Dear Carlos,

I'm very sorry to hear this decision. Katie has looped me into the chain. Please know that we are doing everything we can to comply with US federal funds policy, as we are subject to all of the US government rules with our USAID funding. A couple of years ago, the US government increased their stringency on business class travel, and most US employees are now asked to spend extra days on layover mid-trip to avoid their traveling business class. Unfortunately, UC Davis has implemented policies to make sure we comply with those regulations and policies. For Bellagio, we had requested an exception, but it was not granted. Hence our encouragement of other approved exceptions to policy, including medical and need to travel expediently without time for rest. Those are US federal exceptions, not UC Davis'.

Because of your email and our desire to make this project feasible for those involved, we are again requesting an exception that is appropriate and auditable for US federal funds. I am hopeful but can't yet be optimistic. Perhaps Dennis can weigh-in. There is a "more than 14 hour rule" that we haven't been able to use recently, but it is still in the regulations. We are hoping that regulation will help us to acquire a blanket exception for GVP.

Please know that Katie and our team are doing absolutely everything we can to comply with the US federal rules and make the travel most comfortable and appropriate for full participation.

All my best and still hoping to see you,

Jonna

Subject: Beijing Meeting: canceling participation
Importance: High

Dear Dennis,

I am terribly sorry to inform you that, due to the travel policy of the University of California at Davis, I decided to cancel my travel to Beijing. I am, I repeat, very sorry to take this decision and I know I owe you the reasons that made me take it:

- From January 15 to January 19 I will travel Rio-Paris-Geneva and back to Rio, as you may see in the attached document; the travel to Beijing means another very tiring travel in less than a month;
- I have been serving at boards of directors of several organizations (TB Alliance, MMV, DNDi, FIND), twice as the chairperson; I never asked any salary or consultation fees, my participation has always been "pro bono" because I believed and trusted in their mission and goals; my only request, to fly business class, was not a problem, as their travel policies allowed that **for long travels** (with no need to present a doctor's note);
- I have already traveled to China, back in 2007, and know how hard it is; for me it was then quite a big surprise that UC at Davis does not have, in its policy, any differentiation between short and long travels; this reminds me the life and death of my good friend John La Montagne who, submitted to another bad travel policy, had to travel economy very frequently and died in Mexico airport;
- As a MD myself, of course I do have several colleagues who could give me a "*doctor's note supporting your need for business class*"; the day I would consider myself a sick person I will stop traveling immediately and will not ask a colleague to give me a fake certificate; what is the purpose to adopt a strict bureaucratic rule if you accept such a simple way to avoid or bypass it?
- The travel policy is so unbelievable that it would allow a business ticket if I would arrive the day the meeting would

start - but if I want to rest 1-2 days I must fly economy...

A global program (as the GVP should be), has to adopt a much more flexible and less bureaucratic policy. I was really surprised we could not receive a simple, non-binding preliminary air travel reservation in order to comply with our own legal procedures - getting a travel license from the Government and applying for an official passport which would waive the need to get a visa from Chinese authorities.

I hope my decision will not harm Renata's participation or her decision to join the GVP. She is a young and brilliant lawyer who can contribute a lot to the program.

Best regards,

Carlos

Dear Katie,
Thanks for your email, attention and support.

The alternative I proposed yesterday - attending the PMAC meeting in Bangkok, Feb/3 - was some sort of last tentative not to miss the GVP meeting. If you approve an exception request for my travel on the same or similar itinerary as Renata, then I would not travel via Bangkok, would go directly to Beijing.

This Sunday I will travel to Geneva.

Best regards,

Carlos

Dear Carlos,

The reservation for Renata has been booked, and confirmation sent to her via email (both her Fiocruz and Gmail accounts). She will be traveling on the KLM itinerary as noted her email. We are happy to cover the additional nights of accommodation in Beijing in order to allow adequate time to rest and acclimate.

We are working on the exception request for your travel by business class, and will continue to make every effort to coordinate travel that will allow you to join and share your valuable contributions in Beijing.

Best regards,
Katie

Subject: Travel arrangements

Dear Dennis an Jonna,

Thanks for your feedback to my message and also for your support.

From 1979 - when I first travelled to UCLA to start a collaborative project funded by Brazil's CNPq and US National Science Foundation - until 1998 when I was nominated Director TDR at WHO, I only flew economy, even during very long international travels. Either paid by Brazilian agencies of S&T or by WHO/TDR as a temporary adviser to TDR programs before becoming its Director. Even a travel that started in Geneva and then forced me to go to Thailand, Los Angeles, New York and back to Rio (yes, a round trip around the world) was in economy: I had to deliver a seminar in each city and I did not complain, as I was young enough and felt that as routine.

During my period as Director TDR or a member of the Board of Directors of the TB Alliance, they granted me business for long travels. Coming back to Brazil in 2004 one episode really had a big impact on me: the death of John La Montagne, deputy director of NIAID, while standing in line at the Mexico City airport (http://www.nytimes.com/2004/11/06/health/john-lamontagne-61-expert-on-development-of-vaccines-dies.html?_r=0). We were colleagues at the TB Alliance BoD, became colleagues and friends and John started

to collaborate with us at Fiocruz shaping a very big collaboration Fiocruz-NIH/NIAID. Once we invited him to come for a two day-meeting in Rio; one week before the meeting he called me to say that a new important meeting at NIAID forced him to shorten his travel to Rio to only ONE DAY - having dinner with us, participating at the meeting in the morning & early afternoon, going back to the Rio airport in the evening. I tried to convince him to cancel his trip, arguing that we could find another suitable date, etc.; no way. John was so committed to the collaboration that he came to the meeting, spending less than 24 hours in Rio. Some months later I got a phone call from Maria Freire, then the CEO of the TB Alliance, crying because of John's death in Mexico airport. John was unique as a colleague, friend and collaborator and was pushed to his limits traveling very long flights in economy, due to the NIH travel policy.

Summary of issues to consider:

- The fastest itinerary (Air France or KLM) Rio-Beijing takes **23 hours and 15 minutes** - with a cheaper option taking **27 hours**;
- I do hope that you can find at the UC Davis travel policy a way to allow business class when dealing with **very** long travels - at least for people of my age, 73;
- If UC Davis wants someone to arrive the same day of the meeting after traveling 23+ hours, they should be prepared to have zombies participating, sleeping during meeting hours or missing sessions due to exhaustion;
- Either flying economy or business, we (both Renata and myself) are not prepared to accept an itinerary that does not allow 1-2 days of rest after over 20 hours flight (we are prepared to cover the hotel expenses for these additional days);
- My MD colleagues as well as my private physician know well how active I am and therefore I will not ask them for a waiver due to medical reasons.

I really believe in the GVP project and really want to attend the Beijing meeting, but not at any cost. Renata has just forwarded to Katie a proposed itinerary and the information requested from her present regular passport (which expires next April). I propose the following: as soon as Renata receives her travel reservation and be able to apply for her travel license and service passport, we then move on this discussion, ok?

Best,

Carlos

Hi Liz,
Thanks for thinking of options with us. Here is a section of the CFR I have been looking at regarding this inquiry.

2 CFR 200.474 - Travel costs.

(...)

(e) Commercial air travel.

(1) Airfare costs in excess of the basic least expensive unrestricted accommodations class offered by commercial airlines are unallowable except when such accommodations would:

(i) Require circuitous routing;

(ii) Require travel during unreasonable hours;

(iii) Excessively prolong travel;

(iv) Result in additional costs that would offset the transportation savings; or

(v) Offer accommodations not reasonably adequate for the traveler's medical needs. The non-Federal entity must justify and document these conditions on a case-by-case basis in order for the use of first-class or business-class airfare to be allowable in such cases.

Please let me know if this contributes to our ability to make accommodations for Mr. MacKenzie.
Thanks for your time on this!
Ava

Hi there. UCD policy requires a doctor's note, so we don't have flexibility there if we are paying for his travel costs through UCD. Can you or Ava point me to the USAID guideline regarding medical conditions? I'm not familiar with it and would need to look at it before I can say either way for #2. #3 is an option, though obviously not ideal.

Subject: Re: John MacK. flight

Option 1) I'm checkin on Dr.'s note,

Option 2) the USAID guidelines says that we can decide if medical conditions warrant it and we can document it (rather than a doctor's note) and I have an email from John saying that because **REDACTED** **REDACTED** - which could serve as our documentation.

Option 3) we can charge coach to PREDICT and cover the extra from unrestricted funds from EHA.

Let me know what you think and I can get back to Dr. MacKenzie.

Hi Billy. UCD has pretty strict rules regarding business class fare, but we can do it if the person has a note from their doctor indicating business class fare is needed to accommodate a medical condition, or if they are required to travel overnight without the opportunity for normal rest before beginning work. Do either of these apply?

Thanks,

Liz

Travel Requests:

1. EcoHealth Alliance would like to request travel approval for Jon Epstein to travel from New York, NY, USA to Monrovia, Liberia from February 19-24, 2017 to meet with the PREDICT global team.

Trip Purpose: Dr. Jon Epstein will meet with PREDICT-2 in-country management team, visit LIBR, meet with USAID mission, and liaise with our PREDICT global team lab leads.

2. EcoHealth Alliance would like to request travel approval for Patrick Dawson to travel from New York, NY, USA to Amman, Jordan from February 24-28, 2017 to develop strategic partnerships at an EPT-2 meeting.

Trip purpose: Mr. Dawson will be attending the high-level meeting to discuss EPT-2 work in Jordan with representatives from the Ministries of Health, Agriculture, and Environment.

3. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from Johannesburg, South Africa to Amman, Jordan from February 24-28, 2017 to develop strategic partnerships at an EPT-2 meeting.

Trip purpose: Dr. Karesh will be attending the high-level meeting to discuss EPT-2 work in Jordan with representatives from the Ministries of Health, Agriculture, and Environment.

4. EcoHealth Alliance would like to request travel approval for Allison White to travel from New York, NY, USA to Addis Ababa, Ethiopia from February 18-24, 2017 to participate in regional meeting of the African Sustainable Livestock 2050 project.

Trip purpose: This meeting aims to liaise with national governments to support the development of the project, as well as discuss potential implications of future livestock market development on health, environment, and socioeconomic aspects. Ms. White will be attending the Livestock Systems and Public Health Working Group meeting.

5. Metabiota would like to request travel approval for Beth Edison, Program Manager, to travel from Nanaimo, British Columbia, Canada to Kinshasa, Democratic Republic of Congo from March 19-25, 2017 to support the DRC team on financial reports and administrative functions within the PREDICT program.

Trip purpose: Beth Edison will work closely with the in-country team to evaluate and work with the administration on financial reports and to involve and support James Ayukekbong on these aspects.

6. Metabiota would like to request travel approval for Ashley Lucas, Clinical Specialist, to travel from Cape Town, South Africa to Brazzaville, Republic of Congo from March 6-17, 2017 to review human surveillance strategy with the in-country team, complete hospital surveillance training and begin implementation in hospital, and implement a plan for animal surveillance. From Brazzaville, Republic of Congo, she will travel to Kinshasa, Democratic Republic of Congo from March 18-22, 2017 to review human surveillance strategy with the in-country team and visit field surveillance sites.

Trip purpose: RoC – On January 11, 2017, the IRB for the Republic of Congo was approved. In order to begin human behavioral surveillance, and evaluate capacity for human syndromic surveillance, Ashley Lucas and James Ayukekbong will work with the behavioral team on beginning human surveillance in bush meat markets and implement a plan for concurrent animal surveillance. The team will also visit a proposed human syndromic surveillance site in Brazzaville, to assess capacity and identify collaborating staff. DRC – Ashley Lucas and James Ayukekbong will work closely with the in-country team to evaluate and revise the human and animal surveillance strategy, and visit human syndromic surveillance sites.

7. Metabiota would like to request travel approval for James Ayukekbong, Central African Coordinator, to travel from Nanaimo, British Columbia, Canada to Yaoundé, Cameroon from February 27-March 5, 2017 to review human surveillance strategy with the in-country team and implement a plan for animal surveillance. From Yaoundé, Cameroon, he will travel to Brazzaville, Republic of Congo from March 6-17, 2017 to review human surveillance strategy with the in-country team and visit field surveillance sites. From Brazzaville, Republic of Congo, he will travel to Kinshasa, Democratic Republic of Congo from March 18-24, 2017 to visit human syndromic surveillance sites.

Trip purpose: Cameroon – James Ayukekbong and Dr. Karen Saylor will work closely with the in-country team to evaluate and revise the human and animal surveillance. Dr. Saylor will introduce James as the new Central African Coordinator to the PREDICT Cameroon team. RoC – On January 11, 2017, the IRB for the Republic of Congo was approved. In order to begin human behavioral surveillance, and evaluate capacity for human syndromic surveillance, James Ayukekbong and Ashley Lucas will work with the behavioral team on beginning human surveillance in bush meat markets and implement a plan for concurrent animal surveillance. The team will also visit a proposed human syndromic surveillance site in Brazzaville, to assess capacity and perform training of the staff as well as initial roll out of participants. James and Charles from DRC will perform refresher training sessions for Fabien, the lab lead. DRC – James Ayukekbong and Ashley Lucas will work closely with the in-country team to evaluate and revise the human and animal surveillance strategy, and visit human syndromic surveillance sites.

8. Metabiota would like to request travel approval for Dr. Karen Saylor to travel from San Francisco, CA, USA to Yaoundé, Cameroon from February 27-March 4, 2017 to review human surveillance strategy with the in-country team and visit field surveillance sites.

Trip purpose: Dr. Saylor and James Ayukekbong will work closely with the in-country team to evaluate and revise the human and animal surveillance. Dr. Saylor will introduce James as the new Central African Coordinator to the PREDICT ROC team and will work with Mat LeBreton to orient the new PREDICT Country Coordinator for Cameroon, as well as to work with the identified behavioral team lead in Yaoundé.

9. The Smithsonian Institution would like to request travel approval for Dr. Marc Valitutto to travel from Washington, DC, USA to Yangon, Myanmar for the period of February 24-April 14, 2017 to continue building lab capacity, attend meetings, coordinate a sampling trip with FAO, and finalize training for in-country staff.

Trip purpose: Dr. Valitutto will be in charge of continued capacity building of the laboratories, sitting for the ERC hearing, organizing a collaborative sampling trip with FAO in Hpa An, attending a collaborative meeting with WHO for human surveillance, and finalizing training for in-country staff.

10. UC Davis would like to request travel approval for Ismaila Kane to travel from Dakar, Senegal to Kigali, Rwanda from February 19-24, 2017 to attend fieldwork training with the PREDICT Rwanda team.

Trip purpose: Ismaila Kane will attend a field sampling trip and be trained in the safe capture and sampling of wildlife under the mentorship of Dr. Julius Nziza. In addition, Ismaila will gain an insight into the roles and responsibilities of a Country Coordinator, including project management and stakeholder communication.

Hope this doesn't cause tension within the project....

To further clarify my position:

- * Participation in meetings to present on what Predict has accomplished is okay (eg Australia GHS).
- * Doing outreach to others is okay if linked to existing trips related to wrapping up activities in countries.
- * At this point, separate trips to do only outreach are not a high priority for me.

Subject: Re: PREDICT International Travel Requests

Thanks, Katie.

I'm going to say no to this travel request because 1) while it may be nice to do, it doesn't sound essential for the Predict mission, and 2) we're at a stage with uncertainty about funding where I think it would be wise to save funds for only the most essential activities including those related to completing countries activities.

I will judge future travel requests over the next five months using the same criteria.

Hi Andrew,

Please see additional information from EHA below:

Attendees and participants of the Future Earth Health Knowledge-Action Network (KAN) hosted by Academia Sinica, the national academy in Taipei, are leaders in medicine, global health, business, and policy in Asia. Attending will give Peter the opportunity to network with these leaders and stakeholders about PREDICT to help shape the Health KAN research strategy for the next 3 years, and represent PREDICT partners to stress zoonotic disease surveillance and prevention. Wellcome Trust, Convention on Biological Diversity, UN Disaster Risk Reduction, UN Environment Programme, and more will be represented. Peter will be a moderating two group discussions, one about forming the Health KAN Research Agenda for the next 3 years and one about Funding Opportunities.

If you need anything further, please let me know.

Thank you,

Katie

Please find below international travel requests for your review and approval. Our apologies for the late submission of the ITA for Peter Daszak's travel to Taipei; per EHA, the meeting agenda only just became solidified. Please let me know if you have any questions. Thanks!

1. Daszak (Taiwan): \$11398 airfare *business class **REDACTED** \$278 (Taipei) max daily per diem
2. Kusumaningrum (USA): \$2000 airfare/\$329 (New York) max daily per diem
3. Saputro (USA): \$2000 airfare/\$329 (New York) max daily per diem

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from New York, NY, USA to Taipei, Taiwan from May 18-23, 2019 to attend the FutureEarth Launch of the Health-Knowledge Action Network.

Trip purpose: Dr. Daszak's attendance at the FutureEarth meeting will be a valuable opportunity to have international representation for PREDICT-2. The FutureEarth Group is specifically interested to know more about PREDICT-2. **The conference organizers will reimburse Dr. Daszak for his economy flight equivalent*

cost estimated at \$1,853; above estimated airfare cost reflects the PREDICT portion.

2. EcoHealth Alliance (EHA) would like to request travel approval for Ms. Tina Kusumaningrum to travel from Jakarta, Indonesia to New York, NY, USA from June 7-22, 2019 for training in human behavioral analysis, PREDICT data analysis and manuscript preparation.

Trip purpose: In New York, Ms. Kusumaningrum will visit EcoHealth Alliance headquarters where she will receive training in human behavioral qualitative data coding and analysis. She will work in collaboration with the EHA team to analyze PREDICT behavioral data from Indonesia and write scientific papers.

3. EcoHealth Alliance (EHA) would like to request travel approval for Dr. Suryo Saputro to travel from Jakarta, Indonesia to New York, NY, USA from June 29 to July 26, 2019 for modeling and analytics training, PREDICT data analysis and manuscript preparation.

Trip purpose: In New York, Dr Saputro will visit EcoHealth Alliance headquarters where he will receive training in phylogeny, modeling and analytics. He will work in collaboration with the EHA team to analyze PREDICT data from Indonesia and write scientific papers including Indonesia viral findings.

On Dec 22, 2017, at 1:25 AM, Katherine Leasure <kaleasure@ucdavis.edu> wrote:

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Machalaba, Karesh (Liberia): \$1600 (Machalaba), \$6000 (Karesh) airfare *business class fare
REDACTED/\$295 (Monrovia) max daily per diem
2. Machalaba (Switzerland): \$1300 airfare/\$478 (Geneva) max daily per diem
3. Thuy (Bangkok): \$200 airfare/\$246 (Bangkok) max daily per diem
4. Karesh (France): \$7500 airfare *business class required due to medical need/\$608 (Paris) max daily per diem

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh and Ms. Catherine Machalaba to travel from New York City, NY, USA to Monrovia, Liberia from January 14-20, 2018 to conduct a ground-truthing and initial pilot of the World Bank Capacity Assessment for Environmental Health Services (a tool developed with technical support from PREDICT partners).

Trip Purpose: The pilot will include a workshop with relevant ministries (those responsible for health, agriculture, environment, and disaster risk reduction) and targeted ministry meetings to review the draft tool and collect information sources for the assessment. The tool complements animal and human health system capacity assessments (WHO's Joint External Evaluation and OIE Performance of Veterinary Services) to reinforce country ability to more effectively and proactively assess and manage environmental health risks, including drivers of disease emergence. Capabilities for wildlife health services are emphasized. The tool strongly promotes One Health approaches and can help broaden application of best practices learned from PREDICT-2 operations. Dr. Karesh and Ms. Machalaba will oversee the pilot of the tool in partnership with colleagues from the World Bank.

2. EcoHealth Alliance would like to request travel approval for Ms. Catherine Machalaba to travel from New York City, NY, USA to Geneva, Switzerland from February 25 to March 1, 2018 to participate in the WHO-FAO-OIE Tripartite Zoonoses Guide expert workshop.

Trip Purpose: Ms. Machalaba serves on working groups for the Guide's Planning and Preparedness and Joint Risk Communication and Risk Reduction chapters and has been invited to the February meeting to help finalize the Guide. The Guide incorporates strategies from the PREDICT project, including information sourced from One Health case studies assembled from EPT-2 partners.

3. Wildlife Conservation Society (WCS) would like to request travel approval for Ms. Hoang Bich Thuy to travel from Ha Noi, Viet Nam to Bangkok, Thailand from January 31, 2018 to February 3, 2018 to

participate in the Prince Mahidol Award Conference 2018 on "Making the World Safe from the Threats of EIDs."

Trip purpose: The conference will provide a sharing and learning forum for multi-sectoral experts in zoonosis and AMR, as well as climate change and related environmental fields. Ms. Thuy will be one of the panelists to represent WCS and its PREDICT work on impacts of human travel and trade in animal products and their influence on emerging disease dynamics.

4. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York City, NY, USA to Paris, France from January 22-25, 2018 to participate in the World Organisation for Animal Health's (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat.

Trip purpose: Dr. Karesh will participate in World Organisation for Animal Health's (OIE) ad hoc group. This meeting is a follow up to a meeting held in August with the aim of setting health and IACUC related standards for wildlife farming for OIE code purposes. The farming of wildlife presents opportunities for the emergence of infectious diseases due to the unusual and unnatural groupings of species unnatural habitats in contact with other species in humans that does not occur in the wild. OIE is working to develop standards and codes for countries to follow that will reduce the risk of disease emergence in both animals and humans. Since good standards such as used in the US in IACUC process also lend themselves to disease risk reduction OIE provides an opportunity to promote similar standards in countries where best practices are currently not being utilized. **The OIE will provide funds for Dr. Karesh's economy fare and per diem expenses for this meeting.*

1. Karesh (France): \$7500 airfare *business class required **REDACTED** \$608 (Paris) max daily per diem
2. Gillis (DRC): \$1535 airfare/\$394 (Kinshasa) max daily per diem
3. Laudisoit (CIV): \$2225 airfare/\$344 (Abidjan) max daily per diem

Travel Requests –

1. 1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, NY, USA to Paris, France from December 3-8, 2018 to speak at the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting.

Trip purpose: Dr. Karesh is to participate in the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting, for which he serves as Chairman. The OIE Working Group on Wildlife advises the OIE on all health problems relating to wild animals, including emerging disease events and reporting guidelines. Dr. Karesh will have the opportunity to meet with OIE staff to discuss these and other priority topics.

2. Metabiota would like to request travel approval for Amethyst Gillis, PREDICT Laboratory QAQC Coordinator to travel from Yaounde, Cameroon to Kinshasa, Democratic Republic of Congo from December 16-22, 2018 to support PREDICT-2 laboratory activities.

Trip purpose: In Kinshasa, Ms. Gillis will support laboratory activities, complete pending barcoding, organize freezers and supplies in preparation for the end of the PREDICT-2 project and organize and prepare samples for shipments.

3. EcoHealth Alliance would like to request travel approval for Dr. Anne Laudisoit to travel from New York, NY, USA to Abidjan, Cote d'Ivoire from December 13-21, 2018, for PREDICT CIV sample screening follow-up, official meetings with One Health stakeholders, Y5 training planning, and to attend the mission invited USAID EPT2/GHSA/Ebola Prep Partner Meeting.

Trip purpose: Dr. Laudisoit will visit the IPCI PREDICT laboratory and hold a meeting with the joint IPCI-LANADA team. She will meet the new laboratory supervisor in charge of plate sequencing, discuss progress and assess reagents needs. While in CIV, Anne will conduct a site performance assessment at IPCI, Adiopodoume. She will also provide training to enter results and sequences into EIDITH. On this visit,

the team will plan activities for 2019 (January - September), in particular, timing for training and workshops in the concurrent site and clinics in Bonon and Bouafle. They will also make sure samples for the serology study are selected and ready to be shipped with ideal route and courier identified. Dr. Laudisoit will also attend the USAID EPT2/GHSA/Ebola partner meeting on December 20th.

Hi Liz,

I am not rejecting the change, but I won't approve it until I see a decent explanation from EHA on why the original estimate for airfare for PD went from \$7,500 (Bali only) to \$18,920 (Bali + the country next door). Doesn't look like the travel person did a very good job of shopping around for best price.

Thanks, Katie.

The airfare seems very high considering the trip is essentially one trip to Asia with an add-on to a neighboring country. I would have expected something more in the 10k range based on other BC travel requests over the years. It also feels like EHA consistently comes in with higher BC fares than other partners, but I have not done an analysis.

On Thu, Mar 30, 2017 at 4:59 PM, Katherine Leasure <kaleasure@ucdavis.edu> wrote:

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

1. Zimmerman (Kenya): \$1,500 airfare/\$410 (Nairobi) max daily per diem
2. Mazet (India, New Zealand): \$12,000 airfare (*business class required due to medical need*)/ \$474 (Bangalore), \$400 (Delhi) \$259 (Rotorua) max daily per diems

Travel Requests:

1. The Smithsonian Institution would like to request travel approval for Dr. Dawn Zimmerman to travel from Washington, DC, USA to Nairobi, Kenya for the period April 23 to May 5, 2017 to help with sample collection and meet with partners. **Revised ITA for postponed travel; previously submitted February 10 for travel to Kenya March 17 to April 3, 2017.*

Trip purpose: Dr. Zimmerman will participate in an animal sampling trip in Turkana, as well as attend meetings with partners, including: International Livestock Research Institute, Department of Veterinary Services, Kenya Wildlife Service, Insect Physiology and Ecology (ICIPE), Mpala Ranch, and the Institute of Primate Research.

2. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from Davis, California, USA to Bangalore and Delhi, India from April 24 to May 1, 2017 to meet with PREDICT project partners and discuss ongoing and future project strategies. From Delhi, India, she will travel to Rotorua, New Zealand from May 2-5, 2017 to serve as keynote speaker at the 2017 International Conference on Animal Health Surveillance.

Trip purpose: India – Dr. Mazet will travel to India in order to meet with PREDICT partners to discuss ongoing activities in country, as well as coordinate the implementation of future sampling, surveillance, and diagnostic strategies. New Zealand – Dr. Mazet will serve as keynote speaker, with her talk on “Moving from a reactive to preventive paradigm for infectious disease surveillance.” **Airfare cost for travel to India will be split with other UC Davis funds, as part of Dr. Mazet’s travel will be related to a smaller research project. A travel allowance from conference organizers will cover a portion of the travel costs associated with Dr. Mazet’s travel to New Zealand.*

2. Kamau (USA): \$1420 airfare/\$196 (Davis) max daily per diem
3. Hussein (USA): \$1500 airfare/\$196 (Davis) max daily per diem
4. Mazet (Tanzania): \$8300 airfare *business class required due to REDACTED /\$309 (Dar es Salaam), \$157 (Other) max daily per diems

Travel Requests –

1. The Smithsonian Institution would like to request travel approval for Dr. Ohnmar Aung to travel from Yangon, Myanmar to Davis, California, USA for the period of June 3-14, 2019 to participate in the PREDICT Data Conference.

Trip Purpose: Dr. Aung will represent the Smithsonian PREDICT-2 team at the conference. She will be attending all planned sessions for the duration of the conference.

2. The Smithsonian Institution would like to request travel approval for Mr. Joseph Kamau to travel from Nairobi, Kenya to Davis, California, USA for the period of June 4-22, 2019 to participate in the PREDICT Data Conference, and for additional serology laboratory training following the conference.

Trip Purpose: Mr. Kamau will represent the Smithsonian PREDICT-2 team at the conference. He will be attending all planned sessions for the duration of the conference. He will also have additional serology laboratory training after the conference.

3. The Smithsonian Institution would like to request travel approval for Ms. Fatima Hussein to travel from Nairobi, Kenya to Davis, California, USA for the period of June 4-14, 2019 to participate in the PREDICT Data Conference

Trip Purpose: Ms. Hussein will represent the Smithsonian PREDICT-2 team at the conference. She will be attending all planned sessions for the duration of the conference.

4. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from Davis, California, USA to Dar es Salaam, Tanzania from July 10-21, 2019 to meet with the PREDICT-2 Tanzania team for project oversight and successful completion of close out procedures.

Trip purpose: Dr. Mazet, Director of the PREDICT project, will travel to Dar es Salaam, Mafia Island, and Ruaha communities in Tanzania to meet with the PREDICT-2 Tanzania team and collaborate on an implementation strategy for community data dissemination. Dr. Mazet will also meet with PREDICT's implementing partners at Sokoine University of Agriculture (SUA) and other host country partners, to be determined. This trip will also serve as an opportunity for Dr. Mazet to plan and coordinate with the in-country team and partners on budgets for Year 5 closeout, as well as participate in the final capacity strengthening program for PREDICT-Tanzania and associated in-country staff scientists.

Please find below international travel requests for your review and approval. Our apologies for the late submission for Catherine Machalaba; we were delayed resolving questions with the partner. Please let me know if you have any questions. Thanks!!

1. Machalaba (Switzerland): \$3,000 airfare/\$460 (Geneva) max daily per diem
2. Obodai (Uganda): \$1,000 airfare/\$280 (Entebbe), \$110 (Buhoma) max daily per diems
3. White, Johnson (Indonesia): \$100 airfare each/\$362 (Jakarta) max daily per diem
4. Gutierrez Jimenez (Liberia): \$1,400 airfare/\$295 (Monrovia) max daily per diem
5. Mazet (Tanzania): \$7,000 airfare *business class fare required due **REDACTED** // \$309 (Dar es Salaam) max daily per diem

Travel Requests:

1. EcoHealth Alliance would like to request travel approval for Ms. Catherine Machalaba to travel from New York City, NY, USA to Geneva, Switzerland from May 3-5, 2017 to attend the WHO-UNEP CBD Liaison Group on Health and Environment.

Trip purpose: Ms. Machalaba will attend the WHO-UNEP CBD Liaison Group on Health and Environment at WHO headquarters. Agenda items will include best practice guidance to inform One Health toolkits for countries. While in Geneva she will also participate in a meeting with colleagues from WHO's One Health office on May 3 to discuss avenues for enhancing wildlife considerations in the WHO IHR Monitoring and Evaluation framework's Joint External Evaluation and follow-up country planning for health security.

2. UC Davis would like to request travel approval for Dr. Evangeline Obodai to travel from Accra, Ghana to Entebbe and Buhoma, Uganda from May 13-20, 2017 for human disease surveillance training.

Trip purpose: Dr. Obodai will participate in training on PREDICT human disease surveillance protocols with the PREDICT Uganda human disease surveillance coordinator.

3. EcoHealth Alliance would like to request travel approval for Erica Johnson and Allison White to travel from Kuala Lumpur, Malaysia to Jakarta, Indonesia from May 10-12, 2017 for meetings with INDOHUN team regarding modeling collaboration.

Trip purpose: The trip will provide an opportunity for the EHA team to meet with the INDOHUN team to launch the project collaboration, including data sharing and project planning activities. **Departure from Malaysia as travelers will be there for other IDEEAL work (separate funding source)*

4. EcoHealth Alliance would like to request travel approval for Dr. Leticia Gutiérrez Jiménez to travel from New York, NY, USA to Monrovia, Liberia from May 9-25, 2017 for rodent/bat training and field sampling in Liberia, and meetings with the PREDICT-2 Liberia team.

Trip purpose: Dr. Gutiérrez Jiménez will meet with Country Coordinator, Dr. Jim Desmond, regarding PREDICT-2 field activities. She will conduct rodent sampling training and bat sampling, and provide veterinary and ecological support to the PREDICT-2 Liberia team for implementing the new rodent sampling guidance.

5. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from Sacramento, California, USA to Dar es Salaam, Tanzania from June 2-18, 2017 for meetings with project partners, laboratory and field site visits, and training for PREDICT staff.

Trip purpose: Dr. Mazet will meet with project partners at Sokoine University of Agriculture and Ifakara Health Institute. She will also visit labs and field headquarters to meet with teams and engage in further capacity building.

Thanks.

In the future, I only need to see the amount Predict will be spending from USAID funding. But keep track of the cost share to document collaboration with other partners.

Karesh travel to Canada approved.

Li, Simon, Dawson travel approved subject to mission concurrence.

I'd like additional information on Karesh travel to Jordan. Airfare is \$6,000 including the DTRA cost share? If so, please subtract the DTRA share. If \$6,000 is just the USAID part of the cost share, please include additional information to justify the cost.

Thanks

On Wed, Jan 24, 2018 at 2:27 AM, Katherine Leasure <kaleasure@ucdavis.edu> wrote:

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Belkhiria (Guinea): \$650 airfare/\$327 (Conakry) max daily per diem
2. Karesh, Laudisoit, Gutierrez-Jimenez (RoC): \$2,500 Economy, \$7,500 Business **required for Dr. Karesh due to REDACTED* \$392 (Brazzaville) max daily per diem
3. Francisco, Hagan, Epstein, Watson (Bangladesh): \$1700 airfare each/\$290 (Dhaka), \$144 (Other) max daily per diems
4. Dawson (Jordan): \$1100 airfare/\$390 (Amman) max daily per diem

Travel Requests –

1. UC Davis would like to request travel approval for Dr. Jaber Belkhiria to travel from Tunis, Tunisia to Conakry, Guinea from February 12-26, 2018 to coordinate a laboratory training and field sampling.

Trip Purpose: In Conakry, Dr. Belkhiria will assist and coordinate the laboratory training at the Viral Hemorrhagic Fever Laboratory which will include staff from UC Davis (Dr. Alexandrew Tremeau-Bravard), staff from the Laboratoire Central de diagnostique Vétérinaire and Laboratory of National Institute of Public Health. In Nzerekore, Dr. Belkhiria will assist and coordinate the field sampling.

2. EcoHealth Alliance would like to request travel approval for William Karesh, Anne Laudisoit and Leticia Gutierrez-Jimenez to travel from New York City, NY, USA to Brazzaville, Republic of Congo from February 24 to March 2, 2018 to meet with PREDICT Republic of Congo project collaborators and local ministry officials.

Trip purpose: Drs. Karesh, Laudisoit and Gutierrez-Jimenez will be attending meetings with collaborators now that subawards have been approved to discuss plans for animal sampling and evaluate the laboratory by testing equipment for quality assurance. There will also be meetings with the ministries of Health and Agriculture to finalize working agreements.

3. EcoHealth Alliance would like to request travel approval for Dr. Leilani Francisco, Emily Hagan, Dr. Jon Epstein, and Brooke Watson to travel from New York City, NY, USA to Dhaka, Bangladesh, from March 8-16, 2018, to conduct human surveillance site visits with the local PREDICT human surveillance team and other implementing partners.

Trip Purpose: In their roles as Global Director of Behavioral Risk Surveillance for PREDICT-2, Behavioral Risk Research Coordinator, Country Lead for Bangladesh for PREDICT-2, and Research Scientist, respectively, Dr. Francisco, Ms. Hagan, Dr. Epstein, and Ms. Watson will be meeting with implementing partners, key stakeholders, and surveillance team members in community and hospital sampling sites in Bangladesh to review current practices and to provide guidance and support in ensuring robust adherence to the data collection protocol. Dr. Francisco, Ms. Hagan, Dr. Epstein, and Ms. Watson will be meeting extensively with the members of the country team involved in human surveillance to identify topics or areas of concern with regard to data collection and analysis, and to provide refresher trainings accordingly.

4. EcoHealth Alliance would like to request travel approval for Patrick Dawson to travel from New York City, NY, USA to Amman, Jordan from March 8-14, 2018 to train the PREDICT Jordan human community surveillance team on two new modules being implemented for Year 4.

Trip Purpose: Mr. Dawson will train the PREDICT Jordan human community surveillance team in administering two new modules (camel exposure module & camel work module) which are planned for immediate implementation following IRB approval. These new modules are developed specifically for Jordan to provide key epidemiological data to address hypotheses about the risk of Middle East Respiratory Syndrome Coronavirus (MERS-CoV) from different exposure types to camels, as well as inform the Jordanian health community about which biosafety measures would be easiest to implement for those who work with camels to reduce their risk of viral infections from camels. Mr. Dawson developed the new modules and will need to train the Jordan team on how to integrate the new modules into their work flow, how to properly follow the skip patterns in the questionnaire, how to perform data quality checks, and how to store the data.

1. Suu-Ire (USA): \$1,500 airfare/\$341 (New York City) max daily per diem
2. Daszak (RoC, CIV, South Korea): \$19,120 airfare **business class required* REDACTED // \$305 (Brazzaville), \$330 (Abidjan), \$373 (Seoul) max daily per diems
3. Karesh, Gutierrez Jimenez, Francisco (RoC, CIV): \$10,000 airfare **business class required for Dr. Karesh* REDACTED \$3,000 airfare each for economy class/\$305 (Brazzaville), \$330 (Abidjan) max daily per diems
4. Karesh (France): \$10,000 airfare **business class required* REDACTED // \$464 (Paris) max daily per diem
5. Latinne (Indonesia): \$900 airfare/\$146 (Sulawesi) max daily per diem
6. Goldstein (Germany): \$1,600 airfare/\$278 (Marburg) max daily per diem

Travel Requests:

1. EcoHealth Alliance would like to request travel approval for Dr. Richard Suu-Ire to travel from Accra, Ghana to New York, NY USA from July 5 to August 5, 2017 for a PREDICT Modeling & Analytics Fellowship.

Trip purpose: This fellowship is part of PREDICT's efforts to provide capacity development for country partners in modeling and analytical skills. Dr. Suu-Ire, the field team lead for PREDICT Ghana Coordinator, will gain valuable modeling skills and experience in habitat suitability, ecological niche modeling, and creating zoonotic disease risk maps.

2. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, NJ, USA to Brazzaville, Republic of Congo from July 7-10, 2017 and then on to Abidjan, Cote d'Ivoire from July 11-14, 2017 to meet with partners and assist with the transition of work PREDICT work to EcoHealth Alliance. From Abidjan, Cote d'Ivoire, Dr. Karesh will travel to Seoul, South Korea from July 15-20, 2017 to present GVP work at the US-South Korea Workshop on International Wildlife Diseases, and to meet with South Korean organizations.

Trip purpose: RoC – Dr. Daszak will be meeting with the RoC Mission and local partners to ensure a smooth transition from Metabiota to EcoHealth Alliance. Cote d'Ivoire – Dr. Daszak will meet with the USAID Mission and visit field sites in Abidjan. South Korea – Dr. Daszak will be presenting “The Global Virome Project (GVP): Making the 21st century safe from the threat of emerging viral threats,” and participating in a Q&A session at the Workshop on International Wildlife Disease in South. Dr. Daszak will also be meeting with directors from the Ministry of Health and Ministry of Agriculture to discuss funding the project as well as other science organizations.

3. EcoHealth Alliance would like to request travel approval for Drs. William Karesh, Leticia Gutiérrez Jiménez, and Leilani Francisco to travel from New York, NY, USA to Brazzaville, Republic of Congo from July 7-10, 2017 and then on to Abidjan, Cote d'Ivoire from July 11-15, 2017 to set up and strengthen local partnerships to begin and/or transition PREDICT work with EcoHealth Alliance.

Trip purpose: RoC – Drs. Karesh, Gutiérrez Jiménez, and Francisco will be travelling with fellow EcoHealth Alliance colleagues to Brazzaville on a scoping visit to meet with potential partners to begin setting up PREDICT operations within the country. The exact itinerary is still being developed. Cote d'Ivoire – Drs. Karesh, Gutiérrez Jiménez, and Francisco will then travel to Abidjan to continue the scoping trip, visiting with

existing PREDICT partners to transition to working with EcoHealth Alliance including visits with the Mission, Institut Pasteur, LANADA, a possible site visit, and a community engagement event on July 13.

4. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, NY, USA to Paris, France from July 16-20, 2017 to participate in the World Organisation for Animal Health's (OIE) ad hoc group on the transport of biological materials.

Trip purpose: Dr. Karesh will participate in the World Organisation for Animal Health's (OIE) ad hoc group on the transport of biological materials. Dr. Karesh will present on relevant challenges in wildlife disease surveillance, including the transport of emergency diagnostic specimens from endangered species and the current work with the CITES Secretariat and member states to find an acceptable solution to facilitate rapid diagnosis of wildlife morbidity and mortality events of potential public health importance.

5. EcoHealth Alliance would like to request travel approval for Dr. Alice Latinne to travel from Bangkok, Thailand to Southeast and West Sulawesi, Indonesia from July 20 to August 4, 2017 for field work with in-country partners.

Trip purpose: In Southeast and West Sulawesi, Dr. Latinne will assist the PREDICT Indonesia team in field sampling (rodents and bats).

6. UC Davis would like to request travel approval for Dr. Tracey Goldstein to travel from Sacramento, CA, USA to Marburg, Germany from September 12-17, 2017 to present at the 9th International Filovirus Symposium.

Trip purpose: Dr. Goldstein will attend and present PREDICT data at the 9th International Filovirus Symposium. The presentation title is not available at this time, as the data to be presented is currently pending approval for release. Although we anticipate approval will be in place prior to the conference, should Dr. Goldstein be unable to present PREDICT data, her travel costs would be supported on non-PREDICT funds.

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Hongying Li to travel from Newark, New Jersey, USA to Beijing, Kunming, Guangzhou, and Guangdong, China from September 4-20, 2018 to attend scientific meetings and PREDICT field work.

Trip purpose: On September 6-7, Li will attend the Scientific Workshop on Viral Respiratory Disease co-hosted by the National Institutes of Health and Chinese Academy of Medical Sciences (PREDICT in-country partner) in Beijing; from September 8-16, Li will join the PREDICT field data collection in Yunnan (human surveillance) and Guangdong (bat surveillance) provinces with local team; from September 17-19, Li will attend the World Conference on Science Literacy hosted by China Association for Science and Technology on the parallel session hosted by China CDC on “Science Literacy, Sustainable Development of Global Public Health” to share success stories from PREDICT.

2. EcoHealth Alliance would like to request travel approval for Dr. Yasha Feferholtz to travel from New York, NY, USA to Jakarta, Indonesia from September 6-22, 2018 to meet with INDOHUN partner and working in data analysis and economic modeling of DEAL project.

Trip purpose: Dr. Feferholtz will meet with INDOHUN coordinator and principal investigator Dr. Wiku Adisasmito, co-investigator Dr. Lilis Heri Mis Cicih, project specialist Miss. Nurul Maretia Rahmayanti, and M&E and data specialist Miss Nisa Vidya Yuniarti to develop data analysis and economic modeling for DEAL project.

3. UC Davis would like to request approval for Jennifer Lane to travel from Davis, CA, USA to Addis Ababa, Ethiopia from September 8-21, 2018 to support the PREDICT Ethiopia team with concurrent human and wildlife surveillance and training activities. *Dr. Lane will travel to Georgia for other projects from September 9-13, supported by other funding. The days she will be in Ethiopia for PREDICT activities will be September 13-21.

Trip Purpose: Dr. Lane, PREDICT East Africa Field Veterinarian, will provide programmatic support to the PREDICT Ethiopia team and country coordinators during her trip. She will work with partners Addis Ababa University (AAU) and the Ethiopian Public Health Institute (EPHI) in their combined concurrent surveillance activities. Dr. Lane will be visiting the field sites to participate in the final rounds of concurrent human and wildlife surveillance, as well as working with laboratory teams to facilitate sample organization in anticipation of sample export for confirmatory testing.

4. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from San Francisco, CA, USA to Ulaanbaatar, Mongolia from September 17-22, 2018, for meetings with in-country PREDICT team members and other EPT partners. **Dr. Mazet will travel to Denmark for a speaking engagement September 22-25 (supported by other funding), before returning to California.*

Trip purpose: In Mongolia, Dr. Mazet will conduct meetings with implementing partners of PREDICT-2 Mongolia and government officials, to be determined. She will also attend a field sampling trip with the field team and country coordinator, Dr. Enkhtuvshin Shiilegdamba. Dr. Mazet will also use this opportunity to meet with the PREDICT-2 Mongolia team and collaborate on an implementation strategy for community data dissemination and outreach.

5. UC Davis would like to request travel approval for Dr. Tracey Goldstein to travel from New York, NY, USA to Vienna, Austria from Nov 8- Nov 12, 2018 to present at the International Meeting on Emerging Diseases and Surveillance (IMED) meeting. From Vienna, Austria she will return to Davis, CA, USA.

Trip purpose: Dr. Goldstein will give a talk on the Bombali virus if the late breaker abstract is accepted for a presentation at IMED.

6. UC Davis would like to request approval for Veasna Duong to travel from Phnom Penh, Cambodia to Bali, Indonesia from October 27 to November 5, 2018 to present in the PREDICT session at the Wildlife Disease Association Australasian Section's meeting.

Trip Purpose: Dr. Veasna Duong will travel to Indonesia to present on the PREDICT project's work and findings in Cambodia during a PREDICT session being held as part of the Wildlife Disease Association Australasian Section's meeting in Bali.

7. UC Davis would like to request approval for Vibol Hul to travel from Phnom Penh, Cambodia to Bali, Indonesia from October 27 to November 5, 2018 to join the PREDICT session at the Wildlife Disease Association Australasian Section's meeting.

Trip Purpose: Mr. Vibol Hul will travel to Indonesia to participate, on behalf of PREDICT Cambodia, in the PREDICT session being held as part of the Wildlife Disease Association Australasian Section's meeting in Bali.

Subject: PREDICT International Travel Requests

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

1. Gillis (USA, Canada): \$2,088 airfare/\$341 (San Francisco), \$221 (Nanaimo) max daily per diems
2. Epstein (Malaysia, Thailand): \$1,079 airfare/\$140 (Sabah), \$246 (Bangkok) max daily per diems
3. Keatts (Cambodia): \$2,500 airfare/\$236 (Phnom Penh) max daily per diems
4. McIver (Laos, China): \$1,168 airfare/\$212 (Vientiane), \$407 (Guangzhou) max daily per diems
5. Ross (Italy): \$2,000 airfare/\$471 (Rome) max daily per diem
6. Li (China): \$3,625 airfare/\$377 (Beijing), \$241 (Kunming), \$407 (Guangzhou), \$241 (Wuhan) max daily per diems
7. Karesh (Italy): \$7,000 airfare (*business class required to accommodate medical need*)/\$471 (Rome) max daily per diems

Travel requests:

1. Metabiota would like to request travel approval for Amethyst Gillis to travel from Yaoundé, Cameroon to San Francisco, CA, USA from March 17 to April 1, 2017 for meetings to discuss PREDICT Year 3 workflow. From San Francisco, California, USA, she will travel to Nanaimo, BC, Canada from April 2-4, 2017 for meetings to discuss all aspects of the PREDICT program.
**Amethyst Gillis will take a personal holiday from April 4– 7, 2017, during which time she will be covering her own expenses.*

Trip purpose: USA – Ms. Gillis will meet with Eddy Rubin, Robert Mann and Karen Saylor to discuss PREDICT Year 3 workflow. Canada – Ms. Gillis will meet with the PREDICT team members, Regional Coordinators, and Program Manager and the IM team to discuss all aspects of the PREDICT program.

2. EcoHealth Alliance would like to request travel approval for Dr. Jonathan Epstein to travel from New York, NY, USA to Sabah, Malaysia from March 18-20, 2017 to meet with the PREDICT-2 Country Coordinator for Malaysia. From Sabah, Malaysia, he will travel to Bangkok, Thailand from March 21-22, 2017 to meet with the Regional Development Mission in Asia (RDMA).

Trip purpose: Malaysia - Dr. Epstein will meet with Country Coordinator, Tom Hughes, and government partners to discuss PREDICT-2 activities and this year's workplan. Thailand - He will then travel to Bangkok for an informational outbrief regarding the countries of which he is the PREDICT-2 Regional Lead.

3. UC Davis would like to request travel approval for Dr. Lucy Keatts to travel from St. Thomas, US Virgin Islands to Phnom Penh, Cambodia from April 29 to May 7, 2017 to participate in coordination meetings and field surveillance in support of the PREDICT Country Coordinator for Cambodia.

Trip purpose: Dr. Keatts will travel to Cambodia to meet with government and non-governmental partners regarding coordination of PREDICT-2 sampling activities, and will oversee and offer technical guidance for the concurrent sampling of human, livestock, and wildlife planned for May 1-5, 2017 in a bat guano farming community in Kampong Cham Province.

4. Metabiota would like to request travel approval for Dr. David McIver to travel from Nanaimo, British Columbia, Canada to Vientiane, Laos from March 24-30, 2017 to meet with in country partners to discuss laboratory output, program management, and the development of human surveillance. From Vientiane, Laos, he will travel to Guangzhou, China from March 30 to April 1, 2017 to meet with program partners and implementing hospitals.

Trip purpose: Laos – In Vientiane, Dr. McIver will work with principle collaborators at both the National Animal Health Laboratory and the National Centre for Laboratory and Epidemiology to discuss issues

surrounding laboratory services, communication and collaboration strategy, and preparations for the commencement of human surveillance in Lao PDR. China – In Guangzhou, Dr. McIver will meet with key implementing partners at the Guangdong Center for Disease Control and the Guangdong Institute of Public Health to discuss the ongoing recruitment of participants in two hospitals in Guangdong province. Furthermore, he will be visiting the Tungwah Hospital, in Donggugan, to assess participant enrollment and discuss strategies for increasing enrollment, as well as balancing the enrollment of children and adults.

5. EcoHealth Alliance would like to request travel approval for Dr. Noam Ross to travel from New York, NY, USA to Rome, Italy from March 27-30, 2017 to collaborate with Ugo Pica Ciamarra at the Food and Agriculture Organization (FAO).

Trip purpose: Dr. Ross will work with Mr. Pica Ciamarra on the Africa Sustainable Livestock 2050 dynamic modeling.

6. EcoHealth Alliance would like to request travel approval for Hongying Li to travel from New York, NY USA to Beijing, Kunming, Guangzhou, and Wuhan, China from April 3 to May 31, 2017 for field coordination work and meetings with in-country partners in China.

Trip purpose: Hongying Li will be meeting with partners in Beijing for PREDICT surveillance work, and to work with local field coordinator, Dr. Guangjian Zhu, to assist the field work in Yunnan and Guangdong provinces. She will also meet with China Country Coordinator, Dr. Zhengli Shi, at Wuhan Institute of Virology for project updates and planning.

7. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, NY, USA to Rome, Italy from March 29-31, 2017 to develop strategic partnerships.

Trip purpose: This trip is part of Dr. Karesh's role as the Head of Technical Activity for Wildlife and as a member of the OFFLU Steering Committee. As EPT Liaison, it is important for Dr. Karesh to continue to promote and optimize collaborations of PREDICT-2 objectives and OIE activities and engage on influenza initiatives to promote global health security. The meeting will be attended by experts currently generating influenza surveillance data and research activities in avian and swine. Economy class travel and per diem expenses will be covered by OIE.

Subject: PREDICT International Travel Requests

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

1. Monagin (Guinea): \$8,742 *business class required due to medical need/\$327 (Conakry) max daily per diem
2. Kelly (Ghana): \$2,000 airfare/\$331 (Accra) max daily per diem
3. O'Rourke, O'Rourke (USA): \$479 each airfare/\$341 (San Francisco), \$179 (Davis) max daily per diems
4. Zambrana-Torrel (Colombia): \$590 airfare/\$411 (Cartagena de Indias) max daily per diem
5. Anthony (Malaysia): \$1400 airfare/\$263 (Kuala Lumpur) max daily per diem
6. Chmura (China): \$5,200 airfare/\$241 (Dali), \$377 (Beijing), \$407 (Guangzhou), and \$402 (Shanghai) max daily per diems
7. Zambrana-Torrel (China): \$2,000 airfare/\$377 (Beijing) max daily per diem
8. Karesh (France): \$8,000 *business class required due to medical need/\$568 (Paris) max daily per diem
9. Smith (Sierra Leone): \$2,500 airfare/\$319 (Freetown), \$221 (Makeni) max daily per diems
10. Tremeau-Bravard (Senegal, Rwanda): \$2,800 airfare/\$264 (Dakar), \$294 (Kigali) max daily per diems
11. Goldstein (Cambodia): \$3,300 airfare/\$236 (Phnom Penh) max daily per diem
12. Montecino (Tanzania): \$2,200 airfare/\$309 (Dar es Salaam), \$197 (Morogoro) max daily per diems

Travel Requests –

1. UC Davis would like to request travel approval for Dr. Corina Monagin to travel from Los Angeles, California, USA to Guinea, Conakry from July 22-29, 2017 for work plan and partner meetings related to the Ebola Host Project.

Trip purpose: Dr. Corina Monagin is traveling to Conakry as PREDICT Global Lead for the PREDICT program in Guinea. Dr. Monagin is planning to assist in transitioning the implementing partner from Metabiota to UC Davis. This will include meetings with Government Ministries (Health, Agriculture, Higher Education and Scientific Research), as well as in-country partners and stakeholders. She will be working with the PREDICT team on work plan, sampling strategy, as well as quality control of samples and data.

2. UC Davis would like to request travel approval for Dr. Terra Kelly to travel from Flagstaff, Arizona, USA to Accra, Ghana from August 5-12, 2017

Trip purpose: Dr. Terra Kelly will be traveling to Accra to meet with PREDICT implementing partners to discuss implementation of surveillance and diagnostic laboratory activities and scoping and planning for upcoming surveillance activities in Year 4. Dr. Kelly will also be conducting training for PREDICT human disease surveillance partners on questionnaire administration for the risk characterization and all laboratory partners on data entry and management in the EIDITH database for laboratory results reporting.

3. Metabiota would like to request travel approval for Tammie O'Rourke and Daniel O'Rourke to travel from Nanaimo, British Columbia, Canada to San Francisco, California, USA on August 23, 2017 to meet with PREDICT Senior Management. From San Francisco, California, USA, they will travel to Davis, California, USA from August 23 – 25, 2017 to meet with UCD global team and discuss USAID reporting and data extracts.

Trip purpose: In San Francisco, they will meet with PREDICT Senior Management to discuss PREDICT Information Management concerns, progress and issues. In Davis, they will meet with the UCD global team and discuss USAID reporting and data extracts and mapping to prepare for the PREDICT data meeting September 2017.

4. EcoHealth Alliance would like to request travel approval for Mr. Carlos Zambrana-Torrel to travel

from New York, New York, USA to Cartagena de Indias, Colombia from July 23-29, 2017, to attend and present at the International Congress for Conservation Biology.

Trip purpose: As part of continued work under the CBD-WHO Joint Work Programme, Mr. Zambrana-Torrelío will present on the indicators for health that links disease emergence and biodiversity loss and the One Health approaches operationalized by PREDICT-2. In addition, he will discuss on the methods and findings from the Deep Forest project to emphasize synergies in biodiversity and disease monitoring. Presentation title: "Integrating biodiversity in conservation planning for human health and well-being." Mr. Zambrana-Torrelío also was invited to participate in a workshop session on ecosystems and human health organized by the International Union for Conservation Nature.

5. EcoHealth Alliance would like to request travel approval for Simon Anthony to travel from New York, New York, USA to Kuala Lumpur, Malaysia from July 23-30, 2017 for in-country trainings with local partners and PREDICT staff.

Trip purpose: The purpose of this trip is to meet with local sequencing companies to discuss local implementation of new technologies developed at CII (VirCapSeq) (24th July). Dr. Anthony will also conduct a three-day training workshop with PREDICT staff at the National Public Health Lab (NPHL) on PCR, cloning and sequencing, as well as sequence analysis and assay design. Dr. Anthony will also conduct a one-on-one training with Mei Ho Lee in paper writing. Outcome: Enhanced local capacity for viral discovery, sequence analysis and assay design. Planning of PREDICT papers to be led by regional staff (Mei Ho Lee).

6. EcoHealth Alliance would like to request travel approval for Mr. Aleksei Chmura to travel from New York, New York, USA to Dali, Beijing, Guangzhou, and Shanghai China from July 31 to September 5, 2017 for meetings with in-country partners, field work, behavioral surveillance, and site selection work.

Trip purpose: Mr. Aleksei Chmura will meet with PREDICT-2 Field Coordinator Dr. Libiao Zhang at Guangxi Normal University in Guilin, and at our Partner Laboratory based at the Guangdong Entomological Institute in Guangzhou in Guangdong, as well as with Dr. Changwen Ke at the Guangdong CDC in Guangzhou. Dr. Zhu and Mr. Chmura will meet with Dr. Yunzhi Zhang of the Yunnan CDC. Together with Field Coordinator Dr. Guangjian Zhu, Mr. Chmura will coordinate and travel with full field team to sites in Yunnan Province to assist with human behavioral surveillance fieldwork, review field, lab, and data entry protocols, and prepare for 2017-18 PREDICT-2 field sampling. Field sites are prioritized along the wildlife trade pathways as per PREDICT-2 site selection criteria and protocols. Mr. Chmura will communicate with PREDICT-2 Metabiota partners in China as well as new Chinese Academy of Sciences Laboratory collaborators based in Beijing.

7. EcoHealth Alliance would like to request travel approval for Mr. Carlos Zambrana-Torrelío to travel from New York, New York, USA to Beijing, China from August 19-27, 2017, to attend and present at the International Association for Ecology (INTECOL).

Trip purpose: Mr. Zambrana-Torrelío will attend the International Association for Ecology to present the results produced by Modeling and Analytics Working Group of the Global Virome Project. Presentation title: "The Global Virome Project: A network of viral-diversity monitoring."

8. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, New York, USA to Paris, France from August 21-24, 2017 to participate in the World Organization for Animal Health's (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat.

Trip purpose: Dr. Karesh will participate in the World Organisation for Animal Health's (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat. Dr. Karesh will participate in setting health and IACUC related standards for wildlife farming for OIE code purposes.

9. UC Davis would like to request travel approval for Brett Smith to travel from Sacramento, California, USA to Freetown and Makeni, Sierra Leone from July 21 to August 10, 2017 to perform laboratory training.

Trip purpose: Mr. Smith will fly to Freetown, then travel on to Makeni to perform laboratory training. The training will include staff from UNIMAK and PREDICT with invitations to MAFFS and MOH to include staff from the TEK0 veterinary lab and National Public Health lab to prepare, handle and test samples using Predict protocols.

10. UC Davis would like to request travel approval for Alexandre Tremeau-Bravard to travel from Sacramento, California, USA to Dakar, Senegal from August 12-25, 2017, then to Kigali, Rwanda from August 25-30, 2017 to perform laboratory trainings.

Trip purpose: Senegal – In Dakar, Mr. Tremeau-Bravard will train lab staff from ISRA and ICAD to prepare, handle and test samples using Predict protocols. Rwanda – In Kigali, he will do a refresher lab training for staff based at NRL and RAB.

11. UC Davis would like to request travel approval for Dr. Tracey Goldstein to travel from Sacramento, California, USA to Phnom Penh, Cambodia from August 3-11, 2017 to attend meetings with government and non-governmental partners, as well provide technical guidance to the field team during planned August sampling activities.

Trip purpose: Dr. Goldstein will meet with government and non-governmental partners regarding coordination of PREDICT-2 activities, and will join the field team to assist with technical guidance for the concurrence sampling of human, livestock and wildlife planned for August in a bat guano farming community in Kampong Cham.

12. UC Davis would like to request travel approval for Diego Montecino to travel to Dar es Salaam and Morogoro, Tanzania from August 5-26, 2017 to support the PREDICT Tanzania team in the initiation of new in-depth methods for bat surveillance at high-risk urban interfaces.

Trip purpose: Mr. Montecino (UC Davis-based project scientist) will support the PREDICT Tanzania team to set up new methods for safely and effectively collecting non-invasive samples from a well-established urban straw-coloured fruit bat (*Eidolon helvum*) colony in Morogoro in order to test them for Coronaviruses and other priority viral threats. He will also introduce methods for counting bats present in a colony and assessing bat behavior and their interactions with people. Mr. Montecino will work hand-by-hand with the PREDICT Tanzania team to transfer the knowledge, skills, and capacity to conduct these activities following his return to the US.

On Wed, Jul 11, 2018 at 2:40 AM, Katherine Leasure <kaleasure@ucdavis.edu> wrote:

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Zimmerman (Kenya): \$2000 airfare/\$410 (Nairobi) max daily per diem
2. Francisco, Hagan, Martinez (Liberia): \$3,500 airfare each/\$295 (Monrovia), \$116 (Other) max daily per diems
3. Daszak (China, Malaysia, Singapore): \$10,500 airfare *business class required **REDACTED** \$377 (Beijing), \$262 (Kunming), \$262 (Baoshan), \$256 (Kota Kinabalu), \$156 (Kinabatangan), \$425 (Singapore) max daily per diems

Travel Requests –

1. The Smithsonian Institution would like to request travel approval for Dr. Dawn Zimmerman to travel from Washington, DC, USA to Nairobi, Kenya for the period of July 29 (leaving US) to August 11 (returning to US), 2018 to participate in high-level meetings, conduct community engagement, and meet with members of the partner lab and country coordinator. Please note, eCC will reflect dates in Kenya, July 30 through August 10.

Trip Purpose: Dr. Zimmerman will assist the Kenyan PREDICT team in conducting community engagement in Laikipia*; In addition, Dr. Zimmerman will continue to: 1) evaluate lab testing progress and help with governmental reports for approval to release test results*; 2) guide human behavioral risk data analysis* and manuscript preparation; 3) help with graduate student projects (2 MSc and 1 PhD students working under P2 program); 4) hold a stakeholder's meeting to discuss project end and outputs with partners; 5) plan last trainings for CVL and two KEMRI Labs (influenza and hemorrhagic labs).

**critical to project implementation*

July 29 depart US

July 30 arrive in evening (Dusit hotel through Aug 1st)

July 31 – Aug 1 meet with P2 team at IPR

Aug 2 – transfer to Mpala (stay at Mpala Research Centre through August 7th)

Aug 3-4 – community engagement (requested to occur on a Friday and Saturday)

Aug 5 – meet with P2 team before their departure back to Nairobi

Aug 6 – 8 Non-P2 work at Mpala

Aug 7 – transfer to NBO, meeting at ILRI (both P2 and non-P2 work; Dusit hotel through Aug 10th)

Aug 8 – 10 – Meetings (time/date TBD) with USAID, KWS, DVS, UoN – to include a stakeholder’s meeting

Aug 10 PM – depart NBO in evening

Aug 11 – arrive in US

2. EcoHealth Alliance would like to request travel approval for Dr. Leilani Francisco, Ms. Emily Hagan, and Ms. Stephanie Martinez, to travel from New York, NY, USA, to Monrovia, Liberia, from August 4-12, 2018, to conduct a site visit during which the Behavioral Risk Team will be providing training, implementation support, coordination, and guidance for future planning for the PREDICT Liberia team. This visit will include a review of physical and procedural practices to ensure full compliance with all IRB protocols, as well as new and refresher trainings in areas pertaining to human surveillance data collection.

Trip purpose: Dr. Francisco is the Global Director of Behavioral Risk Surveillance for PREDICT-2 and will travel to Liberia to conduct a site visit to ensure the successful, high-quality completion of data collection, analysis, and reporting. This will include an audit of the privacy protections for all human-related data, the creation of privacy data plans for long-term storage of study-related files, and as needed, booster sessions on compliance and adherence to protocols. A capacity needs assessment conducted through discussions with the in-country team determined that additional training around steps for finalizing data collection and moving to the next phase of scientific capacity building, which includes data cleaning, data analysis, and report writing would be beneficial to the project. The EHA team will meet with PREDICT Liberia behavioral researchers to provide requested booster trainings and support in any other areas of concern identified by either team. During this visit, the EHA team will also provide training on the implementation plan for the use and roll-out of the West Africa “Living Safely with Bats” communication tool. Each member of the team listed has a unique role and professional expertise. Dr. Francisco, along with her role for PREDICT-2, is also the EHA Partner Lead for Ecological and Biological Human Surveillance. Ms. Hagan plays a leadership role in both of these efforts as well. She is also the EIDITH database and data collection trainer. Ms. Martinez also plays a key role in the two abovementioned efforts. She is also EHA’s Lead Qualitative Analyst and will be providing intensive hands on support to the team. Upon completion of the training, Dr. Francisco, Ms. Hagan, and Ms. Martinez may spend time in the field with the Liberia team, as well as accompany them on observational trips in the local area to observe their work in action.

3. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, New Jersey, USA to Beijing, Kunming, and Baoshan, China; Kota Kinabalu, and Kinabatangan, Malaysia; and Singapore, Singapore from August 10-30, 2018 for meetings with in-country partners for PREDICT and GVP operations.

Trip purpose: China – In Beijing, Dr. Daszak will meet with the PREDICT in-country laboratory team lead from the Institute of Microbiology, Chinese Academy of Sciences, government officials from Chinese CDC and the National Natural Science Foundation of China for the Global Virome Project in China. Dr. Daszak will also visit PREDICT surveillance sites in Kunming and a potential site in Baoshan along the wild life trade value chain, as well as meet with field coordinator Dr. Guangjian Zhu and the human surveillance team for PREDICT field work. Dr. Daszak will be in China for ten nights. Malaysia – In Kota Kinabalu, Dr. Daszak will meet with PREDICT partners and government officials from Sabah Wildlife Department, the Ministry of Tourism and Culture Malaysia, Sabah Office, and give a lecture at the Development and Health Research Unit (DHRU) Universiti of Malaysia Sabah (UMS). Dr. Daszak will make a visit to the

PREDICT surveillance site in Kinabatangan with in-country coordinator Tom Hughes. Dr. Daszak will be in Malaysia for nine nights. Singapore – Dr. Daszak will meet with Dr. Linfa Wang and Dr. Danielle Anderson from Duke-NUS Medical School for GVP discussion in Singapore on his way back to the U.S. Dr. Daszak will be in Singapore for one night.

Hi Andrew. Please find below a request from EcoHealth Alliance for Peter Daszak travel to China. Our apologies for the late submission of this request; per EHA, travel dates were just solidified. Please let me know if you have any questions. Thanks!

1. Daszak (China): \$9201 airfare * **REDACTED** \$535 (Hong Kong), \$248 (Wuhan) max daily per diems

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, New Jersey, USA to Hong Kong and Wuhan, China from October 13-21, 2018 for conferences on Emerging Viral Diseases and Infections and meetings with in-country partners.

Trip purpose: Dr. Daszak will attend the *Keystone Symposia Framing the Response to Emerging Virus Infections* in Hong Kong from October 14-18, 2018 to give a Keynote Address on “Emerging Infectious Diseases Threats.” From October 19-22, Dr. Daszak will meet with PREDICT in-country coordinator Dr. Zhengli Shi and laboratory team in Wuhan, China, and attend *The 8th International Symposium on Emerging Viral Diseases* to give a talk on “Emerging Viral Diseases Prediction.”

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Karesh, Dawson (Jordan, Austria): \$1300, \$8000 **REDACTED**/\$390 (Amman), \$360 (Vienna)
2. Kelly (Ghana): \$2000 airfare/\$331 (Accra) max daily per diem
3. Lane (Tanzania): \$2500 airfare/\$157 (Bagamoyo), \$197 (Morogoro) max daily per diems

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh and Patrick Dawson to travel from New York, New York, USA to Amman, Jordan & Vienna, Austria from October 28, 2018 to November 13, 2018 to assist in Year 5 analyses and coordination for PREDICT-2 Jordan and present a poster at the 7th International Meeting on Emerging Diseases and Surveillance (IMED).

Trip purpose: Jordan – While in Jordan, Dr. Karesh and Patrick will meet with the PREDICT-2 Jordan team to finalize testing plans/strategies to meet all PREDICT-2 testing deadlines. Also, they will begin reviewing behavioral and early laboratory data with the team to develop abstracts and papers for PREDICT-2. They will formulate an analysis plan the team can collaborate on moving forward. Additionally, they will review all Year 5 activities and goals and coordinate timelines and plans to achieve them. Austria – An analysis of PREDICT-2 Jordan behavioral data, including the addition of the newly implemented camel exposure questionnaire modules, will be presented as a poster at IMED by Patrick. The poster is entitled, “Knowledge, Attitudes, Beliefs, and Practices Pertaining to Camel-to-Human Disease Risks among Persons at Camel Farms, Abattoirs, and Meat Markets in Jordan.” Dr. Karesh and Patrick will use the opportunity to further disseminate and elevate PREDICT-2 findings from Jordan, which will bring more attention to the work of the PREDICT-2 project overall.

2. UC Davis would like to request travel approval for Dr. Terra Kelly to travel from Flagstaff, Arizona, USA to Accra, Ghana from November 27 to December 5, 2018 to meet with stakeholders and in-country partners and assist with sampling activities.

Trip purpose: Dr. Kelly will be traveling to Accra to meet with USAID and interagency stakeholders to share findings from the project, assist team members with a concurrent disease surveillance event at our Boabeng-Fiema site, and meet with partners to make plans regarding laboratory analyses, PCR product shipping for sequencing, result reporting, and community outreach.

3. UC Davis would like to request approval for Jennifer Lane to travel from Davis, California, USA to Bagamoyo and Morogoro, Tanzania from November 5-15, 2018 to support the PREDICT Tanzania team with concurrent human and wildlife surveillance and laboratory activities.

Trip purpose: Dr. Lane, PREDICT East Africa Field Veterinarian, will provide programmatic support to the PREDICT Tanzania team and country coordinators during her trip. She will work with partners Sokoine University of Agriculture and the Ifakara Health Institute in their combined concurrent surveillance activities, with a focus on wrapping up field work activities and planning for the final phase of laboratory testing and YR 5 work plan implementation.

Hi Andrew. We received a request from Smithsonian to add Suzan Murray as an attendee for the upcoming Semi-Annual Meeting. They had not included her previously, as they weren't sure she would be able to travel, but it appears she may now be able to. Please let me know if you have any questions.

PARTICIPANT CHANGES (Add):

NAME	DEPARTURE LOCATION	AIRFARE COST
Suzan Murray	Washington, DC	\$2500*

REDACTED

Meals & Incidentals, Lodging:

The per diem maximum established by the Department of State for Vancouver, Canada is \$306 (\$179 lodging, \$127 M&IE).

Travel Request:

PREDICT-2 requests approval for the individuals listed in the attached spreadsheet to travel from their respective departure locations to Vancouver, Canada to participate in the PREDICT Semi-Annual Meeting to be held April 30 to May 1.

Trip purpose: Strategic planning for successful wind down and closeout of the PREDICT-2 award; meeting deliverables and planning risk communication campaigns for host country partners; final report planning.

Please find below international travel requests for your review and approval; a TDY form is attached for David Mclver's Laos travel. Please let me know if you have any questions. Thanks!

1. Daszak (CIV): \$14,800 airfare *business class required due to medical need/\$344 (Abidjan) max daily per diem
2. Li, Dascak (China): \$1900 (Economy)/\$5208 (Business) *business class required for Dr. Daszak due to medical need/\$346 (Beijing), \$288 (Harbin) max daily per diems
3. Mclver (Laos): \$1500 airfare/\$212 (Vientiane) max daily per diem

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Peter Daszak to travel from Newark, NJ to Abidjan, Côte d'Ivoire from June 19 to 22, 2019 to meet with country coordinators and the USAID Mission in Abidjan.

Trip purpose: In Abidjan, Dr. Daszak will meet with all of the PREDICT stakeholders including PREDICT partners, community leaders, and USAID Mission lead Zandra Andre.

2. EcoHealth Alliance would like to request travel approval for Peter Daszak and Hongying Li to travel from Newark, New Jersey, USA to Beijing and Harbin, China from July 22 – 30, 2019 for meetings with PREDICT in-country partners and to attend the 13th China National Meeting of Virology.

Trip purpose: Dr. Daszak and Hongying Li will meet with in-country partners and stakeholders, and local leaders from PREDICT surveillance sites from Yunnan, Guangxi, and Guangdong provinces to present PREDICT work results in Beijing, China. In Harbin, Dr. Daszak will attend a side meeting with Chinese scientists to launch the China Virome Project. Dr. Daszak will give talk on PREDICT and GVP.

3. Metabiota would like to request travel approval for Dr. David Mclver, Epidemiologist, to travel from Nanaimo, Canada to Vientiane, Laos from June 28 to July 6, 2019 to hold PREDICT2 wrap up meetings with in-country partners.

Trip purpose: In Vientiane, Dr. Mclver will coordinate and participate in national-level meetings with PREDICT2 partners including the Ministry of Health, the Ministry of Livestock and Fisheries, as well as USAID members from the embassy. Following these meetings, Dr. Mclver will travel to Champasack province for similar meetings with provincial and district governments, as well as partner hospitals and communities. These meetings are intended to be a part of the final, program close-out activities for the PREDICT2 program. Results from the global and local programs will be presented to all partners and local results will be shared as appropriate with hospitals and communities. In Vientiane, Dr. Mclver will also arrange to meet with mission representatives at the US embassy to debrief on PREDICT2 as the EPT2 program comes to a close.

4. Navarrete-Macias, Sayre (Cote d'Ivoire): \$1200 airfare each/\$371 (Abidjan) max daily per diem
5. Mazet, Goldstein, Bird (Sierra Leone): \$2200 each Economy Class, \$7,000 Business Class **REDACTED**
REDACTED/\$319 (Freetown), \$221 (Makeni) max daily per diems
6. Zimmerman (Kenya): \$2000 airfare/\$410 (Nairobi) max daily per diem

Travel Requests –

1. Metabiota would like to request travel approval for Tammie O'Rourke and Daniel O'Rourke to travel from Nanaimo, British Columbia, Canada to Davis, CA, USA from April 2 - 4, 2018 to meet with the UC Davis global team to discuss USAID reporting and data extracts, and follow-up on feedback from the All Country Meeting in Brussels. From Davis, California, USA they will travel to San Francisco, California, USA to meet with Metabiota PREDICT Senior Management on April 5.

Trip purpose: In Davis, they will meet with the UCD global team to discuss USAID reporting, data extracts and follow-up on feedback from the All-Country Meeting in Brussels in January 2018. In San Francisco, they will meet with Metabiota PREDICT Senior Management to discuss PREDICT Information Management concerns, progress and issues.

2. UC Davis would like to request travel approval for Dr. Zoe Grange to travel from Southwater, England to Davis, CA, USA from April 4-14, 2018 for meetings with the UCD global team, and to attend the PREDICT Semi-Annual Meeting.

Trip purpose: Dr. Grange will conduct meetings with Jonna Mazet and colleagues at UC Davis in order to develop a risk ranking application for PREDICT viruses, and attend the PREDICT Semi-Annual meeting.

3. EcoHealth Alliance would like to request travel approval for Anne Laudisoit to travel from New York, NY, USA to Abidjan, Cote d'Ivoire from April 7-30, 2018 to finalize preparation of LANADA and IPCI PREDICT laboratories, and to prepare staff for a complete PREDICT training session to be held April 16-27.

Trip purpose: Dr. Laudisoit, Country Liaison for Cote d'Ivoire, will join the CIV PREDICT team in Abidjan to ensure that PREDICT laboratories are ready to receive Columbia University staff for a training session held April 16-27. The training will guarantee that samples are quality controlled by the PREDICT geneticists team and guarantees a quick turnover for sequencing of positive specimens and molecular identification for hosts.

4. EcoHealth Alliance would like to request travel approval for Isamara Navarrete-Macias and Dean Sayre to travel from New York, NY, USA to Abidjan, Cote d'Ivoire from April 14-30, 2018 for PREDICT lab training.

Trip purpose: To train laboratory staff from PREDICT partner labs (LANADA and IPCI) in the PREDICT screening protocols. Training workshop to be held April 16-27 in-country by Columbia University staff, namely Isamara Navarrete-Macias and Dean Sayre. The training will cover sample processing, PCR, and data analysis.

5. UC Davis would like to request travel approval for Drs. Jonna Mazet, Tracey Goldstein, and Brian Bird to travel from Davis, CA, USA to Freetown and Makeni, Sierra Leone from April 28 to May 5, 2018 for meetings with in-country staff, US Mission, and Government of Sierra Leone representatives.

Trip purpose: In Freetown, Drs. Mazet, Goldstein, and Bird will meet with in-country staff, US Mission, and Government of Sierra Leone representatives to discuss PREDICT testing results findings, public release of data and publication, project activities, and partner communications in Sierra Leone. The travelers will also meet with in-country staff at implementing partner headquarters at the University of Makeni.

6. The Smithsonian Institution would like to request travel approval for Dr. Dawn Zimmerman to travel from Baltimore, MD, USA to Nairobi, Kenya from April 29 (depart US) to May 12 (return US), 2018 to participate in high-level meetings, assist with surveillance activities and trainings, and meet with members of the partner lab and country coordinator. **eCC (to be submitted once AOR approval is received) will reflect dates in Kenya, April 30 to May 11.*

Trip Purpose: Dr. Zimmerman will assist the Kenya PREDICT team with the following: 1) concurrent animal and human wet-season surveillance in Laikipia; 2) evaluate lab testing progress and help with governmental reports for approval to release test results; 3) guide data analysis and manuscript preparation, 4) help with graduate student preparation for their dissertation (these are students working under P2 program); 5) meet partners working with PREDICT to discuss program winding up and any further training needs in surveillance capacity - field and lab (KWS, KEMRI, CVL, FAO, DVS); 6) guide community engagement efforts in one health based on risk factors identified from the surveillance.

3. Ngamie (Uganda): \$455 airfare/\$340 (Kampala) max daily per diem
4. Latinne (Thailand, Indonesia): \$2700 airfare/\$241 (Bangkok), \$355 (Jakarta), \$146 (Sulawesi)

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, NY, USA to Amman, Jordan from July 12-17, 2019.

Trip purpose: Dr. Karesh will participate in the opening of two new laboratories in the south of Jordan along with PREDICT partners at Jordan University of Science and Technology on July 15. On July 16, he will attend meetings with officials from MOH, MOA, MOE and others to conclude the project.

2. The Smithsonian Institution would like to request travel approval for Dr. Joseph Kamau to travel from Nairobi, Kenya to Kampala, Uganda for the period of July 23-27, 2019 to participate in the OHCEA 3rd International One Health Conference.

Trip Purpose: Dr. Kamau will be presenting his abstract, “One Health workforce development: Approach in understanding the molecular basis on viral disease transmission” which has been accepted for an oral presentation at the 8th International Scientific Conference on Global Health Security.

3. The Smithsonian Institution would like to request travel approval for Mr. Winold Mbindyo Ngamie to travel from Nairobi, Kenya to Kampala, Uganda for the period of July 23-27, 2019 to participate in the OHCEA 3RD International One Health Conference.

Trip Purpose: Mr. Ngamie will be presenting his abstract, “One Health workforce development: Approach in understanding the molecular basis on viral disease transmission” which has been accepted for an oral presentation at the 8th International Scientific Conference on Global Health Security.

4. EcoHealth Alliance would like to request travel approval for Dr. Alice Latinne to travel from New York, NY, USA to Bangkok, Thailand from August 1-5, 2019 and to Jakarta and Sulawesi, Indonesia from August 11-21, 2019 for community engagement meetings and work with in-country partners. **Travel 8/6-8/10 will be covered by Dr. Latinne on personal funds, as it is more cost effective for her to stay in-country.*

Trip purpose: Thailand - In Bangkok, Dr. Latinne will attend PREDICT results dissemination and

stakeholder/community engagement meeting in Ratchaburi and she will also meet with in-Country PREDICT partners to work on data analysis and publications. Indonesia – In Jakarta and Sulawesi, Dr. Latinne will meet with in-Country PREDICT partners to work on data analysis and publications and she will attend several PREDICT results dissemination and stakeholder/community engagements in Sulawesi.

Hi Cassandra,

I just wanted to follow-up on the below email. I haven't seen requests for concurrence, although I may not have been copied as I was out on vacation last week.

We would also be grateful if you could follow-up with the Tanzania and Sierra Leone missions regarding the travel requests for Jonna Mazet and Frantz Jean-Louis, respectively. The latter is particularly time sensitive as the requested departure date is May 5.

Thank you!
Katie

Travel Requests:

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York City, NY, USA to Geneva, Switzerland from May 19-21, 2017 to attend a JEE Alliance meeting. From Geneva, Switzerland he will travel to Paris, France from May 21-24, 2017 to participate in the World Organization for Animal Health's (OIE) General Assembly. From Paris, France he will travel to Cancun, Mexico from May 25-27, 2017, to attend the UN 2017 Global Platform for Disaster Risk Reduction.

Trip purpose: Switzerland – Dr. Karesh will first attend a one day meeting with the JEE Alliance to discuss mechanisms for engaging in the JEE process. France – Dr. Karesh will then participate in the World Organization for Animal Health's (OIE) General Assembly for which he serves as the Chairman of the Working Group on Wildlife. The OIE Working Group on Wildlife advises the OIE on all health problems relating to wild animals, including emerging disease events and reporting guidelines. Dr. Karesh will present on the group's work and have the opportunity to meet with OIE staff to discuss these and other priority topics. Mexico - Dr. Karesh will attend the UN 2017 Global Platform for Disaster Risk Reduction. In partnership with colleagues from the World Bank, he and Catherine Machalaba are organizing a session for the Health and Disaster Risk Reduction working session on pandemic prevention and preparedness. The session title will be "Best practices of adopting the One Health approach to reduce risks of pandemics and other health emergencies and its integration and value to national DRR strategies," and will include examples from the PREDICT project. He has also been invited to speak on a high-level panel for the main health disasters session. *The OIE will provide funds for Dr. Karesh's economy fare and per diem expenses for this meeting.

2. EcoHealth Alliance would like to request travel approval for Ms. Catherine Machalaba to travel from New York City, NY, USA to Cancun, Mexico from May 22-26, 2017, to participate in the UN 2017 Global Platform for Disaster Risk Reduction.

Trip purpose: Ms. Machalaba will attend the UN 2017 Global Platform for Disaster Risk Reduction. In partnership with colleagues from the World Bank, she and William Karesh are organizing a session for the Health and Disaster Risk Reduction working session on pandemic prevention and preparedness. The session title will be "Best practices of adopting the One Health approach to reduce risks of pandemics and other health emergencies and its integration and value to national DRR strategies," and will include examples from the PREDICT project.

3. EcoHealth Alliance would like to request travel approval for Emily Hagan to travel from New York City, NY, USA to Liverpool, United Kingdom from May 22-26, 2017 for workshop on a qualitative research methods and data analysis for health.

Trip purpose: The workshop will provide further insights on innovative ways to analyze qualitative data that is specifically focused on health, and health relating to animals, and is to be led by experts in the One Health field. This qualitative research methods workshop has course highlights including: the use of different methods of data collection, analyzing qualitative data, interpreting qualitative data, and critically appraising qualitative research.

4. EcoHealth Alliance would like to request travel approval for Dr. Alice Latinne to travel from New York, NY, USA to Bogor, Indonesia from May 22-31, 2017 for meetings with in-country partners. From Bogor, Indonesia, she will travel to Bangkok, Thailand from June 1-30, 2017 for field work in Loei province.

Trip purpose: Indonesia – Dr. Latinne will meet with PREDICT team at IPB to train new staff members. Thailand – Dr. Latinne will join the PREDICT field trip in Loei and assist the PREDICT team for rodent sampling (June 16-28). *Meals & lodging costs for June 1-15 will be paid for by the traveler; she will be working remotely, and it is more cost effective for her to stay in-country.

5. UC Davis would like to request travel approval for Dr. Kirsten Gilardi to travel from Davis, California, USA to Kigali, Rwanda and Kampala, Uganda from June 11 to July 3, 2017 to meet with PREDICT staff and partners.

Trip purpose: This trip will enable Dr. Gilardi to meet with PREDICT Country Coordinators from Rwanda, Uganda and Democratic Republic of the Congo at MGVP headquarters in Musanze, Rwanda and in Kampala, Uganda, to conduct field site visits with staff and to check on progress on Year 3 work plans in all three countries. She will also meet with Governments of Uganda and Rwanda partners to discuss collaboration on wildlife and human sampling for PREDICT-2, and participate in One Health capacity strengthening for staff and partners. ***Her tentative travel dates in each country are as follows: Uganda: June 12-14; Rwanda: June 14 to July 2.***

6. UC Davis would like to request travel approval for Dr. Christine Kreuder Johnson to travel to from Miami, Florida, USA to Kathmandu, Nepal from July 11-18, 2017 for PREDICT fieldwork and government and stakeholder meetings.

Trip purpose: Dr. Johnson, the senior biological and ecological surveillance coordinator, will be traveling to Nepal to oversee PREDICT field sampling efforts, share test results and project findings to date with government partners, and further collaboration on PREDICT activities with government and stakeholder partnerships.

7. UC Davis would like to request travel approval for Ms. Cristin Young to travel from San Francisco, California, USA to Kathmandu, Nepal from July 11-31, 2017 for PREDICT fieldwork and government and stakeholder meetings.

Trip purpose: Cristin Young, as a project scientist for PREDICT, will be traveling to Nepal to collaborate with the PREDICT Nepal team on the implementation of a pilot PREDICT project to screen for antimicrobial resistance (AMR) genes in an informal settlement in Kathmandu. She will work closely with the PREDICT Nepal field team to collect concurrent human, animal, and environmental samples and to conduct an AMR module of the PREDICT human questionnaire. Additionally, Ms. Young will be working with the PREDICT Nepal lab team on storage, processing, and extraction of the AMR samples. She will attend government and stakeholder meetings with Dr. Johnson as appropriate.

Hi Andrew. The clarification from EHA for Billy's airfare is below.

Billy's core travel will be covered by OIE. A business class ticket is \$7,000, while an economy class ticket is \$3,479.40. Upon approval, the difference would be billed to PREDICT, that of approx. \$3,520.60.

Gillis and Ross travel approved.

Q about Karesh travel: OIE is paying for economy fare and per diem. Is the \$7,000 requested by Predict to cover the difference between business and economy fare? If so, \$7,000 sounds high.

All other travel approved subject to mission concurrence.

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

1. Gillis (USA, Canada): \$2,088 airfare/\$341 (San Francisco), \$221 (Nanaimo) max daily per diems
2. Epstein (Malaysia, Thailand): \$1,079 airfare/\$140 (Sabah), \$246 (Bangkok) max daily per diems
3. Keatts (Cambodia): \$2,500 airfare/\$236 (Phnom Penh) max daily per diems
4. McIver (Laos, China): \$1,168 airfare/\$212 (Vientiane), \$407 (Guangzhou) max daily per diems
5. Ross (Italy): \$2,000 airfare/\$471 (Rome) max daily per diem
6. Li (China): \$3,625 airfare/\$377 (Beijing), \$241 (Kunming), \$407 (Guangzhou), \$241 (Wuhan) max daily per diems
7. Karesh (Italy): \$7,000 airfare (*business class required to accommodate* REDACTED /\$471 (Rome) max daily per diems

Travel requests:

1. Metabiota would like to request travel approval for Amethyst Gillis to travel from Yaoundé, Cameroon to San Francisco, CA, USA from March 17 to April 1, 2017 for meetings to discuss PREDICT Year 3 workflow. From San Francisco, California, USA, she will travel to Nanaimo, BC, Canada from April 2-4, 2017 for meetings to discuss all aspects of the PREDICT program.
**Amethyst Gillis will take a personal holiday from April 4– 7, 2017, during which time she will be covering her own expenses.*

Trip purpose: USA – Ms. Gillis will meet with Eddy Rubin, Robert Mann and Karen Saylor to discuss PREDICT Year 3 workflow. Canada – Ms. Gillis will meet with the PREDICT team members, Regional Coordinators, and Program Manager and the IM team to discuss all aspects of the PREDICT program.

2. EcoHealth Alliance would like to request travel approval for Dr. Jonathan Epstein to travel from New York, NY, USA to Sabah, Malaysia from March 18-20, 2017 to meet with the PREDICT-2 Country Coordinator for Malaysia. From Sabah, Malaysia, he will travel to Bangkok, Thailand from March 21-22, 2017 to meet with the Regional Development Mission in Asia (RDMA).

Trip purpose: Malaysia - Dr. Epstein will meet with Country Coordinator, Tom Hughes, and government partners to discuss PREDICT-2 activities and this year's workplan. Thailand - He will then travel to Bangkok for an informational outbrief regarding the countries of which he is the PREDICT-2 Regional Lead.

3. UC Davis would like to request travel approval for Dr. Lucy Keatts to travel from St. Thomas, US Virgin Islands to Phnom Penh, Cambodia from April 29 to May 7, 2017 to participate in coordination meetings and field surveillance in support of the PREDICT Country Coordinator for Cambodia.

Trip purpose: Dr. Keatts will travel to Cambodia to meet with government and non-governmental partners regarding coordination of PREDICT-2 sampling activities, and will oversee and offer technical guidance for the concurrent sampling of human, livestock, and wildlife planned for May 1-5, 2017 in a bat guano farming community in Kampong Cham Province.

4. Metabiota would like to request travel approval for Dr. David McIver to travel from Nanaimo, British Columbia, Canada to Vientiane, Laos from March 24-30, 2017 to meet with in country partners to discuss laboratory output, program management, and the development of human surveillance. From Vientiane, Laos, he will travel to Guangzhou, China from March 30 to April 1, 2017 to meet with program partners and implementing hospitals.

Trip purpose: Laos – In Vientiane, Dr. McIver will work with principle collaborators at both the National

Animal Health Laboratory and the National Centre for Laboratory and Epidemiology to discuss issues surrounding laboratory services, communication and collaboration strategy, and preparations for the commencement of human surveillance in Lao PDR. China – In Guangzhou, Dr. McIver will meet with key implementing partners at the Guangdong Center for Disease Control and the Guangdong Institute of Public Health to discuss the ongoing recruitment of participants in two hospitals in Guangdong province. Furthermore, he will be visiting the Tungwah Hospital, in Donggugan, to assess participant enrollment and discuss strategies for increasing enrollment, as well as balancing the enrollment of children and adults.

EcoHealth Alliance would like to request travel approval for Dr. Noam Ross to travel from New York, NY, USA to Rome, Italy from March 27-30, 2017 to collaborate with Ugo Pica Ciamarra at the Food and Agriculture Organization (FAO).

Trip purpose: Dr. Ross will work with Mr. Pica Ciamarra on the Africa Sustainable Livestock 2050 dynamic modeling.

5. EcoHealth Alliance would like to request travel approval for Hongying Li to travel from New York, NY USA to Beijing, Kunming, Guangzhou, and Wuhan, China from April 3 to May 31, 2017 for field coordination work and meetings with in-country partners in China.

Trip purpose: Hongying Li will be meeting with partners in Beijing for PREDICT surveillance work, and to work with local field coordinator, Dr. Guangjian Zhu, to assist the field work in Yunnan and Guangdong provinces. She will also meet with China Country Coordinator, Dr. Zhengli Shi, at Wuhan Institute of Virology for project updates and planning.

6. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, NY, USA to Rome, Italy from March 29-31, 2017 to develop strategic partnerships.

Trip purpose: This trip is part of Dr. Karesh's role as the Head of Technical Activity for Wildlife and as a member of the OFFLU Steering Committee. As EPT Liaison, it is important for Dr. Karesh to continue to promote and optimize collaborations of PREDICT-2 objectives and OIE activities and engage on influenza initiatives to promote global health security. The meeting will be attended by experts currently generating influenza surveillance data and research activities in avian and swine. Economy class travel and per diem expenses will be covered by OIE.

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Montecino (Ghana): \$2500 airfare/\$331 (Accra) max daily per diem
2. Karesh (Sweden, France): \$7500 airfare *business class required due to REDACTED /\$376 (Stockholm), \$608 (Paris) max daily per diems
3. O'Rourke, O'Rourke (USA): \$579 airfare each/\$296 (San Francisco), \$181 (Davis) max daily per diems
4. Francisco, Hagan, Sullivan, Epstein (India): \$1550 airfare each/\$400 (New Delhi), \$291 (Lucknow) max daily per diems
5. Gutierrez-Jimenez (India): \$2600 airfare/\$400 (New Delhi), \$291 (Lucknow) max daily per diems

Travel Requests –

1. UC Davis would like to request travel approval for Dr. Diego Montecino to travel from Sacramento, CA, USA to Accra, Ghana from November 25 to December 2, 2017 to continue to train the in-country team and assess quality of the ongoing bat census and guano collection, as well as bring supplies from the United States and organize for use over the next 4 months.

Trip purpose: The trip will facilitate the year-round monthly guano sampling at the urban *Eidolon*

helvum colony in Accra to assess longitudinal shedding of viruses in this highly-trafficked urban environment. Supplies will be left ready for its use for the in-country team over the remaining 4 months. Moreover, Dr. Montecino will join and trouble-shoot the activities of November: guano collection with the team for 3 nights and the monthly census of the colony. About 200 specimens will be collected during the trip, while supplies transported and prepared will allow collection of 600 more between December 2017 and February 2018.

2. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, New York, USA to Stockholm, Sweden from December 9-11, 2017 to speak at the ECDC Expert Consultation on One Health Preparedness in Europe. From Stockholm, Sweden, he will travel to Paris, France from December 11-16, 2017 to speak at the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting.

Trip purpose: Sweden – Dr. Karesh is to participate in the ECDC Expert Consultation on One Health Preparedness in Europe. Dr. Karesh will present in the first plenary session titled “Towards One Health preparedness for emerging infectious diseases: Insights from the PREDICT project.” As EPT Liaison, it is important for Dr. Karesh to continue to promote and optimize collaborations of the PREDICT-2 objectives. France – Following that meeting, Dr. Karesh will participate in the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting, for which he serves as Chairman. The OIE Working Group on Wildlife advises the OIE on all health problems relating to wild animals, including emerging disease events and reporting guidelines. Dr. Karesh will have the opportunity to meet with OIE staff to discuss these and other priority topics. ** As an invited speaker at both events, the ECDC and OIE will provide funds for Dr. Karesh's economy fare and per diem expenses for these meetings.*

3. Metabiota would like to request travel approval for Tammie O'Rourke and Daniel O'Rourke to travel from Nanaimo, British Columbia, Canada to San Francisco, California, USA on December 5, 2017 to meet with PREDICT Senior Management. From San Francisco, California, USA they will travel to Davis, California, USA from December 6-8, 2017 to meet with the UCD global team to discuss USAID reporting and data extracts, and prepare for the Annual General Meeting in Brussels in January 2018.

Trip purpose: In San Francisco, meet with PREDICT Senior Management to discuss PREDICT Information Management concerns, progress and issues. In Davis, meet with the UCD global team to discuss USAID reporting, data extracts and prepare for the Annual General Meeting in Brussels in January 2018.

4. Ecohealth Alliance would like to request travel approval for Dr. Leilani Francisco, Emily Hagan, Ava Sullivan, and Dr. Jon Epstein to travel from New York, NY, USA to New Delhi and Lucknow, India from December 2-9, 2017 to conduct human surveillance site visits and additional training with the local PREDICT partners.

Trip Purpose: In their roles as Global Director of Behavioral Risk Surveillance for PREDICT-2, Behavioral Research Coordinator, PREDICT-2 EcoHealth Alliance Country Liaison to India, and Scientific Lead, respectively, Dr. Francisco, Ms. Hagan, Ms. Sullivan, and Dr. Epstein will be meeting with PREDICT implementing partners in India to lead in-depth planning sessions on project implementation, human sampling coordination, and behavioral research. During this trip, Dr. Francisco, Ms. Hagan, and Ms. Sullivan will provide support and further training in topics surrounding human sampling and behavioral risk to ensure the successful continuation of the human-focused components of the program. Dr. Epstein will support the trip in his capacity as Scientific Lead, providing technical assistance for laboratory work and protocols.

5. EcoHealth Alliance would like to request travel approval for Dr. Leticia Gutiérrez Jiménez to travel from New York, NY, USA to New Delhi and Lucknow, India from December 1-23, 2017 to conduct field site exploration, training and field sampling, and meet with the PREDICT-2 India team. **Dr. Gutierrez-Jimenez will stay 1 night in New Delhi on both legs of her trip as part of her connecting flights.*

Trip purpose: In Delhi, Dr. Gutiérrez-Jiménez will meet with PREDICT-2 India's Country Coordinator, Rajesh Bhatia, and in Lucknow will meet with implementing partners at Sanjay Gandhi Postgraduate Institute of Medical Sciences to coordinate surveillance activities. In Maharajganj, Uttar Pradesh, Dr. Gutiérrez-Jiménez will conduct disease ecology and wildlife surveillance training. She and PREDICT-2 India Field Coordinator, Debapriyo Chakraborty, will also carry out bat and rodent sampling.

Hi Andrew. Please find below international travel requests for your review and approval. My apologies for the late submission of the ITA for Dr. Belkhiria; there were some visa questions related to his travel that we were only recently able to resolve. Please let me know if you have any questions. Thanks!

1. Belkhiria (USA): \$1100 airfare /\$119 (Davis) max daily per diem
2. Daszak (China): \$7115 airfare *business class required due to REDACTED // \$377 (Beijing) max daily per diem
3. Fine (USA): \$1700 airfare/\$364 (New York) max daily per diem

Travel Requests –

1. UC Davis would like to request travel approval for Dr. Jaber Belkhiria to travel from Tunis, Tunisia to Davis, California, USA from September 5 to October 17, 2018 for meetings with the PREDICT team members at UC Davis.

Trip Purpose: Dr. Belkhiria will meet with the OHI PREDICT team members to coordinate Y5 PREDICT activities and discuss collaborative findings and potential scientific manuscripts.

2. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, New Jersey, USA to Beijing, China from September 16-20, 2018 to attend and speak at the World Conference on Science Literacy and meet with faculty at China CDC, including Director General George Gao.

Trip purpose: From September 17-19, 2018, Dr. Daszak will attend the World Conference on Science Literacy in Beijing, China. On September 18, 2018, he will give a 30 minute talk on science literacy and sustainable development of public health. While in Beijing, Dr. Daszak will meet with Dr. George Gao, a steering committee member of the Global Virome Project, to continue discussions on the GVP effort in China.

3. Wildlife Conservation Society would like to request travel approval for Amanda Fine to travel from Hanoi, Viet Nam to New York, New York, USA for one working week (10 days total with travel time), to attend the PREDICT-2 Consortium Partners meeting that will be held New York November 6-7, 2018.

Trip purpose: Amanda Fine will be representing WCS at the PREDICT Consortium meeting and contributing, with other colleagues, to the sessions and discussions. WCS is hosting the November PREDICT-2 Consortium meeting and Amanda Fine will be assisting with meeting preparations and follow-up activities. Amanda Fine will meet with WCS PREDICT-2 colleagues November 8-9 for detailed planning of PREDICT-2 project wrap-up in Viet Nam and Mongolia, completion of Year 5 activities, and preparation of data for PREDICT-2

analyses and publications.

*Please find below international travel requests for your review and approval. Please let me know if you have any questions.
Thanks!*

1. Karesh, Machalaba, Carlin: \$1500 airfare each (Economy)/\$6500 airfare (Business)**business class required for Dr. Karesh due to REDACTED* \$387 (Sydney) max daily per diem
2. Smith (Ethiopia, Uganda): \$3500 airfare/\$400 (Addis Ababa), \$245 (Entebbe) max daily per diems
3. Fine (USA): \$1700 airfare, \$100 train fare/\$241 (Philadelphia) max daily per diem *M&IE while traveling between Viet Nam and the USA estimated at \$50/day X 2; total = \$100.

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh and Ms. Catherine Machalaba, and Dr. Ellen Carlin to travel from New York, NY, USA to Sydney, Australia from June 16-22, 2019 to participate in the 2019 Global Health Security Conference.

Trip purpose: Participants will attend the inaugural Global Health Security conference which aims to bring together stakeholders working in global health security to measure progress, determine gaps, and identify new opportunities to enhance national, regional and global health security as well as provide a venue for government officials and International Organizations to share policy developments, hear from the research community, and create a space for side meetings that advance the health security agenda.

Each individual named above will be presenting. Dr. Karesh will present on “Integrating environment for global health security gains” to deliver findings of USAID EPT Programs of risk factors of disease emergence including existing gaps in developing countries policy framework. He will illustrate the One Health policy work generated by PREDICT 2, such as the One Health economic work.

Ms. Machalaba will present on “One Health economics to inform investments in zoonotic disease prevention and control” based on PREDICT 2 One Health economic work examining cost effectiveness of multi-sectoral strategies.

Dr. Carlin will present on an abstract co-authored by Dr. Dennis Carroll “Prevention through Recovery: Multisectoral Core Global Health Security Preparedness Needs”, on findings of gaps in unmet core needs of global health security. The talk will highlight the importance of risk reduction in line with PREDICT 2. **A portion of Dr. Carlin’s conference registration will be covered on other funds.*

2. UC Davis would like to request travel approval for Dr. Woutrina Smith to travel from Davis, California, USA to Addis Ababa, Ethiopia from July 20-24, 2019 and then on to Kampala, Uganda from July 24-26, 2019 for meetings and training with the PREDICT Ethiopia teams, as well as presenting PREDICT Project findings and perspectives at an invited EPT OHCEA plenary talk in Kampala on July 25, 2019.

Trip purpose: Dr. Smith is the PREDICT global Capacity Team and Ethiopia lead who works closely with country coordinators and

implementing teams on project planning. Her visit to Addis Ababa, Ethiopia will provide an opportunity to work with project teams on 2019 project wrap up tasks that maximize capacity strengthening activities in East Africa. In Kampala, Uganda, Dr. Smith will be speaking at the EPT annual One Health Central and Eastern Africa university network conference representing the PREDICT Project. **A portion of the Ethiopia trip will also be to work on USAID Livestock Systems Innovation Lab REACH project activities, so travel costs will split between the two projects for the Ethiopia portion.*

3. Wildlife Conservation Society would like to request travel approval for Amanda Fine to travel from Hanoi, Viet Nam to Pennsylvania, PA, USA, from July 21 to August 10, 2019 for Home Leave and meetings with PREDICT colleagues at the WCS Bronx Zoo headquarters.

Trip purpose: Amanda Fine will travel to Philadelphia, Pennsylvania from July 21 to August 10 for Home Leave, with travel to New York for meetings with PREDICT colleagues at the WCS Bronx Zoo headquarters from July 23-25, to finalize details of PREDICT project close out in Viet Nam and Mongolia, and progress PREDICT manuscripts.

Hi Andrew. Please find below an amendment to the GVP Bangkok ITA for those participants who will also be attending the Prince Mahidol Award Conference (per verbal discussion with Dennis Carroll). Thanks!

AMENDMENT

The Global Virome Project requests approval for the individuals listed below to travel from their respective departure locations to Bangkok, Thailand from January 28 to February 4, 2018 to participate in the Global Virome Project meeting on January 29, and the Prince Mahidol Award Conference (PMAC 2018) January 29 to February 3.

Trip purpose: The GVP meeting will bring together the core group, working group chairs and global stakeholders for presentations and meetings regarding various critical topics to move the project forward, including best practices for implementation, country coordination and governance. This will enable GVP to coordinate global planning and project implementation for the coming years, and will provide the unique opportunity to bring all stakeholders and key personnel from around the world to one location. This meeting is key to implementing the project successfully. The Prince Mahidol Award Conference 2018, "Making the World Safe from the Threats of Emerging Infectious Diseases," will provide a sharing and learning forum for multi-sectoral experts in zoonosis, AMR, climate change and related environmental fields, as well as the opportunity to engage in side meetings with partners and collaborators.

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

1. Li (China): \$2,720 airfare/\$407 (Guangzhou), \$377 (Beijing), \$241 (Kunming) max daily per diems
2. Daszak (China): \$7,670 airfare *business class required due to medical need/\$377 (Beijing), \$535 (Hong Kong), \$407 (Guangzhou) max daily per diems
3. Watson (China): \$1,253 airfare/\$377 (Beijing), \$535 (Hong Kong), \$407 (Guangzhou) max daily per diems
4. White, Johnson, Feferholtz, Zambrana-Torrel (Indonesia): \$1,380 airfare each/\$362 (Jakarta) max daily per diem
5. O'Rourke (USA): \$392 airfare/\$375 (New York) max daily per diem
6. McIver (USA): \$325 airfare/\$375 (New York) max daily per diem
7. Mazet (Sweden): \$15,000 airfare *business class required due to medical need/\$365 (Uppsala) max daily per diem

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Hongying Li to travel from Newark, New Jersey, USA to Beijing, Guangzhou, and Kunming, China from August 31 to September 29, 2017 for meetings with in-country partners in China for PREDICT-2 projects operations.

Trip purpose: Hongying Li will meet with local Field Coordinator, Dr. Guangjian Zhu, for Year 4 wild animal sampling planning, and staff from Guangdong CDC for human syndromic surveillance work. Hongying will also meet with staff from Yunnan Institute of Endemic Diseases Control and Prevention for community behavioral surveillance training and operations, as well as the Chinese Academy of Sciences and China CDC for the GVP initiative in China.

2. EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, New Jersey, USA to Beijing, Hong Kong, and Guangzhou, China from September 2-9, 2017 for meetings with local partners for PREDICT and GVP operations.

Trip purpose: Dr. Daszak will attend meetings with Chinese Academy of Sciences, China CDC, and US Embassy in China for GVP planning; give a presentation on GVP at Hong Kong University, and meet with

faculty; and meet with staff from Guangdong CDC for human syndromic surveillance in China.

3. EcoHealth Alliance would like to request travel approval for Brooke Watson to travel from New York, NY, USA to Beijing, Hong Kong, and Guangzhou, China from September 2-9, 2017 for meetings with local partners for PREDICT and GVP operations.

Trip purpose: Ms. Watson will attend meetings with Chinese Academy of Sciences, China CDC, and US Embassy in China for GVP planning. She will meet with Keiji Fukuda, a member of the GVP steering committee, and give a presentation on the Global Virome Project to Hong Kong University. She will also meet with staff from Guangdong CDC for human syndromic surveillance in China.

4. EcoHealth Alliance would like to request travel approval for Allison White, Erica Johnson, Yasha Feferholtz, and Carlos Zambrana-Torrel to travel from New York, NY, USA to Jakarta, Indonesia from September 3-9, 2017 for P-2 IDEAL INDOHUN collaboration.

Trip purpose: The purpose of the travel is to meet with INDOHUN collaborators to assist with data collection and modeling activities and to build capacity of within Indonesia's One Health Workforce. The EHA team (White, Johnson, Feferholtz, and Zambrana-Torrel) will conduct a programming and analysis workshop, as well as provide training on economic modeling and scientific communication and community outreach for One Health topics. **Travel will occur as part of a longer trip to the region for PREDICT and other projects; the portion related to PREDICT is reflected in the ITA, while travel outside these dates will be covered on non-PREDICT funds.*

5. Metabiota would like to request travel approval for Tammie O'Rourke, Senior Information Management Developer, to travel from Nanaimo, British Columbia, Canada to New York, NY, USA from Sept 11-13, 2017 for the PREDICT Semi-Annual Consortium Meeting.

Trip purpose: Tammie O'Rourke will join Dr. David McIver, PREDICT Asia Regional Coordinator, at the PREDICT Semi-Annual Consortium Meeting.

6. Metabiota would like to request travel approval for Dr. David McIver, PREDICT Asia Regional Coordinator, to travel from Charlottetown, Prince Edward Island, Canada to New York, NY, USA from September 11-13, 2017 for the PREDICT Semi-Annual Consortium Meeting.

Trip purpose: Dr. David McIver will join Tammie O'Rourke, Senior Information Management Developer, at the PREDICT Semi-Annual Consortium Meeting.

7. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from San Francisco, CA, USA to Uppsala, Sweden from October 8-11, 2017 to participate in the Uppsala Health Summit 2017: Tackling Infectious Disease.

Trip purpose: Dr. Mazet will engage as an invited participant in the Uppsala Health Summit on 'Infectious Disease Threats – Prevent, Detect, Respond with a One Health Approach' at Uppsala Castle, Sweden. The participants will discuss and work to develop practice guidelines and mechanisms to empower local research capacities, and will strategically convene as international leaders working on One Health approaches to reduce risk behavior in low-income settings. While attending the Uppsala Health Summit, Dr. Mazet will also conduct meetings with PREDICT consortium members and EPT-2 partners, as well as identify useful stakeholders and collaborators to encourage continued support for the Emerging Pandemic Threats program and promote Global Virome Project engagement.

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!!

O'Rourke, O'Rourke (USA): \$235 airfare each/\$179 (Davis) max daily per diem

Mazet (Ghana): \$9,000 *business class required due to REDACTED /\$331 (Accra) max daily per diem

Montecino (Ghana): \$2,000 airfare/\$331 (Accra) max daily per diem

Kelly (Ghana): \$2,000 airfare/\$331 (Accra) max daily per diem

Bhatta & Sharma (USA): \$1,800 airfare each/\$179 (Davis) max daily per diem

Multiple – OH Economic Evaluation Workshop (USA)

Travel Requests:

1. Metabiota would like to request travel approval for Tammie O'Rourke and Daniel O'Rourke to travel from Nanaimo, British Columbia, Canada to Davis, California, USA from February 8 – 11, 2017 to meet with the UCD global team.

Trip purpose: To meet with UC Davis global team to discuss USAID reporting and PREDICT Year 3 workflow.

2. UC Davis would like to request travel approval for Dr. Jonna Mazet to travel from Davis, California, USA to Accra, Ghana from February 19-24, 2017 to meet with project partners to discuss coordination and implementation of sampling, surveillance, and diagnostic activities.

Trip purpose: Dr. Mazet will be traveling to Accra with Dr. Terra Kelly in order to meet with PREDICT partners to discuss implementation of surveillance and diagnostic laboratory activities, and scoping and planning for upcoming surveillance activities and research at a new site for PREDICT (area of the 37 Military Hospital in Accra). Meetings will also be held with FAO to discuss coordination of sampling activities at shared surveillance sites.

3. UC Davis would like to request travel approval for Dr. Terra Kelly to travel from Flagstaff, Arizona, USA to Accra, Ghana from February 19-March 2, 2017 to meet with project partners to discuss coordination and implementation of sampling, surveillance, and diagnostic activities, as well as conduct additional training with team on the EIDITH database.

Trip purpose: Dr. Kelly will be traveling to Accra with Dr. Mazet in order to meet with PREDICT partners to discuss implementation of surveillance and diagnostic laboratory activities, and scoping and planning for upcoming surveillance activities and research at a new site for PREDICT (area of the 37 Military Hospital in Accra). Meetings will also be held with FAO to discuss coordination of sampling activities at shared surveillance sites, and Dr. Kelly will be conducting additional training for PREDICT implementing partners on data entry and management in the EIDITH database.

4. UC Davis would like to request travel approval for Dr. Diego Montecino to travel from Davis California, USA to Accra, Ghana from February 19-April 19, 2017 to develop and implement protocols at 37 Military Hospital research site.

Trip purpose: Dr. Montecino will be developing and implementing protocols for research to investigate the influence of straw colored fruit bat population demographics on shedding of Coronaviruses at the 37 Military Hospital site.

5. UC Davis/CMDN would like to request travel approval for Mr. Tarka Raj Bhatta and Mr. Ajay Narayan Sharma to travel from Kathmandu, Nepal to Davis, California, USA from February 19-March 5, 2017 to conduct laboratory training.

Trip purpose: Mr. Bhatta and Mr. Sharma (wet laboratory managers at Center for Molecular Dynamics Nepal (CMDN), primary implementing partner for PREDICT in Nepal) will participate in training on cloning, preparation of samples for sequencing of suspect positives, evaluation of sequences, and laboratory optimization for implementation of PREDICT viral testing activities.

6. EcoHealth Alliance would like to request approval for the **individuals listed below** to travel from **their respective departure locations (listed below)** to Washington, DC, USA from January 30 to February 2, 2017 for the One Health Economic Evaluation Workshop.

Trip purpose: This expert workshop and high-level forum on One Health economic evaluation (see 2nd bullet under Sub-activity 4.2.3 in Y3 PREDICT work plan), co-hosted by the World Bank and the PREDICT project, will convene experts to evaluate the cost-effectiveness of One Health approaches, building on the “People, Pathogens and Our Planet: The Economics of One Health” and “Drug Resistant Infections: A Threat to Our Economic Future” reports (World Bank, 2012 and 2016). Specific objectives are to: 1) generate additional economic analyses on the cost and economic options to address emerging and endemic diseases relevant to One Health, 2) identify key policy-oriented information and data gaps, and 3) recommend methods for assessing the costs and benefits of intervention options for pandemic and epidemic risk. Experts selected will help disseminate workshop outputs, including engagement of World Bank country economists in future data analysis and dissemination. Information generated will also be shared with the World Bank – World Health Organization Financing Pandemic Preparedness Task Force. Max daily per diem for Washington, DC is \$251.

Travelers Name	Title/Affiliation

Travel Requests –

1. UC Davis would like to request travel approval for Dr. Corina Monagin to travel from Los Angeles, California, USA to Guinea, Conakry from July 22-29, 2017 for work plan and partner meetings related to the Ebola Host Project.

Trip purpose: Dr. Corina Monagin is traveling to Conakry as PREDICT Global Lead for the PREDICT program in Guinea. Dr. Monagin is planning to assist in transitioning the implementing partner from Metabiota to UC Davis. This will include meetings with Government Ministries (Health, Agriculture, Higher Education and Scientific Research), as well as in-country partners and stakeholders. She will be working with the PREDICT team on work plan, sampling strategy, as well as quality control of samples and data.

2. UC Davis would like to request travel approval for Dr. Terra Kelly to travel from Flagstaff, Arizona, USA to Accra, Ghana from August 5-12, 2017

Trip purpose: Dr. Terra Kelly will be traveling to Accra to meet with PREDICT implementing partners to discuss implementation of surveillance and diagnostic laboratory activities and scoping and planning for upcoming surveillance activities in Year 4. Dr. Kelly will also be conducting training for PREDICT human disease surveillance partners on questionnaire administration for the risk characterization and all laboratory partners on data entry and management in the EIDITH database for laboratory results reporting.

3. Metabiota would like to request travel approval for Tammie O'Rourke and Daniel O'Rourke to travel from Nanaimo, British Columbia, Canada to San Francisco, California, USA on August 23, 2017 to meet with PREDICT Senior Management. From San Francisco, California, USA, they will travel to Davis, California, USA from August 23 – 25, 2017 to meet with UCD global team and discuss USAID reporting and data extracts.

Trip purpose: In San Francisco, they will meet with PREDICT Senior Management to discuss PREDICT Information Management concerns, progress and issues. In Davis, they will meet with the UCD global team and discuss USAID reporting and data extracts and mapping to prepare for the PREDICT data meeting September 2017.

4. EcoHealth Alliance would like to request travel approval for Mr. Carlos Zambrana-Torrel to travel from New York, New York, USA to Cartagena de Indias, Colombia from July 23-29, 2017, to attend and present at the International Congress for Conservation Biology.

Trip purpose: As part of continued work under the CBD-WHO Joint Work Programme, Mr. Zambrana-Torrel will present on the indicators for health that links disease emergence and biodiversity loss and the One Health approaches operationalized by PREDICT-2. In addition, he will discuss on the methods and findings from the Deep Forest project to emphasize synergies in biodiversity and disease monitoring. Presentation title: "Integrating biodiversity in conservation planning for human health and well-being." Mr. Zambrana-Torrel also was invited to participate in a workshop session on ecosystems and human health organized by the International Union for Conservation Nature.

5. EcoHealth Alliance would like to request travel approval for Simon Anthony to travel from New York, New York, USA to Kuala Lumpur, Malaysia from July 23-30, 2017 for in-country trainings with local partners and PREDICT staff.

Trip purpose: The purpose of this trip is to meet with local sequencing companies to discuss local implementation of new technologies developed at CII (VirCapSeq) (24th July). Dr. Anthony will also conduct a three-day training workshop with PREDICT staff at the National Public Health Lab (NPHL) on PCR, cloning and sequencing, as well as sequence analysis and assay design. Dr. Anthony will also conduct a one-on-one training with Mei Ho Lee in paper writing. Outcome: Enhanced local capacity for viral discovery, sequence analysis and assay design. Planning of PREDICT papers to be led by regional staff (Mei Ho Lee).

6. EcoHealth Alliance would like to request travel approval for Mr. Aleksei Chmura to travel from New York, New York, USA to Dali, Beijing, Guangzhou, and Shanghai China from July 31 to September 5, 2017 for meetings with in-country partners, field work, behavioral surveillance, and site selection work.

Trip purpose: Mr. Aleksei Chmura will meet with PREDICT-2 Field Coordinator Dr. Libiao Zhang at Guangxi Normal University in Guilin, and at our Partner Laboratory based at the Guangdong Entomological Institute in Guangzhou in Guangdong, as well as with Dr. Changwen Ke at the Guangdong CDC in Guangzhou. Dr. Zhu and Mr. Chmura will meet with Dr. Yunzhi Zhang of the Yunnan CDC. Together with Field Coordinator Dr. Guangjian Zhu, Mr. Chmura will coordinate and travel with full field team to sites in Yunnan Province to assist with human behavioral surveillance fieldwork, review field, lab, and data entry protocols, and prepare for 2017-18 PREDICT-2 field sampling. Field sites are prioritized along the wildlife trade pathways as per PREDICT-2 site selection criteria and protocols. Mr. Chmura will communicate with PREDICT-2 Metabiota partners in China as well as new Chinese Academy of Sciences Laboratory collaborators based in Beijing.

7. EcoHealth Alliance would like to request travel approval for Mr. Carlos Zambrana-Torrel to travel from New York, New York, USA to Beijing, China from August 19-27, 2017, to attend and present at the International Association for Ecology (INTECOL).

Trip purpose: Mr. Zambrana-Torrel will attend the International Association for Ecology to present the results produced by Modeling and Analytics Working Group of the Global Virome Project. Presentation title: “The Global Virome Project: A network of viral-diversity monitoring.”

8. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York, New York, USA to Paris, France from August 21-24, 2017 to participate in the World Organization for Animal Health’s (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat.

Trip purpose: Dr. Karesh will participate in the World Organisation for Animal Health’s (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat. Dr. Karesh will participate in setting health and IACUC related standards for wildlife farming for OIE code purposes.

9. UC Davis would like to request travel approval for Brett Smith to travel from Sacramento, California, USA to Freetown and Makeni, Sierra Leone from July 21 to August 10, 2017 to perform laboratory training.

Trip purpose: Mr. Smith will fly to Freetown, then travel on to Makeni to perform laboratory training. The training will include staff from UNIMAK and PREDICT with invitations to MAFFS and MOH to include staff from the TEKO veterinary lab and National Public Health lab to prepare, handle and test samples using Predict protocols.

10. UC Davis would like to request travel approval for Alexandre Tremeau-Bravard to travel from Sacramento, California, USA to Dakar, Senegal from August 12-25, 2017, then to Kigali, Rwanda from August 25-30, 2017 to perform laboratory trainings.

Trip purpose: Senegal – In Dakar, Mr. Tremeau-Bravard will train lab staff from ISRA and ICAD to prepare, handle and test samples using Predict protocols. Rwanda – In Kigali, he will do a refresher lab training for staff based at NRL and RAB.

11. UC Davis would like to request travel approval for Dr. Tracey Goldstein to travel from Sacramento, California, USA to Phnom Penh, Cambodia from August 3-11, 2017 to attend meetings with government and non-governmental partners, as well provide technical guidance to the field team during planned August sampling activities.

-
Trip purpose: Dr. Goldstein will meet with government and non-governmental partners regarding coordination of PREDICT-2 activities, and will join the field team to assist with technical guidance for the concurrence sampling of human, livestock and wildlife planned for August in a bat guano farming community in Kampong Cham.

12. UC Davis would like to request travel approval for Diego Montecino to travel to Dar es Salaam and Morogoro, Tanzania from August 5-26, 2017 to support the PREDICT Tanzania team in the initiation of new in-depth methods for bat surveillance at high-risk urban interfaces.

Trip purpose: Mr. Montecino (UC Davis-based project scientist) will support the PREDICT Tanzania team to set up new methods for safely and effectively collecting non-invasive samples from a well-established urban straw-coloured fruit bat (*Eidolon helvum*) colony in Morogoro in order to test them for Coronaviruses and other priority viral threats. He will also introduce methods for counting bats present in a colony and assessing bat behavior and their interactions with people. Mr. Montecino will work hand-by-hand with the PREDICT Tanzania team to transfer the knowledge, skills, and capacity to conduct these activities following his return to the US.

Hi Lindsay. Please find below a change to Peter Daszak's approved travel to China, adding travel to Malaysia. His previously approved ITA is below for reference with changes highlighted in yellow. Please let me know if you have any questions. Thanks!

EcoHealth Alliance would like to request travel approval for Dr. Peter Daszak to travel from Newark, New Jersey, USA to Beijing, China from February 14-17 48, 2019 for GVP planning. From Beijing, China he will travel to Kota Kinabalu, Malaysia from February 17-19, 2019 for meetings with the Malaysia Country Coordinator and PREDICT team members.

Trip purpose: China – Dr. Daszak will meet with staff from China CDC, Chinese Academy of Sciences, and National Natural Science Foundation of China for GVP work planning in China on February 16 and 17. Malaysia – On February 18 and 19, Dr. Daszak will meet with the PREDICT Country Coordinator and team members to discuss Y5 plans for data analysis and results sharing, meet with key PREDICT Malaysia stakeholders in Sabah, and plan for Deep Forest analysis. **While in Malaysia, Dr. Daszak will attend the close-out meeting for USAID IDEEAL program and the cost will be shared with IDEEAL. [\$5829 airfare *business class required due to medical need/\$346 (Beijing), \$247 (Kota Kinabalu) max daily per diems].*

Hi Andrew. We are still unclear of the funding outlook, but in the event funds are available, we are seeking approval for this closeout activity. Thank you!

1. Karesh (France): \$7500 airfare **business class required due to* **REDACTED** \$560 (Paris) max daily per diem

Travel Request –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York City, NY, USA to Paris, France from December 2-7, 2019 to speak at the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting.

Trip purpose: Dr. Karesh is to participate in the World Organisation for Animal Health's (OIE) Working Group on Wildlife Meeting, for which he serves as Chairman. The OIE Working Group on Wildlife advises the OIE on all health problems relating to wild animals, including emerging disease events and reporting guidelines. Dr. Karesh will present a summary of PREDICT findings to OIE senior staff, discuss ebola PREDICT findings with the OIE lead of EBO-SURSY (EU Ebola Surveillance System Project) and project directors as well as discuss EBO-SURSY activities in the follow-up to PREDICT. The meeting will allow Dr. Karesh to share PREDICT-2 findings, discuss the revision of the official OIE Disease Card on filoviruses to include PREDICT-2 findings, and discuss OIE activities in regards to previous and future activities in PREDICT countries. **As an invited speaker, OIE will provide funds for Dr. Karesh's economy fare and per diem expenses for this meeting.*

Subject: PREDICT International Travel Requests
Sent: Thu, 21 Dec 2017 16:25:32 -0800

Please find below international travel requests for your review and approval. Please let me know if you have any questions. Thanks!

1. Machalaba, Karesh (Liberia): \$1600 (Machalaba), \$6000 (Karesh) airfare **business class fare required for Dr. Karesh due to REDACTED* \$295 (Monrovia) max daily per diem
2. Machalaba (Switzerland): \$1300 airfare/\$478 (Geneva) max daily per diem
3. Thuy (Bangkok): \$200 airfare/\$246 (Bangkok) max daily per diem
4. Karesh (France): \$7500 airfare **business class required due to REDACTED* /\$608 (Paris) max daily per diem

Travel Requests –

1. EcoHealth Alliance would like to request travel approval for Dr. William Karesh and Ms. Catherine Machalaba to travel from New York City, NY, USA to Monrovia, Liberia from January 14-20, 2018 to conduct a ground-truthing and initial pilot of the World Bank Capacity Assessment for Environmental Health Services (a tool developed with technical support from PREDICT partners).

Trip Purpose: The pilot will include a workshop with relevant ministries (those responsible for health, agriculture, environment, and disaster risk reduction) and targeted ministry meetings to review the draft tool and collect information sources for the assessment. The tool complements animal and human health system capacity assessments (WHO's Joint External Evaluation and OIE Performance of Veterinary Services) to reinforce country ability to more effectively and proactively assess and manage environmental health risks, including drivers of disease emergence. Capabilities for wildlife health services are emphasized. The tool strongly promotes One Health approaches and can help broaden application of best practices learned from PREDICT-2 operations. Dr. Karesh and Ms. Machalaba will oversee the pilot of the tool in partnership with colleagues from the World Bank.

2. EcoHealth Alliance would like to request travel approval for Ms. Catherine Machalaba to travel from New York City, NY, USA to Geneva, Switzerland from February 25 to March 1, 2018 to participate in the WHO-FAO-OIE Tripartite Zoonoses Guide expert workshop.

Trip Purpose: Ms. Machalaba serves on working groups for the Guide's Planning and Preparedness and Joint Risk Communication and Risk Reduction chapters and has been invited to the February meeting to help finalize the Guide. The Guide incorporates strategies from the PREDICT project, including information sourced from One Health case studies assembled from EPT-2 partners.

3. Wildlife Conservation Society (WCS) would like to request travel approval for Ms. Hoang Bich Thuy to travel from Ha Noi, Viet Nam to Bangkok, Thailand from January 31, 2018 to February 3, 2018 to participate in the Prince Mahidol Award Conference 2018 on "Making the World Safe from the Threats of EIDs."

Trip purpose: The conference will provide a sharing and learning forum for multi-sectoral experts in zoonosis and AMR, as well as climate change and related environmental fields. Ms. Thuy will be one of the panelists to represent WCS and its PREDICT work on impacts of human travel and trade in animal products and their influence on emerging disease dynamics.

4. EcoHealth Alliance would like to request travel approval for Dr. William Karesh to travel from New York City, NY, USA to Paris, France from January 22-25, 2018 to participate in the World Organisation for Animal Health's (OIE) ad hoc group on killing methods for farmed reptiles for their skins and meat.

Trip purpose: Dr. Karesh will participate in World Organisation for Animal Health's (OIE) ad hoc group. This meeting is a follow up to a meeting held in August with the aim of setting health and IACUC related standards for wildlife farming for OIE code purposes. The farming of wildlife presents opportunities for the emergence of infectious diseases due to the unusual and unnatural groupings of species unnatural habitats in contact with other species in humans that does not occur in the wild. OIE is working to develop standards and codes for countries to follow that will reduce the risk of disease emergence in both animals and humans. Since good standards such as used in the US in IACUC process also lend themselves to disease risk reduction OIE provides an opportunity to promote similar standards in countries where best practices are currently not being utilized. **The OIE will provide funds for Dr. Karesh's economy*

fare and per diem expenses for this meeting.
