**Location:** REDACTED

**Start:** 04/30/2020 5:00:00 PM (-07:00)

**End:** 04/30/2020 6:00:00 PM (-07:00)

**Organizer:** sfh9@georgetown.edu (sfh9@georgetown.edu)

**Required Attendees:** alexandrager@atahealthstrategies.com;tgoldstein@ucdavis.edu;Peter Daszak REDACTED ;f.castillo@berkeley.edu;jkmazet@ucdavis.edu;andre@ecohealthalliance.org;onehealthnexus@ucdavis.edu;sfh9@georgetown.edu;karesh@ecohealthalliance.org

Dear Dr. Bui Tran Anh Dao,  
We are delighted that you volunteered to participate in an interview. I will be sending the interview questions shortly, for your reference. As a reminder, this interview is not for research purposes. This interview is part of a larger data gathering exercise by the global team, which is designed to summarize the perspectives of SEAOHUN Secretariat Staff, OHUN country coordinators, and Executive and Foundation Board members on the strengths, weaknesses, opportunities and threats ("SWOT") facing SEAOHUN's organizational sustainability. The purpose is to inform the SEAOHUN Business Plan that is required for submission to USAID at the end of Year 1 of the OHW-NG initiative. For that reason, I hope you feel very comfortable throughout the interview and ask questions or add comments as you would like.  
With your permission, I'd like to record the interview, so myself and a global team member can transcribe the comments and make sure we don't miss anything. This recording will be maintained in my Zoom account, and can be viewed only by select global team members working on this activity. We will consolidate findings from this exercise in a presentation for SEAOHUN Secretariat staff and OHUNs in the coming weeks, to assist us to prioritize activities to build SEAOHUN's organizational capacity over Year 1. We will not attribute any comments to you as an individual, but rather to "a SEAOHUN Board member". So we hope you will speak comfortably and candidly.  
Please contact me with any questions.

Sincerely,  
Sam Halabi is inviting you to a scheduled Zoom meeting.

Dear Scientific Programme Committee members,

Many thanks again for the valuable feedback you provided after our latest TC on 25 July. I have now assembled all your comments and would like to suggest that we set up a telephone conference on October 6th to review the input and to finalize the programme schedule. I'll provide a more detailed meeting agenda closer to the date, but may I ask to confirm your availabilities as soon as possible? The TC will start at 16:00 CET (10am EDT - 10pm AWST/SGT)

Kindest regards,

Hey Billy/David,

Inquiring on Jonna's behalf (as she's already in transit/meetings) about this side session at PMAC. Jonna is interested in if we gave them permission to use the PREDICT logo/branding? She doesn't have an issue if we gave our blessing, but just wanted to be sure.

Also, do we know if any PREDICT-people are presenting?

Thanks!

[No Images? Click here](#)

New spaces open - still time left to reserve!

## Operationalizing One Health

### From Assessment to Action

Two weeks ago, we sent the first invite out to our upcoming interactive, USAID-sponsored side event on **"Operationalizing One Health: From Assessment to Action"** at the Prince Mahidol Award Conference (PMAC) in Bangkok, Thailand on Monday, 29 January 2018. We were thrilled by the response - the event is limited by the size of the venue, and quickly reached capacity.

Because of your interest and enthusiasm, we've reopened seats for attendance

at the event. Please RSVP at our [event registration site](#) - even if registration is closed, consider joining us on the day of the event. There may still be space available, and we look forward to seeing you there.

### **Operationalizing One Health: From Assessment to Action**

Diverse panelists will discuss One Health frameworks, capacity assessment tools, and lessons learned in the implementation of One Health to address zoonotic disease and antimicrobial resistance risks.

#### **Prince Mahidol Award Conference (PMAC) 2018 Side Event**

Monday, January 29

8:30 a.m. - 12:30 p.m.

Centara Grand Bangkok Convention Centre at CentralWorld

LOTUS 12 room on the 22nd floor

*8:30 a.m.:* Registration

*9:00 a.m.:* Setting the Stage with One Health Frameworks  
Plenary featuring Dr. Franck Berthe, World Bank

*10:15 a.m.:* One Health and Capacity Assessment Tools  
Panel discussion with WHO, FAO, OIE, USAID's One Health Workforce (OHW), and USAID's P&R

*11:15 a.m.:* One Health Planning Tools  
Panel discussion with USAID, CDC, WHO, the Toward a Safer World Network, and the Royal Thai Government

*12:15 p.m.:* Ensuring Ownership & Accountability  
Closing Remarks by P&R and PREDICT

**Attachments:** OHAC call 9 notes FINAL.docx

Dear One Health Action Collaborative,

Thank you for a productive call last week! Please see call notes attached for your review.

As I mentioned on the call, the next OHAC meeting will be in-person during the forum's closed session on **Wednesday, June 13 from 4-5pm ET** in Washington DC. For members who are unavailable to meet in-person, a teleconference line will be open. If you are an external (non-forum) member, please let me know whether you will join in-person, by teleconference, or not join at all.

Also, as Eri and the workforce subcommittee continue to refine their literature search and survey for the One Health workforce deliverable, please send more suggestions for literature from the medical and environmental fields that present information about professionals working in One Health, as well as ideas for employers to contact for the survey once it is developed.

As always, if you have any questions or concerns, please feel free to get in touch with me.

Best regards,  
Ayano

**Subject:** Re: OHAC Core Competencies paper published!

Hi team, congratulations on your publication!

My only comment, as the one plant health specialist to weigh in on the paper, is that the term 'Plant biology' in the gaps section is uninformative and non sequitur. The entire discussion piece deals with health. Health of humans, health of animals, food safety for human health, etc. I suggested that you use 'Plant Health', which is the terminology that my colleagues would identify with and the most relevant to the One Health topic area. In the plant health disciplines there are many important interfaces with one health, including: global surveillance, validation of diagnostic assays, epidemiological risk assessments, advanced genomic and

transcriptomic diagnostic methods, and detection technologies. Plant health practitioners use biological and chemical treatments that are measured by dose response and LD50, and are concerned with AMR in crops treated with antibiotics for control of bacterial disease.

A little voice in the wilderness,

Kitty

Dear One Health Action Collaborative,

I am delighted to inform you that the National Academy of Medicine (NAM) Perspectives has published the paper on "Core Competencies in One Health Education: What Are We Missing"! You may [read and download the paper here](#) on the NAM Perspectives website (see also attached PDF). Congratulations to [REDACTED] Jenn, Gail, George, Dave, Mary, and Jonna for publishing a fantastic paper.

To promote the paper, staff have created an "outreach packet" that we highly encourage all of you to use (see attached). The packet includes sample tweets, sample newsletter and Facebook posts, and a suite of

graphics that you'd be able to copy/paste to your own social media posts, or have your communications team at your respective departments/institutions use for their social media posts, press releases, blogs, or other platforms.

The other good news is that the late breaker abstract has been accepted for an oral presentation at the International One Health Congress in Saskatoon this month. Eri will provide a 10-minute presentation in one of the parallel sessions during the conference.

Finally, staff will disseminate the paper to National Academies listservs, external individuals who helped develop the manuscript (e.g., peer reviewers), and One Health and other relevant health platforms and initiatives. If you have any other ideas for dissemination channels, please let me know.

I will be in touch soon with meeting materials for next week's OHAC meeting on the 13<sup>th</sup>!

Best regards,  
Ayano

## **Concept for “The Impact of Plant Health on Human Health and Food Security and Safety: A One Health Perspective”**

Plant health is critical for ensuring sufficient, safe, and nutritious food—which is necessary to fostering healthy populations and productive societies. Plants constitute over 80% of the food that people eat and are key to the sustainable development of agriculture responsible for nourishing the continuously growing global population. However, while plant diseases and pests have continued to directly and indirectly influence human health, they have been under-recognized as an integral contributor to human health outcomes. As the world faces increasing challenges to food security and safety from climate change and other global threats, plant-associated issues are likely to continue unabated and potentially be exacerbated, unless effective management tactics are introduced and widely adopted.

With the upcoming United Nations Year of Plant Health in 2020, this analytic essay—through three case studies—illuminates the variety of mechanisms, interactions, and consequences in which plant-related pathogens threaten human health through food plants. The cases also examine challenges and opportunities for mitigating adverse health outcomes emerging from these complex interrelationships. Specifically, the first case study explores the pathways and effects of contamination of staple crops such as maize with aflatoxin, produced by a common environmental fungus; this contamination could potentially cause acute liver disease and other chronic illnesses, as exemplified by the 2004 outbreak of aflatoxicosis in Kenya. The second case study explores how Shiga toxin-producing *E.coli* can contaminate produce through animal feces and other mechanisms, causing severe illnesses such as kidney failure, as recently experienced in the *E.coli* outbreak of romaine lettuce in the United States and Canada in 2018-2019. The final case study examines the use of pesticides in plant agriculture and their contributions to antimicrobial resistance as well as affecting birth outcomes and other health issues if misused and unregulated, as shown in the case of Suriname. Drawing from the three case studies, the authors conclude with recommendations for mitigating health and societal consequences arising from these complex interrelationships and emphasize the importance of applying a multidisciplinary and multisectoral One Health approach to enhance public health.

Jonna Mazet, Kevin Anderson, Casey Barton Behravesh, Peter Daszak, Jennifer Gardy, Gail Hansen, Elizabeth Hermsen, Jim Hughes, Sally Miller, Liz Mumford, George Poste, and Dave Rizzo (*Tentative/Absent*: Lonnie King, Maureen Lichtveld, and Mary Wilson)

STAFF:

Ayano Ogawa, Ceci Mundaca Shah, Anh Tran, and Natalie Lubin (National Academies)

**MEETING MATERIALS**

- Deliverable on Food Safety and Plant Health: Concept for AJPH
- Proceedings for U.S. One Health Zoonotic Disease Prioritization Workshop: [click here for PDF](#)
- World One Health Congress side event proposed concept note
- Snapshot of OHAC Members 2018-2019
- Forum on Microbial Threats' Workshop Agenda on the Convergence of Infectious Diseases and NCDs. [Register here](#) for the webcast if you are a non-forum member and want to tune in!

**AGENDA ITEMS**

1. Welcome (Ayano)
2. One Health workers deliverable (Jonna)
  - Update on progress of analysis and proposal for two papers
  - Discuss journals being considered
3. Food safety deliverable (Sally and Dave)
  - Update on scope (see attached concept)
  - Progress of draft paper and tentative timeline
4. New One Health reports (Casey)
  - Update on follow-on activities from the U.S. One Health Zoonotic Disease Prioritization Workshop (see proceedings link above)
  - Update on OIE Scientific and Technical Review on One Health to be released in June 2019
5. World One Health Congress 2020 side event (Jonna)
  - Discuss proposed concept note
6. Membership (Jonna)
  - Discuss current membership expertise and gaps (see attached), and identify potential new members to invite this summer/fall
7. Other brief updates (Ayano)
  - Next Forum workshop – “Breaking Down Silos: The Convergence of Infectious Diseases and Noncommunicable Diseases,” June 11-12, 2019 at The Rockefeller Foundation in NYC
8. Next steps and action items (Ayano)
  - Call #17 (during Forum meeting in NYC): Tuesday, June 11 at 11am-12pm ET

# Snapshot of Current One Health Action Collaborative Membership 2018-2019

**TOTAL: 15 MEMBERS**

## Forum Members (7)

**Jonna A. K. Mazet, D.V.M., Ph.D., M.P.V.M. (Chair)**  
University of California, Davis

**Kevin Anderson, Ph.D.**  
U.S. Department of Homeland Security

**Peter Daszak, Ph.D.**  
EcoHealth Alliance

**Jennifer L. Gardy, Ph.D.**  
University of British Columbia, Canada

**Elizabeth D. Hermsen, Pharm.D., M.B.A.**  
Merck & Co., Inc.

**Sally A. Miller, Ph.D.**  
The Ohio State University

**Mary E. Wilson, M.D.**  
University of California, San Francisco

## External Stakeholders (8)

**Casey Barton Behravesh, D.V.M., Dr.P.H., M.S.**  
CDC

**Gail R. Hansen, D.V.M., M.P.H.**  
Hansen Consulting, LLC

**James M. Hughes, M.D.**  
Emory University

**Lonnie J. King, D.V.M., M.S., M.P.A.**  
Ohio State University

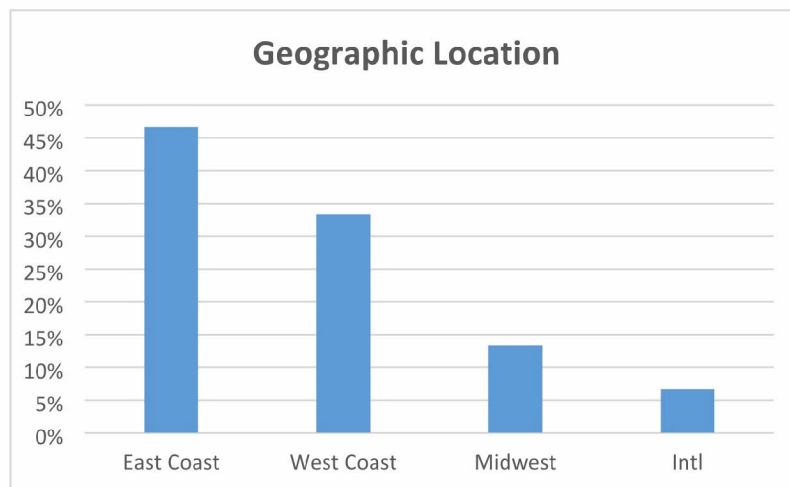

**Maureen Lichtveld, M.D., M.P.H.**  
Tulane University

**Elizabeth Mumford, D.V.M., M.S.**  
Independent Consultant, Geneva

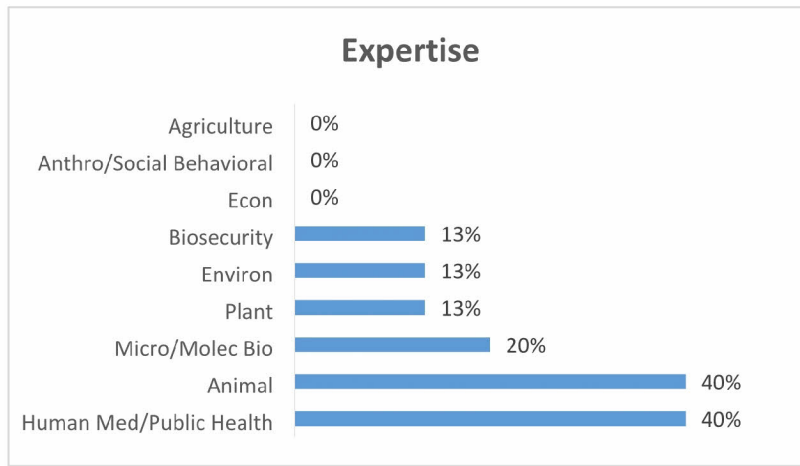

**George H. Poste, D.V.M., Ph.D.**  
Arizona State University

**David M. Rizzo, Ph.D.**  
University of California, Davis

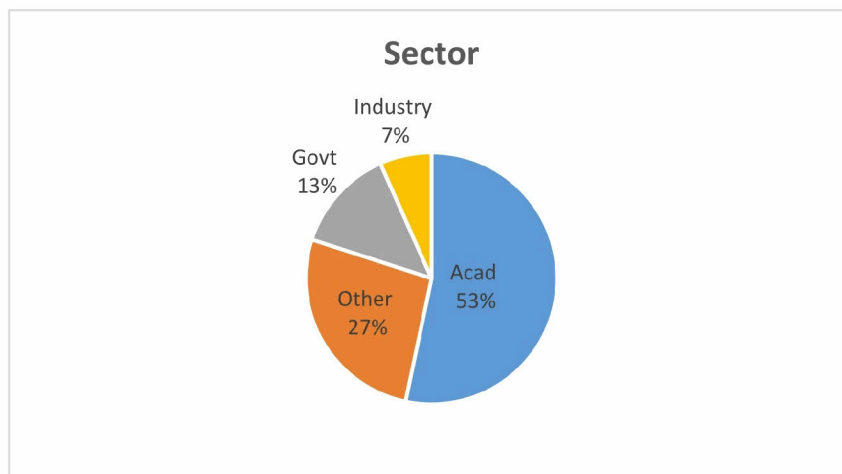

## MEMBERSHIP BREAKDOWN: By Location, Expertise, Sector, and Gender

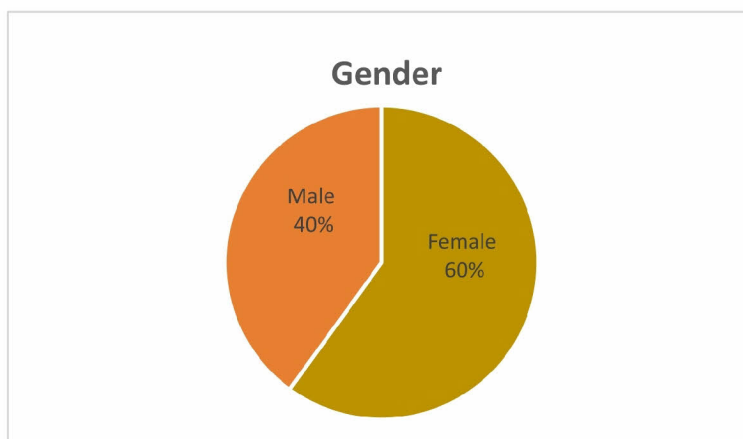

**Low representation:** International and Midwest

**Missing Representation:** Agriculture, Anthropology/Social and Behavioral Sciences, and Economics

**Low Representation:** Industry and Gov't

**Lower Representation:** Fewer males

## DISCUSSION

- With these gaps in mind, to what extent do we want to add new members? Or decrease the size?
- Any suggestions for people to add to OHAC starting this summer/fall 2019?

**Subject:** Request for videos from WDA members--you!  
**Importance:** High

Dear all

If you are on this list, you are likely wildlife folks and members of WDA. We are putting together a promotional video that we can use to inform the general public, donors and others about our member's activities. I have been receiving many, but I am lacking videos from agency folks. I would love a few more videos from folks who do work with aquatic species.

We will end up with a 1-2 min video, so we will be cutting various submitted videos.

Any format will do

You can share it with me on Dropbox, Google Drive or similar sites, or email it.

We also take photos

Time is running out, we are starting production soon!

Take care

sonia

**Subject:** American College of Zoological Medicine survey 2.0 for wildlife veterinarians - request for participation

Colleagues,

The American College of Zoological Medicine is conducting a survey of wildlife veterinarians to try to determine how to encourage more wildlife veterinarians to consider sitting for the certification examination. You participated in Survey 1.0 and were invited to participate in Survey 2.0. Just wanted to remind you about Survey 2.0 and to request that you complete the survey soon as the survey will be closed on May 24, 2019. Thanks for your help in trying to get the ACZM more relevance within the wildlife health community. Thank you in advance for your participation - your thoughts and opinions are valuable to the ACZM.

Here is the link: <https://www.surveymonkey.com/r/DGKCQZF>

Mark Drew  
ACZM Wildlife Ad hoc Committee  
President, AAWV

**Attachments:** OHW-NG Y1 COVID-19 Assistance Template.docx

Hi everyone,

As we discussed on the call today, we are trying to capture positive stories of individuals/groups involved in the COVID-19 response that may fall outside the scope of our workplan or traditional OHW-NG activities. Please see attached for the story template that we would like to use to capture these "success stories".

Please pass around to your colleagues as you see appropriate. This is an ongoing effort so no official deadline, but if you would like the story to be highlighted in our Semi-Annual Report, please send back to me no later than **April 17<sup>th</sup>**. Any questions, please do not hesitate.

Stay safe and healthy,

Corina

**Subject:** [onehealthnextgen] Reminder: OHW-NG Executive Board Call March 25th, 11am PST/2pm EST

Hi all,

Not sure what happened with the first email – my apologies. Please see below and attached for tomorrow’s OHW-NG EB call.

Thanks  
Corina

## One Health Workforce – Next Generation (OHW-NG) COVID-19 ASSISTANCE PROFILE

During these tumultuous and every-changing times of COVID-19, we are continuously impressed with the dedication to which the OHW-NG team has continued to operate. We appreciate that beyond daily project activities, many of you are personally dedicating time and energy to the COVID-19 response, through raising awareness in your communities, donating time to help out those who are less able, or assisting in laboratory or healthcare activities. We would like to capture these efforts and highlight them in our Networks. We could all use some positivity right now and hopefully it will spur others to join the effort. If you would like to share your experiences and efforts, please tell us a little about yourself and what you have been doing to raise awareness and flatten the curve.

Share photos/figures as separate files and annotate in text where photos/figures should be placed

**Tag Line (Max 25 words):**

**Name, Background and Affiliation (Secretariat/Institution/Country/etc.):**

**Story (200- 400 words):** *please include details on the following 5 W's: 1) **Who**-Who was involved (i.e. in organizing and implementation as well as the beneficiaries); 2) **What** -What actions were taken that led to the success?; 3) **When** -When were the actions taken that lead to the success?; 4) **Where** -Where did the success occur?; 5) **So What?** -Why is this success important? What was learned and what were the positive impacts?*

*Photographs bring a story to life, so please include a good quality photo that depicts action or of yourself. Please include photos in .jpg, .bmp, or .gif format with at least 300 dpi (dots per inch) resolution. Please include the photographer's name, organization, and caption for the photo.*
