JD,

I just spoke with Kelly – here’s our final draft plan. I’m also attaching a redline of your awesome draft to help incorporate the employee communications plan to your draft (if you agree with their recommendations that is). Plus a copy of the original employee comms plan. I asked about how the third party web page would be constructed. Attached is the proposed webpage content for now. My suggestion was to create a sidebar/ right frame that would house all of the third-party and Monsanto IARC content once it becomes available. This may be different than two stand-alone pages. I’m interested in your preferred approach (and page title suggestions). Thank you. I’m going to be on and offline all weekend so just call my mobile [Redacted] since I’ll be at soccer fields, tennis courts, etc. Reachable but not always online for the duration.

Kim
