Hey David,

That's a tough one. Why don't you send them to us and I'll bring it up at the next planning meeting. I'd like to acknowledge your participation in those if possible, but the group is wanting to be clear about 'groundrules' for fairness. Along those lines, we probably won't be including abstracts, but thanks for sending those along!

Subject: Publication list

Hi All,

We are in planning stages now for the next Regulatory Sciences Review Meeting, which will be held Oct 2nd.

As part of the meeting, we would like to include recognition of publications. Since we haven't done this in the Science Review meeting previously, we're going to include mention of publications from March 2012 (the date of the first Science Review Meeting) until August 2013.

To be sure that I don't inadvertently overlook anyone, will you please send the citation for any publications you had during this time period to Wendy?

Thank you.

Regards,

Shawna
