Carol,

Hope you and your family are doing well!

Back in September when we found out IARC was going to review glyphosate I contacted John immediately as he was always concerned about IARC reviewing glyphosate. John said he was retiring from Amgen on November 1 and was planning on doing consulting work. We got a contract in place with him as soon as we could and he has been advising since the beginning.

Here is his contact information:

[Redacted]

Email: [Redacted]

Regards,

Donna

Carol-

CC'd Donna Farmer as she will have John's contact info.... I need to get it myself.

Life under 2a is a lot like life before 2a thus far. Lots of activity responding as you can imagine, but not out of the ordinary compared to other big stories like [Redacted]

I suspect the real fun is just getting started- and that will be all of the school districts, park boards, condo association, homeowners associations, highway departments, golf course managers, etc...etc...

As your Subject line suggests... the main story is not so bad, but the Etc. will get you every time.... 😊

Dan

Dan – how is life under 2a?

Lots of chatter from Clare these days. Do we need to talk offline. We should probably review our March ideas sometime....when we have time (ha).

Easy question...I want to reach out to John Acquavella. Do you have his new contact info?

Warmly,

Carol
