Clara,

Please find below the following 4 attachments that I mentioned yesterday:

critique.doc - Monsanto's internal critique of Hardell article (John Acquavella is our epidemiology expert at Monsanto)

letter.doc - Monsanto's letter to the editor of journal of Hardell article - this letter was published in the Cancer journal August 15, 1999 vol. 86 No. 4 pages 729-730

zz.doc - Mark R. Cullen, MD, Professor of Medicine and Epidemiology at Yale University School of Medicine - his review on the Non-hodgkins lymphoman as well as another paper by them on hairy cell leukemia which also mentions glyphosate.

Pesticid.doc - Drs. [Redacted] and [Redacted] both adjunct professors at Harvard University and renowned epidemiologists in Sweden and Greece, respectively - their review of the NHL paper

Please don't hesitate to contact me or John Acquavella if you need additional information or other help.

Regards,

Donna
