Subject: TIME video previously developed

Hi Tony,

Peter and I are on a call going over GVP press. We discussed that you all had been working with TIME, which is fantastic. TIME had previously developed a video piece that I'm not sure ever aired, but they may already have what they need from a video perspective if they wanted to use it as a companion online piece. Our understanding before was that they were waiting for an optimal time/reason to release what they had prepared. They may not want that exact, produced piece, but it would provide them footage filmed by their own crew that could be helpful for an online presence. The Production Coordinator for that piece was Julia Lull

<Julia.Lull@time.com>.

Good luck,
Jonna

Subject: OHAC meeting #13 follow-up

Dear OHAC members,

Thank you very much for a productive meeting last week. Please see the meeting notes attached.

By now, I hope all of you have completed the [One Health workers survey](#). If not, please take it NOW! It only takes a few minutes. And please continue to forward the survey to your colleagues and students. As you can see below, we are doing a solid job getting responses, but we want as many responses as possible, so please keep on disseminating it to your networks especially to students (see attached blurb you could copy/paste or adapt when forwarding the survey).

Stats as of 12/6:

- 40 students (still low!)
- 113 graduates
- 247 workers

- 99 employers

I will be in touch soon with doodle polls so we can schedule our meetings in early 2019. Thank you for all your hard work this year – we have accomplished so much!

All the best,
Ayano

V. Ayano Ogawa, S.M.

Subject: Predicting the Future Trajectory COVID-19

Dear Colleagues:

Further to that letter you published in *The Lancet*.

[https://www.thelancet.com/journals/lancet/article/PIIS0140-6736\(20\)30418-9/fulltext](https://www.thelancet.com/journals/lancet/article/PIIS0140-6736(20)30418-9/fulltext)

I am writing to you all again. Apart from our attempt to alert the world in *The Lancet* and *The Australian* (early February, below) all our analyses and predictions on the origin and global spread of COVID-19 are now published or *In Press*. We are the only scientific analysts and pundits who have got it right from the Get-go: our explanation is consistent with all the genetic, immunologic, epidemiologic, geophysical, astrophysical and astrobiological data and observations – the principles and key turning point analyses were largely assembled earlier (40 years ago) by Sir Fred Hoyle and Professor N Chandra Wickramasinghe, and now updated here by Professor Chandra Wickramasinghe (in his 81 st year) and his active colleagues for the COVID-19 pandemic (see URLs to recent comprehensive reviews at end of list below) .

Their 1979 book “Diseases from Space” is obligatory reading, a scientific masterpiece written for the general intelligent reader – both Fred and Chandra should have been awarded the Nobel years ago, but human frailty, clay feet, jealousy, envy and cowardice made sure that did not happen.

Yours sincerely

Ted Steele

Hello all,
Please join us for the last in the series of AFROHUN Benchmarking and Assessment Virtual Workshops under Objective 3. This last session is dedicated to planning specific capacity-building activities we will undertake jointly over the remainder of Years 1 and 2, in response to the bench-marking activities. We will be sending an agenda and slides the day no later than a day before our meeting. In the meantime, you are welcome to review the annotated slide decks from the first four virtual workshops attached. Sincerely,
Alexandra
Alexandra Zuber is inviting you to a scheduled Zoom meeting.

**Subject:** Forum on Microbial Threats Bimonthly Update - October 2017  
**Attachments:** FMT new member bios 9.28.17.pdf

Dear Forum Members,

I am writing to provide an update on our Forum activities.

#### **New Forum Members**

- We would like to give a warm welcome to our new members who have joined the Forum in the past months:
  - Elizabeth Hermsen, Head of Global Antimicrobial Stewardship, Merck
  - Marlo Libel, Senior Advisor, Skoll
  - Carmen Maher, Assistant Surgeon General, Acting Assistant Commissioner for Counterterrorism and Emerging Threats, Office of the Chief Scientist, FDA. (Jeanne Hu-Primmer will be representing Carmen in Forum activities as needed)
  - Sally Miller, Professor of Plant Pathology, Ohio State University
  - David Nabarro, Special Adviser of the Secretary-General on the 2030 Agenda for Sustainable Development and Climate Change
- Please see attached a document with their brief bios. We look forward to meeting many of them in the December meeting!

#### **Workshop on "Urbanization and Slums: New Transmission Pathways of Infectious Diseases in the Built Environment" – December 12-13, 2017**

- We would like to thank our excellent committee that has supported the planning process. We are very close to finalizing an agenda that we hope to share with you in a few weeks. If you are interested in seeing a draft agenda before please let me know.

- All information available to the public will be posted on our website [here](#). Registration will open in early November and we would very much appreciate your help with disseminating the event.
- If you have not done yet, please respond to the RSVP survey that Anh shared with you a few weeks ago. It will help us if you can indicate your attendance to each one of the meetings, including the Forum dinner. If there are any changes to your responses, please let Anh know.

### **One Health Work Group**

- The One Health work group held its fifth call and welcomed two new forum members this month, Elizabeth Hermsen and Lonnie King.
- Over the past couple of months, the work group has developed a draft on One Health core competencies. The plan is to edit and refine the draft in October and submit the paper later this year to National Academy of Medicine *Perspectives* for publication.
- Additionally, the work group is starting to develop another deliverable on One Health workforce. The work group plans to conduct a survey of One Health program graduates and their potential employers, and produce a paper that examines where One Health professionals are placed in the workforce in the US, how One Health training has or has not contributed to professional success in a subset of trainees, and issues that are unique to the recruitment and retention of One Health professionals.
- Finally, the work group is in the process of looking into ways to weigh in on a recommendation from the Joint External Evaluation of the US mission report for a formal One Health strategy that encompasses the federal, state and local levels, as well as ongoing work that the World Bank and EcoHealth Alliance are conducting related to economic dimensions of One Health.

### **PMAC Side Event – January 29-30, 2018**

- We have worked with several of you, USAID regional office, and Wellcome to develop a concept note for the side event on “ A One Health Approach for Tackling MAR: Moving from Knowledge to Action” that we will submit to the PMAC Secretariat for consideration next week. Before we submit it, we will share the document with those of you who have volunteered to help us with this. This event will build on our successful AMR workshop and we hope that it will assess the acceptability and applicability of the priorities discussed during the workshop.
- We have very limited funding for this event which we will use to cover travel expenses for speakers, moderators and panelists. However, if you are interested in attending the conference at your own expense, please let me know and I will submit your name to the conference secretariat so you can receive an invitation.

We are very excited to see you in a couple of months. Please join me in welcoming our new members!

Best,

FORUM ON MICROBIAL THREATS  
NEW MEMBER BIOGRAPHIES

*New Members*

**Elizabeth D. Hermsen, Pharm.D., M.B.A.**, is the head of Global Antimicrobial Stewardship at Merck & Co., Inc. and an adjunct associate professor at the University of Nebraska Medical Center, Colleges of Pharmacy and Medicine, in Omaha, Nebraska. Dr. Hermsen received her Doctor of Pharmacy degree from the University of Nebraska Medical Center followed by a pharmacy practice residency at The Nebraska Medical Center, a fellowship in infectious diseases research at the University of Minnesota College of Pharmacy, and a master's degree in business administration at the University of Minnesota Carlson School of Management with an emphasis in health care industry. Following her fellowship, Dr. Hermsen developed and codirected the antimicrobial stewardship program at The Nebraska Medical Center and subsequently joined Cubist, where she created and led the Antimicrobial Stewardship Outreach Group. Now, in her role at Merck, she is responsible for creating and executing a strategy to advance antimicrobial stewardship through education, implementation, research, and advocacy focused on patient outcomes, population health, and the value of care. When leading the program at The Nebraska Medical Center, Dr. Hermsen developed a publicly-available antimicrobial stewardship website ([www.nebraskamed.com/asp](http://www.nebraskamed.com/asp)) that subsequently was featured in an article regarding top web resources for antimicrobial stewardship (Pagani L, et al. Navigating the Web in Search of Resources on Antimicrobial Stewardship in Health Care Institutions. *Clin Infect Dis.* 2009; 48:626-32.). Dr. Hermsen actively contributed to the advancement of the Society of Infectious Diseases Pharmacists (SIDP) Antimicrobial Stewardship Certificate Program during her term as SIDP president and continues to participate as a lecturer in the program. Dr. Hermsen served as a contributing member of the Antimicrobial Stewardship Knowledge & Skills Collaborative, coordinated by the Society for Healthcare Epidemiology of America; an expert panel on Antimicrobial Practice Improvement in Hospitals, coordinated by the American Society of Health-System Pharmacists; an expert panel on Hospital-based Antimicrobial Utilization Surveillance via the National Healthcare Safety Network, coordinated by the U.S. Centers for Disease Control and Prevention (CDC); the Cardinal Health Infectious Diseases Advisory Group; and an expert panel coordinated by the National Quality Forum and CDC to develop the practical tool entitled, *Antibiotic Stewardship in Acute Care: A Practical Playbook*. Dr. Hermsen is currently co-chair of the Antimicrobial Stewardship Work Package (1A) for the Innovative Medicines Institute Driving Reinvestment in Research & Development and Responsible Antibiotic Use (DRIVE-AB) initiative ([www.drive-ab.eu](http://www.drive-ab.eu)). Dr. Hermsen is a Board Certified Pharmacotherapy Specialist with added qualifications in infectious diseases. She has contributed to the profession with numerous publications in peer-reviewed journals, book contributions, and by serving as a reviewer for several professional journals. Dr. Hermsen has also given over 100 invited presentations at state, regional, national, and international meetings.

**Sally A. Miller, Ph.D.**, is a professor of plant pathology and state extension specialist for vegetable pathology at The Ohio State University, Ohio Agricultural Research and Development Center in Wooster, Ohio. She received her B. Sc. in biology from The Ohio State University (OSU), and M.S. and Ph.D. degrees in plant pathology from the University of Wisconsin-Madison. Prior to joining the Ohio State University faculty in 1991, she was a research manager at Agri-Diagnostics Associates in Cinnaminson, New Jersey, an early developer of plant disease diagnostic assays. Dr. Miller's research is focused on the development of sustainable disease management strategies for conventional and organic vegetable

*The National Academies of*  
**SCIENCES • ENGINEERING • MEDICINE**

crops, in open field and protected (greenhouse, high tunnel) production systems. This includes diagnosis and management of diseases caused by viruses, bacteria, fungi, oomycetes (water molds), and nematodes. Her lab diagnoses more than 300 vegetable samples from growers and home gardeners each year, at no cost to Ohio residents. Areas of research emphasis are bacterial disease management in processing, fresh market and hydroponic tomatoes, downy mildew and bacterial wilt in cucurbits, soilborne diseases in all vegetable crops, and food safety. Outreach efforts are directed primarily to vegetable growers and Extension educators, and include in addition to diagnostics, providing management advice through presentations, fact sheets and other printed information, and social media (websites, blogs, and Twitter). Dr. Miller has been active in long-term international agricultural development projects on integrated pest management (IPM) and plant diagnostics in South and Southeast Asia, Ukraine, West and East Africa, and Central America, primarily under the auspices of the U.S. Agency for International Development (USAID). Current USAID-funded IPM programs are underway in East Africa (Tanzania, Kenya, and Ethiopia) and South/Southeast Asia (Bangladesh, Nepal, and Cambodia). Dr. Miller has been active in the leadership of the American Phytopathological Society, serving as president in 2015-2016. She has recently been appointed to a Food and Agriculture Organization of the United Nations expert panel on antimicrobial resistance, and serves on the executive committee and two working groups for OSU's Global One Health Initiative.

**David Nabarro, B.M. B.Ch., MFPHM, FRCP**, serves as special adviser of the Secretary-General on the 2030 Agenda for Sustainable Development and Climate Change. He works with governments and other stakeholders to galvanize action on implementation of both the 2030 and Climate Action agendas. He also oversees the Secretary-General's special initiatives, including Every Woman Every Child, Global Pulse and Zero Hunger Challenge, and the United Nations (UN) Office for Partnerships. Dr. Nabarro has more than 30 years' experience of public health, nutrition, and development at country, regional, and global levels, and has held positions in nongovernmental organizations, universities, national governments and the UN system. Dr. Nabarro was born in London in 1949 and qualified as a physician in 1973. He started his career with 4 years in the United Kingdom National Health Service. He then contributed to the health and nutrition of mothers and children, through community development, and humanitarian relief programs, particularly in Iraq, South Asia, and East Africa. Dr. Nabarro has held positions in the London and Liverpool Schools of Tropical Medicine, served as chief health and population adviser to the United Kingdom Overseas Development Administration and has been a director for human development in the UK Department for International Development. Dr. Nabarro joined the UN system in 1999, leading the Roll Back Malaria initiative at the World Health Organization (WHO). He was appointed as a WHO executive director in 2001 and led WHO's Department for Health Action in Crises from 2003. Between 2005 and 2014 he served as the UN system's senior coordinator for avian and pandemic influenza. Since 2009 he has been the special representative of the UN Secretary-General for food security and nutrition, a position he continues to hold. From 2011 to 2015 he served as coordinator of the Movement to Scale Up Nutrition. From September 2014 until December 2015 he was special envoy of the UN Secretary-General on Ebola, providing strategic and policy direction for the international response.

***Ex Officio Replacements***

**Marlo Libel, M.D., M.P.H.**, is a medical epidemiologist and senior advisor with the Pandemics team at the Skoll Global Threats Fund from 2014 to date. He was regional advisor on communicable diseases with the Pan American Health Organization (PAHO) from 1985 to 2009. At the headquarters in

*The National Academies of*  
**SCIENCES • ENGINEERING • MEDICINE**

Washington D.C., Dr. Libel coordinated the revision of the International Health Regulations (2005) in the Western Hemisphere; implemented the Regional Plan for Surveillance and Control Emerging/Reemerging Infectious Diseases; coordinated the establishment Emerging Infectious Diseases surveillance networks in the Southern Cone, Amazon Basin, and Central America; and coordinated PAHO's alert and response operations. Stationed in Panama City, Panama, from 1985 to 1988, Dr. Libel was responsible for direct technical cooperation with Central American countries to improve epidemiological public health surveillance systems, epidemiology training, and disease outbreaks investigation and control.

**Carmen Maher, M.A., B.S.N., R.N.,** is a nurse officer in the U.S. Public Health Service Commissioned Corps. She is an assistant Surgeon General and is currently serving as acting assistant commissioner for counterterrorism policy and acting director of the Office of Counterterrorism and Emerging Threats in the Office of the Chief Scientist, U.S. Food and Drug Administration (FDA). In this capacity, RADM Maher is responsible for providing leadership, coordination, and oversight for FDA's national and global health security, counterterrorism, and emerging threat portfolios. She serves as FDA's point of entry on policy and planning matters concerning counterterrorism and emerging threats, and collaborates across the U.S. government and internationally on actions to advance global health security and U.S. national security. RADM Maher works in collaboration with other U.S. government agencies to define and prioritize requirements for medical countermeasures (MCMs) to respond to public health emergencies, coordinate research for evaluating MCMs, set strategies for deployment and use of MCMs, and facilitate access to MCMs during public health emergencies. RADM Maher also leads FDA's Medical Countermeasures Initiative, a key component of a broad U.S. government program to improve the United States' capacity to respond quickly and effectively to public health emergencies. RADM Maher has supported MCM and counterterrorism programs at FDA since 2006. From 2002 to 2006, she served as nurse officer and lead regulatory officer for preclinical and early clinical development of infectious disease vaccines and therapeutics at the National Institutes of Health, National Institute of Allergy and Infectious Diseases, Division of Microbiology and Infectious Diseases. RADM Maher began her nursing career in 1993 as an ensign in the U.S. Navy, assigned to the National Naval Medical Center in Bethesda, Maryland. She has more than 20 years of experience in nursing, regulatory affairs, clinical trials/medical product development, public health, and emergency response. RADM Maher earned an associate's degree and B.S.N. from the University of Puerto Rico. She earned an M.A. in National Security and Strategic Studies with highest distinction from the U.S. Naval War College in Rhode Island, and holds a Regulatory Affairs Certification in U.S. health care product regulations.

**Subject:** Meeting venue check?  
**Attachments:** Guidelines for Side Meetings - PMAC2017 (1).pdf

Hi everyone,

I was browsing through the PMAC side-meeting guideline (attached) and found two instructions that require our attention:

- The Organizer sends the meeting documents and presentation files (if any) to be uploaded on the conference website/app before Monday, 16 January 2017.
  - [This hasn't been done yet.](#)
- The Organizer meets with the PMAC Secretariat on Saturday 28 January 2017 during 15.00 – 17.00 hrs to check the meeting room.
  - [Will anybody be in the Bangkok on Saturday to check the meeting room?](#)

Thanks,

[REDACTED]

## Guidelines for Side Meetings

The Prince Mahidol Award Conference is pleased to host Side Meetings on 29-30 January 2017 at 9.00-17.30 hrs.

Please consult the details below for smooth organization of your meeting.

### Side meeting acceptance are subject to the following criteria

- The side meeting subject and content must be relevant to the focus of the conference theme/core programs
- The side meeting organized by the 2017 Conference co-hosts and contributors will be given priority
- The side meeting organized by the Conference co-hosts and contributors in the preceding years

### Logistics Criteria for the accepted side meeting

1. Dates/Times allotted for side meetings
  - Sunday 29 January 2017  
Morning session 9.00-12.30 hrs / Afternoon session 14.00-17.30 hrs / Full day session 9.00-17.30 hrs
  - Monday 30 January 2017  
Morning session 9.00-12.30 hrs / Afternoon session 14.00-17.30 hrs / Full day session 9.00-17.30 hrs
2. Side meetings should not be organized on the field trip day (31 January 2017) and during the main conference (1-3 February 2017).
3. The organizers are responsible to invite participants to attend their side-meetings based on the list of invited conference participants in the database.
4. Due to logistics limitations, the Prince Mahidol Award Conference is not able to accept the organizer or participants who are willing to organize or to attend only the side-meeting.

### Procedure for submitting side meeting request

1. The Organizer sends a brief side meeting proposal to the PMAC Secretariat by 1 October 2016.
2. For the accepted side meetings, the PMAC Secretariat sends a confirmation with a username and password for the Organizer to fill in the online side meeting request form by 1 November 2016.
3. The PMAC Secretariat provides instructions for the Organizer to access the conference participant database.
4. The Organizer directly sends out invitations to the targeted participants based on the list of invited conference participants in the database.
5. The Organizer regularly updates details of the side meeting to the PMAC Secretariat, if there are any changes from that previously provided by 23 December 2016.

6. The PMAC Secretariat assigns a room for the side meeting based on the provided expected number of participants attending the side meeting and the required room setup.\*\*
7. After the room is assigned in early January 2017, the PMAC Secretariat reserves the right to change the allotted slot to accommodate all requests as suitable as possible.
8. The Organizer sends the meeting documents and presentation files (if any) to be uploaded on the conference website/app before Monday, 16 January 2017.
9. The Organizer meets with the PMAC Secretariat on Saturday 28 January 2017 during 15.00 – 17.00 hrs to check the meeting room.

### Logistics responsible by organizers

- The Organizer brings their own laptop, meeting documents and registration sheet.
- The Organizer provides a copy of the registration sheet and presentations files (for website/App upload) to the PMAC Secretariat after the meeting.
- The Organizer provides their own meeting equipment (flip charts, marker pens, teleconference, etc).
- The Organizer will be responsible for financial support for their speakers.
- The Organizer will be responsible for transport of their meeting equipment to “Organizer Storage” room and side meeting room at the meeting venue.
- The Organizer will accept responsibility for damage or loss of their equipment during the event.

### Logistics Support by PMAC Secretariat

- Meeting room, LCD, 1 flip chart free of charge, pencil, paper  
(other requirements will be charged by the hotel)
- Central Lunch Buffet and Central Coffee Break will be provided during 29-30 January 2017
  - Central Lunch Buffet at 12.30-14.00 hrs (tentative time)
  - Central coffee break (morning) at 10.30-11.00 hrs (afternoon) at 15.00-15.30 hrs (tentative time)
- Updated list of invited participants (access from online database)
- A local staff to help with registration and to facilitate during the meeting  
(our local staff will meet the organizer at the meeting room 30 minutes before the meeting time).  
The registration desk will be set up in front of the meeting room.
- There will be a room for “Organizer Storage” for the Organizer to bring their materials for storage.  
The storage room will be available on Saturday 28 January 2017.  
The PMAC Secretariat will not be responsible for any damage or loss of materials.

For any inquiries, please contact the PMAC Secretariat at [pmaconference@mahidol.ac.th](mailto:pmaconference@mahidol.ac.th)

### Note

\*\* Room setup : Classroom, Theater, Roundtable, Boardroom

## Side Meeting Proposal Template

- Meeting title
- Organizer and contact details (Name & Email)
- Duration:
  - Half-day / 1 day / 2 days
  - Morning session 9.00-12.30 hrs
  - Afternoon session 14.00-17.30 hrs
  - Full day session 9.00-17.30 hrs
- Background
- Objectives
- Expected output/outcome
- Target participants and estimated number of participants (this will affect room allocation)
- Room set up
  - Classroom
  - Theater
  - Roundtable
  - Boardroom
  - additional requirements (if any, with charges from the hotel)
- Meeting agenda
- Closed meeting for invitees only / Open to all PMAC participants

Dear Jonna, Eddy, and [REDACTED]

Unfortunately, I'm sorry to tell you this, [REDACTED]

[REDACTED]

[REDACTED]  
[REDACTED]

I was planning to try and still go to PMAC, [REDACTED]

so I had to cancel. That said, I will be calling-in by Skype, GoTo

Meeting, or phone to do the whole of our GVP closed session and take part of all of the activities as much as possible.

I already spoke with Dennis this (your) morning. Brooke and Hongying are already aware of this and are there to help organize things. Jon, Kevin, Leilani, Carlos, Yasha, and Catherine are at PMAC from EcoHealth Alliance and will come to all activities to help represent various aspects of our GVP work, actively engage, and keep up the momentum.

Cheers,

Peter

**Subject:** TIME video previously developed

Hi Tony,

Peter and I are on a call going over GVP press. We discussed that you all had been working with TIME, which is fantastic. TIME had previously developed a video piece that I'm not sure ever aired, but they may already have what they need from a video perspective if they wanted to use it as a companion online piece. Our understanding before was that they were waiting for an optimal time/reason to release what they had prepared. They may not want that exact, produced piece, but it would provide them footage filmed by their own crew that could be helpful for an online presence. The Production Coordinator for that piece was Julia Lull <[Julia.Lull@time.com](mailto:Julia.Lull@time.com)>.

Good luck,  
Jonna

Hi Jonna and [REDACTED]

Please see attached the most recent set of pitch materials and FAQs. Given we have 30 minutes, it would be great to focus in particular on the following:

- Animal Health-specific pitch insert
- Updated PREDICT learnings in pitch
- FAQ about risk analytics/watch list
- Plan to discuss Working Group Engagement/Merieux Foundation

Of course happy to focus on anything else that is top of mind for you both, as well.

Thanks!  
Sam

Hi Guys,

We'll be having a call on May 1 with USAID MT (regular call), where this will be an agenda item. I'm inclined to offer an every month or even every two week brown bag for USAID EPT staff if you are agreeable and can fit the trips into your schedules. I think the items that would likely be up first would be the economic, One Health platform, and M&A-related stuff, including risk ranking and interfaces. Later in the session would be the surveillance and viral outcomes as more data come online. Probably later, we could do one or two on behavior and intervention rankings. If we do these, we should try to start soon if possible for strategic reasons. Please advise ASAP,  
Jonna

Could you please let me know by Friday if you are on board with that approach, and if so, your windows of opportunity for casual presentations to USAID on these topics.

Hi All!

As you will remember, I mentioned at the end of the P2 meeting this week that I was really impressed with so many aspects of what you are doing, and wanted to make more of an effort to get some of this information shared with our colleagues at USAID, and then a broader audience later in the year with the Smithsonian-type briefing.

As luck would have it, Ricardo circulated an article today with the catchy title "Did Deforestation cause the Ebola Outbreak?" That sparked a discussion around P2's work in Land Use Change, the preliminary analysis on the Deep Forest Project, and thoughts around Land Use Change being a focus of the "deep dive" for the behavioral work.

And just like that.....people are incredibly interested to hear P2's thoughts and preliminary analysis and plans. Andrew and I agree that you guys can decide what is ready for prime time and what is not, but there is an interest for a briefing in DC at USAID on this specific topic. Consider it more like a brown bag than a full court press event.

Please let me know if this is doable, and who I should coordinate with on your team to make it happen. This request is not intended to CREATE work. It is a more casual discussion about your work, progress, and plans.

Thanks

**Subject:** [onehealthnextgen] EHA's inputs to the work plans for INDOHUN, MyOHUN, an THOHUN

Dear Kevin,

Thank you for all your inputs to the work plans of the three countries. I would like to express our thoughts to your comments below.

- What you called an extended internship seems to be similar to SEA OHUN fellowship program (<https://www.seaohun.org/fellowship>). EHA local offices in SEA may consider to be one of the host organizations.
- Proposal writing. Would there be any prerequisite? It will be helpful if you could share what we can accomplish with half a day versus two-day workshops. At the regional level, I don't think we will be able to have the two-day workshop in Y1 but half a day is possible. If you have existing agenda/concept note of what EHA did in the past, kindly share for our consideration.
- SEA OHUN hopes to be one of the development partners of the ASEAN Health Cluster 2: Responding to all hazards and emerging threats. I am waiting for an official message of the last meeting that SEA OHUN presented on our work and possible areas of collaboration. We can propose to incorporate the work of 'Review existing data and fill gaps to map national and regional One Health coordinating bodies'. We can discuss more on this.
- PPP. We look forward to hearing and learning more about the PPP plan. We are not good at this and still find ways how to engage with the private sector. Currently, SEA OHUN and THOHUN has engaged with Pfizer on raising awareness of AMR in human. The relationship only started in July 2019 and we are still discussing details of activities.
- In all the OHUNs, engagement with Environmental/Forestry/Wildlife has been limited, and we welcome your suggestions and inputs how to engage these fields.

Lastly, I am not a part of THOHUN. Hence, you may like to exclude me when addressing THOHUN. I am Thai, but my engagement is at the regional level and SEA OHUN represents voices of all the countries (universities) at regional/global meetings.

Best regards,

Pat
