.

We are continuing to refine our forecasts for the year, so I won't try yet to project where we will end up. I do believe we will end the fiscal year near our operating deficit target. Depending on the revenue, I hope we can do better.

On a year to date basis, the Academy has an operating deficit of \$1,597,922 through January. This is \$411,064 smaller (better) than the budget. That is fantastic news. This will give the Academy a buffer against the revenue “headwinds” that may materialize over the next few months. I won’t address the investments. It isn’t great. Since we see good news for February, I would rather focus on the operating results.

The following is a breakdown of the various categories for January:

A. Revenues

a. **Membership Dues** - This area is over budget by \$5,153 in January and is over budget by \$5,558 for the year. The over-run in January is being driven by higher Membership Dues (up \$13.5K) offset by lower Fellow program revenue (down \$7.8K) .

b. **Programs and Meetings** - This area is under budget by \$10,272 in January and is under budget by \$420,101 for the year. The under-run January is due to lower professional development revenue (down \$8.4K) and continue processing of FNCE refunds (down \$1.9K).

c. **Publications and Materials** - This area is under budget by \$12,277 in January and is under budget by \$60,546 for the year. The under-run in January is primarily due to lower Traditional Publications (down \$25.0K), lower Eatright store (down \$4.5K) and lower across all other areas (down \$0.6K) offset by higher List Rental sales (up \$17.8K).

d. **Subscriptions** – This area is under budget by \$44,076 in January and is under budget by \$219,346 for the year. The under-run in January is primarily is due to lower eNCPT (down \$43.5K) as sales are slower than budgeted and lower NCM and related products (down \$2.0K). This is offset by higher Food and Nutrition Magazine subscriptions (up \$1.4K). The eNCPT sales may not be good when compared to the budget. However, the revenue is steadily increasing. In January this is up to \$12,400. This will increase to over \$14,000 in February. The sales now will also help FY16. So, eNCPT is building momentum for the future. We just need it to continue to grow.

e. **Advertising** – This area is on-target in January and under budget by \$10,395 for the year. Nothing was budgeted and nothing was received.

f. **All grants** - This area is over budget by \$4,455 in January and is under budget by \$2,555 for the year. The over-run in January is primarily due to higher Grants for Research (up \$23.1K) and higher Carry the Flame recognition (up \$4.8K). This is offset by lower Guides for Practice project (down \$10.0K), lower by higher ConAgra (up \$2.8K), lower recognition of the Abbott Malnutrition grant (down \$10.0K) and lower across all other (down \$0.6K).

g. **Sponsorships** – This area is under budget by \$12,140 in January and is under budget by \$48,340 for the year. I have mentioned previously that we would re-evaluate the Sponsorship
