对不起。没写完。是 NIAID's Director, Dr. Fauci. Letter to China CDC Weekly

我准备说写一下他对同期发表的文章的 comments. 这是我问你问题的原因

Jan 3, 2020 12:10 AM

嗯嗯，我建个群，把出版部负责同志一起拉进来，以便您确认放在哪一期合适。

Jan 28, 2020 8:33 PM

浩，刚刚给高福老师发了微信。你也应该收到的。请你一定协助我们了解高老师的决定是否愿意在最近的1-2天里和 Dr. Fauci 通电话。麻烦你了。

李浩

Dr. Fauci 通电话。麻烦你了。  
祝你鼠年快乐健康幸福. 陈平

我在群里看到了。祝您新春快乐！拜年了！

Jan 28, 2020 9:21 PM

拜托了。高老师那边要靠你的帮助了。谢谢

Jan 28, 2020 9:41 PM

我现在也见不到高老师，派我在委机关对接应急。

Jan 28, 2020 9:48 PM

好吧。我等一两天。你知道这些日子有谁能和高老师接触多？你能帮我找到 CDC Doris (王晓琪?) 的微信吗？谢谢了

That's a relief. I had read articles from WeChat criticize you. Plus you are not seen in the public

Heard from Gray that you and NIH May collaborate on vaccines. That would be nice. Gray is pushing for sample sharing.

I have been assigned to antiviral contract so getting busy too.

We may soon be told working from home as COVID-19 is spreading in the U.S.

Tony pointed to Barney and Barney made a connection with BioNTech in Germany. The mRNA vaccine collaboration has just started

Mar 11, 2020 11:42 PM

Funny thing here is no one wear masks! The health officials emphasize hand washing, not touch faces and avoid large gathering. Said masks do not prevent getting the infection

I have been doing great for the COVID-19 control, but some attacked me

How RU lately?

Jun 4, 2020 8:56 AM

Thank you for asking. Very busy. I am now working on antiviral and antibiotic R&D programs at NIAID. Very busy with COVID-19. I am so saddened to watch the deterioration of US-China relationship.

What do you see the future collaboration in biomedical research?

Feb 11, 2021 5:16 PM

Dear George, Happy the Year of the Ox. Best to you in the new year.

You know when the mRNA vaccines are approved for EUA we are surprised with the high efficacy.

May 21, 2021 1:25 PM

We need you! So carefully take your battle

Yet, we do not know any potential longer side-effect of mRNA in the body! The Americans are brave!

NIH VRC group you know Barney Who has been working on mRNA platform vaccines for years. The reason we can launch it quickly

Dear George, as the world is dealing with the highly transmissible SARS-2 delta variant, I have never forgotten what you said to ASF on the phone call in early Feb 2020. You said although we don't know much about the new coronavirus one thing you do know is the new virus 'adapted human host well'. I remember it. Now your early observation has proven to be true. Each variant emerges as highly transmissible virus, first was alpha, then alpha becomes delta and transmission goes up and widely spread. I have to tell you this. Hope you remember that conversation. Good day! And take care.

Dear George, 陈平在NIH给你拜年了。知道你非常忙, 不想打扰你。可现在重任在身呀。

Jan 28, 2020 8:21 PM

Would you be interested in having a quick phone call with Dr. Fauci to share information about our respective nCoV research efforts and plans? We think it might be especially useful to update each other about what we are doing here and in China to develop diagnostics, vaccines, and therapeutics. We could set this up in the next few days and also explore any opportunities to work together so the science advances as quickly as possible. Greatly appreciate your response. 在这个鼠年要为
