Donna,

I have just a few comments on pages 1, 2 and 25. I will leave the 'nuts & bolts' critique of the epidemiology to John and Tom. I read most of it, but I'm not qualified to offer good suggestions.

Subject: Draft glyphosate meta-analysis manuscript

Dear Donna,

Attached please find our draft manuscript describing our meta-analysis of the association between glyphosate exposure and risk of lymphohematopoietic cancers. We look forward to receiving feedback on this draft.

Please let us know if you have any questions.

Best wishes,

Ellen
