Re: Hardeman v. Monsanto Co., No. 3:16-cv-00525-VC

Dear Judge Chhabria:

Consistent with the Court's ruling on Plaintiffs' motion *in limine* No. 2, *see* PTO 81 at 5, Monsanto respectfully requests leave to ask the following questions of its case-specific experts, Dr. Daniel Arber and Dr. Alexandra Levine. Monsanto expects that the answers to all of these questions will be brief.

Dr. Arber:

- What, if any, role does Roundup play in your clinical practice as a pathologist?

Dr. Levine:

- Have you reviewed the epidemiological literature regarding Roundup and NHL?
- Have you also reviewed Dr. Mucci's report?
- Are you relying on Dr. Mucci's explanation of the epidemiology to the jury so you can focus on a discussion of Mr. Hardeman?
- Is Dr. Mucci's analysis consistent with your own professional and clinical experience as a practicing hematologist-oncologist?
- Based on your clinical practice, do you have an opinion on whether there is an association between Roundup and NHL?
- What, if any, opinion do you have on whether Roundup is a risk factor for NHL?

- What, if any, opinion do you have on whether Roundup can cause NHL?.

Respectfully submitted,
