**Subject:** Titles for Constellation of Glyphosate papers

Ashley:

As you coordinate the revision of the five glyphosate papers please give consideration to revising the titles. One option is to use a single master title like "Review of Potential Carcinogenicity of Glyphosate:" and assign the five papers sub- titles like ---- I. Overview and Summary Conclusions, II. Exposure Assessment, III. Animal Evidence , IV. Epidemiological Evidence and V. Mechanistic Evidence. This would parallel the IARC structure which is being critiqued. The current titles have been confusing to some reviewers.

As I have noted earlier, many of the reviewers of the 5 papers have called for greater clarity in presenting the approach used and conclusions drawn by IARC and then the comparison and contrasting of the approach and conclusions of the InterTek organized reviews.

Best regards,  
Roger
